

6 October 2015
Reference: F0002477

Dear XXXX

I am writing in respect of your recent request of 15 September 2015 for the release of information held by the Civil Aviation Authority (CAA).

Your request:

I would like to know the following information regarding aircraft flying over or through London airspace. I am researching an article about the importance of having multiple engines in fixed and rotary winged aircraft when flying over built up areas.

Can you please tell me:

- 1. How many times since 1995 an aircraft has suffered an engine failure whilst flying over London. Please include detail of each event including aircraft type and outcome.*
- 2. How many times since 1995 a single engine aircraft has strayed into London designated airspace. Please include detail of each event including aircraft type and outcome.*

Our response:

Having considered your request in line with the provisions of the Freedom of Information Act 2000 (FOIA), we are able to provide the information below.

Incident reports are provided to the CAA under the terms of the Mandatory Occurrence Reporting (MOR) scheme, as described under Article 226 of the Air Navigation Order 2009 (ANO). Each report made is reviewed and, where appropriate, further investigation carried out and action taken.

The location of 'London' is not defined within the CAA MOR database, and we are unable to search the database for reports within a certain radius, so the location of reports cannot be isolated to 'over London' without manually reviewing all relevant reports. Therefore, to ensure that we captured relevant events, the London Flight Information Region (FIR)/Upper Information Region (UIR) has been used within the search criteria. This provides results much wider than 'over London' but the exported data includes location name and location information fields that you will be able to filter as required.

In relation to question 1, we have carried out a search of the CAA MOR database for any engine failure for any aircraft type and operation for the period 1 January 1995 to all processed reports as at 29 September 2015 and provided a summary in attachment 1.

For question 2, we have searched the CAA MOR database for all occurrences involving a single engine aircraft infringement whilst in the London FIR regardless of aircraft type, operation or nationality. Due to the large volume of infringement reports, we have provided a 10 year period of data commencing from 1 January 2005 to all processed reports as at 29 September 2015 in attachment 2.

We have not provided identifying information in these reports provided as this information is exempt from disclosure under section 44(1)(a) of the FOIA.

Section 44(1)(a) provides that information is exempt information if its disclosure is prohibited by, or under, any enactment. Under Section 23 of the Civil Aviation Act 1982, information which relates to a particular person (which includes a company or organisation) and has been supplied to the CAA pursuant to an Air Navigation Order is prohibited from disclosure (a copy of this exemption can be found below).

Additionally, two reports in attachment 2 have been removed as they were specifically provided to us in confidence. Under Section 41 of the FOIA, information provided to us under those circumstances is exempt from disclosure. A copy of this exemption can also be found below.

For more information about the Mandatory Occurrence Reporting scheme, please refer to CAP382 which can be found at: www.caa.co.uk/cap382

If you are not satisfied with how we have dealt with your request in the first instance you should approach the CAA in writing at:-

Caroline Chalk
Head of External Information Services
Civil Aviation Authority
Aviation House
Gatwick Airport South
Gatwick
RH6 0YR

caroline.chalk@caa.co.uk

The CAA has a formal internal review process for dealing with appeals or complaints in connection with Freedom of Information requests. The key steps in this process are set in the attachment.

Should you remain dissatisfied with the outcome you have a right under Section 50 of the FOIA to appeal against the decision by contacting the Information Commissioner at:-

Information Commissioner's Office
FOI/EIR Complaints Resolution
Wycliffe House
Water Lane
Wilmslow
SK9 5AF
www.ico.gov.uk/complaints.aspx

If you wish to request further information from the CAA, please use the form on the CAA website at <http://www.caa.co.uk/application.aspx?catid=286&pagetype=65&appid=24>.

Yours sincerely

A handwritten signature in black ink, appearing to read 'M Stevens'.

Mark Stevens
External Response Manager

CAA INTERNAL REVIEW & COMPLAINTS PROCEDURE

- The original case to which the appeal or complaint relates is identified and the case file is made available;
- The appeal or complaint is allocated to an Appeal Manager, the appeal is acknowledged and the details of the Appeal Manager are provided to the applicant;
- The Appeal Manager reviews the case to understand the nature of the appeal or complaint, reviews the actions and decisions taken in connection with the original case and takes account of any new information that may have been received. This will typically require contact with those persons involved in the original case and consultation with the CAA Legal Department;
- The Appeal Manager concludes the review and, after consultation with those involved with the case, and with the CAA Legal Department, agrees on the course of action to be taken;
- The Appeal Manager prepares the necessary response and collates any information to be provided to the applicant;
- The response and any necessary information is sent to the applicant, together with information about further rights of appeal to the Information Commissioners Office, including full contact details.

Freedom of Information Act: Section 44

(1) Information is exempt information if its disclosure (otherwise than under this Act) by the public authority holding it-

- (a) is prohibited by or under any enactment,
- (b) is incompatible with any Community obligation, or
- (c) would constitute or be punishable as a contempt of court.

(2) The duty to confirm or deny does not arise if the confirmation or denial that would have to be given to comply with section 1(1)(a) would (apart from this Act) fall within any of paragraphs (a) to (c) of subsection (1).

Freedom of Information Act: Section 41

(1) Information is exempt information if-

- (a) it was obtained by the public authority from any other person (including another public authority), and
- (b) the disclosure of the information to the public (otherwise than under this Act) by the public authority holding it would constitute a breach of confidence actionable by that or any other person.

(2) The duty to confirm or deny does not arise if, or to the extent that, the confirmation or denial that would have to be given to comply with section 1(1)(a) would (apart from this Act) constitute an actionable breach of confidence.

File number	UTC date	FIR/UIR name	Location name	Location Information	Airspace class	Airspace type	Manufacturer/model [Make]	Propulsion type	Number of engines	Headline	Narrative text
200500023	02/01/2005	EGTT : London (FIR)	London-Gatwick - LGW	8 E	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a DR400. Traffic info was given to an inbound A320. Pilot phoned and apologised for the incident.	A320 broke off its approach. A report was received from the pilot which stated that the DR400 routed overhead Redhill, en route back to Headcorn. Although the pilot was following the railway line, it appears he allowed the aircraftto drift further south than desired, allowing the aircraft to penetrate the Gatwick CTR. Appropriate advice given. See also occ 200408798. ☐ CAA Closure: No further CAA action required at this time.
200500023	02/01/2005	EGTT : London (FIR)	London-Gatwick - LGW	8 E	D	CTR	AIRBUS	Turbofan	2	Infringement of the Gatwick CTR (Class D) by a DR400. Traffic info was given to an inbound A320. Pilot phoned and apologised for the incident.	A320 broke off its approach. A report was received from the pilot which stated that the DR400 routed overhead Redhill, en route back to Headcorn. Although the pilot was following the railway line, it appears he allowed the aircraftto drift further south than desired, allowing the aircraft to penetrate the Gatwick CTR. Appropriate advice given. See also occ 200408798. ☐ CAA Closure: No further CAA action required at this time.
200500159	09/01/2005	EGTT : London (FIR)	Stansted	5 N	D	CTR	CESSNA	Reciprocating	1	Alleged infringement of the Stansted CTR (Class D) by a C152. A/c tracked to landing at Stapleford. Pilot reported being lost in the vicinity of Colchester. Standard separation maintained.	See also occ 200008189.
200500213	12/01/2005	EGTT : London (FIR)	Shoeburyness		G	Danger area	PIPER	Reciprocating	1	Alleged infringement of active Danger Area EG D138 (Shoeburyness) by a PA28. Danger Area active to 13000ft.	The pilot reported that the navigational error was unintentional and apologised for the error.☐ CAA Closure: A letter has been sent reminding the pilot of the serious consequences of infringing a Danger Area.

200500261	11/01/2005	EGTT : London (FIR)	Farnborough		G	ATZ	DE HAVILLAND	Reciprocating	1	D&D informed Farnborough ATC that a DHC1 infringing the ATZ had declared a PAN as it was lost. An a/c being vectored for ILS was broken off and repositioned. DHC1 visual with R/W was cleared to land.	
200500500	22/01/2005	EGTT : London (FIR)	Luton (LUT)	3 S	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) South of the airport by a C172. Pilot reported drifting North during general handling. Standard separation maintained.	The instructor's comprehensive report into this incident states that he was in a high workload exercise with his student, which was being flown in poor daylight conditions near CAS. He failed to allow for sufficient position checks in an exercise that required a lot of turning. He accepted that at some point he must have misidentified Harpenden for St Albans despite being familiar with the area. He also accepts that he should have contacted Luton ATC at the start of the exercise.
200500541	21/01/2005	EGTT : London (FIR)	Manchester (MCT)	18 NE	D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Manchester CTR (Class D) by a PA28. An inbound FK100 was given an extended routeing to maintain separation.	
200500541	21/01/2005	EGTT : London (FIR)	Manchester (MCT)	18 NE	D	CTR	FOKKER	Turbofan	2	Alleged infringement of the Manchester CTR (Class D) by a PA28. An inbound FK100 was given an extended routeing to maintain separation.	
200500548	23/01/2005	EGTT : London (FIR)	Manchester (MCT)		D	CTR	GROB	Reciprocating	1	Squawk observed infringing the Manchester CTR (Class D) and identified as a Grob that was unsure of its position. A routeing was given to leave CAS as it was approaching final approach for R/W06R.	Standard separation maintained.

200500611	26/01/2005	EGTT : London (FIR)	Halton	0.5E	G	ATZ	OTHER	Other	0	UK AIRPROX 10/2005 - Glider and an Extra EA300 at 1300ft,0.5nm East of Halton.	
200500611	26/01/2005	EGTT : London (FIR)	Halton	0.5E	G	ATZ	EXTRA	Reciprocating	1	UK AIRPROX 10/2005 - Glider and an Extra EA300 at 1300ft,0.5nm East of Halton.	
200500686	29/01/2005	EGTT : London (FIR)	Dunstable		D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C172 receiving a FIS. C172 was given a heading to clear the final approach track for R/W08. Standard separation maintained.	C172 40nm Northwest of Luton at 1500ft, free called requesting to route direct to LAM enroute to destination. ATC were unable to identify C172 and considered the request mayconflict with R/W08 departure tracks. C172 was briefed onATC's planned route to the West of Luton, but no clearance to cross was issued. Controller's attention was divertedto other tasks and subsequently C172 was identified inside CAS and instructed to take up a Southerly heading to clear final approach track for R/W08. When the C172 was identified by ATC the pilot thought he was at Leighton Buzzad when he was actually abeam the Dunstable Gliding site.
200500784	06/02/2005	EGTT : London (FIR)	London-Heathrow - LHR	12nm	A	CTR	ROCKWELL	Reciprocating	1	Infringement of the London CTR (Class A) by a Rockwell 114. Two a/c inbound to Heathrow, an A320 and a B737, were both broken off the approach to R/W09L.	Separation lost. Appropriate CAA action is being taken asa result of this incident. See also occ 200405667.
200500784	06/02/2005	EGTT : London (FIR)	London-Heathrow - LHR	12nm	A	CTR	AIRBUS	Turbofan	2	Infringement of the London CTR (Class A) by a Rockwell 114. Two a/c inbound to Heathrow, an A320 and a B737, were both broken off the approach to R/W09L.	Separation lost. Appropriate CAA action is being taken asa result of this incident. See also occ 200405667.

200500847	06/02/2005	EGTT : London (FIR)	Manchester (MCT)		D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Manchester CTR (Class D) by PA28. Three a/c were broken off the approach and the next three a/c were delayed by holding. Traffic info given. Standard separation maintained.	Appropriate CAA action has been taken.
200500847	06/02/2005	EGTT : London (FIR)	Manchester (MCT)		D	CTR	AIRBUS	Turbofan	2	Alleged infringement of the Manchester CTR (Class D) by PA28. Three a/c were broken off the approach and the next three a/c were delayed by holding. Traffic info given. Standard separation maintained.	Appropriate CAA action has been taken.
200500858	04/02/2005	EGTT : London (FIR)	Luton (LUT)	2 S	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28. No traffic was affected by the a/c.	
200500864	05/02/2005	EGTT : London (FIR)	Stansted	10	D	CTA	DIAMOND	Reciprocating	1	Infringement of the Stansted CTA (Class D) by two DiamondDA40Ds on delivery flights at 1900ft and 2000ft.	The two foreign ferry pilots have been contacted and appear to have believed that by talking to London Information they did not need to request a further clearance to cross Stansted CAS. UK procedures have now been fully explained.
200500864	05/02/2005	EGTT : London (FIR)	Stansted	10	D	CTA	DIAMOND	Reciprocating	1	Infringement of the Stansted CTA (Class D) by two DiamondDA40Ds on delivery flights at 1900ft and 2000ft.	The two foreign ferry pilots have been contacted and appear to have believed that by talking to London Information they did not need to request a further clearance to cross Stansted CAS. UK procedures have now been fully explained.

200500874	05/02/2005	EGTT : London (FIR)	Duxford		G	ATZ	GRUMMAN	Reciprocating	1	Alleged infringement of the Duxford ATZ (Class G) by an AA1. No RT comms with Duxford.	
200500915	08/02/2005	EGTT : London (FIR)	Dover (DVR)	15 SE	A		CESSNA	Reciprocating	1	Alleged infringement of Worthing CTA (Class A) by a C182.	
200500968	08/02/2005	EGTT : London (FIR)	Portsmouth		G	Danger area	PIPER	Reciprocating	1	Infringement of Danger Area EG D036 (Portsmouth) by PA32 at FL50, which was active with helicopter flying. Danger Area active from surface to 19000ft.	The pilot had planned two routes, one to avoid D036 and the other using recommended VFR route. Prior to departure, the pilot asked Cherbourg ATC if D036 was active. The pilot interpreted the response as negative, and subsequently flew through D036. The pilot did not contact Plymouth Mil, Jersey, Southampton or London to check the activity statusprior to entry of D036. The pilot has now been reminded of this requirement. ☐ CAA Closure: No further CAA action required at this time.
200501197	13/02/2005	EGTT : London (FIR)	Halton		G	ATZ	OTHER	Unknown		UK AIRPROX 18/2005 - ASK 21 glider and AS350 at RAF Halton at 600ft.	Alleged infringement of ATZ by AS350.
200501197	13/02/2005	EGTT : London (FIR)	Halton		G	ATZ	AEROSPATIALE	Turboshaft	1	UK AIRPROX 18/2005 - ASK 21 glider and AS350 at RAF Halton at 600ft.	Alleged infringement of ATZ by AS350.

200501334	16/02/2005	EGTT : London (FIR)	Portsmouth		G	Danger area	PIPER	Reciprocating	1	Infringement of active Danger Area EG D036 (Portsmouth) and alleged infringement of active Danger Areas EG D026 Lulworth and EGD 031 Portland by a PA28. Pilot apologised forinfringing EG D036.	The pilot supplied a report detailing the incident as he saw it and apologising to the military authorities concerned.
200501436	27/02/2005	EGTT : London (FIR)	Rivar Hill		G		PIPER	Reciprocating	1	Alleged infringement of the Shalbourne Soaring Society Cable Hazard at Rivar Hill Airfield by unidentified PA28 at approximately 1800-2000ft, immediately after winch launch.	
200501552	27/02/2005	EGTT : London (FIR)	Bristol International		D	CTA	PIPER	Reciprocating	1	Infringement of the Bristol CTR/CTA (Class D) by PA28. Aninbound FK70 was given traffic info and a heading to remain clear of PA28.	The PA28 was identified and the pilot called after landing, and the incident was discussed.
200501552	27/02/2005	EGTT : London (FIR)	Bristol International		D	CTA	FOKKER	Turbofan	2	Infringement of the Bristol CTR/CTA (Class D) by PA28. Aninbound FK70 was given traffic info and a heading to remain clear of PA28.	The PA28 was identified and the pilot called after landing, and the incident was discussed.
200501616	07/03/2005	EGTT : London (FIR)	London-Gatwick - LGW	13 NE	D	CTA	PIPER	Reciprocating	1	Alleged infringement of the Gatwick CTA (Class D) by PA28.	Appropriate CAA action is being taken as a result of thisincident. See also 200202435, 200308323 and 200402230.

200501618	06/03/2005	EGTT : London (FIR)	Stansted	8 SW	D	CTR	PIPER	Reciprocating	1	PA28 allegedly infringed Stansted CTR (Class D) and lost separation with a B737 being vectored for R/W05. B737 given traffic info and avoiding action. TCAS activated.	See also occs 200107342 and 200401757. Appropriate CAA action is being taken as a result of this incident.
200501618	06/03/2005	EGTT : London (FIR)	Stansted	8 SW	D	CTR	BOEING	Turbofan	2	PA28 allegedly infringed Stansted CTR (Class D) and lost separation with a B737 being vectored for R/W05. B737 given traffic info and avoiding action. TCAS activated.	See also occs 200107342 and 200401757. Appropriate CAA action is being taken as a result of this incident.
200501622	06/03/2005	EGTT : London (FIR)	Luton (LUT)		D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C172. Luton departures were stopped. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
200501648	07/03/2005	EGTT : London (FIR)	London-Gatwick - LGW	13 NE	D	CTA	SOCATA	Turboprop	1	Infringement of the Gatwick CTA (Class D) by a TBM700. Standard separation maintained.	The pilot has been briefed accordingly and was aware of his error. The pilot reported that he had difficulty in managing the high speed of the aircraft with the requirement of maintaining runway heading for 2nm before commencing the turn as required by local procedures. Appropriate guidance has been given to the pilot and the operator has undertaken to provide guidance to the all of their TBM700 pilots.
200501674	07/03/2005	EGTT : London (FIR)	Norwich		G	ATZ	MOONEY	Reciprocating	1	Infringement of the Norwich ATZ by Mooney 20.	At 1440hrs, Norwich was advised of a radar contact 5nm south of airport heading north. A/c observed entering the ATZ and overflew the airport maintaining 1400ft. No R/T communications were received from the a/c at this time. A/c was identified as a Mooney 20, for which ATC had a flight plan, enroute to France via Norwich. The Mooney 20 then turned onto an easterly heading and appeared to be joining downwind RH for R/W27. As there was no R/T contact, it was assumed the a/c had a problem and could have been intending to land at Norwich. A local standby was initiated. The Mooney 20 continued on an easterly heading and crossed the coast at 1450hrs. Local standby was cancelled. At 1504hrs, the Mooney 20 called Norwich approach. The pilot has since reported that he had been vectored around Lakenheath and was then told to 'resume navigation'. The pilot reports passing Norwich airfield to the South, but he was not aware of having infringed the ATZ. After passing Norwich, the pilot contacted Norwich ATC. The pilot has been sent a letterreminding him of the importance of not entering controlled airspace without permission. See also occ 200301919.□ CAA Closure: No further CAA action required at this time.

200501699	09/03/2005	EGTT : London (FIR)	London-Heathrow - LHR	4nm N			PIPER	Reciprocating	1	D&D Cell Report - Pilot lost. PAN declared.	The pilot of the subject aircraft called D&D as he was unsure of his position due to possible equipment failure. Initially the aircraft's position appeared on VDF as close to Amersham but clear of CAS. To ensure that this was accurate the pilot was instructed to squawk 3305; this identified the aircraft as being 2nm inside CAS. After establishing that the pilot was VMC and visual with the surface, he was turned onto a northerly track to vacate CAS. On leavingCAS he was handed to Northolt to resume his flight to Biggin Hill.
200501721	09/03/2005	EGTT : London (FIR)	Birmingham	7S	D	CTR	ROBINSON	Reciprocating	1	Infringement of Birmingham CTR (Class D) by R22 at 2500ft, 7nm South of Birmingham. Avoiding action issued to B737 on approach. B737 received TCAS TA. SMF activated.	The pilot was under instruction during the flight. Whilsttracking toward the Honiley VOR, the instructor and the student were discussing the progress of the exercise. Due to this distraction, the aircraft made a late turn at Leamington Spa on the edge of the CTA. The late westerly heading took the aircraft into the stepped down CTA (1500ft to FL45) at an altitude of 2500ft. The instructor phoned Birmingham ATC to apologise, and has been counselled accordingly.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200501721	09/03/2005	EGTT : London (FIR)	Birmingham	7S	D	CTR	BOEING	Turbofan	2	Infringement of Birmingham CTR (Class D) by R22 at 2500ft, 7nm South of Birmingham. Avoiding action issued to B737 on approach. B737 received TCAS TA. SMF activated.	The pilot was under instruction during the flight. Whilsttracking toward the Honiley VOR, the instructor and the student were discussing the progress of the exercise. Due to this distraction, the aircraft made a late turn at Leamington Spa on the edge of the CTA. The late westerly heading took the aircraft into the stepped down CTA (1500ft to FL45) at an altitude of 2500ft. The instructor phoned Birmingham ATC to apologise, and has been counselled accordingly.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200501786	13/03/2005	EGTT : London (FIR)	Manchester (MCT)	8	D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) allegedly bya PA28R. Three inbound airliners were vectored around theinfringing a/c.	Traffic information given. Occurrence "Opened" 12/04/05 to facilitate an investigation. After investigation, it wasnot possible to confirm which aircraft infringed the Manchester CTR. ☐ CAA Closure: No further CAA action practicable.
200501786	13/03/2005	EGTT : London (FIR)	Manchester (MCT)	8	D	CTR	AIRBUS	Turbofan	2	Infringement of the Manchester CTR (Class D) allegedly bya PA28R. Three inbound airliners were vectored around theinfringing a/c.	Traffic information given. Occurrence "Opened" 12/04/05 to facilitate an investigation. After investigation, it wasnot possible to confirm which aircraft infringed the Manchester CTR. ☐ CAA Closure: No further CAA action practicable.

200501798	05/03/2005	EGTT : London (FIR)	Little Rissington		G		SOCATA	Reciprocating	1	Alleged two infringements of the Little Rissington notified gliding area (Class G) at 300 feet by an unidentified TB10. Three motor gliders were airborne at the time of thesecond infringement.	
200501809	11/03/2005	EGTT : London (FIR)	London- Heathrow - LHR		A	CTR	PIPER	Reciprocating	1	Infringement of Heathrow CTR (Class A) by PA32 at 2400ft.Northbound departures stopped. Pilot subsequently contacted ATC to apologise for his error.	
200501853	15/03/2005	EGTT : London (FIR)	Luton (LUT)	4 S	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C182. Traffic info and avoiding action was given to an inbound BD700, which was broken off the ILS with a non standard go around.	The pilot has since reported that she obtained a RIS and elected to route around the Western edge of the Luton CTR,in view of the reduced visibility. She was instructed to remain North of the M25 and to report the golf course visual reference point positioned on the map at the four mile final approach for runway 26 at Elstree. Due to the additional workload of flying in reduced visibility, the pilot inadvertently turned the wrong way, having mistaken the motorways. As the visual cues were incorrect, she turned South to regain the M25. The pilot has apologised for the resulting infringement and has learned from the experience. See also 200005460 and 200403135. □ CAA Closure: No further CAA action required at this time.
200501853	15/03/2005	EGTT : London (FIR)	Luton (LUT)	4 S	D	CTR	BOMBARDIER	Turbofan	2	Infringement of the Luton CTR (Class D) by a C182. Traffic info and avoiding action was given to an inbound BD700, which was broken off the ILS with a non standard go around.	The pilot has since reported that she obtained a RIS and elected to route around the Western edge of the Luton CTR,in view of the reduced visibility. She was instructed to remain North of the M25 and to report the golf course visual reference point positioned on the map at the four mile final approach for runway 26 at Elstree. Due to the additional workload of flying in reduced visibility, the pilot inadvertently turned the wrong way, having mistaken the motorways. As the visual cues were incorrect, she turned South to regain the M25. The pilot has apologised for the resulting infringement and has learned from the experience. See also 200005460 and 200403135. □ CAA Closure: No further CAA action required at this time.
200501916	18/03/2005	EGTT : London (FIR)	Lee On Solent		G	ATZ	PIPER	Reciprocating	1	UK AIRPROX 32/2005 - PA28 and an R44 in the Lee-on-Solentcircuit.	

200501916	18/03/2005	EGTT : London (FIR)	Lee On Solent		G	ATZ	ROBINSON	Reciprocating	1	UK AIRPROX 32/2005 - PA28 and an R44 in the Lee-on-Solentcircuit.	
200501977	18/03/2005	EGTT : London (FIR)	Biggin (BIG)	15 NE	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28, resulting in a loss of separation with a Fokker 50 inbound to London City.	STCA/SMF activated. Traffic information and avoiding action given. The PA28 was a training flight passing below theLTMA step down (3,500ft to 2,500ft). The instructor was busy explaining how to recognise their position by looking from the map to the ground. He then realised that the aircraft was climbing through 2,650ft, so he lowered the nose immediately and expedited descent. The instructor has beencounselled accordingly. □ CAA Closure: The hazard is adequately controlled by the actions stated above.
200501977	18/03/2005	EGTT : London (FIR)	Biggin (BIG)	15 NE	A	TMA	FOKKER	Turboprop	2	Infringement of the LTMA (Class A) by a PA28, resulting in a loss of separation with a Fokker 50 inbound to London City.	STCA/SMF activated. Traffic information and avoiding action given. The PA28 was a training flight passing below theLTMA step down (3,500ft to 2,500ft). The instructor was busy explaining how to recognise their position by looking from the map to the ground. He then realised that the aircraft was climbing through 2,650ft, so he lowered the nose immediately and expedited descent. The instructor has beencounselled accordingly. □ CAA Closure: The hazard is adequately controlled by the actions stated above.
200501981	18/03/2005	EGTT : London (FIR)	Luton (LUT)	8NE	D	CTR	ROBINSON	Reciprocating	1	Alleged infringement of Luton CTR (Class D) by R22 at 3000ft, 8nm Northeast of Luton. Traffic info passed to A320 on approach. R22 receiving a FIS at time of incident.	
200501981	18/03/2005	EGTT : London (FIR)	Luton (LUT)	8NE	D	CTR	AIRBUS	Turbofan	2	Alleged infringement of Luton CTR (Class D) by R22 at 3000ft, 8nm Northeast of Luton. Traffic info passed to A320 on approach. R22 receiving a FIS at time of incident.	

200502051	21/03/2005	EGTT : London (FIR)	Stansted	8 SW	D	CTA	PIPER	Reciprocating	1	Infringement of Stansted CTA (Class D) by PA28 at 2000ft,8nm Southwest of Stansted. Traffic info and avoiding action issued to B737 on approach to R/W05.	Another B737 inbound to Stansted was also delayed by infringing a/c. The pilot has since reported that he had navigation problems, and was blown several miles off his intended course. Having been under a RIS, he transferred to Elstree but was unable to obtain an air traffic service. The pilot changed plans at this point, and decided to fly direct to North Weald. However, during this part of the flight,he was unable to identify the M11 motorway. Although in contact with North Weald, he elected to climb to 2000ft to assess the situation. He then spotted North Weald and landed without further incident. Once the pilot realised he had infringed the Stansted CTA, he called them and apologised. □ CAA Closure: No further CAA action required at this time.
200502051	21/03/2005	EGTT : London (FIR)	Stansted	8 SW	D	CTA	BOEING	Turbofan	2	Infringement of Stansted CTA (Class D) by PA28 at 2000ft,8nm Southwest of Stansted. Traffic info and avoiding action issued to B737 on approach to R/W05.	Another B737 inbound to Stansted was also delayed by infringing a/c. The pilot has since reported that he had navigation problems, and was blown several miles off his intended course. Having been under a RIS, he transferred to Elstree but was unable to obtain an air traffic service. The pilot changed plans at this point, and decided to fly direct to North Weald. However, during this part of the flight,he was unable to identify the M11 motorway. Although in contact with North Weald, he elected to climb to 2000ft to assess the situation. He then spotted North Weald and landed without further incident. Once the pilot realised he had infringed the Stansted CTA, he called them and apologised. □ CAA Closure: No further CAA action required at this time.
200502100	24/03/2005	EGTT : London (FIR)	Shoeburyness		G	Danger area	YAKOVLEV	Reciprocating	1	Infringement of active Danger Area EG D138 by a Yak 52.	The pilot has since reported that the flight plan involved flying to Germany, via Dover. The flight was VMC, at around 1200ft, circum-navigating clouds and rain in order to remain VMC. The pilot was using GPS as a means of navigation and cross-referring against the CAA and Jeppesen charts, which were slightly different. The pilot did not get a warning from the GPS to indicate the proximity of the Danger Area and has since apologised for the navigation error. The pilot has been reminded not to over-rely on GPS for navigation, and to ensure that the latest CAA charts are used.□ CAA Closure: No further CAA action required at this time.
200502175	24/03/2005	EGTT : London (FIR)	Luton (LUT)		D	CTR	PIPER	Reciprocating	1	Extensive infringement of Luton CTR (Class D) by PA28 at 2700ft caused significant disruption. Traffic info passed to inbound a/c, two of which were given extensive vectoring to delay approach.	At 1649, the student pilot called D&D cell, stating that she was lost, and was advised of her position. Pilot called D&D cell again at 1709 and was instructed to squawk 7700to aid quick identification. Aircraft turned onto a heading and handed to Brize Radar for transit back to destination airfield.□ CAA Closure: Appropriate CAA action taken.
200502176	24/03/2005	EGTT : London (FIR)	PEPIS		A	TMA	PIPER	Reciprocating	1	Alleged infringement of LTMA (Class A) by PA28 at 6000ft at PEPIS. No other a/c affected. See also occ 200301637.	

200502361	02/04/2005	EGTT : London (FIR)	Stansted	4 N	D	CTR	GRUMMAN	Reciprocating	1	AA1 allegedly infringed the Stansted CTR (Class D) and lost separation with a departing B737. Traffic info given toB737 which was visual with AA1. AA1 called Luton and was given heading to leave CAS.	The pilot had originally planned to route Bassingbourn, Stevenage, BPK. However, in flight, the pilot decided to route direct to BPK. The pilot unsuccessfully reprogrammed the GPS which continued to give information relative to theoriginal track. At this point, the pilot attempted to navigate directly to BPK and became disorientated. The inflight visibility was hazy, 4-5km. The pilot called Luton, thinking he had infringed Luton, when in reality he had infringed Stansted. The pilot has since been reminded of the importance of accurate navigation around CAS, and the dangers of over-reliance on GPS. The pilot has also discussed the event with his CFI.□ CAA Closure: No further CAA action required at this time.
200502361	02/04/2005	EGTT : London (FIR)	Stansted	4 N	D	CTR	BOEING	Turbofan	2	AA1 allegedly infringed the Stansted CTR (Class D) and lost separation with a departing B737. Traffic info given toB737 which was visual with AA1. AA1 called Luton and was given heading to leave CAS.	The pilot had originally planned to route Bassingbourn, Stevenage, BPK. However, in flight, the pilot decided to route direct to BPK. The pilot unsuccessfully reprogrammed the GPS which continued to give information relative to theoriginal track. At this point, the pilot attempted to navigate directly to BPK and became disorientated. The inflight visibility was hazy, 4-5km. The pilot called Luton, thinking he had infringed Luton, when in reality he had infringed Stansted. The pilot has since been reminded of the importance of accurate navigation around CAS, and the dangers of over-reliance on GPS. The pilot has also discussed the event with his CFI.□ CAA Closure: No further CAA action required at this time.
200502412	02/04/2005	EGTT : London (FIR)	Bridgwater Bay		A		PIPER	Reciprocating	1	Alleged infringement of Airway N864 by PA28. PA28 observed on radar passing EXMOR, travelling along coast then climbing from FL55 to FL63. Standard separation maintained.	The pilot has since reported that he was well aware of the presence of N864 and had planned to fly underneath. However, on inspection of the GPS track after the flight, he found that he had infringed the corner and that the Airway was lower than he had realised. He admitted that he had overlooked the airspace restriction line during pre-flight planning, and has since apologised for the infringement. The pilot has been counselled accordingly.□ CAA Closure: No further CAA action required at this time.
200502413	02/04/2005	EGTT : London (FIR)	Brecon (BCN)	5 S	A		CESSNA	Reciprocating	1	Alleged infringement of Airway N864 by C182. C182 observed on radar passing EXMOR, travelling along coast, then climbing from FL55 to FL63. Standard separation maintained.	C182 called ATC and was instructed to squawk 3622. C182 identified 5nms South of BCN VOR and asked to confirm its level. C182 reported FL60. This placed it within Airway N864, the base of which was FL55. ATC advised C182 it was in the Airway, then asked if it could accept an IFR clearance. C182 replied that it could not, and elected to descend beneath airway. A/c was subsequently given a VFR clearance through the Cardiff CTZ at FL50.
200502425	31/03/2005	EGTT : London (FIR)	Ballykinler		G	Danger area	ROBINSON	Reciprocating	1	Alleged infringement of active Danger Area EG D401 (Ballykinler) by R44 at unspecified altitude. Live firing in progress.	The pilot encountered deteriorating weather conditions and relied upon his GPS for navigation. The pilot has been sent a letter reminding him of the serious consequences ofinfringing danger areas.□ CAA Closure: No further CAA action required.

200502576	06/04/2005	EGTT : London (FIR)	Southampton (SAM)		D	CTR	CESSNA	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a lost C152. Traffic info was given to an inbound EMB145. Standardseparation maintained.	Unknown traffic was observed in the Southampton CTR (Class D) and an inbound EMB145 was given traffic info. Subsequently, Bournemouth ATC called to ask if Southampton ATC could help with a lost a/c they were trying to assist. C152 was transferred to Southampton and identified using turn method and then vectored out of CAS. Once clear, C152 was transferred back to Bournemouth.
200502576	06/04/2005	EGTT : London (FIR)	Southampton (SAM)		D	CTR	EMBRAER	Turbofan	2	Infringement of the Southampton CTR (Class D) by a lost C152. Traffic info was given to an inbound EMB145. Standardseparation maintained.	Unknown traffic was observed in the Southampton CTR (Class D) and an inbound EMB145 was given traffic info. Subsequently, Bournemouth ATC called to ask if Southampton ATC could help with a lost a/c they were trying to assist. C152 was transferred to Southampton and identified using turn method and then vectored out of CAS. Once clear, C152 was transferred back to Bournemouth.
200502603	11/04/2005	EGTT : London (FIR)	Luton (LUT)	2 E	D	CTR		Reciprocating	1	Schweizer 269C called Stansted INT giving its details andwas told to remain clear of CAS and given a FIS. Subsequently 269C infringed the Luton CTR (Class D). Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
200502605	09/04/2005	EGTT : London (FIR)	Barkway (BKY)	2ESE	D	CTA	VANS	Reciprocating	1	Infringement of Luton CTA (Class D) by RV4 at 3500ft, 2nmESE of BKY, resulted in a loss of separation with a C550 inbound to Luton.	RV4 Mode C observed climbing and descending rapidly. Suspected that a/c was carrying out aerobatics. The pilot questioned the magnitude of the infringement, and confirmed that he was carrying out aerobatics at the time. The pilot has been sent a letter confirming the infringement from theradar traces and reminding him of the need to allow sufficient separation from restricted airspace during aerobatics. □ CAA Closure: The hazard is adequately controlled by the actions stated above.
200502605	09/04/2005	EGTT : London (FIR)	Barkway (BKY)	2ESE	D	CTA	CESSNA	Turbofan	2	Infringement of Luton CTA (Class D) by RV4 at 3500ft, 2nmESE of BKY, resulted in a loss of separation with a C550 inbound to Luton.	RV4 Mode C observed climbing and descending rapidly. Suspected that a/c was carrying out aerobatics. The pilot questioned the magnitude of the infringement, and confirmed that he was carrying out aerobatics at the time. The pilot has been sent a letter confirming the infringement from theradar traces and reminding him of the need to allow sufficient separation from restricted airspace during aerobatics. □ CAA Closure: The hazard is adequately controlled by the actions stated above.

200502659	13/04/2005	EGTT : London (FIR)	Old Warden		G	ATZ	ANTONOV	Reciprocating	1	Alleged infringement of a Temporary ATZ (Class G) at Old Warden by an AN2, whilst an Avro 504 was carrying out a practice display and operating non radio. AN2 contacted ATC and left the area.	Pilot phoned and apologised for the incident stating being unaware of any NOTAMs relating to Old Warden.
200502668	09/04/2005	EGTT : London (FIR)	Honiley (HON)	1	D	CTA	ROBINSON	Reciprocating	1	Alleged infringement of Birmingham CTR/CTA (Class D) by an R22 on a Navex to Redditch. R22 called ATC and given a turn away from final approach and vectors to Redditch. Standard separation maintained.	Traffic info and avoiding action given.
200502728	16/04/2005	EGTT : London (FIR)	Luton (LUT)	S	D	CTR	OTHER	Reciprocating	1	AIRPROX 49/2005 - TB20 and Microlight South of Luton at 2000ft.	TB20 was given traffic info. Following AIRPROX the microlight allegedly infringed the Luton CTR (Class D).
200502728	16/04/2005	EGTT : London (FIR)	Luton (LUT)	S	D	CTR	SOCATA	Reciprocating	1	AIRPROX 49/2005 - TB20 and Microlight South of Luton at 2000ft.	TB20 was given traffic info. Following AIRPROX the microlight allegedly infringed the Luton CTR (Class D).
200502780	16/04/2005	EGTT : London (FIR)	Great Dunmow	3 W	D	CTR	DIAMOND	Reciprocating	1	Alleged infringement of the Stansted CTR (Class D) by a Diamond Star. ATC attempted to make contact with the a/c, but no response was achieved. Standard separation maintained.	

200502783	16/04/2005	EGTT : London (FIR)	Stansted	3 SW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C172 that was 'uncertain of its position'. Standard separation maintained.	
200502964	22/04/2005	EGTT : London (FIR)	Northolt		A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA38 whose pilot had become disorientated during a local flight.	Heathrow departures suspended. Appropriate CAA action is being taken as a result of this incident.
200503026	21/04/2005	EGTT : London (FIR)	Leeds Bradford (LBA)		D	CTR	PIPER	Reciprocating	1	Infringement of Leeds CTR (Class D) by a/c that subsequently squawked 0031 and identified by D&D as a PA28 flown by a student pilot. Traffic info given to inbound a/c. Standard separation maintained.	Inbound Jetstream was broken off the approach.
200503026	21/04/2005	EGTT : London (FIR)	Leeds Bradford (LBA)		D	CTR	BAE	Turboprop	2	Infringement of Leeds CTR (Class D) by a/c that subsequently squawked 0031 and identified by D&D as a PA28 flown by a student pilot. Traffic info given to inbound a/c. Standard separation maintained.	Inbound Jetstream was broken off the approach.
200503079	26/04/2005	EGTT : London (FIR)	Shoeburyness		G	Danger area	YAKOVLEV	Reciprocating	1	Infringement of active Danger Areas EG D138 and D138A (Shoeburyness) by a formation of two YAK52s. The two a/c had also been manoeuvring within the Southend instrument approach area.	The CAA have contacted the pilot leading the formation to advise of the serious consequences of infringing a Danger Area. The pilot subsequently apologised for his actions. See also 200007644. ☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.

200503079	26/04/2005	EGTT : London (FIR)	Shoeburyness		G	Danger area	YAKOVLEV	Reciprocating	1	Infringement of active Danger Areas EG D138 and D138A (Shoeburyness) by a formation of two YAK52s. The two a/c had also been manoeuvring within the Southend instrument approach area.	The CAA have contacted the pilot leading the formation toadvise of the serious consequences of infringing a DangerArea. The pilot subsequently apologised for his actions. See also 200007644. □ CAA Closure: The hazard is adequatelycontrolled by existing requirements, procedures and documentation.
200503094	23/04/2005	EGTT : London (FIR)	Liverpool		D	CTR	PIPER	Reciprocating	1	Infringement of the Liverpool CTR (Class D) and the active gliding site at RAF Sealand by a PA32 at 2500 feet.	The pilot has since reported that he was talking to London Information and attempted to contact them for a frequency change to Liverpool Radar. The pilot states that the frequency was congested and he could not contact the controller, who was busy dealing with another pilot. He intended to remain outside of the Liverpool CTR and when he realisedhe was close to the boundary, he changed frequency and contacted Liverpool. The pilot thought he was further south than he actually was, and has apologised for this navigation error. The pilot was not aware that the gliding site was active above 2100ft. He has been reminded of the importance of pre-flight planning and the need to check all relevant information, including NOTAMs. □ CAA Closure: No further CAA action required at this time.
200503098	27/04/2005	EGTT : London (FIR)	Woodley (WOD)	7 W	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA by a PA28 led to a technical loss of separation with a PC12 7nm West of WOD. Avoiding action and traffic information given.	The instructor of the PA28 later rang ATC and stated thathe became distracted whilst on a sortie with a student.
200503098	27/04/2005	EGTT : London (FIR)	Woodley (WOD)	7 W	A	TMA	PILATUS	Turboprop	1	Infringement of the LTMA by a PA28 led to a technical loss of separation with a PC12 7nm West of WOD. Avoiding action and traffic information given.	The instructor of the PA28 later rang ATC and stated thathe became distracted whilst on a sortie with a student.
200503113	27/04/2005	EGTT : London (FIR)	KENET	10 SSE	A		SLINGSBY	Reciprocating	1	Infringement of CAS (Class A) at FL75, 10 SSE of KENET bya Slingsby T67M. LTCC had to stop an inbound descending due to this traffic.	

200503156	01/05/2005	EGTT : London (FIR)	London-Heathrow - LHR	6WSW	A	CTR	CESSNA	Reciprocating	1	Infringement of Heathrow CTR (Class A) by C172 at 2600ft,6nm WSW of Heathrow. Avoiding action and traffic info passed to two recently departed A319s. Further departures stopped. Separation lost.	Investigation established that C172 was a training flight. One of the pilots on board has admitted to and apologised for the infringement. Appropriate action taken.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200503156	01/05/2005	EGTT : London (FIR)	London-Heathrow - LHR	6WSW	A	CTR	AIRBUS	Turbofan	2	Infringement of Heathrow CTR (Class A) by C172 at 2600ft,6nm WSW of Heathrow. Avoiding action and traffic info passed to two recently departed A319s. Further departures stopped. Separation lost.	Investigation established that C172 was a training flight. One of the pilots on board has admitted to and apologised for the infringement. Appropriate action taken.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200503157	01/05/2005	EGTT : London (FIR)	London-Heathrow - LHR	NW	A	CTR	SOCATA	Reciprocating	1	Infringement of Heathrow CTR (Class A) by TB21 at 2000ft,Northwest of Heathrow. Departures stopped. Separation lost.	On seeing infringing a/c, SVFR controller advised that departures should be stopped. A DC10, which had already beengiven take-off clearance, was issued an early left turn to avoid potential conflict.☐ CAA Closure: Appropriate CAA action has been taken as a result of this incident.
200503157	01/05/2005	EGTT : London (FIR)	London-Heathrow - LHR	NW	A	CTR	MCDONNELL DOUGLAS	Turbofan	3	Infringement of Heathrow CTR (Class A) by TB21 at 2000ft,Northwest of Heathrow. Departures stopped. Separation lost.	On seeing infringing a/c, SVFR controller advised that departures should be stopped. A DC10, which had already beengiven take-off clearance, was issued an early left turn to avoid potential conflict.☐ CAA Closure: Appropriate CAA action has been taken as a result of this incident.
200503179	02/05/2005	EGTT : London (FIR)	Lydd (LYD)	9 SW	A	TMA	GRUMMAN	Reciprocating	1	Loss of separation between an AA5 and a Fokker 50, 10nm SW of Lydd at FL60. STCA activated. Traffic information given. Believed Fokker 50 received a TCAS RA.	The AA5 pilot has since reported that he had trouble contacting ATC on his radio. He suspects that his transponder was not working at the time as the radio reception was notgood. The pilot has been reminded of his responsibility to maintain contact with ATC and the importance of following correct procedures with regard to entering controlled airspace. The ATC investigation found that the lack of radarcover in the vicinity meant that the sector controller received degraded information on the infringing aircraft, and delayed the D&D cell in locating the position of the AA5. Appropriate local ATC action taken, with a reminder to ATC staff concerning coverage of FIS frequencies.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.

200503179	02/05/2005	EGTT : London (FIR)	Lydd (LYD)	9 SW	A	TMA	FOKKER	Turboprop	2	Loss of separation between an AA5 and a Fokker 50, 10nm SW of Lydd at FL60. STCA activated. Traffic information given. Believed Fokker 50 received a TCAS RA.	The AA5 pilot has since reported that he had trouble contacting ATC on his radio. He suspects that his transponder was not working at the time as the radio reception was notgood. The pilot has been reminded of his responsibility to maintain contact with ATC and the importance of following correct procedures with regard to entering controlled airspace. The ATC investigation found that the lack of radarcover in the vicinity meant that the sector controller received degraded information on the infringing aircraft, and delayed the D&D cell in locating the position of the AA5. Appropriate local ATC action taken, with a reminder to ATC staff concerning coverage of FIS frequencies.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200503181	02/05/2005	EGTT : London (FIR)	London City - LCY		D	CTR	PIPER	Reciprocating	1	Infringement of London City CTR (Class D) by PA32. Pilot had called ATC to request a FIS before entering CAS. ATC subsequently offered navigational assistance which was declined.	The P1 states that they had planned to make a call for the zone crossing. Thames were busy and the a/c was instructed to standby. By the time two-way RT was established withthis high performance a/c, it was in the zone. He acceptsthat a better practice would have been to plan to route around the zone. The pilot accepts the seriousness of this incident.
200503183	30/04/2005	EGTT : London (FIR)	London City - LCY	4NE	D	CTR	CESSNA	Reciprocating	1	Alleged infringement of London City CTR (Class D) by a C182 at unknown altitude, 4nm Northeast of London City.	
200503193	30/04/2005	EGTT : London (FIR)	Barkway (BKY)	8N	A	TMA	CIRRUS	Reciprocating	1	Alleged infringement of LTMA (Class A) by SR22 at FL90, 8nm North of BKY.	SR22 called ATC for a RAS, claiming to be North of BKY. ATC instructed a/c to squawk ident and ascertained that a/cwas 8nm North of BKY at FL90 and, therefore, inside CAS. ATC subsequently gave SR22 appropriate instructions to vacate CAS.
200503283	03/05/2005	EGTT : London (FIR)	Manchester (MCT)	4W	D	CTR	AVIONS ROBIN	Reciprocating	1	Alleged infringement of Manchester CTR (Class D) by DR400at 1250ft, 4nm West of Manchester. No other a/c affected.	

200503346	08/05/2005	EGTT : London (FIR)	London-Gatwick - LGW	2 NE	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by an R44 whichled to a loss of separation with an A319 on approach to R/W26L at Gatwick.	A319 was broken off its approach and re-positioned. The R44 pilot subsequently questioned the infringement but it would appear to have occurred during his arrival and not during his circuit practise as he had surmised. A letter hasbeen sent explaining the seriousness of any infringement.See also 200603213.□ CAA Closure: Appropriate CAA action has been taken as a result of this incident.
200503346	08/05/2005	EGTT : London (FIR)	London-Gatwick - LGW	2 NE	D	CTR	AIRBUS	Turbofan	2	Infringement of the Gatwick CTR (Class D) by an R44 whichled to a loss of separation with an A319 on approach to R/W26L at Gatwick.	A319 was broken off its approach and re-positioned. The R44 pilot subsequently questioned the infringement but it would appear to have occurred during his arrival and not during his circuit practise as he had surmised. A letter hasbeen sent explaining the seriousness of any infringement.See also 200603213.□ CAA Closure: Appropriate CAA action has been taken as a result of this incident.
200503347	07/05/2005	EGTT : London (FIR)	London-Gatwick - LGW	11S	A	TMA	CEA	Reciprocating	1	Alleged infringement of London TMA (Class A) by a DR340 at 3000ft, 11nm South of Gatwick. Standard separation maintained.	
200503349	09/05/2005	EGTT : London (FIR)	Stansted	12.5 S	D	CTA	PIPER	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a PA28. Standard separation maintained.	
200503350	08/05/2005	EGTT : London (FIR)	Stansted		D	CTA	PIPER	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a PA28 at 2000ft and a C177 at 2500ft flying approximately 3-4nms apart. An inbound a/c was given traffic info and headings to avoid the two a/c.	

200503350	08/05/2005	EGTT : London (FIR)	Stansted		D	CTA	CESSNA	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a PA28 at 2000ft and a C177 at 2500ft flying approximately 3-4nms apart. An inbound a/c was given traffic info and headings to avoid the two a/c.	
200503379	27/04/2005	EGTT : London (FIR)	Ambleside		G	Restrict ed area	OTHER	Unknown		Alleged infringement of a CANP established for helicopteroperations at Ambleside by a military transport a/c.	
200503379	27/04/2005	EGTT : London (FIR)	Ambleside		G	Restrict ed area	AEROSPATIALE	Turboshaft	1	Alleged infringement of a CANP established for helicopteroperations at Ambleside by a military transport a/c.	
200503395	08/05/2005	EGTT : London (FIR)	Cardiff (CDF)	W	A		CESSNA	Reciprocating	1	Infringement of the Cardiff CTA (Class D) and Airway N864(Class A) by a Cessna 172. Traffic information and avoiding action given to an ATR climbing out of Cardiff. Standard separation maintained.	The pilot subsequently reported having trouble with the GPS, shortly after take-off from Swansea. The pilot became distracted in trying to get the GPS to work, and then received a call from ATC about the infringement. The pilot hasapologised for this infringement, and has been reminded about checking the aircraft systems and equipment before take-off.☐ CAA Closure: No further CAA action required at this time.
200503395	08/05/2005	EGTT : London (FIR)	Cardiff (CDF)	W	A		ATR	Turboprop	2	Infringement of the Cardiff CTA (Class D) and Airway N864(Class A) by a Cessna 172. Traffic information and avoiding action given to an ATR climbing out of Cardiff. Standard separation maintained.	The pilot subsequently reported having trouble with the GPS, shortly after take-off from Swansea. The pilot became distracted in trying to get the GPS to work, and then received a call from ATC about the infringement. The pilot hasapologised for this infringement, and has been reminded about checking the aircraft systems and equipment before take-off.☐ CAA Closure: No further CAA action required at this time.

200503430	09/05/2005	EGTT : London (FIR)	London City - LCY		D	CTR	BEECH	Reciprocating	1	Infringement of London City CTR (Class D) and the Stansted CTA (Class D) by a BE36. Standard separation maintained.	The pilot that was flying the aircraft has apologised forthis navigation error, stating that he was over-reliant on the second pilot's navigation skills. The pilot has debriefed his flying club in order that others may learn from this occurrence.□ CAA Closure: No further CAA action required at this time.
200503465	01/05/2005	EGTT : London (FIR)	Old Warden		G	ATZ	PIPER	Reciprocating	1	PA28 allegedly infringed the temporary ATZ at Old Warden during a NOTAMed Air Display.	It could not be confirmed whether an infringement actually occurred, as there were differences in opinion regardingthe height of the aircraft at the time. The pilot had checked the NOTAMs but missed the one for Old Warden. A letter has been sent to the pilot advising him to treat Old Warden as always being active. □ CAA Closure: The hazard is adequately controlled by the actions stated above.
200503566	14/05/2005	EGTT : London (FIR)	Holmes Chapel		D	CTR	MOONEY	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a Mooney 20 inbound to Manchester that had been told to route via Low Level Route (LLR) to Stretton. Pilot appeared uncertainof routeing.	Investigation established that the pilot was approaching Manchester from the Southeast for an arrival on R/W06R andwas expecting to position for a right base join, but had not specifically requested this. Consequently, the pilot has been reminded that he must follow standard joining procedures and that any requests for a more direct routeing should be made to ATC in good time.□ CAA Closure: The hazardis adequately controlled by existing requirements, procedures and documentation.
200503567	12/05/2005	EGTT : London (FIR)	Manchester (MCT)	7 NW	D	CTR	WESTLAND	Turboshaft	1	Alleged infringement of the Manchester CTR (Class D) by aGazelle helicopter that had requested a FIS whilst transiting the Low Level Route (LLR). Standard separation maintained.	On the helicopter's inbound flight the pilot reported passing Sandbach (and reconfirmed his position as such) when helicopter was in fact passing Congleton northbound. The pilot has subsequently reported that he flew East of Stoke on Trent, instead of West as was planned. This took the aircraft into the Manchester CTR and the pilot tried to makecontact with Manchester, making several calls on the wrong frequency. The pilot had a debrief of the flight with his instructor, and has been counselled accordingly.□ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200503569	14/05/2005	EGTT : London (FIR)	Stansted	5 SW	D	CTA	PIPER	Reciprocating	1	Alleged infringement of Stansted CTA (Class D) by unidentified PA28 at 2000ft, 5nm Southwest of Stansted. Traffic info and avoiding action issued to two inbound a/c.	

200503570	13/05/2005	EGTT : London (FIR)	Midhurst (MID)	5NE	A	TMA	AVIONS ROBIN	Reciprocating	1	A DR400 at 3400ft allegedly infringed the London TMA (Class A) and lost separation with an A320 inbound to Gatwick.	Subsequent correspondence with the DR400 pilot has identified a possible misidentification. Unable to reconcile the differing reports. □ CAA Closure: No further CAA action practicable.
200503570	13/05/2005	EGTT : London (FIR)	Midhurst (MID)	5NE	A	TMA	AIRBUS	Turbofan	2	A DR400 at 3400ft allegedly infringed the London TMA (Class A) and lost separation with an A320 inbound to Gatwick.	Subsequent correspondence with the DR400 pilot has identified a possible misidentification. Unable to reconcile the differing reports. □ CAA Closure: No further CAA action practicable.
200503576	09/05/2005	EGTT : London (FIR)	Honiley (HON)	3 S	D	CTA	PIPER	Reciprocating	1	Alleged infringement of the Birmingham CTA (Class D) by aPA28. Standard separation maintained.	
200503584	15/05/2005	EGTT : London (FIR)	Lambourne (LAM) - Southend (SND)		A	TMA	PIPER	Reciprocating	1	Alleged infringement of the London TMA (Class A) by a PA28. STCA activated against a BAe146. Traffic info and avoiding action given. Standard separation maintained.	See also 200205026 and 200408089. □ CAA Closure: No further CAA action practicable.
200503594	09/05/2005	EGTT : London (FIR)	EGD004 Plymouth		G	Danger area	SOCATA	Reciprocating	1	Alleged infringement of active Danger Area EG D004 (Plymouth) by a TB9 at FL44.	Foreign Authority were requested to obtain a report from the TB9 pilot but, as of 1 Nov 2006, had not been able to do so. □ CAA Closure: No further CAA action practicable due to elapsed time.

200503595	09/05/2005	EGTT : London (FIR)	Lyme Bay and Portland		G	Danger area	AVIONS ROBIN	Reciprocating	1	Infringement of active Danger Areas EG D012 (Lyme Bay) and EG D017 and D023 (Portland) by a DR400 at 3000ft.	DR400 pilot subsequently admitted to infringement. He hadintended to contact London FIR to establish whether or not the Danger Areas were active but concedes that he eitherforgot or did not understand the controller's response. Pilot has been reminded of the importance of adequate pre-flight planning and the potentially serious consequences ofinfringing Danger Areas.□ CAA Closure: The hazard is adequately controlled by the actions stated above.
200503596	09/05/2005	EGTT : London (FIR)	Portsmouth		G	Danger area	AVIONS ROBIN	Reciprocating	1	Infringement of active Danger Area EG D036 (Portsmouth) by a DR400 at 2500ft.	DR400 pilot subsequently admitted to infringement and hasbeen reminded of the importance of adequate pre-flight planning and the potentially serious consequences of infringing Danger Areas.□ CAA Closure: The hazard is adequately controlled by the actions stated above.
200503614	15/05/2005	EGTT : London (FIR)	East Midlands	N	A		PIPER	Reciprocating	1	After PA28 departed Tatenhill it reported climbing through 6500ft. PA28 informed it had infringed the East MidlandsCTA (Class D) and the Daventry CTA (Class A), and instructed to descend to 6000ft.	See also occ 200303474.
200503615	15/05/2005	EGTT : London (FIR)	East Midlands	10 E	D	CTR	SOCATA	Reciprocating	1	Infringement of the East Midlands CTR (Class D) by a TB20at FL50. When contact was established and pilot informed of his position he stated that he thought he "was well to the East".	Traffic information given. Standard separation maintained.
200503616	17/05/2005	EGTT : London (FIR)	London-Heathrow - LHR	8 NW	A	CTR	GRUMMAN	Reciprocating	1	Alleged infringement of the London CTR (Class A) by an AA5.	Unable to locate pilot in command.□ CAA Closure: No further CAA action practicable.

200503617	15/05/2005	EGTT : London (FIR)	Southampton (SAM)		D	CTA	OTHER	Reciprocating	1	Infringement of the Southampton CTR (Class D) and the Solent CTA (Class D) by a Team Eurostar microlight. A pendingdeparture was held on the ground and an inbound was givena go around.	Appropriate CAA action is being taken as a result of thisincident.
200503617	15/05/2005	EGTT : London (FIR)	Southampton (SAM)		D	CTA	BAE	Turbofan	4	Infringement of the Southampton CTR (Class D) and the Solent CTA (Class D) by a Team Eurostar microlight. A pendingdeparture was held on the ground and an inbound was givena go around.	Appropriate CAA action is being taken as a result of thisincident.
200503629	16/05/2005	EGTT : London (FIR)	Southampton (SAM)	5 S	D	CTR	AUSTER	Reciprocating	1	Alleged infringement of the Southampton CTR (Class D) by an Auster. Traffic info was given to a 'calibrator' just outbound for the NDB DME approach on R/W02, who reported visual with the Auster.	Appropriate CAA action is being taken as a result of thisincident.
200503649	17/05/2005	EGTT : London (FIR)	London City - LCY	2 NE	D	CTR	PIPER	Reciprocating	1	Alleged infringement of the London City CTR (Class D) by a PA32. Departures were stopped immediately. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
200503682	18/05/2005	EGTT : London (FIR)	Stansted	7 N	A	CTR	CESSNA	Reciprocating	1	Alleged infringement of the Stansted CTR (Class D) by a C172 with a student pilot on a solo NAVEX. An inbound airliner was given traffic info and elected to continue after reporting visual with C172.	Standard separation maintained.

200503682	18/05/2005	EGTT : London (FIR)	Stansted	7 N	A	CTR	UNKNOWN	Unknown		Alleged infringement of the Stansted CTR (Class D) by a C172 with a student pilot on a solo NAVEX. An inbound airliner was given traffic info and elected to continue after reporting visual with C172.	Standard separation maintained.
200503683	18/05/2005	EGTT : London (FIR)	Stansted	7 NE	D	CTR	CESSNA	Reciprocating	1	C172 infringed the Stansted CTR (Class D). An inbound a/c was given traffic info and a radar heading to break off the approach at 3000ft. Standard separation maintained.	Appropriate CAA action is being taken as a result of this incident.
200503683	18/05/2005	EGTT : London (FIR)	Stansted	7 NE	D	CTR	BOEING	Turbofan	2	C172 infringed the Stansted CTR (Class D). An inbound a/c was given traffic info and a radar heading to break off the approach at 3000ft. Standard separation maintained.	Appropriate CAA action is being taken as a result of this incident.
200503687	18/05/2005	EGTT : London (FIR)	Shoeburyness		G	Danger area	EXTRA	Reciprocating	1	Alleged infringement of active Danger Areas EG D138 and D138A (Shoeburyness) by two Extra 300s at 2000ft. Danger Area D138 active to 13000ft and D138A to 6000ft. Firing was stopped.	See also occ 200503079. Appropriate CAA action taken.
200503687	18/05/2005	EGTT : London (FIR)	Shoeburyness		G	Danger area	EXTRA	Reciprocating	1	Alleged infringement of active Danger Areas EG D138 and D138A (Shoeburyness) by two Extra 300s at 2000ft. Danger Area D138 active to 13000ft and D138A to 6000ft. Firing was stopped.	See also occ 200503079. Appropriate CAA action taken.

200503688	17/05/2005	EGTT : London (FIR)	Birmingham	5SE	D	CTA	CESSNA	Reciprocating	1	Alleged infringement of Birmingham CTA (Class D) by C152 at 2800ft, 5nm Southeast of Birmingham. A/c, speaking to East Midlands ATC, was lost. Transferred to Birmingham ATC,instructed to vacate CAS.	
200503715	17/05/2005	EGTT : London (FIR)	Spadeadam		G		CESSNA	Reciprocating	1	Infringement of Spadeadam Range by C210, resulting in conflict with military jet.	C210 pilot reported that, due to an increased Westerly wind, a/c drifted and clipped the Spadeadam AIAA (Area of Intense Aerial Activity). C210 pilot apologised for the infringement, and stated that they did not see the military aircraft.
200503715	17/05/2005	EGTT : London (FIR)	Spadeadam		G		OTHER	Unknown		Infringement of Spadeadam Range by C210, resulting in conflict with military jet.	C210 pilot reported that, due to an increased Westerly wind, a/c drifted and clipped the Spadeadam AIAA (Area of Intense Aerial Activity). C210 pilot apologised for the infringement, and stated that they did not see the military aircraft.
200503816	21/05/2005	EGTT : London (FIR)	ABBOT	3 N	A	TMA	CESSNA	Reciprocating	1	Alleged infringement of the London TMA (Class A) by a C182. Traffic info and extended routeing given to an inbound a/c. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident. See also occ 200302245.
200503914	25/05/2005	EGTT : London (FIR)	Stansted	6 N	D	CTA	CESSNA	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a C152. Traffic info and avoiding action was given to an inbound G5.	

200503914	25/05/2005	EGTT : London (FIR)	Stansted	6 N	D	CTA	GULFSTREAM	Turbofan	2	Alleged infringement of the Stansted CTA (Class D) by a C152. Traffic info and avoiding action was given to an inbound G5.	
200503917	26/05/2005	EGTT : London (FIR)	Stansted		D	CTR	UNKNOWN	Unknown		Infringement of the Stansted CTR/CTA (Class D) at 1059hrsby unidentified a/c and at 1108hrs by a possible Europa. An inbound a/c was vectored off normal course to go aroundthe unidentified a/c.	
200503917	26/05/2005	EGTT : London (FIR)	Stansted		D	CTR	EUROPA	Reciprocating	1	Infringement of the Stansted CTR/CTA (Class D) at 1059hrsby unidentified a/c and at 1108hrs by a possible Europa. An inbound a/c was vectored off normal course to go aroundthe unidentified a/c.	
200503940	29/05/2005	EGTT : London (FIR)	Luton (LUT)	15NE	A	TMA	CESSNA	Reciprocating	1	UK AIRPROX 74/2005 - FK100 and a C172 15nm Northeast of Luton at 5000ft. STCA activated.	FK100, on a closing heading to ILS R/W26, received a TCASRA and was given avoiding action on a C172. Investigationconfirmed that C172 had infringed the LTMA by climbing without clearance to 4700ft where the base of CAS is 4500ft.This AIRPROX has been subject to a separate review by UKAB (refer to UKAB report 074/05), which concluded that the conflict occurred at the base of the LTMA and was resolvedby a combination of the controller's avoiding action and the FK100 crew responding to TCAS.□ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200503940	29/05/2005	EGTT : London (FIR)	Luton (LUT)	15NE	A	TMA	FOKKER	Turbofan	2	UK AIRPROX 74/2005 - FK100 and a C172 15nm Northeast of Luton at 5000ft. STCA activated.	FK100, on a closing heading to ILS R/W26, received a TCASRA and was given avoiding action on a C172. Investigationconfirmed that C172 had infringed the LTMA by climbing without clearance to 4700ft where the base of CAS is 4500ft.This AIRPROX has been subject to a separate review by UKAB (refer to UKAB report 074/05), which concluded that the conflict occurred at the base of the LTMA and was resolvedby a combination of the controller's avoiding action and the FK100 crew responding to TCAS.□ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.

200503978	29/05/2005	EGTT : London (FIR)	Cardiff (CDF)	3 N	D	CTR	ROBINSON	Reciprocating	1	Infringement of Cardiff CTR (Class D) by a R44. Inbound R44 called Approach when in the zone, without clearance andtold to orbit in present position, then transferred to Tower. Separation maintained.	See also occ 200301001.
200504008	28/05/2005	EGTT : London (FIR)	London-Gatwick - LGW	12E	A	TMA	PIPER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a PA38 at 2300ft, 12nm East of Gatwick. Inbound A320 at 3000ft received TCAS RA. STCA and SMF activated. Separation lost.	The controller concerned did not provide any avoiding action to the A320. PA38 pilot has apologised for the infringement and has been reminded of the importance of remainingoutside CAS.□ CAA Closure: The hazard is adequately controlled by the actions stated above.
200504008	28/05/2005	EGTT : London (FIR)	London-Gatwick - LGW	12E	A	TMA	AIRBUS	Turbofan	2	Infringement of the Gatwick CTA (Class D) by a PA38 at 2300ft, 12nm East of Gatwick. Inbound A320 at 3000ft received TCAS RA. STCA and SMF activated. Separation lost.	The controller concerned did not provide any avoiding action to the A320. PA38 pilot has apologised for the infringement and has been reminded of the importance of remainingoutside CAS.□ CAA Closure: The hazard is adequately controlled by the actions stated above.
200504033	29/05/2005	EGTT : London (FIR)	Nottingham East Midlands		D	CTA	SOCATA	Reciprocating	1	Infringement of the East Midlands (CTA) Class D by a TB200. Traffic information given. A/c called and was identified already within CAS without a clearance. Appropriate advice given by ATC.	Standard separation maintained.
200504049	31/05/2005	EGTT : London (FIR)	London City - LCY	10E	A	TMA	PIPER	Reciprocating	1	Alleged infringement of LTMA by PA28 at 2800ft, 10nm Eastof London City. Traffic info passed to inbound Fokker 50,which was kept at 4000ft as a precaution.	Additionally, a London City outbound was issued an early climb to 4000ft to remain clear of infringing a/c.

200504049	31/05/2005	EGTT : London (FIR)	London City - LCY	10E	A	TMA	FOKKER	Turboprop	2	Alleged infringement of LTMA by PA28 at 2800ft, 10nm Eastof London City. Traffic info passed to inbound Fokker 50,which was kept at 4000ft as a precaution.	Additionally, a London City outbound was issued an early climb to 4000ft to remain clear of infringing a/c.
200504053	28/05/2005	EGTT : London (FIR)	Liverpool	5 ENE	D	CTR	HUGHES	Turboshaft	1	Hughes 500, receiving a FIS, allegedly strayed from confines of the Low Level Route (LLR) and infringed the Liverpool CTR (Class D). Given a heading back to LLR and transferred to Liverpool.	Liverpool ATC provided avoiding action and traffic information to an inbound B737 with standard separation being maintained. The pilot of the Hughes later rang Liverpool ATCto apologise citing a map reading error as a cause of theinfringement.
200504053	28/05/2005	EGTT : London (FIR)	Liverpool	5 ENE	D	CTR	BOEING	Turbofan	2	Hughes 500, receiving a FIS, allegedly strayed from confines of the Low Level Route (LLR) and infringed the Liverpool CTR (Class D). Given a heading back to LLR and transferred to Liverpool.	Liverpool ATC provided avoiding action and traffic information to an inbound B737 with standard separation being maintained. The pilot of the Hughes later rang Liverpool ATCto apologise citing a map reading error as a cause of theinfringement.
200504123	31/05/2005	EGTT : London (FIR)	Woodley (WOD)		A	TMA	PIPER	Reciprocating	1	Alleged infringement of the London TMA (Class A) by a PA28. Standard separation maintained.	
200504174	05/06/2005	EGTT : London (FIR)	Old Warden		G	ATZ	DIAMOND	Reciprocating	1	Alleged infringement of Old Warden ATZ by a DA40 whilst the Shuttleworth collection was carrying out its notified display. NOTAM was in force.	CAA Closure: Appropriate CAA action is being taken as a result of this incident.

200504209	05/06/2005	EGTT : London (FIR)	Luton (LUT)	6S	D	CTR	PIPER	Reciprocating	1	Alleged infringement of Luton CTR (Class D) by PA28 at 2200ft, 6nm South of Luton. Separation lost with 2 Luton R/W26 departures.	One of the a/c in the process of departing R/W26 was instructed to climb straight ahead (usual procedure is for a/cto turn left immediately) to avoid infringing a/c, resulting in non-compliance with noise abatement procedures. Seealso 200305184 and 200406467.□ CAA Closure: Appropriate CAA action has been taken as a result of this incident.
200504209	05/06/2005	EGTT : London (FIR)	Luton (LUT)	6S	D	CTR	CESSNA	Turbofan	2	Alleged infringement of Luton CTR (Class D) by PA28 at 2200ft, 6nm South of Luton. Separation lost with 2 Luton R/W26 departures.	One of the a/c in the process of departing R/W26 was instructed to climb straight ahead (usual procedure is for a/cto turn left immediately) to avoid infringing a/c, resulting in non-compliance with noise abatement procedures. Seealso 200305184 and 200406467.□ CAA Closure: Appropriate CAA action has been taken as a result of this incident.
200504211	03/06/2005	EGTT : London (FIR)	London-Heathrow - LHR	8 NW	A	CTR	PIPER	Reciprocating	1	Alleged infringement of the London CTR (Class A) by a PA28. Separation was lost, but no avoiding action was given by ATC.	Despite writing to the operator no further information has been obtained. If further information becomes availablethe investigation will be reopened. See also 200204416.□ CAA Closure: No further CAA action practicable.
200504211	03/06/2005	EGTT : London (FIR)	London-Heathrow - LHR	8 NW	A	CTR	AIRBUS	Turbofan	2	Alleged infringement of the London CTR (Class A) by a PA28. Separation was lost, but no avoiding action was given by ATC.	Despite writing to the operator no further information has been obtained. If further information becomes availablethe investigation will be reopened. See also 200204416.□ CAA Closure: No further CAA action practicable.
200504237	05/06/2005	EGTT : London (FIR)	London-Heathrow - LHR	4 NW	A	CTR	PIPER	Reciprocating	1	Alleged infringement of the London CTR (Class A) and the Luton CTR (Class D) by a PA28. Standard separation maintained.	See also occs 200203656, 200206946, 200300516, 200307271 and 200500858. Appropriate CAA action is being taken as a result of this incident.

200504261	07/06/2005	EGTT : London (FIR)	Shoeburyness		G	Danger area	PIPER	Reciprocating	1	Alleged infringement of active Danger Area EG D138 (Shoeburyness) by PA28 at 3000ft. Danger Area D138 active to 6000ft. Pilot was informed D138 was active.	CAA Closure: Appropriate CAA action has been taken as a result of this occurrence.
200504290	05/06/2005	EGTT : London (FIR)	Old Warden		G	ATZ	BEAGLE	Reciprocating	1	Alleged infringement of Old Warden Temporary ATZ by Beagle 121 and C152 at approximately 2000ft. Air display in progress. Traffic info passed to Spitfire performing aerobatics.	Non-compliance with NOTAM which stated that display area was a 3nm radius of Old Warden up to 3500ft.□ CAA Closure:Appropriate CAA action has been taken as a result of thisincident.
200504290	05/06/2005	EGTT : London (FIR)	Old Warden		G	ATZ	CESSNA	Reciprocating	1	Alleged infringement of Old Warden Temporary ATZ by Beagle 121 and C152 at approximately 2000ft. Air display in progress. Traffic info passed to Spitfire performing aerobatics.	Non-compliance with NOTAM which stated that display area was a 3nm radius of Old Warden up to 3500ft.□ CAA Closure:Appropriate CAA action has been taken as a result of thisincident.
200504446	12/06/2005	EGTT : London (FIR)	London (LON)		A	CTR	PILATUS	Turboprop	1	Infringement of the London CTR (Class A) by a PC12. Standard separation maintained.	
200504448	12/06/2005	EGTT : London (FIR)	Stansted	3 E	D	CTR	SCHLEICHER	Reciprocating	1	Alleged infringement of the Stansted CTR (Class D). Departures were held on the ground. After a/c departed CAS it is believed that the transponder was switched off.	Pilot subsequently reported being unaware that control airspace had been infringed, claiming to have been in contact with numerous ATC agencies but not informed of an infringement. Unable to reconcile differing reports due to elapsed time.□ CAA Closure: No further CAA action practicable.

200504472	11/06/2005	EGTT : London (FIR)	Luton (LUT)	8 SW	A	TMA	CESSNA	Reciprocating	1	Alleged infringement of the London TMA (Class A) by a C152. STCA activated against a BD700, which was given traffinfo and avoiding action. Standard separation maintained.	Appropriate CAA action has been taken as a result of thisincident. Believed that the transponder on the C152 was unserviceable and producing an over reading on the SSR.
200504472	11/06/2005	EGTT : London (FIR)	Luton (LUT)	8 SW	A	TMA	BOMBARDIER	Turbofan	2	Alleged infringement of the London TMA (Class A) by a C152. STCA activated against a BD700, which was given traffinfo and avoiding action. Standard separation maintained.	Appropriate CAA action has been taken as a result of thisincident. Believed that the transponder on the C152 was unserviceable and producing an over reading on the SSR.
200504473	13/06/2005	EGTT : London (FIR)	Biggin (BIG)	7NE	A	TMA	PIPER	Reciprocating	1	Repeated infringements of the LTMA. Standard separation maintained.	The pilot had requested a vector for MAY from the Southend controller. In a subsequent phone conversation with Southend ATC the pilot stated that he had become distracted whilst having problems with his GPS equipment. The CAA has sent a letter to the pilot, copied to the syndicate leader,suggesting further navigation training. See also 200504865.□ CAA Closure: The hazard is adequately controlled by the actions stated above.
200504495	07/06/2005	EGTT : London (FIR)	Cardiff (CDF)				AESL	Reciprocating	1	VFR traffic zone clearance deviation.	The aircraft was cleared through Cardiff CTR at 2.5A VFR via Flat Holm. The pilot read back the clearance and requested to stay with the controller for FIS for approx 20 minutes (at this time the aircraft was approx 3 miles south of the S E corner of the CTR). The controller informed the pilot that he could stay with him as he had been cleared through his CAS and shortly after the aircraft entered CAS.The controller had to co-ordinate with Bristol radar as they had 2 inbound IFR aircraft (from north and west) that would be near the subject aircraft's track. The subject aircraft had already been observed climbing to 2.9A (his mode C was verified), which was not in compliance with his clearance. The Bristol controller was advised to keep one ofthe aircraft above 4A until clear of Cardiff CTR. The subject aircraft was no longer answering calls, had squawked 7000, and climbed to 3A whilst still in the CTR - no further contact was made. Further co-ordination was required with Bristol for the IFR traffic from BCN. Shobdon were requested to get the pilot to contact Cardiff ATC on arrival.
200504545	09/06/2005	EGTT : London (FIR)	Aylesbury	0.5 E	G	ATZ	OTHER	Reciprocating	1	UK AIRPROX 85/2005 - Microlight and Spitfire 0.5nm East of Aylesbury at 1000ft.	

200504545	09/06/2005	EGTT : London (FIR)	Aylesbury	0.5 E	G	ATZ	SUPERMARINE	Reciprocating	1	UK AIRPROX 85/2005 - Microlight and Spitfire 0.5nm East of Aylesbury at 1000ft.	
200504618	12/06/2005	EGTT : London (FIR)	London City - LCY	10nm	A	TMA	AVIONS ROBIN	Reciprocating	1	Infringement of the LTMA by a DR400. Separation lost witha Fokker 50 inbound to London City. Traffic information and avoiding action passed to the Fokker 50.	Investigation established that DR400 pilot had incorrect QNH selected and that pilot subsequently discussed the incident with ATC and apologised for his actions. CAA have given appropriate advice to the DR400 pilot.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200504618	12/06/2005	EGTT : London (FIR)	London City - LCY	10nm	A	TMA	FOKKER	Turboprop	2	Infringement of the LTMA by a DR400. Separation lost witha Fokker 50 inbound to London City. Traffic information and avoiding action passed to the Fokker 50.	Investigation established that DR400 pilot had incorrect QNH selected and that pilot subsequently discussed the incident with ATC and apologised for his actions. CAA have given appropriate advice to the DR400 pilot.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200504621	14/06/2005	EGTT : London (FIR)	Stansted	SW	D	CTA	PIPER	Reciprocating	1	PA28 inbound to Stansted infringed the Stansted CTA (Class D). Standard separation maintained.	
200504648	19/06/2005	EGTT : London (FIR)	Southampton (SAM)	8NNW	D	CTA	CESSNA	Reciprocating	1	UK AIRPROX 88/2005 - C152 and a DHC8, 8nm NNW of Southampton, at approx 3500ft within the Solent CTA (Class D).	Airspace infringement by C152, which flew into CAS without a clearance and then into conflict with the DHC8 (which the pilot did not see). DHC8 received a TCAS TA. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB), see UKAB report 88/2005.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.

200504648	19/06/2005	EGTT : London (FIR)	Southampton (SAM)	8NNW	D	CTA	DE HAVILLAND	Turboprop	2	UK AIRPROX 88/2005 - C152 and a DHC8, 8nm NNW of Southampton, at approx 3500ft within the Solent CTA (Class D).	Airspace infringement by C152, which flew into CAS without a clearance and then into conflict with the DHC8 (which the pilot did not see). DHC8 received a TCAS TA. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB), see UKAB report 88/2005.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200504705	20/06/2005	EGTT : London (FIR)	London City - LCY	2NE	D	CTR	MORANE SAULNIER	Reciprocating	1	Alleged infringement of London City CTR (Class D) by Raleigh at unspecified altitude (no Mode C), 2nm Northeast of London City. Traffic info and avoiding action issued to inbound Fokker 50.	Fokker 50 broken off of approach as a precaution. Appropriate CAA action has been taken as a result of this incident.
200504705	20/06/2005	EGTT : London (FIR)	London City - LCY	2NE	D	CTR	FOKKER	Turboprop	2	Alleged infringement of London City CTR (Class D) by Raleigh at unspecified altitude (no Mode C), 2nm Northeast of London City. Traffic info and avoiding action issued to inbound Fokker 50.	Fokker 50 broken off of approach as a precaution. Appropriate CAA action has been taken as a result of this incident.
200504719	19/06/2005	EGTT : London (FIR)	London City - LCY	15ENE	A	TMA	BEECH	Reciprocating	1	Alleged infringement of LTMA (Class A) by BE35 at FL70, 15nm ENE of London City.	Appropriate CAA action has been taken as a result of thisincident.
200504721	19/06/2005	EGTT : London (FIR)	London-Heathrow - LHR	SW	A	CTR	PIPER	Reciprocating	1	Infringement of South West corner of London CTR (Class A)by PA28 at 3000ft. Heathrow inbound a/c descent stopped and appropriate vectors issued to avoid potential conflict.	See also 200103504 and 200409486. Subsequent investigation confirmed that, as a result of this infringement, separation was lost with a B767 and that the STCA was activated.Pilot subsequently admitted to infringement and apologised for his actions. PA28 entered CAS while taking avoiding action against other light a/c. Following this incident, pilot is planning a greater margin between his track and CAS.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.

200504745	19/06/2005	EGTT : London (FIR)	Glossop	1 W	D	CTR	BELL	Turboshaft	1	Infringement of the Manchester CTR (Class D) by a Bell 206. Traffic info was given to the Bell 206 and a B777 established on R/W24R ILS. Standard separation maintained.	Bell 206 called ATC requesting clearance through the Zone. A return was observed on radar approximately 1nm West ofGlossop tracking Northwest. ATC requested Bell 206's level and told it to take up a LH orbit. Traffic info was given to the Bell 206 and a B777 established on R/W24R ILS. Bell 206 reported visual with B777, but appeared to continuetracking Northwest. Bell 206 was again instructed to orbit left, which it did and was then given a VFR clearance toposition behind the B777.
200504745	19/06/2005	EGTT : London (FIR)	Glossop	1 W	D	CTR	BOEING	Turbofan	2	Infringement of the Manchester CTR (Class D) by a Bell 206. Traffic info was given to the Bell 206 and a B777 established on R/W24R ILS. Standard separation maintained.	Bell 206 called ATC requesting clearance through the Zone. A return was observed on radar approximately 1nm West ofGlossop tracking Northwest. ATC requested Bell 206's level and told it to take up a LH orbit. Traffic info was given to the Bell 206 and a B777 established on R/W24R ILS. Bell 206 reported visual with B777, but appeared to continuetracking Northwest. Bell 206 was again instructed to orbit left, which it did and was then given a VFR clearance toposition behind the B777.
200504798	22/06/2005	EGTT : London (FIR)	EXMOR	S	A		CESSNA	Reciprocating	1	Infringement of Airway N864 (Class A) by a C172. Traffic info and avoiding action given to an IFR Beech 76. Standard separation maintained.	C172 pilot subsequently admitted to infringement, which was attributed to a/c climbing to maintain VMC conditions. Pilot apologised for his actions.☐ CAA Closure: The hazardis adequately controlled by the actions stated above.
200504798	22/06/2005	EGTT : London (FIR)	EXMOR	S	A		BEECH	Reciprocating	2	Infringement of Airway N864 (Class A) by a C172. Traffic info and avoiding action given to an IFR Beech 76. Standard separation maintained.	C172 pilot subsequently admitted to infringement, which was attributed to a/c climbing to maintain VMC conditions. Pilot apologised for his actions.☐ CAA Closure: The hazardis adequately controlled by the actions stated above.
200504854	22/06/2005	EGTT : London (FIR)	London-Heathrow - LHR		A	CTR	PIPER	Reciprocating	1	PA28 infringed the London CTR (Class A) and came into conflict with a B767.	CAA have given appropriate advice to the PA28 pilot.☐ CAAClosure: The hazard is adequately controlled by the actions stated above.

200504854	22/06/2005	EGTT : London (FIR)	London-Heathrow - LHR		A	CTR	BOEING	Turbofan	2	PA28 infringed the London CTR (Class A) and came into conflict with a B767.	CAA have given appropriate advice to the PA28 pilot. ☐ CAAClosure: The hazard is adequately controlled by the actions stated above.
200504865	21/06/2005	EGTT : London (FIR)	Shoeburyness		G	Danger area	PIPER	Reciprocating	1	Infringement of active Danger Areas D138A/D138 by a PA28.Investigations continue under occ 200504473.	Investigations indicate that the pilot was unaware of danger area status, how they are promulgated or how they are activated and Notamed. The CAA has sent a letter to the pilot suggesting further navigation training.
200504885	23/06/2005	EGTT : London (FIR)	Bovingdon (BNN)		A	TMA	CIRRUS	Reciprocating	1	Infringement of the London TMA (Class A) by a SR22. Lutonand Heathrow traffic was stopped. An a/c departing Heathrow reported visual with SR22.	Technical loss of separation with an airliner outbound from Heathrow. STCA activated. Subsequent investigation attributed infringement to pilot being severely distracted by his passenger's sudden medical condition. This distractionwas further compounded by a temporary failure of the primary flight display (PFD). Pilot has apologised for his actions and been given appropriate advice. ☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200504885	23/06/2005	EGTT : London (FIR)	Bovingdon (BNN)		A	TMA	UNKNOWN	Unknown		Infringement of the London TMA (Class A) by a SR22. Lutonand Heathrow traffic was stopped. An a/c departing Heathrow reported visual with SR22.	Technical loss of separation with an airliner outbound from Heathrow. STCA activated. Subsequent investigation attributed infringement to pilot being severely distracted by his passenger's sudden medical condition. This distractionwas further compounded by a temporary failure of the primary flight display (PFD). Pilot has apologised for his actions and been given appropriate advice. ☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200504906	25/06/2005	EGTT : London (FIR)	Cardiff (CDF)	4 N	D	CTR	CESSNA	Reciprocating	1	Infringement of the Cardiff CTR (Class D) by a C150. Standard separation maintained. Pilot apologised for the incident.	See also occ 200102966.

200504909	22/06/2005	EGTT : London (FIR)	Manchester (MCT)	28 NE	A		CESSNA	Reciprocating	1	Alleged infringement of the Manchester CTA (Class A) by aC172. Standard separation maintained.	
200504916	22/06/2005	EGTT : London (FIR)	Birmingham	1.5E	D	CTR	AVIONS ROBIN	Reciprocating	1	Alleged infringement of the Birmingham CTR (Class D) by an HR200. Birmingham departures were stopped.	Several attempts have been made to contact the HR200 operator. However, as at 1 Mar 2006, no response had been received. □ CAA Closure: No further CAA action practicable.
200504924	23/06/2005	EGTT : London (FIR)	Stansted	4 E	D	CTR	PIPER	Reciprocating	1	PA28 infringed the Stansted CTR/CTA (Class D) resulting in an inbound B737 and A319 being broken off the approach and repositioned. Standard separation maintained.	Appropriate follow up action has been taken as a result of this infringement.
200504924	23/06/2005	EGTT : London (FIR)	Stansted	4 E	D	CTR	BOEING	Turbofan	2	PA28 infringed the Stansted CTR/CTA (Class D) resulting in an inbound B737 and A319 being broken off the approach and repositioned. Standard separation maintained.	Appropriate follow up action has been taken as a result of this infringement.
200504925	22/06/2005	EGTT : London (FIR)	Elstree		A	TMA	OTHER	Reciprocating	1	Infringement of Class A airspace by microlight, resulted in loss of separation with a F900 at 3000ft.	A microlight infringed the London TMA and came into conflict with the F900. The F900 crew had sight of the infringing microlight, which passed the F900 in the opposite direction, about 200ft above and to the left hand side. The microlight was not transponding and could not be traced. □ CAA Closure: No further CAA action practicable.

200504925	22/06/2005	EGTT : London (FIR)	Elstree		A	TMA	DASSAULT	Turbofan	3	Infringement of Class A airspace by microlight, resulted in loss of separation with a F900 at 3000ft.	A microlight infringed the London TMA and came into conflict with the F900. The F900 crew had sight of the infringing microlight, which passed the F900 in the opposite direction, about 200ft above and to the left hand side. The microlight was not transponding and could not be traced. □ CAA Closure: No further CAA action practicable.
200504966	26/06/2005	EGTT : London (FIR)	Honiley (HON)		D	CTR	OTHER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a microlight. Traffic information given to an inbound EMB 145.	
200504966	26/06/2005	EGTT : London (FIR)	Honiley (HON)		D	CTR	EMBRAER	Turbofan	2	Infringement of the Birmingham CTR (Class D) by a microlight. Traffic information given to an inbound EMB 145.	
200504967	26/06/2005	EGTT : London (FIR)	Honiley (HON)	6 W	D	CTR	BEAGLE	Reciprocating	1	B121 infringed the Birmingham CTR (Class D). B121 called Birmingham and was vectored to the East of the approach. When safe B121 was told to resume own navigation. Standard separation maintained.	
200504985	20/06/2005	EGTT : London (FIR)	Lulworth		G	Danger area	PIPER	Reciprocating	1	Infringement of active Danger Area EGD 026 (Lulworth) by a PA28 at 1800ft. Live firing activities had to be stoppedfor 10mins.	The controller involved had just taken over the APR position. The traffic level was reported as moderately busy. The pilot of the PA28 called for a FIS whilst routeing from Compton Abbas towards Wareham and Corfe Castle (SW of Bournemouth and outside of their CTR). The pilot requested theactivity state of D026 and the controller checked her information strip. This advised that D031 was active but had nothing indicated in respect of D026. The pilot was advised that there was 'no reported activity'. The PA28 was operating VFR and, at times, below radar cover and so the infringement was not observed by Bournemouth ATC. Shortly afterwards, the range authorities advised ATC that firing had been stopped. Investigations revealed that ATC had been advised, at 0820, that D026 was active between 0930-1700. Although the UK AIP states that the range is active from 0800-2259, Bournemouth is not promulgated as a DAAIS as London Information fulfils this role. Additionally, pre-flight information can be obtained from Plymouth Operations. Procedures have been revised at Bournemouth to ensure that such activity is displayed prominently to controllers. However, this does not replace the fundamental requirement that the pilot must ascertain the activity state from the promulgated sources. Appropriate ATC action taken.□ CAA Closure: The hazard is adequately controlled by the actions stated above.

200505037	26/06/2005	EGTT : London (FIR)	Redhill		G	ATZ	PIPER	Reciprocating	1	PA28 called ATC but, due to workload, was told to standby. PA28 subsequently entered ATZ (Class G) without a clearance. Traffic info was given to a/c in the circuit.	CAA have written to the PA28 pilot to highlight the requirement to be certain of ATC clearance before proceeding.□ CAA Closure: The hazard is adequately controlled by the actions stated above.
200505094	29/06/2005	EGTT : London (FIR)	Durham Tees Valley (TD)		D	CTR	RANS	Reciprocating	1	Alleged infringement of the Durham Tees Valley (TD) CTR/CTA (Class D) by a microlight flying with another a/c. Traffic info given to inbound a/c. Standard separation maintained.	Microlight flying with another a/c level 1500ft at Northallerton VRP called ATC requesting zone crossing. Nothing was seen at Northallerton so microlight was asked to standby, due to inbound traffic and lack of radar contact. Microlight then requested a routeing not above 1000ft to remainclear of CAS. Traffic info was passed to inbound a/c. Subsequently a contact was observed Northeast of Durham Tees Valley (TD), which was believed to be the microlight and other a/c.
200505115	27/06/2005	EGTT : London (FIR)	Honiley (HON)	2 SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a PA28 receiving a FIS. PA28 was transferred to Birmingham Approachand identified. Standard separation maintained.	
200505206	01/07/2005	EGTT : London (FIR)	London City - LCY		D	CTA	CESSNA	Reciprocating	1	C172 infringed the London City CTR (Class D) and came into conflict with an inbound FK50. FK50 was given traffic info and obtained the C172 visually. SMF and STCA activated.	Appropriate CAA action is being taken as a result of thisincident.
200505206	01/07/2005	EGTT : London (FIR)	London City - LCY		D	CTA	FOKKER	Turboprop	2	C172 infringed the London City CTR (Class D) and came into conflict with an inbound FK50. FK50 was given traffic info and obtained the C172 visually. SMF and STCA activated.	Appropriate CAA action is being taken as a result of thisincident.

200505252	02/07/2005	EGTT : London (FIR)	STAF A		A		CESSNA	Reciprocating	1	Infringement of Daventry CTA (Class A) by a C152 at FL65.Pilot believed a/c to be at FL55. Transponder fault.	Mode C check, carried out during next flight by another ATC unit, confirmed transponder malfunction. Fault traced to a defective height encoder (p/n D.120), which has been changed.□ CAA Closure: The hazard is adequately controlled by the actions stated above.
200505304	04/07/2005	EGTT : London (FIR)	Luton (LUT)	6NE	D	CTR		Reciprocating	1	Infringement of Luton CTR (Class D) by a Schweizer 269C at 1700ft, 6nm Northeast of Luton. Three inbound a/c delayed by extra vectoring to avoid a/c. Pilot apologised. Attributed to weather avoidance.	Helicopter also infringed the Stansted CTA. The pilot subsequently apologised stating that he had encountered very bad weather and was inexperienced. He stated that he had the relevant RT frequencies written down but dealing with the weather conditions absorbed all of his time. Appropriate advice was passed to the pilot concerned.
200505310	03/07/2005	EGTT : London (FIR)	Honiley (HON)	Nr	A		PIPER	Reciprocating	1	Infringement of Airway (Class A) by PA28 at FL55 in vicinity of HON. Avoiding action and traffic info issued to B737 within Airway. B737 visual with PA28.	
200505310	03/07/2005	EGTT : London (FIR)	Honiley (HON)	Nr	A		BOEING	Turbofan	2	Infringement of Airway (Class A) by PA28 at FL55 in vicinity of HON. Avoiding action and traffic info issued to B737 within Airway. B737 visual with PA28.	
200505313	03/07/2005	EGTT : London (FIR)	Midhurst (MID)	4SW	A	TMA	BEECH	Reciprocating	1	Infringement of LTMA (Class A) by BE36 at FL60, 4nm Southwest of Midhurst. ATC gave BE36 appropriate instructions to vacate CAS. No other a/c affected.	See also occ 200106772.

200505315	30/06/2005	EGTT : London (FIR)	Farnborough	1.2N	G	ATZ	CESSNA	Reciprocating	1	Alleged infringement of Farnborough ATZ (Class G) by unidentified C172, 1.2nm North of Farnborough. Traffic info passed to Westbound helicopters. Biggin Hill ATC also advised as a precaution.	
200505321	29/06/2005	EGTT : London (FIR)	Farnborough	0.5N	G	ATZ	CESSNA	Reciprocating	1	Alleged infringement of Farnborough ATZ (Class G) by two unidentified C152s at 2000ft, 1/2nm North of Farnborough. Traffic info passed to departing helicopter.	
200505321	29/06/2005	EGTT : London (FIR)	Farnborough	0.5N	G	ATZ	CESSNA	Reciprocating	1	Alleged infringement of Farnborough ATZ (Class G) by two unidentified C152s at 2000ft, 1/2nm North of Farnborough. Traffic info passed to departing helicopter.	
200505325	01/07/2005	EGTT : London (FIR)	Durham Tees Valley (TD)	1W	D	CTR	PIPER	Reciprocating	1	Infringement of Durham Tees Valley CTR (Class D) by PA28 at 2000ft, 1nm West of Durham Tees Valley. ATC had been advised of possible infringement by Military ATC. No other a/c affected.	
200505353	02/07/2005	EGTT : London (FIR)	Gloucester-Staverton		G		CESSNA	Reciprocating	1	Alleged infringement of Gloucester ATZ (Class G) by unidentified a/c, possibly C150, at 1000ft 1nm East of airfield. Traffic info passed to C402 on approach.	

200505353	02/07/2005	EGTT : London (FIR)	Gloucester-Staverton		G		CESSNA	Reciprocating	2	Alleged infringement of Gloucester ATZ (Class G) by unidentified a/c, possibly C150, at 1000ft 1nm East of airfield. Traffic info passed to C402 on approach.	
200505400	06/07/2005	EGTT : London (FIR)	Luton (LUT)	5NE	D	CTR	CESSNA	Reciprocating	1	C152 infringed the Luton CTR (Class D) and lost separation with an inbound ATR72, who was given traffic info and avoiding action.	Pilot has subsequently discussed the event with his localflying instructor, and has been reminded of the importance of accurate navigation, especially around controlled airspace.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200505400	06/07/2005	EGTT : London (FIR)	Luton (LUT)	5NE	D	CTR	ATR	Turboprop	2	C152 infringed the Luton CTR (Class D) and lost separation with an inbound ATR72, who was given traffic info and avoiding action.	Pilot has subsequently discussed the event with his localflying instructor, and has been reminded of the importance of accurate navigation, especially around controlled airspace.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200505451	05/07/2005	EGTT : London (FIR)	Ascot		A	CTR	GRUMMAN	Reciprocating	1	Alleged infringement of London CTR (Class A) by an AA5 receiving a FIS. Standard separation maintained.	See also occ 200505462.
200505462	04/07/2005	EGTT : London (FIR)	London-Gatwick - LGW	SW	D	CTR	GRUMMAN	Reciprocating	1	Infringement of Gatwick CTR/CTA (Class D) by an AA5 receiving a FIS. Separation lost with a departing B757.	The instructor misidentified Dunsfold for Lasham and apologised for the error. See also 200505451.☐ CAA Closure: Nofurther CAA action practicable.

200505462	04/07/2005	EGTT : London (FIR)	London-Gatwick - LGW	SW	D	CTR	BOEING	Turbofan	2	Infringement of Gatwick CTR/CTA (Class D) by an AA5 receiving a FIS. Separation lost with a departing B757.	The instructor misidentified Dunsfold for Lasham and apologised for the error. See also 200505451.☐ CAA Closure: Nofurther CAA action practicable.
200505466	09/07/2005	EGTT : London (FIR)	Halton	1E	G	ATZ	OTHER	Unknown		UK AIRPROX 106/2005 - Military glider and an AS350B at 1000ft, 1nm East of Halton. Both a/c took evasive action (LHturns).	Investigation established that the AS350B pilot entered the Halton ATZ without receiving an appropriate response tohis request and then came into conflict with the militaryglider. Non-compliance with the relevant procedures.☐ CAAClosure: No further CAA action required at this time. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB). See UKAB Report 106/05.
200505466	09/07/2005	EGTT : London (FIR)	Halton	1E	G	ATZ	AEROSPATIALE	Turboshaft	1	UK AIRPROX 106/2005 - Military glider and an AS350B at 1000ft, 1nm East of Halton. Both a/c took evasive action (LHturns).	Investigation established that the AS350B pilot entered the Halton ATZ without receiving an appropriate response tohis request and then came into conflict with the militaryglider. Non-compliance with the relevant procedures.☐ CAAClosure: No further CAA action required at this time. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB). 200505473	02/07/2005	EGTT : London (FIR)	Stansted	7 W	D	CTR	PIPER	Reciprocating	1	PA32 allegedly infringed the Stansted CTR (Class D). Departing B737 was given traffic info and avoiding action. PA32 did not come into close proximity with B737, but 5nms separation was not achieved.	See also 200705044, 200607544, 200607334 and 200604321.
200505473	02/07/2005	EGTT : London (FIR)	Stansted	7 W	D	CTR	BOEING	Turbofan	2	PA32 allegedly infringed the Stansted CTR (Class D). Departing B737 was given traffic info and avoiding action. PA32 did not come into close proximity with B737, but 5nms separation was not achieved.	See also 200705044, 200607544, 200607334 and 200604321.

200505476	10/07/2005	EGTT : London (FIR)	London-Heathrow - LHR		A	Restricted area	PIPER	Reciprocating	1	Infringement of London City CTR (Class D) and then Heathrow CTR (Class A) by PA28 at 2000ft resulted in both LondonCity and Heathrow departures being stopped.	PA28 also infringed London TRA. A/c followed and subsequently identified by a Police helicopter. Pilot allegedly distracted by operating recently installed GPS equipment. See also 200504211 (same a/c) and 200505451, 200505462 and 200505499 (same operator). CAA Closure: Appropriate CAA action is being taken as a result of this incident.
200505491	10/07/2005	EGTT : London (FIR)	Honiley (HON)		D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a DR400. An a/c was broken off the approach for ILS R/W33 and traffic info given to a B737. Pilot phoned and apologised for the incident.	Pilot of the infringing DR400 phoned to apologise and explain that the a/c's satellite navigation was set up on high level, also that he had turned to avoid the B737. It was pointed out to the pilot that as soon as he realised that he had infringed CAS he should have called on the appropriate frequency.
200505496	10/07/2005	EGTT : London (FIR)	London-Gatwick - LGW	10 S	A	TMA	CESSNA	Reciprocating	1	Alleged infringement of the London TMA (Class A) by a C206. A/c being vectored for ILS approaches on R/W08R were given additional headings, but separation was lost.	
200505499	11/07/2005	EGTT : London (FIR)	London-Gatwick - LGW	7W	D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by C172 at 1600ft, 7nm West of Gatwick. Traffic info passed to inbound A320 which was then broken off approach. Separation lost.	Additionally, C172 had selected the incorrect SSR code (3435 instead of 0435). Pilot had become distracted by a problem with the comms and navigation equipment and, by the time the problem was resolved, a/c had infringed the Gatwick CTR. Pilot has been reminded of the serious consequences of infringing controlled airspace. See also 200406769. CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200505499	11/07/2005	EGTT : London (FIR)	London-Gatwick - LGW	7W	D	CTR	AIRBUS	Turbofan	2	Infringement of the Gatwick CTR (Class D) by C172 at 1600ft, 7nm West of Gatwick. Traffic info passed to inbound A320 which was then broken off approach. Separation lost.	Additionally, C172 had selected the incorrect SSR code (3435 instead of 0435). Pilot had become distracted by a problem with the comms and navigation equipment and, by the time the problem was resolved, a/c had infringed the Gatwick CTR. Pilot has been reminded of the serious consequences of infringing controlled airspace. See also 200406769. CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.

200505501	09/07/2005	EGTT : London (FIR)	BRAIN		A	TMA	UNKNOWN	Reciprocating	1	Alleged infringement of the London TMA (Class A) by a Katana. A Stansted departure was given vectors around the Katana.	See also 200505613. Foreign Authority requested to provide further information but, as at 17 Jan 2006, had not done so. □ CAA Closure: No further CAA action practicable due to elapsed time.
200505501	09/07/2005	EGTT : London (FIR)	BRAIN		A	TMA	UNKNOWN	Unknown		Alleged infringement of the London TMA (Class A) by a Katana. A Stansted departure was given vectors around the Katana.	See also 200505613. Foreign Authority requested to provide further information but, as at 17 Jan 2006, had not done so. □ CAA Closure: No further CAA action practicable due to elapsed time.
200505502	09/07/2005	EGTT : London (FIR)	Stansted	4	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR/CTA (Class D) by a PA32.Stansted departures were stopped.	Pilot subsequently admitted to infringement and apologised for his actions. This was the first time that the pilot had flown in England, which contributed to navigational difficulties. He has been reminded of the importance of adequate pre-flight planning. □ CAA Closure: The hazard is adequately controlled by the actions stated above.
200505503	09/07/2005	EGTT : London (FIR)	Newmills		D	CTA	CESSNA	Reciprocating	1	C172 requested transit through Manchester's airspace and told to standby and remain outside CAS. Subsequently C172 was identified inside Manchester CTA and given appropriate headings.	
200505512	09/07/2005	EGTT : London (FIR)	Luton (LUT)	6 W	D	CTR	AVIONS ROBIN	Reciprocating	1	DR400 called ATC and was told to standby, but subsequently infringed the Luton CTR (Class D). Traffic info and avoiding action was given to an inbound B737. Pilot phoned and acknowledged the error.	

200505512	09/07/2005	EGTT : London (FIR)	Luton (LUT)	6 W	D	CTR	BOEING	Turbofan	2	DR400 called ATC and was told to standby, but subsequently infringed the Luton CTR (Class D). Traffic info and avoiding action was given to an inbound B737. Pilot phoned andacknowledged the error.	
200505557	10/07/2005	EGTT : London (FIR)	Durham Tees Valley (TD)	4 SW	D	CTR	UNKNOWN	Reciprocating	1	Multiple infringements of the Durham Tees Valley CTR/CTA (Class D) between 1245-1445hrs, by microlights (10+) taking part in a rally held at Great Smeaton. Separation lost.	Traffic info and avoiding action was given to inbound traffic. The event was not notified to Durham Tees Valley ATC.
200505557	10/07/2005	EGTT : London (FIR)	Durham Tees Valley (TD)	4 SW	D	CTR	UNKNOWN	Unknown		Multiple infringements of the Durham Tees Valley CTR/CTA (Class D) between 1245-1445hrs, by microlights (10+) taking part in a rally held at Great Smeaton. Separation lost.	Traffic info and avoiding action was given to inbound traffic. The event was not notified to Durham Tees Valley ATC.
200505571	12/07/2005	EGTT : London (FIR)	Rochester	5 S			CESSNA	Reciprocating	1	D&D Cell Report: Aircraft observed to squawk 7600 (radio failure).	A radio failure squawk was observed 5nm south of Rochester, southbound, with NMC. The subject aircraft had departedRochester a few minutes earlier with known R/T problems, en-route to Blackbushe. Attempts made to contact the aircraft on 121.5MHz were unsuccessful. TC Sup, Swanwick (Mil) Sup and the Boulmer Surveillance Director were all informed. The subject aircraft penetrated Heathrow Zone in the south eastern corner by 3nm before turning back out. Surrey Police Air Support Unit were launched to follow the aircraft and landed with it at Blackbushe at 1721hrs. The D&D controller reported the content of a conversation that he had had with the CFI at Blackbushe, once he had identified the aircraft and its destination. It transpires that the pilot of the subject aircraft was a solo student who had diverted into Rochester with an R/T failure earlier in the day. The student had spoken to the CFI on the phone from Rochester, and the CFI had advised him to get airborne from Rochester, squawking 3A 7600 and to route between the Gatwick and Heathrow Zones. From the ground track that the aircraft had flown, it seemed to the D&D controller that the student pilot got lost on the way back to Blackbushe. The aircraft tracked towards Biggin Hill, turned north-westerlytowards Croydon, before turning southwest towards Kenley.Approaching Kenley, the aircraft then turned back onto north and entered the Heathrow Zone. No action, student pilot lost. D&D spoke to CFI. ☐ CAA Closure: No further CAA action practicable.
200505607	13/07/2005	EGTT : London (FIR)	Stansted	6	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C172. An inbound a/c was passed traffic info and broken off the approach to be repositioned. Standard separation maintained.	CAA have written to the pilots concerned and offered appropriate advice.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.

200505607	13/07/2005	EGTT : London (FIR)	Stansted	6	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a C172. An inbound a/c was passed traffic info and broken off the approach to be repositioned. Standard separation maintained.	CAA have written to the pilots concerned and offered appropriate advice.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200505611	11/07/2005	EGTT : London (FIR)	London-Heathrow - LHR		A	CTR	CESSNA	Reciprocating	1	Infringement of London CTR (Class A) by student pilot in a C152 that had an RT failure. Police helicopter was sent to track/escort C152 to its destination. Heathrow departures were stopped for 6mins.	See also 200504648.☐ CAA Closure: No further CAA action practicable due to elapsed time.
200505613	11/07/2005	EGTT : London (FIR)	Lulworth		G	Danger area	OTHER	Reciprocating	1	Alleged infringement of the active Danger Area EG D026 (Lulworth) by a Katana at 1600ft. Firing was stopped for 5mins.	Investigation progressed under 200505501.
200505635	13/07/2005	EGTT : London (FIR)	Nottingham East Midlands	12 E	D	CTA	PIPER	Reciprocating	1	Infringement of the Nottingham East Midlands CTR/CTA (Class D) by PA28. An A340 and an A319 doing visual circuits were both given tactical headings to remain clear of PA28. Pilot apologised.	
200505637	08/06/2005	EGTT : London (FIR)	Bournemouth		D	CTR	CESSNA	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a C172 that also blocked frequency and subsequently squawked 'RT fail'.	Frequency 119.475 was blocked by a permanent transmissioninitially thought to be an a/c on the ground. An unknown 7000 squawk was then observed tracking North/Northwest. Traffic info was given to an a/c which reported visual with the unknown traffic, a C172, which then turned onto final approach at approximately 6nms until 4nm, where it turned North and routed out of the CTR. C172 subsequently squawked 'RT fail' and was tracked to its destination, where ATC also reported that a/c blocked their frequency. The pilot telephoned Bournemouth ATC after landing at his destination to discuss and apologise for the incident.☐ CAA Closure:The hazard is adequately controlled by existing requirements, procedures and documentation.

200505694	15/07/2005	EGTT : London (FIR)	White Waltham	E	A	CTR	EUROPA	Reciprocating	1	Alleged infringement of the London CTR (Class A) by a Europa. Heathrow South and Westbound departures were stopped for 2mins. Standard separation maintained.	Several attempts have been made to contact the Europa operator. However, as at 1 Mar 2006, no response had been received.☐ CAA Closure: No further CAA action practicable.
200505732	17/07/2005	EGTT : London (FIR)	LISTO		A		CIRRUS	Reciprocating	1	Infringement of the Daventry CTA (Class A) and Airway N864 by an SR20.	Pilot suspects that a possible incorrect QNH setting contributed to the infringement of the Daventry CTA. SR20 was reported between 4600-4900ft (CAS base is FL45) and, although pilot claims not to have climbed above 4500ft, he concedes that an incorrect QNH setting would account for the discrepancy. The transponder has been removed from the a/c to be recalibrated as a precaution. Pilot admitted that, despite being familiar with the area, Airway N684 was infringed and has apologised for both incidents. See also 200709598, 200704916, 200606229, 200606150 and 200504706.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200505734	17/07/2005	EGTT : London (FIR)	ORTAC		A		CESSNA	Reciprocating	1	Alleged infringement of Airway N866 (Class A) and the Jersey Zone (Class A) by a C172. Standard separation maintained. Traffic information given.	
200505734	17/07/2005	EGTT : London (FIR)	ORTAC		A		BRITTEN NORMAN	Reciprocating	3	Alleged infringement of Airway N866 (Class A) and the Jersey Zone (Class A) by a C172. Standard separation maintained. Traffic information given.	
200505739	17/07/2005	EGTT : London (FIR)	Stansted	6SE	A	TMA	CESSNA	Reciprocating	1	Infringement of London TMA (Class A) and the Stansted CTR/CTA (Class D) by a C172. All Stansted departures were stopped. Standard separation maintained.	Investigation ascertained that infringement was caused by a navigation error by the C172 pilot, who subsequently apologised for his actions.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.

200505740	16/07/2005	EGTT : London (FIR)	Stansted	6SW	D	CTA	OTHER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a microlight. Departures were stopped and a B737 carrying out a go-around was turned early to maintain separation with the infringer.	CAA have reminded microlight pilot of the requirement for careful pre-flight planning. <input type="checkbox"/> CAA Closure: The hazard is adequately controlled by the actions stated above.
200505740	16/07/2005	EGTT : London (FIR)	Stansted	6SW	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a microlight. Departures were stopped and a B737 carrying out a go-around was turned early to maintain separation with the infringer.	CAA have reminded microlight pilot of the requirement for careful pre-flight planning. <input type="checkbox"/> CAA Closure: The hazard is adequately controlled by the actions stated above.
200505742	16/07/2005	EGTT : London (FIR)	Stansted		D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a Robin 400 at 3400ft. All Stansted departures were stopped as a/c passed overhead the airfield.	Robin 400 pilot subsequently admitted to infringement and apologised for his actions. Pilot had incorrectly assumed that London FIR were assisting with navigation, as opposed to providing a FIS, and he has been reminded of the importance of adequate pre-flight planning. <input type="checkbox"/> CAA Closure: The hazard is adequately controlled by the actions stated above.
200505794	11/07/2005	EGTT : London (FIR)	Durham Tees Valley (TD)	8 SW	D	CTA	OTHER	Unknown		UK AIRPROX 118/2005 - PA28 and military jet, 6nms Southwest of Teesside at 2000ft.	Separation lost when a military a/c climbed through the level of a PA28. Traffic info given. The UKAB review of this AIRPROX concluded that it was a controller perceived conflict. A UKAB recommendation was made as a result of the AIRPROX. <input type="checkbox"/> CAA Closure: No further CAA action required. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB)
200505794	11/07/2005	EGTT : London (FIR)	Durham Tees Valley (TD)	8 SW	D	CTA	PIPER	Reciprocating	1	UK AIRPROX 118/2005 - PA28 and military jet, 6nms Southwest of Teesside at 2000ft.	Separation lost when a military a/c climbed through the level of a PA28. Traffic info given. The UKAB review of this AIRPROX concluded that it was a controller perceived conflict. A UKAB recommendation was made as a result of the AIRPROX. <input type="checkbox"/> CAA Closure: No further CAA action required. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB)

200505799	17/07/2005	EGTT : London (FIR)	Birmingham		D	CTR	ROBINSON	Reciprocating	1	Alleged infringement of Birmingham CTR/CTA (Class D) by aR44. Standard separation maintained.	
200505800	17/07/2005	EGTT : London (FIR)	Southampton (SAM)	4 N	D	CTA	CESSNA	Reciprocating	1	C152 became lost whilst taking part in a navigation exercise and infringed the Solent CTA (Class D). Pilot apologised. An outbound BAe146's take off was delayed until C152 had cleared the area.	
200505800	17/07/2005	EGTT : London (FIR)	Southampton (SAM)	4 N	D	CTA	BAE	Turbofan	4	C152 became lost whilst taking part in a navigation exercise and infringed the Solent CTA (Class D). Pilot apologised. An outbound BAe146's take off was delayed until C152 had cleared the area.	
200505806	09/07/2005	EGTT : London (FIR)	Stansted	4	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28. Alldepartures were stopped. Traffic info given.	The pilot subsequently contacted Stansted ATC after the event to apologise. He had been distracted by an emergency at Duxford and was trying to avoid the Duxford ATZ when hestrayed into the Stansted CTR.□ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200505822	17/07/2005	EGTT : London (FIR)	Woodley (WOD)		A	TMA	GRUMMAN	Reciprocating	1	AA5B infringed the LTMA (Class A) airspace at WOD at 3000feet.	The northbound a/c, which was working Farnborough, requested climb 10nm before Odiham to 3000 feet to pass over theOdiham ATZ. The climb was approved. In retrospect, the pilot appreciates that immediately after passing Odiham he should have descended back to 2000 feet to remain clear of CAS.

200505833	15/07/2005	EGTT : London (FIR)	Southampton (SAM)	10N	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28. Inbound DHC8 affected. Standard separation maintained. Traffic info given.	Pilot subsequently admitted to error and has undertaken appropriate re-training as a result of this incident.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200505833	15/07/2005	EGTT : London (FIR)	Southampton (SAM)	10N	D	CTA	DE HAVILLAND	Turboprop	2	Infringement of the Solent CTA (Class D) by a PA28. Inbound DHC8 affected. Standard separation maintained. Traffic info given.	Pilot subsequently admitted to error and has undertaken appropriate re-training as a result of this incident.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200505896	21/07/2005	EGTT : London (FIR)	Burnham	1 NW	A	CTR	PIPER	Reciprocating	1	Alleged infringement of the London CTR (Class A) by a PA28. PA28 subsequently contacted SVFR and was informed of its position. Traffic info was given.	
200505927	16/07/2005	EGTT : London (FIR)	Old Warden		G	ATZ	PIPER	Reciprocating	1	Alleged infringement of the Old Warden ATZ (Class G) by aPA32, shortly prior to commencement of a display.	
200505929	21/07/2005	EGTT : London (FIR)	Luton (LUT)		D	CTR	CESSNA	Reciprocating	1	Alleged infringement of Luton CTR (Class D) by C152 on PPL Skills Test with examiner on board. Examiner stated there was an 'inop' sticker on transponder, but did not noticethat ALT was switched on.	The Mode C of the C152, that allegedly infringed the Luton CTR (Class D), indicated between 3800ft and FL80. However, the examiner states that the maximum altitude the C152 reached was 3200ft in the Aylesbury Tring area.

200505973	25/07/2005	EGTT : London (FIR)	Stansted	6 NE	D	CTA	LANCAIR	Reciprocating	1	Alleged infringement of the Stansted CTR/CTA (Class D) bya Lancair. An inbound a/c was broken off intermediate approach. Traffic info given.	Lancair pilot subsequently provided his recollection of events and maintained that controlled airspace was not infringed. Unable to reconcile differing reports due to elapsed time involved.☐ CAA Closure: No further CAA action practicable.
200506043	13/07/2005	EGTT : London (FIR)	Blackbushe		G	ATZ	ROBINSON	Reciprocating	1	Alleged infringement of the Blackbushe ATZ by a R44. Conflict with a PA28 within the ATZ.	Farnborough ATC had been working the R44 and had instructed it to remain outside the Blackbushe ATZ. See also 200202058 and 200406064.☐ CAA Closure: Appropriate CAA action is being taken as a result of this incident.
200506043	13/07/2005	EGTT : London (FIR)	Blackbushe		G	ATZ	PIPER	Reciprocating	1	Alleged infringement of the Blackbushe ATZ by a R44. Conflict with a PA28 within the ATZ.	Farnborough ATC had been working the R44 and had instructed it to remain outside the Blackbushe ATZ. See also 200202058 and 200406064.☐ CAA Closure: Appropriate CAA action is being taken as a result of this incident.
200506046	23/07/2005	EGTT : London (FIR)	London-Heathrow - LHR		A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28. ATC informed PA28 of its position and gave a left turn to leaveCAS. Standard separation maintained.	
200506092	26/07/2005	EGTT : London (FIR)	Stansted	W	D	CTR	MOONEY	Reciprocating	1	An M20T infringed the Stansted CTR (Class D) at 1200ft. Airliner given extended routeing to avoid M20T. Pilot phoned and admitted making a navigational error. Appropriate advice given to pilot.	

200506110	29/07/2005	EGTT : London (FIR)	Luton (LUT)		D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 at 1500ft, West of Panshanger. Standard separation maintained. Pilot phoned and apologised, stating being lost and having the wrong frequency.	
200506118	28/07/2005	EGTT : London (FIR)	Dunstable	2N	D	CTR	GARDAN	Reciprocating	1	ATC had no RT contact with a Horizon that infringed the Luton CTR (Class D). Subsequently the Horizon landed at Dunstable Downs gliding site without any RT contact or prior notification.	Investigation established that confusion arose as a result of the main Luton frequency suffering from interference.The secondary frequency was in use, but the pilot was unable to establish contact. The CFI and Luton ATC have now clarified the procedures for a/c operating into Dunstable.CAA Closure: The hazard is adequately controlled by the actions stated above.
200506168	13/07/2005	EGTT : London (FIR)	Weston On The Green		G	Danger area	MOONEY	Reciprocating	1	Infringement of the active Danger Area EG D129 (Weston onthe Green) by an M20 at 2500ft. A/c flew across the drop zone whilst canopies were in the air and the Skyvan was descending.	See also 200506092, 200506598 and 200508204. M20 pilot has been given appropriate advice concerning remaining clearof CAS and the importance of adequate pre-flight planning.□ CAA Closure: The hazard is adequately controlled by theactions stated above.
200506184	31/07/2005	EGTT : London (FIR)	Luton (LUT)	3SW	D	CTA	PIPER	Reciprocating	1	Alleged infringement of Luton CTA (Class D) by PA28 at 2000ft, 3nm Southwest of Luton. Controller immediately checked all departures and gave PA28 a turn to leave CAS. Standard separation maintained.	Attempts to elicit a response from the pilot concerned have been unsuccessful. See also 200701766, 200701633, 200606754, 200606423, 200402304 and 200203925.□ CAA Closure: Nofurther CAA action practicable.
200506220	02/08/2005	EGTT : London (FIR)	London-Heathrow - LHR		A	CTR	PIPER	Reciprocating	1	Alleged infringement of the London CTR (Class A) by a PA24 at 1900ft. No other a/c affected.	

200506253	03/08/2005	EGTT : London (FIR)	Cardiff (CDF)		D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Cardiff CTR (Class D) by a PA28 at 2000ft. PA28 called Cardiff and was given a heading to leave CAS. No other a/c affected.	
200506298	07/08/2005	EGTT : London (FIR)	Burnham	NDB	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA46 at 2400ft overhead BUR. Northbound departures were stopped until PA46 left the zone. Traffic info and avoiding action given to A319.	Investigation ascertained that the PA46 had been cleared to leave CAS and freecall Farnborough, who were unable to offer a RIS due to workload. The pilot accepted a FIS and, upon gaining VMC, misidentified Maidenhead as Reading. When the pilot realised his error, he started to turn to leave CAS. Simultaneously, ATC contacted PA46 to advise of the infringement, to which pilot apologised and vacated CAS accordingly. □ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200506298	07/08/2005	EGTT : London (FIR)	Burnham	NDB	A	CTR	AIRBUS	Turbofan	2	Infringement of the London CTR (Class A) by a PA46 at 2400ft overhead BUR. Northbound departures were stopped until PA46 left the zone. Traffic info and avoiding action given to A319.	Investigation ascertained that the PA46 had been cleared to leave CAS and freecall Farnborough, who were unable to offer a RIS due to workload. The pilot accepted a FIS and, upon gaining VMC, misidentified Maidenhead as Reading. When the pilot realised his error, he started to turn to leave CAS. Simultaneously, ATC contacted PA46 to advise of the infringement, to which pilot apologised and vacated CAS accordingly. □ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200506326	07/08/2005	EGTT : London (FIR)	Old Warden		G	Restricted area	PIPER	Reciprocating	1	Alleged infringement of Old Warden Temporary ATZ by a PA28 at approximately 2000ft during a NOTAMed Air Display and whilst display was in progress. No R/T comms.	Display pilot reported curtailing a manoeuvre due to conflicting traffic, although this was believed to be a second unidentified PA28. Several attempts have been made to contact the identified PA28 operator. However, as at 30 Jan 2006, no responses had been received. □ CAA Closure: No further CAA action practicable.
200506343	05/08/2005	EGTT : London (FIR)	Stansted	8S	D	CTR	OTHER	Reciprocating	1	Motor glider infringed the Stansted CTR/CTA (Class D) at 2700ft. Westbound departures were stopped for duration of infringement. Pilot apologised for incident and was given appropriate advice.	

200506353	07/08/2005	EGTT : London (FIR)	Burnham		A	TMA	CESSNA	Reciprocating	1	Alleged infringement of the London TMA (Class A) by C182 at 5000ft. All Northbound departures were stopped until the a/c cleared the climb out. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
200506374	07/08/2005	EGTT : London (FIR)	MIRSI	3 E	A	TMA	CESSNA	Reciprocating	1	Alleged infringement of the Manchester TMA (Class A) by aC172 at 5000ft diverting into Blackpool. Standard separation maintained.	
200506421	09/08/2005	EGTT : London (FIR)	London-Gatwick - LGW	NE	A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA28 at 2800ft. Two a/c were vectored around the PA28. Standard separation maintained. Pilot phoned and apologised for the error.	Pilot inadvertently allowed his a/c to climb into CAS.
200506433	09/08/2005	EGTT : London (FIR)	Stansted	12NNE	A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA28 at 3800ft. Westbound departures stopped until a/c had cleared the area.	During the flight, the pilot realised that he had infringed the LTMA and so contacted ATC on landing. Pilot also subsequently discussed this event with his CFI, and is now fully aware of the airspace changes around this area.□ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200506481	11/08/2005	EGTT : London (FIR)	Stansted	10 NE	D	CTR	ROBINSON	Reciprocating	1	Alleged infringement of the Stansted CTR/CTA (Class D) byan R44. A B737 was given vectors to maintain standard separation.	Traffic information and avoiding action given. Three a/c were delayed. Appropriate CAA action is being taken as a result of this incident.

200506481	11/08/2005	EGTT : London (FIR)	Stansted	10 NE	D	CTR	BOEING	Turbofan	2	Alleged infringement of the Stansted CTR/CTA (Class D) byan R44. A B737 was given vectors to maintain standard separation.	Traffic information and avoiding action given. Three a/c were delayed. Appropriate CAA action is being taken as a result of this incident.
200506489	10/08/2005	EGTT : London (FIR)	Birmingham		D	CTR	VANS	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a RV6. Aninbound RJ100 was given traffic info and avoiding action.Standard separation maintained.	
200506489	10/08/2005	EGTT : London (FIR)	Birmingham		D	CTR	BAE	Turbofan	4	Infringement of the Birmingham CTR (Class D) by a RV6. Aninbound RJ100 was given traffic info and avoiding action.Standard separation maintained.	
200506529	11/08/2005	EGTT : London (FIR)	Manchester (MCT)	2NW	D	CTR	BELL	Reciprocating	1	Bell 47J infringed the Manchester CTR (Class D). All Manchester Northwest departures were stopped and traffic info given. Standard separation maintained.	Investigation confirmed a navigation error, as the pilot was following the M60 motorway instead of the M6. Pilot subsequently discussed the incident with ATC and apologised for his actions.□ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200506573	14/08/2005	EGTT : London (FIR)	Stansted	5 NW	D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Stansted CTR (Class D) by a PA28. Standard separation maintained.	The pilot experienced two distractions, firstly intercom headset problems and then a distressed passenger. The pilot realised his mistake and turned to exit controlled airspace by the most direct route. The pilot is aware of the serious consequences of infringing controlled airspace. See also occ 200402518.

200506580	12/08/2005	EGTT : London (FIR)	Doncaster Sheffield		G	ATZ	ROBINSON	Reciprocating	1	Infringement of the Doncaster Sheffield ATZ (Class G) by unidentified R22 that flew over R/W20's mid point at low level.	
200506598	11/08/2005	EGTT : London (FIR)	THRED	5 S	A		MOONEY	Reciprocating	1	Alleged infringement of Airway N566 (Class A) by a Mooney20. Standard separation maintained. See also occs 200506092 and "master" 200506168.	
200506620	14/08/2005	EGTT : London (FIR)	Southampton (SAM)		D	CTR	GARDAN	Reciprocating	1	Alleged infringement of the Southampton CTA and Solent CTR (Class D) by a GY80. Standard separation maintained.	See also occ 200205933.
200506623	16/08/2005	EGTT : London (FIR)	Stansted	2 W	D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Stansted CTR (Class D) by a PA28. Standard separation maintained.	The inexperienced PPL involved has been de-briefed on hisnavigational deficiencies by the CFI concerned.
200506654	16/08/2005	EGTT : London (FIR)	Duxford				CESSNA	Reciprocating	1	D&D Cell Report: Pilot lost. PAN declared. Position fixed, discrete squawk given and vectors provided for Duxford.	Luton ATC subsequently reported that the subject aircraft had previously infringed their zone.

200506682	17/08/2005	EGTT : London (FIR)	London-Gatwick - LGW	4 NM	D	CTR	PIPER	Reciprocating	1	A PA28 allegedly infringed the Gatwick CTR (Class D) and came into conflict with an inbound B737. The next two arrivals were vectored clear of the PA28.	See also occ 200506421.□ CAA Closure: Appropriate CAA action is being taken as a result of this incident.
200506682	17/08/2005	EGTT : London (FIR)	London-Gatwick - LGW	4 NM	D	CTR	BOEING	Turbofan	2	A PA28 allegedly infringed the Gatwick CTR (Class D) and came into conflict with an inbound B737. The next two arrivals were vectored clear of the PA28.	See also occ 200506421.□ CAA Closure: Appropriate CAA action is being taken as a result of this incident.
200506683	16/08/2005	EGTT : London (FIR)	Luton (LUT)		D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28, which subsequently lost separation with a departing B737. Another a/c inbound to R/W08 was given extended routeing around the PA28.	Luton departures were halted until the a/c left the zone.Appropriate CAA action is being taken as a result of thisincident.
200506683	16/08/2005	EGTT : London (FIR)	Luton (LUT)		D	CTR	BOEING	Turbofan	2	Infringement of the Luton CTR (Class D) by a PA28, which subsequently lost separation with a departing B737. Another a/c inbound to R/W08 was given extended routeing around the PA28.	Luton departures were halted until the a/c left the zone.Appropriate CAA action is being taken as a result of thisincident.
200506709	16/08/2005	EGTT : London (FIR)	Glossop	E	D	CTR	OTHER	Reciprocating	1	Alleged infringement of Manchester CTR (Class D) by Microlight at 1500ft, East of Glossop. B737 vectored around intruder.	

200506711	17/08/2005	EGTT : London (FIR)	Whitegate (WHI)	Nr	D	CTR	OTHER	Reciprocating	1	Alleged infringement of Liverpool CTR (Class D) by microlight at unknown altitude. No other a/c affected.	
200506713	11/08/2005	EGTT : London (FIR)	Eastbourne		G	Restrict ed area	BOLKOW	Reciprocating	1	Alleged infringement of Eastbourne TRA International Airshow by Bolkow 209 at approximately 1000ft. Traffic info passed to a/c involved in display.	
200506715	11/08/2005	EGTT : London (FIR)	Eastbourne		G	Restrict ed area	CESSNA	Reciprocating	1	Alleged infringement of Eastbourne TRA International Airshow by C152 at approximately 2500ft. Two display a/c were waiting to be called in at time of incident.	
200506719	17/08/2005	EGTT : London (FIR)	Nottingham East Midlands	7 WSW	D	CTA	PIPER	Reciprocating	1	Infringement of Nottingham East Midlands CTA (Class D) byPA28 (student pilot) at FL35, 7nm WSW of airfield. Departing a/c (which had completed line-up and was ready to go) held on ground.	CAA Closure: No further CAA action practicable.
200506749	19/08/2005	EGTT : London (FIR)	Bridgend		D	CTA	LAKE	Reciprocating	1	Alleged infringement of Cardiff CTA (Class D) by a Lake LA4 at 2200ft, overhead Bridgend. No other a/c affected.	

200506759	19/08/2005	EGTT : London (FIR)	Panshanger	3NW	D	CTR	PIPER	Reciprocating	1	Infringement of Luton CTR (Class D) by PA28 at approx 700ft, necessitating a Luton a/c to be issued headings and traffic info to remain clear. PA28 allegedly infringed Panshanger ATZ earlier.	See also 200508611. Investigation established that the PA28 pilot had initially planned to fly VFR and then continue IFR. However, prior to entering cloud, the passenger became distressed. As a result, the pilot elected to continue below cloud and the infringement occurred while he was distracted by the passenger. Pilot subsequently apologised to ATC and has been given appropriate advice by the CAA.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200506767	18/08/2005	EGTT : London (FIR)	West Malling		A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA32. A Falcon 2000 at 4000ft was given traffic info and avoiding action during which separation was lost.	PA32 pilot was making his first visit to the UK and, therefore, had a high workload navigating. He misunderstood the level of ATC service provided when receiving a FIS and incorrectly assumed that ATC would issue appropriate instructions to ensure that he remained clear of CAS. Pilot has been advised of the level of service provided by a FIS and reminded of the importance of adequate pre-flight planning and his responsibility to remain clear of CAS.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200506767	18/08/2005	EGTT : London (FIR)	West Malling		A	TMA	DASSAULT	Turbofan	2	Infringement of the London TMA (Class A) by a PA32. A Falcon 2000 at 4000ft was given traffic info and avoiding action during which separation was lost.	PA32 pilot was making his first visit to the UK and, therefore, had a high workload navigating. He misunderstood the level of ATC service provided when receiving a FIS and incorrectly assumed that ATC would issue appropriate instructions to ensure that he remained clear of CAS. Pilot has been advised of the level of service provided by a FIS and reminded of the importance of adequate pre-flight planning and his responsibility to remain clear of CAS.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200506768	18/08/2005	EGTT : London (FIR)	Rochester		A	TMA	PIPER	Reciprocating	1	PA28RT allegedly infringed the London TMA (Class A) and lost separation with a BE200, which was given traffic info and avoiding action.	Shortly after departing Lydd, PA28 requested a joining clearance. Believing a/c was outside CAS, PA28 was told to remain clear and contact Frequency 120.17 for join. The PA28 now at 3400ft called Frequency 120.17 LTCC BIG. Thames Radar then called LTCC BIG to ask what the a/c was doing as the base of CAS is 2500ft. PA28 was instructed to leave CAS and given traffic info. Traffic info and avoiding action was also given to a BE200 at 3000ft.
200506768	18/08/2005	EGTT : London (FIR)	Rochester		A	TMA	BEECH	Turboprop	2	PA28RT allegedly infringed the London TMA (Class A) and lost separation with a BE200, which was given traffic info and avoiding action.	Shortly after departing Lydd, PA28 requested a joining clearance. Believing a/c was outside CAS, PA28 was told to remain clear and contact Frequency 120.17 for join. The PA28 now at 3400ft called Frequency 120.17 LTCC BIG. Thames Radar then called LTCC BIG to ask what the a/c was doing as the base of CAS is 2500ft. PA28 was instructed to leave CAS and given traffic info. Traffic info and avoiding action was also given to a BE200 at 3000ft.

200506805	21/08/2005	EGTT : London (FIR)	London-Heathrow - LHR		A	CTR	PIPER	Reciprocating	1	Alleged infringement of Heathrow CTR (Class A) by PA28 at2000ft necessitated Heathrow departures to be stopped.	Appropriate CAA action is being taken as a result of thisincident. See also 200205026, 200408089 and 200503584.
200506825	16/08/2005	EGTT : London (FIR)	Manchester (MCT)	10 SW	D	CTR	ENSTROM	Reciprocating	1	Alleged infringement of the Manchester CTR (Class D) by an Enstrom receiving a FIS. Standard separation maintained.	This incident together with several other VFR flights operating on frequency outside CAS caused excessive distraction and workload for ATC.
200506852	23/08/2005	EGTT : London (FIR)	Barkway (BKY)	6 NW	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA by a C172 at 4800 feet 6nm NW ofBKY. Traffic information and avoiding action given to a B737 inbound to Luton. The avoiding action resulted in the B737 leaving CAS.	
200506852	23/08/2005	EGTT : London (FIR)	Barkway (BKY)	6 NW	A	TMA	BOEING	Turbofan	2	Infringement of the LTMA by a C172 at 4800 feet 6nm NW ofBKY. Traffic information and avoiding action given to a B737 inbound to Luton. The avoiding action resulted in the B737 leaving CAS.	
200506859	21/08/2005	EGTT : London (FIR)	Warwick Racecourse		D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a Robin 200. Traffic info and avoiding action was given to an inbound EMB145. Standard separation lost.	Investigation established that infringement was committedby a student pilot. Retraining instruction agreed and completed.☐ CAA Closure: No further CAA action practicable.

200506859	21/08/2005	EGTT : London (FIR)	Warwick Racecourse		D	CTA	EMBRAER	Turbofan	2	Infringement of the Birmingham CTA (Class D) by a Robin 200. Traffic info and avoiding action was given to an inbound EMB145. Standard separation lost.	Investigation established that infringement was committedby a student pilot. Retraining instruction agreed and completed.☐ CAA Closure: No further CAA action practicable.
200506905	23/08/2005	EGTT : London (FIR)	Luton (LUT)	7 W	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28. An inbound B737 was given traffic info and an extended routing. Standard separation maintained.	
200506905	23/08/2005	EGTT : London (FIR)	Luton (LUT)	7 W	D	CTR	BOEING	Turbofan	2	Infringement of the Luton CTR (Class D) by a PA28. An inbound B737 was given traffic info and an extended routing. Standard separation maintained.	
200506942	25/08/2005	EGTT : London (FIR)	Stansted	5 W	D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Stansted CTR (Class D) by a PA28. Departures were stopped. Traffic info was given to a B737 that had just become airborne.	No further information available.☐ CAA Closure: No further CAA action practicable due to elapsed time.
200506970	26/08/2005	EGTT : London (FIR)	Southend (SND)		A	TMA	DIAMOND	Reciprocating	1	Infringement of the London TMA (Class A) by a DA40 at FL43. DA40 instructed to descend immediately to 3400ft, whichis below CAS. Appropriate advice was given to pilot.	

200506993	26/08/2005	EGTT : London (FIR)	ALVIN-WOTON		A		VANS	Reciprocating	1	Alleged infringement of Airway L9 (Class A) by a RV4. An a/c that had departed Bristol was given a tactical turn and a higher level. Standard separation maintained.	
200507041	28/08/2005	EGTT : London (FIR)	Stansted	8 nm final	D	CTR	CESSNA	Reciprocating	1	Alleged infringement of the Stansted CTR (Class D) by a C152. Traffic info and avoiding action was given to two inbound a/c, a B747 and an A319. A319 subsequently carried out a go around.	A319 carried out a go around from 3nms due to an unstableapproach whilst being distracted by the C152. The Cessna had called D&D at 1620 reporting lost and short of fuel and requesting a steer for Andrewsfield.
200507041	28/08/2005	EGTT : London (FIR)	Stansted	8 nm final	D	CTR	AIRBUS	Turbofan	2	Alleged infringement of the Stansted CTR (Class D) by a C152. Traffic info and avoiding action was given to two inbound a/c, a B747 and an A319. A319 subsequently carried out a go around.	A319 carried out a go around from 3nms due to an unstableapproach whilst being distracted by the C152. The Cessna had called D&D at 1620 reporting lost and short of fuel and requesting a steer for Andrewsfield.
200507120	31/08/2005	EGTT : London (FIR)	White Waltham	3 S	A	CTR	WESTLAND	Turboshaft	1	Infringement of the London CTR (Class A) by a Gazelle helicopter. Standard separation maintained.	Pilot subsequently phoned ATC and the incident was discussed.
200507168	28/08/2005	EGTT : London (FIR)	Birmingham	10SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a PA28. It became apparent that pilot was unaware of his correct position. Standard separation maintained.	Pilot apologised for infringement, attributing incident to increased workload caused by transponder fault and subsequent disorientation while trying to recycle the Mode C. Appropriate remedial action taken by both the pilot and CFI.☐ CAA Closure: The hazard is acceptable provided the frequency remains low.

200507190	27/08/2005	EGTT : London (FIR)	Honiley (HON)	3 S	D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Birmingham CTR (Class D) by a PA28. Standard separation maintained.	
200507265	04/09/2005	EGTT : London (FIR)	Luton (LUT)	5SE	D	CTR	CESSNA	Reciprocating	1	Alleged infringement of the Luton CTR (Class D) by C172 at unknown altitude, 5nm Southeast of Luton. A Departure was delayed until infringer clear of vicinity. Standard separation maintained.	
200507267	03/09/2005	EGTT : London (FIR)	London-Gatwick - LGW	6NE	D	CTA	PILATUS	Turboprop	1	Alleged infringement of Gatwick CTA (Class D) by PC12 at 2000ft, 6nm Northeast of Gatwick. Standard separation maintained.	Pilot stated that after departing Redhill he headed East to avoid the Gatwick CTR, but possibly forgot the CTA.
200507270	03/09/2005	EGTT : London (FIR)	London-Gatwick - LGW	8 E	D	CTR	PIPER	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a PA28. Traffic info and avoiding action was given to an outbound B757. Separation lost.	
200507270	03/09/2005	EGTT : London (FIR)	London-Gatwick - LGW	8 E	D	CTR	BOEING	Turbofan	2	Infringement of the Gatwick CTR (Class D) by a PA28. Traffic info and avoiding action was given to an outbound B757. Separation lost.	

200507281	03/09/2005	EGTT : London (FIR)	London-Gatwick - LGW	4 nm	D	CTA	OTHER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a microlightthat crossed the climb out for R/W08R. Pilot reported being lost. Departures stopped.	Investigation ascertained that the pilot had decided to fly low level at 800ft to avoid the airshow traffic betweenBiggin Hill and Shoreham, and subsequently misidentified the Bough Beach reservoir as Weir Wood reservoir. Appropriate CAA action taken. □ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200507319	03/09/2005	EGTT : London (FIR)	Manchester (MCT)	SW	D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Manchester CTR (Class D) by aVFR PA28. Pilot apologised stating having problems with his navigation equipment.	
200507329	05/09/2005	EGTT : London (FIR)	Detling (DET)	10NW	A	TMA	BAE	Turbofan	4	UK AIRPROX 158/2005 - RJ100 and a Fournier RF5 at 3000ft,10nm Northwest of DET.	While on a radar heading at 3000ft to intercept the localiser at London City, the RJ100 pilot received a TCAS TA. The RJ100 pilot saw the opposite direction traffic taking avoiding action, so the RJ100 continued as cleared by ATC. No avoiding action was issued by ATC. The Fournier RF5 wasreceiving a FIS at the time, but had misread his chart and was using 3500ft as the LTMA upper limit instead of 2500ft. The RF5 had penetrated the LTMA without clearance and had flown into conflict with the RJ100, then taken avoiding action. This occurrence was the subject of a separate review by the UK Airprox Board - see Airprox Report 158/05.CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200507329	05/09/2005	EGTT : London (FIR)	Detling (DET)	10NW	A	TMA	FOURNIER	Reciprocating	1	UK AIRPROX 158/2005 - RJ100 and a Fournier RF5 at 3000ft,10nm Northwest of DET.	While on a radar heading at 3000ft to intercept the localiser at London City, the RJ100 pilot received a TCAS TA. The RJ100 pilot saw the opposite direction traffic taking avoiding action, so the RJ100 continued as cleared by ATC. No avoiding action was issued by ATC. The Fournier RF5 wasreceiving a FIS at the time, but had misread his chart and was using 3500ft as the LTMA upper limit instead of 2500ft. The RF5 had penetrated the LTMA without clearance and had flown into conflict with the RJ100, then taken avoiding action. This occurrence was the subject of a separate review by the UK Airprox Board - see Airprox Report 158/05.CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200507381	28/08/2005	EGTT : London (FIR)	Hythe Ranges		G	Danger area	OTHER	Reciprocating	1	Alleged infringement of the active Danger Area EG D0141 (Hythe Ranges) by a unidentified Microlight. Firing was stopped.	

200507384	01/09/2005	EGTT : London (FIR)	Shoeburyness		G	Danger area	JODEL	Reciprocating	1	Infringement of active Danger Area EG D138 (Shoeburyness)by DR1050 at 2400ft. Danger Area D138 active to 6000ft.	DR1050 pilot subsequently admitted to the infringement and apologised for his actions. He claims to have been unaware that the Danger Area was active. Pilot has been advisedthat a NOTAM was available and reminded of the importanceof adequate pre-flight planning.☐ CAA Closure: The hazardis adequately controlled by the actions stated above.
200507391	06/09/2005	EGTT : London (FIR)	Stansted	10 S	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C177. Standard separation maintained. Pilot telephoned ATC and apologised for the incident. Appropriate advice has been given.	
200507392	06/09/2005	EGTT : London (FIR)	London-Gatwick - LGW	8 SW	D	CTA	ROCKWELL	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a RC114. AllSeaford (SFD) departures were stopped for 5mins as the RC114 tracked through the SFD departure track. Standard separation maintained.	
200507430	06/09/2005	EGTT : London (FIR)	Brecon (BCN)	2W	A		CESSNA	Reciprocating	1	Alleged infringement of Airway N864 (Class A) by a C152. Standard separation maintained.	C152 free called ATC, but the radio was very poor with a loud background mush. Several attempts were required to gain necessary information of the flight in order to offer aFIS. C152 was identified and initially reported at 5500ft. ATC then became distracted by other a/c on frequency andsubsequently advised C152 of Airway N864 having a base ofFL55 and asked if it could accept an IFR crossing clearance. C152 replied no, but then reported climbing to 6000ft.ATC informed C152 that it was within Class A airspace andconfirmed it could not accept an IFR clearance. C152 was instructed to descend to FL55, which it did.
200507450	08/09/2005	EGTT : London (FIR)	London-Gatwick - LGW	15 SW	A	TMA	CESSNA	Reciprocating	1	Infringement of the London TMA (Class A) by a C172. One Gatwick BOGNA departure was delayed. Standard separation maintained.	Appropriate advice will be given to the pilot.

200507527	10/09/2005	EGTT : London (FIR)	TIMBA	4 N	A	TMA	CIRRUS	Reciprocating	1	Alleged infringement of the London TMA (Class A) by a SR22. At time of incident SR22 was unknown and separation waslost with an A320 inbound to Gatwick, which was given traffic info.	
200507527	10/09/2005	EGTT : London (FIR)	TIMBA	4 N	A	TMA	AIRBUS	Turbofan	2	Alleged infringement of the London TMA (Class A) by a SR22. At time of incident SR22 was unknown and separation waslost with an A320 inbound to Gatwick, which was given traffic info.	
200507530	09/09/2005	EGTT : London (FIR)	Stansted		D	CTR	WESTLAND	Turboshaft	1	Infringement of the Stansted CTR (Class D) by a Gazelle. At time of incident Gazelle was unknown and separation waslost with an outbound a/c, which was given traffic info.	The pilot has been contacted and appropriate advice has been given.
200507530	09/09/2005	EGTT : London (FIR)	Stansted		D	CTR	UNKNOWN	Unknown		Infringement of the Stansted CTR (Class D) by a Gazelle. At time of incident Gazelle was unknown and separation waslost with an outbound a/c, which was given traffic info.	The pilot has been contacted and appropriate advice has been given.
200507558	12/09/2005	EGTT : London (FIR)	Southend (SND)		G	ATZ	SUPERMARINE	Reciprocating	1	Alleged infringement of Southend ATZ (Class G) by a Spitfire working the London FIR. Subsequently Spitfire called Southend requesting radar to route towards DVR.	

200507562	10/09/2005	EGTT : London (FIR)	Southport		G	Restrict ed area	PIPER	Reciprocating	1	Infringement of the Southport TRA. Later pilot phoned Blackpool stating being unaware of the TRA but, seeing the activity in the area, flew away from Southport.	
200507568	13/09/2005	EGTT : London (FIR)	Cardiff (CDF)		D	CTR	CESSNA	Reciprocating	1	Alleged infringement of the Cardiff CTR (Class D) by C182. A/c also blocked the frequency on two occasions. Standard separation maintained.	
200507639	14/09/2005	EGTT : London (FIR)	London-Gatwick - LGW	2 E	D	CTA	ROBINSON	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a R44. Standard separation maintained. Pilot has been contacted by ATC and given appropriate advice. Pilot apologised for the incident.	Apparent poor pre-flight planning.
200507724	10/09/2005	EGTT : London (FIR)	London-Heathrow - LHR		A	CTR	AEROSPATIALE	Turboshaft	1	Infringement of the London CTR (Class A) by an AS350. DVRSID departures were stopped.	Pilot admitted to the infringement. AS350 vacated CAS as soon as crew became aware of infringement and they subsequently telephoned ATC to apologise for their actions. ☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200507793	18/09/2005	EGTT : London (FIR)	London City - LCY	SE	D	CTR	CESSNA	Reciprocating	1	Alleged infringement of the London City CTR (Class D) by a C152. Traffic info was given to a C525, who obtained the a/c visually. Standard separation maintained.	Appropriate follow up action is to be taken by the flyingclub CFI.

200507793	18/09/2005	EGTT : London (FIR)	London City - LCY	SE	D	CTR	CESSNA	Turbofan	2	Alleged infringement of the London City CTR (Class D) by a C152. Traffic info was given to a C525, who obtained thea/c visually. Standard separation maintained.	Appropriate follow up action is to be taken by the flyingclub CFI.
200507804	17/09/2005	EGTT : London (FIR)	Trent (TNT)	W 5	A	TMA	PIPER	Reciprocating	1	Infringement of Manchester TMA (Class A) by PA28 at 7000ft. Inbound a/c were given traffic info and put onto headings. Pilot phoned and admitted to neglecting checking base of CAS.	
200507841	18/09/2005	EGTT : London (FIR)	Bournemouth	2 N	D	CTA	ROCKWELL	Reciprocating	1	Infringement of the Solent CTA (Class D) by a RC114, which had called Southampton for a transit, but was subsequently identified already inside CAS. Standard separation maintained.	
200507882	01/09/2005	EGTT : London (FIR)	Bournemouth	8 W	D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Bournemouth CTR (Class D) by a PA28. Traffic information given. See also occ 200506683.	
200507910	22/09/2005	EGTT : London (FIR)	Manchester (MCT)		D	CTR	ROBINSON	Reciprocating	1	R22 called Manchester requesting a FIS for transit and cleared not above 1250ft. R22 subsequently infringed the Manchester CTR (Class D), was identified and told to fly North to leave CAS.	Standard separation maintained.

200507943	24/09/2005	EGTT : London (FIR)	Southampton (SAM)		D	CTA	OTHER	Reciprocating	1	Infringement of the Solent/Southampton CTA/CTR by an untraced Shadow aircraft. Traffic information given. Standard separation maintained.	
200507944	25/09/2005	EGTT : London (FIR)	Stansted	11 NE	D	CTA	CESSNA	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a C172. Standard separation maintained.	
200507945	24/09/2005	EGTT : London (FIR)	London-Gatwick - LGW	11 NE	D	CTA	PIPER	Reciprocating	1	Alleged infringement of the Gatwick CTA (Class D) by a PA28. Standard separation maintained. Appropriate action hasbeen taken by the Flying Club's CFI.	
200507946	25/09/2005	EGTT : London (FIR)	Stansted	6.5 S	D	CTR	PIPER	Reciprocating	1	PA28 allegedly twice infringed the Stansted CTR/CTA (Class D). Pilot stated being lost and attempting to return to Panshanger. Stansted westbound departures were stopped.	As at 7 Sep 2006, attempts to contact the PA28 operator had been unsuccessful.☐ CAA Closure: No further CAA action practicable.
200507947	24/09/2005	EGTT : London (FIR)	Stansted	SW	D	CTA	PIPER	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a PA28. Subsequently PA28 was observed heading towards the Luton CTR and given a heading to remain outside CAS. Standard separation maintained.	

200507948	24/09/2005	EGTT : London (FIR)	Stansted	10 S	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28. Twoa/c inbound to R/W05 were given vectors to avoid the PA28. Standard separation maintained. Operator alerted to the incident.	
200507950	24/09/2005	EGTT : London (FIR)	Stansted	10 SW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C172. Traffic info given to an inbound a/c. Standard separation maintained. Pilot has been given appropriate advice and apologises for the incident.	
200507953	24/09/2005	EGTT : London (FIR)	London-Gatwick - LGW	10SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a PA28. Traffic info and vectors were given to a departing A320 to remain clear of PA28.	The pilot has subsequently discussed this event with the CFI (Chief Flying Instructor) and has been reminded of theimportance of accurate navigation around controlled airspace.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200507953	24/09/2005	EGTT : London (FIR)	London-Gatwick - LGW	10SE	D	CTA	AIRBUS	Turbofan	2	Infringement of the Gatwick CTA (Class D) by a PA28. Traffic info and vectors were given to a departing A320 to remain clear of PA28.	The pilot has subsequently discussed this event with the CFI (Chief Flying Instructor) and has been reminded of theimportance of accurate navigation around controlled airspace.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200507961	23/09/2005	EGTT : London (FIR)	Stansted		D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28. Pilot was on his first Navigational Cross Country sortie and was given assistance to destination. Traffic info given toan outbound A319.	

200507961	23/09/2005	EGTT : London (FIR)	Stansted		D	CTR	AIRBUS	Turbofan	2	Infringement of the Stansted CTR (Class D) by a PA28. Pilot was on his first Navigational Cross Country sortie and was given assistance to destination. Traffic info given toan outbound A319.	
200508056	25/09/2005	EGTT : London (FIR)	Oldham		D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Manchester CTR (Class D) by aPA28. Traffic info was given to an a/c operating in the area. Standard separation maintained.	
200508057	28/09/2005	EGTT : London (FIR)	Stansted		D	CTR	BELL	Reciprocating	1	Infringement of Stansted CTR (Class D) by a Bell 47. Departures were stopped. Pilot apologised for incident statingthat he was concentrating on engine overheat warnings. Appropriate ATC advice given.	
200508074	24/09/2005	EGTT : London (FIR)	Old Warden		G	ATZ	YAKOVLEV	Reciprocating	1	Infringement of Old Warden ATZ (Class G) by YAK 18 duringa notified air display. Two a/c were giving a display at the time of the incident.	Pilot subsequently admitted to and apologised for infringement, which was attributed to a failure to check the relevant NOTAM. Pilot advised of the importance of adequate pre-flight planning.□ CAA Closure: The hazard is adequately controlled by the actions stated above.
200508077	24/09/2005	EGTT : London (FIR)	Old Warden		G	Restrictedd area	PIPER	Reciprocating	1	Infringement of Old Warden Air Display Area by a PA28 during a notified air display. An a/c was giving a display atthe time of the incident.	PA28 pilot subsequently admitted to infringement and apologised for his actions. He had checked the NOTAMs, but failed to read the Old Warden Display NOTAM. Appropriate advice has been given concerning the importance of accurately checking the NOTAMs.□ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.

200508085	27/09/2005	EGTT : London (FIR)	Southend (SND)		G	ATZ	ROBINSON	Reciprocating	1	Infringement of the Southend ATZ by a R44 receiving a FIS. R44 called Southend Approach overhead airfield and in conflict with two other a/c.	Traffic information given by Southend ATC. Pilot has received appropriate advice by phone after landing.
200508103	25/09/2005	EGTT : London (FIR)	LOREL	10 N	A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA28. PA28 was informed that it was inside of CAS and told to descend. Standard separation maintained.	
200508111	29/09/2005	EGTT : London (FIR)	Birmingham	9 S	D	CTA	CESSNA	Reciprocating	1	Alleged infringement of the Birmingham CTA (Class D) by C172. C172 had called ATC and instructed to remain outside CAS. Subsequently an a/c reported traffic showing on its TCAS and given traffic info.	
200508169	02/10/2005	EGTT : London (FIR)	Luton (LUT)	6 E	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C150. Traffic information and avoiding action given to a Learjet inbound to Luton whose approach was broken off.	Several attempts have been made to contact the C150 operator. However, as at 30 Jan 2006, no response had been received.☐ CAA Closure: No further CAA action practicable.
200508169	02/10/2005	EGTT : London (FIR)	Luton (LUT)	6 E	D	CTR	LEARJET	Turbofan	2	Infringement of the Luton CTR (Class D) by a C150. Traffic information and avoiding action given to a Learjet inbound to Luton whose approach was broken off.	Several attempts have been made to contact the C150 operator. However, as at 30 Jan 2006, no response had been received.☐ CAA Closure: No further CAA action practicable.

200508172	02/10/2005	EGTT : London (FIR)	Old Warden		G	ATZ	CESSNA	Reciprocating	1	Infringement of a temporary ATZ surrounding Old Warden Aerodrome by a C182 at an estimated 1500 feet.	The a/c could not be contacted at the time but 37 minuteslater it called and requested traffic information. The pilot then apologised for the earlier infringement stating that he had called several times on frequency 123.05 without response. When informed that the frequency had changed approximately 5 years ago the pilot stated he was using a 2002 flight guide.
200508173	02/10/2005	EGTT : London (FIR)	Old Warden		G	ATZ	JODEL	Reciprocating	1	Infringement of the temporary ATZ surrounding Old Warden Aerodrome for an air display. Jodel passed over R/W21 threshold on a westerly track at an estimated 2000 feet. Traffic information given.	
200508193	01/10/2005	EGTT : London (FIR)	London-Gatwick - LGW	NW	D	CTR		Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a Schweizer269C. The a/c which was receiving FIS from Farnborough, was given appropriate instructions to vacate the CTR. Standard separation maintained.	
200508194	28/09/2005	EGTT : London (FIR)	Honiley (HON)	5 S	D	CTR	SOCATA	Reciprocating	1	Two infringements of the Birmingham CTR (Class D) by a TB10. Standard separation maintained.	The a/c was initially identified by the previous controller at altitude 2500 feet inside the Zone, 5 miles South ofHoniley. The pilot was instructed to descend and remain clear of Birmingham airspace, at which point it descended and turned back towards the South. The oncoming controller continued to monitor the a/c which had now turned back towards Honiley and climbed. The a/c intentions were requested with no response. On calling again, the pilot responded by saying that he was having problems with his radio. He was told that he was in CAS again without permission and was asked about his intentions. The a/c requested a routeing via HON and WAL but, due traffic, the pilot was instructed to fly a heading of 280 to remain clear of CAS. Once the a/c was clear of CAS, the pilot was asked to confirm that he had been instructed to remain clear by the previous controller. He responded that he was instructed to route via HON. The pilot was told that the controller concerned had heard the previous controller's instructions.
200508196	03/10/2005	EGTT : London (FIR)	Beaconsfield		A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C182. Standard separation maintained. Heathrow northbound departures stopped.	The foreign registered a/c had planned IFR and was then instructed to descend clear of the Airway. It would appear at this point that Thames/SVFR were too busy to offer a service to the a/c.

200508204	02/10/2005	EGTT : London (FIR)	ALVIN		A		MOONEY	Reciprocating	1	Infringement of Class A airspace Airway L9, allegedly by a Mooney 20 at FL125. Considerable extra ATC workload/complexity resulted from this infringement.	Investigation progressed under 200506168. See also occs 200506092 and 200506598.
200508284	03/10/2005	EGTT : London (FIR)	Nottingham East Midlands	6.5 E	D	CTR	CESSNA	Reciprocating	1	Infringement of Nottingham East Midlands CTR/CTA (Class D) by C152 on solo qualifying cross country. Traffic info and avoiding action was given to inbound B767. Standard separation maintained.	Investigation confirmed that the relevant retraining has been specified by the Head of Training at the flying school involved. ☐ CAA Closure: No further CAA action required at this time.
200508284	03/10/2005	EGTT : London (FIR)	Nottingham East Midlands	6.5 E	D	CTR	BOEING	Turbofan	2	Infringement of Nottingham East Midlands CTR/CTA (Class D) by C152 on solo qualifying cross country. Traffic info and avoiding action was given to inbound B767. Standard separation maintained.	Investigation confirmed that the relevant retraining has been specified by the Head of Training at the flying school involved. ☐ CAA Closure: No further CAA action required at this time.
200508361	09/10/2005	EGTT : London (FIR)	Luton (LUT)	10 E	D	CTR	PIPER	Reciprocating	1	PA28 allegedly infringed the Luton CTR (Class D) and loststandard separation with an inbound C560, who was given traffic info and avoiding action. Appropriate advice will be given to the PA28 pilot.	
200508361	09/10/2005	EGTT : London (FIR)	Luton (LUT)	10 E	D	CTR	CESSNA	Turbofan	2	PA28 allegedly infringed the Luton CTR (Class D) and loststandard separation with an inbound C560, who was given traffic info and avoiding action. Appropriate advice will be given to the PA28 pilot.	

200508362	10/10/2005	EGTT : London (FIR)	Bagshot	2 N	A	TMA	ROBINSON	Reciprocating	1	R22 infringed the London CTR (Class A) and lost separation with a EC135. Traffic info given. ATC could hear the R22, but R22 could not hear ATC. Traffic info given to EC135.	A report from the low hour PPL indicates that due to poorpre-flight planning the became unsure of his position whilst inbound to a hotel site and put down in a field insidethe CTR. The appropriate lessons have been learnt by the pilot concerned.
200508362	10/10/2005	EGTT : London (FIR)	Bagshot	2 N	A	TMA	EUROCOPTER	Turboshaft	2	R22 infringed the London CTR (Class A) and lost separation with a EC135. Traffic info given. ATC could hear the R22, but R22 could not hear ATC. Traffic info given to EC135.	A report from the low hour PPL indicates that due to poorpre-flight planning the became unsure of his position whilst inbound to a hotel site and put down in a field insidethe CTR. The appropriate lessons have been learnt by the pilot concerned.
200508377	08/10/2005	EGTT : London (FIR)	Luton (LUT)	6-7 E	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 and unidentified a/c. An inbound C550 was given traffic info on both a/c. Standard separation maintained. Subsequently PA28apologised for the error.	
200508377	08/10/2005	EGTT : London (FIR)	Luton (LUT)	6-7 E	D	CTR	UNKNOWN	Unknown		Infringement of the Luton CTR (Class D) by a PA28 and unidentified a/c. An inbound C550 was given traffic info on both a/c. Standard separation maintained. Subsequently PA28apologised for the error.	
200508388	30/09/2005	EGTT : London (FIR)	Salisbury Plain		G	Danger area	HUGHES	Turboshaft	1	VFR Hughes 500 at 250ft infringed active Danger Areas EG D125 (Larkhill), EG D126 (Bulford) and EG D128 (Everleigh), also Upavon and Netheravon ATZs during poor weather conditions.	As a result of this incident, Hughes 500 pilot has been given appropriate advice concerning pre-flight planning.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.

200508396	10/10/2005	EGTT : London (FIR)	Stansted	4E	D	CTR	ARV	Reciprocating	1	Infringement of the Stansted CTR (Class D) by an ARV. Traffic info was given to an inbound BAe146, which was brokenoff the approach. Other a/c delayed. Standard separation maintained.	Investigation ascertained that ARV pilot decided to divert due to adverse weather (rain and clouds) and was unawarethat the infringement had taken place. He has been reminded of the importance of adequate pre-flight planning and remaining clear of CAS.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200508396	10/10/2005	EGTT : London (FIR)	Stansted	4E	D	CTR	BAE	Turbofan	4	Infringement of the Stansted CTR (Class D) by an ARV. Traffic info was given to an inbound BAe146, which was brokenoff the approach. Other a/c delayed. Standard separation maintained.	Investigation ascertained that ARV pilot decided to divert due to adverse weather (rain and clouds) and was unawarethat the infringement had taken place. He has been reminded of the importance of adequate pre-flight planning and remaining clear of CAS.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200508464	11/10/2005	EGTT : London (FIR)	Airway R41		A		AEROSPATIALE	Turboshaft	1	Alleged infringement of Airway R41 (Class A) by a SA350 receiving a LARS. SA350 was instructed to descend immediately to leave CAS, which it did. Standard separation maintained.	
200508473	13/10/2005	EGTT : London (FIR)	Shoeburyness		G	Danger area	PIPER	Reciprocating	1	Alleged infringement of active Danger Areas EG D138 and D138A (Shoeburyness) by PA32 at 3400ft during live gunnery firing. Danger Area D138 was active to 13000ft and D138A to 6000ft.	CAA Closure: Appropriate CAA action is to be taken as a result of this incident.
200508516	12/10/2005	EGTT : London (FIR)	Edenbridge		D	CTR	CESSNA	Reciprocating	1	Alleged infringement of the Gatwick CTR (Class D) by a C172. Standard separation maintained.	

200508519	14/10/2005	EGTT : London (FIR)	Stansted	NW	D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Stansted CTR (Class D) by a PA28. An inbound B737 being vectored for R/W05 was given traffic info and avoiding action. Standard separation maintained.	See 200608748.
200508519	14/10/2005	EGTT : London (FIR)	Stansted	NW	D	CTR	BOEING	Turbofan	2	Alleged infringement of the Stansted CTR (Class D) by a PA28. An inbound B737 being vectored for R/W05 was given traffic info and avoiding action. Standard separation maintained.	See 200608748.
200508559	15/10/2005	EGTT : London (FIR)	London-Gatwick - LGW	18 SE	A	TMA	PIPER	Reciprocating	1	Alleged infringement of the London TMA (Class A) 18nm Southeast of Gatwick by a PA28 at an indicated 4800 ft. Traffic info given. Standard separation maintained.	
200508572	16/10/2005	EGTT : London (FIR)	Northolt	6nm ENE	A	CTR	OTHER	Reciprocating	1	Infringement of London Control Zone causing disruption tonorthbound departures for 90 seconds. The pilot had only 'low hours' experience and had become lost in reduced visibility.	Unknown traffic was observed entering the London Control Zone northeast corner on a 7000 squawk, Mode C indicating 1700 QNH. The unknown aircraft was on a south-westerly track so the LHR northbound departures from R/W 09R were stopped and NE DEPS were also advised as other traffic was in the vicinity. The unknown aircraft then turned away northbound and exited the zone. LHR northbound departures were re-commenced 90 seconds after they had been stopped. The unknown aircraft eventually landed at Elstree and was identified. Investigation found that the pilot had only 'low hours' experience and had become lost near Elstree during a period of reduced visibility. Consequently, the aircraft infringed controlled airspace. The pilot has been reminded of the serious consequences of infringing controlled airspace and has since undertaken further local area familiarisation flights.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200508609	14/10/2005	EGTT : London (FIR)	Manchester (MCT)	SSW	D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Manchester CTR (Class D) by aPA28. Two inbound a/c were given traffic info and were slightly delayed whilst maintaining lateral separation.	

200508611	14/10/2005	EGTT : London (FIR)	ORTAC	15 NE	A		PIPER	Reciprocating	1	Alleged infringement of Airway N866 (Class A) by a PA28. Standard separation maintained.	See also 200506759.
200508635	19/09/2005	EGTT : London (FIR)	Sherburn in Elmet		G	ATZ	CESSNA	Turboprop	2	UK AIRPROX 187/2005 - PA28 and a Cessna 441 overhead Sherburn at 1500ft.	The C441, a 'Calibrator' in contact with Church Fenton, had been expected to turn left on going around (as it had done during a previous go-around), but turned right and consequently flew through the Sherburn ATZ whilst the PA28 was carrying out a standard overhead join. PA28 took appropriate evasive action. □ CAA Closure: The hazard is adequately controlled by the actions stated above. This AIRPROX hasbeen subject to a separate review by the United Kingdom AIRPROX Board (UKAB). See UKAB Report 187/05.
200508635	19/09/2005	EGTT : London (FIR)	Sherburn in Elmet		G	ATZ	PIPER	Reciprocating	1	UK AIRPROX 187/2005 - PA28 and a Cessna 441 overhead Sherburn at 1500ft.	The C441, a 'Calibrator' in contact with Church Fenton, had been expected to turn left on going around (as it had done during a previous go-around), but turned right and consequently flew through the Sherburn ATZ whilst the PA28 was carrying out a standard overhead join. PA28 took appropriate evasive action. □ CAA Closure: The hazard is adequately controlled by the actions stated above. This AIRPROX hasbeen subject to a separate review by the United Kingdom AIRPROX Board (UKAB). See UKAB Report 187/05.
200508679	20/10/2005	EGTT : London (FIR)	Stansted	6 NE	D	CTR	WESTLAND	Turboshaft	1	Alleged infringement of the Stansted CTR (Class D) by a Gazelle. An inbound Gulfstream 4 was given traffic info andvectors around the Gazelle onto the ILS to maintain standard separation.	
200508679	20/10/2005	EGTT : London (FIR)	Stansted	6 NE	D	CTR	GULFSTREAM	Turbofan	2	Alleged infringement of the Stansted CTR (Class D) by a Gazelle. An inbound Gulfstream 4 was given traffic info andvectors around the Gazelle onto the ILS to maintain standard separation.	

200508680	20/10/2005	EGTT : London (FIR)	Luton (LUT)	5 S	D	CTR	PIPER	Reciprocating	1	PA28R unsure of its position infringed the Luton CTR. An inbound a/c's approach was discontinued to maintain separation. PA28 called LTCC and was given navigational assistance.	After landing, PA28 pilot telephoned LTCC and explained that he had become uncertain of his position and requested help from Biggin Hill. Pilot thought he had positively identified Biggin Hill, but was then advised it was Luton. Biggin had turned the a/c and instructed it to contact LTCC.ATC advised pilot that if there should be a similar incident the he should consider calling D&D.
200508680	20/10/2005	EGTT : London (FIR)	Luton (LUT)	5 S	D	CTR	UNKNOWN	Unknown		PA28R unsure of its position infringed the Luton CTR. An inbound a/c's approach was discontinued to maintain separation. PA28 called LTCC and was given navigational assistance.	After landing, PA28 pilot telephoned LTCC and explained that he had become uncertain of his position and requested help from Biggin Hill. Pilot thought he had positively identified Biggin Hill, but was then advised it was Luton. Biggin had turned the a/c and instructed it to contact LTCC.ATC advised pilot that if there should be a similar incident the he should consider calling D&D.
200508762	23/10/2005	EGTT : London (FIR)	Stansted	14 NE	A	TMA	MOONEY	Reciprocating	1	Alleged infringement of the London TMA (Class A) by a Mooney. Standard separation maintained.	
200508765	22/10/2005	EGTT : London (FIR)	Stansted		D	CTA	WESTLAND	Turboshaft	1	Alleged infringement of the Luton CTA (Class D) and the Stansted CTA/CTR (Class D) by a Gazelle. Traffic info passed and Stansted stopped their departures. Standard separation maintained.	CAA Closure: Appropriate CAA action is to be taken as a result of this incident.
200508791	23/10/2005	EGTT : London (FIR)	Luton (LUT)	2 WSW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C150 that had called ATC asking for assistance in finding its position. A/c located inside CAS and given a heading to leave CAS to its destination.	

200508818	23/10/2005	EGTT : London (FIR)	Nottingham East Midlands	11 N	D	CTA	PIPER	Reciprocating	1	Infringement of the Nottingham East Midlands CTA (Class D) by a PA28 that became lost during deteriorating weather and called D&D. Pilot phoned and apologised. Traffic info was given to inbound B757.	
200508818	23/10/2005	EGTT : London (FIR)	Nottingham East Midlands	11 N	D	CTA	BOEING	Turbofan	2	Infringement of the Nottingham East Midlands CTA (Class D) by a PA28 that became lost during deteriorating weather and called D&D. Pilot phoned and apologised. Traffic info was given to inbound B757.	
200508958	21/10/2005	EGTT : London (FIR)	Cheltenham	10SE	A		AVIONS ROBIN	Reciprocating	1	R2112 infringed the Purple Airspace (Class A) and lost separation with a military a/c. Traffic info was given.	The pilot was conducting a trial lesson and forgot the presence of the Purple Airspace. The pilot has been made aware of the seriousness of this infringement and given appropriate advice to avoid recurrence.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200508958	21/10/2005	EGTT : London (FIR)	Cheltenham	10SE	A		OTHER	Unknown		R2112 infringed the Purple Airspace (Class A) and lost separation with a military a/c. Traffic info was given.	The pilot was conducting a trial lesson and forgot the presence of the Purple Airspace. The pilot has been made aware of the seriousness of this infringement and given appropriate advice to avoid recurrence.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200509007	27/10/2005	EGTT : London (FIR)	Southampton (SAM)	8 N	D	CTA	CESSNA	Reciprocating	1	Alleged infringement of the Solent CTA (Class D) by a C172. Traffic info and avoiding action was given to two DHC8sinbound to Southampton. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.

200509007	27/10/2005	EGTT : London (FIR)	Southampton (SAM)	8 N	D	CTA	DE HAVILLAND	Turboprop	2	Alleged infringement of the Solent CTA (Class D) by a C172. Traffic info and avoiding action was given to two DHC8sinbound to Southampton. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
200509077	01/11/2005	EGTT : London (FIR)	Bristol International	9 ESE	D	CTR	ROBINSON	Reciprocating	1	Alleged infringement of the Bristol CTA (Class D) by an R22. Two inbound a/c were given traffic info and shortened circuits to achieve 3nms separation.	
200509085	01/11/2005	EGTT : London (FIR)	Fairoaks	NW	A	CTR	PIPER	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a PA28. Traffic information given. The a/c had originally called for a Zone transit, which had been refused due traffic.	Separation lost with a helicopter inbound to Fairoaks.
200509085	01/11/2005	EGTT : London (FIR)	Fairoaks	NW	A	CTR	OTHER	Other		Infringement of the Heathrow CTR (Class A) by a PA28. Traffic information given. The a/c had originally called for a Zone transit, which had been refused due traffic.	Separation lost with a helicopter inbound to Fairoaks.
200509087	29/10/2005	EGTT : London (FIR)	St Helens		D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Liverpool CTR (Class D) by a PA28R. Traffic information given. Standard separation maintained.	The a/c had called Liverpool requesting a transit, which had been refused due to traffic. Subsequently a return, believed to be the a/c, was observed over St Helens, a town within the CTR. When advised that ATC thought he was in the zone the pilot responded "sorry, turning to the North". The pilot later advised ATC that he was abandoning his cross country flight and returning to Barton.

200509089	29/10/2005	EGTT : London (FIR)	Burtonwood	2 W	D	CTR	PIPER	Reciprocating	1	Infringement of Liverpool CTR (Class D) by a PA28. The a/c called and was told to stand by. The controller then subsequently identified the a/c already within the CTR.	The pilot was reminded of the requirement to ROCAS until cleared in by ATC. Standard separation maintained.
200509113	01/11/2005	EGTT : London (FIR)	CHASE	8 NNW	A		CESSNA	Reciprocating	1	Alleged infringement of the Daventry CTA (Class A) by a C175 and a Bulldog working the London FIR. A/c were operating in the path of Birmingham outbounds, but no a/c were airborne at this time.	
200509113	01/11/2005	EGTT : London (FIR)	CHASE	8 NNW	A		SCOTTISH AVIATION	Reciprocating	1	Alleged infringement of the Daventry CTA (Class A) by a C175 and a Bulldog working the London FIR. A/c were operating in the path of Birmingham outbounds, but no a/c were airborne at this time.	
200509229	08/11/2005	EGTT : London (FIR)	Luton (LUT)	10 W	D	CTR	ROCKWELL	Reciprocating	1	Infringement of the Luton CTR (Class D) by a RC114B. Traffic info and avoiding action given. All departures were stopped and four a/c were delayed. Standard separation maintained.	As at 7 Sep 2006, attempts to contact the RC114B operatorhad been unsuccessful.☐ CAA Closure: No further CAA action practicable.
200509229	08/11/2005	EGTT : London (FIR)	Luton (LUT)	10 W	D	CTR	FOKKER	Turbofan	2	Infringement of the Luton CTR (Class D) by a RC114B. Traffic info and avoiding action given. All departures were stopped and four a/c were delayed. Standard separation maintained.	As at 7 Sep 2006, attempts to contact the RC114B operatorhad been unsuccessful.☐ CAA Closure: No further CAA action practicable.

200509238	04/11/2005	EGTT : London (FIR)	London-Heathrow - LHR	8 WNW	A	CTR	CESSNA	Reciprocating	1	Alleged infringement of the London CTR (Class A). Heathrow departures were stopped and a B747 was given traffic info. Standard separation lost.	Appropriate CAA action is being taken as a result of thisincident.
200509238	04/11/2005	EGTT : London (FIR)	London-Heathrow - LHR	8 WNW	A	CTR	BOEING	Turbofan	4	Alleged infringement of the London CTR (Class A). Heathrow departures were stopped and a B747 was given traffic info. Standard separation lost.	Appropriate CAA action is being taken as a result of thisincident.
200509240	03/11/2005	EGTT : London (FIR)	Stansted	NE	D	CTA	SOCATA	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a TB20. Traffic info was given to an inbound airliner. Standard separation maintained.	
200509272	09/11/2005	EGTT : London (FIR)	London-Heathrow - LHR		A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C172. All Heathrow departures were stopped. Standard separation maintained.	CAA Closure: Appropriate CAA action is to be taken as a result of this incident.
200509290	09/11/2005	EGTT : London (FIR)	London-Gatwick - LGW	10 S	A	TMA	PIPER	Reciprocating	1	PA28 allegedly infringed the London TMA (Class A) and lost standard separation with a B737 inbound to Gatwick. Traffic info and avoiding action was given to B737.	The operator of the PA28 has been fully alerted to this incident and has taken extensive remedial action.

200509290	09/11/2005	EGTT : London (FIR)	London-Gatwick - LGW	10 S	A	TMA	BOEING	Turbofan	2	PA28 allegedly infringed the London TMA (Class A) and lost standard separation with a B737 inbound to Gatwick. Traffic info and avoiding action was given to B737.	The operator of the PA28 has been fully alerted to this incident and has taken extensive remedial action.
200509291	09/11/2005	EGTT : London (FIR)	London-Gatwick - LGW	4.5 E	D	CTR	ROBINSON	Reciprocating	1	Alleged infringement of the Gatwick CTR (Class D) by a R22. An inbound a/c was extended on base leg. Standard separation maintained.	The operator of the R22 has been identified and has been fully alerted to the incident.
200509291	09/11/2005	EGTT : London (FIR)	London-Gatwick - LGW	4.5 E	D	CTR	AIRBUS	Turbofan	2	Alleged infringement of the Gatwick CTR (Class D) by a R22. An inbound a/c was extended on base leg. Standard separation maintained.	The operator of the R22 has been identified and has been fully alerted to the incident.
200509381	23/10/2005	EGTT : London (FIR)	Manchester (MCT)		D	CTR	BOEING	Turbofan	2	UK AIRPROX 197/2005 - B737 and a Hughes 500 at ManchesterAirport at 1800ft.	B737 on ILS approach to R/W24R at 2000ft received/complied with a TCAS RA of monitor vertical speed. B737 had no visual contact and subsequently continued the approach. The Hughes 500 pilot entered the Manchester CTR without clearance and then did not comply with ATC instructions and flewinto conflict with the B737.□ CAA Closure: The pilot has been fully alerted to the findings of the UKAB review of this AIRPROX. No further CAA action at this time.
200509381	23/10/2005	EGTT : London (FIR)	Manchester (MCT)		D	CTR	HUGHES	Turboshaft	1	UK AIRPROX 197/2005 - B737 and a Hughes 500 at ManchesterAirport at 1800ft.	B737 on ILS approach to R/W24R at 2000ft received/complied with a TCAS RA of monitor vertical speed. B737 had no visual contact and subsequently continued the approach. The Hughes 500 pilot entered the Manchester CTR without clearance and then did not comply with ATC instructions and flewinto conflict with the B737.□ CAA Closure: The pilot has been fully alerted to the findings of the UKAB review of this AIRPROX. No further CAA action at this time.

200509419	05/11/2005	EGTT : London (FIR)	Halton		G	ATZ	PZL OKECIE	Reciprocating	1	Alleged infringement of RAF Halton Air Cadets Gliding Site ATZ by a PZL-Koliber. A/c was on a delivery flight and pilot was unfamiliar with the avionics set up. Pilot apologised for the incident.	
200509439	14/11/2005	EGTT : London (FIR)	Nottingham East Midlands		D	CTR	PIPER	Reciprocating	1	PA28 infringed the Nottingham East Midlands CTR (Class D). An inbound Jetstream 41 was given traffic info. Standardseparation maintained. Pilot phoned after landing and apologised for the incident.	Pilot of PA28 that infringed the Nottingham East MidlandsCTR (Class D) phoned after landing stating that he was blown off track after PA28 departed Tatenhill; also, on selecting Nottingham East Midlands frequency he could hear ATC's blind transmissions, but could not communicate with ATC.
200509439	14/11/2005	EGTT : London (FIR)	Nottingham East Midlands		D	CTR	BAE	Turboprop	2	PA28 infringed the Nottingham East Midlands CTR (Class D). An inbound Jetstream 41 was given traffic info. Standardseparation maintained. Pilot phoned after landing and apologised for the incident.	Pilot of PA28 that infringed the Nottingham East MidlandsCTR (Class D) phoned after landing stating that he was blown off track after PA28 departed Tatenhill; also, on selecting Nottingham East Midlands frequency he could hear ATC's blind transmissions, but could not communicate with ATC.
200509442	16/11/2005	EGTT : London (FIR)	Biggin (BIG)		A	CTR	ROBINSON	Reciprocating	1	R44 infringed the London CTR (Class A) and subsequently landed at Biggin Hill prior to opening and whilst airfield inspection/checks were being carried out.	R44 pilot subsequently admitted to infringement, having failed to allow for a strong tail wind and momentarily becoming uncertain of his position. On realising that he had infringed the London CTR, he left immediately by the most direct track. R44 then arrived earlier than expected at Biggin Hill (again attributed to strong tail wind), when the pilot incorrectly decided to land before the published opening time with the intention of explaining his actions to the controller after landing. Pilot has apologised and been reminded of the importance of remaining clear of CAS andalso of complying with the Rules of the Air.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200509444	13/11/2005	EGTT : London (FIR)	London-Heathrow - LHR	4 NW	A	CTR	CESSNA	Reciprocating	1	C172 infringed the London CTR (Class A) and lost separation with an IL96 that had departed R/W27R. Departures from R/W27R were stopped.	Appropriate CAA action is being taken as a result of thisincident.

200509444	13/11/2005	EGTT : London (FIR)	London-Heathrow - LHR	4 NW	A	CTR	ILYUSHIN	Turbofan	4	C172 infringed the London CTR (Class A) and lost separation with an IL96 that had departed R/W27R. Departures from R/W27R were stopped.	Appropriate CAA action is being taken as a result of thisincident.
200509517	17/11/2005	EGTT : London (FIR)	Shoeburyness		G	Danger area	BEECH	Reciprocating	1	Infringement of active Danger Area EG D138 (Shoeburyness)by a formation of a Beech 17 and a Yak 52 on a photo detail. Pilot of Yak 52 was not aware that D138 was active.	Yak 52 pilot subsequently admitted to infringement, having mistaken the Airway base as the base of the Danger Area.He has been advised on map reading techniques.□ CAA Closure: The hazard is acceptable provided the frequency remains low.
200509517	17/11/2005	EGTT : London (FIR)	Shoeburyness		G	Danger area	YAKOVLEV	Reciprocating	1	Infringement of active Danger Area EG D138 (Shoeburyness)by a formation of a Beech 17 and a Yak 52 on a photo detail. Pilot of Yak 52 was not aware that D138 was active.	Yak 52 pilot subsequently admitted to infringement, having mistaken the Airway base as the base of the Danger Area.He has been advised on map reading techniques.□ CAA Closure: The hazard is acceptable provided the frequency remains low.
200509537	18/11/2005	EGTT : London (FIR)	Stansted	12 NE	A	TMA	PIPER	Reciprocating	1	Alleged infringement of the London TMA (Class A), 12nm Northeast of Stansted by a PA28. Standard separation maintained.	
200509575	18/11/2005	EGTT : London (FIR)	Haverhill	SW	D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Stansted CTR (Class D) by a PA28. Standard separation maintained.	

200509576	19/11/2005	EGTT : London (FIR)	White Waltham		A	CTR	PIPER	Reciprocating	1	Infringement of the London Heathrow CTR (Class A) by a PA28. Standard separation maintained. Subsequently pilot phoned and apologised for the incident.	
200509577	19/11/2005	EGTT : London (FIR)	London-Gatwick - LGW	14 SW	A	TMA	YAKOVLEV	Reciprocating	1	Alleged infringement of the London TMA (Class A) by a YAK18. Traffic info was given to a B737 inbound to Gatwick. Standard separation maintained.	
200509577	19/11/2005	EGTT : London (FIR)	London-Gatwick - LGW	14 SW	A	TMA	BOEING	Turbofan	2	Alleged infringement of the London TMA (Class A) by a YAK18. Traffic info was given to a B737 inbound to Gatwick. Standard separation maintained.	
200509580	20/11/2005	EGTT : London (FIR)	Doncaster Sheffield	1W	G	ATZ	WESTLAND	Turboshaft	1	Infringement of Doncaster ATZ by unidentified Gazelle at 1000ft, 1nm west of Doncaster.	
200509656	18/11/2005	EGTT : London (FIR)	Manchester (MCT)		D	CTR	CESSNA	Reciprocating	1	C152 left the low level corridor and infringed the Manchester CTR (Class D) airspace. Standard separation maintained.	

200509794	27/11/2005	EGTT : London (FIR)	Bristol International	5E	D	CTA	GROB	Reciprocating	1	Alleged infringement of Bristol CTA (Class D) by a G115. Traffic info was given to an inbound a/c. Standard separation maintained.	
200509794	27/11/2005	EGTT : London (FIR)	Bristol International	5E	D	CTA	UNKNOWN	Unknown		Alleged infringement of Bristol CTA (Class D) by a G115. Traffic info was given to an inbound a/c. Standard separation maintained.	
200509816	05/08/2005	EGTT : London (FIR)	GURLU	N	A		CESSNA	Reciprocating	1	Alleged infringement of the Worthing CTA (Class A) by a C182 at FL85. C182 called FIS and after checking, was told to descend to FL74 or below to remain clear of CAS. Standard separation maintained.	
200509883	29/11/2005	EGTT : London (FIR)	Stansted	10SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 2400ft. Traffic info and avoiding action was given to an inbound C560 and an A319. Separation was lost.	See also 200407591. Investigation ascertained that the PA28 pilot experienced a radio failure and subsequently landed non-radio at Elstree. The pilot discussed this occurrence with his CFI and, additionally, has undertaken a dual flight with his CFI.☐ CAA Closure: The hazard is adequatelycontrolled by existing requirements, procedures and documentation.
200509883	29/11/2005	EGTT : London (FIR)	Stansted	10SW	D	CTA	AIRBUS	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA28 at 2400ft. Traffic info and avoiding action was given to an inbound C560 and an A319. Separation was lost.	See also 200407591. Investigation ascertained that the PA28 pilot experienced a radio failure and subsequently landed non-radio at Elstree. The pilot discussed this occurrence with his CFI and, additionally, has undertaken a dual flight with his CFI.☐ CAA Closure: The hazard is adequatelycontrolled by existing requirements, procedures and documentation.

200509964	04/12/2005	EGTT : London (FIR)	Stansted				CESSNA	Reciprocating	1	Aircraft attempted to land at wrong airfield, having mistaken Stansted for Cambridge. Student pilot briefed accordingly by CFI.	The subject aircraft was VFR inbound to Cambridge and hadbeen instructed to carry out a standard overhead join forR/W23 LH. A Cessna 172 (C172) was also joining the overhead at that time and traffic information was passed. The subject aircraft did not call descending dead side and the next call received from the pilot was downwind. ATC instructed the pilot to call final nr1 but the aircraft was not visual and had not activated the DF. The C172 was also not visual with the aircraft. The subject aircraft's position was requested numerous times before being advised that he was not in the Cambridge circuit. Stansted then phoned to advise that the aircraft was there and had been instructedto go around. Investigation concluded that the a/c was being piloted by a student who had mistaken Stansted for Cambridge. A full debrief was undertaken by the student's CFland relevant en-route ATC units. □ CAA Closure: No furtherCAA action practicable.
200509990	04/12/2005	EGTT : London (FIR)	Luton (LUT)		D	CTR	PIPER	Reciprocating	1	Alleged infringement of Luton CTR (Class D) by unidentified PA28 at unknown altitude. Two departing a/c were vectored around the PA28 and then departures stopped until PA28 vacated CAS.	
200510026	04/12/2005	EGTT : London (FIR)	London-Gatwick - LGW	7 W	D	CTR	JABIRU	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a Jabiru pilot using a GPS and flying close to the zone boundary. An outbound B757 was vectored early off the SAM SID to obtain standard separation.	Pilot has been alerted to the incident.
200510026	04/12/2005	EGTT : London (FIR)	London-Gatwick - LGW	7 W	D	CTR	BOEING	Turbofan	2	Infringement of the Gatwick CTR (Class D) by a Jabiru pilot using a GPS and flying close to the zone boundary. An outbound B757 was vectored early off the SAM SID to obtain standard separation.	Pilot has been alerted to the incident.
200510161	10/12/2005	EGTT : London (FIR)	Stansted	10 NE	D	CTR	CESSNA	Reciprocating	1	C152 on a cross country exercise became lost and infringed the Stansted CTR (Class D), subsequently losing separation with an inbound B737. C152 was given navigational assistance.	Student pilot on solo cross country flight. Training organisation instructed to give at least 4 more hours of remedial training prior to next solo navigation flight. □ CAA Closure: No further CAA action practicable.

200510161	10/12/2005	EGTT : London (FIR)	Stansted	10 NE	D	CTR	BOEING	Turbofan	2	C152 on a cross country exercise became lost and infringed the Stansted CTR (Class D), subsequently losing separation with an inbound B737. C152 was given navigational assistance.	Student pilot on solo cross country flight. Training organisation instructed to give at least 4 more hours of remedial training prior to next solo navigation flight. ☐ CAA Closure: No further CAA action practicable.
200510166	28/11/2005	EGTT : London (FIR)	Portsmouth		G	Danger area	YAKOVLEV	Reciprocating	1	Infringement of active Danger Areas EG D036 and D038 (Portsmouth) by a Yak 18 at 2000ft that had encountered icing conditions and elected to remain VFR. Pilot phoned and apologised for the incident.	
200510356	14/12/2005	EGTT : London (FIR)	Manchester Barton A/F		G	ATZ	CESSNA	Reciprocating	1	Alleged infringement of the Manchester Barton ATZ (Class G) by a Cessna 206. Standard separation maintained.	
200510384	18/12/2005	EGTT : London (FIR)	London-Gatwick - LGW	W	D	CTA	PIPER	Reciprocating	1	Alleged infringement of the Gatwick CTA (Class D) by a PA28. A departing A319 was given a heading off the SID to maintain standard separation.	
200510384	18/12/2005	EGTT : London (FIR)	London-Gatwick - LGW	W	D	CTA	AIRBUS	Turbofan	2	Alleged infringement of the Gatwick CTA (Class D) by a PA28. A departing A319 was given a heading off the SID to maintain standard separation.	

200510385	17/12/2005	EGTT : London (FIR)	Banstead	2.5 NE	A	CTR	GRUMMAN	Reciprocating	1	Infringement of the London CTR (Class A) by an AA5 at 2000ft. All Heathrow Southbound departures were stopped until a/c was clear of CAS.	Investigation ascertained that the pilot mis-selected the 278 Radial from Biggin Hill VOR, instead of the 268 Radial. He realised his error after setting up box two on Ockham, but had already infringed the Southeast corner of the CTR. The pilot is now aware of the importance of accurate navigation, particularly around CAS, and has been reminded of the serious consequences of infringing CAS.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200510393	18/12/2005	EGTT : London (FIR)	Gravesend	W	A	TMA	CESSNA	Reciprocating	1	Alleged infringement of the London TMA (Class A) by a C172. Traffic info and avoiding action was given to an RJ85 inbound to London City. Standard separation maintain.	See also occ 200800990, 200602816, 200509852. Operator alerted.
200510393	18/12/2005	EGTT : London (FIR)	Gravesend	W	A	TMA	BAE	Turbofan	4	Alleged infringement of the London TMA (Class A) by a C172. Traffic info and avoiding action was given to an RJ85 inbound to London City. Standard separation maintain.	See also occ 200800990, 200602816, 200509852. Operator alerted.
200510394	19/12/2005	EGTT : London (FIR)	Bovingdon (BNN)	3N	A	TMA	SLINGSBY	Reciprocating	1	Infringement of the LTMA and Stansted CTR (Class D) by a Slingsby T67. Disruption caused to air traffic. A/c subsequently diverted to Cambridge. Separation lost	Investigation established that the Slingsby T67 was captained by a solo student pilot on a syllabus solo navigation sortie along a pre-planned standard navigation route. The pilot subsequently became lost at some point around the first turning point on the low level phase and, despite attempting to resolve the issue using training fixes, he infringed CAS. The pilot was properly prepared and authorised for the sortie and the route was not particularly complex, with its closest point to CAS being 9nm. It was ascertained that the pilot did not formally announce to ATC that he was lost, but merely obtained steers and training fixes as he tried to recover the situation. D&D took charge when the pilot called within CAS. Positive action has been taken to ensure that this type of incident does not occur again.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200510441	21/12/2005	EGTT : London (FIR)	Cardiff (CDF)		D	CTA	ROBINSON	Reciprocating	1	Alleged infringement of the Cardiff CTA (Class D) by a R44. An a/c that had departed R/W30 was given an avoiding turn to maintain separation.	

200510441	21/12/2005	EGTT : London (FIR)	Cardiff (CDF)		D	CTA	UNKNOWN	Unknown		Alleged infringement of the Cardiff CTA (Class D) by a R44. An a/c that had departed R/W30 was given an avoiding turn to maintain separation.	
200510617	20/12/2005	EGTT : London (FIR)	Luton (LUT)	5 SW	D	CTR	ROBINSON	Reciprocating	1	Alleged infringement of the Luton CTR (Class D) by a R44.An outbound a/c was taken off the SID. Standard separation maintained.	
200510618	27/12/2005	EGTT : London (FIR)	Luton (LUT)	SW	D	CTA	MOONEY	Reciprocating	1	Mooney 20J infringed the Luton CTA (Class D) and lost separation with an inbound B737, which was given traffic info.	Mooney 20J pilot subsequently admitted to and apologised for the infringement. He was flying an unfamiliar route due to poor weather being forecast along his normal route. However, it transpired that the weather was also bad along this route, with snow, freezing rain and icing apparent. The a/c was flown at varying altitudes between 1000-6000ft to avoid cloud as much as possible and to prevent icing. Despite this, significant ice build up was observed on the wings and brief frosting of the windscreen evident. The pilot's attempts to avoid bad weather, and concern at the ice build up, resulted in an increase in the workload and contributed to the error and subsequent infringement of the Luton CTA. Pilot has been reminded of the importance of adequate pre-flight planning.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200510618	27/12/2005	EGTT : London (FIR)	Luton (LUT)	SW	D	CTA	BOEING	Turbofan	2	Mooney 20J infringed the Luton CTA (Class D) and lost separation with an inbound B737, which was given traffic info.	Mooney 20J pilot subsequently admitted to and apologised for the infringement. He was flying an unfamiliar route due to poor weather being forecast along his normal route. However, it transpired that the weather was also bad along this route, with snow, freezing rain and icing apparent. The a/c was flown at varying altitudes between 1000-6000ft to avoid cloud as much as possible and to prevent icing. Despite this, significant ice build up was observed on the wings and brief frosting of the windscreen evident. The pilot's attempts to avoid bad weather, and concern at the ice build up, resulted in an increase in the workload and contributed to the error and subsequent infringement of the Luton CTA. Pilot has been reminded of the importance of adequate pre-flight planning.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200510646	21/12/2005	EGTT : London (FIR)	Southampton (SAM)	9 SW	D	CTA	PIPER	Reciprocating	1	Alleged infringement of the Solent CTA (Class D) by a PA28R. Traffic info was given to the PA28R and a DHC8 inboundto Southampton that was broken off the approach.	Appropriate CAA action is being taken as a result of thisincident.

200510646	21/12/2005	EGTT : London (FIR)	Southampton (SAM)	9 SW	D	CTA	DE HAVILLAND	Turboprop	2	Alleged infringement of the Solent CTA (Class D) by a PA28R. Traffic info was given to the PA28R and a DHC8 inboundto Southampton that was broken off the approach.	Appropriate CAA action is being taken as a result of thisincident.
200510667	22/12/2005	EGTT : London (FIR)	Nottingham East Midlands	7 E	D	CTA	CESSNA	Reciprocating	1	Infringement of the Nottingham East Midlands CTR/CTA (Class D) by a C172. Standard separation maintained.	
200510689	31/12/2005	EGTT : London (FIR)	Luton (LUT)	8 NW	D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Luton CTR (Class D) by a PA28. Traffic info was given. Standard separation maintained.	See also occ 200401757.
200600044	02/01/2006	EGTT : London (FIR)	Stansted	5 NE BPK VOR	D	CTA	PIPER	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a PA32R at 2400ft. An inbound a/c was given traffic info and radar headings. Standard separation maintained.	
200600044	02/01/2006	EGTT : London (FIR)	Stansted	5 NE BPK VOR	D	CTA	UNKNOWN	Unknown		Alleged infringement of the Stansted CTA (Class D) by a PA32R at 2400ft. An inbound a/c was given traffic info and radar headings. Standard separation maintained.	

200600246	12/01/2006	EGTT : London (FIR)	Luton (LUT)	7E	D	CTR	PIPER	Reciprocating	1	PA28 unsure of its position, infringed the Luton CTR (Class D) and lost separation with inbound B737. B737 was given traffic info and avoiding action. PA28 was subsequently escorted back to its base.	
200600246	12/01/2006	EGTT : London (FIR)	Luton (LUT)	7E	D	CTR	BOEING	Turbofan	2	PA28 unsure of its position, infringed the Luton CTR (Class D) and lost separation with inbound B737. B737 was given traffic info and avoiding action. PA28 was subsequently escorted back to its base.	
200600380	13/01/2006	EGTT : London (FIR)	Manchester Barton A/F	1SW	G	ATZ	AGUSTA	Turboshaft	2	Agusta A109E cleared to pass north of Barton aerodrome, however, a/c observed going against active circuit traffic within ATZ, south west of airfield.	
200600380	13/01/2006	EGTT : London (FIR)	Manchester Barton A/F	1SW	G	ATZ	CESSNA	Reciprocating	1	Agusta A109E cleared to pass north of Barton aerodrome, however, a/c observed going against active circuit traffic within ATZ, south west of airfield.	
200600423	21/01/2006	EGTT : London (FIR)	Daventry (DTY)	12W	A		BOEING	Turbofan	2	UK AIRPROX 8/2006 - B737 and a Robin R 2160 infringing Class A airspace, 12nm West of the DTY VOR at FL50. Traffic info and avoiding action given. B737 received a TCAS RA.	STCA/SMF activated. The Robin pilot, whilst conducting aerobatics, appears to have inadvertently entered CAS without a clearance. The pilot has decided that in future he will perform his aerobatics in airspace that is further away from CAS.☐ CAA Closure: No further CAA action. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).

200600423	21/01/2006	EGTT : London (FIR)	Daventry (DTY)	12W	A		AVIONS ROBIN	Reciprocating	1	UK AIRPROX 8/2006 - B737 and a Robin R 2160 infringing Class A airspace, 12nm West of the DTY VOR at FL50. Traffic info and avoiding action given. B737 received a TCAS RA.	STCA/SMF activated. The Robin pilot, whilst conducting aerobatics, appears to have inadvertently entered CAS without a clearance. The pilot has decided that in future he will perform his aerobatics in airspace that is further away from CAS.☐ CAA Closure: No further CAA action. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200600480	21/01/2006	EGTT : London (FIR)	London City - LCY	3 NE	D	CTR	UNKNOWN	Unknown		Infringement of the London City CTR (Class D) by unidentified a/c. Traffic info was given to a TB20.	
200600480	21/01/2006	EGTT : London (FIR)	London City - LCY	3 NE	D	CTR	SOCATA	Reciprocating	1	Infringement of the London City CTR (Class D) by unidentified a/c. Traffic info was given to a TB20.	
200600509	23/01/2006	EGTT : London (FIR)	Lambourne (LAM)	6 SE	A	TMA	CIRRUS	Reciprocating	1	SR20 allegedly infringed the London TMA (Class A) and lost separation with a C560, who was given traffic info and avoiding action. Also, all London City departures were suspended. STCA activated.	Owner was requested to provide further information but, as at 20 Sep 2006, had not done so. FAA advised accordingly. ☐ CAA Closure: No further CAA action practicable due to elapsed time.
200600509	23/01/2006	EGTT : London (FIR)	Lambourne (LAM)	6 SE	A	TMA	CESSNA	Turbofan	2	SR20 allegedly infringed the London TMA (Class A) and lost separation with a C560, who was given traffic info and avoiding action. Also, all London City departures were suspended. STCA activated.	Owner was requested to provide further information but, as at 20 Sep 2006, had not done so. FAA advised accordingly. ☐ CAA Closure: No further CAA action practicable due to elapsed time.

200600515	21/01/2006	EGTT : London (FIR)	Luton (LUT)	7SW	D	CTR	CESSNA	Reciprocating	1	Alleged infringement of the Luton CTR (Class D) by a C172, that was in direct conflict with all R/W26 departures. Tower advised and departures were stopped.	Analysis of the GPS unit data file provided by the pilot of the identified a/c, indicated that the a/c did not infringe the Luton CTR as alleged. See also 200509997.□ CAA Closure: No further CAA action practicable.
200600639	22/01/2006	EGTT : London (FIR)	Southampton (SAM)	6 N	D	CTR	PIPER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a PA28 (believed). No traffic was affected by this incident.	
200600715	29/01/2006	EGTT : London (FIR)	Ascot		A	CTR	PIPER	Reciprocating	1	Alleged infringement of the London CTR (Class A) by a PA28. Heathrow CPT SIDs were suspended and traffic info was passed to a helicopter operating in the area. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
200600715	29/01/2006	EGTT : London (FIR)	Ascot		A	CTR	OTHER	Other		Alleged infringement of the London CTR (Class A) by a PA28. Heathrow CPT SIDs were suspended and traffic info was passed to a helicopter operating in the area. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
200600720	29/01/2006	EGTT : London (FIR)	Luton (LUT)	4 W	D	CTR	DIAMOND	Reciprocating	1	Alleged infringement of the Luton CTR (Class D) by a DA40. Traffic info and avoiding action was given to an inboundB757, who had the a/c visual. Standard separation maintained.	Information indicates that this inadvertent infringement was caused by a student pilot. The training organisation has been contacted and have taken appropriate action.

200600720	29/01/2006	EGTT : London (FIR)	Luton (LUT)	4 W	D	CTR	BOEING	Turbofan	2	Alleged infringement of the Luton CTR (Class D) by a DA40. Traffic info and avoiding action was given to an inboundB757, who had the a/c visual. Standard separation maintained.	Information indicates that this inadvertent infringement was caused by a student pilot. The training organisation has been contacted and have taken appropriate action.
200600740	26/01/2006	EGTT : London (FIR)	Manchester (MCT)	NW	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a DR400. DR400 called Manchester and given heading/bearing for Barton as pilot was confused over his position. Standard separation maintained.	
200600767	29/01/2006	EGTT : London (FIR)	Nottingham East Midlands		D	CTR	ROBINSON	Reciprocating	1	Alleged airspace infringement by unidentified R22 at unverified altitude at East Midlands. Avoiding action issued to B737 by ATC. Standard separation maintained.	
200600767	29/01/2006	EGTT : London (FIR)	Nottingham East Midlands		D	CTR	BOEING	Turbofan	2	Alleged airspace infringement by unidentified R22 at unverified altitude at East Midlands. Avoiding action issued to B737 by ATC. Standard separation maintained.	
200600941	06/02/2006	EGTT : London (FIR)	London-Heathrow - LHR		A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C172. Heathrow Northbound departures were stopped. Standard separation maintained.	See also occ 200304415. Appropriate CAA action is being taken as a result of this incident.

200601044	09/02/2006	EGTT : London (FIR)	SITET		A		AVIONS ROBIN	Reciprocating	1	Infringement of Class A Airway near SITET by a DR400 at FL105. First call to the LACC FIR controller was the DR400 calling at the boundary at FL105 VFR.	Appropriate agencies alerted. Pilot was briefed to remainbelow CAS on his return flight.
200601117	11/02/2006	EGTT : London (FIR)	Luton (LUT)	E	D	CTA	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28. Separation lost with an A320 inbound to Luton. STCA/SMF activated. Traffic info and avoiding action given. Luton departures halted.	Appropriate CAA action has been taken as a result of thisincident.
200601117	11/02/2006	EGTT : London (FIR)	Luton (LUT)	E	D	CTA	AIRBUS	Turbofan	2	Infringement of the Luton CTR (Class D) by a PA28. Separation lost with an A320 inbound to Luton. STCA/SMF activated. Traffic info and avoiding action given. Luton departures halted.	Appropriate CAA action has been taken as a result of thisincident.
200601363	18/02/2006	EGTT : London (FIR)	Southend (SND)	3S	G	ATZ	CESSNA	Reciprocating	1	Alleged infringement of Southend Airport ATZ (Class G) by a C172 at 1500ft.	C172 was observed entering ATZ South West of Airfield. Crew called ATC to advise they were passing 1 mile to the West of the Airfield working Essex radar. A/c gave positionand level then left frequency to return to Essex Radar. Essex Radar confirmed having a/c on frequency.
200601468	26/02/2006	EGTT : London (FIR)	Bristol International	9E	D	CTA	GROB	Reciprocating	1	UK AIRPROX 22/2006 - A321 and G115, 9nm East of Bristol at FL35.	G115 infringed the Bristol CTA (Class D) and came into conflict with an outbound A321. A321 was given avoiding action. Realising the error, the G115 pilot initiated an immediate descent to clear CAS. Appropriate action taken by controller. A321 crew reacted promptly to ATC instructions, which contributed to a quick resolution of this conflict. This AIRPROX has been subject to a separate review by UKAB - see AIRPROX Report 22/06.□ CAA Closure: No further CAA action required at this time.

200601468	26/02/2006	EGTT : London (FIR)	Bristol International	9E	D	CTA	AIRBUS	Turbofan	2	UK AIRPROX 22/2006 - A321 and G115, 9nm East of Bristol at FL35.	G115 infringed the Bristol CTA (Class D) and came into conflict with an outbound A321. A321 was given avoiding action. Realising the error, the G115 pilot initiated an immediate descent to clear CAS. Appropriate action taken by controller. A321 crew reacted promptly to ATC instructions, which contributed to a quick resolution of this conflict. This AIRPROX has been subject to a separate review by UKAB - see AIRPROX Report 22/06.□ CAA Closure: No further CAA action required at this time.
200601542	25/02/2006	EGTT : London (FIR)	Isle of Man (IOM)	10N	D	CTR	GRUMMAN	Reciprocating	1	Infringement of the Ronaldsway CTR (Class D) by an AA5. Traffic info passed to a C172. AA5 called ATC when 4nm inside CAS. Pilot was advised of infringement and a/c left CAS.	See also 200403469.
200601542	25/02/2006	EGTT : London (FIR)	Isle of Man (IOM)	10N	D	CTR	CESSNA	Reciprocating	1	Infringement of the Ronaldsway CTR (Class D) by an AA5. Traffic info passed to a C172. AA5 called ATC when 4nm inside CAS. Pilot was advised of infringement and a/c left CAS.	See also 200403469.
200601687	02/03/2006	EGTT : London (FIR)	London-Gatwick - LGW	8E	D	CTR	PIPER	Reciprocating	1	Alleged infringement by a PA28 of the Gatwick CTR (Class D). B737 on approach issued with traffic info and avoidingaction. Standard separation maintained.	Student pilot on a cross country flight. See also 200400788.
200601687	02/03/2006	EGTT : London (FIR)	London-Gatwick - LGW	8E	D	CTR	AIRBUS	Turbofan	2	Alleged infringement by a PA28 of the Gatwick CTR (Class D). B737 on approach issued with traffic info and avoidingaction. Standard separation maintained.	Student pilot on a cross country flight. See also 200400788.

200601688	03/03/2006	EGTT : London (FIR)	London-Gatwick - LGW	4NW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by C172, 4nm Northwest of Gatwick. Farnborough assigned a/c squawk and turned a/c away from Gatwick. No other a/c affected.	See also 200505499. The pilot apparently became lost after encountering visibility on route that was worse than expected. The CFI and pilot concerned have covered the issues to be learnt from this incident.
200601689	03/03/2006	EGTT : London (FIR)	Luton (LUT)	5E	D	CTR	ROBINSON	Reciprocating	1	Alleged infringement of Luton CTR (Class D) by an R22, 5nm East of Luton at 1500ft.	A/c observed routeing down to the A1M Junction 7 doing anorbit before leaving to the Southeast up to 1800ft. The a/c was then observed manoeuvring and making final approachto Panshanger. ATC contacted instructor at Panshanger anddiscussed the importance of navigation and the possible zone infringement.
200601750	06/03/2006	EGTT : London (FIR)	Luton (LUT)	15NE	A	TMA	DIAMOND	Reciprocating	1	Infringement of the LTMA (Class A) by a DA40 at 5000ft. Traffic info given to CL600 on ILS approach. No avoiding action required.	Operator informed and solo student debriefed.
200601750	06/03/2006	EGTT : London (FIR)	Luton (LUT)	15NE	A	TMA	CANADAIR	Turbofan	2	Infringement of the LTMA (Class A) by a DA40 at 5000ft. Traffic info given to CL600 on ILS approach. No avoiding action required.	Operator informed and solo student debriefed.
200601751	04/03/2006	EGTT : London (FIR)	Stansted	10 SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 receiving a FIS. Standard separation maintained. Pilot has been alerted to the incident and has apologised.	The pilot identified a wide turn at BPK compounded by strong winds as the cause of the infringement.

200601752	03/03/2006	EGTT : London (FIR)	Luton (LUT)		D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28. Standard separation maintained. Operator fully alerted.	See also 200507946. The pilot concerned has been identified and is to undertake additional navigational training.
200601768	05/03/2006	EGTT : London (FIR)	Midhurst (MID)		A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA28. Standard separation maintained.	Appropriate CAA action has been taken as a result of this incident.
200601791	05/03/2006	EGTT : London (FIR)	Bournemouth	3N	D	CTR	CESSNA	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a C150. Inbound a/c were broken off their approaches. Traffic info given.	The pilot later apologised to Bournemouth ATC citing radio problems. Following this incident, the C150 pilot has purchased GPS and hand-held ICOM back-up radio. Additionally, pilot has been given appropriate advice concerning the importance of adequate pre-flight planning and remaining clear of controlled airspace.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200601836	05/03/2006	EGTT : London (FIR)	Lulworth		G	Danger area	PIPER	Reciprocating	1	Alleged infringement of active Danger Area EG D026 (Lulworth) by a PA28 at approximately 1000ft. Firing was stopped for 1min, then firing finished for the day.	See also 200106032. Investigation ascertained that the PA28 pilot incorrectly assumed that the Danger Area would be inactive at the weekend and so did not check. The pilot has apologised for his actions and been reminded of the serious consequences of infringing a Danger Area.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200601840	28/02/2006	EGTT : London (FIR)	Lulworth		G	Danger area		Reciprocating	1	Alleged infringement of active Danger Area EG D026 (Lulworth) by a Hughes 269 at 500ft avoiding a local snow storm. Firing was stopped for 5mins.	

200601957	05/03/2006	EGTT : London (FIR)	Liverpool	1S	D	CTA	PIPER	Reciprocating	1	Alleged infringement of Liverpool controlled airspace (Class D) by a PA28 at 1300ft. Traffic info given.	PA28 was transferred to Liverpool ATC where traffic info was given on another PA28.
200601957	05/03/2006	EGTT : London (FIR)	Liverpool	1S	D	CTA	PIPER	Reciprocating	1	Alleged infringement of Liverpool controlled airspace (Class D) by a PA28 at 1300ft. Traffic info given.	PA28 was transferred to Liverpool ATC where traffic info was given on another PA28.
200602014	15/03/2006	EGTT : London (FIR)	Biggin (BIG)		A	TMA	PILATUS	Turboprop	1	Infringement of the London City CTR (Class D), LTMA (Class A) and Biggin Hill ATZ (Glass G) by a PC12 at 2400ft. Separation lost with a Fokker 50. Traffic info and avoidingaction given.	STCA/SMF activated. See 200509096. Pilot reported having avionics and autopilot problems, causing high workload. Investigation confirmed that the PC12 pilot had been distracted by a system warning shortly after take-off and that this warning recurred prior to pilot contacting ATC. Due to the distraction, the pilot then requested a RIS, rather than a RAS, and incorrectly assumed that he had the appropriate entry clearance while he dealt with the problem. The pilot has been reminded of the need to obtain clarificationif there is any doubt about a clearance.□ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200602014	15/03/2006	EGTT : London (FIR)	Biggin (BIG)		A	TMA	FOKKER	Turboprop	2	Infringement of the London City CTR (Class D), LTMA (Class A) and Biggin Hill ATZ (Glass G) by a PC12 at 2400ft. Separation lost with a Fokker 50. Traffic info and avoidingaction given.	STCA/SMF activated. See 200509096. Pilot reported having avionics and autopilot problems, causing high workload. Investigation confirmed that the PC12 pilot had been distracted by a system warning shortly after take-off and that this warning recurred prior to pilot contacting ATC. Due to the distraction, the pilot then requested a RIS, rather than a RAS, and incorrectly assumed that he had the appropriate entry clearance while he dealt with the problem. The pilot has been reminded of the need to obtain clarificationif there is any doubt about a clearance.□ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200602067	12/03/2006	EGTT : London (FIR)	London-Heathrow - LHR	15nm NW	A	TMA	PIPER	Reciprocating	1	Infringement of Class A airspace by Piper PA28 due to aircraft transponder malfunction. Avoiding action given to A320.	The ATC controller noticed unknown traffic squawking 7000apparently inside CAS. The Mode C readout alternated between 3200ft and 1300ft, and then disappeared. STCA activated and the Mode C readout again displayed 3200ft. Attempts to trace the aircraft were initiated and avoiding action (together with traffic information) was given to an A320 aircraft on initial approach. The A320 pilot then reported visual with the unknown traffic. With the unknown aircraft now downwind the pilot was instructed to stop descent and also given traffic information. The pilot of the unknown aircraft later telephoned ATC and was debriefed accordingly. Although the pilot believed that the aircraft was below the base of CAS it was suspected that any discrepancy was due to a transponder malfunction. During subsequent air test it was determined that the Mode C of the aircraft was indicating 800ft high. Aircraft grounded awaiting repair tothe transponder. Event later reviewed and separation between the two aircraft was calculated at approx 4nm.

200602067	12/03/2006	EGTT : London (FIR)	London-Heathrow - LHR	15nm NW	A	TMA	AIRBUS	Turbofan	2	Infringement of Class A airspace by Piper PA28 due to aircraft transponder malfunction. Avoiding action given to A320.	The ATC controller noticed unknown traffic squawking 7000apparently inside CAS. The Mode C readout alternated between 3200ft and 1300ft, and then disappeared. STCA activated and the Mode C readout again displayed 3200ft. Attempts to trace the aircraft were initiated and avoiding action (together with traffic information) was given to an A320 aircraft on initial approach. The A320 pilot then reported visual with the unknown traffic. With the unknown aircraft now downwind the pilot was instructed to stop descent and also given traffic information. The pilot of the unknown aircraft later telephoned ATC and was debriefed accordingly. Although the pilot believed that the aircraft was below the base of CAS it was suspected that any discrepancy was due to a transponder malfunction. During subsequent air test it was determined that the Mode C of the aircraft was indicating 800ft high. Aircraft grounded awaiting repair tothe transponder. Event later reviewed and separation between the two aircraft was calculated at approx 4nm.
200602167	19/03/2006	EGTT : London (FIR)	Brookmans Park (BPK)	5E	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of Stansted (Class D) CTA by a Robin DR400 squawking 7000 at 2000ft. Loss of separation against B737 on approach.	B737 turned onto base leg when ATC observed the DR400 South of Stansted. After 1-2 miles the DR400 turned sharp left towards BPK VOR. B737 turned 080 degrees onto final approach, and away from the DR400. The two a/c were tracking away from each other. No traffic info or avoiding actions given. Pilot later apologised for his navigational error, stating that as soon as he realised his mistake he turned sharp left away from the CTA.
200602167	19/03/2006	EGTT : London (FIR)	Brookmans Park (BPK)	5E	D	CTA	BOEING	Turbofan	2	Infringement of Stansted (Class D) CTA by a Robin DR400 squawking 7000 at 2000ft. Loss of separation against B737 on approach.	B737 turned onto base leg when ATC observed the DR400 South of Stansted. After 1-2 miles the DR400 turned sharp left towards BPK VOR. B737 turned 080 degrees onto final approach, and away from the DR400. The two a/c were tracking away from each other. No traffic info or avoiding actions given. Pilot later apologised for his navigational error, stating that as soon as he realised his mistake he turned sharp left away from the CTA.
200602174	15/03/2006	EGTT : London (FIR)	London City - LCY	2.5E	D	CTR	PILATUS	Turboprop	1	Infringement of London City (Class D) CTR by a PC12 at 1200ft. Traffic info and avoiding action issued to a Fokker 50 departing London City airport. Standard separation maintained.	Descent given to PC12 to 2400ft to leave controlled airspace. Pilot then cancelled IFR flight plan. PC12 was observed crossing Thames, 2nm East of the QE2 bridge. PC12 then cleared to own navigation and enroute frequency. ATC observed PC12 routing close to the Northeast edge of the City CTR. When the PC12 was 1nm before the CTR, ATC called CityTower. Fokker 50 was departing at this time and turned onto a heading away from the PC12. See also 200301500
200602174	15/03/2006	EGTT : London (FIR)	London City - LCY	2.5E	D	CTR	FOKKER	Turboprop	2	Infringement of London City (Class D) CTR by a PC12 at 1200ft. Traffic info and avoiding action issued to a Fokker 50 departing London City airport. Standard separation maintained.	Descent given to PC12 to 2400ft to leave controlled airspace. Pilot then cancelled IFR flight plan. PC12 was observed crossing Thames, 2nm East of the QE2 bridge. PC12 then cleared to own navigation and enroute frequency. ATC observed PC12 routing close to the Northeast edge of the City CTR. When the PC12 was 1nm before the CTR, ATC called CityTower. Fokker 50 was departing at this time and turned onto a heading away from the PC12. See also 200301500

200602195	17/03/2006	EGTT : London (FIR)	Middle Wallop		G	ATZ	SOCATA	Reciprocating	1	Infringement of Middle Wallop ATZ (Class G) by a TB10 at 1000ft. Conflict with a Gazelle within the ATZ.	Investigation established that, immediately after take-off, ATC instructed TB10 to make an early left turn due to following landing traffic. This took the a/c off of the planned track, which would have avoided this situation. ATC released the TB10 on their own navigation at their zone boundary and a new plan was formulated by the PNF, who then became busy dealing with radio calls. At this point, the more inexperienced PF, reverted to the original planned track which, due to TB10's position, resulted in the infringement. PNF did not notice this due to the distraction of theradio calls. Pilots called Middle Wallop ATC on landing, explained the situation and apologised for their actions. Bad weather and poor visibility also contributed to the event. Both pilots have learned valuable lessons from this incident and will endeavour to be better prepared for future flights as a result.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200602195	17/03/2006	EGTT : London (FIR)	Middle Wallop		G	ATZ	OTHER	Unknown		Infringement of Middle Wallop ATZ (Class G) by a TB10 at 1000ft. Conflict with a Gazelle within the ATZ.	Investigation established that, immediately after take-off, ATC instructed TB10 to make an early left turn due to following landing traffic. This took the a/c off of the planned track, which would have avoided this situation. ATC released the TB10 on their own navigation at their zone boundary and a new plan was formulated by the PNF, who then became busy dealing with radio calls. At this point, the more inexperienced PF, reverted to the original planned track which, due to TB10's position, resulted in the infringement. PNF did not notice this due to the distraction of theradio calls. Pilots called Middle Wallop ATC on landing, explained the situation and apologised for their actions. Bad weather and poor visibility also contributed to the event. Both pilots have learned valuable lessons from this incident and will endeavour to be better prepared for future flights as a result.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200602276	21/03/2006	EGTT : London (FIR)	Manchester (MCT)	10	D	CTR	BEECH	Reciprocating	1	Alleged infringement of the Manchester CTR (Class D) by aBeech 23. Traffic info given. Standard separation maintained.	
200602290	22/03/2006	EGTT : London (FIR)	North Weald	4NW	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 2000ft. The base of the CTA in that area is 1500ft. A/c told to descend. Standard separation maintained.	PA28 called on frequency, but ATC were unable to locate a/c on radar. A/c identified 4nm Northwest of North Weald and inside the Stansted CTA. ATC heard a brief transmission, made in error from the crew, that confirmed that the a/cwas unsure of its position. The appropriate CFI has been alerted to this incident and has briefed the pilot accordingly.
200602291	22/03/2006	EGTT : London (FIR)	North Weald	5 SW	D	CTR	GRUMMAN	Reciprocating	1	Infringement of the Stansted CTR (Class D) by an AA5 inbound to R/W02 at North Weald. Separation lost with a B737 inbound to Stansted.	The AA5 pilot was track keeping by GPS, which indicated that the a/c had remained clear of CAS. Pilot has been advised not to rely on GPS as his sole means of navigation andto allow a greater margin for error when flying close to CAS.☐ CAA Closure: The hazard is acceptable provided the frequency remains low.

