# Foreword

## 1 CONTENT

- 1.1 *CAA Monthly Statistics* is prepared by the Civil Aviation Authority with the co-operation of the United Kingdom airport and airline operators; some of this information is required by the Civil Aviation Act, 1971. Statistics for the Channel Islands airports are provided by the Commandant for Jersey Airport and the Office of the Lieutenant Governor for Guernsey and Alderney Airports. The assistance from all these authorities is gratefully acknowledged.
- 1.2 Some of the figures included in *CAA Monthly Statistics* are provisional only and may be revised in later issues. Figures contained in monthly and quarterly tables have not been seasonally adjusted, but figures are given, in the tables covering past years, for the most recent six months and the corresponding six months one year earlier.

## 2 CONVENTIONS

- 2.1 **Symbols and Abbreviations** The following are used throughout:

+	=	UK Customs airport
..	=	not available
—	=	nil or less than half the final digit shown
n.e.i.	=	not elsewhere included
a.t-km	=	available tonne-kilometres

A.T. Movements = Air Transport Movements

- 2.2 **Rounding of Figures** In tables where figures have been rounded to the nearest final digit, there may be an apparent slight discrepancy between the sum of the constituent items and the total as shown.

- 2.3 **Units of Measurement** Metric measurements are used throughout *CAA Monthly Statistics*.

Tonne	=	1000 kilogrammes
Tonne-kilometres	=	The product obtained by multiplying the number of tonnes carried by the distance flown measured in kilometres

Conversion factors (foot/pound system to metric system)

1 short ton (2000 lbs)	=	0.9072 tonnes
1 ton (2240 lbs)	=	1.0160 tonnes
1 statute mile (5280 feet)	=	1.6093 kilometres
1 short ton-mile	=	1.4600 tonne-kilometres

The explanations of other terms used throughout the Tables are contained in the section on Definitions immediately following the Tables.

## 3 ENQUIRIES

- 3.1 **Statistics** Enquiries concerning the information in *CAA Monthly Statistics* should be addressed, according to the subject, as follows:

Airport and Air  
Passenger Statistics: Civil Aviation Authority  
Room 209  
Shell Mex House  
Strand  
London WC2R 0DP  
Tel. 01 217 3638

Airline Statistics: Civil Aviation Authority  
Room 622  
Aviation House  
129 Kingsway  
London WC2B 6NN  
Tel. 01 405 6922 Ext. 244

**3.2 Distribution** Enquiries concerning orders and subscriptions should be addressed to:

Civil Aviation Authority  
Printing and Publication Services  
Greville House  
37 Gratton Road  
Cheltenham  
Glos GL50 2BN

**4 CIVIL AVIATION STATISTICS FOR EARLIER YEARS** Statistics for the period from January 1968 to December 1972 were published in the Civil Aviation Series of the Department of Trade & Industry's *Business Monitors*.

The series comprise:

CA. 1	<i>Airport activity</i>	(Monthly)
CA. 2	<i>Air passengers</i>	"
CA. 3	<i>Air freight &amp; mail</i>	"
CA. 4	<i>Airline operations</i>	"
CA. 5	<i>Airline operations</i>	(Quarterly)
CA. 6	<i>Domestic passenger traffic</i>	"
CA. 7	<i>Air passengers – international and cabotage</i>	"
CA. 8	<i>Airline financial statistics</i>	(Annually – 1968 to 1971 only)

Annual versions of CA. 1 to CA. 7 were also published.

# Civil Aviation Statistics—August 1974

## Activity at UK Airports

At a level of over 73,000 UK air transport movements in August 1974 were 2.8 per cent less than a year earlier. The monthly average number of movements during the period June to August was just over 72,000, 1.6 per cent less than the same period in 1973. The London area airports again reported a decline in the monthly average of air transport movements in the three-month period of 1974 compared with 1973 (5.9 per cent) whilst the rest of the UK airports continued to show a growth (2.2 per cent). Each of the London airports recorded a decline in movements; Luton 1 101 less movements (31.5 per cent decline), Southend 459 (28.0 per cent), Heathrow 452 (1.8 per cent), Gatwick 259 (3.2 per cent) and Stansted 42 (12.9 per cent). In the rest of the UK Aberdeen again reported the largest growth in movements (1 070 more per month; 137.4 per cent growth) followed by Sumburgh (739; 169.1 per cent) and Inverness (190; 43.0 per cent). Manchester reported 442 less movements per month (9.0 per cent) and Prestwick 261 (19.0 per cent). Scheduled movements per month in the period June to August 1974 were 1.1 per cent higher than a year earlier whilst charter movements declined by 10.2 per cent. The UK operators' share of scheduled movements compared with 1973 remained steady at 75.1 per cent whilst their share of charter movements increased from 82.5 per cent to 85.2 per cent.

