EIR Reference: E0002466

Dear XXXX

I am writing in respect of your recent request, of 8 September 2015, for the release of information held by the Civil Aviation Authority (CAA).

Your request, in relation to the mobile noise monitor installed at the National Physical Laboratory in Teddington; was:

- 1. If no data exists Post 5 February 2015, can you send me the same noise data for the period before 2 September 2014 e.g from 1 January 2014 to 2 September 2014 so that we can analyse pre and during flight trial noise.*
- 2. Can you explain why the noise monitors were removed?*
- 3. Are there any noise monitors near Teddington today collecting data or are you saying that no noise monitoring happened in Teddington post 5 February 2015?*

Our response:

Having considered your request in line with the provisions of the Environmental Information Regulations 2004, we are able to provide the information below.

Please find attached all easterly departure noise data recorded at the monitor which was installed in the grounds of the National Physical Laboratory in Teddington during the period 29 November 2013 to 5 February 2015. For each measured departure, the maximum sound level (L_{max} , dBA) recorded at the noise monitor is provided.

This noise monitor was installed by Heathrow airport for a specific study, and was removed by the airport at the end of the study. Two new noise monitors have recently been installed by Heathrow airport in the grounds of the National Physical Laboratory (11 August 2015) and in Strawberry Hill (13 August 2015). We understand that both noise monitors are expected to remain in place for a number of months before being redeployed elsewhere by the airport.

If you are not satisfied with how we have dealt with your request in the first instance you should approach the CAA in writing at:-
