

Proposed Changes to CAA Scheme of Charges

Operating Licences, Air Transport Licences & Scarce Capacity Allocation Certificates Scheme Enclosure

1 INTRODUCTION

- 1.1 Details of revisions proposed to apply from 1 April 2013 are shown in red within this Enclosure. Current charges are shown in brackets where direct comparison is possible.

2 CHARGES

2.1 On making application to the CAA for an Operating Licence or an Air Transport Licence, the applicant shall pay to the CAA the relevant charge as specified in Table 1:

Table 1:

Fixed Charges	
	Charge
Application for, or a licence resubmitted for, approval of a Type A Operating Licence/Air Transport Licence ¹	£15,000 (£10,350)
Application for, or a licence resubmitted for, approval of a Type B Operating Licence ²	£1,800 (£1,550)
Exemption to allow the use of UK registered aircraft in the UK by non-UK carriers	£108 (£105)
Specific Air Travel Organisers' Licensing Exemption	£105 (£105)

1. Provided that where the cost of the approval process exceeds the fee paid, the applicant shall pay a charge of such an amount as may be decided by the CAA having regard to the amount of the new information in the business plan to be analysed.
2. In the case of Type B applicants or licence holders, where complex ownership and control analysis is required, the CAA reserves the right to charge an additional assessment fee of up to **£15,000** (£10,350). The CAA will consult with the applicant or licence holder before an additional fee is charged.

2.2 Except as set out in paragraph 2.3 below, variable charges are payable **by the holder of the licence** to the CAA in respect of each month during which an Operating Licence or an Air Transport Licence is in force. These are calculated on the basis of passenger and tonne kilometres flown pursuant to the licence during that period, multiplied by the rate applicable to each category. The charge for each month will be the sum of the two amounts based on the rates as specified in Table 2:

Table 2:

Variable Charges	
(1) per 1000 passenger-kilometres flown pursuant to the licence	(2) per 1000 cargo tonne-kilometres flown pursuant to the licence
Applicable rate: 0.79p (0.89p)	Applicable rate: 3.95p (4.44p)

2.3 No variable charge is payable:

- a) in respect of any flight of a description specified in an Instrument made under Section 64(2)(a) of the Civil Aviation Act 1982 and in force in accordance with Section 64(3) of that Act, except where the flight is between points both of which are within the area consisting of the European Economic Area, the Channel Islands and the Isle of Man; or
- b) in respect of any flight on which no passengers or cargo are carried for remuneration.

2.4 Where the holder of an Air Transport Licence or an Operating Licence (hereinafter referred to as the "contracting carrier") enters into an agreement with another aircraft operator (hereinafter referred to as the "actual carrier") under which the actual carrier provides substitute flights for the contracting carrier, passengers and tonne kilometres

flown by the actual carrier in the course of operating such substitute flights shall, for purposes of this Scheme, be deemed to be flown pursuant to the contracting carrier's licence.

- 2.5 Where the holder of an Air Transport Licence or an Operating Licence operates aircraft registered outside the United Kingdom under the authority of a permit granted by the Secretary of State (under Article 223 of the Air Navigation Order 2009) which includes a condition that the holder shall comply with some or all of the terms of the licence, passenger and tonne kilometres flown pursuant to that permit shall, for purposes of this Scheme, be deemed to be passenger and tonne kilometres flown pursuant to the licence.
- 2.6 Charges under paragraphs 2.1 and 2.2 above are payable upon demand being made by the CAA. The CAA may require the holder of a licence to pay a deposit against charges due on the last day of each month which will be calculated:
- a) by reference to the number of passenger and tonne-kilometres flown pursuant to the licence during the corresponding month of the previous year;
 - b) where no passenger and tonne kilometres were flown pursuant to the licence during the corresponding month of the previous year, an amount based on the passenger and tonne kilometres estimated by the CAA to have been flown by the licence holder during the month; or
 - c) where, in the opinion of the CAA, the number of passenger and tonne-kilometres flown pursuant to the licence will be significantly different from the corresponding month of the previous year, an amount based on the passenger and tonne-kilometres estimated by the CAA to have been flown by the licence holder during the month.
- 2.7 A charge of **£105** (£105) is payable on making an application for an Instrument pursuant to Section 64(2)(b) (including Section 64(2)(b) as applied in relation to Route Licences by Section 69A) of the Civil Aviation Act 1982.
- 2.8 A charge of **£15,000** (£15,000) is payable on making an application for the grant or variation of a Scarce Capacity Allocation Certificate pursuant to Regulation 10 of The Civil Aviation (Allocation of Scarce Capacity) Regulations 2007.¹

3 COPIES OF DOCUMENTS

Upon application being made for the issue by the CAA of a copy or replacement of a document referred to in this Scheme, the applicant shall pay a charge of **£20** (£20).

(This Note is not part of the Scheme)

1. Where the costs incurred by the CAA in relation to an application are significantly less than the application charge, the CAA would normally, in accordance with its discretion under Section 11(5) of the Civil Aviation Act 1982, refund the difference. This would be assessed on a case-by-case basis. Such a refund may be appropriate where, for example, there is no need for the CAA to programme a public hearing relating to the application.