200602291	22/03/2006	EGTT : London (FIR)	North Weald	5 SW	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by an AA5 inbound to R/W02 at North Weald. Separation lost with a B737 inbound to Stansted.	The AA5 pilot was track keeping by GPS, which indicated that the a/c had remained clear of CAS. Pilot has been advised not to rely on GPS as his sole means of navigation andto allow a greater margin for error when flying close to CAS.☐ CAA Closure: The hazard is acceptable provided the frequency remains low.
200602316	22/03/2006	EGTT : London (FIR)	Bristol International	8NW	D	CTA	PIPER	Reciprocating	1	Alleged infringement of Bristol CTA (Class D) by a PA18 at 1500ft. Another a/c was re-positioned on final approach away from PA18. Traffic info given. Standard separation maintained.	PA18 tried to contact Bristol ATC but without establishing two way communications.
200602316	22/03/2006	EGTT : London (FIR)	Bristol International	8NW	D	CTA	UNKNOWN	Unknown		Alleged infringement of Bristol CTA (Class D) by a PA18 at 1500ft. Another a/c was re-positioned on final approach away from PA18. Traffic info given. Standard separation maintained.	PA18 tried to contact Bristol ATC but without establishing two way communications.
200602323	23/03/2006	EGTT : London (FIR)	Liverpool	10ESE	D	CTR	ROBINSON	Reciprocating	1	Infringement of Liverpool CTR (Class D) by an R44. Standard separation maintained.	Investigation attributed the infringement to an error by the R44 pilot, who took appropriate action as soon as he realised the situation before telephoning ATC on landing toapologise.☐ CAA Closure: No further CAA action required at this time.
200602372	23/03/2006	EGTT : London (FIR)	London-Gatwick - LGW	11 W	A	TMA	PIPER	Reciprocating	1	Alleged infringement of the LTMA (Class A) by a PA28. Separation lost with an airliner inbound to Gatwick.	Appropriate CAA action is to be taken as a result of thisincident.

200602372	23/03/2006	EGTT : London (FIR)	London-Gatwick - LGW	11 W	A	TMA	UNKNOWN	Unknown		Alleged infringement of the LTMA (Class A) by a PA28. Separation lost with an airliner inbound to Gatwick.	Appropriate CAA action is to be taken as a result of thisincident.
200602383	21/03/2006	EGTT : London (FIR)	Kenley		G		CESSNA	Reciprocating	1	Alleged infringement of the South London Gliding Centre Cable Hazard at Kenley Airfield by unidentified C182 at an estimated height of 1100ft.	
200602393	28/03/2006	EGTT : London (FIR)	Luton (LUT)	7NE	D	CTR	PIPER	Reciprocating	1	Infringement of Luton CTR (Class D) by a PA28 at 2200ft. PA28 tracked westbound, 1.5nm South of the boundary. The a/c was seen to turn right and exit the zone. Standard separation maintained.	The CFI was contacted by ATC and appropriate follow up action has been taken. See 200605892, 200602802 and 200604890.
200602405	26/03/2006	EGTT : London (FIR)	Stansted	4 SW	D	CTR	EXTRA	Reciprocating	1	Infringement of Stansted CTR (Class D) by three a/c, one of which was squawking emergency. D&D notified. A/c had been involved in a mid-air collision and routed direct to North Weald.	See also 200602337 and 200609430.
200602405	26/03/2006	EGTT : London (FIR)	Stansted	4 SW	D	CTR	EXTRA	Reciprocating	1	Infringement of Stansted CTR (Class D) by three a/c, one of which was squawking emergency. D&D notified. A/c had been involved in a mid-air collision and routed direct to North Weald.	See also 200602337 and 200609430.

200602439	13/03/2006	EGTT : London (FIR)	Coventry		G	ATZ	ROBINSON	Reciprocating	1	R44 infringed the Coventry ATZ. Subsequently pilot reported being distracted by a series of clutch warning lights lasting between 3-6secs, which could have resulted in a possible emergency situation.	
200602460	29/03/2006	EGTT : London (FIR)	BIGLI	3	A	TMA	GROB	Reciprocating	1	G115 infringed the LTMA (Class A).Traffic info and avoiding action was given to a B737 inbound to Luton. Standard separation maintained. Pilot phoned stating misinterpretation of the base of CAS.	
200602460	29/03/2006	EGTT : London (FIR)	BIGLI	3	A	TMA	BOEING	Turbofan	2	G115 infringed the LTMA (Class A).Traffic info and avoiding action was given to a B737 inbound to Luton. Standard separation maintained. Pilot phoned stating misinterpretation of the base of CAS.	
200602596	01/04/2006	EGTT : London (FIR)	ORTAC		A		PIPER	Reciprocating	1	PA28 infringed Airway N866 (Class A) and lost separation with a PA24. Traffic info and avoiding action given.	Following this incident, PA28 pilot has reviewed his procedures. He has also been reminded of the importance of adequate pre-flight planning and subsequent adherence to the plan.☐ CAA Closure: The hazard is adequately controlled bythe actions stated above.
200602596	01/04/2006	EGTT : London (FIR)	ORTAC		A		PIPER	Reciprocating	1	PA28 infringed Airway N866 (Class A) and lost separation with a PA24. Traffic info and avoiding action given.	Following this incident, PA28 pilot has reviewed his procedures. He has also been reminded of the importance of adequate pre-flight planning and subsequent adherence to the plan.☐ CAA Closure: The hazard is adequately controlled bythe actions stated above.

200602774	05/04/2006	EGTT : London (FIR)	Netheravon		G	ATZ	BELL	Turboshaft	1	Alleged infringement of the Netheravon ATZ by a Bell 206 helicopter. At the time of the incident, there were no canopies in the air, but an C208 was on the ground loading parachutists.	
200602774	05/04/2006	EGTT : London (FIR)	Netheravon		G	ATZ	CESSNA	Turboprop	1	Alleged infringement of the Netheravon ATZ by a Bell 206 helicopter. At the time of the incident, there were no canopies in the air, but an C208 was on the ground loading parachutists.	
200602797	05/04/2006	EGTT : London (FIR)	Shoeburyness		G	Danger area	PIPER	Reciprocating	1	Infringement of active Danger Area EG D138A and D138 (Shoeburyness) by a PA28 at 2900ft. Check-fire imposed.	PA28 pilot very apologetic. Subsequently suspended from Flying Instructor duties pending meetings with CFI.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200602802	06/04/2006	EGTT : London (FIR)	Stansted	6nm	D	CTR	PIPER	Reciprocating	1	UK AIRPROX 42/2006 - B737 and PA28, while B737 on finals ILS R/W23 Stansted at 1800ft.	B737, descending to capture R/W23 localiser, was given traffic info on a PA28 believed to be operating outside CAS.PA28 appeared to be following the R/W23 extended centreline. B737 reported traffic on TCAS. B737 then became established and was given descent with ILS. PA28 entered CAS andB737 was asked if it was happy to continue, which the B737 pilot affirmed. It is further alleged that PA28 switchedoff its transponder when inside CAS.☐ CAA Closure: Appropriate CAA action is to be taken as a result of this AIRPROX. This AIRPROX will be subject to a separate review by the United Kingdom AIRPROX Board (UKAB). See also 200605892,200602393 and 200604890.
200602802	06/04/2006	EGTT : London (FIR)	Stansted	6nm	D	CTR	BOEING	Turbofan	2	UK AIRPROX 42/2006 - B737 and PA28, while B737 on finals ILS R/W23 Stansted at 1800ft.	B737, descending to capture R/W23 localiser, was given traffic info on a PA28 believed to be operating outside CAS.PA28 appeared to be following the R/W23 extended centreline. B737 reported traffic on TCAS. B737 then became established and was given descent with ILS. PA28 entered CAS andB737 was asked if it was happy to continue, which the B737 pilot affirmed. It is further alleged that PA28 switchedoff its transponder when inside CAS.☐ CAA Closure: Appropriate CAA action is to be taken as a result of this AIRPROX. This AIRPROX will be subject to a separate review by the United Kingdom AIRPROX Board (UKAB). See also 200605892,200602393 and 200604890.

200602803	08/04/2006	EGTT : London (FIR)	Luton (LUT)	8E	D	CTR	GRUMMAN	Reciprocating	1	Infringement of Luton CTR (Class D) by an AA5B. B737 given extended vectoring and traffic info before establishing on localiser. Separation lost.	The AA5B pilot has contacted ATC and apologised for the incident which occurred when the pilot lost situational awareness in the Lea Valley area. He has initiated a programme of self improvement in liaison with his club CFI.
200602803	08/04/2006	EGTT : London (FIR)	Luton (LUT)	8E	D	CTR	BOEING	Turbofan	2	Infringement of Luton CTR (Class D) by an AA5B. B737 given extended vectoring and traffic info before establishing on localiser. Separation lost.	The AA5B pilot has contacted ATC and apologised for the incident which occurred when the pilot lost situational awareness in the Lea Valley area. He has initiated a programme of self improvement in liaison with his club CFI.
200602806	09/04/2006	EGTT : London (FIR)	Barkway (BKY)		A	TMA	PIPER	Reciprocating	1	Alleged infringement of LTMA (Class A) by a PA28 at FL68 at Barkway. A/c experiencing navigational difficulties. D&D contacted to establish exact position of a/c. Standard separation maintained.	
200602807	06/04/2006	EGTT : London (FIR)	Luton (LUT)	8SW	D	CTR	PIPER	Reciprocating	1	Infringement of Luton CTR (Class D) by a PA28 at 3000ft. Traffic info given. Standard separation maintained.	A/c observed tracking through CTR, 8nm Southwest of Luton, and exited Northeast of Bovingdon. All departures transferred to another frequency. Pilot had called D&D stating that he was unsure of his position, D&D identified a/c, descended it out of CAS and directed it towards destination. This was occurring at the same time as the LTCC Supervisorwas calling D&D.
200602807	06/04/2006	EGTT : London (FIR)	Luton (LUT)	8SW	D	CTR	BOEING	Turbofan	2	Infringement of Luton CTR (Class D) by a PA28 at 3000ft. Traffic info given. Standard separation maintained.	A/c observed tracking through CTR, 8nm Southwest of Luton, and exited Northeast of Bovingdon. All departures transferred to another frequency. Pilot had called D&D stating that he was unsure of his position, D&D identified a/c, descended it out of CAS and directed it towards destination. This was occurring at the same time as the LTCC Supervisorwas calling D&D.

200602816	08/04/2006	EGTT : London (FIR)	Clacton (CLN)	10N	A		CESSNA	Reciprocating	1	Alleged infringement of Airway (Class A), 10nm North of Clacton, by a C172. Traffic info given and other traffic vectored to remain clear of C172. Standard separation maintained.	C172 allegedly at FL80 climbing to FL120. See also 200800990, 200509852 and 200510393. C172 pilot subsequently reported that he had specifically selected Mode A and not ModeC since the a/c did not have a placard stating that the transponder was altitude encoding. The pilot maintains thathe did not climb above FL100. Unable to reconcile reports. However, pilot has been reminded of the importance of remaining clear of CAS.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200602821	05/04/2006	EGTT : London (FIR)	London City - LCY	8	A	TMA	CESSNA	Reciprocating	1	C152 infringed the London TMA (Class A) and lost separation with a FK50 inbound to London City. FK50 was given traffic info and a left turn to regain separation.	Investigation established that the C152 pilot was conducting a solo navigation flight following a prolonged period of inactivity. During an unplanned orbit, C152 inadvertently climbed into CAS. When the error was realised, pilot descended to clear CAS. Pilot has been advised not to fly solo without having first taken a dual check following any future prolonged periods without flying and has agreed to comply with this advice.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200602821	05/04/2006	EGTT : London (FIR)	London City - LCY	8	A	TMA	FOKKER	Turboprop	2	C152 infringed the London TMA (Class A) and lost separation with a FK50 inbound to London City. FK50 was given traffic info and a left turn to regain separation.	Investigation established that the C152 pilot was conducting a solo navigation flight following a prolonged period of inactivity. During an unplanned orbit, C152 inadvertently climbed into CAS. When the error was realised, pilot descended to clear CAS. Pilot has been advised not to fly solo without having first taken a dual check following any future prolonged periods without flying and has agreed to comply with this advice.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200602918	08/04/2006	EGTT : London (FIR)	Southampton (SAM)		D	CTR	CESSNA	Reciprocating	1	Alleged infringement of the Southampton CTR (Class D) by a C172. Standard separation maintained.	C172 contacted Solent Radar to advise it had departed Longwood, which is within the Southampton CTR (Class D), and was now leaving CAS. ATC asked pilot if he had received authorisation to depart within the Southampton CTR. Pilot replied that he had been told it was OK to depart and to call Solent when in the air. ATC advised pilot he should have contacted Southampton ATC prior to departure.
200602986	12/04/2006	EGTT : London (FIR)	Redditch		D	CTA	JODEL	Reciprocating	1	Infringement of Birmingham CTA (Class D) by a Jodel D120Aat 3000ft. Pilot believed the base of the CTA to be at 3500ft. Pilot apologised for mistake. Standard separation maintained.	

200602991	10/04/2006	EGTT : London (FIR)	Halton		G	ATZ	OTHER	Other		Alleged infringement of active Halton ATZ by an unidentified helicopter at 1200ft.	
200602991	10/04/2006	EGTT : London (FIR)	Halton		G	ATZ	PIPER	Reciprocating	1	Alleged infringement of active Halton ATZ by an unidentified helicopter at 1200ft.	
200603018	15/04/2006	EGTT : London (FIR)	St Hillary TV Mast	2N	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of Cardiff CTR (Class D) by a Robin 2120 at 2400ft. ATC advised the a/c that it had entered CTR and a/c vacated. Pilot apologised for mistake. Standard separation maintained.	
200603021	15/04/2006	EGTT : London (FIR)	Cardiff (CDF)		D	CTA	PIPER	Reciprocating	1	IFR PA28 called ATC as it was entering the Cardiff CTR (Class D) and reported at FL50 on a heading of 265deg. There had been no co-ordination with neighbouring ATC or by the pilot.	Unknown to Cardiff Radar 2 controller, ATSA had received a call from a neighbouring ATC passing certain details on a PA28 inbound to Cardiff. ATSA believes that he was not told that the PA28 was IFR or informed that it was on a heading or was for an ILS at Cardiff. ATSA entered PA28's flight details into the Copperchase system, but his attention was diverted and he failed to notice that the flight progress strip had not been generated. ATSA believes that this may have been because the word 'live' was entered, which the system did not understand. Due to no strips being printed, Radar 1 and 2 were unaware of the flight. Subsequently, PA28 called Radar 2 as it was entering CAS reporting at FL50 on a heading of 265deg.
200603029	17/04/2006	EGTT : London (FIR)	Stansted	7 NE	D	CTR	PIPER	Reciprocating	1	A PA28, that had departed Andrewsfield, allegedly infringed the Stansted CTR (Class D) and lost separation with an inbound B737. STCA activated.	Information indicates that the a/c had a bird strike resulting in the loss of the propeller spinner. Whilst recovering/checking after this incident the a/c flew into the Stansted CTR. Appropriate CAA action is being taken as a result of this incident.

200603029	17/04/2006	EGTT : London (FIR)	Stansted	7 NE	D	CTR	BOEING	Turbofan	2	A PA28, that had departed Andrewsfield, allegedly infringed the Stansted CTR (Class D) and lost separation with an inbound B737. STCA activated.	Information indicates that the a/c had a bird strike resulting in the loss of the propeller spinner. Whilst recovering/checking after this incident the a/c flew into the Stansted CTR. Appropriate CAA action is being taken as a result of this incident.
200603031	15/04/2006	EGTT : London (FIR)	London-Gatwick - LGW	15 SW	A	TMA	VANS	Reciprocating	1	Unknown a/c infringed the London TMA (Class A) and lost separation with an A319 inbound to Gatwick, who was given traffic info and avoiding action. Unknown a/c subsequently identified as an RV4.	Pilot phoned and apologised for the error.
200603031	15/04/2006	EGTT : London (FIR)	London-Gatwick - LGW	15 SW	A	TMA	AIRBUS	Turbofan	2	Unknown a/c infringed the London TMA (Class A) and lost separation with an A319 inbound to Gatwick, who was given traffic info and avoiding action. Unknown a/c subsequently identified as an RV4.	Pilot phoned and apologised for the error.
200603032	15/04/2006	EGTT : London (FIR)	Southampton (SAM)	5 NW	D	CTA	OTHER	Reciprocating	1	Contact observed infringing Southampton CTA (Class D). D&D called to say they had a microlight in the area that waslost. A/c transferred to Southampton who provided radar assistance.	The a/c made a Pan call to D&D reporting he was lost.
200603033	15/04/2006	EGTT : London (FIR)	Winchester	W	D	CTR	OTHER	Reciprocating	1	Alleged infringement of Solent CTA (Class D) by three unidentified a/c at 2000ft. Traffic info given to a/c on departure and other a/c in the area. Standard separation maintained.	Two of the a/c were flexi wing microlights with the thirddnot being positively identified.

200603033	15/04/2006	EGTT : London (FIR)	Winchester	W	D	CTR	OTHER	Reciprocating	1	Alleged infringement of Solent CTA (Class D) by three unidentified a/c at 2000ft. Traffic info given to a/c on departure and other a/c in the area. Standard separation maintained.	Two of the a/c were flexi wing microlights with the thirddot being positively identified.
200603034	13/04/2006	EGTT : London (FIR)	Southampton (SAM)	6 N	D	CTR	ROBINSON	Reciprocating	1	Unknown a/c infringed the Southampton CTR (Class D). Subsequently unknown a/c called ATC and identified as an R44 and told to leave CAS. Standard separation maintained.	
200603036	17/04/2006	EGTT : London (FIR)	Stansted	NW	D	CTR	PIPER	Reciprocating	1	Infringement of Stansted CTR (Class D) by a PA28. B757 oninitial climb given an early right turn. Separation lost.	Another a/c was also observed entering into the CTR but exited very quickly. See also 200507270. Investigation ascertained that the PA28 pilot's planned track was direct from Little Gransden to the QE2 Bridge and, while this track was clear of CAS, there was little or no margin for error.The pilot then became distracted by a comms failure on both radios prior to the infringement. The pilot has been reminded of the serious consequences of infringing CAS and has been advised to plan future tracks to avoid CAS by a wider margin.□ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200603036	17/04/2006	EGTT : London (FIR)	Stansted	NW	D	CTR	BOEING	Turbofan	2	Infringement of Stansted CTR (Class D) by a PA28. B757 oninitial climb given an early right turn. Separation lost.	Another a/c was also observed entering into the CTR but exited very quickly. See also 200507270. Investigation ascertained that the PA28 pilot's planned track was direct from Little Gransden to the QE2 Bridge and, while this track was clear of CAS, there was little or no margin for error.The pilot then became distracted by a comms failure on both radios prior to the infringement. The pilot has been reminded of the serious consequences of infringing CAS and has been advised to plan future tracks to avoid CAS by a wider margin.□ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200603056	12/04/2006	EGTT : London (FIR)	Southampton (SAM)	7N	D	CTR	BELL	Turboshaft	1	Infringement of Southampton CTR (Class D) by a Bell 206B at 1500ft. A/c allowed to track through as no other traffic to affect. Standard separation maintained.	A/c called on 120.22 and it was identified already in CASwithout a clearance.

200603114	18/04/2006	EGTT : London (FIR)	Luton (LUT)	7 NE	D	CTR	ROBINSON	Reciprocating	1	Infringement to Luton CTR (Class D) by a R44 at 1200ft. Traffic info given to an ATR72 at 6000ft tracking towards the R44. Pilot later apologised for his error. Standard separation maintained.	
200603114	18/04/2006	EGTT : London (FIR)	Luton (LUT)	7 NE	D	CTR	ATR	Turboprop	2	Infringement to Luton CTR (Class D) by a R44 at 1200ft. Traffic info given to an ATR72 at 6000ft tracking towards the R44. Pilot later apologised for his error. Standard separation maintained.	
200603185	01/04/2006	EGTT : London (FIR)	Barkway (BKY)	2 NW	A	TMA	DIAMOND	Reciprocating	1	Alleged infringement of the London TMA (Class A) by a DA40. Standard separation maintained.	
200603252	22/04/2006	EGTT : London (FIR)	Birmingham	NW 22	A	CTR	SLINGSBY	Reciprocating	1	UK AIRPROX 48/2006 - B737 and a Slingsby T61, 22nm Northwest of Birmingham at FL80. Slingsby T61 infringed Class A airspace and lost separation with the B737, which pilot did not see.	CAA Closure: No further CAA action required at this time.This AIRPROX has been subject to a separate review by theUnited Kingdom AIRPROX Board (UKAB). See UKAB Report 048/06.
200603252	22/04/2006	EGTT : London (FIR)	Birmingham	NW 22	A	CTR	BOEING	Turbofan	2	UK AIRPROX 48/2006 - B737 and a Slingsby T61, 22nm Northwest of Birmingham at FL80. Slingsby T61 infringed Class A airspace and lost separation with the B737, which pilot did not see.	CAA Closure: No further CAA action required at this time.This AIRPROX has been subject to a separate review by theUnited Kingdom AIRPROX Board (UKAB). See UKAB Report 048/06.

200603288	16/04/2006	EGTT : London (FIR)	Burn		G		ROBINSON	Reciprocating	1	Alleged infringement of the cable hazard at the Burn Gliding Club launch site by an R44 at an estimated height of 1000ft.	Glider launching affected.
200603295	22/04/2006	EGTT : London (FIR)	Denham	W	A	CTR	WASSMER	Reciprocating	1	Wassmer allegedly infringed the London CTR (Class A). Standard separation maintained. ATC spoke to pilot after landing.	
200603302	16/04/2006	EGTT : London (FIR)	Burn		G		CESSNA	Reciprocating	1	Alleged infringement of the cable hazard at the Burn Gliding Club launch site by a C152 at an estimated height of 1000ft. A/c flew across a glider launching on the winch launch.	
200603318	24/04/2006	EGTT : London (FIR)	Denham	4W	A	CTR	CIRRUS	Reciprocating	1	Infringement of London CTR (Class A) by an SR22 at 1000ft. Traffic info and avoiding action issued to A109 operating on an SVFR flight.	The SR22 pilot reports that, as the a/c entered the Denham ATZ via St Giles, the traffic system on the a/c gave a traffic warning. The Denham AFIS had warned the pilot about a helicopter tracking northbound close to the airfield, (possibly the A109). The SR22 pilot was not visual with the helicopter and took avoiding action of breaking right. This positioned the a/c on the West side of Gerrads Cross and outside the Denham ATZ but within the London CTR. Appropriate advice is to be passed to the pilot concerned.
200603318	24/04/2006	EGTT : London (FIR)	Denham	4W	A	CTR	AGUSTA	Turboshaft	2	Infringement of London CTR (Class A) by an SR22 at 1000ft. Traffic info and avoiding action issued to A109 operating on an SVFR flight.	The SR22 pilot reports that, as the a/c entered the Denham ATZ via St Giles, the traffic system on the a/c gave a traffic warning. The Denham AFIS had warned the pilot about a helicopter tracking northbound close to the airfield, (possibly the A109). The SR22 pilot was not visual with the helicopter and took avoiding action of breaking right. This positioned the a/c on the West side of Gerrads Cross and outside the Denham ATZ but within the London CTR. Appropriate advice is to be passed to the pilot concerned.

200603344	24/04/2006	EGTT : London (FIR)	Portsmouth		G	Danger area	CESSNA	Reciprocating	1	Alleged infringement of Portsmouth Danger Area D038 by a C172 at 3000ft.	
200603452	28/04/2006	EGTT : London (FIR)	Cranfield (CIT)	5S	D	CTA	CIRRUS	Reciprocating	1	Alleged infringement of Luton CTA (Class D) by an SR22 at5800ft. ATC contacted the military unit working the a/c, who had just instructed it to descend. Standard separationmaintained.	
200603460	30/04/2006	EGTT : London (FIR)	Henton (HEN) NDB	5 W	A	TMA	CESSNA	Reciprocating	1	C206 observed climbing into LTMA. ATC told pilot to remain clear of CAS. A/c subsequently seen climbing again to FL86 into the LTMA. ATC turned another a/c away. Standard separation maintained.	Appropriate remedial action has been taken by the operator. See 200508378.
200603465	27/04/2006	EGTT : London (FIR)	Luton (LUT)	SE	D	CTR	ROCKWELL	Reciprocating	1	Infringement of Luton CTR (Class D) by a Rockwell 112 at 1300ft. Separation lost with a B737 on approach. Traffic info and avoiding action given.	Investigation established that the Rockwell 112 pilot wasdeparting from Panshanger, which he was unfamiliar with, and while following the noise abatement procedure, becamedistracted, and flew further west than he intended. The pilot has been reminded of the serious consequences of infringing CAS. Additionally, Panshanger have been requested to ensure that visiting pilots are aware of the proximity of Luton CAS when following the noise abatement procedure.CAA Closure: The hazard is adequately controlled by the actions stated above.
200603465	27/04/2006	EGTT : London (FIR)	Luton (LUT)	SE	D	CTR	BOEING	Turbofan	2	Infringement of Luton CTR (Class D) by a Rockwell 112 at 1300ft. Separation lost with a B737 on approach. Traffic info and avoiding action given.	Investigation established that the Rockwell 112 pilot wasdeparting from Panshanger, which he was unfamiliar with, and while following the noise abatement procedure, becamedistracted, and flew further west than he intended. The pilot has been reminded of the serious consequences of infringing CAS. Additionally, Panshanger have been requested to ensure that visiting pilots are aware of the proximity of Luton CAS when following the noise abatement procedure.CAA Closure: The hazard is adequately controlled by the actions stated above.

200603466	30/04/2006	EGTT : London (FIR)	Mayfield (MAY)	5 NE	A	TMA	PIPER	Reciprocating	1	PA32 infringed the London TMA (Class A) at 2900ft and lost separation with a B737 at 5000ft inbound to Gatwick.	The a/c was tracked on radar and seen to land at Rochester.
200603466	30/04/2006	EGTT : London (FIR)	Mayfield (MAY)	5 NE	A	TMA	BOEING	Turbofan	2	PA32 infringed the London TMA (Class A) at 2900ft and lost separation with a B737 at 5000ft inbound to Gatwick.	The a/c was tracked on radar and seen to land at Rochester.
200603468	29/04/2006	EGTT : London (FIR)	North Weald		D	CTA	CESSNA	Reciprocating	1	Infringement of Stansted CTA (Class D) by a C172 at 2400ft. ATC contacted North Weald and advised that the a/c be descended. Standard separation maintained.	
200603469	29/04/2006	EGTT : London (FIR)	Panshanger	3 SE	A	TMA	SOCATA	Reciprocating	1	Alleged infringement of the LTMA (Class A) by a TB20 at 2900ft. ATC instructed a/c to descend to not above 2400ft. Standard separation maintained.	
200603473	29/04/2006	EGTT : London (FIR)	Luton (LUT)	14 E	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of Luton CTA (Class D) by R1180 squawking 7000 at 2800ft. Traffic info and avoiding action issued to a Premair a/c on approach to Luton. Standard separation maintained.	STCA activated. The R1180 was allegedly working London Information.

200603473	29/04/2006	EGTT : London (FIR)	Luton (LUT)	14 E	D	CTA	RAYTHEON	Turbofan	2	Infringement of Luton CTA (Class D) by R1180 squawking 7000 at 2800ft. Traffic info and avoiding action issued to a Premair a/c on approach to Luton. Standard separation maintained.	STCA activated. The R1180 was allegedly working London Information.
200603474	29/04/2006	EGTT : London (FIR)	ABBOT	4 NE	A	TMA	DIAMOND	Reciprocating	1	Infringement of the LTMA (Class A) by DA40. Military ATC subsequently rang to say they were working the DA40. Standard separation maintained. Pilot phoned LTCC and incident discussed.	
200603478	29/04/2006	EGTT : London (FIR)	Honiley (HON)	E	D	CTR	CESSNA	Reciprocating	1	Infringement of Birmingham CTR (Class D) by a C150 at 1500ft. Traffic info passed to B737 on approach. Standard separation maintained.	Solo student on a training flight became disorientated whilst trying to return to Coventry. Student pilot was laterde-briefed by his instructor to ensure that there would be no further problems.
200603478	29/04/2006	EGTT : London (FIR)	Honiley (HON)	E	D	CTR	BOEING	Turbofan	2	Infringement of Birmingham CTR (Class D) by a C150 at 1500ft. Traffic info passed to B737 on approach. Standard separation maintained.	Solo student on a training flight became disorientated whilst trying to return to Coventry. Student pilot was laterde-briefed by his instructor to ensure that there would be no further problems.
200603487	29/04/2006	EGTT : London (FIR)	London-Gatwick - LGW		D	CTR	PIPER	Reciprocating	1	Infringement of Gatwick CTR (Class D) by a PA32 at 1500ft. Traffic info given to an a/c on approach. Standard separation maintained.	

200603549	02/05/2006	EGTT : London (FIR)	Stansted	6 NE	D	CTR	CESSNA	Reciprocating	1	Infringement of Stansted CTR (Class D) by a C170 at 1500ft. Separation lost with an A321 on approach. Traffic info and avoiding action given. STCA activated.	C170 pilot subsequently admitted to and apologised for the infringement, which was attributed to a navigation error. Pilot misread the compass, steering 335deg instead of 355deg, and then misidentified Thaxted as Great Bardfield. Pilot cites fatigue and a strong tail wind as contributory factors to this incident and has learnt from the experience. Additionally, it transpired that C170 transponder was malfunctioning, as subsequent investigations have confirmedthe Mode C to be indicating an error of plus 300ft. The transponder has been declared u/s.☐ CAA Closure: The hazardis adequately controlled by the actions stated above.
200603549	02/05/2006	EGTT : London (FIR)	Stansted	6 NE	D	CTR	AIRBUS	Turbofan	2	Infringement of Stansted CTR (Class D) by a C170 at 1500ft. Separation lost with an A321 on approach. Traffic info and avoiding action given. STCA activated.	C170 pilot subsequently admitted to and apologised for the infringement, which was attributed to a navigation error. Pilot misread the compass, steering 335deg instead of 355deg, and then misidentified Thaxted as Great Bardfield. Pilot cites fatigue and a strong tail wind as contributory factors to this incident and has learnt from the experience. Additionally, it transpired that C170 transponder was malfunctioning, as subsequent investigations have confirmedthe Mode C to be indicating an error of plus 300ft. The transponder has been declared u/s.☐ CAA Closure: The hazardis adequately controlled by the actions stated above.
200603560	01/05/2006	EGTT : London (FIR)	Manston		G	ATZ	PERCIVAL	Turbofan	1	Alleged infringement of the Manston ATZ (Class G) by unidentified Jet Provost. Standard separation maintained.	
200603606	03/05/2006	EGTT : London (FIR)	Bristol International	5 S	D	CTR	VANS	Reciprocating	1	Alleged infringement of the Bristol CTR (Class D) and Brize Norton CTR (Class D) by an RV4. Traffic info was given to an inbound a/c. Standard separation maintained.	A military jet outbound from Brize Norton took avoiding action on the RV4. No further information available.☐ CAA Closure: No further CAA action practicable.
200603606	03/05/2006	EGTT : London (FIR)	Bristol International	5 S	D	CTR	DE HAVILLAND	Turboprop	2	Alleged infringement of the Bristol CTR (Class D) and Brize Norton CTR (Class D) by an RV4. Traffic info was given to an inbound a/c. Standard separation maintained.	A military jet outbound from Brize Norton took avoiding action on the RV4. No further information available.☐ CAA Closure: No further CAA action practicable.

200603634	04/05/2006	EGTT : London (FIR)	East Grinstead	S	D	CTR	CESSNA	Reciprocating	1	Infringement of Gatwick CTR (Class D) by a C182 at 1700ft. Traffic info given. Standard separation maintained. Pilot later apologised for his navigational error.	
200603650	04/05/2006	EGTT : London (FIR)	TIMBA	10 E	A	TMA	CESSNA	Reciprocating	1	Alleged infringement of the LTMA (Class A) by a C172. Avoiding action issued to an RTC680 at FL70 against the unknown traffic. STCA activated. Standard separation maintained.	The unknown was later identified as the C172 working the FIR controller. The FIR controller reports that the pilot of the C172 was difficult to understand however he was reminded to remain clear of CAS.
200603650	04/05/2006	EGTT : London (FIR)	TIMBA	10 E	A	TMA	ROCKWELL	Turboprop	2	Alleged infringement of the LTMA (Class A) by a C172. Avoiding action issued to an RTC680 at FL70 against the unknown traffic. STCA activated. Standard separation maintained.	The unknown was later identified as the C172 working the FIR controller. The FIR controller reports that the pilot of the C172 was difficult to understand however he was reminded to remain clear of CAS.
200603660	06/05/2006	EGTT : London (FIR)	London-Gatwick - LGW	8 E	D	CTR	CESSNA	Reciprocating	1	C172 allegedly infringed the Gatwick CTR (Class D) and lost separation with an inbound A319, who was given traffic info and avoiding action.	As at 7 Sep 2006, attempts to contact the C172 operator had been unsuccessful.☐ CAA Closure: No further CAA action practicable.
200603660	06/05/2006	EGTT : London (FIR)	London-Gatwick - LGW	8 E	D	CTR	AIRBUS	Turbofan	2	C172 allegedly infringed the Gatwick CTR (Class D) and lost separation with an inbound A319, who was given traffic info and avoiding action.	As at 7 Sep 2006, attempts to contact the C172 operator had been unsuccessful.☐ CAA Closure: No further CAA action practicable.

200603668	04/05/2006	EGTT : London (FIR)	Compton (CPT)		A		PIPER	Reciprocating	1	PA28 infringed the Airway L9 (Class A) and lost separation with a B767 outbound from Heathrow, who was given traffic info. STCA and SMF activated.	Appropriate CAA action is being taken as a result of thisincident.
200603668	04/05/2006	EGTT : London (FIR)	Compton (CPT)		A		BOEING	Turbofan	2	PA28 infringed the Airway L9 (Class A) and lost separation with a B767 outbound from Heathrow, who was given traffic info. STCA and SMF activated.	Appropriate CAA action is being taken as a result of thisincident.
200603721	06/05/2006	EGTT : London (FIR)	Nash Point	4 NW	D	CTA	CESSNA	Reciprocating	1	Alleged infringement of Cardiff CTA (Class D) by a C172 at 3500ft. No traffic affected. Standard separation maintained.	During an IFR flight, the pilot called ATC stating that the a/c was experiencing excessive turbulence. ATC providedassistance and subsequently instructed a/c to continue own navigation and descend VFR. Several minutes later, the a/c entered Cardiff CAS without clearance. Pilot alerted to infringement.
200603731	30/04/2006	EGTT : London (FIR)	Lambourne (LAM)		A	TMA	PIPER	Reciprocating	1	Alleged infringement of the London TMA (Class A) by a PA28 at 2900ft. London City departures were stopped until PA28 was observed leaving CAS by descending to 2000ft. Standard separation maintained.	See also 200504211 and 200505476. □ CAA Closure: The PIC did not believe he had infringed and suspects a possible incorrect altimeter setting.
200603830	11/05/2006	EGTT : London (FIR)	London-Heathrow - LHR	S	A	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of LHR CTR (Class A) by an R3000 at 2000ft. LHR southbound departures stopped for 4mins. A/c instructed to head South out of the CTR and descend to 1500ft.	Standard separation maintained. The student pilot was on his first solo flight. Appropriate CAA action has been taken as a result of this incident.

200603849	10/05/2006	EGTT : London (FIR)	London-Heathrow - LHR	10 W	A	CTR	UNKNOWN	Unknown		Unidentified a/c infringed the London CTR (Class A) and lost separation with an a/c inbound to Heathrow. Traffic info and avoiding action given.	
200603849	10/05/2006	EGTT : London (FIR)	London-Heathrow - LHR	10 W	A	CTR	ROBINSON	Reciprocating	1	Unidentified a/c infringed the London CTR (Class A) and lost separation with an a/c inbound to Heathrow. Traffic info and avoiding action given.	
200603851	11/05/2006	EGTT : London (FIR)	Cardiff (CDF)	8.7 NW	D	CTA	PIPER	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by a PA28. PA28was give a heading to leave CAS. Standard separation maintained. On landing, pilot phoned and apologised for the error.	
200603881	12/05/2006	EGTT : London (FIR)	Solent CTA		D	CTA	ROCKWELL	Reciprocating	1	AC114 called ATC and told to remain clear of CAS and to expect transit at FL50. AC114 allegedly infringed the Solent CTA (Class D). A/c was subsequently cleared to transit CAS. Separation maintained.	
200603890	13/05/2006	EGTT : London (FIR)	London City - LCY	5 NE	D	CTR	AEROSPATIALE	Turboshaft	1	AS350 infringed the London City CTR (Class D) and lost separation with an outbound DHC8, who was given traffic infoand avoiding action.	The pilot subsequently admitted to and apologised for theinfringement, claiming to have clipped the Northeast corner of the CTR. He has been reminded of the importance of remaining clear of CAS.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.

200603890	13/05/2006	EGTT : London (FIR)	London City - LCY	5 NE	D	CTR	DE HAVILLAND	Turboprop	2	AS350 infringed the London City CTR (Class D) and lost separation with an outbound DHC8, who was given traffic infoand avoiding action.	The pilot subsequently admitted to and apologised for theinfringement, claiming to have clipped the Northeast corner of the CTR. He has been reminded of the importance of remaining clear of CAS.□ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200603894	11/05/2006	EGTT : London (FIR)	London City - LCY	5 NE	D	CTA	PIPER	Reciprocating	1	Infringement of London City CTA (Class D) by a PA28 at 2200ft. A/c called on frequency and a 7052 squawk was allocated to it. Standard separation maintained.	
200603894	11/05/2006	EGTT : London (FIR)	London City - LCY	5 NE	D	CTA	FOKKER	Turboprop	2	Infringement of London City CTA (Class D) by a PA28 at 2200ft. A/c called on frequency and a 7052 squawk was allocated to it. Standard separation maintained.	
200603901	12/05/2006	EGTT : London (FIR)	Southampton (SAM)	11SW	D	CTA	PIPER	Reciprocating	1	Infringement of Southampton CTA (Class D) by a PA28 at 2400ft, a/c told to descend out of CTA. Loss of separation with a C208. C208 received TCAS RA. Traffic info given.	Several attempts to contact the PA28 operator have provedunsuccessful. □ CAA Closure: No further CAA action practicable.
200603901	12/05/2006	EGTT : London (FIR)	Southampton (SAM)	11SW	D	CTA	CESSNA	Turboprop	1	Infringement of Southampton CTA (Class D) by a PA28 at 2400ft, a/c told to descend out of CTA. Loss of separation with a C208. C208 received TCAS RA. Traffic info given.	Several attempts to contact the PA28 operator have provedunsuccessful. □ CAA Closure: No further CAA action practicable.

200603915	14/05/2006	EGTT : London (FIR)	Honiley (HON)	18 NW	D	CTA	BEECH	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a BE36. Standard separation maintained.	Possible confusion over the a/c's joining clearance.
200603946	15/05/2006	EGTT : London (FIR)	London-Gatwick - LGW	10 SW	D	CTA	PIPER	Reciprocating	1	Infringement of Gatwick CTA (Class D) by a PA28 at 1900ft. Traffic info given and slight delay to B777 on approach.Standard separation maintained.	The pilot reports that having arrived overhead Seaford indeteriorating weather, an incorrect VOR radial was set for MID, resulting in a more northerly flight path and the inadvertent incursion into the Gatwick CTA.
200603946	15/05/2006	EGTT : London (FIR)	London-Gatwick - LGW	10 SW	D	CTA	BOEING	Turbofan	2	Infringement of Gatwick CTA (Class D) by a PA28 at 1900ft. Traffic info given and slight delay to B777 on approach.Standard separation maintained.	The pilot reports that having arrived overhead Seaford indeteriorating weather, an incorrect VOR radial was set for MID, resulting in a more northerly flight path and the inadvertent incursion into the Gatwick CTA.
200603951	13/05/2006	EGTT : London (FIR)	Duxford		G	ATZ	GRUMMAN	Reciprocating	1	Alleged infringement of Duxford ATZ (Class G) by an AA5 at 1000ft. A/c told by previous ATC to free call Duxford FIS.	
200604260	13/05/2006	EGTT : London (FIR)	Rivar Hill		G		OTHER	Reciprocating	1	Alleged infringement of the Shalbourne Soaring Society Cable Hazard at Rivar Hill Airfield by a microlight at approximately 1000ft. A/c flew South of the winch, no conflict with gliders.	Operator of the microlight has been contacted by the soaring society and appropriate follow up action is to be taken.

200604296	17/05/2006	EGTT : London (FIR)	Durham Tees Valley (TD)	4 NW	D	CTR	PIPER	Reciprocating	1	Infringement of the Durham Tees Valley CTR/CTA (Class D) by a PA28 on a NAVEX. Durham Tees Valley established contact with PA28 and gave it a heading to leave CAS. Standard separation maintained.	See 200606963.
200604392	29/05/2006	EGTT : London (FIR)	Stansted	6 W	D	CTR	CESSNA	Reciprocating	1	Alleged infringement of the Stansted CTR (Class D) by a C182. Departures were stopped until a/c had left CAS.	See also 200405346. C182 owner was requested several times to provide further information but, as at 22 Dec 2006, had not done so. FAA advised accordingly. □ CAA Closure: No further CAA action practicable due to elapsed time.
200604394	28/05/2006	EGTT : London (FIR)	Mayfield (MAY)	SE	A	TMA	CIRRUS	Reciprocating	1	Infringement of the London TMA (Class A) by an SR22. Several a/c were given extended vectoring one of which lost separation with the SR22.	See also 200603452. SR22 pilot subsequently admitted to and apologised for infringement, which was attributed to SR22 travelling West of its intended route. Pilot intends toplan routes with a greater safety margin to prevent recurrence. □ CAA Closure: The hazard is adequately controlled by the actions stated above.
200604394	28/05/2006	EGTT : London (FIR)	Mayfield (MAY)	SE	A	TMA	BOEING	Turbofan	2	Infringement of the London TMA (Class A) by an SR22. Several a/c were given extended vectoring one of which lost separation with the SR22.	See also 200603452. SR22 pilot subsequently admitted to and apologised for infringement, which was attributed to SR22 travelling West of its intended route. Pilot intends toplan routes with a greater safety margin to prevent recurrence. □ CAA Closure: The hazard is adequately controlled by the actions stated above.
200604480	29/05/2006	EGTT : London (FIR)	Stansted	6 SW	D	CTR	CESSNA	Reciprocating	1	C152 infringed the Stansted CTR (Class D) and lost separation with a B737 being positioned on ILS R/W05. B737 was broken off ILS and repositioned. Traffic info and avoiding action given.	See also 200509238. As a result of this incident, the pilot received more dual navigation training, culminating in a Navigation Flight Test around the London Zone with a PPLExaminer. □ CAA Closure: No further CAA action required atthis time.

200604480	29/05/2006	EGTT : London (FIR)	Stansted	6 SW	D	CTR	BOEING	Turbofan	2	C152 infringed the Stansted CTR (Class D) and lost separation with a B737 being positioned on ILS R/W05. B737 was broken off ILS and repositioned. Traffic info and avoiding action given.	See also 200509238. As a result of this incident, the pilot received more dual navigation training, culminating in a Navigation Flight Test around the London Zone with a PPLExaminer.☐ CAA Closure: No further CAA action required atthis time.
200604510	31/05/2006	EGTT : London (FIR)	Ascot		A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28. A B747 that had departed Heathrow was given traffic info and subsequent departures were suspended. Standard separation maintained.	Solo student pilot. The pilot called Farnborough LARS andreported being unsure of his position, requesting a QDM for Blackbushe. The CFI agreed to carry out at least two dual flights including a land away in addition to dual navigation around a local zone.☐ CAA Closure: No further CAA action practicable.
200604510	31/05/2006	EGTT : London (FIR)	Ascot		A	CTR	BOEING	Turbofan	4	Infringement of the London CTR (Class A) by a PA28. A B747 that had departed Heathrow was given traffic info and subsequent departures were suspended. Standard separation maintained.	Solo student pilot. The pilot called Farnborough LARS andreported being unsure of his position, requesting a QDM for Blackbushe. The CFI agreed to carry out at least two dual flights including a land away in addition to dual navigation around a local zone.☐ CAA Closure: No further CAA action practicable.
200604551	01/06/2006	EGTT : London (FIR)	Bristol International	8 E	D	CTA	AVIONS ROBIN	Reciprocating	1	UK AIRPROX 64/2006 - EMB145 and a DR400 at 2000ft which infringed the Bristol CTA (Class D). Traffic info and avoiding action given to the EMB145.	The DR400 encountered severe turbulence resulting in the pilot hitting his head on the roof and sustaining a head injury. During this encounter, the a/c climbed and entered the Bristol CTA without clearance. In addition to this, the DR400 had an incorrectly set altimeter. Subsequent separation loss resolved by ATC.☐ CAA Closure: No further CAA action required at this time. This AIRPROX has been subjectto a separate review by the United Kingdom AIRPROX Board (UKAB). See UKAB Report 064/06.
200604551	01/06/2006	EGTT : London (FIR)	Bristol International	8 E	D	CTA	EMBRAER	Turbofan	2	UK AIRPROX 64/2006 - EMB145 and a DR400 at 2000ft which infringed the Bristol CTA (Class D). Traffic info and avoiding action given to the EMB145.	The DR400 encountered severe turbulence resulting in the pilot hitting his head on the roof and sustaining a head injury. During this encounter, the a/c climbed and entered the Bristol CTA without clearance. In addition to this, the DR400 had an incorrectly set altimeter. Subsequent separation loss resolved by ATC.☐ CAA Closure: No further CAA action required at this time. This AIRPROX has been subjectto a separate review by the United Kingdom AIRPROX Board (UKAB). See UKAB Report 064/06.

200604559	28/05/2006	EGTT : London (FIR)	Warwick		D	CTR	PIPER	Reciprocating	1	PA28 receiving an FIS allegedly infringed the Birmingham CTR (Class D). Pilot believed the base of CAS in the vicinity of Warwick was 3500ft (actually 1500ft). Separation lost with an A320.	PA28 pilot has been alerted to the base of CAS in the area concerned.
200604559	28/05/2006	EGTT : London (FIR)	Warwick		D	CTR	AIRBUS	Turbofan	2	PA28 receiving an FIS allegedly infringed the Birmingham CTR (Class D). Pilot believed the base of CAS in the vicinity of Warwick was 3500ft (actually 1500ft). Separation lost with an A320.	PA28 pilot has been alerted to the base of CAS in the area concerned.
200604560	31/05/2006	EGTT : London (FIR)	Exeter		G	ATZ	ROBINSON	Reciprocating	1	Alleged infringement of Exeter ATZ (Class G) by an R44 squawking 7000 at approximately 1000ft. Traffic info given.	
200604565	20/05/2006	EGTT : London (FIR)	Doncaster Sheffield	1W	G	ATZ	ENSTROM	Turboshaft	1	Alleged infringement of the Doncaster ATZ (Class G) by anEnstrom 480 at 1800ft.	A/c tracked through the ATZ at 1800ft and was informed that a report would be filed. Crew believed they were outside the ATZ and therefore didn't have to call up on frequency. ATC note that the a/c track was conflicting with Doncaster routes, so obtaining traffic info would have been advisable.
200604570	01/06/2006	EGTT : London (FIR)	Solent		D	CTR	DIAMOND	Reciprocating	1	Infringement of the Solent CTR (Class D) by a Diamond Da20 at 1700ft. DHC8 given traffic info and vectored clear ofthe Da20. Standard separation maintained.	

200604570	01/06/2006	EGTT : London (FIR)	Solent		D	CTR	DE HAVILLAND	Turboprop	2	Infringement of the Solent CTR (Class D) by a Diamond Da20 at 1700ft. DHC8 given traffic info and vectored clear ofthe Da20. Standard separation maintained.	
200604601	02/06/2006	EGTT : London (FIR)	London-Gatwick - LGW	NE	D	CTR	DE HAVILLAND	Reciprocating	1	Chipmunk infringed the Gatwick CTR/CTA (Class D) and lostseparation with an inbound B737, who was given traffic info and avoiding action. Chipmunk pilot contacted and alerted to the error.	
200604601	02/06/2006	EGTT : London (FIR)	London-Gatwick - LGW	NE	D	CTR	BOEING	Turbofan	2	Chipmunk infringed the Gatwick CTR/CTA (Class D) and lostseparation with an inbound B737, who was given traffic info and avoiding action. Chipmunk pilot contacted and alerted to the error.	
200604603	03/06/2006	EGTT : London (FIR)	Luton (LUT)	6 NE	D	CTR	CESSNA	Reciprocating	1	C182 allegedly infringed Luton CTR (Class D) and lost separation with a departing B737, which was given traffic info. C182 then infringed the Heathrow Zone, stopping North departures for 4mins.	Appropriate CAA action is being taken as a result of thisincident.
200604603	03/06/2006	EGTT : London (FIR)	Luton (LUT)	6 NE	D	CTR	BOEING	Turbofan	2	C182 allegedly infringed Luton CTR (Class D) and lost separation with a departing B737, which was given traffic info. C182 then infringed the Heathrow Zone, stopping North departures for 4mins.	Appropriate CAA action is being taken as a result of thisincident.

200604604	03/06/2006	EGTT : London (FIR)	ALVIN	3 WNW	A		HAWKER	Turbofan	1	Alleged infringement of Airway L9 (Class A) by formation of two Hunters. Traffic info and avoiding action was givento outbound EMB145. Standard separation maintained. Pilotsubsequently apologised.	Mode C indicated a/c were at FL80. However, pilot believed they were descending through 4500ft at time of incident.Pilot has been advised to have transponder checked.
200604604	03/06/2006	EGTT : London (FIR)	ALVIN	3 WNW	A		EMBRAER	Turbofan	2	Alleged infringement of Airway L9 (Class A) by formation of two Hunters. Traffic info and avoiding action was givento outbound EMB145. Standard separation maintained. Pilotsubsequently apologised.	Mode C indicated a/c were at FL80. However, pilot believed they were descending through 4500ft at time of incident.Pilot has been advised to have transponder checked.
200604606	04/06/2006	EGTT : London (FIR)	Bracknell	NE	A	CTR	PILATUS	Turboprop	1	Infringement of the London CTR (Class A) by a PC12. PC12 turned Northeast and Heathrow departures were stopped for 2mins, whilst PC12 was turned West and descended below 1500ft.	Pilot subsequently admitted to and apologised for infringement. Pilot had carried out appropriate pre-flight planning, but was unfamiliar with the area (first time into thisairfield) which contributed to the infringement. □ CAA Closure: The hazard is acceptable provided the frequency remains low.
200604608	04/06/2006	EGTT : London (FIR)	London-Gatwick - LGW	SW	A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) and the Gatwick CTR (Class D) by a PA28. Gatwick departures were stopped. Standard separation maintained.	Pilot subsequently admitted to infringement, having misread the map and subsequently believed that the base of controlled airspace was 2500ft in an area where it was actually 1500ft. Appropriate advice given concerning adequate pre-flight planning. □ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200604610	02/06/2006	EGTT : London (FIR)	Birmingham	7 E	D	CTR	SCOTTISH AVIATION	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a Bulldogsquawking 7000 at 1800ft. Standard separation maintained.	

200604633	05/06/2006	EGTT : London (FIR)	Beare Green		D	CTR	BELL	Turboshaft	1	Infringement of the Gatwick CTR (Class D) by a Bell 206B at 1200ft. ATC stopped all left turns out of Gatwick. Standard separation maintained.	The pilot subsequently called ATC to apologise . ATC madethe pilot aware of the potential hazard of his actions.
200604633	05/06/2006	EGTT : London (FIR)	Beare Green		D	CTR	BOEING	Turbofan	2	Infringement of the Gatwick CTR (Class D) by a Bell 206B at 1200ft. ATC stopped all left turns out of Gatwick. Standard separation maintained.	The pilot subsequently called ATC to apologise . ATC madethe pilot aware of the potential hazard of his actions.
200604661	05/06/2006	EGTT : London (FIR)	Southampton (SAM)	5 SW	D	CTR	OTHER	Reciprocating	1	Infringement of Southampton CTR (Class D) by a Microlightat 1200ft squawking 7000. A/c called ATC and reported 5nmto Calshot. A/c assigned 3673 squawk. Standard separationmaintained.	
200604687	02/06/2006	EGTT : London (FIR)	Isle of Man (IOM)	20 SE	A		OTHER	Reciprocating	1	Alleged infringement of Airway L10 (Class A) by a Microlight at FL70, which was in potential conflict with a departing DHC8 approaching FL60. Traffic info and avoiding action was given to DHC8.	
200604687	02/06/2006	EGTT : London (FIR)	Isle of Man (IOM)	20 SE	A		DE HAVILLAND	Turboprop	2	Alleged infringement of Airway L10 (Class A) by a Microlight at FL70, which was in potential conflict with a departing DHC8 approaching FL60. Traffic info and avoiding action was given to DHC8.	

200604725	06/06/2006	EGTT : London (FIR)	Woodley (WOD)		A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C150, which was unidentified to ATC. Separation subsequently lost between C150 and two inbound a/c to Heathrow. Traffic info given.	The pilot subsequently admitted to and apologised for theinfringement. He has been reminded of the serious consequences of infringing controlled airspace and the importanceof adequate pre-flight planning.□ CAA Closure: The hazardis adequately controlled by the actions stated above.
200604725	06/06/2006	EGTT : London (FIR)	Woodley (WOD)		A	TMA	AIRBUS	Turbofan	2	Infringement of the LTMA (Class A) by a C150, which was unidentified to ATC. Separation subsequently lost between C150 and two inbound a/c to Heathrow. Traffic info given.	The pilot subsequently admitted to and apologised for theinfringement. He has been reminded of the serious consequences of infringing controlled airspace and the importanceof adequate pre-flight planning.□ CAA Closure: The hazardis adequately controlled by the actions stated above.
200604726	02/06/2006	EGTT : London (FIR)	Denham	3 W	A	CTR	PIPER	Reciprocating	1	PA28 twice infringed the London CTR (Class A). On the first occasion Heathrow Northbound departures were stopped for 4mins.	PA28 pilot realised his mistake and is fully aware of theserious consequences of infringing controlled airspace.□ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200604730	06/06/2006	EGTT : London (FIR)	Denham		A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C172. Standard separation maintained.	C172 pilot subsequently admitted to and apologised for infringement. Attributed to a combination of distraction from passengers and sun glare. Pilot intends to route furtheraway from CAS in future to avoid recurrence. See also 200600515.
200604827	09/06/2006	EGTT : London (FIR)	LOGAN	20 NE	A		AEROSPATIALE	Turboshaft	1	Alleged infringement of Airway L608 (Class A) by an AS350. Standard separation maintained.	

200604834	08/06/2006	EGTT : London (FIR)	Southampton (SAM)	6 NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a PA28 that appeared to have difficulties following ATC instructions and completed a number of orbits prior to leaving CAS.	Southampton departures were held for approximately 5mins. The pilot subsequently admitted to and apologised for the infringement, stating that he had neglected to align the Heading Indicator correctly to the compass. He has been reminded of the importance of adequate pre-flight planning. CAA Closure: The hazard is adequately controlled by the actions stated above.
200604856	09/06/2006	EGTT : London (FIR)	ORTAC	15NE	A		OTHER	Reciprocating	1	Microlight a/c observed infringing Airway N866 (Class A) at 7000ft, 15nm Northeast of ORTAC. No traffic affected. Standard separation maintained.	See also 200603032. Microlight pilot subsequently admitted to and apologised for infringement, having misread the base of the Airway. He has been reminded of the importance of adequate pre-flight planning. □ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200604859	06/06/2006	EGTT : London (FIR)	Stansted	W	D	CTA	CESSNA	Reciprocating	1	Infringement of Stansted CTA (Class D) by a C152 at 2000ft. The a/c was observed infringing again on the return journey. Standard separation maintained.	The pilot subsequently admitted to and apologised for the infringement. He has been reminded of the serious consequences of infringing controlled airspace and the importance of adequate pre-flight planning. □ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200604860	07/06/2006	EGTT : London (FIR)	Luton (LUT)		D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28. Traffic info was given to an inbound B737, which was initially given a LH orbit and then vectored behind PA28.	Three other inbound a/c were delayed or held as a result of this infringement. See also 200402518 and 200506573. Pilot subsequently admitted to and apologised for infringement, having made a navigation error. Appropriate advice given concerning adequate pre-flight planning. □ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200604860	07/06/2006	EGTT : London (FIR)	Luton (LUT)		D	CTR	BOEING	Turbofan	2	Infringement of the Luton CTR (Class D) by a PA28. Traffic info was given to an inbound B737, which was initially given a LH orbit and then vectored behind PA28.	Three other inbound a/c were delayed or held as a result of this infringement. See also 200402518 and 200506573. Pilot subsequently admitted to and apologised for infringement, having made a navigation error. Appropriate advice given concerning adequate pre-flight planning. □ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.

200604861	10/06/2006	EGTT : London (FIR)	ORTAC	12 NE	A		CIRRUS	Reciprocating	1	Alleged infringement of Airway N866 (Class A) 12nm Northeast of ORTAC by SR22 indicating FL54. Subsequently a/c contacted FIR and told to descend immediately to FL35. Standard separation maintained.	
200604866	09/06/2006	EGTT : London (FIR)	LARCK	6 W	A	TMA	PIPER	Reciprocating	1	Alleged infringement of the LTMA (Class A) and the Gatwick CTA/CTR (Class D) by a PA28. Gatwick DIR alerted and a/cwith BOGNA SIDs avoided the infringer.	
200604874	08/06/2006	EGTT : London (FIR)	Stansted		D	CTR	YAKOVLEV	Reciprocating	1	YAK50 allegedly infringed the Stansted CTR (Class D) and lost separation with an outbound a/c which was given traffic info and avoiding action turn. Other departures were stopped.	Pilot commented that the YAK50 had a rough running engine(magneto problems) and that a "dirty dive" into the destination was carried out.
200604874	08/06/2006	EGTT : London (FIR)	Stansted		D	CTR	UNKNOWN	Unknown		YAK50 allegedly infringed the Stansted CTR (Class D) and lost separation with an outbound a/c which was given traffic info and avoiding action turn. Other departures were stopped.	Pilot commented that the YAK50 had a rough running engine(magneto problems) and that a "dirty dive" into the destination was carried out.
200604879	11/06/2006	EGTT : London (FIR)	Mayfield (MAY)	3 SE	A	TMA	CESSNA	Reciprocating	1	Alleged infringement of the LTMA (Class A) by a C185. Standard separation maintained.	

200604880	11/06/2006	EGTT : London (FIR)	Stansted	7.5 NE	D	CTR	CESSNA	Reciprocating	1	C152 allegedly infringed the Stansted CTR (Class D) and lost separation with an inbound B737 on a visual approach to R/W23, which was given traffic info.	See also 200507041. Appropriate CAA action is to be taken as a result of this incident.
200604880	11/06/2006	EGTT : London (FIR)	Stansted	7.5 NE	D	CTR	BOEING	Turbofan	2	C152 allegedly infringed the Stansted CTR (Class D) and lost separation with an inbound B737 on a visual approach to R/W23, which was given traffic info.	See also 200507041. Appropriate CAA action is to be taken as a result of this incident.
200604886	11/06/2006	EGTT : London (FIR)	Stansted	11 NE	D	CTA	CIRRUS	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by an SR20. An inbound B737 was given traffic info and an extension to its arrival to ensure separation.	Appropriate CAA action is being taken as a result of this incident. See also 200604921.
200604886	11/06/2006	EGTT : London (FIR)	Stansted	11 NE	D	CTA	BOEING	Turbofan	2	Alleged infringement of the Stansted CTA (Class D) by an SR20. An inbound B737 was given traffic info and an extension to its arrival to ensure separation.	Appropriate CAA action is being taken as a result of this incident. See also 200604921.
200604887	11/06/2006	EGTT : London (FIR)	London City - LCY	14 E	A	TMA	CESSNA	Reciprocating	1	C172 allegedly infringed the LTMA (Class A) and lost separation with a BE400 inbound to London City. STCA activated. BE400 was given traffic info and avoiding action.	C172 pilot subsequently apologised for the possible infringement but also advised that a transponder fault had been identified during the previous flight. On that occasion, the transponder was emitting an incorrect altitude. The encoding altimeter was subsequently found to be faulty and was repaired on 24 Jul 2006. Pilot has been reminded of the importance of adequate pre-flight planning and remaining clear of CAS. He has also been advised that, on this occasion, a transponder check would have been prudent considering the reported problem during the preceding flight. □ CAA Closure: The hazard is adequately controlled by the actions stated above.

200604887	11/06/2006	EGTT : London (FIR)	London City - LCY	14 E	A	TMA	BEECH	Turbofan	2	C172 allegedly infringed the LTMA (Class A) and lost separation with a BE400 inbound to London City. STCA activated. BE400 was given traffic info and avoiding action.	C172 pilot subsequently apologised for the possible infringement but also advised that a transponder fault had beenidentified during the previous flight. On that occasion, the transponder was emitting an incorrect altitude. The encoding altimeter was subsequently found to be faulty and was repaired on 24 Jul 2006. Pilot has been reminded of theimportance of adequate pre-flight planning and remaining clear of CAS. He has also been advised that, on this occasion, a transponder check would have been prudent considering the reported problem during the preceding flight.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200604888	11/06/2006	EGTT : London (FIR)	Birmingham	14 S	D	CTR	OTHER	Reciprocating	1	Alleged infringement of the Birmingham CTR (Class D) by H36 motor glider. Standard separation maintained.	
200604889	11/06/2006	EGTT : London (FIR)	TANET		A	TMA	BEECH	Reciprocating	1	Infringement of the LTMA (Class A) by a BE36 at 4200ft, which lead to a loss of separation with an RTC690 descending to 3000ft. Traffic info given. SMF activated.	See also 200104101. BE36 identified at 4200ft in an area where the base of the LTMA is 3500ft. Pilot apologised forthe infringement and has been reminded of the importance of adequate pre-flight planning and remaining clear of CAS.☐ CAA Closure: The hazard is adequately controlled by theactions stated above.
200604889	11/06/2006	EGTT : London (FIR)	TANET		A	TMA	ROCKWELL	Turboprop	2	Infringement of the LTMA (Class A) by a BE36 at 4200ft, which lead to a loss of separation with an RTC690 descending to 3000ft. Traffic info given. SMF activated.	See also 200104101. BE36 identified at 4200ft in an area where the base of the LTMA is 3500ft. Pilot apologised forthe infringement and has been reminded of the importance of adequate pre-flight planning and remaining clear of CAS.☐ CAA Closure: The hazard is adequately controlled by theactions stated above.
200604890	11/06/2006	EGTT : London (FIR)	North Weald		D	CTA	PIPER	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 at 2400ft. Standard separation maintained.	See 200602393, 200602802 and 200605892.

200604894	11/06/2006	EGTT : London (FIR)	Stansted	6SW	D	CTA	BELLANCA	Reciprocating	1	Infringement of Stansted CTA (Class D) by a Bellanca squawking 7000 at 2000ft. A/c called on frequency and was asked to squawk 0204. Standard separation maintained.	
200604916	05/06/2006	EGTT : London (FIR)	Southampton (SAM)	6NE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Southampton CTR (Class D) by an C150 squawking 7000 at 1500ft. Standard separation maintained.	Pilot later apologised for his error and stated he had a problem with the gyroscope on the a/c.
200604926	02/06/2006	EGTT : London (FIR)	Kenley		G		ANTONOV	Reciprocating	1	Alleged infringement of the South London Gliding Centre Cable Hazard at Kenley Airfield by an AN2 at an estimated height of 900ft.	
200604927	02/06/2006	EGTT : London (FIR)	Kenley		G		AVIONS ROBIN	Reciprocating	1	Alleged infringement of the South London Gliding Centre Cable Hazard at Kenley Airfield by a R2160 at an estimated height of 1000ft.	
200604941	12/06/2006	EGTT : London (FIR)	London-Gatwick - LGW	5 ENE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a C152 at 2000ft. Disruption caused to Gatwick inbound traffic. Traffic info given. Standard separation lost against two A319 a/c.	Appropriate CAA action is to be taken as a result of thisincident.

200604941	12/06/2006	EGTT : London (FIR)	London-Gatwick - LGW	5 ENE	D	CTR	AIRBUS	Turbofan	2	Infringement of the Gatwick CTR (Class D) by a C152 at 2000ft. Disruption caused to Gatwick inbound traffic. Traffic info given. Standard separation lost against two A319 a/c.	Appropriate CAA action is to be taken as a result of thisincident.
200604984	11/06/2006	EGTT : London (FIR)	Birmingham	6 E	D	CTR	CESSNA	Reciprocating	1	Infringement of Birmingham CTR (Class D) by a C150 on a qualifying cross country flight. Student pilot became uncertain of his position and had called Brize Radar who transferred him to Birmingham.	CFI will be discussing incident with student pilot, who phoned Birmingham and apologised for the infringement.
200604987	13/06/2006	EGTT : London (FIR)	London City - LCY	3NE	D	CTR	CESSNA	Reciprocating	1	Infringement of the London City CTR (Class D) by a C150 at 1100ft. All departures stopped and traffic info given toan already departing FK50. Standard separation maintained.	Investigation established that the C150 pilot did not hold an IMC or IR and inadvertently entered IMC while pointing out the Lee Valley Lakes to his passenger. Then, rather than turn 180deg to exit the cloud, he elected to continueand descend, subsequently infringing the CTR. He has since apologised to ATC and is now aware of the correct procedure on inadvertently entering IMC.□ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200604987	13/06/2006	EGTT : London (FIR)	London City - LCY	3NE	D	CTR	FOKKER	Turboprop	2	Infringement of the London City CTR (Class D) by a C150 at 1100ft. All departures stopped and traffic info given toan already departing FK50. Standard separation maintained.	Investigation established that the C150 pilot did not hold an IMC or IR and inadvertently entered IMC while pointing out the Lee Valley Lakes to his passenger. Then, rather than turn 180deg to exit the cloud, he elected to continueand descend, subsequently infringing the CTR. He has since apologised to ATC and is now aware of the correct procedure on inadvertently entering IMC.□ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200605001	11/06/2006	EGTT : London (FIR)	Cardiff (CDF)	6N	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of Cardiff CTR (Class D) by an R2120 at 1600ft. Pilot called for clearance to join VFR for R/W12 but was informed by ATC that he was already in the CTR. Standard separation maintained.	Pilot stated he would leave the CTR immediately. However,ATC cleared the a/c for a VFR join as there was no traffic to effect.

200605011	11/06/2006	EGTT : London (FIR)	Nottingham East Midlands	8NE	D	CTR	PIPER	Reciprocating	1	Infringement of Nottingham East Midlands CTR (Class D) bya PA28 at 1900ft. Inbound a/c vectored to remain clear ofthe PA28. Infringer identified and assigned a squawk.	Standard separation maintained.
200605012	10/06/2006	EGTT : London (FIR)	Wallasey (WAL)	15S	A		PIPER	Reciprocating	1	Infringement of Airway N864 (Class A) by a PA32 at 4400ft. Traffic info and avoiding action given to a B737. Standard separation maintained by taking B737 outside of CAS.	Subsequent investigation attributed the infringement to acombination of high cockpit workload and tailwind. Pilot has been reminded of the importance of remaining clear of CAS.□ CAA Closure: The hazard is acceptable provided the frequency remains low.
200605012	10/06/2006	EGTT : London (FIR)	Wallasey (WAL)	15S	A		BOEING	Turbofan	2	Infringement of Airway N864 (Class A) by a PA32 at 4400ft. Traffic info and avoiding action given to a B737. Standard separation maintained by taking B737 outside of CAS.	Subsequent investigation attributed the infringement to acombination of high cockpit workload and tailwind. Pilot has been reminded of the importance of remaining clear of CAS.□ CAA Closure: The hazard is acceptable provided the frequency remains low.
200605152	18/06/2006	EGTT : London (FIR)	Bishops Waltham		D	CTR	OTHER	Reciprocating	1	Infringement of the Solent CTR/CTA (Class D) by two unidentified microlights at approximately 2000ft. Traffic info given. Standard separation maintained.	
200605152	18/06/2006	EGTT : London (FIR)	Bishops Waltham		D	CTR	OTHER	Reciprocating	1	Infringement of the Solent CTR/CTA (Class D) by two unidentified microlights at approximately 2000ft. Traffic info given. Standard separation maintained.	

200605155	17/06/2006	EGTT : London (FIR)	Stansted	7 NW	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of Stansted CTR (Class D) by R200. Stansted subsequently received a call from Cambridge who had been contacted by R200, advising it was lost. R200 given assistance to leave CAS.	Standard separation maintained. See also 200603241. Investigation established that the R200 pilot was a student andhad become lost on his solo qualifying cross country flight. He has been fully debriefed by his instructor following this incident, especially with regard to advising ATC without delay if uncertain of position.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200605156	16/06/2006	EGTT : London (FIR)	Luton (LUT)		D	CTR	CESSNA	Reciprocating	1	Infringement of Luton CTR (Class D) by a C150 at 2000ft. Standard separation maintained.	Several attempts to contact the C150 operator have provedunsuccessful.☐ CAA Closure: No further CAA action practicable.
200605159	19/06/2006	EGTT : London (FIR)	Luton (LUT)		D	CTR	PIPER	Reciprocating	1	Infringement of Luton CTR (Class D) by an PA28 at 1700ft.Traffic info and avoiding action given. Standard separation maintained.	Investigation ascertained that the PA28 pilot, a trainee working towards their PPL, has subsequently received additional training. Pilot has also been reminded of the importance of adequate pre-flight planning.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200605159	19/06/2006	EGTT : London (FIR)	Luton (LUT)		D	CTR	UNKNOWN	Unknown		Infringement of Luton CTR (Class D) by an PA28 at 1700ft.Traffic info and avoiding action given. Standard separation maintained.	Investigation ascertained that the PA28 pilot, a trainee working towards their PPL, has subsequently received additional training. Pilot has also been reminded of the importance of adequate pre-flight planning.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200605161	18/06/2006	EGTT : London (FIR)	London City - LCY	5 E	D	CTA	ROCKWELL	Reciprocating	1	Infringement of London City CTA (Class D) by a Rockwell 114 a/c at 2500ft, which lost separation with a C560 on approach. Traffic info given. C560 broken off approach and given avoiding action.	See 200500784.

200605161	18/06/2006	EGTT : London (FIR)	London City - LCY	5 E	D	CTA	CESSNA	Turbofan	2	Infringement of London City CTA (Class D) by a Rockwell 114 a/c at 2500ft, which lost separation with a C560 on approach. Traffic info given. C560 broken off approach and given avoiding action.	See 200500784.
200605219	18/06/2006	EGTT : London (FIR)	Birmingham		D	CTR	PIPER	Reciprocating	1	Infringement of Birmingham CTR (Class D) by an PA28. No other traffic affected. Standard separation maintained.	
200605268	18/06/2006	EGTT : London (FIR)	Nottingham East Midlands	8 SE	D	CTA	AVIONS ROBIN	Reciprocating	1	R200 allegedly infringed the Nottingham East Midlands CTR/CTA (Class D).	R200 allegedly called ATC stating being unsure of its position and was given assistance to its destination. Standard separation maintained. Report states that R200 was orbiting Wymeswold inside the CTR. However, pilot subsequently stated being informed that he was orbiting Melton Mowbray (outside CTR) at the time of the incident. Unable to reconcile differing reports.
200605274	16/06/2006	EGTT : London (FIR)	Liverpool	CTR	D	CTR	ROBINSON	Reciprocating	1	During a busy ATC period, R44 called and was told to standby. Approximately 4mins later, R44 was identified to haveinfringed the Liverpool CTR (Class D). Standard separation maintained.	
200605304	20/06/2006	EGTT : London (FIR)	EXMOR		A		GROB	Reciprocating	1	Grob 115, receiving an FIS, was cleared to cross the Severn estuary at 5000ft, but subsequently observed at FL74 and inside Airway N864 (Class A). Standard separation maintained.	Pilot phoned and apologised for the error.

200605335	22/06/2006	EGTT : London (FIR)	London City - LCY	5E	D	CTA	ROBINSON	Reciprocating	1	Infringement of the London City CTA (Class D) by an R22. An inbound BAe146 was instructed to go-around and given traffic info.	R22 pilot subsequently admitted to infringement and has received appropriate advice to help prevent a recurrence. Additionally, pilot has been reminded of the importance of adequate pre-flight planning.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200605335	22/06/2006	EGTT : London (FIR)	London City - LCY	5E	D	CTA	BAE	Turbofan	4	Infringement of the London City CTA (Class D) by an R22. An inbound BAe146 was instructed to go-around and given traffic info.	R22 pilot subsequently admitted to infringement and has received appropriate advice to help prevent a recurrence. Additionally, pilot has been reminded of the importance of adequate pre-flight planning.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200605384	23/06/2006	EGTT : London (FIR)	Bristol International	8ESE	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a DR400 at 1800ft. Pilot later called ATC to apologise. He was fully aware of his position and had attempted to contact ATC.	Standard separation maintained. The pilot attempted to call Bristol ATC, but could not as the frequency was busy. He then carried out an orbit. Traffic info passed to an inbound B737.
200605384	23/06/2006	EGTT : London (FIR)	Bristol International	8ESE	D	CTA	BOEING	Turbofan	2	Infringement of the Bristol CTA (Class D) by a DR400 at 1800ft. Pilot later called ATC to apologise. He was fully aware of his position and had attempted to contact ATC.	Standard separation maintained. The pilot attempted to call Bristol ATC, but could not as the frequency was busy. He then carried out an orbit. Traffic info passed to an inbound B737.
200605389	23/06/2006	EGTT : London (FIR)	Booker-Bagshot		A	TMA	CESSNA	Reciprocating	1	Infringement of LTMA (Class A) by a C210. Heathrow northbound departures were stopped.	Pilot subsequently admitted to and apologised for infringement, having misread the map. Appropriate advice given concerning adequate pre-flight planning.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.

200605391	23/06/2006	EGTT : London (FIR)	Stansted	7 NW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C152 thatsubsequently called D&D. An inbound a/c was given traffinfo and broken off an ILS approach to R/W23. Standard separation maintained.	Appropriate and comprehensive remedial action has been taken by the CFI concerned with the solo student involved.
200605391	23/06/2006	EGTT : London (FIR)	Stansted	7 NW	D	CTR	UNKNOWN	Unknown		Infringement of the Stansted CTR (Class D) by a C152 thatsubsequently called D&D. An inbound a/c was given traffinfo and broken off an ILS approach to R/W23. Standard separation maintained.	Appropriate and comprehensive remedial action has been taken by the CFI concerned with the solo student involved.
200605394	23/06/2006	EGTT : London (FIR)	Congleton		D	CTR	AEROSPATIALE	Turboshaft	1	Alleged infringement of the Manchester CTR (Class D) by an AS350 that called ATC at Congleton requesting to fly to Rosthern, and had been told to remain outside CAS. Standard separation maintained.	AS350 later called ATC stating having radio problems, which were now rectified.
200605395	24/06/2006	EGTT : London (FIR)	Luton (LUT)	S	D	CTR	CESSNA	Reciprocating	1	C210 infringed the Luton CTR (Class D) and lost separation with an outbound a/c. All departures were stopped.	C210 pilot subsequently admitted to and apologised for the infringement, stating that he did not have the relevant VFR maps on board. He is now aware of the importance of adequate pre-flight planning and intends to ensure that all relevant VFR maps are in his possession prior to any future flights.□ CAA Closure: The hazard is adequately controlled by the actions stated above.
200605401	25/06/2006	EGTT : London (FIR)	Bristol International	10 E	D	CTA	STODDARD HAMILTON	Reciprocating	1	Alleged infringement of the Bristol CTA (Class D) by a Glasair that was receiving a FIS from Bristol Filton. Standard separation maintained.	

200605515	28/06/2006	EGTT : London (FIR)	London City - LCY	6 NE	D	CTA	PIPER	Reciprocating	1	Alleged infringement of London City CTA (Class D) by a PA38 at 2000ft, FK50 given a heading to remain separated from the PA38 and next departure cancelled. Standard separation maintained.	
200605535	25/06/2006	EGTT : London (FIR)	Manchester (MCT)	8 SW	D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Manchester CTR (Class D) by aPA28. An inbound B737 was instructed not to establish on the ILS for R/W06R and given traffic info. B737 subsequently given avoiding action.	See also 200500541. Several attempts to contact the PA28 operator have proved unsuccessful. ☐ CAA Closure: No further CAA action practicable.
200605535	25/06/2006	EGTT : London (FIR)	Manchester (MCT)	8 SW	D	CTR	BOEING	Turbofan	2	Alleged infringement of the Manchester CTR (Class D) by aPA28. An inbound B737 was instructed not to establish on the ILS for R/W06R and given traffic info. B737 subsequently given avoiding action.	See also 200500541. Several attempts to contact the PA28 operator have proved unsuccessful. ☐ CAA Closure: No further CAA action practicable.
200605541	28/06/2006	EGTT : London (FIR)	Stansted	NE	D	CTA	DIAMOND	Reciprocating	1	Infringement of Stansted CTA (Class D) by a DA40 a/c at 2200ft. Two a/c broken off approach. Traffic info given. Standard separation maintained. Appropriate CAA action is to be taken.	
200605541	28/06/2006	EGTT : London (FIR)	Stansted	NE	D	CTA	BOEING	Turbofan	2	Infringement of Stansted CTA (Class D) by a DA40 a/c at 2200ft. Two a/c broken off approach. Traffic info given. Standard separation maintained. Appropriate CAA action is to be taken.	

200605588	29/06/2006	EGTT : London (FIR)	London-Heathrow - LHR	14 SW	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 at 2900ft. B737 descending stopped off at 6000ft and given traffic info. STCA activated. Standard separation maintained.	See 200405037.
200605588	29/06/2006	EGTT : London (FIR)	London-Heathrow - LHR	14 SW	A	TMA	BOEING	Turbofan	2	Infringement of the LTMA (Class A) by a PA28 at 2900ft. B737 descending stopped off at 6000ft and given traffic info. STCA activated. Standard separation maintained.	See 200405037.
200605599	19/06/2006	EGTT : London (FIR)	Burnham	3 N	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C182 at 2000ft. Heathrow Northbound departures stopped. Traffic info given. Standard separation maintained.	C182 pilot subsequently admitted to and apologised for the infringement, having become distracted and also been unfamiliar with some of the equipment on the a/c. Pilot has been reminded of the importance of adequate pre-flight planning and remaining clear of CAS.□ CAA Closure: The hazard is adequately controlled by the actions stated above.
200605605	29/06/2006	EGTT : London (FIR)	Chelmsford		A	TMA	PERCIVAL	Turbofan	1	Infringement of the LTMA (Class A) by a Jet Provost at 10000ft. Traffic info given. Standard separation maintained.	Appropriate CAA action being taken. See 200608176.
200605614	30/06/2006	EGTT : London (FIR)	Bovingdon (BNN)	S	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA by a C152 at 3000ft. Standard separation maintained. Pilot concerned alerted to his error.	

200605628	29/06/2006	EGTT : London (FIR)	Northwich	3 NE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Manchester CTR (Class D) and the Liverpool CTR (Class D) by a C172 at 1800ft. Standard separation maintained. Traffic info given.	It is reported that the student pilot was on his first solo navigational exercise and was allegedly having difficulties in navigating and using the transponder.
200605631	29/06/2006	EGTT : London (FIR)	Birmingham		D	CTA	PIPER	Reciprocating	1	Infringement of Birmingham CTA (Class D) by a PA28 squawking 7000 at 3500ft. Traffic info given to two a/c on departure who were given amended clearances. Standard separation maintained.	ATC have spoken with the pilot concerned who has apologised for the incident citing navigational problems.
200605635	02/07/2006	EGTT : London (FIR)	Birmingham	11 NW	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of Birmingham CTA (Class D) by an R2160 at 2200ft. Separation lost with a B737 on approach. Traffic info given.	R2160 pilot subsequently given appropriate advice concerning flying close to CAS.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200605635	02/07/2006	EGTT : London (FIR)	Birmingham	11 NW	D	CTA	BOEING	Turbofan	2	Infringement of Birmingham CTA (Class D) by an R2160 at 2200ft. Separation lost with a B737 on approach. Traffic info given.	R2160 pilot subsequently given appropriate advice concerning flying close to CAS.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200605638	02/07/2006	EGTT : London (FIR)	Luton (LUT)	10 N	A	TMA	CESSNA	Turboprop	1	Alleged infringement of the LTMA (Class A) airspace, which is delegated to Luton Radar. Three a/c inbound to Luton were given radar headings to avoid the infringer. Standardseparation maintained.	

200605708	03/07/2006	EGTT : London (FIR)	Wattisham	3 SW	A		PIPER	Reciprocating	1	LTCC received a call regarding a PA38 that wanted to joinCAS. PA38 was asked to remain outside CAS and file an airborne plan with FIR. PA38 subsequently allegedly infringedCAS (Class A).	
200605801	28/06/2006	EGTT : London (FIR)	Stansted		D	CTR	UNKNOWN	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a Thruster microlight at 2200ft. Pilot unfamiliar with route and had not completed adequate pre-flight planning. Standard separation lost.	
200605801	28/06/2006	EGTT : London (FIR)	Stansted		D	CTR	UNKNOWN	Unknown		Infringement of the Stansted CTR (Class D) by a Thruster microlight at 2200ft. Pilot unfamiliar with route and had not completed adequate pre-flight planning. Standard separation lost.	
200605836	06/07/2006	EGTT : London (FIR)	Andrewsfield		D	CTR	ROBINSON	Reciprocating	1	Infringement of Stansted CTR (Class D) by an R44 squawking 7000. B737 broken off approach and given traffic info.	See also 200107011. Investigation established that the R44 pilot was unaware that an infringement had taken place. Pilot subsequently sent a copy of the radar trace to highlight where the infringement occurred and has been remindedof the importance of adequate pre-flight planning and remaining clear of CAS.□ CAA Closure: The hazard is adequately controlled by the actions stated above.
200605836	06/07/2006	EGTT : London (FIR)	Andrewsfield		D	CTR	BOEING	Turbofan	2	Infringement of Stansted CTR (Class D) by an R44 squawking 7000. B737 broken off approach and given traffic info.	See also 200107011. Investigation established that the R44 pilot was unaware that an infringement had taken place. Pilot subsequently sent a copy of the radar trace to highlight where the infringement occurred and has been remindedof the importance of adequate pre-flight planning and remaining clear of CAS.□ CAA Closure: The hazard is adequately controlled by the actions stated above.

200605879	07/07/2006	EGTT : London (FIR)	ABBOT		A	TMA	CESSNA	Reciprocating	1	Alleged infringement of the LTMA (Class A) by a C172. Standard separation maintained.	
200605881	08/07/2006	EGTT : London (FIR)	TIMBA	3 N	A	TMA	CESSNA	Reciprocating	1	Alleged infringement of the LTMA (Class A) by a C172 that had previously spoken to FIR and was told to remain outside CAS. Standard separation maintained.	
200605888	28/06/2006	EGTT : London (FIR)	Salisbury		G	Danger area	PIPER	Reciprocating	1	Infringement of active Danger Area D123 by a PA28 at 1700ft. Standard separation maintained.	
200605892	08/07/2006	EGTT : London (FIR)	Brookmans Park (BPK)	4 ESE	D	CTA	PIPER	Reciprocating	1	Infringement of Stansted CTA (Class D) by a PA28 at 2000ft. A/c instructed to descend below 1500ft. Standard separation maintained.	See 200602393, 200602802 and 200604890.
200605900	08/07/2006	EGTT : London (FIR)	Luton (LUT)	SW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C172. Separation was lost with a B737 inbound to Stansted. Traffic info given.	See also 200509444. While the C172 pilot could remember this flight, the exact details could not be established. The pilot believed that, while familiar with the area, the distraction of an unfamiliar a/c GPS may have been a contributory factor. The pilot is aware of the serious consequences of infringing CAS.□ CAA Closure: No further CAA action required at this time.

200605900	08/07/2006	EGTT : London (FIR)	Luton (LUT)	SW	D	CTR	BOEING	Turbofan	2	Infringement of the Luton CTR (Class D) by a C172. Separation was lost with a B737 inbound to Stansted. Traffic info given.	See also 200509444. While the C172 pilot could remember this flight, the exact details could not be established. The pilot believed that, while familiar with the area, the distraction of an unfamiliar a/c GPS may have been a contributory factor. The pilot is aware of the serious consequences of infringing CAS.□ CAA Closure: No further CAA actionrequired at this time.
200605902	08/07/2006	EGTT : London (FIR)	Stansted	12 NE	D	CTR	OTHER	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a microlight. Traffic info was given to inbound a/c. Standardseparation maintained.	Pilot subsequently denied that an infringement occurred, claiming to have remained clear of Stansted airspace at all times. Unable to reconcile the differing reports. However, pilot has been reminded of the importance of adequate pre-flight planning and also of remaining clear of CAS. Seealso 200606244.□ CAA Closure: The hazard is adequately controlled by the actions stated above.
200605902	08/07/2006	EGTT : London (FIR)	Stansted	12 NE	D	CTR	BOEING	Turbofan	2	Alleged infringement of the Stansted CTA (Class D) by a microlight. Traffic info was given to inbound a/c. Standardseparation maintained.	Pilot subsequently denied that an infringement occurred, claiming to have remained clear of Stansted airspace at all times. Unable to reconcile the differing reports. However, pilot has been reminded of the importance of adequate pre-flight planning and also of remaining clear of CAS. Seealso 200606244.□ CAA Closure: The hazard is adequately controlled by the actions stated above.
200605903	08/07/2006	EGTT : London (FIR)	Stansted	5 W	D	CTR	AVIONS ROBIN	Reciprocating	1	Alleged infringement of the Stansted CTR (Class D) by a DR400. Westbound departures were stopped and an a/c was held on R/W until DR400 was clear. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
200605904	08/07/2006	EGTT : London (FIR)	Stansted	9 SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA32 indicating 2200ft. The pilot was advised of the error and apologised. Standard separation maintained.	

200605905	08/07/2006	EGTT : London (FIR)	Stansted	10 SW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C182 at 2000ft. Standard separation maintained.	The foreign pilot was contacted by ATC and the incident was discussed. It appears that the pilots involved failed to notice the base of CAS in the area concerned during their pre-flight planning.
200605909	09/07/2006	EGTT : London (FIR)	Clacton (CLN)		A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C172 at FL80. ATCinstructed the a/c to descend to 5000ft and call the FIR frequency. Standard separation maintained.	
200605952	10/07/2006	EGTT : London (FIR)	Stansted	12 NE	D	CTA	AVIONS ROBIN	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a DR400. No inbounds were affected and standard separation maintained.	
200605957	10/07/2006	EGTT : London (FIR)	Saffron Walden	3 NE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C182. Oneinbound a/c was given traffic info and vectors to avoid the infringer. Standard separation maintained.	
200605991	07/07/2006	EGTT : London (FIR)	Stansted	13 NE	D	CTA	CESSNA	Reciprocating	1	Alleged infringement of the Stansted CTR (Class D) by a C172. Traffic was vectored clear of the infringer. Standardseparation maintained.	

200606067	11/07/2006	EGTT : London (FIR)	London City - LCY	NE	D	CTA	PIPER	Reciprocating	1	Infringement of the London City CTR (Class D) by a PA28R.Traffic info and avoiding action was given to an inbound BE400. Standard separation maintained.	Investigation established that the PA28R pilot had previously flown with an instructor to regain currency having not flown for 2-3 months and, on this flight, he had decidedto practise VOR tracking routing via BNN-BPK-LAM. However, he selected the wrong radial from LAM and, unsure of hisposition, circled to establish his position during which the a/c infringed the Northeast corner of London City. Thepilot has been reminded of the serious consequences of infringing CAS.□ CAA Closure: No further CAA action requiredat this time.
200606067	11/07/2006	EGTT : London (FIR)	London City - LCY	NE	D	CTA	BEECH	Turbofan	2	Infringement of the London City CTR (Class D) by a PA28R.Traffic info and avoiding action was given to an inbound BE400. Standard separation maintained.	Investigation established that the PA28R pilot had previously flown with an instructor to regain currency having not flown for 2-3 months and, on this flight, he had decidedto practise VOR tracking routing via BNN-BPK-LAM. However, he selected the wrong radial from LAM and, unsure of hisposition, circled to establish his position during which the a/c infringed the Northeast corner of London City. Thepilot has been reminded of the serious consequences of infringing CAS.□ CAA Closure: No further CAA action requiredat this time.
200606073	12/07/2006	EGTT : London (FIR)	Mayfield (MAY)	12 WSW	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28. Traffic info and avoiding action given. Standard separation maintained. Subsequently pilot phoned and apologised for the error.	See also 200506046.
200606076	05/07/2006	EGTT : London (FIR)	Lulworth		G	Danger area	BELL	Turboshaft	1	Infringement of active Danger Area EG D026 (Lulworth) by a Bell 206 at approximately 500ft.	On contacting the pilot, he has since stated he was 'horrified' that he had inadvertently flown through an active range, having failed to navigate the aircraft clear of a notified active Danger Area. Poor weather and unfamiliarity with the area were contributory factors. The pilot has learned from this occurrence and has apologised for any inconvenience caused.□ CAA Closure: No further CAA action required at this time.
200606088	11/07/2006	EGTT : London (FIR)	Manchester (MCT)	20 NE	D	CTA	LANCAIR	Reciprocating	1	Infringement of the Manchester CTA (Class D) by a Lancair. Pilot later phoned and reported having misread the base of CAS as 3500ft, which is Class A, instead of 3000ft which is Class D.	Standard separation maintained.

200606103	08/07/2006	EGTT : London (FIR)	Luton (LUT)	3 SE	D	CTR	MOONEY	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Mooney 20 at2300ft. A/c instructed to squawk and Luton ATC informed whom confirmed they were in contact with the pilot. Standard separation maintained.	
200606154	11/07/2006	EGTT : London (FIR)	Cardiff (CDF)		D	CTA	AVIONS ROBIN	Reciprocating	1	Solo student in a R2100 called ATC and was cleared into the Zone not above 1500ft, but subsequently observed insidethe Cardiff CTA (Class D) indicating 2400ft. Instructor phoned at ATC's request.	See also 200605001.
200606165	14/07/2006	EGTT : London (FIR)	Southampton (SAM)	8 W	D	CTA	ROCKWELL	Reciprocating	1	Alleged infringement of the Solent CTA (Class D) by a Rockwell 114. Standard separation maintained.	
200606181	14/07/2006	EGTT : London (FIR)	Oxford/Brize Norton		D	CTR	PIPER	Reciprocating	1	Infringement of the Oxford ATZ (Class G) and Brize NortonCTR (Class D) by a PA22.	When Brize Norton spoke to the pilot, he informed them that he had been cleared through their airspace by London FIR. PA22 pilot subsequently apologised for his error. He has been reminded of the serious consequences of infringing CAS and also made aware of service limitations of London FIR.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200606183	13/07/2006	EGTT : London (FIR)	London-Gatwick - LGW	6 NE	D	CTR	CESSNA	Reciprocating	1	C152 infringed the Gatwick CTR (Class D) and lost separation with an A319 that had just departed R/W08R.	Information indicates that the pilot was on his qualifying cross country. He believed he had identified Tunbridge Wells when it was actually Crowborough. When he arrived overhead the race course at Lingfield he realised his error and made a turn to the Northeast. The a/c was at 1500ft or below from Crowborough. The pilot concerned has undergone additional flight training around the Gatwick area so thatthe error of his ways could be clearly identified.☐ CAA Closure: No further CAA action required at this time.

200606183	13/07/2006	EGTT : London (FIR)	London-Gatwick - LGW	6 NE	D	CTR	AIRBUS	Turbofan	2	C152 infringed the Gatwick CTR (Class D) and lost separation with an A319 that had just departed R/W08R.	Information indicates that the pilot was on his qualifying cross country. He believed he had identified Tunbridge Wells when it was actually Crowborough. When he arrived overhead the race course at Lingfield he realised his error and made a turn to the Northeast. The a/c was at 1500ft or below from Crowborough. The pilot concerned has undergone additional flight training around the Gatwick area so thatthe error of his ways could be clearly identified.□ CAA Closure: No further CAA action required at this time.
200606184	15/07/2006	EGTT : London (FIR)	Manchester (MCT)	SW	D	CTR	PIPER	Reciprocating	1	PA32 infringed the Manchester CTR (Class D). Traffic info and avoiding action given to inbound EMB145 and DHC8. Standard separation maintained. Pilot reported problems withthe transponder.	
200606184	15/07/2006	EGTT : London (FIR)	Manchester (MCT)	SW	D	CTR	EMBRAER	Turbofan	2	PA32 infringed the Manchester CTR (Class D). Traffic info and avoiding action given to inbound EMB145 and DHC8. Standard separation maintained. Pilot reported problems withthe transponder.	
200606244	10/07/2006	EGTT : London (FIR)	Duxford	5 S	D	CTA	OTHER	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a P92 microlight. Standard separation maintained.	See also 200605902.
200606260	10/07/2006	EGTT : London (FIR)	Eskmeals EG D406		G	Danger area	PIPER	Reciprocating	1	Infringement of active Danger Area EG D406 (Eskmeals) by a PA28. Firing was stopped.	Investigation established that the PA28 pilot was attempting to avoid deteriorating weather, and was concerned about the high ground to the East of his track. Therefore, he elected to turn away from the high ground, which took him further to the West than he had intended and resulted in the Danger Area infringement. Pilot apologised and has beenreminded of the serious consequences of infringing DangerAreas.□ CAA Closure: No further CAA action required at this time.

200606290	14/07/2006	EGTT : London (FIR)	Rugby	7nm N			CESSNA	Reciprocating	1	D&D Cell Report: Pilot lost. PAN declared. Position fix indicated a/c was inside Birmingham CTA. Pilot initiated steer to clear the zone and transfer to Birmingham approach effected.	
200606291	16/06/2006	EGTT : London (FIR)	Manchester Barton A/F		G	ATZ	CASA	Reciprocating	1	Infringement of Manchester Barton ATZ (Class G) by an unidentified Bucker Jungmann/Casa 1.131 at 1500ft. No RT comms.	
200606291	16/06/2006	EGTT : London (FIR)	Manchester Barton A/F		G	ATZ	PIPER	Reciprocating	1	Infringement of Manchester Barton ATZ (Class G) by an unidentified Bucker Jungmann/Casa 1.131 at 1500ft. No RT comms.	
200606292	16/07/2006	EGTT : London (FIR)			A		CIRRUS	Reciprocating	1	Infringement of a Class A Airway by a Cirrus SR22. The a/c called the FIR controller, who was very busy, and was told to standby. LTCC then called and stated that the a/c was in CAS at FL80.	LTCC advised the FIR controller to transfer the a/c to 135.42, which was actioned.
200606304	17/07/2006	EGTT : London (FIR)	Shoeburyness		G	Danger area	LANCAIR	Reciprocating	1	Infringement of active Danger Area EG D138 (Shoeburyness)by a Lancair. Ceasefire imposed.	Following this incident, the Lancair pilot has been reminded of the importance of adequate pre-flight planning.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.

200606305	14/07/2006	EGTT : London (FIR)	Isle Of Man (IOM)	11 NE	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Isle of Man CTA/CTR (Class D) by a DR400, that had been in contact with the Scottish FIR. DR400subsequently called Isle of Man ATC. Standard separation maintained.	
200606314	18/07/2006	EGTT : London (FIR)	Brands Hatch	4 NE	A	TMA	DIAMOND	Reciprocating	1	Alleged infringement of the LTMA (Class A) by a Katana DA20. A Falcon 900 inbound to Biggin was given traffic info and a heading to go behind the Katana. Standard separationmaintained.	The Katana pilot has subsequently advised that the incident occurred because of a chart reading error. 200608111.
200606314	18/07/2006	EGTT : London (FIR)	Brands Hatch	4 NE	A	TMA	DASSAULT	Turbofan	3	Alleged infringement of the LTMA (Class A) by a Katana DA20. A Falcon 900 inbound to Biggin was given traffic info and a heading to go behind the Katana. Standard separationmaintained.	The Katana pilot has subsequently advised that the incident occurred because of a chart reading error. 200608111.
200606331	17/07/2006	EGTT : London (FIR)	Luton	E	D	CTR	EUROPA	Reciprocating	1	Infringement of Luton CTR (Class D) by a Europa, possiblycaused by pilot misreading his nav charts. An outbound a/c's take-off was cancelled.	Europa pilot subsequently admitted to having some difficulty reading his nav chart, but believed that he had remained clear of CAS. He has been advised that this was not thecase and has been given appropriate advice with regards to obtaining CAA charts.□ CAA Closure: The hazard is adequately controlled by the actions stated above.
200606380	19/07/2006	EGTT : London (FIR)	Manchester (MCT)	9 WSW	D	CTR	CESSNA	Reciprocating	1	C172 reported entering LLR (Low Level Route), but subsequently infringed Manchester CTR (Class D). When queried he admitted being unsure of his position and was told that heshould have advised ATC.	Standard separation maintained.

200606381	19/07/2006	EGTT : London (FIR)	Denham	2 SW	A	CTR	ROBINSON	Reciprocating	1	Infringement of the London CTR (Class A) by an R44. Standard separation maintained.	Information indicates that the R44 was trying to find a private landing site but was having difficulty locating it.
200606423	19/07/2006	EGTT : London (FIR)	London City - LCY	11 SE	A	TMA	PIPER	Reciprocating	1	Alleged infringement of the LTMA by a PA28 resulted in disruption to public transport flights. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident. See also 200701766, 200701633, 200606754, 200506184, 200402304 and 200203925.
200606423	19/07/2006	EGTT : London (FIR)	London City - LCY	11 SE	A	TMA	DE HAVILLAND	Turboprop	2	Alleged infringement of the LTMA by a PA28 resulted in disruption to public transport flights. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident. See also 200701766, 200701633, 200606754, 200506184, 200402304 and 200203925.
200606424	20/07/2006	EGTT : London (FIR)	Camphill		A		CESSNA	Reciprocating	1	Alleged infringement of Airway L975 (Class A) by a C182. C182 called ATC requesting transit of zone at FL70. A/c was told to orbit and descend to FL60 then to 4000ft. Standard separation maintained.	
200606425	20/07/2006	EGTT : London (FIR)	Ware		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28, that subsequently called D&D as it was lost. Standard separation maintained.	

200606427	19/07/2006	EGTT : London (FIR)	Liverpool	8 E	D	CTA	PIPER	Reciprocating	1	PA32 infringed the Liverpool CTR/CTA (Class D) and Manchester CTR (Class D). Traffic info was given. PA32 called ATC requiring vectors and was vectored to a visual LH circuit.	See also 200400887 and 200405292. The pilot subsequently admitted to and apologised for the infringement, stating that he was unfamiliar with both the a/c and the area. As a result of this incident, the pilot has arranged to undertake additional training.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200606432	19/07/2006	EGTT : London (FIR)	Nottingham East Midlands	5 E	D	CTA	MOONEY	Reciprocating	1	Infringement of the Nottingham East Midlands CTR/CTA (Class D) by a Mooney 20. Mooney 20 subsequently called ATC and reported being lost and was given headings to its destination.	Standard separation maintained. The pilot subsequently contacted ATC and the importance of speaking to a radar equipped unit, as soon as possible when lost, was highlighted.
200606442	12/07/2006	EGTT : London (FIR)	Eskmeals EGD406		G	Danger area	CESSNA	Reciprocating	1	Alleged infringement of active Danger Area EG D406 (Eskmeals) by a C182. Firing was stopped.	Investigation established that the C182 pilot, who had planned to track East of the Danger Area, was avoiding clouds, which resulted in flying further to the West than intended and the subsequent Danger Area infringement. Pilot apologised and has been reminded of the serious consequences of infringing Danger Areas.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200606472	21/07/2006	EGTT : London (FIR)	Detling (DET)	3 S	A	TMA	BEECH	Reciprocating	1	Infringement of the LTMA (Class A) by a BE33. Standard separation was maintained with two a/c inbound to London City.	
200606477	22/07/2006	EGTT : London (FIR)	Cookham		A	CTR	PIPER	Reciprocating	1	Alleged infringement of London CTR (Class A) by a PA28. Heathrow inbound traffic was vectored clear and stopped at 5000ft until a/c exited CAS. Standard separation maintained.	No response received from the operator, will be re-opened if further information becomes available. See also 200504261.☐ CAA Closure: No further CAA action practicable.

200606478	21/07/2006	EGTT : London (FIR)	Birmingham	6 S	D	CTR	JODEL	Reciprocating	1	Alleged infringement of the Birmingham CTR (Class D) by aDR1051. Standard separation maintained.	Information indicates that the a/c suffered a number of technical problems which distracted the pilot from his navigation.
200606480	21/07/2006	EGTT : London (FIR)	Honiley (HON)	4 W	D	CTR	ROBINSON	Reciprocating	1	Solo student pilot in a helicopter become confused whilst trying to select Coventry's Radar frequency and infringed the Birmingham CTR (Class D). Three departures were held. Separation maintained.	The student's instructor has been advised of the impact of this infringement on Birmingham operations.
200606481	21/07/2006	EGTT : London (FIR)	Macclesfield	E	D	CTR	DIAMOND	Reciprocating	1	DA40 inbound to Liverpool allegedly infringed the Manchester CTR (Class D) and again, after departing Liverpool. On both occasions standard separation was maintained.	No response received from the operator, will be re-opened if further information becomes available. <input type="checkbox"/> CAA Closure: No further CAA action practicable.
200606483	23/07/2006	EGTT : London (FIR)	Dunstable	4 SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28R. Departures were stopped for 3mins. Standard separation maintained. Pilot subsequently apologised for the infringement.	D & D Cell report: PAN declared due to pilot being lost and instructed to squawk 7700. Aircraft identified and given a steer to Elstree. Pilot flew over Elstree without recognising any features. After being given a 330deg turn for second feed, he became visual with landmarks he recognised and landed safely. During the incident, LL supervisor stating they would be filing for an infringement. This was withheld from the pilot but passed to his instructor. See also 200504237.
200606485	23/07/2006	EGTT : London (FIR)	EXMOR	3 NE	A		CIRRUS	Reciprocating	1	Infringement of Airway N864 (Class A) by an SR22. Pilot apologised, stating that he believed the base of CAS in position of incident was FL65, when in fact it is FL55. Standard separation maintained.	Traffic info and avoiding action given.

200606564	23/07/2006	EGTT : London (FIR)	Stansted	10 NE	D	CTA	MOONEY	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Mooney 20. Standard separation maintained. Traffic info passed to Stansted inbound traffic.	
200606564	23/07/2006	EGTT : London (FIR)	Stansted	10 NE	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a Mooney 20. Standard separation maintained. Traffic info passed to Stansted inbound traffic.	
200606566	21/07/2006	EGTT : London (FIR)	Syerston	1 SW	G	ATZ	HUGHES	Turboshaft	1	UK AIRPROX 109/2006 - Military motorglider and a Hughes 500 1nm Southwest of Syerston at 800ft.	Despite extensive tracing action the helicopter could not be positively identified. The helicopter flew into the Syerston ATZ without RT contact and flew into conflict with the motorglider whose pilot saw it late. □ CAA Closure: No further CAA action possible. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB). See UKAB Report 109/06.
200606566	21/07/2006	EGTT : London (FIR)	Syerston	1 SW	G	ATZ	OTHER	Unknown		UK AIRPROX 109/2006 - Military motorglider and a Hughes 500 1nm Southwest of Syerston at 800ft.	Despite extensive tracing action the helicopter could not be positively identified. The helicopter flew into the Syerston ATZ without RT contact and flew into conflict with the motorglider whose pilot saw it late. □ CAA Closure: No further CAA action possible. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB). See UKAB Report 109/06.
200606568	24/07/2006	EGTT : London (FIR)	Luton (LUT)	12 W	D	CTA	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C152 flown by a student pilot. An inbound B737 was given a holding orbit.	Traffic info and avoiding action given. Standard separation maintained. The student concerned received at least 4 hours remedial navigation training, which included awareness of controlled airspace.□ CAA Closure: No further CAA action practicable.

200606568	24/07/2006	EGTT : London (FIR)	Luton (LUT)	12 W	D	CTA	BOEING	Turbofan	2	Infringement of the Luton CTR (Class D) by a C152 flown by a student pilot. An inbound B737 was given a holding orbit.	Traffic info and avoiding action given. Standard separation maintained. The student concerned received at least 4 hours remedial navigation training, which included awareness of controlled airspace.☐ CAA Closure: No further CAA action practicable.
200606622	26/07/2006	EGTT : London (FIR)	London City - LCY	9 SE	A	TMA	BEECH	Reciprocating	1	Infringement of LTMA (Class A) by a BE36. An a/c inbound to London City was put on a heading, which took it behind the BE36. BE36 apologised, stating being distracted by a passenger feeling unwell.	
200606622	26/07/2006	EGTT : London (FIR)	London City - LCY	9 SE	A	TMA	UNKNOWN	Unknown		Infringement of LTMA (Class A) by a BE36. An a/c inbound to London City was put on a heading, which took it behind the BE36. BE36 apologised, stating being distracted by a passenger feeling unwell.	
200606645	23/07/2006	EGTT : London (FIR)	Manchester Barton A/F		G	ATZ	AEROSPATIALE	Turboshaft	1	Infringement of the Manchester Barton ATZ (Class G) by anunidentified SA350 at 800ft.	
200606647	26/07/2006	EGTT : London (FIR)	Luton (LUT)	10 SW	D	CTR	CESSNA	Reciprocating	1	Alleged infringement of Luton CTR (Class D) by a C150. Traffic info and avoiding action was given to an outbound a/c. Standard separation maintained.	No response received from the operator, will be re-openedif further information becomes available. See also 200508791.☐ CAA Closure: No further CAA action practicable.

200606647	26/07/2006	EGTT : London (FIR)	Luton (LUT)	10 SW	D	CTR	UNKNOWN	Unknown		Alleged infringement of Luton CTR (Class D) by a C150. Traffic info and avoiding action was given to an outbound a/c. Standard separation maintained.	No response received from the operator, will be re-opened if further information becomes available. See also 200508791. □ CAA Closure: No further CAA action practicable.
200606692	18/07/2006	EGTT : London (FIR)	Lydd (LYD)		G	Danger area	CESSNA	Reciprocating	1	Infringement of active Danger Area EG D044 (Lydd). Pilot was apparently distracted by a landing helicopter. After landing, pilot phoned the military and apologised.	
200606709	28/07/2006	EGTT : London (FIR)	Oxshot	3 E	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28. Standard separation maintained.	
200606710	28/07/2006	EGTT : London (FIR)	London City - LCY	8 NE	A	TMA	SOCATA	Reciprocating	1	Alleged infringement of the LTMA (Class A) by a TB20. STCA activated briefly white. Standard separation maintained.	See also 200103133.
200606711	28/07/2006	EGTT : London (FIR)	Seaford (SFD)	10 E	A	CTR	PIPER	Reciprocating	1	Infringement of the Worthing CTA (Class A) by a PA28. Standard separation maintained. Pilot subsequently given appropriate advice.	

200606712	28/07/2006	EGTT : London (FIR)	London City - LCY	5 NE	D	CTR	PIPER	Reciprocating	1	Alleged infringement of the London City CTR (Class D) by a PA28. An RJ100 on a DVR 3T SID was given a turn to maintain standard separation.	See also 200102878.
200606712	28/07/2006	EGTT : London (FIR)	London City - LCY	5 NE	D	CTR	BAE	Turbofan	4	Alleged infringement of the London City CTR (Class D) by a PA28. An RJ100 on a DVR 3T SID was given a turn to maintain standard separation.	See also 200102878.
200606747	28/07/2006	EGTT : London (FIR)	Manchester (MCT)	5 NW	D	CTR	HUGHES	Turboshaft	1	Infringement of the Manchester CTR (Class D) by a Hughes 500, that called ATC reporting being unsure of his position. Hughes 500 was put on a heading and standard separationwas maintained.	Hughes 500 requested transit through the Manchester CTR and was advised this was not possible and to use the Low Level Route (LLR). A few minutes later pilot reported being unsure of his position and was identified within the CTR. Hughes 500 was put on a heading and, on reaching LLR, was put on his own navigation.
200606748	29/07/2006	EGTT : London (FIR)	Barkway (BKY)		A	TMA	SOCATA	Reciprocating	1	Alleged infringement of the Stansted and Luton CTAs (Class D) and the LTMA (Class A) by a TB20. Standard separationmaintained. Luton and Stansted traffic affected.	No response received from the operator, will be re-openedif further information becomes available.□ CAA Closure: No further CAA action practicable.
200606750	30/07/2006	EGTT : London (FIR)	Lydd (LYD)	5 NE	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA by a C172. Standard separation maintained. STCA activated against an HS125 inbound to Biggin Hill.	C172 pilot subsequently admitted to and apologised for infringement, having climbed to remain above clouds. He has been reminded of the importance of remaining clear of controlled airspace. See also 200605991.□ CAA Closure: The hazard is adequately controlled by the actions stated above.

200606750	30/07/2006	EGTT : London (FIR)	Lydd (LYD)	5 NE	A	TMA	HAWKER SIDDELEY	Turbofan	2	Infringement of the LTMA by a C172. Standard separation maintained. STCA activated against an HS125 inbound to Biggin Hill.	C172 pilot subsequently admitted to and apologised for infringement, having climbed to remain above clouds. He has been reminded of the importance of remaining clear of controlled airspace. See also 200605991.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200606751	30/07/2006	EGTT : London (FIR)	Fairoaks	3 N	A	CTR	PIPER	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a PA28. Traffic info given. Heathrow departures suspended. Standard separation maintained.	The PA28, inbound to Fairoaks from Shoreham, failed to locate Fairoaks and reached the M3 before turning back. The pilot realised he had a problem when he saw Heathrow. See also 200401987; PA28 pilot subsequently apologised for infringement and has been reminded of the importance of adequate pre-flight planning and remaining clear of CAS.☐ CAA Closure: The hazard is adequately controlled by the actionsstated above.
200606752	30/07/2006	EGTT : London (FIR)	London City - LCY	E	A	TMA	PIPER	Reciprocating	1	Alleged infringement of the LTMA (Class A) by a PA28. Standard separation maintained.	2 a/c inbound to London City were vectored away from thistraffic.
200606754	29/07/2006	EGTT : London (FIR)	Luton		D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28. A B737inbound to Luton had its approach broken off. Pilot was astudent on his first solo nav exercise. CFI informed.	Traffic info and avoiding action given. See also 200506184 and 200606423. Investigation identified a navigation error by the PA28 pilot. Appropriate action taken by the flying school, with student pilot briefed accordingly. See also 2000701766, 200701633, 200606423, 200506184, 200402304and 200203925.☐ CAA Closure: No further CAA action required at this time.
200606754	29/07/2006	EGTT : London (FIR)	Luton		D	CTR	BOEING	Turbofan	2	Infringement of the Luton CTR (Class D) by a PA28. A B737inbound to Luton had its approach broken off. Pilot was astudent on his first solo nav exercise. CFI informed.	Traffic info and avoiding action given. See also 200506184 and 200606423. Investigation identified a navigation error by the PA28 pilot. Appropriate action taken by the flying school, with student pilot briefed accordingly. See also 2000701766, 200701633, 200606423, 200506184, 200402304and 200203925.☐ CAA Closure: No further CAA action required at this time.

200606758	29/07/2006	EGTT : London (FIR)	Stansted	NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28. Standard separation maintained. Traffic info given to an inbound B737

200606825	31/07/2006	EGTT : London (FIR)	Luton (LUT)	SW	D	CTR	MOONEY	Reciprocating	1	Mooney called ATC requesting a FIS and zone transit. It transpired that the a/c was already inside the Luton CTR (Class D) and was given a heading to leave the area. Standard separation maintained.	
200606882	21/07/2006	EGTT : London (FIR)	Southampton (SAM)	7 SW	D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Southampton CTR (Class D) by a PA28, which was in contact with Bournemouth ATC. Trafficinfo given to an outbound Trislander. Standard separationmaintained.	See also 200602372.
200606882	21/07/2006	EGTT : London (FIR)	Southampton (SAM)	7 SW	D	CTR	BRITTEN NORMAN	Reciprocating	3	Alleged infringement of the Southampton CTR (Class D) by a PA28, which was in contact with Bournemouth ATC. Trafficinfo given to an outbound Trislander. Standard separationmaintained.	See also 200602372.

200606907	24/07/2006	EGTT : London (FIR)	Cardiff (CDF)		D	CTA	JABIRU	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by a Jabiru at FL50. Standard separation maintained. No RT comms.	
200606955	02/08/2006	EGTT : London (FIR)	Stansted	8 S	D	CTR	AEROSPATIALE	Turboshaft	1	Infringement of Stansted CTR (Class D) by an Alouette helicopter at 1500ft. Stansted departures stopped for 4mins. Standard separation maintained.	The pilot later apologised for his actions.
200607006	05/08/2006	EGTT : London (FIR)	Luton (LUT)		D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 (believed) at 3500ft. Three departures delayed. Standard separation maintained.	
200607008	06/08/2006	EGTT : London (FIR)	Nuneaton		D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C152 at3200ft. Pilot was unsure of his position and called D&D for assistance. Standard separation maintained.	In a subsequent conversation with the ATC Watch Manager the pilot agreed, that in retrospect, given his proximity to Birmingham, a call to them would have been prudent.
200607048	27/07/2006	EGTT : London (FIR)	Upwood		G		EXTRA	Reciprocating	1	Alleged infringement of Upwood gliding site cable hazard by four Extra 300s between 1000 and 1500ft. Gliders active.	

200607058	07/08/2006	EGTT : London (FIR)	Barkway (BKY)	10 N	A	TMA	GROB	Reciprocating	1	Infringement of the LTMA (Class A) by a Grob 115 squawking 7000 at FL78. Standard separation maintained.	
200607058	07/08/2006	EGTT : London (FIR)	Barkway (BKY)	10 N	A	TMA	PIPER	Reciprocating	2	Infringement of the LTMA (Class A) by a Grob 115 squawking 7000 at FL78. Standard separation maintained.	
200607062	06/08/2006	EGTT : London (FIR)	London-Gatwick - LGW	15S	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 squawking 7000 at 3000ft. Outbound a/c effected. Standard separation maintained.	Investigation ascertained that the PA28 pilot mistakenly thought that London Information would inform him that he was about to enter CAS. Appropriate advice given.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200607063	06/08/2006	EGTT : London (FIR)	London-Gatwick - LGW	NE	D	CTR	PIPER	Reciprocating	1	Separation lost between a BAe146 and a PA28. PA28 infringed the Gatwick CTA/CTR (Class D) at 1900ft. BAe146 given avoiding action and traffic info.	The foreign pilot later contacted ATC and apologised for their mistake, stating that they had misread the navigational charts.
200607063	06/08/2006	EGTT : London (FIR)	London-Gatwick - LGW	NE	D	CTR	BAE	Turbofan	4	Separation lost between a BAe146 and a PA28. PA28 infringed the Gatwick CTA/CTR (Class D) at 1900ft. BAe146 given avoiding action and traffic info.	The foreign pilot later contacted ATC and apologised for their mistake, stating that they had misread the navigational charts.

200607081	06/08/2006	EGTT : London (FIR)	Redhill		G	ATZ	PIPER	Reciprocating	1	Two alleged infringements of the Redhill ATZ by a PA18. Redhill circuit traffic affected.	
200607086	08/08/2006	EGTT : London (FIR)	Denham	4 NW	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA by a C180. Standard separation maintained. Pilot alerted to infringement.	
200607165	10/08/2006	EGTT : London (FIR)	Stansted	8 NE	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a DR400 at 1500ft. Traffic info and avoiding action given to an MD90.Standard separation maintained.	The incoming controller gave avoiding action to the inbound MD90, as the infringing a/c was unknown to him. Controller handover in progress. Information indicates that the outgoing controller did have the a/c on frequency, as it had been told to standby because he was in the middle of thehandover. The a/c was, however, not told to remain outside of CAS.
200607165	10/08/2006	EGTT : London (FIR)	Stansted	8 NE	D	CTR	MCDONNELL DOUGLAS	Turbofan	2	Infringement of the Stansted CTR (Class D) by a DR400 at 1500ft. Traffic info and avoiding action given to an MD90.Standard separation maintained.	The incoming controller gave avoiding action to the inbound MD90, as the infringing a/c was unknown to him. Controller handover in progress. Information indicates that the outgoing controller did have the a/c on frequency, as it had been told to standby because he was in the middle of thehandover. The a/c was, however, not told to remain outside of CAS.
200607167	09/08/2006	EGTT : London (FIR)	London-Gatwick - LGW	16S	D	CTA	CESSNA	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by an C150 squawking 7000 at 3100ft. No traffic affected. Standard separation maintained.	The pilot reports that his flight was in more gusty and turbulent conditions than expected and the a/c was being affected by violent up draughts. He was aware of the CAS involved and as he progressed westbound he intended to route further South, which would have taken him into the 3500ft area. He now appreciates, however, that the infringement had already occurred. The pilot has apologised and will allow a larger margin for error in the future.

200607176	10/08/2006	EGTT : London (FIR)	Bristol International	10 E	D	CTA	PIPER	Reciprocating	1	Infringement of Bristol CTA (Class D) by an PA28 squawking 7000 at 2000ft. The pilot apologised for a navigational error. Standard separation maintained.	See 200306398
200607188	30/07/2006	EGTT : London (FIR)	Syerston		G	ATZ	ROBINSON	Reciprocating	1	Alleged infringement of Syerston ATZ (Class G) and the Langar parachute drop zone by an unidentified R44 at 1500ft.	
200607215	12/08/2006	EGTT : London (FIR)	ORTAC	12N	A		VANS	Reciprocating	1	Infringement of Airway N866 (Class A) by an Vans RV6 squawking 7000 at FL97. Potential conflict with two a/c in Airway. Standard separation maintained.	Jersey ATC had to pass traffic info and avoiding action to two a/c under their control. On questioning the pilot over whether he had realised he had infringed the Airway, heresponded that he was using a French chart.
200607215	12/08/2006	EGTT : London (FIR)	ORTAC	12N	A		UNKNOWN	Unknown		Infringement of Airway N866 (Class A) by an Vans RV6 squawking 7000 at FL97. Potential conflict with two a/c in Airway. Standard separation maintained.	Jersey ATC had to pass traffic info and avoiding action to two a/c under their control. On questioning the pilot over whether he had realised he had infringed the Airway, heresponded that he was using a French chart.
200607229	05/08/2006	EGTT : London (FIR)	Compton Abbas	0.5S	G	ATZ	DE HAVILLAND	Reciprocating	1	UK AIRPROX 129/2006 - Tiger Moth and an unidentified microlight South of Compton Abbas at 800ft.	

200607229	05/08/2006	EGTT : London (FIR)	Compton Abbas	0.5S	G	ATZ	OTHER	Reciprocating	1	UK AIRPROX 129/2006 - Tiger Moth and an unidentified microlight South of Compton Abbas at 800ft.	
200607291	12/08/2006	EGTT : London (FIR)	Birmingham	11	D	CTA	CESSNA	Reciprocating	1	Infringement of Birmingham CTA (Class D) by a C152 squawking 7000 at 2500ft. Traffic info given. Standard separation maintained.	
200607291	12/08/2006	EGTT : London (FIR)	Birmingham	11	D	CTA	DE HAVILLAND	Turboprop	2	Infringement of Birmingham CTA (Class D) by a C152 squawking 7000 at 2500ft. Traffic info given. Standard separation maintained.	
200607295	14/07/2006	EGTT : London (FIR)	London City - LCY	4NE	D	CTR	PIPER	Reciprocating	1	Infringement of London City CTR (Class D) by a PA28 squawking 7000 at 2500ft. Standard separation maintained.	
200607305	15/08/2006	EGTT : London (FIR)	Birmingham	6	D	CTA	PIPER	Reciprocating	1	Infringement of Birmingham CTA (Class D) by a PA28 at 1400ft. Pilot allegedly failed to comply with ATC instructions.	Investigation established that the PA28 pilot had planned a direct routing via HON at FL050. However, when an ATC clearance was not forthcoming, he elected to fly along the edge of CAS. He was unfamiliar with the area and subsequently infringed CAS. He is now aware of the serious consequences of infringing CAS.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.

200607329	12/08/2006	EGTT : London (FIR)	Glasgow (GOW)	10	D	CTR	ROCKWELL	Reciprocating	1	Infringement of Glasgow CTR (Class D) by a Rockwell 114, squawking 7000 at 2500ft. Traffic info given. Standard separation maintained.	
200607329	12/08/2006	EGTT : London (FIR)	Glasgow (GOW)	10	D	CTR	SAAB	Turboprop	2	Infringement of Glasgow CTR (Class D) by a Rockwell 114, squawking 7000 at 2500ft. Traffic info given. Standard separation maintained.	
200607364	08/08/2006	EGTT : London (FIR)	Liverpool		D	CTA	VANS	Reciprocating	1	Infringement of Liverpool CTA (Class D) by a Vans RV9 at 3600ft. A/c had been instructed to remain outside the CTR.Inbound a/c given traffic info and avoiding action. Standard separation maintained.	
200607364	08/08/2006	EGTT : London (FIR)	Liverpool		D	CTA	UNKNOWN	Unknown		Infringement of Liverpool CTA (Class D) by a Vans RV9 at 3600ft. A/c had been instructed to remain outside the CTR.Inbound a/c given traffic info and avoiding action. Standard separation maintained.	
200607421	19/08/2006	EGTT : London (FIR)	Luton (LUT)	SW	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Luton CTR (Class D) by an unidentified R44. A Luton departure was delayed. Standard separationmaintained.	

200607423	20/08/2006	EGTT : London (FIR)	Stansted	8W	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28. ATR72 on departure instructed to climb straight ahead to 3000ft. Standard separation maintained.	
200607423	20/08/2006	EGTT : London (FIR)	Stansted	8W	D	CTR	ATR	Turboprop	2	Infringement of the Stansted CTR (Class D) by a PA28. ATR72 on departure instructed to climb straight ahead to 3000ft. Standard separation maintained.	
200607430	19/08/2006	EGTT : London (FIR)	Stansted	NW	D	CTR	DE HAVILLAND	Reciprocating	1	Infringement of the Stansted CTR (Class D) by an unidentified Tiger Moth. A Stansted outbound was delayed. Standardseparation maintained.	
200607475	19/08/2006	EGTT : London (FIR)	Boscombe Down	D126/D128	G	Danger area	PIPER	Reciprocating	1	Infringement of Danger Area D126 and D128 by a PA28 at 4000ft. Pilot was unable to leave the Danger Area by the quickest route due to weather avoidance. Standard separation maintained.	ATC and D&D were unable to find out if the Danger Areas were active at this time.
200607479	21/08/2006	EGTT : London (FIR)	Brookmans Park (BPK)	SE	D	CTA	OTHER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a CTSW microlight at 2000ft. Standard separation maintained. No othertraffic affected.	

200607490	20/08/2006	EGTT : London (FIR)	Church Fenton		G	ATZ	UNKNOWN	Unknown		Infringement of the Church Fenton ATZ (Class G) by an unidentified small biplane that failed to contact ATC. Grob G115 took avoiding action. Traffic info given.	
200607490	20/08/2006	EGTT : London (FIR)	Church Fenton		G	ATZ	GROB	Reciprocating	1	Infringement of the Church Fenton ATZ (Class G) by an unidentified small biplane that failed to contact ATC. Grob G115 took avoiding action. Traffic info given.	
200607514	22/08/2006	EGTT : London (FIR)	London-Gatwick - LGW	12 E	D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a C152 at 2200ft. Loss of separation with an A319. Traffic info given and A319 broken off approach.	Pilot on first solo navigation exercise selected a heading of 300 rather than 030. Pilot later apologised for his mistake. Appropriate action has been taken by the CFI concerned.
200607514	22/08/2006	EGTT : London (FIR)	London-Gatwick - LGW	12 E	D	CTR	AIRBUS	Turbofan	2	Infringement of the Gatwick CTR (Class D) by a C152 at 2200ft. Loss of separation with an A319. Traffic info given and A319 broken off approach.	Pilot on first solo navigation exercise selected a heading of 300 rather than 030. Pilot later apologised for his mistake. Appropriate action has been taken by the CFI concerned.
200607519	22/08/2006	EGTT : London (FIR)	Cambridge	1SE	G	ATZ	OTHER	Other	0	UK AIRPROX 134/2006 - C172 and a glider at 1150ft, 1nm Southeast of Cambridge. Glider infringed the ATZ before landing at Cambridge.	Subsequent analysis of radar data discovered that, while several glider contacts are observed and a glider, possibly the one involved in the AIRPROX, can be seen for a shortperiod around the final approach area of R/W23, the actual event is not evident. The visual circuit was active at 1000ft QFE when the Approach controller informed the ADI controller of a glider in the area at 1700ft QFE Southeast of the ATZ. The ADI, who was not at this stage visual with glider, passed generic traffic info to his circuit trafficbefore subsequently passing further traffic info indicating that he now had the glider visual and that it was opposite direction in the circuit to the C172. The were no apparent ATC causal factors. Investigation established that the glider entered the Cambridge ATZ without permission and flew into conflict with the C172 in the circuit.█ CAA Closure: No further CAA action required at this time. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).

200607519	22/08/2006	EGTT : London (FIR)	Cambridge	1SE	G	ATZ	CESSNA	Reciprocating	1	UK AIRPROX 134/2006 - C172 and a glider at 1150ft, 1nm Southeast of Cambridge. Glider infringed the ATZ before landing at Cambridge.	Subsequent analysis of radar data discovered that, while several glider contacts are observed and a glider, possibly the one involved in the AIRPROX, can be seen for a shortperiod around the final approach area of R/W23, the actual event is not evident. The visual circuit was active at 1000ft QFE when the Approach controller informed the ADI controller of a glider in the area at 1700ft QFE Southeast of the ATZ. The ADI, who was not at this stage visual with glider, passed generic traffic info to his circuit trafficbefore subsequently passing further traffic info indicating that he now had the glider visual and that it was opposite direction in the circuit to the C172. The were no apparent ATC causal factors. Investigation established that the glider entered the Cambridge ATZ without permission and flew into conflict with the C172 in the circuit.□ CAA Closure: No further CAA action required at this time. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200607523	22/08/2006	EGTT : London (FIR)	London City - LCY	13 SE	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA32 squawking 7000. Loss of separation with a BAe146 on approach to LondonCity.	Investigation ascertained that PA32 pilot became distracted by an engine problem. The engine was running roughly and, while appropriate checks were performed, PA32 climbed to 2800ft into CAS. PA32 subsequently landed at destinationairfield without further incident, where two engine plugswhere found to be fouled. Pilot apologised for infringement and has been reminded of the importance of adequate pre-flight planning and advised that, on this occasion, a PAN call would have been prudent.□ CAA Closure: The hazard is adequately controlled by the actions stated above.
200607523	22/08/2006	EGTT : London (FIR)	London City - LCY	13 SE	A	TMA	BAE	Turbofan	4	Infringement of the LTMA (Class A) by a PA32 squawking 7000. Loss of separation with a BAe146 on approach to LondonCity.	Investigation ascertained that PA32 pilot became distracted by an engine problem. The engine was running roughly and, while appropriate checks were performed, PA32 climbed to 2800ft into CAS. PA32 subsequently landed at destinationairfield without further incident, where two engine plugswhere found to be fouled. Pilot apologised for infringement and has been reminded of the importance of adequate pre-flight planning and advised that, on this occasion, a PAN call would have been prudent.□ CAA Closure: The hazard is adequately controlled by the actions stated above.
200607524	22/08/2006	EGTT : London (FIR)	London-Gatwick - LGW	7 NE	D	CTR	SOCATA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a TB200 squawking 7000. A/c broken off approach and traffic info given. Standard separation maintained.	On departure from Biggin Hill, the pilot was twice reminded to remain clear of Gatwick CAS.
200607524	22/08/2006	EGTT : London (FIR)	London-Gatwick - LGW	7 NE	D	CTR	UNKNOWN	Unknown		Infringement of the Gatwick CTR (Class D) by a TB200 squawking 7000. A/c broken off approach and traffic info given. Standard separation maintained.	On departure from Biggin Hill, the pilot was twice reminded to remain clear of Gatwick CAS.

200607534	22/08/2006	EGTT : London (FIR)	Luton (LUT)		D	CTR	CESSNA	Reciprocating	1	Infringement of Luton CTR (Class D) by a C152. Outbound a/c stopped and two inbound a/c routed away from the C152. Standard separation maintained.	See also 200504648 and 200505611. Investigation ascertained that the C152 pilot was a student on his first solo navigation exercise. Following this incident, an additional 5 hours of navigation training was completed with his Flying Instructor.□ CAA Closure: No further CAA action practicable.
200607647	25/08/2006	EGTT : London (FIR)	Bovingdon (BNN)	5 SE	A	TMA	EUROPA	Reciprocating	1	Infringement of the LTMA (Class A) by a Europa at 3400ft.Avoiding action and traffic info given to a military a/c and departures stopped at London City. Standard separation maintained.	Europa pilot subsequently admitted to and apologised for the infringement, which was attributed to him mis-reading his chart. He has been reminded of the importance of adequate pre-flight planning and remaining clear of CAS.□ CAA Closure: The hazard is adequately controlled by the actions stated above.
200607647	25/08/2006	EGTT : London (FIR)	Bovingdon (BNN)	5 SE	A	TMA	OTHER	Unknown		Infringement of the LTMA (Class A) by a Europa at 3400ft.Avoiding action and traffic info given to a military a/c and departures stopped at London City. Standard separation maintained.	Europa pilot subsequently admitted to and apologised for the infringement, which was attributed to him mis-reading his chart. He has been reminded of the importance of adequate pre-flight planning and remaining clear of CAS.□ CAA Closure: The hazard is adequately controlled by the actions stated above.
200607656	25/08/2006	EGTT : London (FIR)	White Waltham	N	A	CTR	PIPER	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a PA28 squawking 7000 at 2400ft. Heathrow departures stopped for four minutes. Standard separation maintained.	The pilot concerned has been contacted and fully admits to his error. He became distracted by the needs and observations of his passengers and at the same time entered an area of turbulence. He may have been distracted enough not to have correctly entered the frequency for the BNN VOR, which he had originally planned to use to check his position against his visual observations. At this stage, the pilot believes he made a fundamental mistake by looking at his GPS and following the line towards CHT, planning to pass to the North of it to arrive at the VRP for Denham.
200607665	25/08/2006	EGTT : London (FIR)	London-Heathrow - LHR	S	A	CTR	EUROPA	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a Europa at 2200ft. Avoiding action given. Standard separation maintained.	

200607716	24/08/2006	EGTT : London (FIR)	Salisbury Plain D123		D	Danger area	PIPER	Reciprocating	1	Infringement of the Salisbury Plain Danger Area D123 by aPA28 at an indicated 2800ft. The a/c subsequently infringed the Lyneham CTR (Class D).	PA28 pilot subsequently admitted to and apologised for the infringements, having encountered severe turbulence at 3500ft which caused the a/c to descend. Additionally, he has contacted the military ATC to explain.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200607762	30/08/2006	EGTT : London (FIR)	Mayfield (MAY)		A	TMA	DIAMOND	Reciprocating	1	Infringement of the LTMA (Class A) by a DA40. Two a/c inbound to Gatwick were vectored clear of the then unknown a/c. Standard separation maintained.	The pilot appreciates the errors of his ways and is to undertake additional training.
200607817	27/08/2006	EGTT : London (FIR)	Dunsfold	5.9 W	G	Restricted area	SOCATA	Reciprocating	1	Infringement of the Dunsfold TRA (during a Red Arrows display), by a TB20 at 2400ft. Traffic info given. Standard separation maintained.	See 200506645☐ CAA Closure: Appropriate CAA action is to be taken as a result of this incident.
200607817	27/08/2006	EGTT : London (FIR)	Dunsfold	5.9 W	G	Restricted area	OTHER	Unknown		Infringement of the Dunsfold TRA (during a Red Arrows display), by a TB20 at 2400ft. Traffic info given. Standard separation maintained.	See 200506645☐ CAA Closure: Appropriate CAA action is to be taken as a result of this incident.
200607863	03/09/2006	EGTT : London (FIR)	CHASE	2 NNW	A		DE HAVILLAND	Turboprop	2	Infringement of Airway (Class A) by a Grob G115 at FL82. DHC8 on approach, descending to FL90, instructed to level off at FL100. Standard separation maintained.	The Grob pilot reports that the infringement occurred due to the strength of the Southwesterly wind causing a greater rate of drift than anticipated. This was followed by an inadequate position fix prior to climbing for a spinning exercise. VMC was maintained throughout. The pilot had been fully briefed.

200607863	03/09/2006	EGTT : London (FIR)	CHASE	2 NNW	A		GROB	Reciprocating	1	Infringement of Airway (Class A) by a Grob G115 at FL82. DHC8 on approach, descending to FL90, instructed to level off at FL100. Standard separation maintained.	The Grob pilot reports that the infringement occurred dueto the strength of the Southwesterly wind causing a greater rate of drift than anticipated. This was followed by aninadequate position fix prior to climbing for a spinning exercise. VMC was maintained throughout. The pilot had been fully briefed.
200607864	02/09/2006	EGTT : London (FIR)	Midhurst (MID)		A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C182 at 5000ft. Standard separation maintained.	
200607867	01/09/2006	EGTT : London (FIR)	Bath	NE	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Bristol CTR (Class D) by an HR100 at FL55. Standard separation maintained. Pilot later apologised, stating he was unaware of the new airspace.	
200607869	01/09/2006	EGTT : London (FIR)	Hendon		A	TMA	GROB	Reciprocating	1	Infringement of the LTMA (Class A) by a Grob G115 at 5000ft. Two outbound a/c given avoiding action and traffic info. STCA activated. Separation lost with the two Luton outbounds.	Grob G115 pilot subsequently admitted to infringement, citing a failure to take sufficient account of a brisk southwesterly wind and a navigation error. His actions have been reviewed with the Flight Commander.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200607869	01/09/2006	EGTT : London (FIR)	Hendon		A	TMA	CANADAIR	Turbofan	2	Infringement of the LTMA (Class A) by a Grob G115 at 5000ft. Two outbound a/c given avoiding action and traffic info. STCA activated. Separation lost with the two Luton outbounds.	Grob G115 pilot subsequently admitted to infringement, citing a failure to take sufficient account of a brisk southwesterly wind and a navigation error. His actions have been reviewed with the Flight Commander.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.

200607955	05/09/2006	EGTT : London (FIR)	Daventry (DTY)	12 E	A		PIPER	Reciprocating	1	Infringement of Airway (Class A) by a PA46 at FL100. Pilot had been instructed to remain outside of CAS by Cottesmore ATC. Avoiding action issued. Standard separation maintained.	LTCC Welin sector were informed of the infringement by LJAO, who had taken avoiding action, with an a/c crossing under their control. As a result of this incident it was discovered that Squawks 37** and 0250 had been filtered out of both the LTCC Welin and Cowly sectors. No one in the shift had noticed and it is not known how long this situation had existed.
200607981	28/08/2006	EGTT : London (FIR)	Stansted	4 NW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C152. Standard separation maintained.	The pilot stated he was flying an a/c significantly faster than his normal choice and at the time there was a significant tailwind which took him much further to the Southeast than expected.
200607985	05/09/2006	EGTT : London (FIR)	Nottingham East Midlands	5 S	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Nottingham East Midlands CTR (Class D) by an R44. Standard separation maintained. No R/T comms. Pilot was contacted and made aware of his error. Apology and explanation given.	See 200400615.
200608061	07/09/2006	EGTT : London (FIR)	Daventry (DTY)	2	A		PIPER	Reciprocating	1	Infringement of Airway (Class A) by a PA32 at FL55 South of Daventry. Pilot was allegedly unaware of controlled airspace areas. Standard separation maintained.	The pilot also believed that because his IFR flight plan had been accepted, it constituted a clearance into CAS.
200608099	10/09/2006	EGTT : London (FIR)	Stansted	10 E	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C182. Standard separation maintained. Traffic info given and two a/c were vectored around the infringing a/c.	The pilot of the a/c subsequently rang ATC to apologise for his error. He stated that he thought his VOR may have been malfunctioning and that he would get it checked immediately.

200608102	09/09/2006	EGTT : London (FIR)	Bristol International	10NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a PA24 squawking 7000 at 2400ft. Standard separation maintained.	See 200507557 and 200510040. When questioned, the pilot apologised for the incident and stated that he was not aware of the recent airspace changes.
200608105	08/09/2006	EGTT : London (FIR)	Cardiff (CDF)	10S	D	CTA	CESSNA	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by a C175 at 3300ft. No other a/c affected. Standard separation maintained. The pilot stated he wasn't aware of the new airspace changes.	
200608111	08/09/2006	EGTT : London (FIR)	Biggin (BIG)	12 E	A	TMA	DIAMOND	Reciprocating	1	Infringement of the LTMA (Class A) by a Katana DA20 at 2800ft. Separation lost with a BAe146 on approach to London City. STCA activated. Traffic info and avoiding action given.	See also 200606314. By the time the PIC was contacted, hehad flown a further 15 instructional flights and, therefore, had little recollection of this particular flight. However, he did recall that the student pilot became uncertain of his position, almost entering Rochester's airspace and also experiencing difficulty identifying Southend airport. PIC remembered being asked by Southend ATC to squawk a code and advise their altitude and altimeter setting but there was no mention, either then or once on the ground, ofa possible infringement. Having been made aware of the incident, PIC has apologised and has been reminded of the complexity of airspace in Southeast England and the importance of remaining clear of CAS.□ CAA Closure: The hazard is adequately controlled by existing requirements, proceduresand documentation.
200608111	08/09/2006	EGTT : London (FIR)	Biggin (BIG)	12 E	A	TMA	BAE	Turbofan	4	Infringement of the LTMA (Class A) by a Katana DA20 at 2800ft. Separation lost with a BAe146 on approach to London City. STCA activated. Traffic info and avoiding action given.	See also 200606314. By the time the PIC was contacted, hehad flown a further 15 instructional flights and, therefore, had little recollection of this particular flight. However, he did recall that the student pilot became uncertain of his position, almost entering Rochester's airspace and also experiencing difficulty identifying Southend airport. 200608121	10/09/2006	EGTT : London (FIR)	Birmingham	5.5 S	D	CTR	LUSCOMBE	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a Luscombe at 1500ft. A B737 was vectored around the Luscombe and traffic info given. Standard separation maintained.	

200608121	10/09/2006	EGTT : London (FIR)	Birmingham	5.5 S	D	CTR	BOEING	Turbofan	2	Infringement of the Birmingham CTR (Class D) by a Luscombe at 1500ft. A B737 was vectored around the Luscombe and traffic info given. Standard separation maintained.	
200608124	07/09/2006	EGTT : London (FIR)	Southampton (SAM)	11 N	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 3500ft. Pilot was informed of his infringement. Pilot stated he was unaware of the extent of the CTA. Standard separation maintained.	
200608130	08/09/2006	EGTT : London (FIR)	Barton (BTN)		D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a PA28 at3000ft. Pilot informed, apologised and started to descend. Standard separation maintained.	
200608232	11/09/2006	EGTT : London (FIR)	Manchester (MCT)	10 E	D	CTR	EUROPA	Reciprocating	1	Alleged infringement of the Manchester CTR (Class D) by aEuropa squawking 7000. ATC attempted to contact to a/c tono avail. A/c was then observed leaving the CTR. Standardseparation maintained.	
200608233	09/09/2006	EGTT : London (FIR)	Blackpool (BPL)		G	ATZ	OTHER	Reciprocating	1	Infringement of the Blackpool ATZ (Class G) by an unknownmicrolight at 500ft. Standard separation maintained.	Infringement reported by PA28 on final approach.

200608250	11/09/2006	EGTT : London (FIR)	Newcastle (NEW)	SE	D	CTR	AESL	Reciprocating	1	Infringement of the Newcastle CTA (Class D) by a Glos Airtourer 115 a/c at 4000ft due to poor navigation/airmanship. Instructor misidentified ground features in haze.	
200608327	15/09/2006	EGTT : London (FIR)	Manchester (MCT)	5NW	D	CTR	ENSTROM	Reciprocating	1	Infringement of the Manchester CTR (Class D) by an Enstrom 280 squawking 7000 at 750ft. The helicopter was believedto be lost and inbound to Barton. Standard separation maintained.	
200608356	13/09/2006	EGTT : London (FIR)	Luton	7nm W	D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Luton CTR (Class D) by a PA28R. Standard separation maintained. Pilot subsequently contacted ATC and incident was discussed.	
200608363	17/09/2006	EGTT : London (FIR)	Stansted	10 NE	D	CTA	SOCATA	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a TB10. Traffic info and avoiding action given to two Stansted inbound airliners. Standard separation maintained. STCA activated	Appropriate CAA action has been taken as a result of thisincident.
200608363	17/09/2006	EGTT : London (FIR)	Stansted	10 NE	D	CTA	BOEING	Turbofan	2	Alleged infringement of the Stansted CTA (Class D) by a TB10. Traffic info and avoiding action given to two Stansted inbound airliners. Standard separation maintained. STCA activated	Appropriate CAA action has been taken as a result of thisincident.

200608364	15/09/2006	EGTT : London (FIR)	London-Heathrow - LHR	SW	A	CTR	CESSNA	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a C172 squawking 7000 at unverified 2000ft. Heathrow departures stopped for approximately 8mins.	Pilot subsequently admitted to infringement and has been reminded of the importance of adequate pre-flight planningand remaining clear of CAS.□ CAA Closure: The hazard is adequately controlled by the actions stated above.
200608392	12/09/2006	EGTT : London (FIR)	Middle Wallop		G	ATZ	DE HAVILLAND	Reciprocating	1	Alleged infringement of the Middle Wallop ATZ (Class G) by a DH82. No R/T comms.	
200608439	18/09/2006	EGTT : London (FIR)	Manchester M6 Motorway		D	CTR	ENSTROM	Reciprocating	1	Infringement of the Manchester CTR (Class D) by an Enstrom 280 on a navigation exercise. Traffic info given. Standard separation maintained.	
200608519	12/09/2006	EGTT : London (FIR)	Durham Tees Valley (TD)	5S	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of Durham Tees Valley CTR/CTA (Class D) by aDR400 at 2500ft. A/c instructed to remain outside of the CTR and assigned a 7041 squawk. Traffic info given. Standard separation maintained.	
200608596	22/09/2006	EGTT : London (FIR)	Oldham				ENSTROM	Reciprocating	1	Manager of adjacent ATC unit requested assistance to finda lost a/c. Squawk issued, a/c called and was identified inside CAS at 900ft. Steer given for Barton.	

200608604	23/09/2006	EGTT : London (FIR)	Barkway (BKY)	10 NW	A	TMA	OTHER	Reciprocating	1	UK AIRPROX 144/2006 - A319 and a Microlight a/c, 10nm Northwest of Barkway at FL80.	Unauthorised penetration of Class A CAS by an untraced microlight.☐ CAA Closure: No further CAA action practical. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200608604	23/09/2006	EGTT : London (FIR)	Barkway (BKY)	10 NW	A	TMA	AIRBUS	Turbofan	2	UK AIRPROX 144/2006 - A319 and a Microlight a/c, 10nm Northwest of Barkway at FL80.	Unauthorised penetration of Class A CAS by an untraced microlight.☐ CAA Closure: No further CAA action practical. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200608612	24/09/2006	EGTT : London (FIR)	Brookmans Park (BPK)	25 NW	D	CTR	CESSNA	Reciprocating	1	Alleged infringement of Luton CTR (Class D) by a C152 squawking 7000 caused delays to two a/c on approach. Traffic info given. Standard separation maintained.

200608672	23/09/2006	EGTT : London (FIR)	Leeds Bradford (LBA)	6S	D	CTR	PITTS	Reciprocating	1	Infringement of Leeds CTR (Class D) by a Pitts Special squawking 7000 at 1500ft. B737 given vectors to avoid the a/c. Standard separation maintained.	

200608672	23/09/2006	EGTT : London (FIR)	Leeds Bradford (LBA)	6S	D	CTR	BOEING	Turbofan	2	Infringement of Leeds CTR (Class D) by a Pitts Special squawking 7000 at 1500ft. B737 given vectors to avoid the a/c. Standard separation maintained.	
200608673	25/09/2006	EGTT : London (FIR)	Luton (LUT)	15N	D	CTR	PIPER	Reciprocating	1	Infringement of Luton CTR (Class D) by a PA28 resulted innumerous a/c being vectored around the PA28. Subsequent loss of separation between an ATR72 and an EMB135. Traffic info given. STCA activated.	Following this incident the PA28 pilot has carried out additional navigational training. He has been reminded of the importance of adequate pre-flight planning and also given appropriate advice concerning avoiding infringements. ☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200608673	25/09/2006	EGTT : London (FIR)	Luton (LUT)	15N	D	CTR	ATR	Turboprop	2	Infringement of Luton CTR (Class D) by a PA28 resulted innumerous a/c being vectored around the PA28. Subsequent loss of separation between an ATR72 and an EMB135. Traffic info given. STCA activated.	Following this incident the PA28 pilot has carried out additional navigational training. He has been reminded of the importance of adequate pre-flight planning and also given appropriate advice concerning avoiding infringements. ☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200608719	26/09/2006	EGTT : London (FIR)	Denham		A	TMA	PIPER	Reciprocating	1	Infringement of LTMA (Class A) by a PA28 squawking 7000 at 3000ft. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident. See also 200510646.
200608730	26/09/2006	EGTT : London (FIR)	MALBY		A		OTHER	Reciprocating	1	Infringement of Airway L9 (Class A) by a Microlight at FL65, East of MALBY. Standard separation maintained.	

200608748	27/09/2006	EGTT : London (FIR)	Luton (LUT)		D	CTA	PIPER	Reciprocating	1	Loss of separation due to an alleged infringement of Luton CTR (Class D) by a DA42. PA28 broken off approach. Traffic info and avoiding action given.	Appropriate CAA action being taken. See also 200508519.
200608748	27/09/2006	EGTT : London (FIR)	Luton (LUT)		D	CTA	DIAMOND	Reciprocating	2	Loss of separation due to an alleged infringement of Luton CTR (Class D) by a DA42. PA28 broken off approach. Traffic info and avoiding action given.	Appropriate CAA action being taken. See also 200508519.
200608848	30/09/2006	EGTT : London (FIR)	London-Heathrow - LHR	3 NW	A	CTR	PIPER	Reciprocating	1	Infringement of the Heathrow Control Zone (Class A) by a PA28. Traffic info given. Heathrow departures halted for 17mins and one a/c was broken off the approach.	See also 200300516, 200307271, 200500858 and 200504237. Appropriate CAA action is to be taken as a result of this incident.
200608850	30/09/2006	EGTT : London (FIR)	London-Gatwick - LGW	18 SE	A	TMA	OTHER	Reciprocating	1	Infringement of the LTMA (Class A) by a CT2K microlight at 5000ft. Traffic info and avoiding action given. Gatwick traffic disrupted. Standard separation maintained.	Appropriate CAA action is to be taken as a result of this incident.
200608852	29/09/2006	EGTT : London (FIR)	London-Gatwick - LGW	7 E	A	TMA	ROBINSON	Reciprocating	1	Infringement of the LTMA (Class A) and the Gatwick CTR (Class D) by an R44. Traffic info given. Gatwick traffic disrupted. Pilot stated that his GPS had failed.	See also 200503346 and 200603213. R44 pilot and passenger(also a pilot and, on this occasion providing navigational assistance following the GPS failure) subsequently apologised for the infringement. Both have now refreshed their map reading skills. Weather avoidance was also a factor, while the GPS failure was attributed to a faulty antenna. Aspare GPS has been purchased to provide a back-up. Appropriate advice given.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.

200608852	29/09/2006	EGTT : London (FIR)	London-Gatwick - LGW	7 E	A	TMA	BOEING	Turbofan	2	Infringement of the LTMA (Class A) and the Gatwick CTR (Class D) by an R44. Traffic info given. Gatwick traffic disrupted. Pilot stated that his GPS had failed.	See also 200503346 and 200603213. R44 pilot and passenger(also a pilot and, on this occasion providing navigational assistance following the GPS failure) subsequently apologised for the infringement. Both have now refreshed their map reading skills. Weather avoidance was also a factor, while the GPS failure was attributed to a faulty antenna. Aspare GPS has been purchased to provide a back-up. Appropriate advice given. ☐ CAA Closure: The hazard is adequatelycontrolled by the actions stated above.
200608936	27/09/2006	EGTT : London (FIR)	Nottingham East Midlands	6 E	D	CTR	WESTLAND	Turboshaft	1	Infringement of the Nottingham East Midlands CTR (Class D) by a Gazelle. Traffic info given.	The pilot subsequently contacted ATC and stated that he believed he was outside of CAS because he was flying on hisGPS. Pilot has apologised and received appropriate adviceconcerning the use of GPS. ☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200608936	27/09/2006	EGTT : London (FIR)	Nottingham East Midlands	6 E	D	CTR	BOEING	Turbofan	2	Infringement of the Nottingham East Midlands CTR (Class D) by a Gazelle. Traffic info given.	The pilot subsequently contacted ATC and stated that he believed he was outside of CAS because he was flying on hisGPS. Pilot has apologised and received appropriate adviceconcerning the use of GPS. ☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200608982	04/10/2006	EGTT : London (FIR)	London CTR		A	CTR	PIPER	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a PA28R. Heathrow southbound departures stopped for 2mins. Standard separation maintained. See also 200607062.	Appropriate CAA action has been taken as a result of thisincident.
200608994	04/10/2006	EGTT : London (FIR)	Coventry	8SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a PA28 at2400ft. Loss of separation with an inbound B737. Traffic info given.	See also 200500541 and 200605535. PA28 pilot has been reminded of the importance of remaining clear of CAS. ☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.

200608994	04/10/2006	EGTT : London (FIR)	Coventry	8SW	D	CTR	BOEING	Turbofan	2	Infringement of the Birmingham CTR (Class D) by a PA28 at2400ft. Loss of separation with an inbound B737. Traffic info given.	See also 200500541 and 200605535. PA28 pilot has been reminded of the importance of remaining clear of CAS. □ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200609008	03/10/2006	EGTT : London (FIR)	Shoeburyness		G	Danger area	YAKOVLEV	Reciprocating	1	Alleged infringements of Danger Area EG D138 by several formations of Yak a/c. Firing ceased until a/c left the area.	The operating base of these a/c has been contacted and appropriate CAA advice passed. See also 200503079.
200609051	04/10/2006	EGTT : London (FIR)	Manchester Barton A/F		G	ATZ	BEECH	Turboprop	2	Infringement of the Manchester Barton ATZ (Class G) by a Beech 200. The Manchester Approach controller subsequentlystated he mistakenly thought he had advised the a/c to call Barton.	The Manchester controller also thought the Beech 200 was higher than it actually was. Conflict with a C150 in the Barton circuit.
200609051	04/10/2006	EGTT : London (FIR)	Manchester Barton A/F		G	ATZ	CESSNA	Reciprocating	1	Infringement of the Manchester Barton ATZ (Class G) by a Beech 200. The Manchester Approach controller subsequentlystated he mistakenly thought he had advised the a/c to call Barton.	The Manchester controller also thought the Beech 200 was higher than it actually was. Conflict with a C150 in the Barton circuit.
200609081	07/10/2006	EGTT : London (FIR)	Manchester (MCT)	10 NW	D	CTR	PIPER	Reciprocating	1	Alleged infringement of Manchester CTR (Class D) by a PA28 at 1000ft. Pilot subsequently reported having problems with his GPS and he was now well aware of his errors. Standard separation maintained.	See also 200406662.

200609090	07/10/2006	EGTT : London (FIR)	Tamworth	5nm W	C		PIPER	Reciprocating	1	D&D Cell Report: Pilot lost. PAN declared. Position fixed(inside CAS) and steer given for Tatenhill.	A PA38 called for a training fix and was given a two linefix at Newport and a steer for Tatenhill. Six minutes later the PA38 again requested a position fix and steer for Tatenhill. When asked if he was lost, the pilot replied that he was. He was then given a discrete squawk and was identified 5nm west of Tamworth at 3400ft, inside CAS. No conflicting traffic could be seen so the a/c was given a vector of 090 to vacate CAS. As the a/c got to a position 6nm east of Lichfield (clear of CAS) the pilot stated he was happy with his position and would proceed enroute. The PA38 was observed for a few minutes and was again seen to be tracking towards CAS. Fearing he was about to infringe again, Tatenhill were contacted and asked to put him back to 121.5 for further assistance. Upon re-establishing comms with the PA38, and checking he was still visual with the ground, the a/c was turned out of CAS, which he had infringed by approx 1nm, and then descended to 2000ft. Vectors were then given until he became visual with Tatenhill, where the a/c landed safely.
200609099	08/10/2006	EGTT : London (FIR)	London City - LCY	8 E	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 squawking 7000 at 3000ft. Traffic info given to two a/c on approach. London City inbound a/c disrupted.	Instructor became distracted whilst instructing the student. Appropriate action taken, letter sent to instructor reminding him of his responsibilities.☐ CAA Closure: No further CAA action practicable.
200609099	08/10/2006	EGTT : London (FIR)	London City - LCY	8 E	A	TMA	CESSNA	Turbofan	2	Infringement of the LTMA (Class A) by a PA28 squawking 7000 at 3000ft. Traffic info given to two a/c on approach. London City inbound a/c disrupted.	Instructor became distracted whilst instructing the student. Appropriate action taken, letter sent to instructor reminding him of his responsibilities.☐ CAA Closure: No further CAA action practicable.
200609256	12/10/2006	EGTT : London (FIR)	Mayfield (MAY)	10 SW	A	TMA	CESSNA	Reciprocating	1	Alleged infringement of the LTMA (Class A) by a C172 indicating 3400ft. Two descending a/c given turns around the infringer. Standard separation maintained.	
200609256	12/10/2006	EGTT : London (FIR)	Mayfield (MAY)	10 SW	A	TMA	AIRBUS	Turbofan	2	Alleged infringement of the LTMA (Class A) by a C172 indicating 3400ft. Two descending a/c given turns around the infringer. Standard separation maintained.	

200609259	10/10/2006	EGTT : London (FIR)	London City - LCY	5 SE	D	CTR	CESSNA	Reciprocating	1	Infringement of the London City CTR (Class D) by a C152. Traffic info given. London City departures suspended. Standard separation maintained.	Investigations by the flying club concerned indicate thatthe a/c suffered an ASI failure in flight. The pilot, whowas then allegedly in a mild state of panic, lost his concentration and bearings. Appropriate and comprehensive remedial action has been taken by the club.
200609262	09/10/2006	EGTT : London (FIR)	London-Gatwick - LGW	S	A	TMA	CIRRUS	Reciprocating	1	Infringement of the LTMA (Class A) by SR22 squawking 7000at 4500ft. Standard separation maintained. Pilot alerted that he had entered CAS without a clearance.	
200609338	12/10/2006	EGTT : London (FIR)	R313		G	Restrictedd area	CESSNA	Reciprocating	1	Alleged infringement of Restricted Area EG R313 by a C152allegedly having radio/navigation problems. Red Arrows formation display terminated.	Appropriate CAA action being taken.
200609338	12/10/2006	EGTT : London (FIR)	R313		G	Restrictedd area	OTHER	Unknown		Alleged infringement of Restricted Area EG R313 by a C152allegedly having radio/navigation problems. Red Arrows formation display terminated.	Appropriate CAA action being taken.
200609340	15/10/2006	EGTT : London (FIR)	Earls Colne	4 W	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA32 squawking 7000 at 3400ft. Standard separation maintained.	

200609341	15/10/2006	EGTT : London (FIR)	Mayfield (MAY)	10 S	A	TMA	BEECH	Reciprocating	1	Infringement of the LTMA (Class A) by a BE35 indicating 3000ft squawking 7000, causing a loss of separation with anA319 at 6000ft.	Investigation ascertained that BE35 had been mis-identified, as the owner subsequently confirmed that the a/c was not in the UK at the time of the reported incident.☐ CAA Closure: No further CAA action practicable.
200609341	15/10/2006	EGTT : London (FIR)	Mayfield (MAY)	10 S	A	TMA	AIRBUS	Turbofan	2	Infringement of the LTMA (Class A) by a BE35 indicating 3000ft squawking 7000, causing a loss of separation with anA319 at 6000ft.	Investigation ascertained that BE35 had been mis-identified, as the owner subsequently confirmed that the a/c was not in the UK at the time of the reported incident.☐ CAA Closure: No further CAA action practicable.
200609345	13/10/2006	EGTT : London (FIR)	Burnham	5 N	A	CTR	PIPER	Reciprocating	1	Infringement of the London Control Zone (Class A) by a PA28 squawking 7000. Two a/c on approach to Heathrow were broken off their approaches. Appropriate follow up action taken.	See also 200202242. Standard separation lost. The pilot reports that he may have turned onto an incorrect heading followed by the misidentification of Beaconsfield for High Wycombe. He fully accepts his errors and has booked additional flight training before undertaking any future flights.
200609345	13/10/2006	EGTT : London (FIR)	Burnham	5 N	A	CTR	BOEING	Turbofan	2	Infringement of the London Control Zone (Class A) by a PA28 squawking 7000. Two a/c on approach to Heathrow were broken off their approaches. Appropriate follow up action taken.	See also 200202242. Standard separation lost. The pilot reports that he may have turned onto an incorrect heading followed by the misidentification of Beaconsfield for High Wycombe. He fully accepts his errors and has booked additional flight training before undertaking any future flights.
200609355	13/10/2006	EGTT : London (FIR)	Fairoaks	5nm E	A	CTR	PIPER	Reciprocating	1	D&D Cell Report: Pilot lost. PAN declared. A/c identifiedon radar entering Heathrow CTR and given a steer to exit zone. Terminal Control contacted and took control of a/c back to Biggin Hill.	

200609370	12/10/2006	EGTT : London (FIR)	Bagshot VRP	1.5 NE	A	CTR	PIPER	Reciprocating	1	Alleged infringement of the Heathrow CTR (Class A) by a PA28. The a/c had been instructed to remain clear of the CTR.	
200609408	15/10/2006	EGTT : London (FIR)	Midhurst (MID)	15 SE	A	TMA	SOCATA	Reciprocating	1	Alleged infringement of the LTMA (Class A) by a TB20 at 5300ft. An A319 was vectored away from the TB20. Standard separation maintained. Pilot stated he had an IFR plan butnone found in system.	
200609408	15/10/2006	EGTT : London (FIR)	Midhurst (MID)	15 SE	A	TMA	AIRBUS	Turbofan	2	Alleged infringement of the LTMA (Class A) by a TB20 at 5300ft. An A319 was vectored away from the TB20. Standard separation maintained. Pilot stated he had an IFR plan butnone found in system.	
200609430	17/10/2006	EGTT : London (FIR)	Stansted	11 SW	D	CTR	EXTRA	Reciprocating	1	Alleged infringement of Stansted CTR (Class D) by two Extra 300 at 2200ft in formation, squawking 7000. No other traffic affected. Standard separation maintained.	See 200602405.
200609430	17/10/2006	EGTT : London (FIR)	Stansted	11 SW	D	CTR	EXTRA	Reciprocating	1	Alleged infringement of Stansted CTR (Class D) by two Extra 300 at 2200ft in formation, squawking 7000. No other traffic affected. Standard separation maintained.	See 200602405.

200609535	21/10/2006	EGTT : London (FIR)	Birmingham	10 nm South	D	CTR	PIPER	Reciprocating	1	D & D cell report: PAN declared. Aircraft inside controlled airspace.	Pilot requested position fix and practice PAN. Squawked for position fix. Aircraft found to be well inside Birmingham zone and pilot informed that he was in controlled airspace. Birmingham ATC informed that D & D had control of the aircraft. When clear of controlled airspace, pilot was instructed to contact tower of base airfield.
200609564	14/10/2006	EGTT : London (FIR)	Whitegate (WHI)		D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a PA28R at 5000ft at Whitegate. Standard separation maintained. Appropriate advice passed to pilot by ATC.	
200609628	24/10/2006	EGTT : London (FIR)	Birmingham	7 NE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA by a C152 at 2000ft . Standard separation maintained. Pilot admitted to being lost. Appropriate advice passed to pilot by ATC. Traffic info given.	See 200505252.
200609641	24/10/2006	EGTT : London (FIR)	Birmingham	S	D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Birmingham CTR (Class D) by aPA28 at 2500ft. Standard separation maintained. Traffic info and avoiding action given. STCA activated.	
200609641	24/10/2006	EGTT : London (FIR)	Birmingham	S	D	CTR	DE HAVILLAND	Turboprop	2	Alleged infringement of the Birmingham CTR (Class D) by aPA28 at 2500ft. Standard separation maintained. Traffic info and avoiding action given. STCA activated.	

200609645	24/10/2006	EGTT : London (FIR)	Honiley (HON)	6	D	CTA	SOCATA	Reciprocating	1	Alleged infringement of Birmingham CTA (Class D) by a TB10, causing loss of separation with a C560 at 2500ft. Traffic info given.	Investigation established that TB10 was on VFR clearance from Coventry following a go-around after an ILS approach and the pilot was unable to contact ATC due to busy R/T. Pilot then climbed into the Birmingham CTR before clear andhas apologised for the infringement. He has been remindedof the importance of remaining clear of CAS unless positively cleared to enter by ATC.☐ CAA Closure: The hazard is adequately controlled by existing requirements, proceduresand documentation.
200609645	24/10/2006	EGTT : London (FIR)	Honiley (HON)	6	D	CTA	CESSNA	Turbofan	2	Alleged infringement of Birmingham CTA (Class D) by a TB10, causing loss of separation with a C560 at 2500ft. Traffic info given.	Investigation established that TB10 was on VFR clearance from Coventry following a go-around after an ILS approach and the pilot was unable to contact ATC due to busy R/T. Pilot then climbed into the Birmingham CTR before clear andhas apologised for the infringement. He has been remindedof the importance of remaining clear of CAS unless positively cleared to enter by ATC.☐ CAA Closure: The hazard is adequately controlled by existing requirements, proceduresand documentation.
200609682	25/10/2006	EGTT : London (FIR)	London-Gatwick - LGW	6.5 E	D	CTR	CESSNA	Reciprocating	1	C172 allegedly infringed the Gatwick CTR (Class D) and came into conflict with an outbound B737, who was given avoiding action.	See also 200603660.☐ CAA Closure: Despite requests for information from infringing party, no response forthcoming.
200609682	25/10/2006	EGTT : London (FIR)	London-Gatwick - LGW	6.5 E	D	CTR	BOEING	Turbofan	2	C172 allegedly infringed the Gatwick CTR (Class D) and came into conflict with an outbound B737, who was given avoiding action.	See also 200603660.☐ CAA Closure: Despite requests for information from infringing party, no response forthcoming.
200609736	27/10/2006	EGTT : London (FIR)	Stansted	12.5 NNE	A	TMA	CIRRUS	Reciprocating	1	SR22 infringed the LTMA (Class A) and the Stansted CTA (Class D). B737 inbound to Stansted was given traffic info and avoiding action.	Wattisham ATC were working the SR22 under a RIS and told the a/c to descend at its discretion to 1500ft. The a/c appeared to be on track and descending. After a busy period,on re-checking the a/c, it was noted to be South of anticipated track approximately 2 miles from entering CAS. The a/c was then told to turn right heading 300deg to remain clear of CAS but no response was received. A reply was received to a second instruction and the situation was resolved, but not before the SR22 entered CAS.

200609736	27/10/2006	EGTT : London (FIR)	Stansted	12.5 NNE	A	TMA	BOEING	Turbofan	2	SR22 infringed the LTMA (Class A) and the Stansted CTA (Class D). B737 inbound to Stansted was given traffic info and avoiding action.	Wattisham ATC were working the SR22 under a RIS and told the a/c to descend at its discretion to 1500ft. The a/c appeared to be on track and descending. After a busy period,on re-checking the a/c, it was noted to be South of anticipated track approximately 2 miles from entering CAS. The a/c was then told to turn right heading 300deg to remain clear of CAS but no response was received. A reply was received to a second instruction and the situation was resolved, but not before the SR22 entered CAS.
200609739	27/10/2006	EGTT : London (FIR)	Luton (LUT)		A	TMA	PIPER	Reciprocating	1	PA28 allegedly failed to follow ATC instructions and infringed the Luton CTA (Class D) and the LTMA (Class A). Separation was lost with a Gulfstream 4, who was given trafficinfo and avoiding action.	The a/c also subsequently infringed the Stansted CTR (Class D) on his return flight and departures were halted as aresult. See also 200506623. Investigations have revealedthat the student pilot was on his first solo navigation land away and made several errors of navigation, initially misidentifying the initial starting point. Subsequently, he misidentified a line feature which he was following. The student pilot has now received further training, and will undertake a flight with his CFI prior to any further solo flights.□ CAA Closure: No further CAA action required.
200609739	27/10/2006	EGTT : London (FIR)	Luton (LUT)		A	TMA	GULFSTREAM	Turbofan	2	PA28 allegedly failed to follow ATC instructions and infringed the Luton CTA (Class D) and the LTMA (Class A). Separation was lost with a Gulfstream 4, who was given trafficinfo and avoiding action.	The a/c also subsequently infringed the Stansted CTR (Class D) on his return flight and departures were halted as aresult. See also 200506623. Investigations have revealedthat the student pilot was on his first solo navigation land away and made several errors of navigation, initially misidentifying the initial starting point. Subsequently, he misidentified a line feature which he was following. The student pilot has now received further training, and will undertake a flight with his CFI prior to any further solo flights.□ CAA Closure: No further CAA action required.
200609749	29/10/2006	EGTT : London (FIR)	Dunsfold	10nm ESE	A	TMA	FUJI	Reciprocating	1	Infringement of the LTMA (Class A) and the Gatwick CTA (Class D) by a Fuji 200 at 2900ft, 10 ESE of Dunsfold. Standard separation maintained.	A/c identified by Farnborough squawk. Farnborough ATC alerted pilot concerned.
200609753	29/10/2006	EGTT : London (FIR)	London-Gatwick - LGW		D	CTR	OTHER	Reciprocating	1	Alleged infringement of the Gatwick CTR (Class D) by a microlight. Departing a/c vectored around the microlight.	Microlight pilot subsequently denied the infringement. Unable to reconcile differing reports.□ CAA Closure: No further CAA action practicable.

200609753	29/10/2006	EGTT : London (FIR)	London-Gatwick - LGW		D	CTR	BOEING	Turbofan	2	Alleged infringement of the Gatwick CTR (Class D) by a microlight. Departing a/c vectored around the microlight.	Microlight pilot subsequently denied the infringement. Unable to reconcile differing reports.☐ CAA Closure: No further CAA action practicable.
200609771	27/10/2006	EGTT : London (FIR)	London City - LCY	5 NE	D	CTR	CESSNA	Reciprocating	1	Infringement of the London City CTR (Class D) by a C150 at 2400ft. Traffic info given to an a/c on approach. C150 was later observed infringing the CTR again. Separation lost.	No further information became available.☐ CAA Closure: Nofurther CAA action practicable.
200609787	29/10/2006	EGTT : London (FIR)	London-Heathrow - LHR	N	A	CTR	MORANE SAULNIER	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a Rallye squawking 7000 at 2000ft. Heathrow northbound departures stopped. Standard separation maintained.	Appropriate CAA action being taken.
200609936	01/11/2006	EGTT : London (FIR)	Cardiff (CDF)	17 NE	D	CTR	AEROSPATIALE	Turboshaft	1	Infringement of the Cardiff CTR (Class D) by an SA350 at 6000ft. Standard separation maintained. Appropriate advicepassed to the pilot by ATC.	Pilot appeared unaware of CAS ahead of him. He also appeared not to be in possession of the latest map with the recent airspace changes.
200609948	02/11/2006	EGTT : London (FIR)	Durham Tees Valley (TD)	8 NE	D	CTR	OTHER	Reciprocating	1	B737 downwind for R/W23 steady at 3520ft received/complied with a TCAS RA 'climb' on an EV97 Eurostar that had infringed the Durham Tees Valley CTR (Class D). Traffic info given.	

200609948	02/11/2006	EGTT : London (FIR)	Durham Tees Valley (TD)	8 NE	D	CTR	BOEING	Turbofan	2	B737 downwind for R/W23 steady at 3520ft received/complied with a TCAS RA 'climb' on an EV97 Eurostar that had infringed the Durham Tees Valley CTR (Class D). Traffic info given.	
200609971	01/11/2006	EGTT : London (FIR)	Bath	1nm NE Bath Racecourse	D	CTA	MAULE	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a Maule M5 at Bath. Standard separation maintained.	Established that the pilot was operating his flight with an out of date VFR Chart that did not contain recent changes for the Bristol/Cardiff airspace sector.
200609991	01/11/2006	EGTT : London (FIR)	Cardiff (CDF)	10nm E	D	CTR	PIPER	Reciprocating	1	Infringement of the Cardiff CTR (Class D) by PA28 at 3000ft, 10nm E of Cardiff Airport. Standard separation maintained.	Pilot was advised that he had entered CAS without clearance. Pilot responded that he thought he had been cleared.
200610011	01/11/2006	EGTT : London (FIR)	Kenley		G		PILATUS	Turboprop	1	Alleged infringement of the South London Gliding Centre cable hazard at Kenley aerodrome by a Pilatus PC-12 at 1000ft, as a glider was landing.	
200610020	03/11/2006	EGTT : London (FIR)	Burnham	2N	A	TMA	CIRRUS	Reciprocating	1	Infringement of the LTMA (Class A) by an SR22. Heathrow departures were stopped for approximately 3mins and an R22 was given traffic info. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident. See also 200607108 and 200610032

200610020	03/11/2006	EGTT : London (FIR)	Burnham	2N	A	TMA	ROBINSON	Reciprocating	1	Infringement of the LTMA (Class A) by an SR22, Heathrow departures were stopped for approximately 3mins and an R22 was given traffic info. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident. See also 200607108 and 200610032
200610038	04/11/2006	EGTT : London (FIR)	Stevenage	S	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 South of Stevenage. Avoiding action given to a B737 inbound to Luton. Standard separation maintained.	The pilots report indicates that he misidentified Stevenage for Letchworth. The appropriate lessons appear to have been learnt by the pilot concerned who is took undertake further training.
200610038	04/11/2006	EGTT : London (FIR)	Stevenage	S	D	CTR	BOEING	Turbofan	2	Infringement of the Luton CTR (Class D) by a PA28 South of Stevenage. Avoiding action given to a B737 inbound to Luton. Standard separation maintained.	The pilots report indicates that he misidentified Stevenage for Letchworth. The appropriate lessons appear to have been learnt by the pilot concerned who is took undertake further training.
200610100	06/11/2006	EGTT : London (FIR)	Shoeburyness		G	Danger area	CESSNA	Reciprocating	1	Infringement of active Danger Area EG D138 (Shoeburyness)by C172 at 3100ft. Guns were being fired at the time. Pilot believed he was clear of Danger Area.	Investigation ascertained that, at the time of the infringement, the C172 pilot was distracted by poor visibility due to haze and sunglare and had difficulty in establishingcontact with ATC due to the frequency being busy. The pilot acknowledged that there had been little room for error built into his flight plan and concedes that the infringement occurred at this time. He has been reminded of the importance of adequate pre-flight planning.□ CAA Closure: Thehazard is adequately controlled by the actions stated above.
200610112	05/11/2006	EGTT : London (FIR)	North Weald	2nm W	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a DR400 at 2300ft, 2nm West of North Weald airfield. Standard separation maintained.	

200610113	06/11/2006	EGTT : London (FIR)	London-Gatwick - LGW		D	CTR	ROBINSON	Reciprocating	1	Infringement of the Gatwick CTR (Class) by an R22 near Gatwick Airport. A320 on ILS approach 10nm E given avoidingaction and traffic info. Standard separation maintained.	R22 not positively identified.
200610113	06/11/2006	EGTT : London (FIR)	London-Gatwick - LGW		D	CTR	AIRBUS	Turbofan	2	Infringement of the Gatwick CTR (Class) by an R22 near Gatwick Airport. A320 on ILS approach 10nm E given avoidingaction and traffic info. Standard separation maintained.	R22 not positively identified.
200610179	09/11/2006	EGTT : London (FIR)	CHASE	2N	D	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a C172. Pilot apologised for the incident, stating that he had selected the wrong frequency on his new radio. Appropriate advice given.	
200610180	09/11/2006	EGTT : London (FIR)	Stansted	6W	D	CTR	PIPER	Reciprocating	1	Infringement of Stansted CTA (Class D) by a PA28 at 1700ft. Departures stopped. Standard separation maintained.	See also 200306803 and 200608592. Pilot subsequently apologised for infringement, which was caused by a navigation error. He has been reminded of the importance of adequate pre-flight planning.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200610181	09/11/2006	EGTT : London (FIR)	London-Gatwick - LGW	8 NE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a C152. Pilot had become lost and called D&D for assistance. PAN declared. Standard separation maintained.	

200610199	10/11/2006	EGTT : London (FIR)	London Control Zone		A	CTR	PIPER	Reciprocating	1	Infringement of the Heathrow CTR (Class A). Disruption caused to Heathrow and Northolt operations. A/c called D&D requesting a fix. Traffic info given.	Appropriate CAA action has been taken as a result of this incident. See also 200500858, 200504237 and 200608848.
200610215	12/11/2006	EGTT : London (FIR)	Stansted	3W	D	CTR	BELL	Turboshaft	1	Infringement of Stansted CTR (Class D) by a Bell 206. Stansted departures stopped.	Bell 206 pilot subsequently admitted to and apologised for the infringement, which was attributed to a navigation error having misidentified a ground feature. Pilot has been reminded of the importance of adequate pre-flight planning and remaining clear of CAS. ☐ CAA Closure: No further CAA action practicable.
200610216	12/11/2006	EGTT : London (FIR)	White Waltham	3 SE	A	CTR	PIPER	Reciprocating	1	Alleged infringement of the London CTR (Class A) by a PA28. Traffic info given. Standard separation maintained.	
200610369	14/11/2006	EGTT : London (FIR)	Pirbright/Bisley Ranges		G	Danger area	WESTLAND	Turboshaft	1	Infringement of active Danger Area EG D133A (Pirbright/Bisley Ranges) by a Gazelle helicopter at approximately 650ft performing weather avoidance.	See also 200508679. Pilot subsequently apologised for infringement and has been given appropriate advice. ☐ CAA Closure: No further CAA action practicable.
200610440	19/11/2006	EGTT : London (FIR)	Harlow	3W	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA32 at 2000ft. Stansted departures stopped causing a delay to one a/c. Separation lost with a B737.	See 200607523. PA32 pilot subsequently given appropriate advice. ☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.

200610522	19/11/2006	EGTT : London (FIR)	BRAIN	8NE	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C210 at 5400ft. A/c was instructed to descend out of controlled airspace. Standard separation maintained.	
200610630	21/11/2006	EGTT : London (FIR)	Restricted Area R319		D	Restrict ed area	EUROCOPTER	Turboshaft	1	EC120 that had called Manchester Approach was allocated asquawk and a clearance. EC120 subsequently observed entering Restricted Area R319 (Manchester) and appeared to landin R319.	Appropriate CAA action is being taken as a result of thisincident.
200610692	24/11/2006	EGTT : London (FIR)	Aberporth		G	Danger area	ROBINSON	Reciprocating	1	Infringement of active Danger Area EG D201 (Aberporth) byan R44 at 600ft. A military a/c was given vectors away from the R44.	See also 200502425 and 200610028. Pilot subsequently admitted to and apologised for infringement, which occurred during weather avoidance. He has been reminded of the need for adequate pre-flight planning. □ CAA Closure: The hazard is adequately controlled by the actions stated above.
200610705	23/11/2006	EGTT : London (FIR)	GASKO	3nm SE	Other	Other	OTHER	Reciprocating	1	Unidentified 7000 squawk observed in Airway P18 indicating FL120. Avoiding action and traffic info given to a B737 inbound to Newcastle.	The 7000 squawk was later identified as a Stemme Motor Glider and the pilot was informed of his error and apologised. Standard separation maintained.
200610705	23/11/2006	EGTT : London (FIR)	GASKO	3nm SE	Other	Other	BOEING	Turbofan	2	Unidentified 7000 squawk observed in Airway P18 indicating FL120. Avoiding action and traffic info given to a B737 inbound to Newcastle.	The 7000 squawk was later identified as a Stemme Motor Glider and the pilot was informed of his error and apologised. Standard separation maintained.

200610767	28/11/2006	EGTT : London (FIR)	Harlow		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 with Mode C indicating 2200ft North of Harlow. Standard separation maintained.	The pilot has contacted ATC and apologised, he was flying on QNH in error and not QFE.
200610789	29/11/2006	EGTT : London (FIR)	Great Dunmow		D	CTR	BOLKOW	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a Bolkow 208 at Great Dunmow. Avoiding action given to two B737s in the vicinity. Separation lost.	Bolkow 208 initially contacted ATC prior to infringement and was instructed to standby, but subsequently entered CAS. Communications between ATC and pilot were broken before a/c left CAS. Investigation found that the recently new owner of the aircraft, an experienced pilot, was on his first flight. This particular aircraft has a venturi driven directional indicator (DI). The pilot set the compass and DI prior to take off, but was caught out because the gyro was not spinning at that time, which meant that he set course with the compass and DI misaligned. The pilot has since apologised and learnt a valuable lesson as a result of this occurrence. □ CAA Closure: No further CAA action required at this time.
200610789	29/11/2006	EGTT : London (FIR)	Great Dunmow		D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a Bolkow 208 at Great Dunmow. Avoiding action given to two B737s in the vicinity. Separation lost.	Bolkow 208 initially contacted ATC prior to infringement and was instructed to standby, but subsequently entered CAS. Communications between ATC and pilot were broken before a/c left CAS. Investigation found that the recently new owner of the aircraft, an experienced pilot, was on his first flight. This particular aircraft has a venturi driven directional indicator (DI). The pilot set the compass and DI prior to take off, but was caught out because the gyro was not spinning at that time, which meant that he set course with the compass and DI misaligned. The pilot has since apologised and learnt a valuable lesson as a result of this occurrence. □ CAA Closure: No further CAA action required at this time.
200610845	30/11/2006	EGTT : London (FIR)	London-Gatwick - LGW	15nm SW	A	TMA	PIPER	Reciprocating	1	Alleged infringement of the LTMA (Class A) by a PA28 and C172 flying in formation South of Gatwick. STCA alerted and traffic info given. Standard separation maintained.	PA28 checked in on the FIR shortly followed by C172, both requesting a FIS. Both a/c were requested to squawk 7401. It was established that the a/c were not visual with each other. As both a/c were on a routing SFD-DVR-KOK, Shoreham ATC were contacted and agreed to work them due to local traffic. During this time, Farnborough ATC contacted the FIR to say they had observed a 7401 squawk heading towards Gatwick airspace. Farnborough were advised a/c were working Shoreham ATC. The Gatwick Director then assumed control of both a/c, although the RT was not very clear. The STCA subsequently activated, linking the two a/c converging on one another. One a/c was alerted and turned away from the other. Both pilots were contacted and informed the controller that they assumed they were routing outside of CAS. Controller descended both a/c and gave them a heading to direct them out of CAS. Both a/c were then transferred to the FIR. Appropriate CAA action is to be taken.
200610845	30/11/2006	EGTT : London (FIR)	London-Gatwick - LGW	15nm SW	A	TMA	CESSNA	Reciprocating	1	Alleged infringement of the LTMA (Class A) by a PA28 and C172 flying in formation South of Gatwick. STCA alerted and traffic info given. Standard separation maintained.	PA28 checked in on the FIR shortly followed by C172, both requesting a FIS. Both a/c were requested to squawk 7401. It was established that the a/c were not visual with each other. As both a/c were on a routing SFD-DVR-KOK, Shoreham ATC were contacted and agreed to work them due to local traffic. During this time, Farnborough ATC contacted the FIR to say they had observed a 7401 squawk heading towards Gatwick airspace. Farnborough were advised a/c were working Shoreham ATC. The Gatwick Director then assumed control of both a/c, although the RT was not very clear. The STCA subsequently activated, linking the two a/c converging on one another. One a/c was alerted and turned away from the other. Both pilots were contacted and informed the controller that they assumed they were routing outside of CAS. Controller descended both a/c and gave them a heading to direct them out of CAS. Both a/c were then transferred to the FIR. Appropriate CAA action is to be taken.

200610863	01/12/2006	EGTT : London (FIR)	HOLLY		A	TMA	SOCATA	Reciprocating	1	Infringement of the LTMA (Class A) at HOLLY by a TB20 at 4900ft. Standard separation maintained. Appropriate followup action taken.	
200611118	10/12/2006	EGTT : London (FIR)	London-Gatwick - LGW	11 E	D	CTA	CESSNA	Reciprocating	1	C150 infringed the Gatwick CTA (Class D). C150 was offered navigational assistance to continue to its destination and advised of the disruption to Gatwick operations. Standard separation maintained.	The C150 pilot has been made aware of his navigational error and has discussed the incident with ATC. ☐ CAA Closure:No further CAA action required at this time.
200611124	09/12/2006	EGTT : London (FIR)	BIA	11 E	D	CTA	BELL	Turboshaft	1	Infringement of the Bristol CTA (Class D) by a Bell 206 at 2200ft. Standard separation maintained.	
200611136	10/12/2006	EGTT : London (FIR)	Snitterfield		D	CTA	PIPER	Reciprocating	1	Infringement of Birmingham CTA (Class D) by a PA28R at 3000ft, with a Coventry squawk. Birmingham contacted Coventry, who stated that the pilot had misread his map.	Standard separation maintained.
200611323	12/12/2006	EGTT : London (FIR)	Bournemouth		D	CTR	PIPER	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a PA28 at 2300ft. Traffic info given. Standard separation maintained.	

200611449	18/12/2006	EGTT : London (FIR)	Burnham	2 N	A	CTR	ENSTROM	Turboshaft	1	Infringement of the Heathrow CTR (Class A) by an Enstrom 480 at 1000ft. Traffic info given. Standard separation maintained.	The pilot subsequently contacted ATC and apologised, stating that the a/c had experienced a generator failure and this had distracted him from selecting the correct frequency. See 200603592.
200611482	24/10/2006	EGTT : London (FIR)	Portland UK		G	Danger area	PIPER	Reciprocating	1	PA28 at 2000ft allegedly infringed active Danger Areas EGD021/D031 (Portland) and D026 (Lulworth) three times.	Pilot reported that a fire extinguisher became detached from stowage and rolled under seat jamming control pedals. PA28 flew over sea and pilot undid the strap to remove obstruction. PA28 descended. On clearing obstruction pilot was unaware of position, so flew towards the coast, circled Portland then flew direct to Bembridge. Pilot did not squawk Emergency or declare a PAN. Pilot was also unaware of existence of Danger Areas. See also 20300565 and 200304241.The pilot has subsequently spoken to Plymouth Military and been made aware of both the Danger Areas and infringement. □ CAA Closure: No further CAA action required at this time.
200611641	23/12/2006	EGTT : London (FIR)	Cardiff (CDF)	13 SE	D	CTA	SOCATA	Reciprocating	1	TB10 was transferred to Cardiff as it entered the Mixed Buffer Zone without coordination by Bristol ATC. Cardiff ATSA had received a pre-note on the TB10 from Bristol Approach ATSA.	Investigation continues under 200608960.
200611695	21/12/2006	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	EUROCOPTER	Turboshaft	1	Infringement of the Biggin Hill ATZ by an EC120. A/c called for joining instructions, when already inside ATZ. Standard separation maintained. After landing, pilot apologised for the late call.	Foggy conditions.
200611712	28/12/2006	EGTT : London (FIR)	Cardiff (CDF)	9 NE	D	CTA	CIRRUS	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by an SR20 at 4200ft. Pilot was unaware of the new Cardiff CTA that came into effect on 31 Aug 2006. Standard separation maintained.	

200611925	08/06/2006	EGTT : London (FIR)	London City - LCY	5 NNE	D	CTR	CESSNA	Reciprocating	1	Alleged infringement of the London City CTR (Class D) by a C172. Standard separation maintained.	
200700208	10/01/2007	EGTT : London (FIR)	MIRSI	7 W	A	TMA	GROB	Reciprocating	1	Infringement of the Manchester TMA (Class A) by a G115 atFL61. Traffic info given to a B737 descending to FL70. Standard separation maintained.	
200700208	10/01/2007	EGTT : London (FIR)	MIRSI	7 W	A	TMA	BOEING	Turbofan	2	Infringement of the Manchester TMA (Class A) by a G115 atFL61. Traffic info given to a B737 descending to FL70. Standard separation maintained.	
200700286	14/01/2007	EGTT : London (FIR)	London-Gatwick - LGW	3 NE	D	CTA	EUROPA	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by Europa at 1700ft squawking 7000. Standard separation maintained.	
200700420	17/01/2007	EGTT : London (FIR)	Manchester (MCT)	12 NE	D	CTR	ROBINSON	Reciprocating	1	Alleged infringement of the Manchester CTR (Class D) by an R44. An inbound EMB145 was given traffic info. Standard separation maintained.	Following a change of ownership, no response received from the operator CAA Closure: No further CAA action practicable.

200700420	17/01/2007	EGTT : London (FIR)	Manchester (MCT)	12 NE	D	CTR	EMBRAER	Turbofan	2	Alleged infringement of the Manchester CTR (Class D) by an R44. An inbound EMB145 was given traffic info. Standard separation maintained.	Following a change of ownership, no response received from the operator CAA Closure: No further CAA action practicable.
200700566	21/01/2007	EGTT : London (FIR)	Honiley (HON)	3 S	D	CTA	SOCATA	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by TB200 on a cross-country NAVEX. Standard separation maintained. Pilot phoned stating having being distracted by a stuck PTT switch.	
200700570	21/01/2007	EGTT : London (FIR)	Birmingham	10 W	D	CTA	CIRRUS	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by an SR22. Traffic info was given. Standard separation maintained. Pilot phoned and apologised for the incident.	The pilot stated that he had miscalculated the wind conditions. Appropriate advice has been passed.
200700708	27/01/2007	EGTT : London (FIR)	Stansted	W	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28. AllStansted departures were stopped. PA28 had become lost incloud before calling D&D and was given assistance.	Investigation attributed infringement to solo student becoming lost following weather avoidance. Instructor carriedout appropriate de-brief and initiated additional navigation training prior to further solo flights. See also 200706765. CAA Closure: No further CAA action required at thistime.
200700710	27/01/2007	EGTT : London (FIR)	London City - LCY		D	CTR	PIPER	Reciprocating	1	Alleged infringement of the London City CTR (Class D) by a PA38 receiving a FIS. An inbound C560 was given traffic info. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident. See also 200203604.

200700710	27/01/2007	EGTT : London (FIR)	London City - LCY		D	CTR	CESSNA	Turbofan	2	Alleged infringement of the London City CTR (Class D) by a PA38 receiving a FIS. An inbound C560 was given traffic info. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident. See also 200203604.
200700730	27/01/2007	EGTT : London (FIR)	Audley End		D	CTA	PIPER	Reciprocating	1	Infringement of Stansted CTA (Class D) by a PA28 squawking 7000 at 1400ft in possible conflict with an A319 on approach. Traffic info and avoiding action given. Separation lost.	The pilot appears to have underestimated the effect of the Northwest wind and additionally had RT problems contacting Stansted Approach. The appropriate lessons appear to have been learnt following discussions with ATC staff. □ CAA Closure: The hazard is adequately controlled by the actions stated above.
200700730	27/01/2007	EGTT : London (FIR)	Audley End		D	CTA	UNKNOWN	Unknown		Infringement of Stansted CTA (Class D) by a PA28 squawking 7000 at 1400ft in possible conflict with an A319 on approach. Traffic info and avoiding action given. Separation lost.	The pilot appears to have underestimated the effect of the Northwest wind and additionally had RT problems contacting Stansted Approach. The appropriate lessons appear to have been learnt following discussions with ATC staff. □ CAA Closure: The hazard is adequately controlled by the actions stated above.
200700731	28/01/2007	EGTT : London (FIR)	Birmingham	10 NW	D	CTR	PIPER	Reciprocating	1	Infringement of Birmingham CTR (Class D) and Nottingham East Midlands CAS by a PA28 that called FIS reporting it was unsure of its position. FIS told PA28 to call D&D, who gave PA28 assistance.	Standard separation maintained.
200700778	28/01/2007	EGTT : London (FIR)	Southampton (SAM)	11 NE	A		PIPER	Reciprocating	1	Infringement of the Southampton CTA (Class D) by a PA28 at 6000ft. Pilot had been instructed to remain outside the CAS prior to the infringement. Standard separation maintained.	

200700834	30/01/2007	EGTT : London (FIR)	Cardiff (CDF)		D	CTA	PIPER	Reciprocating	1	PA28 inbound to Cardiff called ATC and told to standby. As PA28 orbited South of Cardiff Bay, it drifted into the Cardiff CTA (Class D). Standard separation maintained.	See also 200700675.☐ CAA Closure: The PIC at the time of the incident was a student, the School completed a further4 hours of remedial training.
200700842	31/01/2007	EGTT : London (FIR)	London-Gatwick - LGW		D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) from the North by a C172. C172 was instructed to turn Northbound and descend to 1400ft. Standard separation maintained.	
200700849	31/01/2007	EGTT : London (FIR)	Luton (LUT)	1 N	D	CTA	DIAMOND	Reciprocating	1	Infringement of Luton CTA (Class D) by a DA40 squawking 7000 at 3100ft. Luton departure stopped.	Letter sent to the Flying Instructor involved reminding him of his responsibilities. See also 200609099.☐ CAA Closure: No further CAA action practicable.
200700849	31/01/2007	EGTT : London (FIR)	Luton (LUT)	1 N	D	CTA	UNKNOWN	Unknown		Infringement of Luton CTA (Class D) by a DA40 squawking 7000 at 3100ft. Luton departure stopped.	Letter sent to the Flying Instructor involved reminding him of his responsibilities. See also 200609099.☐ CAA Closure: No further CAA action practicable.
200700870	30/01/2007	EGTT : London (FIR)	Brize Norton		D	CTR	ROBINSON	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by an R44.Pilot phoned and apologised for the incident, stating that he had just taken delivery of the helicopter and was unfamiliar with the area.	Standard separation maintained.

200700891	03/02/2007	EGTT : London (FIR)	Birmingham	8 E	D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C150. C150 contacted Birmingham, was given a heading to leave the zone before subsequently resuming own navigation. Standard separation maintained.	Appropriate CAA action is being taken as a result of this incident.
200700903	03/02/2007	EGTT : London (FIR)	Luton (LUT)	10 E	D	CTR	CIRRUS	Reciprocating	1	Infringement of Luton CTR (Class D) by an SR22 at 2000ft. Pilot later stated he had entered the wrong position into the GPS, BNN instead of BPK. Standard separation maintained.	Take-off clearance of an outbound a/c cancelled, however, the a/c was not rolling.
200700961	03/02/2007	EGTT : London (FIR)	St Albans				CESSNA	Reciprocating	1	D&D Cell Report: Pilot lost. PAN declared. DF fix obtained after pilot failed to respond to squawk request. Steer given for Denham. A/c had previously infringed Luton zone but no action is proposed.	
200700977	02/02/2007	EGTT : London (FIR)	Durham Tees Valley (TD)	SE	D	CTA	PIPER	Reciprocating	1	PA28 realised it had radio problems approaching Teesside and changed to Box 2. PA28 called Teesside and advised that it was already inside their airspace. On return to base pilot was debriefed by CFI.	
200701020	07/02/2007	EGTT : London (FIR)	Woodley (WOD)	SE	A	CTR	ROBINSON	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by an R22 receiving a FIS. Standard separation maintained.	

200701041	07/02/2007	EGTT : London (FIR)	Wellesbourne Mountford	3 NNE	D	CTA	ROBINSON	Reciprocating	1	Infringement of Birmingham CTA (Class D) by an R44 at 3700ft. It is alleged that the pilot later stated that he needed to infringe as he was practising an engine off landing.	The pilot has discussed this occurrence with his instructor and is now fully aware of the need to avoid CAS.☐ CAA Closure: The hazard is adequately controlled by the actionsstated above.
200701159	06/02/2007	EGTT : London (FIR)	Scampton		G	Danger area	OTHER	Reciprocating	1	Microlight on a cross country navigation exam took a wrong heading and infringed the RAF Scampton ATZ. Pilot realised the error and turned to leave the area. Pilot apologised for the incident.	Red arrows synchro training detail terminated.
200701159	06/02/2007	EGTT : London (FIR)	Scampton		G	Danger area	OTHER	Unknown		Microlight on a cross country navigation exam took a wrong heading and infringed the RAF Scampton ATZ. Pilot realised the error and turned to leave the area. Pilot apologised for the incident.	Red arrows synchro training detail terminated.
200701200	06/02/2007	EGTT : London (FIR)	Nottingham East Midlands	6 SE	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Nottingham East Midlands CTR (Class D) by an R44 using a GPS. A B737 established on R/W27 ILS was given traffic info and heading. Standard separation maintained.	Investigation established that the R44 pilot misidentified his position as being Southeast of East Midlands. He spoke to ATC after landing and is aware of the serious consequences of infringing CAS.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200701200	06/02/2007	EGTT : London (FIR)	Nottingham East Midlands	6 SE	D	CTR	BOEING	Turbofan	2	Infringement of the Nottingham East Midlands CTR (Class D) by an R44 using a GPS. A B737 established on R/W27 ILS was given traffic info and heading. Standard separation maintained.	Investigation established that the R44 pilot misidentified his position as being Southeast of East Midlands. He spoke to ATC after landing and is aware of the serious consequences of infringing CAS.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.

200701213	13/02/2007	EGTT : London (FIR)	Burnham	2 NW	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28. Standard separation maintained. Solo student.	The pilot of the PA28 made a PAN call on the Farnborough frequency stating she was lost. The a/c was then identified within CAS and given appropriate assistance. Appropriateand comprehensive follow up action has been taken. The student highlighted 4 areas during the subsequent debrief over this incident. 1/Not correctly carrying out pre-departure checks, 2/Not allowing for drift, 3/ Not alerting Farnborough Radar early enough over the developing situation and 4/ Not being fully conversant with the a/c's full navigation kit.
200701222	13/02/2007	EGTT : London (FIR)	Lambourne (LAM)	6 S	A	TMA	CESSNA	Reciprocating	1	C210 had been working London FIR on an IFR flight having previously descended out of CAS due icing. A/c subsequently transferred to Stapleford, following which it infringed the LTMA (Class A).	Standard separation maintained.
200701297	15/02/2007	EGTT : London (FIR)	Stansted	7 S	D	CTA	PIPER	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a PA28 (believed). An a/c was lined up on the R/W at Stanstedwhen all departures were stopped, which resulted in a missed approach for a B747.	Standard separation maintained. See 200509290 and 200508559.
200701427	17/02/2007	EGTT : London (FIR)	Luton (LUT)	7 E	D	CTR	PIPER	Reciprocating	1	Infringement of Luton CTR (Class D) by a PA28 that calledATC saying it was unsure of its position. Navigational assistance given. Luton departures were stopped and an a/c was broken off the approach.	Student pilot. The School has undertaken remedial training for the student concerned. See also 200701631 and 200506942.⌵ CAA Closure: No further CAA action practicable.
200701479	21/02/2007	EGTT : London (FIR)	Southampton (SAM)	12 S	D	CTA	CESSNA	Reciprocating	1	Infringement of the Southampton CTA (Class D) by a C177 at 3000ft. C177 was in contact with a neighbouring ATC unitand instructed to descend beneath CAS. Standard separation maintained.	

200701492	20/02/2007	EGTT : London (FIR)	Sheffield		G	ATZ	UNKNOWN	Unknown		Alleged infringement of Sheffield ATZ (Class G) by an unidentified a/c. A/c was observed by ATC to be positioned below a C152 established on approach. Traffic info given.	The unknown a/c was seen to turn and climb away.
200701492	20/02/2007	EGTT : London (FIR)	Sheffield		G	ATZ	CESSNA	Reciprocating	1	Alleged infringement of Sheffield ATZ (Class G) by an unidentified a/c. A/c was observed by ATC to be positioned below a C152 established on approach. Traffic info given.	The unknown a/c was seen to turn and climb away.
200701493	21/02/2007	EGTT : London (FIR)	North Weald	1 SE	D	CTA	CESSNA	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a C182. A check was placed on departures and the Group Supervisor notified. Standard separation maintained.	
200701567	23/02/2007	EGTT : London (FIR)	Manchester (MCT)	15 NE	D	CTR	CESSNA	Reciprocating	1	Infringement of Manchester CTR (Class D) by a C172. An airliner was broken off its approach to R/W24R. C172 subsequently called Barton indicating it was lost. Standard separation maintained.	C172 pilot aware that he should have made the call much earlier.☹ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200701569	23/02/2007	EGTT : London (FIR)	Snitterfield	SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by PA28 being piloted by an instructor new to the area. Instructor apologised and agreed the strong wind had caught him out.	Standard separation maintained.

200701575	24/02/2007	EGTT : London (FIR)	London-Heathrow - LHR	NW	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28. Heathrow Northbound departures were stopped for 2mins. Standardseparation maintained.	The pilot reports that he encountered worse weather than expected over the Chilterns and elected to return to WhiteWaltham. He then mistook Marlow for Henley and subsequently entered the CTR. The pilot accepts the errors he made during this flight and has been given appropriate advice.
200701594	17/02/2007	EGTT : London (FIR)	Wethersfield		G		SOCATA	Reciprocating	1	Alleged infringement of Wethersfield Glider Launching Site by TB10. Five a/c were on the ground at launch point being prepared for flight at time of incident.	
200701631	24/02/2007	EGTT : London (FIR)	Stansted	8 SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28. Standard separation maintained.	See also 200701427 and 200506942. □ CAA Closure: The school undertook remedial training for the student concerned.
200701633	25/02/2007	EGTT : London (FIR)	Denham	4 SW	A	CTR	PIPER	Reciprocating	1	Alleged infringement of London CTR (Class A) by a PA28. Standard separation maintained.	See also 200701766, 200606754, 200606423, 200506184, 200402304 and 200203925.
200701766	02/03/2007	EGTT : London (FIR)	Luton (LUT)	East	D	CTR	PIPER	Reciprocating	1	D & D Cell Report: Pilot lost. PAN declared. Aircraft DFsposition indicated he was within Luton CTZ at 2300ft, (CTA being 2500ft). Navigational assistance given for onward flight to Cambridge.	Luton ATC confirmed the aircraft had briefly penetrated the Luton ATZ briefly although no further action will be taken by them. See also 200701633, 200606754, 200606423, 200506184, 200402304 and 200203925.

200701767	02/03/2007	EGTT : London (FIR)	Chiltern (CHT)	4 W	A	TMA	CIRRUS	Reciprocating	1	Cancelled - Processed under 200701791	Cancelled - Processed under 200701791
200701772	02/03/2007	EGTT : London (FIR)	Birmingham	11 NW	D	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a PA28 at2900ft, 11nm NW of Birmingham. ATC contacted pilot who reported a problem with the HSI. Standard separation maintained.	
200701773	01/03/2007	EGTT : London (FIR)	Birmingham	10 SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 at2100ft, 10nm SE of Birmingham. Standard separation maintained.	Coventry Radar had instructed the a/c to operate not above 1500ft.
200701791	02/03/2007	EGTT : London (FIR)	Chiltern (CHT)		A	TMA	CIRRUS	Reciprocating	1	SR22 infringed the LTMA and lost separation with an a/c inbound to Northolt and a GLF3 that had departed Luton, butsubsequently suffered compass problems. Traffic info given to another a/c.	Pilot states that SR22 departed Booker on an out of hoursdeparture, which he was authorised to do. As Tower was closed, this caused a break in his routine as QNH was not given on departure as normal. This result in pilot forgetting to set QNH. Pilot entered the pre-selected altitude of 2400ft and headed towards Bovingdon. As pilot approached Bovingdon, he realised he had not verified the QNH and made a call to Denham asking for their QNH. On realising the difference, pilot initiated an immediate descent. The pilot fully appreciates the error of his ways.
200701791	02/03/2007	EGTT : London (FIR)	Chiltern (CHT)		A	TMA	GULFSTREAM	Turbofan	2	SR22 infringed the LTMA and lost separation with an a/c inbound to Northolt and a GLF3 that had departed Luton, butsubsequently suffered compass problems. Traffic info given to another a/c.	Pilot states that SR22 departed Booker on an out of hoursdeparture, which he was authorised to do. As Tower was closed, this caused a break in his routine as QNH was not given on departure as normal. This result in pilot forgetting to set QNH. Pilot entered the pre-selected altitude of 2400ft and headed towards Bovingdon. As pilot approached Bovingdon, he realised he had not verified the QNH and made a call to Denham asking for their QNH. On realising the difference, pilot initiated an immediate descent. The pilot fully appreciates the error of his ways.

200701792	03/03/2007	EGTT : London (FIR)	Southampton (SAM)		D	CTR		Reciprocating	1	Infringement of the Southampton CTR (Class D) by a Maule MX7. No RT comms. Standard separation maintained.	
200701794	03/03/2007	EGTT : London (FIR)	Cowes		D	CTA	PIPER	Reciprocating	1	Infringement of the Southampton CTA (Class D) by a PA28 with a Mode C indicating 2400ft at Cowes. Standard separation maintained.	
200701798	28/02/2007	EGTT : London (FIR)	R41		A	TMA	SOCATA	Turboprop	1	Infringement of Airway R41 (Class A) by a Socata TBM 700 at FL86. Traffic info and avoiding action given. The a/c was instructed to squawk and descend to 3400ft. Standard separation maintained.	A/c had called on the Farnborough frequency and was instructed to standby but was subsequently observed entering R41. See also 200608607.
200701830	05/03/2007	EGTT : London (FIR)	London City - LCY	7	D	TMA	PIPER	Reciprocating	1	Alleged infringement of London TMA (Class A) by a PA28 squawking 7000 with Mode C indicating between 2400-2700ft. Possible transponder malfunction.	A/c broken off approach and numerous a/c vectored around.Traffic info given. ATC allege that the PA28's Mode C indications varied from 2400-2700ft. The pilot stated that the a/c was flying at 2400ft on the correct QNH. The Mode C was not verified at the time, therefore, ATC cannot be sure that the a/c infringed. See also 20000580 and 200200919.
200702031	09/03/2007	EGTT : London (FIR)	Manchester (MCT)		D	CTR	CESSNA	Reciprocating	1	Infringement of the Manchester CTR (Class D) by C150. C150 was given assistance to destination where three times itflew past the airfield. C150 eventually established on final to R/W27 and landed.	Traffic info given. See also 200702054, 200702044 and 200702039.☐ CAA Closure: Appropriate CAA action is to be taken as a result of this incident.

200702034	10/03/2007	EGTT : London (FIR)	Goodwood (GWC)		A	TMA	CIRRUS	Reciprocating	1	Alleged infringement of Airway N859 and the London TMA (Class A) by an SR20 and an SR22 on delivery flights. Standard separation maintained. Operator has been alerted to this incident.	See also 200609262, 200604861 and 200604394.
200702034	10/03/2007	EGTT : London (FIR)	Goodwood (GWC)		A	TMA	CIRRUS	Reciprocating	1	Alleged infringement of Airway N859 and the London TMA (Class A) by an SR20 and an SR22 on delivery flights. Standard separation maintained. Operator has been alerted to this incident.	See also 200609262, 200604861 and 200604394.
200702035	10/03/2007	EGTT : London (FIR)	London City - LCY	5 E	D	CTA	PIPER	Reciprocating	1	Infringement of the London City CTA (Class D) by a PA28. Pilot informed of the extension to LCY CAS that took placesome months ago. Standard separation maintained.	
200702044	11/03/2007	EGTT : London (FIR)	Manchester (MCT)		D	CTR	CESSNA	Reciprocating	1	C150 operating in LLR allegedly twice infringed the Manchester CTR (Class D) and twice the Liverpool CTR (Class D).Pilot reported having problems with GPS interface. Standard separation maintained.	Investigation continues under 200702031. See also 200702054 and 200702039.
200702053	10/03/2007	EGTT : London (FIR)	London City - LCY	5 E	D	CTA	DIAMOND	Reciprocating	1	Infringement of the London City CTA (Class D) by a DA40. DA40 had just called Biggin and was given a turn to leave CAS. Standard separation maintained.	See also 200701629 and 200701566.

200702055	10/03/2007	EGTT : London (FIR)	Nottingham East Midlands		D	CTA	PIPER	Reciprocating	1	Alleged infringement of the Nottingham East Midlands CTA (Class D) by a PA28 at 4000ft. Standard separation maintained.	
200702059	10/03/2007	EGTT : London (FIR)	Whitegate (WHI)	3 NW	D	CTA	CESSNA	Reciprocating	1	C172 receiving a FIS infringed the Liverpool CTR (Class D) and the Manchester CTR (Class D). C172 was given navigational assistance. Traffic info was given to Liverpool traffic.	C172 calling for low level corridor transit was given a FIS. DF bearing suggested C172 was in the Liverpool CTR (Class D) and Liverpool could be heard giving traffic info totheir a/c. C172 was given navigational assistance to joinlow level route. C172 then infringed the Manchester CTR (Class D) and given further navigational assistance up the corridor to Barton, its destination. Standard separation maintained.
200702078	11/03/2007	EGTT : London (FIR)	Radstock VRP	1 E	D	CTA	SOCATA	Reciprocating	1	TB20 infringed the Bristol CTA (Class D). Standard separation maintained. Pilot telephoned ATC later and apologisedfor the incident, stating that he believed that he had anout-of-date map.	See also 200610863.
200702108	12/03/2007	EGTT : London (FIR)	London City - LCY	5 NE	D	CTR	PIPER	Reciprocating	1	Infringement of the London City CTR (Class D) by a PA32 at 2400ft. Traffic info given. Standard separation maintained.	
200702112	08/03/2007	EGTT : London (FIR)	Salisbury Plain		G	Danger area	OTHER	Reciprocating	1	Infringement of Danger Areas D123 and D125 (active) by a microlight a/c at 1750ft over Salisbury Plain for a duration of 8 mins.	Pilot has acknowledged inadequate pre-flight planning andpoor airmanship through unfamiliar territory. Danger Areaactivity was suspended until the a/c had cleared the area. See also 200609734.

200702116	11/03/2007	EGTT : London (FIR)	Memwith Hill	1.5 S	D	CTR	PIPER	Reciprocating	1	UK AIRPROX 17/2007 - HR200 and PA28, 1nm South of MemwithHill at 1700ft. PA28 infringed the Leeds Bradford CTR (Class D) during this AIRPROX.	Traffic info passed to PA28. Pilot of PA28 subsequent called ATC and stated he had reviewed his route on GPS, was aware of the infringement and apologised. Pilot also statedthat he was visual with the HR200. See also 200606200.☐ CAA Closure: No further CAA action required. This AIRPROX has been subject to a separate review by the United KingdomAIRPROX Board (UKAB).
200702116	11/03/2007	EGTT : London (FIR)	Memwith Hill	1.5 S	D	CTR	AVIONS ROBIN	Reciprocating	1	UK AIRPROX 17/2007 - HR200 and PA28, 1nm South of MemwithHill at 1700ft. PA28 infringed the Leeds Bradford CTR (Class D) during this AIRPROX.	Traffic info passed to PA28. Pilot of PA28 subsequent called ATC and stated he had reviewed his route on GPS, was aware of the infringement and apologised. Pilot also statedthat he was visual with the HR200. See also 200606200.☐ CAA Closure: No further CAA action required. This AIRPROX has been subject to a separate review by the United KingdomAIRPROX Board (UKAB).
200702119	10/03/2007	EGTT : London (FIR)	Nottingham East Midlands	8 E	D	CTA	BEECH	Reciprocating	1	Alleged infringement of the East Midlands CTA (Class D) by a BE24 at 2500ft, 8nm East of EMA. Standard separation maintained. Traffic info given to two a/c inbound to EMA.	Pilot contacted ATC with poor RT. Pilot instructed to remain clear CAS and given discreet squawk for identification, whilst observed on Mode C passing through 2200ft. BE24 eventually identified having levelled off at 2500ft. Pilot advised of infringement.
200702119	10/03/2007	EGTT : London (FIR)	Nottingham East Midlands	8 E	D	CTA	AIRBUS	Turbofan	2	Alleged infringement of the East Midlands CTA (Class D) by a BE24 at 2500ft, 8nm East of EMA. Standard separation maintained. Traffic info given to two a/c inbound to EMA.	Pilot contacted ATC with poor RT. Pilot instructed to remain clear CAS and given discreet squawk for identification, whilst observed on Mode C passing through 2200ft. BE24 eventually identified having levelled off at 2500ft. Pilot advised of infringement.
200702128	13/03/2007	EGTT : London (FIR)	Birmingham		D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C152 at2000ft. Student pilot later apologised stating he had become lost. Appropriate advice given by ATC. Standard separation maintained.	See also 200607008.

200702168	14/03/2007	EGTT : London (FIR)	Southampton (SAM)	12 SE	A		CIRRUS	Reciprocating	1	Infringement of Airway R8 (Class A) by an SR22 at FL60. On contact, pilot believed that the base of CAS was FL65. Standard separation maintained.	Pilot apologised.
200702200	12/03/2007	EGTT : London (FIR)	Blackpool (BPL)		G	ATZ	OTHER	Reciprocating	1	Alleged infringement of the Blackpool ATZ (Class G). Microlight was observed flying through ATZ at approx 1500ft. Adeparting a/c was held on the ground until microlight wasclear.	Traffic info given.
200702233	15/03/2007	EGTT : London (FIR)	Manchester (MCT)	10 NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a PA28 10nm Northeast of Manchester. Standard separation maintained.	
200702242	14/03/2007	EGTT : London (FIR)	Coventry	8 SW	D	CTA	ROCKWELL	Reciprocating	1	Alleged infringement of the Birmingham CTA (Class D) by an RC112 at 2500ft. A/c descended out of controlled airspace on advice of Coventry ATC. Standard separation maintained.	
200702258	16/03/2007	EGTT : London (FIR)	Chiltern (CHT)	3 N	A	CTR	OTHER	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by an unidentified a/c, possibly a microlight at 2200ft. Heathrow North departures stopped. Traffic info given to a A319. Standardseparation maintained.	

200702258	16/03/2007	EGTT : London (FIR)	Chiltern (CHT)	3 N	A	CTR	AIRBUS	Turbofan	2	Infringement of the Heathrow CTR (Class A) by an unidentified a/c, possibly a microlight at 2200ft. Heathrow North departures stopped. Traffic info given to a A319. Standardseparation maintained.	
200702274	17/03/2007	EGTT : London (FIR)	BADIM		A		GROB	Reciprocating	1	Alleged infringement of Airway L9 (Class A) at FL97. Standard separation maintained. A/c descended out of controlled airspace on being advised by Colerne ATC.	
200702363	06/03/2007	EGTT : London (FIR)	London CTR	NW	A	CTR	SOCATA	Reciprocating	1	Infringement of the London CTR (Class A) by a Socata TB10at 2000ft. P1 reported having difficulty with the BNN VOR.	A NOTAM was issued at approximately the same, stating that the BNN was Out of Service from 1130hrs. D&D alerted. Standard separation maintained.
200702447	15/03/2007	EGTT : London (FIR)	Salisbury		G	Danger area	PIPER	Reciprocating	1	Alleged infringements of Salisbury Plain Danger Areas D125 and D128 by a PA28R. Live firing suspended.	See also 200703030.  CAA Closure: No further CAA action considered practical.
200702454	21/03/2007	EGTT : London (FIR)	Cardiff (CDF)	21.5 E	D	CTA	CESSNA	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by a C152 at 4200ft. No other traffic affected. ATC spoke with the pilot after the event, where it transpired that the pilot's map was out of date.	Student pilot, appropriate advice given.  CAA Closure: Nofurther CAA action practicable.

200702778	02/04/2007	EGTT : London (FIR)	Farnborough	15 SE	A	TMA	BEECH	Reciprocating	1	Alleged infringement of the London TMA (Class A) by a Beech A36 at 3000ft. Standard separation maintained.	
200702778	02/04/2007	EGTT : London (FIR)	Farnborough	15 SE	A	TMA	UNKNOWN	Unknown		Alleged infringement of the London TMA (Class A) by a Beech A36 at 3000ft. Standard separation maintained.	
200702787	02/04/2007	EGTT : London (FIR)	Ware		D	CTA	CESSNA	Reciprocating	1	UK AIRPROX 38/2007 - Infringement of Stansted CTA (Class D) by a C182. An inbound A319 was given traffic info and avoiding action. Standard separation maintained	C182 pilot later phoned and apologised for the incident. Information indicates that whilst distracted by a radio problem the pilot unintentionally entered Class D airspace and flew into conflict with the A319.□ CAA Closure: No further CAA action required at this time. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200702787	02/04/2007	EGTT : London (FIR)	Ware		D	CTA	AIRBUS	Turbofan	2	UK AIRPROX 38/2007 - Infringement of Stansted CTA (Class D) by a C182. An inbound A319 was given traffic info and avoiding action. Standard separation maintained	C182 pilot later phoned and apologised for the incident. Information indicates that whilst distracted by a radio problem the pilot unintentionally entered Class D airspace and flew into conflict with the A319.□ CAA Closure: No further CAA action required at this time. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200702797	02/04/2007	EGTT : London (FIR)	London City - LCY	7 SE	A	TMA	PILATUS	Turboprop	1	UK AIRPROX 28/2007 - ATC observed PC12 enter CAS and lose separation with an EMB135 maintaining 3000ft downwind RH for R/W10. PC12 reported it had responded to a TCAS RA. STCA activated.	Traffic info passed to EMB135. Investigation established that the PC12 was vectored to leave controlled airspace, by descent, inbound to Biggin Hill. Simultaneously, the EMB135 was vectored for positioning to R/W10 at London City. When the PC12 was level at 2400ft, below controlled airspace, and tracking directly towards Biggin Hill, the City Radar controller vectored the EMB135 on a North Westerly track at 3000ft within CAS. The PC12, which was under a RIS, then started climbing and advised the Thames Radar controller that there was traffic in the area. The PC12 climbed through the level of the EMB135 before descending back down again. The PC12 pilot informed the controller that he was reacting to TCAS whereas the EMB135 pilot, who was visual with the PC12 throughout, reported no TCAS alerts. Information indicates that the PC12 pilot may have acted inappropriately on receiving a TCAS TA.□ CAA Closure: The hazard is acceptable provided the frequency remains low. This AIRPROX will be subject to a separate review by the United Kingdom AIRPROX Board (UKAB).

