Dear XXXX

I am writing in respect of your recent request of 14 April 2015 for the release of information held by the Civil Aviation Authority (CAA).

Your request:

Please provide all information recorded by the CAA regarding Birdstrikes reported to the CAA during the month of 'October' in the year '2014'.

Our response:

Having considered your request in line with the provisions of the Freedom of Information Act 2000 (FOIA), we are able to provide the information below.

Incident reports are provided to the CAA under the terms of the Mandatory Occurrence Reporting (MOR) scheme, in accordance with Article 226 of the Air Navigation Order 2009 (ANO). If an aircraft suffers a birdstrike which results in damage to the aircraft or loss or malfunction of any essential service, this would be an occurrence which should be reported under the MOR scheme.

The CAA also administers an on-line birdstrike reporting scheme which is intended to record birdstrikes in UK airspace regardless of whether damage was caused to the aircraft, in accordance with Article 227 of the ANO. A birdstrike means any incident in flight in which there was reason to believe that the aircraft has been in collision with one or more birds.

A summary of those birdstrikes reported to the CAA in October 2014, in accordance with both Article 226 and Article 227 of the ANO, is provided in the attachment.

In order to preserve the open reporting culture, which is a vital component of the UK's excellent safety record, information which will identify an organisation and is provided to the CAA under either the MOR scheme or the birdstrike reporting scheme is exempt from disclosure under Section 44(1)(a) of the FOIA.

Section 44(1)(a) provides that information is exempt from disclosure if its disclosure is prohibited by, or under, any enactment. Under Section 23 of the Civil Aviation Act 1982, information which relates to a particular person (which includes a company or organisation)

Telephone 01293 768512 foi.requests@caa.co.uk

and has been supplied to the CAA pursuant to an Air Navigation Order is prohibited from disclosure. A copy of this exemption can be found below.

The CAA's view is that the volume of bird strikes reported at a particular airport does not necessarily imply greater hazard, and the term "Location" in the information provided includes occurrences that extend beyond the airport perimeter. Due to the limitations of unverified reports, users should exercise caution in forming definitive conclusions or opinions based on this information alone.

We would recommend that the birdstrike data is normalised by using UK Airport Statistics such as the Air Transport Movements at an airport, as published on the CAA website at <http://www.caa.co.uk/default.aspx?catid=80&pagetype=88&pageid=3&sglid=3>.

For more information about the MOR scheme, please refer to CAP382 which can be found at: www.caa.co.uk/cap382. More information about the birdstrike reporting scheme can be found at www.caa.co.uk/birdstrikes.

If you are not satisfied with how we have dealt with your request in the first instance you should approach the CAA in writing at:-