Over 4.6 million terminal passengers used UK airports during August 1974, a decline of 8.7 per cent on August 1973. The monthly average for the period June to August 1974 at over 4.3 million was also 8.7 per cent less than a year earlier. The number of passengers handled at airports within the London area was 9.4 per cent less in August 1974 than in August 1973; the number handled at other airports in the UK dropped by 7.4 per cent. During the June to August period of 1974 the number of passengers at London area airports declined by 9.2 per cent, the largest decrease in actual passengers being at Luton with 151 256 fewer passengers per month (38.1 per cent decline) followed by Gatwick with 75 563 fewer (10.8 per cent) and Heathrow with 55 168 fewer (2.7 per cent). At airports in the rest of the UK the monthly average of 1.4 million terminal passengers was 7.8 per cent less in June to August 1974 than a year earlier, the largest decrease being at Manchester with 38 677 fewer passengers (13.1 per cent). However Aberdeen reported a growth of 16 276 more passengers (58.8 per cent) and Sumburgh and Norwich also recorded higher figures. In the

June to August period of 1974 scheduled service terminal passengers declined by 3.1 per cent whilst charter service passengers declined by 20.6 per cent. The UK operators' share of scheduled service passengers declined to 67.1 per cent and their share of charter service passengers increased to 81.6 per cent.

Of the monthly average of 4.3 million passengers who travelled by air in the period June to August 1974 3.1 million flew on international routes (10.3 per cent less than a year earlier) and 1.2 million on domestic routes (4.7 per cent less). Of the international passengers 1.9 million flew on scheduled services (2.8 per cent less than in 1973) and 1.2 million on charter services (21.7 per cent less). The USA with 13.8 per cent of the total (but 11.7 per cent less passengers) continued to be the most important scheduled market followed by France (12.4 per cent of the total but 8.6 per cent less passengers) and the Irish Republic (5.7 per cent and 9.0 per cent). Spain again was the most important charter market with 41.3 per cent of the total but 21.1 per cent less passengers. Italy and Canada were the next most important with 11.8 per cent of the total (22.3 per cent less passengers) and 7.1 per cent (17.7 per cent less) respectively.

The monthly average of nearly 700,000 passengers who travelled on domestic routes in the period June to August 1974 was 4.1 per cent less than a year earlier. Each of the main route groupings except Channel Islands services (0.8 per cent growth) and Edinburgh services (2.1 per cent growth) recorded a decline in passengers; London routes 4.8 per cent, Belfast routes 4.9 per cent, Glasgow routes 9.2 per cent and Isle of Man routes 11.9 per cent.

The volume of cargo handled at UK airports during August 1974 at over 55,000 tonnes was 1.0 per cent higher than in August 1973. The monthly average during the period June to August 1974 was over 59,000 tonnes, 4.2 per cent higher than a year earlier; London airports recorded a 3.9 per cent growth in this period. Gatwick reported the greatest increase in tonnes handled (1 246; 40.0 per cent growth) followed by Heathrow (727 tonnes; 1.9 per cent growth), Stansted (246 tonnes; 20.0 per cent growth) and Luton (64 tonnes; 36.8 per cent growth). Southend handled 520 tonnes less than in the previous year, a 22.0 per cent decline. The monthly average volume handled at other airports in the UK during the three month period was nearly 13,000 tonnes, 5.3 per cent higher than in 1973. Manchester reported 334 additional tonnes (10.2 per cent growth), Aberdeen 143 additional tonnes (148.0

per cent growth) and Bournemouth 124 additional tonnes (54.5 per cent growth). Scheduled service freight carryings were 1.1 per cent higher in the June to August period 1974 compared with 1973 while charter service carryings were 35.5 per cent higher. The UK operators' share of scheduled service carryings declined from 52.5 per cent in 1973 to 50.1 per cent in 1974 and their share of charter service carryings from 75.4 per cent to 62.7 per cent.

### **Output of UK Airlines**

The output of UK airlines for all services in August 1974 was 826 million available tonne-kilometres, a decline of over 4.5 per cent on August 1973.