200702797	02/04/2007	EGTT : London (FIR)	London City - LCY	7 SE	A	TMA	EMBRAER	Turbofan	2	UK AIRPROX 28/2007 - ATC observed PC12 enter CAS and loseseparation with an EMB135 maintaining 3000ft downwind RH for R/W10. PC12 reported it had responded to a TCAS RA. STCA activated.	Traffic info passed to EMB135. Investigation established that the PC12 was vectored to leave controlled airspace, by descent, inbound to Biggin Hill. Simultaneously, the EMB135 was vectored for positioning to R/W10 at London City. When the PC12 was level at 2400ft, below controlled airspace, and tracking directly towards Biggin Hill, the City Radar controller vectored the EMB135 on a North Westerly track at 3000ft within CAS. The PC12, which was under a RIS, then started climbing and advised the Thames Radar controller that there was traffic in the area. The PC12 climbed through the level of the EMB135 before descending back downagain. The PC12 pilot informed the controller that he wasreacting to TCAS whereas the EMB135 pilot, who was visualwith the PC12 throughout, reported no TCAS alerts. Information indicates that the PC12 pilot may have acted inappropriately on receiving a TCAS TA.□ CAA Closure: The hazard is acceptable provided the frequency remains low. This AIRPROX will be subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200702805	02/04/2007	EGTT : London (FIR)	London-Gatwick - LGW		D	CTA	CESSNA	Reciprocating	1	C182 infringed the Gatwick CTA (Class D) and came into conflict with an inbound DHC8, who was given traffic info and avoiding action. Standard separation maintained.	The pilot has been contacted by ATC and given appropriateadvice/information. The pilot took up an incorrect heading from Midhurst which led to the incident. He fully appreciates that he displayed unacceptable airmanship. □ CAA Closure: No further CAA action considered necessary.
200702805	02/04/2007	EGTT : London (FIR)	London-Gatwick - LGW		D	CTA	DE HAVILLAND	Turboprop	2	C182 infringed the Gatwick CTA (Class D) and came into conflict with an inbound DHC8, who was given traffic info and avoiding action. Standard separation maintained.	The pilot has been contacted by ATC and given appropriateadvice/information. The pilot took up an incorrect heading from Midhurst which led to the incident. He fully appreciates that he displayed unacceptable airmanship. □ CAA Closure: No further CAA action considered necessary.
200702921	08/04/2007	EGTT : London (FIR)	Liverpool	10 ENE	D	CTR	CESSNA	Reciprocating	1	UK AIRPROX 31/2007 - A319 and a C172, 10nm ENE of Liverpool at 2500ft.	A319 being vectored for ILS R/W27 was kept at 2500ft due to a C172 in VFR Low Level corridor. ATC turned A319 Southfor base leg. At the same time A319 became visual with the C172 and reported that it appeared to be at a similar level. A/c should have been at or below 1250ft in the corridor.□ CAA Closure: This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200702921	08/04/2007	EGTT : London (FIR)	Liverpool	10 ENE	D	CTR	AIRBUS	Turbofan	2	UK AIRPROX 31/2007 - A319 and a C172, 10nm ENE of Liverpool at 2500ft.	A319 being vectored for ILS R/W27 was kept at 2500ft due to a C172 in VFR Low Level corridor. ATC turned A319 Southfor base leg. At the same time A319 became visual with the C172 and reported that it appeared to be at a similar level. A/c should have been at or below 1250ft in the corridor.□ CAA Closure: This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).

200702931	06/04/2007	EGTT : London (FIR)	London City - LCY	7 NE	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the London City CTA (Class D) by an HR100at 2400ft, 7nm Northeast of London City, following ATC instructions to remain outside the CTA. Standard separation maintained.	HR100 tracking BPK - DET at time of infringement. Pilot attempted to correct his track, but did so with insufficient time to prevent the a/c clipping the Northeast corner ofthe CTA.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200702935	06/04/2007	EGTT : London (FIR)	London-Gatwick - LGW	8 E	D	CTA	OTHER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by an unknown a/c, 8nm East of Gatwick. Traffic info and avoiding action given to a B747 and a B767 on approach to Gatwick. Standard separation lost.	It is believed by the reporter that the infringing a/c was a microlight operating from a site 10nm ENE of Gatwick under a Letter of Agreement. ☐ CAA Closure: ATC acted appropriately in turning off the inbound a/c, after the infringement of CAS. NATS have been trying to contact the operator of the farm relating to the Letter of Agreement. No contact has been established and the Letter of Agreement expired in May 2008. No a/c movements have been noted into thefarm for some time.
200702935	06/04/2007	EGTT : London (FIR)	London-Gatwick - LGW	8 E	D	CTA	BOEING	Turbofan	2	Infringement of the Gatwick CTA (Class D) by an unknown a/c, 8nm East of Gatwick. Traffic info and avoiding action given to a B747 and a B767 on approach to Gatwick. Standard separation lost.	It is believed by the reporter that the infringing a/c was a microlight operating from a site 10nm ENE of Gatwick under a Letter of Agreement. ☐ CAA Closure: ATC acted appropriately in turning off the inbound a/c, after the infringement of CAS. NATS have been trying to contact the operator of the farm relating to the Letter of Agreement. No contact has been established and the Letter of Agreement expired in May 2008. No a/c movements have been noted into thefarm for some time.
200702938	06/04/2007	EGTT : London (FIR)	Detling (DET)	4 E	A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by PA28 at 4500ft. An RJ100 inbound to London City was given radar vectorsto maintain standard separation. PA28 identified and descended to 2400ft below CAS.	
200702938	06/04/2007	EGTT : London (FIR)	Detling (DET)	4 E	A	TMA	BAE	Turbofan	4	Infringement of the London TMA (Class A) by PA28 at 4500ft. An RJ100 inbound to London City was given radar vectorsto maintain standard separation. PA28 identified and descended to 2400ft below CAS.	

200702941	06/04/2007	EGTT : London (FIR)	Bristol International	9 SE	D	CTA	OTHER	Reciprocating	1	Pilot of microlight that infringed Bristol CTA (Class D),admitted being unfamiliar with new boundaries of CAS which came into use in August 2006. Traffic info given. Standard separation maintained.	See also 200702058.
200702943	05/04/2007	EGTT : London (FIR)	Radstock VRP	2 N	D	CTR	PIPER	Reciprocating	1	Infringement of the Bristol CTR (Class D) by a PA28. Traffic info given. Standard separation maintained. The pilot was using an out of date map, which is to be replaced.	See 200702941, 200702058 and 200404554.
200702943	05/04/2007	EGTT : London (FIR)	Radstock VRP	2 N	D	CTR	SAAB	Turboprop	2	Infringement of the Bristol CTR (Class D) by a PA28. Traffic info given. Standard separation maintained. The pilot was using an out of date map, which is to be replaced.	See 200702941, 200702058 and 200404554.
200702955	08/04/2007	EGTT : London (FIR)	NEDUL	S	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 3900ft. Standard separation maintained.	
200702957	08/04/2007	EGTT : London (FIR)	Southampton (SAM)	14 SSW	D	CTA	GRUMMAN	Reciprocating	1	AA5 infringed the Solent CTA (Class D). AA5 identified SSW of Southampton at 2500ft. AA5 informed that it was inside CAS, but cleared to continue not above 2500ft VFR. Standard separation maintained.	See also 200603951.

200702960	08/04/2007	EGTT : London (FIR)	Southampton (SAM)	7 SSW	D	CTR	PIPER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a PA28. Standard separation maintained. A departing DHC8 was held on the ground.	
200702963	07/04/2007	EGTT : London (FIR)	Wallasey (WAL)	8 S	A	TMA	BEECH	Reciprocating	1	Infringement of the Manchester TMA (Class A) by a Beech 35 at 6000ft with no Mode C, 8nm South of WAL. Separation lost. No avoiding action necessary for an A319 under MACC control.	Liverpool Radar rang MACC giving details of the a/c and they were told to turn the a/c right immediately and for itto leave CAS.
200702963	07/04/2007	EGTT : London (FIR)	Wallasey (WAL)	8 S	A	TMA	AIRBUS	Turbofan	2	Infringement of the Manchester TMA (Class A) by a Beech 35 at 6000ft with no Mode C, 8nm South of WAL. Separation lost. No avoiding action necessary for an A319 under MACC control.	Liverpool Radar rang MACC giving details of the a/c and they were told to turn the a/c right immediately and for itto leave CAS.
200702965	08/04/2007	EGTT : London (FIR)	Southampton (SAM)	4 E	D	CTR	JODEL	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a Jodel DR1050. Standard separation maintained. The pilot later phoned to apologise for the incident.	
200702970	21/03/2007	EGTT : London (FIR)	Fairoaks	5 S	A	TMA	AVIONS ROBIN	Reciprocating	1	Infringement of the LTMA (Class A) by a Robin R2160. Standard separation maintained.	

200702971	09/04/2007	EGTT : London (FIR)	Southampton (SAM)	8 E	D	CTR	CESSNA	Reciprocating	1	C172 infringed the Solent CTR (Class D). C172 at 2100ft had been told to free call Southampton, but it did not. C172 was identified inside CAS and cleared to continue not above 2000ft.	
200702972	08/04/2007	EGTT : London (FIR)	Wethersfield	2 SE	D	CTA	AVIONS ROBIN	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a DR400. Two IFR a/c approaching Stansted were given delayingvectors. Standard separation maintained.	No response received from the DR400 operator. See also 200600740.☐ CAA Closure: No further CAA action practicable.
200702973	09/04/2007	EGTT : London (FIR)	Southampton (SAM)	7 N	D	CTR	HUGHES	Turboshaft	1	Hughes 369 that had called ATC and told to standby subsequently infringed the Solent CTR (Class D). Standard separation maintained. Pilot phoned and apologised for the incident.	
200702976	09/04/2007	EGTT : London (FIR)	Southampton (SAM)	12 SW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a C172 squawking 7000 at 3400ft. ATC advised the pilot he had entered the CTA without clearance. C172 subsequently descended.	Traffic info given. Standard separation maintained. The pilot apologised for his mistake.
200702977	04/04/2007	EGTT : London (FIR)	Woodley (WOD)	S	A		PIPER	Reciprocating	1	Infringement of CAS-T airspace (Class A) by a PA28. Standard separation maintained. See also 200702978 and 200702983.	High ATC workload.

200702978	04/04/2007	EGTT : London (FIR)	Basingstoke		A		CESSNA	Reciprocating	1	Infringement of CAS-T (Class A) by a C172 at 2300ft. The pilot had been warned of the CAS, however, he was observedinfringing the Western side of the CAS-T.	Standard separation maintained. ATC reported their workload as high. See also 200702977 and 200702983.
200702983	04/04/2007	EGTT : London (FIR)	Woodley (WOD)	S	A		ROBINSON	Reciprocating	1	Infringement of CAS-T (Class A) by a R22 at 2000ft. Pilotallegedly stated he wasn't aware of the CAS-T. Standard separation maintained.	ATC reported their workload to be high. See also 200702978 and 200702977
200702988	04/04/2007	EGTT : London (FIR)	Farnborough	7 SE	A		AEROSPATIALE	Turboshaft	1	Infringement of CAS-T (Class A) by an SA350 at 1500ft, 7nm South East of Farnborough. SA350 given a SVFR clearance to leave CAS-T. Standard separation maintained.	Controller reports workload increasing to high and believes she had previously passed information to the pilot to remain clear of the CAS-T. See also 200702978 and 200702977.
200702997	06/04/2007	EGTT : London (FIR)	Bristol International	10NW	D	CTA	SCOTTISH AVIATION	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a Bulldog at2000ft. Standard separation maintained.	
200703021	05/04/2007	EGTT : London (FIR)	Bournemouth		D	CTR	PIPER	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a PA28 (believed) at 1400ft. Traffic info and avoiding action given to an a/c departing Bournemouth. Standard separation lost.	

200703021	05/04/2007	EGTT : London (FIR)	Bournemouth		D	CTR	UNKNOWN	Unknown		Infringement of the Bournemouth CTR (Class D) by a PA28 (believed) at 1400ft. Traffic info and avoiding action given to an a/c departing Bournemouth. Standard separation lost.	
200703022	09/04/2007	EGTT : London (FIR)	Bournemouth	2 W	D	CTR	PIPER	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a PA28. It appears that the pilot realised the error and left CAS.ATC also informed pilot of the error. IFR departure held on ground.	See also 200504985.
200703041	10/04/2007	EGTT : London (FIR)	Birmingham	10 W	D	CTR	PIPER	Reciprocating	1	PA28 reported lost on 121.5 for the second time in 20mins. When identified a/c was in the Birmingham CTR (Class D).Traffic info and avoiding action given as a result of this incident.	Standard separation maintained but Birmingham inbound traffic affected.
200703041	10/04/2007	EGTT : London (FIR)	Birmingham	10 W	D	CTR	BOEING	Turbofan	2	PA28 reported lost on 121.5 for the second time in 20mins. When identified a/c was in the Birmingham CTR (Class D).Traffic info and avoiding action given as a result of this incident.	Standard separation maintained but Birmingham inbound traffic affected.
200703061	11/04/2007	EGTT : London (FIR)	Denham	4 W	A	CTR	PILATUS	Turboprop	1	Alleged infringement of the London CTR (Class A) by a PC12. Heathrow Northbound departures were stopped. Standard separation maintained.	No response received from the PC12 operator.☐ CAA Closure: No further CAA action practicable.

200703065	09/04/2007	EGTT : London (FIR)	Calshot VRP		D	CTR	PIPER	Reciprocating	1	Two infringements of the Southampton CTR (Class D) by a PA28 receiving a FIS. An inbound EMB145 and the PA28 were both given traffic info.	PA28 left CAS, but then re-entered and exited again. The PA28 pilot subsequently apologised for the errors in navigation and is aware of the serious consequences of infringing CAS. See also 200702055.☐ CAA Closure: No further CAA action required at this time.
200703065	09/04/2007	EGTT : London (FIR)	Calshot VRP		D	CTR	EMBRAER	Turbofan	2	Two infringements of the Southampton CTR (Class D) by a PA28 receiving a FIS. An inbound EMB145 and the PA28 were both given traffic info.	PA28 left CAS, but then re-entered and exited again. The PA28 pilot subsequently apologised for the errors in navigation and is aware of the serious consequences of infringing CAS. See also 200702055.☐ CAA Closure: No further CAA action required at this time.
200703111	11/04/2007	EGTT : London (FIR)	Southampton (SAM)	7 N	D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a C172. Standard separation maintained. Pilot later phoned and apologised for the incident and was given appropriate advice.	
200703118	12/04/2007	EGTT : London (FIR)	London City - LCY	4 NE	D	CTR	CESSNA	Reciprocating	1	C152 infringed the London City Control Zone (Class D) andlost separation with a C525 outbound from City Airport. Traffic info and avoiding action given.	The pilot subsequently rang ATC to apologise for his actions and appropriate advice was passed.☐ CAA Closure: No further CAA action practicable.
200703118	12/04/2007	EGTT : London (FIR)	London City - LCY	4 NE	D	CTR	CESSNA	Turbofan	2	C152 infringed the London City Control Zone (Class D) andlost separation with a C525 outbound from City Airport. Traffic info and avoiding action given.	The pilot subsequently rang ATC to apologise for his actions and appropriate advice was passed.☐ CAA Closure: No further CAA action practicable.

200703155	14/04/2007	EGTT : London (FIR)	Burnham	0.5 W	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTA (Class A) by a C172. Traffic info and avoiding action was given to a/c on approach to Heathrow. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
200703158	14/04/2007	EGTT : London (FIR)	North Weald		D	CTR	OTHER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a DV20 Katana. Traffic info and avoiding action given to Stansted inbound traffic. Luton departures stopped.	No response received from the DV20 Katana operator. See also 200508572.☐ CAA Closure: No further CAA action practicable.
200703158	14/04/2007	EGTT : London (FIR)	North Weald		D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a DV20 Katana. Traffic info and avoiding action given to Stansted inbound traffic. Luton departures stopped.	No response received from the DV20 Katana operator. See also 200508572.☐ CAA Closure: No further CAA action practicable.
200703168	12/04/2007	EGTT : London (FIR)	SPEAR	7 S	A	TMA	VANS	Reciprocating	1	Vans RV9 infringed the London TMA and lost separation with two a/c inbound to London City, a Do328 and a FK50, which were given traffic info. ATC workload became very high.	Attributed to hurried flight planning. Appropriate advicegiven. See also 200607364.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200703168	12/04/2007	EGTT : London (FIR)	SPEAR	7 S	A	TMA	DORNIER	Turboprop	2	Vans RV9 infringed the London TMA and lost separation with two a/c inbound to London City, a Do328 and a FK50, which were given traffic info. ATC workload became very high.	Attributed to hurried flight planning. Appropriate advicegiven. See also 200607364.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.

200703176	14/04/2007	EGTT : London (FIR)	Stansted		D	CTR	CESSNA	Reciprocating	1	C17 infringed the Stansted CTR (Class D) and lost separation with a departing Do328 who was given traffic info and avoiding action. A B747 departed then all departures were stopped.	See also 200501622. Appropriate CAA action is being takenas a result of this incident.
200703176	14/04/2007	EGTT : London (FIR)	Stansted		D	CTR	DORNIER	Turboprop	2	C17 infringed the Stansted CTR (Class D) and lost separation with a departing Do328 who was given traffic info and avoiding action. A B747 departed then all departures were stopped.	See also 200501622. Appropriate CAA action is being takenas a result of this incident.
200703181	15/04/2007	EGTT : London (FIR)	Southampton (SAM)	6 SE	D	CTA	PIPER	Reciprocating	1	Alleged infringement of the Solent CTA (Class D) by a PA28R at 3600ft. Traffic info was given. Standard separation maintained.	
200703254	16/04/2007	EGTT : London (FIR)	North Weald		D	CTA	PIPER	Reciprocating	1	Infringement of Stansted CTA (Class D) by a PA28 at 2000ft. Potential conflict with a B737 descending to 2000ft on approach. B737 turned away from the PA28. Standard separation maintained.	
200703254	16/04/2007	EGTT : London (FIR)	North Weald		D	CTA	BOEING	Turbofan	2	Infringement of Stansted CTA (Class D) by a PA28 at 2000ft. Potential conflict with a B737 descending to 2000ft on approach. B737 turned away from the PA28. Standard separation maintained.	

200703258	15/04/2007	EGTT : London (FIR)	Stansted	12 SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28. Traffic info and avoiding action was given to an inbound B737as PA28 manoeuvred in the area. Standard separation maintained.	Stansted departures suspended. No response received from the PA28 operator. See 200405544.☐ CAA Closure: No furtherCAA action practicable.
200703258	15/04/2007	EGTT : London (FIR)	Stansted	12 SW	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA28. Traffic info and avoiding action was given to an inbound B737as PA28 manoeuvred in the area. Standard separation maintained.	Stansted departures suspended. No response received from the PA28 operator. See 200405544.☐ CAA Closure: No furtherCAA action practicable.
200703312	18/04/2007	EGTT : London (FIR)	London-Gatwick - LGW	12 S	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTA (Class A) by a PA28 at 2800ft receiving a FIS. The a/c was instructed to descend outof the CTA, however, the a/c was seen to climb again to 2800ft. Traffic info given.	The pilot concerned has been fully alerted to the incident and believes it was caused by him selecting the reciprocal radial to the one he required. Standard separation maintained.
200703358	19/04/2007	EGTT : London (FIR)	Honiley (HON)		D	CTR	PIPER	Reciprocating	1	PA28 twice infringed the Birmingham CTR/CTA (Class D). Four a/c were broken off approach sequence. Student pilot reported a navigation error due to distraction with radio problems.	See also 200506433. The Student's instructor was alerted to this incident and discussed the occurrence with the student who received further training.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200703358	19/04/2007	EGTT : London (FIR)	Honiley (HON)		D	CTR	EMBRAER	Turbofan	2	PA28 twice infringed the Birmingham CTR/CTA (Class D). Four a/c were broken off approach sequence. Student pilot reported a navigation error due to distraction with radio problems.	See also 200506433. The Student's instructor was alerted to this incident and discussed the occurrence with the student who received further training.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.

200703363	19/04/2007	EGTT : London (FIR)	Halton	NW	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA46. A/c was given a FIS and told to remain clear of CAS. A/c observed climbing through FL80. Pilot allegedly unaware of the urgencyto descend out of the TMA.	When alerted to the infringement, the pilot was allegedly'laid back' with no apparent understanding of the urgencyof the situation. PA46 pilot subsequently advised that the infringement was caused by a misinterpretation of the map and apologised for his actions. See 200508564. □ CAA Closure: No further CAA action required at this time.
200703364	17/04/2007	EGTT : London (FIR)	Great Dunmow		D	CTR	BEAGLE	Reciprocating	1	Alleged infringement of the Stansted CTR (Class D) by a Beagle Pup. Standard separation maintained.	
200703365	19/04/2007	EGTT : London (FIR)	Redditch		D	CTA	EUROPA	Reciprocating	1	Alleged infringement of the Birmingham CTA (Class D) by aEuropa. Standard separation maintained.	
200703369	19/04/2007	EGTT : London (FIR)	Southampton (SAM)	15 S	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 3400ft, 15nm South of Southampton. Standard separation maintained.	
200703370	19/04/2007	EGTT : London (FIR)	Southampton (SAM)	5 WNW	D	CTA	SLINGSBY	Reciprocating	1	Infringement of the Solent CTA (Class D) by a T67M at an indicated FL40. Standard separation maintained.	

200703376	20/04/2007	EGTT : London (FIR)	London-Heathrow - LHR	NE	A	CTR	PIPER	Reciprocating	1	Infringement of Heathrow CTR (Class A) by a PA28. All Heathrow departures stopped from 0751-0758 hrs. Standard separation maintained.	No response received from the PA28 operator.☐ CAA Closure: No further CAA action practicable.
200703405	21/04/2007	EGTT : London (FIR)	Northolt	NE	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA32. Heathrow Northbound departures were stopped for 2mins. Standardseparation maintained.	A full explanation has been received from the instructor concerned.
200703406	21/04/2007	EGTT : London (FIR)	Birmingham	W	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28. Pilot phoned and discussed incident with ATC. Pilot apologised.	See also 200701772.
200703411	21/04/2007	EGTT : London (FIR)	Wellesbourne Mountford	4 NW	A		CESSNA	Reciprocating	1	Infringement of Airway N859 (Class A) by a C152. Standardseparation maintained. Pilot, an instructor, phoned and apologised for the incident.	
200703417	21/04/2007	EGTT : London (FIR)	London-Heathrow - LHR	23 W	A	TMA	YAKOVLEV	Reciprocating	1	A Yak 18, carrying out aerobatic manoeuvres in close proximity to the Heathrow RMA, infringed the London TMA (ClassA). Also a/c was using a squawk, when the ATC unit had noknowledge of the flight.	CAA Closure: The Hungarian Authorities have advised that they have contacted the operator of the a/c to discuss this incident.

200703594	26/04/2007	EGTT : London (FIR)	Southampton (SAM)	8 S	D	CTA	CESSNA	Reciprocating	1	Infringement of the Southampton CTR/CTA (Class D) by a C172 with possible radio failure. A Saab 2000 and a Trislander were vectored off the approach and given traffic info. Separation maintained.	
200703594	26/04/2007	EGTT : London (FIR)	Southampton (SAM)	8 S	D	CTA	SAAB	Turboprop	2	Infringement of the Southampton CTR/CTA (Class D) by a C172 with possible radio failure. A Saab 2000 and a Trislander were vectored off the approach and given traffic info. Separation maintained.	
200703595	26/04/2007	EGTT : London (FIR)	London City - LCY	4 E	D	CTR	CESSNA	Reciprocating	1	Infringement of the London City CTR/CTA (Class D) by a C172. Pilot advised ATC he was using a chart that was 2yrs old, which did not show the extended London City Zone introduced 13 Apr 2006.	Appropriate advice has been passed to the pilot, who has replaced the map concerned. Standard separation maintained. See also 200606692.
200703638	27/04/2007	EGTT : London (FIR)	Thelwall	2-3SE	D	CTR	AEROSPATIALE	Turboshaft	1	Infringement of the Manchester CTR (Class D) by an AS355 at 800ft. Intended path would have taken the a/c straight through the R/W06 approach path. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
200703646	29/04/2007	EGTT : London (FIR)	Southampton (SAM)		D	CTR	CESSNA	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a C172 squawking 7000. Traffic info given to an EMB145 on approachat 2000ft. Standard separation maintained.	No response received from the C172 operator. See 200602795 and 200603634.□ CAA Closure: No further CAA action practicable.

200703646	29/04/2007	EGTT : London (FIR)	Southampton (SAM)		D	CTR	EMBRAER	Turbofan	2	Infringement of the Southampton CTR (Class D) by a C172 squawking 7000. Traffic info given to an EMB145 on approachat 2000ft. Standard separation maintained.	No response received from the C172 operator. See 200602795 and 200603634.□ CAA Closure: No further CAA action practicable.
200703647	26/04/2007	EGTT : London (FIR)	Stansted	5 NW	D	CTR	SUPERMARINE	Reciprocating	1	Alleged infringement of the Stansted CTR (Class D) by a Spitfire. An inbound B737 was taken off the approach and given traffic info. Standard separation maintained.	
200703647	26/04/2007	EGTT : London (FIR)	Stansted	5 NW	D	CTR	BOEING	Turbofan	2	Alleged infringement of the Stansted CTR (Class D) by a Spitfire. An inbound B737 was taken off the approach and given traffic info. Standard separation maintained.	
200703648	28/04/2007	EGTT : London (FIR)	Weston Supermare		D	CTA	JODEL	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a DR1051. Pilot phoned and apologised for the incident. Standard separation maintained. Pilot had an out of date map.	See also 200606478.
200703654	08/04/2007	EGTT : London (FIR)	Bristol International	10	D	CTA	SCOTTISH AVIATION	Reciprocating	1	CANCELLED - Processed under 200702997	CANCELLED - Processed under 200702997

200703674	21/04/2007	EGTT : London (FIR)	Whitegate (WHI)	2 NE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Liverpool CTR (Class D) by a lost C150 whose pilot called on the frequency. Discrete squawk allocated and steer given for Hawarden, where a/c landed safely.	
200703787	01/05/2007	EGTT : London (FIR)	Lambourne (LAM)	4 E	A	TMA	CESSNA	Reciprocating	1	Infringement of the London TMA (Class A) by a C152 at 3000ft, 4nm East of Lambourne. Traffic info given to a Do228 descending to 3000ft. Standard separation lost.	C152 pilot subsequently given appropriate advice. See also 200504290.□ CAA Closure: No further CAA action practicable.
200703787	01/05/2007	EGTT : London (FIR)	Lambourne (LAM)	4 E	A	TMA	DORNIER	Turboprop	2	Infringement of the London TMA (Class A) by a C152 at 3000ft, 4nm East of Lambourne. Traffic info given to a Do228 descending to 3000ft. Standard separation lost.	C152 pilot subsequently given appropriate advice. See also 200504290.□ CAA Closure: No further CAA action practicable.
200703807	29/04/2007	EGTT : London (FIR)	Cardiff (CDF)	10 W	D	CTA	OTHER	Reciprocating	1	Infringement of the Cardiff CTA (Class D) at 2500ft. Standard separation maintained. Pilot received navigational assistance from ATC.	ATC subsequently spoke to the pilot who stated that he had intended to route from Porlock to Porthcawl at 2000ft. He climbed to 2700ft to keep clear of cloud and routed further East than planned.

200703867	05/05/2007	EGTT : London (FIR)	Southampton (SAM)	8 NE	D	CTR	OTHER	Reciprocating	1	Two infringements of the Southampton CTR (Class D) by a microlight. A/c was identified. Standard separation maintained.	No response received from the microlight operator. ☐ CAAClosure: No further CAA action practicable.
200703868	05/05/2007	EGTT : London (FIR)	Southampton (SAM)	8 NE	D	CTR	CESSNA	Reciprocating	1	C150 that had been told to standby and remain outside CASinfringed the Southampton CTR (Class D). Pilot advised ofincident and cleared to continue not above 2000ft. Standard separation maintained.	
200703869	05/05/2007	EGTT : London (FIR)	Southampton (SAM)	12 N	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) and the LTMA (Class A) by a PA28 at FL38, 12nm North of Southampton. Traffic info given to an a/c inbound to Popham. Standard separation maintained.	The PA28 pilot subsequently spoke to ATC and is now fullyaware of the error.☐ CAA Closure: No further CAA action required at this time.
200703869	05/05/2007	EGTT : London (FIR)	Southampton (SAM)	12 N	D	CTA	UNKNOWN	Unknown		Infringement of the Solent CTA (Class D) and the LTMA (Class A) by a PA28 at FL38, 12nm North of Southampton. Traffic info given to an a/c inbound to Popham. Standard separation maintained.	The PA28 pilot subsequently spoke to ATC and is now fullyaware of the error.☐ CAA Closure: No further CAA action required at this time.
200703870	05/05/2007	EGTT : London (FIR)	Southampton (SAM)	5 NE	D	CTA	SOCATA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a TB20 at 2000ft, 5nm North East of Southampton. Standard separation maintained.	

200703872	05/05/2007	EGTT : London (FIR)	Bath	5 N	D	CTR	CESSNA	Reciprocating	1	Infringement of the Bristol CTR (Class D) by a C182 at 4000ft, 5nm North of Bath. Standard separation maintained.	See also 200506353.
200703877	06/05/2007	EGTT : London (FIR)	Andrewsfield		D	CTA	SOCATA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a TB20 at 2000ft at Andrewsfield. ATC contacted pilot and TB20 descended to base of CAS at 1500ft. Standard separation maintained.	B737 inbound to Stansted, re-vectorred for approach until the infringer was identified.
200703888	06/05/2007	EGTT : London (FIR)	Stansted	2 E	D	CTR	BOEING	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a Stearman formation at 1500ft, 2nm East of Stansted. Traffic info given to several a/c. Standard separation maintained.	Problems generally experienced handling a/c for the GreatEaston Air Display. Believed incident due to an error in navigation. □ CAA Closure: Pilots now fully aware of the serious consequences of infringing CAS.
200703890	04/05/2007	EGTT : London (FIR)	Luton (LUT)		D	CTR	CESSNA	Reciprocating	1	Pilot of C152 misidentified Harpenden for St Albans and infringed the Luton CTR (Class D). A/c was identified and given a heading to leave the zone. Standard separation maintained.	After this infringement, the pilot contacted D&D stating being unsure of his position.
200703965	03/05/2007	EGTT : London (FIR)	Nottingham East Midlands	7 W	D	CTA	ROBINSON	Reciprocating	1	R44 infringed Nottingham East Midlands CTA (Class D). An inbound A320 being vectored for ILS R/W09 was given headings around R44. Pilot phoned and apologised stating he descended late due to weather.	

200703965	03/05/2007	EGTT : London (FIR)	Nottingham East Midlands	7 W	D	CTA	AIRBUS	Turbofan	2	R44 infringed Nottingham East Midlands CTA (Class D). An inbound A320 being vectored for ILS R/W09 was given headings around R44. Pilot phoned and apologised stating he descended late due to weather.	
200704125	12/05/2007	EGTT : London (FIR)	Luton (LUT)	15 N	A	TMA	AVIONS ROBIN	Reciprocating	1	Alleged infringement of the London TMA (Class A) by a DR400 at 4000ft, 15nm North of Luton. B737 inbound to Luton given traffic info and avoiding action. Standard separationlost.	Appropriate CAA action is to be taken as a result of thisincident.
200704125	12/05/2007	EGTT : London (FIR)	Luton (LUT)	15 N	A	TMA	BOEING	Turbofan	2	Alleged infringement of the London TMA (Class A) by a DR400 at 4000ft, 15nm North of Luton. B737 inbound to Luton given traffic info and avoiding action. Standard separationlost.	Appropriate CAA action is to be taken as a result of thisincident.
200704138	11/05/2007	EGTT : London (FIR)	Biggin (BIG)	E	A	TMA	CIRRUS	Reciprocating	1	Infringement of the London TMA (Class A) by an SR22 at 3100ft, between Detling and Biggin Hill. ATC report that thea/c was not showing on radar for some time within CAS.	Standard separation maintained. A/c transferred to Heathrow SVFR and continued without further incident. Investigation under 200700709.
200704301	18/05/2007	EGTT : London (FIR)	Birmingham	15NW	A		PIPER	Reciprocating	1	Infringement of Airway (Class A) by a PA28 at FL60. Standard separation maintained. Pilot advised of his error and apologised.	Pilot stated that he was caught out by a stronger than expected tailwind.

200704376	18/05/2007	EGTT : London (FIR)	Thelwall	4SE	D	CTR	MD HELICOPTER	Turboshaft	1	Infringement of CTR (Class D) by an MD600, squawking 7000, at 1000ft. Departures were stopped until a/c was identified. Standard separation maintained.	
200704378	19/05/2007	EGTT : London (FIR)	Southampton (SAM)		D	CTA	JODEL	Reciprocating	1	Infringement of Solent CTA (Class D) by a Robin DR253 at 2400ft squawking 7000. DR253 then descended out of CAS. Standard separation maintained.	
200704379	19/05/2007	EGTT : London (FIR)	Bournemouth		D	CTA	GRUMMAN	Reciprocating	1	Alleged infringement of the Solent CTA (Class D) by an AA5. Standard separation maintained.	See also 200505451. Investigation continues under 200505462.
200704380	19/05/2007	EGTT : London (FIR)	Old Warden	2 S	D	CTA	SUKHOI	Reciprocating	1	Sukhoi, whilst carrying out an air display receiving a FIS, infringed London CTA (Class D). Pilot apologised. Two inbound flights were turned away from the area that Sukhoi was operating in.	
200704382	19/05/2007	EGTT : London (FIR)	Stansted	12	D	CTA	CEA	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a DR300. Stansted inbounds and outbounds were not affected. Standard separation maintained.	DR300 allegedly also passed overhead the Wethersfield gliding site, which was active at the time.

200704412	16/05/2007	EGTT : London (FIR)	Doncaster Sheffield		G	ATZ	ROBINSON	Reciprocating	1	Infringement of Doncaster ATZ (Class G) by a Robinson R44at 500ft. Standard separation maintained.	
200704449	22/05/2007	EGTT : London (FIR)	Luton (LUT)	8 W	A	CTR	ROBINSON	Reciprocating	1	Alleged infringement of the Luton CTR (Class D) and the Heathrow CTR (Class A) by an R44. Departures at both airports affected. Separation lost.	No response received from the R44 operator.☐ CAA Closure:No further CAA action practicable.
200704449	22/05/2007	EGTT : London (FIR)	Luton (LUT)	8 W	A	CTR	AIRBUS	Turbofan	2	Alleged infringement of the Luton CTR (Class D) and the Heathrow CTR (Class A) by an R44. Departures at both airports affected. Separation lost.	No response received from the R44 operator.☐ CAA Closure:No further CAA action practicable.
200704467	22/05/2007	EGTT : London (FIR)	Birmingham	8 WNW	D	CTR	PIPER	Reciprocating	1	PA28R with radio failure infringed the Birmingham CTR (Class D). Three a/c in the radar pattern were vectored clearof PA28R and standard separation maintained. Pilot telephoned and apologised.	
200704469	20/05/2007	EGTT : London (FIR)	Colerne	5 N	D	CTA	PIPER	Reciprocating	1	PA28 infringed the Bristol CTA (Class D) and identified inside CAS. Pilot apologised for the incident. Standard separation maintained.	Pilot informed of infringement and stated being in contact with Filton and assumed Filton had coordinated PA28 intothe Bristol CTA.

200704491	23/05/2007	EGTT : London (FIR)	Epping		D	CTA	OTHER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by an MCR01 at2000ft at Epping. Traffic info given to an S76. Standard separation maintained.	
200704491	23/05/2007	EGTT : London (FIR)	Epping		D	CTA	SIKORSKY	Turboshaft	2	Infringement of the Stansted CTA (Class D) by an MCR01 at2000ft at Epping. Traffic info given to an S76. Standard separation maintained.	
200704525	23/05/2007	EGTT : London (FIR)	Bristol International	1.5SE	D	CTA	GROB	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a Grob at 5500ft. A319 descent was stopped at FL70 as a precaution. Standard separation maintained.	
200704525	23/05/2007	EGTT : London (FIR)	Bristol International	1.5SE	D	CTA	AIRBUS	Turbofan	2	Infringement of the Bristol CTA (Class D) by a Grob at 5500ft. A319 descent was stopped at FL70 as a precaution. Standard separation maintained.	
200704562	22/05/2007	EGTT : London (FIR)	Coventry		G	ATZ	PIPER	Reciprocating	1	Infringement of the Coventry ATZ (Class G) by a PA28 thatwas observed flying up the R/W23 approach.	Appropriate CAA action is being taken as a result of thisoccurrence. See also 200702977.

200704609	25/05/2007	EGTT : London (FIR)	Goodwood (GWC)	15 SE	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 squawking 7000 at FL69. Separation lost with a BE90 descending to FL70. STCA and SMF activated.	Appropriate CAA action is being taken as a result of thisincident.
200704609	25/05/2007	EGTT : London (FIR)	Goodwood (GWC)	15 SE	A	TMA	BEECH	Turboprop	2	Infringement of the LTMA (Class A) by a PA28 squawking 7000 at FL69. Separation lost with a BE90 descending to FL70. STCA and SMF activated.	Appropriate CAA action is being taken as a result of thisincident.
200704613	26/05/2007	EGTT : London (FIR)	ORTAC	12NE	A		PIPER	Reciprocating	1	Infringement of Airway N866 (Class A) by a PA28 at FL61. A/c squawk changed to a Jersey code. Jersey contacted who stated they would turn the a/c out of the Airway. Standardseparation maintained.	
200704614	20/05/2007	EGTT : London (FIR)	Bristol International	8 E	D	CTA	HUGHES	Turboshaft	1	Infringement of the Bristol CTA (Class D) by a Hughes 369at 2700ft. ATC queried with the pilot if he had an up-to-date map, which the pilot confirmed. Standard separation maintained.	
200704615	23/05/2007	EGTT : London (FIR)	Bristol International	6 SE	D	CTA	BEECH	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a BE36 at 4300ft, 6nm South East of Bristol. Standard separation maintained.	It was alleged that the pilot did not understand the passing of the intended routing to the ATC unit does not ensure that a clearance to enter CAS has been issued. ATC controller did not include the phrase "remain outside of controlled airspace" when addressing the pilot. Appropriate action has been taken.

200704649	22/05/2007	EGTT : London (FIR)	Church Fenton		G	ATZ	CESSNA	Reciprocating	1	C172 allegedly failed to comply with Standing Agreement or follow ATC instructions, which resulted in an infringement of the Church Fenton ATZ. Circuit was clear at time of incident.	
200704674	29/05/2007	EGTT : London (FIR)	Stansted	5N	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C152 at 1500ft. Pilot was temporarily unaware of his position and contacted ATC immediately.	
200704677	29/05/2007	EGTT : London (FIR)	London-Heathrow - LHR	4W	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by PA28 at 2000ft. Standard separation maintained. Disruption to Heathrow operations.	Appropriate CAA action is to be taken as a result of thisincident.
200704778	31/05/2007	EGTT : London (FIR)	London-Gatwick - LGW	NW	D	CTA	PIPER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a PA28 at 2200ft. Standard separation maintained.	
200704810	01/06/2007	EGTT : London (FIR)	Stansted	12 SW	D	CTA	GRUMMAN	Reciprocating	1	AA5, initially unidentified, allegedly infringed the Stansted CTA (Class D) and lost separation with an inbound B737, which was given traffic info.	No response received from the AA5 operator.☐ CAA Closure:No further CAA action practicable.

200704810	01/06/2007	EGTT : London (FIR)	Stansted	12 SW	D	CTA	BOEING	Turbofan	2	AA5, initially unidentified, allegedly infringed the Stansted CTA (Class D) and lost separation with an inbound B737, which was given traffic info.	No response received from the AA5 operator.☐ CAA Closure:No further CAA action practicable.
200704818	25/05/2007	EGTT : London (FIR)	Isle Of Man (IOM)	10NW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Isle of Man CTR (Class D) by a C182 at FL35. Standard separation maintained.	
200704846	03/06/2007	EGTT : London (FIR)	Bath	13 SE	D	CTA	GROB	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a Grob 115 at 5000ft. Standard separation maintained.	
200704911	01/06/2007	EGTT : London (FIR)	Southampton (SAM)	14 S	D	CTA	PIPER	Reciprocating	1	Alleged infringement of the Solent CTA (Class D) by a PA28. Standard separation maintained.	
200704916	02/06/2007	EGTT : London (FIR)	Luton (LUT)	12 W	A	TMA	CIRRUS	Reciprocating	1	Infringement of the LTMA (Class A) and Luton CTA (Class D) by an SR22 at 4000ft. Traffic info and avoiding action had to be given to an HS125. Separation lost.	The pilot has subsequently apologised for this incident. See also 200709598, 200606229, 200606150, 200505732 and 200504706.

200704916	02/06/2007	EGTT : London (FIR)	Luton (LUT)	12 W	A	TMA	HAWKER SIDDELEY	Turbofan	2	Infringement of the LTMA (Class A) and Luton CTA (Class D) by an SR22 at 4000ft. Traffic info and avoiding action had to be given to an HS125. Separation lost.	The pilot has subsequently apologised for this incident. See also 200709598, 200606229, 200606150, 200505732 and 200504706.
200704992	23/05/2007	EGTT : London (FIR)	Southampton (SAM)	4 W	D	CTA	FOURNIER	Reciprocating	1	Infringement of the Southampton CTA (Class D) by two motor gliders. Standard separation maintained.	
200704992	23/05/2007	EGTT : London (FIR)	Southampton (SAM)	4 W	D	CTA	OTHER	Reciprocating	1	Infringement of the Southampton CTA (Class D) by two motor gliders. Standard separation maintained.	
200705001	05/06/2007	EGTT : London (FIR)	Honiley (HON)		D	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a PA38. Traffic info was given to an inbound EMB145. Standard separation maintained.	No response received from the PA38 operator. See also 200605515. <input type="checkbox"/> CAA Closure: No further CAA action practicable.
200705001	05/06/2007	EGTT : London (FIR)	Honiley (HON)		D	CTR	EMBRAER	Turbofan	2	Infringement of the Birmingham CTR (Class D) by a PA38. Traffic info was given to an inbound EMB145. Standard separation maintained.	No response received from the PA38 operator. See also 200605515. <input type="checkbox"/> CAA Closure: No further CAA action practicable.

200705005	31/05/2007	EGTT : London (FIR)	Portsmouth		G	Danger area	PIPER	Reciprocating	1	Alleged infringement of active Danger Area EG D036 (Portsmouth) by a PA28.	No response received from the PA28 operator. See also 200704911.☐ CAA Closure: No further CAA action practicable.
200705014	06/06/2007	EGTT : London (FIR)	Biggin (BIG)	12nm S			CESSNA	Reciprocating	1	D&D Cell Report: Pilot lost. PAN declared. Discrete squawk allocated, position fixed and steer given for Shoreham. During recovery a/c entered Gatwick CAS, tracking south through R/W080 climb out.	See also 200605610, 200605556.
200705030	02/06/2007	EGTT : London (FIR)	Southampton (SAM)	6	D	CTR	OTHER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a microlight at 1600ft. Traffic info and avoiding action given to an ATR72 inbound to Southampton. Standard separation maintained.	
200705030	02/06/2007	EGTT : London (FIR)	Southampton (SAM)	6	D	CTR	ATR	Turboprop	2	Infringement of the Southampton CTR (Class D) by a microlight at 1600ft. Traffic info and avoiding action given to an ATR72 inbound to Southampton. Standard separation maintained.	
200705054	30/05/2007	EGTT : London (FIR)	Farnborough	10 E	A		ENSTROM	Turboshaft	1	Infringement of CAS-T (Class A) by an Enstrom 480. Traffic info and avoiding action was given to a C560 departing Farnborough. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.

200705054	30/05/2007	EGTT : London (FIR)	Farnborough	10 E	A		CESSNA	Turbofan	2	Infringement of CAS-T (Class A) by an Enstrom 480. Traffic info and avoiding action was given to a C560 departing Farnborough. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
200705061	07/06/2007	EGTT : London (FIR)	Bagshot	2SE	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28 at 1400ft, 2nm Southeast of Bagshot. Traffic info given. Standard separation maintained.	
200705062	07/06/2007	EGTT : London (FIR)	London City - LCY	5NE	D	CTA	PIPER	Reciprocating	1	Infringement of the London City CTA (Class D) by a PA32 at 1900ft, 5nm Northeast of London City. Traffic info and avoiding action given to a BE200. Standard separation maintained.	STCA activated.
200705062	07/06/2007	EGTT : London (FIR)	London City - LCY	5NE	D	CTA	BEECH	Turboprop	2	Infringement of the London City CTA (Class D) by a PA32 at 1900ft, 5nm Northeast of London City. Traffic info and avoiding action given to a BE200. Standard separation maintained.	STCA activated.
200705121	07/06/2007	EGTT : London (FIR)	Manchester (MCT)	8 E	D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a PA32 at1000ft. Standard separation maintained.	

200705122	09/06/2007	EGTT : London (FIR)	Honiley (HON)	5.5	D	CTA	BELL	Turboshaft	1	Infringement of the Birmingham CTA (Class D) by Bell 206 at 2300ft. Standard separation maintained.	Bell 206 entered CAS due to poor interpretation of GPS bythe pilot.
200705125	09/06/2007	EGTT : London (FIR)	Calshot VRP		D	CTR	CESSNA	Reciprocating	1	C150 called ATC requesting and was given a FIS. C150 advised routeing via Stoney Cross and told to report at StoneyCross. C150 subsequently infringed the Southampton CTR (Class D).	Departing a/c delayed while infringing a/c vacated. No response received from the C150 operator. See also 200611118. CAA Closure: No further CAA action practicable.
200705133	10/06/2007	EGTT : London (FIR)	Polehill (POL)		A		CIRRUS	Reciprocating	1	Infringement of Class A Airspace at POL by a Cirrus SR22 at FL70. Standard separation maintained.	
200705140	10/06/2007	EGTT : London (FIR)	Burnham	N	A	CTR	WESTLAND	Turboshaft	1	Infringement of the London CTR (Class A) by a Gazelle helicopter. An A109 transiting the CTR was given traffic infoand a turn to maintain separation from the Gazelle.	See also 200304990.
200705140	10/06/2007	EGTT : London (FIR)	Burnham	N	A	CTR	AGUSTA	Turboshaft	2	Infringement of the London CTR (Class A) by a Gazelle helicopter. An A109 transiting the CTR was given traffic infoand a turn to maintain separation from the Gazelle.	See also 200304990.

200705141	09/06/2007	EGTT : London (FIR)	Westcott (WCO)	5 NW	A		SOCATA	Reciprocating	1	TB10 infringed the Daventry CTA (Class A) and lost separation with A319 inbound to Luton, who was broken off the approach. A/c subsequently identified as a TB10. Incident discussed with pilot.	Appropriate advice was given to pilot, who is taking further training. STCA and SMF activated.
200705141	09/06/2007	EGTT : London (FIR)	Westcott (WCO)	5 NW	A		AIRBUS	Turbofan	2	TB10 infringed the Daventry CTA (Class A) and lost separation with A319 inbound to Luton, who was broken off the approach. A/c subsequently identified as a TB10. Incident discussed with pilot.	Appropriate advice was given to pilot, who is taking further training. STCA and SMF activated.
200705199	09/06/2007	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	PIPER	Reciprocating	1	Alleged infringement of the Biggin Hill ATZ (Class G) by a PA32 receiving a service from Thames Radar, who had toldthe PA32 to remain clear of ATZ.	No response received from the PA32 operator. See also 200705121.□ CAA Closure: No further CAA action practicable.
200705200	08/06/2007	EGTT : London (FIR)	Isle of Man (IOM)		G	Restrict ed area	AEROSPATIALE	Turboshaft	1	ATC were unable to contact AS350 that allegedly infringedthe Isle of Man RA(T), which was active and NOTAMed.	The pilot spoke to ATC after the event. He was unable to raise ATC and routed to the North to avoid CAS. He is now fully aware of the importance of thoroughly checking the NOTAMs.□ CAA Closure: No further CAA action required at this time.
200705217	11/06/2007	EGTT : London (FIR)	Honiley (HON)		D	CTR	SOCATA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a TB20 that had departed Coventry. Coventry had given heading instructions to the a/c, which a/c failed to follow. Traffic info given.	TB20 pilot subsequently apologised and advised that a faulty HSI had contributed to the incident. See also 200609408.□ CAA Closure: No further CAA action required at this time.

200705226	10/06/2007	EGTT : London (FIR)	Berry Head (BHD)		A		CESSNA	Reciprocating	1	Infringement of Airway (Class A) in the BHD area by a C172 at FL75. Standard separation maintained.	
200705250	10/06/2007	EGTT : London (FIR)	Cosford	2.5	G	Restrict ed area	OTHER	Reciprocating	1	Infringement of the RA (T) for the Red Arrows at Cosford by an unidentified microlight. Traffic info was passed onto the Red Arrows and display disrupted.	
200705250	10/06/2007	EGTT : London (FIR)	Cosford	2.5	G	Restrict ed area	OTHER	Unknown		Infringement of the RA (T) for the Red Arrows at Cosford by an unidentified microlight. Traffic info was passed onto the Red Arrows and display disrupted.	
200705258	12/06/2007	EGTT : London (FIR)	Southampton (SAM)	7.8 N	D	CTR	PIPER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a PA28, which had been told to remain outside of CAS. Traffic info was given to PA28 on an inbound DHC8. Standard separation maintained.	Additionally, DHC8 given traffic info on PA28. See also 200706832. ☐ CAA Closure: PA28 operator contacted but no further information became available. No further CAA action practicable due to elapsed time.
200705258	12/06/2007	EGTT : London (FIR)	Southampton (SAM)	7.8 N	D	CTR	DE HAVILLAND	Turboprop	2	Infringement of the Southampton CTR (Class D) by a PA28, which had been told to remain outside of CAS. Traffic info was given to PA28 on an inbound DHC8. Standard separation maintained.	Additionally, DHC8 given traffic info on PA28. See also 200706832. ☐ CAA Closure: PA28 operator contacted but no further information became available. No further CAA action practicable due to elapsed time.

200705259	10/06/2007	EGTT : London (FIR)	Imber	EG D123	G	Danger area	GARDAN	Reciprocating	1	GY80 allegedly infringed active Danger Area EG D123 (Imber). GY80 contacted ATC advising he was unsure of his position. Radar indicated GY80 was probably inside D123 and wastold leave immediately.	
200705306	13/06/2007	EGTT : London (FIR)	Stansted	10 SW	D	CTR	VANS	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a Vans RV6 at 2000ft. Traffic info given to a B737 on initial climb out of Stansted. Standard separation maintained.	Pilot later called ATC and apologised for his error in VOR tracking.
200705306	13/06/2007	EGTT : London (FIR)	Stansted	10 SW	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a Vans RV6 at 2000ft. Traffic info given to a B737 on initial climb out of Stansted. Standard separation maintained.	Pilot later called ATC and apologised for his error in VOR tracking.
200705397	07/06/2007	EGTT : London (FIR)	Harlow		D	CTR	PITTS	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a Pitts Special. Traffic info was given to an inbound a/c. Standard separation maintained.	
200705397	07/06/2007	EGTT : London (FIR)	Harlow		D	CTR	UNKNOWN	Unknown		Infringement of the Stansted CTR (Class D) by a Pitts Special. Traffic info was given to an inbound a/c. Standard separation maintained.	

200705398	16/06/2007	EGTT : London (FIR)	5217N 00134E		G	Restricted area	CESSNA	Reciprocating	1	Infringement of an RA(T) by a C152 at 1000ft. Military formation in proximity at the time.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200705398	16/06/2007	EGTT : London (FIR)	5217N 00134E		G	Restricted area	OTHER	Unknown		Infringement of an RA(T) by a C152 at 1000ft. Military formation in proximity at the time.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200705399	17/06/2007	EGTT : London (FIR)	Northolt	4 N	A	CTR	PIPER	Reciprocating	1	Infringement of Heathrow CTR (Class A) by a PA28 squawking 7000. Standard separation maintained.	Following this incident, student pilot involved has repeated the route several times with instructors. The CFI has been instructed to give 4 hours additional cross-country navigation instruction to the student concerned. Investigation under 200705523. See also 200500858, 200504237, 200608848 and 200610199.
200705402	17/06/2007	EGTT : London (FIR)	Brookmans Park (BPK)		A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA46 at 5900ft squawking 7000. Standard separation maintained.	PA46 owner was requested several times to provide further information but, as at 14 Jan 2008, had not done so. FAA advised. See 200607955. CAA Closure: No further CAA action practicable due to elapsed time.
200705434	13/06/2007	EGTT : London (FIR)	Luton (LUT)	SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by PA28. As the PA28 was leaving the zone, B737 was allowed to depart but the PA28 turned back towards B737. Traffic info given. Separation lost.	A further a/c was delayed. The PA28 was being flown by a student on her first long solo navigation exercise. Appropriate and comprehensive remedial action is being taken by the CFI of the flying school.

200705434	13/06/2007	EGTT : London (FIR)	Luton (LUT)	SW	D	CTR	BOEING	Turbofan	2	Infringement of the Luton CTR (Class D) by PA28. As the PA28 was leaving the zone, B737 was allowed to depart but the PA28 turned back towards B737. Traffic info given. Separation lost.	A further a/c was delayed. The PA28 was being flown by a student on her first long solo navigation exercise. Appropriate and comprehensive remedial action is being taken by the CFI of the flying school.
200705454	06/06/2007	EGTT : London (FIR)	Luton (LUT)	8 W	D	CTR	CESSNA	Reciprocating	1	Unidentified a/c infringed the Luton CTR (Class D) and lost separation with an inbound EMB135, which was given traffic info. A/c identified as a C182.	Investigation ascertained that the C182 pilot experienceddifficulty contacting Luton ATC. It transpired that therehad been a change of frequency, the NOTAM for which was not available before the C182 became airborne. It is suspected that the infringement occurred while the pilot was checking the frequency and relaying with other a/c to obtain the new frequency. Pilot apologised for the incident.□ CAAClosure: No further CAA action required at this time.
200705454	06/06/2007	EGTT : London (FIR)	Luton (LUT)	8 W	D	CTR	EMBRAER	Turbofan	2	Unidentified a/c infringed the Luton CTR (Class D) and lost separation with an inbound EMB135, which was given traffic info. A/c identified as a C182.	Investigation ascertained that the C182 pilot experienceddifficulty contacting Luton ATC. It transpired that therehad been a change of frequency, the NOTAM for which was not available before the C182 became airborne. It is suspected that the infringement occurred while the pilot was checking the frequency and relaying with other a/c to obtain the new frequency. Pilot apologised for the incident.□ CAAClosure: No further CAA action required at this time.
200705467	17/06/2007	EGTT : London (FIR)	Luton (LUT)	NW	D	CTR	OTHER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a microlight. The a/c was on a 7000 squawk with Mode C indicating 1200ft. Standard separation maintained. See 200202905.	
200705561	20/06/2007	EGTT : London (FIR)	Burnham		A	CTR	BELL	Turboshaft	1	Infringement of the London CTR (Class A) by Bell 206 at Burnham. Squawk 4777 'Ascot' displayed. All London Heathrowdepartures suspended until a/c identified and altitude established.	Traffic info given. Standard separation maintained. The Bell 206 pilot subsequently apologised for the navigationerror. He was using black and white photocopies of the arrival and departure procedures for Ascot and turned to theEast too early, resulting in the infringement. The pilot stated that, on reflection, the use of colour copies of the pilot's brief could have avoided this error. He is fullyaware of the serious consequences of infringing CAS.□ CAAClosure: No further CAA action required at this time.

200705610	20/06/2007	EGTT : London (FIR)	Belfast (BEL)	6E	D	CTR	CESSNA	Reciprocating	1	Infringements of the Belfast City CTR (Class D) and the Belfast CTR (Class D) by a C206 at 1500ft. Standard separation maintained.	Appropriate CAA action is being taken as a result of these infringements.
200705654	20/06/2007	EGTT : London (FIR)	Imber		G	Danger area		Turboshaft	1	Alleged infringement of active Salisbury Plain Danger Area EG D123 (Imber) by a Hughes 369 at 1500ft.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200705678	15/06/2007	EGTT : London (FIR)	Shoeburyness		G	Danger area	OTHER	Reciprocating	1	Infringement of active Danger Area EG D138 (Shoeburyness)by a microlight.	No response received from the microlight operator. <input type="checkbox"/> CAAClosure: No further CAA action practicable.
200705679	22/06/2007	EGTT : London (FIR)	Sheerness		G	Danger area	PIPER	Reciprocating	1	Infringement of active Yantlet Danger Area (146) by a PA28 at 2000ft. A/c had called ATC requesting FIS. Pilot advised of Danger Area and placed on FIS. Shortly afterwards, a/c seen infringing D146.	
200705738	23/06/2007	EGTT : London (FIR)	Glastonbury		G	Restrict ed area	BELL	Turboshaft	1	Infringement of the RA(T) (Restricted Airspace Temporary)around Glastonbury by a Bell 206.	Appropriate CAA action is being taken as a result of thisincident.

200705768	17/06/2007	EGTT : London (FIR)	Burnham	6 NNW	A	CTR	PIPER	Reciprocating	1	PA28 at 1800ft had been told to remain outside CAS, but subsequently infringed the London CTR (Class A). Standard separation maintained.	PA28 pilot believed that he had remained outside of controlled airspace, however, diagram submitted by ATC to support their report suggested otherwise. Pilot advised accordingly and reminded of the importance of adequate pre-flightplanning and also of remaining outside of controlled airspace. See also 200608356 and 200704613.□ CAA Closure: No further CAA action required at this time.
200705861	27/06/2007	EGTT : London (FIR)	Stretton		D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a PA28 at1100ft at Stretton. A/c identified and contact established. Pilot alerted to his position and instructed to contactATC on arrival.	Traffic info given.
200705903	28/06/2007	EGTT : London (FIR)	JACKO		A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) at JACKO by a PA28 at FL105. Standard separation maintained.	
200705944	01/07/2007	EGTT : London (FIR)	Stansted	NW	A	TMA	BELL	Turboshaft	1	Infringement of the LTMA (Class A) and Stansted CTA (Class D) by an unknown helicopter at 1900ft, believed to be a Bell 206. Traffic info was given to a B737. Standard separation maintained.	
200705944	01/07/2007	EGTT : London (FIR)	Stansted	NW	A	TMA	BOEING	Turbofan	2	Infringement of the LTMA (Class A) and Stansted CTA (Class D) by an unknown helicopter at 1900ft, believed to be a Bell 206. Traffic info was given to a B737. Standard separation maintained.	

200705951	30/06/2007	EGTT : London (FIR)	Luton (LUT)	10 E	D	CTR	SIAI MARCHETTI	Reciprocating	1	Infringement of the Luton CTR (Class D). An inbound A300 was broken off the final approach. Standard separation maintained. After landing, pilot reported that the HSI may beunserviceable.	
200705951	30/06/2007	EGTT : London (FIR)	Luton (LUT)	10 E	D	CTR	AIRBUS	Turbofan	2	Infringement of the Luton CTR (Class D). An inbound A300 was broken off the final approach. Standard separation maintained. After landing, pilot reported that the HSI may beunserviceable.	
200706010	08/06/2007	EGTT : London (FIR)	Colerne		G	ATZ	BELL	Turboshaft	1	Alleged infringement of the Colerne ATZ by a Bell 206 at 1000ft. Visibility was reduced in mist and a low cloud base. Pilot traced and apologised stating that he thought he was outside the ATZ.	
200706077	03/07/2007	EGTT : London (FIR)	Luton (LUT)	1 W	D	CTR	PIPER	Reciprocating	1	PA28 infringed the Luton CTR (Class D) and lost separation with an outbound A319, who was given traffic info and obtained the PA28 visually.	Appropriate CAA action is to be taken as a result of thisincident.
200706077	03/07/2007	EGTT : London (FIR)	Luton (LUT)	1 W	D	CTR	AIRBUS	Turbofan	2	PA28 infringed the Luton CTR (Class D) and lost separation with an outbound A319, who was given traffic info and obtained the PA28 visually.	Appropriate CAA action is to be taken as a result of thisincident.

200706086	02/07/2007	EGTT : London (FIR)	Shoeburyness		G	Danger area	OTHER	Unknown		A Corsair and a Spitfire flying together infringed activeDanger Area EG D138 (Shoeburyness).	The pilot of the lead a/c (Corsair) subsequently admittedto the infringement, having mis-read the map. Appropriateadvice given. □ CAA Closure: No further CAA action required at this time.
200706086	02/07/2007	EGTT : London (FIR)	Shoeburyness		G	Danger area	SUPERMARINE	Reciprocating	1	A Corsair and a Spitfire flying together infringed activeDanger Area EG D138 (Shoeburyness).	The pilot of the lead a/c (Corsair) subsequently admittedto the infringement, having mis-read the map. Appropriateadvice given. □ CAA Closure: No further CAA action required at this time.
200706150	17/06/2007	EGTT : London (FIR)	Sizewell Power Station	4 NW	G	Restrictedd area	PIPER	Reciprocating	1	Infringement of the Falkland Islands Anniversary Flypast RA(T) by a PA28. Military a/c operating in the area were given traffic info.	CAA Closure: Appropriate CAA action is to be taken as a result of this incident. See also 200709598, 200704916, 200606229, 200505732 and 200504706.
200706150	17/06/2007	EGTT : London (FIR)	Sizewell Power Station	4 NW	G	Restrictedd area	OTHER	Unknown		Infringement of the Falkland Islands Anniversary Flypast RA(T) by a PA28. Military a/c operating in the area were given traffic info.	CAA Closure: Appropriate CAA action is to be taken as a result of this incident. See also 200709598, 200704916, 200606229, 200505732 and 200504706.
200706152	13/06/2007	EGTT : London (FIR)	Sizewell Power Station (Suffol	S	G	Restrictedd area	SCOTTISH AVIATION	Reciprocating	1	Infringement of an RA(T) by a Bulldog squawking 7000 at 6000ft, Southwest of Sizewell Power Station.	

200706152	13/06/2007	EGTT : London (FIR)	Sizewell Power Station (Suffol	S	G	Restrict ed area	OTHER	Unknown		Infringement of an RA(T) by a Bulldog squawking 7000 at 6000ft, Southwest of Sizewell Power Station.	
200706154	02/07/2007	EGTT : London (FIR)	GARMI		G	Danger area	DIAMOND	Reciprocating	1	Infringement of active Danger Area EG D036 (Portsmouth) by DA40D that was following the VFR route, which is available when there is no activity within Danger Area. Pilot wasgiven appropriate advice.	
200706172	17/06/2007	EGTT : London (FIR)	Unknown		G	Restrict ed area	CIRRUS	Reciprocating	1	SR22 infringed the Falkland Islands Flypast RA(T). Military a/c operating in the area were given traffic info. SR22contacted D&D(S) and was put on a heading to leave the RA(T).	
200706182	06/07/2007	EGTT : London (FIR)	Biggin (BIG)	7 ESE	A	TMA	CESSNA	Reciprocating	1	C172 infringed the London TMA (Class A). Traffic info andavoiding action was given to DHC8. STCA activated.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200706182	06/07/2007	EGTT : London (FIR)	Biggin (BIG)	7 ESE	A	TMA	DE HAVILLAND	Turboprop	2	C172 infringed the London TMA (Class A). Traffic info andavoiding action was given to DHC8. STCA activated.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.

200706183	05/07/2007	EGTT : London (FIR)	Stansted	7 NE	D	CTA	OTHER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a P92 microlight. An inbound B757 was given traffic info and avoidingaction and a following B737 was broken off the approach.	Microlight pilot subsequently apologised for the infringement, citing a short failure of the on-board power supply,which resulted in the satellite navigation systems being temporarily unavailable.□ CAA Closure: No further CAA action required at this time.
200706183	05/07/2007	EGTT : London (FIR)	Stansted	7 NE	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a P92 microlight. An inbound B757 was given traffic info and avoidingaction and a following B737 was broken off the approach.	Microlight pilot subsequently apologised for the infringement, citing a short failure of the on-board power supply,which resulted in the satellite navigation systems being temporarily unavailable.□ CAA Closure: No further CAA action required at this time.
200706189	06/07/2007	EGTT : London (FIR)	London-Gatwick - LGW	10 ESE	D	CTA	SOCATA	Reciprocating	1	TB20 infringed the Gatwick CTA (Class D) and lost separation with an inbound A319 who was given traffic info and avoiding action. A319 reported receiving and complying with a TCAS RA. STCA activated.	Appropriate CAA action is being taken as a result of thisincident.
200706189	06/07/2007	EGTT : London (FIR)	London-Gatwick - LGW	10 ESE	D	CTA	AIRBUS	Turbofan	2	TB20 infringed the Gatwick CTA (Class D) and lost separation with an inbound A319 who was given traffic info and avoiding action. A319 reported receiving and complying with a TCAS RA. STCA activated.	Appropriate CAA action is being taken as a result of thisincident.
200706225	06/07/2007	EGTT : London (FIR)	London - Area		A	TMA	MOONEY	Reciprocating	1	Mooney infringed the LTMA (Class A). Standard separation maintained.	On departure, the Fair Oaks AFISO alerted the Farnborough controller that the Mooney was routing via CPT and the Farnborough controller gave vectors towards the West, away from traffic inbound to Farnborough. Mooney was then released on own navigation to CPT, but it turned and entered CAS. When queried, pilot informed ATC that he wanted to route via OCK. Farnborough did not have flight progress strip on this flight, only a NAS strip.

200706230	06/07/2007	EGTT : London (FIR)	Wethersfield		D	CTA	GRUMMAN	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by an AA5B. Standard separation maintained.	
200706232	13/06/2007	EGTT : London (FIR)	Barkway (BKY)		D	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 at 4500ft. Stansted a/c re-routed away from the PA28. Avoiding action given. Standard separation maintained.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200706258	07/07/2007	EGTT : London (FIR)	London-Gatwick - LGW	5 W	D	CTR	ROBINSON	Reciprocating	1	Infringement of Gatwick CTR (Class D) by an R22 at 1600ft. Two a/c on approach instructed to go-around and departures were stopped. Traffic info given. Separation lost.	Appropriate CAA action is being taken as a result of thisincident.
200706258	07/07/2007	EGTT : London (FIR)	London-Gatwick - LGW	5 W	D	CTR	BOEING	Turbofan	2	Infringement of Gatwick CTR (Class D) by an R22 at 1600ft. Two a/c on approach instructed to go-around and departures were stopped. Traffic info given. Separation lost.	Appropriate CAA action is being taken as a result of thisincident.
200706277	08/07/2007	EGTT : London (FIR)	Southampton (SAM)	11NE	D	CTR	EUROPA	Reciprocating	1	Infringement of the Southampton CTR (Class D) by an a/c believed to be an Europa at 2700ft squawking 7000. Traffic info given to an ATR72. Standard separation maintained.	

200706277	08/07/2007	EGTT : London (FIR)	Southampton (SAM)	11NE	D	CTR	ATR	Turboprop	2	Infringement of the Southampton CTR (Class D) by an a/c believed to be an Europa at 2700ft squawking 7000. Traffic info given to an ATR72. Standard separation maintained.	
200706279	08/07/2007	EGTT : London (FIR)	Bristol International	7 S	D	CTR	PIPER	Reciprocating	1	Infringement of the Bristol CTR (Class D) by a PA28 on a qualifying cross-country flight. Student pilot eventually contacted D&D and was given vectors to his destination where he landed safely.	PA28 was 40mins overdue and D&D had been trying to locatethe a/c when the student pilot called. After landing, student explained that he was unaware that the headset jack was not fully plugged in and therefore was able to receive,but not transmit RT. The student carried out orbits whilst deciding what to do next. During the orbits he graduallybecame unsure of his position and infringed CAS before declaring a PAN. Bristol outbound a/c were delayed as a result of this incident.
200706281	07/07/2007	EGTT : London (FIR)	Southampton (SAM)	5 S	A		AVIONS ROBIN	Reciprocating	1	Infringement of Airway N866 (Class A) by a DR400 at FL95.Standard separation maintained.	
200706305	08/07/2007	EGTT : London (FIR)	Earls Colne - Southend		A	TMA	DIAMOND	Reciprocating	1	DA40 called the FIR controller and was told to standby, but then infringed the LTMA (Class A) and lost separation with an FK50 inbound to London City, which was given avoiding action.	Pilot subsequently apologised for infringement which was caused by inadvertently climbing through selected 3500ft towards 4000ft. Pilot will ensure that adequate pre-flight planning takes place prior to future flights.□ CAA Closure: No further CAA action required at this time.
200706305	08/07/2007	EGTT : London (FIR)	Earls Colne - Southend		A	TMA	FOKKER	Turboprop	2	DA40 called the FIR controller and was told to standby, but then infringed the LTMA (Class A) and lost separation with an FK50 inbound to London City, which was given avoiding action.	Pilot subsequently apologised for infringement which was caused by inadvertently climbing through selected 3500ft towards 4000ft. Pilot will ensure that adequate pre-flight planning takes place prior to future flights.□ CAA Closure: No further CAA action required at this time.

200706308	08/07/2007	EGTT : London (FIR)	Stansted	SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) and the Wethersfield Gliding site by a PA28.	A/c may also have infringed the LTMA. Standard separation maintained.
200706321	08/07/2007	EGTT : London (FIR)	Silverstone		G	Restricted area	BELL	Turboshaft	1	Infringement at the Silverstone RA(T) by a Bell 206 at the end of the Red Arrows display, prior to final flypast. No avoiding action by the display team was required.	See also 200706300.
200706322	08/07/2007	EGTT : London (FIR)	Luton (LUT)	4 SSE	D	CTR	JABIRU	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Jabiru. A/c was tracking towards the final approach for R/W26, which resulted in two inbound a/c being delayed. Standard separation maintained.	See also 200406020.
200706325	09/07/2007	EGTT : London (FIR)	London-Gatwick - LGW	3 N	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by an R44 at 1000ft. A departing a/c was climbed straight ahead to 3000ft. Separation lost.	
200706326	07/07/2007	EGTT : London (FIR)	Manchester (MCT)		D	Restricted area	ROBINSON	Reciprocating	1	Infringement of the Manchester CTR (Class D) and Restricted Area 319 by an R44 at 1100ft. Standard separation maintained.	R44 pilot apologised for the infringement. Appropriate advice given.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.

200706337	19/06/2007	EGTT : London (FIR)	Stansted	6NE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C152 at 1000ft. Standard separation maintained. Traffic info given.	See also 200609338.
200706339	09/07/2007	EGTT : London (FIR)	Brecon (BCN)	7 WSW	D	CTA	MOONEY	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by a Mooney 20 at FL50. Pilot admits to misreading his chart both prior to departure and in-flight. Standard separation maintained.	Pilot later apologised for his error.
200706346	09/07/2007	EGTT : London (FIR)	PIRTON		D	CTR	UNKNOWN	Reciprocating	1	Infringement of the Luton CTR (Class D) by an unknown a/c, possibly a motor glider, squawking 7000. Traffic info and avoiding action given.	
200706346	09/07/2007	EGTT : London (FIR)	PIRTON		D	CTR	UNKNOWN	Unknown		Infringement of the Luton CTR (Class D) by an unknown a/c, possibly a motor glider, squawking 7000. Traffic info and avoiding action given.	
200706347	10/07/2007	EGTT : London (FIR)	Duxford	N	A	TMA	NORTH AMERICAN	Reciprocating	1	Infringement of the LTMA (Class A) by a P51 and a Harvard. Standard separation maintained.	

200706347	10/07/2007	EGTT : London (FIR)	Duxford	N	A	TMA	NORTH AMERICAN	Reciprocating	1	Infringement of the LTMA (Class A) by a P51 and a Harvard. Standard separation maintained.	
200706374	10/07/2007	EGTT : London (FIR)	Manchester (MCT)	10 SW	D	CTR	JODEL	Reciprocating	1	Alleged infringement of the Manchester CTR (Class D) by aJodel. Standard separation maintained.	See also 200508173.
200706391	11/07/2007	EGTT : London (FIR)	Luton (LUT)		D	CTR	BELL	Turboshaft	1	Alleged infringement of the Luton CTR (Class D) by a Bell206 operating between 1500-1900ft. Departures were stopped and an inbound B737 was given traffic info and a non standard routeing.	Bell 206 pilot maintains that he was well clear to the North of Luton's zone. However, he has taken on board the implications and, in addition to obtaining a complete set ofnew charts for the UK, has also undertaken a navex with an instructor. The pilot is fully aware of the consequencesof infringing CAS.□ CAA Closure: The hazard is adequatelycontrolled by the actions stated above.
200706391	11/07/2007	EGTT : London (FIR)	Luton (LUT)		D	CTR	BOEING	Turbofan	2	Alleged infringement of the Luton CTR (Class D) by a Bell206 operating between 1500-1900ft. Departures were stopped and an inbound B737 was given traffic info and a non standard routeing.	Bell 206 pilot maintains that he was well clear to the North of Luton's zone. However, he has taken on board the implications and, in addition to obtaining a complete set ofnew charts for the UK, has also undertaken a navex with an instructor. The pilot is fully aware of the consequencesof infringing CAS.□ CAA Closure: The hazard is adequatelycontrolled by the actions stated above.
200706409	05/07/2007	EGTT : London (FIR)	Bradwell		G	Restrict ed area	WESTLAND	Turboshaft	1	Infringement of Restricted Area EG R156 at Bradwell PowerStation by a Scout Helicopter at 1500ft. Pilot was given appropriate advice and apologised for the incident.	

200706411	09/07/2007	EGTT : London (FIR)	Lichfield (LIC)				YAKOVLEV	Reciprocating	1	Alleged poor airmanship during aerobatic sequence. Possible infringement of East Midlands control area.	Whilst Cessna 152 was returning from a training flight toTatenhill airfield at an altitude of 2500ft, a Yak 52 wasobserved completing a loop approx 1 to 2 miles ahead at aheight of between 2500 - 3500ft overhead LIC NDB. Cessna flying instructor, concerned that Tatenhill Radio had not advised of any aerobatic activity in vicinity of the airfield, contacted Yak pilot to alert him to the presence of the Cessna. Yak pilot acknowledged presence but continued his aerobatic sequence. He was allegedly unconcerned about the situation although flying instructor expressed his continued concern. Reporter alleges that Yak pilot was eitherinfringing or close to infringing East Midlands control area during his manoeuvres. Investigation discussed in person and by phone with both pilots involved. No actual hazard or occurrence evident, other than a sighting report of an aircraft carrying out aerobatics in the open FIR. No further action required.☐ CAA Closure: No further CAA action required at this time.
200706411	09/07/2007	EGTT : London (FIR)	Lichfield (LIC)				CESSNA	Reciprocating	1	Alleged poor airmanship during aerobatic sequence. Possible infringement of East Midlands control area.	Whilst Cessna 152 was returning from a training flight toTatenhill airfield at an altitude of 2500ft, a Yak 52 wasobserved completing a loop approx 1 to 2 miles ahead at aheight of between 2500 - 3500ft overhead LIC NDB. Cessna flying instructor, concerned that Tatenhill Radio had not advised of any aerobatic activity in vicinity of the airfield, contacted Yak pilot to alert him to the presence of the Cessna. Yak pilot acknowledged presence but continued his aerobatic sequence. He was allegedly unconcerned about the situation although flying instructor expressed his continued concern. Reporter alleges that Yak pilot was eitherinfringing or close to infringing East Midlands control area during his manoeuvres. Investigation discussed in person and by phone with both pilots involved. No actual hazard or occurrence evident, other than a sighting report of an aircraft carrying out aerobatics in the open FIR. No further action required.☐ CAA Closure: No further CAA action required at this time.
200706467	10/07/2007	EGTT : London (FIR)	Imber		G	Danger area	ROBINSON	Reciprocating	1	Alleged infringement of active Salisbury Plain Danger Area EG D123 (Imber) by an R44 at 1700ft. Boscombe Down contacted the helicopter and R44 vacated the area.	R44 pilot apologised for the infringement. Appropriate advice given.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200706502	13/07/2007	EGTT : London (FIR)	Stansted	E	D	CTA	ROBINSON	Reciprocating	1	R44 infringed the Stansted CTA (Class D) and lost separation with an inbound B737. B737 was given traffic info and avoiding action and advised having R44 on TCAS, but no visual contact.	Detailed response received from R44 pilot who apologised for the incident. Appropriate advice given.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200706502	13/07/2007	EGTT : London (FIR)	Stansted	E	D	CTA	BOEING	Turbofan	2	R44 infringed the Stansted CTA (Class D) and lost separation with an inbound B737. B737 was given traffic info and avoiding action and advised having R44 on TCAS, but no visual contact.	Detailed response received from R44 pilot who apologised for the incident. Appropriate advice given.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.

200706520	12/07/2007	EGTT : London (FIR)	Clacton (CLN)	S	A		PIPER	Reciprocating	1	Infringement of Airway L608 (Class A) by a PA28 receiving a FIS. PA28 had been told to remain outside CAS. When informed of infringement pilot replied that his GPS showed PA28 outside CAS.	Reporter also noted that the new headsets do not have the side tone qualities of the old headsets, which is particularly noticeable when speaking to pilots with poor English and poor radios. See also 200704571.
200706537	14/07/2007	EGTT : London (FIR)	Honiley (HON)	2 SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 at 2000ft. An inbound B767 descending to 3000ft was given traffic info and avoiding action of a right turn and climbed back to 4000ft.	The pilot concerned volunteered to have further instruction with the CFI and subsequent flights have been monitored by an officer of the flying club. See also 200403275, 200405038, 200504049, 200508818 and 200700891. □ CAA Closure: No further CAA action practicable.
200706537	14/07/2007	EGTT : London (FIR)	Honiley (HON)	2 SE	D	CTA	BOEING	Turbofan	2	Infringement of the Birmingham CTA (Class D) by a PA28 at 2000ft. An inbound B767 descending to 3000ft was given traffic info and avoiding action of a right turn and climbed back to 4000ft.	The pilot concerned volunteered to have further instruction with the CFI and subsequent flights have been monitored by an officer of the flying club. See also 200403275, 200405038, 200504049, 200508818 and 200700891. □ CAA Closure: No further CAA action practicable.
200706548	11/07/2007	EGTT : London (FIR)	EGD138		G	Danger area	PERCIVAL	Turbofan	1	Infringement of active Danger Area D138 (Class G) by a Jet Provost.	Subsequent phone call received by Southend ATC from the operator and the incident was discussed. The manager concerned was apologetic and undertook to pass on the appropriate lessons learnt from this incident.
200706606	15/07/2007	EGTT : London (FIR)	Wycombe		G	ATZ	DE HAVILLAND	Reciprocating	1	Infringement of the Wycombe ATZ (Class G) by a DH Hornet Moth at 1000ft. No communication with a/c although Tower repeatedly called the a/c.	

200706608	12/07/2007	EGTT : London (FIR)	Doncaster Sheffield		G	ATZ	BELL	Turboshaft	1	Infringement of the Doncaster Sheffield ATZ (Class G) by a Bell 206 at 1500ft.	
200706617	17/07/2007	EGTT : London (FIR)	Northolt	2N	A	CTR	BELL	Turboshaft	1	Infringement of the Heathrow CTR (Class A) by a Bell 206 squawking 7000 at 2000ft. Traffic info given. Standard separation maintained.	Helicopter also infringed the London City Zone.
200706622	17/07/2007	EGTT : London (FIR)	Romsey		D	CTR	GROB	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a Grob 109 (believed), squawking 7000 at 1800ft. Standard separation maintained.	
200706703	08/07/2007	EGTT : London (FIR)	Wethersfield	1N	G		ANTONOV	Reciprocating	1	Infringement of the Wethersfield Glider Launching site bythree An2 a/c and one monoplane at approx 1500ft. Glider launch stopped.	
200706703	08/07/2007	EGTT : London (FIR)	Wethersfield	1N	G		OTHER	Unknown		Infringement of the Wethersfield Glider Launching site bythree An2 a/c and one monoplane at approx 1500ft. Glider launch stopped.	

200706740	19/07/2007	EGTT : London (FIR)	London-Heathrow - LHR	Control Zone	A	CTR	PIPER	Reciprocating	1	Infringement of the London Heathrow CTR (Class A) by a PA28 at 2400ft. Standard separation maintained.	PA28 entered the CTR on the western boundary heading towards London Heathrow before turning Northeast abeam Northolt aerodrome. A/c identified visually by Northolt Tower as a PA28. D&D established contact with the pilot. A/c instructed to squawk 3305, identified and given steer for White Waltham. All London Heathrow traffic suspended for approximately 10mins during the infringement. The CFI concerned subsequently contacted ATC stating that the student pilot had become lost. Appropriate follow up action has been taken by the Aero club concerned.
200706751	19/07/2007	EGTT : London (FIR)	Dorking	S	D	CTR	PIPER	Reciprocating	1	Infringement of the London Gatwick CTR (Class D) by a PA28 at 1500ft. Standard separation maintained.	See also 200606709.
200706758	14/07/2007	EGTT : London (FIR)	London-Gatwick - LGW	13nm E			CESSNA	Reciprocating	1	D&D Cell Report: Pilot lost close to Gatwick zone. PAN declared. Position fixed, discrete squawk issued and steer given, initially for Seaford and later for Shoreham after pilot reported pax illness.	The subject a/c called on 121.5 stating that he was unsure of position and concerned that he may have penetrated the Gatwick zone. A discrete squawk was issued and the a/c identified one mile East of the zone, routeing to the East.The pilot requested a steer for Seaford VOR then reportedthat he did not require further assistance and was going to change frequency to London Information. The D&D controller followed progress of the flight and five minutes laterobserved that the aircraft was approaching the Gatwick zone. London Information were asked to advise the pilot of this and request that he re-contact 121.5. After using ident to positively identify the a/c, a steer to the South wasgiven to take the a/c out of controlled airspace. At the pilot's request, steers were then provided for Shoreham. The pilot subsequently reported that one of his passengers was very unwell. Shoreham were advised of the medical emergency and an ambulance was requested for the a/c's arrival. Further updates to heading and range were given until the pilot reported that he was visual with the airfield and happy to change frequency to Shoreham. The aircraft landedsafely and the passenger was given medical attention.
200706765	19/07/2007	EGTT : London (FIR)	Lambourne (LAM)	3	D	CTA	PIPER	Reciprocating	1	Infringement of London City CTA (Class D) by a PA28 at 3500ft. Traffic info and avoiding action given. Standard separation maintained.	See also 200700708.
200706797	19/07/2007	EGTT : London (FIR)	THRED		A		DIAMOND	Reciprocating	1	Infringement of Airway R41 (Class A) by a DA40 at FL49. Pilot called ATC realising that he was in Class A airspace and advised descending to 3000ft. Standard separation maintained.	

200706798	21/07/2007	EGTT : London (FIR)	Exeter	N	A		MOONEY	Reciprocating	1	Infringement of Airway N864 by a Mooney 20 at FL85. A DHC8 was given traffic info and also received TCAS info. STCAActivated. Standard separation maintained.	The Mooney 20 had received instructions to remain outsideof controlled airspace. See also 200606597.
200706798	21/07/2007	EGTT : London (FIR)	Exeter	N	A		DE HAVILLAND	Turboprop	2	Infringement of Airway N864 by a Mooney 20 at FL85. A DHC8 was given traffic info and also received TCAS info. STCAActivated. Standard separation maintained.	The Mooney 20 had received instructions to remain outsideof controlled airspace. See also 200606597.
200706832	18/07/2007	EGTT : London (FIR)	Bath Racecourse	2W	D	CTA	PIPER	Reciprocating	1	Infringement of Bristol CTA (Class D) by PA28 at 3000ft squawking 70000. Pilot contacted ATC on 125.650 admitting to being lost. Appropriate advice passed to pilot by ATC.	Standard separation maintained. Investigation under 200705258.
200706885	19/07/2007	EGTT : London (FIR)	Bristol Filton	2SE	G	ATZ	CESSNA	Reciprocating	1	Infringement of the Filton ATZ (Class G) by a C152 at 1800ft. Traffic info given. C152 visual with Filton circuit traffic.	
200706910	24/07/2007	EGTT : London (FIR)	Burnham	4	A	CTR	PIPER	Reciprocating	1	Infringement of the London Heathrow CTR (Class A) by a PA28 at 2000ft. Traffic info given. Standard separation maintained. CF1 notified.	Pilot subsequently apologised, citing inadequate wind compensation as a contributory factor. See also 200606483.

200706965	25/07/2007	EGTT : London (FIR)	GROVE	2W	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a PA28 atFL65 squawking 7000. Standard separation maintained.	Pilot later called ATC to apologise. He believed that he was further West than he actually was. A strong SW wind may have contributed to the incident. See also 200603901.
200707017	22/07/2007	EGTT : London (FIR)	Fairoaks		G		PIPER	Reciprocating	1	UK AIRPROX 104/2007 - PA28 and a DH82A at Fairoaks at 1100ft.	Whilst PA28 was in LH circuit pattern for R/W24 on a downwind leg, an a/c in the 2 o'clock position approached at the same altitude. The other a/c, a bi-plane, became visualwith the PA28 first and took avoiding action of a climb. The PA28 initiated a descent. Bi-plane subsequently infringed the Heathrow CTR.
200707017	22/07/2007	EGTT : London (FIR)	Fairoaks		G		DE HAVILLAND	Reciprocating	1	UK AIRPROX 104/2007 - PA28 and a DH82A at Fairoaks at 1100ft.	Whilst PA28 was in LH circuit pattern for R/W24 on a downwind leg, an a/c in the 2 o'clock position approached at the same altitude. The other a/c, a bi-plane, became visualwith the PA28 first and took avoiding action of a climb. The PA28 initiated a descent. Bi-plane subsequently infringed the Heathrow CTR.
200707025	24/07/2007	EGTT : London (FIR)	Brecon (BCN)	3 SW	A		CESSNA	Reciprocating	1	Infringement of Airway N864 by a C177 at FL70. A/c was told to remain outside controlled airspace and provided witha FIS. A/c was observed within CAS, pilot then requested descent.	Standard separation maintained.
200707075	27/07/2007	EGTT : London (FIR)	Manchester (MCT)	8NE	D	CTR	CESSNA	Reciprocating	1	Infringement of Manchester CTR (Class D) by a C172 at 1500ft. Traffic info given. Standard separation maintained.	C172 pilot subsequently advised of his intention to return to departure airfield. See 200505206, 200402234.

200707075	27/07/2007	EGTT : London (FIR)	Manchester (MCT)	8NE	D	CTR	BOEING	Turbofan	2	Infringement of Manchester CTR (Class D) by a C172 at 1500ft. Traffic info given. Standard separation maintained.	C172 pilot subsequently advised of his intention to return to departure airfield. See 200505206, 200402234.
200707077	28/07/2007	EGTT : London (FIR)	London-Gatwick - LGW	12W	D	CTA	CESSNA	Reciprocating	1	Alleged infringement of the Gatwick CTA (Class D) by a C152 at 1800ft, 12nm West of Gatwick. Standard separation maintained.	C152 pilot, following GPS, believed he had remained clearof CAS. Analysis of radar reply indicated that C152 infringed by a narrow margin (less than 1/4nm) and for a very short duration.
200707077	28/07/2007	EGTT : London (FIR)	London-Gatwick - LGW	12W	D	CTA	BOEING	Turbofan	2	Alleged infringement of the Gatwick CTA (Class D) by a C152 at 1800ft, 12nm West of Gatwick. Standard separation maintained.	C152 pilot, following GPS, believed he had remained clearof CAS. Analysis of radar reply indicated that C152 infringed by a narrow margin (less than 1/4nm) and for a very short duration.
200707081	28/07/2007	EGTT : London (FIR)	Southampton (SAM)	6NE	D	CTR	SCHEIBE	Reciprocating	1	Infringement of the Southampton CTR (Class D) by an SF25 at 1900ft. Standard separation maintained.	
200707083	28/07/2007	EGTT : London (FIR)	Southampton (SAM)	7	D	CTR	EUROPA	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a Europasquawking 7000 at 1900ft. Traffic info and avoiding action given to a BN2 Trislander. Separation lost.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.

200707083	28/07/2007	EGTT : London (FIR)	Southampton (SAM)	7	D	CTR	BRITTEN NORMAN	Reciprocating	3	Infringement of the Southampton CTR (Class D) by a Europasquawking 7000 at 1900ft. Traffic info and avoiding action given to a BN2 Trislander. Separation lost.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200707097	28/07/2007	EGTT : London (FIR)	Birmingham	2E	D	CTR	DE HAVILLAND	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a Jackaroo. Coventry ATC advised that pilot was lost and they were helping him to clear the zone. Standard separation maintained.	
200707100	29/07/2007	EGTT : London (FIR)	Luton (LUT)		D	CTR	CESSNA	Reciprocating	1	C150 infringed Luton CTR (Class D) and lost separation with a Luton departure. Pilot navigation error.	C150 pilot subsequently apologised for infringement, advising that he had mis-identified Berkhamsted for Amersham.Inadequate wind compensation also contributed. Pilot has initiated appropriate remedial action including more practice in the area with an instructor.
200707137	27/07/2007	EGTT : London (FIR)	Syerston	1 SE	G	ATZ	AVIONS ROBIN	Reciprocating	1	UK AIRPROX 106/2007 - Robin DR400 and a T67M, 1nm Southeast of RAF Syerston at 800ft. T67M had allegedly infringed notified gliding site.	As DR400 was rejoining the circuit, it observed the T67M approaching the circuit and then manoeuvre within the ATZ.T67M, visual with DR400, assessed there to be no risk of collision.
200707137	27/07/2007	EGTT : London (FIR)	Syerston	1 SE	G	ATZ	SLINGSBY	Reciprocating	1	UK AIRPROX 106/2007 - Robin DR400 and a T67M, 1nm Southeast of RAF Syerston at 800ft. T67M had allegedly infringed notified gliding site.	As DR400 was rejoining the circuit, it observed the T67M approaching the circuit and then manoeuvre within the ATZ.T67M, visual with DR400, assessed there to be no risk of collision.

200707141	29/07/2007	EGTT : London (FIR)	Stansted	5N	D	CTR	CESSNA	Reciprocating	1	Alleged infringement of the Stansted CTR (Class D) by a C152. Traffic info given and B737 broken off approach. The C152 was in contact with D&D. Standard separation maintained.	
200707141	29/07/2007	EGTT : London (FIR)	Stansted	5N	D	CTR	BOEING	Turbofan	2	Alleged infringement of the Stansted CTR (Class D) by a C152. Traffic info given and B737 broken off approach. The C152 was in contact with D&D. Standard separation maintained.	
200707144	30/07/2007	EGTT : London (FIR)	Southampton (SAM)	11N	A		VANS	Reciprocating	1	Infringement of Airway N866 (Class A) by a Vans RV4 indicating FL60, 11nm North of Southampton, heading South. Southampton departures were stopped. Standard separation maintained.	Pilot apologised for infringement, citing a map reading error. Appropriate action taken to avoid recurrence.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200707175	31/07/2007	EGTT : London (FIR)	Stansted		D	CTR	SOCATA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a TB20 at 2500ft. A/c was told to remain outside controlled airspace.All departures were stopped for approx 3mins. Standard separation maintained.	TB20 pilot subsequently stated that, as far as he could remember, the a/c was not flown above 1500ft and no instruction was received to remain clear of controlled airspace. Unable to reconcile differing reports due to elapsed time.☐ ☐ CAA Closure: No further CAA action practicable.
200707244	01/08/2007	EGTT : London (FIR)	London City - LCY	ESE	D	CTA	PIPER	Reciprocating	1	Infringement of the London City CTA (Class D) by a PA28 at 3000ft, ESE of London City. Avoiding action and traffic info issued to inbound Do328 and RJ100. STCA activated. Separation lost.	ATC unable to establish contact with the PA28 whilst in CAS. No response received from the PA28 operator. See also 200510384.☐ CAA Closure: No further CAA action practicable.

200707244	01/08/2007	EGTT : London (FIR)	London City - LCY	ESE	D	CTA	DORNIER	Turbofan	2	Infringement of the London City CTA (Class D) by a PA28 at 3000ft, ESE of London City. Avoiding action and traffic info issued to inbound Do328 and RJ100. STCA activated. Separation lost.	ATC unable to establish contact with the PA28 whilst in CAS. No response received from the PA28 operator. See also 200510384. □ CAA Closure: No further CAA action practicable.
200707250	01/08/2007	EGTT : London (FIR)	Cowes	4 W	D	CTA	BEECH	Reciprocating	1	BE33 infringed the Solent CTA (Class D) and lost separation with a BN2A departing Southampton. BN2A was given traffic info and avoiding action and became visual with the BE33. SMF activated.	Investigation established that BE33 was initially headingto Lands End but was subsequently informed by ATC that this was not possible due to a lack of customs. Therefore, pilot elected to divert to Plymouth. He then switched to autopilot while working out the new route and frequencies, during which the infringement occurred, for which the pilotapologised. German Authority alerted. □ CAA Closure: No further CAA action required at this time.
200707250	01/08/2007	EGTT : London (FIR)	Cowes	4 W	D	CTA	BRITTEN NORMAN	Reciprocating	3	BE33 infringed the Solent CTA (Class D) and lost separation with a BN2A departing Southampton. BN2A was given traffic info and avoiding action and became visual with the BE33. SMF activated.	Investigation established that BE33 was initially headingto Lands End but was subsequently informed by ATC that this was not possible due to a lack of customs. Therefore, pilot elected to divert to Plymouth. He then switched to autopilot while working out the new route and frequencies, during which the infringement occurred, for which the pilotapologised. German Authority alerted. □ CAA Closure: No further CAA action required at this time.
200707251	01/08/2007	EGTT : London (FIR)	Stoney Cross		D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 3000ft, which allegedly subsequently failed to comply with ATC instruction. Standard separation maintained.	Investigation under 200703065. See also 200702055.
200707285	31/07/2007	EGTT : London (FIR)	Nottingham East Midlands	12 E	D	CTA	PIPER	Reciprocating	1	Infringement of the East Midlands CTA (Class D) by a PA38at 3000ft, 12nm East of East Midlands. Pilot failed to comply with ATC instructions to remain outside CAS during climb to 3000ft.	Student pilot carrying out solo qualifying cross-country navigational exercise. Further dual training subsequently carried out by CFI. □ CAA Closure: The hazard is adequatelycontrolled by existing requirements, procedures and documentation.

200707315	03/08/2007	EGTT : London (FIR)	London City - LCY	ESE	D	CTA	CESSNA	Reciprocating	1	Infringement of the London City CTA (Class D) by a C172 squawking 7000 at 2400ft. Traffic info given. Standard separation maintained.	
200707320	02/08/2007	EGTT : London (FIR)	Stansted	SW	D	CTR	HUGHES	Turboshaft	1	Infringement of the Stansted CTR (Class D) by an MD500 at2000ft squawking 7000. Traffic info given and 5 inbound a/c were given extended routeings. Separation lost with 3 a/c.	MD500 was unknown at the time of the infringement, therefore, separation lost. The MD500 pilot spoke to Stansted after the event and is now fully aware of the serious consequences of infringing CAS. He is also aware of the 0033 squawk and the new London North LARS.☐ CAA Closure: No further CAA action required at this time.
200707320	02/08/2007	EGTT : London (FIR)	Stansted	SW	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by an MD500 at2000ft squawking 7000. Traffic info given and 5 inbound a/c were given extended routeings. Separation lost with 3 a/c.	MD500 was unknown at the time of the infringement, therefore, separation lost. The MD500 pilot spoke to Stansted after the event and is now fully aware of the serious consequences of infringing CAS. He is also aware of the 0033 squawk and the new London North LARS.☐ CAA Closure: No further CAA action required at this time.
200707326	27/07/2007	EGTT : London (FIR)	Syerston	N	G	ATZ	PIPER	Reciprocating	1	Infringement of the Syerston ATZ gliding site, possibly by a PA28. The a/c concerned appeared to take avoiding action on Syerston outbound traffic. A/c then continued on a southerly track.	
200707326	27/07/2007	EGTT : London (FIR)	Syerston	N	G	ATZ	UNKNOWN	Unknown		Infringement of the Syerston ATZ gliding site, possibly by a PA28. The a/c concerned appeared to take avoiding action on Syerston outbound traffic. A/c then continued on a southerly track.	

200707334	03/08/2007	EGTT : London (FIR)	Luton (LUT)	SW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C152 squawking 7000 at 2400ft. During the infringement, departures from Luton were suspended. Standard separation maintained.	The pilot attributed the infringement to a navigational error. The pilot is now aware of the serious consequences of infringing controlled airspace.☐ CAA Closure: No furtherCAA action required at this time.
200707335	03/08/2007	EGTT : London (FIR)	Detling (DET)	7 NNW	A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA28 receiving a FIS. Five a/c were given vectors away or around the PA28 and departures were stopped. Standard separation maintained.	PA28 pilot reported hearing another a/c report at the same location and altitude. He looked but could not see the other a/c, so elected to climb for separation. PA28 pilot has been reminded of the serious consequences of infringingCAS, with appropriate advice given.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200707336	31/07/2007	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	DIAMOND	Reciprocating	1	Infringement of the LTMA (Class A) by a DA40 at 2700ft overhead Biggin Hill aerodrome. Thames Radar informed of theinfringement, who confirmed no other traffic to affect.	Student pilot.☐ CAA Closure: Instructor on board the a/c has been reminded of the standards expected from Examinersand Instructors.
200707346	05/08/2007	EGTT : London (FIR)	Audley End		D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a DR400 at 1700ft at Audley End. Traffic info given. Separation lost with a B737.	
200707346	05/08/2007	EGTT : London (FIR)	Audley End		D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a DR400 at 1700ft at Audley End. Traffic info given. Separation lost with a B737.	

200707349	06/08/2007	EGTT : London (FIR)	ORTAC	12NW	A		BEECH	Reciprocating	1	Infringement of Airway R41 (Class A) by a BE33 at 4500ft. Standard separation maintained.	Pilot later apologised.
200707400	06/08/2007	EGTT : London (FIR)	Southampton (SAM)	15SSW	D	CTA	BEECH	Reciprocating	1	Infringement of the Southampton CTA (Class D) by a BE36 at 2200ft. A/c had been instructed to remain outside of controlled airspace. Standard separation maintained.	
200707401	05/08/2007	EGTT : London (FIR)	Solent		D	CTA	LANCAIR	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Lancair at 2500ft. Standard separation maintained.	
200707406	06/08/2007	EGTT : London (FIR)	Lower Upham		D	CTA	OTHER	Reciprocating	1	Infringement. Formation of two aircraft became airborne without clearance.	The two aircraft had previously been given clearance to enter Southampton CTA / CTR from Bishops Waltham to land atLower Upham. When the formation reported finals at Lower Upham, Southampton gave surface wind and cancelled their service but also advised them to call if either aircraft went around. Some time later Southampton ATC received a callfrom Rohay Farm Strip advising that two microlights had landed unexpectedly and appeared to be taxiing to depart. ATC called microlight on frequency with no reply. The formation then called airborne and was told to report final at Lower Upham. They landed shortly afterwards.☐ CAA Closure:No further information has become available. Due to the elapsed time since the event, any flight safety benefit resulting from further investigation is considered unlikely.
200707406	06/08/2007	EGTT : London (FIR)	Lower Upham		D	CTA	OTHER	Reciprocating	1	Infringement. Formation of two aircraft became airborne without clearance. They landed shortly afterwards.☐ CAA Closure:No further information has become available. Due to the elapsed time since the event, any flight safety benefit resulting from further investigation is considered unlikely.

200707496	09/08/2007	EGTT : London (FIR)	London City - LCY	8 E	D	CTA	PIPER	Reciprocating	1	Alleged infringement of the London CTA (Class D) by a PA28 at 2300ft, 8nm East of London City, resulting in a loss of standard separation with an a/c inbound to London City.Traffic info given.	PA28 turned North and left CAS through the North boundaryof the zone.□ CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200707496	09/08/2007	EGTT : London (FIR)	London City - LCY	8 E	D	CTA	UNKNOWN	Unknown		Alleged infringement of the London CTA (Class D) by a PA28 at 2300ft, 8nm East of London City, resulting in a loss of standard separation with an a/c inbound to London City.Traffic info given.	PA28 turned North and left CAS through the North boundaryof the zone.□ CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200707497	09/08/2007	EGTT : London (FIR)	Lambourne (LAM)	SE	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 at 2900ft. Two London City inbounds and one outbound significantly affected. Traffic info given. Standard separation maintained.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200707497	09/08/2007	EGTT : London (FIR)	Lambourne (LAM)	SE	A	TMA	BAE	Turbofan	4	Infringement of the LTMA (Class A) by a PA28 at 2900ft. Two London City inbounds and one outbound significantly affected. Traffic info given. Standard separation maintained.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200707516	09/08/2007	EGTT : London (FIR)	Brecon (BCN)	W			CIRRUS	Reciprocating	1	Infringement of Airway (Class A) by an Cirrus SR22 at FL60. Standard separation maintained.	

200707536	10/08/2007	EGTT : London (FIR)	Manchester (MCT)	6 S	D	CTR	CESSNA	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a C172 at3400ft. All Manchester departures were stopped. C172 contacted Manchester and was descended to 2500ft. Standard separation maintained.	CAA Closure: No further information has come to light. Due to the elapsed time involved no further CAA action practical.
200707542	10/08/2007	EGTT : London (FIR)	London City - LCY	5.5 NE	D	CTA	ROBINSON	Reciprocating	1	R44 infringed the London City CTA (Class D) and lost separation with an outbound FK50, which was given traffic infoand avoiding action. Previous outbound a/c was also giventraffic info.	Response received from R44 pilot and appropriate advice given, including the importance of adequate pre-flight planning and allowing a greater margin for error.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200707542	10/08/2007	EGTT : London (FIR)	London City - LCY	5.5 NE	D	CTA	FOKKER	Turboprop	2	R44 infringed the London City CTA (Class D) and lost separation with an outbound FK50, which was given traffic infoand avoiding action. Previous outbound a/c was also giventraffic info.	Response received from R44 pilot and appropriate advice given, including the importance of adequate pre-flight planning and allowing a greater margin for error.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200707572	10/08/2007	EGTT : London (FIR)	Solent		D	CTR	CESSNA	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a Cessna172 at 2700ft. D&D alerted. Standard separation maintained.	See also 200700842.
200707573	11/08/2007	EGTT : London (FIR)	Southampton (SAM)		D	CTA	OTHER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a microlight at 2000ft. Traffic info given. Standard separation maintained.	The pilots report indicates that he relied to much on hisGPS equipment and became distracted by his passenger who may having been becoming unwell. Appropriate lessons have been learnt.

200707576	10/08/2007	EGTT : London (FIR)	London-Gatwick - LGW	7SE	A	TMA	VANS	Reciprocating	1	Infringement of the LTMA (Class A) by Vans RV8 at 2800ft,7nm Southeast of Gatwick. A/c continued on a North heading into the LTMA (Class A). Traffic info given. Standard separation maintained.	London City airport traffic affected during the infringement. The pilot reported that he was flying the RV8, which was much faster than the other types he had flown. He apologised for the infringement, and is fully aware of the serious consequences of infringing CAS.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200707577	10/08/2007	EGTT : London (FIR)	Biggin (BIG)	10NE	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 at 2800ft squawking 7000. Standard separation maintained.	
200707578	10/08/2007	EGTT : London (FIR)	Biggin (BIG)	22NE	A	TMA	MOONEY	Reciprocating	1	Infringement of the LTMA (Class A) by a Mooney 20 at 4600ft. Standard separation maintained.	
200707580	11/08/2007	EGTT : London (FIR)	Luton (LUT)	5SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 at 2000ft, 5nm Southwest of Luton, resulting in a loss of standard separation against an HS125 outbound from Luton on a DVRSID.	PA28 pilot was unaware that he had infringed CAS. He has since been made aware and apologised accordingly. See also200705523 and 200705399.☐ CAA Closure: No further CAA action practicable.
200707580	11/08/2007	EGTT : London (FIR)	Luton (LUT)	5SW	D	CTR	HAWKER SIDDELEY	Turbofan	2	Infringement of the Luton CTR (Class D) by a PA28 at 2000ft, 5nm Southwest of Luton, resulting in a loss of standard separation against an HS125 outbound from Luton on a DVRSID.	PA28 pilot was unaware that he had infringed CAS. He has since been made aware and apologised accordingly. See also200705523 and 200705399.☐ CAA Closure: No further CAA action practicable.

200707583	08/08/2007	EGTT : London (FIR)	Brecon (BCN)		A		SOCATA	Reciprocating	1	Infringement of Airway N864 (Class A) by a TB20 at FL60, 5nm North of BCN VOR.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200707587	11/08/2007	EGTT : London (FIR)	Southampton (SAM)	5 W	D	CTR	OTHER	Reciprocating	1	Infringement of the Solent CTR (Class D) by a microlight.The departure of a Southampton outbound was delayed. Standard separation maintained.	
200707607	10/08/2007	EGTT : London (FIR)	Cardiff (CDF)	10W	D	CTR	OTHER	Reciprocating	1	Infringement of the Cardiff CTR (Class D) by a Grob motorglider at 2000ft. Standard separation maintained.	Appropriate remedial action taken.
200707653	13/08/2007	EGTT : London (FIR)	White Waltham	2S	A	CTR	PIPER	Reciprocating	1	Infringement of the London Heathrow CTR (Class A) by an PA28R at 2400ft. Standard separation maintained. Heathrow departures suspended.	The pilot has been contacted and states that he believes the incident was caused by lack of pre-flight planning, not adhering to his usual practice of departing via the WOD NDB and distraction caused by improved climb performance of the a/c leading to a loss of situational awareness.□ CAAClosure: Advice has been passed to the pilot concerned who has apologised for the incident.
200707655	13/08/2007	EGTT : London (FIR)	Southampton (SAM)	12NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Southampton CTA (Class D) by a PA22 at 3000ft. A/c was instructed to remain outside controlled airspace. Standard separation maintained.	

200707668	10/08/2007	EGTT : London (FIR)	ABBOT		A	TMA	CESSNA	Reciprocating	1	Infringement of the London TMA (Class A) by a C172 at 5700ft, squawking 7000. Standard separation maintained. One Stansted outbound delayed.	See also 2004024426.
200707706	14/08/2007	EGTT : London (FIR)	London City - LCY	5	D	CTR	SOCATA	Turboprop	1	Infringement of London City CTR (Class D) by a Socata TBM700 at 2100ft, causing a loss of separation with a BAe146 descending to 2000ft. Traffic info and avoiding action issued. SMF activated.	TBM700 had been instructed to remain clear of controlled airspace. Additionally, another inbound RJ100 reported a TCAS RA against the TBM700. See also 200701798 and 200705927. Appropriate CAA action is being taken as a result of this incident.
200707706	14/08/2007	EGTT : London (FIR)	London City - LCY	5	D	CTR	BAE	Turbofan	4	Infringement of London City CTR (Class D) by a Socata TBM700 at 2100ft, causing a loss of separation with a BAe146 descending to 2000ft. Traffic info and avoiding action issued. SMF activated.	TBM700 had been instructed to remain clear of controlled airspace. Additionally, another inbound RJ100 reported a TCAS RA against the TBM700. See also 200701798 and 200705927. Appropriate CAA action is being taken as a result of this incident.
200707739	06/08/2007	EGTT : London (FIR)	Bagshot Mast	3NE	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28 at 2400ft. Traffic info and avoiding action given. Standard separation maintained.	
200707759	09/08/2007	EGTT : London (FIR)	Cams Hall		G	ATZ	CESSNA	Reciprocating	1	Infringement of Fleetlands ATZ (Class G) by a C177 that was observed orbiting the ATZ at 1000ft. A/c was observed to depart after 10 minutes towards the Southeast.	Appropriate CAA action is being taken as a result of thisincident.

200707836	16/08/2007	EGTT : London (FIR)	London City - LCY	10SE	A	TMA	BOLKOW	Reciprocating	1	Infringement of the LTMA (Class A) by a Bolkow 207 at 2800ft. Traffic info and avoiding action given to a BAe146. D&D alerted. Standard separation maintained.	
200707836	16/08/2007	EGTT : London (FIR)	London City - LCY	10SE	A	TMA	BAE	Turbofan	4	Infringement of the LTMA (Class A) by a Bolkow 207 at 2800ft. Traffic info and avoiding action given to a BAe146. D&D alerted. Standard separation maintained.	
200707838	16/08/2007	EGTT : London (FIR)	Brookmans Park (BPK)	15nm	D	CTR	PIPER	Reciprocating	1	Infringement of Luton CTR (Class D) by a PA28 that intentionally entered the CTR without permission whilst trying to identify a Bell 206 that had allegedly routed through Panshanger's ATZ.	It is alleged that the PA28 was trying to identify the Bell 206's registration, as it had just routed through Panshanger's ATZ (Class G) without requesting clearance. Appropriate CAA action is being taken as a result of this occurrence.
200707838	16/08/2007	EGTT : London (FIR)	Brookmans Park (BPK)	15nm	D	CTR	BELL	Turboshaft	1	Infringement of Luton CTR (Class D) by a PA28 that intentionally entered the CTR without permission whilst trying to identify a Bell 206 that had allegedly routed through Panshanger's ATZ.	It is alleged that the PA28 was trying to identify the Bell 206's registration, as it had just routed through Panshanger's ATZ (Class G) without requesting clearance. Appropriate CAA action is being taken as a result of this occurrence.
200707847	10/08/2007	EGTT : London (FIR)	Nympsfield		G		BELL	Turboshaft	1	Infringement of the Nympsfield gliding site by a Bell 206at 600ft. A glider launch had to be aborted.	

200707870	17/08/2007	EGTT : London (FIR)	Harlow	2 W	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 2100ft, 2nm West of Harlow. Standard separation maintained.	See also 200605892, 200604890, 200602802 and 200602393.☐ CAA Closure: No further information has come to light. Dueto the elapsed time involved no further CAA action considered practical.
200707871	17/08/2007	EGTT : London (FIR)	Denham	2 W	A	CTR	JABIRU	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a Jabiru at2400ft. 2nm West of Denham. Heathrow Northbound departures suspended during the infringement. Standard separation maintained.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200707905	18/08/2007	EGTT : London (FIR)	Seaford (SFD)		G	Restrict ed area	CESSNA	Reciprocating	1	Infringement of the Eastbourne RA(T) for the Red Arrows by a C152 at 5000ft. Believed that the Red Arrows display was not affected. Traffic info given.	See also 200606183
200707937	16/08/2007	EGTT : London (FIR)	Southampton (SAM)	7SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a PA28 at 1900ft. An EMB195 was broken off approach and departureswere stopped. Traffic info given. Standard separation maintained.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200707937	16/08/2007	EGTT : London (FIR)	Southampton (SAM)	7SW	D	CTR	EMBRAER	Turbofan	2	Infringement of the Southampton CTR (Class D) by a PA28 at 1900ft. An EMB195 was broken off approach and departureswere stopped. Traffic info given. Standard separation maintained.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.

200708056	21/08/2007	EGTT : London (FIR)	Jodrell Bank		D	CTR	PIPER	Reciprocating	1	Infringement of Manchester CTR (Class D) by a PA28 squawking 7000. Standard separation maintained.	Pilot subsequently apologised for the infringement and was given appropriate advice by ATC.
200708061	22/08/2007	EGTT : London (FIR)	Manchester (MCT)	9 E	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Manchester CTR (Class D) by an R44 at1600ft, 9nm East of Manchester. Departures suspended at Manchester during the infringement. Standard separation maintained.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200708107	19/08/2007	EGTT : London (FIR)	Southampton (SAM)	8SSW	D	CTR	ROBINSON	Reciprocating	1	Infringement of Southampton CTR (Class D) by an R44. Delays and re-routeing of numerous a/c to avoid the R44. Traffic info given. Standard separation maintained.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200708137	26/08/2007	EGTT : London (FIR)	Denham				PIPER	Reciprocating	1	D&D Cell Report: Pilot lost inside Heathrow zone. PAN declared. Position fixed using transponder and steers given for Cranfield.	At 1517hrs D&D received a call from Thames radar about ana/c operating inside the Heathrow zone. At the same time a call was received from the pilot, stating he was lost and requesting a steer to Peterborough Conington. Pilot instructed to squawk 3305 and identified SE of Denham 3nm tracking 330. Pilot was informed that he was inside the Heathrow zone and as soon as the a/c cleared the zone was given a steer for Cranfield keeping clear of the Luton zone. Thepilot requested to stay on frequency until he became familiar with his position. Once visual with Milton Keynes andthe M1 the pilot elected to free call Cranfield.
200708141	23/08/2007	EGTT : London (FIR)	Andrewsfield	2nm S			PIPER	Reciprocating	1	D&D Cell Report: Pilot lost inside Stansted zone in poor weather, causing departures to be suspended. PAN declared.Steers given for Gamston, where a/c landed after airfieldclosure.	

200708166	25/08/2007	EGTT : London (FIR)	Stansted	4 NE	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Stansted CTR (Class D) by an R44 at 1800ft, 4nm East of Stansted resulting in a loss of standard separation against a B737 on final approach R/W23.	B737 reported receiving a TCAS return and was immediatelyissued avoiding action. B737 executed a turn and climbed to 3000ft. Two other a/c broken off approach and repositioned. Traffic info given. R44 pilot cites incorrect GPS database installation as a contributory factor to the navigational error. Investigation confirmed a genuine navigation error, for which the pilot has apologised.☐ CAA Closure: No further CAA action required at this time.
200708166	25/08/2007	EGTT : London (FIR)	Stansted	4 NE	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by an R44 at 1800ft, 4nm East of Stansted resulting in a loss of standard separation against a B737 on final approach R/W23.	B737 reported receiving a TCAS return and was immediatelyissued avoiding action. B737 executed a turn and climbed to 3000ft. Two other a/c broken off approach and repositioned. Traffic info given. R44 pilot cites incorrect GPS database installation as a contributory factor to the navigational error. Investigation confirmed a genuine navigation error, for which the pilot has apologised.☐ CAA Closure: No further CAA action required at this time.
200708178	27/08/2007	EGTT : London (FIR)	London (LON)		A	CTR	JABIRU	Reciprocating	1	Infringement of the London CTR (Class A) by a Jabiru at 2000ft. London Heathrow departures suspended for approx 7mins during the infringement. D&D alerted. Standard separation maintained.	Whilst the infringer only affected LHR Northbound departures, due to a Northbound a/c awaiting take-off clearance R/W27, all subsequent departures affected. Traffic info given. Upon contacting LTCC, the pilot was informed of his infringement. However, the pilot stated that his GPS equipment did not indicate an infringement of the airspace. Appropriate CAA follow up action is to be taken. See also 200707214.
200708217	26/08/2007	EGTT : London (FIR)	POMAX	5W	D	CTA	PIPER	Reciprocating	1	Infringement of the Bristol CTA (Class D) by two a/c flying in formation at FL76. Both a/c had been instructed to remain outside CAS. Standard separation maintained.	Despite ATC workload being high at that time, the a/c were told to remain outside CAS. ATC state that communicationwas difficult at times, due to the pilot's accent.
200708217	26/08/2007	EGTT : London (FIR)	POMAX	5W	D	CTA	UNKNOWN	Unknown		Infringement of the Bristol CTA (Class D) by two a/c flying in formation at FL76. Both a/c had been instructed to remain outside CAS. Standard separation maintained.	Despite ATC workload being high at that time, the a/c were told to remain outside CAS. ATC state that communicationwas difficult at times, due to the pilot's accent.

200708229	22/08/2007	EGTT : London (FIR)	Pembrey	D118	G	Danger area	CESSNA	Reciprocating	1	UK AIRPROX 123/2007 - Military a/c and a C182 at 2000ft. C182 infringed active Danger Area EG D118 (Pembrey) whilst live firing was taking place and flew into conflict withmilitary jet.	The C182 pilot unknowingly entered a promulgated Danger Area active with live firing and flew into conflict with the military jet. ☐ CAA Closure: No further CAA action required. This AIRPROX has been subject to a separate review bythe United Kingdom AIRPROX Board (UKAB).
200708229	22/08/2007	EGTT : London (FIR)	Pembrey	D118	G	Danger area	OTHER	Unknown		UK AIRPROX 123/2007 - Military a/c and a C182 at 2000ft. C182 infringed active Danger Area EG D118 (Pembrey) whilst live firing was taking place and flew into conflict withmilitary jet.	The C182 pilot unknowingly entered a promulgated Danger Area active with live firing and flew into conflict with the military jet. ☐ CAA Closure: No further CAA action required. This AIRPROX has been subject to a separate review bythe United Kingdom AIRPROX Board (UKAB).
200708284	29/08/2007	EGTT : London (FIR)	Weston Supermare		D	CTA	CESSNA	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by a C172. A/c had been instructed to remain outside CAS. Standard separation maintained.	
200708390	28/08/2007	EGTT : London (FIR)	Honiley (HON)		D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C152 at1700ft at Honiley. Standard separation maintained.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200708431	02/09/2007	EGTT : London (FIR)	Stoney Cross		D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 2400ft. Traffic info given to a B737. Standard separation maintained.	The instructor concerned states that this infringement occurred due to being distracted from reading the altimeter due to traffic scan, assisting the student with timings and heading and going over the radio call they were thinkingthey would have to make again.

200708437	02/09/2007	EGTT : London (FIR)	Lambourne (LAM)	3 NE	D	CTR	PIPER	Reciprocating	1	PA28 allegedly infringed the Stansted CTA (Class D). All departures were stopped. Standard separation maintained. Thames Radar advised Stansted that a/c had also infringed the London TMA (Class A).	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200708439	01/09/2007	EGTT : London (FIR)	London City - LCY		D	TMA	PIPER	Reciprocating	1	Infringement of the London City CTA (Class D) and the London TMA (Class A) by a PA28. Standard separation maintained. Pilot phoned and apologised for the incident.	PA28 called Luton requesting a FIS and was identified andgiven a FIS. PA28 then asked for help to navigate betweenLuton and Stansted and was put on a heading at 2400ft. ATC then became busy and subsequently noticed PA28 approaching the City zone and instructed a/c to turn left onto 90deg and contact Thames on frequency 132.7. PA28 was then observed entering the City CAS and Thames called to find out what the a/c was doing. Again PA28 was instructed to turn left and call Thames. PA28 turned left, but never contacted Thames who noticed the a/c at 2800ft. After landing, pilot phoned and apologised stating he had flown into some light cloud and became a bit uneasy. Pilot also said he had made several attempts to contact Thames without success due to frequency being busy. Investigation continues under 200708437.
200708477	01/09/2007	EGTT : London (FIR)	London-Gatwick - LGW	8 W	D	CTA	EUROPA	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a Europa at 2000ft. Standard separation maintained.	
200708477	01/09/2007	EGTT : London (FIR)	London-Gatwick - LGW	8 W	D	CTA	AIRBUS	Turbofan	2	Infringement of the Gatwick CTA (Class D) by a Europa at 2000ft. Standard separation maintained.	
200708478	02/09/2007	EGTT : London (FIR)	London-Gatwick - LGW	7 NW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by C172 at 2000ft squawking 7000. Standard separation maintained.	All departures were stopped at Gatwick, and one a/c had to vacate the Gatwick R/W as a go-around would have occurred due to the stopping of the departures. ☐ CAA Closure: Nofurther information became available. No further CAA action practicable due to elapsed time.

200708478	02/09/2007	EGTT : London (FIR)	London-Gatwick - LGW	7 NW	D	CTA	BOEING	Turbofan	2	Infringement of the Gatwick CTA (Class D) by C172 at 2000ft squawking 7000. Standard separation maintained.	All departures were stopped at Gatwick, and one a/c had to vacate the Gatwick R/W as a go-around would have occurred due to the stopping of the departures. ☐ CAA Closure: Nofurther information became available. No further CAA action practicable due to elapsed time.
200708484	01/09/2007	EGTT : London (FIR)	Sandown	3.9NE	G	Restrict ed area	OTHER	Reciprocating	1	Infringement of the Sandown RA(T) for the Red Arrows by an alleged microlight. Traffic info given.	Appropriate CAA action is to be taken as a result of thisincident.
200708484	01/09/2007	EGTT : London (FIR)	Sandown	3.9NE	G	Restrict ed area	OTHER	Unknown		Infringement of the Sandown RA(T) for the Red Arrows by an alleged microlight. Traffic info given.	Appropriate CAA action is to be taken as a result of thisincident.
200708519	02/09/2007	EGTT : London (FIR)	White Waltham	2E	A	CTR	PIPER	Reciprocating	1	Infringement of the London Heathrow CTR (Class A) by a PA28 at 2000ft. Standard separation maintained.	
200708537	04/09/2007	EGTT : London (FIR)	Manchester (MCT)		D	CTR	PIPER	Reciprocating	1	PA28 that had called for a FIS and transit of the LLR (Low Level Route) infringed the Manchester and Liverpool CTRs(Class D).	The pilot reported that the wind was stronger than expected and the a/c infringed the Western edge of the CTR. The pilot is fully aware of the serious consequences of infringing CAS.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.

200708556	29/08/2007	EGTT : London (FIR)	Minehead	2SE	D	CTA	PIPER	Reciprocating	1	Infringement of Cardiff CTA (Class D) by a PA38 at 3600ft. The pilot had attempted to contact LARS on 126.625, however, this had been NOTAMed as not available during this period.	NOTAM had been issued stating that, due to staff shortages, limited services would be available and that requests to cross Cardiff CTR/CTA may be refused.
200708614	05/09/2007	EGTT : London (FIR)	Thames RMA		A	TMA	AVIONS ROBIN	Reciprocating	1	Infringement of LTMA (Class A) by a DR400 at 2700ft. FK50was broken of approach to maintain separation. Traffic info given.	Appropriate CAA action is being taken as a result of thisincident. See also 200505491.
200708614	05/09/2007	EGTT : London (FIR)	Thames RMA		A	TMA	FOKKER	Turboprop	2	Infringement of LTMA (Class A) by a DR400 at 2700ft. FK50was broken of approach to maintain separation. Traffic info given.	Appropriate CAA action is being taken as a result of thisincident. See also 200505491.
200708618	05/09/2007	EGTT : London (FIR)	London-Heathrow - LHR	8 W	A	CTR	PIPER	Reciprocating	1	Alleged infringement of the London CTR (Class A) by a PA32. Heathrow departures were stopped.	No response received from the PA32 operator.⚠ CAA Closure: No further CAA action practicable.
200708637	05/09/2007	EGTT : London (FIR)	Manchester Barton A/F	NE	A	CTR	CESSNA	Reciprocating	1	Infringement of the Manchester CTA (Class A) by C172 at 3700ft, Northeast of Barton. Standard separation maintained.	

200708658	04/09/2007	EGTT : London (FIR)	Warrington	NE	D	CTR	PILATUS	Turboprop	1	Alleged infringement of Manchester CTR (Class D) by a PC6at 1100ft. Traffic info given. Standard separation maintained.	See also 200611511.
200708702	08/09/2007	EGTT : London (FIR)	Duxford	4 SSW	G	Restrict ed area	PIPER	Reciprocating	1	UK AIRPROX-135/2007 - PA28 infringed the Duxford RA(T) and came into conflict with the Red Arrows.	See also 200709027, 200601752 and 200507946. AppropriateCAA action is to be taken as a result of this incident. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200708702	08/09/2007	EGTT : London (FIR)	Duxford	4 SSW	G	Restrict ed area	OTHER	Unknown		UK AIRPROX-135/2007 - PA28 infringed the Duxford RA(T) and came into conflict with the Red Arrows.	See also 200709027, 200601752 and 200507946. AppropriateCAA action is to be taken as a result of this incident. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200708704	06/09/2007	EGTT : London (FIR)	Manchester (MCT)		D	CTR	EUROCOPTER	Turboshaft	1	Infringement of Manchester CTR (Class D) by an EC120 that had been issued with an incorrect frequency. Standard separation maintained.	The pilot reported that he tried to establish contact with Manchester on the frequency given by Liverpool. Unable to establish contact, he tried another frequency but, by the time contact had been made, the a/c had infringed. The pilot is aware of the need to obtain a positive clearance prior to entering CAS.□ CAA Closure: No further CAA action required at this time.
200708721	05/09/2007	EGTT : London (FIR)	Kenley		G		DE HAVILLAND	Reciprocating	1	Infringement of the South London Gliding Centre cable hazard at Kenley Airfield by an unknown DHC1 at an estimated 500ft.	

200708738	06/09/2007	EGTT : London (FIR)	Southend (SND)	4 N	A	TMA	PITTS	Reciprocating	1	Pitts S2A requested and given a FIS and was told to remain outside CAS. On subsequent call it reported at 3800ft and inside the LTMA (Class A). Pitts S2A told to descend immediately to 3400ft.	
200708739	04/09/2007	EGTT : London (FIR)	Southend (SND)	4 SE	G	Danger area	AVIONS ROBIN	Reciprocating	1	Infringement of active D136 by a DR400 at 2700ft. 4nm SE of Southend. Infringement became apparent when pilot contacted Southend ATC. Pilot advised of infringement and a/c left D136 10secs later.	
200708791	06/09/2007	EGTT : London (FIR)	Newcastle (NEW)	20 SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Newcastle CTA (Class D) by a PA28 at FL55. An inbound A320 was given vectoring and delayed descent to avoid PA28. PA28 advised of traffic. Standard separation maintained.	Appropriate advice passed to pilot by ATC.
200708791	06/09/2007	EGTT : London (FIR)	Newcastle (NEW)	20 SW	D	CTA	AIRBUS	Turbofan	2	Infringement of the Newcastle CTA (Class D) by a PA28 at FL55. An inbound A320 was given vectoring and delayed descent to avoid PA28. PA28 advised of traffic. Standard separation maintained.	Appropriate advice passed to pilot by ATC.
200708793	10/09/2007	EGTT : London (FIR)	Manchester (MCT)		D	CTR	BELL	Turboshaft	1	Infringement of Manchester CTR (Class D) by a Bell 206 onapproach to Manchester.	No response received from the Bell 206 operator.☐ CAA Closure: No further CAA action practicable.

200708795	10/09/2007	EGTT : London (FIR)	Stansted	W	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C182 at 2400ft squawking 7000. Standard separation maintained.	Pilot reported having problems with his slaved HI and compass.
200708817	10/09/2007	EGTT : London (FIR)	Bristol International	3 NNE	D	CTR	NORTH AMERICAN	Reciprocating	1	Infringement of the Bristol CTR (Class D) by a P51. Traffic info given. Standard separation maintained.	
200708825	09/09/2007	EGTT : London (FIR)	Bristol International	9NE	D	CTR	VANS	Reciprocating	1	Infringement of the Bristol CTR (Class D) by a Vans RV4 at 6000ft. Standard separation maintained.	Investigation indicates a navigational error. This was aggravated by the fact that the pilot mistook the ATC unit he was working. Comprehensive remedial action taken.
200708868	11/09/2007	EGTT : London (FIR)	London-Gatwick - LGW	4 E	D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a C152, 4nm East of Gatwick, resulting in a loss of separation with ana/c outbound from Gatwick.	Gatwick outbound given a right turn heading 180deg. C152 given traffic info. Gatwick departures suspended during the infringement. The C152 pilot discussed the matter with his CFI who concluded that his map reading was at fault andhis compass checks were too infrequent. The pilot apologised for his actions.□ CAA Closure: No further CAA action practicable.
200708868	11/09/2007	EGTT : London (FIR)	London-Gatwick - LGW	4 E	D	CTR	UNKNOWN	Unknown		Infringement of the Gatwick CTR (Class D) by a C152, 4nm East of Gatwick, resulting in a loss of separation with ana/c outbound from Gatwick.	Gatwick outbound given a right turn heading 180deg. C152 given traffic info. Gatwick departures suspended during the infringement. The C152 pilot discussed the matter with his CFI who concluded that his map reading was at fault andhis compass checks were too infrequent. The pilot apologised for his actions.□ CAA Closure: No further CAA action practicable.

200708890	12/09/2007	EGTT : London (FIR)	Bristol	E	D	CTA	SCOTTISH AVIATION	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a Bulldog at6000ft, East of Bristol. An airliner, inbound to Bristol,was given a heading clear of the Bulldog. Standard separation maintained.	It is believed that the Bulldog was performing aerobaticswithin the zone. The pilot later phoned and apologised and discussed the incident. Operating company have put in place mitigation in order to prevent further occurrences.
200708890	12/09/2007	EGTT : London (FIR)	Bristol	E	D	CTA	UNKNOWN	Unknown		Infringement of the Bristol CTA (Class D) by a Bulldog at6000ft, East of Bristol. An airliner, inbound to Bristol,was given a heading clear of the Bulldog. Standard separation maintained.	It is believed that the Bulldog was performing aerobaticswithin the zone. The pilot later phoned and apologised and discussed the incident. Operating company have put in place mitigation in order to prevent further occurrences.
200708902	12/09/2007	EGTT : London (FIR)	Lulworth		G	Danger area	PIPER	Reciprocating	1	Infringement of active Danger Area EG D026 (Lulworth) by a PA28. All firing was stopped.	PA28 pilot admitted to and apologised for the infringement. Appropriate advice given.☐ CAA Closure: No further CAA action required at this time.
200708916	11/09/2007	EGTT : London (FIR)	Bristol	10 S	D	CTA	SIAI MARCHETTI	Reciprocating	1	Infringement of the Bristol and Cardiff CTAs (Class D) at4000ft, 10nm South of Cardiff. Pilot contacted by ATC andadvised of infringement. Standard separation maintained.	Alleged that a/c had also previously infringed Boscombe Down airspace and the Salisbury Plain Danger Areas. Pilot subsequently admitted to and apologised for infringements. Appropriate lessons learned.☐ CAA Closure: No further CAA action required at this time.
200708917	05/09/2007	EGTT : London (FIR)	Portsmouth		G	Danger area	PIPER	Reciprocating	1	Infringement of active Danger Area EG D036 (Portsmouth) by PA28 following a VFR crossing route. Pilot was asked to phone the military and informed of the infringement. Pilotapologised for the error.	

200708958	13/09/2007	EGTT : London (FIR)	Ware	2SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 2300ft. Traffic info given to a A319. Standard separation maintained.	Appropriate CAA action being taken. See also 200504123.
200708958	13/09/2007	EGTT : London (FIR)	Ware	2SW	D	CTA	AIRBUS	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA28 at 2300ft. Traffic info given to a A319. Standard separation maintained.	Appropriate CAA action being taken. See also 200504123.
200709008	15/09/2007	EGTT : London (FIR)	Southampton (SAM)		D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a Robin DR400 at 1500ft. Standard separation maintained.	See also 200503596 and 200204888.
200709027	15/09/2007	EGTT : London (FIR)	LOREL	5 N	A	TMA	PIPER	Reciprocating	1	UK AIRPROX 138/2007 - PA28 and B737 5nm North of LOREL at6000ft.	PA28, which initially was unidentified, infringed the London TMA (Class A) and lost separation with a B737 inbound to Luton. B737 was given traffic info and avoiding action and reported seeing the a/c on TCAS. See also 200708702, 200601752 and 200507946. Appropriate CAA action is to be taken as a result of this incident. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200709027	15/09/2007	EGTT : London (FIR)	LOREL	5 N	A	TMA	BOEING	Turbofan	2	UK AIRPROX 138/2007 - PA28 and B737 5nm North of LOREL at6000ft.	PA28, which initially was unidentified, infringed the London TMA (Class A) and lost separation with a B737 inbound to Luton. B737 was given traffic info and avoiding action and reported seeing the a/c on TCAS. See also 200708702, 200601752 and 200507946. Appropriate CAA action is to be taken as a result of this incident. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).

200709029	14/09/2007	EGTT : London (FIR)	Manchester (MCT)		D	CTR	ROBINSON	Reciprocating	1	Two infringements of the Manchester CTR (Class D) by an R44 at 1250ft. Standard separation maintained.	
200709043	15/09/2007	EGTT : London (FIR)	ASPEN	10N	A		OTHER	Reciprocating	1	Infringement of Airway N866 (Class A) by a microlight at FL46. ATC had advised a/c to remain outside of CAS. Standard separation maintained.	The pilot spoke to ATC and is fully aware of the serious consequences of infringing CAS. See also 200703807. □ CAA Closure: No further CAA action required at this time.
200709076	15/09/2007	EGTT : London (FIR)	Wallasey (WAL)		A	TMA	AESL	Reciprocating	1	Infringement of the Manchester TMA (Class A) by an Airtourer at FL55. Pilot later called D&D reporting that he was lost. A/c landed safely shortly afterwards. Standard separation maintained.	
200709116	18/09/2007	EGTT : London (FIR)	Stansted	W	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 2000ft. Traffic info given. Standard separation maintained.	
200709116	18/09/2007	EGTT : London (FIR)	Stansted	W	D	CTA	AIRBUS	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA28 at 2000ft. Traffic info given. Standard separation maintained.	

200709117	18/09/2007	EGTT : London (FIR)	London City - LCY	14E	A	TMA	GRUMMAN	Reciprocating	1	Infringement of the LTMA (Class A) by a Grumman AA5 squawking 7000 at 2700ft. Standard separation maintained.	See also 200510844.
200709117	18/09/2007	EGTT : London (FIR)	London City - LCY	14E	A	TMA	CESSNA	Turbofan	2	Infringement of the LTMA (Class A) by a Grumman AA5 squawking 7000 at 2700ft. Standard separation maintained.	See also 200510844.
200709119	18/09/2007	EGTT : London (FIR)	Southampton (SAM)	8 S	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a Robin 200 at 1500ft, 8nm South of Southampton. Traffic info given. Standard separation maintained.	Subsequent investigation identified a possible navigationerror and pre-flight planning omissions by Robin 200 pilot. Appropriate advice given. □ CAA Closure: No further CAA action required at this time.
200709128	16/09/2007	EGTT : London (FIR)	Norwich	2N	G	ATZ	OTHER	Reciprocating	1	Infringement of the Norwich ATZ (Glass G) by an unidentified microlight at 500ft. Standard separation maintained.	
200709129	15/09/2007	EGTT : London (FIR)	Dishforth		G	ATZ	ROBINSON	Reciprocating	1	Infringement of the active Dishforth ATZ/Gliding Site by an R44 at 1500ft.	

200709134	18/09/2007	EGTT : London (FIR)	Luton (LUT)	2 E	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C152, resulting in a loss of separation against a B737 on approach. B737 instructed to go-around. Luton departures suspended.	Student pilot. Instructor subsequently advised that additional navigation training had been given and that the student's performance is now satisfactory. See also 200302749 and 200300063. □ CAA Closure: The hazard is adequately controlled by the actions stated above.
200709134	18/09/2007	EGTT : London (FIR)	Luton (LUT)	2 E	D	CTR	BOEING	Turbofan	2	Infringement of the Luton CTR (Class D) by a C152, resulting in a loss of separation against a B737 on approach. B737 instructed to go-around. Luton departures suspended.	Student pilot. Instructor subsequently advised that additional navigation training had been given and that the student's performance is now satisfactory. See also 200302749 and 200300063. □ CAA Closure: The hazard is adequately controlled by the actions stated above.
200709145	19/09/2007	EGTT : London (FIR)	Birmingham	16 W	D	CTA	GROB	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a Grob 115 at FL90, 16nm West of Birmingham. Traffic info given to Birmingham inbound traffic. Standard separation maintained.	The pilot reported that he had climbed above the cloud toconduct the flight exercise but, due to the stronger thanexpected Westerly wind and unreliable fix on TNT, had inadvertently strayed into CAS. The pilot is fully aware of the serious consequences of infringing CAS. □ CAA Closure: No further CAA action required at this time.
200709237	20/09/2007	EGTT : London (FIR)	Luton (LUT)	4 S	D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Luton CTR (Class D) by a PA28. Outbounds were stopped for a few minutes and inbounds were held on LTCC frequency late in case they were broken off the approach.	No response received from the PA28 operator. See also 200707335. □ CAA Closure: No further CAA action practicable.
200709252	01/08/2007	EGTT : London (FIR)	Brize Norton	10.9 E	D	CTR	RANS	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a Rans S6-ESD. Pilot advised of his error.	

200709256	26/08/2007	EGTT : London (FIR)	Brize Norton	8 E	D	CTR	PIPER	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a PA38.	Pilot very apologetic, stating that he had RT problems. Pilot briefed over the RT.
200709257	26/08/2007	EGTT : London (FIR)	Brize Norton	7 NW	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of Brize Norton CTR (Class D) by a Robin 400at 2100ft squawking 7000. A/c entered CTR without two waycommunication with Brize Norton.	A/c was on the Kemble frequency. Pilot rebriefed.
200709258	23/08/2007	EGTT : London (FIR)	Brize Norton	9.5 SE	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by an R44 at 2000ft.	R44 entered the CTR without a clearance and allegedly ignored calls until clear of the CTR and subsequently denied entering. Pilot rebriefed by telephone.
200709259	22/08/2007	EGTT : London (FIR)	Brize Norton	10 E	D	CTR	CESSNA	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a Cessna 152.	A/c had previously worked Benson who had been trying to hand the a/c over for 5mins.
200709261	08/08/2007	EGTT : London (FIR)	Brize Norton	6 NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a PA28 squawking 7000. Incident discussed with pilot.	

200709262	28/08/2007	EGTT : London (FIR)	Brize Norton	9 E	D	CTR	SOCATA	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a Socata TB10 at 3000ft squawking 7000. Pilot rebriefed on the RT.	The Oxford outbound a/c called for LARS service at Farmoor reservoir at 3000ft.
200709278	22/09/2007	EGTT : London (FIR)	Manchester (MCT)	15 E	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Manchester CTR (Class D) by an R44 at1400ft squawking 7000. Traffic info given. Standard separation maintained.	
200709279	23/09/2007	EGTT : London (FIR)	Fairoaks	3E	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 at 2000ft. Standard separation maintained.	
200709280	22/09/2007	EGTT : London (FIR)	Bishops Waltham		D	CTR	OTHER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by an Ikarus C42. Standard separation maintained.	The pilot of the probable a/c involved subsequently called ATC by phone admitting that he may have infringed CAS, however, at no time was the a/c identified.
200709283	21/09/2007	EGTT : London (FIR)	Stansted	7 SE	D	CTR	MOONEY	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a Mooney 20at 1300ft squawking 7000. Avoiding action given. Standardseparation maintained.	

200709400	26/09/2007	EGTT : London (FIR)	Southampton (SAM)	11 NE	D	CTA	CESSNA	Reciprocating	1	C172 at 3000ft called for a FIS and was identified infringing the Southampton CTA (Class D). Standard separation maintained.	C172 pilot subsequently reported that he had misread the base of CAS as 3000ft rather than the 2500ft. He is fully aware of the serious consequences of infringing CAS. See also 200305797.□ CAA Closure: No further CAA action required at this time.
200709407	16/09/2007	EGTT : London (FIR)	London-Gatwick - LGW		D	CTA	CESSNA	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a C150 receiving a FIS. C150 was instructed to descend and route on a Southerly track. Standard separation maintained.	
200709456	18/09/2007	EGTT : London (FIR)	Luton (LUT)		D	CTR	PIPER	Reciprocating	1	Student pilot on a solo navigation exercise in a PA28 infringed the Luton CTR (Class D) and lost separation with aninbound F2000 which was given traffic info, then broken off its approach.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200709456	18/09/2007	EGTT : London (FIR)	Luton (LUT)		D	CTR	DASSAULT	Turbofan	2	Student pilot on a solo navigation exercise in a PA28 infringed the Luton CTR (Class D) and lost separation with aninbound F2000 which was given traffic info, then broken off its approach.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200709465	27/09/2007	EGTT : London (FIR)	Southampton (SAM)	10N	D	CTA	MOONEY	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Mooney 20 at 3000ft, 10nm North of Southampton. Standard separation maintained.	

200709468	27/09/2007	EGTT : London (FIR)	Abbot Hold		A	TMA	CESSNA	Reciprocating	1	An FIS squawk infringed the London TMA (Class A) at 5800ft and lost separation with two a/c inbound to Luton. Another a/c was given a turn and traffic info. Traffic subsequently identified as a C172.	C172 pilot subsequently advised that he had planned to fly at FL55. The base of CAS in this area is FL55 and so he has been advised to allow a greater margin for error in future.☐ CAA Closure: No further CAA action required at thistime.
200709468	27/09/2007	EGTT : London (FIR)	Abbot Hold		A	TMA	AIRBUS	Turbofan	2	An FIS squawk infringed the London TMA (Class A) at 5800ft and lost separation with two a/c inbound to Luton. Another a/c was given a turn and traffic info. Traffic subsequently identified as a C172.	C172 pilot subsequently advised that he had planned to fly at FL55. The base of CAS in this area is FL55 and so he has been advised to allow a greater margin for error in future.☐ CAA Closure: No further CAA action required at thistime.
200709485	27/09/2007	EGTT : London (FIR)	Dunkeswell		G	ATZ	OTHER	Unknown		UK AIRPROX 146/2007 - PA28 and a military a/c, near Dunkeswell at 300ft.	As PA28 rolled out downwind for R/W05 RH, a military a/c was see in the 11 o'clock position flying at an estimated 0.5-0.75nm off the upwind end of R/W at approximately 300ft passing through the ATZ and notified Parachute Drop Zone. Information indicates that following a navigational equipment failure and subsequent navigational error, the military jet infringed the Dunkeswell ATZ and caused concern to a PA28 pilot in the circuit. Appropriate military follow up action taken. ☐ CAA Closure: No further CAA action. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200709485	27/09/2007	EGTT : London (FIR)	Dunkeswell		G	ATZ	PIPER	Reciprocating	1	UK AIRPROX 146/2007 - PA28 and a military a/c, near Dunkeswell at 300ft.	As PA28 rolled out downwind for R/W05 RH, a military a/c was see in the 11 o'clock position flying at an estimated 0.5-0.75nm off the upwind end of R/W at approximately 300ft passing through the ATZ and notified Parachute Drop Zone. Information indicates that following a navigational equipment failure and subsequent navigational error, the military jet infringed the Dunkeswell ATZ and caused concern to a PA28 pilot in the circuit. Appropriate military follow up action taken. ☐ CAA Closure: No further CAA action. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200709488	28/09/2007	EGTT : London (FIR)	EXMOR	5S	D	CTA	PIPER	Reciprocating	1	Infringement of Cardiff CTA (Class D) by a PA28 at FL60. Traffic info given. Standard separation maintained.	When pilot was asked as to why he was inside CAS, pilot advised that they had been given an incorrect frequency on transfer.

200709505	28/09/2007	EGTT : London (FIR)	Winchester		D	CTR	PIPER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a PA28 at 1300ft. Traffic info given. Standard separation maintained.	
200709505	28/09/2007	EGTT : London (FIR)	Winchester		D	CTR	SAAB	Turboprop	2	Infringement of the Southampton CTR (Class D) by a PA28 at 1300ft. Traffic info given. Standard separation maintained.	
200709569	30/09/2007	EGTT : London (FIR)	Southampton (SAM)		D	CTR	PILATUS	Turboprop	1	Alleged infringement of the Southampton CTR (Class D) by a PC12 receiving a FIS. Standard separation maintained.	
200709619	30/09/2007	EGTT : London (FIR)	Luton (LUT)	8W	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28. Westbound departures were stopped and two a/c were orbited to provide separation.	The pilot was contacted and reported that he had done insufficient pre-flight planning on a detail he was given at short notice. The pilot apologised, has discussed the event with his CFI and is going to visit LTCC on a flying clubvisit. See also 200701633, 200606754, 200606423 and 200506184.☐ CAA Closure: No further CAA action required at thistime.
200709619	30/09/2007	EGTT : London (FIR)	Luton (LUT)	8W	D	CTR	UNKNOWN	Unknown		Infringement of the Luton CTR (Class D) by a PA28. Westbound departures were stopped and two a/c were orbited to provide separation.	The pilot was contacted and reported that he had done insufficient pre-flight planning on a detail he was given at short notice. The pilot apologised, has discussed the event with his CFI and is going to visit LTCC on a flying clubvisit. See also 200701633, 200606754, 200606423 and 200506184.☐ CAA Closure: No further CAA action required at thistime.

200709620	01/10/2007	EGTT : London (FIR)	Manchester (MCT)	10 SW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a C150 at1200ft, 10nm Southwest of Manchester Airport. Standard separation maintained.	It is believed that the same a/c infringed the zone approximately 40-50mins earlier, heading on a Southerly track. No response received from the C150 operator. ☐ CAA Closure: No further CAA action practicable.
200709693	10/09/2007	EGTT : London (FIR)	Syerston		G	ATZ	ROBINSON	Reciprocating	1	Infringement of the Syerston ATZ Gliding Site by an R44 at 800ft squawking 7000.	See also 200407372.
200709758	05/10/2007	EGTT : London (FIR)	Southampton (SAM)	11 NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 2700ft. Standard separation maintained.	On checking with Boscombe Radar, it was evident that the a/c was flying on the Portland regional pressure which was4mb different to the Solent QNH.
200709759	04/10/2007	EGTT : London (FIR)	Snitterfield	SE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a C150 at2300ft. Commercial traffic affected. Standard separation maintained.	The a/c was being flown by a student pilot on a solo cross country who failed to realise that he was infringing CAS. Appropriate follow up action has been taken by Birmingham ATC with the instructor concerned.
200709759	04/10/2007	EGTT : London (FIR)	Snitterfield	SE	D	CTA	UNKNOWN	Unknown		Infringement of the Birmingham CTA (Class D) by a C150 at2300ft. Commercial traffic affected. Standard separation maintained.	The a/c was being flown by a student pilot on a solo cross country who failed to realise that he was infringing CAS. Appropriate follow up action has been taken by Birmingham ATC with the instructor concerned.

200709760	06/10/2007	EGTT : London (FIR)	Bournemouth	5E	D	CTR	PIPER	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a PA28 at 1500ft. Standard separation maintained.	Believed to be a student pilot.
200709792	06/10/2007	EGTT : London (FIR)	Southampton (SAM)	10N	D	CTA	CIRRUS	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Cirrus SR22at 3000ft. Traffic info given. Standard separation maintained.	When a/c was subsequently cleared to transit CAS at 3000ft VFR, it appeared on radar to be indicating 3300ft. QNH was checked with the pilot but he reported level at 3000ft.
200709793	06/10/2007	EGTT : London (FIR)	Southampton (SAM)	7-8N	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA32 at 3000ft. Traffic info given. Standard separation maintained.	See also 200206835.
200709795	06/10/2007	EGTT : London (FIR)	Southampton (SAM)	8N	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Solent CTR (Class D) by an R22 at 1700ft. Standard separation maintained.	
200709796	05/10/2007	EGTT : London (FIR)	Manchester (MCT)	13 NE	D	Restricted area	CESSNA	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a C172 at2000ft. Traffic info given to a B747. Standard separationmaintained.	The a/c, which had worked Warton Radar, had been told to remain clear of Manchester CAS and to call Manchester Approach, which it failed to do. The a/c elected to return to its point of departure and, in so doing, allegedly infringed a Restricted Area.

200709798	06/10/2007	EGTT : London (FIR)	Stansted	SSW	D	CTA	CIRRUS	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Cirrus SR22 at 2300ft. Standard separation maintained.	See also 200610032 and 200610020. Appropriate CAA action is to be taken as a result of this incident.
200709827	30/09/2007	EGTT : London (FIR)	Nr High Easter		D	CTR	CESSNA	Reciprocating	1	Alleged infringement of the Stansted CTR (Class D) by a C172 squawking 7000 at 1800ft. Traffic info given. Standardseparation maintained.	
200709873	23/09/2007	EGTT : London (FIR)	Faringdon	5 SE	D	CTR	PIPER	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a PA32 at 3000ft.	Once pilot had landed he called to apologise and stated that his 'com' button had popped out.
200709876	08/09/2007	EGTT : London (FIR)	Charbury		D	CTR	MOONEY	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by Mooney 20 squawking 7000. A/c called on LARS and reported lost. D&D had been alerted but were unable to get two way comms.	Pilot phoned on landing as requested and apologised stating that he had been disorientated.
200709877	05/09/2007	EGTT : London (FIR)	Brize Norton	2.5NE	D	CTR	PIPER	Reciprocating	1	Infringement of Brize Norton CTR (Class D) by a PA28 squawking 7000. Incident discussed with pilot.	

200709879	03/09/2007	EGTT : London (FIR)	Fairford		D	CTR	PIPER	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a PA28 at 3000ft. Incident discussed with pilot.	
200709919	09/10/2007	EGTT : London (FIR)	Farnborough	2N	G	ATZ	ROBINSON	Reciprocating	1	Infringement of the Farnborough ATZ (Class G) by an R44 at 1600ft. Standard separation maintained.	
200709958	10/10/2007	EGTT : London (FIR)	Cardiff (CDF)	NW	D	CTA	PIPER	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by a PA38 at 2200ft. PA38 was being given a FIS and when asked to report his level he stated 2150ft. QNH was 1027mbs. Standard separation maintained.	See 200708556. Investigations indicates that the instructor failed to closely monitor the student pilot who climbedinto CAS.
200710057	12/10/2007	EGTT : London (FIR)	Southampton (SAM)	W	D	CTR	EUROCOPTER	Turboshaft	1	Infringement of the Solent CTA (Class D) by an EC120 at 3500ft. Standard separation maintained.	Pilot later phoned ATC and apologised for causing a problem.
200710078	14/10/2007	EGTT : London (FIR)	Southampton (SAM)	10NE	D	CTA	MOONEY	Reciprocating	1	Infringement of the Southampton CTA (Class D) by a Mooney20. Standard separation maintained.	A full and comprehensive report has been received from the crew involved who accept that they climbed to early and into the Southampton CTA. The appropriate lessons appear to have been learnt. See 200704729.

200710081	14/10/2007	EGTT : London (FIR)	Stansted	8 W	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28 at 1300ft. Traffic info given and departures were stopped. Standard separation maintained.	PA28 pilot has written to Stansted ATC to apologise. Additionally, he has discussed the incident with his CFI. See 200409337.□ CAA Closure: The hazard is adequately controlled by the actions stated above.
200710099	10/10/2007	EGTT : London (FIR)	Weston On The Green		G	Danger area	MOONEY	Reciprocating	1	Infringement of the active Danger Area EG D129 (Weston onthe Green) by a Mooney 20 at approximately 2000ft. A/c flew across the drop zone whilst four canopies were in the air.	Mooney 20 pilot subsequently advised that he had initially been inbound to Oxford but had to divert to Cranfield due to Oxford runway being blocked. Infringement occurred during subsequent flight to Oxford. Pilot reminded of the importance of adequate pre-flight planning and remaining clear of active Danger Areas at all times.□ CAA Closure: No further CAA action required at this time.
200710171	15/10/2007	EGTT : London (FIR)	Bournemouth	10 NE	D	CTA	PILATUS	Turboprop	1	Infringement of the Solent CTA (Class D) by a PC12 at FL45. Standard separation maintained.	The controller subsequently spoke to the pilot who was under the impression that he was on a radar handover. See also 200801393, 200712555.
200710171	15/10/2007	EGTT : London (FIR)	Bournemouth	10 NE	D	CTA	UNKNOWN	Unknown		Infringement of the Solent CTA (Class D) by a PC12 at FL45. Standard separation maintained.	The controller subsequently spoke to the pilot who was under the impression that he was on a radar handover. See also 200801393, 200712555.
200710212	17/10/2007	EGTT : London (FIR)	Stansted	7 SW	D	CTA	PIPER	Reciprocating	1	Loss of separation due to an infringement of the StanstedCTA (Class D) by a PA28 at 2000ft. Traffic info and avoiding action given to a/c on approach. Numerous a/c held downwind.	The pilot was informed of his error and subsequently phoned Stansted ATC. He was very apologetic and fully aware ofthe serious consequences of infringing CAS.□ CAA Closure:No further CAA action required at this time.

200710212	17/10/2007	EGTT : London (FIR)	Stansted	7 SW	D	CTA	UNKNOWN	Unknown		Loss of separation due to an infringement of the StanstedCTA (Class D) by a PA28 at 2000ft. Traffic info and avoiding action given to a/c on approach. Numerous a/c held downwind.	The pilot was informed of his error and subsequently phoned Stansted ATC. He was very apologetic and fully aware ofthe serious consequences of infringing CAS.☐ CAA Closure:No further CAA action required at this time.
200710226	17/10/2007	EGTT : London (FIR)	London-Heathrow - LHR	NW	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28. Heathrow Northbound departures from R/W27R were stopped. Traffic info was given. Standard separation maintained.	Investigation continues under 200709456. See also 200609099.
200710231	17/10/2007	EGTT : London (FIR)	NEDUL	W	D	CTA	PITTS	Reciprocating	1	Infringement of the Southampton CTA (Class D) by a Pitts Special at 4000ft. Standard separation maintained.	
200710247	18/10/2007	EGTT : London (FIR)	St Albans Head		G	Danger area	CESSNA	Reciprocating	1	Infringement of active Danger Areas EGD031 and EGD026 by a C182 at 1300ft.	C182 pilot subsequently stated that he asked ATC if the Danger Area was active on departure and was informed that it was not.☐ CAA Closure: The hazard is adequately controlled by existing requirements, procedures and documentation.
200710307	19/10/2007	EGTT : London (FIR)	London City - LCY	6 NE	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) and the London City CTR (Class D) by a C210 at 2500ft squawking 7000. Traffic info and avoiding action given to an RJ100. Standard separation maintained.	STCA activated.

200710307	19/10/2007	EGTT : London (FIR)	London City - LCY	6 NE	A	TMA	BAE	Turbofan	4	Infringement of the LTMA (Class A) and the London City CTR (Class D) by a C210 at 2500ft squawking 7000. Traffic info and avoiding action given to an RJ100. Standard separation maintained.	STCA activated.
200710310	19/10/2007	EGTT : London (FIR)	Glossop	NW	D	CTR	HUGHES	Turboshaft	1	Infringement of the Manchester CTR (Class D) by a Hughes 369 at 2400ft squawking 7000. Standard separation maintained.	The pilot concerned subsequently spoke with the Manchester ATC Watch Manager.
200710361	20/10/2007	EGTT : London (FIR)	Isle Of Wight		D	CTA	PITTS	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Pitts Special that had been told to remain clear of CAS. Traffic info was given. Standard separation maintained.	Pilot believed the base of CAS in that location was FL55, which is the base of Airway N866. The pilot is aware of his error and of the serious consequences of infringing CAS. See also 200710231.☐ CAA Closure: No further CAA action required at this time.
200710363	19/10/2007	EGTT : London (FIR)	North Weald		D	CTA	PIPER	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a PA28 at 2000ft squawking 7000. Traffic info given to a B737. Standard separation maintained.	Investigation continues under occ 200707244.
200710363	19/10/2007	EGTT : London (FIR)	North Weald		D	CTA	BOEING	Turbofan	2	Alleged infringement of the Stansted CTA (Class D) by a PA28 at 2000ft squawking 7000. Traffic info given to a B737. Standard separation maintained.	Investigation continues under occ 200707244.

200710389	22/10/2007	EGTT : London (FIR)	Audley End	4 NE	D	CTA	GROB	Reciprocating	1	G115 infringed the Stansted CTA (Class D). An a/c was broken off the approach. Traffic info and avoiding action given.	The pilot spoke to ATC and was informed of his error. The pilot subsequently descended to remain clear of CAS. He is aware of the serious consequence of infringing CAS. See also 200709145.☐ CAA Closure: No further CAA action required at this time.
200710449	22/09/2007	EGTT : London (FIR)	Luton (LUT)	6 NW	D	CTR	SIAI MARCHETTI	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Siai S205 receiving a FIS. Siai established contact with reporter and was given a heading towards its destination. Separation lost.	
200710602	22/10/2007	EGTT : London (FIR)	Detling (DET)	2 W	A	TMA	BEECH	Reciprocating	1	BE24 infringed the London TMA (Class A) and lost separation with an HS125. STCA activated. Traffic info and avoiding action was given to HS125.	BE24 pilot subsequently stated that, having climbed to 3800ft due to cloud, the a/c experienced a strong updraught which resulted in a brief infringement. He apologised for any inconvenience caused. See also 200401853.☐ CAA Closure: No further CAA action required at this time.
200710602	22/10/2007	EGTT : London (FIR)	Detling (DET)	2 W	A	TMA	HAWKER SIDDELEY	Turbofan	2	BE24 infringed the London TMA (Class A) and lost separation with an HS125. STCA activated. Traffic info and avoiding action was given to HS125.	BE24 pilot subsequently stated that, having climbed to 3800ft due to cloud, the a/c experienced a strong updraught which resulted in a brief infringement. He apologised for any inconvenience caused. See also 200401853.☐ CAA Closure: No further CAA action required at this time.
200710672	26/10/2007	EGTT : London (FIR)	Liverpool	6 S	D	CTR	ROBINSON	Reciprocating	1	Infringement of Liverpool CTR (Class D) by an R44. A B737being vectored to an ILS approach R/W27 was given trafficinfo and continued on the approach. R44 called ATC and appropriate action taken.	

200710672	26/10/2007	EGTT : London (FIR)	Liverpool	6 S	D	CTR	BOEING	Turbofan	2	Infringement of Liverpool CTR (Class D) by an R44. A B737being vectored to an ILS approach R/W27 was given trafficinfo and continued on the approach. R44 called ATC and appropriate action taken.	
200710674	25/10/2007	EGTT : London (FIR)	Portsmouth		G	Danger area	CESSNA	Reciprocating	1	C182 departed Bournemouth SVFR. On leaving CAS C182 was provided with a FIS and subsequently infringed Danger AreasEG D036 and D038 (Portsmouth). Military ATC were given details of C182.	See also 200710247.
200710683	30/10/2007	EGTT : London (FIR)	Stansted	4 S	D	CTR	ROBINSON	Reciprocating	1	R22 infringed the Stansted CTR (Class D) and lost separation with two departures. All departures were stopped. Traffic info given. When R22 left the area departures were resumed.	CAA Closure: Appropriate CAA is being taken as a result of this occurrence.
200710683	30/10/2007	EGTT : London (FIR)	Stansted	4 S	D	CTR	BOEING	Turbofan	2	R22 infringed the Stansted CTR (Class D) and lost separation with two departures. All departures were stopped. Traffic info given. When R22 left the area departures were resumed.	CAA Closure: Appropriate CAA is being taken as a result of this occurrence.
200710720	01/11/2007	EGTT : London (FIR)	Shoeburyness		G	Danger area	STODDARD HAMILTON	Reciprocating	1	Infringement of Danger Area EG D138 (Shoeburyness) by a Glasair receiving a FIS at 4500ft.	

200710725	01/11/2007	EGTT : London (FIR)	Manchester (MCT)	8 NW	D	CTR	CIRRUS	Reciprocating	1	Infringement of Manchester CTR (Class D) by an SR20 at 1500ft. Pilot allegedly late in calling ATC which resulted in a non standard routing. Standard separation maintained.	See also 200611712.
200710741	01/11/2007	EGTT : London (FIR)	Detling (DET)		A	TMA	CESSNA	Reciprocating	1	C182 cleared to climb to 3400ft, ATC then observed a/c at3800ft and infringing LTMA (Class A). A/c was then turnedand subsequently told to maintain 4000ft. Standard separation maintained.	
200710741	01/11/2007	EGTT : London (FIR)	Detling (DET)		A	TMA	BAE	Turbofan	4	C182 cleared to climb to 3400ft, ATC then observed a/c at3800ft and infringing LTMA (Class A). A/c was then turnedand subsequently told to maintain 4000ft. Standard separation maintained.	
200710779	25/10/2007	EGTT : London (FIR)	Church Fenton		G	ATZ	CESSNA	Reciprocating	1	Infringement of the active Church Fenton ATZ (Class G) bya Cessna 172 at 1700ft.	Appropriate CAA action is to be taken as a result of thisincident.
200710782	02/11/2007	EGTT : London (FIR)	CTA8		D	CTA	PERCIVAL	Turbofan	1	Infringement of the Bristol CTA 8 (Class D) by a Jet Provost (believed) at FL82. Standard separation maintained.	The infringement was a result of a navigational error. Appropriate follow-up action taken.

200710788	02/11/2007	EGTT : London (FIR)	Southampton (SAM)	6 N	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Southampton CTR (Class D) by an R44. Standard separation maintained.	
200710799	02/11/2007	EGTT : London (FIR)	Stansted	8 N	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C172. Departures at Stansted were stopped for approximately 5mins. Standard separation maintained.	ATC have discussed the incident with the C172 pilot. A full and comprehensive report has been received from the pilot and his CFI. Investigations indicate that this infringement resulted from a number of factors. The problems initiated when the pilot decided to divert to Bourn for some circuits not realising the time that this would take. This in turn led him to be flying back into a setting sun with poor visibility. He then selected the wrong mode on the KNS80 equipment. On realising that something was wrong he failed to make an RT call to ask for help. Appropriate followup and training action is to be taken as a result of thisincident.
200710799	02/11/2007	EGTT : London (FIR)	Stansted	8 N	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C172. Departures at Stansted were stopped for approximately 5mins. Standard separation maintained.	ATC have discussed the incident with the C172 pilot. A full and comprehensive report has been received from the pilot and his CFI. Investigations indicate that this infringement resulted from a number of factors. The problems initiated when the pilot decided to divert to Bourn for some circuits not realising the time that this would take. This in turn led him to be flying back into a setting sun with poor visibility. He then selected the wrong mode on the KNS80 equipment. On realising that something was wrong he failed to make an RT call to ask for help. Appropriate followup and training action is to be taken as a result of thisincident.
200710803	02/11/2007	EGTT : London (FIR)	Birmingham	8 W	D	CTA	SOCATA	Reciprocating	1	Infringement of Birmingham CTA (Class D) by a TB21 at FL44. Two DHC8 given traffic info and avoiding action. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident. See also 200710804.
200710803	02/11/2007	EGTT : London (FIR)	Birmingham	8 W	D	CTA	DE HAVILLAND	Turboprop	2	Infringement of Birmingham CTA (Class D) by a TB21 at FL44. Two DHC8 given traffic info and avoiding action. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident. See also 200710804.

200710820	30/10/2007	EGTT : London (FIR)	Kenley		G		CESSNA	Reciprocating	1	Infringement of the South London Gliding Centre cable hazard at Kenley Airfield by a C152 at estimated 1100ft. A glider was launching at the time of the infringement.	
200710821	30/10/2007	EGTT : London (FIR)	Kenley		G		CESSNA	Reciprocating	1	Infringement of the South London Gliding Centre cable hazard at Kenley Airfield by a Cessna 152 at an estimated 1500ft.	See 200604941.
200710839	31/10/2007	EGTT : London (FIR)	Kenley		G		PIPER	Reciprocating	1	Infringement of the South London Gliding Centre cable hazard at Kenley Airfield by a PA28 at an estimated 800ft.	
200710846	05/11/2007	EGTT : London (FIR)	Birmingham	12 S	D	CTA	CIRRUS	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by an SR20 squawking 7000 at 2000ft. Traffic info given. Standard separation maintained.	An inbound EMB190 was extended downwind to avoid the infringer. The pilot concerned subsequently rang ATC and apologised. Shortly after departure from Wellesbourne, she encountered some poor weather and whilst trying to remain VMC and avoid a nearby RA(T) infringed CAS. The pilot concededthat a call to Birmingham would have been prudent.
200710984	06/11/2007	EGTT : London (FIR)	London-Gatwick - LGW	12 E	D	CTA	PIPER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a PA28 at 2300ft. Traffic info and avoiding action given to two a/c onapproach.	Appropriate CAA action is being taken as a result of thisincident.

200710984	06/11/2007	EGTT : London (FIR)	London-Gatwick - LGW	12 E	D	CTA	BOEING	Turbofan	2	Infringement of the Gatwick CTA (Class D) by a PA28 at 2300ft. Traffic info and avoiding action given to two a/c onapproach.	Appropriate CAA action is being taken as a result of thisincident.
200711111	12/11/2007	EGTT : London (FIR)	Bovingdon (BNN)	3 SE	A	TMA	LUSCOMBE	Reciprocating	1	An unidentified a/c at 4500ft infringed the London TMA (Class A) and lost separation with a/c inbound to Heathrow. Following a/c were turned early. A/c subsequently identified as a Luscombe.	Appropriate CAA action has been taken as a result of thisincident. See also 200608121.
200711117	12/11/2007	EGTT : London (FIR)	Stansted	9 W	D	CTA	EXTRA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by an Extra. An inbound B767 was given traffic info and avoiding action.Standard separation maintained.	CAA Closure: Pilot has been made aware of the serious consequences of infringing CAS.
200711117	12/11/2007	EGTT : London (FIR)	Stansted	9 W	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by an Extra. An inbound B767 was given traffic info and avoiding action.Standard separation maintained.	CAA Closure: Pilot has been made aware of the serious consequences of infringing CAS.
200711141	11/11/2007	EGTT : London (FIR)	Bristol Filton	2.4 E	G	ATZ	ROBINSON	Reciprocating	1	UK AIRPROX 162/2007 - R44 and a PA28, 2.4nm East of Bristol Filton at 1000ft.	PA28 was in the RH circuit for R/W27 at 1200ft when ATC observed R44 passing through the final approach at approximately 1000ft. Traffic info was given to PA28 who reported visual with R44, but R44 was not visual with PA28. R44 pilot had entered the Filton ATZ without permission and flew into conflict with the PA28. See also 200710672. □ CAA Closure: No further CAA action required at this time. This AIRPROX has been subject to a review by the United Kingdom AIRPROX Board (UKAB).

200711141	11/11/2007	EGTT : London (FIR)	Bristol Filton	2.4 E	G	ATZ	PIPER	Reciprocating	1	UK AIRPROX 162/2007 - R44 and a PA28, 2.4nm East of Bristol Filton at 1000ft.	PA28 was in the RH circuit for R/W27 at 1200ft when ATC observed R44 passing through the final approach at approximately 1000ft. Traffic info was given to PA28 who reported visual with R44, but R44 was not visual with PA28. R44 pilot had entered the Filton ATZ without permission and flew into conflict with the PA28. See also 200710672. □ CAA Closure: No further CAA action required at this time. This AIRPROX has been subject to a review by the United Kingdom AIRPROX Board (UKAB).
200711145	12/11/2007	EGTT : London (FIR)	Southampton (SAM)	10 NE	D	CTA	YAKOVLEV	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Yak 18 squawking 7000 at 2900ft. Standard separation maintained.	See also 200508074.
200711163	03/11/2007	EGTT : London (FIR)	Snitterfield		G		ROBINSON	Reciprocating	1	R44 overflew Snitterfield Gliding Club's launch line at approximately 300-400ft. Launch was stopped. Birmingham hadadvised R44 that Snitterfield was active and to keep a good look out.	Pilot alerted.
200711183	07/11/2007	EGTT : London (FIR)	Salisbury	D123	G	Danger area	BEECH	Reciprocating	1	Infringement of active Danger Area D123 by a BE36.	A/c was receiving a FIS from RAF Lyneham, and had reported that it would stay clear of the Danger Area. Pilot, who was unfamiliar with the airspace, experienced a very high workload and inadvertently turned too early, resulting in the infringement. He subsequently flew several flights with the operator's chief pilot and proved to have sound navigational technique. Incident attributed to a lack of localknowledge and misidentification. See also 200702778. □ CAAClosure: The hazard is adequately controlled by the actions stated above.
200711206	10/11/2007	EGTT : London (FIR)	Nottingham East Midlands		D	CTR	YAKOVLEV	Reciprocating	1	A B737 on a DTY 2N SID was given avoiding action on unknown a/c infringing the Nottingham East Midlands CTR (Class D). A/c called ATC and identified as a Yak 52. Pilot apologised for the incident.	The pilot's comprehensive report indicates that the incident resulted from a gyro error combined with a strong NW wind. He then turned South into the zone whilst establishing his position. Appropriate lessons have been learnt.

200711206	10/11/2007	EGTT : London (FIR)	Nottingham East Midlands		D	CTR	BOEING	Turbofan	2	A B737 on a DTY 2N SID was given avoiding action on unknown a/c infringing the Nottingham East Midlands CTR (Class D). A/c called ATC and identified as a Yak 52. Pilot apologised for the incident.	The pilot's comprehensive report indicates that the incident resulted from a gyro error combined with a strong NW wind. He then turned South into the zone whilst establishing his position. Appropriate lessons have been learnt.
200711284	14/11/2007	EGTT : London (FIR)	Chippenham	2 SSW	D	CTR	ROBINSON	Reciprocating	1	Lyneham phoned Bristol requesting information on a squawk. R44 had infringed RAF Lyneham CTR (Class D) and was instructed to take up a Westerly heading to leave CAS. Standard separation maintained.	Military authorities investigation revealed that the incident resulted from a navigational error.
200711299	18/11/2007	EGTT : London (FIR)	Dover (DVR)		A		PIPER	Reciprocating	1	Infringement of Class A airspace by a PA28 at FL65. Standard separation maintained.	The pilot concerned has been contacted and he was very apologetic.
200711460	21/11/2007	EGTT : London (FIR)	Totton	1 S	D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Southampton CTR (Class D) by a PA28. Standard separation maintained.	See also 200507190.
200711566	21/11/2007	EGTT : London (FIR)	Bristol International	12 ESE	D	CTA	PIPER	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a PA28 receiving a FIS from a neighbouring military unit. Standard separation maintained.	Infringement was the result of a navigational error. Thiserror resulted from a concentration lapse due to the pilot's misunderstanding of the limitations of the FIS provided. The pilot was comprehensively de-briefed by ATC.

200711568	22/11/2007	EGTT : London (FIR)	Luton (LUT)	NW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C182. Departures were stopped for 3mins. Standard separation maintained. C182 subsequently called ATC and pilot apologised for the incident.	
200711571	23/11/2007	EGTT : London (FIR)	London-Heathrow - LHR	NW	A	CTR	PILATUS	Turboprop	1	During PC12's inbound and outbound flights to/from Denham, it infringed the London CTR (Class A). Standard separation maintained.	The pilot was new to type and has since received further training on the a/c including night flights in the vicinity of Denham.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200711571	23/11/2007	EGTT : London (FIR)	London-Heathrow - LHR	NW	A	CTR	OTHER	Unknown		During PC12's inbound and outbound flights to/from Denham, it infringed the London CTR (Class A). Standard separation maintained.	The pilot was new to type and has since received further training on the a/c including night flights in the vicinity of Denham.☐ CAA Closure: The hazard is adequately controlled by the actions stated above.
200711572	23/11/2007	EGTT : London (FIR)	Southampton (SAM)	12 NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 receiving a FIS. PA28 was instructed to descend immediately and turned left to leave CAS. Standard separation maintained.	
200711573	25/11/2007	EGTT : London (FIR)	London-Gatwick - LGW	7 E	D	CTR	HUGHES	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a Hughes 269. Traffic info and avoiding action was given to an inboundairliner. Standard separation maintained.	The pilots report indicates that he made a navigational error by tracking along an incorrect railway line. He now fully appreciates his errors and appears to have learnt from the incident.

200711573	25/11/2007	EGTT : London (FIR)	London-Gatwick - LGW	7 E	D	CTR	UNKNOWN	Unknown		Infringement of the Gatwick CTR (Class D) by a Hughes 269. Traffic info and avoiding action was given to an inboundairliner. Standard separation maintained.	The pilots report indicates that he made a navigational error by tracking along an incorrect railway line. He now fully appreciates his errors and appears to have learnt from the incident.
200711574	23/11/2007	EGTT : London (FIR)	Southampton (SAM)	7.5 N	D	CTR	PIPER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a PA28. PA28 called ATC and instructed to leave CAS. PA28 was alsogiven traffic info.	
200711575	24/11/2007	EGTT : London (FIR)	Liverpool	6	D	CTR	PIPER	Reciprocating	1	Alleged infringement of the Manchester CTR (Class D) by aPA28. All departures were stopped. Separation was lost. STCA activated.	Traffic info given. No response received from the PA28 operator.□ CAA Closure: No further CAA action practicable.
200711575	24/11/2007	EGTT : London (FIR)	Liverpool	6	D	CTR	PIPER	Reciprocating	2	Alleged infringement of the Manchester CTR (Class D) by aPA28. All departures were stopped. Separation was lost. STCA activated.	Traffic info given. No response received from the PA28 operator.□ CAA Closure: No further CAA action practicable.
200711642	25/11/2007	EGTT : London (FIR)	Stansted	6 SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by unknown a/cthat was subsequently identified as a PA28 and stated being unsure of its position. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident. See also 200701631, 200701427 and 200506942.

200711701	28/11/2007	EGTT : London (FIR)	Barrow-in-Furness		G	Restricted area	CESSNA	Reciprocating	1	Infringement of Restricted Area EGR445 by a Cessna 182 at800ft.	
200711745	28/11/2007	EGTT : London (FIR)	Stansted	E	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA38 at 2300ft squawking 7000. Standard separation maintained. Traffic info given. STCA activated.	Once contact had been established, poor RT by the pilot made it difficult to establish his intentions. Additionally, he did not use standard calls and his accent was hard to understand. No response received from the PA38 operator.CAA Closure: No further CAA action practicable.
200711876	04/12/2007	EGTT : London (FIR)	Southampton (SAM)	5 NW	D	CTR	AEROSPATIALE	Turboshaft	1	Infringement of the Southampton CTR (Class D) by an AS350B (believed). Standard separation maintained.	The AS350 free called Southampton requesting to follow the M3 due to poor weather. There was no conflicting traffic to affect the AS350, which was never officially identified but strongly believed to be the a/c involved.
200712002	07/11/2007	EGTT : London (FIR)	Shoeburyness		G	Danger area	CESSNA	Reciprocating	1	Infringement of active Danger Area D138/A by a DR200 and a C180.	Both a/c had been advised of the activity by London Information. The C180 then contacted Southend for radar assistance and upon returning to London Information reported that Southend had advised the Danger Areas were now cold. London then spoke to Southend who confirmed that the Danger Areas were active and, in view of the fact that the C180 would shortly penetrate the area, agreed to provide both a/c with a radar service. (Both a/c were asked to squawk 0030.) The C180 then advised that he was still in contact with Southend and the DR200 was unable to select the Southend frequency. The DR200 was again advised and acknowledged that the Danger Areas were active. This incident is attributed to confusion about the status of Danger Areas D138 & D138A. It has not been possible to establish why the pilot of the C180 believed that Danger Areas were inactive or if London Information immediately corrected this mistaken belief (after checking with Southend) as they did with the DR200. There may also have been a period of ceasefire that may have given rise to the mistaken belief that activity had stopped. The situation was also aggravated by the inability of the DR200 pilot to change frequency and confusion about which frequency the C180 had selected for a service. CAA Closure: No further reports have been provided and it is no longer possible to verify the R/T recordings. Due to the elapsed time element no further investigation is possible
200712002	07/11/2007	EGTT : London (FIR)	Shoeburyness		G	Danger area	JODEL	Reciprocating	1	Infringement of active Danger Area D138/A by a DR200 and a C180.	Both a/c had been advised of the activity by London Information. The C180 then contacted Southend for radar assistance and upon returning to London Information reported that Southend had advised the Danger Areas were now cold. London then spoke to Southend who confirmed that the Danger Areas were active and, in view of the fact that the C180 would shortly penetrate the area, agreed to provide both a/c with a radar service. (Both a/c were asked to squawk 0030.) The C180 then advised that he was still in contact with Southend and the DR200 was unable to select the Southend frequency. The DR200 was again advised and acknowledged that the Danger Areas were active. This incident is attributed to confusion about the status of Danger Areas D138 & D138A. It has not been possible to establish why the pilot of the C180 believed that Danger Areas were inactive or if London Information immediately corrected this mistaken belief (after checking with Southend) as they did with the DR200. There may also have been a period of ceasefire that may have given rise to the mistaken belief that activity had stopped. The situation was also aggravated by the inability of the DR200 pilot to change frequency and confusion about which frequency the C180 had selected for a service. CAA Closure: No further reports have been provided and it is no longer possible to verify the R/T recordings. Due to the elapsed time element no further investigation is possible

200712003	31/10/2007	EGTT : London (FIR)	Bembridge	S	G	Danger area	CIRRUS	Reciprocating	1	Infringement of active EDG036 Portsmouth Danger Area by an SR22 at 1800ft. Standard separation maintained.	See also 200702034, 200609262, 200604861 and 200604394.
200712165	11/12/2007	EGTT : London (FIR)	Manchester (MCT)		D	CTR	OTHER	Reciprocating	1	Ikarus allegedly infringed the Manchester and Liverpool CTRs (Class D). Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
200712197	12/12/2007	EGTT : London (FIR)	Detling (DET)	5 W	A	TMA	AVIONS ROBIN	Reciprocating	1	Loss of separation between an RJ100 and a DR400 (believed) that infringed the LTMA (Class A) at 3000ft. Avoiding action and traffic info given.	Pilot called ATC to apologise for the infringement, stating he had believed he had descended in time to clear the LTMA.
200712197	12/12/2007	EGTT : London (FIR)	Detling (DET)	5 W	A	TMA	BAE	Turbofan	4	Loss of separation between an RJ100 and a DR400 (believed) that infringed the LTMA (Class A) at 3000ft. Avoiding action and traffic info given.	Pilot called ATC to apologise for the infringement, stating he had believed he had descended in time to clear the LTMA.
200712494	20/12/2007	EGTT : London (FIR)	Southampton (SAM)	14 SW	D	CTA	PIPER	Reciprocating	1	PA28 in contact with Bournemouth Radar, infringed the Solent CTA (Class D). Standard separation maintained.	

200712498	20/12/2007	EGTT : London (FIR)	London-Gatwick - LGW	8E	D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a C172. Traffic info given. An A320 was broken off final approach and departures were stopped for approx 20mins. Standard separation maintained.	The pilot eventually called Gatwick INT stating he was lost and he was then given appropriate vectors to Redhill.☐ CAA Closure: Letter sent to pilot. Appropriate advice given.
200712498	20/12/2007	EGTT : London (FIR)	London-Gatwick - LGW	8E	D	CTR	BOEING	Turbofan	4	Infringement of the Gatwick CTR (Class D) by a C172. Traffic info given. An A320 was broken off final approach and departures were stopped for approx 20mins. Standard separation maintained.	The pilot eventually called Gatwick INT stating he was lost and he was then given appropriate vectors to Redhill.☐ CAA Closure: Letter sent to pilot. Appropriate advice given.
200712550	21/12/2007	EGTT : London (FIR)	Manchester (MCT)	9 N	D	CTR	DIAMOND	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a DA40 at2000ft. Pilot later called and apologised and stated thathe was trying to avoid the low cloud. Standard separationmaintained.	
200712552	20/12/2007	EGTT : London (FIR)	London-Gatwick - LGW	3SE	D	CTR	CESSNA	Reciprocating	1	CANCELLED - Processed under 200712498	CANCELLED - Processed under 200712498
200712555	23/12/2007	EGTT : London (FIR)	Doncaster Sheffield		A		BEECH	Turboprop	2	BE200 at FL190 allegedly infringed Airways L26/L603/L975 (Class A) and lost separation with a PC12 joining CAS. STCA activated. Traffic info and avoiding action given.	Severe disruption was also caused to normal operations. Appropriate CAA action is being taken as a result of this incident. See also 200801393, 200712555.

200712555	23/12/2007	EGTT : London (FIR)	Doncaster Sheffield		A		PILATUS	Turboprop	1	BE200 at FL190 allegedly infringed Airways L26/L603/L975 (Class A) and lost separation with a PC12 joining CAS. STCA activated. Traffic info and avoiding action given.	Severe disruption was also caused to normal operations. Appropriate CAA action is being taken as a result of this incident. See also 200801393, 200712555.
200712625	30/12/2007	EGTT : London (FIR)	London City - LCY	6 E	A	TMA	PIPER	Reciprocating	1	PA32 outside CAS was observed to climb and infringe the London TMA (Class A). Separation was lost with a C650 inbound to Biggin. C650 was given traffic info and reported visual with PA32.	STCA activated. The pilot reported a roll control problemwith his autopilot and it was during the subsequent flight test that he became distracted and infringed the CAS. The pilot apologised and is fully aware of the serious consequences of infringing CAS.□ CAA Closure: The hazard is adequately controlled by the actions stated above.
200712625	30/12/2007	EGTT : London (FIR)	London City - LCY	6 E	A	TMA	CESSNA	Turbofan	2	PA32 outside CAS was observed to climb and infringe the London TMA (Class A). 200712725	23/12/2007	EGTT : London (FIR)	Lydd (LYD)		A		PIPER	Reciprocating	1	Alleged infringement of the Worthing CTA (Class A) by a PA46. Standard separation maintained.	
200712887	30/12/2007	EGTT : London (FIR)	London City - LCY	NE	A	TMA	DIAMOND	Reciprocating	1	Infringement of the LTMA (Class A) and the London City CTA (Class D) by a DA20 squawking 7000 at 2400ft. Traffic info given. Standard separation maintained.	STCA activated against an RJ100 which was given traffic info and a radar vectored orbit.

200712887	30/12/2007	EGTT : London (FIR)	London City - LCY	NE	A	TMA	BAE	Turbofan	4	Infringement of the LTMA (Class A) and the London City CTA (Class D) by a DA20 squawking 7000 at 2400ft. Traffic info given. Standard separation maintained.	STCA activated against an RJ100 which was given traffic info and a radar vectored orbit.
200712905	29/11/2007	EGTT : London (FIR)	Birmingham	NW	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28. Standard separation maintained.	Student pilot on solo cross-country. See also 200709879.
200712933	02/09/2007	EGTT : London (FIR)	Luton (LUT)	NW	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 squawking 7000 at 2800ft. Departures were stopped. Standard separation maintained.	
200712934	02/09/2007	EGTT : London (FIR)	Denham	3 W	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28 squawking 7000 at 1700ft. Heathrow northbound departures were stopped for approx 3mins. D&D alerted. Standard separation maintained.	
200712937	02/09/2007	EGTT : London (FIR)	Bansted		A	CTR	YAKOVLEV	Reciprocating	1	Infringement of the London CTR (Class A) at 2000ft and subsequently the LTMA (Class A) at 2500ft by a YAK18 squawking 7000. Standard separation maintained.	

200712942	12/02/2007	EGTT : London (FIR)	Blackpool (BPL)		G	ATZ	ROBINSON	Reciprocating	1	R44 was observed in the Blackpool ATZ (Class G) orbiting without contact with ATC. Controller anticipated the a/c had a radio failure and alerted RFFS. R44 later landed at Chipping.	
200712942	12/02/2007	EGTT : London (FIR)	Blackpool (BPL)		G	ATZ	AEROSPATIALE	Turboshaft	2	R44 was observed in the Blackpool ATZ (Class G) orbiting without contact with ATC. Controller anticipated the a/c had a radio failure and alerted RFFS. R44 later landed at Chipping.	
200712947	15/11/2007	EGTT : London (FIR)	Stansted	SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 at 2300ft. Standard separation maintained.	
200800003	01/01/2008	EGTT : London (FIR)	Biggin (BIG)	4.5 S	D	CTR	DIAMOND	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a DA40 at 2000ft , 4.5nm South of Biggin Hill. ATC contacted the pilot, who was instructed to descend and head East. Standard separation maintained.	
200800129	05/01/2008	EGTT : London (FIR)	Bovingdon (BNN)	NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 squawking 7000 at 2400ft. Departures were stopped. D&D alerted. Standard separation maintained.	Pilot later called to apologise and stated that he had been lost. See also 200603731.

200800280	09/01/2008	EGTT : London (FIR)	Stansted	10-15NE	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Robin HR200 at 2400ft squawking 7000.	Incident has been discussed with the CFI concerned who has debriefed the student involved.
200800438	15/01/2008	EGTT : London (FIR)	Wolverhampton		G	ATZ	ROBINSON	Reciprocating	1	Infringements of the Shawbury and Wolverhampton ATZ (Class G) and allegedly Birmingham CAS by a R44 at 1500ft. Standard separation maintained.	CAA Closure: The pilot has admitted to infringing the Shawbury and Wolverhampton ATZ, though he claims not to have infringed Birmingham CAS. The pilot was squawking on Mode S. Nevertheless, the pilot has apologised and intends to conform rigorously with airspace requirements in future.
200800583	13/01/2008	EGTT : London (FIR)	Duxford		G	ATZ	ROBINSON	Reciprocating	1	Infringement of the Duxford ATZ (Class G) by an R44 at approximately 1000ft. After landing pilot phoned and apologised. It is believed that a strong wind at 1000ft may have caught the pilot out.	See also 200607985 and 200708107.
200800637	24/01/2008	EGTT : London (FIR)	Sandown	E	G	Danger area	CESSNA	Reciprocating	1	Infringement of active Danger Area EG D037 (Portsmouth) by a C150.	C150 outbound from Sandown called London FIS reporting climbing to 5000ft and was subsequently noted to be inside active Danger Area EG D037 (Portsmouth). Military were informed, who requested C150 be transferred to their frequency.
200800686	26/01/2008	EGTT : London (FIR)	Stoney Cross		D	CTA	PIPER	Reciprocating	1	Infringement of the Southampton CTA (Class D) by a PA28 squawking 7000 at 2400ft. Standard separation maintained.	When being alerted that he was inside CAS, the pilot responded that he was outside according to his GPS.

200800687	26/01/2008	EGTT : London (FIR)	Bristol International	10 E	D	CTA	PIPER	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a PA28R at FL70. Standard separation maintained.	Pilot later called ATC to apologise for the infringement.
200800689	27/01/2008	EGTT : London (FIR)	Denham	3 S	A	CTR	PIPER	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a PA28. Departures were stopped. Standard separation lost.	Pilot later phoned to apologise and reported that she hadmade a PAN call to D&D due to being unsure of a/c position, although no notification from D&D had been received regarding this incident.
200800689	27/01/2008	EGTT : London (FIR)	Denham	3 S	A	CTR	UNKNOWN	Unknown		Infringement of the Heathrow CTR (Class A) by a PA28. Departures were stopped. Standard separation lost.	Pilot later phoned to apologise and reported that she hadmade a PAN call to D&D due to being unsure of a/c position, although no notification from D&D had been received regarding this incident.
200800690	27/01/2008	EGTT : London (FIR)	Brecon (BCN)		A		OTHER	Reciprocating	1	Infringement of Airway N864 (Class A) at Brecon at 8400ftby an EV97. Standard separation maintained.	Pilot had been advised earlier to remain outside of controlled airspace. The pilot subsequently reported that he encountered strong mountain wave. This caused his a/c to climb and descend at a rate beyond its performance envelope to correct. The pilot stated that the conditions caused thea/c to roll at up to 90deg with the pilot at times thinking he was going to lose control of the a/c. The pilot was asked why he did not contact ATC, and he stated that due to the violent manoeuvres the radio became detached from its mountings and the headphones had come of his head.
200800691	27/01/2008	EGTT : London (FIR)	Cardiff (CDF)	13N	D	CTA	PIPER	Reciprocating	1	Infringement of Cardiff CTA (Class D) by a PA28 at FL45 squawking 7000. Standard separation maintained.	See also 200609345. Information indicates that the pilot was flying with an out of date chart.

200800743	27/01/2008	EGTT : London (FIR)	Wittering		G	ATZ	ROBINSON	Reciprocating	1	UK AIRPROX 9/2008 - ASK 21 glider and an R22 overhead Wittering airfield at 1300ft.	
200800743	27/01/2008	EGTT : London (FIR)	Wittering		G	ATZ	OTHER	Other	0	UK AIRPROX 9/2008 - ASK 21 glider and an R22 overhead Wittering airfield at 1300ft.	
200800752	28/01/2008	EGTT : London (FIR)	Seaford (SFD)	14W	A	CTR	CIRRUS	Reciprocating	1	Infringement of the Worthing CTA (Class A) by an SR22 at FL85. Traffic info given. STCA activated. D&D alerted. Separation lost with a CL604.	See 200604394, 200604861, 200609262, 200702034, 200712003. Appropriate CAA action is to be taken as a result of this incident.
200800752	28/01/2008	EGTT : London (FIR)	Seaford (SFD)	14W	A	CTR	CANADAIR	Turbofan	2	Infringement of the Worthing CTA (Class A) by an SR22 at FL85. Traffic info given. STCA activated. D&D alerted. Separation lost with a CL604.	See 200604394, 200604861, 200609262, 200702034, 200712003. Appropriate CAA action is to be taken as a result of this incident.
200800774	27/01/2008	EGTT : London (FIR)	Cardiff (CDF)		D	CTA	ROBINSON	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by an R44 squawking 7000 at 1800ft. Pilot later called ATC and stated that his altimeter was set to 1012mbs. Cardiff QNH was 1034mbs.	Standard separation maintained.

200800794	27/01/2008	EGTT : London (FIR)	Kenley		A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C172 at 3000ft. Standard separation maintained.	
200800801	29/01/2008	EGTT : London (FIR)	Wellesbourne Mountford	3 N	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a Robin 200 at FL45. Standard separation maintained. See also 200604918 and 200600423.	ATC spoke with the pilot who apologised.
200800815	12/01/2008	EGTT : London (FIR)	Panshanger		G	ATZ	UNKNOWN	Unknown		Infringement of the Panshanger ATZ (Class G) by an unknown high wing single engined Cessna, with a retractable undercarriage, at 1200ft.	
200800815	12/01/2008	EGTT : London (FIR)	Panshanger		G	ATZ	PIPER	Reciprocating	1	Infringement of the Panshanger ATZ (Class G) by an unknown high wing single engined Cessna, with a retractable undercarriage, at 1200ft.	
200800827	25/01/2008	EGTT : London (FIR)	Panshanger		G	ATZ	BELL	Turboshaft	1	Infringement of the Panshanger ATZ (Class G) by a Bell 206 at 1000ft. A PA28 was forced to take avoiding action.	See 200702301.

200800827	25/01/2008	EGTT : London (FIR)	Panshanger		G	ATZ	PIPER	Reciprocating	1	Infringement of the Panshanger ATZ (Class G) by a Bell 206 at 1000ft. A PA28 was forced to take avoiding action.	See 200702301.
200800847	30/01/2008	EGTT : London (FIR)	White Waltham	E	A	CTR	PIPER	Reciprocating	1	Alleged infringement of the London CTR (Class A) by a PA28. Heathrow departures were stopped as a precaution. Standard separation maintained.	See also 200710212. Appropriate CAA action is being takenas a result of this incident.
200800889	30/01/2008	EGTT : London (FIR)	Biggin (BIG)	3E	A	TMA	GRUMMAN	Reciprocating	1	Alleged infringement of the LTMA (Class A) and loss of separation by an unknown a/c squawking 7000 at 2800ft. Traffic info and avoiding action given. STCA activated. Attributed to Mode C fault.	Pilot confirmed a transponder Mode C fault that was pointed out to Biggin controller on both outbound and return legs of flight. Transponder Mode C suspected to be over-reading by 200 - 550ft. Pilot also confirms that his aircraft was at same altitude and parallel with a Cessna aircraft which was confirmed to be flying at 2300ft. Pilot confirms that transponder will be checked and re-calibrated and that if a similar situation occurs he will establish with ATCthe most appropriate and preferable course of action.
200800889	30/01/2008	EGTT : London (FIR)	Biggin (BIG)	3E	A	TMA	OTHER	Unknown		Alleged infringement of the LTMA (Class A) and loss of separation by an unknown a/c squawking 7000 at 2800ft. Traffic info and avoiding action given. STCA activated. Attributed to Mode C fault.	Pilot confirmed a transponder Mode C fault that was pointed out to Biggin controller on both outbound and return legs of flight. Transponder Mode C suspected to be over-reading by 200 - 550ft. Pilot also confirms that his aircraft was at same altitude and parallel with a Cessna aircraft which was confirmed to be flying at 2300ft. Pilot confirms that transponder will be checked and re-calibrated and that if a similar situation occurs he will establish with ATCthe most appropriate and preferable course of action.
200800944	02/02/2008	EGTT : London (FIR)	Lydd (LYD)		A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 at FL70. Standard separation maintained.	

200800989	04/02/2008	EGTT : London (FIR)	London-Gatwick - LGW	NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a PA28 squawking 7000 at 2400ft. Traffic info given. Standard separation maintained.	Pilot alerted to infringement.
200800990	04/02/2008	EGTT : London (FIR)	Biggin (BIG)	8 ENE	A	TMA	CESSNA	Reciprocating	1	C172 allegedly infringed London TMA (Class A) and lost separation with a BAe146 inbound to London City. Traffic info and avoiding action given to BAe146 and an EMB135. STCA,SMF and TCAS activated.	Occurrence possibly due to a transponder technical issue.☐ ☐ CAA Closure: Pilot report received. Pilot distracted andallowed aircraft to climb to 2600ft. Appropriate advice given with no further action required.
200800990	04/02/2008	EGTT : London (FIR)	Biggin (BIG)	8 ENE	A	TMA	BAE	Turbofan	4	C172 allegedly infringed London TMA (Class A) and lost separation with a BAe146 inbound to London City. Traffic info and avoiding action given to BAe146 and an EMB135. STCA,SMF and TCAS activated.	Occurrence possibly due to a transponder technical issue.☐ ☐ CAA Closure: Pilot report received. Pilot distracted andallowed aircraft to climb to 2600ft. Appropriate advice given with no further action required.
200801014	02/02/2008	EGTT : London (FIR)	Lambourne (LAM)		A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA32 at 2700ft. Standard separation maintained.	
200801095	06/02/2008	EGTT : London (FIR)	London City - LCY	15 E	A	TMA	AVIONS ROBIN	Reciprocating	1	Robin 400, initially unidentified, infringed the LTMA (Class A) and lost separation with a City outbound RJ85 whichwas given traffic info. A/c subsequently identified and transferred to London FIS.	Robin also lost standard separation with a Falcon 900 inbound to London City. ☐ CAA Closure: The pilot has apologised and stated that he had not entered a flight plan into his GPS in advance, but was using the GOTO function instead. Appropriate advice has been given to the pilot.

200801095	06/02/2008	EGTT : London (FIR)	London City - LCY	15 E	A	TMA	BAE	Turbofan	4	Robin 400, initially unidentified, infringed the LTMA (Class A) and lost separation with a City outbound RJ85 which was given traffic info. A/c subsequently identified and transferred to London FIS.	Robin also lost standard separation with a Falcon 900 inbound to London City. ☐ CAA Closure: The pilot has apologised and stated that he had not entered a flight plan into his GPS in advance, but was using the GOTO function instead. Appropriate advice has been given to the pilot.
200801100	06/02/2008	EGTT : London (FIR)	NEDUL	7NE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a C172 at 2600ft squawking 7000. Standard separation maintained.	
200801101	06/02/2008	EGTT : London (FIR)	Denham	SW	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C152. Heathrow departures were stopped. Traffic info given. Standard separation maintained.	CAA Closure: The pilot has acknowledged his error and will undergo further navigational training before being permitted by his CFI to fly solo.
200801147	06/02/2008	EGTT : London (FIR)	Bournemouth	4 NW	D	CTA	PIPER	Reciprocating	1	UK AIRPROX 14/2008 - B737 and a PA28 that infringed Bournemouth CTA (Class D) at 2700ft. Avoiding action and traffic info given to the B737.	PA28 pilot was on his first solo navigational flight and was unable to make RT contact to obtain a clearance into CAS.☐ CAA Closure: Student pilot acknowledged that he should have orbited rather than entered CAS. This AIRPROX has been subjected to a separate review by the United Kingdom AIRPROX Board (UKAB).
200801147	06/02/2008	EGTT : London (FIR)	Bournemouth	4 NW	D	CTA	BOEING	Turbofan	2	UK AIRPROX 14/2008 - B737 and a PA28 that infringed Bournemouth CTA (Class D) at 2700ft. Avoiding action and traffic info given to the B737.	PA28 pilot was on his first solo navigational flight and was unable to make RT contact to obtain a clearance into CAS.☐ CAA Closure: Student pilot acknowledged that he should have orbited rather than entered CAS. This AIRPROX has been subjected to a separate review by the United Kingdom AIRPROX Board (UKAB).

200801174	09/02/2008	EGTT : London (FIR)	Stansted	6-8SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA32 at 2000ft. Traffic info and avoiding action given. Departures were temporarily stopped. Standard separation maintained.	See also 200611977. Appropriate CAA action is to be taken as a result of this incident.
200801174	09/02/2008	EGTT : London (FIR)	Stansted	6-8SW	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA32 at 2000ft. Traffic info and avoiding action given. Departures were temporarily stopped. Standard separation maintained.	See also 200611977. Appropriate CAA action is to be taken as a result of this incident.
200801177	10/02/2008	EGTT : London (FIR)	North Weald	5W	D	CTA	JABIRU	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Jabiru J430 at 2200ft. Traffic info and avoiding action issued. Standard separation maintained.	
200801180	09/02/2008	EGTT : London (FIR)	Needles-Cowes	Isle of Wight	D	CTA	CIRRUS	Reciprocating	1	Alleged infringement of the Solent CTA (Class D) by a Cirrus SR20 at 3000ft. Standard separation maintained.	
200801182	10/02/2008	EGTT : London (FIR)	Southampton (SAM)	14N	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 2400ft. Standard separation maintained	See 200505833.

200801184	08/02/2008	EGTT : London (FIR)	Cowes	W	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 3000ft, West of Cowes. PA28 subsequently infringed the CTA again whilst heading in the opposite direction at 2500ft.	Standard separation maintained.□ CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200801256	11/02/2008	EGTT : London (FIR)	Southampton (SAM)	9N	D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a C172 at 2000ft. Standard separation maintained.	
200801257	11/02/2008	EGTT : London (FIR)	Hamble		D	CTR	ROBINSON	Reciprocating	1	Infringement of the Southampton CTR (Class D) by an R44 at 900ft. Standard separation maintained.	CAA Closure: The pilot has apologised for the infringement and will make sure that he is in contact with Solent ATCat the appropriate position and time in future.
200801311	12/02/2008	EGTT : London (FIR)	Stansted	11 NE	D	CTA	DIAMOND	Reciprocating	1	DA40 at 2200ft called Wattisham requesting FIS and identified inside Stansted CTA (Class D). DA40 informed of infringement and told to descend to 1400ft, below CAS. Standardseparation maintained.	
200801340	13/02/2008	EGTT : London (FIR)	Northwich		D	CTR	CESSNA	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a C172 squawking 7000 at 1500ft. Standard separation maintained.	

200801342	13/02/2008	EGTT : London (FIR)	Lyneham		D	CTR	BELL	Turboshaft	1	Infringement of the Lyneham CTR (Class D) by a Bell 206 at 2000ft. Standard separation maintained.	
200801495	09/02/2008	EGTT : London (FIR)	Luton (LUT)	S	D	CTR	JABIRU	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Jabiru. Traffic info given. Standard separation maintained.	
200801504	17/02/2008	EGTT : London (FIR)	Dover (DVR)	10N	A		CIRRUS	Reciprocating	1	Infringement of Class A airspace by an SR20 at FL80. Standard separation maintained.	
200801505	17/02/2008	EGTT : London (FIR)	Nottingham East Midlands	8NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Nottingham East Midlands CTA (Class D) by a PA28 at 3000ft. Traffic info and avoiding action given. Standard separation maintained.	
200801526	17/02/2008	EGTT : London (FIR)	Detling (DET)	2 SE	A	TMA	CESSNA	Reciprocating	1	C177 infringed the London TMA (Class A) and lost separation with a C560. C560 was given traffic info and avoiding action. STCA activated.	The pilot reported that the error was entirely down to a lapse in concentration. He had flown the route many times but, on this occasion, had a young passenger in the back who was airsick. The pilot apologised and is fully aware ofthe serious consequences of infringing CAS. <input type="checkbox"/> CAA Closure:No further CAA action required at this time.

200801526	17/02/2008	EGTT : London (FIR)	Detling (DET)	2 SE	A	TMA	CESSNA	Turbofan	2	C177 infringed the London TMA (Class A) and lost separation with a C560. C560 was given traffic info and avoiding action. STCA activated.	The pilot reported that the error was entirely down to a lapse in concentration. He had flown the route many times but, on this occasion, had a young passenger in the back who was airsick. The pilot apologised and is fully aware ofthe serious consequences of infringing CAS.□ CAA Closure:No further CAA action required at this time.
200801559	10/02/2008	EGTT : London (FIR)	Barkway (BKY)		A	TMA	SIAI MARCHETTI	Reciprocating	1	Infringement of the London TMA (Class A) by an SF260 at 4900ft. C550, inbound to Luton, was given avoiding action and traffic info. Standard separation was lost between the two a/c.	SF260 pilot was unaware of the infringement, attributing it to the avoidance of another GA a/c that were carrying out high speed aerobatic manoeuvres. He is an experienced pilot and has given examples of meticulous pre-flight planning. See also 200705951.□ CAA Closure: No further CAA action required at this time.
200801559	10/02/2008	EGTT : London (FIR)	Barkway (BKY)		A	TMA	CESSNA	Turbofan	2	Infringement of the London TMA (Class A) by an SF260 at 4900ft. C550, inbound to Luton, was given avoiding action and traffic info. Standard separation was lost between the two a/c.	SF260 pilot was unaware of the infringement, attributing it to the avoidance of another GA a/c that were carrying out high speed aerobatic manoeuvres. He is an experienced pilot and has given examples of meticulous pre-flight planning. See also 200705951.□ CAA Closure: No further CAA action required at this time.
200801562	18/02/2008	EGTT : London (FIR)	London City - LCY		D	CTA	SOCATA	Reciprocating	1	TB20 infringed the London City CTA (Class D). STCA activated with an HS125 outbound from London City. HS125 was given traffic info and avoiding action. Standard separation maintained.	
200801562	18/02/2008	EGTT : London (FIR)	London City - LCY		D	CTA	HAWKER SIDDELEY	Turbofan	2	TB20 infringed the London City CTA (Class D). STCA activated with an HS125 outbound from London City. HS125 was given traffic info and avoiding action. Standard separation maintained.	

200801571	18/02/2008	EGTT : London (FIR)	Luton (LUT)	12 NW	D	CTA	SIAI MARCHETTI	Reciprocating	1	Infringement of Luton CTA (Class D) by an SF260 at 2800ft. Inbound B737 was given traffic info and avoiding action.B737 was repositioned onto final approach. Standard separation maintained.	CAA Closure: The SF260 pilot regularly flies this route but had planned his visual descent based upon passing a lake. The pilot had misidentified the lake due to mist patches and started the descent too late to pass underneath the CTA at 2500ft. He is fully aware of the serious consequences of infringing CAS.
200801571	18/02/2008	EGTT : London (FIR)	Luton (LUT)	12 NW	D	CTA	BOEING	Turbofan	2	Infringement of Luton CTA (Class D) by an SF260 at 2800ft. Inbound B737 was given traffic info and avoiding action.B737 was repositioned onto final approach. Standard separation maintained.	CAA Closure: The SF260 pilot regularly flies this route but had planned his visual descent based upon passing a lake. The pilot had misidentified the lake due to mist patches and started the descent too late to pass underneath the CTA at 2500ft. He is fully aware of the serious consequences of infringing CAS.
200801574	10/02/2008	EGTT : London (FIR)	Haverhill	3W	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C172 at 3000ft squawking 7000. Standard separation maintained.	
200801580	09/02/2008	EGTT : London (FIR)	North Weald		D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Cessna 182 at 1800ft squawking 7000. Standard separation maintained.	
200801609	13/02/2008	EGTT : London (FIR)	Kenley		G		PIPER	Reciprocating	1	Infringement of the South London Gliding Centre cable hazard at Kenley Airfield by a PA28 at 1800ft.	

200801629	21/02/2008	EGTT : London (FIR)	White Waltham	3	A	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of London CTR (Class A) by a Robin 2160 at 2000ft. Heathrow Northbound departures stopped for 3mins. STCA activated, traffic info given.	CAA Closure: Appropriate advice given to pilot.
200801630	09/02/2008	EGTT : London (FIR)	North Weald	3W	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 at 2000ft. Standard separation maintained.	
200801639	21/02/2008	EGTT : London (FIR)	Farnborough	5 E	A	TMA	CESSNA	Turbofan	2	C525 inbound to R/W24 receiving a RIS was given traffic info on a PA28. C525 subsequently reported receiving a TCASRA and requested/given vectors for another approach.	As a result of this TCAS RA climb, the a/c climbed into the LTMA.
200801639	21/02/2008	EGTT : London (FIR)	Farnborough	5 E	A	TMA	PIPER	Reciprocating	1	C525 inbound to R/W24 receiving a RIS was given traffic info on a PA28. C525 subsequently reported receiving a TCASRA and requested/given vectors for another approach.	As a result of this TCAS RA climb, the a/c climbed into the LTMA.
200801696	23/02/2008	EGTT : London (FIR)	GARMI		G	Danger area	CESSNA	Reciprocating	1	Infringement of Danger Area D038 by a C172 at FL55. Standard separation maintained.	Pilot was informed that Danger Areas D038, D039 and D037 were active. The pilot acknowledged this and informed ATC that according to his charts they were active to FL55 and that he would climb to FL56. Danger Areas were active up to 17000ft. At this stage, the a/c was already infringing D038. □ CAA Closure: The pilot has apologised for the infringement and admitted to reading the ICAO chart incorrectly. Appropriate CAA advice given.

200801707	24/02/2008	EGTT : London (FIR)	Luton	W	D	CTR	CIRRUS	Reciprocating	1	Infringement of the Luton CTR (Class D) by an SR22 at 1800ft. Standard separation lost with an ATR. Traffic info given.	
200801707	24/02/2008	EGTT : London (FIR)	Luton	W	D	CTR	UNKNOWN	Unknown		Infringement of the Luton CTR (Class D) by an SR22 at 1800ft. Standard separation lost with an ATR. Traffic info given.	
200801838	26/02/2008	EGTT : London (FIR)	Honiley (HON)	4 SW	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by an R1180 at 2600ft, 4nm Southwest of Honiley, resulting in a loss of standard separation against an inbound A321.	Pilot apologised for infringement, having been caught outby strong Westerly winds.☐ CAA Closure: Lessons have beenlearned and appropriate advice given.
200801838	26/02/2008	EGTT : London (FIR)	Honiley (HON)	4 SW	D	CTR	AIRBUS	Turbofan	2	Infringement of the Birmingham CTR (Class D) by an R1180 at 2600ft, 4nm Southwest of Honiley, resulting in a loss of standard separation against an inbound A321.	Pilot apologised for infringement, having been caught outby strong Westerly winds.☐ CAA Closure: Lessons have beenlearned and appropriate advice given.
200801867	27/02/2008	EGTT : London (FIR)	Southampton (SAM)	5E	D	CTA	OTHER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a microlight at 2300ft. Standard separation maintained.	

200801869	27/02/2008	EGTT : London (FIR)	Southampton (SAM)	30 SSW	A		BOLKOW	Reciprocating	1	Infringement of Airway R41 (Class A) by a Bolkow 209 at FL60. A/c instructed to descend to 3000ft. Standard separation maintained.	
200801870	27/02/2008	EGTT : London (FIR)	London City - LCY	7 E	A	TMA	AVIONS ROBIN	Reciprocating	1	Infringement of the London TMA (Class A) at 1900ft, 7nm East of London City. FK50, on a CLN SID, was instructed to climb to 4000ft on a 040deg heading, in order to avoid a conflict.	See 200504618. □ CAA Closure: The pilot has been sent a letter and is fully aware of the need to avoid controlled airspace.
200801870	27/02/2008	EGTT : London (FIR)	London City - LCY	7 E	A	TMA	FOKKER	Turboprop	2	Infringement of the London TMA (Class A) at 1900ft, 7nm East of London City. FK50, on a CLN SID, was instructed to climb to 4000ft on a 040deg heading, in order to avoid a conflict.	See 200504618. □ CAA Closure: The pilot has been sent a letter and is fully aware of the need to avoid controlled airspace.
200801872	27/02/2008	EGTT : London (FIR)	Stansted	7 SW	D	CTR	GRUMMAN	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a Grumman AA5 squawking 7000. Outbound traffic was stopped for 2mins.Standard separation maintained.	
200801937	02/03/2008	EGTT : London (FIR)	Coventry		D	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a PA28R at 3000ft squawking 7000. Standard separation maintained.	Pilot believed he was turning over Wellesbourne Mountfordwhen in fact he was turning over Coventry.

200801958	03/03/2008	EGTT : London (FIR)	Honiley (HON)	12 S	A		PIPER	Reciprocating	1	Infringement of Airway N859 (Class A) by a PA28 at FL60 squawking 7000. Standard separation maintained.	Pilot later spoke with ATC and apologised for the error. The pilot appears to have failed to take into account the strong westerly wind. See also 200606752.
200802001	01/03/2008	EGTT : London (FIR)	Stansted	13 N	A	TMA	PIPER	Reciprocating	1	Alleged infringement of the London TMA (Class A) by a PA28 at 4000ft. A B737 inbound to Stansted was given an extended routeing and delayed descent. Standard separation maintained.	
200802001	01/03/2008	EGTT : London (FIR)	Stansted	13 N	A	TMA	BOEING	Turbofan	2	Alleged infringement of the London TMA (Class A) by a PA28 at 4000ft. A B737 inbound to Stansted was given an extended routeing and delayed descent. Standard separation maintained.	
200802002	01/03/2008	EGTT : London (FIR)	London-Gatwick - LGW	10 E	D	CTR	PIPER	Reciprocating	1	PA28 infringed the Gatwick CTR/CTA (Class D). Two B737s inbound to Gatwick were given delaying actions and traffic info. Standard separation maintained.	CAA Closure: The pilot has been reminded about over-reliance on VOR indications, which are not completely accurate,and has been advised to allow a greater margin for error in future planning.
200802002	01/03/2008	EGTT : London (FIR)	London-Gatwick - LGW	10 E	D	CTR	BOEING	Turbofan	2	PA28 infringed the Gatwick CTR/CTA (Class D). Two B737s inbound to Gatwick were given delaying actions and traffic info. Standard separation maintained.	CAA Closure: The pilot has been reminded about over-reliance on VOR indications, which are not completely accurate,and has been advised to allow a greater margin for error in future planning.

200802020	28/02/2008	EGTT : London (FIR)	Bristol Filton		G	ATZ	ZENAIR	Reciprocating	1	Infringement of the Bristol Filton ATZ (Class G) by a Zenair at 1300ft. Traffic info given. Standard separation maintained.	
200802048	04/03/2008	EGTT : London (FIR)	Birmingham	S 7.5	D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C152 that was on a cross country and became lost. Traffic info and avoiding action was given to an inbound A321. Standard separation maintained.	Disruption caused to Birmingham operations. After C152 left Birmingham CAS, it was tracked and observed to infringeNottingham East Midlands CAS. C152 subsequently called D&D and given assistance to return to Leicester. AppropriateCAA action is being taken as a result of this incident. See also 200605614.
200802048	04/03/2008	EGTT : London (FIR)	Birmingham	S 7.5	D	CTR	AIRBUS	Turbofan	2	Infringement of the Birmingham CTR (Class D) by a C152 that was on a cross country and became lost. Traffic info and avoiding action was given to an inbound A321. Standard separation maintained.	Disruption caused to Birmingham operations. After C152 left Birmingham CAS, it was tracked and observed to infringeNottingham East Midlands CAS. C152 subsequently called D&D and given assistance to return to Leicester. AppropriateCAA action is being taken as a result of this incident. See also 200605614.
200802167	05/03/2008	EGTT : London (FIR)	Stansted	10 NE	A	TMA	GROB	Reciprocating	1	Infringement of the LTMA at 4600ft by a Grob115, 10nm NE of Stansted. Two inbound a/c were given traffic info on the infringer and suffered a minor delay until the infringercleared CAS.	Standard separation maintained. A/c identified via its adopted squawk code after leaving CAS.
200802167	05/03/2008	EGTT : London (FIR)	Stansted	10 NE	A	TMA	AIRBUS	Turbofan	2	Infringement of the LTMA at 4600ft by a Grob115, 10nm NE of Stansted. Two inbound a/c were given traffic info on the infringer and suffered a minor delay until the infringercleared CAS.	Standard separation maintained. A/c identified via its adopted squawk code after leaving CAS.

200802231	23/02/2008	EGTT : London (FIR)	Fleetlands		G	ATZ	PIPER	Reciprocating	1	Alleged infringement of the Fleetlands ATZ by a PA20.	A/c was observed routeing through the ATZ at approximately 1000ft West to East descending. Gliding was taking placeat Lee-on-Solent from R/W23 LH circuit. A/c departed the ATZ to the East. ATZ had been NOTAMed active. NOTAM B0371/08 applies. Appropriate CAA action is being taken.
200802303	09/03/2008	EGTT : London (FIR)	Birmingham	6N	D	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a C152 squawking 7000 at 1600ft. Standard separation maintained.	The pilot concerned subsequently rang Birmingham ATC to apologise. Appropriate advice has been passed.
200802494	15/03/2008	EGTT : London (FIR)	Southampton (SAM)	7NW	D	CTA	PIPER	Reciprocating	1	Infringement of the Southampton CTA (Class D) by a PA28 at 2600ft. Standard separation maintained.	
200802552	17/03/2008	EGTT : London (FIR)	Southampton (SAM)	10 SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 2600ft squawking 7000. Standard separation maintained.	
200802592	18/03/2008	EGTT : London (FIR)	Needles	E	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA24 at 3000ft. Standard separation maintained.	

200802593	17/03/2008	EGTT : London (FIR)	Coventry	10 SW	D	CTA	PIPER	Reciprocating	1	Unknown a/c infringed the Birmingham CTA (Class D) and lost separation with an inbound JS41 who was given traffic info. Unknown subsequently identified as a PA46.	The controller reported the incident as a distraction but safety was not compromised. Appropriate discussions have taken place with the pilot concerned.
200802593	17/03/2008	EGTT : London (FIR)	Coventry	10 SW	D	CTA	BAE	Turboprop	2	Unknown a/c infringed the Birmingham CTA (Class D) and lost separation with an inbound JS41 who was given traffic info. Unknown subsequently identified as a PA46.	The controller reported the incident as a distraction but safety was not compromised. Appropriate discussions have taken place with the pilot concerned.
200802622	19/03/2008	EGTT : London (FIR)	Denham	Overhead			PIPER	Reciprocating	1	D&D Cell Report: Pilot lost within Heathrow CTZ. DF fix obtained and discrete squawk allocated. Appropriate heading given to exit zone and steer provided for White Waltham, where a/c landed safely.	Student pilot on first solo navex.
200802646	18/03/2008	EGTT : London (FIR)	Stansted	8 SE	D	CTR	SCOTTISH AVIATION	Reciprocating	1	Alleged infringement of the Stansted CTR (Class D) by a Bulldog. An inbound B737 was given traffic info. Standard separation maintained.	See also 200706152.
200802646	18/03/2008	EGTT : London (FIR)	Stansted	8 SE	D	CTR	BOEING	Turbofan	2	Alleged infringement of the Stansted CTR (Class D) by a Bulldog. An inbound B737 was given traffic info. Standard separation maintained.	See also 200706152.

