FOIA reference: F0001928

Dear XXXX

I am writing in respect of your recent request of 14 May 2014, for the release of information held by the Civil Aviation Authority (CAA).

Your request:

"The total number of bird strikes reported at Belfast City airport in 2012/13 and 2013/14 also if possible details on the type of bird or birds please?"

Our response:

In assessing your request in line with the provisions of the Freedom of Information Act 2000 (FOIA), we are pleased to be able to provide the information below.

The CAA runs and administers an on-line birdstrike reporting scheme which is intended to record birdstrikes in UK airspace, regardless of whether damage was caused to the aircraft. A birdstrike means any incident in flight in which there was reason to believe that the aircraft has been in collision with one or more birds.

An extract from the on-line birdstrike database for all confirmed bird strikes reported for Belfast City airport between 2012 and 2014 inclusive can be found attached, showing the number of bird strikes and the bird species if available.

This data includes all reports of confirmed birdstrikes from all sources and thus may contain duplicate reports of the same incident from different sources. It should be noted that data recorded from the on-line reporting system is a direct entry from the reporter under the terms of the Article 227 of the Air Navigation Order (ANO) 2009. We have removed identifying information from these reports as this information is exempt from disclosure under Section 44 (1) (a) of the FOIA.

Section 44 (1) (a) of the FOIA provides that information is exempt information if its disclosure is prohibited by, or under, any enactment. Under Section 23 of the Civil Aviation Act 1982, information which relates to a particular person (which includes a company or organisation) and has been supplied to the CAA pursuant to an ANO is prohibited from disclosure (a copy of this exemption can be found below).

Civil Aviation Authority

The CAA's view is that the volume of bird strikes reported at a particular airport does not necessarily imply greater hazard. Due to the limitations of unverified reports, users should exercise extreme caution in forming definitive conclusions or opinions based on these numbers alone.

We would recommend that the birdstrike data is normalised by using UK Airport Statistics such as the Air Transport Movements at an airport, as published on the CAA website at the following link:

http://www.caa.co.uk/default.aspx?catid=80&pagetype=88&pageid=3&sglid=3"

If you are not satisfied with how we have dealt with your request in the first instance you should approach the CAA in writing at:-

 - (a) is prohibited by or under any enactment,
 - (b) is incompatible with any Community obligation, or
 - (c) would constitute or be punishable as a contempt of court.
- (2) The duty to confirm or deny does not arise if the confirmation or denial that would have to be given to comply with section 1(1)(a) would (apart from this Act) fall within any of paragraphs (a) to (c) of subsection (1).
