Proposed amendments - GM2 ADR.OPS.B.030	7 - 8	<p>Page No: 7 and 8</p> <p>Paragraph No: GM2 ADR.OPS.B.030 Surface movement guidance and control system – General Description, sub-paragraph (d)</p> <p>Comment: The ARIWS are not considered to be an ICAO SARP. Therefore the systems are not mandatory and are only required when all other runway incursion interventions have failed.</p> <p>Justification: Clarity.</p> <p>Proposed Text: The General Description, sub-paragraph (d) should be amended to include the Agency's words used in paragraph 2.3 on page 5 of the NPA, as follows:</p> <p>"Concerning the ARIWS, the installation of the system is not a requirement. The decision whether to install such a system depends on local conditions and it may be implemented when cost is justified and other measures to mitigate the risk of runway incursions have been ineffective."</p>
