Post RNAV1 - Amendment

# 08CLN Departures 1<sup>st</sup> May – 31<sup>st</sup> May 2017

## 19 Aircraft – Showing CONVENTIONAL Departures Only

**Track density**

Each track is drawn as a line which has a width of just a few pixels and each pixel on the screen counts how often a 'track line' comes across this pixel when drawing all the tracks.

When all the tracks have been drawn, each pixel decides upon its colour based on the number of times a 'track line' has come across that pixel. The conversion from "count" to "colour" is guided by the numbers and colours given in the current Palette.

Counts in between are mapped to colours in between. If 100 were orange and 200 where red, then 150 would be coloured some orangy red.