200802656	13/03/2008	EGTT : London (FIR)	Bristol Filton		G	ATZ	HUGHES	Turboshaft	1	Infringement of the Bristol Filton ATZ (Class G) by a Hughes 500 at 900ft, 3.5nm Southwest of Bristol Filton tracking Northeast. Standard separation maintained.	A/c was contacted by Bristol International, informed of its position and then handed over to Filton Radar. Pilot stated that he had been given a direct routeing by Bristol ATC. See also 200606747.
200802681	18/03/2008	EGTT : London (FIR)	North Weald		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 2000ft. Standard separation maintained.	See also 200506682, 200506421.
200802691	24/03/2008	EGTT : London (FIR)	Manchester (MCT)	10N	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a Robin 400 squawking 7000 at 1250ft. Standard separation maintained.	Pilot later spoke with ATC and apologised, stating that he believed he was further West than his actual position. See also 200605403.
200802758	15/03/2008	EGTT : London (FIR)	Watton				EUROCOPTER	Turboshaft	1	Infringement of the Watton Gliding Site by an EC120 at approx 350-400ft.	
200802805	24/03/2008	EGTT : London (FIR)	Stansted	12 SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA32, 12nm Southwest of Stansted. A319 on R/W05 approach given traffic info and change of heading. Standard separation maintained.	Controller had to impose a check all while dealing with the infringer. PA32 pilot subsequently advised that he was distracted by two passengers being ill during the flight. Appropriate advice sought from CFI concerning how to deal with such situations. See also 200600044. □ CAA Closure: Nofurther CAA action required at this time.

200802805	24/03/2008	EGTT : London (FIR)	Stansted	12 SW	D	CTA	AIRBUS	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA32, 12nm Southwest of Stansted. A319 on R/W05 approach given traffic info and change of heading. Standard separation maintained.	Controller had to impose a check all while dealing with the infringer. PA32 pilot subsequently advised that he was distracted by two passengers being ill during the flight. Appropriate advice sought from CFI concerning how to deal with such situations. See also 200600044. □ CAA Closure: Nofurther CAA action required at this time.
200802990	30/03/2008	EGTT : London (FIR)	Southampton (SAM)	11 NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA32. By the time PA32 was identified and informed of the infringement, it had already left CAS. Traffic info was given.	
200803029	27/03/2008	EGTT : London (FIR)	Clacton (CLN)	15 NW	A	TMA	BEECH	Reciprocating	1	BE33 infringed the LTMA (Class A) and lost separation with a B737 inbound to Stansted. B737 was given traffic info and avoiding action. Pilot of BE33 apologised.	CAA Closure: The BE33 pilot is fully aware of the seriousconsequences of infringing CAS.
200803029	27/03/2008	EGTT : London (FIR)	Clacton (CLN)	15 NW	A	TMA	BOEING	Turbofan	2	BE33 infringed the LTMA (Class A) and lost separation with a B737 inbound to Stansted. B737 was given traffic info and avoiding action. Pilot of BE33 apologised.	CAA Closure: The BE33 pilot is fully aware of the seriousconsequences of infringing CAS.
200803060	28/03/2008	EGTT : London (FIR)	Woodvale	SE	A	TMA	GROB	Reciprocating	1	Infringement of the Manchester TMA (Class A) by Grob G115at FL68. Traffic info and avoiding action given to a DHC8. Standard separation maintained. STCA activated.	The pilot states that during an Air Experience sortie thecadet appeared to start to feel ill and during this period the infringement is believed to have occurred.

200803060	28/03/2008	EGTT : London (FIR)	Woodvale	SE	A	TMA	DE HAVILLAND	Turboprop	2	Infringement of the Manchester TMA (Class A) by Grob G115at FL68. Traffic info and avoiding action given to a DHC8. Standard separation maintained. STCA activated.	The pilot states that during an Air Experience sortie thecadet appeared to start to feel ill and during this period the infringement is believed to have occurred.
200803190	03/04/2008	EGTT : London (FIR)	London-Heathrow - LHR	NW	A	CTR	DE HAVILLAND	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a DH Chipmunk squawking 7000. All departures were stopped for approx 5mins. Standard separation maintained.	Believed pilot was lost. The pilot reports that in deteriorating conditions he attempted to call various local ATC units for a service but without any successful contact. After focussing on the radio problems he became uncertain of his position and commenced an orbit to try and identify his position. He then recognised he was in the Beaconsfield area and in the Heathrow Zone. He then turned away from the Zone and eventually contact was established with Wycombe. The pilot has apologised for the incident and accepts that in hindsight he should have called D&D at an early stage.
200803247	05/04/2008	EGTT : London (FIR)	Southampton (SAM)	15 SW	D	CTA	ROCKWELL	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Rockwell 114 squawking 7000 at 2500ft. Standard separation maintained.	
200803277	02/04/2008	EGTT : London (FIR)	Kirton-in-Lindsey	5nm	G	Restrictedd area	CESSNA	Reciprocating	1	Infringement of the Kirton-in-Lindsey RA(T) by a C152 at 2000ft during a Red Arrows air display. Standard separation maintained.	CAA Closure: Attempts to elicit a response from the operator concerned have been unsuccessful. No further CAA action possible.
200803277	02/04/2008	EGTT : London (FIR)	Kirton-in-Lindsey	5nm	G	Restrictedd area	OTHER	Unknown		Infringement of the Kirton-in-Lindsey RA(T) by a C152 at 2000ft during a Red Arrows air display. Standard separation maintained.	CAA Closure: Attempts to elicit a response from the operator concerned have been unsuccessful. No further CAA action possible.

200803318	07/04/2008	EGTT : London (FIR)	Burnham Estuary		D	CTA	GRUMMAN	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by a Grumman AA5 at 4000ft. Standard separation maintained.	Investigations have revealed that the pilot believed thatbecause he had filed a flight plan and had been receivinga service from an adjacent ATC unit, he was not in need of further clearance from Cardiff. Appropriate and comprehensive advice was given to the pilot by Cardiff ATC.
200803368	04/04/2008	EGTT : London (FIR)	Nottingham East Midlands	8W	D	CTA	CESSNA	Reciprocating	1	Infringement of the Nottingham East Midlands CTA (Class D) by a Cessna 152 squawking 7000 at 2700ft. Standard separation was maintained.	
200803378	05/04/2008	EGTT : London (FIR)	Nottingham East Midlands	6E	D	CTR	JODEL	Reciprocating	1	Infringement of the Nottingham East Midlands CTR (Class D) by a DR1051 at 700ft. Traffic info and avoiding action given to B737. Standard separation maintained.	The Jodel pilot report states that this incident was basically caused by insufficient planning following a late decision to land at Hucknall. On departure from Hucknall, thea/c first routed West to avoid Langar and then further West to avoid bad weather and in so doing, entered the CTR.
200803378	05/04/2008	EGTT : London (FIR)	Nottingham East Midlands	6E	D	CTR	BOEING	Turbofan	2	Infringement of the Nottingham East Midlands CTR (Class D) by a DR1051 at 700ft. Traffic info and avoiding action given to B737. Standard separation maintained.	The Jodel pilot report states that this incident was basically caused by insufficient planning following a late decision to land at Hucknall. On departure from Hucknall, thea/c first routed West to avoid Langar and then further West to avoid bad weather and in so doing, entered the CTR.
200803396	09/04/2008	EGTT : London (FIR)	London-Gatwick - LGW	NE	D	CTA	PIPER	Reciprocating	1	Infringement. Pilot unsure of position. Pilot reported smell / fumes and strong turbulence, causing difficulties inaircraft control. Given steers to scheduled destination. Landed safely.	

200803429	04/04/2008	EGTT : London (FIR)	Rochester		G	ATZ	CESSNA	Reciprocating	1	UK AIRPROX 38/2008 - C152 and a PA34 in the circuit at Rochester at 1050ft.	Following a go around as C152 was completing crosswind leg, a twin engine a/c appeared in the 1 o'clock position above heading towards the 8 o'clock position. C152 initiatedavoiding action of a right turn and descent.
200803429	04/04/2008	EGTT : London (FIR)	Rochester		G	ATZ	PIPER	Reciprocating	2	UK AIRPROX 38/2008 - C152 and a PA34 in the circuit at Rochester at 1050ft.	Following a go around as C152 was completing crosswind leg, a twin engine a/c appeared in the 1 o'clock position above heading towards the 8 o'clock position. C152 initiatedavoiding action of a right turn and descent.
200803435	09/04/2008	EGTT : London (FIR)	Elstree	7SE	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28R at 2400ft. Standard separation maintained.	
200803436	07/04/2008	EGTT : London (FIR)	Baldock	E	D	CTA	DIAMOND	Reciprocating	1	Infringement of the Luton CTA (Class D) by a DA40 squawking 7000 at 3400ft. Standard separation maintained.	
200803482	12/04/2008	EGTT : London (FIR)	White Waltham	3S	A	CTR	WESTLAND	Turboshaft	1	Infringement of the London CTR (Class A) by a Gazelle squawking 7000. Standard separation maintained.	Pilot later called to apologise and to advise that he hadR/T problems.

200803483	12/04/2008	EGTT : London (FIR)	Bristol International	19 E	D	CTA	PIPER	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a PA28 squawking 7000 at FL56. Standard separation maintained. See also 200704469.	
200803748	18/04/2008	EGTT : London (FIR)	Manchester (MCT)	7 SW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a C150 a 1000ft. Traffic info given. Standard separation maintained.	See also 200403517.
200803748	18/04/2008	EGTT : London (FIR)	Manchester (MCT)	7 SW	D	CTR	EMBRAER	Turbofan	2	Infringement of the Manchester CTR (Class D) by a C150 a 1000ft. Traffic info given. Standard separation maintained.	See also 200403517.
200803888	23/04/2008	EGTT : London (FIR)	London-Gatwick - LGW	25 E	A	TMA	SOCATA	Reciprocating	1	Infringement of the LTMA (Class A) by a TB20 at 3100ft. AB737 was broken off approach. Traffic info given. Standard separation maintained.	
200803888	23/04/2008	EGTT : London (FIR)	London-Gatwick - LGW	25 E	A	TMA	BOEING	Turbofan	2	Infringement of the LTMA (Class A) by a TB20 at 3100ft. AB737 was broken off approach. Traffic info given. Standard separation maintained.	

200803938	24/04/2008	EGTT : London (FIR)	JACKO	3W	A	TMA	AVIONS ROBIN	Reciprocating	1	Loss of separation between a RJ85 at FL60 and a DR400 at FL58 that infringed the LTMA (Class A). Traffic info given. RJ85 received a TCAS RA.	DR400 apologised for infringement, citing weather avoidance as a factor.☐ CAA Closure: Appropriate advice given. Pilot to allow greater margin for error when flying close toCAS.
200803938	24/04/2008	EGTT : London (FIR)	JACKO	3W	A	TMA	BAE	Turbofan	4	Loss of separation between a RJ85 at FL60 and a DR400 at FL58 that infringed the LTMA (Class A). Traffic info given. RJ85 received a TCAS RA.	DR400 apologised for infringement, citing weather avoidance as a factor.☐ CAA Closure: Appropriate advice given. Pilot to allow greater margin for error when flying close toCAS.
200803968	23/04/2008	EGTT : London (FIR)	Midhurst (MID)	5 SE	A	TMA	MOONEY	Reciprocating	1	Infringement of the LTMA (Class A) by a Mooney 20 at 4400ft. Standard separation maintained.	
200803991	25/04/2008	EGTT : London (FIR)	Redhill	4-5W	D	CTA	BELL	Turboshaft	1	Infringement of the Gatwick CTA (Class D) by a Bell 206 squawking 7000. Standard separation maintained.	
200804005	23/04/2008	EGTT : London (FIR)	Alderney	NE	A	CTR	AEROSPATIALE	Turboshaft	1	Infringement of the Channel Islands CTR (Class A) by an SA350 at 600ft. Standard separation maintained.	

200804019	26/04/2008	EGTT : London (FIR)	MONTY	2S	A		CESSNA	Reciprocating	1	Infringement of Airway (Class A) by a C182 at FL100. Standard separation maintained.	
200804027	12/04/2008	EGTT : London (FIR)	Southampton (SAM)	SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28R at 5000ft squawking 7000. Standard separation maintained.	
200804029	17/04/2008	EGTT : London (FIR)	London City - LCY	10 E	A	TMA	PIPER	Reciprocating	1	PA28 infringed the London TMA (Class A) and lost separation with an RJ85 outbound from London City, which was given traffic info and avoiding action.	An a/c inbound to London City was descended to 2000ft, briefly dropping outside CAS. This was to enable ATC to turn RJ85 further right to avoid PA28. The pilot is an experienced instructor who was aware of his position flying in his local area. He has examined the flight in question to identify where a discrepancy may have occurred, but cannot identify a reason. The instructor stressed that he spends time teaching students the importance of avoiding CAS. ☐ CAA Closure: The pilot intends to continue to squawk Mode C, having checked regularly that the system is operating correctly, and obtain a RIS or FIS whenever it is available.
200804029	17/04/2008	EGTT : London (FIR)	London City - LCY	10 E	A	TMA	BAE	Turbofan	4	PA28 infringed the London TMA (Class A) and lost separation with an RJ85 outbound from London City, which was given traffic info and avoiding action.	An a/c inbound to London City was descended to 2000ft, briefly dropping outside CAS. This was to enable ATC to turn RJ85 further right to avoid PA28. The pilot is an experienced instructor who was aware of his position flying in his local area. He has examined the flight in question to identify where a discrepancy may have occurred, but cannot identify a reason. The instructor stressed that he spends time teaching students the importance of avoiding CAS. ☐ CAA Closure: The pilot intends to continue to squawk Mode C, having checked regularly that the system is operating correctly, and obtain a RIS or FIS whenever it is available.
200804034	25/04/2008	EGTT : London (FIR)	Birmingham	8 N	D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C172 on a photo survey. Pilot apologised. An a/c inbound to Birmingham was given traffic info. Standard separation maintained.	CAA Closure: The pilot apologised for the infringement into controlled airspace and is now aware of the requirement to obtain a positive clearance prior to entry into CAS.

200804124	29/04/2008	EGTT : London (FIR)	Stansted	12NE	D	CTA	SOCATA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a TB20 at 2200ft squawking 7000. Standard separation maintained.	
200804239	26/04/2008	EGTT : London (FIR)	Brize Norton		D	CTR	PIPER	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a PA38.The pilot reports a breakdown in crew coordination was a factor in this incident.	See also 200705001, 200605515.
200804272	03/05/2008	EGTT : London (FIR)	Stansted	8 NE	D	CTR	EUROPA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a Europa at1200ft squawking 7000. Traffic info given. Standard separation maintained.	
200804278	03/05/2008	EGTT : London (FIR)	Bristol International	13 SW	D	CTA	ROCKWELL	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a Rockwell Commander 114 at 3000ft squawking 7000. Standard separationmaintained.	The incident was subsequently discussed with the pilot concerned.
200804294	02/05/2008	EGTT : London (FIR)	North Weald		D	CTA	AERO VODOCHODY	Turbofan	1	Infringement of the Stansted CTA (Class D) by an Aero L39at 1700ft squawking 7000. Standard separation maintained.	

200804296	02/05/2008	EGTT : London (FIR)	London City - LCY	NE	D	CTR	JABIRU	Reciprocating	1	Infringement of the London City CTR (Class D) by a Jabriuat 2100ft squawking 7000. Traffic info given. Separation maintained.	Pilot apologised for infringement, having placed an over-reliance on GPS which transpired to have an out of date database.☐ CAA Closure: Appropriate advice given. GPS database updated.
200804296	02/05/2008	EGTT : London (FIR)	London City - LCY	NE	D	CTR	CESSNA	Turbofan	2	Infringement of the London City CTR (Class D) by a Jabriuat 2100ft squawking 7000. Traffic info given. Separation maintained.	Pilot apologised for infringement, having placed an over-reliance on GPS which transpired to have an out of date database.☐ CAA Closure: Appropriate advice given. GPS database updated.
200804318	03/05/2008	EGTT : London (FIR)	NEDUL	5N	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 3000ft. Standard separation maintained.	Pilot distracted by low voltage warning light prior to infringement. He subsequently contacted ATC to apologise. See also 200802552.☐ CAA Closure: Appropriate advice given.
200804319	03/05/2008	EGTT : London (FIR)	Denham	6 W	A	CTR	PIPER	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a PA46 (believed) at 2000ft. Standard separation maintained.	
200804325	05/05/2008	EGTT : London (FIR)	Southampton (SAM)	7.4 NE	D	CTR	SOCATA	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a TB10 at 2300ft squawking 7000. Standard separation maintained.	

200804325	05/05/2008	EGTT : London (FIR)	Southampton (SAM)	7.4 NE	D	CTR	DE HAVILLAND	Turboprop	2	Infringement of the Southampton CTR (Class D) by a TB10 at 2300ft squawking 7000. Standard separation maintained.	
200804371	06/05/2008	EGTT : London (FIR)	Brookmans Park (BPK)		A	TMA	GRUMMAN	Reciprocating	1	Infringement of the LTMA (Class A) by a Grumman AA5 at 2700ft squawking 7000. Standard separation maintained. See also 200510385.	
200804371	06/05/2008	EGTT : London (FIR)	Brookmans Park (BPK)		A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a Grumman AA5 at 2700ft squawking 7000. Standard separation maintained. See also 200510385.	
200804379	06/05/2008	EGTT : London (FIR)	Detling (DET)	SE	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C172 at 3800ft.	
200804427	05/05/2008	EGTT : London (FIR)	Stansted		D	CTA	SOCATA	Reciprocating	1	Aircraft appeared to infringe Stansted CTA due to suspected erroneous/inconsistent transponder Mode 'C' altitude information. Recurring fault.	One other inbound aircraft re-routed in order to maintainrequired separation.☐ CAA Closure: Component failure, interface between aircraft wiring and transponder control unit. Transponder removed and re-racked after cleaning contacts. Nil further reports.

200804427	05/05/2008	EGTT : London (FIR)	Stansted		D	CTA	AIRBUS	Turbofan	2	Aircraft appeared to infringe Stansted CTA due to suspected erroneous/inconsistent transponder Mode 'C' altitude information. Recurring fault.	One other inbound aircraft re-routed in order to maintainrequired separation. □ CAA Closure: Component failure, interface between aircraft wiring and transponder control unit. Transponder removed and re-racked after cleaning contacts. Nil further reports.
200804430	06/05/2008	EGTT : London (FIR)	London-Heathrow - LHR	SE	A	CTR	CESSNA	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a C182 squawking 7000 at 1800ft stopping Heathrow departures for 2mins.	CAA Closure: Pilot arranged personal re-training. Additionally, letter sent giving further advice.
200804480	23/04/2008	EGTT : London (FIR)	Weston On The Green		G	Danger area	CIRRUS	Reciprocating	1	Infringement of Active Danger Area D129 (Weston on the Green), an active parachute drop zone, by an SR20 at 2000ft.Parachutists were in the air.	
200804505	07/05/2008	EGTT : London (FIR)	Stansted CTA		D	CTA	SOCATA	Reciprocating	1	Aircraft appeared to infringe Stansted CTA due to suspected erroneous/inconsistent transponder 'Mode C' altitude information. Recurring fault.	Evasive action taken with four inbound aircraft. Investigation progressed under 200804427 (similar incident two days earlier).
200804505	07/05/2008	EGTT : London (FIR)	Stansted CTA		D	CTA	BOEING	Turbofan	2	Aircraft appeared to infringe Stansted CTA due to suspected erroneous/inconsistent transponder 'Mode C' altitude information. Recurring fault.	Evasive action taken with four inbound aircraft. Investigation progressed under 200804427 (similar incident two days earlier).

200804548	08/05/2008	EGTT : London (FIR)	Birmingham	12 S	D	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a C150 at2000ft. STCA activated. Separation lost with a training helicopter on the Coventry 05 ILS.	The P1 concerned subsequently rang ATC and apologised.☐ CAA Closure: Advice letter sent to pilot recommending that additional training in flight planning was taken during the Flight Instructor course he is currently undertaking.
200804548	08/05/2008	EGTT : London (FIR)	Birmingham	12 S	D	CTA	OTHER	Other		Infringement of the Birmingham CTA (Class D) by a C150 at2000ft. STCA activated. Separation lost with a training helicopter on the Coventry 05 ILS.	The P1 concerned subsequently rang ATC and apologised.☐ CAA Closure: Advice letter sent to pilot recommending that additional training in flight planning was taken during the Flight Instructor course he is currently undertaking.
200804601	10/05/2008	EGTT : London (FIR)	Southampton (SAM)	13 S	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 3000ft squawking 7000. Standard separation maintained.	
200804602	10/05/2008	EGTT : London (FIR)	Southampton (SAM)	10 S	D	CTA	LANCAIR	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Lancair at 4600ft. Standard separation maintained.	
200804603	10/05/2008	EGTT : London (FIR)	Stansted	7 SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28 at 2000ft squawking 7000. Traffic info given. Standard separation maintained.	Pilot denied the infringement and provided his GPS to support this claim.☐ CAA Closure: Unable to reconcile differing reports.

200804603	10/05/2008	EGTT : London (FIR)	Stansted	7 SW	D	CTR	MCDONNELL DOUGLAS	Turbofan	3	Infringement of the Stansted CTR (Class D) by a PA28 at 2000ft squawking 7000. Traffic info given. Standard separation maintained.	Pilot denied the infringement and provided his GPS to support this claim.☐ CAA Closure: Unable to reconcile differing reports.
200804615	07/05/2008	EGTT : London (FIR)	Southampton (SAM)	NE	D	CTA	DE HAVILLAND	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Tiger Moth.Traffic info and avoiding action given. Standard separation maintained.	Pilot called ATC the following day and apologised for theinfringement, stating it was caused by a navigational error and his misuse of the a/c's compass. The a/c had no transponder and an unserviceable radio.
200804615	07/05/2008	EGTT : London (FIR)	Southampton (SAM)	NE	D	CTA	EMBRAER	Turbofan	2	Infringement of the Solent CTA (Class D) by a Tiger Moth.Traffic info and avoiding action given. Standard separation maintained.	Pilot called ATC the following day and apologised for theinfringement, stating it was caused by a navigational error and his misuse of the a/c's compass. The a/c had no transponder and an unserviceable radio.
200804625	04/05/2008	EGTT : London (FIR)	Kenley		G		RUTAN	Reciprocating	1	Infringement of the South London Gliding Centre cable hazard at Kenley Airfield by an unknown Vari-eze at an estimated 800ft.	
200804639	08/05/2008	EGTT : London (FIR)	Nottingham East Midlands	7nm final R/W09	D	CTA	PIPER	Reciprocating	1	Infringement of Nottingham East Midlands CTA (Class D) bya PA28 at 2300ft. Standard separation maintained. Pilot unsure of his position.	CAA Closure: Pilot will be reviewing navigation procedures and consider his timing of interactions with passengers,which was a factor in this infringement. He has been reminded of the serious consequences of infringing.

200804640	08/05/2008	EGTT : London (FIR)	PIGOT	2NE	D	CTA	PIPER	Reciprocating	1	Infringement of the East Midlands CTA (Class D) by a PA28R at FL74. Standard separation maintained. A/c was displaying a Coventry Radar squawk.	
200804647	11/05/2008	EGTT : London (FIR)	Manchester (MCT)	14 NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by PA28R squawking 7000. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisinfringement.
200804649	11/05/2008	EGTT : London (FIR)	Puckeridge	2E	D	CTR	GROB	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a Grob 115 at 2000ft. Standard separation maintained.	
200804654	01/05/2008	EGTT : London (FIR)	Bovingdon (BNN)	NE	D	CTR	MOONEY	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Mooney 20 at2300ft squawking 7000. A departure was stopped and one a/c broken off approach. Standard separation maintained.	CAA Closure: The pilot is fully aware of the serious consequences of infringing CAS and has been advised that he should plan his future flights with a wider margin when approaching controlled airspace.
200804654	01/05/2008	EGTT : London (FIR)	Bovingdon (BNN)	NE	D	CTR	BOEING	Turbofan	2	Infringement of the Luton CTR (Class D) by a Mooney 20 at2300ft squawking 7000. A departure was stopped and one a/c broken off approach. Standard separation maintained.	CAA Closure: The pilot is fully aware of the serious consequences of infringing CAS and has been advised that he should plan his future flights with a wider margin when approaching controlled airspace.

200804704	02/05/2008	EGTT : London (FIR)	Lulworth		G	Danger area	PIPER	Reciprocating	1	Infringement of active Danger Area EG D026 (Lulworth) by a PA28R.	CAA Closure: The CFI has put in place effective safeguards to avoid any future infringements. The pilot concerned has been interviewed and given the necessary guidance by both the CFI and the Quality Manager.
200804716	12/05/2008	EGTT : London (FIR)	Redhill	2 W	D	CTR	BELL	Turboshaft	1	Infringement of the Gatwick CTR (Class D) by a Bell 206 squawking 7000. A/c infringed the CTR for approx 7nm. Separation lost.	CAA Closure: Despite several attempts, no response forthcoming from Bell 206 owner. No further action possible.
200804716	12/05/2008	EGTT : London (FIR)	Redhill	2 W	D	CTR	UNKNOWN	Unknown		Infringement of the Gatwick CTR (Class D) by a Bell 206 squawking 7000. A/c infringed the CTR for approx 7nm. Separation lost.	CAA Closure: Despite several attempts, no response forthcoming from Bell 206 owner. No further action possible.
200804718	11/05/2008	EGTT : London (FIR)	Reigate		A	TMA	DE HAVILLAND	Reciprocating	1	Infringement of the LTMA (Class A) by a Chipmunk at 3000ft. A/c instructed to descend immediately. Standard separation maintained.	
200804719	12/05/2008	EGTT : London (FIR)	London-Gatwick - LGW	6 W	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a Robin 2160squawking 7000 at 2300ft. Traffic info given. Six inbounda/c were delayed as a result of this incident.	Separation lost with an inbound A319.□ CAA Closure: A/c VOR equipment fault, subsequently checked by a maintenance organisation.

200804719	12/05/2008	EGTT : London (FIR)	London-Gatwick - LGW	6 W	D	CTR	AIRBUS	Turbofan	2	Infringement of the Gatwick CTR (Class D) by a Robin 2160squawking 7000 at 2300ft. Traffic info given. Six inbounda/c were delayed as a result of this incident.	Separation lost with an inbound A319.☐ CAA Closure: A/c VOR equipment fault, subsequently checked by a maintenance organisation.
200804721	12/05/2008	EGTT : London (FIR)	London-Gatwick - LGW	15 SW	A	TMA	EUROPA	Reciprocating	1	Infringement of the LTMA (Class A) by a Europa at 3100ft squawking 7000. Two inbound a/c were delayed. Separation lost.	The pilot admits to poor airmanship and a navigational error.☐ CAA Closure: Incident discussed with ATC.
200804721	12/05/2008	EGTT : London (FIR)	London-Gatwick - LGW	15 SW	A	TMA	UNKNOWN	Unknown		Infringement of the LTMA (Class A) by a Europa at 3100ft squawking 7000. Two inbound a/c were delayed. Separation lost.	The pilot admits to poor airmanship and a navigational error.☐ CAA Closure: Incident discussed with ATC.
200804793	04/05/2008	EGTT : London (FIR)	Stansted CTA				SOCATA	Reciprocating	1	Aircraft infringed Stansted CTA due to suspected erroneous/inconsistent transponder 'Mode C' altitude information. Recurring fault.	One other aircraft on approach routed through localiser to ensure separation and as a result over flew Sawbridgeworth below 2000ft on a visual approach. TB10 pilot later apologised for possible infringement. Investigation progressed under 200804427 (similar incident next day).
200804793	04/05/2008	EGTT : London (FIR)	Stansted CTA				AIRBUS	Turbofan	2	Aircraft infringed Stansted CTA due to suspected erroneous/inconsistent transponder 'Mode C' altitude information. Recurring fault.	One other aircraft on approach routed through localiser to ensure separation and as a result over flew Sawbridgeworth below 2000ft on a visual approach. TB10 pilot later apologised for possible infringement. Investigation progressed under 200804427 (similar incident next day).

200804815	14/05/2008	EGTT : London (FIR)	Honiley (HON)	4S	D	CTA	BEECH	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a BE36 at2200ft with a Coventry squawk of 0260. Standard separation maintained.	CAA Closure: The BE36 had been cleared to leave Coventry SVFR below the Birmingham CTA base of 1500ft. The pilot thought he was clear of CAS, hence his climb to 2200ft.
200804837	13/05/2008	EGTT : London (FIR)	Luton (LUT)	10 SE	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C210 at 3000ft. Controller instructed the a/c to descend to 2400ft outside of the TMA, which it did. Standard separation maintained.	
200804987	18/05/2008	EGTT : London (FIR)	Stansted	11 N	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C172. A B737 was given traffic info and a right turn to ensure standard separation was maintained.	
200804987	18/05/2008	EGTT : London (FIR)	Stansted	11 N	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a C172. A B737 was given traffic info and a right turn to ensure standard separation was maintained.	
200804988	17/05/2008	EGTT : London (FIR)	Cookham	3 E	A	CTR	PIPER	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a PA28 at 1500ft squawking 7000. Traffic info given. Standard separation lost with an SVFR R44 which was visual with the traffic.	The instructor reports that on encountering a lowering cloud base he decided to turn back. He then became uncertainof his position in quickly deteriorating weather and visibility. He also appears to have mistaken Slough for Maidenhead. The instructor states that he has learnt from this incident.

200804988	17/05/2008	EGTT : London (FIR)	Cookham	3 E	A	CTR	ROBINSON	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a PA28 at 1500ft squawking 7000. Traffic info given. Standard separation lost with an SVFR R44 which was visual with the traffic.	The instructor reports that on encountering a lowering cloud base he decided to turn back. He then became uncertainof his position in quickly deteriorating weather and visibility. He also appears to have mistaken Slough for Maidenhead. The instructor states that he has learnt from this incident.
200804991	18/05/2008	EGTT : London (FIR)	London City - LCY	15E	A	TMA	CESSNA	Reciprocating	1	Infringement of the London LTMA (Class A) by a C172 (unconfirmed) at 3400ft squawking 7000. Standard separation maintained.	
200805000	15/05/2008	EGTT : London (FIR)	EXMOR		D	CTA	PIPER	Reciprocating	1	Infringement of Cardiff CAS (Class D) by a PA32 at FL60 that was instructed to wait 10mins for an entry clearance. The a/c was then observed to enter the CAS without clearance.	Standard separation maintained.☐ CAA Closure: Owner was requested several times to provide further information but,as at 10 Nov 2008, had not done so. Aircraft will be monitored for future occurrences.
200805010	18/05/2008	EGTT : London (FIR)	Dunsfold	2E	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by an HR100 at 2300ft that was displaying a Farnborough LARS squawk. Gatwick Radar contacted Farnborough who instructed the a/c to descend/turn.	Standard separation maintained.
200805020	19/05/2008	EGTT : London (FIR)	Braintree		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 2400ft enroute to Cambridge. Stansted departures stopped for 5mins.	Attempts were made to trace the aircraft with the FIR andCambridge. The aircraft was believed to be a PA28 enroutefrom France to Cambridge. As a result of this infringement, Stansted controller stopped all R/W05 right turn departures for 5mins. ☐ CAA Closure: The incident occurred due to the unknown aircraft entering the Stansted CTR without aclearance from ATC. Further tracing action failed to makecontact with the pilot or positively establish that this was the aircraft concerned.

200805034	04/05/2008	EGTT : London (FIR)	Brize Norton	8 E	D	Danger area	OTHER	Turbofan	1	A Gnat taking part in Abingdon Air Show infringed the Brize Norton CTR (Class D), which caused an inbound DC10 taking avoiding action to infringe active Danger Area EG D129 (Weston on the Green).	The DC10 was twice given avoiding action but was slow in responding to ATC instructions, which led to the infringement of D129. It also appears to have received a TCAS RA during this incident. The pilot of the Gnat subsequently advised that he only had one radio and was distracted by a leaking canopy seal.□ CAA Closure: The pilot is fully aware of the serious consequences of infringing CAS.
200805034	04/05/2008	EGTT : London (FIR)	Brize Norton	8 E	D	Danger area	MCDONNELL DOUGLAS	Turbofan	3	A Gnat taking part in Abingdon Air Show infringed the Brize Norton CTR (Class D), which caused an inbound DC10 taking avoiding action to infringe active Danger Area EG D129 (Weston on the Green).	The DC10 was twice given avoiding action but was slow in responding to ATC instructions, which led to the infringement of D129. It also appears to have received a TCAS RA during this incident. The pilot of the Gnat subsequently advised that he only had one radio and was distracted by a leaking canopy seal.□ CAA Closure: The pilot is fully aware of the serious consequences of infringing CAS.
200805084	20/05/2008	EGTT : London (FIR)	London-Heathrow - LHR	4 NW	A	CTR	PIPER	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a PA38. Five a/c inbound to Heathrow were broken off or delayed and CPT departures were stopped. Standard separation maintained.	CAA Closure: CFI has arranged further navigation trainingfor the pilot.
200805088	20/05/2008	EGTT : London (FIR)	Luton (LUT)	NE	A	TMA	GROB	Reciprocating	1	Infringement of the LTMA (Class A) by a Grob G115 squawking 7000 at 6000ft. Traffic info and avoiding action given.	Distraction caused to ATC. The infringement was caused bythe pilot climbing above the cloud sheet and then failingto appreciate the strength of the easterly wind, which was blowing the a/c in a south-westerly direction towards CAS. Appropriate and comprehensive remedial action has been taken as a result of this incident.
200805088	20/05/2008	EGTT : London (FIR)	Luton (LUT)	NE	A	TMA	PIPER	Reciprocating	2	Infringement of the LTMA (Class A) by a Grob G115 squawking 7000 at 6000ft. Traffic info and avoiding action given.	Distraction caused to ATC. The infringement was caused bythe pilot climbing above the cloud sheet and then failingto appreciate the strength of the easterly wind, which was blowing the a/c in a south-westerly direction towards CAS. Appropriate and comprehensive remedial action has been taken as a result of this incident.

200805092	16/02/2008	EGTT : London (FIR)	Panshanger		G	ATZ	CESSNA	Reciprocating	1	Alleged infringement of the Panshanger ATZ (Class G) by an unknown a/c, possibly a Cessna 140, at 1200ft.

200805097	18/05/2008	EGTT : London (FIR)	Panshanger		G	ATZ	PIPER	Reciprocating	1	Alleged infringement of the Panshanger ATZ (Class G) by an unknown Cessna 150/152 at an estimated 1600ft.	
200805101	20/05/2008	EGTT : London (FIR)	Bournemouth	5 NE	D	CTR	OTHER	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by an Ikarus C42. Pilot was made aware of his error and departed CAS.Traffic info given. Standard separation maintained.	

200805103	18/05/2008	EGTT : London (FIR)	Nottingham East Midlands	10 W	D	CTA	CESSNA	Reciprocating	1	Alleged infringement of Nottingham East Midlands CTR/CTA (Class D) by a C172 at 3000ft. R/W and approach lights were switched on. Standard separation maintained.	
200805107	20/05/2008	EGTT : London (FIR)	London-Gatwick - LGW	6 E	D	CTR	PIPER	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a PA28 wearing an FIR squawk, but not working FIR. PA28 did subsequently contact FIR stating it was lost and they transferred itto D&D.	SFD departures stopped. Standard separation maintained.
200805160	22/05/2008	EGTT : London (FIR)	Bournemouth	7 NE	D	CTR	PIPER	Reciprocating	1	Solent alerted Bournemouth to a PA28 that reported it wasunsure of its position. PA28 allocated a squawk and identified inside the Bournemouth CTR (Class D). Position info passed to PA28.	
200805162	20/05/2008	EGTT : London (FIR)	Bracknell		A	CTR	EUROPA	Reciprocating	1	Infringement of the London CTR (Class A) by a Europa at 2000ft. ATC instructed Europa to turn West and, on leaving CAS, gave traffic info. Standard separation maintained.	
200805164	14/05/2008	EGTT : London (FIR)	Stansted		D	CTR	CESSNA	Reciprocating	1	Alleged infringement of the Stansted CTR (Class D) by a C172. Standard separation maintained.	

200805168	22/05/2008	EGTT : London (FIR)	Luton (LUT)		D	CTA	PIPER	Reciprocating	1	Infringement of Luton CTR (Class D) by a PA28 on a NAVEX.A departing A321 was given traffic info and a heading to avoid the PA28. All further departures were stopped. Standard separation maintained.	CAA Closure: The pilot has been sent a warning letter reminding him of the serious consequences of infringing CAS. The pilot now intends to make use of the new Farnborough North LARS for future flights.
200805168	22/05/2008	EGTT : London (FIR)	Luton (LUT)		D	CTA	AIRBUS	Turbofan	2	Infringement of Luton CTR (Class D) by a PA28 on a NAVEX.A departing A321 was given traffic info and a heading to avoid the PA28. All further departures were stopped. Standard separation maintained.	CAA Closure: The pilot has been sent a warning letter reminding him of the serious consequences of infringing CAS. The pilot now intends to make use of the new Farnborough North LARS for future flights.
200805184	22/05/2008	EGTT : London (FIR)	Stansted		D	CTA	CESSNA	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a C172 at 2000ft. Standard separation maintained.	
200805249	22/05/2008	EGTT : London (FIR)	Stansted		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 2400ft. Standard separation maintained.	
200805251	23/05/2008	EGTT : London (FIR)	London City - LCY	4 SE	D	CTA	PIPER	Reciprocating	1	PA28 at 2200ft working Biggin was observed inside the London City CTA (Class D). RJ100 was given traffic info and avoiding action.	The PA28 pilot reported that he had an accurate fix on his position just prior to this infringement. He had then tracked directly to Biggin Hill and concedes that he may have clipped the Southeast corner of the London City CTA. He apologised and is fully aware of the serious consequences of infringing CAS.☐ CAA Closure: The pilot also now has the most current CAA chart of the area.

200805251	23/05/2008	EGTT : London (FIR)	London City - LCY	4 SE	D	CTA	BAE	Turbofan	4	PA28 at 2200ft working Biggin was observed inside the London City CTA (Class D). RJ100 was given traffic info and avoiding action.	The PA28 pilot reported that he had an accurate fix on his position just prior to this infringement. He had then tracked directly to Biggin Hill and concedes that he may have clipped the Southeast corner of the London City CTA. He apologised and is fully aware of the serious consequences of infringing CAS.□ CAA Closure: The pilot also now has the most current CAA chart of the area.
200805252	24/05/2008	EGTT : London (FIR)	DAYNE		D	CTA	PIPER	Reciprocating	1	Alleged infringement of the Manchester CTA (Class D) by aPA28 at 2200ft. Standard separation maintained.	
200805254	23/05/2008	EGTT : London (FIR)	Woodley (WOD)	11 NE	A	CTR	DIAMOND	Reciprocating	1	Infringement of the London CTR (Class A) by a DA40D at 2300ft. Standard separation maintained.	ATC observed DA40D tracking towards the Northwest corner of the London CTR (Class A) and instructed it to turn ontoa Westerly heading, but a/c turned Southwest and entered the zone. ATC again instructed DA40D to turn onto a Westerly heading and leave the zone as soon as possible.
200805255	22/05/2008	EGTT : London (FIR)	Dunstable		D	CTR	BELL	Turboshaft	1	Bell 206 called for a zone transit and told to remain outside CAS. A/c subsequently infringed the Luton CTR (Class D) near the Dunstable gliding site. Traffic info given to an a/c inbound to Luton.	
200805261	25/05/2008	EGTT : London (FIR)	North Weald	3 S	D	CTA	PIPER	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a PA28. Two inbound a/c were extended to maintain standard separation.	

200805261	25/05/2008	EGTT : London (FIR)	North Weald	3 S	D	CTA	BOEING	Turbofan	2	Alleged infringement of the Stansted CTA (Class D) by a PA28. Two inbound a/c were extended to maintain standard separation.	
200805287	22/05/2008	EGTT : London (FIR)	Southend (SND)		A	TMA	CESSNA	Reciprocating	1	Infringement of the London TMA (Class A) by a C206. C206 had been working London Info and called Southend ATC overhead Southend at FL45 descending.	Southend contacted TC SE, who had noticed C206 squawking 7000. London Info were contacted and stated they had been working C206 on squawk 1177, but this squawk disappeared from their FID (Flight Information Display) and a/c subsequently reported 6nm from Southend. In view of this C206 wasput to Southend frequency, whilst instructing it to descend. London Info report that 7000 squawks are not displayedon their FID.
200805305	29/04/2008	EGTT : London (FIR)	Detling (DET)		A	TMA	OTHER	Reciprocating	1	Infringement of the LTMA (Class A) by a CTSW at 3300ft. Acheck was placed on City Departures to the East and South. An a/c inbound to London City was vectored around the a/c.	Pilot allegedly stated that the altimeter was reading 200ft lower than the Mode C readout.
200805306	17/04/2008	EGTT : London (FIR)	North Weald	3W	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA32 squawking 7000 at 2300ft. Standard separation maintained.	
200805361	27/05/2008	EGTT : London (FIR)	Brands Hatch	N	D	TMA	DIAMOND	Reciprocating	1	Infringement of LTMA (Class A) by a DA40 at 2700ft squawking 7000. Other a/c were manoeuvred around the DA40. Standard separation maintained.	Investigation ascertained that an unintentional infringement occurred while the pilot investigated an HSI problem.CAA Closure: Pilot apologetic and advises that the problem will not happen again.

200805422	26/05/2008	EGTT : London (FIR)	Nottingham East Midlands	4 ENE	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Nottingham East Midlands CTR (Class D) by an R44. Standard separation maintained.	Investigation established that the wind was 28kts, gusting 38kts, which had an effect on the flight. It also became apparent that pilot had insufficient hours to commence flight in such conditions iaw the Flight Manual limitations.□ □ CAA Closure: Letter received from pilot and advice givenon flight planning and R44 Flight Manual limitations.
200805451	20/05/2008	EGTT : London (FIR)	Lydd (LYD)	5E	A	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Worthing CTA (Class A) by a Robin 400squawking 7000 at FL70. Standard separation maintained.	
200805479	29/05/2008	EGTT : London (FIR)	Fairoaks	6 W	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28 at 1300ft. Standard separation maintained.	
200805525	31/05/2008	EGTT : London (FIR)	Luton (LUT)	10 WSW	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 at 2000ft. Departures stopped. Traffic info given. D&D alerted. Separation lost.	Investigations indicate that the low hour PPL became lostin the Luton area, having previously performed his flyingfrom Biggin. The CFI at the operator concerned has been contacted and will take comprehensive remedial action.
200805525	31/05/2008	EGTT : London (FIR)	Luton (LUT)	10 WSW	D	CTR	GULFSTREAM	Turbofan	2	Infringement of the Luton CTR (Class D) by a PA28 at 2000ft. Departures stopped. Traffic info given. D&D alerted. Separation lost.	Investigations indicate that the low hour PPL became lostin the Luton area, having previously performed his flyingfrom Biggin. The CFI at the operator concerned has been contacted and will take comprehensive remedial action.

200805528	29/05/2008	EGTT : London (FIR)	White Waltham	S	A	CTR	ROBINSON	Reciprocating	1	Infringement of the London CTR (Class A) by an R22 at 1300ft. Standard separation maintained.	
200805596	01/06/2008	EGTT : London (FIR)	Dunstable	S	D	CTR	VANS	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Vans RV-8 at1200ft. Traffic info and avoiding action given. Standard separation maintained.	The pilot sent a comprehensive report. He had clearly seen the chart depiction of airspace 3500-5500 but had not seen the SFC-3500. The pilot is fully aware of the serious consequences of infringing CAS, and regularly squawks Mode C.☐ CAA Closure: The VFR chart editor is aware of this lack of clarity and will amend future editions of the 1/4 million chart.
200805596	01/06/2008	EGTT : London (FIR)	Dunstable	S	D	CTR	CESSNA	Turbofan	2	Infringement of the Luton CTR (Class D) by a Vans RV-8 at1200ft. Traffic info and avoiding action given. Standard separation maintained.	The pilot sent a comprehensive report. He had clearly seen the chart depiction of airspace 3500-5500 but had not seen the SFC-3500. The pilot is fully aware of the serious consequences of infringing CAS, and regularly squawks Mode C.☐ CAA Closure: The VFR chart editor is aware of this lack of clarity and will amend future editions of the 1/4 million chart.
200805609	31/05/2008	EGTT : London (FIR)	Nottingham East Midlands	5 E	D	CTR	PIPER	Reciprocating	1	Infringement of the Nottingham East Midlands CTR/CTA (Class D) by a PA28 at 2500ft. Standard separation maintained.Pilot apologised for the incident.	
200805686	29/05/2008	EGTT : London (FIR)	Nottingham East Midlands	6 N	D	CTA	CESSNA	Reciprocating	1	Infringement of the Nottingham East Midlands CTA (Class D) by C172 at 3000ft. An inbound A319 positioning for ILS R/W27 was broken off the approach. Traffic info given. Standard separation maintained.	

200805686	29/05/2008	EGTT : London (FIR)	Nottingham East Midlands	6 N	D	CTA	AIRBUS	Turbofan	2	Infringement of the Nottingham East Midlands CTA (Class D) by C172 at 3000ft. An inbound A319 positioning for ILS R/W27 was broken off the approach. Traffic info given. Standard separation maintained.	
200805723	04/06/2008	EGTT : London (FIR)	Oxshott		A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by C152 at 2400ft. C152 had been working Farnborough who had instructed itto remain outside CAS. Standard separation maintained.	
200805782	05/06/2008	EGTT : London (FIR)	Kimpton Hall		D	CTR	PIPER	Reciprocating	1	Infringement of Luton CTR (Class D) by a PA28 at 2100ft. Two a/c broken of approach and re-positioned once the PA28had left the CTR. Traffic info given. Standard separationmaintained.	The solo student pilot involved apologised. The student is to under going additional navigational training under the auspice of the CFI and instructor concerned.
200805782	05/06/2008	EGTT : London (FIR)	Kimpton Hall		D	CTR	BEECH	Turboprop	2	Infringement of Luton CTR (Class D) by a PA28 at 2100ft. Two a/c broken of approach and re-positioned once the PA28had left the CTR. Traffic info given. Standard separationmaintained.	The solo student pilot involved apologised. The student is to under going additional navigational training under the auspice of the CFI and instructor concerned.
200805802	06/06/2008	EGTT : London (FIR)	DAYNE	NW	A	TMA	PIPER	Reciprocating	1	Infringement of the Manchester TMA (Class A) by a PA32 at3500ft. Traffic info and avoiding action given. Standard separation maintained.	

200805802	06/06/2008	EGTT : London (FIR)	DAYNE	NW	A	TMA	DOUGLAS	Turbofan	4	Infringement of the Manchester TMA (Class A) by a PA32 at3500ft. Traffic info and avoiding action given. Standard separation maintained.	
200805847	06/06/2008	EGTT : London (FIR)	Brookmans Park (BPK)		D	CTA	ROBINSON	Reciprocating	1	Infringement of the Stansted CTA (Class D) by an R44 at 2000ft. Separation lost with a B737, which was given traffic info and avoiding action.	
200805847	06/06/2008	EGTT : London (FIR)	Brookmans Park (BPK)		D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by an R44 at 2000ft. Separation lost with a B737, which was given traffic info and avoiding action.	
200805848	05/06/2008	EGTT : London (FIR)	Detling (DET)		A	TMA	OTHER	Reciprocating	1	Infringement of the LTMA (Class A) by a microlight squawking 7000 at FL65. Separation lost with a B737.	The pilot was responsible for the navigation for his and another aircraft following in loose formation. The pilot had been used to starting a flight well away from CAS. On the flight in question, the pilot started from Headcorn underneath the LTMA. The pilot had an over-reliance on his GPS to warn him of approaching CAS. On this occasion the flight originated under the LTMA and the airspace warning wasnot flagged up. □ CAA Closure: The pilot has since spokento his club CFI to further discuss this occurrence. The pilot was very embarrassed that he had made this error in an unfamiliar area. The pilot wanted to stress that he tooksafety very seriously and has already fitted a Mode S transponder to his aircraft. Both pilots have been warned about the serious consequences of infringing CAS.
200805848	05/06/2008	EGTT : London (FIR)	Detling (DET)		A	TMA	BOEING	Turbofan	2	Infringement of the LTMA (Class A) by a microlight squawking 7000 at FL65. Separation lost with a B737.	The pilot was responsible for the navigation for his and another aircraft following in loose formation. The pilot had been used to starting a flight well away from CAS. Traffic info given. Standard separation maintained.	Pilot described his routing and stated that he passed theQE2 bridge at Dartford on his right. This would place himoutside the City CTR at 2400ft.☐ CAA Closure: Unable to reconcile the differing reports due to the elapsed time.
200805900	05/06/2008	EGTT : London (FIR)	Detling (DET)		A	TMA	OTHER	Reciprocating	1	Infringement of the LTMA (Class A) by a microlight squawking 7000 at FL52. Separation lost with a B737.	Investigation progressed under 200805848.
200805900	05/06/2008	EGTT : London (FIR)	Detling (DET)		A	TMA	BOEING	Turbofan	2	Infringement of the LTMA (Class A) by a microlight squawking 7000 at FL52. Separation lost with a B737.	Investigation progressed under 200805848.

200805959	08/06/2008	EGTT : London (FIR)	Luton (LUT)	4 SE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C172 at 2100ft. A/c had been instructed twice to remain outside of controlled airspace. Standard separation maintained.	
200805972	09/06/2008	EGTT : London (FIR)	Stansted	2 E	D	CTR	CESSNA	Reciprocating	1	Infringement of Stansted CTR (Class D) by a C172 at 1500ft. Disruption to Stansted traffic. Four separate losses ofseparation resulted.	Appropriate action is being taken as a result of this incident.
200805972	09/06/2008	EGTT : London (FIR)	Stansted	2 E	D	CTR	BOEING	Turbofan	2	Infringement of Stansted CTR (Class D) by a C172 at 1500ft. Disruption to Stansted traffic. Four separate losses ofseparation resulted.	Appropriate action is being taken as a result of this incident.
200806020	08/06/2008	EGTT : London (FIR)	White Waltham	4SSE	A	CTR	CESSNA	Reciprocating	1	Thames called Farnborough requesting information on a squawk. C150 had infringed London CTR (Class A) at 1700ft. C150 instructed to turn immediately onto West to exit CTR.	Standard separation maintained. When pilot was informed of the infringement, she responded that CAS was not marked on her map/GPS.
200806022	10/06/2008	EGTT : London (FIR)	White Waltham	4 SE	A	CTR	BELL	Turboshaft	1	Infringement of the Heathrow CTR (Class A) by a Bell 206 squawking 7000 at 1000ft. Standard separation maintained.	

200806025	10/06/2008	EGTT : London (FIR)	Middle Wallop		G	ATZ	PIPER	Reciprocating	1	UK AIRPROX 82/2008 - Military a/c and a PA28 at Middle Wallop at 1500ft. A/c had previously infringed the Southampton CTR (Class D).	CAA Closure: While unsure of his position, the PA28 student pilot entered the Middle Wallop ATZ without permission and flew into conflict with the military a/c, which he didnot see. This AIRPROX will be subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200806025	10/06/2008	EGTT : London (FIR)	Middle Wallop		G	ATZ	OTHER	Unknown		UK AIRPROX 82/2008 - Military a/c and a PA28 at Middle Wallop at 1500ft. A/c had previously infringed the Southampton CTR (Class D).	CAA Closure: While unsure of his position, the PA28 student pilot entered the Middle Wallop ATZ without permission and flew into conflict with the military a/c, which he didnot see. This AIRPROX will be subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200806035	03/06/2008	EGTT : London (FIR)	Lulworth	EG D 026	G	Danger area	ROBINSON	Reciprocating	1	Infringement of active Danger Area EG D026 at Lulworth bya R44. Live firing stopped.	R44 pilot is aware of the serious consequences of infringing CAS / DAs and has learnt several lessons from this infringement.☐ CAA Closure: Following this incident, the pilot has accessed GASIL and Fly On Track and now intends to highlight Restricted Areas on his chart prior to flying.
200806056	10/06/2008	EGTT : London (FIR)	Cherbourg	35N	A		PIPER	Reciprocating	1	Infringement of Airway R41 (Class A) by a PA28 at FL40. Standard separation maintained.	
200806064	09/06/2008	EGTT : London (FIR)	Nash Point	3NW	D	CTR	GROB	Reciprocating	1	Infringement of the Cardiff CTR (Class D) by a G115 at 2400ft. Pilot was advised he had entered controlled airspaceand to descend to below 1700ft. Standard separation maintained.	Investigations have revealed that the student pilot climbed above the altitude given by ATC. This was caused by thepilot misunderstanding his ATC clearance having previously read it back correctly. Appropriate and comprehensive remedial action has been taken by the operator.

200806093	10/06/2008	EGTT : London (FIR)	Luton (LUT)	15nm NE	D	CTA	VANS	Reciprocating	1	Aircraft appeared to infringe CTA due to suspected erroneous transponder Mode C altitude information.	Aircraft was showing a callsign conversion 'FIS', therefore 'FIS' were contacted. Aircraft was transferred and identified. Transponder was at times reading 200ft above the level stated by the pilot.☐ CAA Closure: Affected componenthas been removed. Upgraded model being fitted is awaitinginstallation process approval.
200806118	12/06/2008	EGTT : London (FIR)	Brecon (BCN)	8W	A		CESSNA	Reciprocating	1	Infringement of Airway (Class A) by a C206 at FL110. Standard separation maintained.	When the pilot was asked if he was told to remain outsideof CAS, he replied "yes", but stated that he advised the previous agency that he would be staying at FL110 after Amman. Previous agency possibly the London FIR. Investigations indicate that the pilot assumed that the military controller that he had been working had coordinated his entry into CAS with Cardiff Radar. Appropriate advice has been passed to the pilot concerned.
200806151	13/06/2008	EGTT : London (FIR)	Ockham (OCK)	4N	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C182 squawking 7000 at 1200ft. Standard separation maintained.	
200806153	13/06/2008	EGTT : London (FIR)	Southampton (SAM)	12S	D	CTA	BEECH	Reciprocating	1	Infringement of the Solent CTA (Class D) by a BE35 at 2500ft. Standard separation maintained.

200806467	19/06/2008	EGTT : London (FIR)	Bournemouth	6W	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Solent CTA (Class D) by a C172 at 2600ft. Standard separation maintained.	
200806505	20/06/2008	EGTT : London (FIR)	Stansted	8 NE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C152 squawking 7000 at 1400ft. A B737 was broken off approach. Standard separation maintained.	Student pilot later called ATC and apologised for his error.
200806505	20/06/2008	EGTT : London (FIR)	Stansted	8 NE	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a C152 squawking 7000 at 1400ft. A B737 was broken off approach. Standard separation maintained.	Student pilot later called ATC and apologised for his error.

200806529	08/06/2008	EGTT : London (FIR)	Stansted	W	D	CTR	OTHER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a microlight. Traffic info given. Separation lost.	CAA Closure: Pilot has agreed to undertake further navigation training with an instructor.
200806529	08/06/2008	EGTT : London (FIR)	Stansted	W	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a microlight. Traffic info given. Separation lost.	CAA Closure: Pilot has agreed to undertake further navigation training with an instructor.
200806542	21/06/2008	EGTT : London (FIR)	Birmingham	7nm W			OTHER	Reciprocating	1	A/c encountered IMC and inadvertently entered CAS. A/c climbed clear of cloud and radar service given for VMC transit to destination.	
200806549	20/06/2008	EGTT : London (FIR)	North Weald	4W	D	CTA	AERONCA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by an Aeronca squawking 7000 at 1900ft. Pilot had been in receipt of a Farnborough LARS service which had closed.	The Aeronca had previously just called Farnborough for a LARS service which was terminated almost immediately due staffing reasons. Standard separation maintained. Pilot later called apologising, and stating that the error may havebeen caused by a faulty transponder.
200806550	20/06/2008	EGTT : London (FIR)	Wycombe	5 S	A	TMA	ROBINSON	Reciprocating	1	Infringement of the LTMA (Class A) by an R44 squawking 7000 at 3000ft. Pilot was informed of his error, apologised and descended as soon as he could. Standard separation maintained.	

200806570	23/06/2008	EGTT : London (FIR)	White Waltham	SE	A	CTR	CIRRUS	Reciprocating	1	Infringement of the London CTR (Class A) by an SR22 squawking 7000 at 1200ft. Traffic info given. Heathrow departures stopped for approx 3mins. Standard separation maintained.	Operator has spoken to the pilot concerned. It transpiredthat he had planned to avoid the London CTR but, after take-off, changed his mind and asked ATC for a direct routing and transition through the CTR. He then established contact with his destination ATC, assuming that CTR transitionhad been authorised, but this was not the case.☐ CAA Closure: Appropriate advice given concerning pre-flight planning (or, as in this case, sticking with a plan) and the importance of avoiding CAS or confirming that the relevant authorisation has been obtained before entering.
200806586	19/06/2008	EGTT : London (FIR)	Bournemouth	6 W	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a Robin 400 at 1600ft. Standard separation maintained.	
200806646	23/06/2008	EGTT : London (FIR)	Stansted	9 NE	D	CTA	VANS	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Vans RV6 squawking 7000 at 1800ft. Traffic info and avoiding actiongiven. Standard separation maintained.	
200806646	23/06/2008	EGTT : London (FIR)	Stansted	9 NE	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a Vans RV6 squawking 7000 at 1800ft. Traffic info and avoiding actiongiven. Standard separation maintained.	
200806653	23/06/2008	EGTT : London (FIR)	Nottingham East Midlands		D	CTR	PIPER	Reciprocating	1	Infringement of the Nottingham East Midlands CTA (Class D) by a PA28 squawking 7000 at 2000ft. Departures were stopped. A/c then went onto infringe Manchester CTR (Class D) at 3000ft.	Standard separation maintained. Manchester commercial traffic also affected. Pilot was receiving an FIS and incorrectly assumed that this meant he did not need to establish contact with East Midlands or Manchester ATC. A lesson hasbeen learned as a result of this incident.☐ CAA Closure: Appropriate advice given via the DGAC.

200806653	23/06/2008	EGTT : London (FIR)	Nottingham East Midlands		D	CTR	BOEING	Turbofan	2	Infringement of the Nottingham East Midlands CTA (Class D) by a PA28 squawking 7000 at 2000ft. Departures were stopped. A/c then went onto infringe Manchester CTR (Class D) at 3000ft.	Standard separation maintained. Manchester commercial traffic also affected. Pilot was receiving an FIS and incorrectly assumed that this meant he did not need to establish contact with East Midlands or Manchester ATC. A lesson hasbeen learned as a result of this incident.□ CAA Closure: Appropriate advice given via the DGAC.
200806684	24/06/2008	EGTT : London (FIR)	Nottingham East Midlands	5 W	D	CTR	BOEING	Turbofan	2	UK AIRPROX 91/2008 - B757 and a Hughes 500 that had infringed the Nottingham East Midlands CTR (Class D) at 1500ft.Traffic info and avoiding action given to B757.	Standard separation maintained.□ CAA Closure: No further CAA action at this time. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200806684	24/06/2008	EGTT : London (FIR)	Nottingham East Midlands	5 W	D	CTR	HUGHES	Turboshaft	1	UK AIRPROX 91/2008 - B757 and a Hughes 500 that had infringed the Nottingham East Midlands CTR (Class D) at 1500ft.Traffic info and avoiding action given to B757.	Standard separation maintained.□ CAA Closure: No further CAA action at this time. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200806685	23/06/2008	EGTT : London (FIR)	Nottingham	10E	D	CTA	ROBINSON	Reciprocating	1	Infringement of Nottingham East Midlands CTA (Class D) byan R44 at 2100ft squawking 7000.	
200806698	25/06/2008	EGTT : London (FIR)	SITET	S	A		ROCKWELL	Reciprocating	1	Infringement of Class A Airspace at SITET by a Rockwell 114 at FL85. The base of the CAS is FL75. A/c instructed todescend. Standard separation maintained.	

200806700	25/06/2008	EGTT : London (FIR)	Stansted	9 S	A	TMA	CIRRUS	Reciprocating	1	Infringement of the LTMA (Class A) by an SR20 at 2600ft. Traffic info given. Standard separation maintained.

200806733	25/06/2008	EGTT : London (FIR)	Banstead	2N	A	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the London CTR (Class A) by a Robin 400 squawking 7000 at 1900ft. Standard separation maintained.	
200806742	17/06/2008	EGTT : London (FIR)	Ascot		A	CTR	ROBINSON	Reciprocating	1	An R44 was observed inbound to Ascot prior to Royal AscotTemporary procedures coming into force at 0900hrs. R44 inthe Heathrow CTR (Class A) lost separation with a PA24. Traffic info given.	The pilot of the PA24 was instructed to turn Westbound, but responded with standby, and so the controller repeated the instruction with no response. Coordination was effected with Ascot ATC to try and resolve the conflict. When twoway communication was properly established with the PA24,accurate traffic info was passed and the pilot reported visual with the R44.□ CAA Closure: The incident was attributed to the pilot of the R44 entering CAS without a clearance from ATC and was further aggravated by the pilot of thePA24 not maintaining a listening watch during the period of the conflict. Local ATC action has taken place in orderto review the options available to the controller for a more effective resolution and for consideration in TRUCE training.
200806742	17/06/2008	EGTT : London (FIR)	Ascot		A	CTR	PIPER	Reciprocating	1	An R44 was observed inbound to Ascot prior to Royal AscotTemporary procedures coming into force at 0900hrs. R44 inthe Heathrow CTR (Class A) lost separation with a PA24. Traffic info given.	The pilot of the PA24 was instructed to turn Westbound, but responded with standby, and so the controller repeated the instruction with no response. 200807824	20/07/2008	EGTT : London (FIR)	Duxford		G	ATZ	CESSNA	Reciprocating	1	Infringement of the Duxford ATZ (Class G) by a C182. Standard separation maintained.	
200807827	22/07/2008	EGTT : London (FIR)	Mayfield (MAY)		A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA by a PA28 at 3300ft. Traffic info and avoiding action given. Standard separation maintained. STCA activated.	
200807862	20/07/2008	EGTT : London (FIR)	Stansted	5E	D	CTR	OTHER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a microlight squawking 7000 at 1200ft. Traffic info given. Standard separation maintained.	
200807862	20/07/2008	EGTT : London (FIR)	Stansted	5E	D	CTR	HAWKER SIDDELEY	Turbofan	2	Infringement of the Stansted CTR (Class D) by a microlight squawking 7000 at 1200ft. Traffic info given. Standard separation maintained.	

200807866	22/07/2008	EGTT : London (FIR)	Stansted		D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C152 squawking 7000. Traffic info given. Separation lost. Solo student had become lost.	C152 pilot has subsequently flown with an instructor to re-trace the route and identify where any problems may haveoccurred.
200807866	22/07/2008	EGTT : London (FIR)	Stansted		D	CTR	BAE	Turboprop	2	Infringement of the Stansted CTR (Class D) by a C152 squawking 7000. Traffic info given. Separation lost. Solo student had become lost.	C152 pilot has subsequently flown with an instructor to re-trace the route and identify where any problems may haveoccurred.
200807868	19/07/2008	EGTT : London (FIR)	Bristol International		D	CTA	PIPER	Reciprocating	1	Alleged infringement of the Bristol CTA (Class D) by a PA24 at 5000ft receiving a FIS. An inbound A319 was given traffic info and vectors around the PA24.	Pilot believed that the a/c did not infringe. He requested radar traces, however, due to the elapsed time this was not possible.☐ CAA Closure: Unable to reconcile differing reports.
200807868	19/07/2008	EGTT : London (FIR)	Bristol International		D	CTA	AIRBUS	Turbofan	2	Alleged infringement of the Bristol CTA (Class D) by a PA24 at 5000ft receiving a FIS. An inbound A319 was given traffic info and vectors around the PA24.	Pilot believed that the a/c did not infringe. He requested radar traces, however, due to the elapsed time this was not possible.☐ CAA Closure: Unable to reconcile differing reports.
200807877	23/07/2008	EGTT : London (FIR)	M6	N	D	CTR	GROB	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a Grob G115 at 1000ft. Standard separation maintained. A/c being flown by a solo student.	

200807889	24/07/2008	EGTT : London (FIR)	Cardiff (CDF)	8.5 SE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by a C182 squawking 7000 at 3500ft. Standard separation maintained.	
200807934	25/07/2008	EGTT : London (FIR)	Detling (DET)		A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C182 at 4000ft. Traffic info given. Separation lost against a C310.	
200807934	25/07/2008	EGTT : London (FIR)	Detling (DET)		A	TMA	CESSNA	Reciprocating	2	Infringement of the LTMA (Class A) by a C182 at 4000ft. Traffic info given. Separation lost against a C310.	
200807962	25/07/2008	EGTT : London (FIR)	Stansted	5 SW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C150 squawking 7000 at 1100ft. Departures were stopped for approx 3mins. Pilot reported being lost. Standard separation maintained.	
200807964	23/07/2008	EGTT : London (FIR)	Stansted	SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA24 squawking 7000. Avoiding action given. Separation lost.	Appropriate CAA action is to be taken as a result of thisincident.

200807964	23/07/2008	EGTT : London (FIR)	Stansted	SW	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a PA24 squawking 7000. Avoiding action given. Separation lost.	Appropriate CAA action is to be taken as a result of thisincident.
200807965	26/07/2008	EGTT : London (FIR)	London-Gatwick - LGW	7NE	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a Robin 400 at 2300ft. Traffic info and avoiding action given. Standard separation maintained.	Believed a/c had a faulty Mode C transponder readout.
200807965	26/07/2008	EGTT : London (FIR)	London-Gatwick - LGW	7NE	D	CTA	AIRBUS	Turbofan	2	Infringement of the Gatwick CTA (Class D) by a Robin 400 at 2300ft. Traffic info and avoiding action given. Standard separation maintained.	Believed a/c had a faulty Mode C transponder readout.
200807966	26/07/2008	EGTT : London (FIR)	STAFA	10 SE	A	CTR	GROB	Reciprocating	1	Infringement of the Daventry CTA (Class A) and Class A airspace near Brecon by a G109 squawking 7000 at FL60. D&D alerted. Standard separation maintained.	CAA Closure: Pilot understands the consequences of infringing and apologised. Pilot identified a fault in the planning and communication. The importance of planning and speaking with ATC was been re-iterated.
200807967	26/07/2008	EGTT : London (FIR)	REXAM		A	TMA	CIRRUS	Reciprocating	1	Infringement of the Manchester TMA (Class A) by an SR22 at FL65. Standard separation maintained.	

200808006	26/07/2008	EGTT : London (FIR)	Brecon (BCN)	15 W	A		OTHER	Reciprocating	1	Alleged infringement of Airway L9 (Class A) by a microlight squawking 7000 at FL75. Standard separation maintained.	This infringement cannot be confirmed as the a/c's Mode C never rose above FL75. Using the 200ft Mode C tolerance it is possible this a/c did not infringe.
200808055	27/07/2008	EGTT : London (FIR)	London City - LCY	NE	D	CTR	BEAGLE	Reciprocating	1	Infringement of the London City CTR (Class D) by a Beagle121 at 1500ft. Standard separation maintained.	
200808059	27/07/2008	EGTT : London (FIR)	Burnham	NW	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C172 squawking 7000 at 2200ft. Heathrow departures were stopped for several minutes. Standard separation maintained.	CAA Closure: Pilot understands why the infringement took place and has taken the appropriate action of double checking his flight plan, obtaining the necessary instruments to minimise the risk of this error repeating and purchasing a GPS.
200808061	27/07/2008	EGTT : London (FIR)	Vicinity Barkway VOR		A	TMA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) and the LTMA (Class A) by a PA28 squawking 7000 at 3900ft. Separation maintained.	Investigations revealed that the a/c climbed to operating altitude too early due to a navigation error. □ CAA Closure: Pilot has agreed to undertake remedial navigation training.
200808064	27/07/2008	EGTT : London (FIR)	Biggin (BIG)	8 SE	A	TMA	AVIONS ROBIN	Reciprocating	1	Infringement of the LTMA (Class A) by a Robin 400 at 2900ft. Standard separation maintained.	

200808066	28/07/2008	EGTT : London (FIR)	Lymington	2N	D	CTR	CESSNA	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a C150 at 1600ft. Standard separation maintained. Avoiding action given by Bournemouth ATC as a result of this infringement.	Pilot subsequently discussed incident with ATC.
200808066	28/07/2008	EGTT : London (FIR)	Lymington	2N	D	CTR	BOEING	Turbofan	2	Infringement of the Bournemouth CTR (Class D) by a C150 at 1600ft. Standard separation maintained. Avoiding action given by Bournemouth ATC as a result of this infringement.	Pilot subsequently discussed incident with ATC.
200808068	28/07/2008	EGTT : London (FIR)	Hawarden	4 SSE	A	CTR	CESSNA	Reciprocating	1	Infringement of Class A airspace by a C152 squawking 7000at 4300ft. Standard separation maintained.	
200808069	27/07/2008	EGTT : London (FIR)	Southampton (SAM)	6 SW	D	CTR	BELL	Turboshaft	1	Infringement of the Southampton CTR (Class D) by a Bell 206 at 2100ft. Standard separation maintained.	
200808108	23/07/2008	EGTT : London (FIR)	Larkhill	4W of Boscombe Down	G	Danger area	PIPER	Reciprocating	1	Infringement of Danger Area EG D125 (Larkhill) by a PA28 squawking 7000 at 1900ft. Military activity had ceased a few minutes earlier.	

200808109	23/07/2008	EGTT : London (FIR)	Syerston		G	ATZ	CESSNA	Reciprocating	1	Infringement of the Syerston ATZ (Class G) Gliding Site by C150 at 1500ft.	Student pilot attempting a qualifying cross-country. No gliders being winch launched at the time. Student's CFI informed.
200808162	29/07/2008	EGTT : London (FIR)	Luton (LUT)	12 W	D	CTA	PIPER	Reciprocating	1	Infringement of the Luton CTA (Class D) by a PA28. Standard separation maintained. Incorrect QNH set.	CAA Closure: Pilot acknowledges need for care.
200808163	29/07/2008	EGTT : London (FIR)	Brookmans Park (BPK)	5N	D	CTA	OTHER	Reciprocating	1	Infringement of the Luton CTA (Class D) by a microlight squawking 7000 at 3000ft. Traffic info given. Numerous inbound a/c required re-routing. Standard separation maintained.	Pilot unable to account for vertical infringement on a frequently flown route. However, transponder type known to have produced intermittent returns in other aircraft.☐ CAAClosure: Pilot has agreed to make better use of ATC facilities available in the vicinity of controlled airspace
200808221	27/07/2008	EGTT : London (FIR)	Portsmouth		G	Restrictedd area	LUSCOMBE	Reciprocating	1	UK AIRPROX 108/2008 - Harvard Texan AT6 and a Luscombe 8Fin the Portsmouth Harbour area at 1500ft.	During Air Display as Harvard initiated its first manoeuvre, a loop at approximately 800ft and at 50-60deg nose up,it observed a Luscombe above and to the left. Pilot assessed the situation and continued the loop remaining visual with the Luscombe. Harvard stopped its display until assured the area was clear.☐ CAA Closure: Luscombe pilot entered a NOTAMed air display area and flew into conflict with the Harvard, which he did not see. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200808221	27/07/2008	EGTT : London (FIR)	Portsmouth		G	Restrictedd area	NORTH AMERICAN	Reciprocating	1	UK AIRPROX 108/2008 - Harvard Texan AT6 and a Luscombe 8Fin the Portsmouth Harbour area at 1500ft.	During Air Display as Harvard initiated its first manoeuvre, a loop at approximately 800ft and at 50-60deg nose up,it observed a Luscombe above and to the left. Pilot assessed the situation and continued the loop remaining visual with the Luscombe. Harvard stopped its display until assured the area was clear.☐ CAA Closure: Luscombe pilot entered a NOTAMed air display area and flew into conflict with the Harvard, which he did not see. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).

200808237	30/07/2008	EGTT : London (FIR)	Stansted	10SE	D	CTR	VANS	Reciprocating	1	Infringement of the Stansted CTR (Class D) and then the LTMA by a Vans RV8 squawking 7000 at 2700ft climbing to 4800ft. Standard separation maintained.	
200808238	30/07/2008	EGTT : London (FIR)	London-Gatwick - LGW	10E	D	CTR	PIPER	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a PA28 at 2000ft. Departures were stopped. Standard separation maintained.	Solo student. Appropriate remedial action taken by instructor.
200808265	31/07/2008	EGTT : London (FIR)	Manchester (MCT)		D	CTR	CESSNA	Reciprocating	1	Infringement of Manchester CTR (Class D) and Liverpool CAS by a solo student in a C152. An inbound B737 was given traffic info and avoiding action. Standard separation maintained.	A 7366 squawk was observed entering the Manchester CTR (Class D). ATC made several blind calls to try and contact the a/c without success. A/c continued through R/W05L approach resulting in a DHC8 being broken off the approach. ATCcontinued to try and raise the a/c and called Barton who advised they suspected it to be a solo student, possibly lost and attempting to return to Barton. A/c was monitored and observed infringing Liverpool CAS, before establishingRT contact. Another inbound a/c, a B737, was given avoiding vectors. On establishing contact, a/c was identified and given advisory VFR headings away from Liverpool and subsequently direct to Barton, where a/c landed safely. Pilot,whose planning was inadequate, encountered reduced visibility en-route.☐ CAA Closure: Pilot attended additional navigation ground school and completed navigational flying exercises.
200808265	31/07/2008	EGTT : London (FIR)	Manchester (MCT)		D	CTR	BOEING	Turbofan	2	Infringement of Manchester CTR (Class D) and Liverpool CAS by a solo student in a C152. An inbound B737 was given traffic info and avoiding action. Standard separation maintained.	A 7366 squawk was observed entering the Manchester CTR (Class D). ATC made several blind calls to try and contact the a/c without success. A/c continued through R/W05L approach resulting in a DHC8 being broken off the approach. ATCcontinued to try and raise the a/c and called Barton who advised they suspected it to be a solo student, possibly lost and attempting to return to Barton. A/c was monitored and observed infringing Liverpool CAS, before establishingRT contact. Another inbound a/c, a B737, was given avoiding vectors. On establishing contact, a/c was identified and given advisory VFR headings away from Liverpool and subsequently direct to Barton, where a/c landed safely. Pilot,whose planning was inadequate, encountered reduced visibility en-route.☐ CAA Closure: Pilot attended additional navigation ground school and completed navigational flying exercises.
200808307	31/07/2008	EGTT : London (FIR)	Bristol	SW	D	CTA	GROB	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a Grob G115 at FL42. Standard separation maintained.	

200808344	02/08/2008	EGTT : London (FIR)	Birmingham		D	CTR	GROB	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a Grob G115 squawking 7000 at 1100ft. Traffic info given. Standard separation maintained.	Pilot later spoke with ATC and stated that he had been avoiding weather.
200808346	02/08/2008	EGTT : London (FIR)	Stansted	8NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 at 1900ft. B737 on initial climb vectored before SID turning point and climbed to 5000ft early. Standard separation maintained.	CAA Closure: CFI has de-briefed his student fully and thenecessary actions of further training have been taken.
200808346	02/08/2008	EGTT : London (FIR)	Stansted	8NE	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 at 1900ft. B737 on initial climb vectored before SID turning point and climbed to 5000ft early. Standard separation maintained.	CAA Closure: CFI has de-briefed his student fully and thenecessary actions of further training have been taken.
200808347	20/07/2008	EGTT : London (FIR)	Puckeridge	2SE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C172 squawking 7000. Standard separation maintained.	
200808348	03/08/2008	EGTT : London (FIR)	Southampton (SAM)	7.5S	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Southampton CTR (Class D) by an unidentified R44 squawking 7000. Departures were stopped. Standard separation maintained.	

200808446	04/08/2008	EGTT : London (FIR)	Nottingham East Midlands	10SE	D	CTA	PIEL	Reciprocating	1	Infringement of the Nottingham East Midlands CTA (Class D) by a CP301 at 2100ft. Standard separation maintained.	
200808499	04/08/2008	EGTT : London (FIR)	Rochester		G	ATZ	PIPER	Reciprocating	1	Infringement of the Rochester ATZ (Class G) by six a/c flying in formation at 1400ft.	The a/c are also believed to have infringed the Stapleford ATZ.
200808499	04/08/2008	EGTT : London (FIR)	Rochester		G	ATZ	STAMPE	Reciprocating	1	Infringement of the Rochester ATZ (Class G) by six a/c flying in formation at 1400ft.	The a/c are also believed to have infringed the Stapleford ATZ.
200808513	04/08/2008	EGTT : London (FIR)	Fleetlands		G	ATZ	ROBINSON	Reciprocating	1	Infringement of the Fleetlands ATZ (Class G) and the Lee on Solent ATZ (Class G) by an R44 at an estimated 1200ft.	Pilot was later reminded that he must call before entering the ATZ.
200808563	08/08/2008	EGTT : London (FIR)	Southampton (SAM)	7.3SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a PA28 squawking 7000. Standard separation maintained.	

200808601	08/08/2008	EGTT : London (FIR)	Redhill	2S	D	CTR	PIPER	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a PA28 squawking 7000 at 1000ft. Loss of separation with three commercial airliners. Avoiding action given.	CAA Closure: Numerous attempts to contact the operator both by the CAA and NATS have been unsuccessful. No further CAA action considered practical.
200808601	08/08/2008	EGTT : London (FIR)	Redhill	2S	D	CTR	BOEING	Turbofan	2	Infringement of the Gatwick CTR (Class D) by a PA28 squawking 7000 at 1000ft. Loss of separation with three commercial airliners. Avoiding action given.	CAA Closure: Numerous attempts to contact the operator both by the CAA and NATS have been unsuccessful. No further CAA action considered practical.
200808602	08/08/2008	EGTT : London (FIR)	Southampton (SAM)	7SSW	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a DR400 at 1000ft. Standard separation maintained.	
200808602	08/08/2008	EGTT : London (FIR)	Southampton (SAM)	7SSW	D	CTR	PIPER	Reciprocating	2	Infringement of the Southampton CTR (Class D) by a DR400 at 1000ft. Standard separation maintained.	
200808693	12/08/2008	EGTT : London (FIR)	Southampton (SAM)		D	CTR	PIPER	Reciprocating	1	Infringement of Southampton CTR (Class D) by a PA28 at 1800ft. Two DHC8 broken off approach. Traffic info given. Standard separation maintained.	CAA Closure: The PIC was not a student at the time of theinfringement but relatively inexperienced to be flying insuch weather conditions. No licensing action required.

200808693	12/08/2008	EGTT : London (FIR)	Southampton (SAM)		D	CTR	DE HAVILLAND	Turboprop	2	Infringement of Southampton CTR (Class D) by a PA28 at 1800ft. Two DHC8 broken off approach. Traffic info given. Standard separation maintained.	CAA Closure: The PIC was not a student at the time of theinfringement but relatively inexperienced to be flying insuch weather conditions. No licensing action required.
200808747	11/08/2008	EGTT : London (FIR)	EGHI (SOU): Southampton	9 N	D	CTR	MOONEY	Reciprocating	1	M20P at 2200ft allegedly infringed the Solent CTA (Class D) and lost separation with a DHC8 inbound to Southampton.DHC8 was given avoiding action.	CAA Closure: No further CAA action possible due to the elapsed time involved.
200808747	11/08/2008	EGTT : London (FIR)	EGHI (SOU): Southampton	9 N	D	CTR	DE HAVILLAND	Turboprop	2	M20P at 2200ft allegedly infringed the Solent CTA (Class D) and lost separation with a DHC8 inbound to Southampton.DHC8 was given avoiding action.	CAA Closure: No further CAA action possible due to the elapsed time involved.
200808753	13/08/2008	EGTT : London (FIR)	Stansted		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 2000ft. A Stansted departure on a Dover SID was put on R/W heading until PA28 left the zone. Standard separation maintained.	
200808753	13/08/2008	EGTT : London (FIR)	Stansted		D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA28 at 2000ft. A Stansted departure on a Dover SID was put on R/W heading until PA28 left the zone. Standard separation maintained.	

200808788	13/08/2008	EGTT : London (FIR)	Westcott (WCO)		A	TMA	ROBINSON	Reciprocating	1	Alleged infringement of the LTMA (Class A) by an R44 indicating FL89. R44 originally routing to Oxford, rerouted back to its departure airfield. Standard separation maintained.	
200808809	14/08/2008	EGTT : London (FIR)	Dunstable	2 NW	D	CTR	GROB	Reciprocating	1	Infringement of the Luton CTR (Class D) by a G115 that also flew through the Dunstable Downs glider site. All Lutondepartures were suspended until G115 left CAS. Standard separation maintained.	CAA Closure: The instructor made a series of vigorous turns to correct a track error. Unbeknown to the crew, the main compass then became desynchronised by approximately 40 degrees. Consequently in the practice diversion which immediately followed the heading flown was grossly in error. This led to the misidentification of ground features and the inadvertent infringement of Luton CAS.
200808825	14/08/2008	EGTT : London (FIR)	Coventry	3 SW	D	CTA	PIPER	Reciprocating	1	PA28 infringed the Birmingham CTA (Class D). Standard separation was maintained. Pilot phoned and apologised for the incident. The pilot had misread his chart.	The pilot subsequently stated to ATC that he had a sticker on the chart blocking the 1500ft numbers and thus flew at 2000ft and into CAS.
200808825	14/08/2008	EGTT : London (FIR)	Coventry	3 SW	D	CTA	FOKKER	Turbofan	2	PA28 infringed the Birmingham CTA (Class D). Standard separation was maintained. Pilot phoned and apologised for the incident. The pilot had misread his chart.	The pilot subsequently stated to ATC that he had a sticker on the chart blocking the 1500ft numbers and thus flew at 2000ft and into CAS.
200808834	07/08/2008	EGTT : London (FIR)	Old Warden		A	TMA	DIAMOND	Reciprocating	1	Alleged infringement of the LTMA (Class A) by a DA40 at 4400ft. Standard separation maintained.	

200808837	15/08/2008	EGTT : London (FIR)	Southampton (SAM)	6.5 N	D	CTR	PIPER	Reciprocating	1	Boscombe Down advised Southampton that a PA28 was about to infringe their airspace. PA28 entered CAS and then turned Westbound to leave CAS. Standard separation maintained.	
200808855	16/08/2008	EGTT : London (FIR)	Northwood		A	CTR	PIPER	Turboprop	1	Infringement of the Heathrow CTR (Class A) and the DenhamATZ (Class G) by a PA46 at 2000ft. Heathrow Northbound departures suspended.	Appropriate CAA action is being taken as a result of thisincident. FAA advised.
200808860	16/08/2008	EGTT : London (FIR)	Banstead	1 N	A	CTR	GRUMMAN	Reciprocating	1	Infringement of the London CTR (Class A) by an AA5A. AA5Awas instructed to turn South to leave CAS. Standard separation maintained.	
200808869	17/08/2008	EGTT : London (FIR)	Windsor		A	CTR	PIPER	Reciprocating	1	Infringement of Heathrow CTR (Class A) by a PA38 at 1500ft. Heathrow departures were stopped for approximately 10 mins.	Appropriate CAA action is being taken as a result of thisincident.
200808873	15/08/2008	EGTT : London (FIR)	Stansted		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) and the Luton Zone (Class D) by a PA28 at 2400ft. Two outbound a/c were turned off their SIDs to maintain separation.	Investigation ascertained that this was the PA28 pilot's first flight since passing PPL. Pilot mis-identified her location and subsequently departed from heading.☐ CAA Closure: Pilot advised of D&D and is to undergo further navigational training with an instructor. The consequences of infringing CAS and the importance of accurate planning have been re-iterated.

200808874	15/08/2008	EGTT : London (FIR)	London City - LCY	12 E	A	TMA	OTHER	Reciprocating	1	Loss of separation between an RJ100 and an MCR01 that infringed the LTMA (Class A) at 3000ft. Traffic info and avoiding action given.	CAA Closure: The pilot has responded directly to NATS and is aware of his errors. The pilot failed to change from the Redhill QFE to QNH and climbed too early and into the LTMA. The appropriate lessons appear to have been learnt.
200808874	15/08/2008	EGTT : London (FIR)	London City - LCY	12 E	A	TMA	BAE	Turbofan	4	Loss of separation between an RJ100 and an MCR01 that infringed the LTMA (Class A) at 3000ft. Traffic info and avoiding action given.	CAA Closure: The pilot has responded directly to NATS and is aware of his errors. The pilot failed to change from the Redhill QFE to QNH and climbed too early and into the LTMA. The appropriate lessons appear to have been learnt.
200808883	15/08/2008	EGTT : London (FIR)	Stansted	W	D	CTR	OTHER	Reciprocating	1	Microlight infringed the Stansted CTR (Class D) and lost separation with an outbound A321, which was given traffic info. Avoiding action given. A319 reported visual with the infringer.	
200808883	15/08/2008	EGTT : London (FIR)	Stansted	W	D	CTR	AIRBUS	Turbofan	2	Microlight infringed the Stansted CTR (Class D) and lost separation with an outbound A321, which was given traffic info. Avoiding action given. A319 reported visual with the infringer.	
200808885	15/08/2008	EGTT : London (FIR)	Stansted	E	D	CTR	CESSNA	Reciprocating	1	C152 infringed the Stansted CTR (Class D) and lost separation with two inbound a/c. The JS41 was given traffic info and both a/c elected to continue approach.	CAA Closure: The pilot's CFI has debriefed her and arranged further appropriate navigation training.

200808885	15/08/2008	EGTT : London (FIR)	Stansted	E	D	CTR	BAE	Turboprop	2	C152 infringed the Stansted CTR (Class D) and lost separation with two inbound a/c. The JS41 was given traffic infoand both a/c elected to continue approach.	CAA Closure: The pilot's CFI has debriefed her and arranged further appropriate navigation training.
200808966	16/08/2008	EGTT : London (FIR)	Nottingham East Midlands	5 N	D	CTR	SLINGSBY	Reciprocating	1	Infringement of the Nottingham East Midlands CTR/CTA (Class D) by a T67 unsure of its position. Navigational assistance was given to T67 through the zone and back to airfield of departure.	
200809008	19/08/2008	EGTT : London (FIR)	Southampton (SAM)	7 NW	D	CTA	AEROSPATIALE	Turboshaft	1	Infringement of the Solent CTA (Class D) by an AS350 at 1900ft. Standard separation maintained with an EMB190 inbound to Southampton.	
200809008	19/08/2008	EGTT : London (FIR)	Southampton (SAM)	7 NW	D	CTA	EMBRAER	Turbofan	2	Infringement of the Solent CTA (Class D) by an AS350 at 1900ft. Standard separation maintained with an EMB190 inbound to Southampton.	
200809036	17/08/2008	EGTT : London (FIR)	Nottingham East Midlands	8 NE	D	CTA	VANS	Reciprocating	1	Infringement of Nottingham East Midlands CTR (Class D) bya Vans RV9 at 1800ft. Avoiding action given to a B737 on approach. Standard separation maintained.	Pilot believed that he remained under CAS, but ATC reportadvised differently. It was concluded that the pilot climbed too early.☐ CAA Closure: Pilot recommended to plan hisroutes with a larger margin below CAS to allow enough height to rectify any mistakes.

200809036	17/08/2008	EGTT : London (FIR)	Nottingham East Midlands	8 NE	D	CTA	BOEING	Turbofan	2	Infringement of Nottingham East Midlands CTR (Class D) by a Vans RV9 at 1800ft. Avoiding action given to a B737 on approach. Standard separation maintained.	Pilot believed that he remained under CAS, but ATC report advised differently. It was concluded that the pilot climbed too early.☐ CAA Closure: Pilot recommended to plan his routes with a larger margin below CAS to allow enough height to rectify any mistakes.
200809061	21/08/2008	EGTT : London (FIR)	London-Gatwick - LGW	9 E	D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a Cessna 182. An A319 was broken off finals. Traffic info given. Standard separation maintained.	
200809061	21/08/2008	EGTT : London (FIR)	London-Gatwick - LGW	9 E	D	CTR	AIRBUS	Turbofan	2	Infringement of the Gatwick CTR (Class D) by a Cessna 182. An A319 was broken off finals. Traffic info given. Standard separation maintained.	
200809087	20/08/2008	EGTT : London (FIR)	Southend (SND)	N	A	TMA	PIPER	Reciprocating	1	Alleged infringement of the LTMA (Class A) by a PA28. Stansted CLN departures were stopped as a precaution. Standard separation maintained.	The return indicated 6400ft but the pilot later claimed that he never went above 3500ft. Subsequent ATC investigation suggests a probable transponder malfunction. Pilot advised
200809126	21/08/2008	EGTT : London (FIR)	Bournemouth		D	CTR	CESSNA	Reciprocating	1	C152 on a qualifying cross country experienced a radio problem and infringed the Bournemouth CTR (Class D). Traffic info and avoiding action given on C152. Standard separation maintained.	When C152 pilot did call ATC, it was suggested that they land at Bournemouth.

200809135	21/08/2008	EGTT : London (FIR)	Bristol International	Sedgemoor Services VRP	D	CTA	SOCATA	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a TB10 at 3500ft. Pilot advised of the infringement and apologised forthe error. No other traffic was affected by this incident.	
200809137	21/08/2008	EGTT : London (FIR)	London-Gatwick - LGW	6 E	D	CTR	ROBINSON	Reciprocating	1	Unknown helicopter infringed the Gatwick CTR (Class D) and lost separation with an inbound B737, which was given traffic info and broken off the ILS. Unknown was subsequently identified as an R44.	CAA Closure: Pilot with low hours distracted by pax. Pilot very apologetic, appropriate advice given.
200809137	21/08/2008	EGTT : London (FIR)	London-Gatwick - LGW	6 E	D	CTR	BOEING	Turbofan	2	Unknown helicopter infringed the Gatwick CTR (Class D) and lost separation with an inbound B737, which was given traffic info and broken off the ILS. Unknown was subsequently identified as an R44.	CAA Closure: Pilot with low hours distracted by pax. Pilot very apologetic, appropriate advice given.
200809146	22/08/2008	EGTT : London (FIR)	Damyns Hall	3 E	A	TMA	GRUMMAN	Reciprocating	1	AG5B at 3600ft called ATC and issued with a squawk. AG5B was identified and informed it was infringing the LTMA (Class A) and to descend to 2400ft to leave CAS, which AG5B complied with.	Standard separation maintained.
200809157	23/08/2008	EGTT : London (FIR)	Stansted	9.3 NNE	D	CTA	PIPER	Reciprocating	1	PA28 at 2300ft infringed Stansted CTA (Class D) and traffic info was given to an inbound a/c. PA28 called ATC and issued a squawk, which was observed inside CAS. PA28 told to descend to below 1500ft.	Standard separation maintained.

200809159	24/08/2008	EGTT : London (FIR)	London-Gatwick - LGW	10 S	D	CTA	CESSNA	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a C182 at 2000ft. No other traffic affected. Standard separation maintained.	
200809160	23/08/2008	EGTT : London (FIR)	Stansted	8 NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 2200ft. An inbound B737 was given traffic info and vectors around the PA28. Standard separation maintained.	
200809160	23/08/2008	EGTT : London (FIR)	Stansted	8 NE	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA28 at 2200ft. An inbound B737 was given traffic info and vectors around the PA28. Standard separation maintained.	
200809227	26/08/2008	EGTT : London (FIR)	Denham	4 W	A	CTR	ROBINSON	Reciprocating	1	Infringement of the London CTR (Class A) by an R44. Heathrow northbound departures were stopped until the R44 left CAS. Standard separation maintained.	The pilot on his third solo flight has been alerted to this incident. He believes that he flew further South than intended due in part to a compass error and possibly to the wind being different to that planned. He may also have mistaken Beaconsfield for High Wycombe. Appropriate lessons appear to have been learnt.
200809229	26/08/2008	EGTT : London (FIR)	Luton (LUT)	8 NE	D	CTR	SOCATA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a TB10 which entered NE corner of CAS tracking South. Inbound a/c were delayed until TB10 had cleared centreline for R/W26. Standard separation maintained.	The pilot accepts that the incident resulted from a poor display of airmanship. The incident has been discussed with ATC and appropriate lessons appear to have been learnt.

200809229	26/08/2008	EGTT : London (FIR)	Luton (LUT)	8 NE	D	CTR	GULFSTREAM	Turbofan	2	Infringement of the Luton CTR (Class D) by a TB10 which entered NE corner of CAS tracking South. Inbound a/c were delayed until TB10 had cleared centreline for R/W26. Standard separation maintained.	The pilot accepts that the incident resulted from a poor display of airmanship. The incident has been discussed with ATC and appropriate lessons appear to have been learnt.
200809230	25/08/2008	EGTT : London (FIR)	Stansted	E	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 1700ft. An inbound A300 was given vectors to ensure separation was maintained.	
200809230	25/08/2008	EGTT : London (FIR)	Stansted	E	D	CTA	AIRBUS	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA28 at 1700ft. An inbound A300 was given vectors to ensure separation was maintained.	
200809319	28/08/2008	EGTT : London (FIR)	Bournemouth	NNE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a C152 at 2000ft. Avoiding action given. Standard separation maintained.	
200809395	29/08/2008	EGTT : London (FIR)	Romsey	2N	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 1900ft. Traffic info given. Standard separation maintained.	Student pilot capacity overload on solo cross-county flight. Suspect mistaken interpretation of NPPL training syllabus by the instructor.☐ CAA Closure: Student subsequently debriefed accordingly.

200809396	27/08/2008	EGTT : London (FIR)	London-Gatwick - LGW	5.4 NW	D	CTR	PIPER	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a PA28 squawking 7000 at 800ft. Departures were stopped for 4mins. Standard separation maintained.	Pilot misidentified Dorking for Reigate, which resulted in infringement.☐ CAA Closure: The importance of accurate navigation was emphasised to the pilot who has been referred to an instructor to discuss any issues with navigation that he may have.
200809398	22/08/2008	EGTT : London (FIR)	London City - LCY	5 NNE	D	CTR	CIRRUS	Reciprocating	1	Infringement of the London City CTR (Class D) by an SR22 at 2300ft. Traffic info given. Standard separation maintained.	
200809400	30/08/2008	EGTT : London (FIR)	Woodley (WOD)	S	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 at 3300ft. Traffic info given. Standard separation maintained.	
200809400	30/08/2008	EGTT : London (FIR)	Woodley (WOD)	S	A	TMA	AIRBUS	Turbofan	2	Infringement of the LTMA (Class A) by a PA28 at 3300ft. Traffic info given. Standard separation maintained.	
200809401	30/08/2008	EGTT : London (FIR)	Stansted	5 E	D	CTR	NORTH AMERICAN	Reciprocating	1	Alleged infringement of the Stansted CTR (Class D) by a Harvard. Loss of standard separation.	Pilot later called and apologised for error.☐ CAA Closure: Appropriate CAA action is to be taken as a result of this infringement.

200809401	30/08/2008	EGTT : London (FIR)	Stansted	5 E	D	CTR	UNKNOWN	Unknown		Alleged infringement of the Stansted CTR (Class D) by a Harvard. Loss of standard separation.	Pilot later called and apologised for error.□ CAA Closure: Appropriate CAA action is to be taken as a result of this infringement.
200809402	30/08/2008	EGTT : London (FIR)	Southampton (SAM)		D	CTA	PIPER	Reciprocating	1	Infringement of the Southampton CTA (Class D) by a PA28 at 1800ft. Traffic info and avoiding action given. Standardseparation maintained.	CAA Closure: Despite several attempts, no response forthcoming from PA28 owner. No further action possible.
200809402	30/08/2008	EGTT : London (FIR)	Southampton (SAM)		D	CTA	BAE	Turboprop	2	Infringement of the Southampton CTA (Class D) by a PA28 at 1800ft. Traffic info and avoiding action given. Standardseparation maintained.	CAA Closure: Despite several attempts, no response forthcoming from PA28 owner. No further action possible.
200809404	30/08/2008	EGTT : London (FIR)	Woodley (WOD)	6N	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA32 at 3000ft. Standard separation maintained.	
200809405	31/08/2008	EGTT : London (FIR)	London City - LCY	4 N	D	CTR	GRUMMAN	Reciprocating	1	Infringement of the London City CTR (Class D) by an AA5A.Avoiding action given. Standard separation maintained.	

200809448	01/09/2008	EGTT : London (FIR)	Calshot VRP NW		D	CTR	CESSNA	Reciprocating	1	Alleged infringement of the Southampton CTR (Class D) by a C182 at 400ft. Departures were stopped. Standard separation maintained.	
200809506	02/09/2008	EGTT : London (FIR)	D036		G		SOCATA	Reciprocating	1	Alleged infringement of Danger Area EG D036 by a TB20 at 2000ft receiving an FIS. Standard separation maintained.	
200809543	30/08/2008	EGTT : London (FIR)	Exeter		G	ATZ	ROBINSON	Reciprocating	1	Alleged infringement of the Exeter ATZ (Class G) by an R22 at 500ft, transiting through active R/W08 approach approximately 1.5nm West of the aerodrome.	
200809544	01/09/2008	EGTT : London (FIR)	Southend (SND)		G	ATZ	BEECH	Reciprocating	1	Infringement of the Southend ATZ (Class G) by a BE33 at 1500ft. Standard separation maintained.	
200809558	03/09/2008	EGTT : London (FIR)	Stansted		D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C150 at 2400ft, resulting in a loss of separation against two inbound a/c.	CAA Closure: C150 pilot subsequently contacted ATC. Appropriate advice given.

200809558	03/09/2008	EGTT : London (FIR)	Stansted		D	CTA	AIRBUS	Turbofan	2	Infringement of the Stansted CTA (Class D) by a C150 at 2400ft, resulting in a loss of separation against two inbound a/c.	CAA Closure: C150 pilot subsequently contacted ATC. Appropriate advice given.
200809776	08/09/2008	EGTT : London (FIR)	GARMI		G	Danger area	CESSNA	Reciprocating	1	C172 entered Danger Area D036 without clearance. A/c permitted to transit due no activity at the time. Pilot apologised for his error.	Pilot initially contacted LACC FIS 5nm South of GARMI andwas advised that the Danger Area was active. A/c subsequently infringed the Danger Area whilst the FIS were communicating with the Military ATC regarding its current status.
200809836	06/08/2008	EGTT : London (FIR)	Stansted	5NE	D	CTR	AVIONS ROBIN	Reciprocating	1	Alleged infringement of the Stansted CTR (Class D) by a Robin DR400. Standard separation maintained.	
200809880	10/09/2008	EGTT : London (FIR)	Manchester (MCT)	13NE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a C150 squawking 7000. Standard separation maintained.	
200809921	03/09/2008	EGTT : London (FIR)	Birmingham		D	CTA	BEECH	Reciprocating	1	Infringement of Birmingham CTA (Class D) by a BE36 at FL45. Pilot was instructed to remain clear of the CTA. Standard separation maintained.	

200809972	13/09/2008	EGTT : London (FIR)	Cardiff (CDF)	N	D	CTA	PIPER	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by a PA38 at FL52.	Standard separation maintained.☐ CAA Closure: Despite several attempts, no response forthcoming from PA38 owner. However, he was briefed by ATC at the time and was very apologetic.
200809996	14/09/2008	EGTT : London (FIR)	Stansted	12SW	D	CTA	OTHER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by an EV97. Traffic info given. Standard separation maintained.	
200809996	14/09/2008	EGTT : London (FIR)	Stansted	12SW	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by an EV97. Traffic info given. Standard separation maintained.	
200810008	13/09/2008	EGTT : London (FIR)	Berry Head (BHD) - TINAN		A		GRUMMAN	Reciprocating	1	Infringement of UN864 between BHD and TINAN by an AA5 at FL75.	Standard separation maintained. AA5 pilot distracted while avoiding IMC.☐ CAA Closure: Pilot identified his errors and is due to undertake further IMC training with an instructor.
200810011	13/09/2008	EGTT : London (FIR)	Thelwall	3 E	D	CTR	CESSNA	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a C172, 3nm East of Thelwall. Departures stopped.	Standard separation maintained. Investigation establishedthat the pilot was undertaking an aerial survey of the ship canal. He had informed Liverpool ATC of the proposed routeing but, once airborne, realised that the routeing was taking him further to the East than he had originally anticipated. The pilot was aware that he had infringed, changed his squawk to 7000 and spoke to Manchester.☐ CAA Closure: The pilot will now plan more carefully, comparing his computer-planned route to the chart. He will always use ModeC.

200810069	14/09/2008	EGTT : London (FIR)	London-Gatwick - LGW		D	CTA	EUROPA	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by an Europa 912 at 2400ft. Standard separation maintained.	
200810080	13/09/2008	EGTT : London (FIR)	Nottingham East Midlands	12SE	D	CTA	ROBINSON	Reciprocating	1	Infringement of the Nottingham East Midlands CTA (Class D) by an R22 at 2300ft. Standard separation maintained.	
200810092	16/09/2008	EGTT : London (FIR)	London-Gatwick - LGW	6W	D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a C152 at 1100ft. Traffic info and avoiding action given. Separation lost.	Student on a solo cross country flight.☐ CAA Closure: CFto ensure that student conducts several dual navigation flights in this region.
200810092	16/09/2008	EGTT : London (FIR)	London-Gatwick - LGW	6W	D	CTR	BOEING	Turbofan	2	Infringement of the Gatwick CTR (Class D) by a C152 at 1100ft. Traffic info and avoiding action given. Separation lost.	Student on a solo cross country flight.☐ CAA Closure: CFto ensure that student conducts several dual navigation flights in this region.
200810099	13/09/2008	EGTT : London (FIR)	Bournemouth	6W	D	CTR	CESSNA	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a C172. Standard separation maintained.	Pilot subsequently called ATC to apologise.

200810124	28/08/2008	EGTT : London (FIR)	Fleetlands		G	ATZ	PIPER	Reciprocating	1	Infringement of the Fleetlands ATZ by a PA28 at approx 800ft. A/c routed through the ATZ during hours of service without contacting AFISO.	
200810176	17/09/2008	EGTT : London (FIR)	Stansted		D	CTR	ROBINSON	Reciprocating	1	Infringement of the Stansted CTR (Class D) by an R22 on aNAVEX as pilot had become unsure of their position. Stansted traffic was disrupted, but standard separation maintained.	
200810181	14/09/2008	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	DIAMOND	Reciprocating	1	Infringement of Biggin Hill ATZ (Class G) by a DA40 squawking 7000 that did not call ATC. LJ45 departing Biggin Hill received and responded to a TCAS RA climb.	
200810181	14/09/2008	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	LEARJET	Turbofan	2	Infringement of Biggin Hill ATZ (Class G) by a DA40 squawking 7000 that did not call ATC. LJ45 departing Biggin Hill received and responded to a TCAS RA climb.	
200810203	08/09/2008	EGTT : London (FIR)	Rufforth		D	CTR	OTHER	Reciprocating	1	Infringement of the Doncaster CTR (Class D) by a motor glider, 5nm Northwest of Doncaster Sheffield. B737 on ILS approach R/W20 given traffic info and avoiding action.	ATC contacted the gliding instructor, who advised that the student was on first solo cross-country flight, became disorientated and returned to the airfield. Instructor apologised for the infringement.

200810203	08/09/2008	EGTT : London (FIR)	Rufforth		D	CTR	BOEING	Turbofan	2	Infringement of the Doncaster CTR (Class D) by a motor glider, 5nm Northwest of Doncaster Sheffield. B737 on ILS approach R/W20 given traffic info and avoiding action.	ATC contacted the gliding instructor, who advised that the student was on first solo cross-country flight, became disorientated and returned to the airfield. Instructor apologised for the infringement.
200810274	18/09/2008	EGTT : London (FIR)	Bembridge		A		CIRRUS	Reciprocating	1	Infringement of Airway L980 (Class A) by an SR22 at FL105. Standard separation maintained.	
200810279	20/09/2008	EGTT : London (FIR)	Luton (LUT)	8 SE	D	CTR	BEAGLE	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Beagle 121 squawking 7000. Traffic info given. A320 broken off approach. Separation lost.	The pilot was very apologetic. He had misidentified Stevenage and was not familiar with the area.☐ CAA Closure: Thepilot has been reminded of the serious consequences of infringing CAS, with appropriate advice given.
200810279	20/09/2008	EGTT : London (FIR)	Luton (LUT)	8 SE	D	CTR	AIRBUS	Turbofan	2	Infringement of the Luton CTR (Class D) by a Beagle 121 squawking 7000. Traffic info given. A320 broken off approach. Separation lost.	The pilot was very apologetic. He had misidentified Stevenage and was not familiar with the area.☐ CAA Closure: Thepilot has been reminded of the serious consequences of infringing CAS, with appropriate advice given.
200810280	20/09/2008	EGTT : London (FIR)	Stansted	12NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28R squawking 7000 at 2000ft. Traffic info and avoiding action given. Separation lost. STCA activated.	Pilot was very apologetic.

200810280	20/09/2008	EGTT : London (FIR)	Stansted	12NE	D	CTA	AIRBUS	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA28R squawking 7000 at 2000ft. Traffic info and avoiding action given. Separation lost. STCA activated.	Pilot was very apologetic.
200810282	21/09/2008	EGTT : London (FIR)	Isle Of Wight		C		OTHER	Reciprocating	1	UK AIRPROX 139/2008 - B757 and an unknown microlight at FL180. Possible infringement of Class C airspace by the unknown microlight.	Conflict in Class C airspace with an untraced microlight.☐ ☐ CAA Closure: No further CAA action possible. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200810282	21/09/2008	EGTT : London (FIR)	Isle Of Wight		C		BOEING	Turbofan	2	UK AIRPROX 139/2008 - B757 and an unknown microlight at FL180. Possible infringement of Class C airspace by the unknown microlight.	Conflict in Class C airspace with an untraced microlight.☐ ☐ CAA Closure: No further CAA action possible. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200810283	18/09/2008	EGTT : London (FIR)	Odiham	2NW	G	ATZ	ROBINSON	Reciprocating	1	Infringement of the Odiham ATZ by an R44 at 1200ft. Pilot had been instructed to remain outside of the ATZ. Standard separation maintained.	
200810284	20/09/2008	EGTT : London (FIR)	Sandown		G	Restricted area	RUTAN	Reciprocating	1	Infringement of the RA(T) at Sandown, Isle of Wight by a Vari-Eze and two unknown a/c during a Red Arrows display.	

200810284	20/09/2008	EGTT : London (FIR)	Sandown		G	Restricted area	OTHER	Unknown		Infringement of the RA(T) at Sandown, Isle of Wight by a Vari-Eze and two unknown a/c during a Red Arrows display.	
200810285	21/09/2008	EGTT : London (FIR)	Stansted	SE	D	CTR	OTHER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a microlight squawking 7000 at 2600ft. Two a/c broken off approach. Standard separation maintained.	The student pilot became unsure of his position and infringed Stansted airspace. He was squawking 7000 and made radio contact with ATC which enabled him to be assisted in his return to base.□ CAA Closure: Instructor contacted and given information to assist in debriefing his student.
200810286	21/09/2008	EGTT : London (FIR)	Stansted	S	D	CTR	OTHER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a microlight squawking 7000 at 1900ft. Traffic info and avoiding action given. Separation lost with a B737.	CAA Closure: Despite several attempts, no response forthcoming from microlight owner. No further action possible.
200810286	21/09/2008	EGTT : London (FIR)	Stansted	S	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a microlight squawking 7000 at 1900ft. Traffic info and avoiding action given. Separation lost with a B737.	CAA Closure: Despite several attempts, no response forthcoming from microlight owner. No further action possible.
200810289	18/09/2008	EGTT : London (FIR)	Bournemouth	6.5N	D	CTR	CESSNA	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a C172 at 1900ft. Traffic info given. Standard separation maintained.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.

200810327	23/08/2008	EGTT : London (FIR)	Bodelwyddan		G	Restricted area	RANS	Reciprocating	1	Infringement of the Bodelwyddan RA(T) by a Rans S6-ESD (MOD) during a Red Arrows display.	Appropriate CAA action is to be taken as a result of this incident.
200810327	23/08/2008	EGTT : London (FIR)	Bodelwyddan		G	Restricted area	OTHER	Unknown		Infringement of the Bodelwyddan RA(T) by a Rans S6-ESD (MOD) during a Red Arrows display.	Appropriate CAA action is to be taken as a result of this incident.
200810335	22/09/2008	EGTT : London (FIR)	Romsey		D	CTA	PIPER	Reciprocating	1	Infringement of the Southampton CTA (Class D) by a PA28 at 2500ft. Traffic info given. Standard separation maintained.	
200810347	16/09/2008	EGTT : London (FIR)	Gloucester-Staverton		G	ATZ	OTHER	Unknown		Two military a/c flying in formation. One military a/c infringed the Gloucester-Staverton ATZ (Class G) and flew underneath the circuit traffic. Traffic info and avoiding action given.	Standard separation maintained.
200810347	16/09/2008	EGTT : London (FIR)	Gloucester-Staverton		G	ATZ	VANS	Reciprocating	1	Two military a/c flying in formation. One military a/c infringed the Gloucester-Staverton ATZ (Class G) and flew underneath the circuit traffic. Traffic info and avoiding action given.	Standard separation maintained.

200810412	02/09/2008	EGTT : London (FIR)	Brooklands		A	CTR	CESSNA	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a C172. Standard separation maintained.	CAA Closure: Investigations have revealed misunderstanding/bad communication and uncertainty. A comprehensive letter has been sent to the pilot pointing out the serious consequences of infringing controlled airspace.
200810414	20/09/2008	EGTT : London (FIR)	Nottingham East Midlands		D	CTR	CESSNA	Reciprocating	1	Infringement of the Nottingham East Midlands CTR (Class D) by a C152 at 2000ft squawking 7000. Standard separation maintained.	On contact with ATC, pilot (a student) reported being lost and a significant direction indicator error became apparent. □ CAA Closure: The student has not returned to flying since the occurrence. The CFI will carry out remedial training should the student return.
200810418	21/09/2008	EGTT : London (FIR)	Isle of Man	30 SE	A		PIPER	Reciprocating	1	Infringement of Airway L10 by PA28 climbing to FL85. Standard separation maintained	Pilot called Ronaldsway for permission to enter their Zone. Once ATC had identified a/c, they informed the pilot that he had entered CAS. ATC instructed a/c to descend to below FL65 and then resume his course. Pilot has apologised and appears to have learnt from the incident.
200810467	21/09/2008	EGTT : London (FIR)	Ascot	NW	A	CTR	PIPER	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a PA28 at 1800ft, North West of Ascot.	7000 squawk observed tracking towards Ascot. ATC identified the a/c and queried its position. Pilot reported North of Farnborough, although no return correlated with this position report. A/c given immediate turn in order to leave the zone by the shortest route. Standard separation maintained.
200810468	21/09/2008	EGTT : London (FIR)	Horsham	1S Jackrells Farm	D	CTA	BEECH	Reciprocating	1	Infringement of the Gatwick CTA (Class D) at 1900ft, 1nm South of Jackrells Farm, near Horsham. ATC contacted the a/c, which was issued a heading to vacate CAS via the shortest route.	Standard separation maintained.

200810545	26/09/2008	EGTT : London (FIR)	London-Heathrow - LHR	4 SW	A	CTR	PIPER	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a PA28. Traffic info given. Separation lost with three a/c on approach.	Investigation established an over-reliance on VOR tracking. The pilot did not positively identify White Waltham before heading East. □ CAA Closure: Appropriate advice given and refresher flight with an instructor recommended.
200810545	26/09/2008	EGTT : London (FIR)	London-Heathrow - LHR	4 SW	A	CTR	AIRBUS	Turbofan	4	Infringement of the Heathrow CTR (Class A) by a PA28. Traffic info given. Separation lost with three a/c on approach.	Investigation established an over-reliance on VOR tracking. The pilot did not positively identify White Waltham before heading East. □ CAA Closure: Appropriate advice given and refresher flight with an instructor recommended.
200810547	27/09/2008	EGTT : London (FIR)	Fairoaks	5E	A	CTR	PIPER	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a PA28 at 1400ft. Standard separation maintained.	Investigation established that a late change of routing from Farnborough Radar may have contributed to cockpit workload for this low hour PPL pilot, who headed East from Fairoaks straight into the Heathrow CTR. □ CAA Closure: Appropriate advice given.
200810548	25/09/2008	EGTT : London (FIR)	North Weald		D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 1500ft. Traffic info given. Standard separation maintained.	The a/c had allegedly landed at North Weald in error for its intended destination of Stapleford, whilst still in communication with Stapleford. The a/c had then departed from a closed R/W and turned North instead of South and into CAS. The pilot eventually contacted the Stansted radar controller and reported being lost. □ CAA Closure: The pilot has undergone navigational training flights with his instructor and is aware of the serious consequences of infringing controlled airspace.
200810548	25/09/2008	EGTT : London (FIR)	North Weald		D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA28 at 1500ft. Traffic info given. Standard separation maintained.	The a/c had allegedly landed at North Weald in error for its intended destination of Stapleford, whilst still in communication with Stapleford. The a/c had then departed from a closed R/W and turned North instead of South and into CAS. The pilot eventually contacted the Stansted radar controller and reported being lost. □ CAA Closure: The pilot has undergone navigational training flights with his instructor and is aware of the serious consequences of infringing controlled airspace.

200810549	25/09/2008	EGTT : London (FIR)	London-Heathrow - LHR	6 W	A	CTR	PIPER	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a PA28 at 1250ft. Traffic info given. One a/c broken off approach. Standard separation lost with three a/c.	Appropriate CAA action is being taken as a result of thisincident.
200810549	25/09/2008	EGTT : London (FIR)	London-Heathrow - LHR	6 W	A	CTR	UNKNOWN	Unknown		Infringement of the Heathrow CTR (Class A) by a PA28 at 1250ft. Traffic info given. One a/c broken off approach. Standard separation lost with three a/c.	Appropriate CAA action is being taken as a result of thisincident.
200810550	28/09/2008	EGTT : London (FIR)	Birmingham	2 E	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by an R44 squawking 7000 at 1500ft. Standard separation maintained. Traffic info given.	Pilot later spoke with ATC with appropriate advice being passed. Inexperienced pilot.
200810556	27/09/2008	EGTT : London (FIR)	London-Heathrow - LHR	4S	A	CTR	CESSNA	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a C152 squawking 7000. Departures were stopped for approx 5mins. Standard separation maintained.	The weather deteriorated along route and, while the pilotattempted to remain VMC, he became temporarily unsure of his position.□ CAA Closure: The pilot has been reminded ofthe serious consequences of infringing CAS.
200810557	27/09/2008	EGTT : London (FIR)	London-Gatwick - LGW	13 NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a PA46 squawking 7000 at 2200ft. Traffic info given. Standard separation maintained.	B737 broken off the approach.

200810557	27/09/2008	EGTT : London (FIR)	London-Gatwick - LGW	13 NE	D	CTA	BOEING	Turbofan	2	Infringement of the Gatwick CTA (Class D) by a PA46 squawking 7000 at 2200ft. Traffic info given. Standard separation maintained.	B737 broken off the approach.
200810564	27/09/2008	EGTT : London (FIR)	Stansted	10NE	D	CTA	CIRRUS	Reciprocating	1	Infringement of the Stansted CTA (Class D) by an SR22 at 3000ft. Standard separation maintained. Inbound B737 affected. Traffic info given.	
200810564	27/09/2008	EGTT : London (FIR)	Stansted	10NE	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by an SR22 at 3000ft. Standard separation maintained. Inbound B737 affected. Traffic info given.	
200810565	28/09/2008	EGTT : London (FIR)	Manchester (MCT)	12 N	D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a PA28 squawking 7000. Standard separation maintained.	
200810611	19/09/2008	EGTT : London (FIR)	Leeds Bradford (LBA)	18SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Leeds Bradford CTA/CTR (Class D) by aPA32 squawking 7000 at 3400ft. Traffic info and avoiding action given. Standard separation maintained.	Pilot later called ATC and apologised. He had been distracted by a passenger and arrived at the Leeds CTA sooner than expected due to a tailwind.☐ CAA Closure: A review of the pilot's report shows that he has learnt the lessons needed from this incident.

200810611	19/09/2008	EGTT : London (FIR)	Leeds Bradford (LBA)	18SE	D	CTA	BOEING	Turbofan	2	Infringement of the Leeds Bradford CTA/CTR (Class D) by aPA32 squawking 7000 at 3400ft. Traffic info and avoiding action given. Standard separation maintained.	Pilot later called ATC and apologised. He had been distracted by a passenger and arrived at the Leeds CTA sooner than expected due to a tailwind.☐ CAA Closure: A review of the pilot's report shows that he has learnt the lessons needed from this incident.
200810613	29/09/2008	EGTT : London (FIR)	Banstead		A	CTR	BELL	Turboshaft	1	Infringement of the Heathrow CTR (Class A) by a Bell 206 squawking 7000 at 1400ft. Standard separation maintained.	
200810626	29/09/2008	EGTT : London (FIR)	Stansted	12 N	D	CTA	DIAMOND	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a DA40 at 2800ft. Standard separation maintained.	
200810626	29/09/2008	EGTT : London (FIR)	Stansted	12 N	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a DA40 at 2800ft. Standard separation maintained.	
200810654	14/09/2008	EGTT : London (FIR)	Peterborough-Sibson		G		GROB	Reciprocating	1	Infringement of the active Peterborough-Sibson parachute drop zone by a Grob 109. A parachute drop had to be aborted.	Local action taken.

200810670	21/09/2008	EGTT : London (FIR)	Leeds Bradford (LBA)	4 NW	D	CTR	BELL	Turboshaft	1	Infringement of the Leeds Bradford CTR (Class D) by a Bell 206 squawking 7000 at 800ft. Standard separation maintained.	
200810691	26/09/2008	EGTT : London (FIR)	Panshanger	1.5 WNW	G	ATZ	ROBINSON	Reciprocating	1	UK AIRPROX 135/2008 - PA28 and an R44 helicopter at 800ft1.5 WNW of Panshanger.	CAA Closure: R44 pilot entered the Panshanger ATZ and flew into conflict with the PA28, which he did not see. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200810691	26/09/2008	EGTT : London (FIR)	Panshanger	1.5 WNW	G	ATZ	PIPER	Reciprocating	1	UK AIRPROX 135/2008 - PA28 and an R44 helicopter at 800ft1.5 WNW of Panshanger.	CAA Closure: R44 pilot entered the Panshanger ATZ and flew into conflict with the PA28, which he did not see. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200810725	01/10/2008	EGTT : London (FIR)	ABBOT		A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA46 at 5500ft.. Inbound Stansted traffic was given traffic info. Standard separation maintained. During this incident controller's headset failed.	CAA Closure: Initial response received from pilot in Dec 2008, but no further information received. Closed due to elapsed time.
200810731	28/09/2008	EGTT : London (FIR)	Southend (SND)	13NE	A	TMA	MORANE SAULNIER	Reciprocating	1	Alleged infringement of the LTMA (Class A) by a Rallye 235 at FL65. Standard separation maintained.	

200810775	01/10/2008	EGTT : London (FIR)	Cardiff (CDF)	5N	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Cardiff CTR (Class D) by an R44 at 500ft. Standard separation maintained.	Pilot checked in with ATC and stated his route, which included a routing through controlled airspace. This was acknowledged, however, the ATCO did not tell the a/c to remainoutside of controlled airspace. Pilot later apologised for the infringement.
200810856	30/09/2008	EGTT : London (FIR)	Doncaster Sheffield	4NE	D	CTA	ROBINSON	Reciprocating	1	Infringement of the Doncaster Sheffield CTA (Class D) by an R44 at 500ft. Traffic info and avoiding action given. Standard separation maintained.	
200810856	30/09/2008	EGTT : London (FIR)	Doncaster Sheffield	4NE	D	CTA	BOEING	Turbofan	2	Infringement of the Doncaster Sheffield CTA (Class D) by an R44 at 500ft. Traffic info and avoiding action given. Standard separation maintained.	
200810860	02/10/2008	EGTT : London (FIR)	Nottingham East Midlands		D	CTR	JODEL	Reciprocating	1	Infringement of the Nottingham East Midlands CTR (Class D) by a Jodel DR1050 squawking 7000 at 2500ft. Traffic infogiven. Standard separation maintained.	The pilot was subsequently contacted by ATC and it appears that although the pilot was listening out on the frequency, he thought he was near the TNT VOR, and nowhere near his actual position, and thus did not respond to ATC calls addressed to an a/c in the subject area. A gross navigational error appears to have taken place.
200810894	06/10/2008	EGTT : London (FIR)	EXMOR		D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Cardiff CTA-7 (Class D) by a DR400 squawking 7000 at 5000ft. D&D alerted. Standard separation maintained.	Investigation revealed that the infringement occurred because the P1 misread his map. Additional factors (1) poor weather, (2) attempting to maintain VMC whilst flying an unplanned route and (3) subsequent failure to contact any ATSU. ATC have spoken to the pilot and appropriate lessons appear to have been learnt.

200810988	06/10/2008	EGTT : London (FIR)	Nottingham East Midlands	11 ENE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Nottingham East Midlands CTA (Class D) by a C172 at 2400ft, 11nm ENE of Nottingham East Midlands.	Prior to the infringement, C172 requested a CTA transit and a squawk was issued. Before a/c had been cleared to enter, the a/c was identified inside CAS slightly North of final approach R/W27. No traffic affected. Pilot informed to remain outside of CAS until cleared to enter.
200811009	08/10/2008	EGTT : London (FIR)	Birmingham	13 N	D	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a C152 at 4000ft. Traffic info given. Standard separation maintained.	Navigation error by the instructor concerned whilst concentrating on the actions of his student. <input type="checkbox"/> CAA Closure: Suitable advice given.
200811060	04/10/2008	EGTT : London (FIR)	Brookmans Park (BPK)		A	TMA	AVIONS ROBIN	Reciprocating	1	Infringement of the LTMA (Class A) by a DR400 at 3000ft. Standard separation was maintained.	
200811101	09/10/2008	EGTT : London (FIR)	Botley	2NE	D	CTR	OTHER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by an EV-97 at 1900ft. Standard separation maintained.	
200811115	09/10/2008	EGTT : London (FIR)	Brecon (BCN)		A		PIPER	Reciprocating	1	Infringement of Airway N864 (Class A) by a PA46 squawking 7000 at 5900ft. D&D alerted. Standard separation maintained.	The pilot subsequently rang ATC and stated that he had misread 5500 as FL55 and, due to it being a day with the pressure being high (QNH1031), this had placed him inside CAS. ATC discussed incident with pilot concerned.

200811151	11/10/2008	EGTT : London (FIR)	Southampton (SAM)	SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a PA28 at 1100ft. Traffic info and avoiding action given. Separation lost with a Trislander.	Solo student pilot conducting qualifying cross-country flight. On becoming uncertain of her position, the pilot failed to contact local ATC units.☐ CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200811151	11/10/2008	EGTT : London (FIR)	Southampton (SAM)	SW	D	CTR	BRITTEN NORMAN	Reciprocating	3	Infringement of the Southampton CTR (Class D) by a PA28 at 1100ft. Traffic info and avoiding action given. Separation lost with a Trislander.	Solo student pilot conducting qualifying cross-country flight. On becoming uncertain of her position, the pilot failed to contact local ATC units.☐ CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200811153	11/10/2008	EGTT : London (FIR)	London-Heathrow - LHR	SW	A	CTR	PIPER	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a PA28 at 1800ft. Standard separation maintained.	ATC workload increased due to pilot becoming disorientated. Appropriate CAA action is being taken as a result of this incident.
200811155	12/10/2008	EGTT : London (FIR)	White Waltham	4 S	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a Cessna 182 at 2000ft. Standard separation maintained.	
200811158	10/10/2008	EGTT : London (FIR)	Cardiff (CDF)	6S	D	CTA	PIPER	Reciprocating	1	Infringement of the Cardiff CTA - CTA 5 (Class D) by a PA28 at 4000ft. Standard separation maintained.	Investigation revealed that the P1 believed that the a/c had passed CAS. The a/c subsequently encountered a significant updraft. Due to significant power adjustments required, the crew allowed the a/c to climb in the belief that they were outside CAS. The crew were unaware of their error and have subsequently been debriefed.

200811159	11/10/2008	EGTT : London (FIR)	Bournemouth	8 NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a PA28 at 1500ft. Pilot was advised his course would take the a/c into CAS. Pilot apologised and continued into CAS. Standard separation maintained.	Pilot advised of his position and apologised again.
200811341	11/10/2008	EGTT : London (FIR)	Nottingham East Midlands		D	CTR	PIPER	Reciprocating	1	Infringement of the Nottingham East Midlands CTR (Class D) by a PA28. Traffic info and avoiding action was given to an inbound A320, which reported visual with PA28. Standard separation maintained.	
200811341	11/10/2008	EGTT : London (FIR)	Nottingham East Midlands		D	CTR	AIRBUS	Turbofan	2	Infringement of the Nottingham East Midlands CTR (Class D) by a PA28. Traffic info and avoiding action was given to an inbound A320, which reported visual with PA28. Standard separation maintained.	
200811349	10/10/2008	EGTT : London (FIR)	Denham		A	CTR	CESSNA	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a C172 squawking 7000 at 2800ft. Standard separation lost with a B737 outbound from Heathrow.	Pilot's report acknowledges a navigational error due to reliance on a GPS. Pilot also acknowledges that he was unfamiliar with the system and had consequently entered the incorrect track. Pilot states that he also misread his map and misidentified Aylesbury. Pilot has subsequently undertaken a training flight with his CFI and understands that a GPS should not be used as a sole navigational aid.
200811349	10/10/2008	EGTT : London (FIR)	Denham		A	CTR	BOEING	Turbofan	2	Infringement of the Heathrow CTR (Class A) by a C172 squawking 7000 at 2800ft. Standard separation lost with a B737 outbound from Heathrow.	Pilot's report acknowledges a navigational error due to reliance on a GPS. Pilot also acknowledges that he was unfamiliar with the system and had consequently entered the incorrect track. Pilot states that he also misread his map and misidentified Aylesbury. Pilot has subsequently undertaken a training flight with his CFI and understands that a GPS should not be used as a sole navigational aid.

200811370	16/10/2008	EGTT : London (FIR)	Calshot		D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 squawking 7000 at 3000ft. ATC attempted to contact the a/c to noavail. It was subsequently discovered to be a student pilot.	Standard separation maintained.
200811387	16/10/2008	EGTT : London (FIR)	Stansted	10-12 SW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C150 squawking 7000 at 1800ft. Standard separation maintained.	Pilot subsequently contacted ATC and apologised for the incident.
200811389	17/10/2008	EGTT : London (FIR)	Panshanger		G	ATZ	MOONEY	Reciprocating	1	Alleged infringement of the Panshanger ATZ (Class G) by aMooney 20 at an estimated 1200ft.	
200811427	17/10/2008	EGTT : London (FIR)	St Albans		D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 at 2300ft. Standard separation maintained. Believed to have been a student pilot.	
200811428	17/10/2008	EGTT : London (FIR)	Dunstable	1SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a solo studentin PA28 at 2000ft. Solo student reports being unsure of his position. Standard separation maintained.	A Luton departure was delayed as a result of this incident. Appropriate follow up action has been taken by the CFI concerned.

200811464	17/10/2008	EGTT : London (FIR)	Manchester (MCT)	7 SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by solo student in a PA38 at 1000ft. Departures were stopped. Solo student had become lost. Standard separation maintained.	ATC navigational assistance provided following pilot's call requesting navigational help.
200811465	18/10/2008	EGTT : London (FIR)	Birmingham	12 SE	D	CTA	SOCATA	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a TB20 squawking 7000 at 2600ft. Traffic info and avoiding action given. Loss of standard separation.	Pilot reports high cockpit workload and a changed plan after refusal of a routing overhead Coventry.☐ CAA Closure: Appropriate advice given.
200811466	18/10/2008	EGTT : London (FIR)	Manchester (MCT)	7 W	D	TMA	PIPER	Reciprocating	1	Infringement of the Manchester TMA (Class D) by a PA28 at1250ft. Traffic info given. Departures were stopped. Standard separation maintained.	Pilot diverted due to poor weather conditions and became unsure of position which led to the a/c infringing CAS. The diversion was decided too late and lead to the error in navigation.☐ CAA Closure: Pilot concerned is to undertake further training to be carried out with his CFI.
200811467	19/10/2008	EGTT : London (FIR)	London-Gatwick - LGW	6 SW	D	CTR	SCOTTISH AVIATION	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a Bulldog. Standard separation maintained.	
200811468	19/10/2008	EGTT : London (FIR)	Luwknor	W	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C152 at 6000ft. Standard separation maintained.	

200811569	21/10/2008	EGTT : London (FIR)	Birmingham	12 SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by PA28 that had become lost. PA28 called D&D and transferred to Birmingham who gave PA28 navigational assistance. Standard separation maintained.	Appropriate ATC advice passed to the operator concerned.
200811611	18/10/2008	EGTT : London (FIR)	Daventry (DTY)	LIC NDB	A	CTR	SOCATA	Reciprocating	1	Infringement of Daventry CTA (Class A) by a Socata TB20 at FL57. ATC instructed the a/c to descend out of the CTA. Standard separation maintained.	
200811661	16/10/2008	EGTT : London (FIR)	Burnham		A	CTR	ROBINSON	Reciprocating	1	Infringement of London CTR (Class A) by a R44 at 1000ft. Northbound Heathrow departures were stopped for 8mins.	Attributed to poor planning and navigation error. ☐ CAA Closure: Pilot has learned a lesson from the incident and modified his procedures accordingly.
200811661	16/10/2008	EGTT : London (FIR)	Burnham		A	CTR	UNKNOWN	Unknown		Infringement of London CTR (Class A) by a R44 at 1000ft. Northbound Heathrow departures were stopped for 8mins.	Attributed to poor planning and navigation error. ☐ CAA Closure: Pilot has learned a lesson from the incident and modified his procedures accordingly.
200811664	22/10/2008	EGTT : London (FIR)	London City - LCY	15 E	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class) A and London City CTR/CTA (Class D) by a PA28 at 3000ft and 2400ft respectively.	The pilot changed from the planned route and did not appreciate the proximity of the LTMA. The pilot had been asked to remain at 3000ft due to other traffic but failed to realise her position. ☐ CAA Closure: A debrief has been given and additional training undertaken with the CFI.

200811667	23/10/2008	EGTT : London (FIR)	Bournemouth	6 NW	D	CTA	UNKNOWN	Unknown		Infringement of the Bournemouth CTA (Class D) by an unknown a/c with a military squawk at 600ft. Avoiding action given to a PC12 and Falcon 20. Military ATC contacted, however a/c was not identified.	
200811667	23/10/2008	EGTT : London (FIR)	Bournemouth	6 NW	D	CTA	PILATUS	Turboprop	1	Infringement of the Bournemouth CTA (Class D) by an unknown a/c with a military squawk at 600ft. Avoiding action given to a PC12 and Falcon 20. Military ATC contacted, however a/c was not identified.	
200811707	24/10/2008	EGTT : London (FIR)	Belfast (BEL)	8E	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Belfast CTR (Class D) by an R44 at 1000ft. Standard separation maintained.	Pilot had selected wrong RT frequency and inadvertently infringed CAS. Pilot apologised for his error.
200811732	25/10/2008	EGTT : London (FIR)	Dunstable		D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C172. Standard separation maintained.	
200811765	27/10/2008	EGTT : London (FIR)	Luton (LUT)		D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a solo student in a PA28 squawking 7000. Traffic info and avoiding action given. Standard separation maintained.	PA28 infringed the same airspace approximately 1hr 11mins later. CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.

200811765	27/10/2008	EGTT : London (FIR)	Luton (LUT)		D	CTR	BOEING	Turbofan	2	Infringement of the Luton CTR (Class D) by a solo student in a PA28 squawking 7000. Traffic info and avoiding action given. Standard separation maintained.	PA28 infringed the same airspace approximately 1hr 11mins later. CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200811777	11/10/2008	EGTT : London (FIR)	Weston On The Green		G	Danger area	CESSNA	Reciprocating	1	Infringement of active Danger Area D129 by a C152 at 1500ft. Parachutists were in the air.	The pilot was a student on a solo navigation exercise whom is identified Turweston. CAA Closure: CFI has discussed the incident with the pilot who is to undergo 5 hours of remedial nav training followed by a nav test. The CFI has also instructed the pilot to undergo extra ground school to cover lost procedures.
200811867	28/10/2008	EGTT : London (FIR)	Bournemouth	5 NW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a C152 on a qualifying cross country whose pilot entered cloud in heavy rain and became lost. Standard separation maintained.	C152 heard ATC giving traffic info to other a/c on an unknown contact and elected not to call either for help or to check his position. Investigations revealed that the student pilot on a qualifying cross country flight, (the same route had been flown 5 days earlier with an Instructor with no problem) deviated from his intended route to avoid a shower. The Instructor has always taught his students, on the leg from Old Sarum to Exeter, to monitor the Bournemouth frequency but not to call because of the intense nature of the radio in that area. CAA Closure: The Instructor is to change his teaching methods.
200811870	28/10/2008	EGTT : London (FIR)	Detling (DET)	7 NNW	A	TMA	BELL	Turboshaft	1	Infringement of the LTMA (Class A) by a Bell 206 at 2900ft. Standard separation maintained.	
200811919	30/10/2008	EGTT : London (FIR)	Honiley (HON)	10 W	D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a solo student in a C152 at 2500ft. D&D alerted. Solo student had become lost.	

200811935	30/10/2008	EGTT : London (FIR)	Yarmouth	NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 2600ft. Standard separation maintained.	Investigation established that the pilot misread the chart.☐ CAA Closure: Suitable advice given.
200811951	31/10/2008	EGTT : London (FIR)	London-Heathrow - LHR	4 W	A	CTR	CESSNA	Reciprocating	1	Infringement of London CTR (Class A) by a C172 between 400ft and 1800ft. Heathrow departures stopped for 13mins andtraffic broken off the approach. Separation lost.	Appropriate CAA action is being taken as a result of thisincident.
200811951	31/10/2008	EGTT : London (FIR)	London-Heathrow - LHR	4 W	A	CTR	CESSNA	Turbofan	2	Infringement of London CTR (Class A) by a C172 between 400ft and 1800ft. Heathrow departures stopped for 13mins andtraffic broken off the approach. Separation lost.	Appropriate CAA action is being taken as a result of thisincident.
200811984	31/10/2008	EGTT : London (FIR)	Southampton (SAM)	5N	D	CTR	OTHER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a Dv20 at 2000ft. Standard separation maintained.	
200811986	02/11/2008	EGTT : London (FIR)	Belfast (BEL)	6S	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Belfast CTR (Class D) by an R44 at 1000ft. Standard separation maintained.	

200812169	22/10/2008	EGTT : London (FIR)	ORTAC		A		CESSNA	Reciprocating	1	Infringement of Airway R41 (Class A) by a C182 at FL60, no other a/c affected. Pilot allegedly misread the base of the Airway to be FL135 rather than FL35. Standard separation maintained.	
200812217	08/11/2008	EGTT : London (FIR)	Stansted		D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by an unknown a/c squawking 7000. Standard separation maintained.	Pilot later apologised, stating he had become distracted by avoiding cloud at the time of the infringement.
200812241	31/10/2008	EGTT : London (FIR)	Nr Tiptree	Essex	A	TMA	CESSNA	Reciprocating	1	Possible infringement of the LTMA (Class A) by a C152 at 3700ft.	The relatively new flying instructor concerned has learntfrom this incident and in future will plan flights to give a greater margin for navigational errors.
200812348	12/11/2008	EGTT : London (FIR)	London City - LCY	10 E	A	TMA	PIPER	Reciprocating	1	Loss of separation between a DHC8 and a PA28R (believed) that infringed the LTMA (Class A) at 2700ft. Traffic info and avoiding action given. STCA and SMF activated.	CAA Closure: Incident investigated by NATS. Instructor allowed a/c to climb into LTMA. Appropriate action taken, nofurther action required by CAA.
200812348	12/11/2008	EGTT : London (FIR)	London City - LCY	10 E	A	TMA	DE HAVILLAND	Turboprop	2	Loss of separation between a DHC8 and a PA28R (believed) that infringed the LTMA (Class A) at 2700ft. Traffic info and avoiding action given. STCA and SMF activated.	CAA Closure: Incident investigated by NATS. Instructor allowed a/c to climb into LTMA. Appropriate action taken, nofurther action required by CAA.

200812421	14/11/2008	EGTT : London (FIR)	London City - LCY	7E	A	TMA	CIRRUS	Reciprocating	1	Infringement of the LTMA (Class A) by an SR22 at 2400ft. SMF activated. London City inbound RJ100 received a TCAS RA.	
200812421	14/11/2008	EGTT : London (FIR)	London City - LCY	7E	A	TMA	BAE	Turbofan	4	Infringement of the LTMA (Class A) by an SR22 at 2400ft. SMF activated. London City inbound RJ100 received a TCAS RA.	
200812428	24/10/2008	EGTT : London (FIR)	London City - LCY	13E	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C172 at 3000ft. Standard separation maintained.	
200812434	11/11/2008	EGTT : London (FIR)	White Waltham	2 NE	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C152 squawking 7000 at 1000ft. Pilot apologised for his error statinghe was unsure of his position. Standard separation maintained.	
200812435	12/11/2008	EGTT : London (FIR)	Audley End		D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C152 at 1300ft. Traffic info given. Standard separation maintained.	The pilot, an instructor, subsequently rang in to ATC andthe incident was discussed.

200812435	12/11/2008	EGTT : London (FIR)	Audley End		D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a C152 at 1300ft. Traffic info given. Standard separation maintained.	The pilot, an instructor, subsequently rang in to ATC andthe incident was discussed.
200812455	13/11/2008	EGTT : London (FIR)	Nottingham East Midlands	7 E	D	CTA	CIRRUS	Reciprocating	1	Infringement of the Nottingham East Midlands CTA (Class D) by an SR22 at FL50. Traffic info and avoiding action given. Standard separation maintained.	The pilot, believed to be a foreign national, had been telling ATC units that he was inbound to Nottingham Airfield. However, he was actually routing via Nottingham (possibly the NOT NDB) and then to the DTY VOR . This was the direct cause of the infringement.
200812455	13/11/2008	EGTT : London (FIR)	Nottingham East Midlands	7 E	D	CTA	BOEING	Turbofan	2	Infringement of the Nottingham East Midlands CTA (Class D) by an SR22 at FL50. Traffic info and avoiding action given. Standard separation maintained.	The pilot, believed to be a foreign national, had been telling ATC units that he was inbound to Nottingham Airfield. However, he was actually routing via Nottingham (possibly the NOT NDB) and then to the DTY VOR . This was the direct cause of the infringement.
200812525	18/11/2008	EGTT : London (FIR)	Goodwood (GWC)	10W	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 at FL61. Standard separation maintained.	
200812548	19/11/2008	EGTT : London (FIR)	London-Gatwick - LGW	12 SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a PA28 at 2200ft. Standard separation maintained.	See also 200601768.

200812561	18/11/2008	EGTT : London (FIR)	Cookham		A	CTR	ROBINSON	Reciprocating	1	Infringement of the London CTR (Class A) by an R44 at 1400ft. Heathrow Northbound departures were stopped until R44was observed leaving the zone. Standard separation maintained.	Attributed to a navigation error during an unplanned airborne diversion to show passenger a landmark.☐ CAA Closure:Pilot apologised and has learned a lesson from this incident.
200812608	20/11/2008	EGTT : London (FIR)	CHASE	4 NW	A	CTR	SOCATA	Reciprocating	1	Infringement of the Birmingham CTA (Class D) and DaventryCTA (Class A) by TB20 at 4000ft. An inbound B737 was given traffic info. Standard separation maintained.	After landing at destination pilot of the TB20 apologisedfor the infringement. Believed incident caused by poor flight planning and not taking the forecast wind into consideration.
200812608	20/11/2008	EGTT : London (FIR)	CHASE	4 NW	A	CTR	BOEING	Turbofan	2	Infringement of the Birmingham CTA (Class D) and DaventryCTA (Class A) by TB20 at 4000ft. An inbound B737 was given traffic info. Standard separation maintained.	After landing at destination pilot of the TB20 apologisedfor the infringement. Believed incident caused by poor flight planning and not taking the forecast wind into consideration.
200812632	21/11/2008	EGTT : London (FIR)	Burgess Hill		A	TMA	PIPER	Reciprocating	1	Infringement of LTMA (Class A) by a PA28 at 3600ft. PA28 called Farnborough requesting a FIS. PA28 was identified and requested to descend immediately, which it did. Standard separation maintained.	
200812805	25/11/2008	EGTT : London (FIR)	Southampton (SAM)	7 N	D	CTR	ROBINSON	Reciprocating	1	Infringement of Southampton CTR (Class D) by a R44. Do328broken off approach. Standard separation maintained.	CAA Closure: Despite several attempts, no response forthcoming from R44 owner. No further action possible.

200812805	25/11/2008	EGTT : London (FIR)	Southampton (SAM)	7 N	D	CTR	DORNIER	Turboprop	2	Infringement of Southampton CTR (Class D) by a R44. Do328broken off approach. Standard separation maintained.	CAA Closure: Despite several attempts, no response forthcoming from R44 owner. No further action possible.
200812833	19/11/2008	EGTT : London (FIR)	Ronaldsway	7 NW	D	CTR	BEAGLE	Reciprocating	1	Infringement of the Isle of Man CTR (Class D) by a Beagle121. Traffic info given. Standard separation maintained.	Appropriate advice passed to the pilot by ATC.
200812978	03/12/2008	EGTT : London (FIR)	GOLES		D	CTR	BEAGLE	Reciprocating	1	Loss of separation between an IFR PA31 working MACC and aVFR B121 believed to be working Doncaster Sheffield approach. STCA and SMF activated.	Avoiding action and traffic info given to the PA31 by MACC. Subsequent information suggests that the B121 infringedDoncaster CAS whilst wearing a military squawk. DoncasterRadar received a pre-note from the military unit and a/c was asked to freecall Doncaster Radar. Investigation confirmed that B121 pilot entered Doncaster CTA without clearance.☐ CAA Closure: Suitable advice given.
200812978	03/12/2008	EGTT : London (FIR)	GOLES		D	CTR	PIPER	Reciprocating	2	Loss of separation between an IFR PA31 working MACC and aVFR B121 believed to be working Doncaster Sheffield approach. STCA and SMF activated.	Avoiding action and traffic info given to the PA31 by MACC. Subsequent information suggests that the B121 infringedDoncaster CAS whilst wearing a military squawk. DoncasterRadar received a pre-note from the military unit and a/c was asked to freecall Doncaster Radar. Investigation confirmed that B121 pilot entered Doncaster CTA without clearance.☐ CAA Closure: Suitable advice given.
200813038	05/12/2008	EGTT : London (FIR)	London-Gatwick - LGW	17E	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) and Gatwick CTR (ClassD) by a C172 squawking 7000 at 2900ft. Standard separation maintained.	The pilot has acknowledged that he made a navigational error that led to the infringement and has apologised for it. He attributes the error to mistaking Bough Beech Reservoir for Bewl Water due to high glare in high pressure weather conditions.☐ CAA Closure: Pilot intends to complete IMCtraining.

200813066	06/12/2008	EGTT : London (FIR)	Bovingdon (BNN)	3S	A	TMA	ROBINSON	Reciprocating	1	Infringement of the LTMA by an R44 squawking 7000 at 3800ft. B737's departure stopped and traffic info given to an A319. Standard separation maintained.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200813066	06/12/2008	EGTT : London (FIR)	Bovingdon (BNN)	3S	A	TMA	AIRBUS	Turbofan	2	Infringement of the LTMA by an R44 squawking 7000 at 3800ft. B737's departure stopped and traffic info given to an A319. Standard separation maintained.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200813102	07/12/2008	EGTT : London (FIR)	Ware	VRP	D	CTA	PIPER	Reciprocating	1	Infringement of Stansted CTA (Class D) by a PA28 at 2000ft. No traffic was affected so standard separation maintained.	
200813130	06/12/2008	EGTT : London (FIR)	Weston Supermare		D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a Robin 400 at 3000ft. Standard separation maintained.	Pilot had misidentified Weston-Super-Mare Pier for Clevedon Pier.
200813218	11/12/2008	EGTT : London (FIR)	Southampton (SAM)	8NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 2200ft. Solo student reported being lost. Standard separationmaintained. Southampton inbound traffic delayed. Standardseparation maintained.	

200813247	03/12/2008	EGTT : London (FIR)	Doncaster Sheffield	9N	D	CTA	JODEL	Reciprocating	1	Infringement of the Doncaster Sheffield CTA (Class D) by a Jodel D140 at FL50. Standard separation maintained.	Pilot apologised having been reminded of his responsibilities by ATC.
200813280	12/12/2008	EGTT : London (FIR)	Southampton (SAM)	7 SW	D	CTR	WESTLAND	Turboshaft	1	Alleged infringement of the Southampton CTR (Class D) by a Scout. Standard separation maintained. Believed pilot unsure of his position in poor weather.	
200813297	10/12/2008	EGTT : London (FIR)	Nottingham East Midlands	9 E	D	CTA	PIPER	Reciprocating	1	Infringement of the Nottingham East Midlands CTA (Class D) by a PA28 squawking 7000 at 2600ft. Standard separation maintained.	
200813298	09/12/2008	EGTT : London (FIR)	Nottingham East Midlands		D	CTR	BELL	Turboshaft	1	Infringement of the Nottingham East Midlands CTR (Class D) by a Bell 206 at 1000ft. Traffic info given. Standard separation maintained.	A/c subsequently called ATC requesting a FIS and requesting to route southbound. ATC advised Bell 206 of the infringement and to route eastbound. A/c continued to proceed southbound.
200813299	10/12/2008	EGTT : London (FIR)	Nottingham East Midlands	3-4 SW	D	CTR	BELL	Turboshaft	1	Infringement of the Nottingham East Midlands CTR (Class D) by a Bell 206 at 2000ft. Standard separation maintained.	Pilot stated to ATC that "the airspace wasn't on his GPS"and "his chart had the airspace where he was from 2500ft to FL75". CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.

200813408	17/12/2008	EGTT : London (FIR)	Southampton (SAM)		D	CTR	CESSNA	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a C182 at 2000ft receiving a FIS. Pilot reported that ATC radio transmissions were very poor but ATC received transmissions readability 5.	Traffic info given to two inbound DHC8s, one of which wasbroken off the approach.☐ CAA Closure: Appropriate CAA action is to be taken as a result of this infringement.
200813408	17/12/2008	EGTT : London (FIR)	Southampton (SAM)		D	CTR	DE HAVILLAND	Turboprop	2	Infringement of the Southampton CTR (Class D) by a C182 at 2000ft receiving a FIS. Pilot reported that ATC radio transmissions were very poor but ATC received transmissions readability 5.	Traffic info given to two inbound DHC8s, one of which wasbroken off the approach.☐ CAA Closure: Appropriate CAA action is to be taken as a result of this infringement.
200813418	04/12/2008	EGTT : London (FIR)	Sandtoft		G	ATZ	OTHER	Unknown		Infringement of the Sandtoft ATZ by a large military helicopter.	
200813418	04/12/2008	EGTT : London (FIR)	Sandtoft		G	ATZ	ROBINSON	Reciprocating	1	Infringement of the Sandtoft ATZ by a large military helicopter.	
200813449	11/12/2008	EGTT : London (FIR)	Doncaster Sheffield		D	CTR	ROBINSON	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by an R44 at an estimated 3000ft. Traffic info given. Standard separation maintained.	

200813511	19/12/2008	EGTT : London (FIR)	London-Gatwick - LGW	E	D	CTA	PIPER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a PA24 at 2400ft. Traffic info given to DHC8. Standard separation maintained.	
200813511	19/12/2008	EGTT : London (FIR)	London-Gatwick - LGW	E	D	CTA	DE HAVILLAND	Turboprop	2	Infringement of the Gatwick CTA (Class D) by a PA24 at 2400ft. Traffic info given to DHC8. Standard separation maintained.	
200813681	24/12/2008	EGTT : London (FIR)	London-Gatwick - LGW	10 NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a PA32 at 2400ft. An inbound B737 was broken off the ILS for R/W26L and given traffic info. Standard separation maintained.	
200813681	24/12/2008	EGTT : London (FIR)	London-Gatwick - LGW	10 NE	D	CTA	BOEING	Turbofan	2	Infringement of the Gatwick CTR (Class D) by a PA32 at 2400ft. An inbound B737 was broken off the ILS for R/W26L and given traffic info. Standard separation maintained.	
200813694	27/12/2008	EGTT : London (FIR)	Brookmans Park (BPK)	6 S	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 squawking 7000 at 2900ft. Traffic info given. Separation lost.	

200813694	27/12/2008	EGTT : London (FIR)	Brookmans Park (BPK)	6 S	A	TMA	BOEING	Turbofan	2	Infringement of the LTMA (Class A) by a PA28 squawking 7000 at 2900ft. Traffic info given. Separation lost.	
200813698	28/12/2008	EGTT : London (FIR)	Stansted	13 NE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C172 squawking 7000 at 2400ft. Standard separation maintained.	
200813699	29/12/2008	EGTT : London (FIR)	Bristol International	19 ENE	D	CTA	PIPER	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a PA28R at 6000ft. Standard separation maintained.	Pilot later spoke with ATC and apologised for the error having misinterpreted his map.
200813702	28/12/2008	EGTT : London (FIR)	London-Gatwick - LGW	5 NE	D	CTR	BEAGLE	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a Beagle B121 at 1100ft. Departures were stopped and a B737 had to go-around. Standard separation maintained.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200813702	28/12/2008	EGTT : London (FIR)	London-Gatwick - LGW	5 NE	D	CTR	BOEING	Turbofan	2	Infringement of the Gatwick CTR (Class D) by a Beagle B121 at 1100ft. Departures were stopped and a B737 had to go-around. Standard separation maintained.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.

200813703	29/12/2008	EGTT : London (FIR)	Southampton (SAM)	SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 squawking 7000 at 3000ft. Standard separation maintained.	
200813705	27/12/2008	EGTT : London (FIR)	Southampton (SAM)	6.4NW	D	CTR	BELL	Turboshaft	1	Infringement of the Southampton CTR (Class D) by a Bell 206 squawking 7000. Standard separation maintained.	
200813943	01/12/2008	EGTT : London (FIR)	Brize Norton	8 W	D	CTR		Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a MauleMX-7 at 1200ft.	
200813944	02/12/2008	EGTT : London (FIR)	Brize Norton	9 W	D	CTR	RUTAN	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a RutanLongeze squawking 7000.	
200813947	11/12/2008	EGTT : London (FIR)	Brize Norton	9 E	D	CTR	PIPER	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a PA28 squawking 7000 and indicating between 1200 and 1600ft.	

200813949	10/12/2008	EGTT : London (FIR)	Lyneham	9 W	D	CTR	PIPER	Reciprocating	1	Infringement of the Lyneham CTR (Class D) by a PA28. Believed navigational error. A/c called Lyneham late having been released by Filton.	
200900007	02/01/2009	EGTT : London (FIR)	Luton (LUT)	W	D	CTR	SCHWEIZER	Reciprocating	1	Infringement of the Luton CTR (Class D) and the LTMA (Class A) by a Schweizer 269C squawking 7000 at 3000ft. Traffic info and avoiding action given. Separation lost.	Appropriate CAA action is to be taken as a result of thisincident.
200900007	02/01/2009	EGTT : London (FIR)	Luton (LUT)	W	D	CTR	BOEING	Turbofan	2	Infringement of the Luton CTR (Class D) and the LTMA (Class A) by a Schweizer 269C squawking 7000 at 3000ft. Traffic info and avoiding action given. Separation lost.	Appropriate CAA action is to be taken as a result of thisincident.
200900011	03/01/2009	EGTT : London (FIR)	Stansted	NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 3000ft. Traffic info given. Standard separation maintained.Inbound traffic delayed.	
200900021	04/01/2009	EGTT : London (FIR)	London-Gatwick - LGW	NE	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a Robin DR400 at 2400ft. Traffic info given. Standard separation maintained.	

200900030	03/01/2009	EGTT : London (FIR)	Cardiff (CDF)	15 N	D	CTA	PIPER	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by a PA28 at 4500ft. The student pilot on a navigational exercise reported being unsure of his position. Standard separation maintained.	Appropriate and comprehensive action is to be taken by the instructor concerned.
200900034	03/01/2009	EGTT : London (FIR)	Bovingdon (BNN)	WNW	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C150 at 4000ft. Traffic info and avoiding action given. Standard separation maintained.	The pilot later phoned ATC and explained that he left the QFE set for a portion of the flight.
200900035	03/01/2009	EGTT : London (FIR)	London City - LCY	11 NE	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C150 at 2600ft. Traffic info and avoiding action given. Standard separation maintained.	
200900035	03/01/2009	EGTT : London (FIR)	London City - LCY	11 NE	A	TMA	FOKKER	Turboprop	2	Infringement of the LTMA (Class A) by a C150 at 2600ft. Traffic info and avoiding action given. Standard separation maintained.	
200900036	02/01/2009	EGTT : London (FIR)	Dunsfold	5 NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a PA28 at 2300ft. Standard separation maintained.	

200900091	06/01/2009	EGTT : London (FIR)	NEDUL		D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28. Standard separation maintained. After PA28 had left CAS, ATC received a call from PA28 stating that it may have infringedthe CTA.	
200900104	06/01/2009	EGTT : London (FIR)	Woodley (WOD)	S	A	TMA	SOCATA	Turboprop	1	Infringement of the LTMA (Class A) by a TBM700 receiving a FIS. Standard separation maintained.	
200900136	08/01/2009	EGTT : London (FIR)	Southend (SND)	12 SW	A	TMA	GRUMMAN	Reciprocating	1	Infringement of the Thames RMA (Class A) by a Grumman AA5at 3200ft, 12nm South West of Southend. Standard separation maintained.	
200900186	11/01/2009	EGTT : London (FIR)	Stansted	8E	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28R at 2800ft. Standard separation maintained.	
200900188	09/01/2009	EGTT : London (FIR)	Birmingham	8 SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 squawking 7000 at 3500ft. Standard separation maintained.	Pilot later spoke with ATC and apologised, stating that he could not see very well, as he was in haze. Appropriate advice has been passed to the pilot concerned.

200900298	14/01/2009	EGTT : London (FIR)	Bristol International	S	D	CTR	PIPER	Reciprocating	1	Infringement of the Bristol CTR (Class D) by a PA28 at 4700ft. Standard separation maintained.	
200900371	16/01/2009	EGTT : London (FIR)	Cardiff (CDF)	13W	D	CTA	GROB	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by a Grob G115 at FL67. Standard separation maintained.	
200900460	17/01/2009	EGTT : London (FIR)	Nottingham East Midlands		D	CTR	CESSNA	Reciprocating	1	Infringement of the Nottingham East Midlands CTA (Class D) by a C150 at 3500ft. Standard separation maintained.	
200900499	21/01/2009	EGTT : London (FIR)	London-Gatwick - LGW	8 E	A	TMA	BELL	Turboshaft	1	Bell 206L infringed the LTMA (Class A) and the Gatwick CTR (Class D) and lost separation with an inbound A330, which was given traffic info and avoiding action.	Appropriate CAA action is to be taken as a result of thisincident.
200900499	21/01/2009	EGTT : London (FIR)	London-Gatwick - LGW	8 E	A	TMA	AIRBUS	Turbofan	2	Bell 206L infringed the LTMA (Class A) and the Gatwick CTR (Class D) and lost separation with an inbound A330, which was given traffic info and avoiding action.	Appropriate CAA action is to be taken as a result of thisincident.

200900516	18/01/2009	EGTT : London (FIR)	London-Gatwick - LGW	10 NE	D	CTA	CIRRUS	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by an SR20 at 2100ft. An A320 and a B737 given traffic info and instructed to orbit to remain clear of the SR20. Standard separation maintained.	
200900516	18/01/2009	EGTT : London (FIR)	London-Gatwick - LGW	10 NE	D	CTA	AIRBUS	Turbofan	2	Infringement of the Gatwick CTA (Class D) by an SR20 at 2100ft. An A320 and a B737 given traffic info and instructed to orbit to remain clear of the SR20. Standard separation maintained.	
200900629	24/01/2009	EGTT : London (FIR)	Lydd (LYD)	15 W	A	CTR	SOCATA	Reciprocating	1	Alleged infringement of the Worthing CTA (Class A) by a TB10 with Mode C indicating FL58. Standard separation maintained.	A/c was using Heathrow QNH at 991mb as opposed to ChathamQNH at 984mb, which could have resulted in a large difference between indicated FL and altitude.
200900630	24/01/2009	EGTT : London (FIR)	London-Gatwick - LGW	NE	D	CTA	EXTRA	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by an Extra 300at 2200ft and the Heathrow CTA (Class A). The infringement of the Heathrow CTA was marginal. Standard separation maintained.	
200900771	22/01/2009	EGTT : London (FIR)	Syerston		G	ATZ	HUGHES	Turboshaft	1	Infringement of the Syerston ATZ Gliding Site by a Hughes369 at 1500ft. Glider launches were suspended until helicopter was clear of site.	CAA Closure: No further information became available. No further action practicable due to elapsed time.

200900888	31/01/2009	EGTT : London (FIR)	Calshot	1 NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a PA28 at 1500ft. Standard separation maintained.	
200900888	31/01/2009	EGTT : London (FIR)	Calshot	1 NE	D	CTR	FOKKER	Turbofan	2	Infringement of the Southampton CTR (Class D) by a PA28 at 1500ft. Standard separation maintained.	
200900889	31/01/2009	EGTT : London (FIR)	Snitterfield		D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a Robin 2100 at FL45. Traffic info given. Standard separation maintained.	The pilot of the Robin was caught out by the strong southerly wind. On realising his position he routed West. The pilot has been advised that a call to Birmingham Radar would have greatly assisted in resolving the situation.
200900929	01/02/2009	EGTT : London (FIR)	Bournemouth	7.5E	D	CTR	PIPER	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a PA28R.Traffic info and avoiding action given. Standard separation maintained.	
200901088	07/02/2009	EGTT : London (FIR)	Luton (LUT)	5NW	D	CTR	SOCATA	Turboprop	1	Infringement of the Luton CTR (Class D) by a TBM700 at 3400ft. Departures were stopped. Standard separation maintained.	

200901256	12/02/2009	EGTT : London (FIR)	Bristol International	9SE	D	CTA	HUGHES	Turboshaft	1	Infringement of the Bristol CTA (Class D) by a Hughes 369squawking 7000 at 3000ft. Traffic info given. Standard separation maintained.	
200901335	15/02/2009	EGTT : London (FIR)	Denham	2S	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28 at 2000ft. Standard separation maintained.	
200901353	14/02/2009	EGTT : London (FIR)	Lambourne (LAM)		A	TMA	CIRRUS	Reciprocating	1	Infringement of the LTMA (Class A) by an SR22 squawking 7000 at 3000ft. Traffic info and avoiding action given to an RJ85. Standard separation lost.	
200901353	14/02/2009	EGTT : London (FIR)	Lambourne (LAM)		A	TMA	BAE	Turbofan	4	Infringement of the LTMA (Class A) by an SR22 squawking 7000 at 3000ft. Traffic info and avoiding action given to an RJ85. Standard separation lost.	
200901354	14/02/2009	EGTT : London (FIR)	Luton (LUT)	7SW	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Luton CTR (Class D) by an R44. Standard separation maintained.	

200901357	13/02/2009	EGTT : London (FIR)	Manchester (MCT)		D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a PA28 at1300ft. Standard separation maintained.	
200901371	16/02/2009	EGTT : London (FIR)	Burnham		A	TMA	ROBINSON	Reciprocating	1	Infringement of the LTMA (Class A) by an R44 squawking 7000 at 3000ft. Separation lost.	ATC subsequently discussed the matter with R44 pilot.☐ CAA Closure: Pilot to seek further safety training.
200901371	16/02/2009	EGTT : London (FIR)	Burnham		A	TMA	BOEING	Turbofan	4	Infringement of the LTMA (Class A) by an R44 squawking 7000 at 3000ft. Separation lost.	ATC subsequently discussed the matter with R44 pilot.☐ CAA Closure: Pilot to seek further safety training.
200901395	13/02/2009	EGTT : London (FIR)	Snitterfield		D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a Robin 200 squawking 7000 at 3000ft. Standard separation maintained.	
200901399	10/02/2009	EGTT : London (FIR)	Leeds Bradford (LBA)	7N	D	CTR	OTHER	Reciprocating	1	Infringement of the Leeds/Bradford CTR (Class D) by a Skyranger at 2500ft. Traffic info given. Standard separation maintained.	CAA Closure: Suitable advice given concerning VFR navigation.

200901411	17/02/2009	EGTT : London (FIR)	Epsom (EPM)	2N	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C152 at 1400ft. Standard separation maintained.	Poor landline communication between Farnborough and Odiham resulted in the C152 infringing for approx 2m before being given instructions to turn.
200901444	17/02/2009	EGTT : London (FIR)	London-Gatwick - LGW		D	CTR	ROBINSON	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by an R22 at 1000ft. Traffic info given to an A319. Separation lost.	The R22 pilot appears to have become distracted by a vibration that did not seem to him to be normal and has also stated that his 'electrics' were intermittent. The a/c had apparently had recent maintenance action although the pilot did not report any loss of control or loss of power. Thepilot failed to change to the correct frequency after leaving Redhill which further exacerbated his loss of awareness; however the a/c's transponder was functioning indicating 7000.☐ CAA Closure: The pilot has been contacted and informed as to the details of his infringement as well as the serious nature of such an incident in regards to flight safety.
200901444	17/02/2009	EGTT : London (FIR)	London-Gatwick - LGW		D	CTR	AIRBUS	Turbofan	2	Infringement of the Gatwick CTR (Class D) by an R22 at 1000ft. Traffic info given to an A319. Separation lost.	The R22 pilot appears to have become distracted by a vibration that did not seem to him to be normal and has also stated that his 'electrics' were intermittent. The a/c had apparently had recent maintenance action although the pilot did not report any loss of control or loss of power. Thepilot failed to change to the correct frequency after leaving Redhill which further exacerbated his loss of awareness; however the a/c's transponder was functioning indicating 7000.☐ CAA Closure: The pilot has been contacted and informed as to the details of his infringement as well as the serious nature of such an incident in regards to flight safety.
200901464	17/02/2009	EGTT : London (FIR)	Southampton (SAM)	10N	A	CTA	OTHER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a microlight at 3000ft. Standard separation maintained.	Pilot exceeded the privileges of his licence by entering IMC conditions without the necessary rating.☐ CAA Closure:Pilot interviewed, and it was suggested that he re-gain an IMC rating, which had been gained in early 1980 but had subsequently lapsed.
200901471	18/02/2009	EGTT : London (FIR)	Manchester (MCT)		D	CTR	OTHER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by an unknown microlight. Traffic info given. Standard separation maintained.	

200901559	21/02/2009	EGTT : London (FIR)	Stansted	NW	D	CTA	GRUMMAN	Reciprocating	1	Infringement of Stansted CTA (Class D) by a Grumman AA5B squawking 7000 at 3200ft. Avoiding action given to B737. Separation lost.	Pilot believed that he did not infringe as reported, but apologised if he did inadvertently infringe. Altimeter was set to a QNH given by North Weald and not the Stansted QNH, which may explain the infringement. The pilot was squawking Mode C and claimed he was aware of the airspace above him. □ CAA Closure: Pilot now aware of the incident. No further action required.
200901559	21/02/2009	EGTT : London (FIR)	Stansted	NW	D	CTA	BOEING	Turbofan	2	Infringement of Stansted CTA (Class D) by a Grumman AASB squawking 7000 at 3200ft. Avoiding action given to B737. Separation lost.	Pilot believed that he did not infringe as reported, but apologised if he did inadvertently infringe. Altimeter was set to a QNH given by North Weald and not the Stansted QNH, which may explain the infringement. The pilot was squawking Mode C and claimed he was aware of the airspace above him. □ CAA Closure: Pilot now aware of the incident. No further action required.
200901563	20/02/2009	EGTT : London (FIR)	Andrewsfield		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 2700ft. Standard separation maintained.	CAA Closure: Pilot subsequently apologised for what was a navigation error.
200901564	22/02/2009	EGTT : London (FIR)	Bristol International		D	TMA	PIPER	Reciprocating	1	Infringement of Bristol CTA-6 CAS (Class D) by a PA32 at FL45. Standard separation maintained.	Investigations have revealed that the pilot failed to comply with an ATC instruction to remain outside of CAS. The pilot also thought that an SSR code allocated indicated a clearance into CAS and therefore elected to continue. The pilot is now aware that this is incorrect.
200901565	21/02/2009	EGTT : London (FIR)	Wethersfield		D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C172 squawking 7000 at 1800ft. Two B737 had their approaches delayed. Standard separation maintained.	

200901565	21/02/2009	EGTT : London (FIR)	Wethersfield		D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a C172 squawking 7000 at 1800ft. Two B737 had their approaches delayed. Standard separation maintained.	
200901567	24/01/2009	EGTT : London (FIR)	Woodley (WOD)	4 N	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28R at 2900ft. A/c was instructed to descend. Standard separation maintained.	
200901569	21/02/2009	EGTT : London (FIR)	New Alresford	SW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a C150 squawking 7000 at 1700ft. Standard separation maintained.	When queried over the infringement the pilot stated that he was affected by sun glare.
200901576	19/02/2009	EGTT : London (FIR)	Liverpool		D	CTA	ROBINSON	Reciprocating	1	Infringement of the Liverpool CTA (Class D) by an R44. Standard separation maintained.	
200901578	20/02/2009	EGTT : London (FIR)	London-Gatwick - LGW	NE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a C172 at 2600ft. Traffic info given. Approaches were suspended. Standard separation maintained.	The pilots report indicates that on departing from Biggin, the a/c suffered RT/Nav system problems with the pilot being aware of the priority to remain clear of Gatwick CAS.On reaching the M25, the pilot regained RT contact with Biggin Hill, requested a QDM and then returned.

200901578	20/02/2009	EGTT : London (FIR)	London-Gatwick - LGW	NE	D	CTR	AIRBUS	Turbofan	2	Infringement of the Gatwick CTR (Class D) by a C172 at 2600ft. Traffic info given. Approaches were suspended. Standard separation maintained.	The pilots report indicates that on departing from Biggin, the a/c suffered RT/Nav system problems with the pilot being aware of the priority to remain clear of Gatwick CAS.On reaching the M25, the pilot regained RT contact with Biggin Hill, requested a QDM and then returned.
200901579	21/02/2009	EGTT : London (FIR)	Luton (LUT)	SW	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Luton CTR (Class D) by an R44 at 2400ft. Avoiding action given. Departures were stopped for approx 6mins. Standard separation maintained.	Only one Luton outbound affected.
200901603	21/02/2009	EGTT : London (FIR)	Bournemouth	6NE	D	CTA	MORANE SAULNIER	Reciprocating	1	Alleged infringement of the Bournemouth CTA (Class D) by an MS Rallye. Traffic info and avoiding action given to a C421C.	
200901603	21/02/2009	EGTT : London (FIR)	Bournemouth	6NE	D	CTA	CESSNA	Reciprocating	2	Alleged infringement of the Bournemouth CTA (Class D) by an MS Rallye. Traffic info and avoiding action given to a C421C.	
200901619	13/02/2009	EGTT : London (FIR)	Hawarden		D	CTR	OTHER	Reciprocating	1	Infringement of the Hawarden ATZ (Class G) and the Liverpool CTR (Class D) by a microlight squawking 7000. D&D alerted. Traffic info and avoiding action given.	Standard separation maintained. ATC spoke with pilot who reports having RT and visibility problems.

200901631	19/02/2009	EGTT : London (FIR)	Salisbury Plain	D123	G	Danger area	OTHER	Reciprocating	1	Infringement of Salisbury Plain active Danger Area D123 by an H36 Super Dimona squawking 7000 at 2300ft.	Pilot phoned Air Ops after landing and he was briefing onthe procedures involved.
200901646	23/02/2009	EGTT : London (FIR)	Stansted	10 E	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 2400ft. Standard separation maintained.

200902374	15/03/2009	EGTT : London (FIR)	Bournemouth	3N	D	CTR	OTHER	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by an unknown microlight at 1000ft. Traffic info given. Standard separation maintained.	

200902385	16/03/2009	EGTT : London (FIR)	Southampton (SAM)	14 NNE	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Robin 2160 at 3000ft. Standard separation maintained.	
200902442	17/03/2009	EGTT : London (FIR)	Stansted	5 E	A	TMA	ROBINSON	Reciprocating	1	R22 infringed the London TMA (Class A) and the Stansted CTA (Class D) and lost separation with two outbound B737s, 6mins apart. After landing, R22 reported its GPS had failed.	Infringement attributed to a navigation error contributedto by a reliance on GPS.□ CAA Closure: Pilot did contact ATC after the event and was given advice. He has also madean accurate assessment of the causes of the infringement and what he should learn from it.
200902442	17/03/2009	EGTT : London (FIR)	Stansted	5 E	A	TMA	BOEING	Turbofan	2	R22 infringed the London TMA (Class A) and the Stansted CTA (Class D) and lost separation with two outbound B737s, 6mins apart. After landing, R22 reported its GPS had failed.	Infringement attributed to a navigation error contributedto by a reliance on GPS.□ CAA Closure: Pilot did contact ATC after the event and was given advice. He has also madean accurate assessment of the causes of the infringement and what he should learn from it.
200902461	15/03/2009	EGTT : London (FIR)	Doncaster Sheffield	8 NW	D	CTA	PIPER	Reciprocating	1	Infringement of the Doncaster CTR/CTA (Class D) by a PA28R at 3900ft. Traffic info and avoiding action given.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200902461	15/03/2009	EGTT : London (FIR)	Doncaster Sheffield	8 NW	D	CTA	BOEING	Turbofan	2	Infringement of the Doncaster CTR/CTA (Class D) by a PA28R at 3900ft. Traffic info and avoiding action given.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.

200902475	17/03/2009	EGTT : London (FIR)	Southampton (SAM)	8 NE	D	CTA	MOONEY	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Mooney 20 at 3000ft. Traffic info and avoiding action given. Separation lost.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200902475	17/03/2009	EGTT : London (FIR)	Southampton (SAM)	8 NE	D	CTA	DE HAVILLAND	Turboprop	2	Infringement of the Solent CTA (Class D) by a Mooney 20 at 3000ft. Traffic info and avoiding action given. Separation lost.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200902520	19/03/2009	EGTT : London (FIR)	Altrincham		D	CTR	VANS	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a Vans RV-8 at 1250ft. Standard separation maintained.	
200902525	18/03/2009	EGTT : London (FIR)	White Waltham	8	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28 squawking 7000 at 2800ft. Traffic info and avoiding action givento several a/c inbound to Heathrow. Loss of separation.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200902566	21/03/2009	EGTT : London (FIR)	Stansted	6 NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR/CTA (Class D) by a PA28 squawking 7000. Traffic info and avoiding action given. Standard separation maintained.	

200902566	21/03/2009	EGTT : London (FIR)	Stansted	6 NE	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR/CTA (Class D) by a PA28 squawking 7000. Traffic info and avoiding action given. Standard separation maintained.	
200902567	21/03/2009	EGTT : London (FIR)	Southampton (SAM)	ENE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a Cessna172. Standard separation maintained.	
200902580	20/03/2009	EGTT : London (FIR)	Booker	3SE	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C172 squawking 7000 at 3000ft. Separation lost.	C172 pilot reported that a distraction led to a/c descending later than intended and subsequent infringement of CAS.☐ CAA Closure: The pilot is now fully aware of the serious consequences of infringing CAS.
200902580	20/03/2009	EGTT : London (FIR)	Booker	3SE	A	CTR	UNKNOWN	Unknown		Infringement of the London CTR (Class A) by a C172 squawking 7000 at 3000ft. Separation lost.	C172 pilot reported that a distraction led to a/c descending later than intended and subsequent infringement of CAS.☐ CAA Closure: The pilot is now fully aware of the serious consequences of infringing CAS.
200902582	20/03/2009	EGTT : London (FIR)	London-Gatwick - LGW	5 SE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a Cessna 152at 1900ft. Standard separation maintained. Pilot appears to have misidentified Ardingly Reservoir as Bewl Water.	

200902583	21/03/2009	EGTT : London (FIR)	London-Heathrow - LHR		A	CTR	JABIRU	Reciprocating	1	Infringement of the London CTR (Class A) by a Jabiru UL, at 2000ft. D&D alerted. Separation lost with three Heathrow outbounds.	Appropriate CAA action is being taken as a result of thisincident.
200902583	21/03/2009	EGTT : London (FIR)	London-Heathrow - LHR		A	CTR	AIRBUS	Turbofan	2	Infringement of the London CTR (Class A) by a Jabiru UL, at 2000ft. D&D alerted. Separation lost with three Heathrow outbounds.	Appropriate CAA action is being taken as a result of thisincident.
200902584	22/03/2009	EGTT : London (FIR)	London-Gatwick - LGW	7-8 ENE	D	CTA	ROBINSON	Reciprocating	1	Infringement of the Gatwick CTR/CTA (Class D) by an R22 squawking 7000 at 1200ft. Traffic info given. Separation lost.	The infringement was caused by a student pilot on first solo becoming distracted whilst contacting Redhill and subsequently missing an important feature.☐ CAA Closure: The CFI has instigated instructions for students during their navigation training to help prevent future infringements.
200902584	22/03/2009	EGTT : London (FIR)	London-Gatwick - LGW	7-8 ENE	D	CTA	AIRBUS	Turbofan	2	Infringement of the Gatwick CTR/CTA (Class D) by an R22 squawking 7000 at 1200ft. Traffic info given. Separation lost.	The infringement was caused by a student pilot on first solo becoming distracted whilst contacting Redhill and subsequently missing an important feature.☐ CAA Closure: The CFI has instigated instructions for students during their navigation training to help prevent future infringements.
200902654	22/03/2009	EGTT : London (FIR)	Manchester (MCT)	4 WNW	D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a PA28 squawking 7000. Standard separation maintained. Manchester departures stopped.	Commercial a/c broken off approach and orbited.

200902668	21/03/2009	EGTT : London (FIR)	Nottingham East Midlands	2N	D	CTR	CIRRUS	Reciprocating	1	Infringement of the Nottingham East Midlands CTR (Class D) by an SR20 squawking 7000 at 1700ft. Standard separationmaintained.	
200902747	21/03/2009	EGTT : London (FIR)	D146		G	Danger area	GRUMMAN	Reciprocating	1	Infringement of active Danger Area D146 by a Grumman AA5 at 2100ft. London Information were working the AA5 but were unaware that the Danger Area was active. Standard separation maintained.	An unknown a/c was observed by the Southend controller passing through D146, which was active up to 3000ft amsl. Southend contacted Farnborough LARS who informed Southend that the a/c was on a London FIS squawk (1177) at 2400ft. Oncontacting London FIR, the controller was informed that London FIR were unaware that D146 was active. They were aware of the traffic, which was receiving a Basic Service from FIR. Subsequent investigation determined that D146 is activated by NOTAM and London FIR had not received such information on that day with regard to the Danger Area. □ CAA Closure: Elapsed time precludes further investigation intothe discrepancy between available information. There wereno reported losses of separation/other associated incidents. The pilot of the a/c concerned was in contact with Southend after the incident and was asked to consider callingthe unit when flying in such proximity.
200902763	24/03/2009	EGTT : London (FIR)	London City - LCY		A	TMA	CESSNA	Reciprocating	1	Alleged infringement of the LTMA by a C172 at 2700ft. Traffic info given. Standard separation maintained.	
200902763	24/03/2009	EGTT : London (FIR)	London City - LCY		A	TMA	BAE	Turbofan	4	Alleged infringement of the LTMA by a C172 at 2700ft. Traffic info given. Standard separation maintained.	
200902797	24/03/2009	EGTT : London (FIR)	Leeds Bradford (LBA)	8 NNW	D	CTR	SLINGSBY	Reciprocating	1	Infringement of the Leeds Bradford CTR (Class D) by a Slingsby T67M at 1100ft. Traffic info given. Standard separation maintained.	Pilot spoke with ATC and apologised, acknowledging that he may have turned too early, which along with the strong W/SW wind caused the infringement.

200902802	21/03/2009	EGTT : London (FIR)	Weston On The Green		G	Danger area	CESSNA	Reciprocating	1	Infringement of active Danger Area EG D129 (Weston on theGreen) by a C182 at 2000ft.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200902833	29/03/2009	EGTT : London (FIR)	Lambourne (LAM)	3 W	A	TMA	OTHER	Reciprocating	1	Infringement of the LTMA (Class A) by a Pulsar squawking 7000 at 3000ft. City departures were stopped and inbounds were routed to avoid the traffic. Standard separation maintained.	Same a/c subsequently infringed the same airspace approx 3½ hours later, which again resulted in a disruption to inbound and outbound traffic. ☐ CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200902836	29/03/2009	EGTT : London (FIR)	KEGUN		A	TMA	PIPER	Reciprocating	1	Infringement of the Manchester TMA (Class A) by a PA28 atFL55. Standard separation maintained.	
200902844	29/03/2009	EGTT : London (FIR)	Detling (DET)	W			PIPER	Reciprocating	1	Infringement of the Thames RMA (Class A) by a PA28 squawking 7000 at 3500ft. Standard separation maintained.	
200902924	29/03/2009	EGTT : London (FIR)	Manchester (MCT)	5SSW	D	CTR	OTHER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by an unknown microlight at an estimated 1000ft. Standard separation maintained.	

200902953	22/03/2009	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	OTHER	Other		Infringement of the Biggin Hill ATZ (Class G) by an unknown helicopter at 1500ft. Traffic info given to a PA28. Standard separation maintained.	
200902953	22/03/2009	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	PIPER	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by an unknown helicopter at 1500ft. Traffic info given to a PA28. Standard separation maintained.	
200902956	29/03/2009	EGTT : London (FIR)	Southampton (SAM)	14.5	D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a C175 squawking 7000 at 2500ft. Standard separation maintained.	
200902986	01/04/2009	EGTT : London (FIR)	Bournemouth	4NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a PA28 at 2000ft. Standard separation maintained.	
200903007	01/04/2009	EGTT : London (FIR)	Bovingdon (BNN)	5S	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 at 3000ft. Pilot reports having set the incorrect QNH. Standard separation maintained.	Remedial training action taken as a result of this incident.

200903009	01/04/2009	EGTT : London (FIR)	Luton (LUT)	3 SE	D	CTR	JODEL	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Jodel D150 at 2200ft. Traffic info given. Departures were stopped. Separation lost.	Pilot apologised for his navigation error. □ CAA Closure: The pilot is aware of the serious consequences of infringing CAS.
200903030	02/04/2009	EGTT : London (FIR)	Luton (LUT)	6	D	CTR	CIRRUS	Reciprocating	1	Infringement of the Luton CTR (Class D) by an SR22 at 2400ft. Standard separation maintained.	
200903072	02/04/2009	EGTT : London (FIR)	PENIL	5S	A	TMA	CESSNA	Reciprocating	1	Infringement of the Manchester TMA (Class A) by a C172 at FL58. Standard separation maintained.	
200903073	02/04/2009	EGTT : London (FIR)	Southampton (SAM)	14.3 S	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28R squawking 7000 at 2700ft. Standard separation maintained.	
200903117	30/03/2009	EGTT : London (FIR)	Lands End (LND)		G	ATZ	PIPER	Reciprocating	1	Infringement of the Lands End ATZ (Class G) by a PA28 at 1500ft. Traffic info given. Standard separation maintained. Poor visibility and low cloud evident.	Pilot spoke with ATC apologising for his error.

200903141	05/04/2009	EGTT : London (FIR)	Swansea				OTHER	Reciprocating	1	Aircraft landed at an incorrect airfield due to an alleged navigation error. The pilot had been in contact with, and had received landing permission from, the intended destination.	CAA Closure: The pilot was fully aware of the error and had subsequently filed the initial report.
200903142	05/04/2009	EGTT : London (FIR)	Biggin (BIG)	1S			CESSNA	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by a C152 at 2400ft. Traffic info given. Standard separation maintained.	
200903148	05/04/2009	EGTT : London (FIR)	North Weald		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 at 2400ft. Traffic info given. Standard separation maintained.	CAA Closure: The pilot has written to the CAA explaining the circumstances of this incident with the appropriate lessons appearing to have been learnt. The pilot was using the privileges of his FAA licence during this flight.
200903148	05/04/2009	EGTT : London (FIR)	North Weald		D	CTA	AIRBUS	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 at 2400ft. Traffic info given. Standard separation maintained.	CAA Closure: The pilot has written to the CAA explaining the circumstances of this incident with the appropriate lessons appearing to have been learnt. The pilot was using the privileges of his FAA licence during this flight.
200903199	04/04/2009	EGTT : London (FIR)	Southampton (SAM)	12N	D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a C172 at 3800ft. Traffic info given. Standard separation maintained.	

200903210	06/04/2009	EGTT : London (FIR)	Clacton (CLN)	10W	A	CTA	VANS	Reciprocating	1	Infringement of the Clacton CTA (Class A) by a Vans RV-8 squawking 7000 at FL55. Standard separation maintained.	
200903215	05/04/2009	EGTT : London (FIR)	Detling (DET)	10NNE	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA32 at 4000ft. Standard separation maintained. Several a/c required vectoring to maintain separation.	
200903217	06/04/2009	EGTT : London (FIR)	London-Gatwick - LGW	5 W	D	CTR	PIPER	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a PA28 squawking 7000. Traffic info given. Separation lost. Weather conditions hazy with variable winds.	The pilot has acknowledged his error and telephoned Gatwick ATC to identify himself on arrival at his destination. He appears to have appreciated the reason for his navigation error and has taken advice from an instructor. ☐ CAA Closure: The CAA has advised him that three a/c were affected by his infringement, one being broken off an approach and the two others put into a hold, and controller workload was dramatically increased. It has been suggested he consider that a radio call to the Gatwick frequency when he wasunsure of position would have assisted.
200903217	06/04/2009	EGTT : London (FIR)	London-Gatwick - LGW	5 W	D	CTR	BOEING	Turbofan	2	Infringement of the Gatwick CTR (Class D) by a PA28 squawking 7000. Traffic info given. Separation lost. Weather conditions hazy with variable winds.	The pilot has acknowledged his error and telephoned Gatwick ATC to identify himself on arrival at his destination. He appears to have appreciated the reason for his navigation error and has taken advice from an instructor. ☐ CAA Closure: The CAA has advised him that three a/c were affected by his infringement, one being broken off an approach and the two others put into a hold, and controller workload was dramatically increased. It has been suggested he consider that a radio call to the Gatwick frequency when he wasunsure of position would have assisted.
200903244	05/04/2009	EGTT : London (FIR)	Southampton (SAM)	8 S	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 3000ft. Traffic info given. Standard separation maintained.	

200903267	07/04/2009	EGTT : London (FIR)	London-Heathrow - LHR	NW	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28 at 2300ft. Standard separation maintained.	
200903268	07/04/2009	EGTT : London (FIR)	London-Gatwick - LGW	SE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a C172 at 2100ft. Standard separation maintained.	Pilot apologised for his navigational error, appearing to have mistaken Uckfield for Heathfield. Pilot has since undertaken a further training flight under tutorship of the CFI. Pilot is also to re-sit the PPL navigation theory exam in order to identify any misunderstandings that the pilot may have regarding navigation and control zones.
200903317	08/04/2009	EGTT : London (FIR)	Lower Upham		D	CTR	OTHER	Reciprocating	1	Infringement of the Solent CTR (Class D) by a microlight at 1200ft at Lower Upham, resulting in a loss of separation against a DHC8 on approach. Traffic info given.	CAA Closure: The pilot has been de-briefed by ATC on the infringement and has apologised for his error.
200903317	08/04/2009	EGTT : London (FIR)	Lower Upham		D	CTR	DE HAVILLAND	Turboprop	2	Infringement of the Solent CTR (Class D) by a microlight at 1200ft at Lower Upham, resulting in a loss of separation against a DHC8 on approach. Traffic info given.	CAA Closure: The pilot has been de-briefed by ATC on the infringement and has apologised for his error.
200903336	08/04/2009	EGTT : London (FIR)	Uckfield Farm		D	CTA	OTHER	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a Pegasus Quik at 7000ft. Pilot phoned and apologised for the incident. Standard separation maintained. Pilot had an out of date map.	Investigations have also revealed that the controller concerned did not annotate the strip with the altitude of the a/c and did not detect that the a/c was at a level that would enter CAS.

200903347	09/04/2009	EGTT : London (FIR)	DOMUT		G		PIPER	Reciprocating	1	Infringement of Airway R41 (Class A) by a PA32 at FL70.	
200903353	10/04/2009	EGTT : London (FIR)	Stansted	10S	D	CTA	VANS	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Vans RV-9A at 2300ft. Standard separation maintained.	
200903359	11/04/2009	EGTT : London (FIR)	Compton (CPT)		A	TMA	BOLKOW	Reciprocating	1	Infringement of the LTMA (Class A) by a Bolkow 209 squawking 7000 at FL60. Standard separation maintained.	
200903365	11/04/2009	EGTT : London (FIR)	Cardiff (CDF)	12 W	D	CTA	PIPER	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by a PA28 squawking 7000 at 5000ft. Standard separation maintained.	Investigations have revealed that the a/c was being navigated on radials and DME ranges from a VOR. The primary equipment in the a/c had failed and the secondary system was being used. When transiting to the West of Cardiff, this equipment also failed and an infringement resulted.
200903377	13/04/2009	EGTT : London (FIR)	Mayfield (MAY)	S	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 squawking 7000 at 2900ft. Standard separation maintained.	

200903566	14/04/2009	EGTT : London (FIR)	Burnham	6 N	A	CTR	ROBINSON	Reciprocating	1	Infringement of the London CTR (Class A) by an R44 at 900ft, 6nm North of BUR tracking South towards the Heathrow approach path. Traffic info given. Standard separation maintained.	CAA Closure: Despite writing to the registered owner no additional information has been forthcoming. No further CAAaction considered practical at this time.
200903642	17/02/2009	EGTT : London (FIR)	EGR 313		G	Restrict ed area	PIPER	Reciprocating	1	Infringement of Restricted Area EG R313 by a PA28 climbing to 2100ft. Traffic info issued to the Red Arrows.	Pilot apologised for his error.
200903642	17/02/2009	EGTT : London (FIR)	EGR 313		G	Restrict ed area	OTHER	Unknown		Infringement of Restricted Area EG R313 by a PA28 climbing to 2100ft. Traffic info issued to the Red Arrows.	Pilot apologised for his error.
200903643	18/03/2009	EGTT : London (FIR)	Lyneham	10 SW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Lyneham CTZ by a C182 receiving a BS (Basic Service).	C182 called Boscombe Down after entering Lyneham airspaceand was asked to report passing Devizes at which point controller would have free called it across to Bristol. Controller does not recall if a/c reported Devizes due to other duties, but when C182 did call wanting to change to Bristol, controller did not look for its position due workloadand instructed it to squawk 7000 and freecall Bristol.
200903649	16/04/2009	EGTT : London (FIR)	Birmingham	8.9NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a PA28R squawking 7000 at 2400ft. Standard separation maintained.	The pilot subsequently contacted ATC and apologised for his error.

200903654	19/04/2009	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	CESSNA	Reciprocating	1	Alleged infringement of the Biggin Hill ATZ (Class G) by a C172 at approximately 2000ft.	
200903656	19/04/2009	EGTT : London (FIR)	Denham		A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTA (Class A) by a C152 at 2000ft. Standard separation maintained. Heathrow ATC took avoiding action with an inbound a/c.	ATC unit investigation reveals that the pilot was flying on an Australian PPL and had undergone conversion training. The relevant CFI has been contacted and the pilot's solo flying status has been revoked pending further navigational training.
200903658	19/04/2009	EGTT : London (FIR)	Fairoaks	3 W	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C152 at 1000ft. Standard separation maintained.	
200903663	19/04/2009	EGTT : London (FIR)	Southampton (SAM)	8 NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTR (Class D) by a PA28 at 2000ft. Standard separation maintained. Commercial traffic affected.	Pilot unsure of position due to combination of navigationerrors and poor visibility.☐ CAA Closure: Appropriate advice given.
200903663	19/04/2009	EGTT : London (FIR)	Southampton (SAM)	8 NE	D	CTA	DE HAVILLAND	Turboprop	2	Infringement of the Solent CTR (Class D) by a PA28 at 2000ft. Standard separation maintained. Commercial traffic affected.	Pilot unsure of position due to combination of navigationerrors and poor visibility.☐ CAA Closure: Appropriate advice given.

200903668	18/04/2009	EGTT : London (FIR)	Liverpool		D	CTR	ROBINSON	Reciprocating	1	Infringement of the Liverpool CTR (Class D) by an R22.	Pilot reported being unsure of his bearings.
200903670	18/04/2009	EGTT : London (FIR)	Middlewich	2 E	D	CTR	CESSNA	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a C172 at2200ft. Standard separation maintained.	Standard of RT was very poor.
200903671	19/04/2009	EGTT : London (FIR)	Fairoaks		A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C210. Standard separation maintained.	The controller attempted to turn the a/c away from the CTR but twice used an incorrect registration before the error was realised and the situation resolved.
200903747	20/04/2009	EGTT : London (FIR)	Southampton (SAM)	11N	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 3000ft resulting in a loss of separation against a departing DHC8.	ATC training in progress. The Solent controller saw the situation developing and elected to let the situation run for training value. He subsequently instructed the trainee to turn the DHC8 right on an attempt to achieve 5nm horizontal separation, but this is not believed to have been achieved.
200903747	20/04/2009	EGTT : London (FIR)	Southampton (SAM)	11N	D	CTA	DE HAVILLAND	Turboprop	2	Infringement of the Solent CTA (Class D) by a PA28 at 3000ft resulting in a loss of separation against a departing DHC8.	ATC training in progress. The Solent controller saw the situation developing and elected to let the situation run for training value. He subsequently instructed the trainee to turn the DHC8 right on an attempt to achieve 5nm horizontal separation, but this is not believed to have been achieved.

200903749	20/04/2009	EGTT : London (FIR)	Honiley (HON)	7 W	D	CTR	ROBINSON	Reciprocating	1	Believed two infringements of the Birmingham CTR (Class D) by an R44 squawking 7000 at 1700ft. Standard separation maintained.	The pilot subsequently contacted ATC and apologised citing problems with his GPS. The pilot had also been on the Barnsley QNH, which would probably have accounted for him being above the 1500ft base of the CTA. Appropriate advice passed by ATC to the pilot concerned.
200903800	21/04/2009	EGTT : London (FIR)	Birmingham	13 SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 squawking 7000 between 2200ft and 3300ft. Traffic info and avoiding action given. Standard separation maintained.	The pilot had made a navigational error thinking he was over Redditch when he initiated climb, the a/c was actuallyclose to Leamington Spa. The instructor concerned has received appropriate advice from ATC.
200903800	21/04/2009	EGTT : London (FIR)	Birmingham	13 SE	D	CTA	DE HAVILLAND	Turboprop	2	Infringement of the Birmingham CTA (Class D) by a PA28 squawking 7000 between 2200ft and 3300ft. Traffic info and avoiding action given. Standard separation maintained.	The pilot had made a navigational error thinking he was over Redditch when he initiated climb, the a/c was actuallyclose to Leamington Spa. The instructor concerned has received appropriate advice from ATC.
200903834	14/04/2009	EGTT : London (FIR)	Aberystwyth	SW	G	Danger area	PIPER	Reciprocating	1	Infringement of active Danger Area EG D201 (Aberporth) bya PA28 squawking 7000 at 2900ft. Later PA28 at 1500ft infringed the Danger Area again.	
200903837	11/03/2009	EGTT : London (FIR)	Brize Norton	5 NE	D	CTR	GROB	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a Grob Tutor at 2900ft. Pilot called and apologised.	

200903838	14/03/2009	EGTT : London (FIR)	Brize Norton	6 NE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a C172 at 3000ft. Pilot apologised and was made aware of the implications of his actions.	
200903845	08/02/2009	EGTT : London (FIR)	Brize Norton	6 NW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a C172 squawking 7000. Pilot apologised having become lost due to losing DME. Pilot vectored to Kemble.	He also stated that he was unable to identify his position due to a snowy landscape. Appropriate advice given.
200903846	11/02/2009	EGTT : London (FIR)	Brize Norton	NE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a C182 squawking 7000.	
200903847	11/02/2009	EGTT : London (FIR)	Brize Norton	4 SE	D	CTR	BEECH	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a BE33.	
200903849	26/02/2009	EGTT : London (FIR)	Brize Norton	9 E	D	CTR	CESSNA	Reciprocating	1	Infringement of Brize Norton CTR (Class D) by C182. Pilot apologised.	

200903851	06/01/2009	EGTT : London (FIR)	Brize Norton	8.5 E	D	CTR	PIPER	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a PA28 squawking 7000.	
200903913	23/04/2009	EGTT : London (FIR)	London-Gatwick - LGW	6N	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by an R44. D&D alerted. Traffic info given. Standard separation maintained.	
200903913	23/04/2009	EGTT : London (FIR)	London-Gatwick - LGW	6N	D	CTR	AIRBUS	Turbofan	2	Infringement of the Gatwick CTR (Class D) by an R44. D&D alerted. Traffic info given. Standard separation maintained.	
200903915	23/04/2009	EGTT : London (FIR)	Luton (LUT)	8 NE	D	CTR	OTHER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Skyranger. Traffic info given. Standard separation maintained.	See also 200904227.
200903915	23/04/2009	EGTT : London (FIR)	Luton (LUT)	8 NE	D	CTR	BOEING	Turbofan	2	Infringement of the Luton CTR (Class D) by a Skyranger. Traffic info given. Standard separation maintained.	See also 200904227.

200903918	23/04/2009	EGTT : London (FIR)	Woodley (WOD)	SE	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C172 squawking 7000 at 2900ft. Heathrow departures were stopped. Standard separation maintained.	Pilot reviewed the flight and identified the error.☐ CAA Closure: The pilot has been reminded of the serious consequences of infringing CAS.
200903919	23/04/2009	EGTT : London (FIR)	London-Gatwick - LGW	4 E	D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR/CTA (Class D) by a C182 at 1500ft. A320 broken off approach. Traffic info given. Three a/c were delayed. Separation lost.	CAA Closure: The pilots report indicated that he was avoiding VFR helicopter traffic on departure from Redhill on a similar heading. He is also aware of the serious consequences of infringing controlled airspace. The pilot has apologised.
200903919	23/04/2009	EGTT : London (FIR)	London-Gatwick - LGW	4 E	D	CTR	AIRBUS	Turbofan	2	Infringement of the Gatwick CTR/CTA (Class D) by a C182 at 1500ft. A320 broken off approach. Traffic info given. Three a/c were delayed. Separation lost.	CAA Closure: The pilots report indicated that he was avoiding VFR helicopter traffic on departure from Redhill on a similar heading. He is also aware of the serious consequences of infringing controlled airspace. The pilot has apologised.
200903953	24/04/2009	EGTT : London (FIR)	TRIPO	8 W	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C206 squawking 7000 at 5300ft. Standard separation maintained.	
200903961	24/04/2009	EGTT : London (FIR)	Manchester (MCT)	12 E	D	CTR	BEECH	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a BE36 at2900ft. Standard separation maintained.	

200903968	13/04/2009	EGTT : London (FIR)	Watton		Other	Other	OTHER	Reciprocating	1	Infringement of the Watton Gliding Site by four microlights flying in formation at 600ft.

200903969	13/04/2009	EGTT : London (FIR)	Watton		Other	Other	OTHER	Reciprocating	1	Infringement of the Watton Gliding Site by four microlights flying in formation at 600ft.	
200903982	18/04/2009	EGTT : London (FIR)	Denham	4 SW	A	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the London CTR (Class A) by a DR400 squawking 7000ft. Standard separation maintained.	

200903984	21/04/2009	EGTT : London (FIR)	Odiham		G	ATZ	ROBINSON	Reciprocating	1	Infringement of the Odiham ATZ (Class G) by an R44. Pilot had been instructed to remain outside of the ATZ. Standard separation maintained.	
200903985	25/04/2009	EGTT : London (FIR)	Cowes	SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 3800ft. Standard separation maintained.	
200903986	25/04/2009	EGTT : London (FIR)	Barkway (BKY)		D	CTA	CIRRUS	Reciprocating	1	Infringement of the Stansted CTA (Class D) by an SR22 squawking 7000 at 3000ft. Standard separation maintained.	
200903987	25/04/2009	EGTT : London (FIR)	Luton (LUT)	4W	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Luton CTR (Class D) by an R44 at 1500ft. Standard separation maintained.	
200903988	25/04/2009	EGTT : London (FIR)	Southampton (SAM)	8 SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a PA28 at 1800ft. Traffic info given. Standard separation maintained.	

200903989	26/04/2009	EGTT : London (FIR)	White Waltham	E	A	CTR	PITTS	Reciprocating	1	Infringement of the London CTR (Class A) by a Pitts Special. Separation lost with Heathrow inbound traffic.	Appropriate CAA action is being taken as a result of thisincident.
200903989	26/04/2009	EGTT : London (FIR)	White Waltham	E	A	CTR	UNKNOWN	Unknown		Infringement of the London CTR (Class A) by a Pitts Special. Separation lost with Heathrow inbound traffic.	Appropriate CAA action is being taken as a result of thisincident.
200903990	26/04/2009	EGTT : London (FIR)	London-Gatwick - LGW	NE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a C182. Standard separation maintained.	Investigation progressed under 200903919.
200903995	19/04/2009	EGTT : London (FIR)	Doncaster Sheffield	5	D	CTR	JODEL	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by a D112 at 1200ft. Traffic info and avoiding action given. Standard separation maintained.	
200903995	19/04/2009	EGTT : London (FIR)	Doncaster Sheffield	5	D	CTR	BOEING	Turbofan	2	Infringement of the Doncaster Sheffield CTR (Class D) by a D112 at 1200ft. Traffic info and avoiding action given. Standard separation maintained.	

200904062	26/04/2009	EGTT : London (FIR)	Odiham		G	ATZ	AEROSPATIALE	Turboshaft	1	Infringement of the Odiham ATZ (Class G) by an SA350 at 1700ft. Pilot had been told to remain outside of the ATZ. Standard separation maintained.	
200904105	28/04/2009	EGTT : London (FIR)	Manchester (MCT)	8 NW	D	CTR	OTHER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a Rotorsport MT-03 at 1000ft. Two a/c were put into the hold and another inbound was given an extended circuit. Standard separation maintained.	Navigation error, pilot having misidentified his position.[] CAA Closure: Pilot made aware of the serious consequences of infringing CAS.
200904130	29/04/2009	EGTT : London (FIR)	Manchester (MCT)		D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a PA38. Standard separation maintained.	
200904189	28/04/2009	EGTT : London (FIR)	Chippenham		D	CTR	ROBINSON	Reciprocating	1	Infringement of the Lyneham CTR (Class D) by an R44 at 2000ft. Pilot infringed outbound and also inbound whilst on a navigational exercise. Pilot used incorrect frequency for Lyneham.	The student concerned had correctly completed the PLOG and had a correct marking on his chart. Despite this, he believed the correct frequency for Lyneham was 123.45 not 123.40. The pilot having tried to communicate with Lyneham then assumed, having received no answer, that the unit was closed and proceeded along his planned route through the zone. Pilot has been comprehensively re-briefed regarding entry into controlled airspace.
200904222	03/05/2009	EGTT : London (FIR)	Brookmans Park (BPK)	2 SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 at 2300ft. Departures were put on check all. Avoiding action given. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.

200904227	25/04/2009	EGTT : London (FIR)	Luton (LUT)		D	CTR	OTHER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Skyranger atan estimated 2000ft. Traffic info and avoiding action given to an ATR72. Standard separation maintained.	CAA Closure: Despite writing to the registered owner, no additional information has been forthcoming. No further CAA action considered practical at this time.
200904227	25/04/2009	EGTT : London (FIR)	Luton (LUT)		D	CTR	ATR	Turboprop	2	Infringement of the Luton CTR (Class D) by a Skyranger atan estimated 2000ft. Traffic info and avoiding action given to an ATR72. Standard separation maintained.	CAA Closure: Despite writing to the registered owner, no additional information has been forthcoming. No further CAA action considered practical at this time.
200904228	29/04/2009	EGTT : London (FIR)	Odiham	2 SW	G	ATZ	PIPER	Reciprocating	1	Alleged infringement of the Odiham ATZ (Class G) by a PA28 at 1700ft. Standard separation maintained. Farnborough ATC were providing the a/c with a Basic Service.	High ATC workload.
200904232	01/05/2009	EGTT : London (FIR)	Birmingham	8 NE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a C152 at2800ft. Standard separation maintained.	Pilot spoke with ATC and appropriate advice was passed. Pilot apologised.
200904233	01/05/2009	EGTT : London (FIR)	Bovingdon (BNN)	4 NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 (believed) squawking 7000 at 2600ft. Standard separation maintained.

200905158	26/05/2009	EGTT : London (FIR)	Lambourne (LAM)	5 SE	A	TMA	OTHER	Reciprocating	1	Unidentified microlight infringed LTMA (Class A) and then the Gatwick CTR (Class D) twice. Traffic info and avoiding action was given on first and third infringements where separation was also lost.	An RJ100 inbound to London City was given traffic info on unidentified microlight at 2600ft squawking 7000 and obtained a/c visually. Microlight then descended below CAS to 1500ft and appeared to be following M25 motorway. Microlight then proceeded South and entered Gatwick CTR at 900ft North of airport. Microlight orbited left and left CAS, but 1min later turned South and entered CTR again. A319 was given avoiding action and broken off approach, a following B757 was also broken off approach and a DHC8 was given an orbit.
200905158	26/05/2009	EGTT : London (FIR)	Lambourne (LAM)	5 SE	A	TMA	BAE	Turbofan	4	Unidentified microlight infringed LTMA (Class A) and then the Gatwick CTR (Class D) twice. Traffic info and avoiding action was given on first and third infringements where separation was also lost.	An RJ100 inbound to London City was given traffic info on unidentified microlight at 2600ft squawking 7000 and obtained a/c visually. Microlight then descended below CAS to 1500ft and appeared to be following M25 motorway. Microlight then proceeded South and entered Gatwick CTR at 900ft North of airport. Microlight orbited left and left CAS, but 1min later turned South and entered CTR again. A319 was given avoiding action and broken off approach, a following B757 was also broken off approach and a DHC8 was given an orbit.
200905172	23/05/2009	EGTT : London (FIR)	Nottingham East Midlands	4NE	D	CTR	SOCATA	Reciprocating	1	Infringement of the Nottingham East Midlands CTR (Class D) by a TB10 squawking 7000 at 1700ft. Standard separation maintained.	
200905196	26/05/2009	EGTT : London (FIR)	Brecon (BCN)	9 SE	D	CTA	VANS	Reciprocating	1	RV4 at 4400ft infringed the Cardiff CTA, CTA-5 (Class D). Pilot believed base of CAS where RV4 was routing was 5500ft. Standard separation maintained.	
200905230	24/05/2009	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	AEROSPATIALE	Turboshaft	1	Infringement of the Biggin Hill ATZ (Class G) by an SA350 at 2400ft. Standard separation maintained.	

200905295	04/05/2009	EGTT : London (FIR)	EGD036	Portsmouth	G	Danger area	EUROPA	Reciprocating	1	Infringement of Danger Area D036 (Portsmouth) by a Europaat 3000ft.	
200905324	29/05/2009	EGTT : London (FIR)	Stansted	SE	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA by a PA28R squawking 7000 at 3600ft. Standard separation maintained.	
200905325	29/05/2009	EGTT : London (FIR)	London City - LCY	16 SE	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C152 squawking 7000 at 3400ft. Standard separation maintained.	
200905332	30/05/2009	EGTT : London (FIR)	Stansted	20 SE	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C152 squawking 7000 at 3800ft. Standard separation maintained.	
200905333	29/05/2009	EGTT : London (FIR)	Southampton (SAM)	8.6 W	D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a C172 at 2900ft. Standard separation maintained.	

200905334	30/05/2009	EGTT : London (FIR)	Stansted	8 SW	D	CTA	MOONEY	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Mooney 20at 2000ft. Standard separation maintained. A/c believed lost.	Mooney called Cambridge ATC finals for R/W05 but not observed by ATC. Cambridge instructed the a/c to go-around andadvised the a/c they were not at Cambridge and to contactEssex Radar for assistance. LTCC noted a/c overhead NorthWeald.
200905338	30/05/2009	EGTT : London (FIR)	Needles	Isle of Wight	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 squawking 7000 at 2600ft. Standard separation maintained.	
200905352	31/05/2009	EGTT : London (FIR)	London-Gatwick - LGW	E	D	CTR	PIPER	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a PA28 at 2000ft. Gatwick SFD departures were stopped. Standard separation maintained.	Pilot allegedly showed poor language skills. The pilot had planned his route too close to CAS and was unaware of the infringement until after landing. □ CAA Closure: The pilot has been reminded of the serious consequences of infringing CAS.
200905358	31/05/2009	EGTT : London (FIR)	Hawarden		A		GRUMMAN	Reciprocating	1	Infringement of Airway N864 (Class A) by an AA5 at 4400ft. Standard separation maintained.	Pilot apologised.

200905728	30/05/2009	EGTT : London (FIR)	Weston On The Green			Danger area	CESSNA	Reciprocating	1	Infringement of active Danger Area D129 (Weston on the Green) by a C182 at an estimated 1000ft.	

200905772	09/06/2009	EGTT : London (FIR)	Leighton Buzzard	S	D	CTR	DIAMOND	Reciprocating	1	Infringement of the Luton CTA/CTR (Class D) by a DA40 squawking 7000 between 2000ft and 3000ft. Standard separationmaintained.	Solo student. Navigation error identified by the student's CFI. Student pilot to undergo further training.
200905777	08/06/2009	EGTT : London (FIR)	Ronaldsway	3.5NE	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Isle of Man CTR (Class D) by an R44 at 1200ft. Standard separation maintained.	
200905789	10/06/2009	EGTT : London (FIR)	Castlemartin		G	Danger area	CIRRUS	Reciprocating	1	Due to alleged lack/poor information, FISO believed Danger Area EG D113B (Castlemartin Range) was inactive. This resulted in an SR22 receiving a BS (Basic Service) infringing the active Danger Area.	SR22 called FISO at 0808hrs requesting status of Danger Area EG D113B (Castlemartin Range). SIS (Service Information System) recorded it as blue and Danger Area chart was checked, which stated activity as 0830-2359hrs Mon-Fri and as notified. Info was passed to SR22, which stated it wouldbe through before it became active. LJAO subsequently reported that SR22 had flown through activate Danger Area. Itappears the military assistant had different times and was late in amending SIS page. Also, there is a caveat to info on Danger Area chart stating Danger Area is open 1hr earlier during the summer period.
200905799	22/04/2009	EGTT : London (FIR)	Lyneham		D	Danger area	MORANE SAULNIER	Reciprocating	1	Infringement of the Lyneham CTR (Class D) by an MS Rallyesquawking 7000 at 1500ft. Also alleged that a/c infringedactive Danger Area D129 (Weston on the Green).	The a/c had allegedly earlier infringed Danger Area EG D125 while living firing was taking place. No specific evidence was presented for the alleged Danger Area infringement, but pilot apologised for Lyneham Zone infringement, believing he was outside CAS. Navigation errors suspected, including misidentification of turning point.□ CAA Closure: Appropriate advice given for avoiding infringements. Additionally, NATS AWARE device and other initiatives should reduce future risk.
200905834	11/06/2009	EGTT : London (FIR)	Wellesbourne Mountford	5 S	A		AVIONS ROBIN	Reciprocating	1	Infringement of Airway N589 (Class A) by a Robin R2160 atFL75. Standard separation maintained.	

200905839	05/06/2009	EGTT : London (FIR)	Burtonwood		D	CTR	GROB	Reciprocating	1	Infringement of the Liverpool CTR (Class D) by a Grob G115 a/c squawking 7000 at 2000ft. Traffic info given. Departures were stopped and two missed approaches flown. Standard separation maintained.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.

200906074	13/06/2009	EGTT : London (FIR)	Benson	NW	G	Restrict ed area	OTHER	Unknown		UK AIRPROX 2009/048 - Military a/c and two microlights, Northwest of RAF Benson at 2000ft.	Military a/c was operating as the lead a/c of a NOTAMed flypast formation. Military a/c received info upon ATC handover of a two a/c contact. One microlight was sighted in the 1 o'clock position and the military a/c took evasive action. Another military formation following behind also reported an Airprox with one microlight but had seen two a/c in close formation. The second military a/c formation also reported taking evasive action. □ CAA Closure: The pilot of the second a/c "led" the microlight formation but from the back and the pilots of both a/c had not formulated a plan for what to do in the event that the two a/c infringed the NOTAMed RA(T). Although the a/c "leading" the formation i.e. the one behind, climbed to avoid the RA there was no way of communicating that to the first a/c. There was also no attempt made to establish communication with ATC. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200906074	13/06/2009	EGTT : London (FIR)	Benson	NW	G	Restrict ed area	OTHER	Reciprocating	1	UK AIRPROX 2009/048 - Military a/c and two microlights, Northwest of RAF Benson at 2000ft.	Military a/c was operating as the lead a/c of a NOTAMed flypast formation. Military a/c received info upon ATC handover of a two a/c contact. One microlight was sighted in the 1 o'clock position and the military a/c took evasive action. Another military formation following behind also reported an Airprox with one microlight but had seen two a/c in close formation. The second military a/c formation also reported taking evasive action. □ CAA Closure: The pilot of the second a/c "led" the microlight formation but from the back and the pilots of both a/c had not formulated a plan for what to do in the event that the two a/c infringed the NOTAMed RA(T). Although the a/c "leading" the formation i.e. the one behind, climbed to avoid the RA there was no way of communicating that to the first a/c. There was also no attempt made to establish communication with ATC. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
200906099	13/06/2009	EGTT : London (FIR)	Doncaster Sheffield	10nm SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Doncaster CTA/CTR (Class D) and ATZ by a PA32. ATC contacted the pilot, who was unaware he was transiting through CAS. Standard separation maintained.	Traffic info given. PA32 pilot was using an old chart and acknowledged additional navigation error. □ CAA Closure: Pilot advised to undergo remedial navigation training and warned about future incidents.
200906100	23/05/2009	EGTT : London (FIR)	Gamston (GAM)	2N			CESSNA	Reciprocating	1	Infringement of the Doncaster Sheffield CTA (Class D) by a C182 squawking 7000 at 3500ft. Pilot apologised.

200906259	20/06/2009	EGTT : London (FIR)	Bovingdon (BNN)	2 SE	A	TMA	EUROCOPTER	Turboshaft	1	Infringement of the LTMA by an EC120 squawking 7000 at 2900ft. Separation lost.	Investigation established that the flight was being conducted by a Flying Instructor (FI) on a pilot who was to flythe helicopter the next day to the British Grand Prix. The company wanted to be sure the pilot was fully briefed onthe airfield and surrounding areas as it was her first visit to the event. However, the FI was momentarily distracted and did not immediately notice that the pilot had allowed the helicopter to drift upwards.☐ CAA Closure: The pilot was reminded of the maximum altitude within the LTMA, while appropriate remedial action was taken concerning the FI.
200906259	20/06/2009	EGTT : London (FIR)	Bovingdon (BNN)	2 SE	A	TMA	BOEING	Turbofan	2	Infringement of the LTMA by an EC120 squawking 7000 at 2900ft. Separation lost.	Investigation established that the flight was being conducted by a Flying Instructor (FI) on a pilot who was to flythe helicopter the next day to the British Grand Prix. The company wanted to be sure the pilot was fully briefed onthe airfield and surrounding areas as it was her first visit to the event. However, the FI was momentarily distracted and did not immediately notice that the pilot had allowed the helicopter to drift upwards.☐ CAA Closure: The pilot was reminded of the maximum altitude within the LTMA, while appropriate remedial action was taken concerning the FI.
200906262	21/06/2009	EGTT : London (FIR)	Stansted	8nm	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28. Standard separation maintained.	

200906263	21/06/2009	EGTT : London (FIR)	North Weald	3 N	D	CTA	OTHER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a microlight at 2000ft. Standard separation maintained.	CAA Closure: The pilot appears to have entered Class D airspace surrounding North Weald at a height above the base of 1500ft and he acknowledges that an incorrect altimeter setting may have contributed to the error. A letter has been sent to the pilot concerned.
200906265	21/06/2009	EGTT : London (FIR)	Silverstone		A	Restrict ed area	CIRRUS	Reciprocating	1	Infringement of the Red Arrows RA(T) at Silverstone by anSR22. Traffic info given. The SR22 was receiving a service from a military LARS unit at the time of the infringement.	Appropriate CAA action is being taken as a result of thisincident.

Standard separation maintained.	Pilot navigation error.☐ CAA Closure: Appropriate flight planning and navigational advice given to Bell 206 pilot.
200907138	10/07/2009	EGTT : London (FIR)	Stansted	NE	D	CTA	MCDONNELL DOUGLAS	Turbofan	2	Infringement of the Stansted CTA (Class D) by a Bell 206 squawking 7000 at 2300ft. Traffic info given. Standard separation maintained.	Pilot navigation error.☐ CAA Closure: Appropriate flight planning and navigational advice given to Bell 206 pilot.
200907158	12/07/2009	EGTT : London (FIR)	Honiley (HON)	10m	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 atFL43. Standard separation maintained.	Pilot became distracted and entered CAS whilst attemptingto resolve a radio technical fault following a loss of RTcontact. Pilot debriefed by ATC.

