 The total domestic plus international traffic is, therefore, only a measure of airport activity.  
 (b) Includes traffic where the origin/destination of the aircraft is within the European Community.

1. Although operators are asked to report all passenger journeys, in some cases the actual point of uplift or discharge is not recorded. In such cases all passengers are allocated to the end point of the service, ie the aircraft's origin or ultimate destination. This has been the practice since 1 August 1976 - before this data missing information was replaced by estimates made by the Authority. The figures in this table include all passengers carried on scheduled and chartered service excluding those carried on aircraft chartered by Government Departments.
2. These figures are based on the origin and destination of passengers as reported to UK airport authorities by UK and foreign airlines. Operator are required to report in respect of each service operated, the point of uplift and discharge of each passenger. The figures may not reflect a passenger's entire air journey: the point at which a passenger disembarks from a particular service may not represent his ultimate destination.
3. For the purposes of this table, change of gauge passengers are treated as terminal and are included.
4. Excludes passengers at Barrow, Battersea Heliport, Carlisle, Dundee, Lerwick, Londonderry, Plymouth, Scatsta, Shoreham and Swansea.
5. Includes passengers at Guernsey from July 1991 and Alderney from December 1991.

**NB** Portugal and Spain now incorporate Madeira and the Canary Islands respectively.

Table 12 (continued)

Notes

1. Traffic is published for each point pair, where scheduled traffic was reported. Charter only routes are shown under 'Other Routes' within a country where less than 5,000 passengers were carried.
2. These figures are based on the origin and destination of passengers as reported to UK airport authorities by UK and foreign airlines. Operators are required to report in respect of each service operated, the point of uplift and discharge of each passenger. The figures may not reflect a passenger's entire air journey: the point at which a passenger disembarks from a particular service may not represent his ultimate destination.
3. Although operators are asked to report all passenger journeys, in some cases the actual point of uplift or discharge is not recorded. In such cases all passengers are allocated to the end point of the service, ie the aircraft's origin or ultimate destination. In the case of the USA, all traffic is recorded to or from gateway points specified in the Bermuda II Agreement and subsequent amendments. The figures in this table include all passengers carried on scheduled and chartered services excluding those carried on aircraft chartered by Government Departments.
4. For the purposes of this table, change of gauge passengers are treated as terminal and are included.
5. Excludes passengers at Barrow, Battersea Heliport, Carlisle, Dundee, Lerwick, Londonderry, Plymouth, Scatsta, Shoreham, and Swansea.
6. In order to preserve market analysis all identifiable diversions are reallocated to the point of intended operation.

(a) Domestic traffic is counted both at the airport of arrival and the airport of departure.  
 The total domestic plus international traffic is, therefore, only a measure of airport activity.  
 (b) Includes traffic where the origin/destination of the aircraft is within the European Community.

## Appendix Definitions - UK Airport Statistics

There are some differences between the definitions used in this publication and those used in "UK Airlines - Monthly Operating Traffic and Financial Statistics". These arise mainly because UK Airlines are not asked to report non-revenue passengers or non-revenue cargo. The classification of European traffic differs between the publications. Airport statistics include all traffic with an origin or destination within the Community: Airline statistics analyse activity within the liberalised area, the geographic boundary of which may vary from time to time.

### MOVEMENTS

Aircraft movement An aircraft take-off or landing at an airport. For airport traffic purposes one arrival and one departure are counted as two movements.

#### Commercial Movements

Air transport movements are landings or take-offs of aircraft engaged on the transport of passengers, cargo or mail on commercial terms. All scheduled movements, including those operated empty, loaded charter and air taxi movements are included. For the purpose of these statistics where flights are operated on a sub charter basis the operator is identified according to the flight number. In the case of code sharing and franchise services the flight is allocated to the operator who has commercial responsibility for the service.

Air taxi movement is a movement by an aircraft of less than 15 tonnes MTWA operating on a non-scheduled service. These are predominantly sole-use charter operations.

Empty positioning movements are movements by aircraft moving into position for scheduled or charter transport flights or returning to base after such flights, including empty Air Taxi Movements.

Local movements are commercial flights undertaken for press, survey or agricultural flying, or public entertainment purposes, and flights performed under a Police Air Operators Certificate.

#### Non-commercial Movements

Test and training movements are movements for the purpose of testing aircraft or for training flying crew or ground personnel. Also included in this category are demonstration flights by makers or sellers of aircraft and aviation equipment. Aero-club instructional flights are not included in this category. Touch and go operations are counted as two movements.

Other non-commercial movements are non-revenue earning movements by air transport operators or manufacturers for the sole purpose of moving their own personnel or stores from one place to another, for delivery, refuelling or maintenance of empty aircraft and air transport flights forced to return to base by bad weather, engine failure or other causes.

Private movements are movements for purely non-commercial purposes by private owners or other private aircraft operators, excluding aero-clubs movements. (See below).

Aero-club movements are movements operated by aero-club members for instruction or pleasure. Touch and go operations are counted as two movements.

Official movements are movements for official purposes (excluding Air transport Movements) by British or foreign civil Government Departments eg movements by aircraft of the Civil Aviation Authority's Flight Calibration Services and the Queen's Flight.

Military movements are movements exclusively for military purposes using military aircraft. Military movements at military airfields are not included in these statistics.

## PASSENGERS

Passengers All revenue and non-revenue passengers on air transport movement flights.

A terminal passenger is a passenger joining or leaving an aircraft at the reporting airport. A passenger travelling between two reporting airports is counted twice, once at each airport. A passenger who changes from one aircraft to another, carrying the same flight number (change of gauge) is treated as a terminal passenger, as is an interlining passenger.

A transit passenger is a passenger who arrives at and departs from a reporting airport on the same aircraft which is transiting the airport. Each transit passenger is counted once only and not both on arrival and on departure.

## FREIGHT

Freight is the weight of property carried on an aircraft including for example, the weight of vehicles, excess baggage and diplomatic bags, but excluding mail and passengers' and crews' permitted baggage. Freight in transit through the airport on the same aircraft is excluded.

Mail is the weight of Post Office mail carried.

A cargo movement is a flight carrying solely freight and/or mail and associated cargo attendants.

## TYPES OF SERVICES

International services are services flown between the United Kingdom, Isle of Man, Channel Islands and places outside.

Domestic services are services flown entirely within the United Kingdom, Isle of Man and Channel Islands.

Cabotage here includes traffic carried between territories of the United Kingdom, Isle of Man and Channel Islands other than domestic services. (For the purposes of these statistics cabotage is shown under International Services.)

Scheduled services are those performed according to a published timetable, including those supplementary thereto, available for use by members of the public.

Non-scheduled or charter services include all air transport movements other than scheduled services.

EC traffic includes all traffic with an origin/destination within Austria, Belgium, Luxembourg, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Netherlands, Portugal, Spain, Sweden and Gibraltar.