The scheduled service output of nearly 537 million available tonne-kilometres was slightly higher than a year earlier. The overall load factor was 57.5 per cent compared with 55.8 per cent in August 1973. Seat

kilometres used were 64.4 per cent of those available against 63.3 per cent the previous year. Seat factors on domestic and international scheduled services were 64.9 and 64.4 per cent respectively compared with 68.2 and 62.8 per cent in August 1973.

The non-scheduled output of 289 million available tonne-kilometres in August 1974 was over 15 per cent less than in August 1973. Advance Booking Charters and Inclusive Tour Charters amounted for 57.4 and 122.0 million available tonne-kilometres respectively against 52.0 and 155.6 million a year earlier.

NOTE: Statistics of airport activity, passengers and cargo are derived from data supplied by airports. Airline statistics are based on data supplied by the airlines. Data from the two sources are not strictly comparable. There are small differences in timing and more significant differences arise because airlines are not asked to report non-revenue passengers and cargo.

**London** includes Heathrow, Gatwick and Stansted.

**S.E. England** includes Ashford, London, Luton, Lydd, Manston and Southend.

**N. England** comprises the airports in England north of a line from the Mersey to the Humber (Manchester, Liverpool, Blackpool, Newcastle, Leeds/Bradford and Tees-side).

**Glasgow** includes Prestwick and Abbotsinch.

(a) N. France comprises the airports north of the line of 49° latitude.

(b) Soviet Union and Eastern Europe includes the United Soviet Socialist Republics, Bulgaria, Czechoslovakia, Hungary, Poland, Roumania and the Eastern Zone of Germany but excluding Berlin.

(c) North Africa includes Algeria, Libya, Morocco and Tunisia.

(d) Commonwealth countries only.

(e) Commonwealth countries including Rhodesia.

(f) Middle East includes Iraq, Iran, Israel, Jordan, Lebanon, Persian Gulf States, Saudi Arabia, Sudan and the United Arab Republic.

(g) Total is in respect of charter passengers only. Passengers on scheduled flights included in London – Other Italy.

(h) Total is in respect of charter passengers only. Passengers on scheduled flights included in other routes to Italy.

The figures show the uplift and discharge of passengers at United Kingdom airports on services operated there according to their immediate destination or last point of embarkation overseas on those services. These may not, in all cases, be the origin or destination of passenger journeys; they may be places at which a journey was broken or a connection made with another air service. The figures in this table include all passengers carried on scheduled and charter services excluding those carried on aircraft chartered by Government Departments.

# Domestic Passengers by Main Routes

Table 19

Other Routes		23.8	23.3	2
TOTAL		697.7	728.3	-4

(a) Heathrow, Gatwick and Stansted.

(b) 'Glasgow' includes Prestwick and Abbotsinch.

Traffic counted in either direction.

The figures show the uplift and discharge of passengers according to the destination and origin of the route. Because of the method of collection of this information there are discrepancies between the reports received from airports on a route, particularly in the case of multi-sector flights. In most cases, however, the discrepancies are small, but in a few cases the figures include an estimated component.

<b>Non-chargeable Operations</b>					
Aircraft hired from Foreign Operators	1 776	780	738	42	43.9
Exempt Services	13 888	8 196	2 260	5 936	59.0
TOTAL	15 664	8 976	2 998	5 978	57.3
GRAND TOTAL	825 806	530 159	105 530	424 630	64.2

<sup>†</sup> Variable charges can be made against only those licences issued under the revised system that came into effect on 1 January 1974; immediate conversion to the revised system did not take place in all cases. In the table above activities that continued under old style licences have been included under the equivalent revised licence classes; for example, activity under Class A licences has been listed under Class 1 but were not in fact chargeable.

