

don't become an airspace infringement statistic

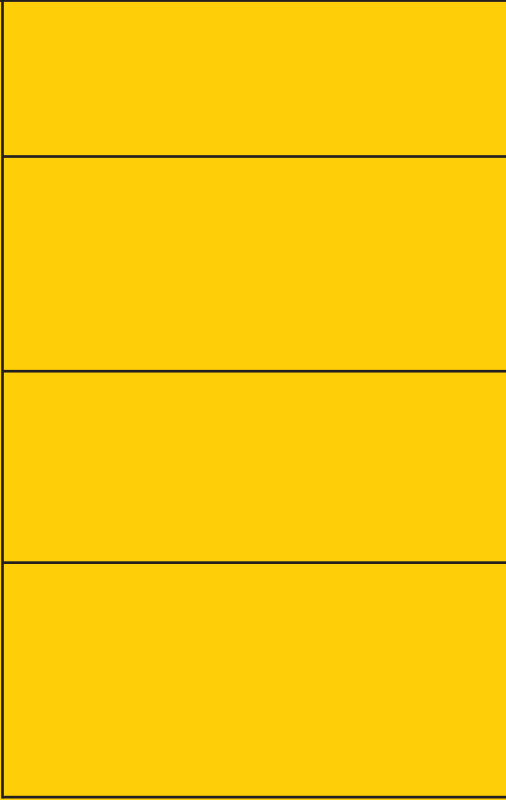

before you fly...

do a free narrow-route NOTAM check at www.ais.org.uk

check today's temporary airspace restrictions - freephone **0500 354 802**

in the air...

use your **transponder** - check the squawk, switch it **on** and set to **ALT**

use a current **chart** as well as **GPS**

unsure of your position? get an **early position fix**

always use the correct **R/T phraseology**

why take these actions? see www.flyontrack.co.uk/tips
