Dear [Name],

I am writing in respect of your request of 25 May 2018, for the release of information held by the Civil Aviation Authority (CAA).

Your request:

How many prosecutions have you made against drone users for flying in restricted airspace. Have you used internet media to use as evidence. I'm seeing drone pictures of London and the shard and it's getting more common

Our response:

Having considered your request in line with the provisions of the Freedom of Information Act 2000 (FOIA), we are able to provide the information below.

The CAA successfully prosecuted one individual for flying drones in restricted airspace in 2014. Details of this case can be found on our website in the information on 2014-15 prosecutions at http://www.caa.co.uk/Our-work/About-us/Enforcement-and-prosecutions/. In this case internet media was not used.

The CAA agreed with the Police, in a Memorandum of Understanding signed in 2016, that the Police will take the lead in dealing with drone misuse incidents, particularly at public events, that may contravene aviation safety legislation or other relevant criminal legislation. Any concerns about the use of drones, either from a safety or privacy perspective, should be reported to the local police on 101. Therefore, police forces may have information on further prosecutions.