# Appendix A Definitions

## AIRPORT ACTIVITY

<b>An air transport movement</b>	is a landing or a take-off of an aircraft engaged on commercial air transport. The types of movement covered are all scheduled service movements, whether loaded or empty, and charter movements transporting passengers or cargo from one point to another. All other types of commercial flying are excluded (e.g. flights returning to the airport of take-off without landing elsewhere, empty charter positioning flights paid for by the charterer, ferrying of empty aircraft, etc.).
<b>Empty charter positioning flights</b>	are flights by chartered aircraft moving into position for transport flights or returning to base after such flights.
<b>Other commercial flights</b>	are miscellaneous non-transport charter flights (e.g. commercial delivery or ferry of empty aircraft and local flights for the Press, survey companies or farmers).
<b>Test and training flights</b>	are flights for the purpose of testing aircraft or airports, or for training flying crew or ground personnel. Also included in this category are demonstration flights by makers or sellers of aircraft and aviation equipment. Aero-club instructional flights are excluded from this category and shown under 'Aero-club'.
<b>Other non-commercial flights</b>	by air transport operators are flights by air transport operators for the sole purpose of moving their own aircraft, personnel or stores from one place to another, and air transport flights forced to return to base by bad weather, engine failure or other causes.
<b>Private flights</b>	are flights for purely private purposes by private owners or other private aircraft operators, excluding aero-club flights.
<b>Aero-club flights</b>	are flights operated by aero-club members for instruction or pleasure.
<b>Official flights</b>	are flights for official purposes by British or foreign civil Government Departments excluding air transport movements.
<b>Military flights</b>	are flights by British or foreign military personnel exclusively for military purposes.

## AIR PASSENGERS

<b>Passengers</b>	includes all revenue and non-revenue passengers on air transport flights. Air crew being carried on such flights other than as members of the aircraft's complement are classified as non-revenue passengers.
<b>Revenue passengers</b>	are those who pay 25 per cent or more of the normal applicable fare.
<b>A terminal passenger</b>	is a passenger joining or leaving the aircraft flight at the reporting airport. A passenger travelling between two reporting airports is counted twice, once at each airport.
<b>A transit passenger</b>	is a passenger who arrives at and departs from a reporting airport on the same aircraft which is transitting the airport. Each transit passenger is counted once only and not once on arrival and once on departure.

<b>International services</b>	are services flown between the United Kingdom (including Great Britain, Isle of Man, Channel Islands and Northern Ireland) and places outside.
<b>Domestic services</b>	are services flown entirely within Great Britain, Isle of Man, Channel Islands and Northern Ireland.
<b>Cabotage</b>	is traffic carried between territories of the United Kingdom other than domestic services.
<b>Scheduled services</b>	are those performed according to a published timetable, including those supplementary thereto, and open to use by members of the public.
<b>Non-scheduled services</b>	include all air transport flights other than scheduled services.
<b>Charter services</b>	are those transporting passengers or cargo for hire or reward from one point to another, other than scheduled services.

## AIR CARGO

<b>Cargo</b>	in airport statistics means the weight of cargo (including accompanied vehicles) picked up and set down by aircraft on air transport flights. Cargo in transit through the airport on the same aircraft is excluded as is mail, company stores, excess baggage and diplomatic bags picked up and set down. (See also definition below under 'Airline Operations').
<b>Tonnes</b>	are metric tonnes of 1 000 kilogrammes (2 204·62 lb).

## AIRLINE OPERATIONS

<b>Advance booking charters (ABC)</b>	Charter flights operated under Class 2 licences between the UK and designated territories overseas in respect of which an operator has sold blocks of seats to one or more licensed travel organisers for resale to passengers. Details of the sales to travel organisers have to be notified to the Civil Aviation Authority 120 days before the date of the flight; details of the sales of seats to passengers which must be on a round trip basis have to be notified to the Authority 60 days before departure.
<b>Aircraft-hour</b>	an aircraft hour is performed when an aircraft flies for one hour: aircraft hours are measured on the basis of block-to-block time.
<b>Aircraft-kilometre (Aircraft-km)</b>	An aircraft-kilometre is performed when an aircraft flies one kilometre. Aircraft-kilometres equal the sum of the products obtained by multiplying the number of flights performed on each stage flight by the stage distance measured in kilometres.
<b>Cargo</b>	in airline statistics means the weight of any property carried on an aircraft, including the weight of vehicles carried, mail and diplomatic bags, but excluding passengers' baggage. (See also definition above for 'Air Cargo' statistics and definition below for 'Passenger tonne-kilometres'.)
<b>Cargo tonne-km</b>	means a metric tonne of cargo carried one kilometre. Cargo tonne-kilometres equal the sum of products obtained by multiplying the number of tonnes of cargo carried on each flight stage by the stage distance measured in kilometres.

