

Stansted Airport

Currently undertaking this activity

Partially undertaking this activity

Not currently undertaking/not applicable to airport

Information provision/data type	Fulfils CAA/Air Navigation Guidance 2017	Additional comments	Link to webpages that contain this information
Runway utilisation and operations		The airport routinely collects and publishes data on runway usage.	https://www.stanstedairport.com/community/noise/noise-overview/
Standard Instrument Departure (SID) utilisation		The airport routinely collects and publishes data on SID usage and performance using maps.	https://www.stanstedairport.com/community/noise/noise-overview/
Arrivals data		The airport routinely collects and publishes data on arrivals using maps.	https://www.stanstedairport.com/community/noise/noise-overview/
Continuous Descent Approach (CDA) & Continuous Climb Operations (CCO)		The airport routinely collects and publishes data on CDA and CCO performance. Further information on CDA & CCO is published in the latest NAP.	https://www.stanstedairport.com/community/noise/noise-overview/ https://www.stanstedairport.com/community/noise/noise-action-plan/ https://www.stanstedairport.com/community/noise/our-noise-performance/ https://www.stanstedairport.com/community/noise/who-does-what/
Flight tracking & tools		The airport uses WebTrak, a community-facing platform for reviewing airport flights and noise. Stakeholders can investigate and review real-time and historical airport noise, flights and weather.	https://www.stanstedairport.com/community/noise/investigating-aircraft-noise/

Aircraft Traffic Movements		Statistics on Air Transport Movements dating back to 2013 are published on the airport's website.	https://www.stanstedairport.com/about-us/london-stansted-airport-and-mag/our-performance/
Night quota count		The specific regulations and restrictions around night flights is published online. Further details are published in the airport's Noise Action Plan.	https://www.stanstedairport.com/community/noise/noise-overview/ https://www.stanstedairport.com/community/noise/noise-action-plan/
Slot allocation, transfers & sales		Information on slot allocation at Stansted airport is available online.	https://www.acl-uk.org/
Air Traffic Control Practices		Departure and arrival ATC practices and procedures explained in layperson terms are published online.	https://www.stanstedairport.com/community/noise/noise-overview/
Weather-related conditions		The airport explains how weather, particularly wind direction, affects their operations.	https://www.stanstedairport.com/community/noise/noise-overview/
Aircraft types used by airlines		According to the latest Noise Action Plan, over 90 different aircraft types serve the airport. Noise footprints have been produced for popular aircraft such as B737.	https://www.stanstedairport.com/community/noise/noise-action-plan/
Airline operators		An airline directory is available online.	https://www.stanstedairport.com/flight-information/flight-operators/
Airline route networks/destinations (including changes)		The airport has a dedicated webpage to the destinations that it serves.	https://www.stanstedairport.com/destinations-and-guides/a-z-list-of-destinations/
Airline Standard Operational Procedures		Full details of CDA and CCO procedures are published within the airport's draft Noise Action Plan 2019-2023. Noise Abatement Departure Procedures (NADP) for specific airlines are not published.	https://www.stanstedairport.com/community/noise/noise-action-plan/
Historic comparisons of route networks flown		Departure and arrival maps dating back to 2005 are available online.	https://www.stanstedairport.com/community/noise/noise-in-your-area/arrivals-and-departure-maps/
League tables of airline operational performance			

Data on operations outside of normal operating hours		The airport routinely collects and publishes data on annual day and night operation trends.	https://www.stanstedairport.com/community/noise/noise-overview/
Airport Consultative Committee (ACC)		The airport's ACC meets quarterly and provides a regular forum to discuss airport operations, issues and future development. Membership includes representation from aviation and non-aviation stakeholders. ACC agenda and minutes are available online.	http://www.stacc.info
Airport noise forums/boards		The Noise & Track Keeping Working Group considers all aspects related to the measurement, monitoring and management of aircraft noise, including the use of aircraft operational procedures and techniques. Membership includes those from the aviation industry and local communities. This is supplemented by a sub group on the airport's consultative committee, Environmental Issues Group.	https://www.stanstedairport.com/community/noise/noise-action-plan/
Community noise reports		Data on aircraft noise and airport operations is supplemented by the airport's Community Noise Monitoring Program. The independent noise reports are made publicly available. Bi-annual arrivals and departure maps are produced to complement the published annual noise contour reports.	https://www.stanstedairport.com/community/
Community relations events		Regular Community Outreach sessions are held in the airport's surrounding area to discuss aircraft noise and airport expansion.	https://www.stanstedairport.com/community/
Noise Action Plan (NAP)		The airport's NAP is used as a strategy for managing aircraft noise to reduce impacts on communities living around the airport. The draft NAP 2019-2023 will be submitted to DEFRA for formal adoption in 2019.	https://www.stanstedairport.com/community/noise/noise-action-plan/
Noise & Track keeping performance (NTK)		The airport routinely collects and publishes data on departure noise levels and noise infringements. If an aircraft has broken DfT regulations the airport will investigate further with the airline concerned. Aircraft noise is recorded by fixed and portable noise monitors.	https://www.stanstedairport.com/community/noise/investigating-aircraft-noise/ https://www.stanstedairport.com/community/noise/our-noise-performance/ https://www.stanstedairport.com/community/noise/noise-in-your-area/noise-monitoring-reports/
Noise Contour Mapping		Annual noise contour reports are published online. Details on noise contour mapping can be found in the airport's Noise Action Plan and within a dedicated factsheet.	https://www.stanstedairport.com/community/noise/noise-action-plan/ https://live-webadmin-media.s3.amazonaws.com/media/3286/noise-monitoring-fact-sheet.pdf

<p>Noise complaints data, reports and handling</p>		<p>Stakeholders can submit a noise complaint via an online form, by email or by post. The airport aims to respond to all enquiries within 10 working days. Annual noise complaint reports are published online.</p>	<p>https://www.stanstedairport.com/community/noise/investigating-aircraft-noise/</p> <p>https://www.stanstedairport.com/community/noise/noise-action-plan/</p> <p>https://www.stanstedairport.com/community/noise/our-noise-performance/</p>
<p>Information on permanent and temporary Airspace Change including trials</p>		<p>Details of the CAA's new Airspace Change Process (CAP1616) are given in the airport's Noise Action Report. Information relating to airspace changes is published online.</p>	<p>https://www.stanstedairport.com/community/noise/noise-action-plan/</p> <p>https://www.stanstedairport.com/community/local-environmental-impacts/performance-based-navigation/</p>