200907159	12/07/2009	EGTT : London (FIR)	Stansted		D	CTA	CIRRUS	Reciprocating	1	Infringement of the Stansted CTA (Class D) by an SR20 squawking 7000 at 2000ft. Standard separation maintained.	
200907161	11/07/2009	EGTT : London (FIR)	Clacton (CLN)	5 SE	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA46T at FL75. Standard separation maintained.	Pilot reports that his charts dated 2009 showed the base at FL105. Pilot apologised.
200907168	11/07/2009	EGTT : London (FIR)	Headcorn / Lashenden	3SW	A	TMA	CESSNA	Turboprop	1	Infringement of the LTMA (Class A) by a C208 at 4500ft. Standard separation maintained.	
200907169	10/07/2009	EGTT : London (FIR)	London City - LCY	13 E	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C172 at 2800ft. Traffic info and avoiding action given. Separation lost.	The C172 pilot reports that he was familiar with the route and was aware of the base level of uncontrolled airspace. He was squawking 4653 with Mode C and was receiving a service from Farnborough LARS. He achieved his PPL in Jan 2009 and had since flown 30 hours. He suspects that he incorrectly set his altimeter and apologised for his error.☐ CAA Closure: Appropriate advice given.
200907169	10/07/2009	EGTT : London (FIR)	London City - LCY	13 E	A	TMA	CESSNA	Turbofan	2	Infringement of the LTMA (Class A) by a C172 at 2800ft. Traffic info and avoiding action given. Separation lost.	The C172 pilot reports that he was familiar with the route and was aware of the base level of uncontrolled airspace. He was squawking 4653 with Mode C and was receiving a service from Farnborough LARS. He achieved his PPL in Jan 2009 and had since flown 30 hours. He suspects that he incorrectly set his altimeter and apologised for his error.☐ CAA Closure: Appropriate advice given.

200907173	10/07/2009	EGTT : London (FIR)	Heaton Park		D	CTR	GROB	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a Grob G115. Standard separation maintained.	Pilot apologised.
200907180	10/07/2009	EGTT : London (FIR)	Bovingdon (BNN)	4SW	A	TMA	AVIONS ROBIN	Reciprocating	1	Infringement of the LTMA (Class A) by a Robin DR400 at 3400ft. Standard separation maintained.	
200907244	10/07/2009	EGTT : London (FIR)	Birmingham	8 SW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a C152 at2300ft. One a/c was broken off approach and other a/c were delayed. Traffic info given. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
200907245	12/07/2009	EGTT : London (FIR)	Stansted	12m	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Robin DR400 squawking 7000 at 2000ft. Standard separation maintained.	
200907246	12/07/2009	EGTT : London (FIR)	Hatfield		A	TMA	PITTS	Reciprocating	1	Infringement of the LTMA (Class A) by a Pitts Special carrying out aerobatics. A check all was placed on Luton departures. Standard separation maintained.	One a/c in the vicinity had to make considerable track alteration to avoid the Pitts Special a/c.☐ CAA Closure: Following advice from CFI, pilot will practice in an area where LTMA increases to 4500ft, there is less traffic and more open space for aerobatics.

200907247	13/07/2009	EGTT : London (FIR)	Stansted		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class A) by a PA28 squawking 7000.	
200907249	13/07/2009	EGTT : London (FIR)	Stansted		D	CTA	ROCKWELL	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Rockwell 112 squawking 7000 at 2000ft. Standard separation maintained.	
200907260	12/07/2009	EGTT : London (FIR)	Nottingham East Midlands	2NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Nottingham East Midlands CTR (Class D) by a PA28 squawking 7000. Standard separation maintained.	
200907274	12/07/2009	EGTT : London (FIR)	Leeds Bradford (LBA)	10S	D	CTA	NORTH AMERICAN	Reciprocating	1	Infringement of the Leeds Bradford CTA (Class D) by a T6 Havard at an estimated 2800ft. Traffic info given.	ATC spoke with pilot who confirmed that he had inadvertently penetrated the CTA due to a misread of his chart.
200907296	13/07/2009	EGTT : London (FIR)	Southampton (SAM)	7.9m	D	CTA	PIPER	Reciprocating	1	Alleged infringement of the Solent CTA (Class D) by a PA28 squawking 7000. Traffic info given. Standard separation maintained.	

200907296	13/07/2009	EGTT : London (FIR)	Southampton (SAM)	7.9m	D	CTA	DE HAVILLAND	Turboprop	2	Alleged infringement of the Solent CTA (Class D) by a PA28 squawking 7000. Traffic info given. Standard separation maintained.	
200907302	14/07/2009	EGTT : London (FIR)	Birmingham	12m	D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C152 squawking 7000 at 2200ft. A 'check all' was placed on Birmingham departures. Standard separation maintained.	Pilot contacted by the ATC unit after landing. Pilot apologised for the error.
200907341	10/07/2009	EGTT : London (FIR)	EG D036			Danger area	VANS	Reciprocating	1	Infringement of active Danger Area EG D036 by an RV6 squawking 7000 at FL29.	
200907381	16/07/2009	EGTT : London (FIR)	London-Gatwick - LGW	10W	D	CTA	CESSNA	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a C172 at 2000ft. Departures were stopped. Standard separation maintained.	The pilot was a student engaged on a cross-country navigation exercise. He mistakenly used a distance on his plan as a time and flew further North than his first turning point, which put him into CAS on his second leg.☐ CAA Closure: Extensive remedial navigation training undertaken, including map reading in the vicinity of the Gatwick CTA.
200907394	09/07/2009	EGTT : London (FIR)	Doncaster Sheffield		D	CTR	EUROPA	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by a Europa at 1800ft. Standard separation maintained.	

200907395	10/07/2009	EGTT : London (FIR)	Doncaster Sheffield		D	CTR	GROB	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by military a/c at 3000ft. Traffic info given. Standard separation maintained.	
200907395	10/07/2009	EGTT : London (FIR)	Doncaster Sheffield		D	CTR	BOEING	Turbofan	2	Infringement of the Doncaster Sheffield CTR (Class D) by military a/c at 3000ft. Traffic info given. Standard separation maintained.	
200907426	18/07/2009	EGTT : London (FIR)	North Weald		D	CTR	MORANE SAULNIER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by an MS Rallye at 2000ft. Standard separation maintained.	Pilot apologised stating in his report he had become distracted due to an ill passenger.
200907436	18/07/2009	EGTT : London (FIR)	London-Gatwick - LGW	7 E	D	CTR	DE HAVILLAND	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a Chipmunk. Traffic info given to an A319. One other a/c delayed. Standard separation maintained	Appropriate CAA action is being taken as a result of thisincident.
200907436	18/07/2009	EGTT : London (FIR)	London-Gatwick - LGW	7 E	D	CTR	AIRBUS	Turbofan	2	Infringement of the Gatwick CTR (Class D) by a Chipmunk. Traffic info given to an A319. One other a/c delayed. Standard separation maintained	Appropriate CAA action is being taken as a result of thisincident.

200907484	19/07/2009	EGTT : London (FIR)	Doncaster Sheffield	12 N	D	CTA	CESSNA	Reciprocating	1	Infringement of the Doncaster CTA (Class D) by a C182 at 2500ft resulting in a loss of separation against an inbound DHC8. Traffic info and avoiding action given.	The C182 pilot subsequently phoned ATC to apologise. During the flight he had lost the HSI/RMI. In trying to rectify the problems the a/c entered heavy precipitation as a result of which the pilot became temporarily unaware of his position. He had previously selected the Humberside frequency on his second radio so during the instrument problems he had insufficient time to call Doncaster to advise of his situation. As soon as he became aware of his position hedescended and tracked away.
200907484	19/07/2009	EGTT : London (FIR)	Doncaster Sheffield	12 N	D	CTA	DE HAVILLAND	Turboprop	2	Infringement of the Doncaster CTA (Class D) by a C182 at 2500ft resulting in a loss of separation against an inbound DHC8. Traffic info and avoiding action given.	The C182 pilot subsequently phoned ATC to apologise. During the flight he had lost the HSI/RMI. In trying to rectify the problems the a/c entered heavy precipitation as a result of which the pilot became temporarily unaware of his position. He had previously selected the Humberside frequency on his second radio so during the instrument problems he had insufficient time to call Doncaster to advise of his situation. As soon as he became aware of his position hedescended and tracked away.
200907516	20/07/2009	EGTT : London (FIR)	SANDY		A		EUROCOPTER	Turboshaft	1	Infringement of Worthing CTA (Class A) by an EC120 at FL110. Standard separation maintained. Believed that the EC120 was climbed by Lille Approach.	Lille rang LACC to state that the EC120 would be routing to a point 10nm West of ING at FL135. The pilot had submitted a VFR flight plan and LACC had no details. The call from Lille was made as the helicopter entered LACC airspace.The Lille controller appeared to believe that the helicopter was in his airspace.
200907549	21/07/2009	EGTT : London (FIR)	WILLO	5 WSW	A	TMA	DIAMOND	Reciprocating	1	Infringement of the LTMA (Class A) and the Gatwick CTA (Class D) by a DA40 squawking 7000 at 3000ft. Separation lost. Student pilot.	Student pilot flying solo had been instructed to fly at 2000ft but instead flew at 3000ft, misidentified his visualreference and entered CAS, initially as an unidentified a/c. As soon as the pilot realised he had misidentified hisvisual reference he turned South, however, by that time departures had already been stopped. Pilot had also been incorrectly briefed by his instructor to remain on the Shoreham frequency rather than contact Farnborough due to the planned route going through the Shoreham overhead.
200907632	23/07/2009	EGTT : London (FIR)	Honiley (HON)	7m	D	CTA	BEECH	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a BE36 squawking 7000 at 1900ft. Standard separation maintained.	Following pilot discussions with ATC, it appears that theinfringement resulted from the pilot failing to recognisethat his intended route would take him through a portion of Birmingham airspace where the base is 1500ft.

200907643	22/07/2009	EGTT : London (FIR)	Bristol International		D	CTA	CESSNA	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a C172 at 1800ft. Standard separation maintained.	Pilot apologised.
200907706	17/07/2009	EGTT : London (FIR)	EG D026		G	Danger area	CESSNA	Reciprocating	1	Infringement of active Danger Area EG D026 by a C182 at 3000ft.	It appears that Bournemouth ATC had been contacted by Lulworth earlier in the day and told that they were not firing on this day and the range would be cold. Bournemouth ATCpassed this info on to the a/c. Plymouth Military are concerned that there could be NGS firing or cabin gun firing that Lulworth would not be aware of. No actual activity was taking place at the time of the infringement.
200907709	22/07/2009	EGTT : London (FIR)	EG D004		G	Danger area	PILATUS	Turboprop	1	Infringement of active Danger Area EG D004 by a PC12 at FL210.	
200907711	22/07/2009	EGTT : London (FIR)	EG D026		G	Danger area	SCOTTISH AVIATION	Reciprocating	1	Infringement of active Danger Area EG D026 by a Bulldog. ATC procedural problems were highlighted as a result of this incident.	
200907719	25/07/2009	EGTT : London (FIR)	Honiley (HON)	1W	D	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by PA28 squawking 7000 at 1300ft. Traffic info given. Standard separation maintained.	The infringement was caused by a navigational error. Pilot given appropriate advice by ATC staff.

200907720	26/07/2009	EGTT : London (FIR)	Stansted		D	CTR	OTHER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by an unknown microlight. One a/c broken off approach. Standard separation maintained.	Pilot of DHC8 said the a/c may have been some form of kite.
200907720	26/07/2009	EGTT : London (FIR)	Stansted		D	CTR	DE HAVILLAND	Turboprop	2	Infringement of the Stansted CTR (Class D) by an unknown microlight. One a/c broken off approach. Standard separation maintained.	Pilot of DHC8 said the a/c may have been some form of kite.
200907805	26/07/2009	EGTT : London (FIR)	Luton (LUT)		D	CTR	OTHER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a microlight squawking 7000 at an estimated 1500ft. Two a/c were delayedin departing by approx 5mins. Standard separation maintained.	
200907805	26/07/2009	EGTT : London (FIR)	Luton (LUT)		D	CTR	HAWKER SIDDELEY	Turbofan	2	Infringement of the Luton CTR (Class D) by a microlight squawking 7000 at an estimated 1500ft. Two a/c were delayedin departing by approx 5mins. Standard separation maintained.	
200907808	27/07/2009	EGTT : London (FIR)	Luton (LUT)	NE	D	CTR	OTHER	Reciprocating	1	Infringement of the Luton CTR (Class D) by numerous microlights. Traffic info given. Both inbound and outbound traffic out of Luton was delayed. Standard separation maintained.	

200907841	28/07/2009	EGTT : London (FIR)	Stansted	11 NE	D	CTA	OTHER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a microlight squawking 7000 at 2500ft. Traffic info given. Standard separation maintained. Inbound traffic affected.	An incorrect flight plan was also filed for the this a/c indicating that it was departing Cambridge at 1000hrs when the a/c had not actually landed there.☐ CAA Closure: The incident was subject to an investigation by the French Authorities.
200907842	28/07/2009	EGTT : London (FIR)	Stevenage	2 E	D	CTA	PIPER	Reciprocating	1	Infringement of the Luton CTA (Class D) by a PA28 squawking 7000 at 3000ft. Standard separation maintained.	This a/c has been involved in recent similar incidents. PA28 pilot became distracted while investigating an intermittent RT fault and inadvertently climbed above desired altitude.☐ CAA Closure: Pilot apologised for any inconvenience and confirmed that the comms problem has been diagnosed and rectified.
200907866	27/07/2009	EGTT : London (FIR)	Luton (LUT)		D	CTR	OTHER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a microlight at 1500ft. Traffic info given. Five a/c were delayed. Microlight subsequently went on to infringe the Stansted CTR (Class D).	Standard separation maintained.
200907866	27/07/2009	EGTT : London (FIR)	Luton (LUT)		D	CTR	AIRBUS	Turbofan	2	Infringement of the Luton CTR (Class D) by a microlight at 1500ft. Traffic info given. Five a/c were delayed. Microlight subsequently went on to infringe the Stansted CTR (Class D).	Standard separation maintained.
200907867	26/07/2009	EGTT : London (FIR)	Burnham	5 N	A	TMA		Reciprocating	1	Infringement of the LTMA (Class A) by a Maule MX7 squawking 7000 at 3500ft. Standard separation maintained.	Appropriate CAA action is being taken as a result of this incident.

200907880	25/07/2009	EGTT : London (FIR)	Liverpool		D	CTR	UNKNOWN	Reciprocating	1	Infringement of the Liverpool CTR (Class D) by a Sipa 903at 1500ft. Traffic info and avoiding action given. Separation lost.	CAA Closure: No further CAA action is considered applicable at this time.
200907880	25/07/2009	EGTT : London (FIR)	Liverpool		D	CTR	UNKNOWN	Unknown		Infringement of the Liverpool CTR (Class D) by a Sipa 903at 1500ft. Traffic info and avoiding action given. Separation lost.	CAA Closure: No further CAA action is considered applicable at this time.
200907964	30/07/2009	EGTT : London (FIR)	Midhurst (MID)	3SE	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C172 at 3000ft. Standard separation maintained.	
200907972	25/07/2009	EGTT : London (FIR)	Weston On The Green			Danger area	CESSNA	Reciprocating	1	Infringement of active Danger Area D129 (Weston on the Green) by a C152 at an estimated 1500ft. Parachutists were active.	
200907995	02/08/2009	EGTT : London (FIR)	Luton (LUT)	S	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 squawking 7000 at 2000ft. Traffic info given. Separation lost.	Pilot subsequently called Luton and reported being unsureof his position and requesting vectors to Elstree. Investigation progressed under 200906430.

200907995	02/08/2009	EGTT : London (FIR)	Luton (LUT)	S	D	CTR	BOEING	Turbofan	2	Infringement of the Luton CTR (Class D) by a PA28 squawking 7000 at 2000ft. Traffic info given. Separation lost.	Pilot subsequently called Luton and reported being unsureof his position and requesting vectors to Elstree. Investigation progressed under 200906430.
200908002	31/07/2009	EGTT : London (FIR)	Barkway (BKY)	3NW	D	CTA	PIAGGIO	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Piaggio P149 squawking 7000 at 3200ft. Westbound departures were stopped. Standard separation maintained.	
200908004	01/08/2009	EGTT : London (FIR)	Andrewsfield	2 NW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) and the Wethersfield Gliding Site by a C152 squawking 7000 at 1500ft. Standard separation maintained.	CAA Closure: ATC did not take any further action with thepilot. Incident filed on their database for future information.
200908005	01/08/2009	EGTT : London (FIR)	Stansted	10 NE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C172 squawking 7000 at 2000ft. Traffic info and avoiding action given. CL600 broken off approach. Separation lost.	After speaking to London Information, C172 pilots erroneously believed that they were cleared to continue at 2000ftdirect to destination. This was not the case, and a/c subsequently infringed the Stansted CTA.□ CAA Closure: C172 pilots assumed that they were receiving a similar ATC service as they were used to in Germany. This was not the case and they are now aware of UK procedures. Following this incident, pilots will always call ATC units in the vicinity of controlled aerodromes when flying outside of Germany.
200908005	01/08/2009	EGTT : London (FIR)	Stansted	10 NE	D	CTA	CANADAIR	Turbofan	2	Infringement of the Stansted CTA (Class D) by a C172 squawking 7000 at 2000ft. Traffic info and avoiding action given. CL600 broken off approach. Separation lost.	After speaking to London Information, C172 pilots erroneously believed that they were cleared to continue at 2000ftdirect to destination. This was not the case, and a/c subsequently infringed the Stansted CTA.□ CAA Closure: C172 pilots assumed that they were receiving a similar ATC service as they were used to in Germany. This was not the case and they are now aware of UK procedures. Following this incident, pilots will always call ATC units in the vicinity of controlled aerodromes when flying outside of Germany.

200908008	02/08/2009	EGTT : London (FIR)	Stansted	10NNE	D	CTA	JODEL	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Jodel DR250 squawking 7000 at 2400ft. Standard separation maintained.	
200908008	02/08/2009	EGTT : London (FIR)	Stansted	10NNE	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a Jodel DR250 squawking 7000 at 2400ft. Standard separation maintained.	
200908010	02/08/2009	EGTT : London (FIR)	Stansted	E	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 at 2300ft. Traffic info and avoiding action given. Several a/c were delayed. Separation lost.	Appropriate CAA action is being taken as a result of thisincident.
200908010	02/08/2009	EGTT : London (FIR)	Stansted	E	D	CTA	AIRBUS	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 at 2300ft. Traffic info and avoiding action given. Several a/c were delayed. Separation lost.	Appropriate CAA action is being taken as a result of thisincident.
200908014	02/08/2009	EGTT : London (FIR)	Southampton (SAM)	11NW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a C172 at 3500ft. Standard separation maintained.	

200908022	02/08/2009	EGTT : London (FIR)	Southampton (SAM)	8SW	D	CTR	OTHER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a microlight. Standard separation maintained.	ATC spoke with pilot who believed they had not infringed and had possibly been blown off course by the wind, which was stronger than anticipated.
200908024	02/08/2009	EGTT : London (FIR)	Southampton (SAM)	NE	D	Danger area	AVIONS ROBIN	Reciprocating	1	Infringement of the Solent CTA (Class D) and possibly Danger Area D127 by a Robin 400 squawking 7000 at 3200ft. Traffic info and avoiding action given. Separation lost.	Investigation established that both pilots were involved in familiarising themselves with new GPS equipment to the detriment of flying and navigating the a/c.☐ CAA Closure: Appropriate lesson learnt from this incident.
200908024	02/08/2009	EGTT : London (FIR)	Southampton (SAM)	NE	D	Danger area	DE HAVILLAND	Turboprop	2	Infringement of the Solent CTA (Class D) and possibly Danger Area D127 by a Robin 400 squawking 7000 at 3200ft. Traffic info and avoiding action given. Separation lost.	Investigation established that both pilots were involved in familiarising themselves with new GPS equipment to the detriment of flying and navigating the a/c.☐ CAA Closure: Appropriate lesson learnt from this incident.
200908077	02/08/2009	EGTT : London (FIR)	Biggin (BIG)		G		PIPER	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by a PA28 at 2000ft. Traffic info passed to traffic in Biggin Hill circuit. Standard separation maintained.	
200908095	03/08/2009	EGTT : London (FIR)	Luton (LUT)	4N	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C152 at 1800ft. Standard separation maintained.	

200908097	03/08/2009	EGTT : London (FIR)	Southampton (SAM)	12 N	A	TMA	CIRRUS	Reciprocating	1	Infringement of the LTMA (Class A) by an SR22 at FL80. SR22 allegedly under the control of LJAO. Standard separation maintained.	
200908112	31/07/2009	EGTT : London (FIR)	Wadworth	2 SE	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by an R44 at 1500ft. Standard separation maintained.	Previous occurrence reported concerning this R44. The pilot had requested a Basic Service from the ATS and the pilots first call to Doncaster was made within the boundary ofthe CTR. The root cause of this incident was a pilot navigational error.☐ CAA Closure: The pilot was contacted by the CAA and consequently furnished an account of the event where he admitted that he could learn lessons from the event despite being an experienced pilot.
200908113	02/08/2009	EGTT : London (FIR)	Doncaster Sheffield	5N	D	CTR	CESSNA	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by a C172 at 2000ft. Standard separation maintained.	Pilot apologised.
200908114	02/08/2009	EGTT : London (FIR)	Doncaster City	2N	D	CTR	OTHER	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by a microlight at 1500ft. Standard separation maintained.	
200908115	02/08/2009	EGTT : London (FIR)	Doncaster Sheffield	6NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by a PA28 at 1500ft. Standard separation maintained.	Pilot apologised.

200908117	31/07/2009	EGTT : London (FIR)	Doncaster Sheffield		D	CTR	ROBINSON	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by an R44 squawking 7000 at 1000ft. Traffic info given. Standard separation maintained.	Pilot apologised.
200908155	02/08/2009	EGTT : London (FIR)	Biggin (BIG)	2E	G	ATZ	PITTS	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by a Pitts Special. Standard separation maintained.	
200908230	06/08/2009	EGTT : London (FIR)	London-Gatwick - LGW	NE	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by an R22 squawking 7000. Departures were stopped for approx 3mins. Standard separation maintained.	The CFI of the operator concerned has investigated this incident and has concluded that it was caused by 6 factors, 1/ Lack of experience, 2/ Inadequate planning, 3/ Relinquishing planning of the flight to another pilot, 4/ Not using Farnborough East LARS, 5/ Allowing inadequate time prior to starting the flight and 6/ Peer pressure. Appropriatefollow up action has been taken.
200908254	06/08/2009	EGTT : London (FIR)	Mayfield (MAY)	4W	D	CTA	PIPER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a PA24 at 2200ft. Standard separation maintained.	
200908255	06/08/2009	EGTT : London (FIR)	Stansted	10SW	D	CTR	DE HAVILLAND	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a Chipmunk squawking 7000 at 1700. Standard separation maintained.	Pilot apologised.

200908255	06/08/2009	EGTT : London (FIR)	Stansted	10SW	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a Chipmunk squawking 7000 at 1700. Standard separation maintained.	Pilot apologised.
200908257	05/08/2009	EGTT : London (FIR)	Shoreham		G	ATZ	MORANE SAULNIER	Reciprocating	1	Infringement of the Shoreham ATZ (Class G) by a MS Rallyeat 2000ft. Standard separation maintained.	
200908275	07/08/2009	EGTT : London (FIR)	Southampton (SAM)		D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 3100ft. Standard separation maintained.	
200908304	07/08/2009	EGTT : London (FIR)	Liverpool	6NE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Liverpool CTR (Class D) by a C150 squawking 7000 at 1250ft. Standard separation maintained.	Pilot apologised.
200908308	08/08/2009	EGTT : London (FIR)	London-Gatwick - LGW		D	CTA	ROCKWELL	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a Rockwell 114 squawking 7000 at 2000ft. A/c was instructed to descend. A/c was then observed to infringe the LTMA (Class A) at 2700ft before descending.	Standard separation maintained.

200908315	09/08/2009	EGTT : London (FIR)	Birmingham	13m	D	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a C152 squawking 7000 at 3000ft. Traffic info given. D&D alerted. Standard separation maintained.	The pilot who was on his first solo cross country apologised. He became unsure of his position and contacted D&D.
200908317	09/08/2009	EGTT : London (FIR)	Honiley (HON)		D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a PA28 squawking 7000. A 'check all' was placed on Birmingham departures. Standard separation maintained.	
200908337	08/08/2009	EGTT : London (FIR)	Stansted		D	CTA	BELL	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Bell 47 squawking 7000 at 1900ft. Traffic info and avoiding action given.	The pilot was contacted by the CAA and informed as to the details of their infringement; a copy of the 'Top Ten Tips' leaflet was also enclosed. The pilot responded that they had since reviewed the flight with an experienced flight instructor who had provided analysis and given appropriate advice and guidance on airspace and flight-planning. CAA Closure: No further CAA action at this time.
200908337	08/08/2009	EGTT : London (FIR)	Stansted		D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a Bell 47 squawking 7000 at 1900ft. Traffic info and avoiding action given.	The pilot was contacted by the CAA and informed as to the details of their infringement; a copy of the 'Top Ten Tips' leaflet was also enclosed. The pilot responded that they had since reviewed the flight with an experienced flight instructor who had provided analysis and given appropriate advice and guidance on airspace and flight-planning. CAA Closure: No further CAA action at this time.
200908338	08/08/2009	EGTT : London (FIR)	Luton (LUT)		D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C150 squawking 7000. A 'check all' was placed on departures. Standard separation maintained.	

200908339	08/08/2009	EGTT : London (FIR)	Stansted		D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Robin 400squawking 7000 at 2000ft. Traffic info given.	Pilot admitted to poor planning and a lapse in concentration.☐ CAA Closure: Pilot to allow a greater margin around CAS.
200908339	08/08/2009	EGTT : London (FIR)	Stansted		D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a Robin 400squawking 7000 at 2000ft. Traffic info given.	Pilot admitted to poor planning and a lapse in concentration.☐ CAA Closure: Pilot to allow a greater margin around CAS.
200908341	07/08/2009	EGTT : London (FIR)	Stansted		D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Robin 400squawking 7000 at 1800ft. Traffic info and avoiding action given. Standard separation maintained.	
200908341	07/08/2009	EGTT : London (FIR)	Stansted		D	CTA	UNKNOWN	Unknown		Infringement of the Stansted CTA (Class D) by a Robin 400squawking 7000 at 1800ft. Traffic info and avoiding action given. Standard separation maintained.	
200908390	10/08/2009	EGTT : London (FIR)	Stansted	5SE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C152 squawking 7000 at 1800ft. Departures were stopped. Standard separation maintained.	CAA Closure: No action was taken by ATC at the time, although information was added to their database. No further action practicable due to elapsed time.

200908396	09/08/2009	EGTT : London (FIR)	Stansted		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 1900ft. Two a/c broken off approach. Traffic info and avoiding action given. Standard separation maintained.	CAA Closure: ATC did not take any further action with thepilot. Incident filed on their database for future information.
200908396	09/08/2009	EGTT : London (FIR)	Stansted		D	CTA	AIRBUS	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA28 at 1900ft. Two a/c broken off approach. Traffic info and avoiding action given. Standard separation maintained.	CAA Closure: ATC did not take any further action with thepilot. Incident filed on their database for future information.
200908423	11/08/2009	EGTT : London (FIR)	Southampton (SAM)	15SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 2800ft. Separation lost.	Pilot changed his planned route without confirming the airspace structure ahead.⚠ CAA Closure: Appropriate advice given.
200908423	11/08/2009	EGTT : London (FIR)	Southampton (SAM)	15SW	D	CTA	BRITTEN NORMAN	Reciprocating	3	Infringement of the Solent CTA (Class D) by a PA28 at 2800ft. Separation lost.	Pilot changed his planned route without confirming the airspace structure ahead.⚠ CAA Closure: Appropriate advice given.
200908425	11/08/2009	EGTT : London (FIR)	North Weald	1NW	D	CTA	MAULE	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Maule M5 squawking 7000 at 2200ft. Standard separation maintained.	

200908436	11/08/2009	EGTT : London (FIR)	Brecon (BCN)		A		SOCATA	Reciprocating	1	Infringement of Airway N864 (Class A) by a TB10 at 5800ft. Standard separation maintained.	
200908451	11/08/2009	EGTT : London (FIR)	London-Gatwick - LGW	13ENE	D	CTA	BOLKOW	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a Bolkow 207at 2000ft. A320 on approach at 4800ft issued with avoiding action. Standard separation maintained.	
200908451	11/08/2009	EGTT : London (FIR)	London-Gatwick - LGW	13ENE	D	CTA	AIRBUS	Turbofan	2	Infringement of the Gatwick CTA (Class D) by a Bolkow 207at 2000ft. A320 on approach at 4800ft issued with avoiding action. Standard separation maintained.	
200908457	09/08/2009	EGTT : London (FIR)	Lasham		Other	Other	YAKOVLEV	Reciprocating	1	Over flight of Lasham Gliding site by a YAK 18 at an estimated 1800ft. Pilot was advised of his error.	
200908489	11/08/2009	EGTT : London (FIR)	Southampton (SAM)	8 SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a PA28 at 1700ft. Standard separation maintained.	Bournemouth LARS initially reported that they could not see the a/c as this area was a radar 'black spot'.

200908497	11/08/2009	EGTT : London (FIR)	London City - LCY	7E	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 squawking 7000 at 2900ft. Traffic info and avoiding action given. Pilot reported being at 2200ft, Mode C indicated 2900ft. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
200908499	11/08/2009	EGTT : London (FIR)	Stansted		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 at 2800ft. Standard separation maintained.	
200908506	09/08/2009	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	OTHER	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by a microlight. Standard separation maintained.	
200908510	08/08/2009	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	PIPER	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by a PA32. Traffic info given. Standard separation maintained.	
200908561	13/08/2009	EGTT : London (FIR)	Ware	3 SE	D	CTA	BELL	Turboshaft	1	Infringement of the Stansted CTA (Class D) by a Bell 206 at 1900ft, 3nm Southeast of Ware. Separation lost against a Stansted inbound.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.

200908561	13/08/2009	EGTT : London (FIR)	Ware	3 SE	D	CTA	UNKNOWN	Unknown		Infringement of the Stansted CTA (Class D) by a Bell 206 at 1900ft, 3nm Southeast of Ware. Separation lost against a Stansted inbound.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200908564	13/08/2009	EGTT : London (FIR)	Westcott (WCO)		A	TMA	MUDRY	Reciprocating	1	Infringement of the LTMA (Class A) by a CAP10B indicatingFL60. Standard separation maintained.	
200908566	13/08/2009	EGTT : London (FIR)	Southampton (SAM)	NE	A	CTR	HUGHES	Turboshaft	1	Alleged infringement of the Southampton CTR (Class D) by a Hughes 500. Standard separation maintained.	Hughes 500 called on frequency reporting it would be operating at Winchester Northeast of SAM and was instructed to remain outside CAS. Hughes 500 was told to squawk 3671, which indicated Hughes 500 to be inside CAS. Pilot informed of infringement and believed Hughes 500 was outside CAS. ATC subsequently realised that squawk 3671 had already been allocated to another a/c, which was South of SAM. Hughes 500 was then allocated squawk 3672.
200908570	13/08/2009	EGTT : London (FIR)	Bournemouth	5 NE	D	CTA	PIPER	Reciprocating	1	PA28 at 3000ft, infringed the Solent CTA (Class D) and lost separation with an a/c inbound to Bournemouth, which was given traffic info and avoiding action.	Pilot reports that he misread his chart with respect to the base of controlled airspace. He had called Bournemouth Approach to request a service and was told to standby. After some delay, he again called Bournemouth Approach and was asked to pass his details. His height report identified his infringement and he was instructed to descend immediately. He apologised for his error with a telephone call to Bournemouth ATC.□ CAA Closure: Pilot subsequently reminded that it is his responsibility to remain clear of CAS unless permission to enter has been given. He has written an account of the incident for the club notice board at his airfield, so that others may learn from this experience.
200908570	13/08/2009	EGTT : London (FIR)	Bournemouth	5 NE	D	CTA	UNKNOWN	Unknown		PA28 at 3000ft, infringed the Solent CTA (Class D) and lost separation with an a/c inbound to Bournemouth, which was given traffic info and avoiding action.	Pilot reports that he misread his chart with respect to the base of controlled airspace. He had called Bournemouth Approach to request a service and was told to standby. After some delay, he again called Bournemouth Approach and was asked to pass his details. His height report identified his infringement and he was instructed to descend immediately. He apologised for his error with a telephone call to Bournemouth ATC.□ CAA Closure: Pilot subsequently reminded that it is his responsibility to remain clear of CAS unless permission to enter has been given. He has written an account of the incident for the club notice board at his airfield, so that others may learn from this experience.

200908579	09/08/2009	EGTT : London (FIR)	Doncaster Sheffield		D	CTR	PIPER	Reciprocating	1	PA28 allegedly infringed the Doncaster Sheffield CTR (Class D). Standard separation maintained.	
200908619	13/08/2009	EGTT : London (FIR)	Mayfield (MAY)	4 W	D	CTA	OTHER	Reciprocating	1	Infringement of Gatwick CTA (Class D) by a microlight squawking 7000 at 2000ft. An inbound DHC8 was given traffic info and avoiding action as it passed astern the a/c. Standard separation maintained.	
200908619	13/08/2009	EGTT : London (FIR)	Mayfield (MAY)	4 W	D	CTA	DE HAVILLAND	Turboprop	2	Infringement of Gatwick CTA (Class D) by a microlight squawking 7000 at 2000ft. An inbound DHC8 was given traffic info and avoiding action as it passed astern the a/c. Standard separation maintained.	
200908624	14/08/2009	EGTT : London (FIR)	Panshanger		D	CTR	CESSNA	Reciprocating	1	A PA28 squawking 7000 carrying out circuits at Panshanger, extended too far upwind before turning back downwind andtwice infringed the Luton CTR (Class D). Standard separation maintained.	
200908636	14/08/2009	EGTT : London (FIR)	Stansted	10 NNE	D	CTA	SOCATA	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a TB10 squawking 7000 at 2200ft. Standard separation maintained.	

200908640	15/08/2009	EGTT : London (FIR)	Lambourne (LAM)	2.5 NE	D	CTA	SOCATA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a TB10 at 2000ft squawking 4653. Standard separation maintained.	TB10 called LARS and issued squawk 4653 and given a BasicService. TB10 reported routeing to LAM and was asked if it required to call Stapleford as their ATZ was active, which foreign pilot did not understand. LARS put TB10 onto Stapleford's frequency whilst still retaining squawk 4653 for identification purposes. ATC subsequently observed TB10 indicating 1900ft and heading towards Stansted CTA. Essex were advised of impending infringement and Stapleford werecontacted. TB10 was then observed descending to 1400ft.
200908642	15/08/2009	EGTT : London (FIR)	Stansted	SW	D	CTA	SOCATA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a TB10 squawking 7000 indicating 1700-2000ft. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
200908650	16/08/2009	EGTT : London (FIR)	Stansted		D	CTA	EXTRA	Reciprocating	1	An Extra 300 squawking 7000 indicating 2300ft infringed the Stansted CTA (Class D). A check all was imposed. Squawkchanged to 4650 and Extra 300 was identified. Standard separation maintained.	A B737 was delayed on the ground.
200908650	16/08/2009	EGTT : London (FIR)	Stansted		D	CTA	BOEING	Turbofan	2	An Extra 300 squawking 7000 indicating 2300ft infringed the Stansted CTA (Class D). A check all was imposed. Squawkchanged to 4650 and Extra 300 was identified. Standard separation maintained.	A B737 was delayed on the ground.
200908651	11/08/2009	EGTT : London (FIR)	Doncaster Sheffield		A	CTR	PIPER	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by a student pilot in a PA28 squawking 6160. Standard separation maintained. Instructor contacted and informed of the situation.	Appropriate action taken.

200908653	16/08/2009	EGTT : London (FIR)	Pirton VRP	2 SW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C152 squawking 7000 at 2200ft. Standard separation maintained.	
200908655	11/08/2009	EGTT : London (FIR)	Doncaster Sheffield		D	CTR	ROBINSON	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by a R22 squawking 7000. R22 then changed squawk and controlling unit contacted who advised R22 of infringement. Standard separation maintained.	
200908658	11/08/2009	EGTT : London (FIR)	Doncaster Sheffield		D	CTR	PIPER	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by a PA28 at 1500ft. Standard separation maintained. Pilot apologised for the incident.	There have been other similar incidents involving this a/c.☐ CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200908722	17/08/2009	EGTT : London (FIR)	Luton (LUT)		D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by C172 squawking7000 at 2000ft. Standard separation maintained.	
200908723	17/08/2009	EGTT : London (FIR)	Honiley (HON)	1 SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a PA28 squawking 0260 at 1500ft. An inbound B737 was given a heading to increase separation. Pilot phoned ATC and given appropriate advice.	Separation lost. See also 200903663.

200908723	17/08/2009	EGTT : London (FIR)	Honiley (HON)	1 SW	D	CTR	BOEING	Turbofan	2	Infringement of the Birmingham CTR (Class D) by a PA28 squawking 0260 at 1500ft. An inbound B737 was given a heading to increase separation. Pilot phoned ATC and given appropriate advice.	Separation lost. See also 200903663.
200908729	09/08/2009	EGTT : London (FIR)	Leeds Bradford (LBA)		D	CTR	JODEL	Reciprocating	1	Jodel D120 squawking 7000 allegedly twice infringed the Leeds Bradford CTR (Class D). Standard separation maintained.

200908769	19/08/2009	EGTT : London (FIR)	Chiltern (CHT)		A	CTR	UNKNOWN	Unknown		C177 squawking 1177 at 2000ft initially unidentified, infringed London CTR (Class A). C177 identified and left CAS.Pilot apologised for incident.	
200908776	18/08/2009	EGTT : London (FIR)	Stansted	12 ENE	D	CTA	AVIONS ROBIN	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by a DR400 squawking 7000 displaying 1600ft. Two inbound a/c were given delaying action as a precaution. Standard separation maintained.	

200908787	13/08/2009	EGTT : London (FIR)	Nottingham East Midlands	20 SE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Nottingham East Midlands CTA (Class D) by a 7000 squawk indicating FL60. Blind calls were made.C172 responded and was given a zone clearance. Standard separation maintained.	
200908794	16/08/2009	EGTT : London (FIR)			D	CTA	AVIONS ROBIN	Reciprocating	1	During navigational training, DR400 twice infringed the Solent CTA (Class D) due to pilot being distracted by passenger. Incident discussed with ATC after DR400 had landed.	
200908809	19/08/2009	EGTT : London (FIR)	Bellerby		G	Danger area	HUGHES	Turboshaft	1	MD500 free called ATC and told to display 7040. MD500 wasidentified and reported at 1400ft, which placed it insideactive Danger Area EG D442 (Bellerby). MD500 reported leaving area asap.	
200908817	19/08/2009	EGTT : London (FIR)	Luton (LUT)	8 E	D	CTR	PIPER	Reciprocating	1	PA28 infringed the Luton CTR (Class D) and lost separation with two inbound airliners . PA28 left CAS and both inbounds continued with approach.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200908817	19/08/2009	EGTT : London (FIR)	Luton (LUT)	8 E	D	CTR	BOEING	Turbofan	2	PA28 infringed the Luton CTR (Class D) and lost separation with two inbound airliners . PA28 left CAS and both inbounds continued with approach.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.

200908854	19/08/2009	EGTT : London (FIR)	Stansted	NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 2200ft. An inbound B747 was given a heading to route aroundthe PA28. Standard separation maintained.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200908854	19/08/2009	EGTT : London (FIR)	Stansted	NE	D	CTA	BOEING	Turbofan	4	Infringement of the Stansted CTA (Class D) by a PA28 at 2200ft. An inbound B747 was given a heading to route aroundthe PA28. Standard separation maintained.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200908892	21/08/2009	EGTT : London (FIR)	Southampton (SAM)		D	CTR	SOCATA	Reciprocating	1	Shortly after a 7000 squawk at 1900ft entered the Southampton CTR (Class D) tracking along the boundary, a/c squawked 7356 and identified. Standard separation maintained.	
200908897	21/08/2009	EGTT : London (FIR)	Southampton (SAM)	8 SSE	D	CTR	PIPER	Reciprocating	1	After a 7000 squawk at 1900ft entered the Southampton CTR(Class D) its squawk changed to 7355 and identified as a PA28. ATC then cleared PA28 on a direct track. Standard separation maintained.	Traffic info and avoiding action given.
200908909	23/08/2009	EGTT : London (FIR)	Bournemouth		D	CTR	OTHER	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by possiblemicrolight. Traffic info was given to a/c in the vicinity. Standard separation maintained.	

200908916	23/08/2009	EGTT : London (FIR)	Stansted		D	CTA	SLINGSBY	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Slingsby T67 squawking 7000 at 2000ft. Standard separation maintained.	
200908917	23/08/2009	EGTT : London (FIR)	Puckridge		D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28 at 2100ft. Standard separation maintained.	
200908918	23/08/2009	EGTT : London (FIR)	Epping		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 1800ft. Standard separation maintained.	
200908920	21/08/2009	EGTT : London (FIR)	Luton (LUT)	7 W	D	CTR	CESSNA	Reciprocating	1	C172 became lost and infringed the Luton CTR (Class D). All Luton departures were stopped. Standard separation maintained.	D&D informed Farnborough that a C172 had become lost nearLuton and Farnborough offered to work the a/c. On transfer C172 was identified inside the Luton CTR and advised to turn West, but C172 was unable to comply due to weather. Luton were advised of C172's position and inability to turnWest. C172 subsequently left CAS.
200908922	21/08/2009	EGTT : London (FIR)	Stansted	13 S	D	CTA		Reciprocating	1	CZAW Sportcruiser squawking 7000 indicating 2000ft entered the Stansted CTA (Class D) and circled within CTA for approximately 5mins then descended. Stansted departures werestopped during this time.	Pilot attempting to carry on to destination in deteriorating weather conditions. He accepts that a diversion would have been prudent.☐ CAA Closure: Lesson learnt from this incident.

200908923	21/08/2009	EGTT : London (FIR)	Luton (LUT)	5NE	D	CTR	GRUMMAN	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Grumman AA5 at 2000ft. Standard separation maintained.	
200908925	22/08/2009	EGTT : London (FIR)	Stansted	11 SW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C152 squawking 7000 at 2000ft.	Recent similar incident reported. C152 pilot is a part-time instructor. He reports that he was familiar with the airspace through which he was flying but opted to fly a zig-zag route back to base with his trial lesson student who had complained that the setting sun was in his eyes. His explanation for the infringement is that he must have flown further North than he intended. He has apologised for the error.☐ CAA Closure: Appropriate advice given.
200908957	11/08/2009	EGTT : London (FIR)	Rivar Hill		Other	Other	ROBINSON	Reciprocating	1	Over flight of the Shalbourne Soaring Society cable hazard by an R44 at an estimated 1000ft. There were three gliders waiting to launch.	
200908958	11/08/2009	EGTT : London (FIR)	Rivar Hill		Other	Other	ENSTROM	Reciprocating	1	Over flight of the Shalbourne Soaring Society cable hazard by an Enstrom 280 at an estimated 500ft. One glider was preparing to launch.	
200908966	16/07/2009	EGTT : London (FIR)	Doncaster Sheffield	6NW	D	CTA	PIPER	Reciprocating	1	Infringement of the Doncaster Sheffield CTA (Class D) by a PA28 squawking 7000 at 5800ft. Standard separation maintained.	

200908967	19/08/2009	EGTT : London (FIR)	Doncaster Sheffield		D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Doncaster Sheffield CTA (Class D) by a Robin 400 squawking 7000 at 3300ft.	Pilot apologised.
200908968	19/08/2009	EGTT : London (FIR)	Doncaster Sheffield		D	CTA	PIPER	Reciprocating	1	Infringement of the Doncaster Sheffield CTA (Class D) by a PA28 at 2000ft. Pilot reported having RT problems and apologised. Standard separation maintained.	
200908991	23/08/2009	EGTT : London (FIR)	Lambourne (LAM)	4S	A	TMA	OTHER	Reciprocating	1	Infringement of the LTMA (Class A) by a Eurostar EV97 at 3400ft. Standard separation maintained.	
200909028	24/08/2009	EGTT : London (FIR)	Stansted		D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Robin 400squawking 7000 at 1800ft. Standard separation maintained.	
200909117	21/08/2009	EGTT : London (FIR)	Gamston (GAM)	2 N	D	CTR	GROB	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by a G115 at 4200ft squawking 2641. Supervisor contacted who stated that, according to his charts, a/c was outside CAS.	CAA Closure: The appropriate military Authority has been alerted to this incident. No further CAA action.

200909139	25/08/2009	EGTT : London (FIR)	Warwick		D	CTA	SOCATA	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a Socata TB200 squawking 7000 at 4000ft. Standard separation maintained.	The pilot apologised for the incident and following discussions with ATC it appears to have been caused by the pilot flying an inaccurate training exercise and becoming confused with flying to and from a VOR.
200909145	24/08/2009	EGTT : London (FIR)	Doncaster Sheffield		D	CTR	AEROSPATIALE	Turboshaft	1	Infringement of the Nottingham East Midlands and Doncaster CTR (Class D) by an SA350 squawking 7000 at an estimated1500ft. Traffic info and avoiding action given. Standard separation maintained.	CAA Closure: SA350 owner contacted. No response forthcoming. Closed due to elapsed time.
200909147	21/08/2009	EGTT : London (FIR)	Nottingham East Midlands	6 NW	D	CTR	UNKNOWN	Reciprocating	1	Stemme S10-VT at 2400ft squawking 7000 allegedly infringed the East Midlands CTR (Class D). Stop departures requested by ADC. Traffic info given to an a/c that had been released on DTY SID.	Standard separation maintained.☐ CAA Closure: Swiss CAA contacted pilot who advised that he did not enter the East Midlands CTR. He provided his GPS track to support this. Subsequent information from ATC advised that a/c actually infringed the CTA, West of the CTR. ATC have emphasised to controller's the importance of accurate reporting. No further follow-up action with Swiss CAA due to elapsed time since incident.

200910150	19/09/2009	EGTT : London (FIR)	Manchester (MCT)		D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a PA28 at 2600ft. Standard separation maintained.	
200910151	19/09/2009	EGTT : London (FIR)	Horsham	W	D	CTA	PIPER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a PA28 at 1700ft. West of Horsham. Separation lost against an inbound A320. Traffic info given.	Pilot navigation error after change of routing. ☐ CAA Closure: Appropriate advice given.
200910151	19/09/2009	EGTT : London (FIR)	Horsham	W	D	CTA	AIRBUS	Turbofan	2	Infringement of the Gatwick CTA (Class D) by a PA28 at 1700ft. West of Horsham. Separation lost against an inbound A320. Traffic info given.	Pilot navigation error after change of routing. ☐ CAA Closure: Appropriate advice given.
200910156	20/09/2009	EGTT : London (FIR)	Cardiff (CDF)	13NW	D	CTA	VANS	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by a Vans RV6 at 3500ft. Standard separation maintained.	Pilot apologised and acknowledged that a navigational error occurred when misidentifying a visual reference point whilst attempting to locate a small grass strip.
200910238	20/09/2009	EGTT : London (FIR)	Stansted	W	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C172 at 1800ft. Three inbound a/c broken off the approach. Traffic info given. Standard separation maintained.	The CAA have spoken to pilot concerned who believed he had set North Weald QNH but in reality had set North Weald QFE, therefore giving a 300 foot height difference. ☐ CAA Closure: The pilot is now aware of the serious consequences of infringing CAS.

200910243	21/09/2009	EGTT : London (FIR)	Stansted	8m	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C150 squawking 7000 at 1000ft. Standard separation maintained.	
200910244	21/09/2009	EGTT : London (FIR)	Detling (DET)	2NW	A	TMA	AVIONS ROBIN	Reciprocating	1	Infringement of the LTMA (Class A) by a Robin 1180 squawking 7000 at 3400ft. Traffic info given and several a/c delayed into London City. Standard separation maintained.	CAA Closure: The pilot sent a full report to ATC. He considers that the main cause of the incident was him changingfrom his original plan but not re-planning properly for the new route. The appropriate lessons appear to have been learnt from this incident.
200910324	21/09/2009	EGTT : London (FIR)			D	CTR	WESTLAND	Turboshaft	1	Infringement of the Manchester CTR (Class D) by a Gazellesquawking 7000. Standard separation maintained.	Pilot apologised.
200910332	24/09/2009	EGTT : London (FIR)	Stansted	10E	A	TMA	GARDAN	Reciprocating	1	Infringement of the LTMA (Class A) by a Gardan 80 squawking 7000 at 3900ft. Standard separation maintained.	
200910333	24/09/2009	EGTT : London (FIR)			G	Restrict ed area	PIPER	Reciprocating	1	Infringement of the Stansted TMZ (Class G) by a PA28.	

200910382	24/09/2009	EGTT : London (FIR)	Southampton (SAM)	8 N	D	CTA	ROBINSON	Reciprocating	1	Infringement of the Solent CTA (Class D) by an R44 at 2000ft. Traffic info given. DHC8 broken off approach. Separation lost.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200910382	24/09/2009	EGTT : London (FIR)	Southampton (SAM)	8 N	D	CTA	DE HAVILLAND	Turboprop	2	Infringement of the Solent CTA (Class D) by an R44 at 2000ft. Traffic info given. DHC8 broken off approach. Separation lost.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200910383	24/09/2009	EGTT : London (FIR)	North Weald	2E	D	CTR	RANS	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a Rans S6 squawking 7000 at 2500ft. Standard separation maintained.	
200910405	25/09/2009	EGTT : London (FIR)	Ware		G	Restrict ed area	PIPER	Reciprocating	1	Infringement of the Stansted TMZ (Class G) by a PA28 squawking 7000.	
200910406	25/09/2009	EGTT : London (FIR)			G	Restrict ed area	MAULE	Reciprocating	1	Infringement of the Stansted TMZ (Class G) by a Maule M5.Traffic info given.	

200910406	25/09/2009	EGTT : London (FIR)			G	Restrict ed area	BOEING	Turbofan	2	Infringement of the Stansted TMZ (Class G) by a Maule M5.Traffic info given.	
200910447	25/09/2009	EGTT : London (FIR)	London-Gatwick - LGW	10 E	D	CTR	STAMPE	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by an SV4. Traffic info and avoiding action given. Separation lost.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200910447	25/09/2009	EGTT : London (FIR)	London-Gatwick - LGW	10 E	D	CTR	DE HAVILLAND	Turboprop	2	Infringement of the Gatwick CTR (Class D) by an SV4. Traffic info and avoiding action given. Separation lost.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200910452	25/09/2009	EGTT : London (FIR)	Stansted		G	Restrict ed area	PIPER	Reciprocating	1	Infringement of the Stansted TMZ (Class G) by a PA28 squawking 7000.	Pilot believed that Mode C was automatically selected when the transponder was switched on, which is not the case in this particular a/c. Pilot has been debriefed by flying school accordingly.
200910459	26/09/2009	EGTT : London (FIR)	REDFA	9NW	A	CTA	PIPER	Reciprocating	1	Infringement of Clacton CTA (Class A) by a PA28 at FL100.Pilot had been instructed to remain outside of CAS. Standard separation maintained.	

200910463	26/09/2009	EGTT : London (FIR)	Stansted	12NE	G	Restricted area	RANS	Reciprocating	1	Infringement of the Stansted TMZ (Class G) by a Rans S6 squawking 7000.	Pilot error acknowledged. Pilot unaware of the introduction of the TMZ as published in the AIC and NOTAMed.
200910463	26/09/2009	EGTT : London (FIR)	Stansted	12NE	G	Restricted area	AIRBUS	Turbofan	2	Infringement of the Stansted TMZ (Class G) by a Rans S6 squawking 7000.	Pilot error acknowledged. Pilot unaware of the introduction of the TMZ as published in the AIC and NOTAMed.
200910468	27/09/2009	EGTT : London (FIR)	Manchester (MCT)		D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a PA28 squawking 7000 at 1250ft. Standard separation maintained.	
200910469	27/09/2009	EGTT : London (FIR)	HEMEL		D	CTR	SOCATA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a TB20 squawking 7000 at 2400ft. Departures were stopped. Standard separation was maintained.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200910472	27/09/2009	EGTT : London (FIR)	Woodley (WOD)		A	TMA		Reciprocating	1	Infringement of the LTMA (Class A) by a CZAW Sportsruiser at 2750ft.	The pilots comprehensive report states that he decided todo a short trip in the local area, that was unplanned following some slow flying practice. He then climbed the a/c to clear Restricted Area R104 and headed towards Woodley. He had forgotten that the TMA in the Woodley area extends to 2500ft. The pilot has learnt from the incident and has apologised for it.

200910479	26/09/2009	EGTT : London (FIR)	Hawarden	5SW	A	CTA	CESSNA	Reciprocating	1	Infringement of the Manchester CTA (Class A) by a C177 at3500ft Standard separation maintained.	
200910491	24/09/2009	EGTT : London (FIR)	Stansted	15m	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA32 at 5900ft. Standard separation maintained.	
200910494	24/09/2009	EGTT : London (FIR)	Stansted		G	Restrict ed area	PIPER	Reciprocating	1	Alleged infringement of the Stansted TMZ (Class G) by a PA28.	
200910534	25/09/2009	EGTT : London (FIR)	Kemble		G	ATZ	OTHER	Unknown		UK AIRPROX 2009/113 - Military helicopter and a Mooney 20in the Kemble circuit at 900ft.	As Mooney 20 positioned onto base leg for R/W26 at 900ft it became aware of a military helicopter in the 9 o'clock position that had entered the Kemble Civil Aerodrome Avoidance area and into conflict with the Mooney 20. Mooney 20 continued its descent and turned onto final approach as the military helicopter had now passed to its right. Mooney 20 landed without incident.
200910534	25/09/2009	EGTT : London (FIR)	Kemble		G	ATZ	MOONEY	Reciprocating	1	UK AIRPROX 2009/113 - Military helicopter and a Mooney 20in the Kemble circuit at 900ft.	As Mooney 20 positioned onto base leg for R/W26 at 900ft it became aware of a military helicopter in the 9 o'clock position that had entered the Kemble Civil Aerodrome Avoidance area and into conflict with the Mooney 20. Mooney 20 continued its descent and turned onto final approach as the military helicopter had now passed to its right. Mooney 20 landed without incident.

200910551	27/09/2009	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	CIRRUS	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by an SR22 at 2200ft. Standard separation maintained.

200910744	02/10/2009	EGTT : London (FIR)	North Weald		D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28 squawking 7000 at 2000ft. Avoiding action given. A check all was imposed. Standard separation maintained.	Investigation progressed under 200906694.

200910744	02/10/2009	EGTT : London (FIR)	North Weald		D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a PA28 squawking 7000 at 2000ft. Avoiding action given. A check all was imposed. Standard separation maintained.	Investigation progressed under 200906694.
200910746	02/10/2009	EGTT : London (FIR)	Stansted		G	Restrict ed area	VANS	Reciprocating	1	Infringement of the Stansted TMZ 1 (Glass) by a Vans RV6 at 1000ft. Traffic info given. Transponder malfunction.	
200910747	02/10/2009	EGTT : London (FIR)	Stansted		G	Restrict ed area	CESSNA	Reciprocating	1	Infringement of Stansted TMZ 1 (Class G) by a C170.	
200910749	04/10/2009	EGTT : London (FIR)	Wethersfield	2SE	G	Restrict ed area	CESSNA	Reciprocating	1	Infringement of the Stansted TMZ 1 (Class G) by a C170 squawking 7000 at 1300ft.	C170 pilot had been unaware of the new airspace rules around Stansted and apologised for his actions.□ CAA Closure:Pilot now aware of revised airspace.
200910750	04/10/2009	EGTT : London (FIR)	Southampton (SAM)	9N	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA38 at 2000ft. Pilot reported being lost. Standard separation maintained.	

200910871	16/09/2009	EGTT : London (FIR)	Luton (LUT)	15NE	A	CTA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 at FL70. Standard separation maintained.	
200910930	30/09/2009	EGTT : London (FIR)	Doncaster Sheffield		D	CTR	PIPER	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by a PA28 at 2300ft. Standard separation maintained.	
200910931	01/10/2009	EGTT : London (FIR)	Sandtoft	W	D	CTR	PIPER	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by a PA28 squawking 7000 at 1100ft. Standard separation maintained.	
200910941	08/10/2009	EGTT : London (FIR)	Winchester	1S	D	CTR	OTHER	Reciprocating	1	Alleged infringement of the Southampton CTR (Class D) by microlight at 1500ft. Traffic info and avoiding action given. Standard separation maintained.	
200910942	08/10/2009	EGTT : London (FIR)	Stansted	SW	Other	Restricted area	YAKOVLEV	Reciprocating	1	Infringement of the Stansted TMZ (Class G) by a Yak52. The a/c infringed the TMZ on route to North Weald and when departing 20mins later. A B737 on approach was vectored away from the infringer.	Appropriate CAA action is to be taken as a result of this incident.

200910942	08/10/2009	EGTT : London (FIR)	Stansted	SW	Other	Restricted area	BOEING	Turbofan	2	Infringement of the Stansted TMZ (Class G) by a Yak52. The a/c infringed the TMZ on route to North Weald and when departing 20mins later. A B737 on approach was vectored away from the infringer.	Appropriate CAA action is to be taken as a result of this incident.
200910945	07/10/2009	EGTT : London (FIR)	Stansted		G	Restricted area	MUDRY	Reciprocating	1	Infringement of the Stansted TMZ (Class G) by a Murdy Cap10 squawking 7000 at 1300ft.	Pilot reports that the transponder over-reads by 200ft, so it was switched off.
200910950	08/10/2009	EGTT : London (FIR)	Midhurst (MID)	2 S	A	TMA	CEA	Reciprocating	1	Infringement of LTMA (Class A) by a DR340 at 3400ft, causing a loss of separation with a/c inbound to Gatwick. Traffic info given.	Subsequent investigation revealed that the pilot had an incorrect altimeter setting, the pilot discovered the setting was incorrect after hearing another a/c give a different QNH reading.
200910950	08/10/2009	EGTT : London (FIR)	Midhurst (MID)	2 S	A	TMA	BOEING	Turbofan	2	Infringement of LTMA (Class A) by a DR340 at 3400ft, causing a loss of separation with a/c inbound to Gatwick. Traffic info given.	Subsequent investigation revealed that the pilot had an incorrect altimeter setting, the pilot discovered the setting was incorrect after hearing another a/c give a different QNH reading.
200910959	08/10/2009	EGTT : London (FIR)	Wellesbourne Mountford	4	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA32 squawking 7000 at 2000ft. Standard separation maintained.	Pilot spoke to Birmingham ATC at the time to apologise for the incident. Pilot also advised that a previous incident within the Bristol CTA was weather related. This infringement was attributed to a map reading error. Pilot incorrectly assumed that base of CAS was 2000ft, which was not the case. <input type="checkbox"/> CAA Closure: Pilot has learnt from his mistakes and reviewed his pre-flight planning procedures accordingly.

200910960	08/10/2009	EGTT : London (FIR)	Hawarden		D	CTA	CESSNA	Reciprocating	1	Infringement of the Manchester CTA (Class A) by a C172 at3500ft. Standard separation maintained.	
200910980	08/10/2009	EGTT : London (FIR)	Swansea		G	ATZ	OTHER	Unknown		One of a pair of military jets, that were not in contact with ATC, entered Swansea ATZ (Class G) in potential conflict with a PA38 in the circuit for R/W04. Jet then turned and left the zone.	
200910980	08/10/2009	EGTT : London (FIR)	Swansea		G	ATZ	PIPER	Reciprocating	1	One of a pair of military jets, that were not in contact with ATC, entered Swansea ATZ (Class G) in potential conflict with a PA38 in the circuit for R/W04. Jet then turned and left the zone.	
200911056	10/10/2009	EGTT : London (FIR)	Stansted	13SW	D	CTA	OTHER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Dv20 at 2400ft. A 'check all' was placed. Traffic info given. Standard separation maintained.	
200911057	11/10/2009	EGTT : London (FIR)	London-Gatwick - LGW	8NE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by C172 at 1100ft. Traffic info given. Standard separation maintained.	

200911057	11/10/2009	EGTT : London (FIR)	London-Gatwick - LGW	8NE	D	CTR	AIRBUS	Turbofan	2	Infringement of the Gatwick CTR (Class D) by C172 at 1100ft. Traffic info given. Standard separation maintained.	
200911060	07/10/2009	EGTT : London (FIR)	Manchester (MCT)		D	CTR	CESSNA	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a C172 squawking 7000. Departures were stopped for approx 10mins. Traffic info given. Standard separation maintained.	CAA Closure: C172 pilot contacted, but no response forthcoming. Closed due to elapsed time.
200911070	05/09/2009	EGTT : London (FIR)	Benson		G	ATZ	AVID	Reciprocating	1	Infringement of the Benson ATZ (Class G) by two Avids in formation at an estimated 500ft.	
200911070	05/09/2009	EGTT : London (FIR)	Benson		G	ATZ	AVID	Reciprocating	1	Infringement of the Benson ATZ (Class G) by two Avids in formation at an estimated 500ft.	
200911073	06/09/2009	EGTT : London (FIR)	Benson	1NE	G	ATZ	EUROPA	Reciprocating	1	Infringement of the Benson ATZ (Class G) by an Europa squawking 7000 at 2200ft.	

200911074	06/09/2009	EGTT : London (FIR)	Benson		G	ATZ	EUROPA	Reciprocating	1	Infringement of the Benson ATZ (Class G) by an Europa squawking 7000 at 2000ft.	
200911100	08/10/2009	EGTT : London (FIR)	London City - LCY		A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA by a C172 squawking 7000 at 2700ft. A 'check all' was placed on London City departures. Shortly afterwards, C172 infringed again at 2800ft. Traffic info given.	Standard separation maintained.☐ CAA Closure: C172 pilot alerted to the incident. Appropriate advice given.
200911100	08/10/2009	EGTT : London (FIR)	London City - LCY		A	TMA	BAE	Turbofan	4	Infringement of the LTMA by a C172 squawking 7000 at 2700ft. A 'check all' was placed on London City departures. Shortly afterwards, C172 infringed again at 2800ft. Traffic info given.	Standard separation maintained.☐ CAA Closure: C172 pilot alerted to the incident. Appropriate advice given.
200911118	12/10/2009	EGTT : London (FIR)	Midhurst (MID)	2SE	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 squawking 7000 at 2800ft. Student pilot reported being lost.	Student pilot on qualifying cross country flight was unaware he had infringed until the letter from the CAA. ☐ CAA Closure: Incident discussed between student and instructoronce aware of the MOR. Student has since been issued hisPPL/A.
200911119	12/10/2009	EGTT : London (FIR)	Stansted		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 at 2000ft. Standard separation maintained.	Subsequent report suggests possible transponder malfunction causing altitude over-reading by at least 300ft.

200911119	12/10/2009	EGTT : London (FIR)	Stansted		D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 at 2000ft. Standard separation maintained.	Subsequent report suggests possible transponder malfunction causing altitude over-reading by at least 300ft.
200911122	12/10/2009	EGTT : London (FIR)	Birmingham	8S	D	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a PA28 squawking 7000 at 2000ft. Standard separation maintained.	Duty flying instructor called ATC and apologised informing that the pilot was a student.
200911129	08/10/2009	EGTT : London (FIR)	London-Heathrow - LHR	17SW	A	TMA	UNKNOWN	Reciprocating	1	Infringement of the LTMA (Class A) by a microlight squawking 7000 at 3000ft. As a result, a loss of separation occurred against four Heathrow inbounds.	A/c identity unknown to ATC at the time of the infringement. Pilot failed to monitor aircraft's altitude whilst attempting to become visual with a particular ground location. Pilot has acknowledged his error and apologised to the relevant ATC unit.
200911129	08/10/2009	EGTT : London (FIR)	London-Heathrow - LHR	17SW	A	TMA	UNKNOWN	Unknown		Infringement of the LTMA (Class A) by a microlight squawking 7000 at 3000ft. As a result, a loss of separation occurred against four Heathrow inbounds.	A/c identity unknown to ATC at the time of the infringement. Pilot failed to monitor aircraft's altitude whilst attempting to become visual with a particular ground location. Pilot has acknowledged his error and apologised to the relevant ATC unit.
200911132	12/10/2009	EGTT : London (FIR)	Midhurst (MID)	2SE	A	TMA	AEROSPATIALE	Turboshaft	1	Infringement of the LTMA (Class A) by an SA350 squawking 7000 at 4200ft.	

200911167	13/10/2009	EGTT : London (FIR)	London-Gatwick - LGW		A	CTA	JABIRU	Reciprocating	1	Jabiru at 2500ft infringed the Gatwick CTR/CTA (Class D) and lost separation with two inbound A319s. Traffic info was given.	Pilot became distracted by oil pressure readings and admitted to allowing insufficient margin for error when planning his route.□ CAA Closure: Appropriate advice given.
200911167	13/10/2009	EGTT : London (FIR)	London-Gatwick - LGW		A	CTA	AIRBUS	Turbofan	2	Jabiru at 2500ft infringed the Gatwick CTR/CTA (Class D) and lost separation with two inbound A319s. Traffic info was given.	Pilot became distracted by oil pressure readings and admitted to allowing insufficient margin for error when planning his route.□ CAA Closure: Appropriate advice given.
200911178	14/10/2009	EGTT : London (FIR)	London City - LCY	SE	A	TMA	PIPER	Reciprocating	1	Infringement of LTMA (Class A) by an unknown a/c at 2600ft resulting in a loss of separation with an RJ85 at 3000ft. RJ85 crew reported a TCAS RA. STCA activated. Traffic info given.	
200911178	14/10/2009	EGTT : London (FIR)	London City - LCY	SE	A	TMA	BAE	Turbofan	4	Infringement of LTMA (Class A) by an unknown a/c at 2600ft resulting in a loss of separation with an RJ85 at 3000ft. RJ85 crew reported a TCAS RA. STCA activated. Traffic info given.	
200911273	15/10/2009	EGTT : London (FIR)	EGSS (STN): London/Stansted		G	Restricted area	PIPER	Reciprocating	1	Infringement of the Stansted TMZ 1 (Class G) by a PA28.	Pilot believed he had switched his transponder on, when in fact it was not. Pilot apologised.

200911289	17/10/2009	EGTT : London (FIR)	London (LON)		A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 at 3500ft. D&D alerted. PAN declared pilot reported being lost.	
200911306	17/10/2009	EGTT : London (FIR)	Stansted	10	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C172 at 2000ft. Traffic info and avoiding action given. Standard separation maintained.	Subsequent investigation revealed that the flight was to carry out a pre-planned navigation exercise using only 'dead reckoning' without using the aircraft's navigational aids. The pilot stated that when he was approaching the CTA he descended to 2000ft and attempted to contact Farnborough LARS, however, he found the frequency to be very busy. Therefore he squawked 0013 and kept a listening watch on 129.550. The pilot reports that when transiting the airspacebetween Luton and Stansted he found the visibility was less than he expected, so he routed to what he thought to bethe town of Hertford. However, on nearing the town he discovered it was actually Harlow and therefore was infringing the Stansted CTA (Class D). The pilot immediately descended to less than 1500ft and turned West to continue to North Weald, where on landing the pilot contacted ATC to explain and apologise.
200911306	17/10/2009	EGTT : London (FIR)	Stansted	10	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a C172 at 2000ft. Traffic info and avoiding action given. Standard separation maintained.	Subsequent investigation revealed that the flight was to carry out a pre-planned navigation exercise using only 'dead reckoning' without using the aircraft's navigational aids. The pilot stated that when he was approaching the CTA he descended to 2000ft and attempted to contact Farnborough LARS, however, he found the frequency to be very busy. Therefore he squawked 0013 and kept a listening watch on 129.550. The pilot immediately descended to less than 1500ft and turned West to continue to North Weald, where on landing the pilot contacted ATC to explain and apologise.
200911308	17/10/2009	EGTT : London (FIR)	Puckerdige		G	Restrictedd area	PIPER	Reciprocating	1	Infringement of the Stansted TMZ (Class G) by a PA18. Traffic info given. A319 broken off approach.	The pilot was aware of the TMZ and had contacted Farnborough LARS before getting airborne, however, the pilot had erroneously believed that the inbound clearance issued by Farnborough LARS also applied to the outbound flight. The a/c is usually equipped with a transponder, however, at thetime of the infringement the a/c was not transponder equipped.
200911308	17/10/2009	EGTT : London (FIR)	Puckerdige		G	Restrictedd area	AIRBUS	Turbofan	2	Infringement of the Stansted TMZ (Class G) by a PA18. Traffic info given. A319 broken off approach.	The pilot was aware of the TMZ and had contacted Farnborough LARS before getting airborne, however, the pilot had erroneously believed that the inbound clearance issued by Farnborough LARS also applied to the outbound flight. The a/c is usually equipped with a transponder, however, at thetime of the infringement the a/c was not transponder equipped.

200911336	17/10/2009	EGTT : London (FIR)	Harlow		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 at 2000ft. Standard separation maintained.	Previous occurrences reported.☐ CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200911349	19/10/2009	EGTT : London (FIR)	Cheddington	3ENE	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Luton CTR (Class D) by an R22 squawking 7000 at 1900ft. Standard separation maintained.	Pilot apologised.
200911383	18/10/2009	EGTT : London (FIR)	Tamworth		D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) twice by a PA28 squawking 7000 at 2000ft.	Pilot debriefed by the ATC unit Deputy Watch Manager.
200911506	22/10/2009	EGTT : London (FIR)	Bovingdon (BNN)	1.5NW	D	CTR	CIRRUS	Reciprocating	1	Infringement of the Luton CTR (Class D) by an SR22 at 2400ft. Standard separation maintained.	
200911562	23/10/2009	EGTT : London (FIR)	Luton (LUT)	12E	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTA (Class D) by a PA28 squawking 7000 at 3000ft tracking Northbound. Approximately 10mins later a/c was seen to infringe again going Southbound. Traffic info given.	Standard separation maintained. PA28 pilot enroute becameaware of the LTMA which starts at 3500ft, however failed to notice the Luton CTA (Class D) started at 2500ft. When the pilot became aware of the Luton CTA (Class D) he descended immediately. Pilot apologised and will undertake re-training.

200911562	23/10/2009	EGTT : London (FIR)	Luton (LUT)	12E	D	CTR	BOEING	Turbofan	2	Infringement of the Luton CTA (Class D) by a PA28 squawking 7000 at 3000ft tracking Northbound. Approximately 10mins later a/c was seen to infringe again going Southbound. Traffic info given.	Standard separation maintained. PA28 pilot enroute becameaware of the LTMA which starts at 3500ft, however failed to notice the Luton CTA (Class D) started at 2500ft. When the pilot became aware of the Luton CTA (Class D) he descended immediately. Pilot apologised and will undertake re-training.
200911597	26/10/2009	EGTT : London (FIR)	Polehill (POL)	10SE	A	TMA	ROBINSON	Reciprocating	1	Infringement of the Manchester TMA (Class A) by an R44 squawking 7000 at FL52. Standard separation maintained.	
200911640	25/10/2009	EGTT : London (FIR)	Bovingdon (BNN)	4N	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C152 at 2000ft. 'Check all' placed on Luton departures. Pilot reportedbeing lost. Traffic info given. Standard separation maintained.	Appropriate ATC assistance provided. ATC spoke with CFI who will debrief the pilot regarding this incident.
200911640	25/10/2009	EGTT : London (FIR)	Bovingdon (BNN)	4N	D	CTR	CESSNA	Turbofan	2	Infringement of the Luton CTR (Class D) by a C152 at 2000ft. 'Check all' placed on Luton departures. Pilot reportedbeing lost. Traffic info given. Standard separation maintained.	Appropriate ATC assistance provided. ATC spoke with CFI who will debrief the pilot regarding this incident.
200911664	27/10/2009	EGTT : London (FIR)	Stansted	9ESE	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28 squawking 7000 at 3100ft. Standard separation maintained.	Student pilot under instruction. Pilot instructor error acknowledged.

200911667	26/10/2009	EGTT : London (FIR)	Coventry	6NW	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by an R44 at1500ft. Standard separation maintained.	A/c had been reminded to remain outside of controlled airspace. Pilot reported to ATC that his GPS indicated that the a/c was operating outside of CAS. Appropriate CAA action is being taken as a result of this incident.
200911668	26/10/2009	EGTT : London (FIR)	Honiley (HON)	5W	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by an R22 squawking 7000. Standard separation maintained.	Student pilot apologised and confirmed with the controller that he had been attempting to avoid the gliding site atSnitterfield (as advised by his instructor) and, in doingso, unknowingly infringed the corner of the Birmingham CTR. Pilot was exercising a solo cross-country flight and considered his workload to be quite high at the time.
200911714	28/10/2009	EGTT : London (FIR)	Bovingdon (BNN)	4 NNE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C182 at 1700ft, 4nm Northeast of Bovingdon. Luton departures stopped. ATC established contact with the C182, which was instructed to vacate the zone.	Standard separation maintained.☐ CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200911757	28/10/2009	EGTT : London (FIR)	Honiley (HON)		D	CTR	PIPER	Reciprocating	1	Just after A320 had been cleared to descend on glidepath,a PA28 infringed Birmingham CTR (Class D). Traffic info was given to A320, which reported visual with PA28. Standard separation maintained.	Pilot of PA28 subsequently admitted to being lost, saw A320 and turned away.☐ CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200911757	28/10/2009	EGTT : London (FIR)	Honiley (HON)		D	CTR	AIRBUS	Turbofan	2	Just after A320 had been cleared to descend on glidepath,a PA28 infringed Birmingham CTR (Class D). Traffic info was given to A320, which reported visual with PA28. Standard separation maintained.	Pilot of PA28 subsequently admitted to being lost, saw A320 and turned away.☐ CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.

200911795	30/10/2009	EGTT : London (FIR)	Stansted	8	D	CTR	YAKOVLEV	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a Yak 52.	
200911798	31/10/2009	EGTT : London (FIR)	White Waltham	5 SW	A	TMA	YAKOVLEV	Reciprocating	1	Infringement of the LTMA (Class A) by a Yak 18 squawking 7000 at 3300ft. Standard separation maintained.	The pilot's report indicates that he thought he was further West than he was when he initiated stalling manoeuvres.The pilot admits to being distracted by traffic and cloud. Appropriate lessons appear to have been learnt from thisincident.
200911823	29/10/2009	EGTT : London (FIR)	Nottingham East Midlands	14 SE	D	CTA	JABIRU	Reciprocating	1	Infringement of the Nottingham East Midlands CTA (Class D) by a Jabiru squawking 7000 at 3400ft. Traffic info given. Two a/c were given avoiding action and one a/c given further vectoring.	Standard separation maintained.☐ CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200911948	04/11/2009	EGTT : London (FIR)	Stansted		D	CTA	JODEL	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Jodel D120 squawking 7000 at 2400ft. Standard separation maintained.	
200911951	05/11/2009	EGTT : London (FIR)	Northolt	7m	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28 at 2500ft. Heathrow departures were stopped. Standard separationmaintained.	Student pilot reported being lost. Appropriate subsequentcontact between ATC and the pilot's CFI concerned should prevent a recurrence of this incident. Pilot to receive further navigational training.

200911972	05/11/2009	EGTT : London (FIR)	Coventry	2S	D	TMA	ROCKWELL	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a Rockwell 114 at 2400ft. Standard separation maintained.	ATC unit investigation concludes that the pilot failed to comply with a standard missed approach resulting in the a/c entering CAS without clearance.
200912012	07/11/2009	EGTT : London (FIR)	Leeds Bradford (LBA)		D	CTR	AEROSPATIALE	Turboshaft	1	Infringement of the Nottingham East Midlands and Leeds Bradford CTR (Class D) by an SA350 squawking 7000. Traffic info given. Standard separation maintained.	
200912012	07/11/2009	EGTT : London (FIR)	Leeds Bradford (LBA)		D	CTR	DE HAVILLAND	Turboprop	2	Infringement of the Nottingham East Midlands and Leeds Bradford CTR (Class D) by an SA350 squawking 7000. Traffic info given. Standard separation maintained.	
200912019	06/11/2009	EGTT : London (FIR)	London-Gatwick - LGW	NW	D	CTR	DIAMOND	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a DA20 squawking 7000. Departures were stopped. Separation lost.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200912040	07/11/2009	EGTT : London (FIR)	Luton (LUT)	2.5 SE	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 at 2000ft. Standard separation maintained. Pilot reported to ATC that he was unsure of his position.	Pilot was lost.

200912045	07/11/2009	EGTT : London (FIR)	Stansted	12SE	G	Restrict ed area	SOCATA	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a Socata TB9.	Pilot debriefed and to undergo further navigational training with a school flying instructor.
200912046	07/11/2009	EGTT : London (FIR)	Birmingham	8S	D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C150 squawking 4000 at 1400ft. Standard separation maintained.	Pilot admitted to inadequate flight planning and also failing to contact Birmingham Radar upon realising he was offcourse despite the fact that he had the frequency selected and was maintaining a listening watch. Pilot also failedto use the 0010 squawk despite being familiar with its use.
200912048	07/11/2009	EGTT : London (FIR)	Clacton (CLN)		A	CTA	CESSNA	Reciprocating	1	Infringement of Clacton CTA (Class A) by a C172 squawking7000 at FL57. Traffic info given. Standard separation maintained.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200912052	08/11/2009	EGTT : London (FIR)	Barkway (BKY)		A	TMA	CIRRUS	Reciprocating	1	Infringement of the LTMA (Class A) by an SR22 at FL100. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
200912174	07/11/2009	EGTT : London (FIR)	Doncaster Sheffield		D	CTA	AEROSPATIALE	Turboshaft	1	Infringement of the Doncaster Sheffield CTR (Class D) andATZ by an AS350 at 1500ft that had an East Midlands squawk. Doncaster Radar contacted East Midlands who stated the a/c was about to call them.	When the pilot called on frequency, he apologised for theinfringement.

200912216	12/11/2009	EGTT : London (FIR)	Manchester (MCT)	16 N	D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a PA28 at3000ft. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
200912225	05/11/2009	EGTT : London (FIR)	Kineton	D213	G	Danger area	EUROCOPTER	Turboshaft	1	Infringement of Danger Area D213 (Kineton) by an EC120. Standard separation maintained.	
200912275	15/11/2009	EGTT : London (FIR)	Cardiff (CDF)		D	CTA	GRUMMAN	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by a Grumman AA5 squawking 7000 at 3000ft. Traffic info given. Standard separation maintained.	Pilot confirmed he had infringed CAS due to mis-reading his map.
200912427	26/10/2009	EGTT : London (FIR)	Brize Norton		D	CTR	PIPER	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a PA28 at FL22.	
200912524	20/11/2009	EGTT : London (FIR)	Cookham		A	CTR	VANS	Reciprocating	1	Infringement of the London CTR (Class A) by a Vans RV9 squawking 7000. Heathrow departures were stopped. Standard separation maintained.	A/c entered the CTR by a small distance and quickly turned to vacate CAS.

200912524	20/11/2009	EGTT : London (FIR)	Cookham		A	CTR	BOEING	Turbofan	4	Infringement of the London CTR (Class A) by a Vans RV9 squawking 7000. Heathrow departures were stopped. Standard separation maintained.	A/c entered the CTR by a small distance and quickly turned to vacate CAS.
200912665	20/11/2009	EGTT : London (FIR)	Doncaster Sheffield		D	CTR	ROBINSON	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by an R44 squawking 7000 at 2000ft. Standard separation maintained.	ATC spoke with pilot who advised he had been unaware of the existence of CAS, despite using GPS.
200912764	27/11/2009	EGTT : London (FIR)	XIDIL		A		CESSNA	Reciprocating	1	Infringement of the Worthing CTA (Class A) by a C182 at FL80. Standard separation maintained.	
200912765	27/11/2009	EGTT : London (FIR)	Birmingham	16	D	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a C182 squawking 7000 at FL51. Standard separation maintained.	
200912766	27/11/2009	EGTT : London (FIR)	Southampton (SAM)	7.7NW	D	CTA	WESTLAND	Turboshaft	1	Infringement of the Solent CTA (Class D) by a Gazelle at 2400ft. Standard separation maintained.	Although the Boscombe controller allegedly asked the Gazelle to contact Solent prior to the infringement, when it was at 2000ft, the Southampton controller believes that Boscombe should have coordinated the a/c as per the LOA. The a/c's level and track was always going to take it very close to CAS.

200912868	22/08/2009	EGTT : London (FIR)	Stansted		D	CTA	JODEL	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Jodel D120 at 3000ft. A/c then infringed the Stansted CTR (Class D).	The pilot was unable to achieve two way with Essex Radar and became distracted.
200912889	01/12/2009	EGTT : London (FIR)	Manchester (MCT)		A	TMA	PIPER	Reciprocating	1	Infringement of the Manchester TMA (Class A) by a PA28 squawking 7000 at 4400ft. D&D alerted.	
200912991	04/12/2009	EGTT : London (FIR)	Southampton (SAM)	9NW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a C172 squawking 7000 at 2300ft. Standard separation maintained.	
200913012	05/12/2009	EGTT : London (FIR)	London City - LCY	13 E	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28R squawking 7000 at 3000ft. Traffic info given. Separation lost.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200913012	05/12/2009	EGTT : London (FIR)	London City - LCY	13 E	A	TMA	BAE	Turbofan	4	Infringement of the LTMA (Class A) by a PA28R squawking 7000 at 3000ft. Traffic info given. Separation lost.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.

200913013	05/12/2009	EGTT : London (FIR)	Chiltern (CHT)	4 SW	A	CTR	CIRRUS	Reciprocating	1	Infringement of the London CTR (Class A) by an SR22 squawking 7000 at 1800ft. Standard separation maintained.	CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200913014	05/12/2009	EGTT : London (FIR)	Southampton (SAM)	SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a PA28R squawking 7000 at 1800ft. Standard separation maintained.	Bournemouth, who were working the PA28R, stated that it was outside CAS on their map, however, the Southampton information indicated that the a/c was in CAS. The Engineering investigation which followed the report by Southampton ATC established that there was a mapping discrepancy between the static maps on Southampton radar consoles and Bournemouth radar consoles, namely a line perpendicular to the extended centre of Bournemouth's RW 26 at 10nm, known as the Forest gate. The NATS CRMF (Common Radar Mapping Facility) uses the aiming point as the zero for the extended runway centre line for all their maps. The map on the Bournemouth display has used the threshold to make the calculation of the Forest gate, resulting in it appearing approx 400 metres further East compared to Southampton. To correct this error, the Letter of Agreement (LOA) between Southampton and Bournemouth was amended, re-stating the coordinates using the reference of the aiming point as zero. It has now been confirmed, that the maps on both Southampton and Bournemouth's radars conform to the same coordinates and reference point and the LOA has been agreed and accepted by both airports.
200913039	06/12/2009	EGTT : London (FIR)	Luton (LUT)	8SW	D	CTA	ROBINSON	Reciprocating	1	Infringement of the Luton CTA (Class D) by an R44 squawking 7000 at 3300ft. Departures were stopped. Standard separation maintained. VFR flight.	Pilot navigational error. <input type="checkbox"/> CAA Closure: The pilot was contacted by the CAA and notified of his alleged infringement. Advice was provided to the pilot to help prevent a recurrence.
200913094	08/12/2009	EGTT : London (FIR)	Brookmans Park (BPK)	10SW	A	TMA	GRUMMAN	Reciprocating	1	Infringement of the LTMA (Class A) by a Grumman AA5 squawking 7000 at 2800ft. Standard separation maintained.	
200913246	01/12/2009	EGTT : London (FIR)	Doncaster Sheffield	5SSW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by a C152 squawking 7000. Standard separation maintained.	

200913269	14/12/2009	EGTT : London (FIR)	Birmingham	10 SE	D	CTR	SCOTTISH AVIATION	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a Bulldogsquawking 7000 at 2800ft. Traffic info and avoiding action given. Standard separation maintained.	The pilot later stated that the a/c had been at 1600ft onQNH1020. He was informed that this put the a/c inside CASat which point he said that his map was difficult to readin that vicinity. The a/c's Mode C indication appeared tobe incorrect, which was noted by both Birmingham and Shawbury. At one point the pilot reported as being at 1600ft with the Mode C indicating 1200ft. The a/c was returning tobase following maintenance. During this incident, a B737 inbound to Birmingham declared a PAN due to a passenger medical emergency.
200913269	14/12/2009	EGTT : London (FIR)	Birmingham	10 SE	D	CTR	EMBRAER	Turbofan	2	Infringement of the Birmingham CTR (Class D) by a Bulldogsquawking 7000 at 2800ft. Traffic info and avoiding action given. Standard separation maintained.	The pilot later stated that the a/c had been at 1600ft onQNH1020. He was informed that this put the a/c inside CASat which point he said that his map was difficult to readin that vicinity. The a/c's Mode C indication appeared tobe incorrect, which was noted by both Birmingham and Shawbury. At one point the pilot reported as being at 1600ft with the Mode C indicating 1200ft. The a/c was returning tobase following maintenance. During this incident, a B737 inbound to Birmingham declared a PAN due to a passenger medical emergency.
200913313	16/12/2009	EGTT : London (FIR)	Southampton (SAM)	N	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Solent CTA (Class D) by a DR400 at 2300ft. Standard separation maintained.	Previous similar incidents recorded.☐ CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200913411	17/12/2009	EGTT : London (FIR)	Stansted		G	Restrictedd area	ROBINSON	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by an R44.	Pilot apologised and has acknowledged his error. Pilot states that he believes the a/c may have drifted off track during snow showers.
200913411	17/12/2009	EGTT : London (FIR)	Stansted		G	Restrictedd area	AIRBUS	Turbofan	2	Infringement of the Stansted TMZ 2 (Class G) by an R44.	Pilot apologised and has acknowledged his error. Pilot states that he believes the a/c may have drifted off track during snow showers.

200913426	20/12/2009	EGTT : London (FIR)	EXMOR	13SW	A		OTHER	Reciprocating	1	Infringement of Airway N864 (Class A) by a microlight squawking 7000 at FL82. D&D alerted. Standard separation maintained.	Pilot contacted and admitted that he had misread his chart whilst en-route.
200913431	19/12/2009	EGTT : London (FIR)	London-Gatwick - LGW		D	CTR	ROBINSON	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by an R44. Standard separation maintained.	
200913554	23/12/2009	EGTT : London (FIR)	Totton		D	CTR	ROBINSON	Reciprocating	1	Infringement of the Southampton CTR (Class D) by an R44 at 1100ft. Traffic info given. Standard separation maintained.	
200913648	28/12/2009	EGTT : London (FIR)	London-Heathrow - LHR	16W	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C182 squawking 7000 at 3600ft. Traffic info and avoiding action given. Separation lost with against three a/c inbound to London Heathrow.	Appropriate CAA action is being taken as a result of thisincident.
200913648	28/12/2009	EGTT : London (FIR)	London-Heathrow - LHR	16W	A	TMA	BOEING	Turbofan	2	Infringement of the LTMA (Class A) by a C182 squawking 7000 at 3600ft. Traffic info and avoiding action given. Separation lost with against three a/c inbound to London Heathrow.	Appropriate CAA action is being taken as a result of thisincident.

200913658	28/12/2009	EGTT : London (FIR)	Stansted	4 SE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C152 squawking 7000. A 'check all' was placed on Stansted departures. Approx 18mins later a/c again infringed the Stansted CTR (Class D).	Standard separation maintained.□ CAA Closure: No further information became available. No further CAA action practicable due to elapsed time.
200913664	28/12/2009	EGTT : London (FIR)	WILLO		A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 squawking 7000 at 3400ft. A/c had previously briefly entered the Gatwick CTA (Class D). Standard separation maintained.	Pilot reported that he was conducting a general handling training exercise at the time with numerous changes in headings and altitudes. The area where the pilot usually conducts such exercises was overcast at about 2000ft. Therefore he opted to carry out training North of Brighton, where he believed he was further South than his actual position.Pilot apologised and has stated he will use ground features to identify his position in future and make regular checks to make sure he does not infringe controlled airspace again.
200913668	28/12/2009	EGTT : London (FIR)	Stansted		G	Restrict ed area	DE HAVILLAND	Reciprocating	1	Infringement of the Stansted TMZ 1 (Class G) by a DH Moth.	
200913668	28/12/2009	EGTT : London (FIR)	Stansted		G	Restrict ed area	BOEING	Turbofan	2	Infringement of the Stansted TMZ 1 (Class G) by a DH Moth.	
201000016	02/01/2010	EGTT : London (FIR)	Stansted	5NW	D	CTR	OTHER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a microlight. A "check-all" was placed. Standard separation maintained.	

201000016	02/01/2010	EGTT : London (FIR)	Stansted	5NW	D	CTR	AIRBUS	Turbofan	2	Infringement of the Stansted CTR (Class D) by a microlight. A "check-all" was placed. Standard separation maintained.	
201000017	02/01/2010	EGTT : London (FIR)	Stansted		G	Restrict ed area	UNKNOWN	Reciprocating	1	Infringement of the Stansted TMZ1 (Class G) by a Skyranger 912. Two inbounds were delayed.	ATC advised the pilot to call Farnborough LARS on return journey to obtain TMZ clearance.
201000017	02/01/2010	EGTT : London (FIR)	Stansted		G	Restrict ed area	UNKNOWN	Unknown		Infringement of the Stansted TMZ1 (Class G) by a Skyranger 912. Two inbounds were delayed.	ATC advised the pilot to call Farnborough LARS on return journey to obtain TMZ clearance.
201000021	04/01/2010	EGTT : London (FIR)	Bournemouth	6NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a PA28 at 1500ft. Standard separation maintained.	
201000026	04/01/2010	EGTT : London (FIR)	Daventry (DTY)	5N	A	CTA	PIPER	Reciprocating	1	Infringement of the Daventry CTA (Class A) by a PA38 squawking 7000 at FL50. Standard separation maintained.	

201000052	04/01/2010	EGTT : London (FIR)	London-Gatwick - LGW	15 W	A	TMA	VANS	Reciprocating	1	Alleged infringement of the LTMA (Class A) by a Vans RV4 at an indicated 5500ft. Gatwick departures were stopped. Standard separation maintained.	ATC have been in contact with the pilot who strongly believes that this was a malfunctioning transponder issue withthe transponder to be checked.
201000346	17/01/2010	EGTT : London (FIR)	London (LON)	15WSW	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28 squawking 7000 at 2100ft. Heathrow departures were stopped. Standard separation maintained.	Pilot had failed to depress the ADF button and, when he did, the gauge read normally. Pilot has apologised for the infringement and acknowledges that he should have checked ADF operation prior to departure.
201000384	18/01/2010	EGTT : London (FIR)	Sandtoft	3NE	D	CTR	EUROPA	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by an Europa at 3300ft. Standard separation maintained.	
201000439	17/01/2010	EGTT : London (FIR)	Stansted		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 at 2000ft. Traffic info given. Standard separation maintained.	Pilot became distracted during flight when the cockpit door top catch opened. Pilot and passenger were unable to secure the door. With his attention focused on flying the a/c and whilst being significantly distracted due to the situation with the cockpit door, the pilot failed to establish the base of the CTA as 1500ft having preconceived that it was 2500ft. Pilot also made the error of switching to Mode A instead of Mode C when recycling the transponder. Pilot has apologised for the error, acknowledged inadequate pre-flight planning and poor handling of an in-flight problem and has learned lessons as a result.
201000439	17/01/2010	EGTT : London (FIR)	Stansted		D	CTA	AIRBUS	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 at 2000ft. Traffic info given. Standard separation maintained.	Pilot became distracted during flight when the cockpit door top catch opened. Pilot and passenger were unable to secure the door. With his attention focused on flying the a/c and whilst being significantly distracted due to the situation with the cockpit door, the pilot failed to establish the base of the CTA as 1500ft having preconceived that it was 2500ft. Pilot also made the error of switching to Mode A instead of Mode C when recycling the transponder. Pilot has apologised for the error, acknowledged inadequate pre-flight planning and poor handling of an in-flight problem and has learned lessons as a result.

201000510	17/01/2010	EGTT : London (FIR)	Wallasey (WAL)	1N	D	CTA	GROB	Reciprocating	1	Infringement of the Liverpool CTA (Class D) by a Grob G115 at 4000ft. Standard separation maintained.	
201000671	17/01/2010	EGTT : London (FIR)	Kirkham VRP		G	Restrict ed area	CESSNA	Reciprocating	1	Infringement of EG R312 (Springfields) by a C172 at 1400ft. Standard separation maintained.	
201000772	31/01/2010	EGTT : London (FIR)	Luton (LUT)		D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Robin 400 squawking 7000. Traffic info given. Standard separation maintained.	
201000774	31/01/2010	EGTT : London (FIR)	Luton (LUT)	7W	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by an unknown a/csquawking 7000 at 1100ft. A check-all was imposed. Standard separation maintained.	Pilot later apologised for the infringement and stated that he had misjudged Eddlesborough's position in relation to the CTR.
201000776	30/01/2010	EGTT : London (FIR)	Honiley (HON)	12SSE	A	CTA	GARDAN	Reciprocating	1	Infringement of the Daventry CTA (Class A) by a Gardan 80squawking 7000 at 6300ft. Standard separation maintained.	Pilot incorrectly identified the lower level of the Daventry CTA during pre-flight planning. Pilot error acknowledged.

201000777	30/01/2010	EGTT : London (FIR)	Andrewsfield	3N	G	Restricted area	CESSNA	Reciprocating	1	Infringement of the Stansted TMZ 1 (Class G) by a C152 at1000ft.	Possible transponder fault.
201000777	30/01/2010	EGTT : London (FIR)	Andrewsfield	3N	G	Restricted area	OTHER	Unknown		Infringement of the Stansted TMZ 1 (Class G) by a C152 at1000ft.	Possible transponder fault.
201000780	30/01/2010	EGTT : London (FIR)	Luton (LUT)		D	CTR	VANS	Reciprocating	1	Infringement of the Luton CTR (Class D) by two a/c in formation squawking 7000ft at 1500ft. One a/c was identified as a Vans RV-8. Standard separation maintained.	
201000781	28/01/2010	EGTT : London (FIR)	Old Warden		A	TMA	GROB	Reciprocating	1	Infringement of the LTMA (Class A) by a Grob G115 squawking 7000 at FL70. Standard separation maintained.	
201000809	31/01/2010	EGTT : London (FIR)	Redhill		D	CTA	CESSNA	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a C172 squawking 7000 at 2000ft. Traffic info given. Standard separation maintained.	

201000864	01/02/2010	EGTT : London (FIR)	Bovingdon (BNN)	4N	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 squawking 7000 at 2000ft. D&D alerted. Standard separation maintained.	Pilot subsequently reported being ready to depart Denham at 1545hrs, however, he had experienced a delay in obtaining the clearance, as the controller did not have the a/c's details. The pilot was aware that he had been briefed about sunset being 1650hrs. The pilot eventually received a take-off clearance at 1555hrs. When overhead Westcott, the daylight was starting to deteriorate, the pilot increased power to try and reach Bovingdon in the shortest time possible. However, after 5mins the pilot became disorientated and could not recognise the area he was in. The pilot attempted to transmit a PAN on 121.50 and attempted to obtain a heading to Bovingdon on Box 1, however, the heading provided appeared to be inaccurate. The pilot attempted to contact 121.50 again, however, it was noticed that the numbers on Box 1 were starting to fade. The pilot acknowledged there maybe a problem with the radio and selected Box 2 to call Denham on 130.725 to request help. Subsequently another PAN was declared whereby the pilot stated he was lost and the a/c was given steer by D&D. The pilot was debriefed by CFI and it was discussed that a diversion may have been prudent considering that the pilot experienced a slight delay on the ground. Further dual training had been planned. CFI still unable to determine if there is a problem with the Comm/Nav Box 1 as the a/c has not been flown since due to poor weather.
201000903	01/02/2010	EGTT : London (FIR)	Manchester (MCT)	14NNE	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Manchester CTR (Class D) by an R44 squawking 7000 at 1700ft. Traffic info given. Standard separation maintained.	
201000922	30/01/2010	EGTT : London (FIR)	Nottingham East Midlands	10SE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Nottingham East Midlands CTA (Class D) by a C172 at 2000ft. Traffic info given. Standard separation maintained.

201001939	06/03/2010	EGTT : London (FIR)	Henley		A	TMA	UNKNOWN	Unknown		Infringement of the LTMA (Class A) by a PA28 at 2800ft resulting in a loss of separation against a Heathrow inbound.	CAA Closure: The pilot was informed of the infringement by ATC. No further action is considered practicable due to elapsed time.

201001940	07/03/2010	EGTT : London (FIR)	Denham	5 W	A	CTR	OTHER	Reciprocating	1	Infringement of the London CTR (Class A) by a microlight squawking 7000 at 1500ft. Traffic info and avoiding actiongiven. Separation lost.	Appropriate CAA action is being taken as a result of thisincident.
201001940	07/03/2010	EGTT : London (FIR)	Denham	5 W	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a microlight squawking 7000 at 1500ft. Traffic info and avoiding actiongiven. Separation lost.	Appropriate CAA action is being taken as a result of thisincident.
201001941	07/03/2010	EGTT : London (FIR)	Colerne		D	CTA	PIPER	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a PA28 at 5000ft. Standard separation maintained.	
201001943	22/02/2010	EGTT : London (FIR)	Blackpool (BPL)		G	ATZ	ROBINSON	Reciprocating	1	Infringement of the Blackpool ATZ (Class G) by an R22 at 500ft. Standard separation maintained.	
201001944	07/03/2010	EGTT : London (FIR)	Southampton (SAM)	8.2NE	A		CESSNA	Reciprocating	1	Infringement of Airway R41 (Class A) by a C172 squawking 7000 at FL64. Standard separation maintained.	

201001945	07/03/2010	EGTT : London (FIR)	Leeds		D	CTA	PIPER	Reciprocating	1	Infringement of the Leeds CTA (Class D) by a PA28 squawking 7000 at 3800ft. Traffic info given. Standard separationmaintained.	
201002005	07/03/2010	EGTT : London (FIR)	Midhurst (MID)	SE	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C152. Standard separation maintained.	
201002006	08/03/2010	EGTT : London (FIR)	Southampton (SAM)		D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 2300ft. Traffic info given. Standard separation maintained.	
201002007	08/03/2010	EGTT : London (FIR)	Southampton (SAM)	5 NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 2500ft. Two a/c were delayed, one on departure and one on approach. Standard separation maintained.	CAA Closure: PA28 in receipt of a Basic Service from Solent was observed on a routing that was bringing it close toCAS. ATC requested intentions from the pilot, who stated routing to Basingstoke. ATC gave heading to avoid CAS but a/c subsequently entered the Solent CTA. PA28 pilot reported problems with on board equipment and also having confused Winchester for Basingstoke. ATC then directed the a/c out of the CTA.
201002023	04/03/2010	EGTT : London (FIR)	Biggin (BIG)	3 NE	G	ATZ	PIPER	Reciprocating	1	UK AIRPROX 2010/013 - C550 and a PA28 that infringed Biggin Hill ATZ (Class G) at 20000ft, 3nm Northeast of Biggin Hill. Avoiding action and traffic info given.	While providing an ATC service to a C550 taking off from Biggin Hill the ADC/Approach controller spotted unknown traffic on the ATM entering the ATZ NE of the airfield, unverified Mode C indicating 2000ft. The controller issued a blind transmission to identify the a/c which was a PA28, who responded and was turned onto a heading in order to resolve the conflict with the departing C550. Both the pilot of the PA28 and the C550 were given traffic info on each other. The C550 saw the PA28 on TCAS but no RA/TA was activated. The C550 pilot did not make visual contact with the PA28. The pilot of the PA28 had been listening out on the Biggin Hill frequency but had not obtained a clearance to enter the ATZ as he had been intent on looking for the aerodrome which had proved difficult due to looking into sun through haze. The pilot contacted Biggin Hill afterwards toapologise.□ CAA Closure: No further CAA action. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).

201002023	04/03/2010	EGTT : London (FIR)	Biggin (BIG)	3 NE	G	ATZ	CESSNA	Turbofan	2	UK AIRPROX 2010/013 - C550 and a PA28 that infringed Biggin Hill ATZ (Class G) at 2000ft, 3nm Northeast of Biggin Hill. Avoiding action and traffic info given.	While providing an ATC service to a C550 taking off from Biggin Hill the ADC/Approach controller spotted unknown traffic on the ATM entering the ATZ NE of the airfield, unverified Mode C indicating 2000ft. The controller issued a blind transmission to identify the a/c which was a PA28, who responded and was turned onto a heading in order to resolve the conflict with the departing C550. Both the pilot of the PA28 and the C550 were given traffic info on each other. The C550 saw the PA28 on TCAS but no RA/TA was activated. The C550 pilot did not make visual contact with the PA28. The pilot of the PA28 had been listening out on the Biggin Hill frequency but had not obtained a clearance to enter the ATZ as he had been intent on looking for the aerodrome which had proved difficult due to looking into sun through haze. The pilot contacted Biggin Hill afterwards to apologise.☐ CAA Closure: No further CAA action. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
201002049	07/03/2010	EGTT : London (FIR)	Birmingham		D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 squawking 7000 at 3300ft. Standard separation maintained.	Pilot subsequently reported routing via Banbury and Rugby. The pilot stated there was not many features along the route and he was unaware he had entered the CTA. The pilot agreed that he may have mistaken Coventry for Rugby.
201002100	10/03/2010	EGTT : London (FIR)	Birmingham	15SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by two PA28's squawking 7000 at 4000ft. Traffic info given. Standard separation maintained.	Inbound DHC8 given additional vectoring to ensure that standard separation was maintained.
201002100	10/03/2010	EGTT : London (FIR)	Birmingham	15SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by two PA28's squawking 7000 at 4000ft. Traffic info given. Standard separation maintained.	Inbound DHC8 given additional vectoring to ensure that standard separation was maintained.
201002170	09/03/2010	EGTT : London (FIR)	Panshanger	1 SE	G	ATZ	CESSNA	Reciprocating	1	UK AIRPROX 2010/016 - C172 and a Bell 206 at 800ft, 1nm Southeast of Panshanger.	Bell 206 entered Panshanger ATZ without calling Panshanger frequency to obtain info prior to entering ATZ iaw Rules of the Air Regulations. C172 saw the approaching Bell 206 and took appropriate action. Insufficient lookout and failure to contact ATC prior to entering ATZ by Bell 206 pilot.☐ CAA Closure: No risk of collision due to effective lookout by C172 Pilot. Bell 206 pilot has been given appropriate advice and guidance material. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).

201002170	09/03/2010	EGTT : London (FIR)	Panshanger	1 SE	G	ATZ	BELL	Turboshaft	1	UK AIRPROX 2010/016 - C172 and a Bell 206 at 800ft, 1nm Southeast of Panshanger.	Bell 206 entered Panshanger ATZ without calling Panshanger frequency to obtain info prior to entering ATZ iaw Rulesof the Air Regulations. C172 saw the approaching Bell 206and took appropriate action. Insufficient lookout and failure to contact ATC prior to entering ATZ by Bell 206 pilot. □ CAA Closure: No risk of collision due to effective lookout by C172 Pilot. Bell 206 pilot has been given appropriate advice and guidance material. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
201002185	10/03/2010	EGTT : London (FIR)	Mayfield (MAY)	3NW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a C172 squawking 7000 at 1900ft. Standard separation maintained.	Pilot later reported that he had become distracted and subsequently deviated from his intended route. Pilot apologised for the infringement and has stated that a debrief washeld with his CFI with lessons learnt.
201002187	12/03/2010	EGTT : London (FIR)	Manchester (MCT)	4 WNW	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a Robin 200 at 1250ft. Standard separation maintained. Incident occurred during very high ATC workload.	CAA Closure: No further action possible due to elapsed time.
201002188	14/03/2010	EGTT : London (FIR)	Isle Of Wight		D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Robin 2100 squawking 7000 at 2400ft. Standard separation maintained.	Pilot apologised.
201002190	14/03/2010	EGTT : London (FIR)	New Alresford		D	CTA	GRUMMAN	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Grumman AA5at 3400ft. Standard separation maintained.	Pilot apologised.

201002191	14/03/2010	EGTT : London (FIR)	Coventry		D	CTA	ROBINSON	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by an R44 squawking 7000 at 2000ft. Traffic info given. Standard separation maintained.	ATC unit investigation concludes that London FIS attempted twice to transfer the a/c to Coventry frequency, even though Coventry ATC is NOTAMed closed, and this contributed to the infringement.
201002192	14/03/2010	EGTT : London (FIR)	Stansted	6 NE	D	CTR	FUJI	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a Fuji 200 (believed). Separation lost.	CAA Closure: No action considered practicable due to the elapsed time.
201002192	14/03/2010	EGTT : London (FIR)	Stansted	6 NE	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a Fuji 200 (believed). Separation lost.	CAA Closure: No action considered practicable due to the elapsed time.
201002193	14/03/2010	EGTT : London (FIR)	Winchester		D	CTR	CIRRUS	Reciprocating	1	Infringement of the Solent CTR (Class D) by an SR22 squawking 7000 at 2100ft. Standard separation maintained.	Pilot apologised.
201002206	14/03/2010	EGTT : London (FIR)	Luton (LUT)		D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C172 squawking 7000 at 2300ft resulting in a loss of separation against an A320. Traffic info given.	CAA Closure: No further action is considered practicable due to elapsed time.

201002206	14/03/2010	EGTT : London (FIR)	Luton (LUT)		D	CTR	AIRBUS	Turbofan	2	Infringement of the Luton CTR (Class D) by a C172 squawking 7000 at 2300ft resulting in a loss of separation against an A320. Traffic info given.	CAA Closure: No further action is considered practicable due to elapsed time.
201002213	11/03/2010	EGTT : London (FIR)	Nottingham East Midlands	10E	D	CTA	GROB	Reciprocating	1	Infringement of the Nottingham East Midlands CTA (Class D) by a Grob G115 at FL56. Standard separation maintained.	Pilot spoke with ATC and local action taken.
201002330	15/03/2010	EGTT : London (FIR)	Coventry	1SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 squawking 7000 at 3000ft. Standard separation maintained.	
201002343	13/03/2010	EGTT : London (FIR)	London-Gatwick - LGW	7W	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Gatwick CTA and CTR (Class D) by a Robin 1180 at 2300ft, 7nm West of Gatwick. Standard separation maintained.	Upon leaving CAS, pilot apologised and stated that he hadbeen having compass problems.
201002360	18/03/2010	EGTT : London (FIR)	EGD017		G	Danger area	PIPER	Reciprocating	1	Infringement of active Danger Area EGD017 by a PA28 at FL50.	A/c called London information and requested a Basic Service. ATC advised the a/c to squawk 1177. ATC then observed a 1177 squawk about to enter EGD017. Controller was aware that the Danger Area was active with live firing so instructed the a/c to squawk 0030 (FIR LOST) in an attempt to alert other units whilst the controller dealt with the situation. Contact was made with LJAO as the a/c was leaving the Danger Area. Danger Area 23 was notified as active but the daily fax indicated no activity above 3000ft. The LJAO SW Planner cleared the a/c to transit Danger Areas 23 and 21 at FL50, this was relayed to the a/c as it continued enroute.

201002403	18/03/2010	EGTT : London (FIR)	London-Gatwick - LGW	12 SW	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a Robin 2160squawking 7000 at 2000ft. Gatwick departures to the Southand West stopped.	CAA Closure: ATC contacted the pilot who apologised and explained his reasons for the infringement. He also stated his intention of obtaining an Airbox Aware unit.
201002486	21/03/2010	EGTT : London (FIR)	Stansted	3 NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28 squawking 7000 at 1900ft. Traffic info given. Three a/c brokenoff approach. Standard separation maintained.	Investigation under 201002231.
201002487	21/03/2010	EGTT : London (FIR)	Compton (CPT)		A	TMA	GARDAN	Reciprocating	1	Infringement of the LTMA (Class A) by a Gardan 80 at 5000ft. Standard separation maintained.	Pilot spoke with ATC and local action taken.
201002508	21/03/2010	EGTT : London (FIR)	Stansted		D	CTA	OTHER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a glider at1700ft. Standard separation maintained.	
201002509	21/03/2010	EGTT : London (FIR)	Stansted		D	CTA	OTHER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a microlight at 1700ft. Standard separation maintained.	

201002510	21/03/2010	EGTT : London (FIR)	Epping		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 squawking 0013 transiting Northbound with no Mode C.	
201002511	21/03/2010	EGTT : London (FIR)	Stansted		G	Restrict ed area	GROB	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a Grob G109. Possible transponder malfunction.	
201002521	23/03/2010	EGTT : London (FIR)	TRIPO	7E	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 squawking 7000 at FL60. Standard separation maintained.	
201002522	23/03/2010	EGTT : London (FIR)	North Weald	3W	D	CTA	OTHER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a microlight squawking 7000 at 1800ft. Standard separation maintained.	
201002527	23/03/2010	EGTT : London (FIR)	Stansted		D	Restrict ed area	PIPER	Reciprocating	1	Infringement of the Stansted CTA/CTR (Class D) and TMZ (Class G) by a PA28. Separation was lost between two B737s during this incident.	Appropriate CAA action has been taken in regards to the infringement. A loss of separation occurred on the LTCC SS INT sector when two B737s came into conflict at altitude 4000ft whilst being vectored for an approach to R/W22. B737(1) was descended to altitude 3000ft and B737(2) to altitude 4000ft. Both were on headings to sequence for R/W22.An unknown a/c was then observed to enter the Stansted CTR and passed through the R/W22 centreline. The controller issued avoiding action instructions to both B737s but in doing so had not realised that B737(1) had not yet left 4000ft for 3000ft. B737(1) turned into conflict with B737(2). The avoiding action issued initially placed both a/c on converging tracks. When the controller realised that separation was going to be lost, further avoiding action was given to B737(1). High-level STCA activated. B737(2) left controlled airspace as a result of the avoiding action andwas placed under an appropriate service. When able, the controller resequenced both a/c for an uneventful approach.☐ CAA Closure: Appropriate ATC unit action taken.

201002527	23/03/2010	EGTT : London (FIR)	Stansted		D	Restrict ed area	BOEING	Turbofan	2	Infringement of the Stansted CTA/CTR (Class D) and TMZ (Class G) by a PA28. Separation was lost between two B737s during this incident.	Appropriate CAA action has been taken in regards to the infringement. A loss of separation occurred on the LTCC SS INT sector when two B737s came into conflict at altitude 4000ft whilst being vectored for an approach to R/W22. B737(1) was descended to altitude 3000ft and B737(2) to altitude 4000ft. Both were on headings to sequence for R/W22.An unknown a/c was then observed to enter the Stansted CTR and passed through the R/W22 centreline. The controller issued avoiding action instructions to both B737s but in doing so had not realised that B737(1) had not yet left 4000ft for 3000ft. B737(1) turned into conflict with B737(2). The avoiding action issued initially placed both a/c on converging tracks. When the controller realised that separation was going to be lost, further avoiding action was given to B737(1). High-level STCA activated. B737(2) left controlled airspace as a result of the avoiding action andwas placed under an appropriate service. When able, the controller resequenced both a/c for an uneventful approach.☐ CAA Closure: Appropriate ATC unit action taken.
201002665	26/03/2010	EGTT : London (FIR)	Luton (LUT)		D	Restrict ed area	STODDARD HAMILTON	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Glasair. Thea/c then went onto infringe the Stansted TMZ 2 (Class G).Standard separation maintained.	
201002668	27/03/2010	EGTT : London (FIR)	Leeds Bradford (LBA)	7NW	D	CTR	PIPER	Reciprocating	1	Infringement of the Leeds Bradford CTR (Class D) by a PA28 squawking 7000 at 2500ft. Standard separation maintained.	Pilot apologised.
201002669	27/03/2010	EGTT : London (FIR)	Bovingdon (BNN)	8 NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28R squawking 7000 at 2000ft. Traffic info and avoiding action given. Separation lost with a B737.	PA28R pilot is familiar with the area, and suspects that infringement occurred during weather avoidance (rain shower passing North to South).☐ CAA Closure: Pilot very apologetic. Relevant advice given and appropriate lesson clearlylearnt from this incident.
201002669	27/03/2010	EGTT : London (FIR)	Bovingdon (BNN)	8 NE	D	CTR	BOEING	Turbofan	2	Infringement of the Luton CTR (Class D) by a PA28R squawking 7000 at 2000ft. Traffic info and avoiding action given. Separation lost with a B737.	PA28R pilot is familiar with the area, and suspects that infringement occurred during weather avoidance (rain shower passing North to South).☐ CAA Closure: Pilot very apologetic. Relevant advice given and appropriate lesson clearlylearnt from this incident.

201002672	28/03/2010	EGTT : London (FIR)	Bournemouth	5E	D	CTR	OTHER	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a StreakShadow microlight at 1000ft. Standard separation maintained.	Pilot apologised.
201002819	01/04/2010	EGTT : London (FIR)	Stansted	15N	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA32 squawking 7000 at 2200ft. Traffic info given. Standard separation maintained.	
201002819	01/04/2010	EGTT : London (FIR)	Stansted	15N	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA32 squawking 7000 at 2200ft. Traffic info given. Standard separation maintained.	
201002856	04/04/2010	EGTT : London (FIR)	Denham	3W	A	CTR	ROBINSON	Reciprocating	1	Infringement of the London CTR (Class A) by an R44 squawking 7000 at 2400ft. Heathrow departures stopped. Standard separation maintained.	Appropriate CAA action has been taken as a result of thisincident.
201002962	03/04/2010	EGTT : London (FIR)	Blackpool (BPL)		G	ATZ	OTHER	Reciprocating	1	Infringement of the Blackpool ATZ (Class G) by a microlight squawking 7000 at 600ft. Standard separation maintained.	

201003032	08/04/2010	EGTT : London (FIR)	London-Heathrow - LHR	10 NW	A	CTR	BELL	Turboshaft	1	Infringement of the London CTR (Class A) by a Bell 206 at1300ft, 10nm Northwest of London Heathrow. Northbound departures stopped for approx 5mins. Standard separation maintained.	CAA Closure: The pilot has subsequently attended a helicopter safety evening where the causes of the infringement and preventative measures and practices were discussed. Thepilot was cooperative and demonstrated a reasonable knowledge of solutions that would prevent a recurrence and he has subsequently incorporated using the Farnborough LARS service for flights within their service region.
201003057	08/04/2010	EGTT : London (FIR)	Stansted		G	Restrict ed area	WESTLAND	Turboshaft	1	Infringement of the Stansted TMZ 2 (Class G) by a Gazellesquawking 7000 at 1100ft.	
201003070	07/03/2010	EGTT : London (FIR)	Syerston		G	ATZ	CESSNA	Reciprocating	1	Infringement of the Syerston ATZ by a C152 at 1000ft. Gliding site active during the infringement.	CAA Closure: No further CAA action possible due to the elapsed time.
201003094	09/04/2010	EGTT : London (FIR)	Stansted		G	Restrict ed area	OTHER	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a microlight.	Pilot spoke with ATC and apologised, stating he had forgot to switch on his transponder.
201003104	08/04/2010	EGTT : London (FIR)	Birmingham	5N	D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C182 at3600ft. Traffic info and avoiding action given.	Pilot reported that RT volume was turned down. Pilot attempting to avoid East Midlands airspace en route to Cranfield. Pilot eventually sighted Birmingham and turned away. There was also inadequate TRM between the RAD1 controller and the Tower controller established as a causal factor by the ATC investigation unit.☐ CAA Closure: Appropriate ATC action taken.

201003104	08/04/2010	EGTT : London (FIR)	Birmingham	5N	D	CTR	AIRBUS	Turbofan	2	Infringement of the Birmingham CTR (Class D) by a C182 at 3600ft. Traffic info and avoiding action given.	Pilot reported that RT volume was turned down. Pilot attempting to avoid East Midlands airspace en route to Cranfield. Pilot eventually sighted Birmingham and turned away. There was also inadequate TRM between the RAD1 controller and the Tower controller established as a causal factor by the ATC investigation unit.☐ CAA Closure: Appropriate ATC action taken.
201003105	08/04/2010	EGTT : London (FIR)	Birmingham	8 S	D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C152 squawking 7000 at 2600ft. Traffic info given. Departures were stopped. Standard separation maintained.	Pilot (a student on a solo cross country) was unsure of her position, and then flew a different track to the one suggested by D&D.☐ CAA Closure: CFI was informed. The student received extra training before successfully repeating her solo cross country.
201003106	09/04/2010	EGTT : London (FIR)	White Waltham	3 SE	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28 at 2200ft. Traffic info given. Heathrow Southbound departures stopped. Standard separation maintained.	CAA Closure: No action taken by ATC at the time. No further action is considered practicable due to elapsed time.
201003107	09/04/2010	EGTT : London (FIR)	Cardiff (CDF)	10E	D	CTA	OTHER	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by a microlightsquawking 7000 at 2300ft. Traffic info given. Standard separation maintained.	Pilot asked to contact ATC. Pilot contacted ATC and stated that he was unable to contact Cardiff following a transfer from Bristol ATC, which lead to distraction and a misjudgement. The pilot had written an incorrect frequency downfor Cardiff and then misjudged his position and infringedthe CTA (Class D).
201003108	09/04/2010	EGTT : London (FIR)	London-Gatwick - LGW	8S	D	CTA	OTHER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a microlightsquawking 7000 at 2200ft. Standard separation maintained.	ATC have spoken to the pilot concerned to prevent any reoccurrence.

201003109	10/04/2010	EGTT : London (FIR)	Luton (LUT)	SW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C152 squawking 7000 at 1900ft. A check-all was placed on Luton departures. Standard separation maintained.	CAA Closure: ATC contacted the operator of the C152. Theyhave carried out a discussion with the pilot and stated their intention to oversee his flying schedule.
201003109	10/04/2010	EGTT : London (FIR)	Luton (LUT)	SW	D	CTR	AIRBUS	Turbofan	2	Infringement of the Luton CTR (Class D) by a C152 squawking 7000 at 1900ft. A check-all was placed on Luton departures. Standard separation maintained.	CAA Closure: ATC contacted the operator of the C152. Theyhave carried out a discussion with the pilot and stated their intention to oversee his flying schedule.
201003110	10/04/2010	EGTT : London (FIR)	Southampton (SAM)	NE	D	CTA	ROBINSON	Reciprocating	1	Infringement of the Solent CTA (Class D) by an R22 squawking 7000 at 3000ft. Standard separation maintained.	
201003113	10/04/2010	EGTT : London (FIR)	Coventry	2 WSW	D	CTR	BELL	Turboshaft	1	Infringement of the Birmingham CTR (Class D) by a Bell 206 squawking 7000 at 2000ft. Standard separation maintained.	Pilot confirmed with ATC that the a/c had got airborne with the incorrect QNH setting of 1026mb instead of the correct QNH 1034mb.
201003114	10/04/2010	EGTT : London (FIR)	Stansted	12SW	G	Restrict ed area	CESSNA	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a C152 squawking 7000 with no Mode C indicated. Traffic info given.Stansted traffic affected.	

201003114	10/04/2010	EGTT : London (FIR)	Stansted	12SW	G	Restrict ed area	BOEING	Turbofan	2	Infringement of the Stansted TMZ 2 (Class G) by a C152 squawking 7000 with no Mode C indicated. Traffic info given.Stansted traffic affected.	
201003115	10/04/2010	EGTT : London (FIR)	Stansted	10 SW	D	Restrict ed area	VANS	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) and the Stansted CTR (Class D) by a Vans RV-8 squawking 7000 with no Mode C indicated. One a/c broken off approach.	CAA Closure: No action taken by ATC at the time. No further action is considered practicable due to elapsed time.
201003117	10/04/2010	EGTT : London (FIR)	White Waltham	5	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C152 squawking 7000 at 2400ft. Pilot became unsure of his position and instructed to contact D&D. A/c given a steer. Standard separation maintained.	
201003118	10/04/2010	EGTT : London (FIR)	Southampton (SAM)	12	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 2400ft. Standard separation maintained.	Pilot had been instructed to enter CAS not above 2000ft.
201003120	11/04/2010	EGTT : London (FIR)	Stansted	20E	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA32 squawking 7000 at 5100ft. Standard separation maintained.	Pilot later stated that he did not want to fly IFR due tocontrary winds in the lower airways, which combined with the climb required, would have required more fuel. The pilot deviated from his usual route as he assumed many gliders would be airborne. Pilot acknowledges that poor pre-flight planning caused the infringement.

201003120	11/04/2010	EGTT : London (FIR)	Stansted	20E	A	TMA	BOEING	Turbofan	2	Infringement of the LTMA (Class A) by a PA32 squawking 7000 at 5100ft. Standard separation maintained.	Pilot later stated that he did not want to fly IFR due tocontrary winds in the lower airways, which combined with the climb required, would have required more fuel. The pilot deviated from his usual route as he assumed many gliders would be airborne. Pilot acknowledges that poor pre-flight planning caused the infringement.
201003121	11/04/2010	EGTT : London (FIR)	HEMEL	2NE	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Robin DR400 at 1900ft. Departures were stopped. Standard separation maintained.	CAA Closure: No follow up action was taken by ATC, although they have added the information to their database. No further action considered possible due to elapsed time.
201003122	11/04/2010	EGTT : London (FIR)	Aberporth	6NE		Restrict ed area	OTHER	Reciprocating	1	Infringement of the West Wales Airport RA(T) by a Sipa 903 squawking 7000 at 2000ft. Standard separation maintained.	
201003123	11/04/2010	EGTT : London (FIR)	Stoney Cross		D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Robin 400 squawking 7000 at 2800ft. Traffic info and avoiding action given. Standard separation maintained.	Pilot alleges that he called Solent Radar and heard a male voice giving him routing above 2000ft. The controllers do not recall speaking with the pilot.
201003140	11/04/2010	EGTT : London (FIR)	Bovingdon (BNN)		A	TMA	GRUMMAN	Reciprocating	1	Infringement of the LTMA (Class A) by a Grumman AA5 at 3400ft. Standard separation maintained.	

201003150	11/04/2010	EGTT : London (FIR)	Aberporth			Restrict ed area	OTHER	Unknown		Infringement of the West Wales Airport RA(T) by four a/c flying in formation below 1000ft. Standard separation maintained.	
201003150	11/04/2010	EGTT : London (FIR)	Aberporth			Restrict ed area	VANS	Reciprocating	1	Infringement of the West Wales Airport RA(T) by four a/c flying in formation below 1000ft. Standard separation maintained.	
201003230	13/04/2010	EGTT : London (FIR)	Frensham		A		VANS	Reciprocating	1	Infringement of CAS-T (Class A) by a Vans RV8. The a/c called Farnborough departing from a strip which was inside the CAS-T area. The pilot was not aware of the CAS-T.	One of the pilots had only just recently returned to flying light a/c in the UK and failed to notice the Farnborough NOTAM regarding CAS-T. Pilots were also unable to talk to Farnborough whilst on the ground at the private strip. Pilots subsequently apologised.
201003286	14/04/2010	EGTT : London (FIR)	Birmingham	11 SE	D	CTA	SCHEIBE	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by an SF25 at 2300ft. Inbound traffic affected. Standard separation maintained.	
201003305	15/04/2010	EGTT : London (FIR)	London-Gatwick - LGW	5 NW	D	CTR	PIPER	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a PA28 at 2400ft. Inbound traffic affected and departures stopped. Standard separation maintained.	CAA Closure: The pilot was contacted by ATC via the flying club. Action has been taken by the club to overcome the possibility of any further infringements.

201003305	15/04/2010	EGTT : London (FIR)	London-Gatwick - LGW	5 NW	D	CTR	BOEING	Turbofan	4	Infringement of the Gatwick CTR (Class D) by a PA28 at 2400ft. Inbound traffic affected and departures stopped. Standard separation maintained.	CAA Closure: The pilot was contacted by ATC via the flying club. Action has been taken by the club to overcome the possibility of any further infringements.
201003325	15/04/2010	EGTT : London (FIR)	Ockham (OCK)	5N	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C152 at 1800ft.	A/c flown by a student pilot.
201003333	13/04/2010	EGTT : London (FIR)	Doncaster Sheffield	2NW	D	CTR	OTHER	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by a microlight at 1000ft. Standard separation maintained.	
201003361	16/04/2010	EGTT : London (FIR)	Manchester (MCT)		D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a PA38. Standard separation maintained.	
201003371	18/04/2010	EGTT : London (FIR)	London City - LCY		D	CTR	RUTAN	Reciprocating	1	Infringement of the London City CTR (Class D) by a Rutan Longeze at 1200ft. Standard separation maintained.	

201003378	10/04/2010	EGTT : London (FIR)	Wethersfield		Other	Other	DE HAVILLAND	Reciprocating	1	Overflight of Wethersfield Gliding Site by a Tiger Moth at an estimated 700-800ft.	
201003414	19/04/2010	EGTT : London (FIR)	Southampton (SAM)		D	CTR	OTHER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by an Ikarus C42. Standard separation maintained.	
201003424	09/04/2010	EGTT : London (FIR)	Hawarden		D	CTR	CESSNA	Reciprocating	1	Infringement of Hawarden ATZ (Class G) by a C150 at an estimated 1500ft. Traffic info given. One a/c broken off approach. Local standby initiated. C150 then observed entering Liverpool CTR (Class D).	CAA Closure: No further action was taken by the ATS Unit at the time and no action is now practicable due to the time that has elapsed.
201003447	21/04/2010	EGTT : London (FIR)	London-Gatwick - LGW	SE	D	CTA	OTHER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a microlightat 2100ft. Two a/c on SFD SIDs were given appropriate headings to achieve standard separation. SFD departures were then stopped.	Pilot spoke with ATC and appropriate advice was given.
201003501	23/04/2010	EGTT : London (FIR)	ORTAC	20NE	A		GRUMMAN	Reciprocating	1	Infringement of Airway Q41 (Class A) by a Grumman AA5 at 4000ft. Pilot had confirmed he would remain outside of CAS. Standard separation maintained. Traffic info given.	CAA Closure: No follow up action taken by ATC, although details were added to their database. No further action considered possible due to elapsed time.

201003539	18/04/2010	EGTT : London (FIR)	Nash Point	1W	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by a Robin 2160at 2700ft. Standard separation maintained.	On speaking with ATC, pilot knew his location but believed the airspace was inactive due to a misunderstanding regarding the volcanic ash shutdown of UK ATC services.
201003541	20/04/2010	EGTT : London (FIR)	Birmingham		D	CTA	VANS	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a Vans RV-9 squawking 7000 at 2400ft. Standard separation maintained.	
201003542	21/04/2010	EGTT : London (FIR)	Brecon (BCN)	5W	A		CESSNA	Reciprocating	1	Infringement of Airway N864 (Class A) by a C172 at FL55. Traffic info given. Standard separation maintained.	
201003544	23/04/2010	EGTT : London (FIR)	Luton (LUT)	4SE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C150 at 1900ft. Standard separation maintained.	
201003545	22/04/2010	EGTT : London (FIR)	Barkway (BKY)	2 NW	A	TMA	CIRRUS	Reciprocating	1	Infringement of the LTMA (Class A) by an SR22 at 5000ft. Traffic info given. Standard separation maintained.	Subsequent alleged confusion regarding ATC procedures between Radar and FISO. An SR22 working the FIR requested climb in Class G airspace and was advised to remain outside CAS. The SR22 infringed the LTMA (Class A) at 5000ft and was offered to LTCC. LTCC initially declined to work the traffic and a restriction was placed on Stansted departures. Another LTCC position was opened to provide the SR22 with vectors and descent to clear the area. The delay in LTCC accepting to work the traffic caused a subsequent delay in a resolution to the problem.☐ CAA Closure: Appropriate ATCunit action was taken and an Operational Notice issued.

201003549	24/04/2010	EGTT : London (FIR)	Manchester (MCT)	10 E	D	CTA	OTHER	Reciprocating	1	Infringement of the Manchester CTA (Class D) by an EV-97 at 3300ft. Standard separation maintained.	LACC FIS had lost RT contact with the a/c. Several a/c tried to relay messages, one eventually managed to relay a frequency change.
201003551	24/04/2010	EGTT : London (FIR)	Dover (DVR)		A	CTA	SOCATA	Reciprocating	1	Infringement of the Worthing CTA (Class A) by a VFR TB20 at FL100. No indication was received by LACC that the a/c was operating VFR. Standard separation maintained.	A/c was accepted via the link from Brussels ATC. BrusselsATC did not alert LACC that this was a VFR flight.
201003585	25/04/2010	EGTT : London (FIR)	Stansted	S	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by C152. A B737 performed a missed approach. A check all was imposed. Traffic info given. Standard separation maintained.	CAA Closure: ATC contacted the aero club concerned. The pilot was distracted at the time with a sick passenger. Theclub have briefed him accordingly about his priorities.
201003585	25/04/2010	EGTT : London (FIR)	Stansted	S	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by C152. A B737 performed a missed approach. A check all was imposed. Traffic info given. Standard separation maintained.	CAA Closure: ATC contacted the aero club concerned. The pilot was distracted at the time with a sick passenger. Theclub have briefed him accordingly about his priorities.
201003610	26/04/2010	EGTT : London (FIR)	London-Heathrow - LHR	10 W	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA32 squawking 7000 at 2200ft. CPT and SAM departures at Heathrow were stopped. Standard separation maintained.	CAA Closure: ATC contacted the flying club of the a/c concerned. They are ensuring that the pilot is aware of the procedure for operating the equipment on their a/c.

201003612	15/04/2010	EGTT : London (FIR)	Nottingham East Midlands	6E	D	CTA	PIPER	Reciprocating	1	Infringement of the Nottingham East Midlands CTA (Class D) by a PA28 and a C172 in formation at 2200ft. Standard separation maintained.	
201003612	15/04/2010	EGTT : London (FIR)	Nottingham East Midlands	6E	D	CTA	CESSNA	Reciprocating	1	Infringement of the Nottingham East Midlands CTA (Class D) by a PA28 and a C172 in formation at 2200ft. Standard separation maintained.	
201003614	24/04/2010	EGTT : London (FIR)	Alderney	18 NW	A	CTR	PIPER	Reciprocating	1	Infringement of the Channel Islands CTR (Class A) by a PA32 at 2500ft. Pilot had been instructed not to enter CAS. Standard separation maintained.	Several attempts to contact a/c failed, pilot later reported he was experiencing radio problems.
201003628	27/04/2010	EGTT : London (FIR)	North Weald	3W	D	CTA	SOCATA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Socata TB10 squawking 7000 at 1900ft. Standard separation maintained.	TB10 pilot was on his first visit to Stapleford and was consciously trying to remember to stay at Staplefords 1200ft circuit altitude before leaving their frequency and climbing to 2000ft and contacting Farnborough. During the intervening time the pilot wanted to pick up a radial to BNN to practice general navigation and VOR tracking, which caused distraction and diverted the pilots attention from his actual position before commencing a climb. The pilot also had an incorrect perception of the M25 motorway at the M11junction and with the distraction of picking up the BNN radial the a/c infringed the Stansted CTA (Class D). The pilot apologised for the infringement, and is taking the appropriate remedial action to ensure this type of incident does not happen again.
201003635	27/04/2010	EGTT : London (FIR)	Birmingham	10 SW	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a Robin 200 squawking 7000 at 2500ft. A check all was imposed and departures were stopped. Standard separation maintained.	Student pilot on his first solo navigational flight became lost and called D&D subsequent to which appropriate action was taken. Student pilot to receive further navigational training before undertaking a further solo flight.

201003657	27/04/2010	EGTT : London (FIR)	Southampton (SAM)		D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 2300ft, a/c then climbed to 2700ft within CAS. Traffic info given. Standard separation maintained.	
201003657	27/04/2010	EGTT : London (FIR)	Southampton (SAM)		D	CTA	EMBRAER	Turbofan	2	Infringement of the Solent CTA (Class D) by a PA28 at 2300ft, a/c then climbed to 2700ft within CAS. Traffic info given. Standard separation maintained.	
201003664	15/04/2010	EGTT : London (FIR)	EG D026	Lulworth	G	Danger area	PIPER	Reciprocating	1	Infringement of active Danger Area EG D026 by a PA28 squawking 7000 receiving a Basic Service from Bournemouth. Bournemouth ATC had not informed the pilot that the Danger Area was active.	The PA28 routing eastbound along the coast infringed EG D026. ATC had instructed the PA28 to report at Sandbanks but did not remind the pilot that the danger area was active. As a consequence the a/c routed along the coast and infringed EG D026. The pilot reported that he was aware that EG D026 was active. Subject to workload Bournemouth ATC will normally advise pilots of the danger area activity. On this occasion this was not passed as the controller was busy with IFR/zone traffic. Transit a/c do not always display on Bournemouth radar and recognising a potential infringement is often a problem. The pilot was aware that EG D026 was active, was VFR in receipt of a basic service and was ultimately responsible for ensuring that the a/c did not infringe EG D026. □ CAA Closure: Controllers have been reminded of the need to ensure instructions are clear and provide all of the relevant information
201003689	27/04/2010	EGTT : London (FIR)	Stansted		G	Restrict ed area	YAKOVLEV	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a Yak 50.	
201003704	24/04/2010	EGTT : London (FIR)	Newport IOW		D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 2400ft receiving a Basic Service. Standard separation maintained.	CAA Closure: When the 7000 code was observed to change to the Bournemouth code, the a/c was instructed to leave CAS immediately.

201003713	29/04/2010	EGTT : London (FIR)	Denham		A	CTR	CESSNA	Reciprocating	1	Infringement of London CTR (Class A) by a C172 at 2000ft squawking 7000. Heathrow departures stopped. A/c taken of the SID to remain separated from the C172.	Appropriate CAA action is to be taken as a result of thisincident.
201003781	28/04/2010	EGTT : London (FIR)	Andrewsfield		D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C152 squawking 7000 at 2300ft. Standard separation maintained.	
201003782	28/04/2010	EGTT : London (FIR)	London-Heathrow - LHR	10 W	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C182 at 1000ft. Heathrow northbound departures were stopped. Standardseparation maintained.	On leaving White Waltham the pilot was intending to fly on a heading of 030deg in accordance with noise abatement but inadvertently allowed the a/c to drift onto a heading of 060deg which took the a/c East of Maidenhead town. Pilotwas very apologetic and has stated in his report that after having discussions with his instructor recommendations have been made to him which he accepts and intends to implement.
201003783	30/04/2010	EGTT : London (FIR)	Luton (LUT)		D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C180 squawking 7000 at 2500ft. Standard separation maintained.	CAA Closure: ATC contacted the pilot who provided an explanation of the flight. He has since obtained an AWARE system to assist in preventing any further infringements.
201003784	01/05/2010	EGTT : London (FIR)	Southampton (SAM)	4NE	D	CTR	LUSCOMBE	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a Luscombe at 1400ft.	

201003785	01/05/2010	EGTT : London (FIR)	Stansted		G	Restricted area	PIPER	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a PA28. Traffic info and avoiding action given.	The pilot, who is familiar with the requirements for operating through the TMZ, has apologised for the incident and has submitted a detailed response, stating that he and two other pilots were on a familiarisation check on an a/c that none of them had previously flown. The a/c was fitted with an unfamiliar transponder, which the pilots believed was showing the correct information.
201003785	01/05/2010	EGTT : London (FIR)	Stansted		G	Restricted area	BOEING	Turbofan	2	Infringement of the Stansted TMZ 2 (Class G) by a PA28. Traffic info and avoiding action given.	The pilot, who is familiar with the requirements for operating through the TMZ, has apologised for the incident and has submitted a detailed response, stating that he and two other pilots were on a familiarisation check on an a/c that none of them had previously flown. The a/c was fitted with an unfamiliar transponder, which the pilots believed was showing the correct information.
201003786	01/05/2010	EGTT : London (FIR)	Stansted		G	Restricted area	PIPER	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a Piper L18C. Traffic info and avoiding action given to an A319.	
201003786	01/05/2010	EGTT : London (FIR)	Stansted		G	Restricted area	AIRBUS	Turbofan	2	Infringement of the Stansted TMZ 2 (Class G) by a Piper L18C. Traffic info and avoiding action given to an A319.	
201003787	01/05/2010	EGTT : London (FIR)	Bournemouth		D	CTR	OTHER	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a microlight.	

201003788	03/05/2010	EGTT : London (FIR)	Manchester (MCT)		D	CTA	PIPER	Reciprocating	1	Infringement of the Manchester CTA (Class D) by a PA28. Standard separation maintained.	
201003889	04/05/2010	EGTT : London (FIR)	Bournemouth	4 NE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a C172 at 1800ft. C172 instructed to turn left but then requested IFR transit. ATC instructed a/c to leave CAS due to traffic.	C172 then subsequently infringed again at 2300ft. Standard separation maintained.☐ CAA Closure: No further CAA action considered practical at this time.
201003935	05/05/2010	EGTT : London (FIR)	MONTY		A		PIPER	Reciprocating	1	Infringement of Airway N864 (Class A) by a PA28 squawking7000 at FL68. Standard separation maintained.

Avoiding action and traffic info given.	Believed microlight was being flown by a solo student.☐ CAA Closure: No reply from a/c owner. No further action possible due to elapsed time.
201003938	05/05/2010	EGTT : London (FIR)	Southampton (SAM)	6 SE	D	CTR	UNKNOWN	Unknown		Microlight infringed the Southampton CTR (Class D) and lost separation with an inbound a/c. Avoiding action and traffic info given.	Believed microlight was being flown by a solo student.☐ CAA Closure: No reply from a/c owner. No further action possible due to elapsed time.

201003950	05/05/2010	EGTT : London (FIR)	Nottingham East Midlands	10E	D	CTR	BEECH	Reciprocating	1	Infringement of the Nottingham East Midlands CTA (Class D) by a BE33 at 2000ft, a/c subsequently infringed the Nottingham East Midlands CTR (Class D). Standard separation maintained.	
201003975	04/05/2010	EGTT : London (FIR)	White Waltham	N	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C152 at 2000ft. Standard separation maintained.	
201003980	24/04/2010	EGTT : London (FIR)	Doncaster Sheffield		D	CTR	CESSNA	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by a C172. Traffic info and avoiding action given. Separationlost against a C150.	Pilot apologised.
201003980	24/04/2010	EGTT : London (FIR)	Doncaster Sheffield		D	CTR	CESSNA	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by a C172. Traffic info and avoiding action given. Separationlost against a C150.	Pilot apologised.
201004013	09/05/2010	EGTT : London (FIR)	Stansted	W	D	Restrict ed area	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) and the TMZ (Class G) by a C152. Traffic info and avoiding action given.Separation lost.	Investigation under 201004018.

201004014	09/05/2010	EGTT : London (FIR)	Denham	4 NW	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C152 squawking 7000. Standard separation maintained.	Student pilot was routing to Denham from Chesham via Amersham and St. Giles. As the pilot approached Chesham, he was in sight of the St. Giles VRP and decided to route direct, thinking the direct routing was the more expeditious approach, therefore turning before his actual planned turning point. On turning the pilot lost visual with the VRP and consequently flew into the London CTR. Pilot became anxious and had difficulty liaising with Denham FISO. CFI has debriefed student and the student has apologised.
201004017	09/05/2010	EGTT : London (FIR)	Puckeridge		G	Restricted area	SIAI MARCHETTI	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by an SF260 squawking 7000.	Pilot misunderstood the requirements/procedures for the TMZ. Pilot has since been briefed.
201004018	09/05/2010	EGTT : London (FIR)	Stansted	S	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C152 at 1500ft. Traffic info and avoiding action given. Separation lost with three commercial a/c.	The C152 pilot contacted Luton Approach requesting a Basic Service and CTR transit but, because the a/c was not in the position reported, the Luton controller did not identify the a/c straight away. The C152 did not squawk Mode C and the pilot was not requested to report his altitude. Consequently, it was not apparent that the a/c was inside Stansted airspace.☐ CAA Closure: After discussion with the C152 pilot and his flying club, extra navigation and VOR training was booked by the pilot.
201004018	09/05/2010	EGTT : London (FIR)	Stansted	S	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a C152 at 1500ft. Traffic info and avoiding action given. Separation lost with three commercial a/c.	The C152 pilot contacted Luton Approach requesting a Basic Service and CTR transit but, because the a/c was not in the position reported, the Luton controller did not identify the a/c straight away. The C152 did not squawk Mode C and the pilot was not requested to report his altitude. Consequently, it was not apparent that the a/c was inside Stansted airspace.☐ CAA Closure: After discussion with the C152 pilot and his flying club, extra navigation and VOR training was booked by the pilot.
201004052	07/05/2010	EGTT : London (FIR)	Stansted		G	Restricted area	SIAI MARCHETTI	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by an SF260 squawking 7000. Traffic info and avoiding action given.	Pilot misunderstood the requirements/procedures for the TMZ. Pilot has since been briefed.

201004052	07/05/2010	EGTT : London (FIR)	Stansted		G	Restrict ed area	BOEING	Turbofan	2	Infringement of the Stansted TMZ 2 (Class G) by an SF260 squawking 7000. Traffic info and avoiding action given.	Pilot misunderstood the requirements/procedures for the TMZ. Pilot has since been briefed.
201004094	10/05/2010	EGTT : London (FIR)	D407		G	Danger area	CESSNA	Reciprocating	1	Alleged infringement of Danger Area EG D407 (Warcop) by aC177 squawking 7000 at FL95. Standard separation maintained.	
201004166	09/05/2010	EGTT : London (FIR)	Stansted	SW	G	Restrict ed area	VANS	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a Vans RV7 at 1000ft. Traffic info given to an A319. A/c not displaying Mode C.	
201004166	09/05/2010	EGTT : London (FIR)	Stansted	SW	G	Restrict ed area	AIRBUS	Turbofan	2	Infringement of the Stansted TMZ 2 (Class G) by a Vans RV7 at 1000ft. Traffic info given to an A319. A/c not displaying Mode C.	
201004174	11/05/2010	EGTT : London (FIR)	Luton (LUT)		A	TMA	DIAMOND	Reciprocating	1	Infringement of the LTMA (Class A) by a DA40 squawking 7000 at 3700ft. Approximately 25mins later DA40 infringed the Luton CTR (Class D). Traffic info given. A check-all wasimposed on departures.	Student pilot. Standard separation maintained. Student pilot on solo general handling flight became disorientated but did not ask ATC for assistance.☐ CAA Closure: Retraining in the use of reference points, map reading, lost procedure and radio aid fixing procedure. Dual flight to be undertaken to the satisfaction of his instructor before any further solo flying.

201004207	12/05/2010	EGTT : London (FIR)	Leeds Bradford (LBA)	7-8SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Leeds Bradford CTA (Class D) by a PA46 at 3500ft. Standard separation maintained.	
201004216	08/05/2010	EGTT : London (FIR)	Blackpool (BPL)		G	Restrict ed area	CESSNA	Reciprocating	1	Infringement of Restricted Airspace R444 by a C152 at 1300ft. Pilot alerted by ATC. Pilot reported climbing in order to be above the restricted area.	
201004251	13/05/2010	EGTT : London (FIR)	EGD037			Danger area	PIPER	Reciprocating	1	Infringement of Danger Area EGD037 by a PA46.	
201004308	14/05/2010	EGTT : London (FIR)	Luton (LUT)	6W	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 squawking 7000 at 2000ft. Traffic info given. A check all was placed. Separation lost with an outbound A320.	Student pilot on solo flight returning to Elstree became aware he had infringed the Luton CTR on observing the airfield. Student reported difficulties in contacting Farnborough radar on 132.800, however failed to contact any other unit. CFI has now briefed the student on his mistake in misidentifying Tring as planned turning point of Princes Risborough. The student believed he was following his plannedroute, but agreed that he must have come off track. The student has been fully debriefed by CFI and apologised for the infringement. Investigation under 201002231 and 201004174.
201004308	14/05/2010	EGTT : London (FIR)	Luton (LUT)	6W	D	CTR	AIRBUS	Turbofan	2	Infringement of the Luton CTR (Class D) by a PA28 squawking 7000 at 2000ft. Traffic info given. A check all was placed. Separation lost with an outbound A320.	Student pilot on solo flight returning to Elstree became aware he had infringed the Luton CTR on observing the airfield. Student reported difficulties in contacting Farnborough radar on 132.800, however failed to contact any other unit. CFI has now briefed the student on his mistake in misidentifying Tring as planned turning point of Princes Risborough. The student believed he was following his plannedroute, but agreed that he must have come off track. The student has been fully debriefed by CFI and apologised for the infringement. Investigation under 201002231 and 201004174.

201004309	15/05/2010	EGTT : London (FIR)	Birmingham	10W	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 squawking 7000 at 3300ft. Traffic info given. Standard separation maintained.	Pilot failed to adequately plan for the flight and, as a result, he did not notice that the base of CAS to the Westof Birmingham was 2500ft.
201004311	15/05/2010	EGTT : London (FIR)	Leeds Bradford (LBA)	5 SE	D	CTR	BELL	Turboshaft	1	Infringement of the Leeds Bradford CTR (Class D) by a Bell 206 squawking 7000 at 1500ft. Standard separation maintained.	Pilot admitted to a navigational error.□ CAA Closure: Pilot made aware of the serious consequences of infringing CAS and has been sent study material covering VFR navigationand flight in CAS.
201004312	15/05/2010	EGTT : London (FIR)	Daventry (DTY)	3N	A	Danger area	PIPER	Reciprocating	1	Infringement of the Daventry CTA (Class A) by a PA28 at 4800ft. Standard separation maintained. Alleged that the a/c also infringed the Weston-on-the-Green Danger Area.	Birmingham ATC also allegedly stopped departures due to this a/c.□ CAA Closure: No further action taken due to elapsed time.
201004313	15/05/2010	EGTT : London (FIR)	Southampton (SAM)	8N	D	CTR	OTHER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by an Ikarus C42 at 1800ft. Traffic info given. Standard separation maintained.	
201004420	15/05/2010	EGTT : London (FIR)	Saltby		Other	Other	OTHER	Other	0	UK AIRPROX 2010/048 - Glider and a Rockwell Commander 114 at 1000ft overhead Saltby.	After winch, glider pilot noticed a low wing a/c on a heading of 300deg approaching the airfield. The glider pilot initially thought this was a returning glider tug, howeverassessed there was a risk of collision so increased the rate of descent to increase vertical separation. The RC114 passed in front of the glider right to left and above. Glider landed without incident. The glider was not in the Rockwell 114 pilots field of vision, therefore no avoiding action taken. The RC114 flew through the circuit of a promulgated and active glider launch site, below winch launch height and came into conflict with the glider.

201004420	15/05/2010	EGTT : London (FIR)	Saltby		Other	Other	ROCKWELL	Reciprocating	1	UK AIRPROX 2010/048 - Glider and a Rockwell Commander 114 at 1000ft overhead Saltby.	After winch, glider pilot noticed a low wing a/c on a heading of 300deg approaching the airfield. The glider pilot initially thought this was a returning glider tug, howeverassessed there was a risk of collision so increased the rate of descent to increase vertical separation. The RC114 passed in front of the glider right to left and above. Glider landed without incident. The glider was not in the Rockwell 114 pilots field of vision, therefore no avoiding action taken. The RC114 flew through the circuit of a promulgated and active glider launch site, below winch launch height and came into conflict with the glider.
201004423	18/05/2010	EGTT : London (FIR)	Luton (LUT)	6SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Luton CTA (Class D) by a PA28 at 2000ft. A check-all was placed on departures. Pilot contacted D&D, declared a PAN and reported being lost. Standard separation maintained.	Student pilot on second solo navigation exercise became disorientated on return to base and, with the sun in her eyes, she mistook St Albans for Potters Bar. ☐ CAA Closure: Remedial navigation training has been completed together with a lost procedure refresher.
201004430	18/05/2010	EGTT : London (FIR)	London-Heathrow - LHR		A	CTR	ROCKWELL	Reciprocating	1	Infringement of the London CTR (Class A) by a Rockwell 114 squawking 7000 at 1400ft. Traffic info given to B747. Separation lost.	Appropriate CAA action is being taken as a result of thisincident.
201004430	18/05/2010	EGTT : London (FIR)	London-Heathrow - LHR		A	CTR	BOEING	Turbofan	4	Infringement of the London CTR (Class A) by a Rockwell 114 squawking 7000 at 1400ft. Traffic info given to B747. Separation lost.	Appropriate CAA action is being taken as a result of thisincident.
201004431	18/05/2010	EGTT : London (FIR)	Yarmouth	3E	D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a C172 at 3000ft. Standard separation maintained.	

201004492	20/05/2010	EGTT : London (FIR)	Stansted	SW	D	Restricted area	OTHER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by an unknown microlight squawking 7000 at 400ft. Microlight then infringed the Stansted TMZ 2 (Class G). Traffic info given. Two a/c broken off approach.	Debden radar was out of service, leading to low level coverage being poor. Subsequent investigation revealed that the pilot was not aware of the TMZ. The pilot had intended to overfly Hunsdon but drifted right to infringe the CTR and caused a loss of separation with a B737 descending to 2000ft. No avoiding action necessary. After conversation with local authorities who traced the a/c, the pilot fully understands his error.
201004492	20/05/2010	EGTT : London (FIR)	Stansted	SW	D	Restricted area	BAE	Turbofan	4	Infringement of the Stansted CTR (Class D) by an unknown microlight squawking 7000 at 400ft. Microlight then infringed the Stansted TMZ 2 (Class G). Traffic info given. Two a/c broken off approach.	Debden radar was out of service, leading to low level coverage being poor. Subsequent investigation revealed that the pilot was not aware of the TMZ. The pilot had intended to overfly Hunsdon but drifted right to infringe the CTR and caused a loss of separation with a B737 descending to 2000ft. No avoiding action necessary. After conversation with local authorities who traced the a/c, the pilot fully understands his error.

B737 broken off approach. Separation lost.	CAA Closure: ATC contacted the PA28 pilot for an explanation of the event. He intends to take an alternative route into and out of Andrewsfield in future, well away from the Stansted CTR.
201004639	24/05/2010	EGTT : London (FIR)	Stansted	7 NE	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a PA28 at 1200ft. Traffic info and avoiding action given. B737 broken off approach. Separation lost.	CAA Closure: ATC contacted the PA28 pilot for an explanation of the event. He intends to take an alternative route into and out of Andrewsfield in future, well away from the Stansted CTR.
201004642	24/05/2010	EGTT : London (FIR)	Bournemouth	10 E	D	CTR	PIPER	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a PA28 at 1700ft. Traffic info given. Standard separation maintained.	Previous occurrences reported involving this a/c. □ CAA Closure: No action taken by ATC at the time. No further action is considered practicable due to elapsed time.

201004672	21/05/2010	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	ROBINSON	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by an R44 squawking 7000 at 2000ft. Traffic info given to an SR22. Standard separation maintained.	
201004672	21/05/2010	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	CIRRUS	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by an R44 squawking 7000 at 2000ft. Traffic info given to an SR22. Standard separation maintained.	
201004744	25/05/2010	EGTT : London (FIR)	Stansted		G	Restricted area	CESSNA	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a C172 squawking 7000 at 1400ft. Traffic info given.	
201004744	25/05/2010	EGTT : London (FIR)	Stansted		G	Restricted area	AIRBUS	Turbofan	2	Infringement of the Stansted TMZ 2 (Class G) by a C172 squawking 7000 at 1400ft. Traffic info given.	
201004763	26/05/2010	EGTT : London (FIR)	London-Heathrow - LHR		A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA32 squawking 7000 at 2200ft. CPT and SAM departures at Heathrow were stopped. Standard separation maintained.	CAA Closure: The pilot concerned could not be determined with a registered owner recorded as overseas. No further CAA action at this time.

201004798	26/05/2010	EGTT : London (FIR)	Stretton	1.5E	D	CTR	CESSNA	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a C172. Standard separation maintained.	Pilot apologised.
201004799	26/05/2010	EGTT : London (FIR)	Manchester (MCT) TMA	3N	D	CTA	PIPER	Reciprocating	1	Infringement of the Manchester CTA (Class D) by a PA28 squawking 7000 at 2500ft. Standard separation maintained.	
201004832	28/05/2010	EGTT : London (FIR)	London-Gatwick - LGW		A	TMA	SOCATA	Reciprocating	1	Infringement of the LTMA (Class A) by a TB20 squawking 7000 at 2200ft. An inbound EMB190 was routed behind TB20 anda downwind B737 was given extended routeing. Standard separation maintained.	Prior to departure, TB20 was given taxi instructions to holding point K for R/W29 at Biggin. When TB20 was ready for departure at K, RT contact was lost. ATC subsequently observed TB20 passing K and line up on R/W29. No other traffic was affected. □ CAA Closure: No follow up action taken at the time by the ATSUs involved. No further action considered possible due to elapsed time.
201004832	28/05/2010	EGTT : London (FIR)	London-Gatwick - LGW		A	TMA	EMBRAER	Turbofan	2	Infringement of the LTMA (Class A) by a TB20 squawking 7000 at 2200ft. An inbound EMB190 was routed behind TB20 anda downwind B737 was given extended routeing. Standard separation maintained.	Prior to departure, TB20 was given taxi instructions to holding point K for R/W29 at Biggin. When TB20 was ready for departure at K, RT contact was lost. ATC subsequently observed TB20 passing K and line up on R/W29. No other traffic was affected. □ CAA Closure: No follow up action taken at the time by the ATSUs involved. No further action considered possible due to elapsed time.
201004856	30/05/2010	EGTT : London (FIR)	Lasham		G		PIPER	Reciprocating	1	UK AIRPROX 2010/058 - Glider and a PA28. PA28 working Farnborough LARS subsequently infringed Solent CTA (Class D) at 2800ft.	PA28 flew overhead a notified and active glider launchingsite, below the promulgated winch cable release height and into conflict with the glider, which it did not see.

201004856	30/05/2010	EGTT : London (FIR)	Lasham		G		OTHER	Other	0	UK AIRPROX 2010/058 - Glider and a PA28. PA28 working Farnborough LARS subsequently infringed Solent CTA (Class D) at 2800ft.	PA28 flew overhead a notified and active glider launchingsite, below the promulgated winch cable release height and into conflict with the glider, which it did not see.
201004873	27/05/2010	EGTT : London (FIR)	Stansted	10	G	Restrict ed area	OTHER	Reciprocating	1	Infringement of the Stansted TMZ 1 (Class G) allegedly by a microlight.	
201004873	27/05/2010	EGTT : London (FIR)	Stansted	10	G	Restrict ed area	BAE	Turbofan	4	Infringement of the Stansted TMZ 1 (Class G) allegedly by a microlight.	
201004876	28/05/2010	EGTT : London (FIR)	Luton (LUT)	NE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Luton CTA (Class D) by a C210 at 3500ft receiving a Basic Service. An inbound F2000 was given traffic info, its descent was stopped at 4500ft, and repositioned downwind.	Investigation established that the pilot was foreign and had very limited experience of flying in the UK. He was receiving a Basic Service and commented that the units in the North of the country had warned of approaching restricted areas in plenty of time (which is beyond what they are required to do) to allow for avoidance or prompt for requests to enter. However, prior to the infringement of the Luton CTA, no such warning was given and the pilot subsequently crossed the boundary. He noticed the F2000 and was just about to descend when, simultaneously, ATC instructed him to descend immediately to below 2500ft.☐ CAA Closure: Pilot has taken full responsibility, apologised and undertaken a full map review. He now realises exactly where he went wrong. Additionally, he admits to not fully understanding the limitations of the Basic Service and has subsequently taken appropriate remedial action to ensure that is no longer the case.

201004884	28/05/2010	EGTT : London (FIR)	Stansted		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 at 2000ft. Standard separation maintained.	
201004943	31/05/2010	EGTT : London (FIR)	Bristol International	4W	D	CTR	OTHER	Reciprocating	1	Infringement of the Bristol CTR (Class D) by a microlightat 1500ft. Standard separation maintained.	
201004945	31/05/2010	EGTT : London (FIR)	Birmingham	10SW	D	CTA	ROBINSON	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by an R44 at1900ft. Standard separation maintained.	Pilot later contacted ATC and apologised for the infringement, stating he had become disorientated and believed he was South West of Wellesbourne Mountford clear of the CTA.Appropriate advise given by ATC.
201004959	28/05/2010	EGTT : London (FIR)	Birmingham	8 SW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C172 squawking 7000 indicating 3000ft resulting in a loss of separation against three inbound a/c.	Inbound a/c were given traffic info and informed they would be delayed. C172 pilot subsequently reported that a passenger had become ill and vomited over the maps, resultingin the pilot becoming disorientated.□ CAA Closure: Pilot briefed on the benefits of wearing the listening code and contacting ATC in such circumstances.
201004959	28/05/2010	EGTT : London (FIR)	Birmingham	8 SW	D	CTR	UNKNOWN	Unknown		Infringement of the Birmingham CTR (Class D) by a C172 squawking 7000 indicating 3000ft resulting in a loss of separation against three inbound a/c.	Inbound a/c were given traffic info and informed they would be delayed. C172 pilot subsequently reported that a passenger had become ill and vomited over the maps, resultingin the pilot becoming disorientated.□ CAA Closure: Pilot briefed on the benefits of wearing the listening code and contacting ATC in such circumstances.

201004960	29/05/2010	EGTT : London (FIR)	Luton (LUT)	7 SE	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 squawking 7000. Check all was placed on departures and an a/c established on ILS was broken off the approach and repositioned. Separation maintained.	CAA Closure: ATC contacted the PA28 pilot for an explanation. The pilot was carrying out further training towards an IMC rating and it is considered probable that a strong Southerly wind was a contributory factor to the infringement.
201004960	29/05/2010	EGTT : London (FIR)	Luton (LUT)	7 SE	D	CTR	UNKNOWN	Unknown		Infringement of the Luton CTR (Class D) by a PA28 squawking 7000. Check all was placed on departures and an a/c established on ILS was broken off the approach and repositioned. Separation maintained.	CAA Closure: ATC contacted the PA28 pilot for an explanation. The pilot was carrying out further training towards an IMC rating and it is considered probable that a strong Southerly wind was a contributory factor to the infringement.
201004961	29/05/2010	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	GRUMMAN	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by a Grumman AA5. One a/c was broken off approach. Standard separation maintained.	
201004961	29/05/2010	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	CESSNA	Turbofan	2	Infringement of the Biggin Hill ATZ (Class G) by a Grumman AA5. One a/c was broken off approach. Standard separation maintained.	
201004996	15/05/2010	EGTT : London (FIR)	Weston On The Green			Danger area	PIPER	Reciprocating	1	Infringement of Danger Area D129 (Weston on the Green) bya PA28 at an estimated 2000ft.	

201004997	13/05/2010	EGTT : London (FIR)	Lulworth		G	Danger area	PIPER	Reciprocating	1	Infringement of Danger Area DO26 by a PA28 at 4500ft. Live firing was stopped.	Attempts by the ground station to establish communicationwith the pilot was unsuccessful.☐ CAA Closure: No furtherCAA action at this time.
201004998	19/05/2010	EGTT : London (FIR)	Shoeburyness			Danger area	ROCKWELL	Reciprocating	1	Infringement of Danger Area D138 (Shoeburyness) by a Rockwell 112. A check fire was given across the range.	
201005032	03/06/2010	EGTT : London (FIR)	Bournemouth	4 N	D	CTR	PIPER	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by PA28 at 1500ft. The student pilot on a navigational exercise was receiving a BS from Southampton. PA28 was told to route NE to remain clear of CAS.	The student became distracted and infringed CAS. The student was flying an a/c he had not flown previously which was fitted with unfamiliar radio and nav equipment. Whilst trying to change frequency he switched the radio off, dropped his stopwatch which slid underneath the passenger seat and broke his pen. All of which lead to a lapse in concentration.☐ CAA Closure: He was debriefed by his FI and two dual navigation trips carried out that included both transit and flight close to controlled airspace. The student hassince flown his qualifying cross country flight successfully.
201005050	02/06/2010	EGTT : London (FIR)	London-Heathrow - LHR		A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C152 at 2200ft. Standard separation maintained.	
201005052	28/05/2010	EGTT : London (FIR)	Weston On The Green		G	Danger area	CIRRUS	Reciprocating	1	Infringement of active Danger Area D129 (Weston on the Green) by an SR22 at approximately 3500ft receiving a BS.	CAA Closure: Appropriate CAA action is to be taken as a result of this incident.

201005431	13/06/2010	EGTT : London (FIR)	BWAL		D	CTR	OTHER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by three unknown microlights. Traffic info given. Departures were stopped. Standard separation maintained.	
201005432	13/06/2010	EGTT : London (FIR)	Puckeridge		D	CTR	BELL	Turboshaft	1	Infringement of the Stansted CTR (Class D) by a Bell 206 at an estimated 1500ft. Departures were stopped. Standard separation maintained.	
201005433	13/06/2010	EGTT : London (FIR)	Birmingham	ENE	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by an R22 at1600ft. Standard separation maintained.	The occurrence was caused by a newly qualified pilot becoming unsure of his position and calling East Midlands ATC in the vicinity of Sutton Coldfield.

201005435	13/06/2010	EGTT : London (FIR)	Stansted	12S	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C172 squawking 7000 at 2600ft. Departures were stopped and two inbound a/c given delaying action. Standard separation maintained.	CAA Closure: ATC contacted the pilot for an explanation. No further action considered necessary as pilot was made aware of his error.
201005471	12/06/2010	EGTT : London (FIR)	Halton	3 W	G	Restrict ed area	CESSNA	Reciprocating	1	UK AIRPROX 2010/068 - C172 and a military formation, 3nm West of RAF Halton at 2500ft.	Infringement of the RA(T) established for the Queen's birthday flypast by a C172. The lead a/c of the formation wasrequired to descend to avoid the C172. Appropriate CAA action is being taken as a result of this incident.
201005471	12/06/2010	EGTT : London (FIR)	Halton	3 W	G	Restrict ed area	OTHER	Unknown		UK AIRPROX 2010/068 - C172 and a military formation, 3nm West of RAF Halton at 2500ft.	Infringement of the RA(T) established for the Queen's birthday flypast by a C172. The lead a/c of the formation wasrequired to descend to avoid the C172. Appropriate CAA action is being taken as a result of this incident.
201005504	14/06/2010	EGTT : London (FIR)	London - Area		A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28 squawking 7000 at 1400ft. Inbound traffic was broken off. Loss of standard separation. Traffic info given.	CAA Closure: No follow up action taken by ATC at the timeof the incident. No further action considered possible due to elapsed time.
201005504	14/06/2010	EGTT : London (FIR)	London - Area		A	CTR	AIRBUS	Turbofan	2	Infringement of the London CTR (Class A) by a PA28 squawking 7000 at 1400ft. Inbound traffic was broken off. Loss of standard separation. Traffic info given.	CAA Closure: No follow up action taken by ATC at the timeof the incident. No further action considered possible due to elapsed time.

201005531	04/06/2010	EGTT : London (FIR)	Portsmouth			Danger area	PIPER	Reciprocating	1	Infringement of Active Danger Area EG D036 by a PA28 squawking 7000 at 3200ft.	
201005533	04/06/2010	EGTT : London (FIR)	Portsmouth			Danger area	PIPER	Reciprocating	1	Infringement of Active Danger Area D036 by a PA28 squawking 7000 at FL40.	
201005535	04/06/2010	EGTT : London (FIR)	Portsmouth				PIPER	Reciprocating	1	Infringement of Danger Area EG D036 by a PA28 squawking 7000.	
201005543	15/06/2010	EGTT : London (FIR)	Stansted		D	CTA	OTHER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Dynamic WT9 squawking 7000 at 2100ft. Standard separation maintained.	Pilot error acknowledged.
201005544	14/06/2010	EGTT : London (FIR)	Stansted		G	Restricted area	OTHER	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a Eurostar EV97. Traffic info given. Three a/c were given extended vectoring and one other a/c received delaying action.	CAA Closure: ATC contacted the pilot who believed that the transponder was operating at the time. No further actionconsidered feasible due to elapsed time.

201005544	14/06/2010	EGTT : London (FIR)	Stansted		G	Restricted area	BOEING	Turbofan	2	Infringement of the Stansted TMZ 2 (Class G) by a Eurostar EV97. Traffic info given. Three a/c were given extended vectoring and one other a/c received delaying action.	CAA Closure: ATC contacted the pilot who believed that the transponder was operating at the time. No further action considered feasible due to elapsed time.
201005554	15/06/2010	EGTT : London (FIR)	Birmingham	10.1	D	CTA	AESL	Reciprocating	1	Infringement of Birmingham CTA (Class D) by an Airtourer squawking 7000 at 1800ft, resulting in a loss of separation against two Birmingham inbounds.	Traffic info and avoiding action given.☐ CAA Closure: Pilot contacted and reported that flight was planned to pass beneath CAS. Pilot could not explain his slow climb into CAS.
201005554	15/06/2010	EGTT : London (FIR)	Birmingham	10.1	D	CTA	UNKNOWN	Unknown		Infringement of Birmingham CTA (Class D) by an Airtourer squawking 7000 at 1800ft, resulting in a loss of separation against two Birmingham inbounds.	Traffic info and avoiding action given.☐ CAA Closure: Pilot contacted and reported that flight was planned to pass beneath CAS. Pilot could not explain his slow climb into CAS.
201005557	15/06/2010	EGTT : London (FIR)	Southampton (SAM)		D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 squawking 7000 at 3000ft. Standard separation maintained.	
201005571	15/06/2010	EGTT : London (FIR)	White Waltham	SE	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 at 2900ft. Departures were stopped for 9mins.	Foreign pilot's first flight outside his home country. Hewas unfamiliar with the region and the charts. Pilot misinterpreted the chart, resulting in the infringement.☐ CAA Closure: Pilot has learnt from the experience.

201005581	12/06/2010	EGTT : London (FIR)	Shoreham		G	ATZ	CESSNA	Reciprocating	1	Infringement of the Shoreham ATZ (Class G) by a C172 at 600ft. Traffic info given. Standard separation maintained.	
201005582	09/06/2010	EGTT : London (FIR)	Liverpool		D	CTR	PIPER	Reciprocating	1	Infringement of the Liverpool CTR (Class D) by a PA28. Traffic info given. Standard separation maintained.	
201005610	16/06/2010	EGTT : London (FIR)	Wethersfield		D	CTA	OTHER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by Microlight squawking 7000 at 3000ft resulting in a loss of separationagainst an inbound A319. Traffic info and avoiding actiongiven.	Appropriate CAA action is being taken as a result of thisincident.
201005610	16/06/2010	EGTT : London (FIR)	Wethersfield		D	CTA	AIRBUS	Turbofan	2	Infringement of the Stansted CTA (Class D) by Microlight squawking 7000 at 3000ft resulting in a loss of separationagainst an inbound A319. Traffic info and avoiding actiongiven.	Appropriate CAA action is being taken as a result of thisincident.
201005641	12/06/2010	EGTT : London (FIR)	Nottingham East Midlands	9 NW	D	CTA	CESSNA	Reciprocating	1	Infringement of the East Midlands CTA (Class D) at 3700ftby a C182. Departures stopped until C182 was vectored clear of CAS.	Standard separation maintained.□ CAA Closure: As a resultof this infringement, the C182 pilot now appreciates the requirement for improved pre-flight planning and the need to contact the relevant ATC units in good time.

201005641	12/06/2010	EGTT : London (FIR)	Nottingham East Midlands	9 NW	D	CTA	ATR	Turboprop	2	Infringement of the East Midlands CTA (Class D) at 3700ftby a C182. Departures stopped until C182 was vectored clear of CAS.	Standard separation maintained.□ CAA Closure: As a resultof this infringement, the C182 pilot now appreciates the requirement for improved pre-flight planning and the need to contact the relevant ATC units in good time.
201005642	12/06/2010	EGTT : London (FIR)	Nottingham East Midlands	8 NW	D	CTA	PIPER	Reciprocating	1	Infringement of the East Midlands CTA (Class D) at 2500ftby a PA28. Departures stopped.	Standard separation maintained.□ CAA Closure: Dutch CAA will monitor future reports for any further incidents involving this a/c.
201005655	17/06/2010	EGTT : London (FIR)	Birmingham		D	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a PA28 squawking 7000 at 1500ft. Avoiding action given to DHC8. Standard separation maintained.	Pilot believed he was outside CAS, flying with reference to GPS. Pilot apologised for the error.
201005655	17/06/2010	EGTT : London (FIR)	Birmingham		D	CTR	DE HAVILLAND	Turboprop	2	Infringement of the Birmingham CTR (Class D) by a PA28 squawking 7000 at 1500ft. Avoiding action given to DHC8. Standard separation maintained.	Pilot believed he was outside CAS, flying with reference to GPS. Pilot apologised for the error.
201005671	16/06/2010	EGTT : London (FIR)	London-Gatwick - LGW	NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a PA28 at 2000ft. Standard separation maintained.	

201005761	17/06/2010	EGTT : London (FIR)	London-Gatwick - LGW	7N	A	TMA	FLY BUY ULTRALIGHTS	Reciprocating	1	Infringement of the LTMA (Class A) by an Ikarus at 3000ft. Traffic info given. Gatwick westbound departures stopped. Standard separation maintained.	CAA Closure: No follow up action taken by ATC at the time of the incident. No further action considered possible due to elapsed time.
201005762	18/06/2010	EGTT : London (FIR)	Stansted	2W	G	Restricted area	PIPER	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a PA28 at 1400ft. Traffic info and avoiding action given to B737.	Pilot believes transponder may have been operating intermittently.
201005762	18/06/2010	EGTT : London (FIR)	Stansted	2W	G	Restricted area	BOEING	Turbofan	2	Infringement of the Stansted TMZ 2 (Class G) by a PA28 at 1400ft. Traffic info and avoiding action given to B737.	Pilot believes transponder may have been operating intermittently.
201005763	19/06/2010	EGTT : London (FIR)	ORTAC		A		CIRRUS	Reciprocating	1	Infringement of Airway Q41 (Class A) by an SR22 at FL80. Standard separation maintained.	
201005764	19/06/2010	EGTT : London (FIR)	Stansted		G	Restricted area	SUPERMARINE	Reciprocating	1	Infringement of the Stansted TMZ 1 (Class G) by a Spitfire at 1400ft.	

201005766	20/06/2010	EGTT : London (FIR)	Cardiff (CDF)	13 SW	D	CTA	OTHER	Reciprocating	1	Infringement of the Cardiff CTA 3 and 7 (Class D) by a Rotorsport MT-03 squawking 7000 at 3500ft. Standard separation maintained.	Inbound DHC8 delayed by the initially unknown a/c. As the a/c left CAS it was seen to go to a D&D squawk who identified the a/c. The pilot was told to remain outside CAS and contact Cardiff ATC as soon as practicable. The pilot had reportedly made a navigational error in navigating to an incorrect lighthouse. Two way contact was not established with Cardiff as the pilot was trying an out of date frequency. The pilot has been given the appropriate advice by ATC.
201005766	20/06/2010	EGTT : London (FIR)	Cardiff (CDF)	13 SW	D	CTA	DE HAVILLAND	Turboprop	2	Infringement of the Cardiff CTA 3 and 7 (Class D) by a Rotorsport MT-03 squawking 7000 at 3500ft. Standard separation maintained.	Inbound DHC8 delayed by the initially unknown a/c. As the a/c left CAS it was seen to go to a D&D squawk who identified the a/c. The pilot was told to remain outside CAS and contact Cardiff ATC as soon as practicable. The pilot had reportedly made a navigational error in navigating to an incorrect lighthouse. Two way contact was not established with Cardiff as the pilot was trying an out of date frequency. The pilot has been given the appropriate advice by ATC.
201005767	20/06/2010	EGTT : London (FIR)	Puckeridge	2	D	CTA	RANS	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Rans S6 squawking 7000 at 1800ft. Standard separation maintained.	
201005768	20/06/2010	EGTT : London (FIR)	Stansted		G	Restricted area	JODEL	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a Jodel DR1050.	Pilot spoke with ATC and local action taken.
201005769	20/06/2010	EGTT : London (FIR)	Stansted		G	Restricted area	LUSCOMBE	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by two Luscombes at 1200ft. Traffic info and avoiding action given.	

201005769	20/06/2010	EGTT : London (FIR)	Stansted		G	Restrict ed area	LUSCOMBE	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by two Luscombes at 1200ft. Traffic info and avoiding action given.	
201005836	20/06/2010	EGTT : London (FIR)	NEDUL	2 E	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28R squawking 7000 at 2800ft.	Pilot apologised for incident and appreciates that he hadnot allowed sufficient margin for error prior to infringement. □ CAA Closure: Lesson learned from this incident willbe applied in future to help prevent recurrence.
201005847	21/06/2010	EGTT : London (FIR)	Stansted		G	Restrict ed area	WESTLAND	Turboshaft	1	Infringement of the Stansted TMZ 2 (Class G) by a Gazelle.	
201005848	20/06/2010	EGTT : London (FIR)	Stansted		G	Restrict ed area	BELL	Turboshaft	1	Infringement of the Stansted TMZ 2 (Class G) by a Bell 206. Inbound B737 route extended. Traffic info given.	Appropriate CAA action is being taken as a result of thisincident.
201005848	20/06/2010	EGTT : London (FIR)	Stansted		G	Restrict ed area	BOEING	Turbofan	2	Infringement of the Stansted TMZ 2 (Class G) by a Bell 206. Inbound B737 route extended. Traffic info given.	Appropriate CAA action is being taken as a result of thisincident.

201005955	23/06/2010	EGTT : London (FIR)	Dunstable	1.5W	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C182 at 2300ft. Standard separation maintained.	Pilot allegedly failed to check the stored route in his GPS coincided with the route on his map. Pilot apologised for the infringement.
201005973	23/06/2010	EGTT : London (FIR)	Stansted	12 NE	D	CTA	SOCATA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a TB20 squawking 7000 at 2600ft. Traffic info given to a BD700 which was broken off its approach. Separation lost.	During flight, pilot discovered that intended destinationwas closed and so decided to divert to his home base in the Netherlands. He wasn't prepared for this and subsequently inadvertently entered CAS.☐ CAA Closure: Pilot interviewed by Dutch CAA who are content that he has learnt from this incident.
201005973	23/06/2010	EGTT : London (FIR)	Stansted	12 NE	D	CTA	BOMBARDIER	Turbofan	2	Infringement of the Stansted CTA (Class D) by a TB20 squawking 7000 at 2600ft. Traffic info given to a BD700 which was broken off its approach. Separation lost.	During flight, pilot discovered that intended destinationwas closed and so decided to divert to his home base in the Netherlands. He wasn't prepared for this and subsequently inadvertently entered CAS.☐ CAA Closure: Pilot interviewed by Dutch CAA who are content that he has learnt from this incident.
201005976	23/06/2010	EGTT : London (FIR)	Manchester	7 SW	D	CTR	ROBINSON	Reciprocating	1	R44 lifted and transited inside the Manchester CTR (ClassD) heading towards the low level route without a clearance.	R44 had been instructed to standby when requesting clearance. Approx 5mins later, the controller asked a/c to pass its message. Pilot informed the controller that he was heading towards the low level route and was requesting a Basic Service. Controller then observed a/c on a 7000 squawk at 500ft approx 7nm Southwest of Manchester Airport tracking West. Controller informed pilot that he should not have lifted without permission. Pilot stated that he was unableto establish two way comms on the ground so lifted into the hover.
201005989	21/06/2010	EGTT : London (FIR)	D138		Other	Danger area	BEECH	Reciprocating	1	Infringement of active Danger Area D138 by a BE36. Southend ATC advised the a/c to leave the area and informed the range authority of the infringement.	The BE36 in receipt of a BS from Southend was twice advised that the area was active and the pilot responded that he would route around/turn right. The a/c was subsequently seen to enter the Danger Area and the range authority weretold to check fire.

201006010	24/06/2010	EGTT : London (FIR)	Stansted		G	Restrict ed area	WESTLAND	Turboshaft	1	Infringement of the Stansted TMZ 2 (Class G) by a Gazellesquawking 7000. A 'check-all' was placed, but no traffic affected.	
201006014	21/06/2010	EGTT : London (FIR)	North Weald	1NW	D	CTA	VANS	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Vans RV6 squawking 7000 at 1800ft. Standard separation maintained.	
201006073	25/06/2010	EGTT : London (FIR)	Stansted	SW	G	Restrict ed area	PIPER	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a PA28R at 1400ft. Two other a/c given extended vectoring.	Pilot subsequently advised that he did not have Mode C selected.☐ CAA Closure: Pilot advised of the requirement to have Mode C selected within the TMZ. He apologised and advised that Mode C will be selected on all future flights.
201006073	25/06/2010	EGTT : London (FIR)	Stansted	SW	G	Restrict ed area	UNKNOWN	Unknown		Infringement of the Stansted TMZ 2 (Class G) by a PA28R at 1400ft. Two other a/c given extended vectoring.	Pilot subsequently advised that he did not have Mode C selected.☐ CAA Closure: Pilot advised of the requirement to have Mode C selected within the TMZ. He apologised and advised that Mode C will be selected on all future flights.
201006075	25/06/2010	EGTT : London (FIR)	Stansted	12 NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 at 2900ft. Departures were stopped. Standard separation maintained.	The pilot made an early turn onto a southerly heading to intercept the planned bearing of 188 to DET. The pilot didnot contact Farnborough Radar or request navigational assistance on 121.5. While unsure of his position, the pilot did not orbit but instead continued on a southerly headingwhile trying to resolve the situation. This resulted in the pilot flying parallel to and approximately 10nm West ofhis intended route, which took him into the Stansted CTA.☐ ☐ CAA Closure: The pilot apologised for the mistake and, in conjunction with the CFI, agreed to undertake refresher training both on the ground and in the air.

201006079	27/06/2010	EGTT : London (FIR)	Bournemouth		D	CTR	CESSNA	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a C182 at 1500ft. Standard separation maintained.	
201006095	26/06/2010	EGTT : London (FIR)	London - Area		A	CTR	BELLANCA	Reciprocating	1	Infringement of the London CTR (Class A) by a Bellanca squawking 7000 at 1800ft. Heathrow Northerly departures werestopped. Standard separation maintained.	Pilot admitted to and apologised for a navigation error following an unexpected deviation from his planned route due to being asked to remain clear of Wycombe as they were unable to accept a transit due to traffic. This resulted in pilot missing some of the navigational features that he usually uses to avoid CAS. Poor visibility due to flying into the sun was also a factor.☐ CAA Closure: Pilot has learnt from the experience.
201006096	26/06/2010	EGTT : London (FIR)	Southampton (SAM)	11 NE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a C172 squawking 7000 at 3000ft. Traffic info given. Separation lost.	When the C172 was identified, it was instructed to make aright turn and track Westbound but the a/c made a left turn and tracked Westbound. STCA activated.☐ CAA Closure: Nofurther action possible due to elapsed time.
201006096	26/06/2010	EGTT : London (FIR)	Southampton (SAM)	11 NE	D	CTA	DE HAVILLAND	Turboprop	2	Infringement of the Solent CTA (Class D) by a C172 squawking 7000 at 3000ft. Traffic info given. Separation lost.	When the C172 was identified, it was instructed to make aright turn and track Westbound but the a/c made a left turn and tracked Westbound. STCA activated.☐ CAA Closure: Nofurther action possible due to elapsed time.
201006098	26/06/2010	EGTT : London (FIR)	Southampton (SAM)		D	CTA	MORANE SAULNIER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Rallye at 3300ft. Standard separation maintained.	

201006101	26/06/2010	EGTT : London (FIR)	London City - LCY		D	CTR	PIPER	Reciprocating	1	Infringement of the London City CTA (Class D) and the Gatwick CTA (Class D) by a PA28R squawking 7000 at 2100ft. Standard separation maintained.	The pilot submitted a comprehensive report on this incident and has discussed it fully with the CFI of his club. The incident appears to have originated with the plan to remain clear of CAS not being thoroughly thought-out compounded by being poorly executed. The pilot has asked for remedial training which is to be implemented.
201006110	27/06/2010	EGTT : London (FIR)	Stansted	15 N	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 squawking 7000 at 4000ft. Traffic info given. Standard separation maintained.	Full and comprehensive reports were received from the pilot concerned and the CFI. The pilot was using new charts from a provider he was not familiar with and misinterpretedinformation regarding the height of CAS on his track during his pre-flight planning. The pilot is to undertake further training with regard to chart and GPS use and planningincluding ATSOCAS.
201006111	27/06/2010	EGTT : London (FIR)	Rugby		A	CTA	VANS	Reciprocating	1	Infringement of the Daventry CTA (Class A) by a Vans RV9 squawking 7000 at FL57. Traffic info given. Standard separation maintained.	The pilot was passed appropriate advice by ATC.
201006118	27/06/2010	EGTT : London (FIR)	Stansted	15 N	D	CTA	BELL	Turboshaft	1	Infringement of the Stansted CTA (Class D) by a Bell 206Bsquawking 7000 at 2000ft. B737 broken off approach. Threeoother a/c delayed. Traffic info and avoiding action given.	CAA Closure: Belgian Authority informed. They contacted the pilot who subsequently apologised for any inconvenience.
201006118	27/06/2010	EGTT : London (FIR)	Stansted	15 N	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a Bell 206Bsquawking 7000 at 2000ft. B737 broken off approach. Threeoother a/c delayed. Traffic info and avoiding action given.	CAA Closure: Belgian Authority informed. They contacted the pilot who subsequently apologised for any inconvenience.

201006182	27/06/2010	EGTT : London (FIR)	Epping		D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C152 squawking 7000 at 2100ft. Standard separation maintained.	The operator of the a/c has been alerted and is to take appropriate action.
201006204	04/06/2010	EGTT : London (FIR)	Bath		G	Restrict ed area	CESSNA	Reciprocating	1	C195, receiving a Basic Service, was alerted to the Bath and West Showground Avoidance Area, which had been NOTAMed. C195 entered the area and parachute display was delayed until it vacated.	Pilot stated being visual with the showground and would remain clear, but subsequently entered.
201006222	29/06/2010	EGTT : London (FIR)	White Waltham		A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C182 squawking 7000 at 2400ft. Heathrow northbound departures were stopped. Standard separation maintained.	Pilot has apologised.
201006340	30/06/2010	EGTT : London (FIR)	Stansted	S	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C152, which also entered the TMZ with transponder switched off. Traffic info and avoiding action given. Disruption caused to Stansted operations.	The student pilot planned a cross-country flight from Earls Colne to Rochester. On getting airborne from Earls Colne, the pilot intended to fly towards Witham but misidentified Braintree as Witham, which took him further West than his intended route. On passing Braintree, he then followedthe A120 towards Bishops Stortford, which took him Westbound into the Stansted CTR, believing he was following the A12 towards Chelmsford. As the pilot passed Bishops Stortford, he became unsure of his position and conducted a RH orbit. On completion of the orbit, he saw Harlow which he thought might be Brentwood so tracked South which took him back through the Stansted R/W22 climb-out. As he approached Harlow, he saw North Weald airport which had been mentioned in the pre-flight briefing. At that point, the pilot contacted Farnborough Radar for assistance.☐ CAA Closure: An investigation was carried out by the flying school. It was decided to find alternative cross country routes to reduce the chances of infringements. All pilots have been instructed to switch on transponders on any departures from the circuit. The student involved in the incident has been given further navigation training.
201006365	01/07/2010	EGTT : London (FIR)	Portsmouth			Danger area	SOCATA	Reciprocating	1	Infringement of Active Danger Area D037 (Portsmouth) by aTB20 at 1500ft. Traffic info given. Standard separation maintained.	

201006412	15/06/2010	EGTT : London (FIR)	Sennybridge		G	Danger area	PIPER	Reciprocating	1	Infringement of Sennybridge (SENTA) Danger Area by a PA28at 3500ft. Firing taking place.	
201006448	02/07/2010	EGTT : London (FIR)	Dunkeswell		A		CESSNA	Turboprop	1	Infringement of Airway N90 (Class A) by a C208 at FL105 climbing to FL150. Standard separation maintained.	Pilot was aware that N90 was about to become active however had not realised the time, and inadvertently climbed into the Airway.
201006449	02/07/2010	EGTT : London (FIR)	London-Gatwick - LGW				CASA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a Casa I 131at 2000ft. Standard separation maintained.	Pilot reported that his radios were poor.
201006450	02/07/2010	EGTT : London (FIR)	Fairoaks		A		PIPER	Reciprocating	1	Infringement of CAS-T (Class A) by a PA24 at 1400ft. Avoiding action given. Standard separation maintained.	
201006512	04/07/2010	EGTT : London (FIR)	Stansted	8 NE	D	CTA	ROCKWELL	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Rockwell 112 squawking 7000 at 2300ft. Separation lost with two B737s. Traffic info passed.	The a/c also appeared to transit through the Southern part of the active Wethersfield gliding zone and the Wyton ATZ (Class G) without ATC clearance. The pilot of the a/c subsequently stated that the day in question was very turbulent. He was concentrating on glider activity and not on his height which he stated could change quickly due to thermals.□ CAA Closure: Following the incident, the flying school agreed several courses of action to reduce the possibility of infringements. These included all transponders being switched on when cleared for take-off (excluding circuits) and a practice live call on 121.5 with every student before solo navigation. Additionally, reviews were to be carried out of solo triangle routes, qualifying cross countryroutes and the use of Farnborough Radar and listening squawks as an alternative.

201006512	04/07/2010	EGTT : London (FIR)	Stansted	8 NE	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a Rockwell 112 squawking 7000 at 2300ft. Separation lost with two B737s. Traffic info passed.	The a/c also appeared to transit through the Southern part of the active Wethersfield gliding zone and the Wyton ATZ (Class G) without ATC clearance. The pilot of the a/c subsequently stated that the day in question was very turbulent. He was concentrating on glider activity and not on his height which he stated could change quickly due to thermals.☐ CAA Closure: Following the incident, the flying school agreed several courses of action to reduce the possibility of infringements. These included all transponders being switched on when cleared for take-off (excluding circuits) and a practice live call on 121.5 with every student before solo navigation. Additionally, reviews were to be carried out of solo triangle routes, qualifying cross countryroutes and the use of Farnborough Radar and listening squawks as an alternative.
201006558	04/07/2010	EGTT : London (FIR)	London City - LCY	7 NE	D	CTR	PIPER	Reciprocating	1	Infringement of the London City CTR (Class D) by a PA32 squawking 7000 at 2000ft. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
201006658	02/07/2010	EGTT : London (FIR)	Denham	1.9 NE	G	ATZ	GROB	Reciprocating	1	UK AIRPROX 2010/081 - G109 and an EC135, 1.9nm Northeast of Denham. EC135 received a TCAS TA and took avoiding action. G109 pilot also initiated avoiding action.	Information indicates that this AIRPROX was caused by late sighting by pilots of both a/c, which was contributed bythe G109 pilot not complying with Rule 45 of the Rules ofthe Air.☐ CAA Closure: No further CAA action. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
201006658	02/07/2010	EGTT : London (FIR)	Denham	1.9 NE	G	ATZ	EUROCOPTER	Turboshaft	2	UK AIRPROX 2010/081 - G109 and an EC135, 1.9nm Northeast of Denham. EC135 received a TCAS TA and took avoiding action. G109 pilot also initiated avoiding action.	Information indicates that this AIRPROX was caused by late sighting by pilots of both a/c, which was contributed bythe G109 pilot not complying with Rule 45 of the Rules ofthe Air.☐ CAA Closure: No further CAA action. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
201006673	07/07/2010	EGTT : London (FIR)	Wethersfield	3 NW	Other	Restrictedd area	SLINGSBY	Reciprocating	1	Infringement of the Stansted TMZ1 (Class G) by a Firefly squawking 7000. Avoiding action given to an airliner on approach. Two other inbound a/c delayed.	CAA Closure: Due to the time elapsed since this incident no further investigation is deemed possible.

201006737	08/07/2010	EGTT : London (FIR)	Birmingham	6 NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a PA28. Separation lost with a B737. Traffic info and avoiding action given.	The PA28 pilot later contacted the ATC WM and the incident was fully discussed, it is believed that the appropriatelessons have been learnt.
201006737	08/07/2010	EGTT : London (FIR)	Birmingham	6 NE	D	CTR	BOEING	Turbofan	2	Infringement of the Birmingham CTR (Class D) by a PA28. Separation lost with a B737. Traffic info and avoiding action given.	The PA28 pilot later contacted the ATC WM and the incident was fully discussed, it is believed that the appropriatelessons have been learnt.
201006738	08/07/2010	EGTT : London (FIR)	London City - LCY	8 E	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C172 squawking 7000 at 2900ft, 8nm East of London City. Separation lost against an EMB170 and an FK50, both inbound. Disruption caused to other traffic.	Traffic info and avoiding action given. Appropriate CAA action is to be taken as a result of this incident.
201006738	08/07/2010	EGTT : London (FIR)	London City - LCY	8 E	A	TMA	EMBRAER	Turbofan	2	Infringement of the LTMA (Class A) by a C172 squawking 7000 at 2900ft, 8nm East of London City. Separation lost against an EMB170 and an FK50, both inbound. Disruption caused to other traffic.	Traffic info and avoiding action given. Appropriate CAA action is to be taken as a result of this incident.
201006750	02/07/2010	EGTT : London (FIR)	Hawarden		A	TMA	AVIONS ROBIN	Reciprocating	1	Infringement of the Manchester TMA (Class A) by a Robin 100 squawking 7000 at 4000ft. Standard separation maintained.	

201006763	04/07/2010	EGTT : London (FIR)	Botley		D	CTR	WESTLAND	Turboshaft	1	Infringement of the Southampton CTR (Class D) by a Gazelle. Pilot advised ATC that he had spoken to Ops and had been instructed to lift and contact ATC. Standard separation maintained.	The controller was contacted by the Gazelle having lifted from a site within the CTR. The controller had no information/details. Appropriate follow up action has been taken.
201006769	09/07/2010	EGTT : London (FIR)	Stansted		D	CTA	VANS	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Vans RV4 squawking 7000 at 2000ft. Traffic info and avoiding action given to a B737.	
201006769	09/07/2010	EGTT : London (FIR)	Stansted		D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a Vans RV4 squawking 7000 at 2000ft. Traffic info and avoiding action given to a B737.	
201006782	09/07/2010	EGTT : London (FIR)	Luton (LUT)	12 W	D	CTR	YAKOVLEV	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Yak 52 squawking 7000. Standard separation maintained.	
201006783	09/07/2010	EGTT : London (FIR)	Luton (LUT)	12 W	D	CTR	VANS	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Vans RV7. Standard separation maintained.	The pilot later stated that he had misidentified the Northwest quadrant of the Luton CTR as having a base of 3500ft on the chart.

201006785	09/07/2010	EGTT : London (FIR)	Stansted	16N	A	TMA	ISAACS	Reciprocating	1	Infringement of the LTMA (Class A) by a Hawker Fury at 5800ft. Standard separation maintained.	
201006786	10/07/2010	EGTT : London (FIR)	Stansted	12NE	D	CTA	ROCKWELL	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Rockwell 112 squawking 7000 at 1800ft. Standard separation maintained.	
201006788	10/07/2010	EGTT : London (FIR)	Nedul	3N	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 2400ft. Standard separation maintained.	
201006789	10/07/2010	EGTT : London (FIR)	Southampton (SAM)		D	CTA	DIAMOND	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Diamond DV-20 at 4500ft. Standard separation maintained.	
201006791	10/07/2010	EGTT : London (FIR)	Southampton (SAM)		D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Robin 400 at 2300ft. Standard separation maintained.	Pilot had been asked to remain outside of CAS. Pilot error acknowledged. Pilot is to undertake further training at his own request.

201006793	10/07/2010	EGTT : London (FIR)	NEDUL	3NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 squawking 7000 at 2500ft. Traffic info and avoiding action givento a BAe ATP. Standard separation maintained.	CAA Closure: No further action possible due to elapsed time.
201006793	10/07/2010	EGTT : London (FIR)	NEDUL	3NE	D	CTA	BAE	Turboprop	2	Infringement of the Solent CTA (Class D) by a PA28 squawking 7000 at 2500ft. Traffic info and avoiding action givento a BAe ATP. Standard separation maintained.	CAA Closure: No further action possible due to elapsed time.
201006814	10/07/2010	EGTT : London (FIR)	Detling (DET)		A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 squawking 7000 at 4800ft. Standard separation maintained.	
201006815	10/07/2010	EGTT : London (FIR)	Cookham		A	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the London CTA (Class A) by a Robin 400 squawking 7000 at 900ft. Heathrow northbound departures were stopped. Standard separation maintained.	CAA Closure: Incident subject to investigation by the French DGAC.
201006816	10/07/2010	EGTT : London (FIR)	Haywards Heath		G	Restricted area	OTHER	Reciprocating	1	Infringement of RAF Falcons parachute drop zone by a microlight indicating 2500ft. Falcon's a/c was given traffic info and descended becoming visual with microlight. Parachute drop was delayed.	CAA Closure: No further action possible due to elapsed time.

201006816	10/07/2010	EGTT : London (FIR)	Haywards Heath		G	Restricted area	CESSNA	Turboprop	1	Infringement of RAF Falcons parachute drop zone by a microlight indicating 2500ft. Falcon's a/c was given traffic info and descended becoming visual with microlight. Parachute drop was delayed.	CAA Closure: No further action possible due to elapsed time.
201006817	11/07/2010	EGTT : London (FIR)	Luton (LUT)	3 W	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C152 squawking 7000. A check-all was imposed. Separation lost with an outbound B767.	Pilot reported being lost having contacted Farnborough LARS. The operator has been fully alerted to this incident.
201006817	11/07/2010	EGTT : London (FIR)	Luton (LUT)	3 W	D	CTR	BOEING	Turbofan	2	Infringement of the Luton CTR (Class D) by a C152 squawking 7000. A check-all was imposed. Separation lost with an outbound B767.	Pilot reported being lost having contacted Farnborough LARS. The operator has been fully alerted to this incident.
201006819	11/07/2010	EGTT : London (FIR)	Stansted	NE	A	TMA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) and the LTMA (Class A) by a C172 squawking 7000 at 2300ft climbing to 3800ft. Traffic info given to a B737.	Standard separation maintained.☐ CAA Closure: C172 owner contacted, but no response forthcoming.
201006819	11/07/2010	EGTT : London (FIR)	Stansted	NE	A	TMA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) and the LTMA (Class A) by a C172 squawking 7000 at 2300ft climbing to 3800ft. Traffic info given to a B737.	Standard separation maintained.☐ CAA Closure: C172 owner contacted, but no response forthcoming.

201006822	11/07/2010	EGTT : London (FIR)	Bagshot	3N	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C152 at 2000ft. Heathrow departures were stopped for approximately 1min.	Appropriate follow up action has been taken by the operator concerned. Investigation under 201003105.
201006838	11/07/2010	EGTT : London (FIR)	Stansted	TMZ 1	G	Restrict ed area	SUPERMARINE	Reciprocating	1	Infringement of the Stansted TMZ 1 (Class G) by a Spitfire height unknown and a PA46 at 1300ft. Several primary only contacts also observed.	Stansted traffic delayed as a result.
201006838	11/07/2010	EGTT : London (FIR)	Stansted	TMZ 1	G	Restrict ed area	PIPER	Turboprop	1	Infringement of the Stansted TMZ 1 (Class G) by a Spitfire height unknown and a PA46 at 1300ft. Several primary only contacts also observed.	Stansted traffic delayed as a result.
201006870	12/07/2010	EGTT : London (FIR)	Southampton (SAM)	9 SSW	D	CTA	PIPER	Reciprocating	1	Bournemouth ATC cleared a PA28 to transit VFR at 3000ft without knowing its exact position. PA28 then climbed in Southampton airspace leading to a loss of separation with a Trislander.	Traffic info and avoiding action given to the Trislander by Southampton ATC. The Bournemouth ATC mentor realised the situation and instructed the trainee to tell the PA28 to descend below 2000ft, which was passed promptly. However, by this time the PA28 had climbed into Southampton's CTZ. CAA Closure: The conflict was resolved by Southampton giving avoiding action and by Bournemouth giving the PA28 a prompt descent to 2000ft. Appropriate unit action has been taken.
201006870	12/07/2010	EGTT : London (FIR)	Southampton (SAM)	9 SSW	D	CTA	BRITTEN NORMAN	Reciprocating	3	Bournemouth ATC cleared a PA28 to transit VFR at 3000ft without knowing its exact position. PA28 then climbed in Southampton airspace leading to a loss of separation with a Trislander.	Traffic info and avoiding action given to the Trislander by Southampton ATC. The Bournemouth ATC mentor realised the situation and instructed the trainee to tell the PA28 to descend below 2000ft, which was passed promptly. However, by this time the PA28 had climbed into Southampton's CTZ. CAA Closure: The conflict was resolved by Southampton giving avoiding action and by Bournemouth giving the PA28 a prompt descent to 2000ft. Appropriate unit action has been taken.

201006927	12/07/2010	EGTT : London (FIR)	Redhill	4NE	D	CTA	ROBINSON	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by an R44 at 2000ft. Standard separation maintained.	
201006982	07/07/2010	EGTT : London (FIR)	Southend (SND)	4SE	G	Danger area	CIRRUS	Reciprocating	1	Infringement of active Danger Area D138 by an SR22 at 2500ft. Standard separation maintained.	Pilot apologised stating he had misread his charts and was distracted by the weather.
201007008	14/07/2010	EGTT : London (FIR)	Plymouth		G	Danger area	CESSNA	Reciprocating	1	Infringement of active Danger Area EG D026 by a C182 squawking 7000 at 1600ft.	
201007025	07/07/2010	EGTT : London (FIR)	Aylesbury		G	ATZ	ROBINSON	Reciprocating	1	Infringement of the RAF Halton ATZ (Class G) by an R22 atan estimated 800ft.	
201007028	14/07/2010	EGTT : London (FIR)	Stretton		D	CTR	PIAGGIO	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a Piaggio 149 squawking 7000. Standard separation maintained.	

201007141	17/07/2010	EGTT : London (FIR)	Northolt	1 W	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C152. Heathrow departures were stopped. Standard separation maintained.	The pilot stated that he had difficulty maintaining an accurate track due to a lot of thermals and a strong headwind. The pilot made attempts to contact Farnborough but was unable to establish two-way communication. The pilot became unsure of his position after passing overhead an airfield he believed to be Elstree, which he subsequently thoughtwas probably Denham. On landing, the pilot examined his route and thought he had tracked a little too far South andwas unsure whether the airfield he flew overhead was Denham or Northolt.□ CAA Closure: The pilot was debriefed by the CFI and discussions were had regarding flight where theintended track is close to Heathrow. There was also a discussion regarding alternative ATC frequencies when Farnborough is unavailable.
201007145	18/07/2010	EGTT : London (FIR)	Earls Colne		A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 squawking 7000 at 4300ft. Standard separation maintained.	
201007265	17/07/2010	EGTT : London (FIR)	Blackbushe	3 SSW	G	Restrict ed area	SOCATA	Reciprocating	1	Infringement of the RA(T) at Farnborough by a TB10. Traffic info given. F16 display was stopped. Standard separation maintained.	CAA Closure: Due to the time elapsed since this incident no further investigation is deemed possible.
201007266	17/07/2010	EGTT : London (FIR)	Salisbury			Danger area	SOCATA	Reciprocating	1	Infringement of Active Danger Area D123 (Salisbury Plain)by a TB20 at 2500ft.	Pilot has apologised stating he was distracted by the wind and turbulence.
201007306	20/07/2010	EGTT : London (FIR)	Southampton (SAM)		D	CTR	MAULE	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a Maule M6 squawking 7000 at 1800ft. Traffic info given to a microlight. Standard separation maintained.	

201007328	20/07/2010	EGTT : London (FIR)	Stansted		G	Restrict ed area	GROB	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a Grob G109 at 1100ft.	
201007329	20/07/2010	EGTT : London (FIR)	Luton (LUT)	6SE	D	CTR	BOLKOW	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Bolkow 209 squawking 7000 at 2100ft. Traffic info given. Standard separation maintained.	
201007347	20/07/2010	EGTT : London (FIR)	Tunbridge Wells		A	TMA	GRUMMAN	Reciprocating	1	Infringement of the LTMA (Class A) by an AA5 squawking 7000 at 3400ft. Standard separation maintained.	
201007367	21/07/2010	EGTT : London (FIR)	Northolt		A	CTR	OTHER	Reciprocating	1	Infringement of the London CTR (Class A) by an unknown microlight at an estimated 2000ft. Traffic info given. Standard separation maintained.	
201007406	22/07/2010	EGTT : London (FIR)	Bovingdon (BNN)	5 SE	A	TMA	EUROCOPTER	Turboshaft	1	Infringement of the LTMA (Class A) by an EC120 at 3100ft.Separation lost with an A319.	The EC120 pilot wished to remain VFR when confronted by low-level cumulus cloud and eventually climbed inadvertently into the LTMA. The pilot acknowledged a lack of situational awareness and poor organisation.☐ CAA Closure: Appropriate advice given.

201007406	22/07/2010	EGTT : London (FIR)	Bovingdon (BNN)	5 SE	A	TMA	AIRBUS	Turbofan	2	Infringement of the LTMA (Class A) by an EC120 at 3100ft.Separation lost with an A319.	The EC120 pilot wished to remain VFR when confronted by low-level cumulus cloud and eventually climbed inadvertently into the LTMA. The pilot acknowledged a lack of situational awareness and poor organisation.☐ CAA Closure: Appropriate advice given.
201007409	22/07/2010	EGTT : London (FIR)	London-Gatwick - LGW	8 E	D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a C152 squawking 7000. Separation lost against an inbound airliner.	An A330 was also broken off the approach and A319 given an extended routeing. C152 observed tracking Southbound towards the approach path at 8nm final. C152 then turned Eastand tracked parallel on the North side of the approach centreline to leave CAS. Investigation established that the infringement was made by a student pilot on a solo navigational exercise who had turned off track to avoid an intense rain shower.☐ CAA Closure: The CFI debriefed the pilot accordingly.
201007409	22/07/2010	EGTT : London (FIR)	London-Gatwick - LGW	8 E	D	CTR	UNKNOWN	Unknown		Infringement of the Gatwick CTR (Class D) by a C152 squawking 7000. Separation lost against an inbound airliner.	An A330 was also broken off the approach and A319 given an extended routeing. C152 observed tracking Southbound towards the approach path at 8nm final. C152 then turned Eastand tracked parallel on the North side of the approach centreline to leave CAS. Investigation established that the infringement was made by a student pilot on a solo navigational exercise who had turned off track to avoid an intense rain shower.☐ CAA Closure: The CFI debriefed the pilot accordingly.
201007461	21/07/2010	EGTT : London (FIR)	Southend (SND)		A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C150 at 5000ft.	
201007515	24/07/2010	EGTT : London (FIR)	Stansted	15NE	A	TMA	AVIONS ROBIN	Reciprocating	1	Infringement of the LTMA (Class A) by a Robin 400 squawking 7000 at 4000ft. Standard separation maintained.	

201007516	24/07/2010	EGTT : London (FIR)	London - Area		D	CTA	ROBINSON	Reciprocating	1	Infringement of the London City CTR (Class D) by an R44 squawking 7000 at 2200ft. Standard separation maintained.	
201007524	24/07/2010	EGTT : London (FIR)	Stansted	NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28 squawking 7000 at 3000ft. Traffic info given. No a/c able to make an approach for approx 20mins. Several a/c in hold forin excess of 10mins.	Standard separation maintained. Appropriate CAA action isbeing taken as a result of this incident.
201007524	24/07/2010	EGTT : London (FIR)	Stansted	NE	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a PA28 squawking 7000 at 3000ft. Traffic info given. No a/c able to make an approach for approx 20mins. Several a/c in hold forin excess of 10mins.	Standard separation maintained. Appropriate CAA action isbeing taken as a result of this incident.
201007537	21/07/2010	EGTT : London (FIR)	Honiley (HON)		D	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a C152 squawking 7000 at 3500ft. Standard separation maintained.	Pilot later contacted ATC and stated that he was not aware of the 1500ft base of the CTA (Class D). Appropriate advice given.
201007568	22/07/2010	EGTT : London (FIR)	Shoreham		G	ATZ	CESSNA	Reciprocating	1	Infringement of the Shoreham ATZ (Class G) by C172 squawking 7000 at 700ft. Standard separation maintained.	Pilot apologised.

201007741	28/07/2010	EGTT : London (FIR)	Clacton (CLN)	10 WSW	A	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Clacton CTA (Class A) by a Robin 200 at FL63. Standard separation maintained.	
201007761	29/07/2010	EGTT : London (FIR)	Bovingdon (BNN)		A	TMA	CESSNA	Reciprocating	1	Infringement of the London TMA (Class A) by a Cessna C172squawking 7000 at 3000ft. Departures were stopped at London City. D&D alerted. Standard separation maintained	Pilot cites bird strike as the casual factor of the infringement.
201007771	28/07/2010	EGTT : London (FIR)	Luton (LUT)	NE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C150 squawking 7000 at 2000ft. B737 given traffic info and avoiding action. A check all was imposed. Separation lost.	The pilot has been contacted and states that he became distracted when his passenger became airsick. As a result ofwhich he failed to check that the HDI and compass were aligned. He subsequently noted a 35deg discrepancy and took appropriate action.
201007771	28/07/2010	EGTT : London (FIR)	Luton (LUT)	NE	D	CTR	BOEING	Turbofan	2	Infringement of the Luton CTR (Class D) by a C150 squawking 7000 at 2000ft. B737 given traffic info and avoiding action. A check all was imposed. Separation lost.	The pilot has been contacted and states that he became distracted when his passenger became airsick. As a result ofwhich he failed to check that the HDI and compass were aligned. He subsequently noted a 35deg discrepancy and took appropriate action.
201007848	30/07/2010	EGTT : London (FIR)	Wattisham		G	ATZ	VANS	Reciprocating	1	Infringement of the Wattisham ATZ (Class G) by a Vans RV4squawking 7000 at 1500ft. Traffic info given. Standard separation maintained.	

201007851	31/07/2010	EGTT : London (FIR)	Stansted		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Piper PA28. Departures were stopped. Standard separation maintained.

201008194	07/08/2010	EGTT : London (FIR)	Birmingham	4.5 SE	D	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a Piper PA28 at 2000ft. Pilot declared a PAN lost. D & D informed. Standard separation maintained.	
201008194	07/08/2010	EGTT : London (FIR)	Birmingham	4.5 SE	D	CTR	BAE	Turbofan	4	Infringement of the Birmingham CTR (Class D) by a Piper PA28 at 2000ft. Pilot declared a PAN lost. D & D informed. Standard separation maintained.	
201008198	08/08/2010	EGTT : London (FIR)	Southampton (SAM)	11 SSW	D	CTA	EUROPA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Europa squawking 7000 at 2400ft. Standard separation maintained. Traffic info and avoiding action given.	
201008198	08/08/2010	EGTT : London (FIR)	Southampton (SAM)	11 SSW	D	CTA	BRITTEN NORMAN	Reciprocating	3	Infringement of the Solent CTA (Class D) by a Europa squawking 7000 at 2400ft. Standard separation maintained. Traffic info and avoiding action given.	

201008214	08/08/2010	EGTT : London (FIR)	Luton (LUT)	N	D	CTA	PIPER	Reciprocating	1	Infringement of the Luton CTA (Class D) by a Piper PA28 squawking 7000 at 4000ft. Standard separation maintained.	Pilot subsequently apologised for the infringement stating he had not recently flown West from Fowlmere. Prior to the flight the pilot had marked his intended route on his map, in doing so he had obscured the Luton CTA markings.
201008218	08/08/2010	EGTT : London (FIR)	Luton (LUT)	N	D	CTR	DIAMOND	Reciprocating	1	DA40 at 1400ft receiving a BS, initially unidentified, infringed the Luton CTR (Class D) and lost separation with aCPT departure. A/c subsequently identified and given a left turn to leave CAS.	Brief callsign confusion evident as controller had two a/c ending with LI on frequency, but this was quickly corrected. DA40 pilot has been fully alerted to the incident. Pilot error acknowledged. Since the incident, the pilot has taken further instruction on the a/c's flight instrumentation and has also purchased a further navigational aid in order to mitigate any further risk of infringing CAS.
201008218	08/08/2010	EGTT : London (FIR)	Luton (LUT)	N	D	CTR	UNKNOWN	Unknown		DA40 at 1400ft receiving a BS, initially unidentified, infringed the Luton CTR (Class D) and lost separation with aCPT departure. A/c subsequently identified and given a left turn to leave CAS.	Brief callsign confusion evident as controller had two a/c ending with LI on frequency, but this was quickly corrected. DA40 pilot has been fully alerted to the incident. Pilot error acknowledged. Since the incident, the pilot has taken further instruction on the a/c's flight instrumentation and has also purchased a further navigational aid in order to mitigate any further risk of infringing CAS.
201008227	07/08/2010	EGTT : London (FIR)	Luton (LUT)	6 SW	D	CTA	OTHER	Reciprocating	1	Infringement of the Luton CTA (Class D) by an HK 36 TTC Motor Glider squawking 7000.	
201008231	07/08/2010	EGTT : London (FIR)	London-Gatwick - LGW	S	D	CTA	PIPER	Reciprocating	1	Twice a Piper PA28r squawking 7000 at 2000ft infringed the Gatwick CTA (Class D). Separation was lost with an outbound a/c. Twice Gatwick departures were stopped.	Pilot contacted by ATC. Pilot subsequently apologised forthe infringement stating he had become disorientated whenrouting to the MID VOR and overshot the VOR whilst avoiding rain clouds. The pilot has subsequently booked further training sessions.

201008231	07/08/2010	EGTT : London (FIR)	London-Gatwick - LGW	S	D	CTA	UNKNOWN	Unknown		Twice a Piper PA28r squawking 7000 at 2000ft infringed the Gatwick CTA (Class D). Separation was lost with an outbound a/c. Twice Gatwick departures were stopped.	Pilot contacted by ATC. Pilot subsequently apologised forthe infringement stating he had become disorientated whenrouting to the MID VOR and overshot the VOR whilst avoiding rain clouds. The pilot has subsequently booked further training sessions.

201008498	15/08/2010	EGTT : London (FIR)	Dunstable Gliding Area		D	CTA	DIAMOND	Reciprocating	1	Infringement of the Luton CTR (Class D) by a DA40 squawking 7000 at 2000ft. Traffic info given. Standard separationmaintained.	Pilot has discussed the incident with ATC.
201008498	15/08/2010	EGTT : London (FIR)	Dunstable Gliding Area		D	CTA	AIRBUS	Turbofan	2	Infringement of the Luton CTR (Class D) by a DA40 squawking 7000 at 2000ft. Traffic info given. Standard separationmaintained.	Pilot has discussed the incident with ATC.
201008513	11/08/2010	EGTT : London (FIR)	East Midlands	7NNW	D	CTA	ROBINSON	Reciprocating	1	Infringement of EMA CTR (Class D) by a climbing R44 squawking 7000. R44 observed at 4300ft before descending. Traffic info and heading issued to inbound a/c. Standard separation maintained.	Pilot and instructor called ATC to discuss the infringement. Instructor believed a/c was in an area where CAS base was 4000ft, but it was actually 2500ft.
201008513	11/08/2010	EGTT : London (FIR)	East Midlands	7NNW	D	CTA	BOEING	Turbofan	2	Infringement of EMA CTR (Class D) by a climbing R44 squawking 7000. R44 observed at 4300ft before descending. Traffic info and heading issued to inbound a/c. Standard separation maintained.	Pilot and instructor called ATC to discuss the infringement. Instructor believed a/c was in an area where CAS base was 4000ft, but it was actually 2500ft.
201008546	16/08/2010	EGTT : London (FIR)	Bovingdon (BNN)		A	TMA	CIRRUS	Reciprocating	1	Infringement of the LTMA (Class A) by an SR22 squawking 7000 at 3000ft. Standard separation maintained.	

201008578	16/08/2010	EGTT : London (FIR)	Nottingham East Midlands		D	CTA	GROB	Reciprocating	1	Infringement of the Nottingham East Midlands CTA (Class D) by a G115 at FL60. Inbound B737 was given traffic info and a turn to remain clear of G115.	CAA Closure: G115 operating out of Cranwell. East Midlands ATC discussed the incident with Cranwell, who said they would pass on their concerns.
201008578	16/08/2010	EGTT : London (FIR)	Nottingham East Midlands		D	CTA	BOEING	Turbofan	2	Infringement of the Nottingham East Midlands CTA (Class D) by a G115 at FL60. Inbound B737 was given traffic info and a turn to remain clear of G115.	CAA Closure: G115 operating out of Cranwell. East Midlands ATC discussed the incident with Cranwell, who said they would pass on their concerns.
201008607	14/08/2010	EGTT : London (FIR)	Gatwick	8 ENE	D	CTR	JABIRU	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a Jabiru at 1300ft causing a loss of separation with an inbound DHC8 that was subsequently broken off the approach. Traffic infogiven.	Pilot subsequently reported that due to poor weather and reduced visibility to the North he had deviated from his planned route where he inadvertently infringed the Gatwick CTR (Class D). Pilot apologised for the infringement.
201008607	14/08/2010	EGTT : London (FIR)	Gatwick	8 ENE	D	CTR	DE HAVILLAND	Turboprop	2	Infringement of the Gatwick CTR (Class D) by a Jabiru at 1300ft causing a loss of separation with an inbound DHC8 that was subsequently broken off the approach. Traffic infogiven.	Pilot subsequently reported that due to poor weather and reduced visibility to the North he had deviated from his planned route where he inadvertently infringed the Gatwick CTR (Class D). Pilot apologised for the infringement.
201008619	29/07/2010	EGTT : London (FIR)	Shoeburyness	D138	G	Danger area	OTHER	Reciprocating	1	Infringement of the D138 Danger Area (Shoeburyness) by a low flying Microlight. Check fire imposed.	

201008663	11/08/2010	EGTT : London (FIR)	Holywell	3 NW	A		GROB	Reciprocating	1	Infringement of Airway N864 (Class A) by G115 indicating 4700ft. A pending Liverpool departure was given an amendeddeparture clearance . G115 was told to leave Airway. Standard separation maintained.	CAA Closure: No further action possible due to elapsed time.
201008667	16/08/2010	EGTT : London (FIR)	Manchester (MCT)		D	CTR	JODEL	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a DR1050 squawking 7600. All Manchester departures were stopped.	DR1050 pilot reported faulty radio in the a/c, caused by the lead wire being disconnected from the antenna.☐ CAA Closure: The pilot, who was also the owner, has since sold the a/c and stopped flying.
201008667	16/08/2010	EGTT : London (FIR)	Manchester (MCT)		D	CTR	BOEING	Turbofan	2	Infringement of the Manchester CTR (Class D) by a DR1050 squawking 7600. All Manchester departures were stopped.	DR1050 pilot reported faulty radio in the a/c, caused by the lead wire being disconnected from the antenna.☐ CAA Closure: The pilot, who was also the owner, has since sold the a/c and stopped flying.
201008735	18/08/2010	EGTT : London (FIR)	Wyton	5.5 NE	G	ATZ	OTHER	Reciprocating	1	UK AIRPROX 2010/108 - G115 and unidentified microlight 5.5nm Northeast of Wyton.	Infringement of the Wyton ATZ (Class G) by a microlight resulting in a conflict with a Grob G115, which took evasive action.
201008735	18/08/2010	EGTT : London (FIR)	Wyton	5.5 NE	G	ATZ	GROB	Reciprocating	1	UK AIRPROX 2010/108 - G115 and unidentified microlight 5.5nm Northeast of Wyton.	Infringement of the Wyton ATZ (Class G) by a microlight resulting in a conflict with a Grob G115, which took evasive action.

