TYPE/INSTRUMENT RATING SKILL TEST FOR SINGLE AND MULTI PILOT HELICOPTER JAR-FCL AND UK LICENCES INITIAL ISSUE - APPLICATION GUIDANCE

General Guidance

This form is to be used to apply for Skill Tests for JAR and UK Licence holders for the initial issue of Type Ratings for Single pilot and Multi-pilot helicopters.

Please note that failure to submit all the required documentation may lead to a delay in processing your application.

Section 1 - Personal Details

The permanent address is the one that will appear on your licence. If you wish the licence returned to an alternative address please complete the correspondence address.

Section 2 - Application

Section 3 - Examiner's Notification of Completion

Section 4 - CAA use only

Section 5 - CERTIFICATE OF ENGLISH LANGUAGE PROFICIENCY ASSESSMENT

ICAO has published a standard that requires flight crew of aircraft using radiotelephony to be proficient in the language used for communication. All pilots must obtain an assessment of their Language Proficiency to at least Level 4; in the UK, this will be in English. This Standard became obligatory from 05 March 2008

Where an applicant uses English as their primary language for communication and demonstrates that they are fluent, they may be assessed ICAO Level 6 (Expert). Examiners may certify that an applicant is fluent in the use of English for radiotelephony by placing a tick in the **Yes** box in Section 7. Where a candidate is considered less than fluent, or in the case of candidates whose primary language is not English and if there is any doubt regarding their fluency in English, the examiner should place a tick in the **No** box. Applicants who are not assessed as Level 6 may obtain the necessary assessment from an accredited language assessment centre. Examiners are only required to identify fluency, and should not attempt to assess levels of fluency. If there is any doubt whatsoever the tick should be placed in the **No** box.

Further details are published on the Personnel Licensing Department Website under ICAO Language Proficiency

Section 6 - Declaration of Application

Section 7 - Payment Methods

Please complete Payment form SRG\1187.

Section 8 - Submission Instructions

As detailed

Part Two - SPH/MPH Type*/Instrument Rating Skill Test Schedule* - Examiners Record

Skill Test Profile is to be in accordance with Appendix 1 to JAR-FCL 2.240 and 2.295.

After the debrief complete both parts of the form.

- For a Pass at a UK CAA Approved Training Organisation give Part 1 and a Course Completion Certificate to the applicant to send to Personnel Licensing Department.
- For a Pass at a non-UK CAA Approved Training Organisation give Part 1 and Part 3 to the applicant to send to Personnel Licensing Department.
- For a Partial Pass give the form to the applicant to present for the next attempt.
- For a Fail complete a SRG\1159 (FCL 252) Notification of Failure, ask the applicant to sign it. Give a copy of the form to the applicant and send the original to Personnel Licensing Department with this form.

Note i The examiner is required to exercise judgement in conducting the flight check/test given particular circumstances or aircraft types. The non-mandatory items give the examiner room to adjust the flight check/test to suit operational conditions or helicopter type. Those items that are not annotated M (for mandatory) should not be taken to mean that the item must always be ignored. It is not satisfactory simply to fly the basic minimum profile, without assessing the pilot's ability to operate those aircraft systems that are necessary for the safe operation of the aircraft type in both normal and abnormal conditions.

Note ii If not covered in Part 5.

Note iii In accordance with Standards Document 28 this shall be flown as an uncoupled approach with or without flight director.

Part Three - Course Completion Certificate - For Completion by JAR Type Rating Training Organisations (TRTO) not Approved by UK CAA

Further documentation will be required in this case which is stated below:

- Copy of Skill Test Examiner's JAR approval certificate if not approved by the UK CAA
- Copy of TRTO's JAR approval certificate if not approved by the UK CAA
- Simulator approval if not approved by the UK CAA
- MCC Certificate or exemption letter (if applying for your first multi-pilot helicopter type)