<b>Cargo uplifted</b>	means the number of tonnes of cargo which is obtained by counting each tonne of cargo on a particular flight (with one flight number) once only and not repeatedly on each individual stage of that flight. The only exception to this is for cargo flown on both the international and domestic stages of the same flight which is considered in computation both as a domestic and an international shipment or despatch.
<b>Daily utilisation per a/c (hrs)</b>	is an average per aircraft measure computed by dividing the aircraft hours of use by the number of days on which the aircraft are available. This latter figure includes days required for maintenance and overhaul but it does not include days between the date of purchase and the date actually placed in service, days out of service due to major accidents or conversion, days when an aircraft is in the possession of others or is not available because of government action, such as grounding by government order.
<b>Exempt operations</b>	are operations for which a licence is not required. The Civil Aviation Authority in pursuance of its powers under paragraph (a) of Section 21(2) of the Civil Aviation Act 1971 has by an instrument dated 29 March 1972 and later instruments specified a number of types of flights for which a licence is not required. The specifications of such flights are published in the Authority's Official Record Series 1 but typical examples are ambulance flights, aircrew training and test flights, Government charters, helicopters carrying externally suspended loads, etc.
<b>Inclusive tours (IT)</b>	are separate fare charters where the cost to the passenger includes the cost of accommodation.
<b>Licence</b>	means an air transport licence granted under Section 22 of the Civil Aviation Act 1971.
<b>Mail</b>	covers only that handled by postal administrations and includes troop mail.
<b>Mail tonne-km</b>	are calculated using the same principle as when calculating cargo tonne-km.
<b>Overall load factor</b>	is an expression of tonne-km used as a percentage of tonne-km available.
<b>Passengers</b>	in airline statistics means revenue passengers only, i.e. passengers paying 25 per cent or more of the normal fare.
<b>Passenger-km</b>	means a passenger carried one kilometre. Calculation of passenger-kilometre equals the sum of the products obtained by multiplying the number of passengers carried on each flight stage by the stage distance measured in kilometres. The resultant figure is equal to the number of kilometres travelled by all passengers. Note.—Passenger-km is numerically equivalent to Seat-km used.
<b>Passenger load factor</b>	is an expression of seat-km used as a percentage of seat-km available.
<b>Passengers uplifted and passengers carried</b>	The number of passengers uplifted is obtained by counting each revenue passenger on a particular flight (with one flight number) once only and not repeatedly on each individual stage of flight.
<b>Passenger tonne-kilometres</b>	is deduced as the difference between the total tonne-kilometres used and tonne-kilometres used for cargo and/or mail; it includes the weight of passengers' free and excess baggage.

**Seat-km available** a seat-kilometre is available when a seat is flown one kilometre. Seat-kms available are equal to the sum of the products obtained by multiplying the number of passenger seats available for sale on each stage flight by the stage distance measured in kilometres.

**Seat-km used** a seat-kilometre is used when a seat occupied by a revenue passenger is flown for one kilometre. Seat-km used is equal to the sum of the products obtained by multiplying the number of revenue passengers carried on each stage flight by the stage distance measured in kilometres.

**Separate fare charters** are those where the charterer re-sells part of the capacity of the aircraft to the public at large; an organisation, etc.

**Sole-use charters** are those where the charterer has exclusive use of the whole capacity of the aircraft and does not dispose of any of it to third persons for reward.

**Stage flights** that part of the flight between two consecutive places, i.e. from take-off to the next landing, excluding technical stops, on the route.

**Tonne-km available** a metric tonne of payload space available flown one kilometre. Tonne-km available is equal to the sum of the products obtained by multiplying the number of tonnes available for the carriage of revenue load (passengers and cargo) on each stage flight by the distance measured in kilometres.

**Tonne-km used** a metric tonne of revenue load carried one kilometre. Tonne-km used is the sum of the products obtained by multiplying the number of tonnes of revenue load (passengers and cargo) carried on each stage flight by the distance measured in kilometres.

## Appendix B Classes of Licence

**NB** These definitions are not intended as a comprehensive statement of each type of licence. They define the general purpose of the types of flights authorised by each class of licence. The specification for each class of licence is published in the Civil Aviation Authority Official Record Series 1.

**Class 1** authorises scheduled service flights;

**Class 2** authorises advance booking charter flights;

**Class 3** authorises inclusive tour charter flights;

**Class 4** authorises other charter flights for the carriage of passengers;

**Class 5** authorises substitute charter flights;

**Class 6** authorises charter flights for the carriage of cargo and attendants;

**Class 7** authorises sole-use charter flights.