201008740	14/08/2010	EGTT : London (FIR)	Haydock		D	CTR	HUGHES	Reciprocating	1	Infringement of The Manchester CTR (Class D) by a Hughes 269 squawking 7000 at 1800ft. Standard separation maintained.	
201008818	22/08/2010	EGTT : London (FIR)	Southampton (SAM)		D	CTR	CESSNA	Reciprocating	1	Infringement of Southampton CTR (Class D) by a C172 at 700ft. After numerous blind transmissions, C172 eventually responded. Pilot reported having difficulty with weather. Two departures were delayed.	CAA Closure: No response received from the German Authority. Closed due to elapsed time.
201008818	22/08/2010	EGTT : London (FIR)	Southampton (SAM)		D	CTR	HAWKER SIDDELEY	Turbofan	2	Infringement of Southampton CTR (Class D) by a C172 at 700ft. After numerous blind transmissions, C172 eventually responded. Pilot reported having difficulty with weather. Two departures were delayed.	CAA Closure: No response received from the German Authority. Closed due to elapsed time.
201008820	19/08/2010	EGTT : London (FIR)	London-Gatwick - LGW		D	CTR	PIPER	Reciprocating	1	Infringement of the Gatwick CTA/CTR (Class D) by a PA28 indicating 1600ft. Standard separation maintained.	ATC had previously experienced infringements involving this a/c and had advised the pilot accordingly. PA28 pilot subsequently apologised, stating that he believed he was further from Gatwick than he actually was (due to operating at a lower altitude than he was used to). CAA Closure: Following discussions with his flying club's chief pilot, the pilot will allow a wider margin for error in future.
201008868	22/08/2010	EGTT : London (FIR)	Silverstone	3nm E	G	Restricted area	CESSNA	Reciprocating	1	Infringement of the Silverstone RA(T) by a C152 at 2600ft.	A/c was receiving a Basic Service from Farnborough. CAA Closure: Appropriate CAA action taken.

201008868	22/08/2010	EGTT : London (FIR)	Silverstone	3nm E	G	Restricted area	OTHER	Unknown		Infringement of the Silverstone RA(T) by a C152 at 2600ft.	A/c was receiving a Basic Service from Farnborough.☐ CAA Closure: Appropriate CAA action taken.
201008904	23/08/2010	EGTT : London (FIR)	Weathersfield	3 SW	D	CTA	BELL	Turboshaft	1	Infringement of the Stansted CTA (Class D) by a Bell 206 Squawking 7000 at 600ft. B737 broken off approach and repositioned. Standard separation maintained.	Pilot contacted ATC to report weather avoidance.
201008904	23/08/2010	EGTT : London (FIR)	Weathersfield	3 SW	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a Bell 206 Squawking 7000 at 600ft. B737 broken off approach and repositioned. Standard separation maintained.	Pilot contacted ATC to report weather avoidance.
201008920	22/08/2010	EGTT : London (FIR)	Leeds Bradford (LBA)	10S of LBA	D	CTA	CESSNA	Reciprocating	1	Multiple Infringements of the Leeds Bradford CTA (Class D) by a C206 paradropping a/c squawking 7000 at 3700ft.	The organiser of the para drop event was contacted over this incident.
201008981	24/08/2010	EGTT : London (FIR)	Southampton (SAM)	8 N	D	CTA	CESSNA	Reciprocating	1	C152 at 2800ft, initially unidentified, infringed the Solent CTA (Class D) and lost separation with an inbound DHC8on base leg to R/W20, which was given traffic info and avoiding action.	C152, with a Boscombe squawk, was observed to enter CAS and then squawk 7000. ATSA was advised that Boscombe had seen the a/c approaching Southampton's airspace and told it to free call Solent. Several blind transmissions were made to C152 with no response. C152 then turned and left CAS.CAA Closure: No further action possible due to elapsed time.

201008981	24/08/2010	EGTT : London (FIR)	Southampton (SAM)	8 N	D	CTA	DE HAVILLAND	Turboprop	2	C152 at 2800ft, initially unidentified, infringed the Solent CTA (Class D) and lost separation with an inbound DHC8on base leg to R/W20, which was given traffic info and avoiding action.	C152, with a Boscombe squawk, was observed to enter CAS and then squawk 7000. ATSA was advised that Boscombe had seen the a/c approaching Southampton's airspace and told it to free call Solent. Several blind transmissions were madeto C152 with no response. C152 then turned and left CAS.CAA Closure: No further action possible due to elapsed time.
201008992	22/08/2010	EGTT : London (FIR)	Gamston (GAM)		G	ATZ	OTHER	Other	0	Infringement of the Gamston ATZ (Class G) by an untraced Paraglider. Standard separation maintained.	
201008992	22/08/2010	EGTT : London (FIR)	Gamston (GAM)		G	ATZ	PIPER	Reciprocating	1	Infringement of the Gamston ATZ (Class G) by an untraced Paraglider. Standard separation maintained.	
201008993	22/08/2010	EGTT : London (FIR)	Nottingham East Midlands	4 NE	D	CTR	AERONCA	Reciprocating	1	Aeronca called Approach and told to standby. Aeronca subsequently infringed the Nottingham East Midlands CTR (ClassD) at 1300ft. Two inbound B737s were given extended vectors to remain clear of a/c.	CAA Closure: Aeronca pilot advised of his error on frequency. No further action taken by unit.
201008993	22/08/2010	EGTT : London (FIR)	Nottingham East Midlands	4 NE	D	CTR	BOEING	Turbofan	2	Aeronca called Approach and told to standby. Aeronca subsequently infringed the Nottingham East Midlands CTR (ClassD) at 1300ft. Two inbound B737s were given extended vectors to remain clear of a/c.	CAA Closure: Aeronca pilot advised of his error on frequency. No further action taken by unit.

201009138	18/08/2010	EGTT : London (FIR)	Luton (LUT)	E	D	CTR	EXTRA	Reciprocating	1	Infringement of the Luton CTR (Class D) by an Extra 300 squawking 7000 at 1200ft. Standard separation maintained.	The pilot reports that having gone through the check listdirectly out of the POH prior to this ferry flight, he took off from R/W20 at North Weald. He started to turn onto his first pre planned track of 300 but when he glanced at the compass he couldn't find it. It transpired that the owner had stuck his aerobatic sequences over the top of it. As the pilot discovered this the noise cancelling on the headset failed. Whilst trying to deal with the situation the a/c went further West than intended. The pilot subsequently recognised Royston and continued to his destination. The pilot has apologised for this incident and has changed his procedures as a result.
201009172	27/08/2010	EGTT : London (FIR)	Denham		A	CTR	CESSNA	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a C152 squawking 7000 at 2100ft. Standard separation maintained.	The pilot has submitted a report detailing his errors on this flight.
201009173	28/08/2010	EGTT : London (FIR)	GARMI	NW	A		PIPER	Reciprocating	1	Infringement of Airway Q41 by a PA28 at FL45, resulting in a loss of separation against a Trislander. STCA activated. Traffic info given.	Investigation established that the PA28 pilot used a French chart, which did not identify Airway Q41, when crossingthe channel.☐ CAA Closure: French Authorities have been forwarded a link to the relevant website where the SouthernLower ATS Routes, which include Airway Q41, are available.
201009173	28/08/2010	EGTT : London (FIR)	GARMI	NW	A		BRITTEN NORMAN	Reciprocating	3	Infringement of Airway Q41 by a PA28 at FL45, resulting in a loss of separation against a Trislander. STCA activated. Traffic info given.	Investigation established that the PA28 pilot used a French chart, which did not identify Airway Q41, when crossingthe channel.☐ CAA Closure: French Authorities have been forwarded a link to the relevant website where the SouthernLower ATS Routes, which include Airway Q41, are available.
201009178	28/08/2010	EGTT : London (FIR)	Stansted	NE	D	CTA	ZENAIR	Reciprocating	1	Infringement of the Stansted CTR/CTA (Class D) by a Zenair CH601 and a Europa. Traffic info and avoiding action given. Separation lost.	The first infringing a/c, having exited the Andrewsfield ATZ, continued on a NNW track before turning right to exitthe CTR 2nm South of the extended centreline. A B737 thathad been vectored away from Stansted due to the infringement was vectored towards the localiser again but the approach was delayed due to another a/c infringing the StanstedCTA after departing from Andrewsfield. Blind transmissions were made but without success. Several other a/c were also delayed.☐ CAA Closure: No further CAA action feasible at this time.

201009178	28/08/2010	EGTT : London (FIR)	Stansted	NE	D	CTA	EUROPA	Reciprocating	1	Infringement of the Stansted CTR/CTA (Class D) by a Zenair CH601 and a Europa. Traffic info and avoiding action given. Separation lost.	The first infringing a/c, having exited the Andrewsfield ATZ, continued on a NNW track before turning right to exit the CTR 2nm South of the extended centreline. A B737 that had been vectored away from Stansted due to the infringement was vectored towards the localiser again but the approach was delayed due to another a/c infringing the Stansted CTA after departing from Andrewsfield. Blind transmissions were made but without success. Several other a/c were also delayed.☐ CAA Closure: No further CAA action feasible at this time.
201009179	28/08/2010	EGTT : London (FIR)	Stansted	SW	D	CTA	CIRRUS	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Cirrus SR22 squawking 7000 at 1800ft. Standard separation maintained.	
201009181	28/08/2010	EGTT : London (FIR)	Biggin (BIG)	7 SE	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 at 3000ft, resulting in loss of separation against a climbing C560. Traffic info and avoiding action given.	CAA Closure: The pilot of the PA28 climbed to an altitude that took it inside the LTMA. The pilot reported to the Farnborough LARS controller that he believed it was permissible to climb to 3000ft in that area. The situation was resolved by the Thames Radar controller who detected the situation and took prompt action to correct it.
201009181	28/08/2010	EGTT : London (FIR)	Biggin (BIG)	7 SE	A	TMA	CESSNA	Turbofan	2	Infringement of the LTMA (Class A) by a PA28 at 3000ft, resulting in loss of separation against a climbing C560. Traffic info and avoiding action given.	CAA Closure: The pilot of the PA28 climbed to an altitude that took it inside the LTMA. The pilot reported to the Farnborough LARS controller that he believed it was permissible to climb to 3000ft in that area. The situation was resolved by the Thames Radar controller who detected the situation and took prompt action to correct it.
201009182	30/08/2010	EGTT : London (FIR)	London-Gatwick - LGW	N	D	CTR	FLIGHT DESIGN	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a CT2K. A B737 was broken off approach and repositioned.	Traffic info given. Radar recordings confirmed that the traffic entered the Gatwick CTR by 0.3nm probably whilst conducting a wide circuit at Redhill.☐ CAA Closure: No further CAA action considered practical at this time.

201009183	30/08/2010	EGTT : London (FIR)	Brookmans Park (BPK)		A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA 28 squawking 7000 at 2900ft. Standard separation maintained. Pilotcontacted ATC. infringement due to distraction and incorrect altimeter setting.	
201009184	30/08/2010	EGTT : London (FIR)	Stansted	5 E	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C152 squawking 7000 at 1500ft. Eastbound departures were stopped and an inbound B737 sent around. Standard separation maintained.	The operator of the a/c has been fully alerted to this incident. Appropriate action taken by CFI.
201009319	30/08/2010	EGTT : London (FIR)	London City - LCY	17 E	A	TMA	CESSNA	Reciprocating	1	Infringement of the London TMA (Class A) by a C172 at 4400ft resulting in a loss of separation against a BAe146. Traffic info given.	C172, which had deviated from initial flight plan, climbed into LTMA to avoid turbulence. Pilot apologised for infringement.□ CAA Closure: Lessons have been learned following this incident. Pilot will enhance pre-flight planning ahead of future flights.
201009319	30/08/2010	EGTT : London (FIR)	London City - LCY	17 E	A	TMA	BAE	Turbofan	4	Infringement of the London TMA (Class A) by a C172 at 4400ft resulting in a loss of separation against a BAe146. Traffic info given.	C172, which had deviated from initial flight plan, climbed into LTMA to avoid turbulence. Pilot apologised for infringement.□ CAA Closure: Lessons have been learned following this incident. Pilot will enhance pre-flight planning ahead of future flights.
201009320	31/08/2010	EGTT : London (FIR)	Stansted	TMZ 2	G	Restrict ed area	NORTH AMERICAN	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a Harvard. Luton departures were stopped and a Stansted inbound B737 put into a right hand orbit. Standard separation maintained.	Pilot contacted ATC. Infringement due to lapse of memory regarding the existence of the TMZ 2.

201009320	31/08/2010	EGTT : London (FIR)	Stansted	TMZ 2	G	Restricted area	BOEING	Turbofan	2	Infringement of the Stansted TMZ 2 (Class G) by a Harvard. Luton departures were stopped and a Stansted inbound B737 put into a right hand orbit. Standard separation maintained.	Pilot contacted ATC. Infringement due to lapse of memory regarding the existence of the TMZ 2.
201009428	02/09/2010	EGTT : London (FIR)	Aspen	5N	A		OTHER	Reciprocating	1	Infringement of Airway Q41 (Class A) at 7200ft by a Tecnam Sierra. Standard separation maintained.	
201009429	02/09/2010	EGTT : London (FIR)	Woodley (WOD)	6 N	A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA28 at 3500ft. Traffic info given to Heathrow inbound a/c. Standard separation maintained.	The appropriate Farnborough controller had reminded the pilot that he would need to descend to remain below CAS when transferring the a/c.
201009480	03/09/2010	EGTT : London (FIR)	Southampton (SAM)	6 SE	D	CTR	GROB	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Grob 109 squawking 7000 at 1900ft climbing to 3000ft.	CFI onboard with student using new skymap on GPS. Incident attributed to an over-reliance on the use of equipment, rather than visual reference.☐ CAA Closure: Instructor and others from the school to visit ATC and airspace warning devices to be fitted to school's two a/c.
201009488	04/09/2010	EGTT : London (FIR)	Luton (LUT)	7 E	D	CTR	JABIRU	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Jabiru at 1700ft. A departing ATR72 on a CPT SID was given traffic info and avoiding turn.	Jabiru on a Farnborough squawk was unknown to LTCC and separation was lost against the ATR72. Controller took appropriate action. The Jabiru had been advised by the Farnborough controller to make a right turn to avoid the Luton CTRwhich was acknowledged by the pilot concerned. ☐ CAA Closure: No further CAA action due to the elapsed time involved.

201009488	04/09/2010	EGTT : London (FIR)	Luton (LUT)	7 E	D	CTR	ATR	Turboprop	2	Infringement of the Luton CTR (Class D) by a Jabiru at 1700ft. A departing ATR72 on a CPT SID was given traffic info and avoiding turn.	Jabiru on a Farnborough squawk was unknown to LTCC and separation was lost against the ATR72. Controller took appropriate action. The Jabiru had been advised by the Farnborough controller to make a right turn to avoid the Luton CTRwhich was acknowledged by the pilot concerned. ☐ CAA Closure: No further CAA action due to the elapsed time involved.
201009491	04/09/2010	EGTT : London (FIR)	London-Heathrow - LHR	10 W	A	CTR	YAKOVLEV	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a Yak 55 at2000ft. Two Heathrow inbounds were broken off the approach and given traffic info. Standard separation maintained.	The infringing traffic was identified and instructed to descend. The delayed Heathrow traffic was then repositionedfor the approach. ☐ CAA Closure: No further CAA action dueto the elapsed time involved.
201009495	03/09/2010	EGTT : London (FIR)	Bovingdon (BNN)	10 NW	A	CTA	ROBINSON	Reciprocating	1	Infringement of Luton CAS (Class D) by an R44. An A319 was repositioned and descent stopped. Standard separation maintained.	
201009495	03/09/2010	EGTT : London (FIR)	Bovingdon (BNN)	10 NW	A	CTA	AIRBUS	Turbofan	2	Infringement of Luton CAS (Class D) by an R44. An A319 was repositioned and descent stopped. Standard separation maintained.	
201009499	03/09/2010	EGTT : London (FIR)	Bristol	3 S	D	CTR	CESSNA	Reciprocating	1	Infringement of the Bristol CTR (Class D) by a C172 squawking 7000 at 3900ft. Navigational assistance provided to the pilot as he was unsure of his position. Standard separation maintained.	

201009502	03/09/2010	EGTT : London (FIR)	Chatsworth House		G	Restricted area	CESSNA	Reciprocating	1	Infringement of NOTAMed Red Arrows RA(T) by a C152 squawking 7000 indicating 1500ft. Traffic info given. Display stopped until Red Arrows leader was visual with the a/c and it had left the area.	
201009502	03/09/2010	EGTT : London (FIR)	Chatsworth House		G	Restricted area	OTHER	Unknown		Infringement of NOTAMed Red Arrows RA(T) by a C152 squawking 7000 indicating 1500ft. Traffic info given. Display stopped until Red Arrows leader was visual with the a/c and it had left the area.	
201009508	04/09/2010	EGTT : London (FIR)	Birmingham	13 NNW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a C172 squawking 7000 at 3000ft. Traffic info was given to an AS365operating in the area. Standard separation maintained.	Pilot stated that his GPS showed him to be clear of CAS.CAA Closure: No further action possible due to elapsed time.
201009508	04/09/2010	EGTT : London (FIR)	Birmingham	13 NNW	D	CTA	AEROSPATIALE	Turboshaft	2	Infringement of the Birmingham CTA (Class D) by a C172 squawking 7000 at 3000ft. Traffic info was given to an AS365operating in the area. Standard separation maintained.	Pilot stated that his GPS showed him to be clear of CAS.CAA Closure: No further action possible due to elapsed time.
201009513	04/09/2010	EGTT : London (FIR)	Stansted	TMZ	Other	Restricted area	ENSTROM	Reciprocating	1	Infringement of the Stansted TMZ (Class G) by an Enstrom 280. 0013 squawk displayed but no Mode C. Standard separation maintained.	The pilot was contacted and believed his Mode C was operating. The transponder was new and the pilot stated that hewould get it checked on landing.

201009518	04/09/2010	EGTT : London (FIR)	Stansted	7 SW	D	CTR	DE HAVILLAND	Reciprocating	1	DHC1 allegedly twice infringed the Stansted TMZ (Class G)and on two separate occasions the CTR (Class D), losing separation with inbound B737, which were given traffic infoand avoiding action.	Primary only return. □ CAA Closure: No further CAA actionconsidered feasible due to the elapsed time involved.
201009518	04/09/2010	EGTT : London (FIR)	Stansted	7 SW	D	CTR	BOEING	Turbofan	2	DHC1 allegedly twice infringed the Stansted TMZ (Class G)and on two separate occasions the CTR (Class D), losing separation with inbound B737, which were given traffic infoand avoiding action.	Primary only return. □ CAA Closure: No further CAA actionconsidered feasible due to the elapsed time involved.
201009522	04/09/2010	EGTT : London (FIR)	London City - LCY	5 E	D	CTR	VANS	Reciprocating	1	RV9 infringed the London City CTR (Class D) and lost separation with an outbound Do328, which was given traffic info and avoiding action.	CAA Closure: No follow up action taken by ATC at the timeof the incident. No further action considered possible due to elapsed time.
201009522	04/09/2010	EGTT : London (FIR)	London City - LCY	5 E	D	CTR	DORNIER	Turboprop	2	RV9 infringed the London City CTR (Class D) and lost separation with an outbound Do328, which was given traffic info and avoiding action.	CAA Closure: No follow up action taken by ATC at the timeof the incident. No further action considered possible due to elapsed time.
201009529	04/09/2010	EGTT : London (FIR)	Stansted	TMZ 2	Other	Restrictedd area	YAKOVLEV	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a Yak 52.Standard separation maintained.	

201009559	04/09/2010	EGTT : London (FIR)	Birmingham	11 SE	D	CTA	EUROPA	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a Europa at 1900ft. Standard separation maintained.	Pilot advised of infringement and was warned of the proximity of the Snitterfield glider site.
201009561	04/09/2010	EGTT : London (FIR)	Hawarden		A		SIAI MARCHETTI	Reciprocating	1	Infringement of Airway N864 (Class A) by a SF260 at 4500ft. Standard separation maintained.	
201009562	04/09/2010	EGTT : London (FIR)	Southampton (SAM)	6 NNE	D	CTR	ROBINSON	Reciprocating	1	R22 infringed the Southampton CTR (Class D) and lost separation with an SR22 on an SRA to R/W20.	The R22 was carrying out a local solo navex from Farnham.The pilot was in receipt of a Basic Service and squawkingan assigned code, but due to cockpit mis-management and insufficient flight planning did not realise his proximity to controlled airspace from the surface. □ CAA Closure: The relatively inexperienced pilot has since taken advice from his flight school instructor and has had his errors identified. The pilot admitted his mistake and has been sent guidance and study material covering VFR navigation and helicopter airmanship.
201009562	04/09/2010	EGTT : London (FIR)	Southampton (SAM)	6 NNE	D	CTR	CIRRUS	Reciprocating	1	R22 infringed the Southampton CTR (Class D) and lost separation with an SR22 on an SRA to R/W20.	The R22 was carrying out a local solo navex from Farnham.The pilot was in receipt of a Basic Service and squawkingan assigned code, but due to cockpit mis-management and insufficient flight planning did not realise his proximity to controlled airspace from the surface. □ CAA Closure: The relatively inexperienced pilot has since taken advice from his flight school instructor and has had his errors identified. The pilot admitted his mistake and has been sent guidance and study material covering VFR navigation and helicopter airmanship.
201009563	05/09/2010	EGTT : London (FIR)	Winchester	NE	D	CTR	AVIONS ROBIN	Reciprocating	1	Alleged infringement of the Southampton CTR (Class D) by a Robin 200 squawking 7000 at 1300ft. An outbound BE350's departure was delayed due to the infringer. Standard separation maintained.	The a/c concerned was not fully identified.

201009563	05/09/2010	EGTT : London (FIR)	Winchester	NE	D	CTR	BEECH	Turboprop	2	Alleged infringement of the Southampton CTR (Class D) by a Robin 200 squawking 7000 at 1300ft. An outbound BE350's departure was delayed due to the infringer. Standard separation maintained.	The a/c concerned was not fully identified.
201009872	27/08/2010	EGTT : London (FIR)	Isle Of Man (IOM)	12 NW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Isle of Man CTR (Class D) by a C182. Traffic info given. Standard separation maintained.	
201009887	10/09/2010	EGTT : London (FIR)	Southampton (SAM)	8 NE	D	CTR	DE HAVILLAND	Reciprocating	1	Infringement of the Southampton CTR (Class D)) by a Tiger Moth. Traffic info and avoiding action given to outboundDHC8. Separation lost.	Pilot contacted ATC to apologise. He was unaware at the time of the infringement and acknowledges that he should have contacted Solent Radar for assistance when identifying he was West of his intended track. Appropriate lessons learnt.
201009887	10/09/2010	EGTT : London (FIR)	Southampton (SAM)	8 NE	D	CTR	DE HAVILLAND	Turboprop	2	Infringement of the Southampton CTR (Class D)) by a Tiger Moth. Traffic info and avoiding action given to outboundDHC8. Separation lost.	Pilot contacted ATC to apologise. He was unaware at the time of the infringement and acknowledges that he should have contacted Solent Radar for assistance when identifying he was West of his intended track. Appropriate lessons learnt.
201009888	11/09/2010	EGTT : London (FIR)	London-Heathrow - LHR	NW	A	CTR	ROBINSON	Reciprocating	1	Infringement of the London CTR (Class A) by an R44 squawking 7000. Heathrow Northbound and CPT departures were stopped. Standard separation maintained.	Pilot navigational error. The infringement was highlighted to the pilot's CFI, who confirmed that the pilot had informed them of the incident and the error had been discussed.☐ CAA Closure: The pilot is no longer working at the school and it is not known whether he is still actively instructing. He has been sent advice and guidance material concerning operating safely within CAS.

201009948	10/09/2010	EGTT : London (FIR)	Shoreham				GRUMMAN	Reciprocating	1	ATC observed a/c allegedly within ATZ with no RT communication established. Pilot subsequently reported carburettorice problems. Diversion initiated. Local standby declared. A/c landed safely.	Pilot reported the engine had failed twice and he had attempted to declare a MAYDAY. He suspected possible water inthe fuel.
201009972	07/09/2010	EGTT : London (FIR)	Luton (LUT)	NW	D	CTA	PITTS	Reciprocating	1	Pitts Special squawking 7004 at 5000ft, twice infringed the Luton CTA (Class D). An inbound C500's descent was stopped until Pitts Special had left CAS.	CAA Closure: ATC contacted the pilot who explained the reason for the occurrence. It was partly due to the student climbing too high and an incorrect pressure setting. No further action considered necessary.
201009972	07/09/2010	EGTT : London (FIR)	Luton (LUT)	NW	D	CTA	CESSNA	Turbofan	2	Pitts Special squawking 7004 at 5000ft, twice infringed the Luton CTA (Class D). An inbound C500's descent was stopped until Pitts Special had left CAS.	CAA Closure: ATC contacted the pilot who explained the reason for the occurrence. It was partly due to the student climbing too high and an incorrect pressure setting. No further action considered necessary.
201010003	13/09/2010	EGTT : London (FIR)	Stansted TMZ 1		Other	Restrict ed area	BELL	Turboshaft	1	Infringement of the Stansted TMZ 1 (Class G) by a Bell 206 Jetranger squawking 7000. Traffic info given to inbound B737 whose descent was stopped at 4000ft. Standard separation maintained.	Pilot contacted ATC and apologised for the infringement as he was not aware of the existence of the TMZ. Appropriate advice passed by ATC.
201010003	13/09/2010	EGTT : London (FIR)	Stansted TMZ 1		Other	Restrict ed area	BOEING	Turbofan	2	Infringement of the Stansted TMZ 1 (Class G) by a Bell 206 Jetranger squawking 7000. Traffic info given to inbound B737 whose descent was stopped at 4000ft. Standard separation maintained.	Pilot contacted ATC and apologised for the infringement as he was not aware of the existence of the TMZ. Appropriate advice passed by ATC.

201010083	12/09/2010	EGTT : London (FIR)	Liverpool	Penketh	D	CTR	GRUMMAN	Reciprocating	1	Infringement of the Liverpool CTR (Class D) by a Grumman AA5 at 900ft. Standard separation maintained.	
201010120	15/09/2010	EGTT : London (FIR)	London City - LCY	5 SSE	D	CTR	PIPER	Reciprocating	1	Infringement of the London City CTA/CTR (Class D) by a PA28 at 2300ft. STCA activated. Traffic info and avoiding action given to a Learjet. Separation lost.	A report has been received from the pilot concerned who considers that the main factors were a significant change in wind direction/speed and the pilot failing to change headings sufficiently early away from the edges of CAS.
201010120	15/09/2010	EGTT : London (FIR)	London City - LCY	5 SSE	D	CTR	LEARJET	Turbofan	2	Infringement of the London City CTA/CTR (Class D) by a PA28 at 2300ft. STCA activated. Traffic info and avoiding action given to a Learjet. Separation lost.	A report has been received from the pilot concerned who considers that the main factors were a significant change in wind direction/speed and the pilot failing to change headings sufficiently early away from the edges of CAS.
201010129	15/09/2010	EGTT : London (FIR)	Haverhill	3 SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA32 squawking 7000 at 2900ft. Inbound B737 was given a slight delaying action. Believe PA32 realised the error and turned toleave CAS.	Investigation progressed under 201003610.
201010129	15/09/2010	EGTT : London (FIR)	Haverhill	3 SE	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA32 squawking 7000 at 2900ft. Inbound B737 was given a slight delaying action. Believe PA32 realised the error and turned toleave CAS.	Investigation progressed under 201003610.

201010147	12/09/2010	EGTT : London (FIR)	Birmingham	16nm SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 at4000ft. Standard separation maintained. Pilot contacted ATC and apologised. He believed he was South of CAS.	
201010167	14/09/2010	EGTT : London (FIR)	Bovingdon (BNN)	2nm N	D	CTR	CIRRUS	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Cirrus SR20 at 1400ft. The a/c flew approx 0.2nm inside the line designating the Luton CTR for a distance of 1.2nm. Standard separation maintained.	
201010188	16/09/2010	EGTT : London (FIR)	Barkway (BKY)	8 NNW	A	TMA	GROB	Reciprocating	1	Infringement of the LTMA (Class A) by a Grob G115 Squawking 7000. A/c entered CAS at FL84 from the North then left CAS, then re-entered at FL80 descending to 6000ft.	Traffic info and delaying action given to Luton inbound A319. Standard separation maintained. The instructor pilot was contacted and was not aware of the infringement, he believes however that it may have been caused by the upper winds being stronger than anticipated. The instructor appears to have learnt from this incident.
201010188	16/09/2010	EGTT : London (FIR)	Barkway (BKY)	8 NNW	A	TMA	AIRBUS	Turbofan	2	Infringement of the LTMA (Class A) by a Grob G115 Squawking 7000. A/c entered CAS at FL84 from the North then left CAS, then re-entered at FL80 descending to 6000ft.	Traffic info and delaying action given to Luton inbound A319. Standard separation maintained. The instructor pilot was contacted and was not aware of the infringement, he believes however that it may have been caused by the upper winds being stronger than anticipated. The instructor appears to have learnt from this incident.
201010197	07/09/2010	EGTT : London (FIR)	Q41 Airway	50 07 N 001 48 W	A		SIAI MARCHETTI	Reciprocating	1	Infringement of Airway Q41 (Class A) by a SF260 at 3900ft. The Mode C indicated 039 with a Portland pressure of 996mb. Standard separation maintained.

Two inbound a/c were given traffic info and avoiding action.	CAA Closure: No further action possible due to elapsed time.
201010256	18/09/2010	EGTT : London (FIR)	DENBY	W	D	CTR	SOCATA	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a Socata TB10 at 2300ft. Standard separation maintained.	
201010262	18/09/2010	EGTT : London (FIR)	Damyns Hall	4nm NE	A	TMA	JABIRU	Reciprocating	1	Infringement of the LTMA (Class A) by a Jabiru squawking 7000 at 2900ft. Standard separation maintained. Pilot contacted ATC to apologise for the infringement.	
201010265	18/09/2010	EGTT : London (FIR)	Southampton	11nm NE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a C172 at 5000ft. Inbound a/c vectored away from the infringer. Farnborough ATC issued C172 turns to vacate CAS.	

201010269	18/09/2010	EGTT : London (FIR)	Southampton	6.5nm SE	D	CTR	CEA	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a Robin DR300 at 1600ft. Standard separation maintained.	Pilot report states an over reliance on a GPS whose maps were not distinct enough to determine positioning accurately.
201010275	18/09/2010	EGTT : London (FIR)	Southampton (SAM)	12 S	D	CTA	CESSNA	Reciprocating	1	Unidentified a/c squawking 7377 indicating 3000ft, infringed the Solent CTA (Class D) and lost separation with a DHC8 being vectored for R/W02. DHC8 was given traffic info and avoiding action.	Infringing a/c was subsequently identified as a C172 receiving a Basic Service from Boumemouth ATC.☐ CAA Closure: Investigation was not able to determine the reason for theC172's infringement. Appropriate unit action taken.
201010275	18/09/2010	EGTT : London (FIR)	Southampton (SAM)	12 S	D	CTA	DE HAVILLAND	Turboprop	2	Unidentified a/c squawking 7377 indicating 3000ft, infringed the Solent CTA (Class D) and lost separation with a DHC8 being vectored for R/W02. DHC8 was given traffic info and avoiding action.	Infringing a/c was subsequently identified as a C172 receiving a Basic Service from Boumemouth ATC.☐ CAA Closure: Investigation was not able to determine the reason for theC172's infringement. Appropriate unit action taken.
201010280	18/09/2010	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	CIRRUS	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by an SR22.Traffic info given to departing a/c. Standard separation maintained.	Infringer over flew the Kenley active gliding site at 900ft and was observed tracking towards Gatwick CAS.
201010284	19/09/2010	EGTT : London (FIR)	Ockham (OCK)		A	CTR	OTHER	Reciprocating	1	B747 in descent reported a possible microlight at 6-7000ft going through the Ockham hold. No TCAS or radar return. Standard separation maintained.	

201010284	19/09/2010	EGTT : London (FIR)	Ockham (OCK)		A	CTR	BOEING	Turbofan	4	B747 in descent reported a possible microlight at 6-7000ft going through the Ockham hold. No TCAS or radar return. Standard separation maintained.	
201010301	19/09/2010	EGTT : London (FIR)	Epping		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 2200ft. Pilot apologised for the infringement which was caused by the pilot misreading his chart.	
201010434	20/09/2010	EGTT : London (FIR)	Cardiff	20 NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by a PA28 at FL60 20nm NE of CDF. Standard separation maintained.	
201010459	21/09/2010	EGTT : London (FIR)	Southampton (SAM)	7 SW	D	CTR	GROB	Reciprocating	1	Infringement of the Southampton CTR (Class D) at 1500ft by an unknown a/c squawking 0011, which was subsequently identified as a Grob G109. Separation lost against an outbound DHC8.	CAA Closure: Due to the time elapsed since this incident no further investigation is deemed practical.
201010459	21/09/2010	EGTT : London (FIR)	Southampton (SAM)	7 SW	D	CTR	DE HAVILLAND	Turboprop	2	Infringement of the Southampton CTR (Class D) at 1500ft by an unknown a/c squawking 0011, which was subsequently identified as a Grob G109. Separation lost against an outbound DHC8.	CAA Closure: Due to the time elapsed since this incident no further investigation is deemed practical.

201010481	21/09/2010	EGTT : London (FIR)	Stansted	NW	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28 at 2000ft resulting in disruption to other traffic and increased ATC workload. A/c vacated CAS by descending below the CTA base.	After infringing CAS, the a/c failed to respond to a blind call and departures were stopped. The a/c eventually came under a Farnborough LARS but initially failed to adhere to several instructions to leave the zone. PA28 pilot reported that, having been instructed to vacate CAS and remainbelow 2000ft, he assumed he had vacated when given traffic info on an a/c which was outside CAS. Shortly afterwards, the pilot was advised that he was still inside CAS and to descend immediately to 1400ft, which he complied with.☐ CAA Closure: Pilot, who has been in contact with DGAC, apologised for the disruption caused by this incident.
201010483	21/09/2010	EGTT : London (FIR)	Southampton (SAM)	6.5	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of Solent CTA (Class D) by a Robin 2160 at 2400ft. Traffic info given to an inbound a/c. Standard separation maintained.	A/c had a Boscombe Down squawk and had been instructed toremain clear of the CTA.
201010508	22/09/2010	EGTT : London (FIR)	Birmingham	11 SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 at2800ft squawking 7000. Traffic info passed. Standard separation maintained.	Pilot contacted ATC to apologise. He mistook the base of CAS to be 3500ft (2500ft).
201010511	17/09/2010	EGTT : London (FIR)	Blackbushe		G	ATZ	HUGHES	Turboshaft	1	Infringement of the Blackbushe ATZ (Class G) by a Hughes 369 at 1900ft. ATC had instructed the helicopter to remainclear of the ATZ.	
201010604	26/09/2010	EGTT : London (FIR)	Luton (LUT)	SE	A	CTR	CESSNA	Reciprocating	1	Infringement of Luton CTR (Class D) by a C150, which was initially unidentified. Separation was lost with an inbound B737. Traffic info and avoiding action given.	Inbound westbound B737 was given traffic info on unknown infringer and subsequently told to stop descent at 2000ft on ILS R/W26 and to turn North, then recleared to 3000ft. An inbound southbound HS125 North of B737 was instructed to orbit in its present position. Following other tasks on looking at radar controller observed B737 turning left into potential conflict with infringer and HS125 not orbiting. B737 was instructed to continue left onto heading 110degand HS125 was put on a Northerly heading as a delaying tactic. Infringer cleared area and both B737 and HS125 were repositioned for ILS. B737 confirmed taking wrong heading.Appropriate CAA action is being taken as a result of thisoccurrence.

201010604	26/09/2010	EGTT : London (FIR)	Luton (LUT)	SE	A	CTR	BOEING	Turbofan	2	Infringement of Luton CTR (Class D) by a C150, which was initially unidentified. Separation was lost with an inbound B737. Traffic info and avoiding action given.	Inbound westbound B737 was given traffic info on unknown infringer and subsequently told to stop descent at 2000ft on ILS R/W26 and to turn North, then recleared to 3000ft. An inbound southbound HS125 North of B737 was instructed to orbit in its present position. Following other tasks on looking at radar controller observed B737 turning left into potential conflict with infringer and HS125 not orbiting. B737 was instructed to continue left onto heading 110degand HS125 was put on a Northerly heading as a delaying tactic. Infringer cleared area and both B737 and HS125 were repositioned for ILS. B737 confirmed taking wrong heading.Appropriate CAA action is being taken as a result of thisoccurrence.
201010768	22/09/2010	EGTT : London (FIR)	Birmingham	Honiley VOR	D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C182. Check all carried out and departures were suspended. Two inbound a/c placed in a LH holding pattern. Standard separation maintained.	CAA Closure: C182 pilot reported becoming unsure of position whilst in haze. Infringement realised only upon landing. GPS had not been taken on the flight.
201010768	22/09/2010	EGTT : London (FIR)	Birmingham	Honiley VOR	D	CTR	BOEING	Turbofan	2	Infringement of the Birmingham CTR (Class D) by a C182. Check all carried out and departures were suspended. Two inbound a/c placed in a LH holding pattern. Standard separation maintained.	CAA Closure: C182 pilot reported becoming unsure of position whilst in haze. Infringement realised only upon landing. GPS had not been taken on the flight.
201010778	28/09/2010	EGTT : London (FIR)	Southampton (SAM)	8nm E	D	CTA	VANS	Reciprocating	1	Infringement of the Solent CTA (Class D) by an RV6 Squawking 7000 climbing from 2600ft to 3700ft (base of CAS 3000ft). Traffic info given to PA28. Separation maintained.	Infringer was descended to remain clear of CAS.
201010778	28/09/2010	EGTT : London (FIR)	Southampton (SAM)	8nm E	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by an RV6 Squawking 7000 climbing from 2600ft to 3700ft (base of CAS 3000ft). Traffic info given to PA28. Separation maintained.	Infringer was descended to remain clear of CAS.

201010868	28/09/2010	EGTT : London (FIR)	Wethersfield	2nm S	Other	Restricted area	AVIONS ROBIN	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a DR220 a/c squawking 7000 2nm South of Wethersfield. A/c exited TMZ at VRP Haverhill. Standard separation maintained.	
201010869	28/09/2010	EGTT : London (FIR)	Luton (LUT)		D	CTR	CESSNA	Reciprocating	1	Infringement of Luton CTR (Class D) by a C150 squawking 7000. Check all imposed against all departures. Inbound traffic delayed. Traffic info and avoiding action given. Standard separation maintained.	C150 failed to respond to blind calls. A/c subsequently identified via Farnborough LARS. Appropriate CAA action is being taken as a result of this occurrence.
201010891	30/09/2010	EGTT : London (FIR)	Luton (LUT)	5 W	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28. Departures stopped and inbound traffic affected. Traffic info given. Standard separation maintained. Pilot failed to respond to ATC calls.	CAA Closure: ATC contacted the pilot, who believed he was distracted by other tasks at the time. The pilot has learnt from the incident and it is considered that no further action is necessary.
201010961	02/10/2010	EGTT : London (FIR)	Compton (CPT)		A		CESSNA	Reciprocating	1	Infringement of Airway L9 (Class A) by C172 squawking 7000 at FL78. Pilot described his position as near DTY at FL65. ATC assigned a/c a squawk and requested it to descend/ turn to leave the Airway.	Pilot given instructions to leave the Airway, and was advised of the base level. Standard separation maintained.
201010962	30/09/2010	EGTT : London (FIR)	Daventry (DTY)		A	CTA	PIPER	Reciprocating	1	Infringement of the Daventry CTA (Class A) by a PA28R, which was initially unidentified. Separation was lost with an inbound DHC8.	The pilot subsequently spoke to ATC and apologised stating that the infringement was caused by him failing to detect a step in the base of CAS at FL45 whilst he was planning the flight.

201010962	30/09/2010	EGTT : London (FIR)	Daventry (DTY)		A	CTA	DE HAVILLAND	Turboprop	2	Infringement of the Daventry CTA (Class A) by a PA28R, which was initially unidentified. Separation was lost with an inbound DHC8.	The pilot subsequently spoke to ATC and apologised stating that the infringement was caused by him failing to detect a step in the base of CAS at FL45 whilst he was planningthe flight.
201011199	07/10/2010	EGTT : London (FIR)	Burgess Hill		A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 squawking 7000 at 3300ft. Traffic info and avoiding action given to anA319. Separation lost.	Departures were delayed until the infringer left CAS heading South. PA28 operated by a student who was allowing thea/c to head North. The instructor realised this but, distracted by the student, he lost situational awareness, resulting in the infringement.☐ CAA Closure: Appropriate remedial action taken by the flying club, with advice offered by the CFI and supervising FI. Instructor has learnt from the incident.
201011199	07/10/2010	EGTT : London (FIR)	Burgess Hill		A	TMA	AIRBUS	Turbofan	2	Infringement of the LTMA (Class A) by a PA28 squawking 7000 at 3300ft. Traffic info and avoiding action given to anA319. Separation lost.	Departures were delayed until the infringer left CAS heading South. PA28 operated by a student who was allowing thea/c to head North. The instructor realised this but, distracted by the student, he lost situational awareness, resulting in the infringement.☐ CAA Closure: Appropriate remedial action taken by the flying club, with advice offered by the CFI and supervising FI. Instructor has learnt from the incident.
201011234	07/10/2010	EGTT : London (FIR)	Stansted		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) and TMZ 2 (Class G) by a PA28 squawking 7000. A/c descended to 1700ft and left CAS. Standard separation maintained.	CAA Closure: No follow up action taken by ATC at the timeof the incident. No further action considered possible due to elapsed time.
201011277	11/10/2010	EGTT : London (FIR)	Northolt	3 ENE	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C150. Heathrow northbound departures were stopped.	Appropriate ATC follow up action with the operator has been initiated. Pilot has since apologised for the infringement. The pilot stated that due to poor visibility on the day he missed the turning point for Elstree. The pilot has arranged for further training on navigation in reduced visibility.

201011502	13/10/2010	EGTT : London (FIR)	Birmingham	S	D	CTA	OTHER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by an AMT-200 at 2500ft resulting in a loss of separation against an inbound RJ85.	CAA Closure: The pilot became lost due to a DI failure and called East Midlands ATC for assistance when this was realised.
201011502	13/10/2010	EGTT : London (FIR)	Birmingham	S	D	CTA	BAE	Turbofan	4	Infringement of the Birmingham CTA (Class D) by an AMT-200 at 2500ft resulting in a loss of separation against an inbound RJ85.	CAA Closure: The pilot became lost due to a DI failure and called East Midlands ATC for assistance when this was realised.
201011516	14/10/2010	EGTT : London (FIR)	Redhill	2 NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a PA28 at 1800ft (Base of CAS 1500ft). All departures except SFD were stopped until infringer descended below CAS. Standard separation maintained.	CAA Closure: ATC contacted the pilot who admitted to making an altitude error after departure. No further action possible due to elapsed time.
201011601	16/10/2010	EGTT : London (FIR)	Ware		G	Restrict ed area	ROCKWELL	Reciprocating	1	Infringement of the Stansted TMZ (Class G) by an AC112 squawking 7000 conspicuity but without Mode C, which is mandatory for the TMZ. Standard separation maintained.	
201011602	16/10/2010	EGTT : London (FIR)	Scillies		G	ATZ	CESSNA	Reciprocating	1	Inbound C182 failed to comply with ATC instructions and entered Scilly Isles ATZ (Class G) without a clearance. C182 was given an orbit and sequenced nr3.	The root cause of this incident is believed to be the pilot's lack of knowledge/ failure to follow procedures and airmanship.□ CAA Closure: Aerodrome arrival-specific guidance material was passed to the pilot and details recorded of the incident.

201011602	16/10/2010	EGTT : London (FIR)	Scillies		G	ATZ	SIKORSKY	Turboshaft	2	Inbound C182 failed to comply with ATC instructions and entered Scilly Isles ATZ (Class G) without a clearance. C182 was given an orbit and sequenced nr3.	The root cause of this incident is believed to be the pilot's lack of knowledge/ failure to follow procedures and airmanship.☐ CAA Closure: Aerodrome arrival-specific guidance material was passed to the pilot and details recorded of the incident.
201011603	16/10/2010	EGTT : London (FIR)	Coventry	2 NW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C172 at2000ft. Pilot was informed of his infringement and given onward clearance. Standard separation maintained.	Pilot attempted to contact Coventry ATC but was carrying out of date frequency information.
201011605	16/10/2010	EGTT : London (FIR)	Stansted	Harlow and Ware VRP's	G	Restrict ed area	CESSNA	Reciprocating	1	Infringement of the Stansted TMZ2 (Class G) by a C152 at 1300ft. Pilot thought his transponder was on, after a short delay Modes A and C were properly displayed. Standard separation maintained.	
201011682	17/10/2010	EGTT : London (FIR)	White Waltham		A	CTR	FOURNIER	Reciprocating	1	Infringement of the London CTR (Class A) by three Fournier RF4Ds Squawking 7000 at 600ft. Standard separation maintained.	The three Fourniers left the White Waltham circuit with the designated leader appearing to track approximately 160deg. The nr3 a/c pilot then realised that this track was incorrect so called on the RT calling for a turn to the West.
201011682	17/10/2010	EGTT : London (FIR)	White Waltham		A	CTR	FOURNIER	Reciprocating	1	Infringement of the London CTR (Class A) by three Fournier RF4Ds Squawking 7000 at 600ft. Standard separation maintained.	The three Fourniers left the White Waltham circuit with the designated leader appearing to track approximately 160deg. The nr3 a/c pilot then realised that this track was incorrect so called on the RT calling for a turn to the West.

201011685	18/10/2010	EGTT : London (FIR)	Clacton (CLN)	10 E	A	CTA	BEECH	Reciprocating	1	Infringement of the Clacton CTA (Class A) by a BE33 Squawking 7000 at FL73. Standard separation maintained.	
201011708	17/10/2010	EGTT : London (FIR)	Luton (LUT)	S	D	CTR	ROBINSON	Reciprocating	1	R44 infringed the Luton CTR (Class D) and paralleled the Southern boundary on a Westerly track. ATC subsequently contacted R44 and pilot stated being aware of his position at all times.	Standard separation maintained.☐ CAA Closure: R44 pilot admitted his mistake based on a navigational error and distraction caused by trying to establish communications with ATC. Safety guidance material concerning VFR navigation given.
201011726	19/10/2010	EGTT : London (FIR)	Birmingham	10 SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 squawking 7000 indicating 3000ft. Standard separation maintained.	Student pilot on a cross country exercise misidentified of two local racecourses. Investigation progressed under 201001939.
201011753	20/10/2010	EGTT : London (FIR)	London TMA		A	TMA	SOCATA	Reciprocating	1	Infringement of the LTMA (Class A) by a TB20 at 3000ft squawking 5021. Farnborough LARS alerted by Thames Radar to the infringement. A/c descended immediately out of CAS.	
201011777	20/10/2010	EGTT : London (FIR)	Detling (DET)	5 W	A	TMA	EUROPA	Reciprocating	1	Infringement of the LTMA (Class A) by a Europa squawking 7000 at 2900ft tracking towards the Thames RMA. A C340 departure climbing to 3000ft was vectored to go South of the infringer.	A/c was tracked and subsequently identified. Standard separation maintained.

201011777	20/10/2010	EGTT : London (FIR)	Detling (DET)	5 W	A	TMA	CESSNA	Reciprocating	2	Infringement of the LTMA (Class A) by a Europa squawking 7000 at 2900ft tracking towards the Thames RMA. A C340 departure climbing to 3000ft was vectored to go South of the infringer.	A/c was tracked and subsequently identified. Standard separation maintained.
201011784	20/10/2010	EGTT : London (FIR)	Southampton (SAM)	9 N	D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) and the Southampton CTR (Class D) by a C172 on a 7000 squawk at 2500ft, resulting in a loss of separation against an outbound DHC8. Traffic info given.	Two other a/c were vectored in order to maintain separation against the C172.☐ CAA Closure: The pilot reported that, once they were aware they were lost, they called Farnborough ATC. GPS was not in use as the pilot had descended tofly with visual reference. Pilot has offered to make sureGPS is always available, should it be needed.
201011784	20/10/2010	EGTT : London (FIR)	Southampton (SAM)	9 N	D	CTA	DE HAVILLAND	Turboprop	2	Infringement of the Solent CTA (Class D) and the Southampton CTR (Class D) by a C172 on a 7000 squawk at 2500ft, resulting in a loss of separation against an outbound DHC8. Traffic info given.	Two other a/c were vectored in order to maintain separation against the C172.☐ CAA Closure: The pilot reported that, once they were aware they were lost, they called Farnborough ATC. GPS was not in use as the pilot had descended tofly with visual reference. Pilot has offered to make sureGPS is always available, should it be needed.
201011866	22/10/2010	EGTT : London (FIR)	Barkway (BKY)	8 W	D	CTA	DIAMOND	Reciprocating	1	Infringement of the Luton CTA (Class D) by a DA40 squawking 7000 at 3000ft. Standard separation maintained. A/c changed squawk to 4502 and was identified.	Investigations have revealed that the training flight concerned was well planned and was to be carried out visually. The student however elected to use the GPS (on which he had not yet been trained) and attempted to manually input Lavenham disused airfield that was to be used as a turningpoint. Lyneham came up as the initial choice and was selected by the student which led to the incident concerned. The student did however realise that something was wrong and reverted to visual navigation techniques. Appropriate follow up action has been taken by the CFI concerned.
201011916	22/10/2010	EGTT : London (FIR)	Thurrock		A	TMA	CESSNA	Reciprocating	1	Infringement of the London TMA (Class A) by a C152 squawking 7000 at 2700ft levelling off at 3000ft. EMB190 climbing to 5000ft was vectored away from infringer. Separation lost.	CAA Closure: This incident was followed-up by ATC. A comprehensive response was provided by the PIC with workload/distraction cited as causal factors.

201011916	22/10/2010	EGTT : London (FIR)	Thurrock		A	TMA	EMBRAER	Turbofan	2	Infringement of the London TMA (Class A) by a C152 squawking 7000 at 2700ft levelling off at 3000ft. EMB190 climbing to 5000ft was vectored away from intruder. Separation lost.	CAA Closure: This incident was followed-up by ATC. A comprehensive response was provided by the PIC with workload/distraction cited as causal factors.
201011920	24/10/2010	EGTT : London (FIR)	Solent CTA		D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a C172 squawking 7000 at 2500ft, climbing to 3200ft. A/c tracked to Bembridge and identified. Standard separation maintained.	Pilot error acknowledged.
201011925	24/10/2010	EGTT : London (FIR)	Manchester (MCT)		D	CTR	EUROPA	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a Europa squawking 7000 at 2000ft. B757 Inbound at 4000ft was giventraffic info and avoiding action. Standard separation maintained.	Contact was established with the infringing a/c which immediately descended. Pilot apologised for the error. B757 subsequently landed with no further issue.
201011925	24/10/2010	EGTT : London (FIR)	Manchester (MCT)		D	CTR	BOEING	Turbofan	2	Infringement of the Manchester CTR (Class D) by a Europa squawking 7000 at 2000ft. B757 Inbound at 4000ft was giventraffic info and avoiding action. Standard separation maintained.	Contact was established with the infringing a/c which immediately descended. Pilot apologised for the error. B757 subsequently landed with no further issue.
201011961	07/10/2010	EGTT : London (FIR)	Stansted		D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C152 squawking 7000 at 2000ft. Standard separation maintained.	Pilot had attempted to contact Stapleford to get permission to transit their ATZ, however the pilot did not receivea response to three attempted calls. Pilot decided to avoid overflying the ATZ without permission and in doing so infringed CAS. Pilot apologised for the infringement. CFI alerted. Pilot has since successfully completed a navigational flight test.

201011991	25/10/2010	EGTT : London (FIR)	Luton (LUT)	6 NE	D	CTR	WESTLAND	Turboshaft	1	Infringement of the Luton CTR (Class D) by a Gazelle squawking 7000. Traffic info given to VFR helicopter which wasvisual with the infringer. Standard separation maintained.	A comprehensive report has been received from the pilot concerned who summarised that this infringement was due to a map reading error together with distraction caused by a door opening in flight prior to the infringement and an over concentration on avoiding Stansted CAS. The pilot believes in retrospect he should have made a precautionary landing to resolve the door issue. Numerous actions have been taken by the pilot to avoid a recurrence.
201011992	25/10/2010	EGTT : London (FIR)	Durham Tees Valley (TD)		D	CTA	EUROPA	Reciprocating	1	Infringement of Teesside CTA (Class D) by three a/c at 2000ft. The three a/c, two Europas and a P300, entered controlled airspace without clearance. Standard separation maintained.	ATC informed the three a/c of their failure to obtain clearance. VFR clearance was then issued and the three a/c continued on their desired tracks.
201011992	25/10/2010	EGTT : London (FIR)	Durham Tees Valley (TD)		D	CTA	EUROPA	Reciprocating	1	Infringement of Teesside CTA (Class D) by three a/c at 2000ft. The three a/c, two Europas and a P300, entered controlled airspace without clearance. Standard separation maintained.	ATC informed the three a/c of their failure to obtain clearance. VFR clearance was then issued and the three a/c continued on their desired tracks.
201012060	24/10/2010	EGTT : London (FIR)	Hinton in the Hedges		Other	Other	CESSNA	Reciprocating	1	Infringement of active Hinton in the Hedges parachute drop zone by C152. Live drop was aborted. A group of five parachutists that had already exited a/c finished their planned manoeuvres early.	The a/c passed through the Hinton DZ at approx 2800ft. unaware that parachute operations were taking place. Incident due to pilot error/lack of situational awareness. □ CAA Closure: Pilot advised on parachuting operations and flightprofile.
201012224	30/10/2010	EGTT : London (FIR)	Wolverhampton	10 SE	A	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a C152 squawking 0010 indicating 2700ft. ATC contacted the pilot, who stated the a/c was at 2700ft. Standard separation maintained.	

201012224	30/10/2010	EGTT : London (FIR)	Wolverhampton	10 SE	A	CTA	BAE	Turbofan	4	Infringement of the Birmingham CTA (Class D) by a C152 squawking 0010 indicating 2700ft. ATC contacted the pilot, who stated the a/c was at 2700ft. Standard separation maintained.	
201012466	28/10/2010	EGTT : London (FIR)	Spadeadam D510		G	Danger area	AVIONS ROBIN	Reciprocating	1	Infringement of active Spadeadam Danger Area D510 by Robin 100 at 4000ft.	
201012524	27/10/2010	EGTT : London (FIR)	Cowes	3 SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by PA28 squawking 7000 at 2600ft. Standard separation maintained.	A/c descended below 2000ft and left controlled airspace. Commercial a/c affected.
201012526	05/11/2010	EGTT : London (FIR)	Puckeridge VRP		Other	Restrictedd area	WESTLAND	Turboshaft	1	Infringement of the Stansted TMZ2 (Class G) by a Gazelle squawking 7000 with no Mode C. Standard separation maintained.	ATC have spoken to the pilot concerned who was adamant that Mode C had been switched on. In light of this and a previous incident the pilot will undertake a check of the Mode C operation. The Mode S also appears to have been incorrectly configured giving an incorrect a/c identification.
201012527	07/11/2010	EGTT : London (FIR)	Farnborough	9.5 NW	A	Prohibited area	PIPER	Reciprocating	1	Infringement of CAS-T (Class A) on two occasions by PA28 squawking 7000. Standard separation maintained.	ATC asked the pilot whether he was aware of the CAS-T airspace, with the response being 'no'. Investigation under 201003305.

201012528	07/11/2010	EGTT : London (FIR)	Farnborough	10	A		PIPER	Reciprocating	1	Infringement of CAS-T (Class A) by PA28 squawking 7000. Standard separation maintained.	
201012529	07/11/2010	EGTT : London (FIR)	Birmingham	4 SW	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by R22. Standard separation maintained. Traffic info given.	Disruption to commercial traffic. The pilot has admitted his mistake based on a navigational error. The pilot has since talked through the event with a senior instructor at the training organisation and has also attended a flight safety evening with an emphasis on avoiding airspace infringements.□ CAA Closure; The CAA has advised the pilot and sent him safety guidance material concerning VFR navigationand flight in controlled airspace.
201012529	07/11/2010	EGTT : London (FIR)	Birmingham	4 SW	D	CTR	AIRBUS	Turbofan	2	Infringement of the Birmingham CTR (Class D) by R22. Standard separation maintained. Traffic info given.	Disruption to commercial traffic. The pilot has admitted his mistake based on a navigational error. The pilot has since talked through the event with a senior instructor at the training organisation and has also attended a flight safety evening with an emphasis on avoiding airspace infringements.□ CAA Closure; The CAA has advised the pilot and sent him safety guidance material concerning VFR navigationand flight in controlled airspace.
201012564	05/11/2010	EGTT : London (FIR)	Nottingham East Midlands		D	CTA	OTHER	Reciprocating	1	Infringement of the East Midlands CTA and CTR (Class D) by EV97 flown by a student pilot who became lost on Qualifying Cross Country flight. Traffic info given to an inboundB737.	Standard separation maintained. Pilot phoned ATC after landing and was de-briefed. Instructor phoned ATC later and was also briefed on the infringement.
201012564	05/11/2010	EGTT : London (FIR)	Nottingham East Midlands		D	CTA	BOEING	Turbofan	2	Infringement of the East Midlands CTA and CTR (Class D) by EV97 flown by a student pilot who became lost on Qualifying Cross Country flight. Traffic info given to an inboundB737.	Standard separation maintained. Pilot phoned ATC after landing and was de-briefed. Instructor phoned ATC later and was also briefed on the infringement.

201012606	06/11/2010	EGTT : London (FIR)	Coventry		G	ATZ	ROBINSON	Reciprocating	1	Infringement of the Coventry ATZ (Class G) by R22 at approximately 600ft. Traffic info given. Standard separation maintained. Circuit traffic required to manoeuvre to avoid R22.	A/c crossed through final approach R/W23 at less than a mile.
201012680	10/11/2010	EGTT : London (FIR)	Birmingham	9 SSW	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by PA28 squawking 7000 at 2400ft. A/c left CTA towards Wellesbourne. Disruption to inbound commercial traffic. Traffic info given.	Standard separation maintained.
201012680	10/11/2010	EGTT : London (FIR)	Birmingham	9 SSW	D	CTA	DE HAVILLAND	Turboprop	2	Infringement of the Birmingham CTA (Class D) by PA28 squawking 7000 at 2400ft. A/c left CTA towards Wellesbourne. Disruption to inbound commercial traffic. Traffic info given.	Standard separation maintained.
201012692	10/11/2010	EGTT : London (FIR)	Luton (LUT)	3 N	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by PA28 squawking7000. One departure delayed. Traffic info given. Standardseparation maintained.	Investigation under 201011234.
201012794	08/11/2010	EGTT : London (FIR)	Wolverhampton	0.7 ESE	G	ATZ	HUGHES	Turboshaft	1	UK AIRPROX 2010/169 - EC135 and a Hughes 369E 0.7nm ESE of Wolverhampton at 2000ft.	On return to aerodrome, EC135 contacted ATC and was givenrunway in use and QFE. EC135 then observed a contact on TCAS, but had no height as it was Mode A only. When EC135 reported downwind to R/W10, ATC replied there was no reported traffic. As pilot read back the message, observer in LHseat pointed to traffic in the 3 o'clock position. As pilot looked to the right, he observed a helicopter make an abrupt left turn to pass behind EC135. EC135 took no avoiding action.□ CAA Closure: This AIRPROX will be subject to aseparate review by the United Kingdom AIRPROX Board (UKAB). Information indicates that this AIRPROX was caused by the H369 pilot not complying with Rule 45 of the Rules of the Air and flew into conflict with EC135.

201012794	08/11/2010	EGTT : London (FIR)	Wolverhampton	0.7 ESE	G	ATZ	EUROCOPTER	Turboshaft	2	UK AIRPROX 2010/169 - EC135 and a Hughes 369E 0.7nm ESE of Wolverhampton at 2000ft.	On return to aerodrome, EC135 contacted ATC and was givenrunway in use and QFE. EC135 then observed a contact on TCAS, but had no height as it was Mode A only. When EC135 reported downwind to R/W10, ATC replied there was no reported traffic. As pilot read back the message, observer in LHseat pointed to traffic in the 3 o'clock position. As pilot looked to the right, he observed a helicopter make an abrupt left turn to pass behind EC135. EC135 took no avoiding action.□ CAA Closure: This AIRPROX will be subject to aseparate review by the United Kingdom AIRPROX Board (UKAB). Information indicates that this AIRPROX was caused by the H369 pilot not complying with Rule 45 of the Rules of the Air and flew into conflict with EC135.
201012869	13/11/2010	EGTT : London (FIR)	Lichfield (LIC)		D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by PA28 at 3000ft. Pilot had contacted ATC earlier and was told to remain outside CAS, QNH of 992mb was given. Standard separation maintained.	ATC confirmed no other traffic in the vicinity and a/c was allowed to continue on its routeing to DTY at 3000ft VFR.
201012940	16/11/2010	EGTT : London (FIR)	Biggin (BIG)	E	G	ATZ	ROCKWELL	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by an RC114at 2000ft squawking 5021. Standard separation maintained.Traffic info given.	A/c reported in and was observed within the ATZ and instructed to leave the ATZ to the East. The pilot then reported tracking over the R/W21 threshold and ATC instructed it to turn right immediately track East and leave the ATZ as he was heading towards the circuit and final approach path. The a/c was believed to be working Farnborough LARS.
201013060	19/11/2010	EGTT : London (FIR)	Gatwick	SE	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by PA28 squawking 7000at 3200ft. CAIT activated. Disruption to Gatwick inbound traffic. Standard separation maintained.	The pilot states that during a high workload sortie and with poor weather to the South she allowed the a/c to driftinto the LTMA. The appropriate lessons appear to have been learnt by the pilot concerned.
201013060	19/11/2010	EGTT : London (FIR)	Gatwick	SE	A	TMA	BOEING	Turbofan	2	Infringement of the LTMA (Class A) by PA28 squawking 7000at 3200ft. CAIT activated. Disruption to Gatwick inbound traffic. Standard separation maintained.	The pilot states that during a high workload sortie and with poor weather to the South she allowed the a/c to driftinto the LTMA. The appropriate lessons appear to have been learnt by the pilot concerned.

201013081	20/11/2010	EGTT : London (FIR)	Leeds Bradford (LBA)	8 NW	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Leeds Bradford CTR (Class D) by R44 at 1800ft. squawking 7000. Standard separation maintained. Traffic info given.	
201013082	21/11/2010	EGTT : London (FIR)	London-Gatwick - LGW	NE	D	CTR	CESSNA	Reciprocating	1	Alleged infringement of the Gatwick CTR (Class D) by C152. Separation lost. Outbound commercial traffic affected. Traffic info given.	The a/c continued to travel West until due South of Redhill, turned North and disappeared in the overhead of Redhill. It is not been possible to positively identify the a/c involved in this incident.
201013082	21/11/2010	EGTT : London (FIR)	London-Gatwick - LGW	NE	D	CTR	BOEING	Turbofan	2	Alleged infringement of the Gatwick CTR (Class D) by C152. Separation lost. Outbound commercial traffic affected. Traffic info given.	The a/c continued to travel West until due South of Redhill, turned North and disappeared in the overhead of Redhill. It is not been possible to positively identify the a/c involved in this incident.
201013194	23/11/2010	EGTT : London (FIR)	Southampton (SAM)	8 SSW	D	CTR	VANS	Reciprocating	1	Infringement of the Southampton CTR (Class D) by RV6 squawking 7000. Standard separation maintained. Traffic info and avoiding action given. Disruption to outbound traffic.	The infringer was originally unknown and its identify waslater confirmed by Bournemouth. The pilot was asked to contact Solent on landing, which he did. On replaying his GPS, the pilot confirmed that he had infringed and that he had had problems in raising Bournemouth on his radio. Appropriate advice given to the pilot.
201013194	23/11/2010	EGTT : London (FIR)	Southampton (SAM)	8 SSW	D	CTR	DE HAVILLAND	Turboprop	2	Infringement of the Southampton CTR (Class D) by RV6 squawking 7000. Standard separation maintained. Traffic info and avoiding action given. Disruption to outbound traffic.	The infringer was originally unknown and its identify waslater confirmed by Bournemouth. The pilot was asked to contact Solent on landing, which he did. On replaying his GPS, the pilot confirmed that he had infringed and that he had had problems in raising Bournemouth on his radio. Appropriate advice given to the pilot.

201013221	24/11/2010	EGTT : London (FIR)	Hook		A		AVID	Reciprocating	1	Infringement of the Farnborough CAS-T (Class A) by an Avid Speedwing MK4. Standard separation maintained.	A/c just airborne from Hook called up on frequency for Basic Service. Pilot was informed that he was inside controlled airspace and should have called prior to getting airborne. Clearance was then given to continue.
201013249	23/11/2010	EGTT : London (FIR)	Manston ATZ		G	ATZ	PIPER	Reciprocating	1	Infringement of the Manston ATZ (Class G) by PA28 at approximately 1000ft, 1nm North of the runway. Standard separation maintained.	A/c was observed flying East to West through ATZ, withoutcontact or permission.
201013345	26/11/2010	EGTT : London (FIR)	Biggin (BIG)	1 W	G	ATZ	EUROCOPTER	Turboshaft	1	Infringement of the Biggin Hill ATZ (Class G) by an EC1201nm West of Biggin Hill. Traffic info given to a/c joining the circuit. Standard separation maintained.	The a/c had previously been noticed by Biggin ATC on the ATM using a Heathrow/Thames Radar squawk. On checking withThames to determine the intentions of the helicopter, they were advised that the a/c had been in contact with Heathrow Radar and had been told to remain outside the ATZ.
201013346	24/11/2010	EGTT : London (FIR)	London-Gatwick - LGW	SE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) South of East Grinstead by a C152 squawking 7000, no Mode C. Standard separation maintained.	A/c left the CTR due East and was later identified as a C152. When the return was approximately 25nm Southeast of Gatwick it was seen to change squawk to 5027 when the a/c contacted Farnborough. The student pilot believes that he turned too early onto his track from the Brighton VRP and then misidentified Burgess Hill as Uckfield. He also accepts that he should have contacted Farnborough East LARS earlier when he first became uncertain of his position. Appropriate follow up action has been taken by his flying instructor.
201013347	24/11/2010	EGTT : London (FIR)	Luton (LUT)	NW	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 squawking 7000 and a second unknown a/c squawking 0110. Disruption to inbound/outbound traffic. Standard separation maintained.	Controller believes that the second infringement could possibly have been a radar reflection. Investigations indicate that, on returning towards Wycombe from the WCO area, the pilot encountered low cloud. He attempted to navigate around it but became disorientated and decided to retrace his steps back towards the WCO area.☐ CAA Closure: Appropriate and comprehensive action taken by the CF1 concerned.

201013347	24/11/2010	EGTT : London (FIR)	Luton (LUT)	NW	D	CTR	UNKNOWN	Unknown		Infringement of the Luton CTR (Class D) by a PA28 squawking 7000 and a second unknown a/c squawking 0110. Disruption to inbound/outbound traffic. Standard separation maintained.	Controller believes that the second infringement could possibly have been a radar reflection. Investigations indicate that, on returning towards Wycombe from the WCO area, the pilot encountered low cloud. He attempted to navigate around it but became disorientated and decided to retrace his steps back towards the WCO area.☐ CAA Closure: Appropriate and comprehensive action taken by the CFI concerned.
201013348	28/11/2010	EGTT : London (FIR)	Birmingham	13 SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 squawking 7000. Separation lost with an A320. Traffic info and avoiding action given. STCA activated.	Pilot later reported that he had planned to pass underneath the airspace, however, he had failed to notice a discrepancy in his DI and magnetic compass. Appropriate lessons appear to have been learnt as a result of this incident.
201013348	28/11/2010	EGTT : London (FIR)	Birmingham	13 SE	D	CTA	AIRBUS	Turbofan	2	Infringement of the Birmingham CTA (Class D) by a PA28 squawking 7000. Separation lost with an A320. Traffic info and avoiding action given. STCA activated.	Pilot later reported that he had planned to pass underneath the airspace, however, he had failed to notice a discrepancy in his DI and magnetic compass. Appropriate lessons appear to have been learnt as a result of this incident.
201013349	28/11/2010	EGTT : London (FIR)	Luton (LUT)	W	D	CTR	CIRRUS	Reciprocating	1	Infringement of the Luton CTR (Class D) by a SR22 at 1600ft. Separation lost with inbound A319. Traffic info given.	After leaving Denham, SR22 contacted Farnborough and was provided with QNH and Basic Service. A/c was then noticed approx 2nm inside Luton Control Zone and was instructed toturn left immediately and exit the zone. The pilot then contacted Luton Radar Controller for a Basic Service and apologised for the infringement. The pilot states that shortly after departure from Denham he tried to engage the autopilot but it failed to engage. Approximately 30secs later he had reverted to his map but this was enough time to take him off his desired heading and into the Luton CTR. In retrospect he believes he should have immediately returned to the Denham circuit or orbited. The pilot is also to undertake further training with an instructor.
201013349	28/11/2010	EGTT : London (FIR)	Luton (LUT)	W	D	CTR	AIRBUS	Turbofan	2	Infringement of the Luton CTR (Class D) by a SR22 at 1600ft. Separation lost with inbound A319. Traffic info given.	After leaving Denham, SR22 contacted Farnborough and was provided with QNH and Basic Service. A/c was then noticed approx 2nm inside Luton Control Zone and was instructed toturn left immediately and exit the zone. The pilot then contacted Luton Radar Controller for a Basic Service and apologised for the infringement. The pilot states that shortly after departure from Denham he tried to engage the autopilot but it failed to engage. Approximately 30secs later he had reverted to his map but this was enough time to take him off his desired heading and into the Luton CTR. In retrospect he believes he should have immediately returned to the Denham circuit or orbited. The pilot is also to undertake further training with an instructor.

201013434	27/11/2010	EGTT : London (FIR)	Manchester (MCT)		D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by PA38 squawking 0260, no Mode C, tracking South East . Standard separation maintained.	The PA38 (initially unknown) was noticed on the Eastern edge of the Low Level corridor between Warrington and Northwich. Manchester Approach telephoned Liverpool, who quickly identified the a/c and they provided navigational assistance and a Basic Service.
201013571	05/12/2010	EGTT : London (FIR)	Denham	5 W	A	CTR	PIPER	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a PA28 at 1800ft. CAIT activated. Standard separation maintained.	A/c exited to the North before landing at Denham. TC NE departures had been advised of the a/c but no delays out ofHeathrow.
201013720	09/12/2010	EGTT : London (FIR)	Stoney Cross		D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by PA28 squawking 7000 at 4500ft. Standard separation maintained.	Southampton made a blind transmission and contacted Bournemouth, who later advised that the a/c was with them and being provided with a Basic Service. Investigation under 201004997.
201013811	12/12/2010	EGTT : London (FIR)	East Grinstead	2 E	D	CTR	PIPER	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a PA28 at 2000ft, 2nm East of East Grinstead. Gatwick departures stopped. Standard separation maintained.	A/c vacated CAS to the East when instructed to do so. Pilot allegedly lost, believing he was overhead Sevenoaks.□ CAA Closure: ATC contacted the pilot who made a number of observations on how he would prevent such incidents occurring in future. No further action considered necessary.
201013832	09/12/2010	EGTT : London (FIR)	Shoeburyness		G	Danger area	CESSNA	Reciprocating	1	Infringement of active Danger Area D138 (Shoeburyness) bylow flying C172. Check fire imposed. C172 had been advised of the active Danger Area.	Pilot navigational error/failure to check AIP.□ CAA Closure: Flying school operator made aware of occurrence and sent safety awareness material/resources to prevent any recurrence. Flying school however closed early in 2012.

201013877	12/12/2010	EGTT : London (FIR)	Bournemouth	4 SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a PA28 at 4000ft. RT contact lost. Disruption to inbound traffic. Traffic info given. Standard separation maintained.	CAA Closure: No action taken by ATC at the time. No further action is considered practicable due to elapsed time.
201014044	17/12/2010	EGTT : London (FIR)	Southampton (SAM)	7 NE	D	CTR	OTHER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a microlight squawking 7000. Standard separation maintained.	Appropriate flying school advised of incident.
201014134	09/12/2010	EGTT : London (FIR)	Danger Area D138A	15 ENE	G	Danger area	CESSNA	Reciprocating	1	Cancelled Processed Under 201013832	Cancelled Processed Under 201013832
201014392	30/12/2010	EGTT : London (FIR)	Midhurst	7 SW	A	TMA	SOCATA	Reciprocating	1	Infringement of the London TMA (Class A) by a TB20 at 4900ft. A/c was detected by TC OCK via CAIT. Standard separation maintained.	The a/c was receiving a Traffic Service from Farnborough, but was observed to have not descended in sufficient time to comply with the requirements of the airspace and had infringed. Pilot was instructed to increase his rate of descent to clear controlled airspace.
201014477	18/09/2010	EGTT : London (FIR)	Stoney Cross Area		D	CTA	STODDARD HAMILTON	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Glasair squawking 7000 indicating 2300ft. Standard separation maintained.	The a/c passed STX tracking towards Brockenhurst and descended to below 2000ft in the vicinity of Beaulieu. Several blind transmissions were made with no response.

201014501	09/12/2010	EGTT : London (FIR)	Holbeach		G	Danger area	OTHER	Unknown		UK AIRPROX 2010/176 - Military jet and a C120 at Holbeachat 200ft.	C120 entered notified active Danger Area EG D207 (Holbeach Range) and came into conflict with a military a/c, whichwas advised of C120 and began a shallow climb, during which C120 was observed above.
201014501	09/12/2010	EGTT : London (FIR)	Holbeach		G	Danger area	CESSNA	Reciprocating	1	UK AIRPROX 2010/176 - Military jet and a C120 at Holbeachat 200ft.	C120 entered notified active Danger Area EG D207 (Holbeach Range) and came into conflict with a military a/c, whichwas advised of C120 and began a shallow climb, during which C120 was observed above.
201100025	02/01/2011	EGTT : London (FIR)	Glossop		D	CTR	EUROPA	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a Europa at 2400ft. CAIT function did not activate.	The a/c, unknown at first, was allocated a 7350 squawk and identified as a Europa and instructed to continue tracking Southeast to clear the zone. Shortly after, the pilot requested to track back towards Congleton, which was approved as the a/c was now clear of the inbound track. The a/c left the zone to the South and reported leaving the frequency for Shawbury.□ CAA Closure: The pilot apologised for the error and is aware of the serious consequences of infringing CAS.
201100028	02/01/2011	EGTT : London (FIR)	Birmingham	SE	A	CTR	CESSNA	Reciprocating	1	Infringement of the Daventry CTA (Class A) by a C210 squawking 7000. Standard separation maintained.	The a/c was first seen indicating FL60 South East of Birmingham, and then approaching North West of the Luton CTR, descending and turned left towards Elstree, where it crossed the 2500ft base line, at an indicated 2800ft, before descending again and leaving controlled airspace. Mode S readout had been checked to obtain a callsign. Later, on speaking with the investigation unit, the pilot confirmed thathe had misread the vertical extent of the Daventry CTA and that he was flying on the correct pressure setting.
201100159	08/01/2011	EGTT : London (FIR)	Stansted	4 S	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28R at 1200ft, squawking 7000. CAIT activated. Standard separation maintained.	Information indicates that the PA28 infringed CAS whilst taking avoiding action on another a/c in the North Weald area. A full and comprehensive report has been received from the pilot concerned.

201100160	08/01/2011	EGTT : London (FIR)	Bovingdon (BNN)	4 NE	D	CTR	EUROCOPTER	Turboshaft	1	Infringement of the Luton CTR (Class D) by an EC120 squawking 5033 at 2000ft. CAIT activated. Traffic info given. Standard separation maintained. See also 201007406.	Pilot apologised and explained that he was looking at theground at the time.
201100160	08/01/2011	EGTT : London (FIR)	Bovingdon (BNN)	4 NE	D	CTR	AEROSPATIALE	Turboshaft	2	Infringement of the Luton CTR (Class D) by an EC120 squawking 5033 at 2000ft. CAIT activated. Traffic info given. Standard separation maintained. See also 201007406.	Pilot apologised and explained that he was looking at theground at the time.
201100163	09/01/2011	EGTT : London (FIR)	Stansted	8 NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 1900ft resulting in a loss of separation against an inboundB737. Traffic info given.	The Instructor was distracted by an intermittent transponder and the a/c drifted off track.☐ CAA Closure: Discussion has taken place between the instructor and her CFI on the subject of high workload and situational awareness.
201100163	09/01/2011	EGTT : London (FIR)	Stansted	8 NE	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA28 at 1900ft resulting in a loss of separation against an inboundB737. Traffic info given.	The Instructor was distracted by an intermittent transponder and the a/c drifted off track.☐ CAA Closure: Discussion has taken place between the instructor and her CFI on the subject of high workload and situational awareness.
201100178	08/01/2011	EGTT : London (FIR)	Compton (CPT)		A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C172 at 4900ft, squawking 7000. CAIT activated. Standard separation maintained.	Pilot misjudged the a/c's position. Pilot to be fully debriefed by the Deputy CFI.

201100179	09/01/2011	EGTT : London (FIR)	Severn Bridge		A	CTA	HAWKER	Turbofan	1	Infringement of the Bristol CTA (Class D) by a Hunter at 6000ft, squawking 3613. Standard separation maintained.	Cardiff had been informed that the a/c was climbing to FL60. As it was tracking towards Bristol CAS, Brize were requested to instruct the a/c to ROCAS. Shortly after, the a/c called Cardiff still heading for Bristol CAS and was reminded to ROCAS, but did not change its track and entered CAS without a clearance.
201100180	09/01/2011	EGTT : London (FIR)	REXAM		A	TMA	CESSNA	Reciprocating	1	Infringement of the Manchester TMA (Class A) by a C172 indicating FL66 squawking 7000. CAIT activated. Standard separation maintained.	The a/c was observed routing towards REXAM before turningSouth and descending to 3000ft exiting CAS.
201100256	10/01/2011	EGTT : London (FIR)	Ware	6 NW	D	CTR	SOCATA	Turboprop	1	Infringement of the Stansted CTR (Class D) by a TBM700 at2400ft. Standard separation maintained.	The pilot had planned to route BKY, BPK and LAM at 2400ft, to remain outside CAS, but had mistakenly left the BPK waypoint out of his GPS. Pilot apologised
201100414	14/01/2011	EGTT : London (FIR)	Pirton	SE	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Luton CTR (Class D) by an R44 with Mode C indicating 900ft, squawking 7000.	CAA Closure: The pilot was an experienced fixed wing commercial pilot based overseas and had minimal knowledge of the non-IFR requirements for gaining access to CAS within the UK. The a/c was staging to Finland via Sweden and will be located and registered in Finland. A publication describing ATC Services outside of CAS was sent to the pilot.
201100414	14/01/2011	EGTT : London (FIR)	Pirton	SE	D	CTR	CESSNA	Turbofan	2	Infringement of the Luton CTR (Class D) by an R44 with Mode C indicating 900ft, squawking 7000.	CAA Closure: The pilot was an experienced fixed wing commercial pilot based overseas and had minimal knowledge of the non-IFR requirements for gaining access to CAS within the UK. The a/c was staging to Finland via Sweden and will be located and registered in Finland. A publication describing ATC Services outside of CAS was sent to the pilot.

201100499	18/01/2011	EGTT : London (FIR)	Elstree	2 W	A	TMA	ROBINSON	Reciprocating	1	Infringement of the London TMA (Class A) by an R44 squawking 5030 at 2900ft. CAIT activated. Separation lost.	A/c was first noticed by NE Deps West of Elstree. TC Coordinator N then called Farnborough who confirmed that they had been working the a/c and had verified its Mode C before transferring it to Elstree. A/c was observed climbing to2900ft before descending and leaving CAS and tracking West.
201100499	18/01/2011	EGTT : London (FIR)	Elstree	2 W	A	TMA	UNKNOWN	Unknown		Infringement of the London TMA (Class A) by an R44 squawking 5030 at 2900ft. CAIT activated. Separation lost.	A/c was first noticed by NE Deps West of Elstree. TC Coordinator N then called Farnborough who confirmed that they had been working the a/c and had verified its Mode C before transferring it to Elstree. A/c was observed climbing to2900ft before descending and leaving CAS and tracking West.
201100500	18/01/2011	EGTT : London (FIR)	TOTRI		D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C152squawking 7000 at an unverified 1100ft. CAIT activated. Standard separation maintained.	The controller believed the a/c turned SW and then squawked 5035, but that it may have been a pre-existing return. Pilot became disorientated by the low sun and consequential reduced visibility. Pilot has been de-briefed by his CFI.
201100518	19/01/2011	EGTT : London (FIR)	Stansted	8 SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7010 at 2500ft.	The a/c, unknown at first, was identified by Luton and inbound to North Weald. Pilot error acknowledged. Pilot de-briefed by his CFI.
201100518	19/01/2011	EGTT : London (FIR)	Stansted	8 SW	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7010 at 2500ft.	The a/c, unknown at first, was identified by Luton and inbound to North Weald. Pilot error acknowledged. Pilot de-briefed by his CFI.

201100558	19/01/2011	EGTT : London (FIR)	Birmingham	12.7 NE	D	CTA	GARDAN	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a GY80 squawking 7000 at 3200ft. Standard separation maintained.	Tower had been asked to Check ALL as the a/c was unknown traffic. East Midlands called to advise that they believed the a/c had called for zone transit and the a/c was instructed to hold position and call Birmingham, as they believed it was inside their controlled airspace. On calling Birmingham, the a/c was identified and had remained in an orbit and descended to 2600ft. Pilot was informed of the infringement and apologised for his mistake. He was then given transit clearance through the zone.
201100559	19/01/2011	EGTT : London (FIR)	Headcorn / Lashenden	1 E	A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) at 4000ft by a PA28. Standard separation maintained.	
201100560	19/01/2011	EGTT : London (FIR)	Honiley (HON)	17 N	D	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 squawking 7000 at 2000ft. Standard separation maintained. Investigation under 201001939.	Pilot was informed that he had infringed CAS and was turned onto a track of 090 to route away from airfield . After tracking on approximately 150deg the a/c was given transit clearance not above 2000ft VFR and the QNH. Then given own navigation direction to Coventry. However, the a/c appeared to turn back towards the airfield. At the suggestion of the Watch Manager, a/c was given another vector away from the airfield as it was believed the a/c may have had either navigation problems or thought Birmingham was Coventry. Pilot had become disorientated in the haze and was still following a track that had been issued to transit East Midlands CAS previously.
201100581	20/01/2011	EGTT : London (FIR)	Stansted	9 SW	Other	Other	VANS	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) allegedly by a Vans RV7. An EMB135 was given traffic info and extended vectoring to remain clear of the Vans.	Appropriate CAA action has been taken as a result of this incident.
201100581	20/01/2011	EGTT : London (FIR)	Stansted	9 SW	Other	Other	EMBRAER	Turbofan	2	Infringement of the Stansted TMZ 2 (Class G) allegedly by a Vans RV7. An EMB135 was given traffic info and extended vectoring to remain clear of the Vans.	Appropriate CAA action has been taken as a result of this incident.

201100584	19/01/2011	EGTT : London (FIR)	Bovingdon (BNN)	E	A	TMA	CESSNA	Reciprocating	1	Infringement of the London TMA (Class A) by a C172 squawking 7000 at 3100-3200ft. CAIT activated.	TC NW had alerted GS North of the infringer tracking Eastinside CAS. GW Radar and SS INT were asked to track the a/c, which continued for 12-13mins towards Panshanger. About 10mins later, the a/c was observed descending back below2400ft North East of BPK. Information received indicates the pilot had not flown for a while and decided to take aninstructor on the flight as a safety pilot. The instructor experienced a headset failure and this distraction and the loss of comms, resulted in him not noticing that the pilot was flying on the airfield QFE. An appropriate debriefhas been given by the CFI concerned.
201100788	27/01/2011	EGTT : London (FIR)	Epsom (EPM)	N	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C152 squawking 7047 at 2000ft. CAIT activated. Standard separation maintained.	The a/c (unknown at first) was identified by calling Biggin Hill, who confirmed that it was on a cross-country. TC asked Biggin to turn the a/c South and check it's level. The a/c was seen exiting the zone.
201100814	24/01/2011	EGTT : London (FIR)	Bovingdon (BNN)	2 NE	D	CTR	WESTLAND	Turboshaft	1	Infringement of the Luton CTR (Class D) by a Gazelle squawking 7000 Mode C indicating 700ft. Standard separation maintained.	The a/c was first observed on a westerly track paralleling Luton's southern zone boundary and made a right turn entering the Luton CTR. An unsuccessful blind transmission was made. Tower imposed a 'check all' against pending departures. The infringer made a further right turn from a north-westerly to a northerly track. After radar contact was briefly lost, the a/c appeared on a northerly track Mode C indicating 700ft. The a/c left the CTR and radar contact was again lost, but last observed just East of Leighton Buzzard. Details were passed to Cranfield.
201100817	27/01/2011	EGTT : London (FIR)	Gloucester-Staverton		A		PIPER	Reciprocating	1	Infringement of CAS-T (Class A) by a PA28 at 3400ft. Standard separation maintained.	The temporary zone had been established to the SW of Gloucester and had been NOTAMed. The PA28 in transit via GST on a south westerly track, passed overhead the GST still tracking South West. Brize Norton called Gloucester to advise that avoiding action had been taken. Under investigation201012514.
201100852	28/01/2011	EGTT : London (FIR)	London-Heathrow - LHR	10 W	A	TMA	BEECH	Reciprocating	1	Infringement of the London TMA (Class A) by a BE36 squawking 7000 indicating 1500-1600ft on Mode C. CAIT activated.Separation lost. Traffic and avoiding action given.	Analysis of the radar replay (Mode S) by the investigating unit confirmed the identify of the infringer. Loss of separation against a Heathrow inbound established on R/W09 ILS was also confirmed. At the time LL FIN had other traffic on frequency which were given delaying vectors until theBE36 flew from South to North through R/W09 L/R centrelines before leaving the zone. Infringer landed at the White Waltham airfield. Follow up report from the pilot reveals that the a/c marginally entered CAS when the pilot became distracted whilst troubleshooting a fuel system warning. Farnborough LARS had also requested the pilot to re-route soon after take-off therefore taking the a/c closer to the Heathrow zone.

201100852	28/01/2011	EGTT : London (FIR)	London-Heathrow - LHR	10 W	A	TMA	UNKNOWN	Unknown		Infringement of the London TMA (Class A) by a BE36 squawking 7000 indicating 1500-1600ft on Mode C. CAIT activated.Separation lost. Traffic and avoiding action given.	Analysis of the radar replay (Mode S) by the investigating unit confirmed the identify of the infringer. Loss of separation against a Heathrow inbound established on R/W09 ILS was also confirmed. At the time LL FIN had other traffic on frequency which were given delaying vectors until theBE36 flew from South to North through R/W09 L/R centrelines before leaving the zone. Infringer landed at the White Waltham airfield. Follow up report from the pilot reveals that the a/c marginally entered CAS when the pilot became distracted whilst troubleshooting a fuel system warning. Farnborough LARS had also requested the pilot to re-route soon after take-off therefore taking the a/c closer to the Heathrow zone.
201100862	28/01/2011	EGTT : London (FIR)	MATCHING		D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C172 squawking 7000 indicating a Mode C of 1300ft. Standard separation maintained. Traffic info given.	The C172 (unknown at first) was observed entering the Stansted CTR on a westerly track and appeared to be joining the North Weald traffic pattern. GS called North Weald who assigned a 4672 squawk and identified the a/c as a C172. Pilot error acknowledged.
201100862	28/01/2011	EGTT : London (FIR)	MATCHING		D	CTR	PARTENAVIA	Reciprocating	2	Infringement of the Stansted CTR (Class D) by a C172 squawking 7000 indicating a Mode C of 1300ft. Standard separation maintained. Traffic info given.	The C172 (unknown at first) was observed entering the Stansted CTR on a westerly track and appeared to be joining the North Weald traffic pattern. GS called North Weald who assigned a 4672 squawk and identified the a/c as a C172. Pilot error acknowledged.
201100863	28/01/2011	EGTT : London (FIR)	Birmingham	11 SW	D	CTR	CIRRUS	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a SR22 squawking 7000 at FL39. Standard separation maintained.	Blind transmissions were made by ATC with no response. The a/c was tracked by Radar 2 and after conversation with Wellesbourne was identified as a SR22. The pilot called andapologised and said that he had been flying a new a/c andhad been slightly overloaded. He had been flying at FL35 (Birmingham QNH 1023mb) and had not made the mental adjustment for the transition altitude.
201100864	28/01/2011	EGTT : London (FIR)	Birmingham	15 SE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C152 squawking 7000 indicating FL40. Standard separation maintained.	Blind transmissions were made by ATC with no response. Wellesbourne were contacted who identified the a/c as a C152. The pilot called and apologised for the mistake and explained that they were undertaking stalling practise and were looking for a hole in the cloud and were unaware that the a/c had climbed as high as it had.

201100866	30/01/2011	EGTT : London (FIR)	London-Heathrow - LHR	2 S	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) allegedly by a PA28 squawking 7000 at 1500ft. CAIT activated. Separation lost.	CAA Closure: Insufficient evidence of the a/c identification. Appropriate action taken by ATC.
201100867	30/01/2011	EGTT : London (FIR)	London (LON)	8 S	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C152 squawking 7000 at 2300ft. Standard separation maintained. Traffic info given. Heathrow southbound departures stopped.	Pilot navigation error.☐ CAA Closure: More navigation training is planned with the CFI.
201100868	30/01/2011	EGTT : London (FIR)	Needles	N	D	CTA	VANS	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Vans RV8 squawking 0431 at 2400ft. Standard separation maintained. Inbound and outbound traffic affected.	Farnborough had called to say they had lost 2-way contactwith an a/c on the South coast. Southampton made several blind calls with no response. The infringer was then observed to leave CAS in the descent to the West of Cowes.
201100868	30/01/2011	EGTT : London (FIR)	Needles	N	D	CTA	DE HAVILLAND	Turboprop	2	Infringement of the Solent CTA (Class D) by a Vans RV8 squawking 0431 at 2400ft. Standard separation maintained. Inbound and outbound traffic affected.	Farnborough had called to say they had lost 2-way contactwith an a/c on the South coast. Southampton made several blind calls with no response. The infringer was then observed to leave CAS in the descent to the West of Cowes.
201100869	30/01/2011	EGTT : London (FIR)	Detling (DET)	7 W	A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA28 squawking 7000 at 3000ft. CAIT activated. Standard separation maintained.	The squawk changed to 5025. Thames called Farnborough LARS to obtain details. Farnborough LARS confirmed that on being contacted by the pilot, on a Navex from Biggin Hill, the controller had instructed the a/c to descend immediately to 2400ft.

201100873	30/01/2011	EGTT : London (FIR)	Bovingdon (BNN)	5.5 W	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C152 squawking 7000. Standard separation maintained. Traffic info given. Disruption to inbound traffic.	Appropriate CAA action is being taken as a result of thisincident.
201101049	03/02/2011	EGTT : London (FIR)	Stansted	13 NE			PIPER	Reciprocating	1	Infringement of Stansted TMZ (Class G) by a primary only contact, North of Stansted heading Southeast. Inbound B737given traffic info and avoiding action. Possible loss of separation.	Unknown traffic was subsequently identified after landing. Pilot was not aware of the TMZ. ☐ CAA Closure: ATC contacted the pilot after the event. Pilot now aware of the serious consequences of infringing CAS and has been sent appropriate TMZ literature.
201101049	03/02/2011	EGTT : London (FIR)	Stansted	13 NE			BOEING	Turbofan	2	Infringement of Stansted TMZ (Class G) by a primary only contact, North of Stansted heading Southeast. Inbound B737given traffic info and avoiding action. Possible loss of separation.	Unknown traffic was subsequently identified after landing. Pilot was not aware of the TMZ. ☐ CAA Closure: ATC contacted the pilot after the event. Pilot now aware of the serious consequences of infringing CAS and has been sent appropriate TMZ literature.
201101065	03/02/2011	EGTT : London (FIR)	Stansted	12 NE	A	TMA	CESSNA	Reciprocating	1	Infringement of the London TMA (Class A) by a C172 squawking 7000 at 4000ft. Traffic info given. Standard separation maintained. Stansted inbound traffic affected.	The infringer called Cambridge and SS INT were given details of the a/c. Response from the pilot reveals that the a/c climbed too early and therefore entered CAS with base at 3500ft. Pilot error acknowledged.
201101065	03/02/2011	EGTT : London (FIR)	Stansted	12 NE	A	TMA	BOEING	Turbofan	2	Infringement of the London TMA (Class A) by a C172 squawking 7000 at 4000ft. Traffic info given. Standard separation maintained. Stansted inbound traffic affected.	The infringer called Cambridge and SS INT were given details of the a/c. Response from the pilot reveals that the a/c climbed too early and therefore entered CAS with base at 3500ft. Pilot error acknowledged.

201101066	03/02/2011	EGTT : London (FIR)	Paddock Wood		A	CTA	PIPER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a PA32 squawking 7000, indicating 2400ft. Standard separation maintained. Traffic Info given.	The a/c left CTA SE of Paddock Wood and the squawk changed to 5021. GS (A) informed and Farnborough LARS were contacted who confirmed the a/c details.
201101066	03/02/2011	EGTT : London (FIR)	Paddock Wood		A	CTA	AIRBUS	Turbofan	2	Infringement of the Gatwick CTA (Class D) by a PA32 squawking 7000, indicating 2400ft. Standard separation maintained. Traffic Info given.	The a/c left CTA SE of Paddock Wood and the squawk changed to 5021. GS (A) informed and Farnborough LARS were contacted who confirmed the a/c details.
201101067	03/02/2011	EGTT : London (FIR)	Stansted	4 S	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C150 at 1200ft. Standard separation maintained. Inbound traffic affected.	The primary contact was detected in the Stansted CTZ tracking Northbound. Farnborough LARS had advised they had a lost primary only a/c on frequency in a similar area. The tower was called who reported being able to see the infringer. A check all was imposed. Appropriate advice has been given to the pilot, who it is believed misidentified the M11 for the M25.
201101088	03/02/2011	EGTT : London (FIR)	Wellesbourne Mountford	5 N	D	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a C152 at2300ft. Standard separation maintained.	The C152 was observed entering CAS tracking West wearing a conspicuity code of 1177. Birmingham Approach telephonedLACC FIS West to obtain traffic info and to request that the ac/ be transferred to a Birmingham frequency. The a/c was on a navigation exercise and was asked to call Birmingham on landing. The pilot apologised and explained that they had planned to route clear of the 1500ft stub. However,when they turned in the vicinity of Wellesbourne, they had been caught out by the strong westerly wind.
201101167	03/02/2011	EGTT : London (FIR)			D	CTR	CESSNA	Reciprocating	1	Cancelled - Processed under 201101067	

201101289	08/02/2011	EGTT : London (FIR)	Birmingham	9 E	D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C152 squawking 7000 at 2300ft. Traffic info and avoiding action given. Separation lost against a departing DHC8.	Blind transmissions were made with no response. The infringer continued towards the NEC before turning left and leaving the zone to the East. Coventry were contacted but hadno knowledge of the a/c and, after heading NNE, it was identified by East Midlands. Inbound and outbound services affected. C152 Pilot was contacted and reported that the map being used to navigate had been dropped and disorientation followed.☐ CAA Closure: Appropriate follow up action taken. Pilot briefed on calling an ATSU immediately when becoming lost.
201101289	08/02/2011	EGTT : London (FIR)	Birmingham	9 E	D	CTR	DE HAVILLAND	Turboprop	2	Infringement of the Birmingham CTR (Class D) by a C152 squawking 7000 at 2300ft. Traffic info and avoiding action given. Separation lost against a departing DHC8.	Blind transmissions were made with no response. The infringer continued towards the NEC before turning left and leaving the zone to the East. Coventry were contacted but hadno knowledge of the a/c and, after heading NNE, it was identified by East Midlands. Inbound and outbound services affected. C152 Pilot was contacted and reported that the map being used to navigate had been dropped and disorientation followed.☐ CAA Closure: Appropriate follow up action taken. Pilot briefed on calling an ATSU immediately when becoming lost.
201101290	08/02/2011	EGTT : London (FIR)	Hawarden	SW	A		CESSNA	Reciprocating	1	Infringement of Airway N864 (Class A) by a C172 squawking1177 at FL50.	Scottish West Supervisor had called LACC asking if they were in contact with an a/c to the Southwest of Hawarden, squawking 1177. With the aid of FID, they observed the a/c and asked the pilot to verify his altitude/level, to whichhe confirmed 5200ft. The pilot apologised and explained that he had accidentally drifted off track. He was asked tocontact the supervisor at Scottish when convenient.
201101291	08/02/2011	EGTT : London (FIR)	Denham	3 NW	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C152 squawking 7000 at 2000ft. Traffic info given. Heathrow departures halted for 6mins. Standard separation maintained.	Navigation error. Pilot misidentified his position and subsequently infringed the Northwest corner of the London CTR.☐ CAA Closure: The pilot is aware of the serious consequences of infringing CAS.
201101291	08/02/2011	EGTT : London (FIR)	Denham	3 NW	A	CTR	AIRBUS	Turbofan	2	Infringement of the London CTR (Class A) by a C152 squawking 7000 at 2000ft. Traffic info given. Heathrow departures halted for 6mins. Standard separation maintained.	Navigation error. Pilot misidentified his position and subsequently infringed the Northwest corner of the London CTR.☐ CAA Closure: The pilot is aware of the serious consequences of infringing CAS.

201101428	12/02/2011	EGTT : London (FIR)	MONTY	4 N	A		CIRRUS	Reciprocating	1	Infringement of Airway N864 (Class A) by an SR20 squawking 7000 at FL80. STCA activated. Separation lost.	CAA Closure: Attributed to a navigation error by the SR20pilot. Investigation also established that the controllers did not assimilate the CAIT activation as CAIT was not fully installed on all PC sectors. A unit instruction and unit specific recommendations were issued as a result.
201101428	12/02/2011	EGTT : London (FIR)	MONTY	4 N	A		AIRBUS	Turbofan	2	Infringement of Airway N864 (Class A) by an SR20 squawking 7000 at FL80. STCA activated. Separation lost.	CAA Closure: Attributed to a navigation error by the SR20pilot. Investigation also established that the controllers did not assimilate the CAIT activation as CAIT was not fully installed on all PC sectors. A unit instruction and unit specific recommendations were issued as a result.
201101429	12/02/2011	EGTT : London (FIR)	Southampton (SAM)	SW	D	CTR	JABIRU	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a Jabirusquawking 3675 at 1600ft. Standard separation maintained.	The Jabiru was identified following a blind call and informed that he had clipped the corner of the Southampton control zone. The pilot later called the Tower and said that he had been using his GPS and did not believe he had infringed.
201101430	12/02/2011	EGTT : London (FIR)	White Waltham	2 NE	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA32 squawking 0432 at 2300ft. Standard separation maintained. Investigation under 201003610.	Farnborough LARS were working the a/c. The pilot had beenasked to report starting descent to remain below the London TMA and the a/c was observed descending to 2400ft. A few minutes later Thames called pointing out the infringer, tracking NE. Farnborough LARS instructed the pilot to turnleft, immediately taking him by the shortest route possible out of CAS. Once clear the pilot was told to RONA V and remain outside CAS.
201101510	14/02/2011	EGTT : London (FIR)	Birmingham	8 W	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by an R44 squawking 7000 at 1700ft. Standard separation maintained.	The infringer was detected heading towards the 1500ft stub. Strong westerly winds were in force. Several blind calls were made but no response obtained. The contact made a left turn away right on the boundary of CAS, then turned again to the right which resulted in the a/c infringing the 1500ft stub and CTR. The a/c turned westbound again and after descending to 1300ft tracked to Wolverhampton. The pilot was contacted on landing and apologised. He believed that he had remained away and underneath the airspace. The pilot was reminded of the safety implications and of the benefits of using a 0010 code.

201101557	14/02/2011	EGTT : London (FIR)	Birmingham	8 N	D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C152 squawking 7000 at 1700ft. Standard separation maintained.	A 'check all' was placed on departures and blind transmissions made. The infringer's identity was confirmed by Leicester, after it squawked 0401. No a/c were delayed.
201101577	16/02/2011	EGTT : London (FIR)	Ware		Other	Other	PIPER	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a PA38 squawking 7000. Standard separation maintained.	The a/c involved is believed to be a PA38. The unit investigation revealed that the pilot stated that Mode C was selected and that he was fully aware of the TMZ procedures. However, the pilot offered to undertake a transponder check on the outbound flight with Essex Radar. This was carried out and Mode C was shown to be serviceable.
201101577	16/02/2011	EGTT : London (FIR)	Ware		Other	Other	UNKNOWN	Unknown		Infringement of the Stansted TMZ 2 (Class G) by a PA38 squawking 7000. Standard separation maintained.	The a/c involved is believed to be a PA38. The unit investigation revealed that the pilot stated that Mode C was selected and that he was fully aware of the TMZ procedures. However, the pilot offered to undertake a transponder check on the outbound flight with Essex Radar. This was carried out and Mode C was shown to be serviceable.
201101592	16/02/2011	EGTT : London (FIR)	Fairoaks	1 SW	A		CIRRUS	Reciprocating	1	Infringement of CAS-T (Class A) by an SR22 out of Fairoaks. Standard separation maintained.	Fairoaks FISO unaware of CAS-T. Investigation highlightedseveral causal factors, including an inadequate handover (outgoing controller failed to brief the upcoming CAS-T) and the pilot's failure to observe the CAS-T notification. <input type="checkbox"/> <input type="checkbox"/> CAA Closure: Following this incident, the unit has ensured that FISOs are reminded of the importance of adequate handovers and self-briefings.
201101831	24/02/2011	EGTT : London (FIR)	Leeds Bradford (LBA)	20 S	A		DIAMOND	Reciprocating	1	Infringement of Airway L975 (Class A) by a DA40 on a 7000squawk at 5000ft, 20nm South of Leeds Bradford tracking Northbound. A/c instructed to descend to 3400ft to clear CAS.	Standard separation maintained.

201101910	26/02/2011	EGTT : London (FIR)	Chiltern (CHT)	2 W	A	CTR	CIRRUS	Reciprocating	1	Infringement of the London CTR (Class A) by a SR20 squawking 5030 at 1800ft. CAIT activated. Mode S confirmed callsign. Traffic info given. Standard separation maintained.	The pilot has been contacted and appropriate action taken.
201101982	27/02/2011	EGTT : London (FIR)	Stansted	11 SW	Other	Other	SOCATA	Reciprocating	1	Infringement of the Stansted TMZ (Class G) by a TB20 squawking 7000 with no Mode C. Mode S confirmed call sign. Standard separation maintained.	The unit investigation revealed that the pilot stated that the a/c was never above 1200ft (thus no CAS infringement) and that he was fully aware of the TMZ requirements. He maintained that Mode C had been selected for the duration of the flight. However, the pilot has agreed to a transponder check from ATC on his next flight to Exeter.
201102067	01/03/2011	EGTT : London (FIR)	Northwich		D	CTR	OTHER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a Microlight squawking 7000 at 2000ft. Standard separation maintained.	Following a broadcast for any a/c in the Northwich area to identify itself, the a/c called and informed ATC that the pilot was a student. He was asked to squawk 7353 to positively identify the a/c. The pilot was given position information and position of Manchester Barton. Zone clearance was also given as he had drifted East. Manchester Barton were contacted to instruct the pilot to contact Manchester after landing. The a/c was retained on frequency until visual with Manchester Barton.
201102178	05/03/2011	EGTT : London (FIR)	Southampton Water		D	CTR	AGUSTA	Turboshaft	2	Infringement of the Southampton CTR (Class D) by an Agusta 109 squawking 7377 at 800ft. Traffic info given. Separation lost.	Pilot navigational error. Pilot was using GPS as sole means of navigation and, when signal was temporarily lost, became distracted.☐ CAA Closure: Pilot arranged remedial training in June 2011. Additionally, he has been made aware of the serious nature of the infringement and sent study aids covering VFR navigation.
201102178	05/03/2011	EGTT : London (FIR)	Southampton Water		D	CTR	SUPERMARINE	Reciprocating	1	Infringement of the Southampton CTR (Class D) by an Agusta 109 squawking 7377 at 800ft. Traffic info given. Separation lost.	Pilot navigational error. Pilot was using GPS as sole means of navigation and, when signal was temporarily lost, became distracted.☐ CAA Closure: Pilot arranged remedial training in June 2011. Additionally, he has been made aware of the serious nature of the infringement and sent study aids covering VFR navigation.

201102187	06/03/2011	EGTT : London (FIR)	White Waltham	4 NW	A	TMA	OTHER	Reciprocating	1	Infringement of the London TMA (Class A) by a DV20 squawking 7000 indicating 3000ft. Standard separation maintained.	Soon after the infringement the squawk changed to 5031. Heathrow SVFR contacted Farnborough LARS North and obtained the a/c details and confirmed that the Mode A+C had been validated and verified. The pilot reports that he is inexperienced and became distracted resulting in climbing too early and into the LTMA.
201102308	08/03/2011	EGTT : London (FIR)	Southampton (SAM)	7 SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a PA28 squawking 7377 at 1700ft. Standard separation maintained.	Bournemouth confirmed that the a/c had been instructed to remain outside of controlled airspace and contact Solent. The infringer subsequently called, was identified and instructed to leave CAS.
201102309	08/03/2011	EGTT : London (FIR)	Birmingham	N	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 squawking 7000 indicating 3100ft. Standard separation maintained.	The pilot believed that he had set CPT rather than DTY. Realising he was off track, he then reset to DTY but had not realised that he was within the Birmingham CTA. The pilot, although aware of 0010, had not used it and, due to distraction, had not checked in with Birmingham. He acknowledged that an early call to ATC would have helped and resolved the issue. Radar had stopped all departures from R/W33 as these would have resulted in a loss of separation against the infringement whilst it remained unknown.
201102436	12/03/2011	EGTT : London (FIR)	Luton (LUT)	8-10 E	A	TMA	GRUMMAN	Reciprocating	1	As A319 being vectored onto final approach to R/W26 approached the centreline, an AA5 infringed the London TMA (Class A) and the Luton CTR (Class D). STCA activated.	Traffic info and avoiding action given to the A319. AA5 headed West towards airfield, then Northwest to head North of Luton, a check all was put on. Tower reported seeing the a/c.☐ CAA Closure: Unable to identify the pilot involved, so no further investigation possible.
201102436	12/03/2011	EGTT : London (FIR)	Luton (LUT)	8-10 E	A	TMA	AIRBUS	Turbofan	2	As A319 being vectored onto final approach to R/W26 approached the centreline, an AA5 infringed the London TMA (Class A) and the Luton CTR (Class D). STCA activated.	Traffic info and avoiding action given to the A319. AA5 headed West towards airfield, then Northwest to head North of Luton, a check all was put on. Tower reported seeing the a/c.☐ CAA Closure: Unable to identify the pilot involved, so no further investigation possible.

201102506	13/03/2011	EGTT : London (FIR)	Cardiff	2E J36 M4	D	CTA	BEAGLE	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by a Beagle 121at 2700ft.	A/c departed on a published VFR St Hilary departure with altitude restriction of 1500ft observed with Mode C indicating 1600ft. Pilot was reminded of the altitude restriction and QNH reconfirmed. A/c was later observed Mode C indicating 2700ft within CAS. Pilot informed of safety implications before continuing his local flight to the West.
201102518	14/03/2011	EGTT : London (FIR)	London-Heathrow - LHR	11 W	A	CTR	EXTRA	Reciprocating	1	Infringement of the London CTR (Class A) by an EA300 at 2800ft. Separation lost. Traffic info and avoiding action given. TCAS, STCA alert and CAIT activated.	Appropriate CAA action has been taken as a result of thisincident.
201102518	14/03/2011	EGTT : London (FIR)	London-Heathrow - LHR	11 W	A	CTR	AIRBUS	Turbofan	2	Infringement of the London CTR (Class A) by an EA300 at 2800ft. Separation lost. Traffic info and avoiding action given. TCAS, STCA alert and CAIT activated.	Appropriate CAA action has been taken as a result of thisincident.
201102671	04/03/2011	EGTT : London (FIR)	Stansted	8 S	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C150 squawking 7000 at 1700ft. CAIT activated. Standard separation maintained.	A/c identified by Mode S and with the assistance of Stansted FIN.
201102671	04/03/2011	EGTT : London (FIR)	Stansted	8 S	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a C150 squawking 7000 at 1700ft. CAIT activated. Standard separation maintained.	A/c identified by Mode S and with the assistance of Stansted FIN.

201102675	04/03/2011	EGTT : London (FIR)	Barkway (BKY)	1 NNE	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28R squawking 7000 at 3000ft. Traffic info given. Standard separation maintained.	
201102677	17/03/2011	EGTT : London (FIR)	Hendon		A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C152 at 5000ft. CAIT activated. Standard separation maintained.	The pilot reports that he climbed above a layer of haze to carry out a spinning exercise. During the climb he lost sight of the primary ground reference (Aylesbury) due to the poor slant visibility and sunlight reflecting off the layer. The pilot will in future, when operating close to CAS, ensure that he obtains a Basic Service from Farnboroughand either maintain visual contact with a ground feature at all times or ensure suitable navigation aids are available.
201102734	18/03/2011	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	CESSNA	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by a C150 squawking 7000 at 2300ft. Traffic info and avoiding action given. Standard separation maintained.	
201102734	18/03/2011	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	BEECH	Turbofan	2	Infringement of the Biggin Hill ATZ (Class G) by a C150 squawking 7000 at 2300ft. Traffic info and avoiding action given. Standard separation maintained.	
201102738	19/03/2011	EGTT : London (FIR)	Manchester (MCT)	5 NNW	D	CTR	GROB	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a Grob115. Standard separation maintained.	Barton had confirmed that this was a student pilot. The pilot had earlier requested navigational assistance from Manchester Approach. It was also reported that prior to thishe had also infringed the Liverpool CTR (Class D).

201102741	19/03/2011	EGTT : London (FIR)	Stansted	4-5 SE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C150 squawking 7010. Separation lost with B737 inbound to Stansted.	ATC have contacted the pilot concerned who was unsure of his position. Pilot states that insufficient nav aid checks and a subsequent mis-identification of ground features led to the infringement. Pilot also acknowledges that he should have contacted Farnborough LARS North in order to verify his position. Pilot intends to undertake further navigational training and to invest in additional nav aid equipment.
201102741	19/03/2011	EGTT : London (FIR)	Stansted	4-5 SE	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a C150 squawking 7010. Separation lost with a B737 inbound to Stansted.	ATC have contacted the pilot concerned who was unsure of his position. Pilot states that insufficient nav aid checks and a subsequent mis-identification of ground features led to the infringement. Pilot also acknowledges that he should have contacted Farnborough LARS North in order to verify his position. Pilot intends to undertake further navigational training and to invest in additional nav aid equipment.
201102782	21/03/2011	EGTT : London (FIR)	Lingfield		D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a C172 squawking 3767 at 1500ft. Traffic info and avoiding action given. Separation lost against an EMB190 and an A319.	CAA Closure: Unable to identify the pilot involved, so no further investigation possible.
201102782	21/03/2011	EGTT : London (FIR)	Lingfield		D	CTR	EMBRAER	Turbofan	2	Infringement of the Gatwick CTR (Class D) by a C172 squawking 3767 at 1500ft. Traffic info and avoiding action given. Separation lost against an EMB190 and an A319.	CAA Closure: Unable to identify the pilot involved, so no further investigation possible.
201102867	11/02/2011	EGTT : London (FIR)	Syerston		G	ATZ	PITTS	Reciprocating	1	Infringement of the Syerston ATZ (Class G) by a Pitts S2Aat 800ft. Standard separation maintained.	The pilot had been in contact with RAF Cottesmore and identity confirmed. The pilot subsequently contacted Syerstonto advise that he thought it was a gliding site and inactive.

201102882	21/03/2011	EGTT : London (FIR)	Middle Wallop		G	ATZ	PIPER	Reciprocating	1	Infringement of the Middle Wallop ATZ (Class G) by a PA28at 1200ft. Thick mist at 1200ft reported. Pilot apologised for his mistake.	
201102914	22/03/2011	EGTT : London (FIR)	Liverpool	7.N	D	CTR	OTHER	Reciprocating	1	Infringement of the Liverpool and Manchester CTRs (Class D) by an unknown Microlight at 1000ft. Traffic info and avoiding action given. Standard separation maintained.	
201102941	23/03/2011	EGTT : London (FIR)	London-Heathrow - LHR	10 W	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by unknown traffic squawking 7000 at 3000ft resulting in a loss of separation against two Heathrow inbound. A/c subsequently identified as a PA28.	Traffic info given to inbound traffic. Due to exceptionalVMC, all affected inbound traffic declared visual with the infringing a/c and elected to continue and to maintain visual separation. Appropriate CAA action is being taken asa result of this incident.
201102941	23/03/2011	EGTT : London (FIR)	London-Heathrow - LHR	10 W	A	TMA	AIRBUS	Turbofan	2	Infringement of the LTMA (Class A) by unknown traffic squawking 7000 at 3000ft resulting in a loss of separation against two Heathrow inbound. A/c subsequently identified as a PA28.	Traffic info given to inbound traffic. Due to exceptionalVMC, all affected inbound traffic declared visual with the infringing a/c and elected to continue and to maintain visual separation. Appropriate CAA action is being taken asa result of this incident.
201102946	23/03/2011	EGTT : London (FIR)	London (LON)		A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28 at 1700ft. London Heathrow northbound and Northolt departures stopped.	Appropriate CAA action is being taken as a result of thisincident.

201102981	23/03/2011	EGTT : London (FIR)	White Waltham	5 S	A	CTR	SOCATA	Reciprocating	1	Infringement of the London CTR (Class A) by a TB10 squawking 7000 with Mode C showing 1700ft. CAIT activated. Standard separation maintained. Two inbound services to Heathrow affected.	The pilot is to be alerted to this incident.
201102993	24/03/2011	EGTT : London (FIR)	HEN		A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA28 squawking 5032 with unverified readout of up to 3800ft. Separation lost against a GL5 on a CPT SID at FL70. Avoiding action given.	CAA Closure: Due to the time elapsed since this incident no further investigation deemed possible.
201102993	24/03/2011	EGTT : London (FIR)	HEN		A	TMA	GULFSTREAM	Turbofan	2	Infringement of the London TMA (Class A) by a PA28 squawking 5032 with unverified readout of up to 3800ft. Separation lost against a GL5 on a CPT SID at FL70. Avoiding action given.	CAA Closure: Due to the time elapsed since this incident no further investigation deemed possible.
201103040	24/03/2011	EGTT : London (FIR)	Nottingham East Midlands	12 SE	D	CTA	CIRRUS	Reciprocating	1	Infringement of the East Midlands CTA (Class D) by a SR22squawking 7000 with Mode C indicating 4100ft descending. Standard separation maintained.	The pilot called Approach stating that he was at 3800ft descending to pass beneath controlled airspace. The pilot explained that he had been speaking with Farnborough LARS and had requested to change frequency but had been instructed to remain with them. He was informed of the infringement and that he should have remained outside controlled airspace until a positive clearance had been received.
201103044	24/03/2011	EGTT : London (FIR)	Durham Tees Valley (TD)	5 SE	D	CTR	OTHER	Reciprocating	1	Infringement of the Durham Tees Valley CTR (Class D) by aMicrolight at 2500ft. Standard separation maintained.	

201103048	26/03/2011	EGTT : London (FIR)	White Waltham	2 SSE	A	CTR	BELL	Turboshaft	1	Infringement of the London CTR (Class A) by a Bell 206 squawking 7000 with Mode C of 700ft. Standard separation maintained.	
201103049	26/03/2011	EGTT : London (FIR)	Stansted	4 SE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C150 squawking 7010 at 1200ft. Avoiding action given. Standard separation maintained. Stansted departures stopped for 7mins.	Inbound a/c delayed. A/c identified by Mode S. Appropriate CAA action is being taken as a result of this incident.
201103050	27/03/2011	EGTT : London (FIR)	London-Heathrow - LHR	15 W	A	TMA	BEECH	Reciprocating	1	Infringement of the London TMA (Class A) by a BE33 squawking 7000 at 3000ft resulting in a loss of separation against a Heathrow inbound.	CAA Closure: No further CAA action considered practical due to the elapsed time involved.
201103050	27/03/2011	EGTT : London (FIR)	London-Heathrow - LHR	15 W	A	TMA	UNKNOWN	Unknown		Infringement of the London TMA (Class A) by a BE33 squawking 7000 at 3000ft resulting in a loss of separation against a Heathrow inbound.	CAA Closure: No further CAA action considered practical due to the elapsed time involved.
201103136	25/03/2011	EGTT : London (FIR)	Duxford		G	ATZ	GROB	Reciprocating	1	Infringement of the Duxford ATZ (Class G) by a Grob 115. Grob 115 continued in the circuit and landed without clearance whilst runway occupied with a previous lander at the end of its landing roll.	Traffic info given. Grob 115, a solo student training flight, was initially viewed at mid point downwind and did not call Duxford FIS. Despite a continuous red light and calls stating runway occupied, the a/c continued to land. Previous lander, a Dragon Rapide, vacated the runway to the Southern Grass. Pilot subsequently reported that he had unknowingly mis-selected the AFIS frequency by one digit. Thepilot believed he was making blind calls when joining downwind and on finals, stating that he was visual with the a/c in front. Pilot error acknowledged and the matter was discussed with Duxford ATC.

201103136	25/03/2011	EGTT : London (FIR)	Duxford		G	ATZ	DE HAVILLAND	Reciprocating	2	Infringement of the Duxford ATZ (Class G) by a Grob 115. Grob 115 continued in the circuit and landed without clearance whilst runway occupied with a previous lander at the end of its landing roll.	Traffic info given. Grob 115, a solo student training flight, was initially viewed at mid point downwind and did not call Duxford FIS. Despite a continuous red light and calls stating runway occupied, the a/c continued to land. Previous lander, a Dragon Rapide, vacated the runway to the Southern Grass. Pilot subsequently reported that he had unknowingly mis-selected the AFIS frequency by one digit. Thepilot believed he was making blind calls when joining downwind and on finals, stating that he was visual with the a/c in front. Pilot error acknowledged and the matter was discussed with Duxford ATC.
201103137	26/03/2011	EGTT : London (FIR)	Thrupton		G	ATZ	JODEL	Reciprocating	1	Infringement of the Thrupton ATZ (Class G) by a DR1050 atapproximately 1000ft. No RT contact.	
201103221	22/03/2011	EGTT : London (FIR)	Liverpool		D	CTR	OTHER	Reciprocating	1	Infringement of the Liverpool CTR (Class D) by a Microlight squawking 7000 at 1700ft. Standard separation maintained.	See Investigation 201103222.
201103222	24/03/2011	EGTT : London (FIR)	Doncaster Sheffield	8 SW	A	CTA	OTHER	Reciprocating	1	Infringement of the Doncaster CTA (Class D) by a Microlight at 3000ft. Traffic info and avoiding action given. Separation lost. TCAS activated.	CAA Closure: A/c traced by Waddington who advised the pilot of his error and requested he telephone Doncaster Radar. No record of the requested telephone call being received.
201103222	24/03/2011	EGTT : London (FIR)	Doncaster Sheffield	8 SW	A	CTA	BOEING	Turbofan	2	Infringement of the Doncaster CTA (Class D) by a Microlight at 3000ft. Traffic info and avoiding action given. Separation lost. TCAS activated.	CAA Closure: A/c traced by Waddington who advised the pilot of his error and requested he telephone Doncaster Radar. No record of the requested telephone call being received.

201103223	28/03/2011	EGTT : London (FIR)	Liverpool	5 SE	D	CTR	PIPER	Reciprocating	1	Infringement of the Liverpool CTR (Class D) by a PA28 squawking 7000 at 1200ft. Traffic info given. Standard separation maintained.	When pilot was initially alerted to the infringement he stated that he was not in CAS and he was in the low level corridor. The a/c was subsequently advised that it was leaving CAS at Oulton Park and was given a Basic Service. The pilot then stated that he was aware of his position and apologised, saying that his GPS may have been inaccurate.
201103277	01/04/2011	EGTT : London (FIR)	Bournemouth	9.5 N	G		GROB	Reciprocating	1	UK AIRPROX 2011/027 - Two G115s North of Bournemouth at 4500ft. One of the G115's subsequently infringed the Bournemouth CTA (Class D).	G115(1) cruising at 4500ft observed conflicting G115(2) above late, which necessitated avoiding action. This resulted in G115(1) infringing the Bournemouth CTA (Class D). Aninbound B737 was given traffic info and avoiding action. G115(2) keeping a listening watch became aware of G115(1) and obtained it visually, but later than pilot would have preferred. G115(2) also took avoiding action.
201103277	01/04/2011	EGTT : London (FIR)	Bournemouth	9.5 N	G		GROB	Reciprocating	1	UK AIRPROX 2011/027 - Two G115s North of Bournemouth at 4500ft. One of the G115's subsequently infringed the Bournemouth CTA (Class D).	G115(1) cruising at 4500ft observed conflicting G115(2) above late, which necessitated avoiding action. This resulted in G115(1) infringing the Bournemouth CTA (Class D). Aninbound B737 was given traffic info and avoiding action. G115(2) keeping a listening watch became aware of G115(1) and obtained it visually, but later than pilot would have preferred. G115(2) also took avoiding action.
201103303	01/04/2011	EGTT : London (FIR)	Denham	4 W	A	CTR	ROBINSON	Reciprocating	1	Infringement of the London CTR (Class A) by an R44 at 1500ft. CAIT activated. Heathrow Northbound departures stopped for approx 5mins. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
201103332	28/03/2011	EGTT : London (FIR)	Coventry	5 SW	D	CTR	SCOTTISH AVIATION	Reciprocating	1	Infringement of the Birmingham (CTR) Class D by a Bulldogsquawking 7000 at 2000ft. Traffic info and avoiding action given. Standard separation maintained.	

201103471	06/04/2011	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	GROB	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by a Grob 109 squawking 7000 at 2200ft. Traffic info given. Standard separation maintained. Outbound traffic delayed.	
201103494	06/04/2011	EGTT : London (FIR)	Stansted	12 ENE	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a DR400 squawking 0013 at 1900ft. Traffic and avoiding action given. Disruption to inbound traffic.	The unit investigation has revealed that the a/c's transponder was transmitting an incorrect hex code. The pilot has confirmed that this will be rectified when the 50 hour check is carried out. In addition, the pilots have identified three factors which they believe contributed to the incident. The importance of nominating a P1 when two equally qualified pilots share a flight, to ensure complete clarity. Secondly, they had previously been transiting the Stansted CTA at 2000-3000ft and lastly, there was some confusion between the marking of the TMZ SFC-1500ft and the Stansted CTA 1500-3500ft.
201103494	06/04/2011	EGTT : London (FIR)	Stansted	12 ENE	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a DR400 squawking 0013 at 1900ft. Traffic and avoiding action given. Disruption to inbound traffic.	The unit investigation has revealed that the a/c's transponder was transmitting an incorrect hex code. The pilot has confirmed that this will be rectified when the 50 hour check is carried out. In addition, the pilots have identified three factors which they believe contributed to the incident. The importance of nominating a P1 when two equally qualified pilots share a flight, to ensure complete clarity. Secondly, they had previously been transiting the Stansted CTA at 2000-3000ft and lastly, there was some confusion between the marking of the TMZ SFC-1500ft and the Stansted CTA 1500-3500ft.
201103506	04/04/2011	EGTT : London (FIR)	White Waltham	2.5 SE	A	CTR	HUGHES	Turboshaft	1	Infringement of the London CTR (Class A) by an Hu500 squawking 7000 at approximately 1000ft. Heathrow Southbound departures halted for 4mins.	Standard separation maintained. Pilot informed and requested to telephone after landing. ☐ CAA Closure: No response received from Hu500 owner. Closed due to elapsed time.
201103539	05/04/2011	EGTT : London (FIR)	Middle Wallop	S	G	ATZ	AEROSPATIALE	Turboshaft	1	Infringement of the Middle Wallop ATZ (Class G) by a Squirrel squawking 7000 indicating 300ft on the VRD. Standard separation maintained.	

201103577	08/04/2011	EGTT : London (FIR)	Leeds Bradford (LBA)	11 SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Leeds CTA (Class D) by a PA28 squawking 7000 at 2900ft. Traffic info given. Standard separationmaintained.	A/c identity confirmed by Warton following a 3641 squawk.
201103594	08/04/2011	EGTT : London (FIR)	Southampton (SAM)	10 N	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 2400ft, 10nm North of Southampton. Traffic info and avoiding action given to an outbound DHC8. Standard separation maintained.	CAA Closure: Due to the time elapsed since this incident no further investigation is deemed practical.
201103610	07/04/2011	EGTT : London (FIR)	Great Dunmow		A	CTA	DIAMOND	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a DA20 at 600ft. Traffic info given. CAIT activated. Stansted departures halted. Standard separation maintained.	The a/c was seen to turn towards Andrewsfield. They were contacted and confirmed that they were working the a/c andthe a/c was instructed to squawk ident. Once the a/c was seen to be clear and heading away, Stansted departures were resumed. The pilot accepts responsibility for this incident and states that the infringement was caused by mistaking Great Dunmow for Braintree.
201103611	08/04/2011	EGTT : London (FIR)	North Weald	2 NW	G	Restrictedd area	BELL	Turboshaft	1	Infringement of the Stansted TMZ 2 (Class G) by a Bell 206 initially non squawking and subsequently briefly squawking 5037. Standard separation maintained.	TC spoke with Farnborough LARS who advised that the pilotreported having transponder issues.
201103613	08/04/2011	EGTT : London (FIR)	Southampton (SAM)	10 N	D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a C172 squawking 0432 at 3400ft. Standard separation maintained.	

201103614	09/04/2011	EGTT : London (FIR)	Luton (LUT)	4 S	D	CTR	DE HAVILLAND	Reciprocating	1	Infringement of the Luton CTR (Class D) by a DHC1 squawking 4671. Standard separation maintained. Pilot apologised.	
201103615	09/04/2011	EGTT : London (FIR)	Stansted		G		AQUILA	Reciprocating	1	Infringement of the Stansted TMZ2 (Class G) by an Aquila AT01 a/c squawking 7000. Traffic info and avoiding action given.	Pilot believed that he had Mode C selected. The pilot hassubsequently advised that the transponder is to undergo an engineering test to check its functionality.
201103615	09/04/2011	EGTT : London (FIR)	Stansted		G		AIRBUS	Turbofan	2	Infringement of the Stansted TMZ2 (Class G) by an Aquila AT01 a/c squawking 7000. Traffic info and avoiding action given.	Pilot believed that he had Mode C selected. The pilot hassubsequently advised that the transponder is to undergo an engineering test to check its functionality.
201103617	09/04/2011	EGTT : London (FIR)	Lymington		D	CTA	GROB	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Grob G109 squawking 7000 at 2500ft twice in just over 1hr. Standard separation maintained.	Following a discussion with ATC, it transpired that the pilot had misread the map and thought the base of CAS was 3500ftat his location. Pilot apologised after realising himistake. Investigation under 201010459.
201103623	09/04/2011	EGTT : London (FIR)	Manchester Barton A/F	2 NNE	D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester and Doncaster Sheffield CTRs (Class D) by a PA28 squawking 7000 with Mode C ranging between 2500 - 3000ft. CAIT activated.	Manchester ATC telephoned Barton ATC who confirmed that they were in contact with the a/c. The a/c's level was requested and given as 2500ft. A/c was then transferred to Manchester and pilot apologised. A/c subsequently infringed the Doncaster Sheffield CTR. Standard separation maintained.

201103625	09/04/2011	EGTT : London (FIR)	Leeds Bradford (LBA)	15 S	D	CTA	VANS	Reciprocating	1	Infringement of the Leeds Bradford CTA (Class D) by an RV7 squawking 7000 at 4300ft. Two blind calls were made but no response. Standard separation maintained.	
201103627	08/04/2011	EGTT : London (FIR)	Birmingham	10 S	D	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a PA15 squawking 0010 at 2200ft. Standard separation maintained.	Pilot apologised and explained that he was trying to avoid Wellesbourne. Pilot was given a zone clearance from thatpoint and asked to contact ATC on landing which he did.
201103628	10/04/2011	EGTT : London (FIR)	Southampton (SAM)	E	D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a C172 squawking 7000 at 2900ft. Standard separation maintained.	Pilot later apologised. The radar ATSA explained the use of the 0011 squawk, as the pilot had heard blind calls being made but was unsure how to respond.
201103630	09/04/2011	EGTT : London (FIR)	Calshot		D	CTR	PIPER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a PA38 squawking 7000 at 1800ft. Traffic info given. Standard separation maintained.	Solent had called Bournemouth asking if they were workingthe a/c and confirmed negative as the location did not fit in with any transit traffic being worked at the time. But then, following handover, the outgoing controller said that it might be a PA38 en route. Blind calls were made. The pilot replied on second transmission and was requested to squawk ident. The PA38 was then told to contact Solent Radar and the a/c transferred to them.
201103630	09/04/2011	EGTT : London (FIR)	Calshot		D	CTR	LEARJET	Turbofan	2	Infringement of the Southampton CTR (Class D) by a PA38 squawking 7000 at 1800ft. Traffic info given. Standard separation maintained.	Solent had called Bournemouth asking if they were workingthe a/c and confirmed negative as the location did not fit in with any transit traffic being worked at the time. But then, following handover, the outgoing controller said that it might be a PA38 en route. Blind calls were made. The pilot replied on second transmission and was requested to squawk ident. The PA38 was then told to contact Solent Radar and the a/c transferred to them.

201103632	08/04/2011	EGTT : London (FIR)	Southampton (SAM)	4 SW	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a R44 squawking 3660 at 1500ft. Traffic info given. Standard separation maintained.	The a/c had called up requesting transit via Totton. ATC issued a 3660 squawk and pilot was informed that he was already inside CAS and given clearance to route South of the airfield. However, the pilot was observed tracking North Easterly and after several attempts the controller managed to get the pilot to alter course. Later, several attempts were made to pass traffic to the R44 without success.
201103663	09/04/2011	EGTT : London (FIR)	Cardiff (CDF)		D	CTR	PIPER	Reciprocating	1	Infringement of the Cardiff CTR (Class D) by a PA28 squawking 7000 at 2600ft. Traffic info given. Disruption to inbound traffic. Standard separation maintained.	Swansea ATC subsequently rang Cardiff to report a lost a/c which eventually landed at Cardiff. It is believed that the pilot misidentified Cardiff Airport for Swansea Airport following a navigational error.
201103673	09/04/2011	EGTT : London (FIR)	Stansted	E	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA32 at 2400ft. Standard separation maintained.	
201103717	09/04/2011	EGTT : London (FIR)	53 10 31N/003 12 28W		A		PIPER	Reciprocating	1	Infringement of Airway N864 airspace by a PA28R squawking 7000 indicating 3100ft climbing to 4500ft. Mode S interrogated and a/c identified. Standard separation maintained.	
201103726	10/04/2011	EGTT : London (FIR)	EGKA (ESH): Shoreham		G	ATZ	EXTRA	Reciprocating	1	A/c allegedly undertook aerobatics over a built up area and infringed airport ATZ, although the pilot reportedly claimed to be outside of the ATZ.	CAA Closure: No further action possible due to elapsed time.

201103732	10/04/2011	EGTT : London (FIR)	Nottingham East Midlands	8 WSW	D	CTA	PIPER	Reciprocating	1	Infringement of the East Midlands CTA (Class D) by a PA28squawking 7000 at 2300ft. Standard separation maintained.Outbound departure delayed.	Pilot was advised of his position and commenced descent to be below CAS.
201103792	12/04/2011	EGTT : London (FIR)	Coventry		D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a Robin 200 squawking 7000 at 3000ft. Traffic info given. Standard separation maintained.	The pilot failed to appreciate that in passing over Leamington Spa he had strayed into the lower section of Birmingham CAS.
201103792	12/04/2011	EGTT : London (FIR)	Coventry		D	CTA	UNKNOWN	Unknown		Infringement of the Birmingham CTA (Class D) by a Robin 200 squawking 7000 at 3000ft. Traffic info given. Standard separation maintained.	The pilot failed to appreciate that in passing over Leamington Spa he had strayed into the lower section of Birmingham CAS.
201103831	13/04/2011	EGTT : London (FIR)	Farnborough	NW	A	Restrict ed area	FLY BUY ULTRALIGHTS	Reciprocating	1	Alleged infringement of CAS-T (Class A) by an Ikarus C42.	CAA Closure: Investigations determined that the a/c had been approved for a MATZ crossing nearby but not CAS-T. Dueto the elapsed time no further investigation is deemed possible.
201103856	14/04/2011	EGTT : London (FIR)	Stansted	8 N	G	Restrict ed area	STAMPE	Reciprocating	1	Infringement of the Stansted TMZ1 (Class G) by an SV4C. Commercial traffic delayed. Traffic info given. Standard separation maintained.	

201103856	14/04/2011	EGTT : London (FIR)	Stansted	8 N	G	Restrict ed area	BOEING	Turbofan	2	Infringement of the Stansted TMZ1 (Class G) by an SV4C. Commercial traffic delayed. Traffic info given. Standard separation maintained.	
201103898	15/04/2011	EGTT : London (FIR)	Southampton (SAM)	10 E	D	CTA	FLY BUY ULTRALIGHTS	Reciprocating	1	Infringement of the Solent CTA (Class D) by an Ikarus squawking 7000 climbing up to 4000ft. Standard separation maintained.	The pilot (student) telephoned later and apologised for his error, he believed he was further East than he was. Investigation under 201103831.
201103909	17/04/2011	EGTT : London (FIR)	Stansted		G	Restrict ed area	VANS	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a Vans RV7 squawking 7000 with Mode A only. Traffic info given. Disruption to commercial traffic.	Appropriate CAA action is being taken as a result of thisincident
201103909	17/04/2011	EGTT : London (FIR)	Stansted		G	Restrict ed area	BOEING	Turbofan	2	Infringement of the Stansted TMZ 2 (Class G) by a Vans RV7 squawking 7000 with Mode A only. Traffic info given. Disruption to commercial traffic.	Appropriate CAA action is being taken as a result of thisincident
201103912	17/04/2011	EGTT : London (FIR)	North Weald	4 NW	G	Restrict ed area	PIPER	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a PA28 squawking 7010, without Mode C. Traffic info and avoiding action given. Inbound commercial traffic delayed.	The pilot has subsequently discussed this incident with the ATC unit concerned.

201103912	17/04/2011	EGTT : London (FIR)	North Weald	4 NW	G	Restricted area	BOEING	Turbofan	2	Infringement of the Stansted TMZ 2 (Class G) by a PA28 squawking 7010, without Mode C. Traffic info and avoiding action given. Inbound commercial traffic delayed.	The pilot has subsequently discussed this incident with the ATC unit concerned.
201103913	16/04/2011	EGTT : London (FIR)	Stansted	8 NE	G	Restricted area	LUSCOMBE	Reciprocating	1	Infringement of the Stansted TMZ1 (Class G) by a Luscombe8A. Traffic info and avoiding action given to an inbound A319.	Primary only return.
201103913	16/04/2011	EGTT : London (FIR)	Stansted	8 NE	G	Restricted area	AIRBUS	Turbofan	2	Infringement of the Stansted TMZ1 (Class G) by a Luscombe8A. Traffic info and avoiding action given to an inbound A319.	Primary only return.
201103915	16/04/2011	EGTT : London (FIR)	Beaconsfield		A	TMA	FLIGHT DESIGN	Reciprocating	1	Infringement of the Heathrow CTR/LTMA (Class A) by a Microlight squawking 5031, Mode C indicating 2700ft.	CAA Closure: Comprehensive follow up action taken by reporting unit and pilot.
201103917	16/04/2011	EGTT : London (FIR)	Stansted	10 NE	G	Restricted area	PIPER	Reciprocating	1	Infringement of the Stansted TMZ 1 (Class G) by a PA28 squawking 7000, without Mode C. Traffic info and avoiding action given. Delaying vectors given to inbound traffic.	

201103917	16/04/2011	EGTT : London (FIR)	Stansted	10 NE	G	Restricted area	AIRBUS	Turbofan	2	Infringement of the Stansted TMZ 1 (Class G) by a PA28 squawking 7000, without Mode C. Traffic info and avoiding action given. Delaying vectors given to inbound traffic.	
201103918	16/04/2011	EGTT : London (FIR)	Stretton		D	CTR	FLIGHT DESIGN	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a Flight Design CTSW squawking 7000, without Mode C. Standard separation maintained.	Pilot apologised. He had been following the M6 and became confused with which motorway junction he was looking for.
201103919	17/04/2011	EGTT : London (FIR)	Redhill	5 NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a PA28 squawking 7000 at 1600ft climbing. CAIT activated. Separation lost against B737 on a SAM 3P departure.	CAA Closure: Comprehensive follow up action taken by reporting unit and pilot.
201103919	17/04/2011	EGTT : London (FIR)	Redhill	5 NE	D	CTR	BOEING	Turbofan	2	Infringement of the Gatwick CTA (Class D) by a PA28 squawking 7000 at 1600ft climbing. CAIT activated. Separation lost against B737 on a SAM 3P departure.	CAA Closure: Comprehensive follow up action taken by reporting unit and pilot.
201103920	17/04/2011	EGTT : London (FIR)	London-Gatwick - LGW	8 NE	A	TMA	BEECH	Reciprocating	1	Infringement of the LTMA (Class A) by a Beech 33 squawking 7047 at 2000ft. CAIT activated. Standard separation maintained.	Infringer identified by Mode S.

201103920	17/04/2011	EGTT : London (FIR)	London-Gatwick - LGW	8 NE	A	TMA	UNKNOWN	Unknown		Infringement of the LTMA (Class A) by a Beech 33 squawking 7047 at 2000ft. CAIT activated. Standard separation maintained.	Infringer identified by Mode S.
201103925	17/04/2011	EGTT : London (FIR)	London - Area		A	CTR	GRUMMAN	Reciprocating	1	Alleged infringement of the Luton, Stansted and London City CTRs (Class D) and the Heathrow CTR (Class A) by a Grumman AA5. Pilot subsequently called D&D reporting lost.	Standard separation maintained.☐ CAA Closure: Due to the elapsed time involved no further CAA action is considered feasible.
201103925	17/04/2011	EGTT : London (FIR)	London - Area		A	CTR	AIRBUS	Turbofan	4	Alleged infringement of the Luton, Stansted and London City CTRs (Class D) and the Heathrow CTR (Class A) by a Grumman AA5. Pilot subsequently called D&D reporting lost.	Standard separation maintained.☐ CAA Closure: Due to the elapsed time involved no further CAA action is considered feasible.
201103934	16/04/2011	EGTT : London (FIR)	Daventry (DTY)		A	CTA	CESSNA	Reciprocating	1	Infringement of the Daventry CTA (Class A) by a C152 squawking 1177 at 5000ft. Standard separation maintained.	The pilot had initially called London FISO and had reported 4000ft to 5000ft, routing Newmarket to JACKO. The controller aware of the base of CAS advised him to remain outside CAS and issued the local QNH. Upon infringing the zone,TC Midlands halted departures from Birmingham and East Midlands until the a/c had left controlled airspace. The pilot's subsequent report indicates that this infringement was caused by a critical pre-flight planning mistake.
201103940	17/04/2011	EGTT : London (FIR)	Harlow		G	Restricted area	AESL	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by an Airtourer squawking 0013 as Mode A,	The unit investigation has subsequently revealed that thepilot was advised on the RT regarding the absence of ModeC and responded that the transponder indications were that it was operating. Shortly after being given a discreet squawk by Essex Radar, Mode C did appear.

201103942	17/04/2011	EGTT : London (FIR)	Stansted		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 indicating 2000ft. Traffic info and avoiding action given. Commercial traffic delayed (check all imposed).	Pilot subsequently called Farnborough advising that he was lost. Squawk of 5030 was given to identify him. Pilot advised that he was at 2000ft with QNH 1023. A squawk was not observed, however, the controller gave the a/c tracks tofly to Panshanger based on the pilot reports and he shortly became visual with the airfield.□ CAA Closure: No further CAA action considered practical due to the elapsed timeinvolved.
201103943	17/04/2011	EGTT : London (FIR)	Birmingham	9 N	D	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR and CTA1 (Class D) by a C152 squawking 7000 at 3300ft. Traffic info and avoidingaction given. All departures were stopped and inbound traffic delayed.	Standard separation maintained. Student pilot.□ CAA Closure: The student pilot on solo cross country flight became disorientated. The root cause of the subsequent infringement was his failure to request assistance from London Centre. The student was debriefed by his FI who emphasised the need to ask for assistance when required.
201103944	17/04/2011	EGTT : London (FIR)	MONTY		A		MAULE	Reciprocating	1	Infringement of Airway (Class A) by a Maule M7 (believed)squawking 7000 at FL68, having previously been on A4601. CAIT activated. Standard separation maintained.	MACC contacted Hawarden who confirmed that the a/c had been in receipt of a Basic Service, and had been instructed to remain clear of CAS. The a/c was observed to track Eastbound and later re-entered CAS at FL88 and reached FL89. The a/c turned Mode C off in the Shawbury area and tracked in the direction of East Midlands.
201103945	17/04/2011	EGTT : London (FIR)	Isle Of Wight	N of the Needles	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 squawking 7000 indicating 2600ft. Standard separation maintained.	Bournemouth were contacted who confirmed the a/c was being provided with a Basic Service.
201103980	17/04/2011	EGTT : London (FIR)	Brize Norton	10 NW	G	Danger area	PIPER	Reciprocating	1	Infringement of the South Cerney Danger Area by a PA28 squawking 4520 at 3400ft. Standard separation maintained.	Brize Norton had been informed by RAF Lyneham that they had lost two-way contact with the a/c and several radio checks had been made, without a response.

201103981	17/04/2011	EGTT : London (FIR)	Brize Norton	4 NE	D	CTR	FUJI	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a an Fuji 200 squawking 1177, Mode C displaying 2400ft. Standard separation maintained.	London Flight Information were contacted who confirmed they were working the a/c in the Brize area. As the a/c was just about to leave the CTR and with no traffic to affect,the Brize controller was happy for the a/c to remain withLondon. They were requested to ask the pilot to contact Brize ATC on landing.
201103984	18/04/2011	EGTT : London (FIR)	London-Heathrow - LHR	17 W	A	TMA	CHRISTEN	Reciprocating	1	Christen Eagle carrying out aerobatic manoeuvres, indicated 2900ft and infringed the LTMA (Class A). Base of CAS inarea 2500ft.	
201103999	18/04/2011	EGTT : London (FIR)	Southampton (SAM)	11 S	D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a C172 squawking 4531at 2400ft. Traffic info given. Separation lost against inbound DHC8.	CAA Closure: Due to the time elapsed since this incident no further investigation is deemed practical.
201103999	18/04/2011	EGTT : London (FIR)	Southampton (SAM)	11 S	D	CTA	DE HAVILLAND	Turboprop	2	Infringement of the Solent CTA (Class D) by a C172 squawking 4531at 2400ft. Traffic info given. Separation lost against inbound DHC8.	CAA Closure: Due to the time elapsed since this incident no further investigation is deemed practical.
201104051	19/04/2011	EGTT : London (FIR)	Mayfield (MAY)	6 NW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a C172 squawking 7000 at 1300ft. Traffic info given. Standard separation maintained.	Gatwick Departures put on check all. The pilot has been contacted by ATC and the appropriate lessons appear to havebeen learnt.

201104061	19/04/2011	EGTT : London (FIR)	Southampton (SAM)	8 S	D	CTR	PIPER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a PA28 squawking 7000. Traffic info given. Standard separation maintained.	Contact was observed changing to a 0442 squawk and identity confirmed.
201104063	19/04/2011	EGTT : London (FIR)	Bovingdon (BNN)	8 W	A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA25 squawking 7000 at 5400ft. CAIT activated. Standard separation maintained.	The CFI at the club concerned has been fully debriefed over this incident by ATC staff.
201104105	20/04/2011	EGTT : London (FIR)	STAF A	10 NE	A	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Daventry CTA (Class A) by a DR400 squawking 7000, climbing to FL65, before descending back to 6000ft. CAIT activated. Standard separation maintained.	The squawk later converted to 4272 identifying that the a/c was being worked by Bristol Filton.
201104106	20/04/2011	EGTT : London (FIR)	London (LON)	17 W	A	TMA	MILES	Reciprocating	1	Infringement of the London TMA (Class A) by a Miles M38 at 2800ft. Traffic info given. Commercial traffic affected.	Believed that the a/c concerned was on an air test. The pilot has been contacted by ATC and he fully acknowledges that he may have climbed inadvertently in the LTMA. The a/cdoes however have a transponder that is over-reading by 300-400ft. The pilot has undertaken not to perform an air test in such close proximity to the Heathrow 09 approaches in future and will also ensure that the transponder issue is addressed.
201104172	23/04/2011	EGTT : London (FIR)	THRED	ESE	A		GRUMMAN	Reciprocating	1	Alleged infringement of Airway Q41 (Class A) by a GrummanAA5 at FL65. Standard separation maintained.	Pilot had called up for a Basic Service and reported transponder problems. Sometime later a primary contact was observed in Airway Q41 and ATC requested confirmation of his FL. Pilot confirmed FL65 and was identified using turn method. Solent informed of the infringement. Once clear of the Airway the a/c was given a VFR join at Bournemouth. Language difficulties were noted during the event. ☐ CAA Closure: Due to the time elapsed involved since this incident no further investigation is deemed possible.

201104173	23/04/2011	EGTT : London (FIR)	Wellesbourne Mountford	4 N	D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C152 squawking 7000 at 2500ft. Standard separation maintained.	The pilot has subsequently been contacted. He believed that he had remained outside controlled airspace and that hemust have mis-identified a ground feature.
201104201	22/04/2011	EGTT : London (FIR)	Luton (LUT)	10 NE	A	TMA	PIPER	Reciprocating	1	Infringement of the Luton CTA (Class D) by a PA28 squawking 5030 indicating 4000ft. Avoiding action given. Separation lost against inbound A320.	Luton departures were stopped whilst non standard vectoring carried out. During the event, Luton ATC were unable tocontact Farnborough due to the phone panel at Farnboroughnot responding. It later emerged that the Luton line had been deselected. PA28 pilot was under the impression that they were below the Luton CTA but then realised that the black line, which had been drawn onto the map to identify their track, had obscured the 3500 number on the chart which describes the North corner where the Luton CTA is 3500-4500ft. Therefore, he had only noticed the 4500ft. □ CAA Closure: Pilot intends to improve pre-flight planning as a result of this incident.
201104201	22/04/2011	EGTT : London (FIR)	Luton (LUT)	10 NE	A	TMA	AIRBUS	Turbofan	2	Infringement of the Luton CTA (Class D) by a PA28 squawking 5030 indicating 4000ft. Avoiding action given. Separation lost against inbound A320.	Luton departures were stopped whilst non standard vectoring carried out. During the event, Luton ATC were unable tocontact Farnborough due to the phone panel at Farnboroughnot responding. It later emerged that the Luton line had been deselected. PA28 pilot was under the impression that they were below the Luton CTA but then realised that the black line, which had been drawn onto the map to identify their track, had obscured the 3500 number on the chart which describes the North corner where the Luton CTA is 3500-4500ft. Therefore, he had only noticed the 4500ft. □ CAA Closure: Pilot intends to improve pre-flight planning as a result of this incident.
201104213	22/04/2011	EGTT : London (FIR)	Luton (LUT)	SE	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28. Standard separation maintained. Investigation under 201103942.	
201104222	24/04/2011	EGTT : London (FIR)	Southampton Area		A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) and Airway N514 (Class A) by a PA28 squawking 7000 climbing from FL55 through to FL70. Traffic info given.	TC South with assistance via CACC and Jersey ATC established the identity of the a/c which had flight planned and departed Jersey for Wellesbourne Mountford. ATC have discussed the incident with the pilot concerned who fully accepts his error. The pilot is to undertake five hours dual navigation training before he will fly solo again.

201104225	22/04/2011	EGTT : London (FIR)	Manchester (MCT)	6 S	D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a PA28 squawking 7350. Standard separation maintained.	The pilot had called and requested a clearance to up the LLR to Manchester Barton. He was given the standard LLR (low level route) clearance, the QNH and offered a Basic Service to report at the southern end of the LLR. The pilot reported at what was believed to be approaching Wilmslow, but nothing was observed on radar. He was asked to squawk 7350 to confirm his position. He was informed of his position and informed that he had infringed the Manchester zone.The pilot was instructed to fly a Westerly heading to thejoin the LLR.
201104230	22/04/2011	EGTT : London (FIR)	White Waltham	2.5 E	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28 squawking 7000. CAIT activated. Separation lost	CAA Closure: Due to the time elapsed since this incident no further investigation deemed possible.
201104230	22/04/2011	EGTT : London (FIR)	White Waltham	2.5 E	A	CTR	BOEING	Turbofan	4	Infringement of the London CTR (Class A) by a PA28 squawking 7000. CAIT activated. Separation lost	CAA Closure: Due to the time elapsed since this incident no further investigation deemed possible.
201104315	26/04/2011	EGTT : London (FIR)	London (LON)	10 W	A	CTR	CESSNA	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a C150 squawking 7000. No Mode S or Mode C information. Traffic and avoiding action given. Standard separation maintained.	Disruption to inbound traffic for 09L. The CFI at the club concerned has been alerted to this incident and is to debrief the pilot concerned, with the severity of the event to be highlighted.
201104315	26/04/2011	EGTT : London (FIR)	London (LON)	10 W	A	CTR	BOEING	Turbofan	2	Infringement of the Heathrow CTR (Class A) by a C150 squawking 7000. No Mode S or Mode C information. Traffic and avoiding action given. Standard separation maintained.	Disruption to inbound traffic for 09L. The CFI at the club concerned has been alerted to this incident and is to debrief the pilot concerned, with the severity of the event to be highlighted.

201104317	23/04/2011	EGTT : London (FIR)	Brize Norton	10 E	D	CTR	PIPER	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a PA28 squawking 7000, Mode C indicating 1500ft. Standard separation maintained.	After the event, the Brize controller spoke with an instructor who advised that the pilot was a new PPL holder unfamiliar with Oxford and the local airspace and had under estimated the rate of turn after departure to avoid the CTR.
201104420	28/04/2011	EGTT : London (FIR)	Detling (DET)	10 E	A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA28 squawking 0027 at FL60. CAIT activated. Standard separation maintained.	The pilot had previously descended to FL60 due to icing problems. The a/c had been instructed to remain outside CASby the LACC FIS Officer.
201104482	30/04/2011	EGTT : London (FIR)	London City - LCY	5 NE	D	CTA	MOONEY	Reciprocating	1	Infringement of the London City CTA (Class D) by an Mo20 squawking 7000 at 2000ft. Traffic info and avoiding actiongiven. Separation lost against outbound FK50.	Appropriate CAA action is being taken as a result of thisincident
201104482	30/04/2011	EGTT : London (FIR)	London City - LCY	5 NE	D	CTA	FOKKER	Turboprop	2	Infringement of the London City CTA (Class D) by an Mo20 squawking 7000 at 2000ft. Traffic info and avoiding actiongiven. Separation lost against outbound FK50.	Appropriate CAA action is being taken as a result of thisincident
201104492	30/04/2011	EGTT : London (FIR)	Mayfield (MAY)	SW	A	TMA	AVIONS ROBIN	Reciprocating	1	Infringement of the LTMA (Class A) by a DR400 squawking 5021 at 3000ft. Gatwick departures from R/W08R were halted for a couple of minutes. Standard separation maintained.	Farnborough had been working the a/c transiting to the South of the Gatwick Zone. ATC tried to raise the a/c on frequency to advise them of controlled airspace ahead. Several attempts were made but no response. Gatwick were informed of the situation. Departures were halted but restarted after the a/c turned South and away from Gatwick.

201104494	30/04/2011	EGTT : London (FIR)	Southampton (SAM)	13 NE	D	CTA	ROCKWELL	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Rockwell 114 at 2900ft squawking 3662. Pilot contacted ATC, as requested, after landing.	
201104496	01/05/2011	EGTT : London (FIR)	Brookmans Park (BPK)	4 E	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C172, identified by Mode S, squawking 7000 at 2400ft. Avoiding action given. Standard separation maintained.	
201104496	01/05/2011	EGTT : London (FIR)	Brookmans Park (BPK)	4 E	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a C172, identified by Mode S, squawking 7000 at 2400ft. Avoiding action given. Standard separation maintained.	
201104498	01/05/2011	EGTT : London (FIR)	Bishops Waltham		D	CTA	CESSNA	Reciprocating	1	Infringement of the Southampton CTA (Class D) by a C180 squawking 7000 at 2100ft. Standard separation maintained.	Pilot apologised. It has subsequently been revealed that the pilot had not made sufficient allowance for the increased strength of the Easterly wind. The degree of error became apparent at Bishops Waltham, where a course correctionwas made.
201104500	01/05/2011	EGTT : London (FIR)	Taff Ely Windfarm		D	CTA	PIPER	Reciprocating	1	Infringement of the Cardiff CTA (Class D) by a PA28 squawking 7000 at 4000ft. Outbound traffic delayed for approx 3mins. Standard separation maintained.	

201104505	02/05/2011	EGTT : London (FIR)	Aylesbury	E	D	CTA	CESSNA	Reciprocating	1	Infringement of the Luton CTA (Class D) by a C172 squawking 7000 with Mode C of 4200ft. Mode S data not available. Standard separation maintained.	
201104506	02/05/2011	EGTT : London (FIR)	Stansted	9 W	D	CTA	ROBINSON	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a R44 squawking 7000 indicating 1900ft. Traffic info and avoiding action given. Standard separation maintained.	The R44 on entering CAS then descended to an altitude below CAS within 30secs.
201104506	02/05/2011	EGTT : London (FIR)	Stansted	9 W	D	CTA	AIRBUS	Turbofan	2	Infringement of the Stansted CTA (Class D) by a R44 squawking 7000 indicating 1900ft. Traffic info and avoiding action given. Standard separation maintained.	The R44 on entering CAS then descended to an altitude below CAS within 30secs.
201104512	02/05/2011	EGTT : London (FIR)	Coventry		D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 squawking 7000 indicating 2400ft. Traffic info given. Standard separation maintained.	A/c turned Eastbound and climbed to 2400ft just before leaving boundary. It has subsequently been revealed that thepilot on being advised to contact Coventry by East Midlands had noted the wrong frequency,123.875 instead of 123.825, and the incorrect read back had not been picked up. Further attempts were made on two other frequencies, again unsuccessful. By this time the strong Easterly wind had pushed the a/c close to Coventry. Shortly afterwards contact was made with Luton and the fight continued without furtherincident.
201104512	02/05/2011	EGTT : London (FIR)	Coventry		D	CTA	DOUGLAS	Turbofan	4	Infringement of the Birmingham CTA (Class D) by a PA28 squawking 7000 indicating 2400ft. Traffic info given. Standard separation maintained.	A/c turned Eastbound and climbed to 2400ft just before leaving boundary. It has subsequently been revealed that thepilot on being advised to contact Coventry by East Midlands had noted the wrong frequency,123.875 instead of 123.825, and the incorrect read back had not been picked up. Further attempts were made on two other frequencies, again unsuccessful. By this time the strong Easterly wind had pushed the a/c close to Coventry. Shortly afterwards contact was made with Luton and the fight continued without furtherincident.

201104528	30/04/2011	EGTT : London (FIR)	Winchester		D	CTA	DIAMOND	Reciprocating	1	Infringement of the Southampton CTA (Class D) by a DA40 squawking 3672 at 3000ft.	The pilot, as requested, called ATC on landing. He statedthat he was trying to avoid the Salisbury Plain Danger Areas. Although the turning point was close to the CTA, he believed he had remained outside controlled airspace. Poor visibility was reported.
201104553	21/04/2011	EGTT : London (FIR)	Stansted	S	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA32 squawking 7010 at 1400ft, identified by Mode S. Standard separation maintained.	Appropriate CAA action is to be taken as a result of thisincident.
201104562	21/04/2011	EGTT : London (FIR)	Liverpool	7 NE	D	CTR	FLY BUY ULTRALIGHTS	Reciprocating	1	Infringement of the Liverpool CTR (Class D) by an Ikarus C42 squawking 7000 at 1000ft. Traffic info given. Standardseparation maintained.	The pilot had called and requested a zone crossing en route. After several attempts the pilot switched on his transponder, squawked 0263, and was identified. He was given clearance to leave CAS at Wallasey. The pilot appeared to beunsure of his position and several ATC instructions were not complied with. Last instruction issued was to track North Westerly up the river Mersey to leave CAS.
201104563	23/04/2011	EGTT : London (FIR)	Warwick		D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA2 (Class D) by a PA28 squawking 0010 indicating Mode C of 2700ft. Standard separation maintained. Investigation under 201012514.	After landing, as requested, the pilot contacted ATC and spoke with the Watch Manager. The student pilot reported that he had had difficulties in setting up the GPS and elected to use own navigation. He also reported problems on locating way-points. The transponder had not been re-set when the pilot had tuned to Wellesbourne ATIS. Birmingham ATCwere therefore unable to contact him. Furthermore, on shut down the DI was spinning and the pilot later learned that the compass had been reading 25deg out, accounting for difficulties with headings and locating way-points. The appropriate lessons appear to have been learnt from this incident.
201104564	23/04/2011	EGTT : London (FIR)	ABBOT	4 W	A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA28 squawking 0013 indicating 4000ft. Avoiding action given to B737 inbound to Stansted. Separation lost.	CAA Closure: Due to the time that has elapsed since this incident no further investigation is deemed possible.

201104564	23/04/2011	EGTT : London (FIR)	ABBOT	4 W	A	TMA	BOEING	Turbofan	2	Infringement of the London TMA (Class A) by a PA28 squawking 0013 indicating 4000ft. Avoiding action given to B737 inbound to Stansted. Separation lost.	CAA Closure: Due to the time that has elapsed since this incident no further investigation is deemed possible.
201104617	01/05/2011	EGTT : London (FIR)	Manchester (MCT)	20 E	D	CTA	CESSNA	Reciprocating	1	Infringement of the Manchester CTA (Class D) by a C152 squawking 7000 at 3500ft. CAIT activated. No conflicting traffic reported.	
201104618	02/05/2011	EGTT : London (FIR)	Cowes		D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) twice by a C172 squawking 7000. Traffic info given. Southampton inbound traffic delayed. Standard separation maintained.	Blind call was made and answered by the C172. The pilot stated that he had called to request transit inbound to Bournemouth but ATC advised that it was busy and a transit would not be available, however a squawk was issued. The pilot was then told to freecall Bournemouth Radar, as ATC were satisfied that his intended routeing would remain outside controlled airspace. However, a few minutes later the a/c was seen to re-enter the CTA. On telephoning Bournemouth, it was confirmed that they were not working the a/c. Southampton called the pilot who was told to descend immediately below controlled airspace. Inbound vectoring was resumed and a/c was transferred to Bournemouth.
201104651	04/05/2011	EGTT : London (FIR)	Cardiff (CDF)	10 N	D	CTA	OTHER	Reciprocating	1	Infringement of the Cardiff CTA-4 (Class D) by a Dynamic microlight at 3500ft. Standard separation maintained.	Attempts to issue a clearance across controlled airspace were misunderstood and not read back correctly. After landing, the pilot reported that he was navigating by GPS, andthat this piece of airspace did not appear on the map.
201104682	29/04/2011	EGTT : London (FIR)	Nottingham East Midlands	6 SW	D	CTR	CESSNA	Reciprocating	1	Infringement of the East Midlands CTR (Class D) by a C152squawking 7000 at 1600ft. Standard separation maintained.	The pilot informed ATC that he was unsure of his positionand was asked to squawk 4550. Pilot then requested and was given a joining clearance and, after he had reported sight of the airfield, transferred to ADC and landed.

201104702	04/05/2011	EGTT : London (FIR)	Stansted	9 W	D	CTR	PITTS	Reciprocating	1	Infringement of the Stansted CTA (Class D) and CTR (ClassD) by a 0013 squawk with Mode C at 1500ft. CAIT activated. Traffic info given. Inbound traffic vectored to remain clear of contact.	Standard separation maintained. Shortly after entering the Hundson area, the a/c's Mode C and Mode A disappeared. North Weald were contacted to try and establish contact. Then after briefing entering the CTR, a/c squawked Mode A and C. The pilot later called TC GS Airports and reported that he had smelt burning in the cockpit, which may have accounted for confusion on the flight deck.
201104702	04/05/2011	EGTT : London (FIR)	Stansted	9 W	D	CTR	AIRBUS	Turbofan	2	Infringement of the Stansted CTA (Class D) and CTR (ClassD) by a 0013 squawk with Mode C at 1500ft. CAIT activated. Traffic info given. Inbound traffic vectored to remain clear of contact.	Standard separation maintained. Shortly after entering the Hundson area, the a/c's Mode C and Mode A disappeared. North Weald were contacted to try and establish contact. Then after briefing entering the CTR, a/c squawked Mode A and C. The pilot later called TC GS Airports and reported that he had smelt burning in the cockpit, which may have accounted for confusion on the flight deck.
201104703	04/05/2011	EGTT : London (FIR)	Bishops Waltham		D	CTA	MAULE	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Maule MX7 squawking 7000 Mode C indicating 2100ft. Standard separation maintained.	The contact was tracked to Popham who confirmed the identity and routeing of the a/c.
201104705	21/04/2011	EGTT : London (FIR)	MAULD		A		OTHER	Reciprocating	1	Infringement of Airway L975 (Class A) by a microlight squawking 7000 indicating FL68. Standard separation maintained.	The a/c had tried to call Liverpool ATC but they had beenunable to establish two-way communication. The squawk changed to London Information conspicuity code. London FIS were contacted for level and routeing information as the a/cwas heading for Manchester TMA. London FIS placed a/c on 0030 squawk for identification. A/c observed turning Southclear of controlled airspace and later descending.
201104710	05/05/2011	EGTT : London (FIR)	Bovingdon (BNN)		A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA28 squawking 7000 indicating 3000ft. Heathrow Buzad and Brookmans Park departures were halted and restarted approx 10mins later.	The operator has been fully alerted to this incident. Theinstructor concerned accepts that he failed to assess thealtitude chosen for this leg correctly in order to avoid CAS and then exacerbated this by the failure to obtain an ATC service. Appropriate operator follow up action is to be taken.

201104795	05/05/2011	EGTT : London (FIR)	Nottingham East Midlands	6 E	D	CTR	DE HAVILLAND	Reciprocating	1	Infringement of the East Midlands CTR (Class D) by a Tiger Moth squawking 7000 at 1400ft. Departures suspended. Standard separation maintained.	
201104808	06/05/2011	EGTT : London (FIR)	Luton (LUT)	6 SE	D	CTR	VANS	Reciprocating	1	Infringement of the Luton CTR (Class D) by a RV9 squawking 7010 at 1500ft. Mode S data not available. Traffic info given. Separation lost against an ATR72.	The pilot's report highlights that he became distracted in focusing on two particular routing considerations without paying adequate attention to chart information (the CAS boundaries) prior to departing the airfield. The appropriate lessons appear to have been learnt from this incident.
201104808	06/05/2011	EGTT : London (FIR)	Luton (LUT)	6 SE	D	CTR	ATR	Turboprop	2	Infringement of the Luton CTR (Class D) by a RV9 squawking 7010 at 1500ft. Mode S data not available. Traffic info given. Separation lost against an ATR72.	The pilot's report highlights that he became distracted in focusing on two particular routing considerations without paying adequate attention to chart information (the CAS boundaries) prior to departing the airfield. The appropriate lessons appear to have been learnt from this incident.
201104834	08/05/2011	EGTT : London (FIR)	CALSHOT		D	CTR	SCHEIBE	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a SF25 squawking 7000 indicating 1600ft. Standard separation maintained.	
201104884	07/05/2011	EGTT : London (FIR)	Southampton (SAM)	8 SE	D	CTA	GROB	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Grob 109. Standard separation maintained. Traffic info given.	The instructor concerned accepts that he allowed his examiner responsibilities to override his spacial awareness. The appropriate lessons appeared to have been learnt.

201104900	05/05/2011	EGTT : London (FIR)	Doncaster Sheffield	6.5 NNE	D	CTR	PIPER	Reciprocating	1	UK AIRPROX 2011/038 - PA28 and B737 6.5nm from Doncaster Sheffield at 2500ft.	PA28 infringed the Doncaster Sheffield CTR (Class D) and lost separation with a B737 being radar vectored for ILS R/W20. B737 was given avoiding action of right turn and climb. PA28 identified and called on frequency requesting a Basic Service. B737 was then given a closing heading for ILS and transferred to Tower.☐ CAA Closure: No further CAA action. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
201104900	05/05/2011	EGTT : London (FIR)	Doncaster Sheffield	6.5 NNE	D	CTR	BOEING	Turbofan	2	UK AIRPROX 2011/038 - PA28 and B737 6.5nm from Doncaster Sheffield at 2500ft.	PA28 infringed the Doncaster Sheffield CTR (Class D) and lost separation with a B737 being radar vectored for ILS R/W20. B737 was given avoiding action of right turn and climb. PA28 identified and called on frequency requesting a Basic Service. B737 was then given a closing heading for ILS and transferred to Tower.☐ CAA Closure: No further CAA action. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
201104988	11/05/2011	EGTT : London (FIR)	Dover (DVR)		A	CTA	PIPER	Reciprocating	1	Infringement of the Worthing CTA (Class A) by a PA28 squawking 1177 at FL70. Standard separation maintained.	Pilot called London FIS requesting join at FL70 at Dover.FL details were reconfirmed. Pilot was instructed to remain outside controlled airspace (ROCAS) and given a time-check and asked to select 1177. Coordination was effected with Dover sector. In the meantime, pilot advised he was descending to FL60 to remain clear of controlled airspace, and subsequently transferred to Manston Radar.
201105006	14/05/2011	EGTT : London (FIR)	Shoreham	7SW	A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA28 squawking 7000 at FL80. A/c then re-entered CAS at FL65. CAIT activated. Standard separation maintained.	ATC training in progress. The investigation report has subsequently confirmed that the a/c entered the Worthing CTAwith Mode C indicating FL65. Pilot informed.
201105006	14/05/2011	EGTT : London (FIR)	Shoreham	7SW	A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA28 squawking 7000 at FL80. A/c then re-entered CAS at FL65. CAIT activated. Standard separation maintained.	ATC training in progress. The investigation report has subsequently confirmed that the a/c entered the Worthing CTAwith Mode C indicating FL65. Pilot informed.

201105036	12/05/2011	EGTT : London (FIR)	Stansted	14 SW	D	CTA	ROBINSON	Reciprocating	1	Infringement of the Stansted CTA (Class D) by an R44 squawking 0013, Mode C indicating 2300ft. Standard separation maintained.	The pilot responded quickly to RT request from ATC. Pilotwas given the squawk 0201 and told to leave the CTA descending to not above 1500ft. The unit investigation confirmed that the a/c descended beneath the CAS within 50secs of entering CAS and the pilot was reminded of the base of theCTA.
201105068	12/05/2011	EGTT : London (FIR)	Birmingham	8 S	D	CTR	CESSNA	Reciprocating	1	Infringement of Birmingham CTR (Class D) by a C150 indicating 1800ft. C150 receiving a BS from London FIS was instructed to call Birmingham, but was slow in doing so. Standard separation maintained.	Investigation determined that the C150 pilot had not initially planned a Wellesbourne Mountford departure (intending to have landed elsewhere for fuel). Pilot then used an incorrect plan to depart and infringed CAS. CAA Closure: Appropriate follow up action taken.
201105072	12/05/2011	EGTT : London (FIR)	London-Heathrow - LHR	W	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28 squawking 7000 with no Mode C. CAIT activated. Heathrow departures, except Northbounds, were stopped. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
201105093	12/05/2011	EGTT : London (FIR)	Brize Norton	10 E	D	CTR	OTHER	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) at indicated 2800ft by an unknown motor glider. No other traffic wasaffected.	
201105096	13/05/2011	EGTT : London (FIR)	Stansted		Other	Restrictedd area	CESSNA	Reciprocating	1	Infringement of the Stansted TMZ1 (Class G) by a C152 squawking 7000 with Mode C of 1300ft. Investigation under 200908004.	A/c identification and routeing later confirmed by Duxford on being assigned squawk of 0201. The unit investigationhas subsequently confirmed that the pilot is fully aware of the TMZ requirements and has acknowledged that on this occasion he was late selecting Mode C.

201105132	13/05/2011	EGTT : London (FIR)	Stansted	8 NE	Other	Other	PIPER	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a PA28. Traffic info and avoiding action given to inbound traffic.	
201105134	13/05/2011	EGTT : London (FIR)	Bracknell		A	CTR	PIPER	Reciprocating	1	Student pilot in a PA28 indicating 2300ft infringed the London CTR (Class A). Heathrow MID departures were stopped.After PA28 exited CAS to the South, MID departures were resumed.	Standard separation maintained.□ CAA Closure: Due to lackof subsequent information no further CAA action is considered practical.
201105135	13/05/2011	EGTT : London (FIR)	London City - LCY	5.5 NE	D	CTA	EUROCOPTER	Turboshaft	1	Infringement of the London City CTA (Class D) by an EC120at 1800ft. Pilot advised of his position and instructed to vacate CAS. Standard separation maintained.	Pilot believed he was operating outside CAS according to his GPS.
201105136	14/05/2011	EGTT : London (FIR)	Southampton (SAM)	10 NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 squawking 7000 at 3100ft. Blind calls made with no response received. Standard separation maintained.	
201105138	14/05/2011	EGTT : London (FIR)	Audley End		D	CTR	SUPERMARINE	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a Spitfire at Audley End. Traffic info given to two Stansted inbounds.	LTCC had received no prior notification of this display.CAA Closure: No further CAA action due to the elapsed time involved.

201105140	15/05/2011	EGTT : London (FIR)	Stansted TMZ2		Other	Other	STRIPLIN	Reciprocating	1	Infringement of the Stansted TMZ2 (Class G) by a Skyranger squawking 7000. Blind calls made with no response received.	After vacating the TMZ to the Southwest of Harlow, the a/c re-entered the TMZ on a reciprocal track before vacating. No traffic adversely affected.
201105141	15/05/2011	EGTT : London (FIR)	Stansted TMZ1		Other	Other	JODEL	Reciprocating	1	Infringement of the Stansted TMZ1 (Class G) by a Jodel D140 squawking 7000. Blind calls made with no response received. Traffic info given to inbound traffic.	Jodel D140 squawk changed to FIS as it crossed the centreline. Contact established with a/c reporting altitude at 1500ft and with no Mode C available. A/c observed heading towards the active Wethersfield Gilding site. Controller alerted the pilot, who confirmed visual with the gliding activity. A/c allocated a squawk and offered a Basic Service before being transferred to the appropriate frequency.
201105142	15/05/2011	EGTT : London (FIR)	Haverhill	S	Other	Restricted area	FLY BUY ULTRALIGHTS	Reciprocating	1	Infringement of the Stansted TMZ1 (Class G) by an Ikarus C42. The pilot believed his transponder was on and showing interrogation but no response was seen on radar.	The owner has had remedial work performed on the a/c systems when he purchased the a/c and believed that the transponder was fully serviceable, this incident indicates that this was not the case. Appropriate pilot/ATC liaison has occurred as a result of this incident.
201105144	15/05/2011	EGTT : London (FIR)	Southampton (SAM)	12 S	D	CTA	PIPER	Reciprocating	1	Unidentified a/c indicating 2400ft infringed Southampton CTA (Class D) and lost separation with inbound DHC8. STCA activated. Unknown a/c subsequently identified as a PA28.	DHC8 was given traffic info and avoiding action. Pilot had misidentified the ground features.
201105144	15/05/2011	EGTT : London (FIR)	Southampton (SAM)	12 S	D	CTA	DE HAVILLAND	Turboprop	2	Unidentified a/c indicating 2400ft infringed Southampton CTA (Class D) and lost separation with inbound DHC8. STCA activated. Unknown a/c subsequently identified as a PA28.	DHC8 was given traffic info and avoiding action. Pilot had misidentified the ground features.

201105342	19/05/2011	EGTT : London (FIR)	Stansted	NE	D	CTA	SOCATA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a TB20 at 2600ft. Standard separation maintained.	
201105344	19/05/2011	EGTT : London (FIR)	Luton (LUT)	9 W	D	CTR	WESTLAND	Turboshaft	1	Infringement of the Luton CTR (Class D) by a Gazelle at 1000ft. Check all imposed against departures. Standard separation maintained.	
201105354	21/05/2011	EGTT : London (FIR)	Luton (LUT)		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted and Luton CTA (Class D) by aPA28 squawking 7000 at 3000ft resulting in losses of separation. Traffic info given.	PA28 on a BS from Cambridge Approach. Shortly after ATC noticed that the student pilot appeared to be experiencing navigational problems resulting in an infringement of CAS.Pilot contacted D&D. PA28 given a heading to Cambridge and a/c continued to its destination without further assistance. Instructor informed. ATC training in progress. Duringthe infringement, PA28 lost separation with a Luton inbound and two Stansted outbound a/c.□ CAA Closure: No furtherCAA action. The student concerned has since had his PPL issued.
201105354	21/05/2011	EGTT : London (FIR)	Luton (LUT)		D	CTA	UNKNOWN	Unknown		Infringement of the Stansted and Luton CTA (Class D) by aPA28 squawking 7000 at 3000ft resulting in losses of separation. Traffic info given.	PA28 on a BS from Cambridge Approach. Shortly after ATC noticed that the student pilot appeared to be experiencing navigational problems resulting in an infringement of CAS.Pilot contacted D&D. PA28 given a heading to Cambridge and a/c continued to its destination without further assistance. Instructor informed. ATC training in progress. Duringthe infringement, PA28 lost separation with a Luton inbound and two Stansted outbound a/c.□ CAA Closure: No furtherCAA action. The student concerned has since had his PPL issued.
201105377	20/05/2011	EGTT : London (FIR)	Southampton (SAM)	9 NW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a C172. Standard separation maintained.	The pilot's report states that he was told to report at Chilbolton. It was noted that Chilbolton was not on route and not on his nav equipment. He spotted a radio telescope but insufficient study of the map resulted in mistaking Chilbolton for a village below the text for Chilbolton. The a/c thus routed South of the radio telescope and infringedCAS. The pilot's report indicates that the appropriate lessons appear to have been learnt from this incident.

201105377	20/05/2011	EGTT : London (FIR)	Southampton (SAM)	9 NW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a C172. Standard separation maintained.	The pilot's report states that he was told to report at Chilbolton. It was noted that Chilbolton was not on route and not on his nav equipment. He spotted a radio telescope but insufficient study of the map resulted in mistaking Chilbolton for a village below the text for Chilbolton. The a/c thus routed South of the radio telescope and infringedCAS. The pilot's report indicates that the appropriate lessons appear to have been learnt from this incident.
201105414	19/05/2011	EGTT : London (FIR)	London-Gatwick - LGW	SE	D	CTR	DIAMOND	Reciprocating	1	Infringement of Gatwick CTR (Class D) by DA20. When a/c was on frequency it responded to some of the many calls telling it to leave CAS, but never actually did. Gatwick wereinformed of the problem.	Student pilot mistook Paddock Wood for Tonbridge.⌚ CAA Closure: Following the incident, the student flew another dual navigational flight without problems. The student has since ceased flying training.
201105418	21/05/2011	EGTT : London (FIR)	Beaulieu	N	D	CTR	OTHER	Reciprocating	1	Infringement of the Southampton CTR/Solent CTA (Class D) by a primary contact identified as a Pegasus microlight. Microlight vacated the zone towards Lee-on-Solent. One Southampton departure delayed.	Standard separation maintained. Southampton ATC were unable to contact Lee-on-Solent in order to gain further information on the infringer.
201105419	21/05/2011	EGTT : London (FIR)	Honiley (HON)	5 SW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C152 that had become lost and made various manoeuvres towards HONVOR. Two outbound a/c were delayed. Standard separation maintained.	Pilot acknowledges the infringement and has learnt from it. He will also discuss with the incident with the principal of the flying club to gain extra guidance.
201105420	21/05/2011	EGTT : London (FIR)	Stansted	20 NE	A	TMA		Reciprocating	1	Infringement of the LTMA (Class A) by a CZAW Sportcruisersquawking 7000 at 6300ft, 20nm Northeast of Stansted. Controller identified a/c via Mode S and established contact.Pilot alerted to error.	A/c subsequently entered CAS again to the Southeast of Cambridge. Standard separation maintained.

201105421	21/05/2011	EGTT : London (FIR)	Stansted	S	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28. Departures were stopped. A/c checked in with Southend when 4nm South of Stansted and then left CAS.	The pilot reports that he misidentified a road junction and a small airfield. He then realised he was lost and called Southend for assistance. □ CAA Closure: Comprehensive follow up action taken by reporting unit and pilot.
201105574	21/05/2011	EGTT : London (FIR)	Barkway (BKY)		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 at 2900ft. Traffic info and avoiding action given. STCA activated.	Separation lost with an A320. ATC have alerted the pilot concerned over this incident who states that he climbed into the CTA when he should have stayed below 2500ft.
201105574	21/05/2011	EGTT : London (FIR)	Barkway (BKY)		D	CTA	AIRBUS	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 at 2900ft. Traffic info and avoiding action given. STCA activated.	Separation lost with an A320. ATC have alerted the pilot concerned over this incident who states that he climbed into the CTA when he should have stayed below 2500ft.
201105579	24/05/2011	EGTT : London (FIR)	RINGA Waypoint		Other	Other	CESSNA	Reciprocating	1	Infringement of Airway L10 (Class D) by a C172 squawking 7000 at 5000ft. Standard separation maintained.	
201105583	22/05/2011	EGTT : London (FIR)	Stansted	12 NE	Other	Other	CESSNA	Reciprocating	1	Infringement of the Stansted TMZ 1(Class G) by a C150. One inbound delayed. Traffic info given.	

201105584	22/05/2011	EGTT : London (FIR)	Luton (LUT)	8 W	D	CTR	WESTLAND	Turboshaft	1	Infringement of the Luton CTR (Class D) by a Gazelle squawking 7000 indicating 1800ft. A/c subsequently re-entered the zone on two further occasions. Standard separation maintained.	CAA Closure: Appropriate CAA action taken.
201105586	24/05/2011	EGTT : London (FIR)	Durham Tees Valley (TD)		G	Danger area	WESTLAND	Turboshaft	1	Gazelle entered VATDA.	
201105588	24/05/2011	EGTT : London (FIR)	En Route		G	Danger area	BEECH	Reciprocating	1	BE36 at FL100 elected to continue a flight into VATDA after being advised of its presence. Time within the area 15/20mins.	
201105603	24/05/2011	EGTT : London (FIR)	En Route			Danger area	SOCATA	Reciprocating	1	TB20 flew into VATDA.	
201105646	24/05/2011	EGTT : London (FIR)	Detling (DET)	5 SE	A	TMA	DIAMOND	Reciprocating	1	Infringement of LTMA (Class A) by DA40 at 3700ft. Separation lost with inbound FK50, which was given traffic info and avoiding action.	

201105646	24/05/2011	EGTT : London (FIR)	Detling (DET)	5 SE	A	TMA	FOKKER	Turboprop	2	Infringement of LTMA (Class A) by DA40 at 3700ft. Separation lost with inbound FK50, which was given traffic info and avoiding action.	
201105706	26/05/2011	EGTT : London (FIR)	Haverhill	2 W	D	CTA	AVIONS ROBIN	Reciprocating	1	DR400 and PA28 flying in formation, receiving a BS and indicating 2000ft, infringed the Stansted CTA (Class D) and lost separation with inbound B737, which was given trafficinfo and avoiding action.	
201105706	26/05/2011	EGTT : London (FIR)	Haverhill	2 W	D	CTA	PIPER	Reciprocating	1	DR400 and PA28 flying in formation, receiving a BS and indicating 2000ft, infringed the Stansted CTA (Class D) and lost separation with inbound B737, which was given trafficinfo and avoiding action.	
201105747	27/05/2011	EGTT : London (FIR)	Stansted	16 NNE	A	TMA	CIRRUS	Reciprocating	1	Infringement of the London TMA (Class A) by an SR22 squawking 7000 at 4500ft. A/c identified by Mode S. Traffic info given. Standard separation maintained. Inbound B737 given extended vectors.	Pilot apologised.
201105747	27/05/2011	EGTT : London (FIR)	Stansted	16 NNE	A	TMA	BOEING	Turbofan	2	Infringement of the London TMA (Class A) by an SR22 squawking 7000 at 4500ft. A/c identified by Mode S. Traffic info given. Standard separation maintained. Inbound B737 given extended vectors.	Pilot apologised.

201105794	27/05/2011	EGTT : London (FIR)	Glasgow (GOW)		D	CTR	YAKOVLEV	Reciprocating	1	Infringement of the Glasgow CTR (Class D) by a Yak 52 at 1000ft. Traffic info given. Standard separation maintained.	A/c was orbiting clear of the zone awaiting clearance to transit through at the time of the infringement. Weather avoidance involved.
201105797	28/05/2011	EGTT : London (FIR)	Aberdeen (ADN)		D	CTA	CESSNA	Reciprocating	1	Infringement of the Aberdeen CTA (Class D) by an unknown a/c squawking 7000 at 4500ft. Standard separation maintained. A/c subsequently identified as a C180.	
201105848	31/05/2011	EGTT : London (FIR)	Southampton (SAM)		D	CTR	BELLANCA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Bellanca.	
201105957	01/06/2011	EGTT : London (FIR)	Syerston		G	ATZ	ROBINSON	Reciprocating	1	Infringement of the Syerston ATZ (Class G) by an R44 squawking 7000 at 1000ft. Standard separation maintained.	Pilot later explained that he couldn't contact ATC by radio, although the radio frequency had been manned.
201105958	02/06/2011	EGTT : London (FIR)	Stansted		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA32 squawking 7000 at 2300-2500ft. Mode S confirmed identify. Standard separation maintained.	Blind transmissions were made. No response. The a/c was observed to leave the zone to the East.

201105995	02/06/2011	EGTT : London (FIR)	Manchester (MCT)	8 SW	D	CTR	OTHER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by an unknown a/c showing as a primary contact only. A/c believed to be a microlight operating at 1000ft.	Microlight identified by the crew of an EC135 operating VFR in the vicinity.
201106004	01/06/2011	EGTT : London (FIR)	Denham	4 W	A	CTR	MORANE SAULNIER	Reciprocating	1	Infringement of the London CTR (Class A) by an MS Rallye squawking 7000 at 2500ft, no Mode C. Standard separation maintained.	A/c identification and routeing confirmed by White Waltham. The a/c had called them inbound to Maidenhead. A/c subsequently instructed to turn West and descend to 1500ft. It has subsequently been revealed that the pilot had originally intended to route via High Wycombe to ensure being clear of the London TMA, but had travelled further South than intended.
201106051	02/06/2011	EGTT : London (FIR)	STAFA		A	CTA	PIPER	Reciprocating	1	Infringement of Daventry CTA (Class A) by PA46 at FL59.	Pilot subsequently discussed incident with ATC. Will pay more attention to charts in future.
201106094	31/05/2011	EGTT : London (FIR)	Portsmouth		Other	Danger area	CESSNA	Reciprocating	1	Infringement of active Danger Area D036 by a C172 at 2400ft. A/c given clearance through the zone following coordination with the relevant ATC unit.	A/c on a Basic Service initially requested from FIS the status D036. Whilst coordination was taking place, the FISOWas informed that the a/c had already entered the zone.
201106096	03/06/2011	EGTT : London (FIR)	Andrewsfield	3 NW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C172 squawking 0201 climbing through 2000ft, allegedly reaching 2700ft. Standard separation maintained.	The a/c had requested zone transit from Audley End to Andrewfield via Thaxted, cleared not above 1500ft. It briefly entered the CTR by Audley End on a more North-Easterly track, exiting the CTR after 2nm. Pilot, subsequently de-briefed by ATC, acknowledged his error.

201106101	04/06/2011	EGTT : London (FIR)	Luton (LUT)	10 SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 squawking 7000 with Mode C indicating 1800ft. Separation lost with inbound B737, established on ILS for R/W08.	Mode S indicated a/c identity. Blind call was made but no response. A/c tracked ESE before leaving the CTR to the South. Operator alerted and appropriate advice has been given to the pilot.
201106101	04/06/2011	EGTT : London (FIR)	Luton (LUT)	10 SW	D	CTR	BOEING	Turbofan	2	Infringement of the Luton CTR (Class D) by a PA28 squawking 7000 with Mode C indicating 1800ft. Separation lost with inbound B737, established on ILS for R/W08.	Mode S indicated a/c identity. Blind call was made but no response. A/c tracked ESE before leaving the CTR to the South. Operator alerted and appropriate advice has been given to the pilot.
201106102	04/06/2011	EGTT : London (FIR)	London-Gatwick - LGW	12 ENE	D	CTA	PIPER	Reciprocating	1	Infringement of the Gatwick CTA/CTR (Class D) by a PA28 indicating 2200ft. Gatwick departures were stopped for 6mins. Standard separation maintained.	Investigations indicate the instructor became distracted and the student infringed. Wind strength was a contributing factor.☐ CAA Closure: Appropriate advice regarding the use of Farnborough LARS has been given.
201106103	04/06/2011	EGTT : London (FIR)	Stansted	10 NE	D	CTR	SOCATA	Reciprocating	1	Infringement of the Stansted CTA and CTR (Class D) by a TB10 squawking 7000 indicating 2300ft. Check all imposed on Stansted departures. Standard separation maintained. A/c identified via Mode S.	The unit investigation has subsequently revealed that the pilot experienced problems with the heading on the DI, and believing that this had been corrected, transferred the wrong distance information to the flight plan. This contributed to the a/c being overhead Haverhill instead of Sunbury. Pilot has apologised.
201106105	04/06/2011	EGTT : London (FIR)	London-Heathrow - LHR		A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28 squawking 7000, in Fair Oaks segment, at 1900ft. CAIT activated. Heathrow CPT departures stopped for 5mins. Standard separation maintained.	Heathrow traffic resumed once PA28 had been observed to have turned Southeast and left CAS. It has subsequently been revealed that the Direction Indicator had been misaligned. Operator has been alerted and appropriate action has been taken.

201106107	04/06/2011	EGTT : London (FIR)	Stansted	NE	D	CTA	VANS	Reciprocating	1	Infringement of the Stansted CTA (Class D) by an RV7 squawking 0013, Mode C indicating 1900ft. Standard separation maintained.	Pilot unaware of the base of CAS to the South of Haverhill.
201106109	04/06/2011	EGTT : London (FIR)	Stansted	NE	D	CTA	VANS	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by an RV4 squawking 7000 at 1800ft. Standard separation maintained.	Departures check imposed.
201106111	04/06/2011	EGTT : London (FIR)	Scillies		G	ATZ	EUROCOPTER	Turboshaft	1	Infringement of the St Mary's ATZ (Class G) by an EC20 at approx 500ft Northeast of extended centreline. Standard separation maintained.	The EC20 had been reported by a departing BN2P from St Mary's. A second EC20 was observed on the ground at Tresco. Tresco Heliport Air Ground confirmed the helicopters PPR (Prior Permission Required) with St Mary's ATC as planning to fly Newquay to Tresco. No contact had been made with Scillies Approach or Land's End Tower Control. Tresco Air Ground also advised that they appeared to have given the pilots the wrong RT frequency for St Mary's ATC.
201106111	04/06/2011	EGTT : London (FIR)	Scillies		G	ATZ	EUROCOPTER	Turboshaft	1	Infringement of the St Mary's ATZ (Class G) by an EC20 at approx 500ft Northeast of extended centreline. Standard separation maintained.	The EC20 had been reported by a departing BN2P from St Mary's. A second EC20 was observed on the ground at Tresco. Tresco Heliport Air Ground confirmed the helicopters PPR (Prior Permission Required) with St Mary's ATC as planning to fly Newquay to Tresco. No contact had been made with Scillies Approach or Land's End Tower Control. Tresco Air Ground also advised that they appeared to have given the pilots the wrong RT frequency for St Mary's ATC.
201106112	04/06/2011	EGTT : London (FIR)	Birmingham	13 SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 squawking 7000 at 3000ft. Standard separation maintained.	A/c was tracked on radar and squawk changed to 0453 West of Hinton in the Hedges. A/c identified by Farnborough. It has subsequently been revealed that the pilot had misread his chart and did not take account of the 1500ft base over Warwick Castle. Pilot apologised.

201106113	05/06/2011	EGTT : London (FIR)	Northwich	1E	D	CTR	FLY BUY ULTRALIGHTS	Reciprocating	1	Infringement of Manchester CTR (Class D) by Microlight climbing to 1600ft, 1nm East of Northwich.	
201106159	02/06/2011	EGTT : London (FIR)	Wethersfield		G		CESSNA	Reciprocating	1	Overflight of Wethersfield Gliding Site by an unidentified a/c (possibly a C150) at an estimated 1000ft.	
201106168	06/06/2011	EGTT : London (FIR)	KEGUN		A		PIPER	Reciprocating	1	Alleged infringement of the N864 Airway (Class A) by a PA28 squawking 7000 at 4000ft. Standard separation maintained.	A/c reportedly operating with Mode C indicating at 1000fthigher than the pilot's reported level.
201106244	04/06/2011	EGTT : London (FIR)	Weston On The Green		G	Danger area	CESSNA	Reciprocating	1	Infringement of the active Danger Area D129 by a C172 at 1500-2000ft during parachute dropping and gliding operations.	CAA Closure: Due to the time elapsed since this incident no further investigation is deemed possible.
201106250	07/06/2011	EGTT : London (FIR)	Dunstable	3 NW	D	CTR	WESTLAND	Turboshaft	1	Infringement of the Luton CTR (Class D) by a Gazelle at 1700ft. Check all imposed against R/W26 departures. Standard separation maintained.	Appropriate CAA action is to be taken as a result of thisincident.

201106252	07/06/2011	EGTT : London (FIR)	Southampton (SAM)	10 S	D	CTA	CYCLONE AIRSPORTS	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Pegasus Quik squawking 7000 at 2400ft. Standard separation maintained.	Attempts to establish contact with the a/c unsuccessful. A/c identified via Mode S.
201106315	07/06/2011	EGTT : London (FIR)	Stansted	10 NE	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C172 at 4000ft. Standard separation maintained.	C172 pilot misread his chart. Incident discussed with ATCand lesson learnt.
201106330	08/06/2011	EGTT : London (FIR)	Southampton (SAM)	5 NW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a C150 at 1500ft resulting in a loss of separation against an inbound airliner.	CAA Closure: Due to the time elapsed since this incident no further investigation is deemed practical.
201106330	08/06/2011	EGTT : London (FIR)	Southampton (SAM)	5 NW	D	CTR	UNKNOWN	Unknown		Infringement of the Southampton CTR (Class D) by a C150 at 1500ft resulting in a loss of separation against an inbound airliner.	CAA Closure: Due to the time elapsed since this incident no further investigation is deemed practical.
201106336	07/06/2011	EGTT : London (FIR)	Leicester	5 N	D	CTA	PITTS	Reciprocating	1	Infringement of the East Midlands CTA (Class D) by a Pitts Special at FL67 in a rapid climb before descending back out of CAS. Two inbounds re-routed. Standard separation maintained.	Traffic info given. Pilot contacted ATC on landing and apologised for the infringement.

201106337	09/06/2011	EGTT : London (FIR)	DAYNE	5 S	A	TMA	PIPER	Reciprocating	1	Infringement of the Manchester TMA (Class A) by a PA32 squawking 7000 at 5000ft. One Manchester inbound given an adjusted heading. Standard separation maintained.	A/c identified via Mode S. Pilot error acknowledged.
201106389	10/06/2011	EGTT : London (FIR)	Burtonwood		D	CTR	PIPER	Reciprocating	1	Infringement of the Liverpool CTR (Class D) by PA32 at 1250ft. PA32 advised of its position and told to fly East until clear of CAS and back into LLR (Low Level Route). Standard separation maintained.	CAA Closure: Pilot requested to contact ATC Watch Managerbut there is no record of the requested telephone call having been received. No further action taken.
201106400	05/06/2011	EGTT : London (FIR)	Birmingham	11.6 SE	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a Robin 200 squawking 7000 at 2100ft. Avoiding action and traffic info given to an inbound A321. Standard separation maintained.	
201106411	09/06/2011	EGTT : London (FIR)	Stansted	10 NNE	Other	Other	CESSNA	Reciprocating	1	Infringement of the Stansted TMZ 1 (Class G) by a C172 tracking Southeast. An A320 inbound to Luton re-routed around the contact.	Pilot aware of the TMZ procedures. It is believed that the pilot may have left the transponder in 'standby' mode when changing from 7000 to the listening squawk of 0013 at the point where transponder return disappeared from radar. Pilot has agreed to check the Mode A and C operation with a Farnborough LARS flight to ensure that the a/c does not have a transponder fault.
201106411	09/06/2011	EGTT : London (FIR)	Stansted	10 NNE	Other	Other	AIRBUS	Turbofan	2	Infringement of the Stansted TMZ 1 (Class G) by a C172 tracking Southeast. An A320 inbound to Luton re-routed around the contact.	Pilot aware of the TMZ procedures. It is believed that the pilot may have left the transponder in 'standby' mode when changing from 7000 to the listening squawk of 0013 at the point where transponder return disappeared from radar. Pilot has agreed to check the Mode A and C operation with a Farnborough LARS flight to ensure that the a/c does not have a transponder fault.

201106415	11/06/2011	EGTT : London (FIR)	Birmingham	13 SSE	D	CTR	PIPER	Reciprocating	1	PA28 infringed the Birmingham CTR (Class D) and lost separation with a DHC8 on visual approach to R/W33. Traffic info and avoiding action given.	Pilot was using GPS to navigate but, having followed Wellesbourne Mountford noise abatement, navigated North and entered the CTA.☐ CAA Closure: Pilot given advice on how to avoid further infringements when departing Wellesbourne Mountford.
201106415	11/06/2011	EGTT : London (FIR)	Birmingham	13 SSE	D	CTR	DE HAVILLAND	Turboprop	2	PA28 infringed the Birmingham CTR (Class D) and lost separation with a DHC8 on visual approach to R/W33. Traffic info and avoiding action given.	Pilot was using GPS to navigate but, having followed Wellesbourne Mountford noise abatement, navigated North and entered the CTA.☐ CAA Closure: Pilot given advice on how to avoid further infringements when departing Wellesbourne Mountford.
201106416	11/06/2011	EGTT : London (FIR)	Warrington	6 E	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Manchester CTR (Class D) by an R44 squawking 0260. Standard separation maintained.	Weather conditions were subsequently reported as poor, with rain obscuring visibility of the southerly terrain. Pilot has been contacted and appropriate lessons have learnt.
201106418	13/04/2011	EGTT : London (FIR)	Bradwell R156		G	Restrict ed area	CESSNA	Reciprocating	1	Infringement of Restricted Area R156 Bradwell Bay by a C152 receiving a BS. The solo student on a NAVEX had been advised several times to turn away to the West, but had communication problems.	The student believed he was overhead Ipswich and decided to turn South whereas he was actually overhead Colchester and by turning South he entered R156. The student was also experiencing problems with the radio.☐ CAA Closure: The student was debriefed by his FI that when unsure of position to immediately ask for help. Additional 4 dual navigation flights with FI carried out, all to a good standard and additional 7 solo navigation flights, all without incident.
201106419	11/06/2011	EGTT : London (FIR)	Southampton (SAM)	7 N	D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by C172 squawking 7000 at 3000ft, 7nm North of Southampton. A/c identified via Mode S. Standard separation maintained.	

201106574	14/06/2011	EGTT : London (FIR)	UPTON	10 W	A		CIRRUS	Reciprocating	1	Infringement of the Airway by an SR22 squawking 6160 indicating FL38, just West of the Doncaster Zone. CAIT activated. Standard separation maintained.	Squawk later changed to 7000 and a/c identified via Mode S. It has subsequently been revealed that the pilot had been distracted by potentially conflicting traffic.
201106590	14/06/2011	EGTT : London (FIR)	Brookmans Park (BPK)	W	A	TMA	FLIGHT DESIGN	Reciprocating	1	Infringement of the London TMA (Class A) by a CTSW squawking 7000 indicating 3000ft. Loss of separation against Heathrow and Northolt departing a/c. Identification confirmedby Mode S.	CAA Closure: Comprehensive follow up action taken by reporting unit and pilot.
201106590	14/06/2011	EGTT : London (FIR)	Brookmans Park (BPK)	W	A	TMA	BOMBARDIER	Turbofan	2	Infringement of the London TMA (Class A) by a CTSW squawking 7000 indicating 3000ft. Loss of separation against Heathrow and Northolt departing a/c. Identification confirmedby Mode S.	CAA Closure: Comprehensive follow up action taken by reporting unit and pilot.
201106591	14/06/2011	EGTT : London (FIR)	Oldham		D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a Robin 200 squawking at 2000ft. Pilot mistook M60 for M62 and apologised for error.	
201106606	15/06/2011	EGTT : London (FIR)	London-Gatwick - LGW	NW	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by an R22 indicating 1600ft piloted by a solo student on a NAVEX. Departures were stopped. After R22 left CAS departures were resumed.	The R22 subsequently penetrated the Gatwick CTR a second time to the East of the Redhill flying area. Investigationestablished that the student chose to remain on Redhill frequency for the entire flight so as not to tie himself upwith radio work in addition to his navigation. He also tried to use GPS, although he had little instruction in its use.□ CAA Closure: The Instructor suspects the student's decision to try to use the GPS was a primary contributing factor to him becoming uncertain of his position and the subsequent infringement. Following this incident, an additional 3 hours of ground school remedial training and 2 hoursflight instruction have been carried out.

201106651	15/06/2011	EGTT : London (FIR)	DENBY		D	CTR	CESSNA	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a C152 squawking 6160 at 2300ft. Disruption to inbound traffic. Standard separation maintained. Pilot apologised.	Two-way contact had been lost with Doncaster who confirmed that they had been working the 6160 squawk. A/c was observed turning Eastbound to leave CAS.
201106689	17/05/2011	EGTT : London (FIR)	Shoeburyness		G	Danger area	PIPER	Reciprocating	1	Infringement of active Shoeburyness Danger Area D138 by aPA28. Check fire imposed.	CAA Closure: Pilot navigational error. Guidance material on VFR navigation has been sent to the owners (club a/c).
201106690	16/06/2011	EGTT : London (FIR)	Birmingham	17 SE	D	CTA	CIRRUS	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by an SR22 at 4000ft. SR22 had been told to contact Coventry who then contacted Birmingham and requested a zone transit, which was allowed.	No other traffic affected.
201106715	16/06/2011	EGTT : London (FIR)	Ascot	3 W	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28 squawking 7000. No Mode C. Heathrow departures stopped for 6mins.	CAA Closure: No further CAA action due to the elapsed time involved.
201106769	18/06/2011	EGTT : London (FIR)	Stansted TMZ 2		Other	Other	RUTAN	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a Rutan Longeze. Pilot had set transponder but not switched it on. Pilot had been distracted during attempts to avoid weather. Pilot error acknowledged.	

201106778	14/06/2011	EGTT : London (FIR)	Birmingham	10 S	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA2 (Class D) by a PA28 squawking 0403 at 2800ft. Standard separation maintained.	Pilot instructed to take a Westerly track and leave CAS by the quickest route. Two-way was kept with the pilot until he left CAS. It was subsequently established that the pilot had not set up his GPS correctly.
201106793	19/06/2011	EGTT : London (FIR)	Marlow		A	CTR	UNKNOWN	Unknown		Infringement of the Heathrow CTR (Class A) by an unidentified a/c. Northbound departures were stopped. Unknown lostseparation with an R44 which was given traffic info and turn to de-conflict.	
201106793	19/06/2011	EGTT : London (FIR)	Marlow		A	CTR	ROBINSON	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by an unidentified a/c. Northbound departures were stopped. Unknown lostseparation with an R44 which was given traffic info and turn to de-conflict.	
201106795	19/06/2011	EGTT : London (FIR)	Luton (LUT)	10 ENE	D	CTA	PIPER	Reciprocating	1	Infringement of the Luton CTA-1 (Class D) by PA28R squawking 0013, indicating 2600ft. Traffic info and avoiding action given to inbound A319.	
201106795	19/06/2011	EGTT : London (FIR)	Luton (LUT)	10 ENE	D	CTA	AIRBUS	Turbofan	2	Infringement of the Luton CTA-1 (Class D) by PA28R squawking 0013, indicating 2600ft. Traffic info and avoiding action given to inbound A319.	

201106798	19/06/2011	EGTT : London (FIR)	Stansted	11 NNE	G	Restricted area		Reciprocating	1	Infringement of the Stansted TMZ1 (Class G) by a CZAW Sportsruiser without Mode C. Standard separation maintained.	A/c subsequently identified by Mode S. Pilot has been briefed regarding requirements of the TMZ and operation of his transponder.
201106805	19/06/2011	EGTT : London (FIR)	Banstead	2 N	A	CTA	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C152 at 2200ft. No transponder information displayed. A/c identified by using the turn method. Standard separation maintained.	The CFI of the flying club concerned has been alerted and has taken appropriate remedial action.
201106815	18/06/2011	EGTT : London (FIR)	ALVIN		A		HAWKER	Turboprop	1	Infringement of Airway L9 (Class A) near ALVIN by a climbing Hunter a/c. Mode C was observed to reach approximately FL120. RT was difficult due to Hunter subsequently having communication problems.	CAA Closure: The Captain of the a/c was subsequently contacted and reported a total comms failure at the time, leading to distraction and failure to maintain an awareness of the a/c's position with regard to CAS.
201106829	19/06/2011	EGTT : London (FIR)	Brize Norton		D	CTR	ROBINSON	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by an R44 squawking 7000 with Mode C indicating 2600ft.	Pilot apologised and advised that he had been trying to contact Farnborough LARS. ATC confirmed the LARS operating hours and procedures for transiting Brize airspace.
201106852	19/06/2011	EGTT : London (FIR)	Stansted	9 NE	D	CTA	DIAMOND	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a DA40 with an FIS squawk tracking Southeast indicating 3000ft. Standard separation maintained. A/c identified via Mode S.	ATC assigned 0204 squawk and confirmed altitude. With no conflicting traffic, a/c was allowed to continue at 3000ft under a RCS.

201106868	20/06/2011	EGTT : London (FIR)	Birmingham	13 NNW	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA-1 (Class D) by a PA28 squawking 7000 at 2600ft. Standard separation maintained.	The squawk changed to 4550 (East Midlands) and so East Midlands were contacted. They advised that they had instructed the pilot to turn East to exit the CTA as soon as possible. Pilot then called Birmingham Director and confirmed a/c details and QNH. Pilot informed that he had infringed controlled airspace and asked to contact Watch Manager on landing. He later explained that he had been confused by landmarks which had led to the infringement. The CFI of the flying club concerned has been alerted. Investigation under 201101289.
201106893	18/06/2011	EGTT : London (FIR)	Cockerham		G		AQUILA	Reciprocating	1	Overflight of active Cockerham Drop Zone by an Aquila AT01 at 2400ft. Second incident that afternoon by same a/c. ATC informed.	A/c underflew free fall skydivers.☐ CAA Closure: No further action possible due to elapsed time.
201106986	20/06/2011	EGTT : London (FIR)	Weston On The Green		G	Danger area	BELL	Turboshaft	1	Infringement of active Danger Area D129 (Weston on the Green) by a Bell 206 squawking 0036 at 1000ft during parachute operations.	Incorrect information was passed to the Bell 206 by BrizeNorton on the status of Weston on the Green. The error was quickly noticed and the controller notified Oxford and told them to advise the pilot. Oxford had already passed the status of D129 but as Oxford do not have radar, they were unaware that the a/c had entered the Danger Area. The pilot was requested to vacate immediately.
201107007	11/06/2011	EGTT : London (FIR)	Brize Norton		D	CTR	FLY BUY ULTRALIGHTS	Reciprocating	1	A C42 and another light a/c, possibly in formation, infringed the Brize Norton CTR (Class D).	
201107007	11/06/2011	EGTT : London (FIR)	Brize Norton		D	CTR	UNKNOWN	Unknown		A C42 and another light a/c, possibly in formation, infringed the Brize Norton CTR (Class D).	

201107008	23/01/2011	EGTT : London (FIR)	Brize Norton		D	CTR	PIPER	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a PA28 squawking 7000 at 1400ft. Standard separation maintained.	Brize controller was vectoring an inbound DC10 when the 7000 squawk was noticed. Oxford were contacted who confirmed that they had been working the a/c. The PA28 was contacted and put on an Easterly heading and sent to Brize on 119.0. As requested, the pilot made contact and a/c was identified, with Mode C indicating 1100ft. Brize gave a Northeasterly heading and, once the DC10 had landed, the PA28 was cleared to resume an Easterly heading direct to Oxford.
201107084	24/06/2011	EGTT : London (FIR)	Leeds Bradford (LBA)		D	CTR	GRUMMAN	Reciprocating	1	Infringement of the Leeds Bradford CTR (Class D) by a Grumman AA5 squawking 7000 at 2700ft. Inbound B737 broken off approach to R/W32. Standard separation maintained.	After establishing contact on 133.125, the a/c was instructed to take up a Westerly track to avoid R/W32 final approach and other a/c in the vicinity. Pilot then requested to land at Leeds with VFR joining clearance. ATC gave a position report. Pilot confirmed his position and was instructed to contact Tower on 120.3. A/c eventually landed on R/W32.
201107087	24/06/2011	EGTT : London (FIR)	London-Heathrow - LHR	NW	A	CTR	EVEKTOR AEROTECHNIK	Reciprocating	1	Infringement of the London CTR (Class A) by an EV97. All Heathrow Northbound departures were stopped, which increased ATC workload. Pilot was contacted and appropriate lessons have been learnt.	Traffic info given.
201107088	24/06/2011	EGTT : London (FIR)	Panshanger	3 N	D	CTA	PIPER	Reciprocating	1	Alleged infringement of the Luton CTR (Class D) by a PA28. Traffic info given to inbound A321. Standard separation maintained.	The a/c entered the zone North of Panshanger tracking North and was observed turning right, vacating the zone to the South of Stevenage. Following a telephone call to Panshanger, although not identified, the a/c was believed to be a PA28.
201107088	24/06/2011	EGTT : London (FIR)	Panshanger	3 N	D	CTA	AIRBUS	Turbofan	2	Alleged infringement of the Luton CTR (Class D) by a PA28. Traffic info given to inbound A321. Standard separation maintained.	The a/c entered the zone North of Panshanger tracking North and was observed turning right, vacating the zone to the South of Stevenage. Following a telephone call to Panshanger, although not identified, the a/c was believed to be a PA28.

201107090	24/06/2011	EGTT : London (FIR)	Saffron Walden		D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28 squawking 7000 with Mode C of 1700ft. Identified via Mode S. Standard separation maintained.	Blind transmission made, but no response. Sector split in anticipation of possible traffic disruption. Unknown a/c vacated on track to Duxford.
201107094	25/06/2011	EGTT : London (FIR)	Mayfield (MAY)	NE	A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA28 squawking 7000 with Mode C indicating 4400ft. CAIT activated. Traffic info given. Standard separation maintained.	A/c identified via Mode S. Pilot was aware of his position and acknowledges that he should have spoken with London Information or Farnborough earlier.
201107094	25/06/2011	EGTT : London (FIR)	Mayfield (MAY)	NE	A	TMA	AIRBUS	Turbofan	2	Infringement of the London TMA (Class A) by a PA28 squawking 7000 with Mode C indicating 4400ft. CAIT activated. Traffic info given. Standard separation maintained.	A/c identified via Mode S. Pilot was aware of his position and acknowledges that he should have spoken with London Information or Farnborough earlier.
201107096	25/06/2011	EGTT : London (FIR)	Bournemouth	NW	D	CTR	PIPER	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a PA28 squawking 7000. Traffic info and avoiding action given. Standard separation maintained.	Contact was observed tracking towards Compton Abbas and a/c identified
201107101	26/06/2011	EGTT : London (FIR)	Birmingham	11.2 S	D	CTA	OTHER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a Microlight squawking 7000 at 2300ft. Standard separation maintained.	Pilot had called requesting Basic Service and told to remain outside CAS. ATC then noticed that the a/c was inside CAS at 2300ft just Northeast of Snitterfield. Pilot informed and then warned that Snitterfield were active with gliding. ATC issued a squawk to identify him and gave transit clearance at his altitude. Pilot also warned that Hinton were active and pilot chose to free call Brize Radar.

201107103	22/06/2011	EGTT : London (FIR)	ORTAC		A	CTR	OTHER	Unknown		Infringement of the Channel Islands CTR (Class A) by a military a/c squawking 7000 at 400ft. Traffic info given to RV9 in vicinity. Standard separation maintained.	Telephone call to Plymouth Military ATC confirmed identity of the a/c, which had also infringed Danger Areas 13, 17and 23.
201107103	22/06/2011	EGTT : London (FIR)	ORTAC		A	CTR	VANS	Reciprocating	1	Infringement of the Channel Islands CTR (Class A) by a military a/c squawking 7000 at 400ft. Traffic info given to RV9 in vicinity. Standard separation maintained.	Telephone call to Plymouth Military ATC confirmed identity of the a/c, which had also infringed Danger Areas 13, 17and 23.
201107218	13/06/2011	EGTT : London (FIR)	Blackpool (BPL)		G	Danger area	PIPER	Reciprocating	1	Infringement of Danger Area EGD312 by a PA28 squawking 0452 with Mode C of 900ft. Traffic info and avoiding action given.	PA28 was being vectored for ILS approach to R/W28 at Blackpool and had been warned of the close proximity of Wartonairfield. He was subsequently reminded on being observed departing from the expected flightpath. On passing 1000ft and still descending, he was instructed to break off approach and to turn and climb, as it was clear he had commenced a descent for Warton. Pilot apologised.
201107282	26/06/2011	EGTT : London (FIR)	Southampton		D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by two C172s at 5000ft and 4500ft respectively. Southampton departures stopped. Traffic info and avoiding action given.	Standard separation maintained. Investigation ascertainedthat one of the pilots believed that a crossing clearancehad been given. □ CAA Closure: Appropriate advice given concerning VFR flights within UK airspace.
201107282	26/06/2011	EGTT : London (FIR)	Southampton		D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by two C172s at 5000ft and 4500ft respectively. Southampton departures stopped. Traffic info and avoiding action given.	Standard separation maintained. Investigation ascertainedthat one of the pilots believed that a crossing clearancehad been given. □ CAA Closure: Appropriate advice given concerning VFR flights within UK airspace.

201107328	19/06/2011	EGTT : London (FIR)	Wallasey (WAL)	16 W	A	TMA	CIRRUS	Reciprocating	1	Infringement of the Manchester TMA (Class A) by an SR20 at FL45. SR20 was initially unidentified and lost separation with an A319. Pilot has been given appropriate advice.	Although SR20's altitude encoder appears to be over-reading by approximately 200ft, an infringement still occurred.
201107328	19/06/2011	EGTT : London (FIR)	Wallasey (WAL)	16 W	A	TMA	AIRBUS	Turbofan	2	Infringement of the Manchester TMA (Class A) by an SR20 at FL45. SR20 was initially unidentified and lost separation with an A319. Pilot has been given appropriate advice.	Although SR20's altitude encoder appears to be over-reading by approximately 200ft, an infringement still occurred.
201107332	25/06/2011	EGTT : London (FIR)	Bovingdon (BNN)	3NW	A	TMA	FLIGHT DESIGN	Reciprocating	1	Infringement of the LTMA (Class A) by a CTSW at 3100ft (base 2500ft), 2nm Northwest of BNN.	Attempts by ATC to contact Microlight pilot unsuccessful. CAA Closure: No further CAA action considered practical.
201107351	30/06/2011	EGTT : London (FIR)	Birmingham	8 N	D	CTR	JODEL	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a Jodel DR1050 squawking 7000. A/c identified via Mode S. Disruption to departing traffic. Standard separation maintained.	It was subsequently established that the pilot had been maintaining a listening watch on 118.05 and had not realised that the LIC NDB was no longer there. Pilot followed a track East of Cannock Chase, which resulted in the infringement in the Northeast corner.
201107372	01/07/2011	EGTT : London (FIR)	Stansted	S	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by PA28. Standard separation maintained.	Pilot later explained that the infringement occurred whilst attempting to reassure his passenger and amend his flight plan after experiencing turbulence.

201107373	01/07/2011	EGTT : London (FIR)	Luton (LUT)		D	CTR	EUROPA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Europa. Departures were stopped until a/c had left the zone.	CAA Closure: Comprehensive follow up action taken by reporting unit and pilot.
201107387	01/07/2011	EGTT : London (FIR)	Biggin (BIG)	E	G	ATZ	PIPER	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by unknown aircraft, possibly a PA28. Standard separation maintained.	ATM fault at Biggin Hill was providing intermittent data,engineer was working on site to resolve problem. Squawk 3750 observed which was reported to Gatwick, who reported it as a VFR aircraft operating on a Basic Service in the FIR.
201107401	01/07/2011	EGTT : London (FIR)	London-Gatwick - LGW	12nm W	D	CTA	PIPER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a Piper PA28. Standard separation maintained.	A 7000 squawk was observed at 2300ft. FIN was required towork two departures and one was vectored to pass behind the infringer. The a/c later contacted the FIR controller.
201107403	30/06/2011	EGTT : London (FIR)	Southampton (SAM)	7nm N	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Piper PA18 (believed). Standard separation maintained.	A 7000 squawk infringed CAS at 1700alt. The contact then climbed to 1800alt and left CAS. The controller made blindcalls and a second controller telephoned all the adjacentunits without success.
201107411	01/07/2011	EGTT : London (FIR)	London City - LCY	E	D	CTA	CESSNA	Reciprocating	1	Infringement of the London City CTA (Class D) by a Cessna152. Standard separation maintained.	A/c identified through Mode S. Information received indicates that the a/c experienced a technical issue and the pilot subsequently contacted D&D. The operator was alerted, who took appropriate action.

201107433	02/07/2011	EGTT : London (FIR)	Stansted	10 nm W	Other	Restricted area	BEAGLE	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a Beagle 121 Pup. Standard separation maintained.	A/c left the North Weald circuit area squawking initially 7010 and then 7000. An inbound a/c was given a tighter circuit to stay clear of the offending traffic. No RT comms established.
201107438	02/07/2011	EGTT : London (FIR)	Rochester	5nm NW	A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a Piper PA28. Standard separation maintained. Traffic info and avoiding action given.	A/c working Farnborough LARS East under a Basic Service infringed the London TMA at 3000ft. Controller made several requests to a/c to descend. Pilot eventually responded and descended to 2400ft. Controller at LTCC gave traffic info and avoiding action to a FK50.
201107438	02/07/2011	EGTT : London (FIR)	Rochester	5nm NW	A	TMA	FOKKER	Turboprop	2	Infringement of the London TMA (Class A) by a Piper PA28. Standard separation maintained. Traffic info and avoiding action given.	A/c working Farnborough LARS East under a Basic Service infringed the London TMA at 3000ft. Controller made several requests to a/c to descend. Pilot eventually responded and descended to 2400ft. Controller at LTCC gave traffic info and avoiding action to a FK50.
201107442	02/07/2011	EGTT : London (FIR)	Southampton (SAM)		D	CTR	CYCLONE AIRSPORTS	Reciprocating	1	Quik GT450 infringed the Southampton CTR (Class D) and lost separation with an outbound EMB195. A/c left CAS, but later infringed the Solent CTA (Class D) and lost separation with a Trislander.	Traffic info and avoiding action was given to EMB195 and Trislander. CAA Closure: Due to the time elapsed since this incident no further investigation is deemed possible.
201107442	02/07/2011	EGTT : London (FIR)	Southampton (SAM)		D	CTR	EMBRAER	Turbofan	2	Quik GT450 infringed the Southampton CTR (Class D) and lost separation with an outbound EMB195. A/c left CAS, but later infringed the Solent CTA (Class D) and lost separation with a Trislander.	Traffic info and avoiding action was given to EMB195 and Trislander. CAA Closure: Due to the time elapsed since this incident no further investigation is deemed possible.

