Notes

- (a) These figures are based on the origin and destination of passengers as reported to UK airport authorities by UK and foreign airlines. Operators are required to report in respect of each service operated, the point of uplift and discharge of each passenger. The figures may not reflect a passenger's entire air journey: the point at which a passenger disembarks from a particular service may not represent his ultimate destination.
- (b) Although operators are asked to report all passenger journeys, in some cases the actual point of uplift or discharge is not recorded. In such cases all passengers are allocated to the end point of the service, ie the aircraft's origin or ultimate destination. The figures in this table include all passengers carried on scheduled and chartered services excluding those carried on aircraft chartered by Government Departments.
- (c) To avoid duplication passengers are only counted at one reporting airport on the route. In the case of services at Heathrow, Gatwick, Stansted, Luton, Southend and London City, the London airports' reports are always used. In the case of routes not involving a London airport the passengers are reported by the lower alphabetic airport. Exceptionally where one airport of the pair is not a full reporting airport, traffic is derived from the other airports information, irrespective of alphabetic order.
- (d) For the purposes of this table, change of gauge passengers are treated as terminal and are included.
5. Excludes passengers at Barrow, Carlisle, Isles of Scilly (St.Mary's), Metro London Heliport, Penzance, Plymouth, Shoreham, and Tresco.
- (f) In order to preserve market analysis all identifiable diversions are reallocated to the point of intended operation.
