

# UK CAA Guidance Material: Alcohol/Substance Misuse Assessment Process

- NOTES**
- 1) If diagnosis, use or misuse is uncertain (e.g. first drink driving conviction, clinical review by AME) fitness may be maintained after discussion with the Authority Medical Section (AMS). A 3<sup>rd</sup> party notification or allegation should be investigated - discussion with the individual/informer/AME/GP may help to verify. The applicant should be reviewed by specialist if reasonable suspicion or allegation has reasonable substance.
  - 2) Class 1 and 3 Applicants/holders must attend CAA Clinic for assessment and testing within 2 months (Local Addictions specialist within 2 months for Class 2 /LAPL and clinical testing which is UKAS accredited, ISO/IEC 17025, and chain of custody collection ) Failure to attend when specified and/or provision of adequate sample(s) for testing, will normally be managed as if it were a positive test and the applicant will be made unfit  
 Testing for alcohol includes blood for: Full Blood count to include MCV, Liver Function Tests including GGT, % axis Carbohydrate Deficient Transferrin (CDT) and PEth  
 Testing for drugs includes cannabis, amphetamines, metamphetamines, cocaine, opiates and benzodiazepines for substance misuse. Other tests may be indicated.
  - 3) Depending on the individual case and at the discretion of the AMS (Class 1,3) or AME in consultation with the AMS (Class 2/LAPL), the applicant may be assessed as fit subject to ongoing periodic assessment and testing +/- multicrew restriction.
  - 4) A fit assessment may be considered after a period of two years documented sobriety or freedom from alcohol or substance misuse (Minimum 18/12 for Class 1 OML). 3-monthly blood and/or hair testing is mandatory to demonstrate abstinence.
  - 5) Periodic review and testing shall be required to demonstrate absence of use/misuse. All cases of diagnosis of misuse disorders shall require long term follow-up at least annually. Applicants with non-diagnostic risk criteria will be followed on a case by case basis. Once returned to flying consideration of removal of any restriction may be made after at least 1 year of satisfactory follow up and compliance. If relapse occurs, a further period of grounding will be required, pending further assessment/treatment. More than one episode of relapse is disqualifying.