201107444	03/07/2011	EGTT : London (FIR)	London-Gatwick - LGW	13 W	D	CTA	VANS	Reciprocating	1	Unidentified a/c twice infringed the Gatwick CTA (Class D). Traffic info given. A/c subsequently identified as an RV4.	
201107448	02/07/2011	EGTT : London (FIR)	Southampton (SAM)	7 SE	A	CTR	AEROSPATIALE	Turboshaft	1	Unidentified a/c infringed the Southampton CTR/CTA (ClassD) and lost separation with an inbound DHC8. A/c subsequently identified.	Pilot navigational error.ⓘ CAA Closure: Pilot advised andsent airspace safety-related material and online resources to prevent recurrence.
201107448	02/07/2011	EGTT : London (FIR)	Southampton (SAM)	7 SE	A	CTR	DE HAVILLAND	Turboprop	2	Unidentified a/c infringed the Southampton CTR/CTA (ClassD) and lost separation with an inbound DHC8. A/c subsequently identified.	Pilot navigational error.ⓘ CAA Closure: Pilot advised andsent airspace safety-related material and online resources to prevent recurrence.
201107472	30/06/2011	EGTT : London (FIR)	Stanford		G	Danger area	CIRRUS	Reciprocating	1	UK AIRPROX 2011/065 - Extra 300 and SR20 in the Stanta Range at 2500ft.	SR20 infringed Danger Area EG D208 (Stanford) in the middle of a NOTAMed exercise and came into conflict with the Extra 300.
201107472	30/06/2011	EGTT : London (FIR)	Stanford		G	Danger area	EXTRA	Reciprocating	1	UK AIRPROX 2011/065 - Extra 300 and SR20 in the Stanta Range at 2500ft.	SR20 infringed Danger Area EG D208 (Stanford) in the middle of a NOTAMed exercise and came into conflict with the Extra 300.

201107477	02/07/2011	EGTT : London (FIR)	Liverpool	12 NE	D	CTR	FLY BUY ULTRALIGHTS	Reciprocating	1	Infringement of the Liverpool CTR (Class D) by a Microlight squawking 7000 observed at 2000ft, near Ashton, tracking Southwest. Standard separation maintained.	The a/c was tracked into Ince Blundell who confirmed that it was a visiting a/c. As requested, pilot called Liverpool and apologised. He was undertaking his first solo crosscountry flight and, on seeing the Cathedrals, had realised his error. ATC advised that he must contact ATC for assistance if he gets lost.
201107480	02/07/2011	EGTT : London (FIR)	Bournemouth	8 NE	D	CTR	INIZIATIVE	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a Sky Arrow 650 on listening squawk indicating 1800ft. Avoiding action given. Standard separation maintained.	The a/c had called 'a/c on listening squawk' several times, but no response. Southampton Radar were contacted and confirmed that the a/c was on their frequency. A/c was instructed to squawk 3650.
201107582	05/07/2011	EGTT : London (FIR)	Biggin (BIG)	10nm W	A	CTR	CESSNA	Reciprocating	1	Infringement of the London Heathrow CTR (Class A) by a Cessna 152. Pilot fully alerted.	Pilot later reported the infringement was due to poor pre-flight planning and misidentifying Banstead.
201107583	05/07/2011	EGTT : London (FIR)	Heathrow CTR		A	CTR	PIPER	Reciprocating	1	Infringement of the London Heathrow CTR (Class A) by a Piper PA28.	A/c receiving a BS from Farnborough. Pilot was informed of the infringement and was given advice to ROCAS.
201107593	03/07/2011	EGTT : London (FIR)	UPTON	8nm W	A		CIRRUS	Reciprocating	1	UK AIRPROX 2011/071 - PA42 and SR22, 8nm W of Upton at FL60.	VFR SR22 entered Airway L975 (Class A) without coordination and lost separation with an IFR PA42. Investigation established that the Doncaster Approach controller allowed the SR22 to enter CAS without obtaining the appropriate clearance from the Prestwick North Sector or instructing the SR22 to remain clear. The PA42 was then transferred to Leeds Radar iaw the agreed release but in conflict with the SR22. The North Sector controllers had not assimilated the unauthorised presence of the SR22 before transferring the PA42, possibly due to being distracted. Once communication had been established with the PA42, the Leeds Radar controller turned the PA42 away from the SR22 and coordinated handover of the SR22 from Doncaster Approach. CAA Closure: Following this incident, Leeds controllers have been instructed to no longer accept inbound a/c routeing to the "centre fix", while formalisation of Leeds-Bradford/Doncaster coordination procedures have been proposed. Additionally, a/c conflicts are to be incorporated into TRUCE training to improve controller use of avoiding action. At Doncaster, a standards bulletin has been produced reminding all controllers to instruct a/c to remain outside CAS. This AIRPROX will be subject to a separate review by the United Kingdom AIRPROX Board (UKAB).

201107593	03/07/2011	EGTT : London (FIR)	UPTON	8nm W	A		PIPER	Turboprop	2	UK AIRPROX 2011/071 - PA42 and SR22, 8nm W of Upton at FL60.	VFR SR22 entered Airway L975 (Class A) without coordination and lost separation with an IFR PA42. Investigation established that the Doncaster Approach controller allowed the SR22 to enter CAS without obtaining the appropriate clearance from the Prestwick North Sector or instructing the SR22 to remain clear. The PA42 was then transferred to Leeds Radar iaw the agreed release but in conflict with the SR22. The North Sector controllers had not assimilated the unauthorised presence of the SR22 before transferring the PA42, possibly due to being distracted. Once communication had been established with the PA42, the Leeds Radar controller turned the PA42 away from the SR22 and coordinated handover of the SR22 from Doncaster Approach.□ CAA Closure: Following this incident, Leeds controllers have been instructed to no longer accept inbound a/c routeing to the "centre fix", while formalisation of Leeds-Bradford/Doncaster coordination procedures have been proposed. Additionally, a/c conflicts are to be incorporated into TRUCE training to improve controller use of avoiding action. At Doncaster, a standards bulletin has been produced reminding all controllers to instruct a/c to remain outside CAS. This AIRPROX will be subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
201107594	05/07/2011	EGTT : London (FIR)	Stansted		G	Restrict ed area	CESSNA	Reciprocating	1	Infringement of the Stansted TMZ1 (Class G) by a C152 squawking 7000 with no Mode C. SSR subsequently turned off. Traffic info given. Standard separation maintained.	Disruption to inbound commercial traffic. Andrewsfield identified the a/c with a student pilot. The a/c had correctly entered the TMZ squawking 7000 (with Mode C). The student then attempted to change to the listening squawk of 0013, but failed to switch the transponder out of standby after doing so. Consequently, the a/c became a primary only return with the TMZ. The student was aware of the TMZ procedures and was attempting to follow the correct procedure. A full debrief will be undertaken by the CFI.
201107594	05/07/2011	EGTT : London (FIR)	Stansted		G	Restrict ed area	AIRBUS	Turbofan	2	Infringement of the Stansted TMZ1 (Class G) by a C152 squawking 7000 with no Mode C. SSR subsequently turned off. Traffic info given. Standard separation maintained.	Disruption to inbound commercial traffic. Andrewsfield identified the a/c with a student pilot. The a/c had correctly entered the TMZ squawking 7000 (with Mode C). The student then attempted to change to the listening squawk of 0013, but failed to switch the transponder out of standby after doing so. Consequently, the a/c became a primary only return with the TMZ. The student was aware of the TMZ procedures and was attempting to follow the correct procedure. A full debrief will be undertaken by the CFI.
201107595	03/07/2011	EGTT : London (FIR)	Hawarden	3nm W	A	TMA	EUROPA	Reciprocating	1	Infringement of the Manchester TMA (Class A) by a Europa.	Pilot later reported he would be refreshing his navigational skills training.
201107625	03/07/2011	EGTT : London (FIR)	Hinton in the Hedges				ROBINSON	Reciprocating	1	R44 failed to comply with ATC instructions and entered the active Hinton drop zone, then disregarded landing instruction and landed in the car park. Also, after landing, pilot kept rotors turning.	

201107631	06/07/2011	EGTT : London (FIR)	London-Gatwick - LGW		D	CTR	GRUMMAN	Reciprocating	1	AA5 became lost in bad weather and infringed the Gatwick CTR (Class D) resulting in a loss of separation with an inbound A320. An inbound C560 was extended downwind until AA5 left CAS.	CAA Closure: AA5 in receipt of a service from Farnboroughbecame lost in poor weather and inadvertently entered theGatwick CTR. No further investigation deemed necessary.
201107631	06/07/2011	EGTT : London (FIR)	London-Gatwick - LGW		D	CTR	AIRBUS	Turbofan	2	AA5 became lost in bad weather and infringed the Gatwick CTR (Class D) resulting in a loss of separation with an inbound A320. An inbound C560 was extended downwind until AA5 left CAS.	CAA Closure: AA5 in receipt of a service from Farnboroughbecame lost in poor weather and inadvertently entered theGatwick CTR. No further investigation deemed necessary.
201107669	05/07/2011	EGTT : London (FIR)	Birmingham	8nm N	D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C152. Traffic info given.	Birmingham ATC alerted D&D regarding C152. East Midlandsidentified the a/c and gave it navigational assistance. Pilot's report later received stated that hazy weather conditions had made visibility extremely limited and the pilotcould not recognise any ground features.
201107708	02/07/2011	EGTT : London (FIR)	Brize Norton	5.9nm W	D	CTR	PIPER	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a PiperL18C. Traffic info given.	Controller asked pilot if he was aware he was in Brize Norton CTR. Pilot confirmed he knew but stated he believed his headset was unserviceable as he had tried to call but had heard nothing. Infringer issued with CTR crossing whichhe adhered to. Pilot believed the airspace was cold, however, he was reminded that Brize Norton CTR is a 24 hour operation.
201107708	02/07/2011	EGTT : London (FIR)	Brize Norton	5.9nm W	D	CTR	UNKNOWN	Unknown		Infringement of the Brize Norton CTR (Class D) by a PiperL18C. Traffic info given.	Controller asked pilot if he was aware he was in Brize Norton CTR. Pilot confirmed he knew but stated he believed his headset was unserviceable as he had tried to call but had heard nothing. Infringer issued with CTR crossing whichhe adhered to. Pilot believed the airspace was cold, however, he was reminded that Brize Norton CTR is a 24 hour operation.

201107734	07/07/2011	EGTT : London (FIR)	Daresbury	2nm SE	D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by PA28 on a Basic Service.	A/c transiting the northbound LLC infringed the Manchester CTR. A/c instructed to turn West, left CTR and re-entered the LLC.
201107759	30/06/2011	EGTT : London (FIR)	Larkhill	D123	G	Danger area	CESSNA	Reciprocating	1	Infringement of Danger Area D123 Larkhill by a C172. Danger area active up to 3000ft with live firing. Pilot was contacted, who apologised and was suitably debriefed.	
201107760	01/07/2011	EGTT : London (FIR)	Larkhill	D125	G	Danger area	CESSNA	Reciprocating	1	Alleged infringement of Danger Area D125 Larkhill by a C182 indicating approximately 4000ft. Live firing in progress.	
201107779	03/07/2011	EGTT : London (FIR)	Southampton (SAM)	11nm SW	D	CTA	ROBINSON	Reciprocating	1	Infringement of the Solent CTA (Class D) by an R44. Blindcall made and responded to.	
201107786	09/07/2011	EGTT : London (FIR)	Bristol International		D	CTA	OTHER	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a TL3000 Sirius squawking 7000. Traffic info given. Departures delayed. A/c later identified by Mode S from Cardiff Radar.	

201107787	05/07/2011	EGTT : London (FIR)	Coventry	3nm SW	D	CTA	CESSNA	Reciprocating	1	Infringement of Birmingham CTA (Class D) by a C152 squawking 7000. Blind call made with no response received. No traffic affected. Standard separation maintained.	Pilot later reported he had turned back on his course to enable him to avoid bad weather and maintain VFR. Pilot also stated that he did not anticipate drift at 2000ft and felt that the VFR charts were also not very clear.
201107788	09/07/2011	EGTT : London (FIR)	Belmarsh		D	Restrict ed area	ROBINSON	Reciprocating	1	R44 indicating 1600ft infringed the Belmarsh Restricted Area. Pilot advised of error and took immediate action to leave the area. Pilot apologised for incident blaming a short lapse of concentration.	Belmarsh were notified of incident a soon as ATC could contact them on the phone.☹️ CAA Closure: The pilot contactedthe unit afterwards and apologised.
201107796	02/07/2011	EGTT : London (FIR)	Stansted	12nm NNE	D	CTA	ROBINSON	Reciprocating	1	Infringement of the Stansted CTA (Class D) by an R44. ATCidentified R44 using Mode S. No traffic delayed.	
201107802	10/07/2011	EGTT : London (FIR)	Stansted	10nm NE	D	CTA	STODDARD HAMILTON	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Glasair. Inbound flights delayed. Standard separation maintained.	Stansted received a call from Farnborough LARS who informed them they were providing BS to the infringer and had subsequently asked infringer to descend outside CAS.
201107802	10/07/2011	EGTT : London (FIR)	Stansted	10nm NE	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a Glasair. Inbound flights delayed. Standard separation maintained.	Stansted received a call from Farnborough LARS who informed them they were providing BS to the infringer and had subsequently asked infringer to descend outside CAS.

201107860	05/07/2011	EGTT : London (FIR)	Nottingham East Midlands	11NE	D	CTA	GROB	Reciprocating	1	Infringement of the East Midlands CTA (Class D) by a GrobG115. Traffic info given.	A/c being vectored for an ILS approach was stopped and vectored to remain clear of the infringer.
201107872	08/07/2011	EGTT : London (FIR)	Brize Norton		D	CTR	ROBINSON	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by an R44.Traffic info given. Standard separation maintained.	Traffic info given to an inbound military a/c. R44 pilot later stated to LARS controller that he believed he was outside of the Brize Norton CTR and remaining clear. He was advised otherwise by LARS controller.
201107872	08/07/2011	EGTT : London (FIR)	Brize Norton		D	CTR	OTHER	Unknown		Infringement of the Brize Norton CTR (Class D) by an R44.Traffic info given. Standard separation maintained.	Traffic info given to an inbound military a/c. R44 pilot later stated to LARS controller that he believed he was outside of the Brize Norton CTR and remaining clear. He was advised otherwise by LARS controller.
201107885	10/07/2011	EGTT : London (FIR)	Stansted	9nm NE	Other	Other	PIPER	Reciprocating	1	Infringement of the Stansted TMZ 1 (Class G) by a Piper PA28 squawking 7000. Traffic info and avoiding action given.	ATC vectored an inbound A321 away from infringing a/c. Infringer identified by Mode S. ATC contacted Duxford who were working the infringer to advise them a/c was infringingthe TMZ and to ask the pilot to put Mode C on.
201107885	10/07/2011	EGTT : London (FIR)	Stansted	9nm NE	Other	Other	AIRBUS	Turbofan	2	Infringement of the Stansted TMZ 1 (Class G) by a Piper PA28 squawking 7000. Traffic info and avoiding action given.	ATC vectored an inbound A321 away from infringing a/c. Infringer identified by Mode S. ATC contacted Duxford who were working the infringer to advise them a/c was infringingthe TMZ and to ask the pilot to put Mode C on.

201107886	11/07/2011	EGTT : London (FIR)	London City - LCY	14 E	A	TMA	RUTAN	Reciprocating	1	Rutan Longeze infringed the LTMA (Class A) and lost separation with a FK50 outbound from London City, which was given traffic info and avoiding action. Subsequent departureswere stopped.	CAA Closure: No further CAA action due to the elapsed time involved.
201107886	11/07/2011	EGTT : London (FIR)	London City - LCY	14 E	A	TMA	FOKKER	Turboprop	2	Rutan Longeze infringed the LTMA (Class A) and lost separation with a FK50 outbound from London City, which was given traffic info and avoiding action. Subsequent departureswere stopped.	CAA Closure: No further CAA action due to the elapsed time involved.
201107887	11/07/2011	EGTT : London (FIR)	Stansted	SE	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28. Traffic info given. Separation loss with an inbound B737.	PA28 pilot later reported that he had made a noise abatement turn to right and subsequently travelled further West than intended. Pilot also reported he should have had beenbetter prepared to join the circuit and aware of the traffic in it before departure.
201107887	11/07/2011	EGTT : London (FIR)	Stansted	SE	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a PA28. Traffic info given. Separation loss with an inbound B737.	PA28 pilot later reported that he had made a noise abatement turn to right and subsequently travelled further West than intended. Pilot also reported he should have had beenbetter prepared to join the circuit and aware of the traffic in it before departure.
201107891	11/07/2011	EGTT : London (FIR)	Stansted		Other	Other	MORANE SAULNIER	Reciprocating	1	Infringement of the Stansted TMZ 1 (Class G) by an MS Rallye. Avoiding action given to a departing B737. Standard separation maintained.	Infringer identified by Mode S, ATC tried to make contactwith no response. B737 was turned left on departure.

201107891	11/07/2011	EGTT : London (FIR)	Stansted		Other	Other	BOEING	Turbofan	2	Infringement of the Stansted TMZ 1 (Class G) by an MS Rallye. Avoiding action given to a departing B737. Standard separation maintained.	Infringer identified by Mode S, ATC tried to make contactwith no response. B737 was turned left on departure.
201107908	11/07/2011	EGTT : London (FIR)	North Weald		D	CTA	MOONEY	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Mooney 20. A/c identified by Mode S.	
201107933	12/07/2011	EGTT : London (FIR)	Stansted	8nm SW	Other	Other	BELL	Turboshaft	1	Infringement of Stansted TMZ 2 (Class G) by a Bell 206. Traffic info given. Delays caused to other a/c.	Traffic info given to inbound A319. Delays caused to a subsequent B737 and B777 (which also received avoiding action). The Bell 206 pilot later reported that he inadvertently failed to switch on the transponder and the a/c departedwith a known flat battery.
201107933	12/07/2011	EGTT : London (FIR)	Stansted	8nm SW	Other	Other	AIRBUS	Turbofan	2	Infringement of Stansted TMZ 2 (Class G) by a Bell 206. Traffic info given. Delays caused to other a/c.	Traffic info given to inbound A319. Delays caused to a subsequent B737 and B777 (which also received avoiding action). The Bell 206 pilot later reported that he inadvertently failed to switch on the transponder and the a/c departedwith a known flat battery.
201107969	13/07/2011	EGTT : London (FIR)	Stansted	12nm WSW	Other	Other		Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a CZAW Sportcruiser. Slight delay to some inbound a/c.	Several attempts made to contact a/c, no response until a/c squawked RT fail. Further attempts made to contact a/c,pilot responded he had radio problems. The pilot was advised by the controller to ensure that the a/c remained outside the TMZ or CAS should a similar future event occur.

201107994	11/07/2011	EGTT : London (FIR)	Wyton		G	ATZ	OTHER	Reciprocating	1	Infringement of the Wyton ATZ (Class G) by a Motor Glider. Traffic info given.	Glider seen at end of downwind leg for R/W26 RH. No contact with ATC. Pilot then called Wyton approach to report having problems and was too difficult to talk. Glider observed setting course Northwest at approx 800ft. Glider called again, informing the controller he was landing on R/W15. Traffic on final to R/W26 RH was sent around. Glider then appeared to deploy engine, climb and depart. Pilot later reported he had instrument problems.
201108000	13/07/2011	EGTT : London (FIR)	VATRY	21 nm NNW	Other	Other	OTHER	Reciprocating	1	Infringement of the West Wales Danger Area (D201) by a TL3000 Sirius squawking 7000.	Controller heard garbled call on DAAIS frequency. Repeat transmissions requested, no response. A/c tracked Easterly into D201. Controller asked filter desk operative to call Dublin to try to id a/c. Dublin reported a/c had been instructed to remain clear of D201 and to contact Aberporth. RAF Valley ATC had also instructed a/c to do the same.
201108057	14/07/2011	EGTT : London (FIR)	Shrivenham		Other	Restricted area	SIAMARCHETTI	Reciprocating	1	Infringement of the Red Arrows RA(T) by an SF260. Display halted.	CAA Closure: Appropriate CAA action taken.
201108057	14/07/2011	EGTT : London (FIR)	Shrivenham		Other	Restricted area	OTHER	Unknown		Infringement of the Red Arrows RA(T) by an SF260. Display halted.	CAA Closure: Appropriate CAA action taken.
201108068	15/07/2011	EGTT : London (FIR)	Southampton (SAM)	4 E	D	CTR	PIPER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a PA38 at 1000ft. Standard separation maintained.	Pilot error acknowledged.

201108129	17/07/2011	EGTT : London (FIR)	Brize Norton		D	CTR	PIPER	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a PA28 at 3000ft. Standard separation maintained.	
201108171	18/07/2011	EGTT : London (FIR)	Clacton (CLN)	10 NE	A	CTA	BEECH	Reciprocating	1	Infringement of the Clacton CTA (Class A) by a BE33 on listening squawking 0013 at FL68. Standard separation maintained.	Two blind transmissions were made. No response. Squawk then seen to change to 7000. A/c tracked by Essex Radar intoElstree.☐ CAA Closure: No further CAA action due to the elapsed time involved.
201108298	20/07/2011	EGTT : London (FIR)	Birmingham	13 S	D	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a PA28 squawking 4262 at 3800ft. Separation lost with a PA31. Checkall enforced. Three outbounds given extended routeings. Avoiding action given.	Pilot had been avoiding weather and had strayed further North than expected.☐ CAA Closure: Proactive measures takenby ATC and appropriate follow up action taken.
201108298	20/07/2011	EGTT : London (FIR)	Birmingham	13 S	D	CTR	PIPER	Reciprocating	2	Infringement of the Birmingham CTR (Class D) by a PA28 squawking 4262 at 3800ft. Separation lost with a PA31. Checkall enforced. Three outbounds given extended routeings. Avoiding action given.	Pilot had been avoiding weather and had strayed further North than expected.☐ CAA Closure: Proactive measures takenby ATC and appropriate follow up action taken.
201108333	15/07/2011	EGTT : London (FIR)	Fairford	5 N	G	Restrict ed area	AVIONS ROBIN	Reciprocating	1	Infringement of the Fairford RA(T) by a Robin 400 at 3800ft. Standard separation maintained.	Pilot subsequently advised of incident by ATC.

201108373	20/07/2011	EGTT : London (FIR)	London City - LCY	9 NE	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 squawking 7000 at 3300ft, resulting in a loss of separation against aninbound FK50. STCA activated. Traffic info and avoiding action given.	CAA Closure: Comprehensive follow up action taken by reporting unit and pilot.
201108373	20/07/2011	EGTT : London (FIR)	London City - LCY	9 NE	A	TMA	FOKKER	Turboprop	2	Infringement of the LTMA (Class A) by a PA28 squawking 7000 at 3300ft, resulting in a loss of separation against aninbound FK50. STCA activated. Traffic info and avoiding action given.	CAA Closure: Comprehensive follow up action taken by reporting unit and pilot.
201108382	19/07/2011	EGTT : London (FIR)	Cookham	1 N	A	CTR	ROBINSON	Reciprocating	1	Infringement of the London CTR (Class A) by an R22 squawking 7000 displaying 1700ft on Mode C. Heathrow Northbound departures suspended for 2mins. Standard separation maintained.	A/c contacted White Waltham and identified with squawk 7045. □ CAA Closure: No further CAA action due to the elapsedtime involved.
201108447	22/07/2011	EGTT : London (FIR)	London-Heathrow - LHR	8 W	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA/Heathrow CTR (Class A) by a C172. Separation lost with an A319 inbound to Heathrow. Traffic info and avoiding action given.	Appropriate CAA action is be taken as a result of this incident.
201108447	22/07/2011	EGTT : London (FIR)	London-Heathrow - LHR	8 W	A	TMA	AIRBUS	Turbofan	2	Infringement of the LTMA/Heathrow CTR (Class A) by a C172. Separation lost with an A319 inbound to Heathrow. Traffic info and avoiding action given.	Appropriate CAA action is be taken as a result of this incident.

201108449	14/07/2011	EGTT : London (FIR)	Fairford RA (T) (Gloucestershi		Other	Restrict ed area	OTHER	Reciprocating	1	Infringement of the Fairford RA (T) by a Pioneer 300. Traffic info given. Standard separation maintained.	Pioneer 300 free called Brize ATC requesting a BS. Subsequent communications between Brize ATC and the pilot established that the pilot was unaware they had infringed the active Fairford RA (T). Appropriate ATC advice was given. Pilot apologised.
201108451	22/07/2011	EGTT : London (FIR)	Brize Norton (Oxfordshire)		D	CTR	SUPERMARINE	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a Spitfire inbound to Oxford. Standard separation maintained.	Brize ATC requested Oxford ATC to inform pilot of infringement.
201108456	22/07/2011	EGTT : London (FIR)	Brize Norton	10.1nm E	D	CTR	PIPER	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a PA46 squawking 7000. Traffic info given. Standard separation maintained.	ATC spoke with PA46 pilot on landing at Oxford. The pilotstated that he was told to join RW01 at Oxford, right base, and then to report 5DME. He understood this to mean 5DME on the extended centreline, rather than 5nm from Oxford airfield.
201108456	22/07/2011	EGTT : London (FIR)	Brize Norton	10.1nm E	D	CTR	BELL	Turboshaft	1	Infringement of the Brize Norton CTR (Class D) by a PA46 squawking 7000. Traffic info given. Standard separation maintained.	ATC spoke with PA46 pilot on landing at Oxford. The pilotstated that he was told to join RW01 at Oxford, right base, and then to report 5DME. He understood this to mean 5DME on the extended centreline, rather than 5nm from Oxford airfield.
201108457	23/07/2011	EGTT : London (FIR)	Denham		A	CTR	WESTLAND	Turboshaft	1	Infringement of the London CTR (Class A) by a Gazelle squawking 7000.	LTCC called Denham but they had no knowledge of the infringer. The a/c was identified on landing at Stapleford. Pilot later reported he was on the Stapleford frequency but had deviated from his planned route, entering the London CTR unknowingly. Pilot acknowledged he should have used a different frequency, or maintained his planned route.

201108460	23/07/2011	EGTT : London (FIR)	Luton (LUT)	NW	D	CTR	OTHER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Katana DV20 squawking 7000 at 2500ft. Check all placed with the Tower.Standard separation maintained.	During the infringement the a/c displayed RT fail. The a/c turned away then briefly lost its transponder before heading back into CAS. Pilot became distracted when attempting to rectify the RT fail.
201108469	23/07/2011	EGTT : London (FIR)	Stansted	12 W	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTA / CTR (Class D) by a C150 at 2000ft. Standard separation maintained.	Student pilot error acknowledged and appropriate remedialaction taken.
201108479	22/07/2011	EGTT : London (FIR)	Stansted	NE	Other	Restrictedd area	AEROSPATIALE	Turboshaft	1	Infringements of the Stansted TMZ1/2 by an AS350B and twofurther unknown a/c. Inbound a/c given extended vectors.	Infringements occurred in quick succession resulting in increased controller workload.
201108479	22/07/2011	EGTT : London (FIR)	Stansted	NE	Other	Restrictedd area	UNKNOWN	Unknown		Infringements of the Stansted TMZ1/2 by an AS350B and twofurther unknown a/c. Inbound a/c given extended vectors.	Infringements occurred in quick succession resulting in increased controller workload.
201108487	24/07/2011	EGTT : London (FIR)	Stansted	SW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C150. Standard separation maintained.	A/c Mode C transponder discrepancy was evident although the a/c had infringed the CTA. Pilot error acknowledged.

201108491	21/07/2011	EGTT : London (FIR)	London-Heathrow - LHR	NW	A	CTR	ROBINSON	Reciprocating	1	Infringement of the London CTR (Class A) by an R44 at 2100ft. Standard separation maintained.	A/c identified via Mode S.
201108506	23/07/2011	EGTT : London (FIR)	Barkway (BKY)		A	TMA	PIPER	Reciprocating	1	Alleged infringement of the LTMA (Class A) by a PA28. B757 inbound to Luton was given traffic info and avoiding action. Due to PA28 being initially unidentified separation was lost with B757.	Appropriate CAA action being taken.
201108506	23/07/2011	EGTT : London (FIR)	Barkway (BKY)		A	TMA	BOEING	Turbofan	2	Alleged infringement of the LTMA (Class A) by a PA28. B757 inbound to Luton was given traffic info and avoiding action. Due to PA28 being initially unidentified separation was lost with B757.	Appropriate CAA action being taken.
201108528	21/07/2011	EGTT : London (FIR)	Exeter		G	ATZ	AVIONS ROBIN	Reciprocating	1	Alleged infringement of the Exeter ATZ (Class G) by a Robin 2100 at 2000ft. Traffic info given.	
201108566	26/07/2011	EGTT : London (FIR)	Denham	4 W	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C152 squawking 7000. Standard separation maintained.	Pilot's GPS unit failed allowing the a/c to enter CAS. Pilot error acknowledged.

201108590	26/07/2011	EGTT : London (FIR)	Brize Norton		D	CTR	PIPER	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a PA28 squawking 7000 with Mode C indicating 1000ft. Separation lost against an a/c on a procedural approach to R/W08.	PA28 was tracked and landed at Kemble airfield. The pilotcontacted ATC upon landing at Kemble and they advised himof the infringement. Pilot stated that he was visual withthe other a/c concerned and was general handling in the area. Pilot apologised and advised to plan sorties further away from the Brize CTR boundary.□ CAA Closure: No furtherCAA action at this time.
201108590	26/07/2011	EGTT : London (FIR)	Brize Norton		D	CTR	LOCKHEED	Turbofan	3	Infringement of the Brize Norton CTR (Class D) by a PA28 squawking 7000 with Mode C indicating 1000ft. Separation lost against an a/c on a procedural approach to R/W08.	PA28 was tracked and landed at Kemble airfield. The pilotcontacted ATC upon landing at Kemble and they advised himof the infringement. Pilot stated that he was visual withthe other a/c concerned and was general handling in the area. Pilot apologised and advised to plan sorties further away from the Brize CTR boundary.□ CAA Closure: No furtherCAA action at this time.
201108592	23/07/2011	EGTT : London (FIR)	Nottingham East Midlands		D	CTA	CESSNA	Reciprocating	1	Infringement of the East Midlands CTA (Class D) by an unknown a/c at 2800ft. Standard separation maintained.	A/c identified as a C152 type by another pilot.
201108593	24/07/2011	EGTT : London (FIR)	Denham		A	CTR	PIPER	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a PA28 squawking 7000 at 2300ft. Standard separation maintained.	Pilot became distracted when resolving a low speed indication (blocked pitot) and consequently flew off course. Pilot apologised for his error.
201108593	24/07/2011	EGTT : London (FIR)	Denham		A	CTR	UNKNOWN	Unknown		Infringement of the Heathrow CTR (Class A) by a PA28 squawking 7000 at 2300ft. Standard separation maintained.	Pilot became distracted when resolving a low speed indication (blocked pitot) and consequently flew off course. Pilot apologised for his error.

201108596	25/07/2011	EGTT : London (FIR)	Luton (LUT)	5 N	D	CTR	FLY BUY ULTRALIGHTS	Reciprocating	1	Infringement of the Luton CTR (Class D) by a primary onlycontact. Standard separation maintained.	A/c subsequently identified as an Ikarus C42. Pilot error(navigation) acknowledged.
201108597	24/07/2011	EGTT : London (FIR)	Stansted	SW	D	CTA	WESTLAND	Turboshaft	1	Alleged infringement of the Stansted CTA (Class D) by a Gazelle squawking 7000 with Mode C indicating 2000ft. Standard separation maintained.	
201108598	22/07/2011	EGTT : London (FIR)	Nottingham East Midlands	12 SE	D	CTA	MOONEY	Reciprocating	1	Infringement of the East Midlands CTA (Class D) by a Mooney 20 at 3500ft. Standard separation maintained.	Pilot had previously requested a transit clearance and was instructed to remain outside CAS. A/c continued northbound and was identified inside CAS when the pilot asked if he was cleared to transit. A/c instructed to descend immediately, which was complied with.
201108645	27/07/2011	EGTT : London (FIR)	Bagshot - Blackbushe		A		AVIONS ROBIN	Reciprocating	1	DR400 called ATC requesting a BS and told to remain outside CAS until identified. When DR400 was identified, it wasobserved to be infringing CAS-T indicating 1400ft.	CAA Closure: Due to the time elapsed since this incident no further investigation is deemed feasible.
201108653	11/07/2011	EGTT : London (FIR)	EGD 123		G	Danger area		Reciprocating	1	Infringement of active Danger Area D123 Imber by a Calidus at an indicated 1800ft, live firing in progress.	The pilot subsequently rang after landing and stated thathe was unfamiliar with the area and had become uncertain of his position. The pilot apologised and was debriefed.

201108665	27/07/2011	EGTT : London (FIR)	Manchester (MCT)	Thelwall	D	CTR	FLY BUY ULTRALIGHTS	Reciprocating	1	Infringement of the Manchester CTR (Class D) by an IkarusC42 at 1300ft. Standard separation maintained.	
201108667	27/07/2011	EGTT : London (FIR)	Daventry (DTY)	10 N	Other	Other	CIRRUS	Reciprocating	1	Infringement of the active Husbands Bosworth gliding zoneby an SR22. Pilot informed the area was active. When SR22vacated the zone it was issued a CAS joining clearance. Traffic info given.	NOTAM H3292/11 refers to active zone.
201108736	23/07/2011	EGTT : London (FIR)	Hinton in the Hedges		Other	Other	CIRRUS	Reciprocating	1	Overflight of active Hinton drop zone by an SR20 in cruise at 3000ft. A/c flew under parachutists in freefall. Pilot warned of active parachute dropping.	Student pilot receiving Cirrus training overflew Hinton in the Hedges active DZ causing parachutist to deploy canopy. Pilot had been warned by Turweston that Para DZ was active. Pilot contacted para school from Bournemouth.The rootcause was a navigational error. ☐ CAA Closure: The Cirrus school has been requested to pass occurrence info on to pilot and to specifically warn pilots of the proximity of Hinton-in the Hedges as a permanantly notified DZ. AIP ENR 5.5 entry details passed on including hours of op and contact freqs.
201108785	30/07/2011	EGTT : London (FIR)	Luton (LUT)	NW	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 at 2700ft. Standard separation maintained.	The pilot has been fully alerted to this incident.
201108799	31/07/2011	EGTT : London (FIR)	London-Heathrow - LHR	NW	A	CTR	PIPER	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a PA28 squawking 7000 indicating 1900ft. CAIT activated. Heathrow Northbound departures stopped for approx 3mins. Standard separation maintained.	CAA Closure: Comprehensive follow up action taken by reporting unit and pilot.

201108801	31/07/2011	EGTT : London (FIR)	Barkway (BKY)	3 NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 3000ft. Traffic info and avoiding action given to a Luton inbound DHC8. Standard separation maintained.	PA28 vacated CAS and contacted Farnborough LARS.
201108801	31/07/2011	EGTT : London (FIR)	Barkway (BKY)	3 NE	D	CTA	DE HAVILLAND	Turboprop	2	Infringement of the Stansted CTA (Class D) by a PA28 at 3000ft. Traffic info and avoiding action given to a Luton inbound DHC8. Standard separation maintained.	PA28 vacated CAS and contacted Farnborough LARS.
201108803	30/07/2011	EGTT : London (FIR)	Woodley (WOD)	7 N	A	TMA	OTHER	Reciprocating	1	Infringement of the London TMA (Class A) by a Super Ximango at 3000ft. Traffic info given. A320 broken off approachand other inbound traffic delayed. Standard separation maintained.	The pilot has been fully alerted to this incident and admits that poor airmanship/distraction was the cause.

201108818	01/08/2011	EGTT : London (FIR)	Stansted	1.5 NW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C152 at 1100ft. Contact established with the pilot and a VFR clearance given. Standard separation maintained.	Solo student pilot. Pilot error acknowledged. Pilot to undertake further training with a flight instructor.

201108839	30/07/2011	EGTT : London (FIR)	Norwich	2 W	G	ATZ	OTHER	Reciprocating	1	Infringement of the Norwich ATZ (Class G) by an unknown a/c visually identified from the VCR as a microlight type at approx 1500ft. Circuit traffic passed traffic info.	
201108840	29/07/2011	EGTT : London (FIR)	Biggin Hill		G	ATZ	CIRRUS	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by an SR22 at 2000ft. Traffic delayed on the ground until the a/c vacated the zone.	
201108908	31/07/2011	EGTT : London (FIR)	Stansted	10 SW	Other	Restrict ed area	JODEL	Reciprocating	1	Infringement of the Stansted TMZ2 (Class G) by a Jodel DR1050 (believed) squawking 7000. Departing a/c vectored to remain clear of the contact.	
201108954	27/07/2011	EGTT : London (FIR)	ORTAC		A	CTR		Reciprocating	1	Infringement of the Channel Islands CTR (Class A) by a Sportsruiser at FL33. Traffic info given. Standard separation maintained.	Pilot was not aware of the requirement to obtain PPR to enter the Channel Islands CTR.
201108981	02/08/2011	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	BEAGLE	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by a Beagle121 at 2400ft. A/c entered the ATZ and flew opposite direction along the climb out of in use R/W21.	Avoiding action given. No traffic affected.☐ CAA Closure:No follow up action taken by ATC at the time of the incident. No further action considered possible due to elapsed time.

201108983	02/08/2011	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	PIPER	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by a PA28, which then called "joining left base". PA28 instructed to turn right immediately and leave the ATZ.	Traffic info issued to another PA28 on finals downwind RH. R/W21 in use. Standard separation maintained.
201108983	02/08/2011	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	PIPER	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by a PA28, which then called "joining left base". PA28 instructed to turn right immediately and leave the ATZ.	Traffic info issued to another PA28 on finals downwind RH. R/W21 in use. Standard separation maintained.
201108985	29/07/2011	EGTT : London (FIR)	Nottingham East Midlands	5 S	D	CTR	ROBINSON	Reciprocating	1	Infringement of the East Midlands CTR and CTA (Class D) by an R44 (believed) squawking 7000 at >2000ft. Traffic info given. Standard separation maintained.	
201108985	29/07/2011	EGTT : London (FIR)	Nottingham East Midlands	5 S	D	CTR	DIAMOND	Reciprocating	2	Infringement of the East Midlands CTR and CTA (Class D) by an R44 (believed) squawking 7000 at >2000ft. Traffic info given. Standard separation maintained.	
201109004	28/07/2011	EGTT : London (FIR)	Wethersfield		G		PIPER	Reciprocating	1	Infringement of the Wethersfield Gliding Site (Class G) by an unknown a/c, possibly a PA22.	A PA22 type a/c was seen to overfly the centre of the airfield at an estimated 800ft, below a 1000ft overcast, tracking Southwards towards Andrewsfield aerodrome. Farnborough LARS was contacted, and although able to see the a/c on radar, were unable to identify it. LARS controller stated that they would try to ID the a/c and make contact if ableto. Nothing further was heard

201109013	02/08/2011	EGTT : London (FIR)	Stansted	14nm NE	Other	Other	CESSNA	Reciprocating	1	Infringement of the Stansted TMZ 1 (Class G) by an C152 squawking 7000 with no Mode C. Traffic info given.	SS INT controller extended the track and gave a short final to an inbound a/c to remain clear of the C152. The controller then contacted LF LARS who informed them that the C152 had been lost before contacting LF LARS. C152 continued with LF LARS and vacated the TMZ 1. ATS and pilot fully discussed the occurrence.
201109124	05/08/2011	EGTT : London (FIR)	Luton (LUT)	4 SW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C152 at 1700ft. Check all placed on departures. Pilot declared lost and observed heading towards Luton. A/c was turned South, visual with the ground.	Standard separation maintained. Operator alerted. Studentpilot's navigational techniques to be reviewed.
201109152	05/08/2011	EGTT : London (FIR)	Manchester (MCT)		D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a PA28 squawking 7000 at 2000ft. Standard separation maintained.	Pilot acknowledges misidentification of ground feature whilst using a chart.
201109159	06/08/2011	EGTT : London (FIR)	LON 15nm W		A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28. Standard separation maintained.	A/c was observed leaving White Waltham ATZ on a SSE track. Heathrow alerted, who stopped departures for a short period until contact left the London CTR. A/c was observed toselect Farnborough SSR code. A/c identified by Farnborough. Operator alerted.
201109160	06/08/2011	EGTT : London (FIR)	Detling (DET)	NW	A	TMA	CESSNA	Reciprocating	1	Infringement of the London TMA (Class A) by a C206 at 3000ft resulting in a loss of separation against an EMB500, Northwest of Detling VOR. Traffic info and avoiding action given.	The pilot's report indicates that in his planning processhe failed to note that he needed to descend further to remain outside of the LTMA. The appropriate lessons appear to have been learnt.

201109160	06/08/2011	EGTT : London (FIR)	Detling (DET)	NW	A	TMA	EMBRAER	Turbofan	2	Infringement of the London TMA (Class A) by a C206 at 3000ft resulting in a loss of separation against an EMB500, Northwest of Detling VOR. Traffic info and avoiding action given.	The pilot's report indicates that in his planning processhe failed to note that he needed to descend further to remain outside of the LTMA. The appropriate lessons appear to have been learnt.
201109165	06/08/2011	EGTT : London (FIR)	London-Gatwick - LGW	E	D	CTR	RANS	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a Rans S6 resulting in a loss of separation. Traffic info given.	The pilot concerned has been contacted and has been fullyalerted to this incident.
201109165	06/08/2011	EGTT : London (FIR)	London-Gatwick - LGW	E	D	CTR	BOEING	Turbofan	2	Infringement of the Gatwick CTR (Class D) by a Rans S6 resulting in a loss of separation. Traffic info given.	The pilot concerned has been contacted and has been fullyalerted to this incident.
201109186	06/08/2011	EGTT : London (FIR)	Rhyl		Other	Other	PIPER	Reciprocating	1	Infringement of a NOTAMed parachute display by a PA28 whose pilot had failed to note the relevant NOTAM during planning. Pilot apologised.	C208 pilot spotted the PA28 and stopped the parachutists from departing. PA28 continued on a WSW course. The PA28 pilot had not seen the C208 or heard any communication fromthe C208 on the frequency in use.
201109186	06/08/2011	EGTT : London (FIR)	Rhyl		Other	Other	CESSNA	Turboprop	1	Infringement of a NOTAMed parachute display by a PA28 whose pilot had failed to note the relevant NOTAM during planning. Pilot apologised.	C208 pilot spotted the PA28 and stopped the parachutists from departing. PA28 continued on a WSW course. The PA28 pilot had not seen the C208 or heard any communication fromthe C208 on the frequency in use.

201109187	30/07/2011	EGTT : London (FIR)	Brize Norton	2.5 NE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a C172 at an altitude of 3100ft, 2nm NE of the airfield. Pilot alerted to infringement and advised to vacate to the North. No traffic affected.	
201109198	07/06/2011	EGTT : London (FIR)	Snitterfield	4 N	D	CTR	CEA	Reciprocating	1	Infringement of the Birmingham CTA2 (Class D) by a DR300 squawking 7000 indicating 2000ft. Traffic info and avoiding action given.	EMB190 on approach to 6000ft was climbed back to FL80 to ensure separation. Blind transmission was made. DR300 responded and was asked to squawk 0404 and to pass his details. Pilot explained that poor weather had forced him furtherNorth than intended. A/c subsequently transferred to Coventry.☐ CAA Closure: Pilot reported that it was unusual forhim to be cross country flying and offered to refresh knowledge of navigation techniques.
201109198	07/06/2011	EGTT : London (FIR)	Snitterfield	4 N	D	CTR	EMBRAER	Turbofan	2	Infringement of the Birmingham CTA2 (Class D) by a DR300 squawking 7000 indicating 2000ft. Traffic info and avoiding action given.	EMB190 on approach to 6000ft was climbed back to FL80 to ensure separation. Blind transmission was made. DR300 responded and was asked to squawk 0404 and to pass his details. Pilot explained that poor weather had forced him furtherNorth than intended. A/c subsequently transferred to Coventry.☐ CAA Closure: Pilot reported that it was unusual forhim to be cross country flying and offered to refresh knowledge of navigation techniques.
201109250	07/08/2011	EGTT : London (FIR)	Birmingham	11 S	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA32 at2300ft. Standard separation maintained.	
201109268	08/08/2011	EGTT : London (FIR)	Barkway (BKY)	7 NNW	A	TMA	GROB	Reciprocating	1	Infringement of the London TMA (Class A) by a Grob G115 squawking 7000 at 6800ft. Identity confirmed by Mode S. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.

201109348	03/08/2011	EGTT : London (FIR)	Warminster	E	G	Danger area	PIPER	Reciprocating	1	Infringement of Danger Area D123 by a PA28 squawking 5704indicating 3000ft. Live firing in operation.	PA28 had changed frequency from Bristol but not changed squawk.☐ CAA Closure: No further CAA action considered practical due to the elapsed time involved.
201109350	02/08/2011	EGTT : London (FIR)	D123		G	Danger area		Reciprocating	1	Infringement of the active Danger Area D123 Imber by a CZAW Sportcruiser.	Bristol ATC contacted Military ATC to inform them that the infringer was under Bristol BS and they had instructed the a/c to vacate immediately. The a/c was observed to vacate D123 to the North.
201109379	09/08/2011	EGTT : London (FIR)	Manchester LLR	Thelwall Viaduct	D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a PA18. Departures given headings to ensure separation. Standard separation maintained.	PA18 given a Basic Service in the LLR reported clear of the LLR and given an en-route frequency. The PA18 was subsequently observed infringing the LLR at the Thelwall Viaduct.
201109450	11/08/2011	EGTT : London (FIR)	Southampton (SAM)	9.5nm W	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28.	ATC contacted Boscombe Down to ask the a/c intentions as it was indicating a Boscombe squawk. Boscombe Down informed a/c of the infringement and turned it to leave CAS.
201109489	12/08/2011	EGTT : London (FIR)	Luton (LUT)	6 SE	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Luton CTR (Class D) by an R44 at 1200ft. Standard separation maintained.

201109634	16/08/2011	EGTT : London (FIR)	Luton (LUT)		D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28R squawking 7000 at 2000ft. Traffic info given. Inbound GLF5 broken off approach. Standard separation maintained.	Pilot error acknowledged. Listening squawk information issued to the pilot. Pilot also infringed the Stansted TMZ having failed to select his transponder on.
201109634	16/08/2011	EGTT : London (FIR)	Luton (LUT)		D	CTR	GULFSTREAM	Turbofan	2	Infringement of the Luton CTR (Class D) by a PA28R squawking 7000 at 2000ft. Traffic info given. Inbound GLF5 broken off approach. Standard separation maintained.	Pilot error acknowledged. Listening squawk information issued to the pilot. Pilot also infringed the Stansted TMZ having failed to select his transponder on.
201109650	17/08/2011	EGTT : London (FIR)	Birmingham	13 S	D	CTA	PITTS	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a Pitts Special squawking 7000 at 2200ft. Standard separation maintained.	Pilot error acknowledged.
201109651	27/07/2011	EGTT : London (FIR)	Imber		G	Danger area	CESSNA	Reciprocating	1	Infringement of active Danger Area EG D123 by a C172 squawking 2650 indicating 2100ft. A/c observed exiting to the South West.	
201109664	12/08/2011	EGTT : London (FIR)	Nottingham East Midlands	11 SW	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the East Midlands CTR (Class D) by a DR400. Traffic info and avoiding action given to an inbound B737. Standard separation maintained.	RT contact was eventually made with the DR400 whose pilotadmitted that he was unsure of his position. A/c then received navigational assistance form ATC.

201109664	12/08/2011	EGTT : London (FIR)	Nottingham East Midlands	11 SW	D	CTA	BOEING	Turbofan	2	Infringement of the East Midlands CTR (Class D) by a DR400. Traffic info and avoiding action given to an inbound B737. Standard separation maintained.	RT contact was eventually made with the DR400 whose pilotadmitted that he was unsure of his position. A/c then received navigational assistance form ATC.
201109670	17/08/2011	EGTT : London (FIR)	Cheddington		D	CTA	DIAMOND	Reciprocating	1	Infringement of the Luton CTA (Class D) by a DA40 at 3300ft. Traffic info given. Inbound a/c delayed. Standard separation maintained.	Pilot Instructor error acknowledged. Pilot debriefed by his CFI and appropriate action taken.
201109672	15/08/2011	EGTT : London (FIR)	Bovingdon (BNN)	3 SW	A	TMA	STRIPLIN	Reciprocating	1	Infringement of the London TMA (Class A) by a Skyranger at 2900ft. Standard separation maintained.	Pilot error acknowledged. Pilot to undertake further training as a result of this infringement.
201109688	17/08/2011	EGTT : London (FIR)	Luton (LUT)	SW	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Luton CTR (Class D) by an R44 squawking 7000 at 3300ft. Luton R/W08 departures stopped for 5mins. Standard separation maintained.	CAA Closure: No further CAA action due to the elapsed time involved.
201109737	11/08/2011	EGTT : London (FIR)	SPEAR		A	TMA	CESSNA	Reciprocating	1	Infringement of the London TMA (Class A) by a C182 squawking 7000 at 5000ft. Standard separation maintained.	

201109749	19/08/2011	EGTT : London (FIR)	ROSUN	5 SW	A	TMA	SOCATA	Reciprocating	1	Infringement of the Manchester TMA (Class A) by a TB10 squawking 7000 at 3500ft. CAIT activated. Standard separation maintained.	Pilot had been avoiding CBs and had travelled further South than intended.
201109777	20/08/2011	EGTT : London (FIR)	White Waltham	S	A	CTR	YAKOVLEV	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a YAK 50 and another a/c in tandem. Standard separation maintained.	A/c identified via Mode S.
201109777	20/08/2011	EGTT : London (FIR)	White Waltham	S	A	CTR	UNKNOWN	Unknown		Infringement of the Heathrow CTR (Class A) by a YAK 50 and another a/c in tandem. Standard separation maintained.	A/c identified via Mode S.
201109780	19/08/2011	EGTT : London (FIR)	Midhurst (MID)	5 W	A	TMA	CIRRUS	Reciprocating	1	Infringement of the London TMA (Class A) by an SR20 at 4500ft. Standard separation maintained	Pilot subsequently contacted Farnborough LARS. Pilot alerted to his error and instructed to vacate CAS.
201109786	20/08/2011	EGTT : London (FIR)	Stansted	8 NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28 squawking 7000 at 1400ft. Traffic info and avoiding action given to an inbound A319. Standard separation maintained.	

201109788	21/08/2011	EGTT : London (FIR)	SETEL		A	TMA	CIRRUS	Reciprocating	1	Infringement of the Manchester TMA (Class A) by an SR22 squawking 1177 at FL90. Standard separation maintained.	Transponder failure reported. PAN subsequently declared. Pilot has raised concerns over prominence of depicted ground obstructions on charts, following attempts to re-route.☐ CAA Closure: Investigation determined that there are no obstacle symbols or labels conflicting with airspace sector boundaries or annotations on the current chart between the northern boundary of the Manchester TMA and SETEL. Chart checked by experts and deemed to be acceptable and presented according to the required standards.
201109805	21/08/2011	EGTT : London (FIR)	Birmingham	8 SE	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by an unknown primary only contact. Inbound EMB190 broken off its approach. Traffic info given. Standard separation maintained.	Birmingham ATC had been pre-warned by Coventry Tower thatan R22 was observed tracking towards Birmingham airspace.Appropriate CAA action is to be taken as a result of thisincident.
201109829	22/08/2011	EGTT : London (FIR)	Stansted	7 NE	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a Robin 400squawking 7000 at 2400ft. Standard separation maintained.	Pilot alerted to infringement of CAS and instructed to vacate on an easterly track. A/c maintained a south-easterlyheading before vacating CAS. Reporter states pilot's standard of English was poor.
201109832	19/08/2011	EGTT : London (FIR)	Brize Norton		D	CTR	PIPER	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a PA28 squawking 7000 at 2600ft. Solo student pilot. Standard separation maintained.	Instructor informed and GPS tracker to be checked.
201109837	21/08/2011	EGTT : London (FIR)	Luton (LUT)		D	CTR	OTHER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a B600 squawking 7000 at 1000ft. Departures stopped. Several blind callismade with no response received. Standard separation maintained.	CAA Closure: No further CAA action practical due to the elapsed time involved.

201109842	21/08/2011	EGTT : London (FIR)	Ascot		A	CTR	WESTLAND	Turboshaft	1	Infringement of the London CTR (Class A) by a Wasp. Heathrow departures stopped. Avoiding action given. Standard separation maintained.	Wasp pilot was distracted by a/c system problems and had incorrect radio frequency. As a result, he drifted off course into the London CTR.□ CAA Closure: Pilot received a full debrief from an ATC Occurrence Investigator and visitedATC Swanwick. Additionally, pilot undertook a dual flighton Wasp with an examiner and attended a voluntary CRM course. Pilot also purchased a portable GPS to assist with navigation.
201109865	19/08/2011	EGTT : London (FIR)	Wyton	1.3nm E	G	ATZ	GROB	Reciprocating	1	UK AIRPROX 2011/107 - G115 and SA355 on final approach R/W26 Wyton. Traffic info given.	Information indicates that this AIRPROX was caused by theSA355 entering the Wyton ATZ without permission and subsequently flying into conflict with joining and established cct traffic.
201109865	19/08/2011	EGTT : London (FIR)	Wyton	1.3nm E	G	ATZ	AEROSPATIALE	Turboshaft	2	UK AIRPROX 2011/107 - G115 and SA355 on final approach R/W26 Wyton. Traffic info given.	Information indicates that this AIRPROX was caused by theSA355 entering the Wyton ATZ without permission and subsequently flying into conflict with joining and established cct traffic.
201109888	21/08/2011	EGTT : London (FIR)	Birmingham	8 SE	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by an R22 resulting in a loss of separation against an inbound A320. A subsequent EMB195 was broken off approach and traffic info given.	Appropriate CAA action has been taken as a result of thisincident.
201109888	21/08/2011	EGTT : London (FIR)	Birmingham	8 SE	D	CTR	AIRBUS	Turbofan	2	Infringement of the Birmingham CTR (Class D) by an R22 resulting in a loss of separation against an inbound A320. A subsequent EMB195 was broken off approach and traffic info given.	Appropriate CAA action has been taken as a result of thisincident.

201109933	24/08/2011	EGTT : London (FIR)	Daventry (DTY)	10 N	A	CTA	FLIGHT DESIGN	Reciprocating	1	Infringement of the East Midlands CTA (Class D) and Daventry CTA (Class A) by a CTSW at 6500ft. Traffic info given.Standard separation maintained.	Pilot error acknowledged.
201109975	24/08/2011	EGTT : London (FIR)	Clacton (CLN)		A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA32 at FL80. Standard separation maintained.	PA32 in receipt of a Basic Service joined controlled airspace at CLN before joining clearance had been obtained from TC. ATC training in progress. ATC report RT loading as very busy during this period.
201109977	24/08/2011	EGTT : London (FIR)	Stansted	25 NE	A	TMA	MOONEY	Reciprocating	1	Infringement of the London TMA (Class A) by a Mooney 20 squawking 0027 at FL80. Traffic info given. Standard separation maintained.

The owner was contacted, but subsequently advised that they sold the a/c to a French resident prior to this alleged incident. No further action taken due to the elapsed time.
201110619	03/09/2011	EGTT : London (FIR)	Brookmans Park (BPK)	10 E	Other	Restrict ed area	EXTRA	Reciprocating	1	Infringement of the Stansted TMZ2 (Class G) by an Extra 300 formation squawking 7000 with no Mode C. Departures stopped.	Pilot believed he had selected Mode C and confirmed the a/c were flying at 1000ft.
201110644	07/09/2011	EGTT : London (FIR)	Southampton (SAM)	5 N	D	CTA	PILATUS	Turboprop	1	Infringement of the Solent CTA (Class D) by a PC12 squawking 7000 at 1800ft. Traffic info given to an inbound DHC8.Standard separation maintained.	
201110644	07/09/2011	EGTT : London (FIR)	Southampton (SAM)	5 N	D	CTA	DE HAVILLAND	Turboprop	2	Infringement of the Solent CTA (Class D) by a PC12 squawking 7000 at 1800ft. Traffic info given to an inbound DHC8.Standard separation maintained.	
201110694	20/08/2011	EGTT : London (FIR)	Panshanger	3 N	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 showingas a primary only return. Inbound traffic delayed. Traffic info given. Standard separation maintained.	

201110756	03/09/2011	EGTT : London (FIR)	Topcliffe		G		BELL	Turboshaft	1	UK AIRPROX 2011/115 - Bell 206 and a military a/c at Topcliffe.	CAA Closure: Information indicates that the Bell 206 pilot entered the ATZ and flew into conflict with the militarya/c, which he may not have seen at its closest point. No further CAA action. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
201110756	03/09/2011	EGTT : London (FIR)	Topcliffe		G		OTHER	Unknown		UK AIRPROX 2011/115 - Bell 206 and a military a/c at Topcliffe.	CAA Closure: Information indicates that the Bell 206 pilot entered the ATZ and flew into conflict with the militarya/c, which he may not have seen at its closest point. No further CAA action. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
201110786	09/09/2011	EGTT : London (FIR)	Stansted		D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C152 squawking 7000 at 1800ft. Traffic info and avoiding action given. Standard separation maintained.	CAA Closure: No further CAA action practical due to the elapsed time involved.
201110786	09/09/2011	EGTT : London (FIR)	Stansted		D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a C152 squawking 7000 at 1800ft. Traffic info and avoiding action given. Standard separation maintained.	CAA Closure: No further CAA action practical due to the elapsed time involved.
201110794	11/09/2011	EGTT : London (FIR)	Manchester (MCT)		D	CTR	ROBINSON	Reciprocating	1	Infringement of the Manchester CTR (Class D) by an R44 squawking 7000 with Mode C indicating 2000ft. Standard separation maintained.	D&D contacted unit with details of the R44 and pilot was transferred to Manchester Approach. Squawk allocated and a/c instructed to orbit. After several attempts, a/c was directed out of the CTR. Pilot reported having the intentionto route via VFR corridor and contact Manchester Approach. He was unfamiliar with local VRPs and did not have the Approach frequency to hand. The infringement occurred whilethe pilot was in the process of trying to obtain the frequency.□ CAA Closure: Pilot now has a frequency reference card to hand.

201111034	14/09/2011	EGTT : London (FIR)	Henton		A	TMA	BELLANCA	Reciprocating	1	Infringement of the London TMA (Class A) by a Champion 7ECA at FL55. Luton departures suspended. Standard separation maintained.	LTC Heathrow alerted due to Bovingdon hold traffic. Pilotfailed to compensate for strong winds. Pilot de-briefed. No further action necessary.
201111042	15/09/2011	EGTT : London (FIR)	Birmingham	12 SE	D	CTA	DIAMOND	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a DA40 squawking 7000 indicating 2100ft. Traffic info and avoiding action given. Separation lost.	DA40 operated by student on first solo navigation exercise. It is believed that the student allowed the a/c to drift right of planned track.☐ CAA Closure: Student debriefed and further instruction on VFR navigation technique given.Same route subsequently flown without incident.
201111042	15/09/2011	EGTT : London (FIR)	Birmingham	12 SE	D	CTA	EMBRAER	Turbofan	2	Infringement of the Birmingham CTA (Class D) by a DA40 squawking 7000 indicating 2100ft. Traffic info and avoiding action given. Separation lost.	DA40 operated by student on first solo navigation exercise. It is believed that the student allowed the a/c to drift right of planned track.☐ CAA Closure: Student debriefed and further instruction on VFR navigation technique given.Same route subsequently flown without incident.
201111059	15/09/2011	EGTT : London (FIR)	Danes Hill VRP	3 NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by a PA28 at FL60. Traffic delayed on the ground. Standard separation maintained.	
201111106	16/09/2011	EGTT : London (FIR)	Southampton (SAM)	16 SW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a C182 squawking 7000 at 2700ft. A/c identity confirmed via Mode S. Standard separation maintained.	Pilot was requested to contact Shoreham on landing. The pilot reports that he misread his map regarding the relevant CAS height restrictions.

201111144	16/09/2011	EGTT : London (FIR)	London-Gatwick - LGW		D	CTR		Reciprocating	1	Infringement of the LTMA (Class A) and Gatwick CTA (ClassD) by a Quik GT450 at 1900ft. Inbound A319 given traffic info and vectored away. Standard separation maintained.	
201111144	16/09/2011	EGTT : London (FIR)	London-Gatwick - LGW		D	CTR	AIRBUS	Turbofan	2	Infringement of the LTMA (Class A) and Gatwick CTA (ClassD) by a Quik GT450 at 1900ft. Inbound A319 given traffic info and vectored away. Standard separation maintained.	
201111182	19/09/2011	EGTT : London (FIR)	Stansted	10 NE	Other	Restrict ed area	CESSNA	Reciprocating	1	Infringement of the Stansted TMZ1 (Class G) by a C152. Inbound B737 given vectors to position behind the C152.	Student pilot.
201111192	14/09/2011	EGTT : London (FIR)	Northwich		D	CTR	ROBINSON	Reciprocating	1	Infringement of the Manchester CTR (Class D) by an R44. Standard separation maintained.	
201111193	16/09/2011	EGTT : London (FIR)	Barkway (BKY)		A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 squawking 6170 with Mode C indicating 3000ft. Traffic and avoiding action given. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.

201111193	16/09/2011	EGTT : London (FIR)	Barkway (BKY)		A	TMA	BOEING	Turbofan	2	Infringement of the LTMA (Class A) by a PA28 squawking 6170 with Mode C indicating 3000ft. Traffic and avoiding action given. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
201111225	16/09/2011	EGTT : London (FIR)	Middle Wallop / Thruxton		G	ATZ	PIPER	Reciprocating	1	Infringement of the Middle Wallop ATZ (Class G) and the Thruxton ATZ (Class G) by a PA28 at 1000ft.	A/c receiving a Basic Service at the time of the infringement with a squawk change to 7000 midway through the Middle Wallop ATZ.
201111230	20/09/2011	EGTT : London (FIR)	GARMI		G	Danger area	VANS	Reciprocating	1	Infringement of Danger Area D36 by a RV6 at 2600ft squawking 1177. Live firing in progress.	CAA Closure: Due to the time elapsed since this incident no further investigation is deemed possible.
201111254	18/09/2011	EGTT : London (FIR)	Wyton		G	ATZ	DE HAVILLAND	Reciprocating	1	Infringement of the Wyton ATZ (Class G) by a Tiger Moth at 1000ft, traffic info given.	Tiger Moth observed positioning on finals and then transited up the downwind leg at circuit height, then departed to the West.
201111353	22/09/2011	EGTT : London (FIR)	London-Gatwick - LGW	E	D	CTA	PERCIVAL	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a Proctor squawking 7000 indicating 2200ft. Standard separation maintained. A/c identified via Mode S.	Inbound A319 descent to 3000ft stopped at 4000ft. B737 descent to 4000ft stopped at 5000ft.

201111353	22/09/2011	EGTT : London (FIR)	London-Gatwick - LGW	E	D	CTA	AIRBUS	Turbofan	2	Infringement of the Gatwick CTA (Class D) by a Proctor squawking 7000 indicating 2200ft. Standard separation maintained. A/c identified via Mode S.	Inbound A319 descent to 3000ft stopped at 4000ft. B737 descent to 4000ft stopped at 5000ft.
201111483	24/09/2011	EGTT : London (FIR)	Barkway (BKY)	2 SSW	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 squawking 5033 at 3000ft. Standard separation maintained. Operator alerted.	Chart reading error.
201111486	24/09/2011	EGTT : London (FIR)	Luton (LUT)	8 E	D	CTR	SOCATA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a TB10 squawking 7000 with Mode C indicating 2100ft. Standard separation maintained.	It has subsequently been revealed that BNN had been input into the GPS instead of BPK. Pilot has apologised.
201111487	24/09/2011	EGTT : London (FIR)	Mayfield (MAY)	15 SW	A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA28 at 3000ft. Traffic info given. A320 vectored away to ensure separation was maintained.	PA28 also infringed Solent CTA (Class D). Pilot contacted by ATC. Pilot error acknowledged.
201111487	24/09/2011	EGTT : London (FIR)	Mayfield (MAY)	15 SW	A	TMA	AIRBUS	Turbofan	2	Infringement of the London TMA (Class A) by a PA28 at 3000ft. Traffic info given. A320 vectored away to ensure separation was maintained.	PA28 also infringed Solent CTA (Class D). Pilot contacted by ATC. Pilot error acknowledged.

201111490	24/09/2011	EGTT : London (FIR)	Luton (LUT)	5 S	D	CTR	HAWKER	Turbofan	1	Infringement of the Luton CTR (Class D) by a Hunter at 1000ft. A/c vacated CAS and pilot advised of his error. Standard separation maintained.	
201111500	21/09/2011	EGTT : London (FIR)	Brize Norton	E	D	CTR	CESSNA	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a C150 squawking 7000 at 2000ft. Solo student on a cross-country qualifying flight. No traffic to affect.	See investigation 201001453.
201111504	25/09/2011	EGTT : London (FIR)	Mayfield (MAY)	10 E	E	TMA	CESSNA	Reciprocating	1	Infringement of the London TMA (Class A) by a C172 squawking 1177 at 3500ft. Standard separation maintained.	
201111507	25/09/2011	EGTT : London (FIR)	THRED	10 S	A		PIPER	Reciprocating	1	Infringement of the Q41 Airway (Class A) by a PA28 at FL43, 10nm South of THRED. Traffic info and avoiding action given. Separation lost.	Pilot contacted by ATC. Pilot error acknowledged.
201111598	23/09/2011	EGTT : London (FIR)	Bristol International	2.5ENE	D	CTR	PIPER	Reciprocating	1	Infringement of the Bristol CTR (Class D) by a PA28 at 1400ft. Pilot allegedly demonstrated poor airmanship and failed to follow ATC instructions. Avoiding action and traffic info passed to an A319.	The pilot reported that he misunderstood the ATC instructions, this together with poor RT readability and a busy cockpit environment led to the infringement. The pilot also believed that ground features may have been misidentified.☐ CAA Closure: Further to this incident the pilot has hadadditional time with his CFI to practice VFR CAS transits.

201111598	23/09/2011	EGTT : London (FIR)	Bristol International	2.5ENE	D	CTR	AIRBUS	Turbofan	2	Infringement of the Bristol CTR (Class D) by a PA28 at 1400ft. Pilot allegedly demonstrated poor airmanship and failed to follow ATC instructions. Avoiding action and traffic info passed to an A319.	The pilot reported that he misunderstood the ATC instructions, this together with poor RT readability and a busy cockpit environment led to the infringement. The pilot also believed that ground features may have been misidentified.☐ CAA Closure: Further to this incident the pilot has hadadditional time with his CFI to practice VFR CAS transits.
201111667	26/09/2011	EGTT : London (FIR)	DAYNE		D	CTA	BELL	Turboshaft	1	Infringement of the Manchester CTA (Class D) by a Bell 206 at 3000ft. Standard separation maintained.	
201111767	28/09/2011	EGTT : London (FIR)	London-Gatwick - LGW	3 SE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a C152 at 1200ft. Separation lost with an EMB190.	A/c subsequently called D&D reporting lost approx 47mins later. A/c given a steer and status terminated 7mins later.
201111767	28/09/2011	EGTT : London (FIR)	London-Gatwick - LGW	3 SE	D	CTR	EMBRAER	Turbofan	2	Infringement of the Gatwick CTR (Class D) by a C152 at 1200ft. Separation lost with an EMB190.	A/c subsequently called D&D reporting lost approx 47mins later. A/c given a steer and status terminated 7mins later.
201111773	28/09/2011	EGTT : London (FIR)	Southampton (SAM)	6 NE	D	CTA	AUSTER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a primary only contact believed to be an Auster 6A. Traffic info given to inbound traffic. Standard separation maintained.	

201111780	28/09/2011	EGTT : London (FIR)	EGVN (BZZ): Brize norton		D	CTR	BELL	Turboshaft	1	Infringement of the Brize Norton CTR (Class D) by a Bell 206.	Pilot training in progress. Reporter states that the pilot had a poor understanding of English. <input type="checkbox"/> CAA Closure: No further action possible due to elapsed time.
201111786	29/09/2011	EGTT : London (FIR)	Henlow		D	CTA	GROB	Reciprocating	1	Infringement of the Luton CTA (Class D) by a Grob G115 squawking 7001 at 3900ft. A/c identity confirmed by Mode S. Standard separation maintained.	Appropriate CAA action is being taken as a result of this incident.
201111790	29/09/2011	EGTT : London (FIR)	TRIPO	E	A	TMA	CESSNA	Reciprocating	1	Infringement of the London TMA (Class A) by a C206 squawking 4252 indicating FL65. Standard separation maintained.	Manston confirmed that the a/c should have been descending outside controlled airspace and then realised that it was too high and about to infringe TC East's airspace. Manston had given the descent but the a/c failed to make the level. A DHC8 and an EMB190 were turned and late descent coordinated with TMA South.
201111790	29/09/2011	EGTT : London (FIR)	TRIPO	E	A	TMA	DE HAVILLAND	Turboprop	2	Infringement of the London TMA (Class A) by a C206 squawking 4252 indicating FL65. Standard separation maintained.	Manston confirmed that the a/c should have been descending outside controlled airspace and then realised that it was too high and about to infringe TC East's airspace. Manston had given the descent but the a/c failed to make the level. A DHC8 and an EMB190 were turned and late descent coordinated with TMA South.
201111793	23/09/2011	EGTT : London (FIR)	R313		Other	Restricted area	PIPER	Reciprocating	1	Infringement of active Restricted Area R313 by a PA28.	Prior to the infringement, the pilot had been notified that the area was about to become active and this was acknowledged. Pilot subsequently failed to respond to ATC calls after infringing the area. Prior to initial departure the a/c failed to respond to climb out instructions. On subsequent call to the ATC supervisor after landing the pilot stated that the a/c had suffered a bird strike. <input type="checkbox"/> CAA Closure: Appropriate action has been taken as a result of this incident.

201111811	29/09/2011	EGTT : London (FIR)	Birmingham	10 S	D	CTA	BELL	Turboshaft	1	Infringement of the Birmingham CTA (Class D) by a Bell 206 at 2300ft. Traffic info given. Standard separation maintained.	A/c on a NAVEX. ATC notified the Flight Instructor who advised he would de-brief the pilot and take appropriate remedial action.
201111812	29/09/2011	EGTT : London (FIR)	White Waltham	3 S	A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA28 squawking 7000 at 3000ft. Solo student on a NAVEX. Traffic info given. Separation lost with 5 a/c. Disruption to inbound commercial traffic.	A/c identified via Mode S.
201111812	29/09/2011	EGTT : London (FIR)	White Waltham	3 S	A	TMA	AIRBUS	Turbofan	2	Infringement of the London TMA (Class A) by a PA28 squawking 7000 at 3000ft. Solo student on a NAVEX. Traffic info given. Separation lost with 5 a/c. Disruption to inbound commercial traffic.	A/c identified via Mode S.
201111813	29/09/2011	EGTT : London (FIR)	Woodley (WOD)	5 W	A	TMA	SLINGSBY	Reciprocating	1	Infringement of the London TMA (Class A) by a Slingsby T67 at 3600ft. Standard separation maintained.	Pilot subsequently reported being at 1600ft when Mode C indicated 2500ft.
201111826	23/09/2011	EGTT : London (FIR)	R313		Other	Restricted area	BEECH	Reciprocating	1	Infringement of active Restricted Area R313 by a BE33 at 1400ft. Traffic info given to a military a/c.	Pilot apologised for his error.

201111897	01/10/2011	EGTT : London (FIR)	Bracknell		A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28 squawking 7000 at 1700ft. No Mode C. Standard separation maintained.	Pilot had freecalled Farnborough LARS West on 125.250Mhz advising his routeing. A/c was then observed heading Southabout 2nm inside the CTR. Pilot was instructed to turn West and allocated a 0451 squawk. The operator has been fully alerted to this incident which was caused by the pilot heading in error for Wokingham not Reading and turning South too early.
201111904	01/10/2011	EGTT : London (FIR)	Southampton (SAM)	5 N	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 2800ft. A/c receiving a Basic Service instructed to vacate CAS. Standard separation maintained.	Student pilot error acknowledged. Pilot misidentified a ground feature in hazy conditions.
201111910	02/10/2011	EGTT : London (FIR)	Southampton (SAM)	8 NE	D	CTR	SCOTTISH AVIATION	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a Bulldog squawking 7000 at 1800ft unverified. Standard separationmaintained.	Pilot involved fully alerted.
201111921	02/10/2011	EGTT : London (FIR)	London City - LCY	14 E	A	TMA	EUROPA	Reciprocating	1	Infringement of the London TMA (Class A) by a Europa showing fluctuations between 2500-2800ft. Traffic delayed and a Biggin inbound given extended vectors. Standard separation maintained.	Pilot acknowledges that he was flying erroneously at 2500ft. However, he believes that there is a discrepancy between the altimeter and transponder readings and he will get this checked as a matter of priority.
201111927	30/09/2011	EGTT : London (FIR)	Audley End	3 E	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C152 squawking 7000 at 1200ft. Avoiding action given. Separation lost against inbound A319. Disruption to other commercial traffic.	It has subsequently been revealed that during poor visibility the pilot misidentified Saffron Waldron for Haverhill. Although the pilot was listening out on frequency, and despite best efforts by ATC, no communication was established with the a/c. The CFI of the flying club concerned has been alerted and has taken appropriate remedial action.

201111927	30/09/2011	EGTT : London (FIR)	Audley End	3 E	D	CTR	AIRBUS	Turbofan	2	Infringement of the Stansted CTR (Class D) by a C152 squawking 7000 at 1200ft. Avoiding action given. Separation lost against inbound A319. Disruption to other commercial traffic.	It has subsequently been revealed that during poor visibility the pilot misidentified Saffron Waldron for Haverhill. Although the pilot was listening out on frequency, and despite best efforts by ATC, no communication was established with the a/c. The CFI of the flying club concerned has been alerted and has taken appropriate remedial action.
201111932	02/10/2011	EGTT : London (FIR)	Biggin Hill		G	ATZ	WESTLAND	Turboshaft	1	Infringement of the Biggin Hill ATZ (Class G) by a Gazelle.	Pilot receiving a service from Farnborough believed the a/c had been coordinated by ATC to enter the ATZ. Pilot informed this was not the case.
201111998	03/10/2011	EGTT : London (FIR)	Lambourne (LAM)	4 S	D	CTA	PIPER	Reciprocating	1	Alleged infringement of the London City CTA (Class D) by a PA28 squawking 5031 at 2600ft. Traffic info and avoidingaction given to City outbound RJ85. STCA activated.	ATC training in progress. ATC unit investigation reveals that the a/c transponder was over reading by 100ft. Pilot has advised the ATC unit that he has purchased a Mode S transponder, which is to be fitted as a matter of priority.
201111998	03/10/2011	EGTT : London (FIR)	Lambourne (LAM)	4 S	D	CTA	BAE	Turbofan	4	Alleged infringement of the London City CTA (Class D) by a PA28 squawking 5031 at 2600ft. Traffic info and avoidingaction given to City outbound RJ85. STCA activated.	ATC training in progress. ATC unit investigation reveals that the a/c transponder was over reading by 100ft. Pilot has advised the ATC unit that he has purchased a Mode S transponder, which is to be fitted as a matter of priority.
201112026	01/10/2011	EGTT : London (FIR)	Southampton (SAM)	5 NW	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 squawking 7000 at 2900ft. Blind calls made with no response before a/c changed to a Farnborough squawk. Standard separation maintained.	

201112028	02/10/2011	EGTT : London (FIR)	Birmingham	13 SE	D	CTA	PIPER	Reciprocating	1	Infringement of Birmingham CTA (Class D) by a PA28 at 2700ft. Blind calls made with no response. Check all imposed until the a/c vacated CAS. Standard separation maintained.	Farnborough working the a/c. Pilot reported being lost.
201112059	04/10/2011	EGTT : London (FIR)	Stansted		D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28. Check all imposed.	Appropriate CAA action is being taken as a result of thisincident.
201112078	30/09/2011	EGTT : London (FIR)	Hawarden	8 E	A	TMA	GRUMMAN	Reciprocating	1	Infringement of the Manchester TMA (Class A) and Airway N864 (Class A) by an AA5 at 4000ft and 3300ft respectively.	Investigation established that the AA5 was pre-noted to Hawarden Approach by London FIS. The a/c was at 4000ft outside CAS and instructed to free-call Hawarden. The a/c was not transponder equipped. When the AA5 called Hawarden andwas identified and given a Basic Service, the Hawarden Approach controller realised that the a/c was within Manchester TMA airspace (base 3500ft). The a/c was on a track towards Liverpool. The PC WAL sector and Liverpool Approach were informed and the AA5 instructed to descend out of CAS.As the AA5 left CAS, it was instructed to route to WAL and free-call Liverpool Approach. However, Liverpool Approach returned the AA5 to the Hawarden frequency. The Hawardencontroller then realised that the a/c had now penetrated Airway N864 and so it was instructed to descend clear. No other traffic was affected. The pilot reported that, just prior to flight, he had been informed that the a/c's transponder was u/s, which he stated was undesirable, but no other a/c was available. He believed that he had miscalculated the requirement to descend to avoid Manchester airspaceand that a more explicit request to London FIS for a service from Liverpool or Manchester may have helped. □ CAA Closure: The pilot reported that, had he known that the transponder was going to be u/s in advance, he may have selected a different route across country. In retrospect, the pilot critically assessed the circumstances of the airspace infringements and was also given further support advice andinformation from the ATC investigations team.
201112161	03/10/2011	EGTT : London (FIR)	Shoeburyness		G	Danger area	SCHWEIZER	Reciprocating	1	Infringement of active Shoeburyness Danger Area D138 by aSchweizer 300C. Check fire imposed.	
201112360	08/10/2011	EGTT : London (FIR)	Stansted	12 NE	Other	Restrictedd area	CESSNA	Reciprocating	1	Infringement of the Stansted TMZ1 (Class G) by a C152 squawking 7000. Inbound B737 given delaying vectors. Traffic info given.	

201112361	08/10/2011	EGTT : London (FIR)	Redhill	3 E	D	CTR	PIPER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a PA28 at 2000ft resulting in a loss of separation against an inbound B757. STCA activated. Traffic info given. B757 broken off the approach.	CAA Closure: Due to the time elapsed since this incident no further investigation is deemed possible.
201112361	08/10/2011	EGTT : London (FIR)	Redhill	3 E	D	CTR	BOEING	Turbofan	2	Infringement of the Gatwick CTA (Class D) by a PA28 at 2000ft resulting in a loss of separation against an inbound B757. STCA activated. Traffic info given. B757 broken off the approach.	CAA Closure: Due to the time elapsed since this incident no further investigation is deemed possible.
201112364	08/10/2011	EGTT : London (FIR)	Brize Norton	10nm E	D	CTR	FLY BUY ULTRALIGHTS	Reciprocating	1	UK AIRPROX 2011/137 - A330 and a Microlight 10nm East ofBrize Norton. Traffic info and avoiding action given.	A330 was operating IFR in the Brize Norton CTR in receiptof RCS. The Microlight was operating VFR, in receipt of aBS from Oxford Approach. Investigations indicate that this AIRPROX was caused by the Microlight pilot entering the Brize Norton CTR without clearance and flying into conflict with the A330.
201112364	08/10/2011	EGTT : London (FIR)	Brize Norton	10nm E	D	CTR	AIRBUS	Turbofan	2	UK AIRPROX 2011/137 - A330 and a Microlight 10nm East ofBrize Norton. Traffic info and avoiding action given.	A330 was operating IFR in the Brize Norton CTR in receiptof RCS. The Microlight was operating VFR, in receipt of aBS from Oxford Approach. Investigations indicate that this AIRPROX was caused by the Microlight pilot entering the Brize Norton CTR without clearance and flying into conflict with the A330.
201112367	08/10/2011	EGTT : London (FIR)	Farnborough	8 E	A	Prohibited area	WESTLAND	Turboshaft	1	Infringement of CAS-T (Class A) by a Gazelle squawking 7000. Standard separation maintained. Pilot was diverting into Blackbushe for fuel.	

201112369	08/10/2011	EGTT : London (FIR)	Wellesbourne Mountford	3 N	D	CTR	GROB	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a Grob 115 with a Coventry squawk indicating 2100ft. Traffic info and avoiding action given. Separation lost with inbound B757.	The a/c infringed whilst trying to avoid the gliding siteat Sniterfield. ATC detected the a/c immediately before the infringement and instigated numerous measures of mitigation. The pilot subsequently reported that he was concentrating on local traffic and believed at the time that he had avoided the CTR. The pilot also cited that he misread the demarkation line on his map with respect to the changingbase of CAS. □ CAA Closure: No further CAA action at this time.
201112369	08/10/2011	EGTT : London (FIR)	Wellesbourne Mountford	3 N	D	CTR	BOEING	Turbofan	2	Infringement of the Birmingham CTR (Class D) by a Grob 115 with a Coventry squawk indicating 2100ft. Traffic info and avoiding action given. Separation lost with inbound B757.	The a/c infringed whilst trying to avoid the gliding siteat Sniterfield. ATC detected the a/c immediately before the infringement and instigated numerous measures of mitigation. The pilot subsequently reported that he was concentrating on local traffic and believed at the time that he had avoided the CTR. The pilot also cited that he misread the demarkation line on his map with respect to the changingbase of CAS. □ CAA Closure: No further CAA action at this time.
201112443	07/10/2011	EGTT : London (FIR)	Blackbushe		A		WESTLAND	Turboshaft	1	Infringement of CAS-T (Class D) by a Gazelle. A Notam hadbeen issued regarding the CAS-T.	
201112773	11/10/2011	EGTT : London (FIR)	Luton (LUT)	SE	D	CTR	JABIRU	Reciprocating	1	Infringement of the Luton CTA (Class D) by a Jabiru squawking 0013. Inbound B737 broken off approach. Standard separation maintained.	Initially shown on radar as two contacts showing -800ft altitude, which periodically merged and split leading the controller to believe radar was showing a reflection. A/c was then observed to have left CAS, after which the a/c changed its squawk to 7000. A/c landed at Old Warden and subsequently identified. Reporter states radar screen displayed a number of spurious and secondary reflections during the session.
201112881	14/10/2011	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	PIPER	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by a PA28 at 2400ft. Traffic held until a/c clear of the ATZ.	A/c had previously been working Farnborough LARS but stopped talking to them. Pilot subsequently called ATC and apologised. Pilot believed he could overfly the airfield at 2400ft. Investigation under 201003106.

201112890	15/10/2011	EGTT : London (FIR)	Calshot		D	CTR	PIPER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a PA28 at 1800ft. A/c identified and instructed to vacate CAS. Standard separation maintained.	
201112894	15/10/2011	EGTT : London (FIR)	Stansted	12 SE	D	CTA	BEECH	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a BE36 squawking 7000 at 2400ft. A/c identified via Mode S. Standard separation maintained.	
201112900	07/10/2011	EGTT : London (FIR)	Detling (DET)	N	A	TMA	VANS	Reciprocating	1	Infringement of the London TMA (Class A) by an RV6 squawking 7000 climbing to 2700ft. Traffic info given. Standard separation maintained.	Squawk subsequently changed to 4251.
201112900	07/10/2011	EGTT : London (FIR)	Detling (DET)	N	A	TMA	FOKKER	Turboprop	2	Infringement of the London TMA (Class A) by an RV6 squawking 7000 climbing to 2700ft. Traffic info given. Standard separation maintained.	Squawk subsequently changed to 4251.
201113063	19/10/2011	EGTT : London (FIR)	Audley End	S	D	CTR	OTHER	Reciprocating	1	Infringement of Stansted CTR (Class D) by a X'Air at 1000ft. Inbound B737 delayed. Standard separation maintained.	

201113075	19/10/2011	EGTT : London (FIR)	GAM VOR		D	CTR	GROB	Reciprocating	1	Infringement of the Sheffield Doncaster CTR (Class D) by a G115 at 5000ft. Standard separation maintained.	ATC contacted the pilot. Pilot advised he had become distracted before realising his error.
201113116	19/10/2011	EGTT : London (FIR)	Luton (LUT)		D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C150. Standard separation maintained. Pilot subsequently contacted by ATC.	
201113175	21/10/2011	EGTT : London (FIR)	Andrewsfield		D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C152 squawking 7000 at 700ft. Standard separation maintained.	
201113191	22/10/2011	EGTT : London (FIR)	London City - LCY	10 SW	A	TMA	JODEL	Reciprocating	1	Infringement of the London TMA (Class A) by a Jodel DR1050 squawking 0354 at 3500ft. A/c identified via Mode S. Traffic info and avoiding action given. STCA activated. Separation lost.	The pilot has been contacted and a map reading error has been confirmed as the cause of the incident.
201113191	22/10/2011	EGTT : London (FIR)	London City - LCY	10 SW	A	TMA	GULFSTREAM	Turbofan	2	Infringement of the London TMA (Class A) by a Jodel DR1050 squawking 0354 at 3500ft. A/c identified via Mode S. Traffic info and avoiding action given. STCA activated. Separation lost.	The pilot has been contacted and a map reading error has been confirmed as the cause of the incident.

201113278	30/08/2011	EGTT : London (FIR)	London CTR		A	CTR	HUGHES	Turboshaft	1	Infringement of London CTR (Class A) by an unknown a/c squawking 7000 with no Mode C. A/c later identified to be a Hughes 500.	Northolt ATC gave their traffic avoiding action as a result of this incident.
201113278	30/08/2011	EGTT : London (FIR)	London CTR		A	CTR	OTHER	Unknown		Infringement of London CTR (Class A) by an unknown a/c squawking 7000 with no Mode C. A/c later identified to be a Hughes 500.	Northolt ATC gave their traffic avoiding action as a result of this incident.
201113280	25/10/2011	EGTT : London (FIR)	Cardigan Bay		G	Danger area	CIRRUS	Reciprocating	1	Infringement of active Danger Area D201 by an SR20 at 3000ft. Traffic info given.	
201113282	25/10/2011	EGTT : London (FIR)	Haverhill	2 SSE	Other	Restrict ed area	FLY BUY ULTRALIGHTS	Reciprocating	1	Infringement of the Stansted TMZ (Class G) by a C42. Initially observed as a primary only contact, until 7nm Southeast of Wattisham, when squawk 0013 appeared. Pilot reported transponder problems.	CAA Closure: No further action taken due to elapsed time.
201113296	25/10/2011	EGTT : London (FIR)	Nottingham East Midlands	12 SE	D	CTA	PITTS	Reciprocating	1	Infringement of the East Midlands CTA (Class D) by a Pitts Special at 3800ft. Traffic info given to an inbound B737. Standard separation maintained.	Pilot apologised for his error stating he had drifted further West than anticipated.

201113418	17/10/2011	EGTT : London (FIR)	D039		G	Danger area	CESSNA	Reciprocating	1	Infringement of active Danger Area D039 by a C172 squawking 7000.	The C172 had called London Information, but due to poor RT strength said he would call back. FISO then noticed via AFTN that there was a flight plan for the callsign. However, this indicated that if the C172 routed in a straight line, then it would infringe the active danger area, and, in addition, the controller could see a return on the FID in the southern part of the area. The FISO called Plymouth who said that they could not see the squawk and confirmed that the area was active. As FISO was unable to pass climb instructions, the pilot was contacted and after establishing that he was in D039, was requested to contact Plymouth ATC.
201113424	26/10/2011	EGTT : London (FIR)	Warton		G	Danger area	BEECH	Reciprocating	1	Infringement of the Warton ATZ (Class G) and active Danger Areas EG D406 and EG R413 by a BE33 at 1200-1600ft. Traffic info and avoiding action given.	BE33 pilot was in contact with Manchester Radar and assumed that they would clear the a/c through Warton. By the time the pilot called Warton, the a/c was already inside the ATZ. Warton ATC advised the pilot that he should have established contact prior to entering the zone. The pilot advised that, according to his GPS, the a/c remained outside of the Danger Areas. CAA Closure: Appropriate advice given by Warton ATC at the time and so appropriate lesson learned. Additionally, pilot advised not to rely only on GPS when navigating.
201113519	29/10/2011	EGTT : London (FIR)	Bracknell		A	CTR	ROBINSON	Reciprocating	1	Infringement of the London CTR (Class A) by an R44 squawking 7000. No Mode S or Mode C. Heathrow departures were halted for approx 3mins.	It has subsequently been revealed that hazy weather/sun glare conditions at the time prevented the pilot from having a clear view of the ground terrain and the GPS.
201113532	29/10/2011	EGTT : London (FIR)	Stansted	3 E	D	CTR	PERCIVAL	Turbofan	1	Infringement of the Stansted CTR (Class D) by a Jet Provost. Standard separation maintained.	Appropriate CAA action is being taken as a result of this incident.
201113646	31/10/2011	EGTT : London (FIR)	Bristol International	8 SW	D	CTA	GROB	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a Grob Tutor receiving a Basic Service at FL70. A/c instructed to vacate CAS. Standard separation maintained.	

201113711	01/11/2011	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	STAMPE	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by an SV4. Thames Radar contacted to break a CL300 off the ILS R/W21.	Pilot repeatedly failed to respond to ATC transmissions until giving a readback to a landing clearance after calling finals R/W21. Pilot subsequently failed to comply with arequest to contact ATC after landing.☐ CAA Closure: The pilot has received training in Rules of the Air regulations, UK airspace classification, RT procedures and phraseology, ATSOCAS and interception procedures. The a/c radio installation was also checked.
201113728	21/10/2011	EGTT : London (FIR)	Brize Norton		D	CTR	GROB	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a Grob Tutor squawking 3615 resulting in loss of separation against a military a/c. Traffic info and avoiding action given.	
201113728	21/10/2011	EGTT : London (FIR)	Brize Norton		D	CTR	OTHER	Unknown		Infringement of the Brize Norton CTR (Class D) by a Grob Tutor squawking 3615 resulting in loss of separation against a military a/c. Traffic info and avoiding action given.	
201113739	03/11/2011	EGTT : London (FIR)	Nottingham East Midlands	4 E	D	CTR	HUGHES	Turboshaft	1	Infringement of the East Midlands CTR (Class D) by a Hughes 500 squawking 7000. Standard separation maintained.	Pilot apologised for his error citing navigational problems but he believed he was clear of the CTR as denoted on his GPS.
201113824	03/11/2011	EGTT : London (FIR)	London-Gatwick - LGW	S	D	CTA	BEECH	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a BE24 squawking 7000 at 2000ft. Traffic info given to an inbound A319. Standard separation maintained.	

201113835	05/11/2011	EGTT : London (FIR)	London-Heathrow - LHR	4 S	A	CTR	CIRRUS	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by an SR22. Departures stopped for a short period. Standard separation maintained.	IMC training flight. The instructor was not assessing allthe information available to him and did not notice the a/c was not turning when required, hence the infringement by the student. ☐ CAA Closure: The student is to complete further IMC training followed by a test. The instructor isto use all information available to him and create training tasks within the capability of individual students.
201113835	05/11/2011	EGTT : London (FIR)	London-Heathrow - LHR	4 S	A	CTR	BOEING	Turbofan	2	Infringement of the Heathrow CTR (Class A) by an SR22. Departures stopped for a short period. Standard separation maintained.	IMC training flight. The instructor was not assessing allthe information available to him and did not notice the a/c was not turning when required, hence the infringement by the student. ☐ CAA Closure: The student is to complete further IMC training followed by a test. The instructor isto use all information available to him and create training tasks within the capability of individual students.
201113982	09/11/2011	EGTT : London (FIR)	THRED	SW	A		PIPER	Reciprocating	1	Infringement of Airway Q41 (Class A) by a PA28 at 4600ft Southwest of THRED. Standard separation maintained.	
201114004	03/11/2011	EGTT : London (FIR)	D201		Other	Danger area	PIPER	Reciprocating	1	Infringement of Danger Area D201 by a PA28 at 1400ft. ATCunable to establish contact until the a/c had vacated thearea.	
201114108	13/11/2011	EGTT : London (FIR)	Southampton (SAM)	4.5 E	D	CTA	OTHER	Reciprocating	1	Infringement of the Solent CTA (Class D) by an unknown microlight at 2500ft. Traffic and avoiding action given. Separation lost with PA44.	A/c type identified in the vicinity of Calshot by a Pioneer 300.

201114108	13/11/2011	EGTT : London (FIR)	Southampton (SAM)	4.5 E	D	CTA	PIPER	Reciprocating	2	Infringement of the Solent CTA (Class D) by an unknown microlight at 2500ft. Traffic and avoiding action given. Separation lost with PA44.	A/c type identified in the vicinity of Calshot by a Pioneer 300.
201114112	13/11/2011	EGTT : London (FIR)	Snitterfield	2W	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a Robin 2160 at 4000ft squawking 7000. Departing a/c vectored clearand a check all placed. Standard separation maintained.	The pilot had briefed for the aerobatics he was to fly but had not properly planned or briefed for the flight. On getting airborne the weather was worse and the wind stronger than he expected. This led to the pilot getting lost andinfringing CAS. The pilot was not aware of the 0010 squawk or its use so was briefed on this for future flights.
201114225	15/11/2011	EGTT : London (FIR)	Newcastle Emlyn		Other	Danger area	FLY BUY ULTRALIGHTS	Reciprocating	1	Infringement of Danger Area D202 by an Ikarus C42 at 2200ft inbound to Aberporth. Pilot contacted and informed he was inside D202 and instructed to continue own navigation to Aberporth.	
201114244	15/11/2011	EGTT : London (FIR)	River Parrett	2 N	D	CTA	BEECH	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a BE24 at FL65 squawking 3620. Bristol inbound stopped in descent at FL80. Blind calls and a/c responded. A/c instructed to vacate CAS.	Standard separation maintained. A/c had been issued a 3621 squawk but was incorrectly set at 3620.
201114299	17/11/2011	EGTT : London (FIR)	Hullavington		D	CTA		Reciprocating	1	Infringement of the Bristol CTA 8 (Class D) by a CZAW Sportsruiser at 5700ft squawking 7000. Blind calls made withno response. Standard separation maintained.	

201114335	18/11/2011	EGTT : London (FIR)	Stansted	NW	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a unknown a/c squawking 7000. Traffic info given. Standard separationmaintained.	A/c identity confirmed by Luton as a PA28. It was also confirmed that the a/c had been on Luton's frequency throughout and had been told to remain outside CAS. The pilot's report confirms that in hazy conditions he misidentified a town enroute.
201114412	18/11/2011	EGTT : London (FIR)	REXAM	S	A		HAWKER	Turbofan	1	Infringement of the Manchester TMA (Class A) by a Hunter squawking 7000 at FL058, travelling Westbound. Standard separation maintained.	Pilot did not allow enough buffer when operating adjacentto CAS. Appropriate advice given.
201114493	23/11/2011	EGTT : London (FIR)	Southampton (SAM)	6.5 N	D	CTR	PIPER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a PA28 squawking 3676 at 1300ft. VFR departure refused. Standard separation maintained.	Primary contact initially observed. Pilot contacted Solent and identified using SSR. Pilot advised that he was lost and navigational assistance was given by ATC.
201114531	24/11/2011	EGTT : London (FIR)	Andrewsfield	4 NW	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28 at 1200ft squawking 7000. Standard separation maintained.	Instructor became distracted by rear seat passenger, during which time the student pilot assessed the a/c was rightof track and corrected to the left. He believed he was now in the correct position after erroneously identifying a big town to his left to be Braintree, when it was in fact Gt Dunmow. When the instructor returned full attention to the student flying he realised the mis-identification, butas Gt Dunmow remained left of the a/c he considered them to be outside the CTR. Instructor then noted the changed heading and made a 180deg turn to avoid infringement and immediately monitored 120.625. Nothing heard from Essex or Southend ATC so he considered the a/c to be clear of the CTR. In reality due to a 35kt tailwind and new heading, the infringement had now taken place. De-brief and plog analysis revealed incorrect wind conditions used during flight planning. Instructor and student fully debriefed.
201114591	25/11/2011	EGTT : London (FIR)	Southampton (SAM)	S	D	CTR	CESSNA	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a C172 at 1800ft. A/c contacted and advised inside CAS. A/c permitted to transit to the West in order to vacate. Standard separation maintained.	A/c had been on frequency and had told ATC that he was remaining outside of CAS prior to the infringement.

201114606	26/11/2011	EGTT : London (FIR)	Birmingham	W			FOKKER	Reciprocating	1	Infringement occurred during a forced landing after engine had stopped.	ATC was contacted by pilot of subject a/c stating that he had force landed at a disused airfield. The radar controller at the time had seen nothing on radar, nor heard any transmissions from an a/c in distress. It was reported that the engine started to misfire, pilot switched tanks but the engine stopped. Pilot had been monitoring frequency but did not make an emergency call. The pilot noticed the disused airfield and landed on the grass alongside the old runway with the Prodrive track to the left. This is technically a zone infringement, in emergency circumstances. No a/c were departing at the time and no separation was lost.
201114671	27/11/2011	EGTT : London (FIR)	Farnborough		A		PIPER	Reciprocating	1	Infringement of CAS-T (Class D) by a PA28. Farnborough LARS West made blind calls with no response. A/c subsequently identified by Brize Norton.	Brize Norton transferred PA28 onto frequency 125.25 for a service. PA28 called on frequency and was given a Farnborough squawk and BS. Farnborough ATC asked the pilot if they he was aware of the CAS-T to which he replied negative, ATC advised pilot to check his NOTAMS for future flights. The pilots report states that the situation was not helped by NOTAMS not being available at the point of departure due to server computer problem.
201114691	24/11/2011	EGTT : London (FIR)	Church Fenton		G	ATZ	PIPER	Reciprocating	1	Infringement of the Church Fenton ATZ (Class G) by a PA28, 2nm North tracking South. A/c identified when visual at approx 1000-1500ft tracking East to West.	No RT comms.
201114698	28/11/2011	EGTT : London (FIR)	Stansted	12 NE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTA and CTR (Class D) by a C152 at 2000ft. Two inbound a/c given extended vectors. Standard separation maintained.	Pilot error acknowledged.
201114743	19/11/2011	EGTT : London (FIR)	D123		Other	Danger area	CESSNA	Reciprocating	1	Infringement of active Danger Area D123 by a C210 at 1500ft.	

201114844	03/12/2011	EGTT : London (FIR)	Southampton (SAM)	11 N	D	CTA	CESSNA	Reciprocating	1	Infringement of the Solent CTA (Class D) at 2600ft by a C172 squawking 7000. Blind calls made with no response. Traffic info given. Standard separation maintained.	
201114845	03/12/2011	EGTT : London (FIR)	Honiley (HON)	4 SW	D	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a PA38 at3000ft. Separation lost with a DHC8 although no risk of collision involved. Traffic info given.	
201114845	03/12/2011	EGTT : London (FIR)	Honiley (HON)	4 SW	D	CTR	DE HAVILLAND	Turboprop	2	Infringement of the Birmingham CTR (Class D) by a PA38 at3000ft. Separation lost with a DHC8 although no risk of collision involved. Traffic info given.	
201114850	03/12/2011	EGTT : London (FIR)	Luton (LUT)	14 E	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 squawking 7000 at 3000ft. CAIT activated. Traffic info. Two Luton inbounds were given extending routeings.	Standard separation maintained. CFI alerted. Pilot planned to fly at 2400ft throughout the flight, but erroneouslyclimbed to 2800ft before Royston. The pilot stated usually he would check his chart before climbing, but on this occasion failed to do so.
201114850	03/12/2011	EGTT : London (FIR)	Luton (LUT)	14 E	A	TMA	AIRBUS	Turbofan	2	Infringement of the LTMA (Class A) by a PA28 squawking 7000 at 3000ft. CAIT activated. Traffic info. Two Luton inbounds were given extending routeings.	Standard separation maintained. CFI alerted. Pilot planned to fly at 2400ft throughout the flight, but erroneouslyclimbed to 2800ft before Royston. The pilot stated usually he would check his chart before climbing, but on this occasion failed to do so.

201114855	02/12/2011	EGTT : London (FIR)	Stansted	11 NE	Other	Other	DE HAVILLAND	Reciprocating	1	Infringement of the Stansted TMZ1 (Class G) by a DH Chipmunk and a DH2 in formation at 1300ft. DH Chipmunk squawking 7000. Traffic info given to an inbound B737 and A319.	Pilot unaware of TMZ procedures and appropriate action has been taken on this aspect. Pilot subsequently confirmed that the a/c was operating at 1300ft (beneath the StanstedCTA).
201114855	02/12/2011	EGTT : London (FIR)	Stansted	11 NE	Other	Other	OTHER	Unknown		Infringement of the Stansted TMZ1 (Class G) by a DH Chipmunk and a DH2 in formation at 1300ft. DH Chipmunk squawking 7000. Traffic info given to an inbound B737 and A319.	Pilot unaware of TMZ procedures and appropriate action has been taken on this aspect. Pilot subsequently confirmed that the a/c was operating at 1300ft (beneath the StanstedCTA).
201114887	30/11/2011	EGTT : London (FIR)	Brize Norton	10 W	D	CTR	PIPER	Reciprocating	1	Infringement of the Brize CTR (Class D) by a PA28 squawking 7000 at 3000ft.	The instructor acknowledges that the edge of a CTR is notthe place to be teaching instructional points. The instructor was too complacent in expecting a late clearance. □ CAA Closure: The operator is to review planning of student flights close to controlled airspace.
201114901	05/12/2011	EGTT : London (FIR)	Luton (LUT)	5 SSE	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 at 2200ft squawking 7000. A/c subsequently changed to a 5032 squawk. A/c instructed to vacate CAS by Farnborough.	Standard separation maintained. Student pilot mis-identified St Albans for Potters Bar. Pilot error acknowledged. Pilot to undertake further dual navigation training.
201114912	24/09/2011	EGTT : London (FIR)	Barkway (BKY)	2S	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 unverified at 2900ft. Standard separation maintained.	See also 200805261, 201111483.

201114930	05/12/2011	EGTT : London (FIR)	Luton (LUT)	12 W	D	CTR	PIPER	Reciprocating	1	Infringement of Luton CTR (Class D) by a PA28 at 4400ft. ATC attempted to contact the a/c to no avail. A check all was imposed. Standard separation maintained.	Subsequent investigation revealed the pilot was too reliant on his GPS. CFI alerted and de-briefed the pilot accordingly.
201115000	04/12/2011	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	PIPER	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by a PA28. Standard separation maintained.	PA28 was squawking a code assigned by Farnborough Radar. Biggin Hill ATC telephoned Farnborough and obtained the identity and intentions of the a/c.
201115079	18/11/2011	EGTT : London (FIR)	Stansted	6 E	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C172 on listening squawk 0013. ATC controller contacted the pilot, who reported lost. A/c instructed to vacate CAS. Standard separation maintained.	Traffic info given to an inbound B737 prior the infringement.
201115096	09/12/2011	EGTT : London (FIR)	Birmingham	13 N	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 at2000ft squawking 7000. Standard separation maintained.	Pilot subsequently rang Birmingham ATC and the incident was discussed.
201115121	09/12/2011	EGTT : London (FIR)	White Waltham	S	A	CTR	CESSNA	Reciprocating	1	Infringement of the Heathrow CTR (Class D) by a C172 at 2000ft squawking 7000. No traffic affected. Standard separation maintained.	A/c contacted and pilot advised of the infringement. Pilot stated he had lost situational awareness because the sunwas in his eyes.

201115145	06/12/2011	EGTT : London (FIR)	London-Gatwick - LGW	NW	D	CTA	ROBINSON	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by an R44 squawking 7000 at a maximum observed altitude of 1800ft. No departures or arrivals were affected.	
201115148	11/12/2011	EGTT : London (FIR)	Denham		A	CTR	CIRRUS	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by an SR22 at 2100ft. Standard separation maintained.	Operator alerted. Pilot error acknowledged. Pilot became temporarily distracted after entering unexpected cloud at 800ft (local weather information stated cloud base at 1800ft).
201115152	10/12/2011	EGTT : London (FIR)	Sandtoft	5 N	D	CTR	PIPER	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by a PA28 at 3500ft. Standard separation maintained.	CFI alerted.
201115153	12/12/2011	EGTT : London (FIR)	DRAKE		A		PILATUS	Turboprop	1	Infringement of Airway N859 by a PC6 at FL87 resulting in a loss of separation against a C337. Traffic info and avoiding action given.	CAA Closure: French DGAC advised.
201115153	12/12/2011	EGTT : London (FIR)	DRAKE		A		CESSNA	Reciprocating	2	Infringement of Airway N859 by a PC6 at FL87 resulting in a loss of separation against a C337. Traffic info and avoiding action given.	CAA Closure: French DGAC advised.

201115187	12/12/2011	EGTT : London (FIR)	Great Dunmow		D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28 at 1500ft. Standard separation maintained.	Pilot error acknowledged. Appropriate advice has been passed to the pilot concerned.
201115195	09/12/2011	EGTT : London (FIR)	Aberporth	7 N	G	Danger area	STOLP STARDUSTER	Reciprocating	1	Infringement of active Danger Area D201 (Aberporth) by a Starduster SA300 at 2000ft. Active trials aborted. Pilot instructed to clear area by quickest route.	Pilot was routeing from Blackpool to Haverfordwest via a fuel stop at Caernarfon. Enroute to Caernarfon, the pilot decided that he had enough fuel to route direct to Haverfordwest. The pilot had folded his chart for Caernarfon which meant that D201 was not visible. □ CAA Closure: The pilotapologised when informed of his digression.
201115356	15/12/2011	EGTT : London (FIR)	Northwich		D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a PA38 at1200ft. Traffic info given. Standard separation maintained.	Solo student on a navigational exercise mis-identified Northwich for Crewe. Pilot error acknowledged. Pilot has since operated the same route with an instructor and has undertaken further navigation tuition.
201115370	14/11/2011	EGTT : London (FIR)	D036		Other	Danger area	PIPER	Reciprocating	1	Infringement of Danger Area D036 by a PA28 at 3000ft. No activity at the time of the infringement.	
201115437	16/12/2011	EGTT : London (FIR)	Doncaster Sheffield				CESSNA	Reciprocating	1	Reported Class A Airway infringement and malfunction of VHF radio and transponder during training flight.	A/c on a Basic Service reported in to ATC on return with an intermittent transmission on comms box 1. A/c switched to box 2 which appeared to operate normally. ATC then lostcommunication with a/c as it infringed CAS and contacted D&D. Communication re-established and altitude was questioned by ATC. QNH setting indicated 1700ft but ATC reported Mode C on the transponder was indicating FL54. Pilot turned the transponder to Mode A squawking 7000. Comms box 1 still unavailable with comms box 2 readability 5. Pilot requested to call ATC on the land line. Controller stated thattransponder had indicated up to FL97.

201115460	18/12/2011	EGTT : London (FIR)	Doncaster Sheffield		D	CTR	PIPER	Reciprocating	1	Infringement of the Doncaster CTR (Class D) by a PA38 squawking 7000 at 2000ft. A/c subsequently landed without clearance. Traffic info given. Standard separation maintained.	The CFI of the flying club concerned has been alerted andhas taken appropriate remedial action.
201115461	18/12/2011	EGTT : London (FIR)	Biggin Hill		G	ATZ	ROBINSON	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by an R44. A/c passed through the climb out of R/W21 and overflew theNoise Sensitive Area of Biggin Hill. Traffic info given to an a/c on RH base R/W29.	
201115631	20/12/2011	EGTT : London (FIR)	Stansted	13 NW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C152 squawking initially 7000 at 2900ft. Traffic info and avoiding action given. A/c identified using 0201 squawk.	A minor loss of separation occurred due to late descent of the C152. Distraction due to high workload cited as a casual factor. Pilot has been given appropriate advice.
201115631	20/12/2011	EGTT : London (FIR)	Stansted	13 NW	D	CTA	AIRBUS	Turbofan	2	Infringement of the Stansted CTA (Class D) by a C152 squawking initially 7000 at 2900ft. Traffic info and avoiding action given. A/c identified using 0201 squawk.	A minor loss of separation occurred due to late descent of the C152. Distraction due to high workload cited as a casual factor. Pilot has been given appropriate advice.
201115639	21/12/2011	EGTT : London (FIR)	Liverpool	10 SE	D	CTR	PIPER	Reciprocating	1	PA38 lost communications with Liverpool during radar vectors for ILS approach. The a/c then entered the Manchester CTR (Class D) before contact re-established.	Once comms were established the a/c was kept on the radarfrequency until it had landed.

201115735	14/12/2011	EGTT : London (FIR)	Brize Norton		D	CTR	CESSNA	Turboprop	1	Infringement of the Brize Norton CTR (Class D) by a C208 at 2000ft. Standard separation maintained.	C208 was receiving a BS from Benson ATC and requested Benson ATC to arrange transit of Brize Norton CTR. Benson ATC tried to freecall the C208 to the Brize Norton frequency but for reasons unknown had not been able to raise the C208 on the RT. By the time the frequency change occurred C208 had entered the CTR. The C208 pilot rang Brize Norton who reminded the pilot he should have remained outside of CAS until he had received positive ATC clearance to do so.
201115738	22/12/2011	EGTT : London (FIR)	Brize Norton		D	CTR	SCOTTISH AVIATION	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a Bulldog. Standard separation maintained.	The Bulldog was observed manoeuvring above the lateral limits of the Brize Norton CTR. The a/c subsequently commenced a descent entering the Brize Norton CTR. The a/c was traced to Kemble. The pilot called Brize Norton to apologise, he had not realised he had drifted above the CTR in the Westerly winds (2000ft 290/30 5000ft 300/30).
201115750	27/12/2011	EGTT : London (FIR)	Denham		A	CTR	PIPER	Reciprocating	1	Infringement of London CTR (Class A) by a PA28 at 2100ft.Heathrow departures stopped.	Appropriate CAA action is being taken as a result of this incident.
201115875	31/12/2011	EGTT : London (FIR)	Birmingham	16 NW	D	CTA	GROB	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a Grob 115 squawking 7000 at 5400ft. Standard separation maintained. Two outbound services delayed by approx 5mins.	Due to stronger winds from the West than forecast, the a/c had drifted further downwind than intended. The appropriate lessons appear to have been learnt by the instructor concerned.
201200003	02/01/2012	EGTT : London (FIR)	Elstree	5 NE	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C172 at 3000ft. Same a/c subsequently infringed the London City CTR/CTA (Class D) at 2400ft. An inbound a/c delayed and a departure held on the runway.	Standard separation maintained. A/c operating circuits out of Elstree. Attempts to contact Elstree ATC unsuccessful. Attempts to contact the a/c also unsuccessful. CFI has advised that the pilot concerned is to undertake a further navigational exercise before being permitted to fly solo again.

201200004	02/01/2012	EGTT : London (FIR)	Birmingham	6.9 NNE	D	CTR	GROB	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a Grob G109 at 2000ft squawking 7000. Inbound a/c to Birmingham given delaying action. Standard separation maintained.	Several blind transmissions made with no response. A/c identified via a police helicopter operating in the vicinity. Pilot error acknowledged.
201200008	02/01/2012	EGTT : London (FIR)	Luton (LUT)	4 ESE	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Robin 1180 squawking 5030 at 2000ft. A/c subsequently reached R/W26 centreline, 4nm East of Luton Airport, before making a 180deg turn and exiting CAS.	Following the incident, the pilot analysed the events of the a/c's departure and noted that, although the flight had been extensively planned, the pilot's intentions on departure had not accounted for the noise requirements, which had necessitated a right turn after departure instead of the intended left turn. The pilot noted that the noise sensitive maps available to pilots at Panshanger are not printed North up as might be expected and suggested that this may have led to an incorrect assimilation of the a/c's departure. The pilot reported that the a/c was equipped with aGPS unit that did not give audible warning of airspace restrictions ahead.□ CAA Closure: The pilot has thoroughly debriefed the event and also completed an online infringement questionnaire designed to support and help other pilotsin avoiding similar occurrences.
201200146	06/01/2012	EGTT : London (FIR)	Biggin (BIG)		A	CTR	PIPER	Reciprocating	1	Infringements of the London CTR (Class A) and Biggin Hill ATZ (Class G) by a PA28 squawking 5020 at 1700ft.	Appropriate CAA action is being taken as a result of this incident.
201200186	06/01/2012	EGTT : London (FIR)	Birmingham	12.5 S	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 at3000ft. Standard separation maintained.	Pilot error acknowledged.
201200225	08/01/2012	EGTT : London (FIR)	Southampton (SAM)	10 NE	D	CTR	GROB	Reciprocating	1	Infringement of the Southampton CTR/Solent CTA (Class D) by a G109 at 4000ft. Traffic info given. Runway switched to allow traffic to depart. Standard separation maintained.	

201200230	09/01/2012	EGTT : London (FIR)	NEDUL	3 N	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by an unknown squawking 7000 climbing to 2400ft. JS32 departure delayed for 3mins. A/c identified via Mode S as a PA28.	Follow-up with the pilot concerned determined that the a/c had departed White Waltham for a flight around the Isle of White. The pilot believed the he had climbed the a/c too early in error and having re-checked the relevant chartsrealised the error that had been made. The pilot was requested to complete an online infringement questionnaire andgiven details of online resources designed to assist pilots when navigating UK airspace.□ CAA Closure: No further CAA action required.
201200230	09/01/2012	EGTT : London (FIR)	NEDUL	3 N	D	CTA	BAE	Turboprop	2	Infringement of the Solent CTA (Class D) by an unknown squawking 7000 climbing to 2400ft. JS32 departure delayed for 3mins. A/c identified via Mode S as a PA28.	Follow-up with the pilot concerned determined that the a/c had departed White Waltham for a flight around the Isle of White. The pilot believed the he had climbed the a/c too early in error and having re-checked the relevant chartsrealised the error that had been made. The pilot was requested to complete an online infringement questionnaire andgiven details of online resources designed to assist pilots when navigating UK airspace.□ CAA Closure: No further CAA action required.
201200336	12/01/2012	EGTT : London (FIR)	Coventry	S	A	CTA	PIPER	Reciprocating	1	Infringement of the Daventry CTA (Class A) by a PA28 at 5000ft. Standard separation maintained.	The PA28 was in receipt of a DS from Brize Norton at 5000ft. The PA28 requested a handover to East Midlands and Brize Norton telephoned East Midlands to handover the traffic. East Midlands asked for a freecall when Brize no longer wanted to work the traffic. Radar recording shows that thePA28 entered the Daventry CTA (Class A) at 1047:53. At 1048:28 the PA28 was told by Brize Norton that East Midlands had the PA28's details and "to continue" with East Midlands. When the PA28 contacted East Midlands the a/c was outside radar cover and it was suggested that contact be made with Coventry for traffic info. Coventry contacted Birmingham as it transpired that the PA28 was inside CAS. The pilot of the PA28 was neither given a clearance to enter CAS nor was he instructed to remain clear of CAS. When the pilot was questioned by East Midlands he replied that he had assumed that a clearance had been obtained for him by the previous controller □ CAA Closure: It is the pilot's responsibility to ensure that the a/c remains outside CAS unless a clearance is given. The PA28 was in receipt of a surveillance based service. The PA28 was given no instruction to remain clear nor alerted to the a/c's proximity and subsequent entry into CAS. The pilot incorrectly assumed that he had clearance to enter CAS. This may have been reinforced by the request for a radar handover and the additional information that East Midlands had the a/c's details.
201200378	13/01/2012	EGTT : London (FIR)	Luton (LUT)	14 NE	A	TMA	GROB	Reciprocating	1	Infringement of the London TMA (Class A) by a Grob115 squawking 7000 with Mode C indicating 5900ft. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident.
201200382	11/01/2012	EGTT : London (FIR)	Compton (CPT)		A	TMA	AVIONS ROBIN	Reciprocating	1	Infringement of the LTMA (Class A) by a Robin 100 at 5000ft. A/c under Farnborough LARS and instructed to vacate CAS. Standard separation maintained.	

201200388	10/01/2012	EGTT : London (FIR)	Brize Norton	9 W	D	CTA	PIPER	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a PA28 squawking 3305 with Mode C indicating 1400ft and climbing.Standard separation maintained. Pilot apologised.	Pilot was recovering from a PFL with D&D and due to the unexpected sudden cloud cover beneath him had temporarily lost contact with the ground and his position.
201200414	15/01/2012	EGTT : London (FIR)	Southampton (SAM)	8 NE	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a Robin 2100 (believed). Standard separation maintained.	A/c encountered stronger than expected winds when operating close to CAS. Pilot error acknowledged.
201200419	14/01/2012	EGTT : London (FIR)	London-Heathrow - LHR	NW	A	TMA	CESSNA	Reciprocating	1	Infringement of the London TMA (Class A) by a C172 squawking 5036, 3nm NW of R/W09L final approach. Traffic info and avoiding action given. Separation lost.	Student flight under instruction. The CFI has been alerted to this incident as is to debrief the FI concerned. FI error acknowledged.
201200419	14/01/2012	EGTT : London (FIR)	London-Heathrow - LHR	NW	A	TMA	AIRBUS	Turbofan	2	Infringement of the London TMA (Class A) by a C172 squawking 5036, 3nm NW of R/W09L final approach. Traffic info and avoiding action given. Separation lost.	Student flight under instruction. The CFI has been alerted to this incident as is to debrief the FI concerned. FI error acknowledged.
201200420	15/01/2012	EGTT : London (FIR)	London City - LCY	8 E	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C172 at 3000ft squawking 7000. London City departure delayed. Standard separation maintained.	IMC training flight. Flight Instructor error acknowledged. FI debriefed by the CFI.

201200423	15/01/2012	EGTT : London (FIR)	Birmingham	7.8 SW	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a Robin 2160 indicating 2600ft. Standard separation maintained.	Pilot had suffered a compass failure and transferred to D&D for assistance, but was asked to standby for 10mins by which time the a/c had entered the CTR. D&D confirmed thatthe a/c had called for a practise PAN and had requested him to call back in 10mins. ☐ CAA Closure: Pilot spoken to by controller and Watch Manager to discuss situations warranting a real PAN call. Good Airmanship Safety Sense leaflet sent to pilot with links to airmanship and aviation information online resources.
201200423	15/01/2012	EGTT : London (FIR)	Birmingham	7.8 SW	D	CTR	AIRBUS	Turbofan	2	Infringement of the Birmingham CTR (Class D) by a Robin 2160 indicating 2600ft. Standard separation maintained.	Pilot had suffered a compass failure and transferred to D&D for assistance, but was asked to standby for 10mins by which time the a/c had entered the CTR. D&D confirmed thatthe a/c had called for a practise PAN and had requested him to call back in 10mins. ☐ CAA Closure: Pilot spoken to by controller and Watch Manager to discuss situations warranting a real PAN call. Good Airmanship Safety Sense leaflet sent to pilot with links to airmanship and aviation information online resources.
201200443	13/01/2012	EGTT : London (FIR)	Daventry (DTY)	5 N	A	CTA	CESSNA	Reciprocating	1	Infringement of the Daventry CTA (Class A) by a C172 at 5300ft. A/c contacted and instructed to descend below CAS.	
201200462	16/01/2012	EGTT : London (FIR)	Birmingham	19 N	A	CTA	PIPER	Reciprocating	1	Infringement of the Daventry CTA (Class A) by a PA28 at 4900ft squawking 7000. Pilot responded to a blind call and was instructed to descend below CAS. Standard separation maintained.	Pilot error acknowledged.
201200474	16/01/2012	EGTT : London (FIR)	White Waltham	E	A	CTR	VANS	Reciprocating	1	Infringement of the London CTR (Class A) by an Vans RV9 indicating 2200ft. CAIT activated. Standard separation maintained.	Pilot has been fully alerted to this incident with appropriate advice to be given. Pilot error acknowledged.

201200474	16/01/2012	EGTT : London (FIR)	White Waltham	E	A	CTR	AIRBUS	Turbofan	2	Infringement of the London CTR (Class A) by an Vans RV9 indicating 2200ft. CAIT activated. Standard separation maintained.	Pilot has been fully alerted to this incident with appropriate advice to be given. Pilot error acknowledged.
201200480	16/01/2012	EGTT : London (FIR)	London-Gatwick - LGW	15 SW	A	TMA	AVIONS ROBIN	Reciprocating	1	Infringement of the London TMA (Class A) by a Robin 400 squawking 7000 indicating 4000ft. A340 in descent to 3000ft was stopped at 5000ft. Standard separation lost.	Pilot error acknowledged. The pilot has been contacted byATC and the appropriate lessons appear to have been learnt. Pilot to undertake further cross-country training.
201200480	16/01/2012	EGTT : London (FIR)	London-Gatwick - LGW	15 SW	A	TMA	AIRBUS	Turbofan	4	Infringement of the London TMA (Class A) by a Robin 400 squawking 7000 indicating 4000ft. A340 in descent to 3000ft was stopped at 5000ft. Standard separation lost.	Pilot error acknowledged. The pilot has been contacted byATC and the appropriate lessons appear to have been learnt. Pilot to undertake further cross-country training.
201200596	17/01/2012	EGTT : London (FIR)	Stansted	NE	D	CTA	ROBINSON	Reciprocating	1	Infringement of the Stansted CTA (Class D) by an R22 at 1700ft.	Solo student on a cross country misread his direction indicator. The operator concerned has been alerted and has taken appropriate remedial action.
201200681	22/01/2012	EGTT : London (FIR)	Biggin (BIG)	3 SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a PA28 squawking 7047 at 2000ft. Standard separation maintained.	Details of the infringing a/c were received from Biggin and Mode S data. Strong North-Westerly wind present at timeof infringement.

201200758	06/01/2012	EGTT : London (FIR)	Denham	2W	A	CTR	PIPER	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by a PA28 at 1400ft. Heathrow departures were briefly stopped.	See also 201200146.
201200848	26/01/2012	EGTT : London (FIR)	Redhill	NE	D	CTA	EUROCOPTER	Turboshaft	1	Infringement of the Gatwick CTA (Class D) by an EC120 climbing to 2200ft. Standard separation maintained.	A/c was observed wearing a Redhill squawk and subsequently identified by them.
201200868	26/01/2012	EGTT : London (FIR)	Liverpool	5 S	D	CTR	PIPER	Reciprocating	1	Infringement of the Liverpool CTR (Class D) by a PA28 squawking 7000 with Mode C indicating 1200ft. Traffic info and avoiding action given. Standard separation maintained. ATC training in progress.	The PA28 departed Hawarden and flew North of the aerodrome. The pilot reported the purpose of the flight was to view the football ground at Anfield. At 1428:54 the PA28 pilot called Liverpool ATC with callsign only and was requested to standby. (There was no note that ATC instructed the a/c to remain clear of CAS). At 1430:07 the PA28 entered the Liverpool CTR at 1400ft without a clearance. There was commercial traffic downwind right hand at 4000ft which was passed traffic info and given a 10deg left turn. A departure from Liverpool R/W27 prevented a further turn to the left. The PA28 was assigned a local Mode A code and informedthat the a/c had entered CAS without a clearance. The pilot later stated that he was advised to remain clear and orbit. There was no surveillance evidence to verify these were the actions of the pilot. ☐ CAA Closure: The pilot was directed to resources available to prevent a similar recurrence.
201200868	26/01/2012	EGTT : London (FIR)	Liverpool	5 S	D	CTR	AIRBUS	Turbofan	2	Infringement of the Liverpool CTR (Class D) by a PA28 squawking 7000 with Mode C indicating 1200ft. Traffic info and avoiding action given. Standard separation maintained. ATC training in progress.	The PA28 departed Hawarden and flew North of the aerodrome. The pilot reported the purpose of the flight was to view the football ground at Anfield. At 1428:54 the PA28 pilot called Liverpool ATC with callsign only and was requested to standby. (There was no note that ATC instructed the a/c to remain clear of CAS). At 1430:07 the PA28 entered the Liverpool CTR at 1400ft without a clearance. There was commercial traffic downwind right hand at 4000ft which was passed traffic info and given a 10deg left turn. A departure from Liverpool R/W27 prevented a further turn to the left. The PA28 was assigned a local Mode A code and informedthat the a/c had entered CAS without a clearance. The pilot later stated that he was advised to remain clear and orbit. There was no surveillance evidence to verify these were the actions of the pilot. ☐ CAA Closure: The pilot was directed to resources available to prevent a similar recurrence.
201200915	27/01/2012	EGTT : London (FIR)	Birmingham	15 S	A	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 squawking 7000 at 4700ft. Traffic info and avoiding action given. Departures suspended.	Standard separation maintained. ATC training in progress.Appropriate follow up action has been taken. Pilot statedthat the infringement resulted from the winds being stronger than forecast combined with restricted visibility.

201200915	27/01/2012	EGTT : London (FIR)	Birmingham	15 S	A	CTR	ANTONOV	Turboprop	4	Infringement of the Birmingham CTA (Class D) by a PA28 squawking 7000 at 4700ft. Traffic info and avoiding action given. Departures suspended.	Standard separation maintained. ATC training in progress.Appropriate follow up action has been taken. Pilot statedthat the infringement resulted from the winds being stronger than forecast combined with restricted visibility.
201200918	27/01/2012	EGTT : London (FIR)	Graveley		D	CTR	OTHER	Unknown		Infringement of the Luton CTR (Class D) by a Gyroplane and a Sportsruiser at 1000ft, on three separate occasions between 0930hrs and 1156hrs. Standard separation maintained.	ATC training in progress. Appropriate ATC follow up action taken.
201200918	27/01/2012	EGTT : London (FIR)	Graveley		D	CTR		Reciprocating	1	Infringement of the Luton CTR (Class D) by a Gyroplane and a Sportsruiser at 1000ft, on three separate occasions between 0930hrs and 1156hrs. Standard separation maintained.	ATC training in progress. Appropriate ATC follow up action taken.
201200922	28/01/2012	EGTT : London (FIR)	Birmingham	13nm N	D	CTA	PIPER	Reciprocating	1	Infringement of Birmingham CTA (Class D) by a PA28 at 2200ft. Traffic info given. Standard separation maintained. Three outbound a/c were delayed on ground and one inbound was given delaying action.	Coventry and East Midlands Radar and Birmingham Tower made blind calls without response. Police helicopter was on tower frequency and successfully identified the PA28, further blind calls were made using the a/c's callsign without response. PA28 subsequently made contact and was transferred to 131.0. Pilot apologised and reported he was looking for a BS. The pilots report indicates that a navigational error occurred but the appropriate lessons appear to have been learnt.
201200925	27/01/2012	EGTT : London (FIR)	Cardiff (CDF)	6nm	D	CTR	FOURNIER	Reciprocating	1	Infringement of the Cardiff CTR (Class D) by a RF6 at 2200ft. Standard separation maintained. Student pilot, under instruction, on a cross country flight. A/c not transponder equipped.	The instructor accepts that errors were made and that theappropriate lessons have been learnt.

201200926	28/01/2012	EGTT : London (FIR)	Birmingham	NNE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA-1 (Class D) by a C152 squawking 7000 at 2400ft. Standard separation maintained.	Check North restriction was already in force and this wasretained whilst the infringer was inside the CTA-1. Blindcalls were made with no response. East Midlands were contacted and later confirmed that the a/c had been speaking with them and had intended to route via Draycott Water on aBasic Service. By this time the pilot had called on frequency requesting a Basic Service. A/c was then transferred back to East Midlands. Subsequent conversations with the pilot indicated that he had been unsure of his position.
201200928	28/01/2012	EGTT : London (FIR)	Woodley (WOD)	N	A	TMA	SOCATA	Reciprocating	1	Infringement of the LTMA (Class A) by a TB10 at 3000ft squawking 0443. Two commercial a/c delayed. CAIT activated. Separation lost.	Pilot has been contacted by the ATC unit and appropriate lessons appear to have been learnt.
201200928	28/01/2012	EGTT : London (FIR)	Woodley (WOD)	N	A	TMA	BOEING	Turbofan	4	Infringement of the LTMA (Class A) by a TB10 at 3000ft squawking 0443. Two commercial a/c delayed. CAIT activated. Separation lost.	Pilot has been contacted by the ATC unit and appropriate lessons appear to have been learnt.
201200929	28/01/2012	EGTT : London (FIR)	Birmingham	11 S	D	CTA	ROBINSON	Reciprocating	1	Infringement of the Birmingham CTA (Class D) CTA-5 by an R44 squawking 7000 at 3300ft. Standard separation maintained.	Review of the radar showed that the R44 displaying 7000 entered CTA-5 at 3400ft at 1415Z and exited CTA-5 at 2800ftat 1419Z. The base of Class D controlled airspace in thisarea is 2500ft. The a/c was traced and owner/pilot contacted. The pilot, local to the SW of Birmingham, reported being on a pleasure flight to view local sites and of following a route familiar to him. However, on this occasion thepilot decided to climb to 1km and believed the a/c would remain outside CAS. The pilot reviewed the GPS log which confirmed entry. The pilot reported that the a/c was climbed above a thin layer of cloud. In addition it was noted that as the a/c climbed, the slight winds a lower levels soon increased and the a/c was blown to the East of its planned position. □ CAA Closure: Further to the investigation the pilot was invited to complete an online infringement questionnaire and offered advice regarding the local ATC listening squawk. Online resources designed to assist in avoiding future incidents were also highlighted.
201200930	28/01/2012	EGTT : London (FIR)	Isle Of Wight	Yarmouth	D	CTA	MOONEY	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Mooney 20 squawking 0433 with Mode C indicating 4800ft. Standard separation maintained.	Although not working the traffic Bournemouth identified the a/c using Mode S.

201200931	28/01/2012	EGTT : London (FIR)	Luton (LUT)	NE	D	CTR	VANS	Reciprocating	1	Infringement of the Luton (CTR) Class D by a Vans RV7 squawking 7000. Departures stopped. Pilot subsequently statedhe was distracted dealing with an equipment problem.	ATC have contacted the pilot concerned as result of this incident and occurrence 201200946 (same day). Pilot error acknowledged.
201200941	29/01/2012	EGTT : London (FIR)	Goodwood (GWC)	5 E	A	Prohibited area	EXTRA	Reciprocating	1	Infringement of a CAS-T (Class A) by an Extra 300 squawking 7000 at 3600ft. Standard separation maintained.	Several attempts were made to contact the infringer, without success. A few minutes after the a/c had left CAS-T, LARS North advised the identity had been established by thepilot reporting with Shoreham with his position and level. The pilot having read the relevant NOTAM misinterpreted the information. He had apologised for the incident.
201200946	28/01/2012	EGTT : London (FIR)	Stansted	9 SW	G	Restricted area	VANS	Reciprocating	1	Infringement of the Stansted TMZ2 (Class G) by a Vans RV7squawking 7010 at 700ft. No Mode C.	Mode S revealed the a/c registration and the controller made a blind transmission to which the pilot responded. He advised that he was maintaining 700ft. Subsequent conversations with the pilot revealed that he had inadvertently failed to select Mode C on.
201200946	28/01/2012	EGTT : London (FIR)	Stansted	9 SW	G	Restricted area	BOEING	Turbofan	2	Infringement of the Stansted TMZ2 (Class G) by a Vans RV7squawking 7010 at 700ft. No Mode C.	Mode S revealed the a/c registration and the controller made a blind transmission to which the pilot responded. He advised that he was maintaining 700ft. Subsequent conversations with the pilot revealed that he had inadvertently failed to select Mode C on.
201200956	23/01/2012	EGTT : London (FIR)	Brookmans Park (BPK)		A	TMA	AVIONS ROBIN	Reciprocating	1	Infringement of the London TMA (Class A) by a Robin 400 at 2800ft. CAIT activated. Traffic info and avoiding actiongiven. Separation lost with a Do328.	Pilot became distracted whilst dealing with a malfunctionof the Nav/Com unit. Pilot error acknowledged.

201200956	23/01/2012	EGTT : London (FIR)	Brookmans Park (BPK)		A	TMA	DORNIER	Turboprop	2	Infringement of the London TMA (Class A) by a Robin 400 at 2800ft. CAIT activated. Traffic info and avoiding action given. Separation lost with a Do328.	Pilot became distracted whilst dealing with a malfunction of the Nav/Com unit. Pilot error acknowledged.
201201100	02/02/2012	EGTT : London (FIR)	Honiley (HON)	3 S	D	CTA	BELL	Turboshaft	1	Infringement of the Birmingham CTA-2 (Class D) by a Bell 206 squawking 1177 indicating 1800ft. Standard separation maintained. ATP descent into Coventry delayed to maintain separation.	The pilot's report indicates that he had the incorrect pressure set.
201201100	02/02/2012	EGTT : London (FIR)	Honiley (HON)	3 S	D	CTA	BAE	Turboprop	2	Infringement of the Birmingham CTA-2 (Class D) by a Bell 206 squawking 1177 indicating 1800ft. Standard separation maintained. ATP descent into Coventry delayed to maintain separation.	The pilot's report indicates that he had the incorrect pressure set.
201201101	13/01/2012	EGTT : London (FIR)	Portsmouth	EG D037	G	Danger area	PIPER	Reciprocating	1	Infringement of active Danger Area EG D037 by a PA28 squawking 7000 at FL60. Traffic and avoiding action given.	The pilot had been talking to London Information but failed to provide accurate routing information and therefore did not request a DACS or DAAIS. The routing given to them would have taken the a/c around the active danger areas. Plymouth ATC recognised that the report was inaccurate and asked London FISO to transfer control to them. PA28 was then given steers to safely transit to the FIR boundary for onward flight to his destination in France. Pilot informed of his errors.
201201132	02/02/2012	EGTT : London (FIR)	Harpur Hill		G	Danger area	ROBINSON	Reciprocating	1	Infringement of Danger Area D314 (Harpur Hill) by an R44.A/c flew around and through D314 prior to landing to the North of the Danger Area.	

201201186	01/02/2012	EGTT : London (FIR)	Brize Norton	5.5 nm NNE	D	CTR	PIPER	Reciprocating	1	Infringement of Brize Norton CTR (Class D) by a PA28R squawking 7000 with Mode C indicating 1300ft. Standard separation maintained.	The a/c was carrying out an NDB approach to R/W10 at Oxford.
201201206	03/02/2012	EGTT : London (FIR)	Leeds Bradford (LBA)	4 N	D	CTR	GRUMMAN	Reciprocating	1	Infringement of the Leeds/Bradford CTR (Class D) by a Grumman AA5 at 2000ft squawking 7000. Pilot informed of his position. Standard separation maintained.	
201201311	04/02/2012	EGTT : London (FIR)	London-Gatwick - LGW	4 NE	D	CTR	FLY BUY ULTRALIGHTS	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a C42, initially primary only. CAIT activated. B777 on climb out from Gatwick on a SAM SID. Pilot has been fully alerted.	Separation lost.
201201311	04/02/2012	EGTT : London (FIR)	London-Gatwick - LGW	4 NE	D	CTR	BOEING	Turbofan	2	Infringement of the Gatwick CTR (Class D) by a C42, initially primary only. CAIT activated. B777 on climb out from Gatwick on a SAM SID. Pilot has been fully alerted.	Separation lost.
201201455	10/02/2012	EGTT : London (FIR)	TIGER	5nm W	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 at 4500-4700ft. CAIT activated. Standard separation maintained.	

201201456	11/02/2012	EGTT : London (FIR)	Nottingham East Midlands	6nm E	D	CTR	ROBINSON	Reciprocating	1	Alleged infringement of East Midlands CTR (Class D) by an R44 at 1500ft. Standard separation maintained.	ATC noticed a primary contact from the vicinity of the helicopter site at Costock with no SSR label. An R44 subsequently contacted ATC and informed them he had departed Costock without clearance due to frequency problems.
201201466	12/02/2012	EGTT : London (FIR)	Cheddar		D	CTA	SCHEIBE	Reciprocating	1	Infringement of Bristol CTA (Class D) by an SF25 squawking 7000 at 4700ft.	ATC did a general broadcast and observed the squawk and associated primary turn Southward and commence descent. The returns were tracked to Halesland in the descent. ATC attempted to telephone Halesland but no response. The pilot reports that whilst aerotowing he made a navigational error and with a U/S GPS inadvertently infringed. Due to mountain wave conditions the tug/glider combination was climbing at a faster rate than normal.
201201572	14/02/2012	EGTT : London (FIR)	London-Gatwick - LGW	NW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a C152. Inbound A319 broken off approach and given avoiding action and traffic info.	The C152 departed from Redhill on a training detail to the East. On rejoin the C152 was instructed to join downwind for R/W36 routeing via the Godstone Railway Station VRP. The Flying Instructor reported that this was his first instructional lesson from Redhill and his situational awareness was diminished as he joined downwind. The pilot indicated that he was advising the student how to join downwind but didn't realise that the pattern for R/W36 was tricky and required a fairly tight downwind join. The pilot acknowledged that this was a navigational error on his part due to unfamiliarity with the airfield and the required joining procedures for R/W36. CAA Closure: The pilot has since received further training at the airfield and has been asked to complete an online infringement questionnaire.
201201593	15/02/2012	EGTT : London (FIR)	Winchester	W	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a DR400 at 1800ft squawking 7000. Traffic info passed to an a/c transiting the CTR. Pilot notified of the infringement.	Standard separation maintained.
201201594	15/02/2012	EGTT : London (FIR)	Nottingham East Midlands	N	D	CTR	PIPER	Reciprocating	1	Infringement of the East Midlands CTA (Class D) by a PA28 at 2700ft. Blind calls made without response. Traffic info given. Standard separation maintained.	Pilot eventually contacted Radar and was advised he had entered CAS and was instructed to vacate.

201201632	16/02/2012	EGTT : London (FIR)	Luton (LUT)		D	CTR	GROB	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Grob 115 squawking 7000 at 2800ft. CAIT activated. Traffic info given. Disruption to commercial traffic. Standard separation maintained.	Appropriate CAA action is being taken as a result of this incident.
201201632	16/02/2012	EGTT : London (FIR)	Luton (LUT)		D	CTR	BOEING	Turbofan	2	Infringement of the Luton CTR (Class D) by a Grob 115 squawking 7000 at 2800ft. CAIT activated. Traffic info given. Disruption to commercial traffic. Standard separation maintained.	Appropriate CAA action is being taken as a result of this incident.
201201656	16/02/2012	EGTT : London (FIR)	Stansted	12 NE	G		SOCATA	Reciprocating	1	Infringement of the Stansted TMZ 1 (Class G) by a Socata TB9 squawking 7000. No Mode C. Inbound B737 delayed. Traffic info given. A/c identified on landing at destination.	Radar reply indicates Mode A was intermittent. The pilot has been advised via Duxford that the a/c may have a transponder problem and to have it checked. The Airfield manager has fully de-briefed the pilot. It is believed Wethersfield may have been mis-identified for Ridgewell.
201201712	19/02/2012	EGTT : London (FIR)	Nottingham East Midlands	13 E	D	CTA	PIPER	Reciprocating	1	Infringement of the East Midlands CTA (Class D) by a PA28at 3300ft. Inbound traffic vectored clear and given traffic info. Standard separation maintained.	
201201714	19/02/2012	EGTT : London (FIR)	Northolt	5 NW	A	TMA	CESSNA	Reciprocating	1	Infringement of the London TMA (Class A) by a C172 squawking 5032 at 3000ft. STCA activated. Northolt outbound HS125 on a CLN SID was climbed immediately to 4000ft to maintain separation.	The C172 pilots report indicates that he was aware of the need to descend to 2400ft but failed to reduce his height in time. The appropriate lesson appears to have been learnt.

201201714	19/02/2012	EGTT : London (FIR)	Northolt	5 NW	A	TMA	HAWKER SIDDELEY	Turbofan	2	Infringement of the London TMA (Class A) by a C172 squawking 5032 at 3000ft. STCA activated. Northolt outbound HS125 on a CLN SID was climbed immediately to 4000ft to maintain separation.	The C172 pilots report indicates that he was aware of the need to descend to 2400ft but failed to reduce his height in time. The appropriate lesson appears to have been learnt.
201201765	18/02/2012	EGTT : London (FIR)	Everleigh		G	Danger area	PIPER	Reciprocating	1	Infringement of active Danger Area EG D128 by a PA28 squawking 5055 at 1900ft.	The PA28 requested a Traffic Service from Bristol Radar reporting 19.1nm from CPT at altitude 1500ft. Bristol instructed the PA28 to squawk 5055 and agreed a Basic Service. The a/c was observed to have infringed the northern edge of Danger Area D128. The pilot reported correcting an error and the Bristol controller instructed the pilot to head North. The Danger Area D128 was notified by NOTAM as active to 20000ft with Major Exercise. The pilot was asked to contact the Danger Area control. □ CAA Closure: The pilot under instruction did not indicate what caused the error. This was considered most likely to be a navigational error. No further action is considered appropriate.
201201812	19/02/2012	EGTT : London (FIR)	Mayfield (MAY)	15 NW	D	CTR	SOCATA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a TB10 squawking 3767 at 2000ft. Traffic info given. Separation lost with two inbound airliners. The second inbound (B737) was instructed to go-around.	Strong Northerly wind conditions (345/29-3000ft) prevailed at the time.
201201812	19/02/2012	EGTT : London (FIR)	Mayfield (MAY)	15 NW	D	CTR	UNKNOWN	Unknown		Infringement of the Gatwick CTR (Class D) by a TB10 squawking 3767 at 2000ft. Traffic info given. Separation lost with two inbound airliners. The second inbound (B737) was instructed to go-around.	Strong Northerly wind conditions (345/29-3000ft) prevailed at the time.
201201817	21/02/2012	EGTT : London (FIR)	Biggin (BIG)	15 SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a PA28 squawking 7000 indicating 2300ft unverified.	Investigations indicate that the PA28 departed from Redhill at 1702hrs on a "Buckland departure". The pilot misidentified Buckland lake (which lies North of the Gatwick CTR) and commenced a climb too early whilst still inside the Gatwick CTR and CTA, passing 1.4 nm North of a Gatwick departure. The error was attributed to a rushed departure from Redhill, to be airborne before 1700hrs. □ CAA Closure: The pilot was asked to complete an infringement questionnaire.

201201817	21/02/2012	EGTT : London (FIR)	Biggin (BIG)	15 SW	D	CTA	AIRBUS	Turbofan	2	Infringement of the Gatwick CTA (Class D) by a PA28 squawking 7000 indicating 2300ft unverified.	Investigations indicate that the PA28 departed from Redhill at 1702hrs on a "Buckland departure". The pilot misidentified Buckland lake (which lies North of the Gatwick CTR) and commenced a climb too early whilst still inside the Gatwick CTR and CTA, passing 1.4 nm North of a Gatwick departure. The error was attributed to a rushed departure from Redhill, to be airborne before 1700hrs. □ CAA Closure: The pilot was asked to complete an infringement questionnaire.
201201923	23/02/2012	EGTT : London (FIR)	Luton (LUT)		D	CTR	DE HAVILLAND	Reciprocating	1	Infringement of the Luton CTR (Class D) by a DH Tiger moth at 800ft. Traffic info given. Standard separation maintained.	Pilot subsequently apologised and explained that he had lined up the compass incorrectly (he was positioning on an unfamiliar a/c) and that as a result the a/c had tracked 90deg West of intended track. A check all was put on Luton departures and inbound a/c delayed.
201202107	29/02/2012	EGTT : London (FIR)	Essex		G		ROBINSON	Reciprocating	1	Infringement of the Stansted TMZ 1 (Class G) by an R44 with no Mode C. ATC made blind transmissions with no response. Traffic info given to B737.	
201202107	29/02/2012	EGTT : London (FIR)	Essex		G		BOEING	Turbofan	2	Infringement of the Stansted TMZ 1 (Class G) by an R44 with no Mode C. ATC made blind transmissions with no response. Traffic info given to B737.	
201202208	03/03/2012	EGTT : London (FIR)	Luton (LUT)		D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C210 on a Basic Service squawking 4670 at 2600ft. Separation lost against an inbound BD700. Traffic info given.	Investigation ascertained that the C210 pilot had erroneously anticipated receiving clearance to enter the CTR and so did not allow sufficient margins to allow for change of routing, maintaining VMC and/or wind directional drift. Minor heading deviations were required to maintain VMC which, due to the insufficient margins, resulted in the CTR infringement. □ CAA Closure: IAA informed. Appropriate action taken. Lesson learned by pilot concerned.

201202208	03/03/2012	EGTT : London (FIR)	Luton (LUT)		D	CTR	BOMBARDIER	Turbofan	2	Infringement of the Luton CTR (Class D) by a C210 on a Basic Service squawking 4670 at 2600ft. Separation lost against an inbound BD700. Traffic info given.	Investigation ascertained that the C210 pilot had erroneously anticipated receiving clearance to enter the CTR and so did not allow sufficient margins to allow for change of routing, maintaining VMC and/or wind directional drift. Minor heading deviations were required to maintain VMC which, due to the insufficient margins, resulted in the CTR infringement. □ CAA Closure: IAA informed. Appropriate action taken. Lesson learned by pilot concerned.
201202209	03/03/2012	EGTT : London (FIR)	Luton (LUT)		D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28R squawking 5033 at 3100ft. Avoiding action and traffic info given. Separation lost with B737 inbound to Luton.	Pilot departed from Panshanger and reported general handling in the vicinity of Royston (North of Luton CTA) up to 3500ft working Farnborough North (BS). When complete the pilot reported returning to Royston prior to returning to Panshanger and commencing a descent from 3000ft to get below 2500ft. Radar recording showed the a/c tracking South from Royston at 3000ft and entering London Luton CTA-1. Farnborough advised the pilot that he had infringed CAS and pilot immediately increased rate of descent to leave CAS (base 2500ft). The pilot is familiar with the airspace requirements and apologised. An infringement questionnaire was completed. □ CAA Closure: No further CAA action at this time.
201202209	03/03/2012	EGTT : London (FIR)	Luton (LUT)		D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a PA28R squawking 5033 at 3100ft. Avoiding action and traffic info given. Separation lost with B737 inbound to Luton.	Pilot departed from Panshanger and reported general handling in the vicinity of Royston (North of Luton CTA) up to 3500ft working Farnborough North (BS). When complete the pilot reported returning to Royston prior to returning to Panshanger and commencing a descent from 3000ft to get below 2500ft. Radar recording showed the a/c tracking South from Royston at 3000ft and entering London Luton CTA-1. Farnborough advised the pilot that he had infringed CAS and pilot immediately increased rate of descent to leave CAS (base 2500ft). The pilot is familiar with the airspace requirements and apologised. An infringement questionnaire was completed. □ CAA Closure: No further CAA action at this time.
201202210	03/03/2012	EGTT : London (FIR)	Mayfield (MAY)		A	TMA	CESSNA	Turboprop	1	Infringement of the LTMA (Class A) by a C208 at 3000ft squawking 7000. DHC8 vectored to remain clear and descent stopped at FL80. Standard separation maintained.	Subsequent investigation revealed that the pilot had misunderstood the LARS instruction for a RNAV approach to Shoreham. ATC have discussed the incident with the pilot and believe lesson have been learnt.
201202211	03/03/2012	EGTT : London (FIR)	Southampton (SAM)	11 E	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 4000ft squawking 7000. Standard separation maintained.	Pilot error acknowledged.

201202218	02/03/2012	EGTT : London (FIR)	North Weald		D	CTA	CIRRUS	Reciprocating	1	Infringement of the Stansted CTA (Class D) by an SR20 squawking 7000, initially climbing up to 1800ft on his Mode C. Inbound B737 was given extended downwind leg to maintainseparation.	It has subsequently been revealed that the pilot's intended destination was North Weald, but low level fog prevented this and the increased workload in planning for a diversion led to the infringement. Investigation under 201202569. Pilot has been briefed by ATC staff over issues surrounding this incident.
201202218	02/03/2012	EGTT : London (FIR)	North Weald		D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by an SR20 squawking 7000, initially climbing up to 1800ft on his Mode C. Inbound B737 was given extended downwind leg to maintainseparation.	It has subsequently been revealed that the pilot's intended destination was North Weald, but low level fog prevented this and the increased workload in planning for a diversion led to the infringement. Investigation under 201202569. Pilot has been briefed by ATC staff over issues surrounding this incident.
201202228	04/03/2012	EGTT : London (FIR)	Manchester Barton A/F		D	CTA	PIPER	Reciprocating	1	Infringement of the Manchester CTA (Class D) by a PA28 at2500ft squawking 7000.	Pilot error acknowledged.
201202244	25/02/2012	EGTT : London (FIR)	D128	N	G	Danger area	CYCLONE AIRSPORTS	Reciprocating	1	Infringement of active Danger Area EG D128 by a Quik GT450 at 2500ft. NOTAMed 2000ft.	Danger Area D128 was promulgated as active to 20000ft fora major exercise. The microlight pilot reported operatingVFR on a flight from Redlands to Old Sarum. The pilot reported that there had been a misunderstanding when prior tothe flight, he had contacted Boscombe Down ATC to requestpermission to overfly at 2000ft routeing direct. Boscombecould not immediately approve this and agreed to ring thepilot back. The pilot indicated that Boscombe had returned the call and suggested 2500ft would be OK for the transit and that the pilot should call overhead. When airborne the pilot contacted Boscombe and was advised that he was over an active Danger Area and to leave by the shortest route possible. When on the ground at Old Sarum the pilot contacted the Danger Area and realised there had been a misunderstanding. The root cause of this incident was that the pilot misunderstood the permission to overfly Boscombe as approval to route direct across the danger area and Boscombe. □ CAA Closure: The pilot has apologised and recognisedthat he should have checked NOTAMs and remained clear of an active Danger Area.
201202253	25/02/2012	EGTT : London (FIR)	Bristol	4nm SE	D	CTR	VANS	Reciprocating	1	Infringement of Bristol CTR (Class D) by an RV6 squawking7000. Standard separation maintained.	ATC observed a Brize squawk 3716 Southwest of Lyneham at 2000ft. The a/c then descended to 1300ft in the Bath vicinity still outside CAS. The Brize squawk was replaced by a 7000 squawk and the a/c entered CAS. Bristol ATC contactedBrize Norton requesting details of the a/c which were subsequently received.

201202331	06/03/2012	EGTT : London (FIR)	Nottingham East Midlands	10 SE	D	CTA	PIPER	Reciprocating	1	Infringement of the East Midlands CTA (Class D) by a PA28squawking 7000 at 2500ft. Traffic info and avoiding given. Separation lost with inbound B737.	A/c tracked until when abeam Leicester, when the a/c squawk changed to 3720. Appropriate CAA action is being taken as a result of this incident.
201202331	06/03/2012	EGTT : London (FIR)	Nottingham East Midlands	10 SE	D	CTA	BOEING	Turbofan	2	Infringement of the East Midlands CTA (Class D) by a PA28squawking 7000 at 2500ft. Traffic info and avoiding given. Separation lost with inbound B737.	A/c tracked until when abeam Leicester, when the a/c squawk changed to 3720. Appropriate CAA action is being taken as a result of this incident.
201202394	06/03/2012	EGTT : London (FIR)	London-Gatwick - LGW	8	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by an R44. Traffic info and avoiding action given. Separation lost.	R44 had freecalled and was told to standby but was then seen to enter the CTR without clearance.☐ CAA Closure: Appropriate advice given via the Belgian CAA.
201202394	06/03/2012	EGTT : London (FIR)	London-Gatwick - LGW	8	D	CTR	BOEING	Turbofan	2	Infringement of the Gatwick CTR (Class D) by an R44. Traffic info and avoiding action given. Separation lost.	R44 had freecalled and was told to standby but was then seen to enter the CTR without clearance.☐ CAA Closure: Appropriate advice given via the Belgian CAA.
201202420	08/03/2012	EGTT : London (FIR)	London-Gatwick - LGW	8 WNW	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a DR400 squawking 7000 at 2000ft. Traffic info and avoiding action given. Separation lost against two Gatwick departures.	Squawk subsequently changed to 7047 on passing North of Gatwick. Information indicates that the pilot of the DR400 inadvertently wrote down the groundspeed of the a/c of 110in the heading box of the flight log instead of 078 for aflight from Goodwood to Biggin Hill via Guildford. As a result the a/c infringed the Gatwick CTR. The pilot had been reluctant to use GPS due to reports of severe solar activity. The pilot took action to exit as quickly as possibleonce the error was realised and apologised for the incident. ☐ CAA Closure: The pilot has completed an infringementquestionnaire and has arranged some navigation exercises.

201202420	08/03/2012	EGTT : London (FIR)	London-Gatwick - LGW	8 WNW	D	CTA	BOEING	Turbofan	2	Infringement of the Gatwick CTA (Class D) by a DR400 squawking 7000 at 2000ft. Traffic info and avoiding action given. Separation lost against two Gatwick departures.	Squawk subsequently changed to 7047 on passing North of Gatwick. Information indicates that the pilot of the DR400 inadvertently wrote down the groundspeed of the a/c of 110in the heading box of the flight log instead of 078 for aflight from Goodwood to Biggin Hill via Guildford. As a result the a/c infringed the Gatwick CTR. The pilot had been reluctant to use GPS due to reports of severe solar activity. The pilot took action to exit as quickly as possibleonce the error was realised and apologised for the incident. ☐ CAA Closure: The pilot has completed an infringementquestionnaire and has arranged some navigation exercises.
201202482	08/03/2012	EGTT : London (FIR)	White Waltham	2 N	A	CTR	EVEKTOR AEROTECHNIK	Reciprocating	1	Infringement of the London CTR (Class A) by a Eurostar squawking 7000, without Mode C. All Heathrow departures werestopped to ensure separation.	A/c was subsequently identified via Mode S and Odiham ATC. Strong Westerly wind reported. Appropriate follow up action has been taken.
201202485	10/03/2012	EGTT : London (FIR)	Birmingham	13 N	D	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a PA22 squawking 7000 indicating 1800ft. A/c identity confirmed with Mode S. Standard separation maintained.	
201202489	10/03/2012	EGTT : London (FIR)	Bristol International		D	CTA	CESSNA	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a C172 at 5700ft resulting in a loss of separation against an inbound B737. Traffic info and avoiding action given.	A/c initially unknown on radar failed to respond to a blind call. B737 vectored clear. Pilot has apologised for hiserror and the appropriate lessons appear to have been learnt.
201202491	09/03/2012	EGTT : London (FIR)	Ascot		A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28, no Mode C, squawking 7000. Heathrow Southbound departures were stopped at 1113hrs and resumed at 1116hrs. Traffic info given.	Flight subsequently tracked South-Easterly towards Ascot,and overhead at 1115hrs, squawk changed to 0431. At this point it was also indicating altitude of 1800ft. A/c details were confirmed by Farnborough. Appropriate follow up action has been taken.

201202498	11/03/2012	EGTT : London (FIR)	Elstree	6 SE	A	CTR	VANS	Reciprocating	1	Infringement of the London CTR (Class A) by a Vans RV9 at 2200ft. Heathrow departures suspended. Standard separation maintained.	A/c assigned a squawk of 5034 entered the zone squawking 7000. Investigation findings revealed that the pilot reported on a flight from Wellesbourne to Headcorn and believed to be talking to London FIS as they passed Wycombe following the M40(RHS). At this point the pilot navigating selected the wrong function on the GPS and the Map function was lost (GPS was stuck on the IFR page). Radar recording showed the a/c entering the London CTR at an altitude of 1900ft routing South of Denham and then overhead Northolt. Heathrow departures were temporarily stopped until the a/c passed abeam Denham. The a/c contacted Farnborough and a squawk was allocated. The a/c was identified (6nm SE of Elstree) at an altitude of 2200ft on a track to leave the London CTR. The pilot believes that the GPS problems resulted in a distraction and the lack of concentration caused him to become disorientated, believing that as he turned East he was further North than was the case. The pilot indicated lessons have been learnt regarding familiarisation with GPS, simulator and navigational aspects, especially when operating close to CAS. ☐ CAA Closure: The CAA have sent the pilot Safety Sense leaflet 05 'VFR Navigation' and warned about the use of GPS as a primary means of navigation. Also included were links to airspace safety and other resources.
201202501	09/03/2012	EGTT : London (FIR)	Stansted	E	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C152 squawking 7000 at 1800ft. A/c identity obtained using Mode S. Standard separation maintained.	The pilot states that the infringement resulted from conflicting readings from compass and VOR plus misidentification of Braintree for Chelmsford. Appropriate and comprehensive remedial action has been taken by the flying club concerned.
201202503	10/03/2012	EGTT : London (FIR)	Barkway (BKY)		D	CTA	GRUMMAN	Reciprocating	1	Infringement of Stansted CTA (Class D) by a AA5 at 3600ft. Luton inbound A319 and A320 issued vectors away from the infringer. Traffic info given.	The instructor concerned misread the base of CAS in the area concerned as 3500ft. He believes fatigue was a major factor.
201202503	10/03/2012	EGTT : London (FIR)	Barkway (BKY)		D	CTA	AIRBUS	Turbofan	2	Infringement of Stansted CTA (Class D) by a AA5 at 3600ft. Luton inbound A319 and A320 issued vectors away from the infringer. Traffic info given.	The instructor concerned misread the base of CAS in the area concerned as 3500ft. He believes fatigue was a major factor.
201202505	10/03/2012	EGTT : London (FIR)	Banstead	N	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C172 at 1000ft. Pilot called on frequency and a/c given a reduced Traffic Service until destination airfield visually acquired.	Standard separation maintained. The pilot reported flying from Blackbushe to Redhill routing, Hook, Ockham, Junction M25/M23. Between Ockham and Junction M25/M23 the pilot misidentified Redhill. The pilot contacted Redhill and was asked to squawk IDENT. Redhill advised the pilot that he was in the London CTR and transferred the a/c to Thames Radar who then directed the a/c outside CAS towards Redhill. The pilot reported that there was some haze which may have contributed to the misidentification of Redhill, but considered that the weather was suitable for the flight when setting off. ☐ CAA Closure: No further CAA action at this time.

201202529	10/03/2012	EGTT : London (FIR)	Polehill (POL)		A	CTA	BEECH	Reciprocating	1	Infringement of the Manchester CTA (Class A) by a BE36 squawking 2677 at 4500ft. Mode S confirmed identity of a/c. Standard separation maintained.	A/c in receipt of a Basic Service from Blackpool. Squawk changed to 7000 and then to a Leeds squawk. Pilot error acknowledged.
201202569	11/03/2012	EGTT : London (FIR)	London-Gatwick - LGW	12 S	A	TMA	CIRRUS	Reciprocating	1	Infringement of the London TMA (Class A) by an SR20 squawking 0401 indicating an altitude of 3200ft. Traffic info given. Standard separation maintained.	A/c initially unknown, was subsequently identified after landing at Shoreham. An infringement of the London TMA-20 by an SR20 at 3200ft was reported by Gatwick INT. The a/c was in receipt of a procedural service from Shoreham, having requested an RNAV approach for R/W20. Due to another a/c in the procedure at 2200ft the controller instructed the SR20 to hold at NITEN at 3200ft. The base of CAS at NITEN is 2500ft. At interview the controller stated that he anticipated being able to descend the SR20 before NITEN. No coordination was effected with Gatwick.☐ CAA Closure: An SI has been issued reminding controllers of the base of CAS in the vicinity of BITLI and NITEN and that there are no published holding procedures at either point.
201202846	19/03/2012	EGTT : London (FIR)	Luton (LUT)	12 NNE	A	CTA	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 squawking 7000 at 4100ft. A/c identified with Mode S. Standard separation maintained.	Operator alerted. Pilot misread the chart. Pilot error acknowledged.
201202895	20/03/2012	EGTT : London (FIR)	Wyton		G	ATZ	GROB	Reciprocating	1	Infringement of the Wyton ATZ (Class G) by a Grob G115 at500ft. Traffic info given.	A/c had been observed approaching the airfield for R/W08 at an approx height of 500ft and a distance of 1 mile. Overhead R/W08 threshold it turned to the North. It is believed that the a/c was undertaking a low level navigation exercise at the time and should have turned at Alconbury and not Wyton.
201202917	20/03/2012	EGTT : London (FIR)	Aberporth	D 201	G	Danger area	EVEKTOR AEROTECHNIK	Reciprocating	1	Infringement of active Danger Area EG D201 (Aberporth) bya Eurostar squawking 4537 at 3000ft. Range operations suspended until a/c was clear.	Pilot had been told to remain outside of D201, prior to the range becoming active.☐ CAA Closure: Pilot contacted. Remedial advice dispensed.

201202921	14/03/2012	EGTT : London (FIR)	D123		G	Danger area	EUROCOPTER	Turboshaft	1	Infringement of active Danger Area D123 at Edington by an EC130 squawking 5055 (Bristol Radar).	Pilot believed Bristol ATC had cleared him through with Salisbury DACS/LACC. The root cause of this incident was thus the pilots wrong assumption. □ CAA Closure: The Operator has confirmed the error and has issued a Flying Staff Instruction (FSI) to their pilots stressing the correct procedure to follow.
201202928	21/03/2012	EGTT : London (FIR)	Stansted	E	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C152 squawking 7000 at 1500ft. Avoiding action and traffic info given. Check all imposed after B737 already rolling on a DVR departure. Separation lost.	CAA Closure: The ATC unit investigation determined that the incident was due to a sick student pilot.
201202928	21/03/2012	EGTT : London (FIR)	Stansted	E	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a C152 squawking 7000 at 1500ft. Avoiding action and traffic info given. Check all imposed after B737 already rolling on a DVR departure. Separation lost.	CAA Closure: The ATC unit investigation determined that the incident was due to a sick student pilot.
201202941	20/03/2012	EGTT : London (FIR)	Knook	2 E	G	Danger area	AVIONS ROBIN	Reciprocating	1	Infringement of active Danger Area EG D123 by a DR400 squawking 2606. Check fire imposed, duration 6mins.	CAA Closure: No further action taken due to elapsed time.
201202942	21/03/2012	EGTT : London (FIR)	Stansted		D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28 squawking 7000 with Mode C indicating 1200ft. Traffic info given. Standard separation maintained.	A/c turned Southbound and left CTR in the vicinity of North Weald and was subsequently identified using a 0201 squawk. Pilot error acknowledged.

201202954	18/03/2012	EGTT : London (FIR)	Biggin (BIG)		A	TMA	CESSNA	Reciprocating	1	Alleged infringement of the London TMA (Class A) by a C172, piloted by a solo student, squawking 7047 at 2600ft.	The a/c then failed to comply with the joining instructions. It was also subsequently noted flying at low level over Noise Sensitive Areas. The root cause of this incident was that the student became stressed by events and made errors. □ CAA Closure: Further training has been given on the correct procedures required to leave and join the circuit at Biggin Hill.
201203034	23/03/2012	EGTT : London (FIR)	The Needles	4 E	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Robin 2160 squawking 7000 at 2500ft.	Blind transmissions made with no response. A/c was identified by Bournemouth Radar who observed the a/c landing at Goodwood. Pilot subsequently apologised. Pilot of a Robin 2160 departed Goodwood for a VFR flight to the IOW area. The flight remained on the Goodwood Information frequency as the pilot had no intention of entering CAS. After flyingover the South of the IOW and then Cowes the pilot adjusted his flight for the return leg to Goodwood. At that timethe pilot then pointed out The Needles to his passenger and it was decided to fly to that area for a closer look. The Robin subsequent infringed the Solent CTA-2 at approximately 3500ft, base of Class D controlled airspace was 2000ft. The a/c was transponding 7000 and was monitored by a local ATC until it landed back at Goodwood. Pilot contactedATC at their request. Causal Factors (a) short notice change of plan, (b) unfamiliarity of extent of controlled airspace over newly selected flying area. □ CAA Closure: Further to the incident thorough debriefing activities took place between the pilot and the Flying Group's CFI. The pilot was offered advice on the use of the Solent SSR Monitoring code and requested to complete the online infringement questionnaire.
201203037	24/03/2012	EGTT : London (FIR)	NEDUL		D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Southampton CTA (Class D) by an a/c squawking 7000. A/c later identified as a Robin 200. Traffic info given. Standard separation maintained.	Southampton ATC contacted Bournemouth ATC and, the a/c was identified following an allocation of a squawk. Robin 200 descended out of CAS and tracked Eastwards.
201203041	24/03/2012	EGTT : London (FIR)	London-Heathrow - LHR	12 NW	A	TMA	PIPER	Reciprocating	1	Infringement of London TMA (Class A) by a PA28 squawking 5030 tracking South near Northolt. Farnborough alerted anda/c quickly left CAS.	Pilot error acknowledged. Pilot to undertake a navigational training exercise.
201203048	24/03/2012	EGTT : London (FIR)	Cowes		D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Robin 2160 at 2400ft squawking 7000. Blind calls made without response. A/c vacated CAS and was subsequently identified. Standard separation maintained.	

201203049	24/03/2012	EGTT : London (FIR)	Lyndhurst	E	D	CTR	PIPER	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a primary contact. A/c later identified as a PA18. Gulfstream 5 delayed on ground by approx 7mins. Standard separation maintained.	Despite numerous calls and contacting Bournemouth ATC, Southampton ATC were unable to contact the a/c. More blind calls were made. A/c eventually contacted Southampton ATC and was identified using the turn method. Pilot was informed they were inside CAS. Pilot apologised and understood they should have called Solent for a service. PA28 remained on frequency for the rest of the flight.
201203049	24/03/2012	EGTT : London (FIR)	Lyndhurst	E	D	CTR	GULFSTREAM	Turbofan	2	Infringement of the Southampton CTR (Class D) by a primary contact. A/c later identified as a PA18. Gulfstream 5 delayed on ground by approx 7mins. Standard separation maintained.	Despite numerous calls and contacting Bournemouth ATC, Southampton ATC were unable to contact the a/c. More blind calls were made. A/c eventually contacted Southampton ATC and was identified using the turn method. Pilot was informed they were inside CAS. Pilot apologised and understood they should have called Solent for a service. PA28 remained on frequency for the rest of the flight.
201203055	24/03/2012	EGTT : London (FIR)	Southampton (SAM)	11.5nm NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Southampton CTA (Class D) by an a/c at 4500ft squawking 7000. A/c later identified as a PA28. Standard separation maintained.	Blind calls made but no communication established. The a/c clipped the Northeast corner of the CTA, inside CAS by approx a mile. The a/c was tracked to the Southeast, then on its return track, and on landing, where it was subsequently identified.
201203060	25/03/2012	EGTT : London (FIR)	London-Heathrow - LHR	10 NW	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28 squawking 7000 at 2500ft, no Mode C. Avoiding action and traffic info given. Separation lost. B777 broken off approach and repositioned.	The infringing a/c subsequently turned away and positioned for Denham. The pilot completed an infringement questionnaire and stated that it was the first time that they had visited Denham. The pilot had tried unsuccessfully to contact Farnborough Radar and believed that the PA28 had been positioned appropriately to avoid infringing controlled airspace. When the pilot realised their error they manoeuvred away before landing at Denham.☐ CAA Closure: The pilot apologised for the error. No further CAA action at this time.
201203060	25/03/2012	EGTT : London (FIR)	London-Heathrow - LHR	10 NW	A	CTR	BOEING	Turbofan	2	Infringement of the London CTR (Class A) by a PA28 squawking 7000 at 2500ft, no Mode C. Avoiding action and traffic info given. Separation lost. B777 broken off approach and repositioned.	The infringing a/c subsequently turned away and positioned for Denham. The pilot completed an infringement questionnaire and stated that it was the first time that they had visited Denham. The pilot had tried unsuccessfully to contact Farnborough Radar and believed that the PA28 had been positioned appropriately to avoid infringing controlled airspace. When the pilot realised their error they manoeuvred away before landing at Denham.☐ CAA Closure: The pilot apologised for the error. No further CAA action at this time.

201203067	25/03/2012	EGTT : London (FIR)	Nottingham East Midlands	13 ESE	D	CTA	CESSNA	Reciprocating	1	Infringement of the East Midlands CTA (Class D) by a C152at 1900ft. A/c responded to a blind call and was identified. Pilot advised of the infringement. Standard separationmaintained.	Appropriate CAA action has been taken as a result of thisincident.
201203069	24/03/2012	EGTT : London (FIR)	DAWLY		A		CESSNA	Reciprocating	1	Infringement of Airway N864 (Class A) by a C182 at FL76 squawking 7000. D&D informed and a/c identified. Standard separation maintained.	Met conditions described by the pilot as hazy. Pilot elected to climb above the haze level and mis-read the chart identifying CAS base of FL65. Pilot error acknowledged.
201203109	12/03/2012	EGTT : London (FIR)	Church Fenton		G	ATZ	BELL	Turboshaft	1	Infringement of the Church Fenton ATZ (Class G) by a Bell206 squawking 7000 at 800ft. Traffic info given. The visual circuit was active with two first solo students.	Pilot believed that the aerodrome was closed and apologised for not contacting Approach for a MATZ crossing. He wasinformed that the aerodrome was active that day and that the ATZ is active 24/7 and he should remain clear of the ATZ at all times.
201203110	20/03/2012	EGTT : London (FIR)	Topcliffe		G	ATZ	ROBINSON	Reciprocating	1	Infringement of the Topcliffe ATZ (Class G) by an R44 at 500ft. Traffic info given.	R44 was landing at a private site and had been asked to contact Tower. A/c was then observed to continue Southwest without making contact. Military a/c was instructed to maintain 3000ft to ensure separation until contact was made with the R44. It is believed that the pilot may have been distracted whilst trying to locate his landing site.
201203110	20/03/2012	EGTT : London (FIR)	Topcliffe		G	ATZ	OTHER	Unknown		Infringement of the Topcliffe ATZ (Class G) by an R44 at 500ft. Traffic info given.	R44 was landing at a private site and had been asked to contact Tower. A/c was then observed to continue Southwest without making contact. Military a/c was instructed to maintain 3000ft to ensure separation until contact was made with the R44. It is believed that the pilot may have been distracted whilst trying to locate his landing site.

201203147	22/03/2012	EGTT : London (FIR)	Bristol International	11 SW	D	CTA	GROB	Reciprocating	1	Infringement of Bristol CTA (Class D) by a Grob G115. Appropriate ATC action taken. Standard separation maintained.	Grob G115 pilot later reported they were familiar with area, however, in vicinity of Bridgewater became distractedby very uncomfortable/unwell passenger and drifted Northwards into Bristol CTA. Once informed by ATC of incursion, the a/c commenced a left turn and vacated CAS to the South.
201203164	24/03/2012	EGTT : London (FIR)	Manchester Barton A/F		G	ATZ	OTHER	Unknown		Infringement of the Manchester Barton ATZ (Class G) by a Beta at 600ft. Traffic info given. Standard separation maintained.	Beta was observed entering ATZ from the South with no RT contact. Beta subsequently flew into conflict with an Ikarus C42 on final for R/W09R. Ikarus C42 continued approach as were visual with Beta. ATC made blind calls with no response. Beta left the ATZ towards the Southwest. Beta identity confirmed following ATC enquiries.
201203164	24/03/2012	EGTT : London (FIR)	Manchester Barton A/F		G	ATZ	FLY BUY ULTRALIGHTS	Reciprocating	1	Infringement of the Manchester Barton ATZ (Class G) by a Beta at 600ft. Traffic info given. Standard separation maintained.	Beta was observed entering ATZ from the South with no RT contact. Beta subsequently flew into conflict with an Ikarus C42 on final for R/W09R. Ikarus C42 continued approach as were visual with Beta. ATC made blind calls with no response. Beta left the ATZ towards the Southwest. Beta identity confirmed following ATC enquiries.
201203177	25/03/2012	EGTT : London (FIR)	Vicinity of White Waltham		A	TMA	OTHER	Reciprocating	1	Infringement of the London TMA (Class A) by a DV20 squawking 7000 climbing to 2000ft. CAIT activated. Separation lost with Heathrow inbound A320. Traffic info and avoiding action given.	A320 was given avoiding action and vectored through the approach to ensure separation. Appropriate follow up actionhas been taken.
201203177	25/03/2012	EGTT : London (FIR)	Vicinity of White Waltham		A	TMA	AIRBUS	Turbofan	2	Infringement of the London TMA (Class A) by a DV20 squawking 7000 climbing to 2000ft. CAIT activated. Separation lost with Heathrow inbound A320. Traffic info and avoiding action given.	A320 was given avoiding action and vectored through the approach to ensure separation. Appropriate follow up actionhas been taken.

201203199	26/03/2012	EGTT : London (FIR)	Birmingham	S	D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C210 at2900ft. Traffic info given. Standard separation maintained.	The pilot responded to blind calls and apologised having realised that he had infringed.
201203203	22/03/2012	EGTT : London (FIR)	Coventry	7 E	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA38 squawking 7000 at 4500ft. Traffic info given.	A/c called East of the airfield and identity confirmed onbeing asked to squawk 0264. A/c was told to descend and route to the South.
201203301	29/03/2012	EGTT : London (FIR)	Stansted	10 N	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C152. Departures stopped. Inbound traffic delayed. Traffic info given. Standard separation maintained.	Pilot reported poor visibility into low sunlight and became distracted with the procedure for joining the circuit correctly. With a strong North wind and a poor heading the pilot was not aware of how far south the a/c had tracked. Pilot stated that extra prior planning will be implementedwhen flying to an unfamiliar airfield.
201203338	30/03/2012	EGTT : London (FIR)	White Waltham	3.5 SSW	A	TMA	PITTS	Reciprocating	1	Infringement of the LTMA (Class A) by a Pitts Special at 4600ft resulting in a loss of separation against an airliner outbound from Heathrow. Avoiding action given.	Airliner vectored off the CPT SID and all other CPT departures stopped. Radar replay indicates that the a/c was performing aerobatic manoeuvres. Appropriate CAA action is being taken as a result of this incident.
201203338	30/03/2012	EGTT : London (FIR)	White Waltham	3.5 SSW	A	TMA	UNKNOWN	Unknown		Infringement of the LTMA (Class A) by a Pitts Special at 4600ft resulting in a loss of separation against an airliner outbound from Heathrow. Avoiding action given.	Airliner vectored off the CPT SID and all other CPT departures stopped. Radar replay indicates that the a/c was performing aerobatic manoeuvres. Appropriate CAA action is being taken as a result of this incident.

201203346	29/03/2012	EGTT : London (FIR)	Bath	2 NE	D	CTA	GROB	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a Grob G115.	The pilot reports that he climbed out of Colerne using their QFE and attempted to contact Filton, initially with nosuccess. On selecting the Bristol QNH the pilot realised that he had strayed into the zone vertically.
201203349	30/03/2012	EGTT : London (FIR)	BRAIN	3 SE	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) 3nm SE of BRAIN by a C152. The instructor's report indicates that whilst instructing he incorrectly identified Osea Island and then erroneously initiated a climb.	CAIT activated. Hazy conditions. CFI alerted and appropriate action is to be taken.
201203352	01/04/2012	EGTT : London (FIR)	Bovingdon (BNN)	8 NW	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 squawking 7000 at 2200ft, Mode C. Traffic info given. Check WEST imposed.	Two inbound a/c were issued with extra radar vectors and a departure was given a non-standard departure to ensure adequate separation was maintained. Appropriate follow up action has been taken. Pilot error acknowledged.
201203352	01/04/2012	EGTT : London (FIR)	Bovingdon (BNN)	8 NW	D	CTR	CESSNA	Turbofan	2	Infringement of the Luton CTR (Class D) by a PA28 squawking 7000 at 2200ft, Mode C. Traffic info given. Check WEST imposed.	Two inbound a/c were issued with extra radar vectors and a departure was given a non-standard departure to ensure adequate separation was maintained. Appropriate follow up action has been taken. Pilot error acknowledged.
201203357	01/04/2012	EGTT : London (FIR)	White Waltham	2 S	A	CTR	PIPER	Reciprocating	1	Alleged infringement of the London CTR (Class A) by a PA28 at 2400ft squawking 0431. STCA activated. Avoiding action given.	A/c identified via Mode S.

201203361	01/04/2012	EGTT : London (FIR)	Liverpool	8 ESE	D	CTR	PIPER	Reciprocating	1	Infringement of the Liverpool CTR (Class D) by a PA38 resulting in a loss of separation against an inbound A319. A319 acquired the PA38 and elected to continue with a visualapproach.	Traffic info given. PA38 on a 7366 squawk was unidentified at the time of the infringement.
201203361	01/04/2012	EGTT : London (FIR)	Liverpool	8 ESE	D	CTR	AIRBUS	Turbofan	2	Infringement of the Liverpool CTR (Class D) by a PA38 resulting in a loss of separation against an inbound A319. A319 acquired the PA38 and elected to continue with a visualapproach.	Traffic info given. PA38 on a 7366 squawk was unidentified at the time of the infringement.
201203380	25/03/2012	EGTT : London (FIR)	Benson	E	A	TMA	AVIONS ROBIN	Reciprocating	1	Infringement of the London TMA (Class A) by a DR400 squawking 7000 indicating 5000ft and slowing climbing to 5300ft. CAIT activated. EMB145 inbound to Heathrow had descent stopped at 5000ft.	DR400 subsequently infringed the Luton CTA (Class A). A/cidentified by Cranfield who confirmed that they were working the DR400 through their overhead. The pilot has subsequently reported that he may have set the QNH incorrectly or that the altimeter may have been faulty. Pilot has requested that this be checked alongside the annual service.
201203380	25/03/2012	EGTT : London (FIR)	Benson	E	A	TMA	EMBRAER	Turbofan	2	Infringement of the London TMA (Class A) by a DR400 squawking 7000 indicating 5000ft and slowing climbing to 5300ft. CAIT activated. EMB145 inbound to Heathrow had descent stopped at 5000ft.	DR400 subsequently infringed the Luton CTA (Class A). A/cidentified by Cranfield who confirmed that they were working the DR400 through their overhead. The pilot has subsequently reported that he may have set the QNH incorrectly or that the altimeter may have been faulty. Pilot has requested that this be checked alongside the annual service.
201203498	03/04/2012	EGTT : London (FIR)	Daventry (DTY)	5 SE	A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA32 with Mode C indicating 6000ft. A/c identified via Mode S. Standard separation maintained.	

201203501	02/04/2012	EGTT : London (FIR)	Brize Norton	6 NE	D	CTR	PIPER	Reciprocating	1	Infringement of Brize Norton CTR (Class D) by a PA28 squawking 3714 at 2500ft.	Pilot had called on frequency for a Basic Service and transit from Wycombe Air Park to Swansea. On being asked to squawk he was observed just entering the Brize CTZ and informed straight away. He replied that his Nav Aids were showing that he was clear of CAS. After exiting the zone pilotturned around and RTB to Wycombe Air Park to resolve the problem with his a/c.
201203527	30/03/2012	EGTT : London (FIR)	Duxford		G	ATZ	PIPER	Reciprocating	1	Infringement of the Duxford ATZ (Class G) by a PA28 transiting the zone at 1300ft.	Blind transmissions were made with no response. Check made with Cambridge who confirmed that the a/c was being worked by Farnborough North. Pilot subsequently apologised on his arrival at Manston. He was informed that he had been very close to the Duxford circuit height during his transit.
201203561	01/04/2012	EGTT : London (FIR)	Detling (DET)	2 SE	A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA18 at 5000ft. Standard separation maintained.	Appropriate remedial action taken by ATC. Pilot error acknowledged.
201203605	06/04/2012	EGTT : London (FIR)	Brookmans Park (BPK)		A	TMA	ROBINSON	Reciprocating	1	Infringement of the London TMA (Class A) by an R22. Separation lost against an A340 on a BPK departure.	R22 identified by SVFR via Mode S.
201203605	06/04/2012	EGTT : London (FIR)	Brookmans Park (BPK)		A	TMA	AIRBUS	Turbofan	4	Infringement of the London TMA (Class A) by an R22. Separation lost against an A340 on a BPK departure.	R22 identified by SVFR via Mode S.

201203613	06/04/2012	EGTT : London (FIR)	Redhill	6 E	D	CTR	CESSNA	Reciprocating	1	C150 wearing a Redhill conspicuity code infringed the Gatwick CTA (Class D) 6nm East of Redhill at 1700ft. Standardseparation maintained.	
201203614	06/04/2012	EGTT : London (FIR)	Brookmans Park (BPK)	5 E	D	CTA	GRUMMAN	Reciprocating	1	Infringement of the Stansted CTA (Class D) by an AA5B at 1900ft. Traffic info given. Pilot alerted to the incident.	
201203614	06/04/2012	EGTT : London (FIR)	Brookmans Park (BPK)	5 E	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by an AA5B at 1900ft. Traffic info given. Pilot alerted to the incident.	
201203638	08/04/2012	EGTT : London (FIR)	Romsey	N	D	CTR	JODEL	Reciprocating	1	Infringement of the Southampton CTR (Class D) allegedly by a DR1050, North of Romsey tracking Eastbound.	Possible a/c identity provided by Popham, who advised that the a/c had just called them from the Winchester area.
201203657	04/04/2012	EGTT : London (FIR)	Leeds	15 SE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Leeds CTR (Class D) by a C206 squawking 2677 at 3500ft. Standard separation maintained.	Pilot had requested a transit of CAS and was initially told to remain outside CAS. On being asked to squawk 2677 a/c was identified inside CAS and pilot informed.

201203682	06/04/2012	EGTT : London (FIR)	Netheravon		G		CESSNA	Reciprocating	1	Alleged infringement of the Netheravon Parachute Drop Zone (Class G) by a C177. Traffic info given. STCA activated.	
201203767	11/04/2012	EGTT : London (FIR)	Brookmans Park (BPK)	4 NE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C177 squawking 0013 at 2200ft. Stansted outbound was held on runwaywhilst an inbound flight was vectored off final approach R/W22.	The pilot was monitoring the Stansted frequency and displaying the appropriate code, 0013. Upon observing the infringement, ATC transmitted blind and the C177 pilot responded promptly. The a/c was directed out of CAS. The pilot offered his apologies and cited that his a/c had been blown to the right, off course by the prevailing wind. ☐ CAA Closure: No further CAA action at this time.
201203812	11/04/2012	EGTT : London (FIR)	HON	8 S	D	CTR	DIAMOND	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a DA40 at 3000ft. Traffic info given. Standard separation maintained.	Instructor distracted by a combination of weather and an anxious student, and did not notice that rate of descent was insufficient to ensure a/c remained outside of CAS.☐ CAA Closure: No further action possible due to elapsed time.
201203880	12/04/2012	EGTT : London (FIR)	London-Gatwick - LGW	8 E	D	CTR	ROBINSON	Reciprocating	1	Infringement of Gatwick CAS (Class D) by an R44 (initially unknown) squawking 7000. Traffic info and avoiding action given. Separation lost.	A319 on base leg was broken off approach and B737 was given extended vectoring. An R44 having departed Redhill entered the Class D controlled airspace of the Gatwick CTR, ataltitude 1200ft The Gatwick CTR extends from surface to 2500ft.The R44 was operating on a flight skills detail witha student at the controls. The R44 also briefly entered the Gatwick CTA at 1700ft. The instructor on the R44 recalled that the original plan had been to contact Farnborough LARS, however, given the short distance travelled from Redhill, they elected not to call LARS. The instructor, in debriefing the incident recalled that, it being the fourth flight of the day, there may have been an element of focusing on completing the task in a timely manner before fully establishing the most appropriate area to perform the required manoeuvres. ☐ CAA Closure: Further to the incident the pilot was advised of the Gatwick SSR Monitoring code (0012) [UK AIP ENR 1-6-2-4] and directed to other online pilot resources.
201203880	12/04/2012	EGTT : London (FIR)	London-Gatwick - LGW	8 E	D	CTR	AIRBUS	Turbofan	2	Infringement of Gatwick CAS (Class D) by an R44 (initially unknown) squawking 7000. Traffic info and avoiding action given. Separation lost.	A319 on base leg was broken off approach and B737 was given extended vectoring. An R44 having departed Redhill entered the Class D controlled airspace of the Gatwick CTR, ataltitude 1200ft The Gatwick CTR extends from surface to 2500ft.The R44 was operating on a flight skills detail witha student at the controls. The R44 also briefly entered the Gatwick CTA at 1700ft. The instructor on the R44 recalled that the original plan had been to contact Farnborough LARS, however, given the short distance travelled from Redhill, they elected not to call LARS. The instructor, in debriefing the incident recalled that, it being the fourth flight of the day, there may have been an element of focusing on completing the task in a timely manner before fully establishing the most appropriate area to perform the required manoeuvres. ☐ CAA Closure: Further to the incident the pilot was advised of the Gatwick SSR Monitoring code (0012) [UK AIP ENR 1-6-2-4] and directed to other online pilot resources.

201203933	13/04/2012	EGTT : London (FIR)	Southampton (SAM)	10 NNE	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 squawking 2650 indicating 2800ft. Standard separation maintained. ATC training in progress.	It has subsequently been confirmed that the pilot was avoiding weather, due to local Cb, and deviated to the South of his planned track and has apologised.
201203942	14/04/2012	EGTT : London (FIR)	Manchester (MCT)		D	CTR	CESSNA	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a C150 squawking 7350. Standard separation maintained. Mode S had failed to show registration.	It has subsequently been revealed that visibility in the low level route became poor due to fine rain, the major landmarks normally used were not visible and the pilot was not well acquainted with the local minor landmarks. Pilot extended his thanks to the controller who handled the incident.
201203943	14/04/2012	EGTT : London (FIR)	Honiley (HON)	2 S	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 at2000ft resulting in a loss of separation against two inbounds. D&D alerted. Pilot reported lost. A/c given a steer for Wellesbourne Mountford.	Traffic info given. Student pilot on a navigation exercise. The student pilot has been spoken to by his CF1 and sent the infringement questionnaire. His actions in contacting D&D were correct once he realised he was lost, and he has been told of the 0010 listening out squawk to help prevent a repeat incident. Appropriate ATC unit action taken.
201203943	14/04/2012	EGTT : London (FIR)	Honiley (HON)	2 S	D	CTA	UNKNOWN	Unknown		Infringement of the Birmingham CTA (Class D) by a PA28 at2000ft resulting in a loss of separation against two inbounds. D&D alerted. Pilot reported lost. A/c given a steer for Wellesbourne Mountford.	Traffic info given. Student pilot on a navigation exercise. The student pilot has been spoken to by his CF1 and sent the infringement questionnaire. His actions in contacting D&D were correct once he realised he was lost, and he has been told of the 0010 listening out squawk to help prevent a repeat incident. Appropriate ATC unit action taken.
201203953	05/04/2012	EGTT : London (FIR)	REXAM	3S	A		PIPER	Reciprocating	1	Infringement of Airway N864 by a PA28 squawking 7000 at FL53. CAIT activated. A/c observed turning West and leavingthe Airway.	Pilot had planned and tracked a direct route and an indirect route on his chart. The direct route would require thea/c to be flown at FL63 or lower to avoid the Airway. Theplanned indirect route which would allow a lower altitudeover Snowdonia but requires a ceiling of less than FL45. Subsequent investigation revealed that the pilot flew the indirect route at a higher level therefore infringing Airway N864.

201203956	15/04/2012	EGTT : London (FIR)	MONTY		A		OTHER	Reciprocating	1	Infringement of the Airway N864 by an HK36 squawking 7000observed at FL85 and seen to climb to FL89. Standard separation maintained. No traffic to affect at the time.	A/c identified via Mode S and subsequently seen to leave CAS to the West into the North Wales area.
201203963	15/04/2012	EGTT : London (FIR)	Stansted	5 NW	D	CTR	PIPER	Reciprocating	1	Two separate infringements of the Stansted CTR (Class D), at 1154hrs and 1450hrs, by a PA28 squawking 7000 (inbound and outbound from Duxford). Traffic info given. Standard separation maintained.	All inbound arrivals were stopped on first infringement.☐ CAA Closure: French DGAC advised.
201204035	15/04/2012	EGTT : London (FIR)	Hawarden	15 SW	A		LANCAIR	Reciprocating	1	Infringement of Airway N864 by a Lancair squawking 7000 indicating FL60. A/c identified via Mode S. CAIT activated. Inbound Hawarden flight descent stopped at FL80. Separation subsequently lost.	An investigation team met the pilot at the Sleep community infringement briefing. Pilot admitted the infringement and said it was due to complacency. CAA Closure: The relevant team briefed the Sleep pilot community and gave appropriate advice on infringement reduction.
201204035	15/04/2012	EGTT : London (FIR)	Hawarden	15 SW	A		UNKNOWN	Unknown		Infringement of Airway N864 by a Lancair squawking 7000 indicating FL60. A/c identified via Mode S. CAIT activated. Inbound Hawarden flight descent stopped at FL80. Separation subsequently lost.	An investigation team met the pilot at the Sleep community infringement briefing. Pilot admitted the infringement and said it was due to complacency. CAA Closure: The relevant team briefed the Sleep pilot community and gave appropriate advice on infringement reduction.
201204078	16/04/2012	EGTT : London (FIR)	EGSS (STN): London/Stansted	SE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C152 squawking 7010, with no Mode C. Check all imposed. Disruption to inbound and outbound commercial traffic. Traffic info given.	Standard separation maintained. C152 was being taken to a maintenance organisation in order to have the DI fixed. The pilot had been avoiding another a/c and inadvertently entered the Stansted CTR.☐ CAA Closure: Appropriate remedial action taken with the pilot, including undertaking an extensive navigational exercise.

201204078	16/04/2012	EGTT : London (FIR)	EGSS (STN): London/Stansted	SE	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a C152 squawking 7010, with no Mode C. Check all imposed. Disruption to inbound and outbound commercial traffic. Traffic info given.	Standard separation maintained. C152 was being taken to a maintenance organisation in order to have the DI fixed. The pilot had been avoiding another a/c and inadvertently entered the Stansted CTR.□ CAA Closure: Appropriate remedial action taken with the pilot, including undertaking an extensive navigational exercise.
201204078	16/04/2012	EGTT : London (FIR)	EGSS (STN): London/Stansted	SE	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a C152 squawking 7010, with no Mode C. Check all imposed. Disruption to inbound and outbound commercial traffic. Traffic info given.	Standard separation maintained. C152 was being taken to a maintenance organisation in order to have the DI fixed. The pilot had been avoiding another a/c and inadvertently entered the Stansted CTR.□ CAA Closure: Appropriate remedial action taken with the pilot, including undertaking an extensive navigational exercise.
201204083	17/04/2012	EGTT : London (FIR)	NEDUL	2.7 NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 squawking 7000 indicating 2900ft, tracking North Eastbound. Standard separation maintained. ATC training in progress.	Bournemouth were telephoned who could see its callsign onMode S. A/c then changed to a 7351 squawk and contact descended out of CAS.
201204194	01/04/2012	EGTT : London (FIR)	Clevedon VRP		D	CTA	THRUSTER	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a Thruster T-600N at 3000ft. Standard separation maintained.	Pilot believed he had been cleared to cross CAS by the previous controller. ATC subsequently cleared the a/c to continue on his intended routeing through CAS not above 3000ft VFR towards Flat Holm and Steep Holm.
201204271	21/04/2012	EGTT : London (FIR)	Daventry (DTY)	5 W	A	CTR	VANS	Reciprocating	1	Infringement of the Daventry CTA (Class A) by a Vans RV6 (initially unknown) squawking 7000 indicating 500f0t. Approx 2mins later, a/c re-entered CAS for a second time. A/cidentified via Mode S.	

201204306	15/04/2012	EGTT : London (FIR)	Hinton in the Hedges		Other	Other	CESSNA	Reciprocating	1	Overflight of Hinton active para drop zone by a C172, MS Rallye and two gliders within a four hour period. Para dropping suspended five times.	Attributed to inadequate pre-flight planning and en-route navigation by flying club member.☐ CAA Closure:☐ The CFI of the club was made aware of the incident. Guidance notes on good airmanship and links to online resources were supplied to the club.
201204306	15/04/2012	EGTT : London (FIR)	Hinton in the Hedges		Other	Other	MORANE SAULNIER	Reciprocating	1	Overflight of Hinton active para drop zone by a C172, MS Rallye and two gliders within a four hour period. Para dropping suspended five times.	Attributed to inadequate pre-flight planning and en-route navigation by flying club member.☐ CAA Closure:☐ The CFI of the club was made aware of the incident. Guidance notes on good airmanship and links to online resources were supplied to the club.
201204387	24/04/2012	EGTT : London (FIR)	Nottingham East Midlands	7 W	D	CTA	CESSNA	Reciprocating	1	Infringement of the East Midlands CTA (Class D) by a C152squawking 7000 indicating 2200ft. Standard separation maintained	Pilot had called routeing Southbound and informed of baselevel of CAS in that area. A squawk of 4550 for positive identification was allocated and a/c then descended to 1400ft. ATC training in progress.
201204396	24/04/2012	EGTT : London (FIR)	Birmingham	10 NNE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a C152 squawking 0243. A/c piloted by solo student on a cross country exercise. Standard separation maintained.	Shawbury were contacted and advised that the traffic was lost and had been instructed to turn onto a Northerly track for Tatenhill to clear the airspace, but continued for afew more miles before turning left to leave CAS. It has subsequently been revealed that the student mistook Cannock for Stafford. Appropriate follow up advice has been given.
201204625	14/04/2012	EGTT : London (FIR)	Little Rissington		Other	Other	PIPER	Reciprocating	1	PA28 made an approach and go-around without RT contact. Subsequently discovered that the pilot had become unsure ofhis position and mistook Little Rissington for Enstone.	The pilot on being contacted apologised for the incident.

201204634	30/04/2012	EGTT : London (FIR)	Mayfield (MAY)	3 NW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a C172 at 2300ft squawking 0012. A/c failed to respond to several calls. A departing a/c and an inbound a/c vectored clear. Standard separation maintained.	Operator alerted and the CFI has been requested to give the pilot a full debrief.
201204640	22/04/2012	EGTT : London (FIR)	Syerston		G	ATZ	CESSNA	Reciprocating	1	Infringement of the Syerston ATZ Gliding Site (Class G) by a C172, believed to be at approx 1500ft aal. Gliding site active during the infringement. Traffic info given.	C172 approached from the West, turned directly overhead and departed to the Northwest. Two or three gliders were airborne at the time. No winch launches were in process.
201204789	05/05/2012	EGTT : London (FIR)	Brize Norton		D	CTR	PIPER	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a PA28 squawking 7000. A/c identified through Oxford ATC. Standard separation maintained.	Brize Norton contacted Oxford ATC who confirmed they wereworking an a/c that was "lost in cloud". Oxford ATC volunteered to instruct PA28 to vacate Brize Norton CTR. PA28 continued inside CTR for approx 2nm before making a LH turnand slight descent to leave. Oxford ATC reported they would talk to pilot about the incident.
201204790	05/05/2012	EGTT : London (FIR)	Southampton (SAM)	SW	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a R44 at800ft. Traffic info given. Standard separation maintained. ATC training in progress.	Inbound EMB195 was broken off approach after being given traffic info. It is noted that the pilot did not seem aware that his intended routeing would be inside CAS.
201204794	05/05/2012	EGTT : London (FIR)	London-Heathrow - LHR	12 NW	A	TMA	SOCATA	Reciprocating	1	Infringement of the London TMA (Class A) by a TB10 squawking 5036 at 2900ft. Traffic info given. Standard separation maintained. ATC training in progress.	Inbound B747s descent was stopped and allowed to continueon heading until traffic was clear, before being vectoredfor approach R/W09L.

201204803	05/05/2012	EGTT : London (FIR)	Luton (LUT)		D	CTR	PITTS	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Pitts Special squawking 2444 in the vicinity of Luton. Standard separation maintained.	It has subsequently been revealed that the a/c had been allocated an ATLAS squawk and also been informed that standard procedures from Rush Green still applied in accordancewith the LOA.
201204803	05/05/2012	EGTT : London (FIR)	Luton (LUT)		D	CTR	CESSNA	Turbofan	2	Infringement of the Luton CTR (Class D) by a Pitts Special squawking 2444 in the vicinity of Luton. Standard separation maintained.	It has subsequently been revealed that the a/c had been allocated an ATLAS squawk and also been informed that standard procedures from Rush Green still applied in accordancewith the LOA.
201204830	06/05/2012	EGTT : London (FIR)	KEGUN		A	Other	AIRBUS	Turbofan	2	UK AIRPROX 2012/061 - A319 and a PA38 in the vicinity of KEGUN. Traffic info given and avoiding action taken. A319 had observed traffic on TCAS.	The AIRPROX occurred in the vicinity of KEGUN, in Class A airspace, when an A319 and a PA38 came into conflict due to the PA38 being inside CAS without a clearance. Contributory factors are considered to be: <input type="checkbox"/> 1/ The outgoing Liverpool Radar controller misheard the level of the PA38 when the pilot reported at 4900ft, as 1900ft, and both controllers subsequently misheard the level of the pilot as 1800ft instead of 4800ft. <input type="checkbox"/> 2/ The outgoing Liverpool Radar controller had previously instructed the PA38 to remain outside CAS and had a reasonable expectation that the pilot would comply. <input type="checkbox"/> 3/ The incoming Liverpool Radar controller expected the PA38 to be below CAS due to the information given in the handover. <input type="checkbox"/> CAA Closure: No further CAA action at this time. <input type="checkbox"/> This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
201204830	06/05/2012	EGTT : London (FIR)	KEGUN		A	Other	PIPER	Reciprocating	1	UK AIRPROX 2012/061 - A319 and a PA38 in the vicinity of KEGUN. Traffic info given and avoiding action taken. A319 had observed traffic on TCAS.	The AIRPROX occurred in the vicinity of KEGUN, in Class A airspace, when an A319 and a PA38 came into conflict due to the PA38 being inside CAS without a clearance. Contributory factors are considered to be: <input type="checkbox"/> 1/ The outgoing Liverpool Radar controller misheard the level of the PA38 when the pilot reported at 4900ft, as 1900ft, and both controllers subsequently misheard the level of the pilot as 1800ft instead of 4800ft. <input type="checkbox"/> 2/ The outgoing Liverpool Radar controller had previously instructed the PA38 to remain outside CAS and had a reasonable expectation that the pilot would comply. <input type="checkbox"/> 3/ The incoming Liverpool Radar controller expected the PA38 to be below CAS due to the information given in the handover. <input type="checkbox"/> CAA Closure: No further CAA action at this time. <input type="checkbox"/> This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
201205037	12/05/2012	EGTT : London (FIR)	London City - LCY	6 E	D	CTA	CESSNA	Reciprocating	1	Infringement of the London City CTA (Class D) by a C172 squawking 7000 at 2200ft. Potential conflict with inbound a/c. Traffic info given. Standard separation maintained.	The pilot has subsequently been debriefed by the CFI and appropriate advice has been given.

201205037	12/05/2012	EGTT : London (FIR)	London City - LCY	6 E	D	CTA	EMBRAER	Turbofan	2	Infringement of the London City CTA (Class D) by a C172 squawking 7000 at 2200ft. Potential conflict with inbound a/c. Traffic info given. Standard separation maintained.	The pilot has subsequently been debriefed by the CFI and appropriate advice has been given.
201205045	13/05/2012	EGTT : London (FIR)	London-Heathrow - LHR	NW	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C152 squawking 7000 indicating 2000ft. Northbound departures from Heathrow suspended. Standard separation maintained.	It has subsequently been revealed that the a/c was piloted by a solo student undertaking a cross country navigationexercise. Student flew wrong heading from wrong line of pilot's log and entered the London CTR. Further training to be provided before student undertakes any more solo navex.
201205077	12/05/2012	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	OTHER	Other		Infringement of the Biggin Hill ATZ (Class G) by model a/c at circuit height 1000ft, around the base leg position.	PA28 joining left base from the West for R/W03 reported model a/c flying at circuit height. ATC warned succeeding a/c of the presence of model a/c.
201205077	12/05/2012	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	PIPER	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by model a/c at circuit height 1000ft, around the base leg position.	PA28 joining left base from the West for R/W03 reported model a/c flying at circuit height. ATC warned succeeding a/c of the presence of model a/c.
201205143	15/05/2012	EGTT : London (FIR)	Nottingham East Midlands		D	CTR	PIPER	Reciprocating	1	Infringement of the East Midlands CTR (Class D) by a PA28squawking 4550 at 2000ft. Standard separation maintained.	A/c was instructed to squawk 4550, orbit left and then instructed to track Southbound until advised outside of CAS.Pilot had earlier been instructed to remain outside of CAS, given QNH and a Basic Service.

201205145	15/05/2012	EGTT : London (FIR)	EGHI (SOU): Southampton	6.9 NE	D	CTR	PIPER	Reciprocating	1	Infringement of Southampton CTR (Class D) by a PA28 squawking 0011. Pilot allegedly stated they entered CAS to avoid weather.	CAA Closure: No further action possible due to elapsed time.
201205154	15/05/2012	EGTT : London (FIR)	Stansted	E	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C172 squawking 0013 at 1600ft. Traffic info given. B737 descending to 4000ft on a heading to establish R/W22 was turned away to maintain separation.	
201205154	15/05/2012	EGTT : London (FIR)	Stansted	E	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a C172 squawking 0013 at 1600ft. Traffic info given. B737 descending to 4000ft on a heading to establish R/W22 was turned away to maintain separation.	
201205222	16/05/2012	EGTT : London (FIR)	D202A and D201		Other	Danger area	AVIONS ROBIN	Reciprocating	1	Infringement of Danger Areas D202A and D201 by a DR400 squawking 7000. Blind transmissions made with no response. Attempts to contact a/c via D&D and London Information also unsuccessful.	CAA Closure: French DGAC informed. Registration will be monitored for future incidents.
201205250	16/05/2012	EGTT : London (FIR)	Aberporth		G	Danger area	MAULE	Reciprocating	1	Infringement of Danger Area EG D201 (Aberporth) by a Maule M7 squawking 7000 descending through 1800ft. A/c identity confirmed by Haverfordwest.	Pilot apologised. Although he had checked the daily NOTAMs he was not aware of the D201 complex status as a permanent Danger Area. Differences between the overland (D202) and oversea (D201) complex were explained and for future reference, pilot was made aware of the ATSOCAS and Danger Area Crossing Service.

201205264	17/05/2012	EGTT : London (FIR)	Luton (LUT)	Graveley	D	CTR	GRUMMAN	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Grumman AA5 resulting in a loss of separation against a departing airliner.	CAA Closure: Information indicates that this infringementresulted from confusion over visual references. The pilo has taken appropriate action as a result of this incident.
201205264	17/05/2012	EGTT : London (FIR)	Luton (LUT)	Graveley	D	CTR	UNKNOWN	Unknown		Infringement of the Luton CTR (Class D) by a Grumman AA5 resulting in a loss of separation against a departing airliner.	CAA Closure: Information indicates that this infringementresulted from confusion over visual references. The pilo has taken appropriate action as a result of this incident.
201205265	17/05/2012	EGTT : London (FIR)	London City - LCY	5 N	D	CTR	CESSNA	Reciprocating	1	Infringement of the London City CTR (Class D) by a C172 squawking 7050 at 2500ft. Traffic info given. STCA activated. Standard separation maintained.	The investigation has subsequently revealed that the pilot had called Thames for a transit of the zone and instructed to enter CAS not above 2000ft. However, the instructionwas issued when the a/c was just 0.5nm from the boundary zone at an altitude of 2400ft.
201205265	17/05/2012	EGTT : London (FIR)	London City - LCY	5 N	D	CTR	UNKNOWN	Unknown		Infringement of the London City CTR (Class D) by a C172 squawking 7050 at 2500ft. Traffic info given. STCA activated. Standard separation maintained.	The investigation has subsequently revealed that the pilot had called Thames for a transit of the zone and instructed to enter CAS not above 2000ft. However, the instructionwas issued when the a/c was just 0.5nm from the boundary zone at an altitude of 2400ft.
201205316	17/05/2012	EGTT : London (FIR)	Boscombe Down		G	Danger area	OTHER	Unknown		UK AIRPROX 2012/066 - Military a/c and a DA40 at BoscombeDown.	

201205316	17/05/2012	EGTT : London (FIR)	Boscombe Down		G	Danger area	DIAMOND	Reciprocating	1	UK AIRPROX 2012/066 - Military a/c and a DA40 at BoscombeDown.	
201205333	19/05/2012	EGTT : London (FIR)	Honiley (HON)	5 W	D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C150 initially squawking 0010 at 1000ft. Traffic info and avoiding action given. Standard separation maintained.	It has subsequently been revealed that the a/c's Direction Indicator had failed and that the pilot had been unable to find good visual ground features to confirm his position. Signal from the VOR was lost due to low level flying toremain VMC.
201205333	19/05/2012	EGTT : London (FIR)	Honiley (HON)	5 W	D	CTR	EMBRAER	Turbofan	2	Infringement of the Birmingham CTR (Class D) by a C150 initially squawking 0010 at 1000ft. Traffic info and avoiding action given. Standard separation maintained.	It has subsequently been revealed that the a/c's Direction Indicator had failed and that the pilot had been unable to find good visual ground features to confirm his position. Signal from the VOR was lost due to low level flying toremain VMC.
201205334	19/05/2012	EGTT : London (FIR)	London-Gatwick - LGW	2 N	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a Robin HR200 (initially unknown) squawking 3767 at 1100ft. Separationlost. Traffic info given. CAIT activated.	The pilots report indicates that whilst trying to avoid anoise sensitive location (which was misidentified) the pilot delayed his left turn and infringed the Gatwick CTR. R/W18 in use at Redhill.
201205334	19/05/2012	EGTT : London (FIR)	London-Gatwick - LGW	2 N	D	CTR	AIRBUS	Turbofan	2	Infringement of the Gatwick CTR (Class D) by a Robin HR200 (initially unknown) squawking 3767 at 1100ft. Separationlost. Traffic info given. CAIT activated.	The pilots report indicates that whilst trying to avoid anoise sensitive location (which was misidentified) the pilot delayed his left turn and infringed the Gatwick CTR. R/W18 in use at Redhill.

201205337	17/05/2012	EGTT : London (FIR)	London-Heathrow - LHR	SW	A	CTR	YAKOVLEV	Reciprocating	1	Infringement of the London CTR (Class A) on two separate occasions (1308hrs and 1313 hrs) by a YAK52. Separation lost. Traffic info and avoiding action given.	Appropriate CAA action is being taken as a result of this incident.
201205337	17/05/2012	EGTT : London (FIR)	London-Heathrow - LHR	SW	A	CTR	AIRBUS	Turbofan	2	Infringement of the London CTR (Class A) on two separate occasions (1308hrs and 1313 hrs) by a YAK52. Separation lost. Traffic info and avoiding action given.	Appropriate CAA action is being taken as a result of this incident.
201205346	19/05/2012	EGTT : London (FIR)	Bovingdon (BNN)	2 N	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28R squawking 7000 with Mode C 1900ft. Traffic info given. Standard separation maintained.	It has subsequently been revealed that the pilot infringed the CTR by 0.7nm for approx 1min and that on this occasion, no follow up action has been taken.
201205346	19/05/2012	EGTT : London (FIR)	Bovingdon (BNN)	2 N	D	CTR	AIRBUS	Turbofan	2	Infringement of the Luton CTR (Class D) by a PA28R squawking 7000 with Mode C 1900ft. Traffic info given. Standard separation maintained.	It has subsequently been revealed that the pilot infringed the CTR by 0.7nm for approx 1min and that on this occasion, no follow up action has been taken.
201205372	20/05/2012	EGTT : London (FIR)		Tarbock Interchange M57/M62	D	CTR	FLY BUY ULTRALIGHTS	Reciprocating	1	Infringement of the Liverpool CTR (Class D) by a C42 squawking 7366 at 1700ft. Traffic info given. Standard separation maintained. A/c piloted by solo student.	Inbound traffic vectored for an ILS R/W27 were turned to remain clear. Investigations indicate that the student didnot establish his initial position on the map quickly, therefore became distracted and disorientated.☐ CAA Closure:Two additional navigation training flights have been completed with another two planned before further solo navigation.

201205453	19/05/2012	EGTT : London (FIR)	Keevil		Other	Other	GROB	Reciprocating	1	Infringement of active Keevil Glider launching site (Class G) by an a/c, at approx 1500-2000ft. LS8 glider was conducting a series of winch launches between 1200-1400ft. A/clater identified as G115.	LS8 became aware of the G115 on entering full climb and prepared to abandon launch when at a safe height to do so. As LS8 approached the point to abandon launch, the G115 took a hard left avoiding action turn away. LS8 continued the launch. LS8 later received confirmation the G115 was from Colerne.
201205453	19/05/2012	EGTT : London (FIR)	Keevil		Other	Other	OTHER	Other	0	Infringement of active Keevil Glider launching site (Class G) by an a/c, at approx 1500-2000ft. LS8 glider was conducting a series of winch launches between 1200-1400ft. A/clater identified as G115.	LS8 became aware of the G115 on entering full climb and prepared to abandon launch when at a safe height to do so. As LS8 approached the point to abandon launch, the G115 took a hard left avoiding action turn away. LS8 continued the launch. LS8 later received confirmation the G115 was from Colerne.
201205482	21/05/2012	EGTT : London (FIR)	Manchester (MCT)		D	CTR	ROBINSON	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a R22 squawking 7354 at 1000ft. Standard separation maintained. Inbound flight cleared for visual R/W05L was changed to ILS approach.	A/c was piloted by student who reported having GPS problems. ATC advised track approx 210 to leave zone for Hawarden. Hawarden were informed and the a/c transferred to them.However, the pilot subsequently elected to return to Manchester Barton and on being transferred back to Approach was monitored on his return Northbound via the LLR.
201205485	22/05/2012	EGTT : London (FIR)	Southampton (SAM)	4nm NNW	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Southampton CTR (Class D) by an a/c squawking 7000 at 1400ft. Blind calls made. A/c later identified as a Robin 2100. Traffic info given. Standard separation maintained.	
201205498	12/05/2012	EGTT : London (FIR)	Southampton (SAM)	11 W	D	CTA	EVEKTOR AEROTECHNIK	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Eurostar squawking 7000 indicating 3800ft. Traffic info and avoiding action given. Standard separation maintained.	Several calls were made to establish contact without success. Bournemouth identified the a/c using Mode S.

201205507	22/05/2012	EGTT : London (FIR)	Bournemouth	5 W	D	CTR	PIPER	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a PA28. Traffic info given. Standard separation maintained.	The a/c had called Bournemouth for a Basic Service outside of CAS. A/c (with a 7000 squawk) subsequently identifiedwithin the Bournemouth Zone. Student pilot.
201205524	21/05/2012	EGTT : London (FIR)	WILLO	5 WSW	A	TMA	CESSNA	Turboprop	1	Infringement of the London TMA (Class A) by a Cessna 208 squawking 7000 at 3300ft. Traffic info given. Standard separation maintained.	Descending B757 was given a left orbit to avoid the infringer. Infringer continued on a North Westerly heading before leaving CAS near MID VOR and subsequently identified byMode S.
201205524	21/05/2012	EGTT : London (FIR)	WILLO	5 WSW	A	TMA	BOEING	Turbofan	2	Infringement of the London TMA (Class A) by a Cessna 208 squawking 7000 at 3300ft. Traffic info given. Standard separation maintained.	Descending B757 was given a left orbit to avoid the infringer. Infringer continued on a North Westerly heading before leaving CAS near MID VOR and subsequently identified byMode S.
201205539	13/05/2012	EGTT : London (FIR)	Mayfield (MAY)	5 NW	D	CTR	INIZIATIVE	Reciprocating	1	Infringement of the Gatwick CTR and CTA (Class D) by a Sky Arrow 650 squawking 7000. Several calls made with no response. Standard separation maintained.	The pilot reported departing from Crockham Hill situated 3km North of Edenbridge. Using a 1/250,000 chart, the pilot reported flying to Forest Row then turning West to fly along the southern shore of Weir Wood reservoir. The pilot indicated that he had not realised that he had infringed the SE corner of the Gatwick CTR and CTA and apologised. ☐ CAA Closure: Pilot believed that he was following a route clear of CAS and was unaware that he had infringed the lateral boundary of the Gatwick CTR and vertical limits of the Gatwick CTA. An appropriate questionnaire is to be completed. Lessons appear to have been learnt.
201205569	23/05/2012	EGTT : London (FIR)	Southampton (SAM)	8 NE	D	CTR	AQUILA	Reciprocating	1	Infringement of the Southampton CTR (Class D) by an Aquila AT01 at 1300ft squawking 7000. Blind calls made with no response. Traffic info given. Standard separation maintained.	

201205597	24/05/2012	EGTT : London (FIR)	London-Gatwick - LGW	8 W	D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a C120 squawking 7000. Traffic info and avoiding action given. Standard separation maintained.	
201205607	23/05/2012	EGTT : London (FIR)	Mayfield (MAY)	8 NE	A	TMA	INIZIATIVE	Reciprocating	1	Infringement of the LTMA (Class A) and the Gatwick CTA (Class D) by a Sky Arrow 650 squawking 7000. Mode C indicated between 2500ft and 2800ft. Separation lost against an airliner.	A/c identity confirmed by Mode S.
201205607	23/05/2012	EGTT : London (FIR)	Mayfield (MAY)	8 NE	A	TMA	UNKNOWN	Unknown		Infringement of the LTMA (Class A) and the Gatwick CTA (Class D) by a Sky Arrow 650 squawking 7000. Mode C indicated between 2500ft and 2800ft. Separation lost against an airliner.	A/c identity confirmed by Mode S.
201205609	24/05/2012	EGTT : London (FIR)	fair Oaks	2 E	A	CTR	BEECH	Reciprocating	1	Infringement of the London CTR (Class A) by a BE33 initially squawking 7000 at 2000ft resulting in a loss of separation against four a/c. Heathrow southbound flights suspended. Traffic info given.	Squawk subsequently showed 0432 and Mode C confirmed as 2000ft. Appropriate CAA action is being taken as a result of this incident. See also 201205823.
201205609	24/05/2012	EGTT : London (FIR)	fair Oaks	2 E	A	CTR	UNKNOWN	Unknown		Infringement of the London CTR (Class A) by a BE33 initially squawking 7000 at 2000ft resulting in a loss of separation against four a/c. Heathrow southbound flights suspended. Traffic info given.	Squawk subsequently showed 0432 and Mode C confirmed as 2000ft. Appropriate CAA action is being taken as a result of this incident. See also 201205823.

