2	21.A.91 Classification of changes in type-certificate	13	<p><b>Paragraph No:</b> 4 - 21.A.91 Classification of changes in type-certificate</p> <p><b>Comment:</b> The UK CAA believes the word 'characteristics' was unintentionally deleted from this paragraph and that it should be reinstated.</p> <p><b>Justification:</b> To correct editorial error.</p> <p><b>Proposed Text:</b> Amend to read as follows:</p> <p>"Changes in type-certificate are classified as minor and major. A 'minor change' is one that has no appreciable effect on the mass, balance, structural strength, reliability, operational characteristics, other characteristics affecting the airworthiness of the product, or environmental <b>characteristics</b>. Without prejudice ..."</p>
