Dear XXXX

I am writing in respect of your recent request of 24 April 2015, for the release of information held by the Civil Aviation Authority (CAA), and I am sorry for the delay in our response.

Your request:

Could you provide me with copies of Mandatory Occurrence Reports (minus identifying airlines details) that have been filed as having been caused by bird strikes to flights originating in the UK for the calendar year 2014. Could your report give details of the extent of the damage and the aircraft's route.

Our response:

Having considered your request in line with the provisions of the Freedom of Information Act 2000 (FOIA), we are able to provide the information below.

Incident reports are provided to the CAA under the terms of the Mandatory Occurrence Reporting (MOR) scheme, in accordance with Article 226 of the Air Navigation Order 2009 (ANO). If an aircraft suffers a birdstrike which results in damage to the aircraft or loss or malfunction of any essential service, this would be an occurrence which should be reported under the MOR scheme.

The CAA also administers an on-line birdstrike reporting scheme which is intended to record birdstrikes in UK airspace regardless of whether damage was caused to the aircraft, in accordance with Article 227 of the ANO. A birdstrike means any incident in flight in which there was reason to believe that the aircraft has been in collision with one or more birds.

A summary of those birdstrikes reported to the CAA in 2014, in accordance with both Article 226 and Article 227 of the ANO, is provided in the attachment.

In order to preserve the open reporting culture, which is a vital component of the UK's excellent safety record, information which will identify an organisation and is provided to the CAA under either the MOR scheme or the birdstrike reporting scheme is exempt from disclosure under Section 44(1)(a) of the FOIA. As well as the operator of the aircraft, this includes information such as the aircraft registration and the route the aircraft was operating (which is not held by the CAA in all cases in any event).

Section 44(1)(a) provides that information is exempt from disclosure if its disclosure is prohibited by, or under, any enactment. Under Section 23 of the Civil Aviation Act 1982, information which relates to a particular person (which includes a company or organisation) and has been supplied to the CAA pursuant to an Air Navigation Order is prohibited from disclosure. A copy of this exemption can be found below.

In considering what information would identify an organisation, the CAA must also consider what information is already in the public domain. We have, therefore, redacted the details of three reports where we have already disclosed, under the FOIA, that we held a report from an identified operator relating to a particular date and location.

The CAA's view is that the volume of bird strikes reported at a particular airport does not necessarily imply greater hazard, and the term "Location" in the information provided includes occurrences that extend beyond the airport perimeter. Due to the limitations of unverified reports, users should exercise caution in forming definitive conclusions or opinions based on this information alone.

We would recommend that the birdstrike data is normalised by using UK Airport Statistics such as the Air Transport Movements at an airport, as published on the CAA website at <http://www.caa.co.uk/default.aspx?catid=80&pagetype=88&pageid=3&sglid=3>.

For more information about the MOR scheme, please refer to CAP382 which can be found at: www.caa.co.uk/cap382. More information about the birdstrike reporting scheme can be found at www.caa.co.uk/birdstrikes.

If you are not satisfied with how we have dealt with your request in the first instance you should approach the CAA in writing at:-

CAA INTERNAL REVIEW & COMPLAINTS PROCEDURE

- The original case to which the appeal or complaint relates is identified and the case file is made available;
- The appeal or complaint is allocated to an Appeal Manager, the appeal is acknowledged and the details of the Appeal Manager are provided to the applicant;
- The Appeal Manager reviews the case to understand the nature of the appeal or complaint, reviews the actions and decisions taken in connection with the original case and takes account of any new information that may have been received. This will typically require contact with those persons involved in the original case and consultation with the CAA Legal Department;
- The Appeal Manager concludes the review and, after consultation with those involved with the case, and with the CAA Legal Department, agrees on the course of action to be taken;
- The Appeal Manager prepares the necessary response and collates any information to be provided to the applicant;
- The response and any necessary information is sent to the applicant, together with information about further rights of appeal to the Information Commissioners Office, including full contact details.

Freedom of Information Act: Section 44

(1) Information is exempt information if its disclosure (otherwise than under this Act) by the public authority holding it-

- (a) is prohibited by or under any enactment,
- (b) is incompatible with any Community obligation, or
- (c) would constitute or be punishable as a contempt of court.

(2) The duty to confirm or deny does not arise if the confirmation or denial that would have to be given to comply with section 1(1)(a) would (apart from this Act) fall within any of paragraphs (a) to (c) of subsection (1).

1 - The total number of reports is not necessarily representing the total number of confirmed birdstrikes - please refer to the [CAP 772](#).

2 - The term "Occurrences under 1,500 ft" does not include occurrences under 200 ft on landing or under 500 ft on take-off.

3 - The term "Location" includes occurrences that extend beyond the aerodrome perimeter.