201205610	24/05/2012	EGTT : London (FIR)	Farnborough	5 E	A	TMA	BEECH	Reciprocating	1	Infringement of the LTMA (Class A) by a BE33 squawking 7000 at 2000ft. Separation lost with Heathrow inbound A320 at FL70. B747 on a CPT departure was turned early.	Appropriate follow up action is being taken.
201205610	24/05/2012	EGTT : London (FIR)	Farnborough	5 E	A	TMA	AIRBUS	Turbofan	2	Infringement of the LTMA (Class A) by a BE33 squawking 7000 at 2000ft. Separation lost with Heathrow inbound A320 at FL70. B747 on a CPT departure was turned early.	Appropriate follow up action is being taken.
201205668	25/05/2012	EGTT : London (FIR)	Southampton (SAM)	10 S	D	CTA	EUROPA	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Europa squawking 7000 indicating 2500ft. Traffic info and avoiding action given. Standard separation maintained. ATC training in progress.	Bournemouth confirmed that they had just received a call from the a/c and that it had been asked to descend immediately. 7000 changed to a Bournemouth squawk and a/c continued Westbound below CAS.
201205668	25/05/2012	EGTT : London (FIR)	Southampton (SAM)	10 S	D	CTA	BAE	Turboprop	2	Infringement of the Solent CTA (Class D) by a Europa squawking 7000 indicating 2500ft. Traffic info and avoiding action given. Standard separation maintained. ATC training in progress.	Bournemouth confirmed that they had just received a call from the a/c and that it had been asked to descend immediately. 7000 changed to a Bournemouth squawk and a/c continued Westbound below CAS.
201205670	26/05/2012	EGTT : London (FIR)	North Weald	2 WNW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C150 squawking 5030. Standard separation maintained. Traffic info and avoiding action given. Identity confirmed by radar.	Farnborough contacted C150 and instructed a/c to vacate CAS.

201205673	26/05/2012	EGTT : London (FIR)	Liverpool	8-10nm S	A		OTHER	Reciprocating	1	Infringement of Airway N864 (Class A) at 4000ft by a Tri-R Kis. Loss of separation with an A319 departing Liverpool.	Pilot error acknowledged. Subsequent investigation revealed that the Tri-R Kis pilot was over reliant on his GPS, which was insufficient for avoiding CAS. ATC did not issue avoiding action to the A319 as they believed that lateral and/or vertical separation would be maintained. The Tri-R Kis pilot was on an incorrect FIR frequency which prevented the conveying of information regarding the infringement, although it would have been too late to prevent the loss. The pilot has acknowledged his error and has stated that if any deviation from the planned route occurs, and before suspecting any radio problems he will recheck the frequency and remember that London FIR have different frequencies in different geographical areas. The pilot has also purchased a NATS AWARE device to prevent any reoccurrence.
201205673	26/05/2012	EGTT : London (FIR)	Liverpool	8-10nm S	A		AIRBUS	Turbofan	2	Infringement of Airway N864 (Class A) at 4000ft by a Tri-R Kis. Loss of separation with an A319 departing Liverpool.	Pilot error acknowledged. Subsequent investigation revealed that the Tri-R Kis pilot was over reliant on his GPS, which was insufficient for avoiding CAS. ATC did not issue avoiding action to the A319 as they believed that lateral and/or vertical separation would be maintained. The Tri-R Kis pilot was on an incorrect FIR frequency which prevented the conveying of information regarding the infringement, although it would have been too late to prevent the loss. The pilot has acknowledged his error and has stated that if any deviation from the planned route occurs, and before suspecting any radio problems he will recheck the frequency and remember that London FIR have different frequencies in different geographical areas. The pilot has also purchased a NATS AWARE device to prevent any reoccurrence.
201205679	26/05/2012	EGTT : London (FIR)	Stansted	SW	Other	Restrict ed area	COSY EUROPE	Reciprocating	1	Infringement of the Stansted TMZ2 (Class G) by a contact with no Mode C. Traffic info given.	
201205685	26/05/2012	EGTT : London (FIR)	Stansted	SW	G	Restrict ed area	RUTAN	Reciprocating	1	Infringement of the Stansted TMZ2 (Class G) by a Rutan Longeze (initially primary contact). Traffic info and avoiding action given. Disruption to commercial traffic.	This was one of three primary contacts observed leaving the North Weald exemption zone on a North Westerly track. Through contact with North Weald these were assigned a series of squawks to identify them. The pilot concerned has now been fully briefed on the procedures to be adopted before entering the TMZ airspace.
201205686	26/05/2012	EGTT : London (FIR)	Stansted	SW	Other	Restrict ed area	COSY EUROPE	Reciprocating	1	Infringement of the Stansted TMZ2 (Class G) by a Cozy (initially primary contact). Traffic info and avoiding action given. Disruption to commercial traffic.	This was one of three primary contacts observed leaving the North Weald exemption zone on a North Westerly track. Through contact with North Weald these were assigned a series of squawks to identify them. A/c was subsequently observed squawking 7010 with no Mode C.

201205689	27/05/2012	EGTT : London (FIR)	Tring		D	CTA	PIPER	Reciprocating	1	Infringement of the Luton CTA (Class D) by a PA28, with Mode C increasing through 2800ft and peaking at 3000ft. A/c identified by Mode S. Standard separation maintained.	LTC contacted LARS to ascertain intentions of PA28, due to a Luton inbound established on the 08 LOC descending to 4000ft. LARS informed ATC the infringer was going down. ATC decided PA28 could stay on its north westerly track, as the a/c would be leaving CAS very shortly. Luton inbound was not delayed.
201205702	26/05/2012	EGTT : London (FIR)	Lydd (LYD)		A	TMA	OTHER	Reciprocating	1	Infringement of the LTMA (Class A) by a motor glider at FL65. Appropriate ATC action taken.	Motor glider called London FIS on frequency, reporting at LYD VOR at FL65. ATC immediately instructed motor glider to remain outside of CAS, and informed pilot the base of CAS was 5500ft. ATC then requested motor glider to descend. Motor glider began to descend to 3000ft.
201205706	27/05/2012	EGTT : London (FIR)	London City - LCY	5nm SE	D	CTR	CESSNA	Reciprocating	1	Infringement of the London City CTR (Class D) by a C152. A/c identified by Mode S. Standard separation maintained.	C152 was observed to enter CTR from the Southeast and track North/Northeast. No departures were affected. One inbound was vectored slightly to ensure separation was maintained.
201205724	24/05/2012	EGTT : London (FIR)	Oxford		G	ATZ	PIPER	Reciprocating	1	Infringement of the Oxford ATZ (Class G) by a PA28 at approx 1500ft, 0.75nm to the West of the aerodrome. A/c later identified by Brize Norton.	ATC had observed PA28 turning sharply away from the aerodrome. Infringer was tracked on radar and was seen to change to a Brize Norton squawk.
201205728	24/05/2012	EGTT : London (FIR)	ORTAC		A		FLIGHT DESIGN	Reciprocating	1	Infringement of Airway Q41 by a CTSW squawking 3635 between FL40 and FL55. Standard separation maintained.	After responding to a freecall, pilot was informed that weather in Alderney was below VFR and at present level a/c was in the Airway. Pilot requested to take up headings as unable to descend clear due to loss of horizon. A/c was coordinated with Hurn Sector and eventually vectored clear of Q41.

201205773	22/05/2012	EGTT : London (FIR)	Church Fenton		G	ATZ	JODEL	Reciprocating	1	Infringement of the Church Fenton ATZ (Class G) by a Jodel D119 on a Whiskey departure. A/c had departed Sherburn North instead of West, as laid down in LOA.	Jodel D119 contacted Church Fenton APP requesting a BS and a Whisky departure. Jodel D119 was then observed to have departed and turned North instead of West. Controller queried pilot, who reported he was familiar with Whiskey departure, but thought it was North. Church Fenton APP informed pilot to turn away and briefed pilot on correct procedure.
201205778	28/05/2012	EGTT : London (FIR)	Southampton (SAM)	12 S	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Southampton CTA (Class D) by a DR400 at 4000ft. Traffic info and avoiding action given to an outbound EMB190. Standard separation maintained.	
201205802	25/05/2012	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	AVIONS ROBIN	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by an a/c at 1800ft. A/c later identified as a Robin 200. Traffic info given. Standard separation maintained.	LARS East had given Robin 200, QNH, a 5022 squawk and a BS. A few minutes later Biggin Hill ATC contacted LARS East regarding an infringer with 5022 squawk. LARS East subsequently alleged that Robin 200 had continued on to slightly infringe the Heathrow CTZ.
201205817	28/05/2012	EGTT : London (FIR)	Cranwell		G	ATZ		Reciprocating	1	Infringement of the Cranwell ATZ (Class G) and Waddington ATZ (Class G) by an a/c indicating 2000ft. A/c later identified as a CZAW Sportcruiser. Traffic info given. Standard separation maintained.	Cranwell received confirmation from LATCC Mil that London FIS were working the a/c. Cranwell contacted Waddington to inform them a/c was heading their way. A/c then flew through the Cranwell overhead and entered Waddington MATZ. The a/c then skimmed the Southern side of active Restricted Area R313 (Scampton). The a/c then changed from London FIR squawk to a Doncaster squawk. A/c details obtained from Doncaster Radar.
201205821	28/05/2012	EGTT : London (FIR)	Bovingdon (BNN)	W	A	TMA	VANS	Reciprocating	1	Infringement of the LTMA (Class A) and Stansted CTA (Class D) by a Vans RV4 at 2900ft squawking 7000. Traffic info and avoiding action. Standard separation maintained.	

201205823	28/05/2012	EGTT : London (FIR)	Stansted	SW	D	CTA	BEECH	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a BE33 at 2400ft squawking 7000. Standard separation maintained.	Appropriate CAA action is being taken as a result of thisincident. See also 201205609.
201205851	29/05/2012	EGTT : London (FIR)	Isle Of Man (IOM)		D	CTR	ROBINSON	Reciprocating	1	Infringement of the Isle of Man CTA/CTR (Class D) by an R44 squawking 7000 at 1000ft. Standard separation maintained.	ATC made a general broadcast asking if an a/c was on frequency. R44 replied and was placed on 4551 squawk. ATC informed R44 they had climbed into CAS without permission. Pilot apologised. ATCO's are to be reminded to inform pilots,arriving at private sites, to contact ATC prior to lifting for departure.
201205894	28/05/2012	EGTT : London (FIR)	Aberporth		G	Danger area	MOONEY	Reciprocating	1	Infringement of one or both Danger Areas EG D201 and EG D202 (Aberporth) by a Mooney 20 at 2000ft. An RPAS (Remotely Piloted Aircraft) launch clearance was rescinded due to infringing a/c.	Aberporth believed a/c was one they had spoken with earlier in the day and called its callsign, but a/c was not on frequency. A/c then contacted West Wales ATC and was transferred to Aberporth, who advised Mooney 20 of quickest route out of D202 and placed them under a BS. Pilot apologised. Pilot had misread charts and thought D202 had a base of FL125. Aberporth confirmed D202 is from SFC to FL125. Depiction of vertical limits of the D202 Danger Area to be reviewed on Edition 38 of the Southern England and Wales Aeronautical Chart (ICAO) 1:500,000.
201205894	28/05/2012	EGTT : London (FIR)	Aberporth		G	Danger area	OTHER	Unknown		Infringement of one or both Danger Areas EG D201 and EG D202 (Aberporth) by a Mooney 20 at 2000ft. An RPAS (Remotely Piloted Aircraft) launch clearance was rescinded due to infringing a/c.	Aberporth believed a/c was one they had spoken with earlier in the day and called its callsign, but a/c was not on frequency. A/c then contacted West Wales ATC and was transferred to Aberporth, who advised Mooney 20 of quickest route out of D202 and placed them under a BS. Pilot apologised. Pilot had misread charts and thought D202 had a base of FL125. Aberporth confirmed D202 is from SFC to FL125. Depiction of vertical limits of the D202 Danger Area to be reviewed on Edition 38 of the Southern England and Wales Aeronautical Chart (ICAO) 1:500,000.
201205898	29/05/2012	EGTT : London (FIR)	Newcastle Emlyn	N	G	Danger area	AVIONS ROBIN	Reciprocating	1	Infringement of Danger Area ED202 (West Wales) by a DR400initially squawking 7000 at 3700ft. Standard separation maintained. A/c identity subsequently confirmed after beinginstructed to squawk 4530.	Pilot apologised. He had been using an edition 30 half mil map and believed that the ED202 base height was FL125.

201205920	28/05/2012	EGTT : London (FIR)	Leamington Spa		D	CTA	ZENAIR	Reciprocating	1	Infringement of the Birmingham CTA-2 (Class D) by a Zenair squawking 7000 indicating 2200ft. Appropriate ATC actiontaken. Standard separation maintained.	Blind calls made with no response. A/c left CAS passing to the North of Wellesbourne. Pilot error acknowledged. Pilot has been given appropriate advice.
201205923	30/05/2012	EGTT : London (FIR)	Bournemouth		D	CTR	FLY BUY ULTRALIGHTS	Reciprocating	1	Infringement of Bournemouth CTR (Class D) by a primary only contact. A/c contacted D&D, and was transferred to Bournemouth ATC. Traffic info and avoiding action given. Standard separation maintained.	A/c identified as C42. Pilot contacted D&D requesting assistance due to being lost. A/c was not SSR equipped. D&D contacted Bournemouth, and with their radar assistance a/c's position was confirmed following two turns. A/c continued en-route. A/c then contacted D&D requesting assistance again, but had infringed Bournemouth CTR. A/c diverted to Bournemouth.
201206009	01/06/2012	EGTT : London (FIR)	Southampton (SAM)	8.3 SW	D	CTR	STRIPLIN	Reciprocating	1	Infringement of the Solent CTR (Class D) by a SkyRanger. Separation lost against inbound DHC8. Traffic info and avoiding action given.	Several attempts were made to establish contact, without success. Bournemouth were called to see if they had any secondary or Mode S showing, and although they could see thetwo contacts they did not have any other information. Once the contact had left the Solent CTR, the DHC8 was vectored back onto final approach and on passing traffic info said he did have a contact on TCAS but no height indicated. Bournemouth also stated at few mins after leaving CAS thatthe a/c had a Mode C readout of 1200ft.
201206009	01/06/2012	EGTT : London (FIR)	Southampton (SAM)	8.3 SW	D	CTR	DE HAVILLAND	Turboprop	2	Infringement of the Solent CTR (Class D) by a SkyRanger. Separation lost against inbound DHC8. Traffic info and avoiding action given.	Several attempts were made to establish contact, without success. Bournemouth were called to see if they had any secondary or Mode S showing, and although they could see thetwo contacts they did not have any other information. Once the contact had left the Solent CTR, the DHC8 was vectored back onto final approach and on passing traffic info said he did have a contact on TCAS but no height indicated. Bournemouth also stated at few mins after leaving CAS thatthe a/c had a Mode C readout of 1200ft.
201206019	01/06/2012	EGTT : London (FIR)	Luton (LUT)	W	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) twice (1200hrs and 1209hrs) by a PA28 squawking 7000 indicating 2000ft. Traffic info given. Departures stopped at 1203hrs. A/c identified by Mode S.	Inbound A320 was broken off approach and repositioned. ☐ CAA Closure: Pilot lost in bad weather. Eventually called D&D. CFI dealing with follow-up action at club level.

201206019	01/06/2012	EGTT : London (FIR)	Luton (LUT)	W	D	CTR	AIRBUS	Turbofan	2	Infringement of the Luton CTR (Class D) twice (1200hrs and 1209hrs) by a PA28 squawking 7000 indicating 2000ft. Traffic info given. Departures stopped at 1203hrs. A/c identified by Mode S.	Inbound A320 was broken off approach and repositioned. ☐ CAA Closure: Pilot lost in bad weather. Eventually called D&D. CFI dealing with follow-up action at club level.
201206041	01/06/2012	EGTT : London (FIR)	Birmingham	14 SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA2 (Class D) by a PA28R at 2500ft. Separation lost with an EMB195 and a B737 inbound to Birmingham.	Traffic info and avoiding action given. The pilot's report indicates that he had failed to detect the lowering of CAS in the area concerned during the planning process. Theappropriate lessons appear to have been learnt.
201206041	01/06/2012	EGTT : London (FIR)	Birmingham	14 SE	D	CTA	EMBRAER	Turbofan	2	Infringement of the Birmingham CTA2 (Class D) by a PA28R at 2500ft. Separation lost with an EMB195 and a B737 inbound to Birmingham.	Traffic info and avoiding action given. The pilot's report indicates that he had failed to detect the lowering of CAS in the area concerned during the planning process. Theappropriate lessons appear to have been learnt.
201206042	01/06/2012	EGTT : London (FIR)	Stansted	13 SW	Other	Other	AVIONS ROBIN	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a DR400 squawking 7000 with no Mode C indication. Traffic info given to an inbound B737.	
201206048	25/05/2012	EGTT : London (FIR)	Mayfield (MAY)		A	TMA	AVIONS ROBIN	Reciprocating	1	Infringement of the London TMA (Class A) by a Robin 400, squawking 7000. Mode C showing 2500ft-2800ft. Traffic infoand avoiding action given. Standard separation maintained.	A number of a/c were given extended routings to keep clear of the Robin 400.

201206050	02/06/2012	EGTT : London (FIR)	Stansted	10 NE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C172 squawking 7000 with Mode C indicating up to 3000ft. All departures stopped for 7mins.	CAA Closure: Flight was undertaken by a new instructor who strayed further than expected infringing controlled airspace. Instructor was also new to the area. Robust follow-up action has been taken by the club CFI.
201206059	02/06/2012	EGTT : London (FIR)	Colerne		D	CTA	PIPER	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a PA28 squawking 7000 at 5000ft. Standard separation maintained.	PA28 in receipt of a Basic Service from Brize had been given a heading to avoid Bristol CAS. Just prior to Colerne pilot was told to squawk 7000 and freecall an en-route agency. A/c was then seen continuing on a Southerly heading at FL50 and entered the Bristol CTA, whereupon he called Brize but was trying to call London Information. A/c's trackwas then monitored by Bristol after being provided with the QNH, squawk ident and informed of his position inside CAS. Pilot had been looking for a gap in the cloud to descend.
201206075	04/06/2012	EGTT : London (FIR)	Polehill (POL)	5nm W	A	TMA	VANS	Reciprocating	1	Infringement of the Manchester TMA (Class A) by a Vans RV7 at 4500ft, where base is 3500ft. A/c identified by Mode S. Standard separation maintained.	MACC contacted Blackpool ATC who informed them they had transferred a/c to Leeds and informed pilot to remain outside CAS. Leeds ATC informed MACC they were not working the a/c. Pilot later reported the chart they had used was out of date and had now been discarded.
201206079	04/06/2012	EGTT : London (FIR)	Snitterfield	5 NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28. Standard separation maintained. Traffic info and avoiding action given.	
201206095	19/05/2012	EGTT : London (FIR)			Other	Restrict ed area		Reciprocating	1	Infringement of an RA(T) by a CZAW Sports cruiser squawking 3716 at 1700ft.	Appropriate CAA action being taken as a result of this incident.

201206106	05/06/2012	EGTT : London (FIR)	Stansted	8 NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTA and CTR (Class D) by a PA28 initially squawking 7000 at 2000ft, with no Mode C. Standard separation maintained.	Investigation established that the infringement resulted from the pilot misreading the radial from Clacton VOR and flying too far South of his intended course. Additionally,the pilot had intended to fly a different a/c that day but it was in maintenance and so he elected to undertake theflight using the PA28, but subsequently realised that he was not used to the older style of navigation equipment onboard. The pilot also reported unfamiliarity with the area around Stansted and found some difficulty relating the ground features to his expectations at the time of the infringement. Once the pilot's error had been pointed out to him by Cambridge ATC, he exited the infringed area by the quickest and safest possible means.□ CAA Closure: Lesson learned, appropriate advice given.
201206108	27/05/2012	EGTT : London (FIR)	Southend (SND)	6 SW	Other	Restrict ed area	MOONEY	Reciprocating	1	Infringement of the Southend Airshow RA(T) by an unknown a/c squawking 7047 approaching from the West. Blind transmission made but no response. Display team informed. Standard separation maintained.	A/c called at 1341hrs and one min later left to the SE. A/c identified by squawk 5064 and level verified.
201206108	27/05/2012	EGTT : London (FIR)	Southend (SND)	6 SW	Other	Restrict ed area	EXTRA	Reciprocating	1	Infringement of the Southend Airshow RA(T) by an unknown a/c squawking 7047 approaching from the West. Blind transmission made but no response. Display team informed. Standard separation maintained.	A/c called at 1341hrs and one min later left to the SE. A/c identified by squawk 5064 and level verified.
201206117	31/05/2012	EGTT : London (FIR)	Castlemartin		G	Danger area	CIRRUS	Reciprocating	1	Infringement of Danger Area D113A (Castlemartin) by an SR22 at approx 300ft AMSL. Check fire all ranges.	CAA Closure: French DGAC informed. Registration will be monitored for future incidents.
201206147	02/06/2012	EGTT : London (FIR)	Church Fenton		G	ATZ	ROBINSON	Reciprocating	1	Infringement of Church Fenton ATZ (Class G) by an R44 squawking 7010 at 800ft.	A/c had departed Sherburn in Elmet on an Easterly departure but had misunderstood the instructions given by CFN radar. It was ascertained that the a/c was based at Sherburn and should have been fully conversant with the LOA in place. There were no other a/c in the circuit at the time of the incident.

201206170	06/06/2012	EGTT : London (FIR)	En Route				CESSNA	Reciprocating	1	A/c entered controlled airspace whilst receiving navigational assistance due to en-route weather avoidance.	
201206225	02/06/2012	EGTT : London (FIR)	Kenley		G		DIAMOND	Reciprocating	1	Infringement of the South London Gliding Centre cable hazard at Kenley by a DA40 at approx 500ft. One glider was airborne in the downwind leg of the circuit.	The DA40 passed over the airfield before continuing in the direction of Biggin Hill. Kenley contacted Biggin Hill ATC and were informed the DA40 was in contact with them andhad been advised to remain clear of Kenley.
201206230	21/05/2012	EGTT : London (FIR)	Camphill		Other	Other	HUGHES	Turboshaft	1	Infringement of the Camphill winch launch area by a unknown helicopter, believed to be a Hughes 500, at 300ft AGL. A/c passed from West to East. No glider was being launchedat the time.	Manchester ATC were contacted but were unable to confirm identity of the a/c.
201206308	09/06/2012	EGTT : London (FIR)	Stansted	11 SW	Other	Restrictedd area	ROBINSON	Reciprocating	1	Infringement of the Stansted TMZ2 (Class G) by an R44 (initially unknown) squawking 7000. No Mode S.	A/c was subsequently tracked on radar from Wycombe Air Park. The pilot has been contacted and fully debriefed and confirmed that Mode C was switched on, but he has agreed toget the transponder checked on the next flight.
201206310	09/06/2012	EGTT : London (FIR)	REXAM		A		MAULE	Reciprocating	1	Infringement of Airway N864 by a Maule M7 squawking 1177 at an indicated FL50. Pilot apologised. Standard separation maintained.	A/c had been told to remain outside CAS on his routeing and reminded again by FIS Officer at FL55. It has subsequently been revealed that due to CBs pilot had elected to route direct Englesfield. He had been told by London FIR thathe would infringe at 4500ft and elected to descend to 4300ft. Pilot reported level at 4400ft. Pilot cities possibleslow descent and low pressure setting (1003) along with inaccurate transponder encoder as contributing to the event.

201206324	10/06/2012	EGTT : London (FIR)	Puckeridge	2nm SW	D	CTA	STRIPLIN	Reciprocating	1	Infringement of the Stansted and Luton CTA (Class D) by an a/c squawking 7000, climbing to 3100ft. A/c identified by Mode S as a Skyranger. Standard separation maintained.	Blind calls were made with no response. Skyranger turned South at Buntingford mast and descended to leave CAS. The Skyranger on a local flight from Hunsdon entered the Stansted and Luton CTAs by climbing to 3000ft in order to avoid a group of a/c reported to be operating in the vicinity of Panshanger. The pilot did not have functioning GPS and did not seem to be fully aware of the base of CAS around Hunsdon.☐ CAA Closure: The pilot has been requested to familiarise himself with the airspace and relevant frequencies around Hunsdon in order to avoid infringing CAS in the future. The pilot has also been requested to complete the NATS infringement questionnaire.
201206326	09/06/2012	EGTT : London (FIR)	White Waltham	3nm SSW	A	TMA	PITTS	Reciprocating	1	Infringement of the LTMA (Class A) by a Pitts Special squawking 7004 at 3000ft. Standard separation maintained.	As Thames controller made arrangements to inform Heathrow of the infringer, the a/c subsequently left the TMA. Due to speed of the a/c climbing/descending, Thames believe the a/c was performing aerobatics. A/c told to squawk 7030, and was identified, and Mode C verified, by Heathrow SFVR.
201206329	09/06/2012	EGTT : London (FIR)	London-Gatwick - LGW	NE	D	CTR	INIZIATIVE	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a Sky Arrow at 1300ft squawking 7000. Two inbound a/c broken off approach. Traffic info and avoiding action given. Standard separation maintained.	Investigation under 201205539.
201206508	13/06/2012	EGTT : London (FIR)	Brooklands		A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C152 initially squawking 7000 at 2300ft. Heathrow CPT, MID and SAM departures stopped at 1015hrs. DVR departures subsequently suspended.	Standard separation maintained. Mode S confirmed identity of contact and squawk subsequently changed to 7047. Biggin Hill ATC subsequently stated that the a/c had called them and was unsure of its position. The operator has been fully alerted to this incident with a request that the pilot be fully debriefed. Pilot error acknowledged.
201206525	13/06/2012	EGTT : London (FIR)	Nottingham East Midlands	10nm WNW	D	CTA	PIPER	Reciprocating	1	UK AIRPROX 2012/078 - DHC8 and PA28, at 2000ft, 10nm WNW of East Midlands final approach to R/W09. Traffic info given.	PA28 infringed East Midlands CTA (Class D). Loss of separation occurred. Appropriate CAA action has been taken as a result of this incident. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB). Information indicates this AIRPROX was due to the PA28 entering CAS without clearance and flying into conflict with the DHC8, which the PA28 did not see.

201206525	13/06/2012	EGTT : London (FIR)	Nottingham East Midlands	10nm WNW	D	CTA	DE HAVILLAND	Turboprop	2	UK AIRPROX 2012/078 - DHC8 and PA28, at 2000ft, 10nm WNW of East Midlands final approach to R/W09. Traffic info given.	PA28 infringed East Midlands CTA (Class D). Loss of separation occurred. Appropriate CAA action has been taken as a result of this incident. This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB). Information indicates this AIRPROX was due to the PA28 entering CAS without clearance and flying into conflict with the DHC8, which the PA28 did not see.
201206532	13/06/2012	EGTT : London (FIR)	Stansted	8 SE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C152 at 1500ft. Traffic info given. Standard separation maintained.	Student pilot. Operator fully alerted and appropriate remedial action to be taken.
201206534	13/06/2012	EGTT : London (FIR)	Stansted	11 W	Other	Restrict ed area	GRUMMAN	Reciprocating	1	Infringement of the Stansted TMZ2 (Class G) by an GrummanAA1 squawking 1177. No Mode C. Traffic info given.	The investigation has revealed that the pilot was fully aware of the TMZ restrictions and believed that Mode C was operating and was not aware of any transponder fault. Pilot had been advised to contact Farnborough LARS to get the transponder checked.
201206534	13/06/2012	EGTT : London (FIR)	Stansted	11 W	Other	Restrict ed area	BOEING	Turbofan	2	Infringement of the Stansted TMZ2 (Class G) by an GrummanAA1 squawking 1177. No Mode C. Traffic info given.	The investigation has revealed that the pilot was fully aware of the TMZ restrictions and believed that Mode C was operating and was not aware of any transponder fault. Pilot had been advised to contact Farnborough LARS to get the transponder checked.
201206560	14/06/2012	EGTT : London (FIR)	Brookmans Park (BPK)	6 NE	Other	Other	JODEL	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by an unknown a/c squawking 7000 without Mode C. A/c subsequently identified as a DR250. No traffic affected.	

201206570	14/06/2012	EGTT : London (FIR)	Haydock	W	D	CTR	PIPER	Reciprocating	1	Infringement of the Liverpool CTR (Class D) by PA28 at 1300ft squawking 7000 under a Basic Service. Standard separation maintained.	PA28 subsequently flew through the Ternhill ATZ (Class G)at 1500ft approx 30mins later. Pilot was in receipt of the old Shawbury frequency as passed by Manchester ATC and returned to Manchester frequency when unable to raise a response from Shawbury. Manchester ATC given the published frequency by Shawbury.
201206580	13/06/2012	EGTT : London (FIR)	Birmingham	SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 at2800ft squawking 7000. Standard separation maintained.	Pilot error acknowledged. Apparent selection of incorrectQNH 1006mb, when actual Birmingham QNH was 1016mb.
201206588	14/06/2012	EGTT : London (FIR)	Snitterfield	E	D	CTA	MOONEY	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by an a/c squawking 0010 at 2100ft. A/c later identified as a Mooney 20. Standard separation maintained.	ATC made blind calls asking a/c to identify themselves, and an instruction to turn left to exit CAS. No response received, but a/c did turn left and leave CAS. A/c identified by Wolverhampton when a/c contacted them for traffic info. A/c was still showing 0010 until it left Wolverhampton frequency, then changed to a Shawbury squawk.
201206619	15/06/2012	EGTT : London (FIR)	London-Gatwick - LGW	10nm W	D	CTR	AEROSPATIALE	Turboshaft	1	Infringement of the Gatwick CTR (Class D) by an SA350 at 1400ft, squawking 7000. Avoiding action given. Loss of separation occurred. Appropriate ATC action taken.	SA350 contacted LARS controller and gave a position relating to Gatwick that concerned LARS. 7000 squawk was then observed in the CTR. LARS allocated SA350 with a 0432 squawk, informed them they were in CAS, and that they were required to route Northbound to leave the zone. LARS immediately contacted Gatwick ATC. It was determined that (i) the pilot had inadvertently omitted to select Mode C, (ii) the pilot had become distracted when a pregnant women being ferried to a London hospital became severely ill in the AS350 and (iii) whilst dealing with the problems within the AS350 the pilot strayed off his intended course and enteredcontrolled airspace. ☐ CAA Closure: Appropriate remedial action taken.
201206619	15/06/2012	EGTT : London (FIR)	London-Gatwick - LGW	10nm W	D	CTR	UNKNOWN	Unknown		Infringement of the Gatwick CTR (Class D) by an SA350 at 1400ft, squawking 7000. Avoiding action given. Loss of separation occurred. Appropriate ATC action taken.	SA350 contacted LARS controller and gave a position relating to Gatwick that concerned LARS. 7000 squawk was then observed in the CTR. LARS allocated SA350 with a 0432 squawk, informed them they were in CAS, and that they were required to route Northbound to leave the zone. LARS immediately contacted Gatwick ATC. It was determined that (i) the pilot had inadvertently omitted to select Mode C, (ii) the pilot had become distracted when a pregnant women being ferried to a London hospital became severely ill in the AS350 and (iii) whilst dealing with the problems within the AS350 the pilot strayed off his intended course and enteredcontrolled airspace. ☐ CAA Closure: Appropriate remedial action taken.

201206646	14/06/2012	EGTT : London (FIR)	EGR 313		D	Restrict ed area	YAKOVLEV	Reciprocating	1	Infringement of Restricted Area EGR313 by a Yak52. Military a/c display training within EGR313. Pilot traced and incident discussed.	Pilot believed that he had transited Wickenby avoiding EGR313, he was apologetic when advised of his error.
201206649	14/06/2012	EGTT : London (FIR)	EGR 313		G	Restrict ed area	PIPER	Reciprocating	1	Infringement of active Restricted Area EGR313 by a PA28.	
201206725	18/06/2012	EGTT : London (FIR)	London-Gatwick - LGW		D	CTA	HUGHES	Reciprocating	1	Unknown a/c twice infringed the Gatwick CTA/CTR (Class D). A/c was identified on both occasions as a Hughes 269 piloted by solo student on a cross country exercise. Standardseparation maintained.	Infringer entered Gatwick CTA 2nm East of Godstone VRP at1500ft.The a/c called Farnborough LARS, was identified, then descended and left CTA. 30mins later another unknown entered the Gatwick CTR with a Redhill squawk. Redhill advised Gatwick this was the same Hughes 269. Student pilot had mis-identified ground features and became distracted by RT communication. Operator has arranged for appropriate follow up advice and training for the student pilot.
201206752	18/06/2012	EGTT : London (FIR)	EGBB (BHX): Birmingham	12nm SSE	D	CTA	BELL	Turboshaft	1	Infringement of the Birmingham CTA (Class D) by a helicopter, later identified as a Bell 206. Traffic info given. Standard separation maintained.	EMB195, a Birmingham inbound, being vectored downwind LH for R/W33 was passed traffic info on Bell 206, and advised of ATC's intention to position them through the LOC for a right base join for the ILS.□ CAA Closure: Bell 206 pilot on a cross country navigational exercise. Pilot debriefed and instructed that a tolerance should be flown underneath the CTA to allow for minor height fluctuations.
201206752	18/06/2012	EGTT : London (FIR)	EGBB (BHX): Birmingham	12nm SSE	D	CTA	EMBRAER	Turbofan	2	Infringement of the Birmingham CTA (Class D) by a helicopter, later identified as a Bell 206. Traffic info given. Standard separation maintained.	EMB195, a Birmingham inbound, being vectored downwind LH for R/W33 was passed traffic info on Bell 206, and advised of ATC's intention to position them through the LOC for a right base join for the ILS.□ CAA Closure: Bell 206 pilot on a cross country navigational exercise. Pilot debriefed and instructed that a tolerance should be flown underneath the CTA to allow for minor height fluctuations.

201206815	19/06/2012	EGTT : London (FIR)	EGUC : Aberporth		G	Danger area	CESSNA	Reciprocating	1	Infringement of Danger Area D202 (Aberporth) by a C152.	ATC observed an intermittent 7000 squawk on the South Eastern edge of D202. A/c responded to ATC blind call, and was instructed to leave to the East. C152 pilot later called and apologised. Pilot allegedly stated they were aware of Danger Area, but could not get two-way with Aberporth due to flying at low level because of bad weather.☐ CAA Closure: Range discussed the matter with C152 pilot at the time of the incident.
201206846	19/06/2012	EGTT : London (FIR)	Bournemouth	6 ENE	D	CTR	FLY BUY ULTRALIGHTS	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by an Ikarus C42 at 1700ft on a Basic Service. Pilot failed to respond to calls. Standard separation maintained.	
201206850	18/06/2012	EGTT : London (FIR)	Stansted	S	D	CTR	DE HAVILLAND	Turbofan	1	Infringement of the Stansted CTR (Class D) by a Vampire squawking 7000 displaying no Mode C. Check all East placedbut no outbounds delayed. Standard separation maintained.	A/c initially unknown. ATC subsequently identified a/c and spoke to pilot, giving appropriate advice.
201206856	20/06/2012	EGTT : London (FIR)	Stansted	10 SW	Other	Other	PIPER	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a PA28 displaying no Mode C.	A/c identified via Mode S. Operator alerted.
201206865	20/06/2012	EGTT : London (FIR)	Stansted		Other	Other	BEAGLE	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a Beagle Pup showing as a primary contact only. Traffic info and avoiding action given to an inbound A319.	Similar incident earlier same day.

201206868	20/06/2012	EGTT : London (FIR)	Stansted		Other	Other	OTHER	Turbofan	1	Infringement of the Stansted TMZ 2 (Class G) by a GNAT squawking 7010.	A/c identified via Mode S. Appropriate advice given regarding TMZ procedures.
201206894	20/06/2012	EGTT : London (FIR)	Stansted		Other	Other	BEAGLE	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a Beagle Pup showing as a primary contact only. Second infringementlater same day.	Pilot advised ATC that he had Mode C switched on, however, this was not evident on radar. Pilot adjusted the transponder knob, whereupon the Mode C information displayed on radar. Possible transponder fault. A/c currently undergoing maintenance, where the transponder will be checked.
201206908	19/06/2012	EGTT : London (FIR)	London-Heathrow - LHR	10 W	A	CTR	ROBINSON	Reciprocating	1	Infringement of the London CTR (Class A) by an R44. Standard separation maintained.	A/c identified via Mode S.
201206919	21/06/2012	EGTT : London (FIR)	Denham	4 W	A	TMA	LANCAIR	Reciprocating	1	Infringement of the LTMA (Class A) by a Lancair squawking7000. A/c checked in with Farnborough LARS, changing its squawk to 5033 before leaving CAS.	
201206919	21/06/2012	EGTT : London (FIR)	Denham	4 W	A	TMA	BOEING	Turbofan	4	Infringement of the LTMA (Class A) by a Lancair squawking7000. A/c checked in with Farnborough LARS, changing its squawk to 5033 before leaving CAS.	

201206962	21/06/2012	EGTT : London (FIR)	Chiltern (CHT)			Danger area	HUGHES	Turboshaft	1	Infringement of active Danger Area EGD123 by a Hughes 369squawking 0220 with Mode C showing 1100ft.	Pilot advised that, while receiving a service from Yeovilton Radar, they had passed information from an unverified source that EGD123 was not active.
201206982	23/06/2012	EGTT : London (FIR)	Southampton (SAM)	15.5 S	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Robin 2100 squawking 7000 at 2700ft. A/c subsequently left CAS, re-entered and flew another orbit in the same position. Standard separation maintained.	CAA Closure: No further CAA investigation considered warranted at this time.
201206985	24/06/2012	EGTT : London (FIR)	Southampton (SAM)	NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Solent CTR (Class D) by a PA28 squawking 0440. Pilot was reminded by Farnborough that it would need to change course to stay outside CAS. Traffic info given.	Standard separation maintained.□ CAA Closure: No further CAA action at this time.
201207005	19/06/2012	EGTT : London (FIR)	London-Heathrow - LHR	10nm W	A	CTR	ROBINSON	Reciprocating	1	Infringement of the Heathrow CTR (Class A) by an a/c, identified by Mode S as an R44, with an Ascot squawk 4771. Standard separation maintained.	TC Heathrow SVFR controller, noticed the R44 enter LondonCTR between the airspace delegated to Ascot and the WhiteWaltham ATZ. TC contacted Ascot ATC to request R44 turn West. R44 started to orbit. TC then instructed Ascot ATC toput R44 to 125.625 frequency. R44 subsequently turned South into Ascot's airspace but did not call 125.625.
201207011	20/06/2012	EGTT : London (FIR)	Leeds Bradford (LBA)	12nm NW	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Leeds Bradford CTA (Class D) by an R44 at 3200ft squawking 0401. Standard separation maintained.	RAF Leeming were contacted and requested that the R44 contact Leeds Bradford on 133.125MHZ.

201207104	26/05/2012	EGTT : London (FIR)	Stansted		Other	Other	CESSNA	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a C172.	Believed to be a transponder fault.
201207156	20/06/2012	EGTT : London (FIR)	Isle Of Man	10 NW	D	CTA	ROBINSON	Reciprocating	1	Infringement of the Isle of Man CTA (Class D) by an R44 squawking 7000 at 400ft. Standard separation maintained.	A/c had requested a zone transit and confirmed his position. ATC issued a squawk 4550 but as no return was observedpilot was asked to confirm position and level. He was then informed that he was cleared to transit CAS and remindedto obtain clearance prior to entering CAS.
201207221	09/06/2012	EGTT : London (FIR)	Brize Norton	5 S	D	CTR	GROB	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) and OxfordATZ (Class G) by a Grob 109 squawking 7000 at an altitudeof 1800ft. A/c identified using Mode S. Traffic info given.	Investigation under 201201144.
201207221	09/06/2012	EGTT : London (FIR)	Brize Norton	5 S	D	CTR	OTHER	Unknown		Infringement of the Brize Norton CTR (Class D) and OxfordATZ (Class G) by a Grob 109 squawking 7000 at an altitudeof 1800ft. A/c identified using Mode S. Traffic info given.	Investigation under 201201144.
201207228	17/06/2012	EGTT : London (FIR)	EGVN (BZZ): Brize norton		D	CTR	CESSNA	Turboprop	1	Infringement of the Brize CTR (Class D) by a C208 at an indicated altitude of 2400ft.	Pilot had called Brize on 127.250, and 119.0. With no response had assumed that Brize was closed and transited the zone. He also believed that the airspace classification was the same as Benson MATZ.☐ CAA Closure: No further action possible due to elapsed time.

201207229	27/06/2012	EGTT : London (FIR)	Stansted	NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by an a/c in climb, Northwest of Weathersfield. A/c identified by Mode Sas a PA28. CAIT activated. Standard separation maintained.	PA28 climbed to 2000ft before leaving CAS to the East.
201207248	20/06/2012	EGTT : London (FIR)	Weston On The Green		G	Danger area	OTHER	Turbofan	1	Infringement of active Danger Area D129 (Weston on the Green) by a Gnat squawking 3713 at 3000ft.	Pilot had been informed that Weston on the Green and Hinton in the Hedges were both active up to FL130. Pilot subsequently apologised. At the time a military a/c was about to carry out a paradropping exercise from 1000ft, however, the Gnat did not interfere with this.
201207253	19/06/2012	EGTT : London (FIR)	Biggin (BIG)		G	ATZ	CESSNA	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by an unknown a/c at 2400ft squawking 1177. A/c later identified as C172.	On observing 1177 squawk, Biggin Hill ATZ contacted London Information FISO who provided Biggin Hill with the identity and flight details of the infringer.
201207303	30/06/2012	EGTT : London (FIR)	Wethersfield		D	CTA	STODDARD HAMILTON	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a Glasair with Mode C indicating 2800ft. Traffic info and avoiding action given to B737 which was broken off final approach. Separation lost.	Additionally, inbound ATR72 delayed. □ CAA Closure: Dutch CAA advised.
201207303	30/06/2012	EGTT : London (FIR)	Wethersfield		D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a Glasair with Mode C indicating 2800ft. Traffic info and avoiding action given to B737 which was broken off final approach. Separation lost.	Additionally, inbound ATR72 delayed. □ CAA Closure: Dutch CAA advised.

201207303	30/06/2012	EGTT : London (FIR)	Wethersfield		D	CTA	ATR	Turboprop	2	Infringement of the Stansted CTA (Class D) by a Glasair with Mode C indicating 2800ft. Traffic info and avoiding action given to B737 which was broken off final approach. Separation lost.	Additionally, inbound ATR72 delayed. □ CAA Closure: Dutch CAA advised.
201207307	01/07/2012	EGTT : London (FIR)	Birmingham	12.7 NW	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 at3000ft squawking 7000. Blind calls made with no response. Check all placed, however, no departures affected. Standard separation maintained.	Pilot error acknowledged.
201207312	01/07/2012	EGTT : London (FIR)	EGSS (STN): London/Stansted	12 N	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by two PA28s flying in formation indicating 2000ft. CAIT activated. Traffic info given. Separation lost. B737 broken off approach. Other a/c held at ABBOT.	CAA Closure: Belgian CAA advised. They have written to the pilots concerned accordingly.
201207312	01/07/2012	EGTT : London (FIR)	EGSS (STN): London/Stansted	12 N	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by two PA28s flying in formation indicating 2000ft. CAIT activated. Traffic info given. Separation lost. B737 broken off approach. Other a/c held at ABBOT.	CAA Closure: Belgian CAA advised. They have written to the pilots concerned accordingly.
201207312	01/07/2012	EGTT : London (FIR)	EGSS (STN): London/Stansted	12 N	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by two PA28s flying in formation indicating 2000ft. CAIT activated. Traffic info given. Separation lost. B737 broken off approach. Other a/c held at ABBOT.	CAA Closure: Belgian CAA advised. They have written to the pilots concerned accordingly.

201207315	01/07/2012	EGTT : London (FIR)	BANEM	12 S	A	CTA	CIRRUS	Reciprocating	1	Infringement of the Clacton CTA (Class A) by an SR22 at FL100.	Prior to the infringement, the pilot had called ATC reporting his position at FL100. Pilot was advised of the base of CAS immediately South of his position at FL85. Pilot reported descending to FL80 but failed to descend below CAS before crossing the boundary. A/c continued a descent to FL60 to remain outside of CAS.
201207316	01/07/2012	EGTT : London (FIR)	London-Gatwick - LGW	7 W	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a Robin DR400 squawking 3750 heading East at 2000ft. CAIT activated. Departures stopped. Standard separation maintained.	Blind call transmitted and ATC found that a/c was on frequency. Pilot apologised and descended immediately. A/c formally identified and departures resumed.
201207322	01/07/2012	EGTT : London (FIR)	Stansted	10 NE	D	CTA	JODEL	Reciprocating	1	Infringement of the Stansted CTA (Class D) and TMZ1 (Class G) by a DR1051 (flying in formation with a DC3) squawking 1177 at 1800ft. Separation lost against inbound A319.	A/c had been asked to confirm ROCAS. Inbound a/c were given extended vectors and other a/c were routed into the hold. A/c identity traced via the GS Airports and FIR on 124.6.
201207322	01/07/2012	EGTT : London (FIR)	Stansted	10 NE	D	CTA	AIRBUS	Turbofan	2	Infringement of the Stansted CTA (Class D) and TMZ1 (Class G) by a DR1051 (flying in formation with a DC3) squawking 1177 at 1800ft. Separation lost against inbound A319.	A/c had been asked to confirm ROCAS. Inbound a/c were given extended vectors and other a/c were routed into the hold. A/c identity traced via the GS Airports and FIR on 124.6.
201207330	30/06/2012	EGTT : London (FIR)	Stansted		D	CTA	CESSNA	Reciprocating	1	Infringement of Stansted CTA (Class D) by a C172 at 2000ft. Loss of separation with a B737 established on the ILS. Traffic info given.	C172 pilot became lost having misjudged the wind. On regaining position and realising the infringement had occurred, he turned away. He has apologised. ☐ CAA Closure: Belgian CAA advised.

201207330	30/06/2012	EGTT : London (FIR)	Stansted		D	CTA	BOEING	Turbofan	2	Infringement of Stansted CTA (Class D) by a C172 at 2000ft. Loss of separation with a B737 established on the ILS. Traffic info given.	C172 pilot became lost having misjudged the wind. On regaining position and realising the infringement had occurred, he turned away. He has apologised. □ CAA Closure: Belgian CAA advised.
201207334	29/06/2012	EGTT : London (FIR)	Farnborough	8 NW	A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C172 at 4800ft squawking 7000. Traffic info given. Standard separation maintained.	
201207335	29/06/2012	EGTT : London (FIR)	Wethersfield	2 N	D	CTA	CIRRUS	Reciprocating	1	Infringement of the Stansted CTA (Class D) by an SR20 at 2100ft squawking 7000. Standard separation maintained.	
201207336	30/06/2012	EGTT : London (FIR)	London-Gatwick - LGW	NE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a C182 squawking 7000 at 2100ft. Separation lost. Traffic info and avoiding action given.	Two Gatwick inbounds had to be broken off approach plus several others were given delaying vectors or put into the hold. A/c identity and routeing subsequently confirmed by Manston. The pilot has been alerted and given appropriate advice.
201207336	30/06/2012	EGTT : London (FIR)	London-Gatwick - LGW	NE	D	CTA	UNKNOWN	Unknown		Infringement of the Gatwick CTA (Class D) by a C182 squawking 7000 at 2100ft. Separation lost. Traffic info and avoiding action given.	Two Gatwick inbounds had to be broken off approach plus several others were given delaying vectors or put into the hold. A/c identity and routeing subsequently confirmed by Manston. The pilot has been alerted and given appropriate advice.

201207387	02/07/2012	EGTT : London (FIR)	Compton (CPT)		A	TMA	CESSNA	Turboprop	1	Infringement of the LTMA (Class A) by a C208 at 6000ft. Standard separation maintained.	
201207414	01/07/2012	EGTT : London (FIR)	Nottingham East Midlands	8 NNE	D	CTA	PIPER	Reciprocating	1	Alleged infringement of the East Midlands CTA (Class D) by a PA28 at 2000ft. Standard separation maintained.	PA28 called requesting a Basic Service and CTR transit aspart of a VFR navex. Despite a correct readback, the PA28was observed deviating from track by 90deg and was offered navigational assistance. On clearing the CTR to the North, the pilot requested frequency change to Nottingham Radio. Pilot failed to select 7000 squawk on leaving the frequency, and was subsequently observed turning South from Nottingham at 2000ft through East Midlands CTA. Nottingham were asked to transfer the PA28 back to East Midlands Approach. By the time the pilot called on 134.175, still wearingEast Midlands 4555 squawk, the a/c had infringed CTA2. ATC training in progress.
201207476	27/06/2012	EGTT : London (FIR)	D129		G	Danger area	PIPER	Reciprocating	1	Infringement of active Danger Area D129 by a PA24 at 3000ft. A/c identified and instructed to vacate the Danger Area.	Danger Area activated for parachuting from FL130. No confliction with the para drop a/c.☐ CAA Closure: No further action taken due to elapsed time.
201207530	22/06/2012	EGTT : London (FIR)	Yeovilton		Other	Restrictedd area	BELL	Turboshaft	1	Infringement of Yeovilton RA(T) by a Bell 206.	
201207542	05/07/2012	EGTT : London (FIR)	Nottingham East Midlands	Eastern sector	D	CTR	EVEKTOR AEROTECHNIK	Reciprocating	1	Infringement of the East Midlands CTR (Class D) by an unknown a/c squawking 7000 indicating 2300ft. A/c later identified as an EV97. Traffic info given. Standard separation maintained.	Following ATC calls to Leicester and Nottingham, a call was received from the EV97. The pilot was on a cross country flight and was allegedly unaware they had entered CAS. ATC had routed a B737 in the visual circuit away from the infringer, and restricted another B737 in ILS descent untilthe EV97 left the CTR.

201207542	05/07/2012	EGTT : London (FIR)	Nottingham East Midlands	Eastern sector	D	CTR	BOEING	Turbofan	2	Infringement of the East Midlands CTR (Class D) by an unknown a/c squawking 7000 indicating 2300ft. A/c later identified as an EV97. Traffic info given. Standard separation maintained.	Following ATC calls to Leicester and Nottingham, a call was received from the EV97. The pilot was on a cross country flight and was allegedly unaware they had entered CAS. ATC had routed a B737 in the visual circuit away from the infringer, and restricted another B737 in ILS descent until the EV97 left the CTR.
201207559	05/07/2012	EGTT : London (FIR)	EGGW (LTN): London/Luton	8 E	D	CTR	SUPERMARINE	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Spitfire showing as primary contact only. Departures suspended 1-2mins. Standard separation maintained.	A/c identified on arrival. ☐ CAA Closure: Appropriate and timely action was taken by the controller as a result of this incident. No further CAA action considered practical at this time.
201207565	05/07/2012	EGTT : London (FIR)	Fairoaks	3 NE	G	Restricted area	YAKOVLEV	Reciprocating	1	Infringement of the Farnborough RA(T) by a Yak18 at 1400ft.	
201207651	07/07/2012	EGTT : London (FIR)	Gloucester-Staverton	8 NE	Other	Restricted area	ROBINSON	Reciprocating	1	Alleged infringement of Area 2 RA (T) by an R22 (AIC095/2012 refers).	A/c had booked out to the North West on a 45min detail. VDF information backed this up and pilot then reported sighting the Red Arrows Southbound. At the same time Brize had called asking if they were working the a/c and were given information on R22. Pilot was informed of the incident by telephone to the Tower after his arrival. Appropriate CAA action being taken as a result of this incident.
201207657	07/07/2012	EGTT : London (FIR)	Stansted	6 SW	D	CTR	SLINGSBY	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a Slingsby T67 (initially primary contact) squawking 5033. All departures stopped and departing a/c delayed. A/c identified Mode S details on PCAIT.	It has subsequently been revealed that the pilot omitted to switch on Mode C and had left the transponder on standby. Furthermore, bad weather and a toppled direction indicator were noted as contributory factors. Pilot has apologised.

201207661	08/07/2012	EGTT : London (FIR)	Guildford	2 N	G	Restrict ed area	MORANE SAULNIER	Reciprocating	1	Infringement of Farnborough RA(T) by an MS Rallye at 2200ft, 2nm North of Guildford. A/c identified and placed under a BS. A/c vacated the RA(T) to the Southwest.	
201207720	26/05/2012	EGTT : London (FIR)	Stansted	TMZ 2	Other	Restrict ed area	CESSNA	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a primaryonly contact. A/c believed to be a C172.	A C172 pilot later reported that after departure a fault indication suggested their transponder was not being interrogated.
201207735	05/07/2012	EGTT : London (FIR)	Luton (LUT)	NW	D	CTR	BEECH	Reciprocating	1	Infringement of the Luton CTR (Class D) by a BE36 squawking 7000. CAIT activated. Loss of separation. A/c tracked to Denham and identity confirmed.	Pilot unaware of the infringement.☐ CAA Closure: Further details provided to the pilot, including a radar picture. The pilot apologised for the incident. A lesson has been learned and appropriate advice given.
201207735	05/07/2012	EGTT : London (FIR)	Luton (LUT)	NW	D	CTR	UNKNOWN	Unknown		Infringement of the Luton CTR (Class D) by a BE36 squawking 7000. CAIT activated. Loss of separation. A/c tracked to Denham and identity confirmed.	Pilot unaware of the infringement.☐ CAA Closure: Further details provided to the pilot, including a radar picture. The pilot apologised for the incident. A lesson has been learned and appropriate advice given.
201207769	07/07/2012	EGTT : London (FIR)	EGBV : Silverstone	3.5 SE	Other	Restrict ed area	EUROCOPTER	Turboshaft	2	UK AIRPROX 2012/096 - EC135 and six YAK50s at 1500ft Silverstone Circuit (entry point for R/W21).	The AIRPROX occurred in the vicinity of the Silverstone RA(T) when the EC135 came into conflict with a formation of YAK50s which were practising their manoeuvres prior to a display at Silverstone and were not yet in contact with ATC. As the aircraft were in Class G airspace, the pilots were ultimately responsible for collision avoidance. Attributed to a non-sighting by the YAK50 formation on the boundary of the Silverstone RA(T).☐ CAA Closure: The AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB), with recommendations made to Silverstone and the YAK50 formation.

201207769	07/07/2012	EGTT : London (FIR)	EGBV : Silverstone	3.5 SE	Other	Restricted area	YAKOVLEV	Reciprocating	1	UK AIRPROX 2012/096 - EC135 and six YAK50s at 1500ft Silverstone Circuit (entry point for R/W21).	The AIRPROX occurred in the vicinity of the Silverstone RA(T) when the EC135 came into conflict with a formation of YAK50s which were practising their manoeuvres prior to a display at Silverstone and were not yet in contact with ATC. As the aircraft were in Class G airspace, the pilots were ultimately responsible for collision avoidance. Attributed to a non-sighting by the YAK50 formation on the boundary of the Silverstone RA(T). CAA Closure: The AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB), with recommendations made to Silverstone and the YAK50 formation.
201207936	13/07/2012	EGTT : London (FIR)	Syerston		G	ATZ	ROBINSON	Reciprocating	1	Infringement of the Syerston ATZ Gliding Site (Class G) by an R44 between 700ft-1000ft. Gliding site was not active at the time.	ATC observed R44 transiting the ATZ on a southerly heading over the airfield, down R/W15/33. Two way communication was not established, and no calls were heard on the radio.
201207967	14/07/2012	EGTT : London (FIR)	Luton (LUT)	BNN 3	D	CTR	SLINGSBY	Reciprocating	1	Infringement of Luton CTR (Class D) by a Slingsby T67 at 1000ft and wearing an Atlas control squawk. Loss of separation with an a/c established on 08 ILS.	Subsequent investigation revealed the pilot was required to change route due to unexpected weather. The pilot had intended to fly Denham - WCO but had to change to Denham - BNN - WCO due to low cloud. This change of route and additional workload of having to contact Atlas to change squawk resulted in the a/c proceeding beyond BNN before turning to WCO. The pilot had contacted Atlas control whilst approaching the CTR boundary, leaving no time for the controller to prevent the infringement. The pilot subsequently apologised for the infringement and is fully briefed on his mistake.
201207967	14/07/2012	EGTT : London (FIR)	Luton (LUT)	BNN 3	D	CTR	OTHER	Unknown		Infringement of Luton CTR (Class D) by a Slingsby T67 at 1000ft and wearing an Atlas control squawk. Loss of separation with an a/c established on 08 ILS.	Subsequent investigation revealed the pilot was required to change route due to unexpected weather. The pilot had intended to fly Denham - WCO but had to change to Denham - BNN - WCO due to low cloud. This change of route and additional workload of having to contact Atlas to change squawk resulted in the a/c proceeding beyond BNN before turning to WCO. The pilot had contacted Atlas control whilst approaching the CTR boundary, leaving no time for the controller to prevent the infringement. The pilot subsequently apologised for the infringement and is fully briefed on his mistake.
201208035	15/07/2012	EGTT : London (FIR)	Earls Colne	10SW	Other	Restricted area	STRIPLIN	Reciprocating	1	Infringement of Restricted Area R112 by a Skyranger squawking 7000.	The pilot was contacted by D&D where he stated that he had received a authorisation number prior to departure however was unable to contact Atlas when airborne due to RT loading. Atlas had attempted to make contact on 121.5 to no avail. Instead of holding or returning to landing the pilot erroneously elected to continue on his flight plan.

201208037	15/07/2012	EGTT : London (FIR)	White Waltham		Other	Restricted area	EXTRA	Reciprocating	1	Infringement of Restricted Area R112 by an Extra 300 that had been issued an authorisation code prior to departure, however the pilot failed to contact Atlas control.	The a/c departed White Waltham squawking the circuit code and continued routing with the squawk displayed.
201208038	15/07/2012	EGTT : London (FIR)	Fairoaks	3 E	A	Prohibited area	CESSNA	Reciprocating	1	Infringement of Prohibited Zone P111 by a C182 departing Fairoaks.	CAA Closure: <input type="checkbox"/> No action taken. Closed due to elapsed time.
201208039	14/07/2012	EGTT : London (FIR)	Billingshurst	10	Other	Restricted area	ROBINSON	Reciprocating	1	Infringement of Restricted Area R112 by a R44 that was squawking 7000 with no flight plan, no authorisation code and without establishing contact with Atlas Control.	Pilot instructed to return to base, which was complied with. Appropriate CAA action is being taken as a result of this incident.
201208057	16/07/2012	EGTT : London (FIR)	Isle of Man (IOM)	1nm W	D	CTR	AEROSPATIALE	Turboshaft	1	Infringement of the Isle of Man CTR (Class D) by an AS350. Standard separation maintained.	ATC alleged AS350 had called repeatedly and had been asked to standby and remain outside of CAS. Pilot was advised of infringement and had allegedly expressed surprise, believing they had been clear of CAS at low level.
201208114	17/07/2012	EGTT : London (FIR)	EGBB (BHX): Birmingham	2.2 W	D	CTA	DIAMOND	Reciprocating	1	Infringement of the Birmingham CTA2 (Class D) by a DA40 squawking 0260 at 2500ft. Separation lost. Traffic info and avoiding action given.	CAA Closure: The DA40 pilot was new to the type and allowed all his concentration to become focussed on flying the a/c rather than remaining outside CAS as instructed by ATC.

201208114	17/07/2012	EGTT : London (FIR)	EGBB (BHX): Birmingham	2.2 W	D	CTA	UNKNOWN	Unknown		Infringement of the Birmingham CTA2 (Class D) by a DA40 squawking 0260 at 2500ft. Separation lost. Traffic info and avoiding action given.	CAA Closure: The DA40 pilot was new to the type and allowed all his concentration to become focussed on flying the a/c rather than remaining outside CAS as instructed by ATC.
201208182	17/07/2012	EGTT : London (FIR)	R444		G	Restrict ed area	SOCATA	Reciprocating	1	Infringement of R444 by a Socata TB9 at 400ft. Poor weather conditions.	Pilot changed his planned route during flight due to deteriorating weather conditions. Pilot then lost sight of the coastline and so descended to maintain VMC. Simultaneously, pilot lost contact with Scottish ATC. Pilot then turned Northeast, hoping to reach the coast near Morecambe but, when the power station became visible, pilot realised that he had infringed R444. VHF contact was re-established and a/c guided by ATC in improving weather.☐ CAA Closure: Subject to investigation by Norwegian Authority.
201208189	18/07/2012	EGTT : London (FIR)	NUGRA		A	CTA	PIPER	Reciprocating	1	Infringement of the Daventry CTA (Class A) by a PA32 squawking 0240 with Mode C indicating 4600ft and up to 4700ft. CAIT activated. A/c identified from Mode S. Standard separation maintained.	LISTO departures off Manchester were stopped due to close proximity to the SID.
201208193	18/07/2012	EGTT : London (FIR)	R005		Other	Restrict ed area	BEECH	Reciprocating	1	Infringement of Restricted Area R005 by a BE35 squawking 7000. The a/c was given clearance to transit D026 (Lulworth) and diverted to Exeter due to weather.	A/c also infringed the Haverfordwest ATZ (Class G) during this flight and Danger Area D012. Appropriate CAA action being taken as a result of this incident.
201208222	18/07/2012	EGTT : London (FIR)	Cheddar		D	CTA	GROB	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a Grob Tutorat FL80. Standard separation maintained.	Yeovilton ATC working the a/c.

201208224	18/07/2012	EGTT : London (FIR)	Duxford	1.5 S	G	ATZ	CESSNA	Reciprocating	1	UK AIRPROX 2012/102 - C172 and an R44 and two R22s that transited the Duxford ATZ without any contact. Helicopters working ATLAS.	
201208224	18/07/2012	EGTT : London (FIR)	Duxford	1.5 S	G	ATZ	ROBINSON	Reciprocating	1	UK AIRPROX 2012/102 - C172 and an R44 and two R22s that transited the Duxford ATZ without any contact. Helicopters working ATLAS.	
201208224	18/07/2012	EGTT : London (FIR)	Duxford	1.5 S	G	ATZ	ROBINSON	Reciprocating	1	UK AIRPROX 2012/102 - C172 and an R44 and two R22s that transited the Duxford ATZ without any contact. Helicopters working ATLAS.	
201208231	17/07/2012	EGTT : London (FIR)	Fairford	2nm N	D	CTR	CESSNA	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a C152 squawking 7000 with Mode C indicating 1000ft/1300ft. A/c identified via Mode S through Oxford Radar. Standard separation maintained.	Brize Norton contacted Kemble ATC who confirmed C152 was in contact with them. Kemble ATC informed C152 pilot of their infringement. Pilot subsequently called Brize Norton, apologised and allegedly stated they had become lost and were manoeuvring to re-establish their bearings. Appropriate advice given by Brize ATC.
201208288	21/07/2012	EGTT : London (FIR)	Farnborough	3 SE	D	CTR	BELL	Turboshaft	1	Bell 206 displaying an ATLAS squawk was observed inside the Farnborough CTR (Class D) at 1500ft. ATC contacted ATLAS and requested the a/c be transferred to Farnborough LARS.	

201208292	21/07/2012	EGTT : London (FIR)	Redhill		Other	Restricted area	CESSNA	Reciprocating	1	Infringement of Restricted Area R112 by a C172 that failed to contact ATLAS control on departure from Redhill.	A/c failed to contact ATLAS control until 11nm East of Redhill.
201208295	21/07/2012	EGTT : London (FIR)	London-Gatwick - LGW	NE	D	CTA	STAMPE	Reciprocating	1	A/c with an ATLAS control squawk observed within the Gatwick CTA (Class D) without prior coordination. ATLAS were instructed to descend the a/c below the CTA. Separation lost.	Follow up information indicates that the a/c entered the Gatwick CTA prior to contacting ATLAS. The pilot was distracted following the fitment of a new transponder. Operatorfully alerted to the incident.
201208295	21/07/2012	EGTT : London (FIR)	London-Gatwick - LGW	NE	D	CTA	BOEING	Turbofan	2	A/c with an ATLAS control squawk observed within the Gatwick CTA (Class D) without prior coordination. ATLAS were instructed to descend the a/c below the CTA. Separation lost.	Follow up information indicates that the a/c entered the Gatwick CTA prior to contacting ATLAS. The pilot was distracted following the fitment of a new transponder. Operatorfully alerted to the incident.
201208298	21/07/2012	EGTT : London (FIR)	Stansted		D	CTR	PIPER	Reciprocating	1	Uncoordinated PA28 wearing an ATLAS squawk observed within the Stansted CTA and CTR (Class D) at 2000ft. Avoiding action issued to a B737 and departures stopped. Separation lost.	Flight Instructor became distracted when his student pilot became airsick shortly into the flight. Flight plan abandoned and a return to base initiated, however, due to a westerly wind and the increased anxiety of his student, the FI infringed CAS. The FI has been fully debriefed by the CF1 and Head of Training and the appropriate lessons appear to have been learnt.
201208298	21/07/2012	EGTT : London (FIR)	Stansted		D	CTR	BOEING	Turbofan	2	Uncoordinated PA28 wearing an ATLAS squawk observed within the Stansted CTA and CTR (Class D) at 2000ft. Avoiding action issued to a B737 and departures stopped. Separation lost.	Flight Instructor became distracted when his student pilot became airsick shortly into the flight. Flight plan abandoned and a return to base initiated, however, due to a westerly wind and the increased anxiety of his student, the FI infringed CAS. The FI has been fully debriefed by the CF1 and Head of Training and the appropriate lessons appear to have been learnt.

201208300	21/07/2012	EGTT : London (FIR)	Stansted	15 NE	A	Restricted area	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) and Restricted Area R112 by a PA32 at 4000ft. Standard separation maintained.	
201208301	20/07/2012	EGTT : London (FIR)	Luton (LUT)		Other	Restricted area	CESSNA	Reciprocating	1	Infringement of Restricted Area R112 by a C182 squawking 7000.	Appropriate CAA action being taken as a result of this incident.
201208309	22/07/2012	EGTT : London (FIR)	London-Gatwick - LGW	E	D	Restricted area	CESSNA	Reciprocating	1	Infringement of the Gatwick CTA (Class D) and Restricted Area R112 by a C152 at 2100ft. ATLAS control established comms with the a/c and an ATLAS squawk was assigned.	Believed solo student. Appropriate follow up action taken.
201208311	22/07/2012	EGTT : London (FIR)	Stansted		D	Restricted area	OTHER	Reciprocating	1	Infringement of Stansted CTR (Class D), Restricted Area R112 and an over flight of Earls Colne ATZ by a Savannah microlight. Significant delay and disruption caused to a/c inbound to Stansted.	Appropriate CAA follow up action is being taken as a result of this infringement.
201208326	22/07/2012	EGTT : London (FIR)	Farnborough		D	Restricted area	CESSNA	Reciprocating	1	Infringement of Farnborough CTA (Class D) and Restricted Area R112 by a C172 at 2000ft squawking 7000. ATLAS contacted Farnborough ATC and agreement was made to allow the a/c to continue.	

201208371	23/07/2012	EGTT : London (FIR)	Farnborough	5 S	D	CTA	PILATUS	Turboprop	1	Infringement of the Farnborough CTR (T) (Class D) by a PC12 squawking an ATLAS code at 2000ft. ATLAS had been instructed to keep the a/c outside of the CTR. Departures stopped.	Farnborough coordinator was notified that the a/c would be calling to transit the CTR. ATLAS were asked to keep the a/c outside of the CTR initially. When the a/c was 1nm inside the CTR the pilot called Farnborough ATC.
201208439	24/07/2012	EGTT : London (FIR)	Manchester (MCT)	10 SW	D	CTA	ENSTROM	Reciprocating	1	Infringement of the Manchester CTA (Class D) by an Enstrom tracking southbound. A/c had been operating in the LLR. Standard separation maintained.	Pilot apologised for his error.
201208462	24/07/2012	EGTT : London (FIR)	Unknown	5111N0002 6E	Other	Restricted area	ROBINSON	Reciprocating	1	Infringement of Restricted Area R112 by a R44 that was airborne outside of the allocated slot. A/c instructed to return to departure location however the a/c allegedly continued to destination.	
201208475	24/07/2012	EGTT : London (FIR)	Winsford	2nm E	D	CTR	CIRRUS	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a Cirrus SR20. ATC informed pilot of the infringement. Pilot apologised.	Pilot later reported they had been heading Southbound through low level corridor, had entered a route on GPS and selected the A/P NAV function for a/c to follow the route. Pilot stated they should have activated the route when further South, where they wouldn't have been as near to the edge of the corridor boundary and, should have decreased the map range on the MFD which would have aided them in knowing their position more accurately.
201208484	24/07/2012	EGTT : London (FIR)	Church Fenton	1.5nm W	G	ATZ	CESSNA	Reciprocating	1	Infringement of the Church Fenton ATZ (Class G) by a C182 squawking 7010, indicating 1600ft. A/c had departed Sherburn North instead of West, as laid down in LOA.	After landing at Bagby, pilot spoke to Linton Supervisor and allegedly admitted they did not know of the mandatory departure routes. Pilot has been rebriefed.

201208487	24/07/2012	EGTT : London (FIR)	Farnborough		D	CTR	BEECH	Reciprocating	1	Infringement of Farnborough CAS(T) CTR (Class D) by a BE36 displaying ATLAS squawk 1601. Separation lost with an inbound a/c.	BE36 observed to have climbed into the CTR before descending below the base (1500ft). ☐ CAA Closure: BE36 pilot error. Lesson learned, no further action required.
201208487	24/07/2012	EGTT : London (FIR)	Farnborough		D	CTR	UNKNOWN	Unknown		Infringement of Farnborough CAS(T) CTR (Class D) by a BE36 displaying ATLAS squawk 1601. Separation lost with an inbound a/c.	BE36 observed to have climbed into the CTR before descending below the base (1500ft). ☐ CAA Closure: BE36 pilot error. Lesson learned, no further action required.
201208499	24/07/2012	EGTT : London (FIR)	Southend (SND)	12 NE	D	CTA	JABIRU	Reciprocating	1	UK AIRPROX 2012/106 - Jabiru and a PA34, 12nm Northeast of Southend. Jabiru infringed the Southend CTA (Class D) / R112 Olympic airspace resulting in a loss of separation.	Traffic info and avoiding action given. Appropriate CAA action is being taken as a result of this incident.
201208499	24/07/2012	EGTT : London (FIR)	Southend (SND)	12 NE	D	CTA	PIPER	Reciprocating	2	UK AIRPROX 2012/106 - Jabiru and a PA34, 12nm Northeast of Southend. Jabiru infringed the Southend CTA (Class D) / R112 Olympic airspace resulting in a loss of separation.	Traffic info and avoiding action given. Appropriate CAA action is being taken as a result of this incident.
201208503	24/07/2012	EGTT : London (FIR)	Little Rissington		G		OTHER	Reciprocating	1	Infringement of Little Rissington airspace (Class G) by a microlight at 600ft. Potential conflict with a military a/c on a reciprocal course climbing through 600ft.	Both a/c altered course to the right. Military a/c was on a training sortie and observed the microlight at 600ft. After altering course to the right the microlight flew through the Little Rissington circuit, descended and turned left under the military a/c before departing to the Southeast. The duty instructor confirmed visual but no radio comms. Brize Norton Radar were contacted, but stated that they also had no contact with the microlight.

201208503	24/07/2012	EGTT : London (FIR)	Little Rissington		G		OTHER	Unknown		Infringement of Little Rissington airspace (Class G) by a microlight at 600ft. Potential conflict with a military a/c on a reciprocal course climbing through 600ft.	Both a/c altered course to the right. Military a/c was on a training sortie and observed the microlight at 600ft. After altering course to the right the microlight flew through the Little Rissington circuit, descended and turned left under the military a/c before departing to the Southeast. The duty instructor confirmed visual but no radio comms. Brize Norton Radar were contacted, but stated that they also had no contact with the microlight.
201208511	24/07/2012	EGTT : London (FIR)	Brize Norton	8 SE	D	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by an unknown a/c squawking 7000 at 2400ft. A/c identified through Oxford ATC as a Robin 400. Standard separation maintained.	The pilot subsequently contacted Brize Norton ATC to apologise, allegedly stating they had misdialled the Brize Norton frequency. Brize Norton ATC informed pilot that in theevent of no radio contact they should avoid the CTR.
201208535	19/07/2012	EGTT : London (FIR)	Southend (SND)	CTA 1	D	CTA	CESSNA	Reciprocating	1	Infringement of Southend CAS(T) CTA (Class D) by a Cessna206 with an ATLAS squawk at 3200ft. Southend ATC contacted ATLAS who transferred the a/c for transit.	After transit the a/c was transfered back to ATLAS.
201208552	24/07/2012	EGTT : London (FIR)	Danger Area D202		G	Danger area	CYCLONE AIRSPORTS	Reciprocating	1	Infringement of Danger Area EG D202 (West Wales) by a Quik GT450. RPAs trial activity in D202C. Several blind transmissions were made with no response.	Pilot was contacted after the flight and believed that he had not infringed the DA. He was navigating with a quarter mil topo and there is some question as to whether EGD202 was marked on it. The pilot was routing to Haverfordwest and penetrated D202 without a clearance. He was not working any ATC agency and had thought that his planned flight remained clear of D202, however he had plotted a route from Lampeter direct to Haverfordwest and this just clips the edge of D202. The root cause of this incident was thus navigation error and lack of pre-flight planning.☐ CAA Closure: The pilot was debriefed and a full explanation was given as to the unique nature of the airspace. The pilot seemed to now understand the airspace explanation given and was reminded to make full use of the services of Aberporth. A general educational policy to GA traffic exists within the Aberporth Airports Safety Plan 2012-2013.
201208569	24/07/2012	EGTT : London (FIR)	Isle Of Wight	Yarmouth	D	CTA	DENNEY	Reciprocating	1	Infringement of Solent CTA (Class D) by an unknown a/c at2500ft squawking 7000. Blind calls made without response.A/c later identified as a Denney Kitfox. Standard separation maintained.	Southampton ATC contacted Bournemouth ATC who identified infringer. Denney Kitfox left CAS shortly afterwards but did not contact Solent.

201208575	24/07/2012	EGTT : London (FIR)	Goodwood (GWC)	6.5 N	D	CTA	VANS	Reciprocating	1	Infringement of Farnborough Temporary Controlled airspace(Class D) by a RV7 at 3000ft, 6.5 North of Goodwood. Standard separation maintained.	
201208582	22/07/2012	EGTT : London (FIR)	Netheravon	NE	D	CTA	CESSNA	Reciprocating	1	Alleged infringement of CAS(T) SW CTA5 by a C172 at 3800ft, Northeast of Netheravon.	
201208583	22/07/2012	EGTT : London (FIR)	Farnborough CAS(T) 12B		D	CTA	BELLANCA	Reciprocating	1	Infringement of the Farnborough CAS(T) CTA 12B by a Champion 8KCAB at 4000ft resulting in a loss of separation against a Saab 2000. Several blind calls made with no response.	The pilot admitted he was not aware of the temporary restrictions in place. The incident was thus caused by an omission in pre flight planning and preparation. ☐ CAA Closure: Pilot and instructional staff at the organisation have conducted a thorough analysis of the event and have taken appropriate steps to mitigate any future occurrences.
201208583	22/07/2012	EGTT : London (FIR)	Farnborough CAS(T) 12B		D	CTA	SAAB	Turboprop	2	Infringement of the Farnborough CAS(T) CTA 12B by a Champion 8KCAB at 4000ft resulting in a loss of separation against a Saab 2000. Several blind calls made with no response.	The pilot admitted he was not aware of the temporary restrictions in place. The incident was thus caused by an omission in pre flight planning and preparation. ☐ CAA Closure: Pilot and instructional staff at the organisation have conducted a thorough analysis of the event and have taken appropriate steps to mitigate any future occurrences.
201208594	23/07/2012	EGTT : London (FIR)	Brecon (BCN)	2 N	A		CESSNA	Reciprocating	1	Infringement of Airway N864 (Class A) by a C152 at 6000ft. Standard separation maintained.	ATC contacted C152 and gave the a/c the Cardiff QNH and a squawk. ATC advised pilot that base of CAS was 5500ft andasked if pilot could accept IFR clearance to continue inside CAS. Pilot allegedly stated they could but their "nav kit" was out of order and requested navigation assistance if required. ATC gave pilot IFR clearance. Pilot's navigation subsequently took them outside CAS.

201208610	25/07/2012	EGTT : London (FIR)	Luton (LUT)				CESSNA	Reciprocating	1	A/c squawking 7000 appeared in the Luton CTR. Two inbounda/c affected.	A/c turned back and started to orbit just left on the centreline where it was accompanied by another a/c squawking 0000. Tower and Atlas confirmed nothing seen by them. Cranfield Approach contacted and were found to be working the 'infringer'. Through them, squawk of 4670 was allocated which was observed. As this a/c recovered to Cranfield, it towed its companions away from the final approach and eventually out of the CTR. Investigation under 201208501.
201208637	26/07/2012	EGTT : London (FIR)	Church Fenton		G	ATZ	PIPER	Reciprocating	1	Infringement of the Church Fenton ATZ (Class G) by a PA28.	
201208683	27/07/2012	EGTT : London (FIR)	Birmingham	10 S	D	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA2 (Class D) by a C152 squawking 0010 indicating 2500ft. B737 was given avoiding action heading 360deg to maintain separation.	Inbound traffic broken-off approach to maintain separation. C152 was wearing '0010' the Birmingham ATC Monitoring Code. A/c identified by ATC. Follow-up by ATC determined that pilot had mis-set the DI. ☐ CAA Closure: Pilot and their instructor fully debriefed and proactive measures taken at the Flying Club including a visit to the ATC unit.
201208683	27/07/2012	EGTT : London (FIR)	Birmingham	10 S	D	CTA	BOEING	Turbofan	2	Infringement of the Birmingham CTA2 (Class D) by a C152 squawking 0010 indicating 2500ft. B737 was given avoiding action heading 360deg to maintain separation.	Inbound traffic broken-off approach to maintain separation. C152 was wearing '0010' the Birmingham ATC Monitoring Code. A/c identified by ATC. Follow-up by ATC determined that pilot had mis-set the DI. ☐ CAA Closure: Pilot and their instructor fully debriefed and proactive measures taken at the Flying Club including a visit to the ATC unit.
201208714	28/07/2012	EGTT : London (FIR)	Coventry		D	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA-8 (Class D) at 3000ft in the Coventry area by a C152 squawking 7000.	The C152 departed Gloucestershire, climbed to 3000ft and set a course to the East. Approximately 5nm before DTY the course of the C152 veered to the left and continuing in a northerly direction, the C152 eventually infringed Birmingham CTA-8 at 3000ft before adjusting its course back to Sywell where it eventually landed. During the flight the C152 was observed to be in contact with London Information (having selected Mode A 1177). The C152 reported on frequency as "a C152 from Gloucestershire to Sywell, overhead Banbury at 2.5 feet, QNH 1010, ETA Sywell at 05." The C152 callsign was prefixed "Student". At 1510:18 the FISO called "Student FM" and requested altitude and position, which was given as altitude of 2400ft and that he was about 40 East of Banbury. (The a/c was, at the time 3.5 NW of DTY). At 1518:25 the C152 requested to transfer to Sywell Information on 122.7 and was told to squawk 7000. The C152 was now 10nm North of DTY. The CFI reported authorising a Qualifying Cross Country flight including a land-away at Gloucester and Sywell. Upon return the student was debriefed and recalled that having turned at Banbury he realised that he was right of track so corrected with a left turn - to what extent the student could not recall. The student's next recollection was of fixing his position near Rugby and turning to Sywell. The CFI undertook to request that the student complete the online infringement questionnaire.☐ CAA Closure: No further CAA action at this time.

201208718	28/07/2012	EGTT : London (FIR)	Birmingham	8 S	D	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) twice by a PA28. Separation lost. Traffic info given. Delays to inbound commercial traffic.	Appropriate CAA action is being taken as a result of thisincident.
201208718	28/07/2012	EGTT : London (FIR)	Birmingham	8 S	D	CTR	FOKKER	Turboprop	2	Infringement of the Birmingham CTR (Class D) twice by a PA28. Separation lost. Traffic info given. Delays to inbound commercial traffic.	Appropriate CAA action is being taken as a result of thisincident.
201208763	30/07/2012	EGTT : London (FIR)	Compton (CPT)	S	A	CTA	OTHER	Reciprocating	1	Infringement of Area 7 Olympic CAS-T Airspace (Class D) by a Pioneer 300 Hawk. A/c indicating 4400ft on a 7000 squawk. Blind calls made but with no response. Standard separation maintained.	
201208774	26/07/2012	EGTT : London (FIR)	Manston		D	CTR	JABIRU	Reciprocating	1	Infringement of the Manston CTR (Class D) by a Jabiru. Standard separation maintained. London FIR were working the a/c but had poor communication with it.	
201208790	30/07/2012	EGTT : London (FIR)	Compton (CPT)	S	D	CTA	CESSNA	Reciprocating	1	Infringement of the Farnborough CAS(T) (Class D) by a C152 squawking 1515 at an indicated 2700ft. Traffic info and avoiding action given. Standard separation maintained.	

201208790	30/07/2012	EGTT : London (FIR)	Compton (CPT)	S	D	CTA	CANADAIR	Turbofan	2	Infringement of the Farnborough CAS(T) (Class D) by a C152 squawking 1515 at an indicated 2700ft. Traffic info and avoiding action given. Standard separation maintained.	
201208800	30/07/2012	EGTT : London (FIR)	Southampton (SAM)	7 E	D	CTR	BOLKOW	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a Bolkow209 squawking 7000 at 2000ft. Traffic info given. DHC8 established on ILS at 8nm was turned right heading 290 and descent stopped.	A/c identity was established after blind calls were made.☐ ☐ CAA Closure: Pilot experienced issues with his GPS and, by the time he had realised that the GPS was faulty, the infringement had occurred. Following this incident, pilot intends to ensure that both the GPS and magnetic headings are regularly checked.
201208800	30/07/2012	EGTT : London (FIR)	Southampton (SAM)	7 E	D	CTR	DE HAVILLAND	Turboprop	2	Infringement of the Southampton CTR (Class D) by a Bolkow209 squawking 7000 at 2000ft. Traffic info given. DHC8 established on ILS at 8nm was turned right heading 290 and descent stopped.	A/c identity was established after blind calls were made.☐ ☐ CAA Closure: Pilot experienced issues with his GPS and, by the time he had realised that the GPS was faulty, the infringement had occurred. Following this incident, pilot intends to ensure that both the GPS and magnetic headings are regularly checked.
201208815	26/07/2012	EGTT : London (FIR)	Syerston		E	ATZ	OTHER	Reciprocating	1	Infringement of the active RAF Syerston ATZ by 2 flexiwing microlights in formation.	
201208914	28/07/2012	EGTT : London (FIR)	Panshanger		Other	Restricted area	DE HAVILLAND	Reciprocating	1	Infringement of Olympic airspace R112 by a Chipmunk.	Appropriate action is being taken as a result of this incident.

201208935	28/07/2012	EGTT : London (FIR)	Whitstable		D	CTR	PIPER	Reciprocating	1	Infringement of the Manston CTR / CAS(T) (Class D) by a PA28 at 1600ft squawking 7000. Standard separation maintained.	Pilot subsequently advised ATC that he had been having communication difficulties with ATLAS control and had becomedistracted, resulting in an inadvertent entry into the CTR.
201208948	29/07/2012	EGTT : London (FIR)	Manston	NW	D	CTR	SOCATA	Reciprocating	1	Infringement of the Manston CTR (Class D) by a TB10. Standard separation maintained.	When advised that they had entered the CTA/CTR without clearance the pilot responded that he had filed a flight plan. Pilot reminded that a specific clearance is still required to enter CAS.
201208986	01/08/2012	EGTT : London (FIR)	Compton (CPT)	SE	D	CTA	CESSNA	Reciprocating	1	Infringement of Farnborough CAS(T) (Class D) Area 8 by a C152. Standard separation maintained.	
201209138	04/08/2012	EGTT : London (FIR)	Benson	5 S	D	CTR	SUPERMARINE	Reciprocating	1	Infringement of Farnborough CAS T CTR (Class D) by a Spitfire at 3000ft. ATLAS control were not working the a/c.	
201209266	27/07/2012	EGTT : London (FIR)	Headcorn / Lashenden	SW	Other	Restrict ed area	ROBINSON	Reciprocating	1	Infringement of Restricted Area R112 by an R44.	Appropriate CAA action is being taken as a result of thisincident.

201209271	04/08/2012	EGTT : London (FIR)	Canterbury		D	CTR	PIPER	Reciprocating	1	Infringement of the Manston CTR (Class D) by a PA28 at 2300ft squawking 1545. Standard separation maintained.	Pilot notified of the infringement and advised that a clearance is required to enter CAS.
201209272	20/03/2012	EGTT : London (FIR)	Shawbury (SWB)		G	ATZ	CESSNA	Reciprocating	1	Infringement of the Shawbury ATZ (Class G) by a C152. CFIconcerned contacted and incident discussed. The a/c was checked and the compass appeared not be to be aligned.	Student pilot involved.
201209313	03/08/2012	EGTT : London (FIR)	Cockerham		G		CESSNA	Reciprocating	1	Infringement of the active Cockerham Parachute Drop Zone (Class G) by a C172 at 2000ft.	The weather was VMC with good visibility. No radio comms were made between C172 and Cockerham control on frequency 129.900. Parachuting a/c was airborne and on the jump run at the time of the infringement. Blackpool ATC informed.
201209325	08/08/2012	EGTT : London (FIR)	Southend (SND)	12 NW	Other	Restrict ed area	CESSNA	Reciprocating	1	Infringement of Restricted Area R112 by a C152 squawking 7000.	Appropriate CAA action to be taken as a result of this incident.
201209383	09/08/2012	EGTT : London (FIR)	R112		Other	Restrict ed area	OTHER	Reciprocating	1	Infringement of Restricted Area R112 by a Pioneer 300.	Appropriate CAA action to be taken as a result of this incident.

201209385	09/08/2012	EGTT : London (FIR)	Southend (SND)	3 E	Other	Other	CESSNA	Reciprocating	1	Infringement of Restricted Area R112 and Southend CTR (Class D) by a C177.	Appropriate CAA action to be taken as a result of this incident.
201209401	09/08/2012	EGTT : London (FIR)	Henley on Thames	Luxters Farm	Other	Other	OTHER	Reciprocating	1	Infringement of restricted Area R112 by a microlight.	
201209481	11/08/2012	EGTT : London (FIR)	Bournemouth	15 N	A	CTA	BEECH	Reciprocating	1	Infringement of the SW CTA5 (Class A) by a BE35 at 4500ftsquawking 7000. Traffic info given. Standard separation maintained.	
201209490	12/08/2012	EGTT : London (FIR)	Honiley (HON)	6 SE	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by an R44. Standard separation maintained. Pilot had been told to remain outside of CAS.	
201209496	09/08/2012	EGTT : London (FIR)	Bristol International	12 SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a PA28. Standard separation maintained.	The pilots report states that approximately 15nm SW of Lyneham he noticed that the DI had precessed 20deg. Unable to verify position he decided to abandon the flight and turned N looking for Bath as reference point. He saw Bath approximately 8kms to NW and assumed (wrongly) that he was clear of Bristol CTA. He was on the Compton Abbas frequency at this time. He continued N, saw Bristol City and contacted Filton who advised him that he had infringed. He checked his DI during the remainder of flight and noticed minor variations, but no major precession. He has learnt from this incident that he should have asked for a DI check. He must ensure more frequent monitoring of his DI, particularly in marginal conditions. He will also determine to make contact with nearest major airfield asap when lost.

201209522	11/08/2012	EGTT : London (FIR)	R112	S	Other	Restricted area	CIRRUS	Reciprocating	1	Infringement of Restricted Area R112 by a Cirrus SR22.	A/c departed Fair Oaks under a Basic Service. Flight plan route showed a/c departing R112 to the South and then tracking Northeast towards Lydd. As the a/c approached the edge of R112, it was instructed to squawk 7000 and free call on route. A/c then observed inside R112 squawking 7000 tracking East direct towards Lydd and within R112. Controller attempted to re-gain comms but the a/c was unobtainable. Supervisor also attempted to contact the a/c on 121.5.
201209559	11/08/2012	EGTT : London (FIR)	Liverpool		D	CTA	RUTAN	Reciprocating	1	Infringement of the Liverpool CTA (Class D) by a LongEz. Standard separation maintained.	
201209578	13/08/2012	EGTT : London (FIR)	KENET	6 NW	A	Other	GROB	Reciprocating	1	Infringement of Airway L9 (Class A) by a Grob G115 squawking 7000 with Mode C readout of FL73. Standard separation maintained.	CAA Closure: No further action possible due to elapsed time.
201209583	12/08/2012	EGTT : London (FIR)	Salisbury	3 S	Other	Restricted area	GRUMMAN	Reciprocating	1	Infringement of the SW CTA5 CAS(T) by a Grumman AA5.	
201209612	08/08/2012	EGTT : London (FIR)	EGDM : Boscombe down		Other	Danger area	PIPER	Reciprocating	1	Infringement of active Danger Area EGD 123 (Boscombe Down) by a PA28 squawking 7000 at 1500ft.	Transponder trace resulted in the a/c being traced to Wolverhampton, who subsequently confirmed identity of the a/c.☐ CAA Closure: Pilot very apologetic having misunderstood Danger Area procedures, incorrectly believing that Bournemouth ATC would have cleared him through.

201209618	11/08/2012	EGTT : London (FIR)	EGTK (OXF): Oxford/Kidlington		G	ATZ	DIAMOND	Reciprocating	1	Alleged infringement of the Oxford ATZ (Class G) by a HK36 squawking 7000 at approx 2000ft. No Mode C displayed.	Pilot was also believed to have infringed the Brize CTR (Class D). CAA Closure: No positive evidence of infringement presented.
201209634	14/08/2012	EGTT : London (FIR)	ORIST		A		CIRRUS	Reciprocating	1	Infringement of Airway Q41 (Class A) by an SR20. It appears that the pilots chart did not have this Airway marked. Standard separation maintained.	
201209636	03/08/2012	EGTT : London (FIR)	EGBB (BHX): Birmingham	N	D	CTA	CESSNA	Reciprocating	1	Late transfer of IFR transit C177 and subsequent infringement of the Birmingham CTA 8 (Class D).	By the time the a/c called, having previously worked EastMidlands, it was 2nm inside CAS. Once the a/c was identified it was given a squawk and an immediate turn to remain outside CAS. An inbound a/c was given further descent when the C177 was clear. ATC subsequently spoke to the pilot on the phone, he realised he was approaching Birmingham airspace and questioned East Midlands if they were handing him over, they then told him to free call and he was not cleared in. This surprised the pilot who thought as he was flying IFR he would be handed over.
201209636	03/08/2012	EGTT : London (FIR)	EGBB (BHX): Birmingham	N	D	CTA	BOEING	Turbofan	2	Late transfer of IFR transit C177 and subsequent infringement of the Birmingham CTA 8 (Class D).	By the time the a/c called, having previously worked EastMidlands, it was 2nm inside CAS. Once the a/c was identified it was given a squawk and an immediate turn to remain outside CAS. An inbound a/c was given further descent when the C177 was clear. ATC subsequently spoke to the pilot on the phone, he realised he was approaching Birmingham airspace and questioned East Midlands if they were handing him over, they then told him to free call and he was not cleared in. This surprised the pilot who thought as he was flying IFR he would be handed over.
201209656	15/08/2012	EGTT : London (FIR)	EGR 112		Other	Restricted area	ROBINSON	Reciprocating	1	Infringement of EG R112 by an R44 (believed).	

201209664	15/08/2012	EGTT : London (FIR)	Sheerness	15 S	Other	Restricted area	CESSNA	Reciprocating	1	Infringement of Restricted Area R112 by a C152 squawking 7000. Attempts to contact the a/c on 121.5 unsuccessful.	A/c subsequently changed to a Southend squawk and was identified by Southend ATC. It was ascertained that a flight plan existed for the route flown and within the timeframe.
201209670	15/08/2012	EGTT : London (FIR)	EGBW : Wellesbourne mountford	5 N	D	CTA	THRUSTER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a Thruster T-600N at 1800ft. Standard separation maintained.	Pilot had been told to remain outside CAS and that he may be refused entry into the zone if they could not positively identify him. □ CAA Closure: No further action taken due to elapsed time.
201209694	16/08/2012	EGTT : London (FIR)	Leicester	3-4 NE	D	CTA	PITTS	Reciprocating	1	Infringement of the East Midlands CTA (Class D) by a Pitts Special and a Slingsby T67 flying in formation squawking 7000 at 5000ft. Traffic info and avoiding action given. Separation lost with B737.	The two a/c were flying on a 1 hour photographic detail and planned to operate to the S and SE of Leicester Airport at approximately 3000ft, remaining clear of CAS. A build-up of cumulus cloud had caused the two a/c to operate at a higher level than planned. This together with the strong southerly wind and distraction of air to air photography, led to a lack of situational and positional awareness. The two a/c drifted further N than expected, resulting in the unplanned infringement of the East Midlands CTA-15. The pilots have apologised. CAA Closure: This was the first time that the pilots had conducted air to air photography and in future they intend to pay greater attention to pre-planning and briefing, in order to safeguard against a re-occurrence of any similar situation.
201209694	16/08/2012	EGTT : London (FIR)	Leicester	3-4 NE	D	CTA	SLINGSBY	Reciprocating	1	Infringement of the East Midlands CTA (Class D) by a Pitts Special and a Slingsby T67 flying in formation squawking 7000 at 5000ft. CAA Closure: This was the first time that the pilots had conducted air to air photography and in future they intend to pay greater attention to pre-planning and briefing, in order to safeguard against a re-occurrence of any similar situation.
201209727	16/08/2012	EGTT : London (FIR)	Stansted	SW	Other	Other	BELL	Turboshaft	1	Infringement of the Stansted TMZ 2 (Class G) by a Bell 206 (initially unknown) at 1400ft. Investigation under 201207537.	After tracking in a South East direction, the helicopter changed to a Southend squawk. Pilot called later to say he was sure his transponder was squawking Mode A and C and that they were at 1400ft.

201209728	16/08/2012	EGTT : London (FIR)	London-Heathrow - LHR	15 NE	Other	Restricted area	PIPER	Reciprocating	1	Infringement of P114 by a PA28 at 2000ft squawking 7000. Standard separation maintained.	Appropriate action is to be taken as a result of this incident.
201209771	17/08/2012	EGTT : London (FIR)	P114		Other	Restricted area	GRUMMAN	Reciprocating	1	Infringement of Restricted airspace P114 by an AA1. Standard separation maintained.	
201209780	17/08/2012	EGTT : London (FIR)	P114		Other	Restricted area	CESSNA	Reciprocating	1	Infringement of P114 Restricted Zone by a C185. Standard separation maintained.	
201209781	17/08/2012	EGTT : London (FIR)	London-Gatwick - LGW	5-6 NE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by a C172 squawking 3767 with Mode C indicating 1100ft. CAIT activated. Traffic info given. Two losses of separation occurred witha/c established on R/W26L.	C172 departed from R/W18 at Redhill. Pilot has been alerted and appropriate action has been taken.
201209781	17/08/2012	EGTT : London (FIR)	London-Gatwick - LGW	5-6 NE	D	CTR	UNKNOWN	Unknown		Infringement of the Gatwick CTR (Class D) by a C172 squawking 3767 with Mode C indicating 1100ft. CAIT activated. Traffic info given. Two losses of separation occurred witha/c established on R/W26L.	C172 departed from R/W18 at Redhill. Pilot has been alerted and appropriate action has been taken.

201209786	17/08/2012	EGTT : London (FIR)	Bath		D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Bristol CTA (Class D) by a DR400 squawking 7000 at 3800ft. Traffic info given. Bristol inbound flights was given vectors outside CAS to go around the infringer.	Two inbound flights were vectored onto the ILS at Bristolby shortening the final approach. A/c was seen to depart to the North at about 4800ft and tracked to Gloucester where it was positively identified. Pilot later called Bristol ATC. The pilot stated that he had had no intention to fly as far South as was actually flown (and therefore did not plan to contact the ATSU). The pilot opined that, given that it was 'such a beautiful' evening, he may have becomedistracted and dropped his scan of his altimeter, thus climbing into CAS. ☐ CAA Closure: The pilot undertook to review the flight with his CFI and in addition to pre-plan contact with en route ATSUs.
201209814	18/08/2012	EGTT : London (FIR)	Stansted TMZ 1		Other	Restrictedd area	EVEKTOR AEROTECHNIK	Reciprocating	1	Infringement of the Stansted TMZ 1 (Class G) by primary only contact tracking North West bound. A/c later identified as a Eurostar.	Pilot later contacted ATC and apologised. The Eurostar had been routeing from Rayne to Sutton Meadows but pilot hadfollowed an incorrect road. ATC have sent a radar pictureto the pilot to enable pilot to compare the actual track flown against their intended track.
201209817	18/08/2012	EGTT : London (FIR)	P114		Other	Restrictedd area	GRUMMAN	Reciprocating	1	Infringement of P114 Restricted Zone and Stansted TMZ2 (Class G) by an AA5. Standard separation maintained.	Appropriate CAA action being taken as a result of this incident.
201209819	18/08/2012	EGTT : London (FIR)	P114		Other	Restrictedd area	CESSNA	Reciprocating	1	Infringement of Restricted area P114 by a C172. Standard separation maintained.	Appropriate CAA action being taken as a result of this incident.
201209820	19/08/2012	EGTT : London (FIR)	Stansted	8 NNE	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28 squawking 0201 at 1400ft. B737 CLN departure was held on the ground for 2mins. Standard separation maintained.	

201209820	19/08/2012	EGTT : London (FIR)	Stansted	8 NNE	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a PA28 squawking 0201 at 1400ft. B737 CLN departure was held on the ground for 2mins. Standard separation maintained.	
201209826	19/08/2012	EGTT : London (FIR)	Bovingdon	4.5nm W	A	TMA	GRUMMAN	Reciprocating	1	Infringement of the LTMA (Class A) 4.5nm West of Bovingdon by a Grumman AA5 with Mode C indicating 3800ft.	TC believe Luton Radar made a blind transmission without response. Investigations of radar replay indicate the pilot was aware they had vertically infringed CAS and subsequently descended asap.
201209827	18/08/2012	EGTT : London (FIR)	Nottingham East Midlands	8 E	D	CTA	VANS	Reciprocating	1	Infringement of the East Midlands CTA (Class D) by a RV6 squawking 6010 at 2800ft. Traffic info given. Separation lost with inbound B737.	It was decided that due to the speed of the infringer turning the B737 would provide no greater separation than allowing the a/c to continue on the ILS and traffic info was updated.
201209827	18/08/2012	EGTT : London (FIR)	Nottingham East Midlands	8 E	D	CTA	BOEING	Turbofan	2	Infringement of the East Midlands CTA (Class D) by a RV6 squawking 6010 at 2800ft. Traffic info given. Separation lost with inbound B737.	It was decided that due to the speed of the infringer turning the B737 would provide no greater separation than allowing the a/c to continue on the ILS and traffic info was updated.
201209828	19/08/2012	EGTT : London (FIR)	North Weald		Other	Other	BELL	Turboshaft	1	Infringement of the Stansted TMZ 2 (Class G) by a primary contact, later identified as a Bell 206. No traffic affected.	North Weald instructed a/c in the area to squawk 0207, where positive identification was obtained. Mode C also then appeared.

201209837	19/08/2012	EGTT : London (FIR)	Southampton (SAM)	7nm NE	D	CTA	UNKNOWN	Unknown		Infringement of the Southampton CTA/CTR (Class D) by a slow moving primary only contact. ATC made several blind calls without response. Traffic info given. Standard separation maintained.	C172, a transit VFR, was informed of the infringer. No other IFR inbound or outbound a/c to affect. Bournemouth andLower Upham had no known traffic. TWR were visual with infringer. The infringer continued towards Farley area and disappeared from radar contact. An a/c awaiting to depart Farley advised they had seen a low level microlight overfly.
201209837	19/08/2012	EGTT : London (FIR)	Southampton (SAM)	7nm NE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Southampton CTA/CTR (Class D) by a slow moving primary only contact. ATC made several blind calls without response. Traffic info given. Standard separation maintained.	C172, a transit VFR, was informed of the infringer. No other IFR inbound or outbound a/c to affect. Bournemouth andLower Upham had no known traffic. TWR were visual with infringer. The infringer continued towards Farley area and disappeared from radar contact. An a/c awaiting to depart Farley advised they had seen a low level microlight overfly.
201209854	16/08/2012	EGTT : London (FIR)	Eskmeals EGD406		G	Danger area	CESSNA	Reciprocating	1	Infringement of active Danger Area EGD 406 (Eskmeals) by a C182 squawking 3641 at 1100ft.	Pilot had been warned of the activity at D406 and advised to remain well clear on contacting Warton ATC. Shortly after, the C182 was observed to fly North to South over the firing battery then turned East and flew over the Range Control building. Firing battery had already checked fire due to weather.□ CAA Closure: No further action taken due to elapsed time.
201209900	19/08/2012	EGTT : London (FIR)	Little Rissington		G	ATZ	PIPER	Reciprocating	1	Infringement of Little Rissington ATZ (Class G) by a Piper J3 and possible unauthorised touchdown.	After entering overhead from the East and flying a LH pattern as if to join RW22, the a/c was observed flying along the entire length of RW22 at a height estimated to be below 50ft AGL. It was noted that a Gliding Scholarship Course was taking place between 18-28 Aug, however, although authorised no NOTAM appeared on the AIS website.□ CAA Closure: No further action taken due to elapsed time.
201209924	21/08/2012	EGTT : London (FIR)	Manchester (MCT)	14nm NE	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Manchester CTR (Class D) by an unknown a/c, with unconfirmed Mode C indicating 1600ft. A/c later identified as an R44. Standard separation maintained.	Manchester APP controller made several blind calls. R44 contacted controller and was placed on a 7350 squawk. Controller advised R44 of their infringement. R44 allegedly stated they thought they were clear of the CTR. No other traffic affected.

201209925	21/08/2012	EGTT : London (FIR)	Brookmans Park (BPK)	SE	Other	Restricted area	PIPER	Reciprocating	1	Infringement of P114 and the London City CTA (Class D) by a PA28 at 2000ft. Standard separation maintained. Traffic info given.	City departures suspended. Appropriate CAA action being taken as a result of this incident.
201209949	02/08/2012	EGTT : London (FIR)	EGVN (BZZ): Brize norton	NW	D	CTR	MOONEY	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a Mooney 20 squawking 7000 at 2100ft. Traffic info given. Standard separation maintained.	CAA Closure: No further action taken due to elapsed time.
201209949	02/08/2012	EGTT : London (FIR)	EGVN (BZZ): Brize norton	NW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a Mooney 20 squawking 7000 at 2100ft. Traffic info given. Standard separation maintained.	CAA Closure: No further action taken due to elapsed time.
201209957	21/08/2012	EGTT : London (FIR)	EGSS (STN): London/Stansted	12nm	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C172 with Mode C indicating 2000ft. A B737 and an A319, inbound to Stansted were both vectored away and delayed to ensure separation. Traffic info given.	C172 pilot later apologised stating they had become distracted by their passengers and mistook visual navigation points resulting in pilot wrongly correcting their course and subsequently infringing the Stansted CTA. Pilot received a full debrief from flying school and a later date flew a dual navigation training flight around the Stansted CTR.
201209957	21/08/2012	EGTT : London (FIR)	EGSS (STN): London/Stansted	12nm	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a C172 with Mode C indicating 2000ft. A B737 and an A319, inbound to Stansted were both vectored away and delayed to ensure separation. Traffic info given.	C172 pilot later apologised stating they had become distracted by their passengers and mistook visual navigation points resulting in pilot wrongly correcting their course and subsequently infringing the Stansted CTA. Pilot received a full debrief from flying school and a later date flew a dual navigation training flight around the Stansted CTR.

201209957	21/08/2012	EGTT : London (FIR)	EGSS (STN): London/Stansted	12nm	D	CTA	AIRBUS	Turbofan	2	Infringement of the Stansted CTA (Class D) by a C172 with Mode C indicating 2000ft. A B737 and an A319, inbound to Stansted were both vectored away and delayed to ensure separation. Traffic info given.	C172 pilot later apologised stating they had become distracted by their passengers and mistook visual navigation points resulting in pilot wrongly correcting their course and subsequently infringing the Stansted CTA. Pilot received a full debrief from flying school and a later date flew a dual navigation training flight around the Stansted CTR.
201209958	20/08/2012	EGTT : London (FIR)	Nottingham East Midlands	8nm E	D	CTA	PIPER	Reciprocating	1	Infringement of the Nottingham East Midlands CTA1 and 2 (Class D) by an unknown a/c indicating 1500ft. A/c later identified by Nottingham as a PA28. Avoiding action and traffic info given.	East Midlands ATC observed a Nottingham departure indicating 1500ft and climbing. As the unknown a/c passed 1800ft ATC gave a PA44, in descent to 2000ft, an avoiding turn and a descent stop. The unknown a/c turned East and continued to climb to 2800ft. ATC colleague telephoned Nottingham and obtained the a/c's identity. Unknown a/c called London FIS, who were contacted and asked to request that pilot contacted East Midlands ATC. Pilot subsequently apologised.
201209958	20/08/2012	EGTT : London (FIR)	Nottingham East Midlands	8nm E	D	CTA	PIPER	Reciprocating	2	Infringement of the Nottingham East Midlands CTA1 and 2 (Class D) by an unknown a/c indicating 1500ft. A/c later identified by Nottingham as a PA28. Avoiding action and traffic info given.	East Midlands ATC observed a Nottingham departure indicating 1500ft and climbing. As the unknown a/c passed 1800ft ATC gave a PA44, in descent to 2000ft, an avoiding turn and a descent stop. The unknown a/c turned East and continued to climb to 2800ft. ATC colleague telephoned Nottingham and obtained the a/c's identity. Unknown a/c called London FIS, who were contacted and asked to request that pilot contacted East Midlands ATC. Pilot subsequently apologised.
201210023	22/08/2012	EGTT : London (FIR)	Eskmeals EGD406		G	Danger area	PIPER	Reciprocating	1	Infringement of Danger Area EGD 406 (Eskmeals) from South to North by a PA28 at 2900ft.	
201210059	23/08/2012	EGTT : London (FIR)	EGSS (STN): London/Stansted	TMZ 1	G	Restricted area	CESSNA	Reciprocating	1	Infringement of the Stansted TMZ 1 (Class G) by a primary contact. Contact then changed to 0013 squawk with Mode C. A/c identified via Mode S as a C152. Traffic info given.	B737, inbound to Stansted, was vectored around the C152. The C152 left to the North of the TMZ. C152 subsequently contacted Cambridge ATC who informed the solo student pilot they had transited the TMZ as a primary. The club CFI has taken appropriate action as a result of this incident.

201210059	23/08/2012	EGTT : London (FIR)	EGSS (STN): London/Stansted	TMZ 1	G	Restricted area	BOEING	Turbofan	2	Infringement of the Stansted TMZ 1 (Class G) by a primary contact. Contact then changed to 0013 squawk with Mode C. A/c identified via Mode S as a C152. Traffic info given.	B737, inbound to Stansted, was vectored around the C152. The C152 left to the North of the TMZ. C152 subsequently contacted Cambridge ATC who informed the solo student pilot they had transited the TMZ as a primary. The club CFI has taken appropriate action as a result of this incident.
201210128	26/08/2012	EGTT : London (FIR)	Andrewsfield	2nm NW	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28 squawking 7000 with Mode C indicating 1300ft. Standard separation maintained.	The 7000 squawk was initially observed leaving the Andrewsfield area on a North-westerly track. TC contacted Andrewsfield and, after enquiries had been made, were advised they were not working the a/c. TC later observed the unknownsquawking 4575. TC contacted Southend and were advised ofthe a/c's callsign and route.
201210129	26/08/2012	EGTT : London (FIR)	Overhead Elstree		Other	Restricted area	OTHER	Reciprocating	1	Alleged infringement of Restricted Area P114 by a Pulsar squawking 7000 at 1500ft. Traffic info given.	CAA Closure: No further action taken due to elapsed time.
201210132	26/08/2012	EGTT : London (FIR)	EGGD (BRS): Bristol/Lulsgate	6 SW	D	CTA	SCHEIBE	Reciprocating	1	Infringement of the Bristol CTA (Class D) by an SF25 squawking 7000 with Mode C indicating up to 3700ft. Separation lost. Traffic info and avoiding action given.	CAA Closure: No further action taken due to elapsed time.
201210132	26/08/2012	EGTT : London (FIR)	EGGD (BRS): Bristol/Lulsgate	6 SW	D	CTA	BOEING	Turbofan	2	Infringement of the Bristol CTA (Class D) by an SF25 squawking 7000 with Mode C indicating up to 3700ft. Separation lost. Traffic info and avoiding action given.	CAA Closure: No further action taken due to elapsed time.

201210136	26/08/2012	EGTT : London (FIR)	Birmingham	12.7nm SSE	D	CTA	SOCATA	Reciprocating	1	Infringement of the Birmingham CTA-2 and CTA-5 (Class D) by an a/c squawking 7000 at 2500ft. A/c later identified as a TB10. Standard separation maintained.	ATC made blind calls without response. The a/c climbed to 3100ft and changed squawk to 1177. The a/c was transferred to frequency 118.05 and identified. Pilot later reported their attention had been focused outside the cockpit, looking out for gliders and avoiding Snitterfield, and did not give sufficient consideration to staying out of the CTA. Pilot apologised.
201210142	28/07/2012	EGTT : London (FIR)	Southend (SND)	8 ENE	D	Restricted area	CYCLONE AIRSPORTS	Reciprocating	1	Infringement of the Restricted Area R112 and Southend CTR(Class D) by a Quantum microlight at 1800ft.	Pilot had earlier suffered electrical problems and after contacting D&D had to continue his journey by map only. Pilot apologised but did not seem aware of the Southend CAS (T) CTR/CTA. On being asked about the Danger Areas to the East of Southend he had been informed by his operations that if they were active he could fly under the areas below 3500ft. He reported that he had been flying at 1800ft and it is likely that he infringed the CTA also, base at 1500ft.
201210146	26/08/2012	EGTT : London (FIR)	North Weald				POBEREZNY	Reciprocating	1	Infringement of Stansted TMZ 2 (Class G). Mode C transponder not working, pilot not aware.	The pilot believed that the Mode C was working. Once ATC communication was established the pilot recycled squawk and turned the transponder off and on which did not rectify the problem. ATC advised the pilot to get the transponder checked by maintenance.
201210169	23/08/2012	EGTT : London (FIR)	Shoeburyness		G	Danger area	OTHER	Reciprocating	1	Infringement of Danger Area EGD 138 (Shoeburyness) by an unknown microlight.	Microlight flew over Danger Area EGD 138 shortly after range activity had ceased. Southend ATC had no communication with the microlight and no identity was obtained.
201210237	18/08/2012	EGTT : London (FIR)	EGHR (QUG): Chichester/Goodwood	1.5 N	G	ATZ	AVIONS ROBIN	Reciprocating	1	UK AIRPROX 2012/128 - DR400 in the circuit at 1250ft piloted by a solo student and a PA28 1.5nm Goodwood VOR.	Several attempts were made by ATC to establish contact with the PA28. The PA28 entered the ATZ without first obtaining information from the FISO and flew into conflict with the DR400. Attributed to an inexperienced pilot getting his priorities wrong and inadvertently entering ATZ without establishing two-way radio contact with FISO.☐ CAA Closure: This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).

201210237	18/08/2012	EGTT : London (FIR)	EGHR (QUG): Chichester/Goodwood	1.5 N	G	ATZ	PIPER	Reciprocating	1	UK AIRPROX 2012/128 - DR400 in the circuit at 1250ft piloted by a solo student and a PA28 1.5nm Goodwood VOR.	Several attempts were made by ATC to establish contact with the PA28. The PA28 entered the ATZ without first obtaining information from the FISO and flew into conflict with the DR400. Attributed to an inexperienced pilot getting his priorities wrong and inadvertently entering ATZ without establishing two-way radio contact with FISO.☐ CAA Closure: This AIRPROX has been subject to a separate review by the United Kingdom AIRPROX Board (UKAB).
201210244	28/08/2012	EGTT : London (FIR)	EGKK (LGW): London/Gatwick		A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C152 squawking 0450 at 2400ft. Traffic info given.	Pilot subsequently reported he had experienced equipment failure and was instructed to adopt the 'no compass no gyro' procedure and informed what that entailed. Another a/c offered assistance and PA28 was led back towards Fair Oaks. Investigation established that the student pilot had problems with the DI, which resulted in him drifting off track and he then inadvertently switched off his radio. Consequently, when he tried to make radio contact, he believed it was a technical fault and this distracted him further.☐ CAA Closure: Further navigation training to cover the importance of DI/compass checks, VOR position fixing and a more thorough explanation of the a/c's radio configuration and operations.
201210321	18/08/2012	EGTT : London (FIR)	Biggin Hill		G	Other	HAWKER	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by a Hawker Hurricane at 2400ft.	Pilot made contact with ATC requesting transit through Biggin Hill ATZ and was instructed to "report with 5 miles to run for onward clearance" as per standard unit procedures. Pilot subsequently contacted ATC overhead Biggin Hill airfield, having entered the ATZ without a clearance. ATC informed pilot "5 miles" was not received and that a/c had entered ATZ without permission. A/c continued enroute.
201210370	30/08/2012	EGTT : London (FIR)	P114		Other	Restricted area	NORD	Reciprocating	1	Infringement of Prohibited Zone P114 by a Nord 1002 observed tracking East to West at approx 1000ft to 1200ft. A/c identified with Mode S.	Appropriate CAA action is being taken as a result of this incident.
201210411	31/08/2012	EGTT : London (FIR)	Southampton (SAM)	7.5 NE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a C172 squawking 7000. Traffic info and avoiding action given. Separation lost with outbound DHC8.	At 1139z a 7000 squawk was observed by the Southampton radar controller to be tracking South towards CAS. A DHC8 was just airborne which was due to turn right towards GWC. A blind call was made to attempt to establish contact with the unknown traffic but no response was received. On first contact with the DHC8 the radar controller issued avoiding action and traffic info but separation was lost. The infringing a/c was discovered to be a C172. The pilot was working Lee-on-Solent at the time of the infringement and mistakenly believed that Lee-on-Solent were in contact with Southampton regarding his position and transit of the control zone.☐ CAA Closure: The pilot has reacted positively to this incident. No further CAA action at this time.

201210411	31/08/2012	EGTT : London (FIR)	Southampton (SAM)	7.5 NE	D	CTR	DE HAVILLAND	Turboprop	2	Infringement of the Southampton CTR (Class D) by a C172 squawking 7000. Traffic info and avoiding action given. Separation lost with outbound DHC8.	At 1139z a 7000 squawk was observed by the Southampton radar controller to be tracking South towards CAS. A DHC8 was just airborne which was due to turn right towards GWC. A blind call was made to attempt to establish contact with the unknown traffic but no response was received. On first contact with the DHC8 the radar controller issued avoiding action and traffic info but separation was lost. The infringing a/c was discovered to be a C172. The pilot was working Lee-on-Solent at the time of the infringement and mistakenly believed that Lee-on-Solent were in contact with Southampton regarding his position and transit of the control zone.☐ CAA Closure: The pilot has reacted positively to this incident. No further CAA action at this time.
201210419	31/08/2012	EGTT : London (FIR)	P114		Other	Prohibited area		Reciprocating	1	Infringement of P114 by a CZAW Sports cruiser squawking 7010.	Appropriate CAA action to be taken as a result of this incident.
201210424	31/08/2012	EGTT : London (FIR)	Stansted	12 NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 squawking 7000 indicating 3000ft. Check all imposed.	It has subsequently been revealed that the a/c was high as the pilot was attempting to remain above the Earls ColneATZ. A descent was commenced but this was too late to prevent the a/c entering the CTA. Pilot apologised and has agreed to review his pre-flight planning.
201210425	31/08/2012	EGTT : London (FIR)	Lambourne (LAM)	4 SW	Other	Restricted area	CYCLONE AIRSPORTS	Reciprocating	1	Infringement of Prohibited Zone P114 by a Quik GT450 squawking 7000 at 1000ft. A/c identified on Mode S.	Appropriate CAA action is being taken as a result of this incident.
201210449	01/09/2012	EGTT : London (FIR)	Manchester LLR	3 E	D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a PA28 at 1200ft. Standard separation maintained.	A/c on frequency under a BS inside the LLR (Low Level Route). No traffic affected and a/c permitted to continue track inside the CTZ.

201210454	01/09/2012	EGTT : London (FIR)	Hawarden	3nm WSW	A	TMA	PIPER	Reciprocating	1	Infringement of the Manchester TMA (Class A) by a PA28RT squawking 7000, indicating 3300ft. CAIT activated. A/c identified via Mode S. Standard separation maintained.	MACC West/IOM coordinator telephoned Liverpool APP controller, who confirmed they were expecting the a/c in approx 40mins. Liverpool APP made a call to the infringer and descended the a/c back outside of CAS. Pilot later telephoned to apologise, allegedly commenting that they had experienced some rough air and had no altitude control.
201210456	01/09/2012	EGTT : London (FIR)	P114		Other	Prohibited area	CYCLONE AIRSPORTS	Reciprocating	1	Infringement of Prohibited Zone P114 by a Quik microlight.	Appropriate CAA action is being taken as a result of this incident.
201210458	02/09/2012	EGTT : London (FIR)	Haverhill	S	G	Restricted area	CESSNA	Reciprocating	1	Infringement of the Stansted TMZ (Class G) by a C172 squawking 7010 with no Mode C. A/c identified via Mode S. Traffic info given. Inbound a/c were given delaying vectors to ensure separation.	It has subsequently been revealed that the student had not switched on the transponder after departure (which the instructor failed to detect) and this was only realised when student tried to select 7010 squawk when inbound. The CFI of the flying club has been alerted.
201210458	02/09/2012	EGTT : London (FIR)	Haverhill	S	G	Restricted area	BOEING	Turbofan	2	Infringement of the Stansted TMZ (Class G) by a C172 squawking 7010 with no Mode C. A/c identified via Mode S. Traffic info given. Inbound a/c were given delaying vectors to ensure separation.	It has subsequently been revealed that the student had not switched on the transponder after departure (which the instructor failed to detect) and this was only realised when student tried to select 7010 squawk when inbound. The CFI of the flying club has been alerted.
201210463	02/09/2012	EGTT : London (FIR)	Snitterfield	N	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) CTA-5 by an a/c squawking 0010 indicating 2800ft. North of Snitterfield. A/c identified via Wellesbourne ATC as a PA28. Standard separation maintained.	Birmingham ATC made blind calls to the infringer to advise that Snitterfield was active and to keep look out for gliders and that base of CAS on their track was 2500ft. No replies received. Infringer continued on their track before leaving in the vicinity of Snitterfield. Pilot stated in their report that Wx had become cloudy and overcast and they inadvertently strayed North of their intended track. Pilot commented their flight planning had been poor due to their knowledge of the local area, and stated they would endeavour to make sure they improved their planning for any future flights.

201210465	02/09/2012	EGTT : London (FIR)	DAYNE	15 E	Other	Restricted area	CESSNA	Reciprocating	1	Infringement of the Red Arrows RA (T) at Chatsworth Country Fair by a C150 squawking 6160 at 1800ft. Traffic info given. Standard separation maintained.	Appropriate CAA action to be taken as a result of this incident.
201210468	31/08/2012	EGTT : London (FIR)	Honiley (HON)	2 S	D	CTR	OTHER	Reciprocating	1	Infringement of the Birmingham CTA2 /CTR (Class D) by a Calidus. Traffic info and avoiding action given. Standard separation maintained.	The gyroplane had departed Sywell for a flight to the NE.However, deteriorating weather to the N forced the pilot to amend his intentions and return to base in Shropshire. In amending his plan, in flight, the pilot reported becoming confused over his position. The gyroplane entered the Birmingham CTA2 at 1500-1600ft and then the CTR at 1400ft before disappearing from the available surveillance coverage in the vicinity of Lapworth. The pilot reported that the visibility also began to deteriorate on the amended route and that as he attempted to re-adjust his map to take account of the new route (as it was folded for the original plan) he felt an increased personal pressure, adding to his anxiety/confusion. Further to the incident the pilot has been invited to complete an online Infringement questionnaire. Additionally the pilot has been made aware of the resources available to pilots to help them in avoiding infringements. As the incident occurred in the vicinity of Birmingham the pilot was also invited to consider using the Birmingham SSR monitoring code on future flights in the area

201210473	02/09/2012	EGTT : London (FIR)	Shoreham		G	TSA	OTHER	Reciprocating	1	Alleged infringement of the Shoreham TRA (Temporary Restricted Area) and ATZ (Class G) by two microlights.	Reporter stated that a Jet Provost, cleared for take-off, observed two microlights in climb out, transiting along the coast, low level Westbound. No calls made to ATC.
201210473	02/09/2012	EGTT : London (FIR)	Shoreham		G	TSA	OTHER	Reciprocating	1	Alleged infringement of the Shoreham TRA (Temporary Restricted Area) and ATZ (Class G) by two microlights.	Reporter stated that a Jet Provost, cleared for take-off, observed two microlights in climb out, transiting along the coast, low level Westbound. No calls made to ATC.

201210473	02/09/2012	EGTT : London (FIR)	Shoreham		G	TSA	OTHER	Unknown	1	Alleged infringement of the Shoreham TRA (Temporary Restricted Area) and ATZ (Class G) by two microlights.	Reporter stated that a Jet Provost, cleared for take-off, observed two microlights in climb out, transiting along the coast, low level Westbound. No calls made to ATC.
201210498	02/09/2012	EGTT : London (FIR)	EGTH : OLD WARDEN AERODROME		G	ATZ	MUDRY	Reciprocating	1	Alleged infringement of the Shuttleworth/Old Warden ATZ (Class G)/NOTAMed Display Area by a CAP10B at 2000ft. Air display in progress.	CAA Closure: No further action taken due to elapsed time.
201210500	02/09/2012	EGTT : London (FIR)	Old Warden		G	ATZ	PILATUS	Turboprop	1	Alleged infringement of the Old Warden ATZ (Class G)/NOTAMed Display Area during a Shuttleworth Air Display by a PC12 with Mode C readout of 2300ft amsl.	An Avro 19 had just completed its display and was downwind LH R/W21 to land and a PA18 towing a Scud Glider was just airborne with the intention of releasing the Glider in the overhead to commence a display. PC12 pilot apologised for the infringement, stating that he had misinterpreted the NOTAM.☐ CAA Closure: Following this incident, the pilot and his Operations Department will be expanding and enhancing their route briefing policy with immediate effect so as to avoid similar occurrences in the future.
201210501	31/08/2012	EGTT : London (FIR)	EGVN (BZZ): Brize norton		D	CTR	PIPER	Reciprocating	1	Infringement of Brize Norton CTR (Class D) by a PA28 squawking 1015 at 3200ft. A/c subsequently landed without authorisation. Student pilot had been issued a landing clearance for Kemble Airfield.	A/c went around off the first approach and landed off the second approach. Student misidentified and landed at the wrong airfield, having received a landing clearance from Kemble and thinking that was where he had landed.☐ CAA Closure: The student completed a further 14 hours of navigational training before being allowed to fly solo again.
201210535	03/09/2012	EGTT : London (FIR)	Southampton (SAM)	9 SE	D	CTA	FLIGHT DESIGN	Reciprocating	1	Infringement of the Solent CTA-6 (Class D) by a CTSW squawking 0430 at 3300ft. Departing EMB195 was delayed approx 2mins and then released on a new heading.	The CTSW was observed to enter the Solent CTA-6 (2500ft-5500ft) at an altitude of 3300ft on a Farnborough squawk 0430. The controller contacted Farnborough who then instructed the CTSW to descend below CAS. Farnborough were providing a BS and not monitoring the a/c. ☐ CAA Closure: It has not been possible to obtain any feedback from the CTSW pilot regarding the causal factors for this incident and therefore no further investigation is considered appropriate.

201210535	03/09/2012	EGTT : London (FIR)	Southampton (SAM)	9 SE	D	CTA	EMBRAER	Turbofan	2	Infringement of the Solent CTA-6 (Class D) by a CTSW squawking 0430 at 3300ft. Departing EMB195 was delayed approx 2mins and then released on a new heading.	The CTSW was observed to enter the Solent CTA-6 (2500ft-5500ft) at an altitude of 3300ft on a Farnborough squawk 0430. The controller contacted Farnborough who then instructed the CTSW to descend below CAS. Farnborough were providing a BS and not monitoring the a/c. CAA Closure: It has not been possible to obtain any feedback from the CTSW pilot regarding the causal factors for this incident and therefore no further investigation is considered appropriate.
201210572	03/09/2012	EGTT : London (FIR)	Denham		A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA38 at 2400ft. Heathrow departures stopped. Traffic info given.	CFI alerted and appropriate action taken/advice given to the student involved.
201210662	05/09/2012	EGTT : London (FIR)	Southampton (SAM)	8 NE	D	CTA	THRUSTER	Reciprocating	1	Infringement of the Solent CTA (Class D) by Thruster T600N at 2300ft showing as a primary contact only. Pilot called on frequency giving his position, which coincided with the contact.	Standard separation maintained.
201210686	05/09/2012	EGTT : London (FIR)	Warrington		D	CTR	PIPER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a PA28 at 2600ft. Standard separation maintained.	PA28 had called at Stoke routeing to Blackpool and instructed to transit the low level route not above 1300ft. A/c had requested a Traffic Service but told there was no radar contact. Basic Service only and to report entering the low level route. A/c reported entering the LLR and appeared to be flying into the CTR so was given squawk 7350 for conspicuity and informed that he had entered the CTR NE of Winsford. Pilot was told to fly 30 or 40deg to the left to regain the LLR. Pilot later requested an update on his position and when over Warrington requested a QSY to Blackpool, instructed to squawk 7000 and QSY was approved. A/c was seen climbing through 1300ft and later seen to squawk 3642 as the a/c climbed up to 2600ft. Warton were informed who advised that the a/c had been instructed to descend to 1300ft and said that they would pass the information to Blackpool.

201210699	05/09/2012	EGTT : London (FIR)	Hunsdon	1 S	Other	Restricted area	BOEING	Turbofan	4	Infringement of the Stansted TMZ 2 (Class G) by an EC120 squawking 7000. No traffic affected.	
201210700	05/09/2012	EGTT : London (FIR)	Potters Bar		Other	Restricted area	PIPER	Reciprocating	1	Infringement of Prohibited Zone P114 by a PA28 squawking 7000 at 1500ft. Standard separation maintained.	Appropriate CAA action is being taken as a result of this incident.
201210710	05/09/2012	EGTT : London (FIR)	HON		D	CTR	SOCATA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a TB10 at 2000ft. Traffic info given. Standard separation maintained.	The pilot on a NAVEX eventually called stating that he was unsure of his position. He had turned away from Birmingham when he sighted the airport. Appropriate and comprehensive advice was passed to the pilot on a subsequent phone call.
201210710	05/09/2012	EGTT : London (FIR)	HON		D	CTR	FOKKER	Turbofan	2	Infringement of the Birmingham CTR (Class D) by a TB10 at 2000ft. Traffic info given. Standard separation maintained.	The pilot on a NAVEX eventually called stating that he was unsure of his position. He had turned away from Birmingham when he sighted the airport. Appropriate and comprehensive advice was passed to the pilot on a subsequent phone call.
201210710	05/09/2012	EGTT : London (FIR)	HON		D	CTR	AIRBUS	Turbofan	2	Infringement of the Birmingham CTR (Class D) by a TB10 at 2000ft. Traffic info given. Standard separation maintained.	The pilot on a NAVEX eventually called stating that he was unsure of his position. He had turned away from Birmingham when he sighted the airport. Appropriate and comprehensive advice was passed to the pilot on a subsequent phone call.

201210735	05/09/2012	EGTT : London (FIR)	Birmingham	8 S	D	CTR	OTHER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a GuimbalCabri G2 at 1800ft. Several blind transmissions made withno response. Standard separation maintained.	Traffic info given to an inbound DHC8.
201210752	31/08/2012	EGTT : London (FIR)	Pembrey		G	Danger area	HUGHES	Reciprocating	1	Infringement of active Pembrey Sands EGD 118 by a Hughes 269. Pilot had requested permission to enter but denied due to imminent military live firing. Traffic info given.	CAA Closure: No further action possible due to elapsed time.
201210765	06/09/2012	EGTT : London (FIR)	Elstree	W Abeam P114	Other	Restrictd area	EUROCOPTER	Turboshaft	1	Infringement of Prohibited Airspace P114 by an EC120 squawking 5035. Pilot had been told to remain outside the zone, but did not seem to be aware of the restrictions.	Appropriate CAA action is being taken as a result of this incident.
201210772	26/07/2012	EGTT : London (FIR)	Plymouth Danger Areas		G	Danger area	PIPER	Reciprocating	1	Infringement of Plymouth Danger Areas EG D009, D009A, D003, D004 by a PA28 squawking 1740 indicating 2000ft. Standard separation maintained.	A/c had been observed routeing along the coast Eastbound and infringed D009. After contacting Newquay, Plymouth MII were informed that the a/c had gone to London FIR. London Information were then contacted and asked to inform the a/c that they had infringed the Plymouth DAs. PA28 then vacated D009A but tracked back and entered D003 and D004 in the climb. A/c subsequently requested a clearance through from Western Radar, which was then given.
201210780	06/09/2012	EGTT : London (FIR)	Stansted	NE	Other	Restrictd area	FLY BUY ULTRALIGHTS	Reciprocating	1	Infringement of the Stansted TMZ 1 (Class G) by an unknown a/c. Stansted departures suspended. Same a/c had previously been observed to briefly infringe the TMZ 2.	Pilot error acknowledged. Pilot has been debriefed by the CFI.

201210813	07/09/2012	EGTT : London (FIR)	Stansted CTA		D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C172. Separation lost with an LJ35 inbound to Stansted. Traffic info and avoiding action given.	The a/c contacted Cambridge whilst still within the CTA and Cambridge alerted Stansted FIN to inform them that they were talking to the a/c and had requested it to descend immediately.
201210813	07/09/2012	EGTT : London (FIR)	Stansted CTA		D	CTA	LEARJET	Turbofan	2	Infringement of the Stansted CTA (Class D) by a C172. Separation lost with an LJ35 inbound to Stansted. Traffic info and avoiding action given.	The a/c contacted Cambridge whilst still within the CTA and Cambridge alerted Stansted FIN to inform them that they were talking to the a/c and had requested it to descend immediately.
201210817	06/09/2012	EGTT : London (FIR)	Stansted TMZ		Other	Restrict ed area	PIPER	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by a PA28 (initially primary only) observed entering the TMZ on two occasions.	PA28 entered Stansted TMZ 2 and was observed by ATC as a primary only return. Pilot reported that cockpit indications showed the transponder was not being interrogated so there pilot took action to fly out of TMZ airspace. A/c then observed to display code 7010 with no Mode C detected and entered TMZ again as it flew to North Weald to land. Pilot believed the transponder was now functioning as required. PA28 was never flown above 1400ft and remained clear of CAS. PA28 departed North Weald shortly after with same anomaly detected by ATC as it flew through the TMZ. Pilot reported that cockpit indications showed that transponder was functioning in Mode C (ALT). CAA Closure: Pilot reported that the transponder would be rectified/replaced at the first available opportunity.
201210823	07/09/2012	EGTT : London (FIR)	Wolverhampton		D	CTA	BEECH	Reciprocating	1	Infringement of the Birmingham CTA-5 (Class D) by a BE33 at 3000ft. A/c responded to a blind transmission and was advised that the a/c was inside CAS. Standard separation maintained.	A/c continued tracking towards the Snitterfield Gliding Area. Controller notified the pilot that the area was active and advised a left turn to avoid the area. A/c turned right.
201210824	07/09/2012	EGTT : London (FIR)	Stansted	SW	Other	Restrict ed area	ROBINSON	Reciprocating	1	Infringement of the Stansted TMZ (Class G) by an R22. Traffic info and avoiding action given to an outbound B737. Departures suspended 3-4mins. Standard separation maintained.	

201210824	07/09/2012	EGTT : London (FIR)	Stansted	SW	Other	Restricted area	BOEING	Turbofan	2	Infringement of the Stansted TMZ (Class G) by an R22. Traffic info and avoiding action given to an outbound B737. Departures suspended 3-4mins. Standard separation maintained.	
201210825	07/09/2012	EGTT : London (FIR)	Middle Wallop		G	ATZ	CESSNA	Reciprocating	1	Infringement of the Middle Wallop ATZ (Class G) by a C152squawking 7000 with Mode C indicating 1000ft heading towards the airfield. Traffic info given.	C152 observed making an abrupt RH turn in the Middle Wallop overhead and then tracking northbound. Pilot had been in contact with Thruxton Radio and confirmed that the flight was now joining from the South. Pilot subsequently informed that he had flown through the Middle Wallop ATZ without clearance.
201210838	08/09/2012	EGTT : London (FIR)	LCY 10 ESE		A	TMA	OTHER	Reciprocating	1	Infringement of the LTMA (Class A) by a Skyranger 582. The a/c wearing a Farnborough LARS squawk was observed indicating 2900ft at highest point. Standard separation maintained.	Farnborough were aware of the incident and the a/c was already descending when they were contacted.
201210838	08/09/2012	EGTT : London (FIR)	LCY 10 ESE		A	TMA	BAE	Turbofan	4	Infringement of the LTMA (Class A) by a Skyranger 582. The a/c wearing a Farnborough LARS squawk was observed indicating 2900ft at highest point. Standard separation maintained.	Farnborough were aware of the incident and the a/c was already descending when they were contacted.
201210839	08/09/2012	EGTT : London (FIR)	P114		Other	Prohibited area	EVEKTOR AEROTECHNIK	Reciprocating	1	Infringement of Prohibited Zone P114 by a Eurostar squawking 7000 at 2000ft. A/c identified with Mode S. No other traffic affected.	Appropriate CAA actions is being taken as a result of this incident.

201210849	08/09/2012	EGTT : London (FIR)	P114		Other	Prohibited area	CESSNA	Reciprocating	1	Infringement of Prohibited Airspace P114 by a C152 at 2000ft squawking 5065. Standard separation maintained.	Southend ATC instructed C152 to leave the area to the Northeast. C152 subsequently left restricted airspace. Appropriate CAA action is being taken as a result of this incident.
201210850	08/09/2012	EGTT : London (FIR)	BKY	15 E	G	Other	SUPERMARINE	Reciprocating	1	Infringement of the Stansted TMZ (Class G) by a Spitfire squawking 7000 with no Mode C. Traffic info and avoiding action given to an inbound MD11.	Pilot has been fully debriefed on this incident.
201210851	08/09/2012	EGTT : London (FIR)	P114		Other	Prohibited area	MOONEY	Reciprocating	1	Infringement of Prohibited Zone P114 by a Mooney 20 squawking 5031 at 2400ft. CAIT activated. A/c identified with Mode S. A/c was being worked by LARS North who turned him out of London City zone.	Appropriate CAA action is being taken as a result of this incident.
201210853	08/09/2012	EGTT : London (FIR)	Stansted	8 N	D	CTR	CANADAIR	Turbojet	1	Infringement of the Stansted CTR (Class D) by a T33. Traffic info and avoiding action given. Separation lost with inbound B737.	A/c had departed Duxford and flew onto North Weald to do several flypasts. Investigation established that following departure from Duxford, T33 experienced a nav system malfunction. GPS also intermittent. Pilot turned North, then East in an attempt to remain clear of CAS and did not climb above 1000ft. □ CAA Closure: Incident highlighted to T33 owners. Pilot apologetic, lesson learned.
201210853	08/09/2012	EGTT : London (FIR)	Stansted	8 N	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a T33. Traffic info and avoiding action given. Separation lost with inbound B737.	A/c had departed Duxford and flew onto North Weald to do several flypasts. Investigation established that following departure from Duxford, T33 experienced a nav system malfunction. GPS also intermittent. Pilot turned North, then East in an attempt to remain clear of CAS and did not climb above 1000ft. □ CAA Closure: Incident highlighted to T33 owners. Pilot apologetic, lesson learned.

201210854	07/09/2012	EGTT : London (FIR)	P114		Other	Other	BELL	Turboshaft	1	Infringement of Prohibited Zone P114 by a B206 squawking 7000 with no Mode C.	Appropriate CAA action is being taken as a result of this incident.
201210864	09/09/2012	EGTT : London (FIR)	North Weald	2nm WNW	Other	Restrict	VANS	Reciprocating	1	Infringement of the Stansted TMZ 2 (Class G) by an unknown a/c squawking 7000 with no Mode C tracking Northwest. A/c later identified as a Vans RV8.	The infringer was tracked from Shoreham to Old Warden andATC later spoke with the pilot who was allegedly unable to recall if the Mode C was on. ATC staff briefed pilot on the requirements of the TMZ and the necessity of ALT information.
201210865	09/09/2012	EGTT : London (FIR)	Stansted		D	CTA	DE HAVILLAND	Turbofan	1	Infringement of the Stansted CTA and CTR (Class D) by a fast jet formation of two Vampires at 2000ft. Check all imposed on R/W22 departures. Formation also flew through the Cambridge ATZ (Class G).	At 1435hrs, TMZ infringement occurred by fast moving traffic from Duxford inbound to North Weald with no SSR. Formation was seen to split and land at North Weald. CAIT activated. One a/c identified via Mode S. Formation subsequently infringed Cambridge ATZ at 1000ft twice within 10mins. Circuit was active with Tiger Moth traffic. Tiger Moth was turned on both occasions to de-conflict with the formation. See also 201210865. A comprehensive report was received from the formation lead for this flight. Two civil registered a/c and two military registered a/c were involved. The a/c departed from North Weald and after a fly past intended to follow a route to the West of Stansted airport towards Royston. Having arrived at Royston the formation subsequently received permission for a fly past. The a/c manoeuvred for the flypast to the NE of Duxford and thus close to Cambridge. The pilot was aware of Cambridge Airfield and its ATZ. The formation subsequently split with the civilian a/c performing an aerobatic display before return to North Weald. The lead a/c had RT transmit problems on this return flight. Apologies have been received. See also 201210973. □ CAA Closure: The aircrew concerned have been fully alerted to this incident.
201210865	09/09/2012	EGTT : London (FIR)	Stansted		D	CTA	DE HAVILLAND	Turbofan	1	Infringement of the Stansted CTA and CTR (Class D) by a fast jet formation of two Vampires at 2000ft. Check all imposed on R/W22 departures. Formation also flew through the Cambridge ATZ (Class G).	At 1435hrs, TMZ infringement occurred by fast moving traffic from Duxford inbound to North Weald with no SSR. Formation was seen to split and land at North Weald. CAIT activated. One a/c identified via Mode S. Formation subsequently infringed Cambridge ATZ at 1000ft twice within 10mins. Circuit was active with Tiger Moth traffic. Tiger Moth was turned on both occasions to de-conflict with the formation. See also 201210865. A comprehensive report was received from the formation lead for this flight. Two civil registered a/c and two military registered a/c were involved. The a/c departed from North Weald and after a fly past intended to follow a route to the West of Stansted airport towards Royston. Having arrived at Royston the formation subsequently received permission for a fly past. The a/c manoeuvred for the flypast to the NE of Duxford and thus close to Cambridge. The pilot was aware of Cambridge Airfield and its ATZ. The formation subsequently split with the civilian a/c performing an aerobatic display before return to North Weald. The lead a/c had RT transmit problems on this return flight. Apologies have been received. See also 201210973. □ CAA Closure: The aircrew concerned have been fully alerted to this incident.
201210866	09/09/2012	EGTT : London (FIR)	Audley End	6 SE	G	Restrict	CESSNA	Reciprocating	1	Infringement of the Red Arrows RA(T) by a C170 indicating1100ft. Traffic info given.	A/c undertaking a navigation exercise had called Farnborough LARS on becoming airborne. While tracking northbound and looking for the TMZ1 the a/c entered the RA(T). Farnborough LARS issued a 5035 squawk and appropriate advice was given for the quickest way to vacate the RA(T).

201210867	09/09/2012	EGTT : London (FIR)	North Weald	2 W	D	CTA	EVEKTOR AEROTECHNIK	Reciprocating	1	Infringement of the Stansted CTA2 (Class D) twice by a Eurostar squawking 7000 with Mode C 1800ft tracking East. A/c identified using Mode S.	CAIT activated. The pilot of a Eurostar departing Plaistows for a return flight to Clacton twice infringed Stansted CTA2; once eastbound and once westbound. Stansted CTA2 has vertical extent from 1500ft to 2500ft and is Class D airspace. The Eurostar entered Stansted CTA2 at 1040:54 UTC at 1800ft eastbound and exited the CTA2 at 1043:25 at 1900ft. On the return flight the a/c entered Stansted CTA2 at 1431:26 at 1900ft westbound and exited the CTA2 at 1435:35 at 1900ft. The pilot reported being familiar with the airspace around Stansted and additionally that the a/c had recently been fitted with a transponder in order to make use of the Stansted Transponder Mandatory zone to avoid Prohibited Airspace to the South. The pilot did not fully assimilate the extent of the TMZ was up to 1500ft; although upon re-examining the maps the pilot's error became apparent to him.□ CAA Closure: Appropriate remedial actions have been discussed/actioned.
201210874	07/09/2012	EGTT : London (FIR)	Manchester	8 W	D	CTR	EVEKTOR AEROTECHNIK	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a Microlight squawking 7000 at 1000ft.	Pilot states that a disused airfield was annotated as active on the VFR chart, which contributed to the pilot misidentifying his location. Appropriate authorities informed of the requirement to annotate the disused airfield correctly.
201210875	08/09/2012	EGTT : London (FIR)	Manchester (MCT)	12 NE	D	CTR	OTHER	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a microlight at 2000ft. Standard separation maintained.	Pilot encountered sunglare and lost visual references. Pilot error acknowledged.
201210880	08/09/2012	EGTT : London (FIR)	EGHH (BOH): Bournemouth/Hurn		D	CTR	ROBINSON	Reciprocating	1	Infringement of the Bournemouth CTR (Class D) by a R44 squawking 7000 at 5500ft. Inappropriate behaviour displayed in response to ATC actions. Police informed.	CAA Closure: Appropriate CAA and Police action has been taken as a result of this incident.
201210911	07/09/2012	EGTT : London (FIR)	BRISTOL CTA		D	CTR	CYCLONE AIRSPORTS	Reciprocating	1	Alleged infringement of the Bristol CTA (Class D) by a Quik microlight at 2000ft. The pilot believes that he drifted into the 1500ft stub of CAS.	ATC believe the a/c was slow to descend to 1500ft and was inside CAS for 4nm.

201210989	09/09/2012	EGTT : London (FIR)	Luton (LUT)		D	CTR	CIRRUS	Reciprocating	1	Infringement of the Luton CTR/CTA (Class D) by a Cirrus SR22 squawking 7000. Traffic info given. Standard separation maintained.	
201210989	09/09/2012	EGTT : London (FIR)	Luton (LUT)		D	CTR	AIRBUS	Turbofan	2	Infringement of the Luton CTR/CTA (Class D) by a Cirrus SR22 squawking 7000. Traffic info given. Standard separation maintained.	
201210991	11/09/2012	EGTT : London (FIR)	London City - LCY	N	Other	Restrict ed area	DIAMOND	Reciprocating	1	Infringement of Prohibited Zone P114 by a DA40 squawking 7000 indicating 2200ft. London City departures stopped. A/c identified on calling Southend and being given a squawk of 5061.	Appropriate CAA action is being taken as a result of this incident.
201210999	08/09/2012	EGTT : London (FIR)	Southampton CTA		D	CTA	CFM	Reciprocating	1	Infringement of the Southampton CTA (Class D) by a CFM Shadow.	The a/c was flying over the New Forest enroute to Old Sarum, when pilot flew into strong winds and very bad turbulence. For this reason the pilot elected not to land at Old Sarum and turned back to Thorney Island. The wind and turbulence then became greater and also at the same time the radio and GPS were malfunctioning, due to the vibration (believed). The passenger was only on her second flight was becoming very upset and stressed due to the conditions, creating a tense situation. After referencing with his map, to track a return course, he realised he had flown into Southampton airspace. As soon as he realised where he was he tried to get out as soon as possible but due to the high winds, the a/c's ground speed was very low. The appropriate lessons appear to have been leant from this incident.
201211020	09/09/2012	EGTT : London (FIR)	Manston	10NW	G	ATZ	PIPER	Reciprocating	1	Infringement of the Manston ATZ (Class G) by a PA46 at 1500ft. Traffic info given to an a/c on approach, crew established visual contact with the PA46 and elected to continue.	

201211021	07/09/2012	EGTT : London (FIR)	EGKB (BQH): Biggin hill		G	ATZ	CESSNA	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by a C152 squawking 7047. Pilot failed to comply with circuit joining instructions. Several a/c on the ground were delayed. Operator alerted.	CAA Closure: No further action possible due to elapsed time.
201211069	13/09/2012	EGTT : London (FIR)	Luton (LUT)	NW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Luton CTA (Class D) by an a/c squawking 7004 with Mode C indicating 5000ft. A/c later identified as a C152. Standard separation maintained.	Infringer was not on frequency but was observed to have landed at Cranfield. TC telephoned Cranfield ATC who identified the a/c.
201211071	13/09/2012	EGTT : London (FIR)	East Midlands	S	D	CTR	PIPER	Reciprocating	1	Infringement of the East Midlands CTR (Class D) by a PA28 squawking 7000 at 1500ft. Traffic info and avoiding action given. Standard separation maintained.	B737 broken off approach and a B737 given extended track miles. Student pilot is believed to have misidentified Wymeswold for Nottingham. Appropriate CAA action is being taken as a result of this incident.
201211082	13/09/2012	EGTT : London (FIR)	Dunstable	2 NW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Luton CTA/CTR (Class D) by a C152. Traffic info and avoiding action given. Separation lost against an A319.	A319 broken off approach R/W26 and three a/c put into the LOREL hold. Check all imposed by Tower. It has subsequently been revealed that the a/c was flown by a solo student on the second leg of a cross country flight. The student had freecalled Cranfield and squawked 7000 around Upper Heyford. Cranfield confirm that on first contact with them he had been unsure of his position and had asked for a QDM to Cranfield which was given and followed. At this time the student was unaware that he had infringed controlled airspace. As Cranfield do not issue a discreet squawk code for incoming traffic Luton would not have known he was on frequency with them. Pilot has been debriefed and further instruction on navigation will be provided, in particular on the importance of remaining clear of CAS.
201211082	13/09/2012	EGTT : London (FIR)	Dunstable	2 NW	D	CTA	AIRBUS	Turbofan	2	Infringement of the Luton CTA/CTR (Class D) by a C152. Traffic info and avoiding action given. Separation lost against an A319.	A319 broken off approach R/W26 and three a/c put into the LOREL hold. Check all imposed by Tower. It has subsequently been revealed that the a/c was flown by a solo student on the second leg of a cross country flight. The student had freecalled Cranfield and squawked 7000 around Upper Heyford. Cranfield confirm that on first contact with them he had been unsure of his position and had asked for a QDM to Cranfield which was given and followed. At this time the student was unaware that he had infringed controlled airspace. As Cranfield do not issue a discreet squawk code for incoming traffic Luton would not have known he was on frequency with them. Pilot has been debriefed and further instruction on navigation will be provided, in particular on the importance of remaining clear of CAS.

201211082	13/09/2012	EGTT : London (FIR)	Dunstable	2 NW	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTA/CTR (Class D) by a C152. Traffic info and avoiding action given. Separation lost against an A319.	A319 broken off approach R/W26 and three a/c put into the LOREL hold. Check all imposed by Tower. It has subsequently been revealed that the a/c was flown by a solo student on the second leg of a cross country flight. The student had freecalled Cranfield and squawked 7000 around Upper Heyford. Cranfield confirm that on first contact with them he had been unsure of his position and had asked for a QDM to Cranfield which was given and followed. At this time the student was unaware that he had infringed controlled airspace. As Cranfield do not issue a discreet squawk code for incoming traffic Luton would not have known he was on frequency with them. Pilot has been debriefed and further instruction on navigation will be provided, in particular on the importance of remaining clear of CAS.
201211082	13/09/2012	EGTT : London (FIR)	Dunstable	2 NW	D	CTR	AIRBUS	Turbofan	2	Infringement of the Luton CTA/CTR (Class D) by a C152. Traffic info and avoiding action given. Separation lost against an A319.	A319 broken off approach R/W26 and three a/c put into the LOREL hold. Check all imposed by Tower. It has subsequently been revealed that the a/c was flown by a solo student on the second leg of a cross country flight. The student had freecalled Cranfield and squawked 7000 around Upper Heyford. Cranfield confirm that on first contact with them he had been unsure of his position and had asked for a QDM to Cranfield which was given and followed. 201211101	13/09/2012	EGTT : London (FIR)	Luton		D	CTR	OTHER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a Sportcruiser. Standard separation maintained.	
201211124	07/09/2012	EGTT : London (FIR)	SE of Southend		A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA by a formation of two PA28's at 4500ft SE of Southend. Appropriate action taken by Southend ATC.	
201211124	07/09/2012	EGTT : London (FIR)	SE of Southend		A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA by a formation of two PA28's at 4500ft SE of Southend. Appropriate action taken by Southend ATC.	

201211125	07/09/2012	EGTT : London (FIR)	Southend		A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA by a PA28 at 4000ft. Action taken by Southend ATC to descend a/c out of CAS. Pilot language issues. ATC workload was high and was increased by this event.	
201211176	15/09/2012	EGTT : London (FIR)	London-Gatwick - LGW	NE	D	CTA	PIPER	Reciprocating	1	Infringement (believed) of the Gatwick CTA (Class D) by a PA28 at 2000ft.	Reporter believes the a/c may have been operating with a compass malfunction.
201211177	16/09/2012	EGTT : London (FIR)	Southampton (SAM)	10 NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 (believed). Blind calls made, no response received. Traffic infoand delaying action given to an inbound DHC8. Standard separation maintained.	
201211177	16/09/2012	EGTT : London (FIR)	Southampton (SAM)	10 NE	D	CTA	DE HAVILLAND	Turboprop	2	Infringement of the Solent CTA (Class D) by a PA28 (believed). Blind calls made, no response received. Traffic infoand delaying action given to an inbound DHC8. Standard separation maintained.	
201211292	18/09/2012	EGTT : London (FIR)	Southampton	10.5 NE	D	CTA	VANS	Reciprocating	1	Infringement of the Solent CTA (Class D) by a RV7 squawking 7000 at 3400ft. Standard separation maintained.	Blind call was made no response. Once a/c had left CAS it squawked 0430 and details were confirmed by Farnborough.

201211292	18/09/2012	EGTT : London (FIR)	Southampton	10.5 NE	D	CTA	EMBRAER	Turbofan	2	Infringement of the Solent CTA (Class D) by a RV7 squawking 7000 at 3400ft. Standard separation maintained.	Blind call was made no response. Once a/c had left CAS it squawked 0430 and details were confirmed by Farnborough.
201211363	19/09/2012	EGTT : London (FIR)	BNN 5 W		A	TMA	PIPER	Reciprocating	1	Infringement of the LTMA (Class A) by a PA28 indicating 3000ft 5W of BNN tracking East. The operator has been fully alerted to this incident and appropriate remedial action taken.	The pilots report indicates that he climbed above his planned altitude to provide separation against a military helicopter. He was aware of the SW corner of the CTA and kept clear of that but failed to note the LTMA change from 3500+ to 2500+. He ignored a GPS warning of airspace as he considered, at the time, that it related to the SW corner of the CTA.
201211410	20/09/2012	EGTT : London (FIR)	Biggin (BIG)	4 S	D	CTR	CIRRUS	Reciprocating	1	Infringement of the Gatwick CTR (Class D) by an SR22 at 2400ft. Traffic info given. Standard separation maintained.	
201211521	22/09/2012	EGTT : London (FIR)	Dunstable Gliding Site	4 NW	A	TMA	FLY BUY ULTRALIGHTS	Reciprocating	1	Infringement of the Luton CTR/CTA (Class D) and the LTMA (Class A) by an Ikarus C42 squawking 7000 at 3800ft. Four inbound Luton a/c were delayed. Standard separation maintained. Traffic info given.	A/c was observed tracking South West at various altitudes up to 3800ft. It has subsequently been revealed that the pilot believed his route would take him under the Luton CTR and at the time of the incident was listening to Benson as he intended to transit their MATZ a little further along. It has also been revealed that the Mode S fitted had an incorrect flight identification configured with additional characters at the end of its registration. The operator has been fully alerted to this incident.
201211531	22/09/2012	EGTT : London (FIR)	EGKK (LGW): London/Gatwick	5 NW	D	CTA	PIPER	Reciprocating	1	Infringement of the Gatwick CTR and CTA (Class D) by a PA28 resulting in a loss of separation against an EMB195. Traffic info and avoiding action given. Departures stopped and an inbound B737 broken off its approach.	Appropriate CAA action is being taken as a result of this incident.

201211531	22/09/2012	EGTT : London (FIR)	EGKK (LGW): London/Gatwick	5 NW	D	CTA	EMBRAER	Turbofan	2	Infringement of the Gatwick CTR and CTA (Class D) by a PA28 resulting in a loss of separation against an EMB195. Traffic info and avoiding action given. Departures stopped and an inbound B737 broken off its approach.	Appropriate CAA action is being taken as a result of this incident.
201211531	22/09/2012	EGTT : London (FIR)	EGKK (LGW): London/Gatwick	5 NW	D	CTR	PIPER	Reciprocating	1	Infringement of the Gatwick CTR and CTA (Class D) by a PA28 resulting in a loss of separation against an EMB195. Traffic info and avoiding action given. Departures stopped and an inbound B737 broken off its approach.	Appropriate CAA action is being taken as a result of this incident.
201211531	22/09/2012	EGTT : London (FIR)	EGKK (LGW): London/Gatwick	5 NW	D	CTR	EMBRAER	Turbofan	2	Infringement of the Gatwick CTR and CTA (Class D) by a PA28 resulting in a loss of separation against an EMB195. Traffic info and avoiding action given. Departures stopped and an inbound B737 broken off its approach.	Appropriate CAA action is being taken as a result of this incident.
201211533	09/09/2012	EGTT : London (FIR)	United Kingdom		Unknown	Restricted area	SOCATA	Reciprocating	1	Infringement of the Red Arrows RA(T) by an unknown a/c squawking 7000 indicating 1400ft. A/c identified via Mode S as a TB10. Traffic info given. Standard separation maintained.	TB10 proceeded to climb to 1900ft. Traffic info was given to Red Arrows until the a/c was clear of the RA(T).
201211545	22/09/2012	EGTT : London (FIR)	EGKB (BQH): Biggin hill		G	ATZ	JODEL	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by a DR1050 squawking 7000 at 1700ft. At the time two other a/c were in the circuit at 1600ft QNH for R/W21.	CAA Closure: No further action taken due to elapsed time.

201211621	08/09/2012	EGTT : London (FIR)	Doncaster		D	CTA	CESSNA	Reciprocating	1	Alleged infringement of the Doncaster CTA (Class D) by a C152 squawking 3603 at 2300ft in receipt of a Basic Service.	Waddington had been informed by Doncaster Radar of the alleged infringement which had resulted in a delay for a Doncaster departure.
201211833	23/09/2012	EGTT : London (FIR)	Durham Tees Valley	6 SE	D	CTA	ROTORWAY	Reciprocating	1	Infringement of Durham Tees Valley CTA (Class D) by a Rotorway squawking 7042 at 1700ft in receipt of a Basic Service. Standard separation maintained.	A/c had freecalled en-route from Bagby to Eshott via Hexham, tracking towards controlled airspace, and was allocated a squawk for identification. On entering CAS a/c made a turn to the South West and squawk changed to 7600. Squawk was then seen to change to 7000 after leaving CAS under the CTAs to the South West and last seen tracking West of Newcastle's controlled airspace still on a 7000 squawk.
201211850	27/09/2012	EGTT : London (FIR)	Doncaster Sheffield	10 S	D	CTA	PIPER	Reciprocating	1	Infringement of the Doncaster Sheffield CTA (Class D) by a PA28 at 2000ft. Standard separation maintained.	Pilot believed he had remained clear of CAS.
201211875	28/09/2012	EGTT : London (FIR)	EGSX : North Weald		D	CTR	VANS	Reciprocating	1	Infringement of the Stansted CTR/CTA (Class D) by a Vans RV-6A. Standard separation maintained. Traffic info and avoiding action given.	A check all was imposed at Stansted and a missed approach also resulted from this incident.
201211875	28/09/2012	EGTT : London (FIR)	EGSX : North Weald		D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR/CTA (Class D) by a Vans RV-6A. Standard separation maintained. Traffic info and avoiding action given.	A check all was imposed at Stansted and a missed approach also resulted from this incident.

201211875	28/09/2012	EGTT : London (FIR)	EGSX : North Weald		D	CTA	VANS	Reciprocating	1	Infringement of the Stansted CTR/CTA (Class D) by a Vans RV-6A. Standard separation maintained. Traffic info and avoiding action given.	A check all was imposed at Stansted and a missed approach also resulted from this incident.
201211875	28/09/2012	EGTT : London (FIR)	EGSX : North Weald		D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTR/CTA (Class D) by a Vans RV-6A. Standard separation maintained. Traffic info and avoiding action given.	A check all was imposed at Stansted and a missed approach also resulted from this incident.
201211913	30/09/2012	EGTT : London (FIR)	Stansted	4 N	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) and Luton CTR (Class D) by a PA18 resulting in a loss of separation against inbound B737s on both occasions.	Traffic info and avoiding action given. Check all imposed. Appropriate CAA action to be taken as a result of this event.
201211913	30/09/2012	EGTT : London (FIR)	Stansted	4 N	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) and Luton CTR (Class D) by a PA18 resulting in a loss of separation against inbound B737s on both occasions.	Traffic info and avoiding action given. Check all imposed. Appropriate CAA action to be taken as a result of this event.
201211913	30/09/2012	EGTT : London (FIR)	Stansted	4 N	D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) and Luton CTR (Class D) by a PA18 resulting in a loss of separation against inbound B737s on both occasions.	Traffic info and avoiding action given. Check all imposed. Appropriate CAA action to be taken as a result of this event.

201211916	29/09/2012	EGTT : London (FIR)	Weathersfield	2 E	D	CTA	AVIONS ROBIN	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a HR200 squawking 7000 at 2400ft. Traffic info given. Six inbound flights delayed.	A/c was piloted by a student undertaking a solo cross-country exercise who had become disorientated from heading into sun and subsequently misidentified Gosfield disused airfield as Earls Colne. The investigation has confirmed that the pilot did eventually contact D&D for navigational assistance (PAN) but this occurred after the a/c had been inside CAS for 18mins. The CFI of the flying club has been alerted and appropriate remedial action has been taken.
201211986	01/10/2012	EGTT : London (FIR)	NUBRI	W	A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA28 squawking 7000 at FL68. Avoiding action given to DHC8. Separation lost.	A PA28 routing Bembridge to Wellesbourne entered CAS in the vicinity of NUBRI climbing to FL068 (base of Class A = FL065). Traffic inbound to Southampton on a reciprocal track was turned away. The pilot's planning for the departure expected clear skies. The pilot had already flown such as to avoid CAS at Southampton; however, on a north-easterly track a front of Cb was encountered. The a/c also began to experience some turbulence and one passenger became nauseous. In considering his options during this distraction, the pilot allowed the a/c to enter a slow climb. Upon realising the error the pilot descended below CAS. The PA28 was inside CAS for approximately 3mins.☐ CAA Closure: Appropriate advice has been given to the pilot and an Infringement Questionnaire has been completed.
201211986	01/10/2012	EGTT : London (FIR)	NUBRI	W	A	TMA	DE HAVILLAND	Turboprop	2	Infringement of the London TMA (Class A) by a PA28 squawking 7000 at FL68. Avoiding action given to DHC8. Separation lost.	A PA28 routing Bembridge to Wellesbourne entered CAS in the vicinity of NUBRI climbing to FL068 (base of Class A = FL065). Traffic inbound to Southampton on a reciprocal track was turned away. The pilot's planning for the departure expected clear skies. The pilot had already flown such as to avoid CAS at Southampton; however, on a north-easterly track a front of Cb was encountered. The a/c also began to experience some turbulence and one passenger became nauseous. In considering his options during this distraction, the pilot allowed the a/c to enter a slow climb. Upon realising the error the pilot descended below CAS. The PA28 was inside CAS for approximately 3mins.☐ CAA Closure: Appropriate advice has been given to the pilot and an Infringement Questionnaire has been completed.
201212075	03/10/2012	EGTT : London (FIR)	Puckeridge	3 S	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C172 at 1800ft.	The a/c had an operating Mode C transponder and was in contact with Farnborough LARS. For one radar sweep the Mode C indicated 1800ft.
201212077	03/10/2012	EGTT : London (FIR)	North Weald	3 SW	D	CTA	BEECH	Unknown	1	Infringement of the Stansted CTA (Class D) by a BE33 squawking 5031 at 1800ft.	The a/c flew consistently under the CTA at 1200-1300ft before climbing to 1800ft, just on the CTA boundary. No further follow up is considered necessary.

201212088	04/10/2012	EGTT : London (FIR)	Stansted	13 NE	D	CTR	FLY BUY ULTRALIGHTS	Reciprocating	1	Infringement of the Stansted TMZ1 (Class G) and the Stansted CTR (Class D) by an Ikarus C42 at 1800ft. Attempts to contact the a/c unsuccessful. Traffic info given. Standard separation maintained.	A/c initially observed in the TMZ with no Mode C. A/c subsequently selected squawk code 7010 and was indicating 1800ft inside the CTR. Inbound traffic delayed. This a/c had a second infringement of CAS at 1140UTC which triggered CAIT. Investigations indicate that that there was an unverified infringement of the Stansted CTA above 1500ft.☐ CAA Closure: No further action at this time. The airframe will however be monitored for future occurrences
201212088	04/10/2012	EGTT : London (FIR)	Stansted	13 NE	D	Other	FLY BUY ULTRALIGHTS	Reciprocating	1	Infringement of the Stansted TMZ1 (Class G) and the Stansted CTR (Class D) by an Ikarus C42 at 1800ft. Attempts to contact the a/c unsuccessful. Traffic info given. Standard separation maintained.	A/c initially observed in the TMZ with no Mode C. A/c subsequently selected squawk code 7010 and was indicating 1800ft inside the CTR. Inbound traffic delayed. This a/c had a second infringement of CAS at 1140UTC which triggered CAIT. Investigations indicate that that there was an unverified infringement of the Stansted CTA above 1500ft.☐ CAA Closure: No further action at this time. The airframe will however be monitored for future occurrences
201212089	04/10/2012	EGTT : London (FIR)	London City	5 NE	D	CTA	HUGHES	Turboshaft	1	Infringement of the London City CTA (Class D) by a Hughes 369 squawking 5032 at 2000ft. Traffic info given. Standard separation maintained.	A City departure was given a wide vector and second departure was given an aborted take-off both due to the now conflicting SID tracks and conflict with the infringer. After flying into the CTA the a/c was picked up on the scan by Farnborough and instructed to descend immediately not above 1400ft.
201212114	04/10/2012	EGTT : London (FIR)	TRIPO	4 N	A	TMA	BEECH	Reciprocating	1	Infringement of the LTMA (Class A) by a BE33 resulting in a loss of separation against a C550. Traffic info given.	Appropriate CAA action taken.
201212114	04/10/2012	EGTT : London (FIR)	TRIPO	4 N	A	TMA	CESSNA	Turbofan	2	Infringement of the LTMA (Class A) by a BE33 resulting in a loss of separation against a C550. Traffic info given.	Appropriate CAA action taken.

201212120	26/09/2012	EGTT : London (FIR)	Yeovilton	R/W09	G	ATZ	OTHER	Unknown		UK AIRPROX 2012/153 - Military a/c and a PA28 at 1000ft, Yeovilton R/W09.	
201212120	26/09/2012	EGTT : London (FIR)	Yeovilton	R/W09	G	ATZ	PIPER	Reciprocating	1	UK AIRPROX 2012/153 - Military a/c and a PA28 at 1000ft, Yeovilton R/W09.	
201212122	04/10/2012	EGTT : London (FIR)	Rochester 4S		A	TMA	LUSCOMBE	Reciprocating	1	Infringement of the LTMA (Class A) by a Luscombe 8E at 2800ft.	Pilot given a QNH of 1010mb before departure but failed to set QNH on the altimeter, which was still set to 993mb (QFE) leading the pilot to believing he was operating at a height of 2300ft. Pilot realised his error and descended below the base of CAS (2500ft). Pilot error acknowledged and lessons appear to have been learnt.
201212167	04/10/2012	EGTT : London (FIR)	White Waltham	2	A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by a PA28 squawking 7000. Heathrow departures suspended. Standard separation maintained.	Pilot error acknowledged and appropriate follow up action taken.
201212228	06/10/2012	EGTT : London (FIR)	Stapleford	2 NW	D	CTA	PIPER	Reciprocating	1	Two infringements of the Stansted CTA (Class D) by a PA28. Traffic info given. Standard separation maintained.	Extended vectors given to a Stansted inbound to avoid the infringer. Appropriate ATC follow up action taken.

201212251	06/10/2012	EGTT : London (FIR)	United Kingdom		A	Other	CIRRUS	Reciprocating	1	Infringement of Airway Q41 (Class A) by an SR22 at FL75 descending. Standard separation maintained.	When challenged the pilot said that he had filed an airways flight plan and presumed that he was cleared into CAS because he had been handed over from the previous sector.
201212257	06/10/2012	EGTT : London (FIR)	ALESO	25N	A	CTA	PIPER	Reciprocating	1	Infringement of the Worthing CTA (Class A) by a PA32 at FL88.	CAA Closure: No further action taken due to elapsed time.
201212260	06/10/2012	EGTT : London (FIR)	Stansted	SW	G	Restrict ed area	ZENAIR	Reciprocating	1	Infringement of the Stansted TMZ2 (Class G) by a Zenair. No Stansted inbounds were in the area at the time of the event.	A helicopter enroute to an incident at Hatfield, was in close proximity and reported visual with the a/c. The a/c was seen to turn towards Hunsdon, where it appeared to overfly the strip and turn right to land at 1409hrs. The CFI has subsequently been contacted and the pilot has been de-briefed regarding Hunsdon procedures.
201212268	06/10/2012	EGTT : London (FIR)	EGBB (BHX): Birmingham	14 S	D	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA/CTR (Class D) by a C152 at 2500ft squawking 7000. Standard separation maintained.	Several blind transmissions made. Check all placed on departures. Traffic info and delaying vectors given to an inbound B757. C152 was flown by a student flying solo cross country. The student had been specifically briefed to avoid Birmingham CAS before he departed and told, if in doubt, to contact Birmingham radar. However, the student had become temporarily lost but did not contact Birmingham or pick up the visual clues that he had been given to avoid entering CAS.□ CAA Closure: No further action taken due to elapsed time.
201212268	06/10/2012	EGTT : London (FIR)	EGBB (BHX): Birmingham	14 S	D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA/CTR (Class D) by a C152 at 2500ft squawking 7000. Standard separation maintained.	Several blind transmissions made. Check all placed on departures. Traffic info and delaying vectors given to an inbound B757. C152 was flown by a student flying solo cross country. The student had been specifically briefed to avoid Birmingham CAS before he departed and told, if in doubt, to contact Birmingham radar. However, the student had become temporarily lost but did not contact Birmingham or pick up the visual clues that he had been given to avoid entering CAS.□ CAA Closure: No further action taken due to elapsed time.

201212269	06/10/2012	EGTT : London (FIR)	Southampton	16 SW	D	CTA	GRUMMAN	Reciprocating	1	Infringement of the Solent CTA (Class D) by a Grumman AA5 at 3200ft squawking 7000. Blind calls made with no response. A/c eventually called up with pilot advising ATC that he believed he had infringed CAS. Standard separation maintained.	Pilot error acknowledged.
201212318	09/10/2012	EGTT : London (FIR)	Cambridge	SW	A	TMA	OTHER	Other	1	Infringement of the London TMA (Class A) by a military a/c squawking 4670 at FL100. Avoiding action given. Standard separation maintained.	The Luton radar controller had been given a prenote by London Mil on the a/c inbound to Northolt via the Charlie Route. A/c should have been level 2400ft 5nm before BKY. Pilot was instructed to descend to 2400ft and to resume the Charlie Route.
201212318	09/10/2012	EGTT : London (FIR)	Cambridge	SW	A	TMA	HAWKER SIDDELEY	Turbofan	2	Infringement of the London TMA (Class A) by a military a/c squawking 4670 at FL100. Avoiding action given. Standard separation maintained.	The Luton radar controller had been given a prenote by London Mil on the a/c inbound to Northolt via the Charlie Route. A/c should have been level 2400ft 5nm before BKY. Pilot was instructed to descend to 2400ft and to resume the Charlie Route.
201212361	10/10/2012	EGTT : London (FIR)	Bovingdon	3 NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 squawking 0013 at 2000ft. Traffic info and avoiding action given. GLF5 in descent was instructed to stop descent at 4000ft.	Standard separation maintained. Pilot (an instructor) had initially selected a course setting that was too far towards the Northwest.☐ CAA Closure: Appropriate advice given to the instructor involved on the techniques he might employ to mitigate the risk of this type of incident happening again, with emphasis on not relying too heavily on a GPS based solution.
201212361	10/10/2012	EGTT : London (FIR)	Bovingdon	3 NE	D	CTR	GULFSTREAM	Turbofan	2	Infringement of the Luton CTR (Class D) by a PA28 squawking 0013 at 2000ft. Traffic info and avoiding action given. GLF5 in descent was instructed to stop descent at 4000ft.	Standard separation maintained. Pilot (an instructor) had initially selected a course setting that was too far towards the Northwest.☐ CAA Closure: Appropriate advice given to the instructor involved on the techniques he might employ to mitigate the risk of this type of incident happening again, with emphasis on not relying too heavily on a GPS based solution.

201212402	11/10/2012	EGTT : London (FIR)	Syerston		G	ATZ	EUROCOPTER	Turboshaft	1	Infringement of the Syerston ATZ (Class G) by a EC120 at 600ft. Pilot flew through the approach lanes of both circuits at approx 600ft on 1004. Traffic info given. Motor Glider on final approach flew a go-around.	Pilot had been informed that Syerston was active using R/W11 RH for military motor gliders with four in the circuit and R/W11 LH for convention gliders winch launching to 3000ft. Pilot informed of his position and subsequently reminded that Syerston was an Air Ground unit and therefore could not provide any clearances. It is noted that a trainee solo pilot had just landed only 30secs earlier within the LH circuit.
201212402	11/10/2012	EGTT : London (FIR)	Syerston		G	ATZ		Reciprocating	1	Infringement of the Syerston ATZ (Class G) by a EC120 at 600ft. Pilot flew through the approach lanes of both circuits at approx 600ft on 1004. Traffic info given. Motor Glider on final approach flew a go-around.	Pilot had been informed that Syerston was active using R/W11 RH for military motor gliders with four in the circuit and R/W11 LH for convention gliders winch launching to 3000ft. Pilot informed of his position and subsequently reminded that Syerston was an Air Ground unit and therefore could not provide any clearances. It is noted that a trainee solo pilot had just landed only 30secs earlier within the LH circuit.
201212472	13/10/2012	EGTT : London (FIR)	Exeter	12 N	A	Other	CESSNA	Reciprocating	1	Infringement of Airway N864 by a C182 squawking 7000 at FL78. Standard separation maintained.	Telephone call was made to Exeter who confirmed that they were not working the a/c but believed it had departed from Dunkeswell. Shortly afterwards the squawk was seen to change to a London FIR squawk 1177 and identified. FIR were requested to pass a message to the pilot to telephone Cardiff upon his arrival at Haverfordwest. pilot misjudged the time it would take to pass underneath CAS and climbed too early.
201212495	14/10/2012	EGTT : London (FIR)	Doncaster Sheffield		D	CTR	PIPER	Reciprocating	1	Infringement of the Doncaster Sheffield CTR (Class D) by a PA28. Standard separation maintained.	
201212589	13/10/2012	EGTT : London (FIR)	EGGD (BRS): Bristol/Lulsgate	2nm North West	D	CTR	ROBINSON	Reciprocating	1	Infringement of the Bristol CTR (Class D) by a R22 squawking 5070 at 1300ft. Standard separation maintained.	Pilot had requested to enter Bristol CAS at Clevedon VRP to rejoin the Bristol circuit for landing. Pilot had been instructed to remain outside CAS and to contact the Tower for onward clearance. Appropriate local ATC action to be taken.

201212610	16/10/2012	EGTT : London (FIR)	EGXY: Syerston		G	ATZ	PILATUS	Turboprop	1	Infringement of the Syerston ATZ Gliding Site (Class G) by a PC12 at 1700ft AGL. No radio communication had been heard from the a/c. No other a/c were airborne at the time.	
201212667	16/10/2012	EGTT : London (FIR)	Birmingham		D	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA-2 and CTR (Class D) by a C152 squawking 7000 at 2100ft. Traffic info and avoiding action given. Separation lost. Check all imposed.	The investigation findings were that an incorrect setting by the student was not picked up by the instructor. The root cause of the incident was the instructor letting the student get too close to CAS before taking action. <input type="checkbox"/> CAA Closure: <input type="checkbox"/> Warning letter sent.
201212667	16/10/2012	EGTT : London (FIR)	Birmingham		D	CTA	FOKKER	Turbofan	2	Infringement of the Birmingham CTA-2 and CTR (Class D) by a C152 squawking 7000 at 2100ft. Traffic info and avoiding action given. Separation lost. Check all imposed.	The investigation findings were that an incorrect setting by the student was not picked up by the instructor. The root cause of the incident was the instructor letting the student get too close to CAS before taking action. <input type="checkbox"/> CAA Closure: <input type="checkbox"/> Warning letter sent.
201212667	16/10/2012	EGTT : London (FIR)	Birmingham		D	CTA	AIRBUS	Turbofan	2	Infringement of the Birmingham CTA-2 and CTR (Class D) by a C152 squawking 7000 at 2100ft. Traffic info and avoiding action given. Separation lost. Check all imposed.	The investigation findings were that an incorrect setting by the student was not picked up by the instructor. The root cause of the incident was the instructor letting the student get too close to CAS before taking action. <input type="checkbox"/> CAA Closure: <input type="checkbox"/> Warning letter sent.
201212677	17/10/2012	EGTT : London (FIR)	EGSS (STN): London/Stansted	SW	D	CTA	CIRRUS	Reciprocating	1	Alleged infringement of the Stansted CTA (Class D) by an SR22 indicating 2000ft on Mode C. Standard separation maintained.	A/c has a faulty transponder and is due for repair. A/c grounded in the interim.

201212703	17/10/2012	EGTT : London (FIR)	EGBB (BHX): Birmingham	15 S	D	CTA	CEA	Reciprocating	1	Infringement of the Birmingham CTA-2 (Class D) by a DR300 at 4000ft. Check all imposed. Standard separation maintained.	Instructor failed to descend below CTA due being distracted by teaching while approaching Wellesbourne Mountford from the West.☐ CAA Closure: No further action taken due to elapsed time.
201212720	18/10/2012	EGTT : London (FIR)	London Gatwick	13 E	D	CTA	CIRRUS	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by an SR20 at 2000ft. Avoiding action and traffic info given to an inbound A319. Standard separation maintained.	Investigation under 201202569.
201212753	18/10/2012	EGTT : London (FIR)	Birmingham	14 S	A	CTA	STODDARD HAMILTON	Reciprocating	1	Infringement of the Birmingham CTA-2 (Class D) and Daventry CTA (Class A) by a Glasair at FL105. Check all imposed.	Pilot contacted ATC after landing and apologised for his error. A/c on an airtest and a powered climb. Pilot flying with reference to the surface and believes a strong westerly wind caused the a/c to drift East. Pilot misidentified Stratford as Worcester. Pilot advised of listening squawk 0010.
201212764	18/10/2012	EGTT : London (FIR)	EGXE : Leeming		G	ATZ	ROBINSON	Reciprocating	1	Infringement of the Leeming ATZ (Class G) by an R44 at 1700ft squawking 7000. No contact RT established. Inbound military a/c confirmed visual with the R44 and repositioned. R44 changed its squawk to 7040 and was thereby identified.	
201212801	20/10/2012	EGTT : London (FIR)	EGCB : Manchester/Barton	2 NE	D	CTR	FLY BUY ULTRALIGHTS	Reciprocating	1	Infringement of the Manchester CTR (Class D) by a C42 squawking 7351 indicating 2100ft. CAIT activated. Pilot requested to ring in after landing. Standard separation maintained.	Poor RT was noted as a number of crossed transmissions with other a/c were heard and it is also noted that the pilot had difficulty in responding to requests for his a/c type. The pilot misjudged his position, assuming that he was further North (where the upper limit is 3500ft). The pilot was in radio contact with Barton Information and, following their instructions, he contacted Manchester Approach and reduced altitude below the required limit.☐ CAA Closure: No further action taken due to elapsed time.

201212805	20/10/2012	EGTT : London (FIR)	EGGW (LTN): London/Luton	10 E	D	CTR	AEROSPATIALE	Turboshaft	1	Infringement of the Luton CTR (Class D) by a Gazelle at 1000ft resulting in a loss of separation against an inbound CL600.	Avoiding action not given due a/c on diverging tracks. Pilot subsequently stated he took an unplanned change to his routeing due to weather but believed he had remained outside CAS.
201212805	20/10/2012	EGTT : London (FIR)	EGGW (LTN): London/Luton	10 E	D	CTR	CANADAIR	Turbofan	2	Infringement of the Luton CTR (Class D) by a Gazelle at 1000ft resulting in a loss of separation against an inbound CL600.	Avoiding action not given due a/c on diverging tracks. Pilot subsequently stated he took an unplanned change to his routeing due to weather but believed he had remained outside CAS.
201212816	21/10/2012	EGTT : London (FIR)	POL	5 W	A	TMA	BOLKOW	Reciprocating	1	Infringement of the Manchester TMA (Class A) by a Bo208 at 4000ft squawking 7000. Standard separation maintained.	Pilot changed destination enroute due to deteriorating weather. Destination further changed due to further deterioration in visibility and a/c returned to departure airfield. Pilot error acknowledged.
201212825	20/10/2012	EGTT : London (FIR)	Doncaster		D	CTA	CIRRUS	Reciprocating	1	Infringement of the Doncaster CTA (Class D) by a Cirrus SR22 at 3600ft. Traffic info given. Standard separation maintained.	
201213089	27/10/2012	EGTT : London (FIR)	Southampton	8 N	D	CTA	ROBINSON	Reciprocating	1	Infringement of the Solent CTA (Class D) by an R44 at 1900ft. Standard separation maintained.	

201213091	27/10/2012	EGTT : London (FIR)	EGSS (STN): London/Stansted	8 SW	G	Other	HAWKER	Turbofan	1	Infringement of the Stansted TMZ2 (Class G) by a Hawker Hunter squawking 7010 with no Mode C. Traffic info and avoiding action given. Squawk subsequently changed to 4670 and began displaying Mode C readout.	The RT and radar recordings have subsequently confirmed that the a/c also infringed the Luton CTR (Class D) whilst in contact with Luton ATC. Poor visibility and showers are noted.☐ CAA Closure: No further action possible due to elapsed time.
201213091	27/10/2012	EGTT : London (FIR)	EGSS (STN): London/Stansted	8 SW	G	Other	BOEING	Turbofan	2	Infringement of the Stansted TMZ2 (Class G) by a Hawker Hunter squawking 7010 with no Mode C. Traffic info and avoiding action given. Squawk subsequently changed to 4670 and began displaying Mode C readout.	The RT and radar recordings have subsequently confirmed that the a/c also infringed the Luton CTR (Class D) whilst in contact with Luton ATC. Poor visibility and showers are noted.☐ CAA Closure: No further action possible due to elapsed time.
201213094	28/10/2012	EGTT : London (FIR)	Ware VRP		D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C172 squawking 7000 at 2400ft. A/c confirmed with Mode S. Standard separation maintained.	The investigation has revealed that the a/c entered the CTA by approx 0.5nm before commencing an immediate 180deg turn to exit and that no further action is required.
201213095	27/10/2012	EGTT : London (FIR)	Mayfield VOR area		A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA28 squawking 3763 observed at 3300ft. A/c confirmed with Mode S and traced to Shoreham who stated that a/c had an instructor on board. Standard separation maintained.	Appropriate CAA action is being taken as a result of the incident.
201213208	30/10/2012	EGTT : London (FIR)	Bovingdon	4 N	D	CTR	PIPER	Reciprocating	1	Infringement of the Luton CTR (Class D) by a PA28 squawking 7000 with Mode C showing 2300ft. Traffic info given. Standard separation maintained.	Check all imposed to ensure no departures from R/W26. A/c manoeuvred inside the CTR North of Bovingdon and climbed as high as 2700ft according to its Mode C. A/c was tracked and identity confirmed. Pilot later stated that he was aware of the CTA at 2500ft, and in his attempts to stay clear of the CTA inadvertently strayed into the CTR. Pilot stated he was using GPS and that the maps did not show enough detail of the CTR boundary.

201213209	30/10/2012	EGTT : London (FIR)	Southampton	12 N	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 squawking 7000 at 3000ft. Standard separation maintained.	Initially unknown, the a/c had entered the CTA tracking SSW bound. Several blind calls had been made with no response. A/c turned Westbound leaving the CTA and descended to 2000ft before climbing back to 2500ft. Squawk subsequently changed to 7354 and a/c details were obtained from Bournemouth.
201213223	30/10/2012	EGTT : London (FIR)	Liverpool	3 W Capenhurst R311	D	CTR	PIPER	Reciprocating	1	Infringement of the Liverpool CTR (Class D) and Restricted Zone R311 by a PA38 squawking 7000 at 1500ft. Standard separation maintained.	Pilot had called requesting zone entry between River Mersey and River Dee not above 1500ft and instructed to squawk 0260. Liverpool had no position information at that time and no primary contact was observed. A few seconds later Hawarden Radar called to inform them that the a/c had infringed their airspace. The pilot had been instructed to squawk 7000 and remain outside CAS. No other traffic to affect at that time. Pilot was informed.
201213384	02/11/2012	EGTT : London (FIR)	Stansted	SW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C152 squawking 7000 indicating an altitude of 2400ft. Callsign confirmed with Mode S. CAIT activated.	Blind calls were made on the Essex and Luton frequencies without success. A/c climbed to 2600ft before Southbound, descending and leaving CAS. A/c was on a general handling flight with an instructor on board.
201213476	05/11/2012	EGTT : London (FIR)	Snitterfield	1 W	D	CTA	CIRRUS	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by an SR20 at 3300ft squawking 7000. Blind transmissions made with no response. Standard separation maintained.	
201213477	05/11/2012	EGTT : London (FIR)	EGNX (EMA): NOTTINGHAM EAST MIDLANDS	NW	D	CTA	PIPER	Reciprocating	1	Infringement of the East Midlands CTA (Class D) by a PA28 at 2200ft squawking 7000. A/c subsequently called up requesting a QDM for planned destination. A/c vectored before being released on own navigation. A/c landed safely.	Standard separation maintained. Pilot subsequently contacted ATC and apologised for their error.

201213549	07/11/2012	EGTT : London (FIR)	Midhurst	4 E	A	TMA	PIPER	Reciprocating	1	Infringement of the London TMA (Class A) by a PA28 squawking 0430 at 3000ft. Separation lost with HS125 inbound to Farnborough. STCA activated.	ATC were unable to turn an HS125 away from the PA28 due to conflicting traffic and the HS125 passed behind PA28.☐ CAA Closure:☐ Incorrect altimeter setting by the PA28 pilot. Appropriate flight crew personnel action has been taken.
201213549	07/11/2012	EGTT : London (FIR)	Midhurst	4 E	A	TMA	HAWKER SIDDELEY	Turbofan	2	Infringement of the London TMA (Class A) by a PA28 squawking 0430 at 3000ft. Separation lost with HS125 inbound to Farnborough. STCA activated.	ATC were unable to turn an HS125 away from the PA28 due to conflicting traffic and the HS125 passed behind PA28.☐ CAA Closure:☐ Incorrect altimeter setting by the PA28 pilot. Appropriate flight crew personnel action has been taken.
201213549	07/11/2012	EGTT : London (FIR)	Midhurst	4 E	A	TMA	AIRBUS	Turbofan	2	Infringement of the London TMA (Class A) by a PA28 squawking 0430 at 3000ft. Separation lost with HS125 inbound to Farnborough. STCA activated.	ATC were unable to turn an HS125 away from the PA28 due to conflicting traffic and the HS125 passed behind PA28.☐ CAA Closure:☐ Incorrect altimeter setting by the PA28 pilot. Appropriate flight crew personnel action has been taken.
201213558	07/11/2012	EGTT : London (FIR)	EGKB (BOH): Biggin hill	7nm South	D	CTA	CIRRUS	Reciprocating	1	Infringement of the Gatwick CTA (Class D) by a SR22 squawking 7047 at 2100ft. CAIT activated. Biggin Hill confirmed that were in contact with the a/c but by this time it had left CAS.	Analysis of the radar replay has subsequently confirmed that there was no loss of separation.
201213561	07/11/2012	EGTT : London (FIR)	Luton	10nm E	D	CTR	CESSNA	Reciprocating	1	Infringement of the Luton CTR (Class D) by a C150 squawking 5033. Avoiding action and traffic info given. Standard separation maintained.	An inbound B737 was approx 15nm from touchdown when TC observed the C150 about to enter the Luton CTR. TC requested Farnborough ATC to turn C150 left away from the final approach track. Farnborough ATC allegedly continued C150 with a right turn. TC initiated avoiding action to the B737 and discontinued the B737's approach to R/W26. Investigations indicates that a C150 receiving navigational assistance from Farnborough LARS made a minor incursion (<0.25nm) into the Luton CTR. A B737 inbound to Luton at 4000ft was turned away. Coordination attempted between LTC Luton and Farnborough LARS however, at the time, the C150 was already in a right hand turn.☐ CAA Closure: No further CAA action necessary.

201213561	07/11/2012	EGTT : London (FIR)	Luton	10nm E	D	CTR	BOEING	Turbofan	2	Infringement of the Luton CTR (Class D) by a C150 squawking 5033. Avoiding action and traffic info given. Standard separation maintained.	An inbound B737 was approx 15nm from touchdown when TC observed the C150 about to enter the Luton CTR. TC requested Farnborough ATC to turn C150 left away from the final approach track. Farnborough ATC allegedly continued C150 with a right turn. TC initiated avoiding action to the B737 and discontinued the B737's approach to R/W26. Investigations indicates that a C150 receiving navigational assistance from Farnborough LARS made a minor incursion (<0.25nm) into the Luton CTR. A B737 inbound to Luton at 4000ft was turned away. Coordination attempted between LTC Luton and Farnborough LARS however, at the time, the C150 was already in a right hand turn.□ CAA Closure: No further CAA action necessary.
201213668	09/11/2012	EGTT : London (FIR)	EGSS (STN): London/Stansted	12 NE	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA28 at 2200ft. Traffic info given. Two inbound a/c given vectors to remain clear of intruder. Standard separation maintained.	Student pilot.
201213682	08/11/2012	EGTT : London (FIR)	Birmingham	9.5 SE	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA (Class D) by a PA28 squawking 7000 indicating 1800ft. Inbound DHC8 was given a turn back to the right to avoid the intruder. Separation lost. ATC training in progress.	It has subsequently been revealed that the a/c was piloted by a solo student undertaking a cross country exercise. Student had selected heading 036M instead of 056M. Further training on navigation will be undertaken with an instructor.
201213682	08/11/2012	EGTT : London (FIR)	Birmingham	9.5 SE	D	CTA	DE HAVILLAND	Turboprop	2	Infringement of the Birmingham CTA (Class D) by a PA28 squawking 7000 indicating 1800ft. Inbound DHC8 was given a turn back to the right to avoid the intruder. Separation lost. ATC training in progress.	It has subsequently been revealed that the a/c was piloted by a solo student undertaking a cross country exercise. Student had selected heading 036M instead of 056M. 201213711	11/11/2012	EGTT : London (FIR)	EGSS (STN): London/Stansted		D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTA and CTR (Class D) by a C172 with Mode C indicating between 2000-2400ft. CAIT activated. Avoiding action and traffic info given. Loss of separation. TC broke off three a/c on approach to R/W22.	Investigations indicate this was a significant event that resulted in two losses of separation against Stansted inbound a/c. A further three commercial a/c were delayed to ensure separation was maintained. C172 pilot later apologised, commenting they had made a navigational error, and on realising their error, had not contacted Stansted ATC due to concerning themselves with correcting their flight path to avoid infringing Cambridge. Low sun and mist were cited as factors for the navigation error. Pilot stated they would not fly this type of flight again without an alarm system or GPS to warn of CAS.
201213711	11/11/2012	EGTT : London (FIR)	EGSS (STN): London/Stansted		D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTA and CTR (Class D) by a C172 with Mode C indicating between 2000-2400ft. 201213777	04/10/2012	EGTT : London (FIR)	SAM	18nm East	A	TMA	PIPER	Unknown	1	Infringement of the London TMA (Class A) by a PA32 wearing a Farnborough squawk at 5000ft.	PA32 was receipt of a Traffic Service from Farnborough West and had planned to route at 5000ft DCT-SAM-DCT-EGKA, but rerouted DCT-SAM-DCT-BITLI. At the time the pilot was concentrating on his imminent approach and lost awareness of surrounding airspace.
201213806	11/11/2012	EGTT : London (FIR)	BPK	5nm East	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C182 squawking 7000 at 1000ft.	An unscheduled orbit of Hoddesdon had been made and having estimated the ground height to be 400ft and aware of the 1500ft to 2500ft restriction, the a/c performed an orbit at 1400ft. In the orbit or shortly afterwards it is believed that the a/c was affected by a large thermal up current from the nearby power station which provided unexpected lift. Immediate action to descend was taken once the rate of climb was noticed.
201213807	11/11/2012	EGTT : London (FIR)	EGSS (STN): London/Stansted	TMZ 2	G	Restricted area	OTHER	Reciprocating	1	Infringement of the Stansted TMZ2 (Class G) by a Skyranger routeing South East. A/c details passed by Stapleford.	
201213808	11/11/2012	EGTT : London (FIR)	EGSS (STN): London/Stansted		G	Restricted area	PIPER	Reciprocating	1	Infringement of the Stansted TMZ 1 (Class G) by a PA28 routeing northbound displaying Mode A only. Two inbounds given traffic info.	Pilot apologised over the RT for the inadvertent non-selection of Mode C.

201213820	07/11/2012	EGTT : London (FIR)	TIPIL		D	CTA	PIPER	Reciprocating	1	Possible infringement of the Manchester CTA (Class D) by an a/c heading Southwest on a 6166 squawk. CAIT activated. Traffic info given. Standard separation maintained.	The 6166 squawk was observed, with Mode C indicating 5600ft on a QNH of 1015, in the vicinity of TIPIL where the base of CAS is 5500ft. MACC telephoned Doncaster APP to ascertain actual level of a/c and were informed the a/c was at 5400ft. SE-T stopped a Manchester inbound at FL110 in reaction to the CAIT alert in order to maintain separation from the 6166 squawk. 6166 squawk then changed to 4551, with Mode C indicating 5400ft. CAIT deactivated.□ CAA Closure: Appropriate CAA action is being taken as a result of this incident.
201213820	07/11/2012	EGTT : London (FIR)	TIPIL		D	CTA	UNKNOWN	Unknown		Possible infringement of the Manchester CTA (Class D) by an a/c heading Southwest on a 6166 squawk. CAIT activated. Traffic info given. Standard separation maintained.	The 6166 squawk was observed, with Mode C indicating 5600ft on a QNH of 1015, in the vicinity of TIPIL where the base of CAS is 5500ft. MACC telephoned Doncaster APP to ascertain actual level of a/c and were informed the a/c was at 5400ft. 201213856	26/10/2012	EGTT : London (FIR)	EGVN (BZZ): Brize Norton	NE	D	CTR	PIPER	Reciprocating	1	Infringement of the Brize Norton CTR (Class D) by a PA28 at 2100ft.	
201213903	11/11/2012	EGTT : London (FIR)	Benson	SE	A	TMA	GROB	Reciprocating	1	Infringement of the London TMA (Class A) by a Grob 115 squawking 3710 climbing to 4000ft. Standard separation maintained.	Grob 115 was in receipt of a Traffic Service. A/c was observed to track South towards the edge of the London CAS, with base of 3500ft. His altitude had been reconfirmed and also his position and proximity to CAS. Pilot confirmed that he was aware of the CAS and asked to be kept informed. However during the process a/c was observed to enter CAS from the North before turning West and leaving CAS 10secs later. Pilot was subsequently advised not to operate any further South East of his position. Appropriate follow up has been taken.
201213980	18/11/2012	EGTT : London (FIR)	EGBB (BHX): Birmingham	17 SSE	A	CTA	BEECH	Reciprocating	1	Infringement of the Birmingham CTA 2 and 4 (Class D) / Daventry CTA (Class A) by a BE19 at 4500ft squawking 7000. Inbound FK70 given traffic info and vectored clear. Standard separation maintained.	Be19 pilot subsequently called on frequency whereupon the a/c was positively identified. Pilot was aware he had infringed CAS and apologised for his error.

201214151	22/11/2012	EGTT : London (FIR)	Luton		D	CTR	UNKNOWN	Reciprocating	1	Infringement of the Luton CTR (Class D) by an unknown slow moving primary contact. Check all imposed and subsequently lifted a few mins later. Two departures were delayed. Standard separation maintained.	
201214151	22/11/2012	EGTT : London (FIR)	Luton		D	CTR	AIRBUS	Turbofan	2	Infringement of the Luton CTR (Class D) by an unknown slow moving primary contact. Check all imposed and subsequently lifted a few mins later. Two departures were delayed. Standard separation maintained.	
201214151	22/11/2012	EGTT : London (FIR)	Luton		D	CTR	AIRBUS	Turbofan	2	Infringement of the Luton CTR (Class D) by an unknown slow moving primary contact. Check all imposed and subsequently lifted a few mins later. Two departures were delayed. Standard separation maintained.	
201214154	23/11/2012	EGTT : London (FIR)	Fairoaks		A	CTR	SLINGSBY	Reciprocating	1	Infringement of the London CTR (Class A) by a Slingsby T67 squawking 7000 indicating 2500ft. Heathrow departures stopped. Traffic info given. Standard separation maintained.	CAA Closure: No further action possible due to elapsed time.
201214287	23/11/2012	EGTT : London (FIR)	EGBB (BHX): Birmingham	8nm SSW	D	CTA	PIPER	Reciprocating	1	Infringement of the Birmingham CTA 2 (Class D) by a PA28 at 3100ft squawking 7000. Blind calls made to no effect. Standard separation maintained.	Pilot became distracted by deteriorating weather conditions and subsequently entered CAS. Pilot error acknowledged.

201214289	23/11/2012	EGTT : London (FIR)	EGNH (BLK): Blackpool	R312	G	Restricted area	PIPER	Reciprocating	1	Infringement of R312 (Class G) by a PA28 at 1400ft whilst on approach to Blackpool.	Pilot stated that he was unfamiliar with the area and erroneously acted on a call by ATC to advise when ready to turn left on to right base. The pilot then initiated a descent for R/W28 where the infringement took place. ATC instructed the pilot to make an immediate turn to exit the restricted area.
201214341	23/11/2012	EGTT : London (FIR)	EGSL : Andrewsfield		D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C152 squawking 7000 at 2200ft. A/c identified with Mode S. Standard separation maintained.	
201214379	23/11/2012	EGTT : London (FIR)	EGKB (BQH): Biggin hill		G	ATZ	CIRRUS	Reciprocating	1	Infringement of the Biggin Hill ATZ (Class G) by an SR20 at 2300ft. Standard separation maintained.	SR20 called ATC with intention to transit Biggin Hill ATZ and had been instructed to report with 5nm to run for onward clearance as per SOP, which was read back correctly. SR20 was then observed approaching overhead with 1nm to run. Pilot was informed they had entered ATZ without clearance.
201214456	29/11/2012	EGTT : London (FIR)	EGCN : DONCASTER SHEFFIELD		D	CTR	PIPER	Reciprocating	1	Infringement of the Doncaster CTR (Class D) by a PA28. Controller instructed PA28 to vacate immediately. Traffic info given. Standard separation maintained.	
201214456	29/11/2012	EGTT : London (FIR)	EGCN : DONCASTER SHEFFIELD		D	CTR	BOEING	Turbofan	2	Infringement of the Doncaster CTR (Class D) by a PA28. Controller instructed PA28 to vacate immediately. Traffic info given. Standard separation maintained.	

201214473	29/11/2012	EGTT : London (FIR)	EGCC (MAN): Manchester/Intl	10 SW	D	CTR	HUGHES	Unknown	1	Infringement of the Manchester CTR (Class D) by a Hughes 369 at 1600ft. Standard separation maintained.	A departure on a HON1R SID given a runway heading to maintain separation.☐ CAA Closure: No further action possible due to elapsed time.
201214521	01/12/2012	EGTT : London (FIR)	EGSS (STN): London/Stansted	12 NE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C172 at 3000ft squawking 7000. Several blind transmissions made with no response. Separation lost against an inbound B737. Traffic info given.	CAA Closure: The aero club concerned has been contacted by ATC and appropriate action is being taken as a result of this infringement.
201214521	01/12/2012	EGTT : London (FIR)	EGSS (STN): London/Stansted	12 NE	D	CTA	BOEING	Turbofan	2	Infringement of the Stansted CTA (Class D) by a C172 at 3000ft squawking 7000. Several blind transmissions made with no response. Separation lost against an inbound B737. Traffic info given.	CAA Closure: The aero club concerned has been contacted by ATC and appropriate action is being taken as a result of this infringement.
201214536	02/12/2012	EGTT : London (FIR)	EGGW (LTN): London/Luton	13 E	D	CTA	PIPER	Reciprocating	1	Infringement of Luton CTA (Class D) by a PA28R at 2700ft. Standard separation maintained.	Traffic info passed to an Falcon 7X and approach continued. PA28R infringed CAS again 5mins later and avoiding action given to an inbound A319. PA28 subsequently descended beneath CAS and was observed to land. See also 201007851.
201214537	02/12/2012	EGTT : London (FIR)	ABBOT		A	TMA	GLOBE	Reciprocating	1	Infringement of the LTMA (Class A) by a Globe GC1B at 3800ft squawking 7000. Avoiding action and traffic info given. Separation lost with a B737 inbound to Stansted.	Pilot and his passenger thought he had remained outside of CAS at 3400ft. However, he did state that he had a transponder problem in the summer and so would arrange to have it checked again as a result of this incident.☐ CAA Closure: Pilot to have transponder checked. Advice given to allow a greater margin for error when flying close to CAS.

201214537	02/12/2012	EGTT : London (FIR)	ABBOT		A	TMA	BOEING	Turbofan	2	Infringement of the LTMA (Class A) by a Globe GC1B at 3800ft squawking 7000. Avoiding action and traffic info given. Separation lost with a B737 inbound to Stansted.	Pilot and his passenger thought he had remained outside of CAS at 3400ft. However, he did state that he had a transponder problem in the summer and so would arrange to have it checked again as a result of this incident.☐ CAA Closure: Pilot to have transponder checked. Advice given to allow a greater margin for error when flying close to CAS.
201214545	02/12/2012	EGTT : London (FIR)	Ware	3 SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a PA32 at 2300ft squawking 7000. Standard separation maintained.	CAA Closure: No further action possible due to elapsed time.
201214580	02/12/2012	EGTT : London (FIR)	EGBB (BHX): Birmingham	SE	D	CTR	CESSNA	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a C152 at 1800ft. Separation lost against an inbound B777 and another inbound airliner (twice). Traffic info given.	A/c operated by a solo student and was initially observed to have been an RT fail. A/c identified via coordination with D&D, who had previously been in contact with the a/c. RT contact eventually established and a/c handed over to Coventry ATC. Reporter states that there were issues with the pilot's language proficiency over the RT. The ATC investigations into this incident revealed that an RT FAIL squawk was observed to the SW of Birmingham tracking ENE with no Mode C showing. Just before the RT FAIL entered CTA2, D&D rang and advised they were working a lost student pilot who was having radio problems and beginning to panic. The aircraft's altitude was unknown but D&D were asked to ascertain its level which was confirmed to be 2000ft. The RT FAIL entered CTA2 and separation was lost with an airliner which was downwind left hand for R/W33. Separation was then lost with the B777 on the ILS R/W33 as the RT FAIL entered the CTR towards HON. The RT FAIL called on 118.050 just South of HON turning South but, before the aircraft could be identified, separation was lost against the original airliner which was heading North at 4000ft.☐ CAA Closure: Following this incident, student pilot had extra navigation training, including diversion and lost procedure revision, and has since completed his PPL.
201214580	02/12/2012	EGTT : London (FIR)	EGBB (BHX): Birmingham	SE	D	CTR	BOEING	Turbofan	2	Infringement of the Birmingham CTR (Class D) by a C152 at 1800ft. The aircraft's altitude was unknown but D&D were asked to ascertain its level which was confirmed to be 2000ft. The RT FAIL entered CTA2 and separation was lost with an airliner which was downwind left hand for R/W33. Separation was then lost with the B777 on the ILS R/W33 as the RT FAIL entered the CTR towards HON. The RT FAIL called on 118.050 just South of HON turning South but, before the aircraft could be identified, separation was lost against the original airliner which was heading North at 4000ft.☐ CAA Closure: Following this incident, student pilot had extra navigation training, including diversion and lost procedure revision, and has since completed his PPL.

201214610	01/12/2012	EGTT : London (FIR)	Syerston		G	ATZ	CESSNA	Reciprocating	1	Infringement of Syerston ATZ (Class G) by a C172 at 1000ft (believed).	C172 observed flying directly overhead the glider operation launch point and believed to have been at approx 1000ft. A/c reported by Waddington LARS at 800ft south west of the airfield and climbing.
201214652	04/12/2012	EGTT : London (FIR)	Birmingham	10.4 SW	D	CTA	CESSNA	Reciprocating	1	Infringement of the Birmingham CTA-5 (Class D) by a C172 at 3000ft squawking 7000. Blind calls made with no response. Standard separation maintained.	Pilot subsequently called ATC informing the controller that he believed he had infringed CAS.
201214656	02/12/2012	EGTT : London (FIR)	BNN		A	TMA	CESSNA	Reciprocating	1	Infringement of the LTMA (Class A) by a C172 at 3000ft. Coordination effected with Farnborough LARS and a/c instructed to descend immediately, which was complied with.	
201214664	02/12/2012	EGTT : London (FIR)	Stansted		D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C172 at 2300ft tracking towards the R/W22 climb out. Check all imposed. Two departures held and another a/c broken off the approach. Separation lost with departing B737.	Appropriate action is being taken as a result of this incident.
201214664	02/12/2012	EGTT : London (FIR)	Stansted		D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a C172 at 2300ft tracking towards the R/W22 climb out. Check all imposed. Two departures held and another a/c broken off the approach. Separation lost with departing B737.	Appropriate action is being taken as a result of this incident.

201214706	05/12/2012	EGTT : London (FIR)	Southampton	14.5 SW	D	CTA	PIPER	Reciprocating	1	Infringement of the Solent CTA (Class D) by a PA28 at 2300ft squawking 7000. Standard separation maintained.	Pilot acknowledged entering CAS.
201214792	08/12/2012	EGTT : London (FIR)	EGNX (EMA): NOTTINGHAM EAST MIDLANDS		D	CTR	ROBINSON	Reciprocating	1	Infringement of the Nottingham East Midlands CTR (Class D) by an unknown a/c later identified as an R44. Traffic info given. Standard separation maintained.	R44 was identified 2nm North of R/W27 final approach track when pilot eventually called radar on frequency 134.175. Reporter states pilot did not contact Nottingham East Midlands ATC on landing as requested.
201214972	12/12/2012	EGTT : London (FIR)	EGSL : Andrewsfield	1.5 W	D	CTR	CESSNA	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a C152 squawking 7000 at 2000ft. A/c identified using Mode S. Standard separation maintained.	The investigation has revealed that the a/c climbed above the Andrewsfield LFA to 2000ft (LFA to 1500ft) before the CTR boundary. No further follow up is considered necessary on this occasion.
201214973	12/12/2012	EGTT : London (FIR)	North Weald	2nm NW	D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28 squawking 7000 at 1100ft. CAIT activated. Standard separation maintained.	This was a minor infringement as the a/c turned onto a base-leg for landing at North Weald.
201215087	13/12/2012	EGTT : London (FIR)	Matching		D	CTR	PIPER	Reciprocating	1	Infringement of the Stansted CTR (Class D) by a PA28 indicating a Mode C of 1300ft resulting in a loss of separation against an inbound B737.	Traffic info and avoiding action given. Pilot error acknowledged. Appropriate operator action taken.

201215087	13/12/2012	EGTT : London (FIR)	Matching		D	CTR	BOEING	Turbofan	2	Infringement of the Stansted CTR (Class D) by a PA28 indicating a Mode C of 1300ft resulting in a loss of separation against an inbound B737.	Traffic info and avoiding action given. Pilot error acknowledged. Appropriate operator action taken.
201215110	15/12/2012	EGTT : London (FIR)	London CTR	S	A	CTR	CESSNA	Reciprocating	1	Infringement of the London CTR (Class A) by a C150 squawking 7000. Several blind calls were made without success. Standard separation maintained.	At the time no Mode C data was displayed and a/c was not Mode S equipped. A/c identity was confirmed by Fair Oaks who were in contact with the a/c. It has subsequently been revealed that the pilot had mistaken the disused airfields of Ockham and Brooklands. Meanwhile, there may have been problems with transponder readability and this is to be checked.
201215126	15/12/2012	EGTT : London (FIR)	Stansted		D	CTA	EUROCOPTER	Turboshaft	1	Infringement of Stansted CTA (Class D) by a EC130 at 1800ft. ATC attempted to contact the a/c to no avail. Standard separation maintained.	See also 201202921.
201215207	17/12/2012	EGTT : London (FIR)	EGBB (BHX): Birmingham	13nm South	D	CTR	PIPER	Reciprocating	1	Infringement of the Birmingham CTR (Class D) by a PA28 at 2000ft. Standard separation maintained.	A/c was piloted by a student undertaking a solo qualifying cross country exercise. Student had been asked to report Winchcombe, but his GPS indicates that he misidentified Tewkesbury. After failed attempt to contact Coventry the student contacted D&D and after being informed of the infringement he was given a vector to exit controlled airspace and remained on frequency until arriving at his destination. Student has been de-briefed by the instructor and CFI and will undergo further navigation test before another solo route is undertaken.
201215231	11/12/2012	EGTT : London (FIR)	Falmouth Bay	Danger Area EGD036	G	Danger area	CIRRUS	Reciprocating	1	Infringement of Danger Area EG D036 (Falmouth Bay) by a SR22 at 3500ft squawking 1177.	A/c was working London Information and had entered from the North without clearance to cross. London Information subsequently called and a clearance was given. No hazardous activity taking place at the time.

201215269	19/12/2012	EGTT : London (FIR)	Stansted	12 SE	D	CTA	CESSNA	Reciprocating	1	Infringement of the Stansted CTA (Class D) by a C152 squawking 7000 at 3000ft. Standard separation maintained. A/c identified with Mode S.	It has subsequently been revealed that the a/c, with an instructor on board, was caught out by an Easterly wind and strayed into CTR. Pilot apologised.
201215379	21/12/2012	EGTT : London (FIR)	EGGW (LTN): London/Luton	12nm NE	D	CTR	VANS	Reciprocating	1	An RV9 and RV8 infringed the Luton CTR (Class D). A B737 that was being vectored for R/W26 was given traffic info and avoiding action on these a/c. Separation minima was maintained.	Both Vans were in formation and in communication with Farnborough LARS. The LARS controller issued an initial N turn which was not acknowledged. The re-issued instruction was and the a/c left the zone.
201215379	21/12/2012	EGTT : London (FIR)	EGGW (LTN): London/Luton	12nm NE	D	CTR	VANS	Reciprocating	1	An RV9 and RV8 infringed the Luton CTR (Class D). A B737 that was being vectored for R/W26 was given traffic info and avoiding action on these a/c. Separation minima was maintained.	Both Vans were in formation and in communication with Farnborough LARS. The LARS controller issued an initial N turn which was not acknowledged. The re-issued instruction was and the a/c left the zone.
201215379	21/12/2012	EGTT : London (FIR)	EGGW (LTN): London/Luton	12nm NE	D	CTR	BOEING	Turbofan	2	An RV9 and RV8 infringed the Luton CTR (Class D). A B737 that was being vectored for R/W26 was given traffic info and avoiding action on these a/c. Separation minima was maintained.	Both Vans were in formation and in communication with Farnborough LARS. The LARS controller issued an initial N turn which was not acknowledged. The re-issued instruction was and the a/c left the zone.
201215508	27/12/2012	EGTT : London (FIR)	Stansted TMZ 2		G	Restricted area	PIPER	Reciprocating	1	PA28 infringed the Stansted TMZ 2 (Class G). A/c squawking but no displaying Mode C. A/c believed to be talking to Elstree.	

201215515	27/12/2012	EGTT : London (FIR)	Oxford Kidlington		G	ATZ	DIAMOND	Reciprocating	1	Infringement of the Oxford ATZ (Class G) by Super Dimona HK36 at 1800ft squawking 7000. Standard separation maintained.	Investigation under 201209618.
201215549	29/12/2012	EGTT : London (FIR)	Stansted TMZ2		G	Restrict ed area	WESTLAND	Turboshaft	1	Infringement of the Stansted TMZ2 (Class G) by a SA341 squawking 7000, No Mode C or Mode S. Standard separation maintained.	A Stansted CPT departure was instructed to climb and the traffic (unknown at the time) turned away. Following a call from TC Luton to LF LARS North, it was established that the a/c was in communication with them but it had not requested a service from Farnborough, did not request a TMZ entry approval and left the Farnborough frequency in the vicinity of Harlow.
201215549	29/12/2012	EGTT : London (FIR)	Stansted TMZ2		G	Restrict ed area	BAE	Turbofan	4	Infringement of the Stansted TMZ2 (Class G) by a SA341 squawking 7000, No Mode C or Mode S. Standard separation maintained.	A Stansted CPT departure was instructed to climb and the traffic (unknown at the time) turned away. Following a call from TC Luton to LF LARS North, it was established that the a/c was in communication with them but it had not requested a service from Farnborough, did not request a TMZ entry approval and left the Farnborough frequency in the vicinity of Harlow.
201216045	30/07/2012	EGTT : London (FIR)	EGLF (FAB): Farnborough civil		D	CTR	PIPER	Reciprocating	1	Infringement of the Farnborough CTR (Class D) by a PA28 squawking 1551. Traffic info and avoiding action given.	A/c in receipt of a Basic Service had been cleared to transit R112 by Atlas Control. Pilot was informed that he was inside CAS and a Northerly heading to route clear was suggested and complied with.
201216045	30/07/2012	EGTT : London (FIR)	EGLF (FAB): Farnborough civil		D	CTR				Infringement of the Farnborough CTR (Class D) by a PA28 squawking 1551. Traffic info and avoiding action given.	A/c in receipt of a Basic Service had been cleared to transit R112 by Atlas Control. Pilot was informed that he was inside CAS and a Northerly heading to route clear was suggested and complied with.

201216047	07/09/2012	EGTT : London (FIR)	London CTR		A	CTR	PIPER	Reciprocating	1	Infringement of the London CTR (Class A) by an unknown contact resulted in loss of separation with a Falcon 2000 Northolt departure. Unknown contact identified as a PA28.	The unknown contact penetrated CAS between Harrow and Stanmore, tracked North and exited CAS towards Elstree. A departing Falcon 2000 became airborne tracking away from the unknown contact but standard separation eroded, with minimum horizontal separation 3.2nm. Northolt ATCO contacted Elstree radio and were informed Elstree had a PA28 who was en-route to Sandown but had allegedly suffered a Directional Indicator (DI) failure and was returning to Elstree. Reporter stated that avoiding action was not issued as Falcon 2000 did not call Northolt until they were level at 3000ft with more than 5nm separation.
201216047	07/09/2012	EGTT : London (FIR)	London CTR		A	CTR	DASSAULT	Turbofan	2	Infringement of the London CTR (Class A) by an unknown contact resulted in loss of separation with a Falcon 2000 Northolt departure. Unknown contact identified as a PA28.	The unknown contact penetrated CAS between Harrow and Stanmore, tracked North and exited CAS towards Elstree. A departing Falcon 2000 became airborne tracking away from the unknown contact but standard separation eroded, with minimum horizontal separation 3.2nm. Northolt ATCO contacted Elstree radio and were informed Elstree had a PA28 who was en-route to Sandown but had allegedly suffered a Directional Indicator (DI) failure and was returning to Elstree. Reporter stated that avoiding action was not issued as Falcon 2000 did not call Northolt until they were level at 3000ft with more than 5nm separation.
201216047	07/09/2012	EGTT : London (FIR)	London CTR		A	CTR	RAYTHEON	Turbofan	2	Infringement of the London CTR (Class A) by an unknown contact resulted in loss of separation with a Falcon 2000 Northolt departure. Unknown contact identified as a PA28.	The unknown contact penetrated CAS between Harrow and Stanmore, tracked North and exited CAS towards Elstree. A departing Falcon 2000 became airborne tracking away from the unknown contact but standard separation eroded, with minimum horizontal separation 3.2nm. Northolt ATCO contacted Elstree radio and were informed Elstree had a PA28 who was en-route to Sandown but had allegedly suffered a Directional Indicator (DI) failure and was returning to Elstree. Reporter stated that avoiding action was not issued as Falcon 2000 did not call Northolt until they were level at 3000ft with more than 5nm separation.
201300011	02/01/2013	EGTT : London (FIR)	O/H QE2 Bridge		A	TMA	CESSNA	Reciprocating	1	A C172 infringed the LTMA (Class A). The a/c could not be contacted by Thames Radar or by the aerodrome where it took off from. This delayed the approach of a BN2T to Biggin Hill. Traffic info was given and separation minima was maintained.	The C172 pilot reported setting his altimeter to QNH 1014hPa instead of the appropriate 1024hPa.
201300011	02/01/2013	EGTT : London (FIR)	O/H QE2 Bridge		A	TMA	BRITTEN NORMAN	Turboprop	2	A C172 infringed the LTMA (Class A). The a/c could not be contacted by Thames Radar or by the aerodrome where it took off from. This delayed the approach of a BN2T to Biggin Hill. Traffic info was given and separation minima was maintained.	The C172 pilot reported setting his altimeter to QNH 1014hPa instead of the appropriate 1024hPa.

201300045	04/01/2013	EGTT : London (FIR)	BUR		A	CTR	AVIONS ROBIN	Reciprocating	1	Infringement of the London CTR (Class A) by a DR400 squawking 7000. Heathrow departures suspended. Pilot reported losing spatial orientation whilst undertaking LH 180deg turn in IMC causing an uncontrolled descending spiral.	CAA Closure: Pilot completed 5 hours navigation training before next solo flight.
201300058	04/01/2013	EGTT : London (FIR)	Southampton	6 NW	D	CTR	ROCKWELL	Reciprocating	1	Infringement of the Southampton CTR (Class D) by a Rockwell 112 at 700ft. Blind calls made with no response. Standard separation maintained.	Pilot later stated he had erroneously become distracted by weather that was closing in and went slightly off course. Pilot stated extra final weather checks will be carried out in the future.
